The Daily Bulletin.

FRIDAY, NOV. 30, 1894

With fresh reading matter on every page, don't neglect the outside of this paper. Read the BULLETIN through if you want the news.

THE DAILY BULLETIN with compliments to its many readers presents them to-day with a paper enlarged from four to six pages. While so large a paper may not be warranted after the holiday season, there is daily growing evidence that a larger size than the old one will have to be maintained thereafter.

TRAMWAYS FARES.

When the tramways started, the BULLETIN called attention to the collection of double the legal fare on King street, with the result that the practice was summarily stopped. Now the Advertiser calls attention to what many people have regarded as a similar illegal double rate on the route from Punahou to Nuuanu. The company introduced this double charge for one journey by a change of system. At first the Beretania and the Nuuanu and Fort street routes were run separately, and no transfer tickets were given. When the Beretania cars began running by way of Queen through Nuuanu street, the drivers exacted a second five-cent fare when the corner of Fort and Queen streets had been passed. The intent of the legislators in framing the law applied to be that it should be feasible to make a journey from any point between Punahou and the Reformatory school and Judd street and the city front for a fare of five cents. One of the arguments for granting the franchise in the Legislature was the giving of cheap transit to children attending school. Many families were under the necessity of keeping carriages to enable their children to attend the school of their choice. Ten cents each way for sending, say, three children to school is rather expensive, and would pay for the keep of a horse. However, the intent of the framers, if as stated in the foregoing, was but poorly expressed in the law. It would require a judicial decision at large expense to test the question, so that our contemporary is rather rash in suggesting that a tramp may make a fortune in prosecuting the company for the \$100 penalty for each overcharge. The whole system was badly planned at the outset, and should never have been ratified by the Minister of the Interior. The construction company that built the line, under contract with the Hawaiian Tramways Company, Limited, was allowed to get the mileage laid down in the franchise almost any way it pleased. As a result parallel lines were laid within a block of each other, a large extent of which has either never been used or has been closed to traffic. Besides, great distances have to be traveled from the nearest cars to populous districts. With the same mileage a system might have been devised that would have not only brought the cars near to a vastly larger population, but that could be easier and hence more cheaply managed than the present system. There could have been a system planned by which cars from different termini should pass through the same streets in the business quarter, so that there would be a ten or even a five minute service in that quarter, to the hurried business man's great convenience. Such a system, it is safe to say, would be more profitable to the stockholders by far than the present checker board scheme of many fare schedules.

ORGANIZED BURGLARS.

Larsen's Good Work in Uncatching and Arresting Them.

Detective Larsen and posse are doing good work. They have located a gang of thieves who, by the evidence so far given out, appear to be a very dangerous lot of people. It is said that there are twenty members in the organization and they have quite an outfit for ransacking residences. Eight men, all natives, have already been arrested and their names entered in the Station Clerk's book with "held for investigation" placed against them. On the person of Pukela, searched at the Station this morning, a bunch of skeleton keys was found. William Huihul, another brought in, had a sketch of keys with measures all marked down in black and white. The work was very carefully laid down as evidenced by the drawing on the paper. Some of the men have formerly "done time" on the reef. The detectives expect to have the whole

gang arrested in about a week. Two of the men are contract laborers and are away on island steamers.

JUDICIARY JOTTINGS

Two Cases on the Second Day—Appeals Pending.

Maria Kaanaana vs. Keahi and others, which began Wednesday morning, is going to the jury before Judge Cooper this afternoon.

The November term will close on Monday next.

J. E. Gomez, by his attorney, C. W. Ashford, enters objections to the Hawaiian Gazette Company's bill of exceptions, upon the ground that the only point decided by the Court, on defendant's motion for a new trial, was as to the legal sufficiency of the bond filed by defendants.

Defendants in their bill of exceptions went into the whole matter of the Court's rulings in the course of the trial.

C. B. Wilson, Marshal, by his attorneys, F. M. Hatch and Carter & Carter, moves for a new trial of the case of Mrs. Batchelor, plaintiff, who recovered \$300 damages for unlawful execution. Bishop & Co., bankers, gave Marshal Wilson a bond against damages in the matter, so that they are the real defendants.

The Achi divorce case is still on—the second day—before Judge Whiting. Fred. Beckley is acting Hawaiian interpreter.

"TREASON, O ATHALIA!"

Fake Stories that Disturb and Exercise the Police.

Rumors of royalist gatherings are again rampant. Simon von Topaz, the Russian Count, is one of the authors, and this time the would-be revolutionists are neither Austrians nor Britishers, but pure natives. Simon the spy had made numerous reports to the Marshal about natives holding secret meetings at Waikiki and Palama. Police officers have been despatched to these points at different times, only to discover that the revolutionary meetings were either prayer meetings or lunas. Simon reported recently that a plan for a revolution was being concocted at a house at Palama. The report was so earnestly given that the authorities thought they would investigate the matter. Officers were sent to the place. On arrival at the house the officers were disgusted and cruelly disappointed by seeing a number of natives "chewing" awa. Someone has suggested that Simon hire himself to the Advertiser for a round trip by the S. S. Australia.

NATIONAL GUARD PARADE.

President Dole Reviews the Troops on Thanksgiving Morning.

Battalion drill and review was held on Palace Square yesterday in spite of rain and mud. There was a good turnout. Col. Fisher, commanding and staff were satisfied with the performances, and President Dole, who was attended by his staff and Ministers Hatch, Damon and Smith, complimented the forces, who were newly uniformed. "Signal drill" was part of the performances. Chief of Police Crowley of San Francisco was an interested observer, and is reported to have compared the Hawaiian National Guard favorably with the flower of California's militia. After the parade the different companies were regaled with refreshments at their respective headquarters.

An entertainment will be given in Kawaiahao Seminary at 7:30 o'clock this evening, for which twenty-five cents admission will be charged. Vocal and instrumental music will be given, and the "nightingales" will be at their best.

Timely Topics

November 30, 1894.

We thought we would have enough Fertilizer Distributors to last a little while, but we were evidently mistaken. Out of the carload received by the Alameda we have three left and those are being watched by different plantation managers with a view to purchasing. First come first served, however, and if you want one of them now is your opportunity to buy it.

We've opened our cases of Piano, Banquet and Hanging Lamps and sold a lot of them. They are entirely different and handsomer in design than any we have ever had before. One of them, a Banquet Lamp, is a pink coral scheme of coloring without any decoration whatever—stand and globe alike and decidedly rich. A couple of others are in antique shapes and colorings, and look as if they might have been used in Pompeii before the fall. We had some Sewing Lamps of the same design that were sold within twenty-four hours after we opened the cases. They're beauties in every respect. In this same class of goods our Piano Lamps are deserving of special mention. Brass and Nickel Stands prevail and the patterns are every one new. These Lamps are useful even to people who have electric lights in their houses, for we have no doubt the Superintendent of the Electric Light Company could wire piano lamps with the same perfection that he did your dwelling—ask Mr. Hoffman about it.

Our Onyx Tables this year are prettier than any we have ever had, the shapes are different and the onyx has handsomer colorings. There's one in the store (already sold) that is worth while examining. It is perfectly plain in shape, two square shelves supported by four cylindrical columns, all in milk-white onyx.

The Ice Chests and Refrigerators mentioned last week have frozen out all other makes, simply through their ice-saving qualities and handsome appearance. These things are improved ever so often, and we now have the latest; anything later is to be evolved in the brain of the inventor. Ours cover every point necessary in a refrigerator or ice box, and the price is just about right.

If you want a pair of Link Sleeve Buttons that are strong, handsome and serviceable get a pair of Aluminum ones for a dollar. They look like silver, will not tarnish and you get them for a third of what you pay for Pinchbeck jewelry. Other articles in Aluminum are serviceable and cheap considering the quality.

A glance at our showcases of solid silver will convince you that the goods are the latest designs from the factory. The assortment is complete and must win the admiration of every one who likes pretty things. The Butter Spreaders and Oyster Sets are particularly noticeable for their beauty and usefulness.

A grade lower than the solid goods is the Plated Ware, some of which we show in the makai window. We have everything needed in this class of goods. Surprise yourself by comparing prices with those charged elsewhere.

Real Estate and Loans

The enlargement of the LOAN Market so as to cover the wants and necessities of the large number of honorable people who are not owners of unimproved Real Estate was one of the most necessary innovations of recent years. To many it has meant relief from pressing claims at the very time when most essential. When properly and honorably conducted this business is of equally great importance and value to the community as building and loan associations have proved themselves to be.

The Hawaiian Investment Co.

Makes a specialty of Negotiating and Procuring Loans for Borrowers who are unable to discount their Notes at the Banks and who do not care to obligate themselves to some friend or acquaintance by asking his endorsement to their Note. This Company will make Loans upon Household Furniture, Pianos, Organs, Houses, Motor Wagons, Carriages and Personal Property without removing the Property from the Borrower's possession and all business will be conducted on a STRICTLY CONFIDENTIAL BASIS.

ALOHA TOOTH POWDER.

is the most perfect dentifrice yet discovered.

It is manufactured after a celebrated formula now in our possession. The materials used are the purest obtainable; contains nothing deleterious to the teeth or gums, and its use cannot be otherwise than pleasant and beneficial.

Many people while laudably attentive to the preservation of their teeth, do them harm by using a tooth powder containing excessive "grit." Daily applied such dentifrices are calculated not only to injure the enamel by excessive friction, but hurt the gums.

A trial of ALOHA TOOTH POWDER will convince anyone of its merits and the advantage of using a dentifrice of the purity of which they can be certain. It is attractively put up, and will be sure to please you in every way.

WIFE OR WATER?

Controversy Over the Naming of the Steamer St. Louis.

There is some curiosity here, writes the Washington correspondent of the Herald, as to what Mrs. Cleveland will do with the bottle of Schuykill water which the Woman's Christian Temperance Union sent to her in christening the new steamer St. Louis at the launching next Monday.

If she is to use water, what will she do with the bottle of St. Louis champagne which has been provided for the same purpose? The suggestion has been made here that if Mrs. Cleveland has ever drunk St. Louis champagne she will refuse to spoil a fine new ship, such as the St. Louis is said to be, by sprinkling its bow with such a degenerate fluid.

But it is not likely that Mrs. Cleveland knows anything about St. Louis champagne on the one hand, or has any ambition to have her portrait hung on the walls of the White House beside that of Mrs. Hayes by the ladies of the Woman's Christian Temperance Union on the other, and the safest and most sensible thing she can do under the circumstances is to break over the bows of the St. Louis the bottle which Charles Cramp places in her hand for that purpose.

She will do the christening act as the guest of Mr. Cramp, and it is his business to furnish the bottle. If Mr. Cramp does provide a bottle of St. Louis wine it will be the first instance on record when he had any thing to do with other than the vintage of sunny France, and the very best at that.

The Cramps are famous for the sumptuousness of their feasts on the occasion of launchings. They have been known to spend as much as \$35,000 for special trains, dinners, wines and flowers in an effort to send a new naval vessel into the service under favorable and frisky surroundings.

Mr. Cramp may permit Schuykill water to dampen the bows of the St. Louis, but if he does it will be a great surprise to the Navy Department people and others who have seen that gentleman's way of doing things in Washington. He never buys water over here.

ELLIOTT AND NORTON.

Court-Martial of Naval Officers Well Known in Honolulu.

A general court-martial was lately held at Vallejo, to try Lieutenants Elliott and Norton of the Adams relative to the recent grounding of that ship on a reef off St. Paul's island, Alaska. The Adams grounding had been pretty thoroughly shown to be unavoidable, but it was necessary, according to naval routine, to endeavor to draw out all the facts in the case, and the department ordered the court-martial of the officers in actual charge of the ship when the accident occurred. Lieutenant Norton was the executive officer and Lieutenant Elliott the navigator. The well-known faultiness of the charts of Alaskan waters, combined with a dense fog, made the accident almost unavoidable. It is not absolutely known what the findings of the court-martial are, says a report of November 11, but it is generally believed that the Adams' officers will be exonerated.

Lieutenants Elliott and Norton have many friends in Honolulu, who will be glad if the verdict prove to be their complete exoneration.

THE SUGAR TRADE.

It is Reported to be Booming by the Eastern Refiners.

The sugar trade is booming, says a late Philadelphia telegram. The demand continues quite active and prices rule very strong, with a tendency to still higher prices. Stocks are being rapidly reduced, and the refineries are making large purchases of raw sugar preparatory to resuming operations. The Franklin refinery, which also includes the E. C. Knight plant, started up this morning and will give employment to nearly 2000 men in both refineries, while the Spreckels refinery will resume next week.

W. J. McCahn, president of the W. J. McCahn Sugar Refining Company, the only independent concern in the city, says: "The sugar market is improving rapidly. We have sold more sugar since the election than during the month preceding it. The sales of raw sugar during the past few days have also been very heavy. We are now running on about half time, but hope to be running with full force within a few days."

Sugar Planting Implements.

At W. G. Irwin & Co.'s warehouse, Merchant street, are to be seen labor-saving machines for sugar cane plantations. They are imported by the Hawaiian Hardware Company. One is a stubble digger, that breaks up the ground between sprouting rows of ratoons, without uprooting the plants. It is a prodigious saver of labor. Another is a distributor of fertilizers, and a third a cultivator. Each one has a seat for the driver of the draft animals. They are all strong and well finished. Planters should lose no time in looking into their merits, as they promise to revolutionize cane cultivation.

Caring for Poor Children.

A convention will meet in St. Louis on December 11, to discuss and formulate a plan for the care of the homeless and indigent children found in the cities of America. The call was prepared and signed by forty of the most prominent citizens of St. Louis, including Mayor Walbridge and John W. Noble, ex Secretary of the Interior.

War Rumors.

The war between China and Japan is still on. So far the Japanese have all the best of it. How long this will last, time alone can tell.

Flushed by their numerous victories, the Japanese are pushing their armies into Chinese territory. The capture of Ping Yang with its forts and treasure was their first great success.

The naval battle at the mouth of the Yalu River and the total destruction of three Chinese men-of-war followed this quickly. The final expulsion of the Chinese from Corea and the capture of Kiew Lien Chang left the road open to the Japs to both Moukden and Peking.

To carry on this warfare Japan has (so far) enlisted one hundred thousand men aside from her regular standing army, and hundreds of the bone and sinew of the land of the chrysanthemum are crowding the recruiting offices daily. This has caused the price of labor to increase 100%. In consequence Japanese material and products of every description have nearly doubled in price.

However, as we had our large Christmas order in several months ago, we will not be affected.

Why trade with firms who carry an assortment of goods that are of inferior quality or made by the cheapest labor, when you can get the best for the same price? We guarantee every article in our store to be the very best that the Japanese market can produce and at prices that were in vogue before war was declared.

For Ladies

We have an assortment of Articles both Useful and Ornamental that most please the most Fastidious. Every lady is particular about the Handkerchiefs she uses. We have all kinds—Plain, Beautifully Embroidered, Drawn and Open Work all Colors and Sizes.

Dollies, hand painted and embroidered, Crepe Silk Sashes, Silk and Crepe Shawls, and a variety of Scarfs. We also received a large variety of Silk Dress Goods.

For Gents

We have Silk Shirts—white and colored—either plain or embroidered; Cravats, Neckties of every variety, shade and shape, Smoking Jackets and Caps, that are a pleasure to wear, and Silk and Cotton Pajamas that are comfortable and well made; also the two extremes—Straws Hat and Slippers.

Nothing in Honolulu can approach the small order of Boots that we have. They were made by the best Japanese Mechanics, and we guarantee the quality, style, fit and finish—Calf, Patent Leather and Tan.

Miscellaneous

Articles, such as Tea Cossies for covering Tea Services, etc. Fine Table and Bed Covers, and pretty Chair Backs we have in profusion.

Also some Menu Cards for Thanksgiving, Christmas and New Year's that are pretty and tasty.

Children

Enjoy Christmas principally because they receive love offerings from parents and friends. A good present to give a boy is one of our Butterfly Pins, and a nice present for your girl can be had by getting one of our Books of Fairy Tales, they are made of fine Crepe paper profusely illustrated and the Stories are translated from Old Japanese Legends.

INSULTING THE PRESIDENT.

Disagreeable Conduct of Radicals and Socialists in France.

A Paris correspondent writes that it is becoming evident that a Cabinet crisis in France is delayed only by the critical general situation which makes it highly inadvisable to change the Ministers at the present time.

The radicals and socialists are persisting in their attacks upon the President, with the obvious object to drive him to resign in disgust. There is no possibility of such a thing succeeding, and they are beginning to cause some reaction in favor of Casimir Perier. Such is the effect of incidents like that at Thursday's session of the Paris Municipal Council.

A member brought forward the proposition that the name of Rue Casimir-Perier be changed to Rue d'Anzin. The President of the republic is connected with the Anzin Mining Company, and the Council in question, after coolly saying that this had nothing to do with politics, contradicted himself by adding that he only suggested that the name of Louis Philippe's Minister, who had starved the Anzin miners, should be removed from the walls. This Minister was the grandfather of the President.

The representative of the district in which the street is situated objected, but on the ground that the change would cause inconvenience. Loud protests arose from some of the members and the proposal was rejected, but only by the small majority of five votes. The Government is taking measures to protect the President from annoyance. A man was arrested on Wednesday because he wanted to give Casimir Perier a package of newspaper cuttings criticizing his policy, and the offender will be prosecuted on the charge of insulting the head of the State.

TO REFORM SALOON-KEEPERS

The Task Undertaken by the Mayor of Minneapolis.

Mayor Eustis has made another improvement in his saloon policy and this morning put it into effect, says a Minneapolis despatch of Nov. 10. The innovation is along the line of reforming saloon-keepers, and to carry out his plan he will hold a court-martial every morning in his office. The Mayor receives a daily report of all the drunks arrested in this city, and these reports, besides detailing the offending circumstances, state the place in which the liquor was secured.

He to-day determined to hold some one responsible for every drunk arrested, and to carry it out will hold daily interviews with the saloon-men in whose places the drunkenness has been reported. He expects that the plan, if vigorously prosecuted, will still further tend to make all saloon-keepers prevent disorder or excessive drinking in their places.

Mrs. W. B. Meek, who resides at Camptonville, Cal., says her daughter was for several years troubled at times with severe cramps in the stomach, and would be in such agony that it was necessary to call in a physician. Having read about Chamberlain's Colic, Cholera and Diarrhoea Remedy, she concluded to try it. She found that it almost gave prompt relief. It was seldom necessary to the second dose. "It has not only saved us lots of worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by all druggists. LUCOL ::

IN THE

BEST PAINT OIL!

Save Half the Amount of Your Oil Bill Through Saving in Pigment.

Every painter should use Lucol instead of Linseed Oil, because:

1. Lucol is more durable than Linseed Oil.
2. Lucol is more economical than Linseed Oil.

PROOF THAT LUCOL IS MORE DURABLE.

Six years of actual use in exterior house painting in California (the most trying climate for paints), in the burning heat of the Arizona Desert, the Arctic cold of Alaska, and on the Atlantic coast, have fully and practically shown that Lucol always outlasts Linseed Oil under the same conditions. All the acid works in San Francisco have discarded Linseed Oil for Lucol.

ILLUSTRATE THIS YOURSELF.

Put strong ammonia on Linseed and Lucol paints. The Linseed paints are destroyed in a few minutes; the Lucol paints are practically unaffected.

PROOF THAT LUCOL IS MORE ECONOMICAL.

Break up 1 lb. paste white lead in one pint of Lucol, and the same quantity in one pint of Linseed Oil. Spread the paints on similar dark surfaces for comparison. The Lucol paint spreads as far as and covers much better than the Linseed paint. To get equally good covering with the Linseed paint you have to use 2 1/2 lbs. of white lead to one pint of Linseed Oil. This means a saving of 1 lb. of paste lead to each pint of Lucol used, or 6 lbs. to every gallon, equivalent to your saving more than half the first cost of the Lucol.

Lucol is not in competition with cheap Linseed Oil substitutes.

The trial of Manager Pain and two Tramways Co. employees for cruelty to animals was concluded Wednesday afternoon. Defendants were found not guilty and discharged. The animal in question was brought to the Police Station and examined. It was found to be in a sound and healthy condition, and not the ill-treated and much abused animal the prosecution tried to make out.

The Hawaiian Hardware Co., is as usual up with the times in the matter of useful and ornamental goods for the approaching holiday season. It is really surprising that such a large stock of solid silver ware can be found in a business house not generally devoted to the handling of these goods. The stock of lamps of every description shown by the Hawaiian Hardware Co. includes some very handsome patterns worth examining.

Captain George Calhoun, Jr., was married recently in Portland to Miss Matilda Kim, an esteemed young lady of that place. Captain Calhoun and bride arrived yesterday from Port Blakely in the bark Ceylon, of which vessel he is master. They were the recipients of congratulations yesterday. Captain Calhoun succeeded his father on the Ceylon, and the fast passages the old clipper has been making since prove him to be "a chip of the old block."

Scurfula in the Neck—Bunches All Gone Now.

"Gentlemen—I feel that I cannot say enough in favor of Hood's Scurfula. For five years I have been troubled with scurfula in my neck and throat. Several kinds of medicines which I tried did not do me any good, and when I commenced to take Hood's Scurfula there were large bunches on my neck so sore that I could not bear the slightest touch. When I had taken one bottle of this medicine, the sores had gone, and before I had finished the second the bunches had entirely disappeared." BLANCHETTE ARWOOD, Bangorville, Maine.

Hood's Scurfula Cures not only the scurfula, but also the skin diseases, such as eczema, psoriasis, etc. It is a powerful purgative, and cleanses the blood. It is sold by all druggists.

MRS. FREIMANN, who manages our Dress Making Department has returned from Chic go and is just overladen with fashions, styles, and tasks from morning to night about dresses being cut this way and that way, and this is in fashion and that out of fashion, about how this ought to be made and that ought to be made. It's worth your while to hear her. She says we are in it with the best of them when it gets to handling stylish goods.

Rainy weather always suggests something warm and as all Wool Flannels and Flannelettes are quite the thing we propose to decrease our stock of them somewhat during the week, at what is becoming quite well known as Quick Sales and Small Profit Prices.

Flannel is an article in every day demand, and as necessary to the complete outfit as air and light to perfect health and strength. For Night Dresses, Chemises and Knickers nothing is better, while for dresses nothing is neater or more comfortable. We are going to move these goods and now is the time to buy them, and when you are doing it, don't forget that we are making a run this week on Flannel and Flannelettes, that other bargains are offered.

To Plantation Managers.

The following letters received from Mr. Jno. A. Scott, Manager Hilo Sugar Co., refer to the AVERY FERTILIZER DISTRIBUTORS and STUBBLE DIGGERS, for which the Hawaiian Hardware Co. are sole agents. Mr. Scott first saw these implements at the Columbia Exhibition in Chicago, and was so favorably impressed with their appearance that he immediately ordered samples shipped to the Hilo Sugar Co. Mr. H. Deacon, Manager for Pepee Sugar Co., secured one each of these implements from Mr. Scott and expressed his satisfaction with them in the letter published herewith:

PEPEEKEO, Aug. 8, 1894.

J. A. SCOTT,
 Dear Sir:—In reply to yours in relation to the "Avery" Stubble Diggers and Fertilizer Distributors. I would say that I have been using the Diggers almost constantly since I received them, and am highly pleased with them. As the name signifies, I find them specially adapted to the work of loosening the soil about ratoon stools, and they may be used to great advantage either before or after the Fertilizer Distributors, thereby putting the ratoon fields in the very best condition for a rapid growth. They are a light draft machine, and I would recommend them to any plantation owner. The Fertilizer Distributor is a great labor saving machine, and I find that I shall need one more to fill our requirements here. I remain, yours respectfully,
 (Signed) H. DEACON,
 Manager for Pepee Sugar Co.

WAINAKU, Hilo, Aug. 9, 1894.

Mr. E. R. HENDRY, Honolulu.
 Dear Sir:—In reply to your enquiries regarding the working of the "Avery" Stubble Diggers and Fertilizer Distributors. I would say that I have been using the Diggers for some months and have dug some eight hundred acres of stools with them, thoroughly loosening the soil in and about the roots, thus giving them an excellent opportunity for many more shoots to come forth than usually do. And I find that there is a thicker stand of cane where it has been stubble dug. The machine works in fertilizers on ratoon stools without any further hand labor, mixing them thoroughly with the soil and allowing them to get to the roots of the plant.

The Fertilizer Distributors I have had at work for some time and I have fertilized about four hundred acres with them thus far and they are doing all the makers claim for them, distributing the fertilizers in an even manner on each side of the cane and in whatever quantity desired. They are a good labor saving machine and are doing the work of several men. These machines are of light draft and strongly made and there is nothing liable to get out of order. I can fully recommend these to plantation owners. I remain, yours truly,
 (Signed) JOHN A. SCOTT,
 Manager Hilo Sugar Co.

We received by the Alameda a carload of Avery & Sons' Implements which include Fertilizer Distributors, Stubble Diggers and Improved Sugar Land Cultivators. The latter has solid discs and shovel attachments. They are admirably adapted for use in the soil here and will be found necessary on every plantation.

The Fertilizer Distributor is arranged to work on land where the furrows are irregular with the same facility as where they run even.

Any information regarding these machines will be furnished on application to

THE HAWAIIAN HARDWARE CO.,

307 Fort Street, Honolulu.

The Board of Health recommend that all drinking water be boiled and filtered. No one doubts the necessity of this precaution with our city supply, but those who drink

NAPA SODA

are always sure of its absolute purity. We warrant every bottle. NAPA SODA is a pure mineral water, just as it comes charged with sparkling gas from the bottom of mother earth. It is prescribed and recommended by the most eminent physicians. It is not one of the new "make-believe" natural waters, but has been in extensive use for twenty-five years. We furnish this "King of Table Waters" by the Bottle, Dozen or Case. We now have cases of Sixty Bottles, especially for families, at the very reasonable price of \$5 per case. HIRES' ROOT BEER.

IT IS A HOMEMADE AND HOMEMAKING BEVERAGE. It is very easily prepared, and if the plain directions are followed, it will always be good. Every member of the family, from the baby to the grandfather, can enjoy HIRSES' ROOT BEER, and every one of them will have better health for each swallow they take. It improves the appetite, purifies the blood, and tones the whole system. Children especially delight in HIRSES' ROOT BEER. Its preparation interests them, and its use does them good. In thousands of homes, "HIRSES' ROOT BEER that mother made," will be among the happiest recollections of childhood. It cleanses the system of the poisonous humors that develop in kidney and urinary diseases, and in fact, in any case that arises from an impure state of the blood.

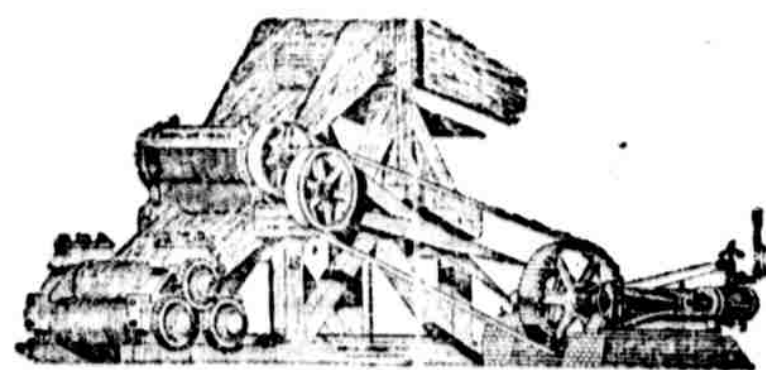

Distinctly understand HIRSES' ROOT BEER is without adulteration or any chemical or artificial admixture—we prove it—it is made in our open Laboratory. No secret process. We take the best Herbs and Roots, boil them down, bottle them and send them to you. Perhaps there isn't another Root Beer Laboratory in the country open to public eye. Everybody knows HIRSES' ROOT BEER—chemicals can't approach nature. Will you use natural Root Beer and satisfy your thirst and strengthen your body, or will you use artificial Root Beer to save a few pennies and ruin your health? There is ten times as much HIRSES' ROOT BEER sold than all other Root Beer extracts combined.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years. The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoon.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

PRIZES!

PRIZES!

PRIZES!

Beginning on November 1, 1894, I intend giving my Customers a chance to win a Prize and not only One Prize but Four.

On next THURSDAY, November 1st, every Man, Woman or Child who buys \$1.00 worth of goods at my Store (Temple of Fashion) will be presented with a Coupon Ticket, and on December 26th, the person holding the largest number of Tickets will be entitled to the First Prize, and this Prize will be the

Finest Silk Dress Pattern

in our Store. To the person holding the second largest number of Tickets

An Elegant French Cashmere Dress Pattern

will be given. The Third Prize will be an

Ostrich Feather Fan

Valued at \$10;

and the Fourth Prize will be a Fine Pair of

LADIES' SHOES

Valued at \$5.50.

The people of Honolulu have patronized the TEMPLE OF FASHION liberally since its removal to the new quarters at 519 Fort street, and the Managers appreciate this—hence these Prizes. There are probably one hundred ladies in Honolulu who will buy enough Dry Goods between November 1st and December 24th to win one of the above Prizes. Our stock is new and has been carefully selected for the Winter Holiday Trade—especially is this true of our Dress Patterns.

We have been to an infinite amount of trouble but succeeded in getting the latest shades and most beautiful designs; this applies to our Silks and Cashmeres. Our Gingham, Lawns, White Muslins and Flemish Lawns are the equal (both in price and quality) of those sold by any house in Honolulu; also Black Satins and Silks a specialty. Christmas Goods, Toys, etc., in endless variety. Gloves that fit like the paper on the wall.

And remember that, for every \$1.00 worth of Goods you buy you get a Coupon.

All these Prizes will be shown in our window next week.

OVER THE PRISON WALL.

Three Men in Durance for Being Poor Regain Sweet Liberty.

Three stowaways who were recently landed here from the S. S. Miowera escaped from the Police Station yard, where they had been confined to await transportation back to Vancouver. They got over the fence adjoining the Carwright premises with the assistance of planks. During the past month the Marshal's office was renovated, and Turnkey Harry Evans was called yesterday morning by the Marshal to have his office cleaned. Evans and trustees went upstairs and while they were engaged, three men escaped. Two native boys saw the men getting over the wall and notified a policeman. The latter paid no heed and the boys called out to Evans. Evans rushed down the stairs, spraining his knee slightly, only to be too late. The men had escaped. They had been given the freedom of the yard and given everything they wanted. Clerk Hammer could not identify them. The men came from Vancouver and were strangers to their four companions, who still remain in prison.

Turnkey Evans and Hammer secured buggies last night and rode about town, looking for the men but were unsuccessful. The police are confident they will catch the men, as they have nothing but the bare clothes they have on them. They were loaned shirts and other little things by the police.

Electric Light Superintendents.

A reader of the BULLETIN corrects a statement as to the first superintendent of the Government electric light works. D. B. Smith the promoter started the plant, and W. O. Faulkner was the first superintendent. W. Essie was the next, being succeeded by G. M. Smyth, who had his hand maimed by a burning wire in a thunder storm. By the way, successive Governments have treated Mr. Smyth rather shabbily, refusing employment to him although he is capable for many kinds of work. Messrs. Lockwood and Taylor in turn preceded Mr. Cassidy, the present superintendent.

Brave Engineer.

Dan Phillips, engineer of a Santa Fe passenger train, is added to the roll of heroes. When he came in sight of the bridge over Black river, the bridge and trestle were enveloped in flames. It seemed impossible to stop the train and a catastrophe, yet, while many of the trainmen jumped for their lives, Phillips remained at his post. By his efforts the train was stopped within a few feet of the bridge, and saved from plunging into the fifty-foot gulch below.

Hawaiian Historical Society.

At the Annual Meeting of the Historical Society to be held in the Y. M. C. A. Hall at 7:30 p. m., besides the election of officers, and the usual routine business, some interesting letters will be read, and a paper giving "Personal Reminiscences of Kamehameha V." These meetings are open to the public, and as the paper to be read is not intended for publication, all interested in some curious items of Hawaiian history will be sure to present this evening.

Preparing for Christmas.

Mrs. Boardman's "Ka Maile" stock is nearly all sold and anticipating a heavy demand for Christmas goods she ordered a fine line of Fancy Articles, etc., they will arrive on the next Australia. Her large and commodious laanai will be fitted up as a show room. All her old customers and the Honolulu people in general are invited to inspect this magnificent stock of Christmas Goods.

No one is better qualified to judge of the merits of an article than the dealer, because he bases his opinion on the experience of all who use it. Messrs. C. F. Moore & Co., Newberg, Ore., say: "We sell more of Chamberlain's Cough Remedy than all others put together, and it always gives good satisfaction." Mr. J. F. Allen, Fox, Ore., says: "I believe Chamberlain's Cough Remedy to be the best I have handled." Mr. W. H. Hitchcock, Columbus, Wash., says: "Chamberlain's Cough Remedy sells well and is highly praised by all who use it." For sale by all druggists. Benson, Smith & Co., agents for Hawaiian Islands.

As a Rule

You do not get more than your money's worth when you make a purchase; and a great many times not quite that.

Your good common sense will tell you that most concerns, if they fulfilled the pledges made in their advertisements, could not last six months. "LOOK ABOUT" and with your good judgment decide who really carries the best selected stock; whose goods are of the "FINEST QUALITY," who gives "THE MOST FOR THE MONEY."

My goods combine the quality, with as low a price as same goods can be purchased anywhere. Such lines as I carry, cannot be purchased by remaining at home and writing for them; and for that reason I make my yearly trips to the markets of the World. Picking up a new line here, a few pieces there, until I have gathered together everything new and desirable in my lines.

You'd be astonished to get a FINE UMBRELLA, handsomely carved head, with a fine stylish cane to match, both mounted in silver, for

\$8.50.

The set for this is about what a cane alone used to cost; and yet this is what we are offering you now; and this is only one of many articles at popular prices offered this season by

H. F. WICMAN,

Santa Claus
