ARCHEISHOP OFFICIATED.

AN FRANCISCO, Jan. 8.—Miss
Abigail Campbell, that was, is now Princess Kawananakoa. She and Prince David were married last Monday, January 6, at high noon, in the parlors of the Occidental Hotel.
With Samuel Parker and his wife, the Prince and his bride, are now enroute to Washington. Accompanying them are Miss Anita Chrystal, Miss Alice Campbell and George A. Davis, Miss Chrystal is the dearest girl friend of Prince David's wife, and they were inseparable during Miss Abbie Campbell's visit here, until the hour when she took the scion of Hawail's royal house for better or worse. Miss Campbell was a lovely bride, in a Paris gown of creamy lace over chiffon, costing a thousand dollars or more, and with an immense picture hat of white lace and snowy ostrich plumes, she looked the very incarnation of the beauty of the islands.

Intermingling of American and Hawailan flags, set off by a large bunch of long-stemmed American Benuty roses. Directly above was a handsome bark of pink and white roses and intertwined with violets suggested the good-lack wishes to the bride and groom.

Archbishop R'ordan, Miss Abbie Camp-bell, the Hawalian beiress, will be married by the ritual of the Roman Catholic church on Monday at high noon to Prince David Kawananakoa of Hawa'l, The marriage follows close upon the union of the bride's mother, Mrs. James Campbell, to Samuel Parker, the distin-tel, and will pay their respects to Queen guished islander, who was wedded on Friday evening. Tuesday morning at 9 Ebbitt House. Friday evening. Tuesday morning at 9 o'clock the brides and grooms will leave San Francisco over the canta Fe route, for Washington, accompanied by Judge C. n= D. Gear of the Circuit Court of Honolulu; Geo. A. Davis, a well known Hawarian attorney; a son of Samuel Parker, and John McCrosson, Parker's business partner in a gigantic frigation enterprise at Walmea, Hawaii.

The romance which has embraced the marriages of these famous Hawaiians is heightened by the fact that Prince David and his fiances are of differing religious faiths. Mess Campbell is a Roman Catholic, Her family are Protestants, but Miss Campbell imbraced Catholicism during her years at a convent in San Jose, where she was educated.

Wilcox alarmingly ill of ulcer in stomach. Doctor has little hope.

ERNEST G. WALKER. 8:31 A. M.

William her last week Delegate Wilcox has been seriously ill. and at times there has been some fear as to the outcome of his malady. For three or four days after he returned from New York, as told in the last letter, he was very much under the weather with a stomach trouble, which developed alarmingly for the last three days Dr. Stewart B. Muncaster was called in to attend the case, and at the present writing the delegate has three doctors. His illness is akin to dyspep-sia, and he has vomited large quantities of blood. His physicians, who are now meeting in consultation over him daily, believe that recovery is assured. but say that he will not be able to be about for at least two or three weeks. He has a trained nurse, and is given

the best care.
Mrs. Robert W. Wilcox, the wife of the delegate, received both a letter and a telegram from Washington, in the IS CONSIDERED mail of Saturday. She said that in the letter dated January 6th, Mr. Wilcon said that he was ill from stomach trouble. His secretary also said that the delegate had been stricken on New Year's day and had been vemiting blood and was in a low state. To relieve her alarm, however, the following was received in the mail:

Washington, D. C., Jan. 10, 1902. Mrs. Robert W. Wilcox, Honolulu, H. T.: Have been seriously ill. Am now recovering. Have best doctors and

Mrs. Wilcox sald that she took the telegram as meaning that there was absolutely no danger, but that even in this condition she was considering the question of leaving for the coast in the very next steamer so that she could learn just what was her husband's condition, and to hurry on to Washington to be at his bedside.

The Advertiser's telegram, heading this article, is dated one day later than that received by Mrs. Wilcox.

PRUSSIAN FINANCES IN A BAD FIX

BERLIN, Jan. 3.-The speech from the throne, read by the Imperial Chancellor, Count von Buelow, at the opening of the Prussian Diet today, took a gloomy view of the economic situation. It pointed out that the revenue from the State railroads in 1901 fell considerably short of the estimates, and that the whole results of the financial year were disappointing.

In the budget for 1902 the revenue is estimated below that of the current year, but the balance between the revenue and expenditure is to be main-tained without having recourse to a loan.

The speech announced plans for legislation providing for the housing of State workmen and of officials earning small salaries. Considerable credits are demanded for the extension of the State railroads and the promotion and construction of light railroads.

A new canal bill, to complete the system of waterways, will be submitted. The concluding portion of Emperor William's speech pointed to the necessity of adopting measures against the agitation in the Polish districts East Prussia, declared that the upholding of the political and economic post-tion of the German element there was necessary for the self-preservation of Prussia and promised that the government would fulfill its duty in cultivating the German national spirit in that region and in combatting with firmness all tendencies hostile to the state. In this course the government counted on the support of the German population of East Prussia, as well as on the assistance of the whole nation, which regarded any attempt to drive out the German language as an attack on its

It is regarded here as very fortunate that all the different Hawalian bills in the Senate have been referred to Senator Foraker's committee, including the several land bills, one of them drawn by Delegate Wilcox. Last year the land bills for the Territory went to the Committee on Public Lands of which Senator Hansbrough of North Dakota is chairman. In some ways he caused the friends of Hawaii considerable alarm, because of a very vigorous and hitherto unexplained activity against the islands. It was with some difficulty that a measure, prepared for him and islands with the purpose outwardly of looking into the public land question was defented.

Thus far Senator Foraker has shown reasonable consideration for the inter-ests of the territory, willing to hear all sides of questions and to give the different interests chances to be heard-Copies of the public land bills, the bills for the redemption of Hawaiian silver

THE CANAL

It Opens All Along Congressional Line.

WASHINGTON, Jan. 7.—The Nicaragua canal was discussed today by Mr. Hepburn, chairman of Interstate and Foreign Commerce Committee, which reported the bill. For two hours he held the floor, replying to a volley of questions concerning the recent offer of the Panama Canal Company to sell its property and franchises to the United States for \$40,000,000. The interest in the debate centered almost entirely in this new phase of the subject.

Hepburn maintained that the alleged new offer of the Panama company was

Hepburn maintained that the alleged new offer of the Panama company was part of the plan of delay. All his ut-terances along that line were liberally applauded. He pointed out what he claimed was the suspicious circum-stance that the Panama company held out for \$109,000,000 until it was decided before the heliday recess to consider

HANNA FOR DARIEN.

WASHINGTON, Jan. 7 .- The opposition to the Nicaragua canal, which has been so quiescent as to delude many people into believing that it did not exist, made liself apparent today with a vengeance. It is plain from the talk of such Senators as Hanna, Scott and Platt of Connecticut that the Senate will hold up the Hepburn bill and give

will hold up the Hepburn bill and give the Panama people all the opportunity they want to bring in propositions. Some Senators are outspoken in saying that there will be no Nicaragua canal legislation at this session. Other are coming out in favor of Panama. Canal matters are rapidly reaching a point where Nicaragua must carry all opposition before it or be defeated.

While Hepburn was making his speech in the House today, Senator Hanna, surrounded by a number of Senators and newspapermen, taked at length in the Senate chamber, the Senate having adjourned. His remarks were evidently intended to reach the public, and may therefore be taken as an indication of the policy to be pursued by some anti-Nicaraguan Senators. Hanna talked for an hour, drew diagrams, and revealed astonishing fadiagrams, and revealed astonishing fa-miliarity with canal matters. Incidentused severe language against Senator Morgan, declaring him to be so bound up in Nicaragua as to be unfit to be chairman of the Canal Committee. He also scored the Canal Commis-sion and declared that its estimates were guesswork. His own inclinations, said, were toward the little known

he said, were toward the little known Darlen route.

Hanna said: "Mr. Morgan says he would not consider an offer by the Panama people to give their work to this country for nothing. Now I say that is the best of evidence that Morgan is not competent to be chairman of that committee. This canal scheme is a business proposition. It ought to be looked at in a business way. I am in favor of considering all plans and all offers.

"I have been looking into this canal

"I have been looking into this canal proposition pretty carefully. I spent my time when I had the grip reading the report of the Walker Commission.

I have talked with Admiral Walker I have talked with Admiral Walker and Engineer-Ernest, and they tell me that the Nicaragua scheme is largely guess work. These estimates are hardly more than guesses. In that great morass up at Greytown they do not know what they will find. And then there is the tremendous cost of maintenance, which, according to the Com-mission's report, will amount to the interest on \$40,000,000. All these things should be carefully considered.
"I should like to see the Darien route

"I should like to see the Darien route looked into and a report made on it after a more" thorough investigation. But it isn't safe even to mention any such thing now. It would not be safe fer any of you newspaper men to go and print a story about the Darien route. They would say the railroads had got you, or that the Panama lobby had got you, or that Hanna had been fixed by the railroad interests. So I wouldn't say a word.

"However, I do believe the question of a route ought to be left to the Presi-

of a route ought to be left to the Presi-dent, acting with the advice of a commission of competent engineers. I be-lieve all routes and all propositions should be considered. The question should be determined for the best interests of the whole country. I suspect Brother Morgan likes the Nicaraguan route best because it is 450 miles short-er from New York via Mobile, but in commerce from New York to the ports commerce from New York to the ports of South America the Panama canal is shorter, and that commerce must have its consideration. I do not intend to act precipitately, and there are a good many other Senators who feel the same way. The question of route must be determined after full consideration, and it will be much better to leave its determination to the President."

Senator Scott of West Virginia listened to Hanna's talk and gave his cordial and frequent assent. Senator Platt of Connecticut said he was willing to follow the lead of Hanna. Senator Spooner listened and seemed to approve, but refrained from committing imself. Senator Teller of Colorado heard much of the argument and seemed impressed.

SECOND DAY'S DEBATE.
WASHINGTON, Jan. 8.—The second day of the debate in the House of the Nicaragua canal bill was opened by Mr. Shackleford of Missourt, a member of the committee which reported the bill. He spoke earnestly in advocacy of its passage. He believed that the Eads Tehuantepec route was preferable to any which had been proposed, but he did not think the present a time for cavil. He did not like the Panama route, but if the new proposition of the Panama Company

offered advantages over the Nicaragua ing care, says a dispatch to the Tribune route, he thought the President should from London. A heavy brake was used have alternative authority to accept it.

"If you favor this bill," interposed Mr. Bartholdt of Missourt, why is it that you approaching function, with cream pontes. and your democratic colleagues from postillions, our iders, walking men and Missouri at the last session voted against the yeomen of the Guard in line.

WASHINGTON, Jan. 8 .- Mr. Morris of

Minnesota, who yesterday offered the amendment to leave the selection of the route to the President, said it was his purpose to ensure the selection of the best route. Heretofore he believed the

The commer-cial conquest of the Asiatic possessions the United States is beginning, and albion will be the pioneer ship flyby the Stars and Stripes to reach for be island trade. The business of trans-ertation between ports of the Philippines has heretofore been largely in the hands of the British. A few German boats and Chinese junks helped to divide the trade. The possibilities of inter-ist-and traffic have attracted the attention of local shipping men, and within a year or two American steamers will probably monopolize the business.

A combination has been formed, with Captain Jarnesberg and Mark Davis as the leading spirits, for the purpose of capturing a share of the Philippine local rade. The firm has the advantage of overnment contracts and the Albion will be used at first in carrying perishable food supplies from the big transports in Manila bay to the other island ports. ISSUE BONDS is said to be a decided belief that there will be speedy action taken to secure the incorporation of this plan into any general scheme which is to be undertaken at this time. There will be numerous other lighter batteries stationed along the entire waterfront of the city, but these may have to wait for a better season, as projects for the insular possessions are to be quite extensive.

Talking of fortifications for the defense of Honolulu, it has just developed here that there was at one time a most determined effort made on the part of the navy to secure control of the scheme of defense for the Islands. It is learned here that at one time there was under serious consideration the making of susgestions that there was under serious consideration the making of susgestions that there be committed into the hands of the sailors the plans for defensive operations around Honolulu and Hilo, to the head of the Navy. This would have meant the stationing at Pearl Harbor and Honolulu of monitors and battleships, which would constitute the defensive force of the city and statios. This was not carried through, owing to the fact that it early developed that the problem was one for the War office, and the sending of a board was sufficient to indicate that the work would be carried on by the regular branch of the service to which is committed such matters usually.

HAD WRONG BACKING.

We have had several Hawailians here during the past month, and they have been treated to some eccentricities on the part of the office-seeking and legislation-securing lobbyists. The men who have sought and failed to obtain, have had the hardest kind of fights and it was due to some of the manwood that their road was very rocky. One of the unsuccessful ones was young Mr. Thompson, the attorney, who has many friends here, and was most of the fact of the proposition was unanimous of the purpose of carrying out the proposition was unanimous of the purpose of carrying out the proposition was unanimous careled improvements. One of the unsuccessful ones was young Mr. Thompson, the attorney, who has many friends here, and was most genially received, for he is known as a good fellow all the time. But he could not be judge. He could not tell why it not be judge. He could not tell why it was that he seemed to be unable to get any further than a mere calling acquaintance with Attorney General Knox and President Rooseveit. I do not believe he even thought for a moment that

he would be able to sit on the edge of the Attorney General's table and call

to slap the President on the back and say "Toddy," the a Rough Elder, but coming with such cudorsements from Judge Humphreys, he at least expected that he would not be called upon to face the by stars, and would be permitted to get within the inner guard.

But he found it was otherwise, and he never could find out why, even until he departed from the city. He complained to some of Humphreys' friends here, especially the judge's attorney, that he thought he was not given the slad hand, as he had expected as the original Humphreys man, and was inclined to ask phreys man, and was inclined to ask what about the vindication that was her-alded,

would see that Thompson did not get the place, simply because he had the endorsement of Humphreys, and that any man who had that endorsement would receive the same treatment, at his hands, and at the hands of the Prestdent. This may seem pretty hard upon the candidate, but it seems to be the state of feeling which is obtaining with

proper defensive arrangements, which are needed there. This report, as aiready noted in the Advertiser, was asked for by him from Col. Heuer, as soon as that officer returned to San Francisco, and he has now at work upon it several of his assistants, with a view of obtaining various opinions upon some portions of the report.

All that may be expected at the present time is an appropriation for the inauguration of the work, and it will be pleasing to the army engineers if the Committees on Fortifications permit to

ing of high power pieces of lighter caliber than will be needed in those
works, for emergency use along the

But of course this must be taken only as a to ask Governor Dole to come on for matter of inauguration of the work, for it is understood that General Gillespie will approve the entire plan as recommended by the Board of Officers.

Just what has been recommended will not be known until the report has been sent to the President, but some points have been gathered. The plan years' work but which will not make it for Pearl Harbor embraces the construction of a very complete fortification upon the eastern shore of the enough as a transfer of the enough as the mean struction of a very complete fortification of the solut largely now and its doing begun with

S. T. Alexander is Bark to be Tested to Consider the Question.

A conference was held yesterday morning between S. T. Alexander, projector of the boulevard proposed along the Makiki foothills to Mount Tantalus, and Messrs. Desky and Pratt, representing the Pacific Heights Railroad. The conference was productive of no promises on the part of Mr. Alexander that his original plan to give a boule-vard to the city of Fionolulu would be set uside, or that he would aid in the construction of an extension of the present Pacific Heights Electric Rallway from its present terminus to Mount Tantalus and Sugar Loaf. Mr. Alexander stated that for the present he would study both prepagations. He he would study both propositions. He stated that he had had a talk with As-sistant Superintender t of Public Works Campbell with reference to making new surveys for the boulevard, and that upon the result of these depended largely his decision as to whether the road would be constructed. It has been given out that Mr. Al-

exander is in sympathy with the proposition to extend the Pacific Heights Railread to Tantalus and Sugar Loaf, seeing the possibilities of making the magnificent mountain an attraction from a scenic standpoint, which would from a scenic standpoint, which would make it well worth the expenditure of a large sum of money. But having proposed to give a boulevard he will make an exhaustive study before turning his attention to a new project. In the development of the electric railroad around Sugar Loaf he also saw for the future the building of a large number of pretty villas upon the number of pretty villas upon the wooded slopes of Tantalus, and land now occupied only by heavy forests, would soon be dotted with the homes of those who would court a residence far above the torrid plains of the city. Messrs, Desky and Pratt have had blue prints prepared of the proposed extension from their present term nus on the summit of the Heights, and calculate on building a line which would be from five to six miles in length. This great length is made necessary by the number of curves necessary to carry the line around Panca Valley, and conforming to the natural convolutions of the ride and mount. The length of the entire line, including the present built road, which is now in operation up Pacific Bielshis, would be us follows: Pacific Heights line, 25

ley, where there is an opportunity to cross of a 34, 31-3 and 342 per cent grade. The road starting from the terminus would fellow along the Ewa side of Pauca Valley, and by taking the 3% per cent grade would cross at an elevation of about 1.450 feet at Pauca flat. Crossing Pauca flat, the line would go to the Waitshi ende of Pauca Valley, or on the Ewa side of Mount Valley, or on the Ewa sale of Abount Tantalus, skirting the hill at an ele-vation of about 1,600 feet, continue on to the Waikiki side of the mountain to a point Waikiki of the Schmidt place, or just back of Andrew Brown's

to-date electric rallway system.

On Saturday last during a session of the trustees of the Bishop Estate the question of the proposed electric rallway extension was brought up, and the board expressed itself in sympathy with the project. The estate owns valuable land on Tantalus, and although no definite sanction was given, yet it is understood that the estate yet it is understood that the estate will give the railway right of way through its property and will ald it otherwise.

NO FACTIONAL **FEELING EXISTS**

The impression prevails that there is a factional feeling among the Rainy City republicans over the selection of a successor to Mr. Gibbs on the Territoriat Committee. There is, however, nothing in the correspondence handled by Secretary Avery indicating such a thing. Everything in the way of correspondence or over the selection of the successor has been impersonal. The distances by miles between the various members of the committee have been so great that they have not been able to have a conference on the matters brought to their attention as individual members of the committee, resulting in nominations by each, which did no happen to hitch. It is probable that the next mail from Hawaii will tell of a successful conference and the nom-ination of a successor to Mr. Gibb, who will be satisfactory to all concerned.

The survey of the route for the new driving boulevard will probably be made next week. Over sixty signatures for amounts varying from \$25 th \$1,000 have been secured, and the response to the canvassers has been liberal every-where. The route as now planted will run from the southwest comer of Thomas Square, across Kewah, near the end of Waimanu street. This is the only change made in the pute as already published.

already published. The meeting of the Lusitana Society will be held this evening for the elec-tion of officers. There are two factions, and a lively time is anticipated.

The lantana is a native of Mexics, where it is cultivated for hedges and gardens. It was introduced into Hawaii by Dr. Hidebrand a good many years ago as an ornamental hedge, but it rapidly outgrew the purposes for which it was originally brought here, and now covers thousands of acres, being looked upon as a weed, which is destructive of all other vegetation in its vicinity. AN FRANCISCO, Jan. 8.-George A. Davis is going to Washington to raise a stir. Three things take him there. Of course, I mean the causes for his going, for as a matter of fact he is traveling in a Pullman palace car, as the guest of Sam Parker with the merry bridal party, consisting of Parker and his wife, Prince David and wife, Miss Aniia Chrystal and Miss Alice Campbell. The married couples being on their honeymoon trip, it will devolve on George Davis to look after the little wants of the young la-

The reasons for Davis' invading the National Capital are in order of importance to him as follows: Firstly, he is hot after the job of United States District Attorney; secondly, he is after the scalp of Associate Justice Perry, of the Supreme Court of Hawail; thirdly, he is going to plead against the Territory of Hawall, before the Supreme bench of the United States, in the mutter of the constitutionality of certain decisions in Honolulu courts, involving the liberty of a Japanese, or some Ja-

He understands that Breckons' nam has been sent to the Senate for confirmation by President Roosevelt, but he thinks that if he and Sam Parket can get the President in a quiet place alone, they may be able to persuade him to call back the name of Breckons, and to write that of Davis. Only on day before Sam Parker was married he telegraphed personally to Roosevelt, asking him to reconsider Breck ons' nomination, and to appoint instead George A. Davis, "the man entitled to

Davis, with seven years of residence in Hawaii, considers himself a kamaaina of kamaainas, and talks about the "old days," as good Sereno Bishop might in a confidential moment.

Sam Parker is deeply interested in obtaining Davis the position, and Washington may expect some handsome entertaining, if hospitality will ald Davis' cause.

W ITH each mail from the Const now there comes news which is makbut Eastern cities have an interest in the securities of the Islands, and the result is that there is a growing demand for the better stocks. Of course there will be, for a long time, some feeling that when the prices here are so low there is not the values claimed behind the various shares, but this is only a passing feeling and the revival which is certain to come here will reassure the Mainland folk, and there promises to be a most successful year.

The greatest feature of the market zeems to be Olsa, which stock has been constantly on the advance since the mill was set to grading. This plantation has been improving along the lines marked out to such an extent that the confidence felt in it has given the investors a greater desire for the shares. Thus there is no one brokerage house an order for \$10,000 worth of the stock, but it cannot be filled. There is so little stock in the market that the would-be purchasers are debarred from achieving their ends. One man began to buy as soon as the stock was seen to be advancing, and he secured semething in the neighborhood of 200 schares, but he was after scores where he got dozens, and is still buying, although the last sales of the week are at \$5 for the assessable, and \$13 for the paid-up. This plantation has been shown so far to be doing better than it was expected, and as the estimates were of the conservative kind, there has been a better feeling brought mates were of the conservative kind, there has been a better feeling brought

The second feeling of strength was felt when the holders of Walalua The second feeling of strength was felt when the holders of Walalua found it impossible to sell as low as last week, and demanded and got as high as 66%, but with success, the holders began to look higher, and the asked price was left at 58, when the last call was made yesterday afternoon. There is not a great deal of this stock on the market, and the holders are very slow to realize in it, as their los sis too great. An estimate made by one of the brokerage firms puts the average price of this stock at par, and the holders are not willing to make as great sacrifices until it is absolutely

Although the price of Ewa declined during the week to 22¼, and there were some sales at that figure, the price went on up as the week's end neared, and the result was that one order was filled yesterday afternoon at 23½. The holders of the stock are of the opinion that the prices will be a little better later. The reason for the apparent weakness of this favorite share seems to be that it is the ordy one of the group which offers a chance to realize under pressure without loss. While the price has been much higher there has been such a squeezing of the holders of various stocks that they have been forced to make good wherever they can, and the result is that they are selling the stock which is best able to save them from loss. Hawaiian Sugar, which is strong at 2½, is one of the outside stocks which is viewed in the same light. Ewa has been the most consistent dividend earner, and with Waimanalle, has occupied the unique place of a stock which has not been forced out of the line as regular producers of a payment. Hawaiian Sugar is in very good shape, and the feeling in San France of a shown in the regard paid to Makawell, is growing better. The price there has advanced to 2%, which is only one dollar be ow the ruling rate here. The annual meeting of this company will develop with an issue of bonds for the purpose of bettermonts, and the plantation will be placed where it will Although the price of Ewa declined during the week to 2214, and there

the purpose of betterments, and the plantation will be placed where it will be one of the most progressive on the Islands. It is proposed to give to the manager. Mr. Baldwin, every opportunity to improve, and while the amount of the bonds cannot be exactly set forth now, there will be sufficient to permit of the placing of needed ditches for the irrigation of the new areas to be brought under cultivation, and the mill will also be enlarged so as to

be brought under cultivation, and the mill will also be enlarged so as to take care of the cane which will be produced upon this virgin soil.

Among the other sugar stocks on the market, Oahu cannot be said to be strong at 98, Kahuku can be bought for 24, while Waimanalo is right where it was, at 160. The sales of sugar shares for the week were: Thirty Kibel, \$19; thirty Walalua, \$56; thirty-five Onomea, \$23; ten Honomu, \$130; fifty Olaa, assessable, \$5; twenty-five Olau, paid, \$13.

Claa, assessable, 53; twenty-five Claa, paid, 513.

Locally there has developed more interest in Rapid Transit. The shares were changing hands right freely at 99, not all the shares being reported as sold. The buyers are insiders, the old residents who have the reputation of seeing a good thing, and they have been able to get a part of what has been ordered for their accounts. The fact that there will be no delay in completing the circuit of the city by running the line out to Walkiki, has had a good effect, and the shares will continue to be in demand in excess of the offerings. There were fifty sold at 90, according to the exchange reports.

REAL ESTATE AND BUILDING. The most important thing in the city real estate market has been the closing of the deal by which the construction of the building at Hotel and Alakea streets will be completed. The leases of the ground have been taken over by J. J. Eagan and Dr. Philip Frear, and they have now succeeded in

financing the project. The last step was taken during the week, when the Bishop Estate was induced to accede to a request for an alleyway to the rear of the building, from Alakea street, which makes accessible the court at the back of the building, which will be 38 feet in depth.

The building will be two stories in height, of pressed brick, ught-color, and will be outfitted for two storerooms below and offices above. The frontis 68 feet, and the rooms will be each 90 feet in depth. This will make

ideal rooms for retail stores.

There is an added request for residence sites, the demand being for small lots. The publication in the Adveriser of the fact that the Rapid Transit would at once complete its line to Waikiki has increased the number of persons looking for something like a small lot in the closer suburbs. The Pawaa district has been of the first to benefit by this action, and there is a prospect

that there will be some good transactions very soon.

As showing what has been done in closer real estate, there was a sale in the King street tract, above Pilkoi street, a rear lot, which went for \$1.400. There are other inquiries which indicate a good feeling all along the line. There is little doing in city business property, but the outlook is very

The First National Bank Men Act.

(From Saturday's daily.)

Y a unanimous vote at a special meeting yesterday afternoon the directors of the First National bank of Hawali decided that the action of the President, Cecil Brown, in uling out the votes of the majority of the stockholders at the meeting of last

eek, was an error. When this point was reached there was nothing further to be done but to al another meeting of the stockholdre and the cashier was ordered to give notice and set the date of the new meeting for March 8th., 1902, at 2 p. m. After doing this much there was nothleft for the board to do and the djournment was taken. The call need be issued for two weeks yet, and ere is to be plenty of time given for faction here which is opposed to the ognition of the mainland stockholders to make a hard fight for securing the control of the stock. The decision the board meets with general approval on the street where opinion had

rown that this must be the outcome. The date set is a very convenient one r those who would have the advanage of the very latest mails from the

ast, and from the East as well, There is given full opportunity for schange of letters twice over, which ill mean that when the next meeting hall take place there will be ful greement on the part of the local tockholders and the mainland intersts as to the new officers of the bank wing to the fact that it has been the xpressed wish of the proxy of the San rancisco people that there should be to selections made until there had been full conferences and entire agreement. The directors of the bank are believed o be entirely in accord with the Angio-Californian bank, which is the parent institution, and through connections affairs, and it is the general belief that except perhaps as to the management

of the institution. Some fear was felt yesterday that the ection of the board in calling the meeting for a date so far in advance was due to a desire to secure all possible stock for the minority representatives. the mainland men are now looking up retition should not be granted. the law on this point, and it is the be lief that as the decision of the board makes it apparent that there was no legal meeting held on the date for the annual sathering and election, there-fore there should be no change in the status quo ante, which would mean that the mainland shares would be voted and hold the majority of the repesentation. Should there be any apparent determination on the part of the present officers of the bank to make any transfer of stock, the intention is to have an injunction issued to preent such transfers, and thus preserve he conditions which existed books of register were closed, the day

SORE HANDS

Red, Rough Hands, Itching **Burning Palms and Painful** Finger Ends

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

Exclusively, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of failing hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chadings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to useany other, especially for preserving and purifying the skin, scalp, and hair of infants and children. Curicura Soar combines delicate emollient properties derived from Curicura, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for purposes of the toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in One Soar at One Prince, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

EXECUTIVE COUNCIL

A new election precinct at Olaz, or Hawaii, was greated by the Escoutive Council at yesterday morning's meeting. The matter came up on the protest of F. B. McStocker, Republican committeeman at Olaa, through Secre-tary Avery of the Central Committee, and voicing the objections of the residents of Olaa district, who claim they were compelled to go forty miles to Hilo if they wished to vote. Governor Dole decided to grant the request of voters in that district, and in the future they will be allowed to vote in their own neighborhood. Many of the prived of their right of franchise under

SIDENT ROOSEVELTS VIEWS.

ish to preach, not the doctrine of the case, but the doctrine of the cous life; the life of toil and effort, er and strife; to preach that high-rm of success which comes, not to an who desires mere easy peace, the man who desires mere easy peace, the man who does not shirk from hip, or from bitter toil, and who, if these, wins the splendid, ultimate y.—Speech at the Hamilton Club, go, April, 1899.

ort Jervis, N. Y., paper says that getting railroad ties near that Abe Morehouse was bitten in the a rattlesnake. A doctor was at sent for. When he arrived the ges were taken off, and as soon e leg was bared a swarm of mos-es lighted on it. In a few minutes round was covered with dead and mosquitoes. They had sucked olson of the wound and saved ouse's life.

MEN TO VOTE IN NORWAY.

w will soon go into effect in Norriving women the voting power in cipal elections. Heretofore, since the women have had the right to on matters affecting the local regn of the liquor trade.

sident Angell, of Michigan Univerinnounces that an instructor in foris soon to be appointed. Not only roblem of how to preserve forests RESTRY COURSE AT ANN AR-A FORESTRY COURSE AT ANN ARis to be considered, but the further and
more valuable information, in certain
sections of how to create new forests, is
to be taught. It is expected that the
chair of forestry will attract the sons of
farmers in particular, since the profession is one more easily comprehended
in its primary instruction by them than
by boys from the city, and because high
rewards await the graduate fully trained
and competent in theory as in practice. ax List Fourth and competent in theory as in practice.

Vision.

Irrigation is being urged as India's means of salvation. Rallways may cure famine by bringing relief to the needy, but a well organized system of irrigation is the only certain preventive.

The food value of sugar is a subject

7 54 on which the doctors disagree. The
2 92 fact that children who eat sugar are
3 47 pale and have bad teeth leads Dr. Von
80 90 Bunge to condemn this food, and to
8 20 conclude that its lack of iron and lime
makes it less desirable than other
foods. Professor Lepine, on the other 100ds. Professor Lepine, on the other hand, finds that there is very little iron and lime in any of our food. He shows that the French, using about a third as much sugar per head as the English, have no better health than the English and Americans, and cancel as the finding that the state of the state o 12 10 nave no better health than the English, lish and Americans, and concludes that the increased need of dentists is the only harm that can come from using much sugar.
