THE Daily Bulletin

Pledged to neither Sect nor Party, But established for the benefit of all.

SATURDAY, JUNE 22, 1889.

Gen. S. C. Armstrong has an article in the New York Independent, urging wisdom in the choice of a Minister to Hawaii. The General assumes that Hawaiian affairs are "on the verge of a great crisis," and American residents "once more facing the possibility of a great disaster." Perhaps the President of Hampton Institute is tired of keeping school and would not object to come here himself, as "a man of force, experience and uprightness sufficient to make him virtually master of the situation," which is the description he gives of the man who should be sent.

Apocryphal of the sentiments of Hon. H. A. P. Carter regarding the want of thoughtfulness in the affairs of life, the following anecdote from an old English novel may be given: "Three countrymen were pursuing a Wiltshire thief through Brentford. The simplest of them, seeing 'Wiltshire house' written under its sign, advised his companions to enter it, for there most probably they would find their countryman. The second who was wiser laughed at this simplicity, but the third who was wiser still answered, 'Let us go in, however, for he may think we should not suspect him of going amongst his own countrymen.' They accordingly went in and searched the house, and by that means missed overtaking the thief, who was at that time but a little way before them and who, as they all knew, but had never once reflected, could not read."

DOMESTIC PRODUCTS.

The Hilo Record's editorial of June 4th is too lengthy for reprinting in full, but it contains some important suggestions. It says that "before the year 1876 we raised and produced most all that was needed for our consumption, of Irish potatoes, corn, beans, onions, hay and feed, butter, lard, and cheese, but now what is raised or produced here is but a drop to that which we import." The Record goes on to tell of schooner loads of potatoes and onions sent to California from Molokai and Maui in 1850-58, thousands of pounds of potatoes shipped from Kawaihae semi-annually, and

the large fleet of whaling vessels supplied with vegetables at Lahaina and Kawaihae. The occupation of large tracts of former potato land by cattle ranches at the present is deplored by the Hilo writer, also the fact that onions, cabbage, and butter are imported in large quantities when the best of each can be produced at home. The Record concludes:

It is time we were looking after these things and stopping these small leaks, which collectively make a large sum; we can ill afford to send out of our country one dollar that we can just as well keep in it. In order to do this, small farmers must be induced to settle here; and the only way that can be done, is by opening to them lands in small holdings, which can be bought by them. Again, Government roads must be made to connect with the various places of shipment of produce. A government road from the slopes of Maunakea to Puoko, a distance of perhaps 10 or 15 miles, would open the most extensive tract of upland, suitable for the production of all the things mentioned, there is to be found in the islands. Water could easily, for all household purposes, be taken there in pipes from the Waimea mountains; and a population of several thousand could find a home there. But this matter will never be attended to unless our public-spirited men take hold of it. Attention ought to be called to it from time to time, and it would perhaps help on this thing to have a homestead company formed who would take the matter in hand and would push it on. The railroad of Wilder, if it had been completed as designed, would have been easily connected with a line running along the base of the highlands of Maunakea, and have brought in to market thousands of acres of the finest land for semitropical productions that can be found in the world. It would be a good thing for the Government to take up the Parker lease of Kaoho, the large land that takes up so large a part of Maunakea, and cut it up into small homesteads.

ASTRONOMICAL STUDIES.

By Galileo II.

How'ty tow'ty, here's a row! A mutiny in the prison, marry but it is! Not among the convicts, however, but the physicist has risen up against the chief keeper and reviled him with burning words. Particulars of cause and the exact nature of the altercation have not transpired, but it is known that the combat was for blood. The keeper will allow no independence of any other officer within the prison walls, while the physicist is not going to sink the dignity of the faculty by allowing any dictation as to his methods of treatment. At last accounts the Government was asked by each to "choose between him and me," as there is not jail room for both.

Mr. John E. Bush has reciprocated my friendly attentions. He has also in a slight degree endeavored to follow my advice by keeping his garments intact. But he goes back sadly upon the dead in whose behalf he waxed wrathful in his first letter. To attract sympathy he only says "no thanks" to Mr. Gibson for his appointment to Samoa, but mildly "cusses" that statesman's memory for neglecting him at the court of Malietoa. Galileo is not afraid of the Hawaiians acting upon the precedent of 1887, at least under the lead of Mr. Bush. If, however, history repeats itself in reproducing the antecedents of that precedent, Galileo hopes to see the Hawaiians that are opposed to Mr. Bush helping out the sequel. That will be a colder day for Mr. Bush and all who strike hands with him than that on which Mr. Gibson's letter of recall reached the Minister Plenipotentiary lamenting exhausted stores at the Embassy.

The "Politico-Peripatetic School," late of Samoa—formerly of Nevada, met the other night at the rink, a large number of members being absent. Owing to the numerous membership the meeting was called for three places, at intervals of half a mile. As a miss is as good as a mile those who missed meetings at the two arsenals must have found the gathering at the rink worth going two miles to see. The returned "Plenipo" conducted the meeting, the graduate of Italy's Royal School of Engineering manipulated the throttle valve, and a Blackstone apprentice acted as stoker. It was a revolutionary assemblage through and through, as it overthrew the mildly radical programme under which it convened, railroaded a new constitution through in a manner creating a violent "precedent"—one of those things the "Plenipo" delights in—and adopted the Reform Party's platform with an improvement that

would make "monarchical institutions as they exist" a considerable shade more democratic than the "precedent" of 1887 left them.

A STEAMER DISAPPOINTMENT.

EDITOR BULLETIN:—Allow me space to mention an instance of discourtesy and neglect with which Wilder's Steamship Co. has treated the public. The advertised time for the sailing of the Kinau from Honolulu was Friday, 21st of June. Without the slightest notice being given to the Maui and Hawaii public, the steamer left Honolulu on Thursday, the 20th inst., passed through her regular route, and left behind her all passengers, mail and freight from Maui to Hawaii, the result of which is that people intending to go to Hawaii from here have to wait about two weeks before another chance offers. Anybody will realize the inconvenience and trouble which will be caused by no mail being forwarded for so long a space of time, and the people on Hawaii, who get their taro, etc., from Maui, will have to starve for two weeks. Why could the steamship company not take the trouble to give notice of the change in their time table. I am informed that the dispatch of the steamer one day earlier than advertised is due to the request of the patriotic, government-supporting Hawaii planters, who want their sugar sent off before July 1st to shirk paying the taxes due on it.

MAUI.

OUR SAVINGS BANK.

EDITOR BULLETIN:—The Government Savings Bank having outgrown its legal dress, it is the duty of its friends to supply it a more suitable and a more lasting one, and until it is supplied the bank's influence for good cannot much increase. Already it has passed the point of being profitable to the Government, and if it is not endowed with more liberal powers, it must cease to exist or become an elephant on its hands instead of a blessing as intended and expected by its friends.

We believe if the bank was wisely endowed it would prove a greater blessing to both the Government and the people than the most hopeful of its friends ever dreamed. It would exceed their calculations to a greater extent than it has yet done. It has now some strength, but not being able to use it, its strength becomes a source of weakness to the Government. Certain it is, our next parliament must give it a better standing if its existence is to be prolonged.

It appears the bank's originators did not think that any one could or should be benefited by it except the Government and small depositors, thus ignoring all other citizens. This Act seems rather to work against the natural law of right. A measure that is only intended to benefit a few, while all are held responsible for any shortcomings of the bank, at the same time all but the few are absolutely prohibited from participating in any of its advantages, is certainly unjust—"a class law."

It has been suggested that the Government loan the surplus to the "local banks." We think the local banks should have the right of borrowing if they produced the lawful security (but suppose they don't want to borrow?) and every citizen should have the right of unlimited depositing in the bank. This being the people's bank it seems every way just for all to be allowed to use it should they so desire. Why not? These powers granted would make the bank profitable, creditable and useful to both Government and people. It would be the "people's bank" of savings, the industrial money fountain, and a constitutional government duty performed.

It is no doubt a proper thing to do at this time, for anyone that can muster any original or practical thought upon this important subject to make it known. Then it will be doubtful if our law makers will know just what to do about the bank.

STABBING AFFRAY.

Result of a Row in Fowler's Yard.

Early this morning a row took place in Fowler's yard which resulted in two men being stabbed. One of them, Pedro Martinez, is at the hospital with a wound in the right breast and several small cuts in other parts. Another, Jerome, received a wound in the abdomen. Lui, a Mexican, is under arrest charged with assault with a deadly weapon on the two above mentioned men. Another participant in the affair is still at large.

It is difficult to get at the facts of the affair. The four men with some Chilean sailors were in a room at Fowler's yard, singing, playing guitars and drinking wine from 9:30 to 11 o'clock last evening. At the last named hour Lui, who lives in another part of the yard, went to his house followed by Jerome who began talking to Lui's wife and tried to entice her out of the house. Lui walked down to his gate with Jerome when the latter pulled Lui outside and getting him down Martinez came along and stamped on him. Then knives were pulled out and a general melee ensued. The police came on the spot shortly afterwards. Lui received several cuts on his hands and his coat looks as if it had been cut by a knife. Deputy Marshal Hopkins is still investigating the affair.

RATHER HARD LINES.

In the Police Court a Chinaman named Ah Hee was charged with being on the premises of a native soldier on Alakea street this morning without permission. The Chinaman appeared in Court with a terribly disfigured face. One eye was completely closed, while the other was black and blue, and his face and shirt were covered with blood. The soldier went home and found the Chinaman at his house, "hankering after his wife," as he said in Court. He gave the Pake a good thrashing and then had him locked up. The Court sentenced the defendant to two months' imprisonment at hard labor.

The remaining stock will only be issued in the event of new lines being required and on the approval of the stockholders. The contractors will turn the road over to the company by the end of this month, and by the first of July Bishop & Co. will be prepared to offer 1,000 shares of the stock in blocks of five shares and upwards. The par value of the shares is placed at \$5 or \$25 per share, and due notice of time of sale will be made. FOURTH OF JULY.

Meeting of American Citizens—A Programme for the Day Decided Upon.

Yesterday evening a meeting of American residents called by His Ex. G. W. Merrill, U. S. Minister Resident, was held in the parlors of the Hawaiian Hotel, the attendance being over fifty. Mr. Merrill called the meeting to order, stated its object was to arrange for a proper celebration on the fourth of July, and said the first thing was the appointment of a chairman.

On motion Hon. W. F. Allen was elected chairman and Mr. F. E. Nicholls secretary.

Mr. Putnam moved a committee of five be appointed to retire and draft a programme for the day's celebration.

The motion carried and the following were selected: P. C. Jones, chairman, C. H. Eldredge, J. W. Winter, W. T. Brigham and Robt. Lewers. On motion of Mr. Whiting, E. F. Bishop was added to the committee, which then retired.

During the absence of the committee Mr. Putnam, U. S. Consul General, said that on the next steamer from Samoa would arrive Admiral Kimberly on his way home from the scene of that great wreck. He had been in Honolulu a year or more and had endeared himself to many of its residents. A committee should be appointed for the purpose of presenting the Admiral with the feelings and sympathy of this community in regard to the terrible disaster of which he was an eyewitness.

Mr. Hartwell said there would be but one opinion on the question. Appropriate action should be taken by this meeting, which was one of American residents; it was a good time to bring the matter up.

Mr. Putnam thought a committee of twelve could draw up such a document as should be presented to the Admiral. The same committee could also see to flowers being sent on board the steamer.

Mr. Whiting suggested that this committee confer with any committee appointed during the evening. They would have some funds at their disposal to extend any courtesies during the Admiral's stay in port. They might subscribe with that intention.

Mr. Scott suggested the committee meet the Admiral and arrange that he be at the U. S. Legation at a certain time, so that his friends could call in person to see him.

Mr. Merrill said the Legation was always open to all American citizens and others. He certainly expected to see the Admiral as he would meet him and take him to the Legation. If he arrived in the morning the Legation could be kept open all day; if in the night it could be kept open all night. Any resolutions suggested. He was somewhat limited for room; however, he would accommodate himself to the demands of the committee.

Mr. Lewis on behalf of the Hotel management extended the use of the parlors or any other rooms.

Mr. Hartwell asked for an exchange of opinions as to whether it would be best to have a collation or not.

The prevailing opinion seemed not to be in favor of a collation.

At this point the committee returned and Mr. Jones reported they recommended the following programme for the fourth:

Literary exercises at 11 a. m.
Boating and yacht races during the morning.

Salute at noon, 1 gun for each State.

Baseball match in the afternoon. Ball in the evening.

Major Hebbard thought they ought to burn a little more powder and make plenty of noise. Salutes should be fired also morning and evening.

Mr. Whiting moved as an amendment that it be left open to the committee as to the number of salutes. Carried.

Mr. Congdon moved a balloon ascension be added. Lost.

The following committee was then nominated: F. M. Hatch, A. S. Hartwell, J. H. Paty, E. F. Bishop, J. W. Winter, H. F. Hebbard, W. C. Wilder, M. N. Sanders, E. Lewers, F. L. Winter, M. E. Scott, J. C. Wilder, H. A. Parmelee, D. K. Dayton, W. W. Hall, J. J. Egan, W. L. Hopper, F. Turrill, J. H. Soper, B. Ordensstein and T. F. Lansing. This committee was accepted by the meeting.

The President and Secretary were added ex-officio, and the committee was given power to add to its number or fill any vacancies.

The matter of a reception to Admiral Kimberly was next considered.

Mr. Putnam moved that a committee of twelve American citizens be appointed to receive Admiral Kimberly in such a manner as they decide upon.

Mr. P. C. Jones entirely agreed that something should be done. The Admiral had met with great losses and needed their sympathy. He had many friends here, and such a reception would have good effect with the powers that be at Washington.

Mr. Putnam's motion was put and carried, the appointment of the committee being left with the chairman. The meeting then adjourned but not before over \$500 was subscribed towards the celebration.

GOVERNMENT IMPROVEMENTS.

(From the Hilo Record.)

That the Interior Department are pushing on the different works called for by the Legislature is a matter of interest to the public. At Kapoho, Puna, a good boat landing has been made by blasting out a channel leading from deep water into a small salt water lake. That channel has four feet of water in it at low tide. This is the only boat landing from Keau to Pohoiki, a distance of more than twenty miles, and will prove a help to the Puna people. We hear that some work is being done at the Kahaulu landing, but at the best it will be a poor landing and one at which vessels will be afraid to touch for freight.

The landing at Kapoho ought to be furnished with a good wharf, and that would accommodate the Puna public with all the landings they need. But as there was no special appropriation for that, Puna will have to wait till the next Legislature meets. The extension to the boat wharf in Hilo is progressing finely and will be a great improvement on the old one, as then two boats can lie alongside and unload at one time.

From Puna we learn that a great improvement has been made in the road between Makuu and Honolulu, a place that much needed it.

We feel sure that these public works thus vigorously prosecuted, will tell in the next election. And we hope that the next session of the Legislature will find it for the best to greatly increase the appropriations for public roads all through the kingdom. There is nothing that conduces more to the good of a country than having good roads. No country can prosper unless it has good and easy facilities for the transportation of its products to market. Give good roads and an increase of production will surely follow. So keep the ball rolling until good carriage or cart roads surround every island.
