BROWN AND MEYERS CITED INTO COURT

Charged With Contempt
In Disobeying
Mandate.

LATEST MOVE MADE
BY AUDITOR AUSTIN

ATTORNEY ASHFORD ALLEGES
MANDAMUS WAS DISOBEYED
BEFORE APPEAL WAS
TAKEN.

Arthur M. Brown, High Sheriff, and Henry C. Meyers, Deputy Auditor, were early this forenoon served with a citation for contempt of court. Judge Gear issued the process on the motion of Herbert C. Austin filed by his attorneys, C. W. Ashford and A. G. M. Robertson, supported by affidavits of all of them, in which it is charged that they and each of them, the said Arthur M. Brown and Henry C. Meyers, have refused and still refuse, although specifically requested, to obey the mandate of the peremptory writ of mandamus issued to them and to Edmund P. Dole, Attorney General, and to admit Austin to the possession and control of the office of the Auditor of said Territory, and of the books, records and equipment thereof and therein, and to the full and free discharge thereof of his duties and functions as Auditor of the Territory.

They and each of them, the said Arthur M. Brown and Henry C. Meyers, are therefore cited and commanded to appear before Judge Gear at chambers, at 10 o'clock in the forenoon of Saturday the 23d day of November and then and there show cause, if any they have, why they and each of them should not be punished for contempt of court in having refused to obey the mandate of the Circuit Court as expressed in the peremptory writ of mandamus.

The affidavits tell nothing more than was related in the Bulletin yesterday about the futile attempt of Austin to obtain possession of the Audit office, excepting the following in Mr. Ashford's deposition. After describing the service of the writ on Meyers, the deponent says:

"That while said Meyers was so examining said certified copy, this deponent went to the telephone in said office and, having secured through said telephone direct communication with said defendant Brown, conversed with said Brown over said telephone in effect as follows:

"Deponent stated: 'I hold here in my hand a certified copy of a peremptory writ of mandamus in the Austin case, directing you to forthwith admit Mr. Austin to the possession of the Auditor's office; but there is a man at the door of the office who forbids preventing Austin from entering, and says he is acting under your orders, although I have showed him a copy of the writ.'

"To which said defendant Brown replied: 'That's right, he did perfectly right. When was the writ issued?'

"To which deponent replied: 'Just now. What are you going to do about it?'

"And said Brown responded: 'I'll come right up there and see about it.' "That after waiting some time for the arrival of said Brown, during which time said Meyers continued to study said certified copy so served upon him by deponent, and said Meyers having failed and refused (by his action, though not in words) to admit said Austin to said office, this deponent proceeded to the office of the High Sheriff at the police building in said Honolulu, where, at 16 minutes past 12 o'clock p. m. on said last-mentioned date, he made service upon said defendant Brown of a copy of said peremptory writ of mandamus, certified by the clerk of said court, and under the seal of said court, as being such copy. The said defendant Brown read and examined said paper and then informed deponent that he would have to decline to obey the mandate thereof, as an appeal had been taken in said cause. That deponent went to the telephone in the office of said High Sheriff, established communication with the office of the clerk of this court, inquired whether said appeal or notice thereof had been filed and, if so, at what time, and was informed in reply that such notice had just been filed, it being then about 18 minutes past 12.

HILO VOTE STANDS

The Senate came together this morning at 10 o'clock for the work of the second day of the special session convened by the Governor for the purpose of acting on appointments to various governmental positions. Senator H. P. Baldwin was in the chair and all the Senators with the exception of Cecil Brown were in their places. Senator S. W. Wilcox having arrived from Kaula in the Ke Au Hou this morning.

After the regular preliminaries, Senator Crabbe presented the majority report of the Committee on Credentials consisting of himself and Senators J. T. Brown and J. D. Paris. The report was to the effect that the credentials of all the Senators present had been found in order. Senator Crabbe further reported for the same committee that a protest against the seating of any of the newly elected Senators from the Island of Hawaii had been sent in to the committee by Stephen L. Desha, defeated candidate from the Big Island and that the committee had decided to refer the matter to the Senate as a whole.

The report was signed by Senators Crabbe and John T. Brown. By way of supplementing the report presented, Senator Crabbe stated that Senator Paris was a member of the committee but as he was one of the parties concerned, he did not feel as if he should sign it. There would therefore be no minority report of the committee.

Senator Baldwin stated from the chair that had he known the protest was to be filed he would not have appointed Senator Paris on the committee. He had heard rumors of such action but he had thought the matter had been dropped. In his mind, the protest should not have been handed to the Committee on Credentials but should have been presented directly

to the Senate for the members to dispose of there. It could then have been referred to the Committee on Credentials.

Senator Paris here stated that he had been placed in a peculiar position by the filing of the petition. However, as he was an interested party, he had had nothing whatever to say about the matter and had no report to present.

Senator Achi moved that the report of the committee with reference to all the Senators with the exception of Senators Paris and Wood, the two members concerned, be accepted. This was seconded by Senator Dickey.

Senator Kauhe here made objection, stating it to be his belief that the full report should be accepted and Senators Paris and Woods allowed their seats. The Committee on Credentials had no right to present to the Senate any matters that had not been referred to them.

Senator Achi stated that in order to show that fairness was meant to Mr. Desha and the people of Hilo, the protest should be considered by the Senate. He thereupon moved the previous question and eight Senators voted in favor of the motion. The report of the committee with reference to all the Senators present with the exception of Senators Woods and Paris was thereupon accepted and a committee consisting of the following was, upon motion of Senator Dickey, appointed to call upon a Justice of the Supreme Court and ask him to swear in the members who had been voted in: Senators Dickey, Achi and Kauhe.

A recess of ten minutes was taken at this point to allow the committee time to go over to the Judiciary building and return.

In a short time, the committee returned, accompanied by Chief Justice Frear who upon the Senators taking

their places, called upon them to stand while the oath was being administered.

After this formality, Senator Achi moved that the permanent officers of the Senate be elected.

Senator Baldwin, from the chair, stated that this was not necessary. In fact it would be better to elect the permanent officers after the matter of the protest of Mr. Desha had been acted on.

The motion of Senator Achi to elect the permanent officers forthwith, was lost.

On motion of Senator McCandless the protest was taken up for consideration and the following letter from Mr. Desha, which accompanied the formal protest, was read:

Honolulu, H. T., Nov. 19, 1902.

To the Honorable Members of the Senate of the Territory of Hawaii.

Gentlemen:—Owing to certain irregularities in the count of the Senatorial vote on the Island of Hawaii, there is great dissatisfaction among the voters of the First District, and it is not confined alone to the members of the Republican party.

It has aroused sectional feeling which can only be suppressed by a recount, throughout which the same rulings should be made to apply to all precincts.

I therefore beg to file the enclosed affidavit and enter a protest against the seating of any of the Senators-elect from the Island of Hawaii upon their certificates until a recount of the ballots can be made.

I am informed that this can easily be done within twenty-four hours, and I believe that during this interim, in justice to the Senator who received the highest number of votes from Hawaii, and whose right to the seat will not be affected by this recount, that no

business should be done by the Senate until this matter is settled.

May I add that this step is distasteful to me personally, but I consider it a duty which I must perform on behalf of my constituents. By this act you will do justice to all, and I am sure no fair-minded candidate can object to abiding by the result of such a recount, which would clear up all suspicion and doubts on the part of the voters. Very sincerely yours,

STEPHEN L. DESHA.

The secretary next read the affidavit which was as follows:

Affidavit of Stephen L. Desha.

Territory of Hawaii, Island of Oahu—

I, Stephen L. Desha, being first duly sworn, depose and say: That during the election held on Tuesday, November 4th, 1902, in the Fourth Precinct of the First Representative District of the Island and Territory of Hawaii, I was present at the counting of the votes by the Inspectors in the aforesaid Fourth Precinct; that the Chairman of the Board of Inspectors was one William Vannatta, the other members being J. T. Stacker and George Kaihenu; that on or about 5 o'clock in the afternoon of said day the Inspectors closed the polls and began the count of the ballots deposited for Delegate; that as soon as the count for Delegate was finished, said Inspectors began the count for Senators, during the entire period of which Mr. N. C. Wilfong sat at the same table with the Inspectors, checking and tallying the result of the vote; that there was in addition to said Mr. Wilfong, Mr. Alfonso and Mr. Nelson and others occupied in the same manner, to wit, the tallying off of the result of the ballots as read out by said Inspector Stacker; that as the ballots were taken from the

ballot box, on several occasions the question was raised as to whether or not the marking of the ballot was legal; that on these occasions the said three Inspectors would discuss the matter and decide the same, and a number of ballots were rejected; that when such decision was reached, it became the duty of said George Kaihenu to write "Rejected" across the ballot and file the same; that on each such occasion the aforesaid Inspector Stacker would begin calling off the result of the next ballot before said George Kaihenu was ready to proceed with the tally; that said Inspector George Kaihenu was thus often interrupted in his official work of keeping accurate tally of the count, and his mind was distracted and attention diverted; that when the count was completed, the tally sheet of Mr. N. C. Wilfong showed that Candidate Stephen L. Desha, the deponent, had received two hundred and thirty votes, while the tally sheet of said Inspector George Kaihenu showed that there were but two hundred and twenty-eight votes for said Candidate Stephen L. Desha; that the tally sheets of Mr. Nelson and Mr. Alfonso showed two hundred and twenty-nine votes for said Candidate Stephen L. Desha; that thereupon and at that time I called the attention of the Inspectors to this discrepancy, and was informed that the count of Inspector George Kaihenu was the official count.

I therefore protest against the acceptance by your body of credentials from any Senatorial candidate on the Island of Hawaii, and it is my certain belief that the official result does not show the actual and real expression

MANY QUEER RELIGS

FOUND IN THE HULKS
OF OLD-ROTTEN ROW

COINS FROM MANY COUNTRIES.
RATS LINED NESTS WITH
THE SILKS OF THE
SAILORS.

F. G. E. Walker, who owned the old hulks in rotten row in the harbor, namely, the Toppallant, Sebastian Bach and the schooner Twilight, and who for the past few months has had a force of men working on them breaking them up for firewood and copper, yesterday sold the hulks to a haul consisting of E. M. Jones, J. Bothello, Jas. K. Clark, A. Lazarus and Thomas Kelly. The new owners took possession of the vessels yesterday and continued the work of breaking them up as there still is a lot of material of value left in the old hulks.

E. M. Jones is superintending this work. As the new owners reside elsewhere, the force, which Mr. Walker had employed, put on a number of new men the work will proceed more rapidly than it has done heretofore and in the near future the interesting old hulks will probably be things of the past.

Mr. Walker states that during the breaking up of the vessels many odd and interesting things have been found which were lost or mislaid by sailors during the last hundred years of the old vessels' experience. In cracks and behind boards a large number of coins, mostly coppers, from all parts of the globe, were found, and in the innumerable rats' nests which were located, silk handkerchiefs and all other kinds of trinkets were found in variegated collections.

A NICE LITTLE GAME

A small Portuguese boy with a keen insight into human nature has hit upon a scheme which he works to great financial benefit to himself. The little fellow has been observed to place himself on some spot near the Union Grill between 7 or 8 o'clock. He weeps bitterly, thereby attracting the attention of the patrons of the Grill as they pass out. They stop and ask him what the piliika is, whereupon he explains that he has sold some papers and lost the money taken in (the sum varies from 15 to 25 cents) through a hole in his pocket, and that he is afraid to go home without the money.

The man who has dined well and feels at peace with the world in nine cases out of ten makes good the loss, whereupon the little fellow skips off seemingly happy, only to work the same game on the next corner.

JOKE ON ROBINSON.

The omission on the part of a clerk in the police station in failing to insert on a bail receipt the name of a man arrested for larceny a few days ago has made Attorney H. M. Robinson the target of many a joke.

One day last week a client of Mr. Robinson's was arrested for larceny. He sent for the attorney, who went to the police station and put up the bail in the sum of \$50. Mr. Robinson put the receipt in his pocket without looking at it.

A few days later, the case of his client was nolle pro'd for want of evidence and Robinson sent the bail receipt to the station to be redeemed after having just endorsed it with his name on the back. The joke was that the receipt read:

"Received from H. W. Robinson \$50 as bail for larceny in the second degree," the clerk having omitted to insert: "in the case of Kalama." Consequently, Mr. Robinson by endorsing the bail receipt endorsed himself as having been arrested for larceny in the second degree and had to stand much laughing from brother attorneys and police officials.

SISAL'S FINE OUTLOOK

BELIEF IN WASHINGTON
PRICES WILL RULE HIGH

DIRECTOR JARED G. SMITH RECEIVES A LETTER FROM
A DEPARTMENTAL
OFFICIAL.

Director Jared G. Smith, of the Federal Experiment Station, lately received a letter from an official of the Agricultural Department, Washington, containing a reference to the sisal industry. It had been learned at the department that the Hawaiian Fibre Company was offered 10½ cents a pound for its product delivered at San Francisco.

The letter said that if sisal fibre were capable of being produced in the Hawaiian Islands for anything like the cost in the Bahamas, namely four cents a pound, the industry ought to be highly profitable. There would likely be high prices for the product ruling for several years to come. The present brisk demand was for the purpose of making binder's twine and would probably exceed the supply for some time. While this condition was not relished by the farmers using the twine, it was a fine thing for the growers of fibre.

J. H. KAHILUNA DEAD

The steamer Ke Au Hou, which arrived from Kaula this morning, brings the news that J. H. Kahiluna, one of the Home Rule Senators during the last session of the Legislature, died at his home near Anahola on Monday night. The deceased had just been eating a hearty meal when he was suddenly taken by violent pains in the abdomen and expired only a few minutes later.

Mr. Bannister of the Inter-Island Steamship Company received a letter by the Ke Au Hou from Tax Collector Hannaka, in which the following particulars of Mr. Kahiluna's death are given:

"The ex-Senator was dining with his people at noon Monday when he was suddenly seized with a violent pain in his stomach. He was loquacious and this gave him some temporary relief, but his condition soon grew worse and at 1 o'clock Tuesday morning he died. He was buried at Wai-pake the same day."

"Ex-Senator J. H. Kahiluna was a man of about sixty years of age. He was born on Hawaii, but in his youth went to Kaula, where he resided the rest of his life. Prior to his election to the Senate he had held several public offices such as Judge of Koolau District, Tax Collector, etc."

"The deceased was married twice, his second wife being Mrs. S. C. Bertelmann, from whom he was divorced a few months ago. He left no issue but had several adopted sons. He is also said to have had a brother on Hawaii."

C. W. Ashford's name was on the Police Court calendar this morning, under a charge of assault and battery. This is one of the numerous cases growing out of the fight for the possession of Mrs. Kalkinaha's premises on Queen street. Mr. Ashford did not appear in court but a note from him to Judge Wilcox explained his absence. The request that his case be continued was granted.

MAGOON INDICTED AS AN ACCESSORY

Charged With Assisting
Escape of W. H.
Wright.

SURRENDERS TO COURT
WITHOUT A WARRANT

THE PENALTY IS HEAVY—MANY
ATTORNEYS VOLUNTEER TO
APPEAR IN HIS
BEHALF.

J. Alfred Magoon was indicted by the Grand Jury just before noon today for aiding Treasurer W. H. Wright to escape from justice. Before there was time for a warrant to issue, or even for Judge De Bolt to examine the indictment, Mr. Magoon surrendered himself to the jurisdiction of the court.

Recess had been taken at 12 o'clock and the court room was nearly clear of people, when E. C. Peters, law partner of the accused, entered with the latter following him and asked that Mr. Magoon be arraigned immediately for the purpose of reserving his plea.

Judge De Bolt resumed the court's session and, after a short wait for Deputy Attorney General Cathcart called by telephone, ordered the indictment to be read to the defendant, which was done rapidly by Mr. Cathcart.

Mr. Peters wanted to have the plea reserved until next Thursday, to which Mr. Cathcart objected and the court said it was a holiday. Mr. Cathcart had not remembered the holiday. His reason for objecting was that the Grand Jury would probably be through their labors early in the week, and it was desirable, if any law were found in the indictment, that a proper one should be presented before the present Grand Jury were dismissed.

There was some discussion of the question, Judge De Bolt saying the defendant was entitled to reasonable time, and Wednesday morning at 9 o'clock was set.

The penalty for the offense charged is imprisonment for not exceeding ten years or a fine of not more than two thousand dollars. This is for being accessory to any crime for which the penalty is death or imprisonment for life, and the latter may be imposed for the embezzlement by a public officer of public money with which the principal in this case is charged.

Within an hour after the defendant was arraigned the following law firms and individual lawyers volunteered to defend his case: Kinney, Ballou & McClanahan; Humphreys, Thompson & Watson; C. W. Ashford; Robertson & Wilder; Thos. I. Dillon; Gill & Farley.

Bail was fixed at \$2,000 and the bond was ready with C. W. Booth as surety.

Following is the form of the indictment, leaving out the heading:

"The Grand Jurors of the Territory of Hawaii upon their official oath, present that William Harrison Wright of Honolulu, in the Island of Oahu, in the First Circuit, at Honolulu in the Island of Oahu, and in the Circuit aforesaid and within the jurisdiction of this Honorable Court, on the 23d day of September in the year of our Lord One Thousand Nine Hundred and Two, he, the said William Harrison Wright, then and there being an officer of the Territory of Hawaii employed in the Treasury of said Territory, to wit, Treasurer of said Territory of Hawaii, and being then and there

THEIR TIRES NOT WIDE

PUBLIC WORKS DEPARTMENT
WAGONS ARE REMISS

ABOUT THIRTY SENT TO REPAIR
SHOP TO MEET WITH REG-
ULATIONS OF LAW EN-
FORCED.

When Acting Superintendent of Public Works H. E. Cooper told the police to enforce the wide tire act he probably little suspected that he was toying with a boomerang which would come back and hit the Public Works department very hard. Yesterday four drivers were fined \$10 and costs each in the Police Court and yesterday afternoon Hack Inspectors Macy and Smith still continued on their raid on wagons and drays with their rules and measures when lo—it was found that the Public Works department's own wagons were wanting. Consternation immediately reigned in the camp and today about thirty of these vehicles are said to be in the repair shop having tires put on that will come up to the legal standard.

As a consequence the violators of the law who appeared in the Police Court this morning, five of them all told, were given a continuance of their cases until Dec. 27 in order that they could have new tires put on their vehicles in the meantime.

A Question We Are Always Ready To Answer.

FINANCIAL ARTICLE NO. 8.

WHY

Don't they (bankers and financiers) buy all the stock themselves, if the Phoenix is such a good money-making proposition, in what a great many people ask, when we speak of our director list and the immense financial standing of this company. This question has been asked us thousands of times, and whenever we find a man who is interested sufficiently to ask these pertinent points we know that he wants some stock. It is the one question above all others that shows his interest in the matter and that he is also a thinking man.

First: We would not allow them to buy all of the stock.
2d: If our directors and large financiers and bankers took all of the stock, who would borrow the money? Do you suppose they are in the banking business to borrow money from themselves? No.
3d: In offering the same inducements to the small shareholder as to the large and giving an equitable distribution of the profits to all, we are extending our field of operations for loans, which is the life of the business. A great many people save up for a few years until they have sufficient, with what money they obtain from us, to buy a house and lot for themselves and own it complete in a few years more.

4th: If you were a stockholder in any one of the good banks in the United States would you advise a man to go to a different bank if he should ask you regarding a deposit or a loan? No. Well, then, why should not the shareholders of the Phoenix throw all their influence towards their own company, when they know that it increases their dividends, rather than throw it somewhere else or nowhere at all?

5th: The best advertisement that we can get is the selling of this stock to such a large number of people (up to a certain limit) as the fact of being able to buy co-operative bank stock on installments is something the average man seldom thinks about until it is brought to his attention by our manager and method of doing so, and he, in turn, would not throw anything in the way of someone else taking the stock. Don't you think so?

6th: The distribution of the stock of this company over such a large area of territory to such a large number of individuals in small lots. No maturity of any large amount being due at the same time (all being due at different dates) make it far safer for all concerned than if the money was placed by a small number of individuals in large lots, and such a large quantity due at one time would force or compel us to keep cash on hand which would be idle and not earning anything (something we avoid always), and would also make us not so safe as we are.

7th: The distribution of this stock over such a large area of territory gives us also a distributive class of loans, so that if dull times should come in one more territory the good times in another would more than overbalance it. This keeps money from lying idle (a point we watch very closely), and at the same time prevents any quantity of property where we have loans from coming back on our hands.

There is only one way to accomplish the above results, and that is, to give each member as much of the profits as the other. Are you satisfied with the answer?

We should answer in connection with this question, what is the object of these large financiers and bankers putting up their money to guarantee against loss, etc? They are certainly not doing it for philanthropy, although large financial movements and institutions of any kind have a good many philanthropic ideas and are in a position to put them before the public, so that the public can carry them out with a little effort on their part if they are so inclined. In article 10 we will answer the question above as to why our directors and managers offer such a good proposition to the people.

Wouldn't you like to be a partner in this financial institution with the men whose names are at the end of Article 9, and also know that they are managing and handling your money by the side of their own? They have been singularly successful in their lines of business, and don't you think that the judgment of competent and successful men is better than the judgment of an individual successful man (if you have been a successful man). If you have not been successful, why not try some one of the several classes of our stock, which, in a few years, will give you a competency sufficient to place you in a better position than you are now.

Class A stock, sixty cents a share, payments limited to one hundred. (Soon to be withdrawn). Another stock to take the place of Class A, 70 cents per share (ten different options on this class of stock). Class B, pre-paid, \$60 per share, 5 per cent cash interest semi-annually may be withdrawn, if desired. If not withdrawn it is estimated that it will reach par value between 5-12 or 6 years. Class C, \$100 per share 6 per cent interest guaranteed, payable semi-annually (same as a bond). All of the above are secured by first mortgage on improved (houses and lots) city and town real estate distributed over the entire Pacific Coast and Honolulu. Each mortgage that is made has a stated portion of interest and principal to be paid monthly, thereby increasing the value of the original

mortgage, and reducing what the borrower owes. You have a partnership, as a stockholder, in the assets of the above, and are guaranteed in addition absolutely against loss by the Reserve Fund of \$100,000.00 and a stated portion of its earnings, also by the State law of California under which we operate, also by having these securities deposited with a reliable Trust Company, and best of all, they are non-negotiable and cannot be assigned by us.

WOULD

You like to have an ownership in any one of the good banks of the U. S.?

Would you like it more if you could buy an ownership on the installment plan if you did not care to pay it up at once?

Would you like it still more if you knew that you could earn 6 per cent upwards, according to the length of time your investment remained with this Financial Institution?

Would you like it very much more if you knew that the Directors and Managers guaranteed you (which they do) against any possible loss, by setting aside a large non-withdrawable reserve fund, principally subscribed and paid in by themselves to protect your investment?

Would you like it a great deal more if you knew that the men whose names appear in these articles were managing (which they do) this Financial Institution? They have all been distinctly successful in their several lines of business.

Would you like to learn more of this Financial Institution? Then read these articles and investigate. REMEMBER THAT THE INTELLIGENT PERSON is always willing to investigate. Our most prominent and successful men owe much to their willingness to investigate even the smallest matter that pertains to their interest. If you are no saving money, you should do so. Would you like to know that we are compounding your interest monthly, if you invest with us? We are.

Builders and Traders Want ON CHINESE IMMIGRATION More Detailed Information

At a meeting of the Builders & Traders' Exchange last night, the following resolution was passed after a discussion of about two hours:

Whereas, the Merchants' Association of Honolulu has asked this Exchange to endorse that portion of the memorial to the sub-committee on Hawaiian affairs of the Committee on Pacific Islands and Porto Rico of the United States Senate presented by said Association, in which Congress is petitioned to permit Chinese laborers to enter this Territory to engage in agricultural pursuits only, deportation to be the penalty of violating this provision;

And whereas, the sugar industry is the sole agricultural pursuit for which this labor is sought, and said industry in this Territory is now suffering owing to insufficient and unreliable labor;

And whereas, said Merchants' Association affirm that the only reason for asking Congress to admit such labor into this Territory is "to fill the great gaps in the ranks of (sugar plantations) field hands" and that such laborers "would not displace a single white man from any position or in any sense enter into competition with any white artisan, mechanic or common laborer."

And whereas, almost the entire Oriental population of this Territory, which in 1900 was \$6,878 against 67,123 persons of all other races combined, was originally brought to Hawaii to engage in agricultural pursuits only and in 1901 the Governor reported to the Secretary of the Interior that only 32,513 Asiatics were employed on Hawaiian sugar plantations, leaving approximately 35,000 male Asiatics not employed on sugar plantations;

And whereas, nearly every sugar plantation in Hawaii today employing Asiatics not only as field laborers but as mill hands, carpenters, engineers and in other mechanical pursuits to the injury of white men or Hawaiians seeking such positions;

Resolved by the Builders & Traders' Exchange of Honolulu, Hawaii, representing the great majority of the employers of skilled labor in this Territory engaged in the building and manufacturing lines (aside from the manufacture of sugar) and the firms handling the various materials and supplies used in said lines of business:

First, That a committee of eight members of this Exchange, representing, as near as may be, the several trades, industries and material supply houses connected with this Exchange, be appointed by the President, which committee, with the President, shall be charged with the investigation of the following matters, to wit:

1. To what extent have Oriental laborers heretofore brought to Hawaii to engage in agricultural pursuits only displaced white men or Hawaiians from positions or in any sense entered into competition with any white or Hawaiian artisan, mechanic or common laborer.

2. Cannot the shortage in labor supply at present felt by the sugar plantations be supplied from among the 35,000 Orientals at present resident in this Territory and not employed on the sugar plantations?

3. Would not an amendment to the alien contract labor law permitting the importation of Portuguese satisfactorily supply the labor needed by the sugar plantations?

4. The superiority of Chinese over the present Japanese cane field labor being conceded by the Merchants' Association, what guarantees have the Merchants' Association of Honolulu and the Hawaiian Sugar Planters' Association to offer that, upon being permitted to import Chinese cane field labor, they would not import such labor in quantities which would, to a greater or less extent, supplant the Japanese now so employed and that the Japanese thus forced from the sugar plantations would not displace white men from positions or in any sense enter into competition with any white or Hawaiian artisan, mechanic or common laborer and thus make it increasingly difficult "to promote trade, mechanical and industrial interests by fostering in this community a sentiment in favor of retaining at least a portion of the business of this city for the benefit of American citizens or those eligible to become such and developing this community on traditional American lines." the main object for which this Exchange was organized.

5. Would the members of the Hawaiian Sugar Planters' Association be willing to discharge every Oriental not a citizen of the United States employed on their several sugar plantations in any capacity except that of field hand within six months from the date of the passage by Congress of the special legislation for their relief hereinabove mentioned and thereafter employ only white or Hawaiian persons in their place?

Second, That said committee shall compile from the latest available authentic sources, the most complete statistics relating to the above questions for them to secure within the brief time allotted them.

Third, That in view of the serious condition of the cane field labor supply and the necessity of laying the matter fully before Congress at the earliest date possible and consistent

with the importance of the questions involved to the welfare and prosperity of this Territory, the committee above mentioned to be appointed shall report to this Exchange at its next meeting to be held November 24, 1902, the results of their investigations together with such statistics as they may have been able to compile and any recommendations they may have to make on the premises.

Fourth, That further consideration of the communication from the Merchants' Association be postponed until the next meeting of the Exchange.

Fifth, That a certified copy of these resolutions be forthwith transmitted by the President to the Merchants' Association of Honolulu, the Hawaiian Sugar Planters' Association and the Honolulu Trades and Labor Council and their assistance, co-operation and suggestions respectfully invited, in any manner they may elect, on behalf of this Exchange, its committee and the business and industrial interests represented by it and them.

The foregoing resolutions were the outcome of the following letter from the Merchants' Association:

Dear Sir:—The Merchants' Association of Honolulu, representing the majority of the "white" wholesale and retail traders of this city, presented a memorial to the United States Senate Commission on Porto Rico and Pacific Island possessions in which they petitioned the Senators to use their best efforts to have the United States laws relative to the admission of Chinese laborers so adjusted for operation in the Hawaiian Islands, that they engage in agricultural pursuits only; if this condition be at any time broken, the offender to be deported from the country. We laid this memorial before the Commissioners on the grounds that all trades and business enterprises would be benefited thereby. The need of suitable labor for rice and cane fields has been brought forcibly to the minds of mechanics and merchants alike by the contraction of business enterprise in every direction; large numbers of skilled mechanics have been compelled to leave the country for lack of employment. The Honolulu Iron Works, who do not employ, and never have employed Asiatic labor, are only able to run half their normal force, and the building and kindred trades are almost at a standstill. These conditions we believe are mainly caused by the high cost and scarcity of common laborers in the fields from which the wealth of the country is drawn. As an association of merchants we believe the welfare of all classes, artisans, mechanics and mechanics, in the Islands is dependent upon the successful cultivation of sugar cane and its economical conversion into the marketable product; to successfully bring sugar cane to maturity a large number of field laborers are required throughout the Islands, and this work, which a "white" man is unable, from climatic and other conditions, to engage in with any comfort or success, is at present handled mainly by Japanese laborers; you are doubtless well aware of the unsatisfactory and unreliable character of this class of labor, and to fill the great gaps in the ranks of field hands we believe the plantation managers throughout the Islands are unanimous in their decision that Chinese would best meet the conditions that exist in the cane field, and prove a useful, law-abiding body of men who, while adding to the wealth and purchasing power of the whole community, would not displace a single white man from any position, or in any sense enter into competition with any white artisan, mechanic or common laborer. Our Association was formed for the express purpose of protecting the property and the welfare of the whole community, and to devise and promote such legislation as the associate body may deem wise and expedient for the benefit of the Territory of Hawaii. We name the object and purpose of the Association, as while influential in membership, the body is young, and not as yet known to the public. Before taking further steps to secure Chinese field laborers, we would be glad if you would bring the subject before your Union for an expression of opinion from the members of your society; for we feel that this indispensable relief proposed for the main industry of the country must commend itself to your judgment and we trust that your Union will endorse through its proper officers the action we have already taken in bringing this important matter before the United States Senate Commission. Enclosed you will find a draft of the memorial named and your early attention to this matter will be greatly appreciated.

The committee is composed of the following: President A. G. Bartley, ex-officio; J. F. Bush, James Nott Jr., John Emmelhuth, J. H. Craig, John F. Bowler, Guy Owens, Thomas Sharp and W. W. Harris. These will take up the work of preparing the report. The first step will be the meeting with the Trades Council.

The wireless telegraph service is now open for business to Mahukona and all points on Hawaii and Maui. Telegrams will be received at the Inter-Island Telegraph Company's office, 11 Kaahumanu street.

AMERICAN BANK SYSTEM

STRAIGHTFORWARD METHODS ARE THE CHARACTERISTICS

PRESIDENT HERRICK'S REPORT TO AMERICAN BANKING ASSOCIATION—SCOTCH BANKING.

New Orleans, Nov. 11.—The American Bankers' Association began its annual meeting here today in Tulane Hall. After a prayer by Rev. Dr. Beverly Warner, addresses of welcome were made by Acting Mayor William Mehl, City Attorney Samuel L. Gilmore, on behalf of the city; Prof. W. C. Stubbs, on behalf of Governor Heard, and by R. M. Wainwright, of the Clearing House Association, on behalf of the local bankers.

President Herrick replied to the welcomes and delivered his annual report.

Mr. Herrick declared that in this age of combinations and so-called trusts "aiming at the restriction if not the entire removal of competition, a movement reaching far and wide in trade and productive industry, the banks have gone on in the old way, every one for itself, wedded to the idea of individuality and independence as a cherished tradition. The banks of the United States stand before their country and the world, examples of solidarity, conservatism and straightforwardness. In its very nature banking is the opposite of the business of any trust, of the type which constitutes a political storm center. There can be no monopoly of product in banking, nor can we imagine a combination among debtors that would restrict commerce, yet we must acknowledge it to be the chief business of banks to become debtors. Collectively, they constitute the circulating system of the vital fluid of commerce, and while acting harmoniously are productive of the greatest good.

"These facts are too big and plain to go unnoticed by the average American. There is no dodging their meaning. They acquit banks and bankers of the charges which at various times and in certain places have been made to pervert public sentiment and to prejudice the public against a class of men whose notable services are too often discounted by ignorance and thoughtlessness."

A few years ago, said the speaker, the Knights of Labor excluded from membership only three classes, saloonkeepers, lawyers and bankers, and a painfully large number of men outside of the order thought the grouping was sensible. The sentiment, he said, has been greatly weakened by the logic of events, but he added: "The impression that Federal legislators have that much of this prejudice and suspicion remains, makes bankers, as a body, an unpromising sort of proposed legislation on the money question. As individuals, working directly with Senators and Representatives, party leaders and political organizations, the members of our association can exert far reaching influence on the side of common sense and sound policy. But as an assemblage of bankers could this convention take positive action in favor of any sharply defined and finished scheme of financial legislation without great danger of hindering rather than helping the wise and permanent development and improvement of the money system of the United States."

The speaker thought not. Mr. Herrick spoke of the great efficacy of the Scotch banking system, with its circulating notes secured by assets of banks of issue and its multiplication of branches supporting the central institution in emergencies, but expressed doubt that such a system would be good for this country. He cited the panics of 1891 and 1892 in Australia to show the effect of the branch bank system in a country where speculation greatly inflates values. He spoke of the increased production of gold and the consequent expansion of the circulating medium and sounded a note of warning against the resulting tendency to over-speculation.

"DEUTSCHER TAG" CELEBRATED.

New York, Nov. 9.—"Deutscher Tag," a German festival which has been celebrated in other parts of the country for over twenty years, was observed for the first time in this city this afternoon and evening. Ten thousand Germans gathered in Madison Square Garden and made festival in memory of the first landing of Germans in America. The ceremonies were honored by the presence of Prince Henry von Pless, the representative of the German Emperor at the dedication of the new Chamber of Commerce.

The rush of law firms to volunteer in the defense of Attorney Magoon indicates that he is by no means without friends. With its organization complete the Senate has now cleared the decks for the serious work of assisting in the selection of capable men for public of- fice. The Philippine government has re- pealed the income tax on salaries which was one of the hold-overs of the Spanish regime. Hawaii ought to fol- low a good example when the Legisla- ture meets. San Diego has decided that it pays to employ an expert for the manage- ment and improvement of its city park system. Honolulu ought at least be able to keep pace with the smaller Cal- ifornia cities. While Stephen Desha's affidavit was not sufficiently definite to convince the Senate that the credentials of Ha- waii Senators should await a recount, the details Mr. Desha gives, coupled with the narrow margin of his defeat, leads many to believe there is a prob- able doubt in the returns. Deciding between two capable men was a diffi- cult task for the Senate, but Hilo will not be satisfied till it gets a recount. **THE MUNICIPAL PLAN.** Not all the work of organizing coun- ty and municipal government in this Territory is to be found in the mere framing of the act which the Republi- can Commission has now in hand. All too many of our citizens appear to hold the opinion that county and municipal government is much like a suit of clothes; the tailors cut it out and the Territory has nothing more to do but put it on. Framing the law, cutting the garment, is most decidedly an im- portant task and will require the un- divided attention of the gentlemen now engaged on the necessary enabling acts, there is, however, a mass of in- tricate detail in properly fitting the new laws to the present framework that will require the exercise of the best legal and business talent, govern- ment officials and the business com- munity can muster. Transfer from the former independ- ent government to a Territorial form was as nothing compared with the technicalities which now face the peo- ple of the Territory and must eventu- ally be passed upon by the Legislature. The extent of the authority granted by the Organic Act, the transfer of prop- erty, the apportionment of taxes are all matters which must be sifted in all their devious details to prevent the possibility of encountering unexpected snags that may delay and even defeat the whole work of a legislative session. To make a law is not all that has to be done. Unless extreme care is shown the people may discover that while the municipal law may read smoothly, it may inadvertently come in contact with Territorial laws so that the prac- tical working will amount to an exam- ple of the square plug and the round hole. County and municipal government means the complete reorganization of our Territorial system. To accomplish this without the possibility of a dead- lock between the old and the new, it is an absolute necessity that the legal branch of the present government should be searching its records, fram- ing its plans, outlining its policy so to speak, in order that the Legisla- ture may have a clearly cut program that can be carried through rapidly. The municipal program should be com- plete in every detail, so far as the party and the government are concerned when it goes before the Legislature for discussion. The plan should be care- fully reviewed at every point. The legal generalities and intricacies must be perfect. If the Legislature sees fit to make changes that is the Legisla- ture's business. There can be no doubt about the preliminary necessities. Our Attorney General's department has as much if not more important work before it in this connection as the municipal commission, and it is to be hoped the department will be able to carry its part out as accept- ably and speedily as is now being done by the Commission. **HUMAN FORM DIVINE.** The semi-religious and virtuous Out- look which boasts superior refinement in its list of subscribers has brought out an edifying discussion on the display of the human form divine by pub- lishing the following paragraph on the style of magazine advertising: "There never were prettier girls anywhere than est candy continually on the Am- erican advertisement page, or chubbier babies partaking perseveringly of pa- tent foods, or more lifelike animals posing as trade marks, or happier households than those which gather round a new kind of lamp, or more brilliant parties than assembled here to enjoy the latest sort of musical instru- ment." This has led the no less staid and conservative Hartford Courant to re- port: "This is reasonably correct so far as it goes, but, if the writer of the paragraph isn't blind, why cut it off so short in its very prime? Why did not he or she refer to the buxom girls in disabillie trying on corsets? None buxomer can be found. Why didn't he discuss the relative curves of the well- proportioned young man and woman who stand before the family in their knit drawers and undershirts and, like Adam and Eve, are not ashamed? Hasn't he observed the lady with un- done hair and bath robe half-undone who will be in the tub in half a min- ute? These, too, are an essential part of the beautiful modern art of family advertising. They should not be omit- ted from any comprehensive eulogy." The Courant thus calls attention to the "semi" section of The Outlook's religion and refinement. Religious journals of which The Outlook is a type become semi-religious and semi-refin- ed when there are dollars in sight. This was brought out in the Congres- sional investigation of Cuban affairs, when it was found that a portion of the insular funds expended for the pro- motion of reciprocity went for the pub- lication of articles in The Outlook which supposedly ranged above the plane of periodicals accepting filthy lucre for opening its columns to exploiting the desires of irreligious schemers. **HILLO HAS TWO MEN.** [Hilo Tribune.] No better solution of the Treasury vacancy could be made by Governor Dole than to offer the place to C. A. Stoble, cashier of the First Bank of Hilo. The Tribune does not know whether Mr. Stoble would accept the office if tendered him, but it does know that Governor Dole cannot find a more capable man in the confines of the Ter- ritory than Mr. Stoble. The right of Hilo to recognition at this time is ap- parent. The political loyalty of this island, as shown in the election re- turns, leaves nothing to be said. It only remains to be seen whether the ruling power at Honolulu will be broad-minded and generous at this juncture. The sterling qualities of C. A. Stoble, personally, and the ex- ceptional qualifications he possesses by reason of his long experience in the financial world make him the ideal man for the important post of Treas- urer in the Territory of Hawaii. There is not a man in Hilo who wishes J. H. Boyd other than the com- pletest vindication in the inquiry now on foot regarding his management of the Public Works Department, and least of all would A. H. Loebenstein desire to make capital out of the hard luck of a friend. Yet in this connec- tion the Tribune desires to call the at- tention of Governor Dole to the fitness of Mr. Loebenstein for the position of Superintendent of Public Works. Hilo and the island of Hawaii are entitled to consideration when there are va- cancies to fill and scrutiny of the ex- ceptional qualifications elsewhere would lead Governor Dole to reflect upon the claims of this island and the fitness of Mr. Loebenstein, should it appear that a real vacancy in the De- partment is inevitable. **SLEEPY JUDGES.** [Hilo Tribune.] That Republican judges of election would allow Home Rule kickers to stand by the ballot box in Hilo and de- liberately count out the Hilo Republi- can candidate for the Senate does not show a very energetic Republicanism, to say the least. It is stated by way of extenuation of the treasonable neg- ligence, that the judges thought Desha was sure of getting there any way. When it is further remembered that J. T. "tacker" was the most conspicu- ous official around the booth a new line of conjectural thought comes spinning into view. Could Stacker have been seeking to deliver a "slap at Dole" in his own inimitable way? He has said in his Herald that there are white men in Hilo who are said be- cause the "Dole slap" failed to mate- rialize. It is plain now that Stacker did all he could do to make it mate- rialize, glibly covering his tracks with "Oh, well, we'll have votes enough any way." By all means recount the Hilo votes. The people are entitled to have their will prevail regardless of the motives of judges of election. A considerable trade in live quails taken place yearly from Messina to the United Kingdom. The birds are caught in the neighborhood of Mess- ina. They are kept from three to four days in cages before being shipped, and are fed on hemp seed and ground corn and are watered freely every day. It is estimated that from 90,000 to 100, 000 are caught annually. The most costly sword in the world probably belongs to the Galkwar of Baroda. Its hilt and belt are encrust- ed with diamonds, rubies and emeralds valued at \$1,100,000. **HOLO VOTE STANDS** (Continued from Page 1.) of the choice of the people of the First Senatorial District. STEPHEN L. DESHA. Subscribed an oath to before me, this 20th day of November, 1902. EDWIN H. HART. Notary Public, First Judicial Circuit. Senator McCandless moved that the protest be indefinitely postponed and that Senators Woods and Paris be seated. The whole thing was really a dispute between outsiders and the reg- ular tally keeper and there was no reason whatever why the report should not be laid on the table. In seconding the motion of Senator McCandless, Senator Dickey stated that there was not only not sufficient basis for the protest but it was very ridiculous. If the protest were to be allowed, there would be protests of the kind from all over the islands. It might be different if it was a matter between Senators of different parties but it was a contest between two Re- publicans and the matter should be dropped. Senator J. T. Brown counseled care in the matter. He was one of the Sen- ators from the island of Hawaii and he had heard a great many references made to irregularities. In fact, he had been asked to do what he could about it. It would be very bad policy to cast aside the voice of the people of Hawaii. Personally he knew both the Senators concerned and he was a friend of both. With Senator Paris he had sat on one of the committees at the last session of the Senate and he had found him to be perfectly just in every matter. In fact, the committee which he and Sen- ator Paris had been on had succeeded in getting along better than any of the others. This was on account of the fairness of Senator Paris. Senator Brown thereupon went into the details of the claimed discrepancy in the election returns from the First Senatorial District. The official count had shown Paris to be one vote ahead of Desha and yet previous to this an- nouncement it had been stated that Senator Desha was the one elected. Senator Kalaupokalani said that the protest called for a recount of the vote for Senators of the whole island when, as a matter of fact, the protest was only from the Fourth Precinct. If any action were to be taken in the matter only the votes in the Fourth Precinct should be counted. Senator Achi said that if the pro- test were allowed it would mean that there would be all manner of protests before the Senate. It would be setting a very bad precedent. No attention should be paid to the protest. If it had been made at the time that the discrepancies were noticed, there might have been some force behind the proposition. However, it had not been filed until after the official announce- ment had been made that Paris had been elected. Senator Paris was at this point and at his own request, allowed a voice in the debate. He being one of the parties concerned. The Senator-elect stated that the affidavit placed before the Senate for the consideration of that body was the affidavit of just one man, unsupported by any others. If every disappointed candidate were to begin sending in protests of the kind, there was no telling where the matter would end. He did not wish to say that the man who had filed the protest had not told the truth as he saw it, but he did wish to say that an affidavit of the kind should be supported by evi- dence and not hearsay evidence. Senator Crabbe remarked that the protest was ill-advised. If it had been a case of Senators on opposite sides politically then the Senate might take the matter into consideration but such was not the case and the matter should be dropped. The whole ques- tion had been settled on by the party and there was no reason for bringing it up at this stage of the game. Sen- ator Crabbe thereupon moved the pre- vious question which was carried. This ended the debate. Senator Dickey moved that the report of the committee be adopted and that Sen- ators Paris and Woods be seated as reg- ular members of the Senate. On motion of Senator Crabbe, the same committee that had been over to the Judiciary building to attend to a call on a Justice of the Supreme Court, was again instructed to perform the same duty. A recess of ten minutes was then taken and after a little while, Chief Justice French again appeared on the scene and swore in the two re- maining Senators. On motion of Senator Achi the rules for the session of the Legislature of 1901, with the exception of that part from Section 22 to 28, inclusive, were adopted as the rules of the special ses- sion of the Senate. The sections refer- red to relate to standing committees. On motion of Senator Isenberg, the following were elected permanent offi- cers of the Senate in special session: C. L. Crabbe, president; J. D. Paris, vice-president; Wm. Savidge, secre- tary; John E. Bush, interpreter; Rev. J. Kalini, chaplain; Isaac Corbett, sergeant-at-arms; Solomon Paawela, janitor, and David Kama, messenger. The name of David Kama was pre- sented by Senator Achi as an amend- ment to the resolution of Senator Isen- berg. Senator Nakapahu presented the name of John Kaholani as janitor but he was not considered. A motion was made by Senator Ka- huakalani to the effect that the con- sideration of the names of the perma- nent officers be postponed until this afternoon. There was a tie vote; Sen- ator Dickey being out of the room at the time, and the chair voted against the motion to postpone consideration. The resolution of Senator Isenberg was adopted on motion of Senator Achi. On motion, the chair appointed Sen- ators Achi and Dickey a committee of two to escort the president, Senator Crabbe, to the chair. This was done and the President thereupon swore in the permanent officers, after which he addressed the Senate in the following words: Fellow-Senators—I thank you heart- ily for the honor which you have con- ferred upon me in electing me to so high a position. I shall endeavor to execute the duties of President of this Senate with justice to all, as I may construe it. Your co-operation I ear- nestly solicit. Without it any efforts on my part will be of little avail. The duties which devolve upon the Senate at this special session, which His Excellency the Governor has deemed necessary to summon, are of a particularly important character. They need the exercise of our most careful consideration and judgment. We must determine that justice shall be done and that right must prevail. Only in this way can the business of this Territory be progressively and honestly administered so as to keep the confidence of the people, whom we represent in this branch of the Territo- rial Legislature. Gentlemen, I thank you once more for the honor you have conferred upon me, and again ask your hearty co-op- eration in the performance of my duties. On motion of Senator Dickey, a com- mittee consisting of Senators Baldwin, Achi and Kalaupokalani was appointed to call on Governor Dole for the pur- pose of instructing him that the Sen- ate was ready for work, and would consider matters to be presented by him after the noon recess. The Sen- ate thereupon took a recess until 2 o'clock. **HOP MEN PROSPER** Portland, Or., Nov. 8.—While pro- ducers in all lines in the Pacific North- west have had a profitable season, the wave of prosperity has perhaps rolled highest among the hop men, and many who were poor last year are wealthy now as a result of the high prices reached by this commodity. The most notable yield of hops reported in the Northwest was on the farm of Homer Beady of Toledo, who harvested 2,500 pounds of dried hops per acre upon his fourteen-acre field. This brought him an income of almost \$600 per acre. In Oregon there are many growers who had over \$20,000 worth of hops this year. One man has just sold his crop for \$32,000. The average price of hops in this market today is 25 cents, and the market is firm at that figure, with no indications of the value of choice stock receding. A feature of the past week has been the appear- ance of London as a buyer in the Oregon market. From 8,000 to 10,000 bales have been taken by British buyers since the beginning of the week. The pineapple crop in Cuba for 1902 is estimated at nearly 200,000 barrels, holding an aggregate of 14,000,000. **PACIFIC HARDWARE CO., LTD.** HARDWARE CO. In two of the city schools pupils to the number of 400 have refused to return to the class- rooms until their favorite teachers are returned. At Andrew Jackson School the matter has become serious, while at the Hammond School trouble is growing. The Hammond School promises to be even more rebellious than the Jack- son, for at the former institution the parents are supporting the children who objected to the transfer of Miss Celia Schmekel. The Bohemian Ameri- can in this district assert that Miss Schmekel was transferred because she paid particular attention to Bohemian and Polish students to the exclusion of others. At the Andrew Jackson School today a scene unprecedented in the history of Chicago strikes was enacted. All the scholars from room 3 congregated at the entrances when the hour for the session arrived, and, through active "picket" work, succeeded in keeping fully 200 of the children from entering the classrooms. Later an or- ganization was formed and cards bear- ing the words "United Scholars: We are on strike with our parents' con- sent," were pinned on the hats of the boys and on the coats of the girls. When it dawned upon Superintendent Hedge that the pupils were gaining ground so rapidly, he asked for assist- ance from the Maxwell street police station and officers and detectives were sent to quell the disturbance. Emilie Zola was asked recently by a French journalist to give his ideas re- garding education. He replied: "I was educated at the municipal college at Aix and the Lycee St. Louis in Paris. I lost my father when I was quite young, and as my mother was very weak in her attitude toward me, I was able to develop in my own way. I did not learn to read till I was eight years old. I may say that I educated my- self, and I think that is the best way. I do not believe in school education." BY AUTHORITY

Public notice is hereby given that the undersigned Superintendent of Public Works has returned to the city of Honolulu and resumed his duties as such; that all and every act of any person who may have assumed or pretended to act as Superintendent of Public Works, to which office I was duly appointed on May 23d, A. D. 1901, by the Governor, by and with the advice and consent of the Senate of the Territory of Hawaii, at any time since said date, is wholly null, void and of no effect whatever, and will be so regarded, held and treated by me.

JAS. H. BOYD, Superintendent of Public Works, Honolulu, H. T., Oct. 29, 1902.

PROGRESS BLOCK SUIT

CONVICTED CRIMINALS RECEIVE SENTENCES

ASHFORD FOUND NOT IN CONTEMPT—ADMINISTRATOR MUST REFUND THE PROCEEDS.

Action on a promissory note for \$55,000 has been entered in the Circuit Court by the German Savings and Loan Society against C. S. Deaky and wife and Bishop & Co. The note is secured by mortgage on the Progress block, at Fort and Betaniana streets, made February 19, 1902, with interest of 6 1/2 per cent and a condition of foreclosure for the whole amount on default of interest payment. It is alleged in the petition that the relations of Bishop & Co. to the property began subsequent to the execution of the mortgage to plaintiff. The prayer of the petition is that a receiver be appointed to take immediate possession of the mortgaged property and collect the rents and apply the same as directed by the court; that the plaintiff be given judgment for \$55,000 with interest and \$1000 as costs of the suit and that the property be sold and the proceeds applied to the note. Judge Gear appointed W. G. Cooper as temporary receiver.

Judge De Bolt sentenced three defendants yesterday. William Hoopal, for stealing calabashes, was given imprisonment at hard labor for two years with payment of costs. Harado, who pleaded guilty to larceny in the first degree on the charge of stealing \$110 from Kosuka Matsuo, was sentenced to a term of three years. Kimura, for stealing jewelry worth \$127 from Mrs. Oida, was given the full limit of two years for larceny second degree.

The jury that tried F. B. Blackburn for needless driving failed to agree. Mr. Douthett stated he would prosecute the case again at next term of court.

W. C. Parke as administrator of the Estate of Katherine Auld was ordered by Judge Gear to repay into the court the sum of \$993, turned over to the heirs without an order of court. It seems that the administrator sold the household effects of the deceased at auction for \$1420 and accepted receipts amounting to \$993 from various heirs, being the amount of their bids for family heirlooms. Judge Gear held that this was a distribution of the estate without authority and Parke was ordered to repay into court the amount so distributed.

Judge Gear ruled that C. W. Ashford was not in contempt in going upon the property in dispute in the case of Kainahaole vs. J. O. Carter and S. C. Allen. Ashford demurred to the citation, claiming that the order of injunction was directed to the defendants and not to the plaintiffs. He argued that at most his action could only be constructive contempt, and quoted the Supreme Court decision in the Walter G. Smith case in support of his contention. The court held that no contempt of the order was shown, as it was not directed to the plaintiffs. At the same time he said the status quo should be maintained and neither party interfere with the possession of the property.

The Supreme Court in the case of Territory vs. Wong Shin King. It is the Chinese libel suit, wherein the defendant made serious allegations against the Chinese consul, and was sent to prison by Judge Gear.

DEADLOCK IN SIGHT

Denver, Nov. 7.—Practically complete returns have now been received from every county in the State, and they show that the Legislature will stand on joint ballot, according to the face of the returns, Democrats 54, Republicans 46. This is a gain of one Democrat from estimates heretofore made.

Should the Republican majority in the House unseat the fifteen Democrats elected in the Arapahoe districts, as proposed, the Legislature, on joint ballot, will stand, Republicans 62, Democrats 38.

At a caucus today of a number of Democratic members of the new Legislature it was decided that if the Republicans take revolutionary tactics to unseat Teller men in the House, the Senate, which is strongly Democratic, will not meet in joint session with the House, and the deadlock the Legislature so that it would be impossible to elect a successor to Senator Teller.

A committee of three from the Senate and five from the House was appointed at this caucus to combat the efforts of the Republicans to control the Legislature by undue means.

The committee is composed of Senators Francis Graves, John A. Rush and William H. Adams (all hold-overs) and Representatives-elect Belford, Moler, Stubbs, Murto, Paul and Garman. The committee will at once call a joint caucus of Democratic House and Senate members from all over the State, with the idea of binding them in an agreement to check the efforts of the Republicans to secure a majority vote on joint ballot.

CUBAN TREATY.

Washington, Nov. 10.—While the Cuban reciprocity treaty remains in Havana, President Palma has supplied to Senator Quesada, the Cuban Minister here, full instructions as to the representations to be made to the United States Government respecting it, and these have already been made known to Secretary Hay. It is gathered that the main issue between the negotiators is the rate of rebate to be allowed upon Cuban sugar and tobacco entering the United States, and as indicated last week, it is probable that there will be a compromise between the 25 per cent which the United States Government is willing to allow and the 50 per cent which the Cubans demand.

ANSTHEY'S NEW PLAY.

London, Nov. 9.—"Lyre and Lanet," a new play by F. Anstey, was produced at the Royalty Theatre to-night with only moderate success. The plot is based on a case of mistaken identity not unlike that in "The Man From Blankley," but the critics declare it is not so bright nor so well carried out.

Garner Has Supply Of Monkey Talk

New York, Nov. 8.—A special to the Sun from Philadelphia says: Prof. Garner, the Boston anthropologist, returned to this country today after several years spent in the jungles of Africa, where he has been studying the characteristics of the monkey and apes, especially as to the sounds they make in communicating with one another. He was a passenger on the American Line steamship Westernland, which reached port today. He left immediately for Boston, but before taking his train said: "I've only time to say that I have about 200 phonograph cylinders filled with monkey talk. I spent weeks in a cage in the jungle taking the records. I have made, I think, some important discoveries, and I'll tell about them this winter in Boston, when I get my data arranged."

ELEPHANT WAS HUNG

New York, Nov. 8.—Mandarin, the biggest elephant in the Barnum & Bailey circus, was put to death by strangulation tonight on the transport Minneapolis, which brought the show to port today. Mandarin's death was decreed because on the voyage over he became unmanageable. The execution was carried out expeditiously. Mandarin apparently suffered little and what struggling he did when the rope was tightened around his neck was barely perceptible. The circus people say he died in eight minutes.

Several men passed around the elephant's neck a three-inch rope, the ends of which were taken up by two steam winches. Soon the rope was drawn taut by the engines. As the rope went on pulling, Mandarin didn't struggle, and made absolutely no sound. The rope was soon tight enough and was merely kept so. In a few minutes the big fellow collapsed. While it was thought he was dead in eight minutes the rope was kept tight on him for half an hour. The carcass was put on a barge and buried at sea. The elephant was valued at \$12,000.

RURAL DELIVERY COST.

Washington, Nov. 8.—The annual gross cost of a complete rural free delivery service throughout the United States will approximate \$24,000,000, according to the annual report which First Assistant Postmaster General Wynne today received from August W. Machen, General Superintendent of the service. The remaining 700,000 square miles not now covered by rural free delivery service, according to the report will require the employment of 25,000 or 27,000 carriers in addition to those now employed, making the entire force of carriers when the extension of the service is completed, within the next three years, 40,000. After this extension is completed the annual rate of increase in the appropriations is expected not to exceed 8 or 9 per cent, the rate maintained in the other branches of the postal service.

To extend the service 12,000 routes a year until it becomes universal, the report says, will require such largely increased appropriations that the annual postoffice deficits for the ensuing two or three years will probably reach \$5,000,000 or \$10,000,000, if not more; but, once the service is completed the additional revenue derived will soon reduce the deficits to present figures, if not entirely wipe them out.

On July 1st last, the city free delivery service embraced 933 cities, including four in the insular possessions and the total number of uniformed letter carriers in the city service was 17,875, as against 16,389 the previous year. It is estimated that the free delivery will be extended to seventy-two offices during the current year. It is also estimated that the expenditure will aggregate \$21,328,300 for the maintenance and extension of city delivery service during the fiscal year beginning July 1, 1903.

IMPERIAL TROOPS SLAY THEM BY THOUSANDS

THEY HAD DESTROYED TWO CHURCHES AND MURDERED MANY NATIVE CONVERTS.

Victoria, B. C., Nov. 7.—Mail advices received from the Orient include official reports from Kwei Chun, ex-Viceroy of Sze Chuan, detailing the recent Boxer outbreak there. After relating the incident leading up to the destruction of the churches in the two districts and the murder of many native converts, the report says:

"Several regiments of troops were sent to the disturbed places and, besides slaying 200 or 300 of the insurgents, the troops succeeded in capturing several, who were brought to Chengtu and decapitated.

"Between 5,000 and 6,000 Boxers had assembled in Hwayang Hsien, Chintangshien and Chienchow, where they occupied the market towns and killed as many captives of the train bands as they could get hold of. A small force was sent to the Boxers to exhaust them to disperse. I did not take stringent measures on this occasion because I feared that among the Boxers there might be many famine-stricken inhabitants who were not disposed to do evil, but were simply misled by the Boxers. A fight followed and 200 Boxers were killed and the others driven back. The force sent was obliged to return.

"The report describing the attack on Chengtu, where three regiments and 600 bannermen had been assembled for defense, says: 'The Boxers attacked the imperial troops in the outskirts of Chengtu and a hot battle followed, which lasted for a whole night, with the result that between 400 and 500 of the rebels were slain, about 1,000 were dispersed and the rest retreated to Chintangshien, where they burned the churches and put many native converts to death.

"When the imperial troops were dispatched to Chintangshien the Boxers proceeded to Hsiao Chin Ping, where they joined forces with other insurgents. A battle was fought there and 300 Boxers were put to the sword. Deceived there the Boxers fled to the hills at Suchiawan, where they found refuge for the time being, but re-enforcements of imperial troops arrived and marched against the rebels in Suchiawan in three different directions, slaying about 1,400 of them and captured thirteen alive, who were beheaded on the spot after undergoing a formal trial.

"Concluding the report says: Although there still exists elements of disorder, there is not much to be feared from the Boxers, because all the rebel chiefs have been exterminated.

WOOD'S CANTEN VIEWS.

New York, Nov. 9.—General Leonard Wood, who went over with General Corbin and Young to represent this country at the German war maneuvers, arrived today on the American line steamer St. Louis. General Wood was accompanied by his family.

"I remained after General Corbin and Young," said General Wood, "in order to visit Scotland with my family. The Generals and myself were treated very kindly both in Germany and in England. We were granted every facility for seeing the workings of the military systems and have seen many things which were not only interesting and instructive, but will be useful if adopted in this country."

General Wood was asked whether he is in favor of establishing the canteen in the Army. He replied: "My canteen reports are on file. General Funston has come out strong for the canteen, has he not? I think we are all of one opinion on that subject." General Wood went direct to Washington.

Prince Henry of Prussia, who comes to represent the German Emperor at the dedication of the New York Chamber of Commerce on Tuesday, was also a passenger on the St. Louis.

o'clock p. m. on said last-mentioned date.

"And upon such said information, which this deponent believes to have been true, deponent avers that the notice of appeal now on file in this cause was not so filed until at or about 15 minutes past 12 o'clock p. m. on said last-mentioned date, and that said defendants Meyers and Brown and each of them neglected and refused to obey the mandate of said writ both before and after the filing of said notice, though specifically requested to obey the same before said notice of appeal was filed, and at a time when they well knew that no notice of appeal had been filed herein.

"And that thereafter on said date, to wit: at 12:30 o'clock p. m., deponent was informed by John M. Kea, a clerk in the office of the Attorney General of the Territory, and deponent believes and on such information and belief alleges that he, said Kea, had filed said notice of appeal at 15 minutes past 12 o'clock p. m. on said date."

Rhea Believes His Opponent Elected

Bristol, Va., Nov. 10. — Congressman Rhea (D.) of the Ninth Virginia district, today issued a signed statement in which he said in reference to the rejection of the precincts of Patton and Mendota in the returns from last week's election, that while he is sure the Commissioners were honest in their belief that the returns should be rejected, he believes the votes belong to Slomp (R.), and would probably elect him, and if a certificate of election is issued by the State Board to Rhea, based on the exclusion of the votes mentioned he will decline to accept it."

Removal Sale

Mrs. Crossman of the Wonder Millinery Parlors, now on Beretania street, wishes to announce that she has secured a store now being built on Fort street and will locate there as soon as finished and in order to reduce the very large stock of trimmed hats now on hand, will sell for the next two weeks at a very low figure. All wishing fine millinery at low prices should not miss this opportunity. Remember the place, 248 Beretania street.

Why do Bookkeepers, Stenographers, Seamstresses, and people who use their eyes a great deal suffer WITH NERVOUS HEADACHES?

A great deal of space could be devoted to this subject, but we feel that a word to the wise is sufficient, and therefore we simply state plain facts. The eye in its effort to give good vision through the process of accommodation, uses an over amount of nerve supply and by reflex headaches result.

It costs you nothing but a little of your own time to find out about your eyes. We invite you to call and consult our Optician.
