RESOLUTION NOW

Friends of Annexation Look for Successful Issue.

BACON HAS AMENDMENT READY

To Submit Question to Hawaiians. Davis Will Move to Lay On the Table.

WASHINGTON, March 16.—The Senate today ordered a favorable report on the joint resolution providing for the annexation of the Hawaiian Islands. This is an indication that the Senate committee has not abandoned its intention of making the Islands a part of this Republic. As to the success of the measure in the House, there is more room for a difference of opinion, but the Senate is willing that upon that body should be thrown the responsibility for the success or failure of the Administration's policy. If the question resolves itself into a struggle between Speaker Reed and the President there is very little doubt as to the outcome. The power of the Administration is vastly greater than that of the Speaker, and the Speaker would be crushed in his efforts to overrule the Executive.

Chairman Davis has indicated no time when he will call the joint resolution up, but as soon as the Senate calendar is clear of the appropriation bills that are pressing he will bring the resolution forward and press it for continued consideration. Several members of the committee with whom The Times reporter talked yesterday said that under no circumstances would they be willing to vote for an adjournment of Congress until the subject of the annexation of these Islands had been disposed of. Many of the speeches that have been made in executive session will be repeated in open session. The injection of this subject into the business of Congress, whatever plan may have been arranged by those who imagine they are in absolute control of the movements of Congress.

The text of the resolution providing for the annexation of the Islands is as follows:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled: Section 1. The Government of the Republic of Hawaii having in due form signified its consent, in the manner provided by its Constitution, to cede absolutely and without reserve to the United States of America all rights of sovereignty of whatsoever kind in and over the Hawaiian Islands and their dependencies, and also to cede and transfer to the United States the absolute fee and ownership of all public government, or crown lands, public buildings or edifices, ports, harbors, military equipment, and all other public property of every kind and description belonging to the Government of the Hawaiian Islands, together with every right and appurtenance thereunto belonging. Therefore,

Be it resolved and enacted, That the said cession is accepted, ratified, and confirmed, and that the said Hawaiian Islands and their dependencies be and they are hereby annexed as a part of the territory of the United States and are subject to the sovereign dominion thereof, and that, all and singular, the property and rights hereinbefore mentioned are hereby vested in the United States of America. The resolution then adopts the language of the annexation treaty, beginning with the second paragraph of the second section and taking all the remainder of it, but does not cite it as a part of the treaty. One hundred thousand dollars is appropriated by the third and last section for the purpose of carrying the resolution into effect, and this sum is made immediately available.

The report accompanying the resolution consists of 115 printed pages, much of which is made up of appendices of a statistical and historical nature. The report proper deals with the conditions in Hawaii and is treated by Chairman Davis, in an elaborate manner.

The report deals largely with the subject of the policy of annexation as applied to Hawaii, and the conditions more recently existing between Hawaii and the United States, indicating the manifest destiny of those Islands as a part of the great Republic of the Western Hemisphere.

The most fatal blow that could be inflicted upon the people of the Islands, Mr. Davis says, would be the refusal of the United States to welcome them into the Union.

After discussing the various races in the Islands, the report continues: "It is beyond question that as a factor in government the united white race is indispensable to the safety of the people of Hawaii, and they could not control the Islands without the frequent presence, if not the constant attendance of the warships of the United States and of the

European powers. If these vessels were withdrawn for the period of a year civil strife and bloodshed would ensue and result in the rule of some white man as dictator. If during such a period a Japanese man-of-war was at Honolulu the result would be the capture of the Islands by Japan or by filibusters from our Pacific coast. When the white race in Hawaii is subjected to Kanaka rule these Islands will fall into speedy ruin, unless some maritime power shall take immediate control of them."

Referring to the interest of Great Britain in the Hawaiian Islands, Mr. Davis says: "It is no less than a blind confidence in the impossible, to assume that Great Britain has no special interest in Hawaii, when that is the only missing link in the cordon of fortresses with which it is her proud ambition to girdle the world. She still has and will ever have a most important use for dominion in Hawaii."

TREATY HOPES.

Status of Hawaii in House Looks Improved.

WASHINGTON, March 17.—On every hand is the feeling among the friends of Hawaii that the resolution reported by Senator Davis yesterday will be passed by the Senate very quickly. Senator Pettigrew, who in the absence of Senator White is the principal opponent of annexation, said today that he did not believe there would be much more delay, even with appropriation bills coming in between, and that Hawaii has sufficient votes is certain.

The status of Hawaii in the House is believed to be greatly improved. Representative Dingley of Maine, the closest man to Speaker Reed, is now in favor of the passage of the treaty, and as Representative Henderson of Iowa and other lieutenants of the Speaker are on the same side, it is believed the vote will be made before Congress adjourns.

The Administration, it is acknowledged, will take an active part in this fight, and McKinley is believed to be a bigger man with the lower house than the Speaker.

HAWAIIAN ANNEXATION.

A Vigorous Fight to Be Made On the Bacon Amendment.

WASHINGTON, March 20.—That a strong fight will be made on the Bacon amendment to the annexation resolution, which leaves the question to the vote of the people, was indicated today, when Senator Caffrey of Louisiana said he would make every effort to have the course of the proceedings the same in the case of Hawaii as in that of Texas. This will be bitterly contested by the annexationists.

It is still Davis' intention to move to lay the amendment on the table as soon as Senator Bacon concludes his speech in its support.

TO QUESTION CURZON.

He Will Be Asked Concerning the Hawaiian Accusation.

LONDON, March 21.—Sir James Ferguson, Conservative member for North-west Manchester, will ask George Curzon, Parliamentary Secretary for the Foreign Office, tomorrow whether there is any truth in the accusations brought by the committee of the United States Senate against England with respect to Hawaii.

Bacon's Amendment.

Call Office, Riggs House, Washington, March 21. After the transaction of some routine business in the Senate today Bacon of Georgia introduced an amendment which he announced he would offer to the resolution providing for the annexation of the Hawaiian Islands to the United States. The amendment provides that the resolution shall have been submitted to the qualified electors of Hawaii and passed upon affirmatively by them. The amendment is the same that Bacon offered to the Hawaiian treaty and is still pending.

Hiram Bingham Selected.

Hiram Bingham III, who will graduate from Yale in June of this year, will reach Honolulu August 2d, and will at once be installed as pastor of the Palama chapel. Young Mr. Bingham was selected for the place by P. C. Jones and sent his acceptance by the S. S. China yesterday. It is the purpose of Mr. Bingham to remain here about two years and then to proceed to the Chinese missionary field.

Standard Patterns.

L. B. Kerr has been appointed agent for the Islands for the Standard paper patterns, known the world over, and the Designer, a publication for ladies. Mr. Kerr is ready to supply orders for either.

NEW YORK, March 22.—The Herald's London cable says: Lord Salisbury may resign soon. The matter was mentioned at a Cabinet meeting today. It is said that the Duke of Devonshire may become the head of the Government.

STILL IN DOUBT

Administration Not Yet Informed Of Inquiry Board's Report.

THEY ARE PREPARING FOR WAR

United States Buys War Vessels to Avoid Being Caught Un-equipped.

KEY WEST, March 22.—Lieutenant-Commander Marix left Key West this afternoon on his way to Washington by the way of Miami, taking with him the report of the court of inquiry in the Maine disaster.

Commander Marix brought the report ashore from the Nashville today, and Rear-Admiral Sigsbee, with Marix, spent several hours in its further revision. Before leaving Key West Commander Marix said nothing could be given out about the work of the court of inquiry or its findings. Personally, the commander said he was intensely relieved at completing his labors.

Lieutenants Juergen and Hood, Cadets Brownson and Boyd, Past Assistant Engineer Bowers, Assistant Engineer Morris and Carpenter Holmes of the Maine, left here today on the City of Key West for Miami. Gunner Hale will leave later. There are no commissioned officers of the Maine here.

Within the last few days a minority sentiment has been growing that the court has been unable to determine definitely the cause of the explosion. Still it is true that a majority hold to the conviction that the report will find and prove that the Maine was blown up intentionally.

The sending of the report today to Washington was an undramatic climax of weeks of waiting. Lieutenant-Commander Marix went aboard the Nashville early in the day and brought off the findings. After a prolonged conference with Rear Admiral Sigsbee, certain alterations were made and then read, Admiral Sigsbee affixing his signature of approval.

After luncheon Lieutenant-Commander Marix boarded the steamer City of Key West and sailed for Miami at 4:30 o'clock with the court's findings safely stowed away in stateroom 16.

Lieutenant-Commander Marix, before leaving, was in a non-committal mood. He confined himself to saying that he was intensely glad to be through with the tedious work, and once more to be on the way north.

While the decision reached by the court is still a matter of surmise, perhaps some significance may be attached and conclusions drawn from a remark made by Admiral Sigsbee when he said to a correspondent: "The case of the Maine is most peculiar, perhaps the most peculiar which has ever occurred in the history of the world."

From the general tone of his remarks it might be inferred that the court findings do not definitely solve the mystery of the explosion.

LOOK TOWARDS INDEPENDENCE.

Representative King Introduces Cuban Resolution.

WASHINGTON, March 21.—Representative King of Utah introduced today the following joint resolution recognizing the independence of Cuba:

Resolved, by the Senate and House of Representatives, That the Republic of Cuba, having established and maintained an independent Government, capable of performing its duties, foreign and domestic, which appertain to independent Governments, and it appearing that there is no longer any reasonable prospect of the success of the prosecution of war by Spain against said State it is expedient and proper and in conformity with the laws of nations and the practice of this Government in like cases, that the independent political existence of said State be acknowledged by the Government of the United States.

HORRORS MUST CEASE.

Cabinet Discussion Points to Such a Determination.

WASHINGTON, March 22.—The Cabinet meeting today lasted something over an hour and was devoted exclusively to the Spanish situation in general and to the forthcoming report of the Maine court of inquiry.

The tone of the discussion was very firm and determined that there must come an end to the present state of affairs in Cuba.

Secretary Long authorized the statement that the understanding before the Cabinet was that the report would reach Washington next Thursday or Friday, that it was very voluminous and that the publication and transmission to Congress would not occur until next Monday or Tuesday, as the President would require that much time to give the document the

mature consideration which its momentous character required.

Other Cabinet officers stated that the general plan included the sending of a Presidential message along with the report, stating that Spain had been called upon to make suitable response to the case presented by the court of inquiry.

PRESIDENT'S POLICY.

Will Be No Diplomatic Correspondence First.

NEW YORK, March 22.—The Tribune's Washington special says: The impression that some diplomatic representation will be made to Spain before Congress learns the findings of the court of inquiry appears to be groundless. The President, on the contrary, recognizes that the people of this country have the right to the information secured by the board before it is confided to any foreign government.

What the President's policy in dealing with the report will be can only be left to conjecture. How far Congress will be asked or expected to share in shaping the program to be followed by this country in seeking indemnification from Spain is also absolutely an undeciphered problem.

PICTURE OF DESTITUTION.

Senator Gallinger Speaks of His Cuban Experience.

WASHINGTON, March 18.—Senator Gallinger was at the Capitol today for the first time since his return from Cuba. When requested to make a statement as to his observations on the condition of affairs on that island, he responded:

"You can sign my name to any picture you may draw of utter wretchedness, destitution and hellishness in that country. The condition of affairs is simply indescribable. I do not believe that any one who simply reads the accounts and does not see for himself can form an adequate idea of the situation."

NAVAL APPROPRIATION.

Bill As Reported Carries Total of \$35,686,058.

WASHINGTON, March 22.—The naval appropriation bill, as reported to the House today, carries a total of \$35,686,058, an increase over last year of \$3,764,432, and over the current estimates of \$2,514,824.

For the increase of the Navy the bill allows to be constructed by contract, three sea-going, coast-line battleships, designed to carry the heaviest armor and most powerful ordnance; displacement 11,000 tons; with the highest practicable speed for their class; to cost exclusive of armament not exceeding \$3,000,000 each, one to be named the Maine. Six torpedo-boats and six torpedo-boat destroyers to cost not exceeding \$2,340,000, and one gunboat to take the place of the U. S. S. Michigan, to cost exclusive of armament not over \$290,000, to be built on the great lakes.

One of these sea-going battleships is to be built on the Pacific coast. The contracts for the construction of all the vessels are to be made within sixty days of the enactment of the bill.

Toward the construction of four timber dry docks, \$200,000 each is allowed each to be not less than 700 feet long and sufficient to meet probable future requirements of the largest vessels. They are to be located at Portsmouth, N. H., Boston, Mass., League Island Pa., and Mare Island, Cal. The total cost when completed is not to exceed \$550,000 each.

ADDITIONS TO THE FLEET.

United States Makes Purchases of Ships of War.

WASHINGTON, March 14.—This Government has purchased the two Brazilian protected cruisers Amazonas and Abrouail. The American flag will be displayed on them within a few days.

LONDON, March 17.—According to a special dispatch from Sunderland, the United States Government has purchased a torpedo-boat destroyer from a ship-builder named Duxford of that place. It is further said that the boat is to have a speed of thirty knots an hour. Men are reported to be working nights to complete her.

partment in a few days will be in possession of a torpedo-boat of the latest and most formidable construction, which is nearly completed. The boat is the property of Charles R. Flint of this city. Negotiations have practically been completed for its transfer to the Government. The yacht Mayflower was taken to the Brooklyn Navy Yard tonight to be converted into a war vessel.

GRAVESEND, England, March 18.—The cruiser Amazonas, built by the Armstrongs for Brazil and purchased by the United States, was formally transferred from the Brazilian flag to the Stars and Stripes shortly after 11 o'clock this morning. The ceremony was simple and dignified and to the Brazilian officers it was somewhat pathetic.

WASHINGTON, March 19.—It is now almost certain that the United States will secure the armored cruiser San Martino from Argentina and the battleship General O'Higgins from Chile. The hope of getting these ships had been almost given up, but cablegrams received today from Commander Brownson, now in Europe, made the outlook most encouraging.

CONTINUED PREPARATIONS.

Secretary Ascertains How Quickly Boats Can Be Built.

WASHINGTON, March 20.—Efforts to buy a sufficient number of torpedo boats and destroyers abroad have about been abandoned and contracts probably will be let in a few days for building a number of each in this country.

Friday, Secretary Long telegraphed to every shipyard capable of doing the work to let him know the shortest time it would require to build torpedo destroyers of 350 tons, with a speed of thirty knots, and torpedo boats of 100 tons with a speed of twenty knots. Many replies have been received, some putting the time for the boats as low as three months, and that for the destroyers at four months.

Chief Constructor Hichborn thinks this fast time and if the negotiations now on foot for purchase shall fall through, Secretary Long will direct the yards to commence building. Some of the tugs and yachts in New York may be converted into torpedo boats, but this method is thought likely to prove unsatisfactory. Heavy penalties will be imposed for delay in delivering the boats, and equally heavy premiums for antcipating the date called for by the contractors.

SPANISH REPORT NOT READY.

Senior Peral Preserving a Strict Silence On the Subject.

NEW YORK, March 22.—A Sun Havana cable says: On account of the semi-official declaration made here today that if the United States demands indemnity from Spain for the disaster to the Maine, Spain will not answer the American note until receiving the report of Senior Peral, judge-advocate of the Spanish board of inquiry, your correspondent called today on that Spanish naval officer to inquire when his report will be ready.

Senior Peral said that although he is working hard, he cannot tell precisely when his report will be ready. He refused to say whether he had already communicated any of his views as to the accident to Madrid. The Spanish authorities here believe that the report of Senior Peral will be ready Wednesday.

There is great anxiety in Madrid, according to a dispatch received today by La Lucha, over the report of the American board of inquiry. Pressure is made on the Government by radical parties and the conservatives to consider any demand for an indemnity as an insult to Spanish honor.

General Weyler has definitely withdrawn his candidacy as a deputy to the Cortes from Havana. He says that under the present circumstances the insulting attitude of the United States toward Spain prevents him from participating in political contests and he desires only that the day may soon come when he may again serve his country in the field of battle.

It is probable the work of the divers at the Maine wreck will be suspended on account of the death of Williams from yellow fever.

LOOK FOR AN ALLIANCE.

Proposal to Unite Interest of Great Britain and United States.

LONDON, March 19.—The remarkable unanimity of the approval of both classes and masses of the mere suggestion of an Anglo-American alliance compels belief in the sincerity of the desire of the British public for an entente with the United States. The fact that most of the cable dispatches from America have proclaimed that the suggestion has been seriously discussed is heartily welcomed here, and is regarded as extremely important and gratifying, as evidencing a friendly spirit.

"They are," as a diplomatist put it, "inspiring the hope that the differences of the past will be buried and that the Anglo-Saxons in the near future will be found issuing identical notes to all opposed to their common interests."

The diplomat continued: "It is not any stretch of the imagination to say that such a union has been longed for by the best men in Great Britain many years, not only because of the desire for closer bonds of friendship, but because it is a known fact that all the statesmen of Europe realize that a close alliance between America and Great Britain would constitute, not only the surest guarantee of the peace of the world, but would afford proof that the reign of law and individual liberty is to be extended for the benefit of mankind in spite of the efforts to extinguish it made by reactionary rulers and Governments."

No New Ships for Spain.

BERLIN, March 19.—Senior Sandoval, the Spanish agent, has thus far failed in

his efforts as a purchaser of torpedo-boats and other war ships.

259 DEAD IN ALL.

Maine's List of Casualties Completed By Chidwick.

HAVANA, March 22.—Chaplain Chidwick has completed his mortuary report, which shows that 257 men and two officers perished in the catastrophe; six succumbed to their injuries while lying in the San Ambrosia Hospital; one died on the Spanish transport; 171 bodies have been recovered from the wreck, of which sixty-one have been identified; 161 have been buried in Colon Cemetery and eleven at Key West. This is the official report, made public after careful correction.

WISH RECIPROCITY.

Spain Tries for a Treaty With United States.

LONDON, March 21.—The Madrid correspondent of the Standard says: Senior Polo y Bernabe, the Spanish Minister at Washington, has been authorized to make all the concessions possible in order to obtain the speedy conclusion of a fair reciprocity treaty. By America's expressed desire this also includes the Philippine Islands. Both the Cuban and Spanish Cabinets are anxious to expedite the negotiations to the utmost.

Senior Polo y Bernabe wires that he has found the American State Department very favorably disposed on this point, but that more reserve than ever is shown on the international question pending the settlement of the Maine affair.

PRESIDENTIAL INAUGURATION.

Last Wednesday In April Favored By Committee.

WASHINGTON, March 18.—The Senate Committee on Privileges and Elections today authorized a favorable report on the amendment to the Constitution of the United States introduced by Senator Hoar, changing the time of year for the expiration of the terms of the President, Vice-President, Senators and Representatives in Congress from March 4th until the last Wednesday in April. The change is made to take effect in 1901, and, if the amendment should be accepted by Congress and be ratified by a sufficient number of States, it would have the effect of extending the terms of President McKinley and Vice-President Hobart for almost two months.

The object of the amendment is to avoid the harsh weather which sometimes interferes with inauguration ceremonies when held on the 4th of March.

Frosts In California.

The Chronicle of March 22, says: Frost again visited the interior of the State, Monday night and caused serious damage to the fruit crops. Dispatches indicate that the damage was most severe in the southern San Joaquin valley, where the thermometer fell to 18 degrees above zero. Around Visalia the fruit crop is almost ruined. In the vicinity of Stockton the cold was intense enough to cut down grain and still further reduce the harvest prospect.

Cannot Lease Port Arthur.

PEKING, March 19.—The general opinion here is that it is impossible to disregard the persistent rumors circulating in well informed circles that Russia has abandoned her attempts to lease Port Arthur, but has not ceased her negotiations regarding Taiten-Wan.

FOREIGN NEWS NOTES.

IN LETTERS AND A TELEGRAM

Advices From Minister Hatch—Mr. Thurston—Consul Wilder—Joint Resolution Will Pass—Mr. Reed.

News on the question of annexation that came to the Government and private parties by the mail yesterday was of the most encouraging nature. Even Minister Hatch has grown a trifle enthusiastic over the outlook. Mr. Thurston speaks with considerable confidence and Consul-General Wilder, from his vantage ground at San Francisco, offers the assurance that the matter will be settled to the satisfaction of the Island people within three weeks.

From Minister Hatch there was both a letter and a telegram. The letter gave a close detailed account of the situation and made some suggestions in regard to local affairs bearing directly on the treaty and joint resolution. In the telegram sent to San Francisco by Minister Hatch but a few minutes before sailing of the China, he says that he can add nothing to his letter under the head of action, but that progress is being made, that the prospects are improving and that there is prevailing a much better feeling. By noting that there had been no action after his letter had been mailed, Minister Hatch meant that no vote had been taken. There is much transpiring in the way of action that is important and effective. The friends of annexation are working harder than ever before and are getting the reward of a full showing of ready and most promising results. Those opposed to the treaty and joint resolution seem to have entirely exhausted their ammunition. The enemies of the union of the Republic of Hawaii and the Great Republic are said to now rely wholly on the possibility of consideration of the joint resolution by the House of Representatives being postponed by parliamentary maneuvering.

Mr. Thurston gives a careful review of the situation and pictures the future in glowing terms. He believes that success is now fairly in view.

From San Francisco, Consul-General Wilder writes that it is now understood to be the fact that Speaker Reed will not carry his opposition to annexation to the point of meeting administration disapproval and that the treaty will pass within three weeks.

There has been sent here the favorable report of the Senate Foreign Relations Committee on the joint resolution. This is the handiwork of Chairman Davis and is a masterful document. It starts in with a comparison of Hawaiian conditions and the conditions that prevailed at the time the Republic of Texas was taken into the Union by joint resolution. Mr. Davis makes it clear that a parallel is presented. Included in the report are extensive extracts from the paper by Mr. Thurston meeting paragraph by paragraph the various objections to the annexation of Hawaii. Mr. Davis puts great stress upon the commercial advantages which will accrue to the United States by the absorption of Hawaii. Figures are given in detail. There is pointed mention of the growth of American shipping that will ensue under the Union. Mr. Davis shows how other countries have coveted Hawaii. Captain Mahan, Admiral Walker, General Schofield and others are quoted as showing the value of Hawaii as an outpost in case of war with any nation.

A member of the Government said to a reporter for the Advertiser after the Cabinet had read the dispatches received by Minister Cooper: "We feel greatly encouraged by the news that has been received. It is the best we have had for a long time. The report of the Foreign Relations Committee of the Senate on the joint resolution will have its effect. Mr. Tawney's speech in the House entirely offsets the address against us made by Mr. Johnson. Mr. Tawney made votes for the treaty. Besides all this, there is given the assurance that Speaker Reed will not stand in the way of consideration of the joint resolution by the House. It is expected that the Senate will pass the resolution in a few days. Perhaps it has been passed already. It is not likely that any more long speeches would be made. On the whole the annexationists should be in high feather."

PUNISHMENTS.

Sentences Are Imposed By the District Magistrate.

There was quite a lot of work done in the Police Court yesterday morning. The case of Harold Kanuha, caught rummaging amongst the goods in a store in Waikiki a couple of days ago, was nolle pross'd. Defendant was brought up on the charge of disobedience to parents and sentenced to six months in the Reform School.

Ah Him, the Chinaman who entered the house of a countryman not long ago and stole a sum of money, was sentenced to a term of imprisonment of one year.

For assault and battery on Lio, Kaapana was fined \$25 and costs. The two men who helped him in the assault, Moke and Kapaki were allowed to go free.

Malao, the man who was accused of taking corn from the decks of one of the Wilder Co.'s steamers, was sentenced to 30 day's imprisonment at hard labor.

WEDNESDAY : : : MARCH 30.

WASHINGTON NEWS.

The annexation matter now takes a new and decisive departure, in the abandonment of the treaty, and the presentation of a joint resolution of annexation. The resolution substantially incorporates all of the provisions of the treaty, so that if it is adopted, it will not be necessary for our own Government to do anything further in the matter. The treaty as ratified by the Hawaiian Senate is treated not as annexation by treaty, but a cession by the Hawaiian Government of the sovereignty of the islands to the United States.

There is apparently a majority in both the Senate and the House in favor of the joint resolution. But we must keep in mind that those opposed to the treaty in the Senate may delay action by debate for an indefinite period. They may resort to other methods of obstruction also, which may cause delay. Whether they will be able to throw the consideration of the matter over until the next session is now a mere matter of speculation. No one can make an intelligent guess.

The action of the House may be controlled by the Speaker, in such a way as not to exhibit any open preference, on his part, on the subject. We suspect that the sugar belt influence will develop unexpected strength. How much is also a mere matter of speculation at present. The debates show much interest and decided antagonism among the Republicans.

There is this consolation that the outlook is better than it has been in many respects, since the treaty of annexation was sent to the Senate, last Spring. We have never believed that there were 55 votes in favor of the ratification of the treaty.

While the Cuban affair would, if there were war between Spain and the United States, undoubtedly throw the matter over, the chances are against war. The rapid and complete preparation for war naturally leads many people to believe that it is inevitable. But as neither nation is in the least hungry for it, the chances are against it.

A NEW HERESY.

There are symptoms of the coming of another exciting trial for heresy, in the Presbyterian church of America. Prof. A. C. McGiffert of the Union Theological Seminary of New York, is the author of a recent work titled "A History of Christianity in the Apostolic Age." The book is said by Prof. Shailer Matthews of the University of Chicago to be "on the whole the most notable addition to theological literature on the side of critical church history and New Testament criticism as yet made by any American." Dr. Geo. P. Fisher and Dr. Lyman Abbott unreservedly endorse the book.

The controversy will arise among other things on Professor McGiffert's comments on the character and office of the Lord's Supper. His statement is: "... The fact must be recognized that it was not absolutely certain that Jesus Himself actually instituted such a supper and directed His disciples to eat and drink in remembrance of Him (as Paul says in I Cor. xi. 24, 25). Expecting as He did to return at an early day (cf. Mark xiv. 25), He can hardly have been solicitous to provide for the preservation of His memory; and it is a notable fact that neither Matthew nor Mark records such a command, while the passage in which it occurs in Luke is omitted in many of the oldest MSS., and is regarded as an interpolation by Westcott and Hort. . . .

"It was apparently not the institution of a memorial feast that He had in mind so much as the announcement of His impending death and the assurance that it would result not in evil but in good to His disciples. He had already told them that He must die, and that His death would be in reality a means of blessing to them. He now repeated that prophecy and promise in vivid and impressive symbol. As the bread was broken and the wine poured out so must His body be broken and His blood shed, but not in vain; it was for their sake, and not for theirs alone, but for the sake of many. To read into this simple and touching act—unpremeditated and yet summing up in itself the whole story of His life of service and of sacrifice—subtle and abstruse doctrines is to do Jesus a great injustice; for it takes from the scene all its beautiful naturalness, which is so characteristic of Him and so perfectly in keeping with His direct and unaffected thought and speech. He was not teaching theology, nor was He giving veiled utterance to any mysterious truth concerning His person and work."

The secular press, in America, is discussing the book. The N. Y. Tribune

contains an editorial column upon it. The conservative Presbyterian papers deplore "the precipitation of a new issue."

Hard words are already spoken by the Old School theologians. One of them wishes that Professor McGiffert had left the church before writing the book. It is a pity that the theologians in criticizing each other, show about the same infirmities and hasty tempers, and the desire to make it hot for each other that the unregenerate show, in their wordy disputes. However, the truth prevails, in the end. Much that the Lord does in this world is not approved of by a certain school of theologians, but so far, no means have yet been discovered by which they can enforce their views. And the world grows better.

The cruiser Amazonas, sold by the Brazilian Government to the United States, was built by the Armstrongs, and is probably a better vessel than any constructed in the United States. The reason is that these ship builders have had more experience than any of the Americans, and have been allowed to use their own judgment in the construction. They permit no improvements that have not been fully approved by experience, on the best engineering skill and are in communication with the officials of all countries that have for many years owned their vessels, and have tested them, so far as it could be done.

The French press, through Camille Pelletan, attacks the condition of the French Army and Navy. He declares that both services are demoralized through personal favoritism, and abuses are existing in all departments. Both services are in the control of the democracy. Only centralized power can make them efficient. Germany, through the autocratic power of the Emperor, and England through an admirable system created by experience and necessity, have centralized control. The people assent to it, because they see the need of it. But the democracy of France has yet to obtain its experience.

ADJOURNED EARLY.

Short Session In the Senate—One Member In the House.

Thirty-second Day, March 29.
House bill 26, providing for the encouragement of the cultivation of grapes passed first reading as did House bill relative to the release of dower and the bill to define and establish the rights and duties of bicyclists, the last named going to the Printing Committee.

The Sundry appropriation bill was reported from the Printing Committee and read section by section. All the items were passed, except several which were referred to the Committee on Public Lands. These were: \$2,500 for new Court House and site, Kona, \$2,500 for new wharf at Nahiku, Maui, \$10,000 for park trails in Olua cross roads 10 miles, \$6,000 for four trails over Hawaii from Hilo, Kilauea, N. Kona and Hamakua, \$7,000 for new roads in Makawao, Maui, \$10,000 for new Nuuanu valley road. In the regular appropriation bill the sum of \$20,000 was taken from the item of \$120,000 for roads for Honolulu for this road. Minister Cooper said that he proposed to reinstate the item. Further action on the bill was deferred and the Senate adjourned.

HOUSE.

There was no session of the House. At 10 o'clock there were about five members present. A little later one or two straggled along and then one or two took a hack and went away, knowing that the Speaker was waiting anxiously for a quorum. At 10:20 the Speaker sent a warning to the one lone member in the hall puffing away at his cigar, to the effect that the House would adjourn if he did not present himself at once. He said: "Let her adjourn." The Speaker rapped with his gavel and declared the House adjourned. There seemed to be no inclination on the part of the members to work.

CABINET OPPOSE.

Committee Interviews Executive On Income Tax.

A committee for the House, consisting of Messrs. Paris, Gear and Pogue, had quite a conference with the Cabinet yesterday afternoon on the Income Tax act, now before the Representatives. The act was introduced by Mr. Robertson, being a re draft of the Winston bill of last session declared unconstitutional by the Supreme Court. The Cabinet was asked squarely its opinion upon the proposed legislation and answered frankly. The Ministers are united in opposition to the act. They favor individually the principle of income tax, but do not believe its operation here now expedient, practicable or necessary. The chief points made against the act are the difficulty of the imposition or enforcement of its provisions, the fact that there is not pressing need for such additional revenue as might be secured and the further fact that it would appear unjust to add to the taxes now collected.

Damages Too Heavy.

In what has become known in the Circuit Court here as the Kohala Kahuna case, Judge Stanley has ordered a new trial. He finds that the jury made the damages to the aggrieved party too heavy. The award was \$2,000 and it was against a native policeman. An effort will be made to introduce new evidence upon the second trial, although it is possible a compromise may be made in the meantime. It appears that the lady charged with kahunism was an earnest Christian worker, the wife of a native pastor.

We Know
By Experience

Wise men use the experience of others and make it their own.

Those who have taken Hood's Sarsaparilla are the ones who are competent to speak of its merits.

Thousands of these people say Hood's Sarsaparilla has cured them.

The testimonials of cures by Hood's constitute a vast mass of testimony which proves the power of this medicine to cure a great variety of diseases.

These cures often seem marvelous, yet they are perfectly natural and are easily explained. They are the necessary result of purifying and enriching the blood.

Pure blood is the foundation of health. Hood's Sarsaparilla is the One True Blood Purifier and cures disease by purifying and enriching the blood.

It possesses peculiar curative power, that is, it cures when other medicines cannot cure, because it is peculiar in combination, proportion and process.

That is all there is to be explained about the cures by Hood's Sarsaparilla.

If you have faithfully tried Hood's Sarsaparilla you know how it is yourself; if you have not tried it, why not do so today?

"I have been troubled with scrofula all my life, and it affected my eyes so that I was obliged to remain in a dark room. I began taking Hood's Sarsaparilla. Now my eyes are so strong that the light never troubles me, and my health is good." MRS. CARRIE WEEKS, Lompoc, Cal.

TIMELY TOPICS

March 24, 1898.

A Peculiarity of the "TRIBUNE" bicycles is that they are weather wheels. During all this inclement weather we have been constantly besieged by buyers and prospective buyers of TRIBUNES.

Another peculiarity of the wheel is that they are the most honest wheel built, and in this respect are the envy of all competitors. It is a peculiarity that all makers would like to imitate, if they could afford to do so. The trouble with most of these same makers is that they cannot afford to put material in that is made to wear. They have to pay too much.

TRIBUNE BLUE STREAKS

—Ladies' or Gentlemen's wheels—in three models, at \$65.00, \$85.00 and \$100.00, are the cheapest on the market. We also have these same wheels finished in black striped with gold.

Perhaps a "Columbus" wheel, ladies' model—or a men's model "Jimmy," will do you. If so, we can sell you these at such a price that you will consider it too low; but they are good stock just the same, and worth a great deal more money.

PAIR OF WORKERS

Prominent Y. M. C. A. Men
En Route to China.

Addresses Made Here—Robt. R. Gailey and Robt. E. Lewis—Both are Able and Earnest Missionaries.

Those who were fortunate enough to be in the Y. M. C. A. assembly room for the gathering there last evening voted that the privilege of attending was a rare one. It was more than a treat to hear and meet such men as Messrs. Gailey and Lewis. They are going out to China to work with the student class of that great country. These gentlemen come from the ranks of the Volunteer Student organization. They have for several years been active in Y. M. C. A. college and university work, paying special attention to the introduction of the missionary idea and faith. Both men are intensely earnest and easily communicate some of their enthusiasm to their listeners. Mr. Lewis was the chief factor, so writes Mr. Mott to A. B. Wood, in the recent remarkable student convention at Cleveland.

A. B. Wood, President of the Y. M. C. A. here, presided last evening, with Secretary Coleman as his assistant. There was singing with Mrs. Crockett at the piano. The opening invocation was by Rev. C. M. Hyde.

Robt. R. Gailey was first introduced and spoke in a general way of the work to which himself and companion and their wives were going. The student body in China is enormous in numbers and has great power in official and social and even trade circles. In fact the students are the Government and the rulers. It is believed firmly that by reaching this class rapid progress will be made in the evangelization of the country and in the working of reforms that will be in the direction of establishing Christian life. Mr. Gailey goes to a large town in the north where there is already a Y. M. C. A. with a considerable active membership.

Robt. E. Lewis speaks with such eloquence as is seldom heard here. A few words from him and one is able to realize the immense amount of work he has already accomplished in his chosen life task. He goes to China with an important and responsible commission. He will be in one of the large cities where there is already a considerable foreign influence. Mr. Lewis gave a graphic and interesting sketch of the development and growth of the missionary interest in the colleges and universities and seminaries of the United States. Mr. Lewis is a master at giving statistics in a manner that does not tire. In closing he quoted the sentiment of Wm. Lloyd Garrison on "Work for the World."

At 8:30 this morning, Mr. Lewis will lead the Y. M. C. A. meeting at Kamehameha School. At 9 a. m., Mr. Gailey will lead at Oahu College. Later both will visit the North Pacific Missionary Institute and perhaps some of the public schools.

At the close of the meeting last evening there was an informal reception, nearly all of the people remaining to meet Mr. and Mrs. Gailey and Mr. and Mrs. Lewis.

A Sudden Death.

Mrs. Alice M. Steward died of rheumatism of the heart at her home on Emma street about 5 o'clock yesterday morning. For a couple of days the lady had been slightly ill. She was up and about on Monday evening. Mrs. Steward was aged 50 years and was born in Charleston, S. C. She was a woman of sterling worth and gained the staunch friendship of all with whom she came in contact. The husband, Richard Steward, was a school teacher at Waialua, Oahu, and died about six years ago. The children surviving father and mother are Mrs. H. Gares, James Steward and Miss Alice Steward.

The funeral was held from the Roman Catholic Cathedral yesterday afternoon and was largely attended.

Devastation in Koolau.

W. Henry was over from Koolau yesterday and reported to the Executive on the flood damage in that district. About 10 bridges were washed away. One house was carried down to the sea. The heavy rain was in the mountains and brought to the beach about everything in the path. For miles the tide-water shows bridge timber, loose wood, undergrowth and uprooted trees. The damage will not be less than \$25,000. Some men have been put at work by Mr. Henry already. There is serious talk of passing in the Legislature an emergency appropriation bill to repair the bridges.

F. M. Weed Dead.

Frederick Maltby Weed, aged 69 years and 4 months, died at the family residence here yesterday of paralysis. Mr. Weed was born in New York City. He came to Honolulu in 1849. Mr. Weed has been a quiet, worthy citizen. Four brothers survive Mr. Weed in the United States. He leaves here one son (Fred Weed) and three daughters, all well known members of the community.

The funeral will be held from the Roman Catholic Cathedral at 4 o'clock this afternoon, and friends and acquaintances are invited to attend.

THE HELEN W. ALMY SUNK.

Was Bound for Alaska—For Ten Years She Ran to Honolulu.

News came by the China of the loss of the bark Helen W. Almy which was found floating bottom up, seven miles off Point Bonita on March 22. The Almy had on board 30 gold hunters, bound for the Klondike region. Twelve of these were from one town in the Indian Territory. Every one on board is supposed to have been lost.

The general belief of sea-faring men is that the bark was unseaworthy. It is said that she was not insurable, and that leaks were so numerous, in spite of recent repairs, that the trip was a dangerous one. The Almy was built in 1858. Early in the following year she sailed to San Francisco. On her arrival at that port she was purchased by Captain Elisha Freeman, who at once put her into the Sandwich Island trade, and ran her to Honolulu continuously for ten years with both passengers and cargo. Freeman fitted her after cabin up very comfortably, and averaged about twenty people per trip. Several times she made close to record voyages to the Islands, and did the run more than once in nine days. In 1870, the bark was taken out of the Honolulu trade and was used by Freeman as a freighter between 'Frisco and Australia, China and South America, also making frequent voyages for copra, and nut oil to various Islands in the South seas.

Recently the old bark was given some repairs and advertised to sail for Alaska. She was commanded by Captain W. J. Hogan. How she met her fate will probably never be known. A heavy blow was on when she left San Francisco.

Captain Silovich of the tug boat Vigilant which went out to the floating hull voices the opinion of most sea-faring men in his theoretical account of how the accident happened says the Chronicle:

"When Hogan left port," he said, "there was a stiff wind blowing, which increased in violence the further he got outside. Driving against what must have been a full gale of wind was more than the old ship could stand and the strain opened up her seams forward."

"When Hogan found his ship leaking he tried to get back to San Francisco, but the water was too much for him. He was on the port tack when the end came, and evidently had all sail set. I do not think she capsized. She got her nose into a sea and there it stayed."

The crew was made up as follows: Capt. W. J. Hogan, First mate, J. W. Crantz, Boston, 35 years; Second mate, F. Mackie, California, 26; Cook, John Higgins, Massachusetts, 30; Steward, W. C. Hopkins, Illinois, 40; Boy, Ira Cook, Connecticut, 44. The Almy is well remembered in Honolulu and there was great relief felt when it was learned that Captain Freeman, who was popular here, was not aboard. He held out his interest in the bark many years ago.

Trades Outside.

From all accounts the wind that has been blowing over the Island for the last two days is local. The two sailing vessels that arrived yesterday after such fine trips from San Francisco, report the finest of trades for nearly the whole voyage. The unpleasant weather was not struck until the Islands were sighted.

There was to have been a meeting of the captains of the baseball teams last evening for the purpose of postponing the opening season of 1898, but Captain Gorman of the Regiment, became interested in a book and forgot all about the meeting. The boys will get together as soon as Gorman has finished his book.

Willson's circus will open here again on Saturday next. The tents will be on the lot near the fish market.

What Is the Meaning Of a Guarantee ?

It is confidence in the article you sell, sufficient to warrant you to stand by it under all circumstances.

That's the confidence we have in our goods, and that's why we are not afraid to stand by them, not only before, but after they are sold.

All other goods perish, or are consumed in a short time and the dealers' responsibility soon ceases, but a choice piece of Jewelry or Silverware lasts forever, and the Jeweler's responsibility with it.

It is to your advantage to purchase such, where the guarantee is your safeguard, where great distance does not make the guarantee valueless to you, and where it is the honest endeavor to give satisfaction in every instance.

OUR STOCK

Certainly offers advantages not to be found elsewhere in the city of choice goods, entirely new, and absolutely new in design. We know the prices are right.

A Electric Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engines, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

NATIVES LISTEN

The "Anti" Commission Reports to a Meeting.

Kaula Tells of the Visit to Wash-
ington—People They Met—Influ-
ence of Senators' Wives.

The announcement that there would
be a mass meeting of natives on Palace
Square last night to hear the reports of
Messrs. Auld, Kaula and Kalanokalani,
three of the Hawaiians sent to Wash-
ington to oppose the passage of the an-
nexation treaty, drew forth a crowd of
between 400 and 500 natives.

The speakers of the evening were
seated in the lookout of the old Gibson
premises. In front and to the right
and left of them were torch lights. The
meeting was opened with three hearty
cheers.

W. Auld, the secretary of the Hawai-
ian Commission was the first to take
the stand. He simply read some of the
minutes of the proceedings at Wash-
ington and then gave way to the prin-
cipal speaker of the evening, J. K. Kau-
lia, president of the Aloha Aina Soci-
ety, who opened his remarks with a
hearty "Aloha oukou a pau loa." Mr.
Kaulia went on to say that the dele-
gates to Washington had gone for the
good of the country and the people.
All differences existing between the
various members were set aside in the
determination to work toward one com-
mon end—the defeat of annexation. A
visit was paid to the ex-Queen immedi-
ately upon arrival in Washington and
the objects of the visit of the delegates
were explained. John Richardson was
chosen spokesman.

In a conversation with Senator Dav-
is of the Foreign Relations Committee,
that man said he had been working for
annexation for the last five years and
during all that time there had not been
sent a single Hawaiian to Washington
to tell of how the native people consid-
ered the matter.

The women in Washington have
helped a great deal toward the defeat
of annexation. The wives of several of
the Senators had been seen. The story
of the overthrow of the Monarchy and
the attitude of the Hawaiian people
was told them. Some of them promised
to use all the influence in their power
to make their husbands vote against
annexation and from the reports in
various newspapers they succeeded.

Mr. Kaulia then outlined the call on
Senator Hoar and the fear and tremor
the delegates were in when they
approached his house.

In closing, Mr. Kaulia said annexa-
tion was dead.

Kalanokalani, president of the Hui
Kalai Aina was the last speaker. His
remarks were not so full of information
as those of Mr. Kaulia. His aim seem-
ed to be toward making the audience
laugh. This he did admirably.

In closing, he produced a letter from
Washington, received on the China,
stating that the annexation treaty had
been killed. At this there was a great
cheer from the people present. After
dwelling on a few more facts, Kalano-
kalan finished his discourse and the
meeting was at an end.

To Wed.

Cards were received in the mail of
yesterday for the wedding of Robert
C. Monteagle and Marie Helene Elsie
Berg. The ceremony will be in the
church of St. Mary the Virgin at San
Francisco on April 12. Miss Berg is the
daughter of Mr. and Mrs. F. R. Berg.
Mr. Monteagle was formerly in the Ho-
nolulu Iron Works here as a draughts-
man. He was popular in society and
was one of the singers in the cast of
"Il Travatore" when Mrs. Turner pre-
sented the opera here. Mr. Monteagle
went from Honolulu to Philadelphia
about a year ago.

Rubber Tire Boom.

John H. Wilson is meeting with the
biggest kind of success in introducing
here the rubber tire for which he secured
the agency during his recent visit to
the States. He has disposed of all the
tires for buggies and has but a few for
hacks left. Mr. Wilson places the tire
on any wheel. He secured the agency
through a former business connection
with the makers at Springfield, O.

Stores to Let.

The large store in Waverley Block,
formerly occupied by B. F. Ehlers &
Co., will be subdivided and applica-
tion should be made at once to Henry
Waterhouse & Co., for stores of con-
venient size and good location.
HENRY WATERHOUSE & CO.

One of the largest crowds seen at a
concert was present at the Hawaiian
hotel last evening when the band played
some most excellent selections. The
driveways of the hotel yard as well as
the streets round about the hotel were
simply crowded with people.

KLONDIKERS.

Special Steamer of Gold Seekers Now In Port.

The long-looked for steamer, Cape
Otway, Savage master, arrived in port
and anchored in the stream early yes-
terday morning. She is on her way to
the Klondike with 220 souls aboard, all
looking ahead to a bright and promis-
ing future. The purser kindly furnish-
ed the following report of the voyage:

"Left Sydney 4:00 p. m., 5th inst, and
arrived at Auckland 11th inst. After
receiving considerable additions to the
passenger list, resumed the voyage at
6:00 p. m. 13th. Experienced fresh
strong easterly winds and head sea to
Auckland, thence moderate easterly
and northerly winds to the 16th, when
the wind freshened to a gale, lasting
till the 17th inst. Thence moderate
north easterly winds and fine weather
prevailed till the 27th, when a moder-
ate north easterly gale sprang up and
continued to arrival."

When about three days from port, the
Cape Otway sustained an accident to
her eccentric rod, so that her progress
was very slow. This will result in the
steamer remaining in port until Thurs-
day morning at 10 o'clock. In the
meantime a new casting will be made
at the iron works.

The Cape Otway is 2,664 tons and
was launched in August of last year for
the West Australia trade. In January
of this year the steamer was advertised
for the Klondike and in a short time
there were enough applicants to make
the trip worth the while. The men who
are on her are all well to do. All the
passengers came ashore yesterday.

After a very pleasant fortnight's visit
with her son Henry, Mrs. Hapai of
Hilo, returned home on the Claudine
yesterday morning.

Say "Yes," and Prove It.

When you answer in the affirmative be sure you
are in a position that will bear out your assertions. There
is no such word as "Fail." Say "Yes," and stick to it. Say
"Yes," and prove it.

Have we good fitting shoes? Have we the latest
styles? Are our shoes up-to-date? Are our shoes cor-

MR. J. G. SPENCER,
PACIFIC HARDWARE CO.,
Honolulu.

DEAR SIR:—The Secretary Disc Plow I pur-
chased from you is giving us satisfaction. We
are using it to plow under a crop of lupins. They
are three feet high and very thick. Your plow
turns them completely under, at the same time
plowing the land fourteen inches deep.

I feel satisfied that with this plow the draft
for the same quantity and depth of work is as
6 to 8. That is, with the old plow, to do the same
work, it takes 8 good mules; with your plow it
takes only 6, and they are less tired at night.

Please send me another plow by first schooner
leaving for this.

You are at liberty to use this in any way you
may see fit.

Yours truly,
A. LIDGATE.

A Mistaken Idea.

Soap is not the enemy to the complexion which many people consider it. It is infinitely better for the skin than the dirt which will collect in the pores after a day wheeling or traveling.

All soap is not good for the skin. For instance, common laundry soap would ruin a complexion. Use only the purest of soap for face and hands. A trial of CURATIVE SKIN SOAP will convince anyone that it is the proper toilet soap. It will leave the face and hands soft and clean. It stands the test. 25c cake; 3 for 60c.

Mormon Church Concert.

There was a concert in the Mormon
church Monday night. No admission
was charged, but a collection was taken
up after the last number on the pro-
gram. All the numbers were good and
these were participated in by natives
from Wailuku, Lahaina, Waikapu and
Honolulu. It was really an enjoyable
occasion. The purpose of the concert
was to raise enough money to send to
the Mormon convention at Laie this
week, the delegates who came here
from Maui as well as those from this
Island.

WHARF AND WAVE.

DIAMOND HEAD SIGNAL STA-
TION, March 29, 10 p. m.—The weather
is clear; wind, fresh N. E.

The Upolu sailed for Hawaii yester-
day afternoon.

The Aloha sailed from San Francisco
for Hilo on the 19th inst.

The Moana is supposed to have left
on the evening of the 23d inst. for this
port.

The Robert Searles shifted to Wil-
der's wharf yesterday afternoon for the
purpose of taking on sugar.

C. W. Wilbur is now in place of the
late purser of the China, Mr. Brick-
wedel who died recently in San Fran-
cisco.

A brick fell from the box used in dis-
charging on the Rihet yesterday and
struck a mate on the head. Dr. Way-
son made a couple of stitches in the
wound.

It will be remembered that the Bel-
gie had the yellow flag flying when she
last left this port. At San Francisco
the cabin passengers were permitted to
land at once.

The barkentine S. G. Wilder and the
bark S. C. Allen both arrived in port
from San Francisco yesterday forenoon.
The former was about 13 days and the
latter 10 days from San Francisco. Both
experienced good weather down.

Purser Guy Kelley, whose latest
work in the life saving line, was the
rescue of the mate of the steamer No-
eau in the Kauai channel, has been
presented with a gold locket for brave-
ry. The token comes from the Inter-
Island Company.

The P. M. S. S. China, Seabury mas-
ter, arrived off port at an early hour
yesterday afternoon, a few minutes
over six days from San Francisco. She
anchored off port because there was no
wharf room. Hackfeld & Co.'s scow
was sent out and some of the passen-
gers were brought ashore. All the
passengers aboard the China with the
exception of two, are for the Orient.
The China hauled along side the Pac-
ific Mail wharf at a little after 4 o'clock,
the Aztec in the meanwhile having
gone out to an anchor off port. The
China will sail at 5 p. m. today for
China and Japan.

CHAMBERLAIN COUGH REMEDY.

This remedy is intended especially
for coughs, colds, croup, whooping
cough and influenza. It has become
famous for its cures of these diseases,
over a large part of the civilized world.
The most flattering testimonials have
been received, giving accounts of its
good work; of the aggravating and
persistent coughs it has cured; of se-
vere colds that have yielded promptly
to its soothing effects, and of the dan-
gerous attacks of croup it has cured,
often saving the life of the child. The
extensive use of it for whooping cough
has shown that it robs that disease of
all dangerous consequences. Sold by
all druggists and dealers. Benson,
Smith & Co., Ltd., wholesale agents

WASHINGTON, March 21.—The House
today unanimously passed the bill for
the relief of the survivors and victims of
the Maine disaster. The bill reimburses
the survivors, officers and men for the losses
they sustained to an amount not to ex-
ceed a year's pay and directs the pay-
ment of a sum equal to a year's pay to
the legal heirs of those who perished.

PINEVILLE, Ky., March 21.—One of
the bloodiest battles ever fought in the
Kentucky mountains took place yesterday
afternoon on Puckett's creek, in Han-
lan county, about sixteen miles from this
place. Three men were killed and two
injured. The killed are Thad Snellings,
Joseph Leroy and William S. Taylor.

The Rugby Rush.

The attention that Rugby football is
attracting may be judged from the fact
that there were over 200 spectators for
the practice on the parade ground last
evening. The game played on the small
field was fast and interesting from
start to finish. All of the men who
went into the original agreement turned
out as usual for the work of the eve-
ning. The majority of the men are
showing fine form and the old experts
are getting "wind." Everything indi-
cates that there will be a fine game at
the Makiki baseball park on Saturday
afternoon next.
