CARTER ENDORSED BY TERRITORIAL ORGANIZATION AND CENSURED BY MINORITY IN OAHU COUNTY

Against the Protest of the National Committee-man, the Executive Committee Approves Administration and Asks Governor to Withdraw or President Not to Accept Resignation.

By a vote of five to three, one member not voting, the executive committee of the Republican Territorial Committee yesterday afternoon endorsed the administration of Governor Carter. The resolution was presented by J. P. Cooke of Maui, and the vote upon it was as follows:

Ayes—J. P. Cooke, Samuel Johnson, W. W. Harris, W. H. Rice of Kauai and D. Douglass.

Noes—A. G. M. Robertson, S. L. Desha, John C. Lane.

W. T. Rawlins, who held the proxy of Frazier of Hawaii, did not vote.

As soon as the meeting was called to order, the resolution was brought directly before the committee by J. P. Cooke, who said: "I would like to present a resolution endorsing the administration of Governor Carter. I believe it is the right time for the committee to put itself on record. I think it a great mistake to have him resign and I believe a majority of the Republican party will regret his resignation. I think we should go on record as showing our sentiment in the matter and I would like to present this resolution."

The resolution, as above, was read by Secretary Murray.

THE PARTISAN SIDE.

Senator Lane was the first to comment on the resolution. He said the remarks of Mr. Cooke were all right, but he had been one of the committee that was sent by the territorial committee to see the Governor and ascertain from him his stand in the county campaign just passed, the Governor being the head of the Republican party here. The Governor had then told the committee that he was supporting a certain candidate for office directly opposing the regular nominee of the party.

"I, for one," said Senator Lane, "cannot see how this committee could endorse the Governor and his administration, by adopting this resolution. Personally, I am quite friendly toward the Governor, but for the good of the party I think this committee should not ask him to reconsider his resignation."

"Why not?" inquired Mr. Cooke.

"The Governor has shown he was against the party and the committee in the last election," answered Lane. "I think it better to leave the matter as it stands. We don't know positively what prompted his resignation. I think, to act intelligently, we should know his reasons."

"Don't you think we ought to look at the thing in the broader light?" asked Mr. Cooke, "as to what he has done for the territory? He has done more than any Governor ever has before."

MUST GET TOGETHER.

To this, Lane replied: "Supposing the Republican party went down in defeat? It would be detrimental to the interests of the party to adopt such a resolution. We saved the party from defeat. I don't think we should take up this matter. We should be non-committal. That is the way I feel about it."

"There is one point we must consider," said Mr. Cooke. "We must get together and keep together. The campaign that has been fought out has succeeded in keeping the party together, and the only way we can do is to show it. The only way we can intimate to our mainland friends that we are not everlastingly scrapping is by keeping together. If the Governor goes on to Washington and does not reconsider his resignation, it will be a matter of selecting a new governor. I hope that Governor Carter will reconsider. I want to impress upon you one thing, that in the end, if he doesn't, we are going to suffer."

"If Roosevelt gets the idea that we are a lot of soreheads down here, he will tell Congress to take out of the organic act the clause which requires that

THE GOVERNOR SHALL HAVE BEEN A RESIDENT OF THE TERRITORY FOR ONE YEAR. The only way we can get along is by showing a united front. I do believe that unless we work harmoniously, we are going to suffer by having a Governor sent to us from the mainland, just as is done for Porto Rico. Before turning this proposition down this ought to be seriously considered."

"Can you give any reason why the Governor is resigning?" asked Mr. Rawlins.

"He says he thinks there are better men better qualified to carry on the work at this time than himself," was Mr. Cooke's reply. "It is for us to say whether we think so. Personally, I don't think there is another man in this territory who can carry on the work as well as he has done. We should not consider what his reasons are. We should go on record as to what we think of the good work he has done."

WHAT ARE HIS REASONS?

"Mr. Rawlins's point is a good one," commented Chairman Robertson. "How do we know but that he has good reasons for resigning? The first step should be to find out what his reasons are."

"The principal reason is that he thought some other man could do better than he could," said Mr. Cooke. "I really think we should look at the matter from the standpoint of what he has done for the territory."

"What guarantee do we get that the Governor won't get to knocking the party again?" inquired Mr. Chairman Robertson. "We have been trying to get together right along. The Governor was the man who jumped in and knocked the party and kept it from knocking together. The only thing we can act on is the statement that the Governor means what he has said."

"That resolution is very cleverly drawn," said Mr. Rawlins. "It says the administration has been public spirited, efficient, etc. That to me is the main part of the resolution. There is no doubt but that it has been efficient."

"The only point I have to object to," said Senator Lane, "is concerning the attitude of the Governor. I don't see how this committee can endorse the Governor after what he has done towards it."

NOT THE ONLY ONE.

W. W. Harris, who up to this time had taken no part in the discussion, said: "I was opposed at first to adopting this resolution and thought it best for the country not to do anything. On second thought, I believe that the main point in that resolution is the almost unanimous regret that the Governor should resign at this time. It is a step in the wrong direction. I think the differences that have arisen in the party are matters of history. The main point is this, that the interest of Hawaii and the people will be best served at the hands of the present administration. It simply means unrest and upheaval to change at this time. As far as the statement goes that the Governor is the only man to fill the office, I don't believe that of any man, I don't care who he is. At the same time I don't want any more upheavals."

"I don't say the only man, but the best man," Mr. Cooke corrected. W. H. Rice, newly elected Sheriff for Kauai, said that on Kauai they regarded the Governor as an efficient official. The fight between the Governor and the Republican party, whatever it may have been, was merely local, or properly speaking confined to Oahu. He, personally, was elected on a platform which endorsed the administration of the Governor. After consulting several influential men of Kauai, he found that they regretted the action of the Governor in resigning. It was for the interest of the territory at large that he considered the whole matter, and he therefore supported the resolution.

"I don't see how this committee can be manly and consistent, and at the same time adopt the resolution," said Chairman Robertson. "There is no reason in my mind why the Governor should take the course he has. He may have perfectly good reasons, but we don't know anything about them. In view of the fact that he ignored a definite understanding with this committee regarding public appointments and considering his open fight against nominees of this party, I think it would be to stultify the party to pass that resolution."

The question being called, the resolution was passed as above noted.

RESOLUTION PASSED BY THE EXECUTIVE COMMITTEE OF THE REPUBLICAN CENTRAL COMMITTEE OF THE TERRITORY OF HAWAII.

WHEREAS, George R. Carter, Governor of this Territory, has tendered his resignation to President Roosevelt;

RESOLVED: That this Committee regrets exceedingly that the Governor has taken such course, and hereby expresses its hope that such resignation may be withdrawn or may not be accepted.

We believe that the administration of the office of Governor by George R. Carter has been public spirited, efficient and economical.

We believe that the interests of Hawaii and its people will be conserved by the continuance in office of the present Governor; believing that a change in the chief executive at this stage of the development of American institutions in Hawaii will be conducive to unrest and retrogression, with no offsetting advantages.

RESOLVED: That a copy of these resolutions be transmitted to the President of the United States, and to Governor Carter.

INTENTION UNCHANGED

Washington Alone Can Influence Carter to Remain.

"They must get together here and agree upon my successor," said Governor Carter yesterday. "There certainly are lots of men who can fill my place. Yes, I have received a call from the representatives of the planters, but the pressure has not inclined me to reconsider my determination to resign. I shall leave for the mainland on the Alameda, the day after tomorrow. Mrs. Carter will accompany me as far as San Francisco, and I will leave her there and go on East."

It is clear, from what the Governor said, that he wants the people here to agree upon their choice for Governor before he leaves for Washington. And, indeed, if there is to be a new Governor, it would be the part of wisdom for the people to do that. But the trend of sentiment is not to select a new Governor, but to induce the President, if it should be possible, to refuse to accept Carter's resignation. It is believed that if the President should intimate a desire to Governor Carter that the island executive would hold his place, the Governor would most certainly stay, although in that event he might take a long and very much needed rest.

"The Governor has worked too hard," said a leading citizen of one of the other islands yesterday, talking of this aspect of the matter, "and the work has tried him. He is not at all a well man."

"If he were himself, he would see matters from a different viewpoint. It is a good thing, of course, to have the different public bodies and leading citizens express themselves upon the resignation, because it will give the President a line on the real public sentiment here. In fact, nobody wants to get rid of Carter but a few personal and political enemies, such as all public men must have. But, after all, it is not what Hawaii wants so much as what Washington wants that is to govern in this case. If the sentiment to retain Carter is in line with the desires of President Roosevelt, I think Carter will be induced to stay."

CARTER IS CONDEMNED

Ten Members of County Committee Vote to Censure.

Resolved, That the Republican County Committee of the County of Oahu does hereby disapprove of the attitude taken by the executive of this Territory regarding the County campaign, inasmuch it has embarrassed this committee in its work, and lent aid and encouraged certain members of this committee to work against the Republican Party.

Resolved, That any member of this committee who did not support the regular ticket but who worked for and supported candidates that were not nominated by the Republican party should be expelled from this committee.

The Republican county committee for Oahu, ten out of thirty members being present and three of those who were there sitting on proxies, last night expelled three committeemen who had worked against regular nominees of the party in the county election, and passed a resolution disapproving of the action taken by Governor Carter in supporting men for office not on the regular Republican ticket, and in jeopardizing the success of the party.

This action was not secured, however, without a fierce fight. It was conducted, in the main, by Henry Vida and by Charles Clarke, neither of whom is a member of the County committee, on one side and by Chairman Andrews, who favored harmony, on the other.

Clarke is a member of the Territorial Committee, under the rule of which body he is not entitled to sit in the county committee at all. However, the mere matter of a rule, more or less, did not seem to bother Mr. Clarke. He and Vida had both held proxies, and they carried their point.

Those who were present at last night's meeting were W. C. Rowe, Chas. Hustace proxy for Quinn, Chas. Zeigler, Al. Moore, W. Drake, Logan, George Nawaakoa proxy for Myers, Sam Dwight, Lorrin Andrews, Ben (Continued on page 4.)

OPEN REVOLT IN PROVINCES

Affairs Grow Worse Every Day in the Vast Empire of the White Czar.

(ASSOCIATED PRESS CABLEGRAMS.)

ST. PETERSBURG, June 27.—The police have ascertained that large quantities of arms have been sent to various parts of the Caucasus.

Several portions of Russia are verging on a state of open war against the government. The two capitals are as yet unaffected, but any attempt at the mobilization of troops would probably cause a renewal of the tumults.

PEACE PLENIPOTENTIARIES ARE TENTATIVELY NAMED

WASHINGTON, June 27.—President Roosevelt has gone to Oyster Bay. It is given out here that M. Nelidoff and Baron Rosen, on the part of Russia, and Baron Komura and Minister Takahira, on the part of Japan, have been tentatively named as the Commissioners on the part of the belligerent powers to treat for peace.

Baron Rosen is the newly appointed Russian Ambassador to Washington, and is peculiarly fitted for a place on the peace commission, because of his familiarity with Far Eastern affairs, and because he knows Japanese. M. Nelidoff, who will probably be the other Russian plenipotentiary, participated in the negotiations preceding the treaty of San Stefano, which closed the Russo-Turkish war, and is a diplomat of the very first-class.

Baron Komura is the Japanese Minister for foreign affairs, and Mr. Takahira has made himself well known to Americans since he has held the place of Minister to Washington.

A St. Petersburg dispatch of June 1 says that in spite of the official dubiousness as to the result of peace negotiations, reports were current in the Russian capital that the Czar had already obtained Japan's conditions, and that they were surprisingly moderate.

A rather important detail, which has been the subject of informal conversations at the White House, is the language to be used at the conference. Russia will ask that the French language be used; Japan will express a preference for English, and in recognition of the courtesies to be extended the plenipotentiaries by the Washington Government, diplomats believe that the English language, if not accepted as the official language of the conference, will be used jointly with the French, the proceedings of the conference being recorded in both tongues.

JOHN T. MOIR WANTS CARTER TO HOLD ON

"Everything is not gone on Hawaii, so far as the Republican party is concerned," said John Moir, Supervisor-elect on the big island, yesterday. "We have four of the seven Supervisors. And I think that we can hold the thing straight. The opposition members will stand for good government, too. So the case is not so bad as it might seem."

"I most sincerely hope that Governor Carter may be induced to reconsider his resignation. There is much yet to be done for Hawaii, much that he can do better than another. And we will have to begin almost all over again if he insists upon going out. I believe the Governor should take a long rest, and then tackle his problems again—and, in the meantime, we should make such representations at Washington as would decide President Roosevelt not to accept his resignation. After Governor Carter has rested, I think that his problems would present themselves in a new light."

Mr. Moir was one of the Governor's callers yesterday, going to the Capitol after the talk above was had with him.

INTENTION UNCHANGED

(Continued from Page 1.)

ernor yesterday consisted of C. M. Cooke, Wm. G. Irwin, H. P. Baldwin, F. M. Swanzy and William Pfothbauer. The Governor told the members of the committee that he did not see any reason to change his mind. His decision has been reached after careful consideration. And, anyway, it was what Washington wanted, now. There was a long discussion, but nothing more definite than that came of it.

CHAMBER OF COMMERCE REGRET RESIGNATION

The Chamber of Commerce had one of the largest meetings in its history yesterday, and after the members had all expressed themselves as opposed to any change in the Governorship at the present time, the following resolutions offered by F. M. Swanzy were passed unanimously:

"Whereas, The Hon. George R. Carter has publicly announced his intention to resign the office of Governor of the Territory of Hawaii, be it

Resolved, That the members of the Chamber of Commerce of Honolulu hereby express their sincere regret that the Governor should entertain such purpose;

Resolved, That in the administration of the public affairs of the Territory Governor Carter has held the esteem and respect of this Chamber, and in the performance of the difficult and responsible duties of his office he has displayed ability, integrity and high character;

Resolved, That it is our earnest hope that Governor Carter will be persuaded to abandon his intention of resigning and will consent to continue to hold the office."

Certainly Governor Carter can have no fault to find with the expressions of confidence in him uttered by the members of the Chamber. C. M. Cooke opened the discussion. He said that he had heard with much regret of the resignation of the Governor. He feared that the Governor could not be persuaded to withdraw his resignation now, but if that were true, then he believed representations should be made to the President to induce him to refuse to accept it.

"I understand," said F. M. Swanzy, "that Governor Carter's resignation is due to a feeling on his part that he has lost the support of the men upon whom he believed he had a right to depend. If he has done so, the men who have lost confidence in him should explain why. But I do not believe that these men exist. I have not met them; all to whom I have spoken have expressed complete confidence in him and a desire for him to remain in office. His resignation now creates a disturbance in the administrative branches of the government which must be harmful and makes an unrest generally which is most undesirable. The position of Governor is not in every sense desirable, but I hope the Chamber of Commerce will induce Governor Carter to remain and to continue in his efficient discharge of the duties of the office."

"It would be difficult for us to get another man as well fitted for the office as Carter," said Wm. G. Irwin, "and, if we did, the change would create unrest. I think that Governor Carter is worked up and in a nervous state. Let him have a rest and think the matter over and I believe that he will reconsider his determination and finish out his term."

George M. Rolph, Alex Garvie, F. Lanz, Paul Muhlendorf and William Pfothbauer followed with short speeches in which they reiterated the view that any change would be bad for the Territory's business interests and that every effort should be made to have Governor Carter retain office.

"I always understood that Governor Carter was a fighting man," said A. Gartenberg; "let him set his jaw, hang on and rely on the firm support of the best of the community."

J. P. Cooke referred to the manner in which Governor Carter had "purified the judiciary" and had put the business departments of the Territory on a business basis.

"We need him at the head of affairs," pursued Cooke. "I do not know of any other man we could have in his place who would do as well as he has. We may not agree with all of the methods that he has, but that is always the way with a strong man in office. Every effort should be used to have him retain office."

Before the resolutions were voted on, J. J. Egan asked the chair if there was any information as to the relations between the Governor and President at the present time; had the President asked for the Governor's resignation?

Chairman Tenney replied that he knew positively that the President had not asked for the Governor's resignation.

G. W. Smith heartily agreed that the Governor should be asked to remain and he agreed with the spirit of what had been said, as also with the tenor of the resolutions, but he did not counsel going farther.

The resolutions were then carried without dissent, and Secretary Spencer was directed to transmit a copy of them to Governor Carter.

SUPERVISORS TO CALL ON GOVERNOR TODAY

A Board Meeting was Held Last Night in the Throne Room and Members Waded Through a Mass of Data.

After two hours' deliberation over county affairs last night in the Throne Room of the Capitol, the members of the Board of Supervisors found themselves floundering in a mass of data seemingly without head or tail to it. First of all the financial net had to be cracked. Territorial Auditor Fisher said that the County of Oahu could not get its entire six months' pro rata of funds in equal installments every month, as the Territory had to deduct \$125,000 from its total allowance, and this could not be done until all the taxes were in. That, of course, made a difference to the Supervisors, and it would make considerable difference in the estimates for monthly maintenance of the several departments.

Then there was a tangle over the maintenance of prisoners. Attorney Douthitt said that the new wing to the Territorial prison was the "County Jail," but Auditor Fisher said that it was merely a wing of the Territorial prison, intended for misdemeanor prisoners. The fact remained apparent to the Supervisors that the Territory was to get many departmental realizations, while, apparently, the county had to foot the bills.

In order to have some light thrown on some of these various knotty questions, the Supervisors, in a body, will call on the Governor this afternoon at 2 o'clock, and tonight will ask Superintendent Holloway what he will turn over to the county. The Attorney General will also be asked to explain some Territorial and County matters with which he is supposed to be perfectly familiar from the legal standpoint.

FISHER ANSWERS.

Auditor Fisher said he did not know exactly what was expected of him, but he was willing to aid the supervisors wherever possible. He asked for questions.

Mr. Adams wanted to know what it had cost to run the Police Department last month, and the Fire Department also. Mr. Fisher said he could get that by averaging statements made last year to the Legislature. He said he had drafted a statement as to receipts for the six months ending December 31, 1904. This would correspond to the first six months of the county's existence. He read the following statements:

Statement of the Taxes collected for the Island of Oahu for the six months ending December 31, 1904:

TALKING OF MONEY.

There would be a little over \$252,000 up to January 15, 1906. Mr. Fisher said it was better to take out the deductions from the total rather than by pro rata amounts each month. The county would have \$252,000, approximately, for its first six months. That would be all the county could get.

Mr. Fisher said the law reserved \$125,000 to come from the county, and the county would get what was left, at the end of the six months period.

Lucas asked what money was left over which could be applied to road work.

Mr. Fisher said there was money in the hands of the Treasurer. He did not know whether it was a territorial or county deposit. That could be decided when they drew upon the treasurer.

Mr. Trent said that since April 26 the Territorial Treasurer had been holding the road taxes for the county, amounting to about \$2300.

Lucas inquired whether there would be any road money to keep the men employed right along.

Fisher did not think the county could keep up the payment of road expenditures as fast as the Territory had. "I don't think the county can keep up the same lick," said Fisher.

The expenditures in the fifth district for the six months ending December 31, had been \$19,000, and in the fourth district, \$17,000, but other improvements in road extensions were going on at the same time, paid out of the loan fund.

"What would be our expenditures," asked Adams.

"I know the law provides for \$1665 per month for salaries of supervisors and other officers," was Fisher's reply. "The Police Department gets \$750, making \$19,000 a month."

Lucas thought \$7500 for the police was too much. The Chairman said it was proposed that the July expenses be as of June, so as to get started.

Moore asked if the 10 per cent. of the whole amount could be paid over monthly. Fisher said the law provided the county should have not less than 10 per cent. The Territorial officers under their bonds would not pay more, as the estimated taxes might be less.

Lucas was afraid there would be no money for the road department.

MR. TRENT INQUIRES.

Trent inquired as to the 10 per cent. of the estimated receipts. He thought the pro rata would be \$37,000 per month. That would be 60 per cent. in six months. He considered the 40 per cent. was to take care of the \$125,000 which the Territory gets out of the county's total receipts.

If that plan was carried on here, Kauai would have money to do business on, was Adams's comment. Adams thought this method of taking out the full limit of money to 60 per cent was the only way the county was going to do business.

Fisher said that \$377,000 was Oahu's total share.

"Where do you get your warrant for

the \$125,000?" asked the chair. The chair considered that Mr. Trent had arrived at a reasonable solution of the problem, which was really according to the law. Mr. Adams thought that the Territory would get its \$125,000 all right, despite any fear there might be of a falling off in taxes.

"I don't think you would get any of your warrants cashed until November," said Mr. Fisher.

Adams said that by taking 10 per cent for six months out of \$377,000 it would give the county \$37,000 a month. That would be 60 per cent. The Territory would retain the other 40 per cent. This might be \$150,000. That being the case, the Territory would have \$125,000 of that, leaving \$25,000 as a balance due the county.

The Police Department for the last six months drew \$43,000. J. A. Gilman presented a statement for the Fire Department which showed that \$3290 went for payrolls and \$875 for supplies, or about \$4000 a month. This, however, was on the "cut" basis of the special session.

Over \$3000 a month was spent on the garbage department, but there was revenue from that. The garbage crematory expense was included in the expenditure statement. \$1250 a month was the cost of maintaining the band, with a few incidentals.

COUNTY IS LUCKY.

Mr. Trent said the county was fortunate in starting in the last instead of the first six months of the year because there were more taxes coming in, so there would be "money to burn," so to speak. The county would start well enough on \$377,000, and then next year the taxes would be collected in May as well as in November.

The government electric light station in Nuuanu is run by the Territory, so Adams stated. The station would probably supply lights for the county offices.

Six hundred and sixty-six dollars a month was paid to the commission controlling Kapiolani Park. Fisher has made an item of \$1000 for the park. He thought that should be sufficient to keep Aala, Thomas and Emma square parks. Adams said \$500 a month would keep Kapiolani Park. Lucas suggested that the Rapid Transit might contribute to the maintenance of Kapiolani Park.

Fisher said that when the first county government was launched, he had delivered over to the counties complete sets of books. These he was again sending out to the counties today. These books were all right for the present government. The Territory had paid for them.

"Thanks," said Adams. The board then got down to regular business. A proposition was received from the Alex. Young building company to rent a portion of the second floor of the Young block for county offices. The committees on buildings and rules reported progress.

DOUTHITT'S EXPENSES.

Attorney Douthitt gave an estimate of his July expenses as follows: Assistant, \$175; stenographer, \$125; clerk, \$75; stationery, \$250; in all about \$650. Some of the expense would be permanent. That did not include his own salary. Afterward he would need a criminal and incidental fund.

The chair suggested that the county attorney was a deputy of the attorney general's department, and that as the legislature had left the incidental appropriation for the attorney general's department the same, some of the incidentals would be borne by the latter department.

Auditor Bicknell said he had not estimated his office expenses.

The chair suggested a finance committee could take up these matters with the various officers and present a statement in concrete form.

Adams wanted to know how much

space the County Attorney and other chair appointed Messrs. Adams, Moore officers desired. Mr. Douthitt thought and Lucas.

AS TO OAHU JAIL.

"Is the Board of Fire Commissioners in charge of the Fire Department, or are we?" asked Adams of Auditor Fisher.

Mr. Fisher was in a quandary, but he thought the law gave the authority to the commissioners, who are appointed by the Governor. However, the county had to pay the bill for the Fire Department. The Attorney thought the county law gave the Supervisors power to appoint the fire and all other commissioners.

Adams then referred to the maintenance of prisoners of the county. The Supervisors, he thought, would be required to meet this expense. He felt, however, that all prisoners now were territorial, and maintenance of prisoners by the county would be only of those convicted by the county after July 1.

Fisher said that none of the \$100,000 appropriated for the biennial period for maintenance of prisoners would be applied; only to territorial prisoners.

A LOT OF NEW THINGS

OLD HICKORY—Something new, odd, and dainty—decidedly artistic—in the way of porch and lawn furniture. Can be left out in all kinds of weather. It is a line of fashionable rustic furniture. It is made only of hickory, the strongest of American native woods, the bottoms and backs being plaited by hand and being of very strong inner hickory bark. For a den or lanai or even for your lawn there is nothing more odd than this.

NEW WEATHERED OAK SET—By the "Sonoma" we received a fine weathered oak dining-room set, consisting of a table, an odd buffet, a leaded glass china cabinet, two arm chairs, and eight regular dining chairs, these latter having green leather seats, which go well with the dark color of the oak.

We also received a very handsome golden quartered oak sideboard and a china cabinet—about as good as can be made in any furniture factory.

RUGS—New lot of all sizes of rugs, including fine Wilton's of all sizes.

WICKER CHAIRS And ROCKERS—A lot of cheap wicker work in the way of chairs and rockers is disposed of every year in Honolulu. Some of it lasts for a couple of months and some as long as a year, but the best on the market—that advertised in all the magazines—and the best of American make, made in American factories from the best Ceylon rattan, will last for years. We have a new lot of the American goods in chairs and rockers, of all patterns, shapes and sizes and at reasonable prices.

FRANCE AND GERMANY.

The gravest fears are expressed in well-informed circles that Germany and France may yet come to a clash on the question of the Morocco agreement. The war in the Far East has had one effect that the best-informed diplomats may have foreseen, but which the world at large undoubtedly overlooked. Russia, when she was attacked by Japan, ranked as one of the greatest of the great powers. She was believed to have immense strength, untold, but not the less menacing, and her war chest was esteemed practically inexhaustible. A mere Russian demonstration, in whatever force, toward the Afghan frontier, would make England sit up, and Russian intrigue with the Amir sufficed to keep British policies in a state of unrest.

The alliance of France and Russia was enough to hold the Kaiser in check, and although German commercial aggression did not halt, the German professions were all for peace so long as the French entente with the Czar held and Russia's strength was a thing not tested.

The Japanese have pricked the Russian bubble, and they have helped Germany this far, that the Kaiser can see no military rival on the continent of Europe. Naturally, almost inevitably, he deems himself paramount, the one force in affairs to be reckoned with in all emergencies. And he puts check upon the scheme of French expansion in Morocco as the first fruit of this sense that he has suddenly become the whole thing in the continental world. It had been deemed, it is true, that the tendency of the French statesmen to yield to him as far as they could, consistently with national honor, would smooth away the trouble that arose, and that the Morocco affair would be settled by an international conference that would provide for the preservation of German commercial privileges in Northwestern Africa. But later advice indicates that this hope may prove fallacious. There is nothing definite, it is true, upon which to base a prophecy of war between the two powers that had their last meeting in force at Sedan. So far, only the newspapers of the two nations are at war. But the French officers on leave have been called to their colors, it is said, and we may be sure that, if that has been done, the German mobilization is also proceeding, though nothing has been said about it.

But if war comes, it will not be France alone that will face Germany. It is true that in the Czar's extremity the ally of the Republic is lost, but England stands with France in the Morocco business—and at least as significant as the ordering of French officers to their colors is the hastening homeward of English warships from all parts of the world. The impressive answer Britain made to the Kaiser's letter to Kruger will be remembered in this connection. The Flying Squadron of that day astonished the world, and gave William such a pause that there was no interference in South Africa. And it is a lesson that may be repeated. The Kaiser may beat the French upon the land. England is still mistress of the seas. And German commerce is very tender.

JOHN BARRETT, MINISTER TO COLOMBIA.

The cables announce the appointment of John Barrett, late Minister to Panama, as Minister to Colombia. Perhaps that is reward for becoming persona non grata to the new republic that was formed by rebellion out of the territory of Colombia, as Barrett undoubtedly did. It may be argued, and possibly with wisdom, that if they do not like Barrett in Panama, they will without doubt think much of him in Colombia. And, knowing both sides of the story that ended in the cession of the Canal Zone to the United States, Barrett can be of great service to his country in his new post.

The rise of John Barrett is one of the most remarkable stories of American diplomacy. He was an Oregon newspaper man, when he first attained prominence, and was rewarded for support by President Cleveland with the appointment of Minister to the Court of Siam. Clevelandism, however, did not endure, and so Mr. Barrett's diplomatic career in the Far East was not extended.

However, the Spanish war came at about the time that his commission expired. Barrett, who had previously done some writing for various magazines, watched events in his vicinity closely, and, having the journalist's talent for observation, became so thoroughly posted that his value was recognized and he was sent to Manila at about the time of Dewey's victory as a special representative for the Hearst syndicate of newspapers. His contributions to the literature of the war had some value, but he shook himself free of the Hearst connection, seeing how matters were turning in the United States, and as he had collected a vast amount of statistical information in Manila he came home one of the best posted men in the nation on affairs out there.

Of course, he was consulted by the men in authority, and at one time desired high place in the Philippine administration, but that was not to be. However, Barrett was not discouraged. He wrote, and gave lectures, and stumped California and various Eastern States for the Republican party. His reward came, presently, in his appointment as the American representative to the Mexican American Congress. And he has gone up rapidly since. It is said, by those who know him best, that he is an advertiser rather than a diplomat, and perhaps that is true. But the two talents are not incompatible, particularly in the American diplomatic service in Latin-America. America needs advertising there, of the diplomatic kind. And it needs it especially in Colombia.

Maryland's early history is the battle ground of a lively religious controversy. Rev. Dr. C. Ernest Smith of Washington, D. C., declared in a published article that it was due to Anglicans, whom he claims as the first settlers of the State, that original Marylanders were among the first to enjoy religious toleration in the colonies, and offered this theory in the face of the histories which give the credit to the Calvert family and their associates, all of whom were of the Roman faith. The declaration attracted the attention of Rev. John Gaynor, who undertook to answer it by showing that the history of the settlement of Maryland is as authentic as that of any of the colonies, and more to be relied upon than many which have gone undisputed. Then Rev. Joshua E. Wells, a prominent Baptist pastor of Baltimore, took up the cudgels in behalf of the Roman Catholics, contributing an article to the Catholic Mirror on the subject. The peculiarity of such religious squabbles as this one is that, whatever benefit they may be to the cause of historical accuracy, they do mighty little service to religion.

Save only Kauai, all the new governments under the county act will start with full sets of officers—and Kauai is only short one Supervisor, whose certificate has been withheld pending investigation as to his election petition. The new counties will begin by feeling the need for pressing economy, too, but that may not be so great a hardship as it looks at first glance. If the first set of county officers give an example of economy, those who follow them may be the more readily inclined to do likewise. And so the Territory will be the permanent gainer.

John Hay is once more reported to be in very precarious condition of health. It was evident, when Mr. Hay left this country for Europe, that he had failed fast under the strain of his labors in the Department of State, but Americans had begun to hope that he would be restored eventually, and be spared for many years of useful life. Should this hope be finally disappointed, the loss will be the world's, as well as ours.

It would seem that there should be some method by which the Territorial government could reach, and save the timber on the Coney place, on Tantalus. Being private property, whose owners desire to cut the wood, there is, of course, no way to stop the work unless the government can reach it. And yet there is no resident of Honolulu who should not regret that the trees are to be sacrificed.

If an armistice is not presently entered into between the Japanese and the Russians, it will not be necessary because General Linevitch will not have enough of an army left to be worth saving.

If Lord Curzon cannot have control of the army in India, as well as of the government, he will just simply take his doll rags and stay at home.

And now the interesting question occurs to the man who watches events. Which Republican Committee is the Republican Committee?

CARTER IS
CONDEMNED

(Continued from page 1.)

Zablan and, as before stated, Vida and Clarke.

Three members of the committee, Robert Boyd, Charles Coster and E. Kealoha, were declared to have worked against regular nominees of the party at the last election, and were formally expelled from the committee. Then came the resolution censuring the Governor for the part he had taken, and after a hot fight it was passed. Rowe and Logan asking to be excused from voting and Chairman Andrews not voting upon it, of course.

The expulsion of the men who had not supported the regular party nominees had been considered at a meeting held earlier in the day, but aside from a somewhat warm discussion there was no action at that time. The thing came to a head at last night's meeting, and the expulsion resolution was put through, as well as the resolution censuring the Governor.

SUPERVISORS

(Continued from Page 3.)

Adams said on this reasoning the counties would have to make arrangements with the territory to maintain its prisoners.

The Attorney said the county would have its own county prison—the wing recently attached to the Oahu prison. Mr. Fisher disagreed with this view. That was merely a wing to the prison to keep the misdemeanor from the felony prisoners.

"If the judge has the option of fining a man \$1000 or sending him to the county jail, where does the county get off? The \$1000 would go to the territory, but if the prisoner was sentenced to jail the county would have to take care of him and start the expense," said Trent.

Adams said the supervisors wanted to get hold, without friction, of the police station, fire stations, road equipment, etc., and by Saturday be in a position to take over matters properly.

Moore suggested that the Attorney-General be called before the Board tonight. He could tell the Supervisors what to do in regard to the authority for having these various utilities turned over to the Board.

Adams thought best to inquire of all government heads first, and have the legal authority questioned last. Lucas wanted a meeting this morning at 9 o'clock.

Cox suggested that as the Governor goes away tomorrow that the Supervisors call on him this afternoon at 2, as he might have some advice to offer. On motion of Moore the Board decided to call upon the Governor at 2 p. m. Adjourned to 7:30 o'clock this evening.

Captain W. L. Bowers, chief of the Merchant's Patrol, was arrested last night on a warrant charging him with assault and battery. The arrest seems to be the result of a neighborhood quarrel. According to the story told at police headquarters last night, Capt. Bowers's neighbors objected to his burning some rubbish for fear it would injure one of their trees. The neighbor and his daughter went to Bowers and vehemently demanded that the fire be put out. In the heat of argument the girl alleges Bowers slapped her face. The captain says that it is spite work on the part of his neighbors. He was released to appear this morning.

There is said to be a strong sentiment among the Oahu County Supervisors, in the interest of economy, to combine the duties of county road supervisor with those of Territorial road supervisor, giving Sam Johnson the added duties and as small an added stipend as he will take.

PROMOTE SOCIAL PURITY BY PROPER LITERATURE

A Sequel to the Article on "Education as a Factor in Promoting Social Purity," Presented at the Mothers and Teachers' Club, Honolulu, June 9th, by Miss Eisner.

(Continued from yesterday.) SAVAGE CUSTOMS OR INITIATIONS.

If we are going to add another nightmare to the already much-harassed adolescent, we are hardly more humanitarian than the savage tribes Mr. Stanley Hall enumerates in his excellent work on "Adolescence," which, by the way, every adult should take the time to acquaint himself with. The coming of age among savage tribes is uniformly regarded as the great event. The initiation rites which are mercilessly enforced are often cruel in the extreme. The girls are secluded or imprisoned for days, months, or years, varying with different tribes, and depending largely upon the wealth of the family; fasting and unremittent work being leading features during this period, which are intended to awaken the intuitive faculties. Then there are a number of other cruelties inflicted, some as severe as those used with the boys. The more wealth the family represents, the longer is the period of probation or purification.

The boys are subjected to all manner of trying ordeals in regard to physical endurance of pain, which are intended to test their worthiness as coming men and warriors—vulcanizing their bodies against any possible weakness thereafter. Different tribes vary in these practices, but with all this coming of age is the great solemn ceremony of initiation, accompanied by various hardening processes of the body to insure health and strength, embracing endless details that cannot find space here.

"Among the Arctics two ancient documents containing some of a father's teaching to his son, and that of a mother to her daughter, constitute an admirable code of morals and manners, which, with a few changes in detail, would be helpful in any land and age," according to Lucien Biart.

In the civilized state of the present there is perhaps too little stress laid upon the "hardening of the body" and practical training for general usefulness, but under the prevailing system of herculean intellectual requirements, the student hardly finds time for enough exercise to keep the body in health, which the innumerable breakdowns from overwork will bear witness to every year. Our youth considers itself greatly abused owing to these mental tasks, but otherwise they certainly have a paradise in comparison with their savage brothers.

The greatest misery of the adolescent in a civilized state is the despicable teasing habit of his elders. He is continually being made conscious of his abnormal state, every move is commented upon, his diet, his primping and plumping, in fact, every idiosyncrasy relative to this stage is made a target of, until his life, which is so filled with inexplicable newness anyway, is made nearly unbearable.

DIET.

A few words on the very important subject of Diet are apropos here. So much is depending upon correct diet, especially while the body is undergoing such decided change, that it seems remarkable that so little attention is given to it as a whole. We all know that a hungry child is more liable to yield to the temptation of stealing than one well-fed. In later years the same holds good as a preventative in regard to the liquor and tobacco habits. The body requires certain chemical elements for its growth and sustenance; when these elements are not supplied through the food consumed, there is an abnormal craving for something, often

not at all defined, but this feeling of want yields very readily to the proffered "first drink" or first smoke, etc., unless the moral home training has been unusually fine. There are always so-called "older friends" about who make it their business to undermine as many lives as possible, apparently without any motive of personal gain but just a criminal desire to draw others down to their own low level.

Many thoughtful people are discarding the use of meat from principle. The ghastliness of partaking of slaughtered animal's flesh, which creature, perchance, was far along in the scale of evolution, is so repellent that no sacrifice is involved in dispensing with it. Others use it most sparingly owing to its strong stimulating properties. But the human race as a whole will be some time recognizing the law of cause and effect, and let's drunkenness and a multitude of other evils will cling to it, in spite of its great intellectual attainments.

The most barbaric custom, which has not even the redeeming feature of slaying the animal for food, is the "chase." Another murderous tendency, that nearly all nations are still engaged in, is to be prepared to annihilate each other in case of war. As long as this instinct to kill exhibits itself wholesale, gross, low thought will be rampant and lives will be in accord therewith.

Thoughtful care should be exercised in serving food with as little seasoning as is compatible with its being palatable. Condiments, hot sauces of every sort should be banished, for they are injurious and also too stimulating. About this time of life hereditary tendencies are likely to focus themselves, and with plenty of wholesome, nourishing food (well masticated), and vigorous bodily exercise, many deplorable habits can be forestalled or will disappear. Not through improved diet alone need we expect great changes, but this will be a powerful assistant.

The subject of heredity merits most thoughtful attention, and a special article will be required to do justice to it.

GOOD LITERATURE. TIME AS THE ARENA FOR OUR GROWTH.

Next to good food comes good books. Young people are, generally speaking, voracious consumers of literature during this period; novels (often of the most questionable type) vary with stories of wild impossibilities, inflaming their imagination to all sorts of ventures. Fortunate is the youth who has a wisely selected course of reading to choose from. This highly emotional, often hair-raising literature works mischief in so many ways that a compromise is impossible.

This kind of literature is at best only an effective time-killer, which tendency we should aim to outgrow, for time is the arena for our development and if we ignore our possibilities or fill this precious quantity with meaningless occupation, we will simply be given the opportunity "to make up" the loss some other time, for nature is a most persistent taskmaster, and the lesson must be learned sooner or later. We can take our choice—improve our opportunity, or retard our growth, as we will.

On the other hand, by developing a taste for studiousness and good literature you insure for yourself the best companionship of all ages, and pleasures untold are yours; the habit of reading and thinking on elevating subjects should be encouraged from earliest childhood to be effective.

Young people do not usually receive as much consideration and encouragement as they should. During the very period where ideals are formed and when noble companionship with those of mature years is so valuable, they are left to their own devices and are given tasks to perform too numerous to mention; only in exceptional cases is the sense of perfunctoriness

FREE TO MEN!

A BOOK FULL OF FACTS ABOUT

DR. McLAUGHLIN'S ELECTRIC BELT FOR WEAK MEN

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE HE WANTS TO; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book, in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells or any ailment of that kind that unmans you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed, free, if you send this ad.

DR. M. G. McLAUGHLIN, 906 MARKET ST., Above Ellis, SAN FRANCISCO, CAL.

absent and a warmhearted personal interest manifested by those in control.

The idea of considering the accomplishment of a task to be disciplinary and useful only if made arduous is objectionable, and will soon be obsolete. The most difficult work becomes as play, and the most discouraging circumstances can be made subservient, if only approached in the right spirit, and the more individual sunshine we bring into action with our hard knuckle-down work of whatever nature it may be, the more effective are the results and the less time and vitality will be consumed in the performance thereof. Let us never lose sight of the stupendous force of rightly directed thought and concentration, for the application of these royal forces of nature are only partially understood and are indeed a wonderland in themselves.

The personal influence of the senior on the junior is governed mainly by the tact the former exercises, for young people resent any infringement on their rights and attainments, and usually "know it all" about this age. If we succeed in making their interests our interests, as one naturally does in early childhood, and are companionable, great helpfulness will result; to guide and not to instruct, this is the art. (To be continued).

MAUI'S HIGH SCHOOL IS GROWING RAPIDLY

C. E. Copeland, principal of the Wailuku high school, called on Superintendent Davis at the Education office yesterday. He consulted the chief about matters connected with the institution, among other things informing him that the attendance was growing fast. Indeed the increase of pupils gave promise of being so great that, before very long, the assembly room might have to be used for class purposes.

A STRONG CAST FOR PLAY OF "ALABAMA"

Considering its size it is doubtful if there is another town in the United States that makes a better showing in amateur theatricals than Honolulu.

From time to time performances are given in aid of more or less meritorious causes and it is seldom if ever, in recent years anyway, that an amateur show has not made distinctly good.

For the performances of "Alabama" which takes place on Thursday and Saturday evenings next at the Opera House, under the auspices of the Ladies' Kunalu Rowing Club, the very cream of local talent has been obtained and the impresarios have been additionally fortunate in securing the services of several amateur thespians who, while being new to the local boards, give promise of becoming decided acquisitions.

Of the new material may be mentioned Mrs. Workins, a southern lady herself, who may be relied upon to give a perfect rendering of the part entrusted to her. Then there is Miss Charlotte Hall who will make her bow to a local audience in dramatic work. She is doing particularly well in rehearsals in her ingenue role and should render a good account of herself before the footlights. Mr. Jeffrey will also make his first appearance here in straight work. He is a singer of merit and in this line is well known here.

Gus. Murphy of the tried and trusted brigade, is a mummer of marked versatility and plays character leads. As well known, locally, is Raymond Brown. His good work in "Said Pasha" and "The Pirates of Penzance," will be well remembered.

Paymaster Brown, U. S. N., is the "heavy" in the piece and has made a hit on more than one previous occasion. The same may be said of Coleman Schwartz, who was responsible for much of the "go" which characterized the Elks Minstrels entertainment, given recently.

No pains are being spared to make the scenic effects as striking as possible and one particularly beautiful moonlight and starlight effect is being arranged.

The plantation melodies, sung from the back of the stage, will be rendered by the Dillingham Quartet and will be one of the many pleasant features of the play.

The box plan opened at Wall, Nichols Co. yesterday and satisfactory business resulted. Seats can be exchanged there for tickets every day this week, but the indications are that the house will be booked up before the morning of the initial performance arrives.

HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu station and Trent & Company for \$5.00. For departure of trains consult time table.

On Sundays, the Haleiwa Limited, a two-hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10:10 p. m.

SPECIAL SALE OF BEAUTIFUL ORIENTAL GOODS.

The collection of beautiful Oriental goods that is now being displayed at the Globe Clothing Company is the property of Mrs. Jacobson, who purchased the same during her stay in China and Japan lately. These lovely goods are now offered for sale and consist of ladies' silk shirt waists, all patterns of choicest hand embroidery, no two patterns being alike. Intending purchasers are requested to call early, as the goods will surely be sold in very short time at prices offered.

SOME CHANGES MADE IN TAFT PARTY LIST

SENATOR WARREN OF WYOMING, WHO IS COMING WITH THE TAFT PARTY.

The personnel of the Taft party changes with lightning rapidity. At one time it was said there would be 150 persons in the party, and one of the latest lists gives only 80 odd people. It is quite likely, however, that when the party is ready to take its departure for the Far East, its numbers will be recruited up to the original list. One of the latest lists received by the Hawaii Promotion Committee gives the following names:

Hon. Wm. H. Taft, Secretary of War; Col. C. R. Edwards, Chief, Insular Bureau; Maj. Guy L. Edie, Surgeon, Army Medical Corps, Attending Surgeon; Capt. J. K. Thompson, Aide-de-Camp to Secy. of War; Gen. T. H. Bliss, U. S. Army; Capt. Wm. Kelly, U. S. Military Academy; Mr. James A. Le Roy, Durango, Mex.; Mr. John F. Stevens, Railroad Expert; Mr. Fred W. Carpenter, Private Secy. to Secy. of War; Mr. W. R. Pedigo, Private Secy. to Col. Edwards; Sen. and Mrs. Dubois, Idaho; Sen. Foster, La.; Sen. Long, Kansas; Sen. and Mrs. Newlands, Nev.; Sen. ODDITY OF CAMPAIGN

Rice Elected Officer While at the Coast.

One of the interesting features of the recent county campaigns was the race of E. M. Watson, Democratic nominee for attorney of Oahu, and of Arthur Rice, Republican nominee for treasurer of Kauai. The former was defeated by Mr. Douthitt, Republican, but Mr. Rice won on Kauai.

Both candidates were on the coast when nominated, and both were passing from bachelorhood to the realm of Hymen, for both young men were married during the month. Mr. Rice returned on the China to find himself elected treasurer. He was on the coast during the entire campaign, and, therefore, never made a personal canvass or a speech in quest of votes. Despite this drawback, however, he was elected by a comfortable majority.

Mr. Watson was unfortunate in this respect, for he did not win, but, nevertheless, for a candidate who was not here at any stage of the proceedings he made a remarkable showing.

Mr. Rice and bride will leave today for Kauai in time to take up his duties on July 1.

MORE ARMY SUPPLIES FROM SOUND PORTS

The Tacoma Ledger of June 9 says: Announcement made by the War Department at Washington, D. C., yesterday states that the present contract for the transportation of supplies to the Philippines existing between the

government and the Boston Steamship Company will be renewed.

In the future, it is understood, the company will receive more business from the government than heretofore, the quartermaster general's office being about to adopt a more liberal policy toward it.

Government freight in the past has been transported largely by transports and vessels especially chartered for the business. On account of a scarcity of American bottoms at the present time sailing ships are engaged in carrying lumber to the Philippines.

Quartermaster General Humphrey has not yet received an official report of the bids submitted to the War Department for carrying supplies, but it appears that the abstract of bids makes the Boston Steamship Company the lowest and this corporation will get the business on the same basis as it was done last year.

WILL BE GIVEN MUCH FREIGHT.

"We will give the Boston Steamship Company all the freight they can carry," the quartermaster general is quoted as saying. "The government has such quantities of supplies to send to the Philippines that it has been necessary to charter sailing vessels to take lumber in order to comply with the law requiring supplies to be sent in American bottoms."

The Boston Steamship Company's bid for handling supplies and troops between Puget Sound and the Philippines submitted a schedule of \$125 for first-class passengers to and from

THE FUNDAMENTAL LAW OF HAWAII CONTAINS:

1. The first Constitution of Kamehameha III, 1840, including the previously issued Bill of Rights.
2. The first laws of Hawaii, enacted under Kamehameha III, (1833-1842), published together in 1842.
3. The law creating and principles guiding the Land Commission.
4. The second Constitution of Kamehameha III, 1852.
5. The Constitution of Kamehameha V, 1864.
6. The Constitution of Kalakaua, 1887.
7. The Proclamation and orders incident to the establishment of the Provisional Government, 1893.
8. The Constitution of the Republic of Hawaii, 1894.
9. The treaty annexing Hawaii to the United States, 1897.
10. The Resolution of the Hawaiian Senate ratifying the annexation treaty, 1897.
11. The Joint Resolution of Congress annexing Hawaii, 1898.
12. The documents and procedure incident to the transfer of the sovereignty and possession of Hawaii to the United States, 1898; and the executive orders of President McKinley, relating to the government of Hawaii, issued during the transition period between the date of annexation and the passage of the Organic Act, 1898-1900.
13. The Act of Congress organizing Hawaii into a Territory, 1900.

The act passed by Congress creating a government for Hawaii repeals and amends scores of civil and criminal statutes previously enacted by Hawaiian legislatures.

No man knows what is in the Organic Act except through the medium of an index. The previously printed copies of this law in use in Hawaii contain only 657 indexed subjects.

The index of the Organic Act in the "Fundamental Law of Hawaii" contains 1399 indexed subjects and cross references.

Manila and Nagasaki; \$35 to \$55, second-class, according to number carried and subsistence furnished; from Nagasaki to Manila, \$62.50, first-class; \$35 to \$40, second-class. From Manila to Nagasaki the rates were \$52.50 first-class and \$30 to \$35 second-class. Freight rates submitted were: General merchandise, \$5; coal, \$6.50; lumber, \$12; horses, mules and cattle, \$75 to \$100 per head; sheep, \$10 to \$12.50 per head.

The Great Northern Steamship Company submitted a bid, but the figures quoted by that company were much higher than those of the Boston Steamship Company.

TRANSPORTS FROM SAN FRANCISCO.

No bids were submitted by San Francisco lines and supplies from that port will be handled by transports.

Under the rulings of the War Department all governmental supplies transported to the Philippines must go forward in American vessels. On July 1 of next year the extension of the coastwise shipping laws to the Philippine trade will prevent all foreign ships from engaging in the trade between domestic ports and the Philippines.

The Boston Steamship Company is practically a Tacoma concern, as this is regarded as the home port of the steamships Tremont and Shawmut of this line. These vessels are the largest coming to Tacoma, and they have a very great capacity for freight besides splendid passenger accommodations.

WASHINGTON, D. C., June 8.—It is announced at the War Department today that the contract for the transportation of government supplies to the Philippines will be awarded to the Boston Steamship Company of Seattle and Tacoma for the next fiscal year.

Picture Framing

We are especially desirous of calling attention to our Picture Framing Department and the facilities we have for executing high-class work.

Everybody at times has a picture worthy of framing. A nominal outlay transforms the sketch, lithograph or whatever it may be, into a work of art.

We have in stock, at present, a splendid assortment of mouldings; particularly Narrow Black and Narrow Gold.

The next time you happen to have a picture which you consider worthy of framing, bring it to us and we will advise you as to cost, etc.

WASHINGTON, June 17.—Orders have been issued at the War Department for an extensive movement of troops to and from the Philippines, as follows:

The 4th Cavalry to relieve the 14th Cavalry. The 3rd Cavalry to relieve the 2nd Cavalry. The 12th Infantry to relieve the 1st Infantry. The 15th Infantry to relieve the 22nd Infantry. The 1st Infantry to relieve the 20th Infantry. The 8th Infantry to relieve the 12th Infantry. Headquarters, band and six troops (A, B, C, E, F and G), 4th Cavalry, will sail for Manila August 31, and the 14th Cavalry will sail for the United States October 15. Troops I, K and L, 4th Cavalry, will sail October 31.

The 3rd Cavalry, except troops B and M, will sail from the United States November 30, and the 2nd Cavalry will sail for the United States January 15. The 13th Infantry will sail from the United States September 30, and the 7th Infantry will sail for the United States November 15. The 15th Infantry will sail from the United States October 31, and the 22nd Infantry will sail for the United States December 15. The 1st Infantry will sail from the United States December 31, and the 20th Infantry will sail for the United States February 15. The 8th Infantry will sail from the United States January 31, and the 12th Infantry will sail for the United States March 15.

Upon reaching San Francisco, Cal., the troops arriving from Manila, P. I., will proceed to stations as follows:

Fourteenth Cavalry—Headquarters, band and one squadron at Fort Walla Walla, Wash.; one troop at Boise barracks, Idaho; the lieutenant colonel and one squadron at the Presidio of Monterey, Cal.; three troops at the Presidio of San Francisco, Cal.

Second Cavalry—Headquarters, band, one squadron and two troops at Fort Assiniboine, Mont.; two troops at Fort Keogh, Mont.; one squadron at Fort Snelling, Minn. The regimental commanders will designate squadrons and troops for assignment to stations as indicated. The horses and horse equipments of the cavalry regiments transferred by this order will not be taken with the regiments, but will be turned over upon proper invoices and receipts to officers designated by department commanders.

Seventh Infantry—Headquarters, band and one battalion at Fort Weyne, Mich.; one battalion at Fort Brady, Mich.; one battalion at Fort Sheridan, Ill.

Twenty-second Infantry—Headquarters, band, one battalion and two companies at Fort McDowell, Cal.; one battalion at Alcatraz Island, Cal.; two companies at Fort Mason, Cal.

Twelfth Infantry—At the Presidio of Monterey, Cal.

ADA TAKES BUOYS.

The little schooner Ada was moored at the Waikiki side of the Naval Dock No. 2 yesterday afternoon loading buoys and anchorages which are to be placed in Molokai waters. Three 1200-pound blocks of concrete with iron rings and three 3000-pound blocks were the anchorages put into the Ada's hold. Two of the larger blocks will be used for the Kamalo Point bell-buoy, while one apiece will suffice for the others. On the schooner's deck are two black can buoys, Nos. 1 and 3, one red nun buoy, No. 2, and a nun buoy with black and white vertical stripes. These buoys are for Kaunakakai. The Kamalo Point buoy is a red bell buoy of the first-class. It has the word Kamalo in black on the flat deck for purposes of identification if it goes adrift, although the letters cannot be ordinarily seen. Fifteen fathoms of 1 3/4 inch chain cable will be used to moor the bell buoy and ten fathoms for each of the others. The Ada sailed for Molokai last night. Captain Nilback will leave with the Iroquois at 9 a. m. today to supervise the placing of the buoys.

NEBRASKAN IS LATE.

Honolulu will have a long wait for its next mail from the States. The American-Hawaiian liner, Nebraska, which was expected on the 20th inst. with the mail, has been delayed in sailing and will not arrive until the morning of July 3rd. Percy Moss, the local agent, received a cablegram last night stating that the steamer left San Francisco yesterday morning at 10 o'clock with nine days' mail. She has a good sized cargo for this port and Kahului from the Sound and San Francisco. The cause of the delay is not known. The agents will try and rush the Nebraska out in time to allow her to sail from Kahului for the coast on Saturday, July 8. Of the other boats of the A. H. line, the Nevada leaves the Sound July 7th, San Francisco July 13th, arriving here

July 21st. The Alaskan is at Kaunakakai loading sugar. She will call at Kahului and Hilo, leaving the latter port for Delaware Breakwater about July 3rd.

WILL BE BUSY FOURTH.

It looks as if there wasn't going to be much Fourth of July celebrating for the stevedores and others that pick up their bread and butter on the harbor front. Yesterday morning H. Hackfeld & Co. received a cable from Yokohama announcing the departure of the P. M. S. S. Korea from that port. She has 800 tons of cargo for this port and room for 75 passengers to San Francisco. The liner is expected here on the morning of July 4th. Then the Oceanic liner Sierra is due from the colonies on her way to the coast on the national holiday. That will keep another bunch of stevedores working while the orators are spouting, the bands playing and the rockets whizzing up into the air. It is also whispered that the transport Sherman may hurry along so as to give her men a chance to celebrate the Fourth ashore. And last of all, there is a possibility that the A. H. S. S. Nebraska may be late enough to pull in on the Fourth.

TO RAISE THE HULKS.

The various hulks sunk in Rotten Row for years past will have to be raised and removed before the improvement of the harbor can go on. Lieutenant Slattery will notify the owners to remove them and if they fail to do this the government will do the work and sell the material to pay costs. All the vessels which have been anchored in the row have been removed so that the surveying operations may be carried on.

TWO LEAKY SHIPS.

Advices from Auckland, N. Z., state that the bark Mary L. Cushing, bound from Newcastle to Honolulu with coal, put into that port in distress May 17, leaking six inches of water. She repaired and resumed her voyage June 20. Another leaky ship was the Henry Villard on the way from New York to this port. She put into Melbourne and sailed again Saturday for Honolulu.

SHIPPING NOTES.

The steamer Likiep sailed for Maui and Molokai ports last night.

The C. A. S. S. Miowera is due from the Colonies tomorrow on her way to Victoria and Vancouver.

The bark R. P. Rithet will probably get away for San Francisco today with a full load of sugar. She will take several passengers.

The island steamers scheduled to sail Monday and Tuesday next week will not depart until Wednesday on account of the Fourth of July.

The wooden stringer along the edge of Naval Dock No. 2 is being torn up and a new one will be substituted. The old timber was badly rotted.

The members of the M. B. Curtis Novelty Company were entertained by Commander Lucien Young on board the Bennington yesterday afternoon.

The sailors of the U. S. S. Bennington have rigged a sailcloth awning on the mauka end of Naval Dock No. 2, under which they maintain a blacksmith shop.

The steamer Kinau sailing for Hilo and way ports this noon will carry a record-breaking crowd. Many of the passengers are students returning home after their year at school.

The rank of commodore, now extinct on the active list, has been revived on the retired list and captains asking for voluntary retirement will be retired as commodores instead of as rear-admirals.

Workmen are busy laying spurs from the Alakea street terminus of the Alakea, Kakaako & Eastern Railroad. These spurs will reach every part of the lot to be excavated for the new Alakea street ships.

The army transport Warren sailed from Nagasaki yesterday with a full load of coal for the local army quartermaster. The army has more coal here now than ever before in the history of the post.

The Stephan is now proceeding to Shanghai to lay a cable 130 miles in length along the coast, which will form a part of the Shanghai-Yap cable, of which the main line is now being constructed by the North German Cable Works, and which will be laid next winter.

CONTRACTED NEURALGIA DURING THE WAR.

"I had a bad case of neuralgia which I contracted during the war. I tried several kinds of medicine but they did me no good until a friend of mine recommended Chamberlain's Pain Balm which gave me immediate relief. I have had no trouble since and must say that I find Chamberlain's Pain Balm a fine liniment. I have since used it for other troubles and always with good results."—J. Viljoen, Jacobsdal, Transvaal. Stein-Bloch Full Evening Dress Clothes and Dinner Suits

More pains must be put into the making of this black society garb than into any other clothes worn of masculinity (excepting the frock) for, being severely plain and the eye unhypnotized by color and pattern, they positively shout it when botched. The Stein-Bloch tailors make them the year round, and have held hard to high art in their love of their work for many years. Materials, fine undressed worsteds woven especially for this purpose. If you are invited out and haven't

the clothes, get into these, silk lined, graceful patrician.

It is valuable to know that, the materials of these evening clothes being identical, you can buy the coat and waistcoat you lack to go with the trousers you have, and thereby at light expense be full wardrobe for the social calendar.

WORD TO TRAVELERS BY AUTHORITY.

IMPORTANT STERILIZE TOILET ARTICLES IN TRANSIT.

Carelessness in This Respect May Result in the Contraction of Painful Cutaneous Disorders.

Although the majority of womankind are fairly well informed as to the various methods used in the newest treatment for skin or scalp troubles, or in the work of removing traces of neglect, not one in a hundred stops to inquire into the especially important subject of sterilizing all instruments necessary in this work in such a manner that the well being of the patrons may be assured, says the Philadelphia Inquirer.

In fact, so careless are many women in this respect that, although the souls of daintiness as far as their personal belongings are concerned, they seem to be perfectly oblivious to the dangers they may run in submitting to treatments from the hands of one who is not well enough informed to realize the imperative demand for scrupulous attention to the details of her work.

For instance, in the popular works of massage alone there are many ways in which most disagreeable cutaneous disorders may be acquired, unless the utmost precaution is observed. First of all, one should demand that for each subject a clean covering for the top of the operating chair must be provided.

The bandage used about the head to keep the locks from becoming oily must also be taken from a freshly laundered assortment, while the towels used about the neck of the gown will naturally come from the same source. This is but the beginning of the good work, and now one must observe the operator. If she does her work carefully she will scrub her hands thoroughly not only the moment she finishes one massage, but also before she commences another, and in addition she will immerse them in an antiseptic solution.

The cup that is used for cleansing the face before the massage is commenced must also be immersed in a sufficiently strong lotion and allowed to remain in this mixture until ready for use, when it may be rinsed with very warm water or washed in a milder lotion, if necessary.

All electrical instruments, such as the rollers, tiny hammers, vibrators, must also be sterilized in the same manner, and here, when one might think precautions could cease, still another matter is to be considered. This is in connection with the cream to be used upon the skin for the purpose of aiding the manipulation and also for remedying various defects.

Although this cream is a necessity and may even have medicinal qualities, still, if the operator dips her fingers into the jar and applies the cream to the face of one patient, then continues the same tactics with others as they appear, the oils may easily become fertile breeding places for the very germs one has sought to avoid in adopting the other precautions just mentioned. The only way to avoid this danger is to remove sufficient cream for use in one massage by dipping a bit of cotton into the jar, or else by means of a small ivory instrument, thus not inserting the fingers at all.

NOTICE TO BIDDERS ON WAILUKU ARMORY.

Inasmuch as the lowest bid submitted upon the Wailuku Armory Building went considerably over and above the available balance in that appropriation, it has been decided to decrease the length of the building sufficient to bring the cost within the amount available.

New sealed bids will be received and opened Thursday, June 29, at 12 o'clock noon.

These bids will be upon practically the same building, shortened 64 feet, and to be 80x60 in place of 144x60 as shown on the plans. This cuts out four (4) of the trusses and the two (2) small doors and steps on either side of the main entrance, together with four (4) of the louvers.

The same certified checks already received will answer every purpose so that it will not be necessary to enclose any with these new tenders. Bidders will submit their own proposal forms.

Trial—General Court
News.

As the April term had closed, arraignments of defendants under the last batch of indictments could not be had yesterday. Judge De Bolt therefore bound the defendants over to next term.

C. Shiozawa, Y. Kimura, G. Nakamura and H. Tsurushima, Japanese newspapermen, were admitted to bail in \$400 each for conspiracy. They are charged with "combining to prevent Miki Saito from exercising his trade as Consul General for H. M. the Mikado of Japan," thereby committing the offense of conspiracy in the third degree.

Y. Kimura was also allowed bail of \$250 under indictment for libeling a Japanese woman.

Dan Keoki, larceny first degree, had bail fixed at \$1000.

Takada, whose previous indictment for murder had been set aside on demurrer, was presented on the same charge. This crime is not bailable. The court reassigned A. Perry and H. G. Middlemitch as counsel for defendant.

Bail of Charles Santos, assault and battery, was made \$200.

Other indictments were those of Frank Correa for profanity, Ali Lake for larceny, Hun Wo for burglary, Pale Alapai for embezzlement, W. H. Knox for assault with a weapon and Solomon Palau for selling liquor without license.

BEFORE JUDGE LINDSAY.

Another failure to empanel a jury for the ejectment case of Kaleiokeko vs. Wailuku Sugar Co. took place yesterday, and a new special venire for fifteen jurors was issued by order of Judge Lindsay.

Judge Lindsay yesterday called up the further hearing on the injunction suit of Koolau Maile et al vs. J. O. Carter et al. Mr. McClanahan for defendants replied to Mr. Highton's speech of Friday and Saturday for plaintiffs.

Helen K. Waimanu Bailey has brought a divorce suit against George H. Bailey, alleging desertion since December 10, 1903, failure to support and conviction on June 7 of a criminal offense.

WHY DOCTORS FAIL
AND MRS. PINKHAM SUCCEEDS

Plain Reasons Are Here Given to Explain Why Lydia E. Pinkham's Vegetable Compound Cures When Doctors Are Powerless

A woman is sick; some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds something back. Loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and thus completely mystifies the doctor.

Is it any wonder, therefore, that the doctors fail to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

It was for this reason that years ago Mrs. Pinkham, at Lynn, Mass., determined to step in and help her sex. Having had considerable experience in treating female ills with her Vegetable Compound, she encouraged the women of America to write to her for advice in regard to their complaints, and being a woman, it was easy for her to tell sisters to pour into her ears every detail of their suffering.

In this way she was able to do for them what the physicians were unable to do, simply because she had the proper information to work upon, and from the little group of women who sought her advice years ago a great army of her fellow-beings are to-day constantly applying for advice and relief, and the fact that many thousands of them have been cured by following the advice of Mrs. Pinkham during the last year is indicative of the grand results which are produced by her unequalled experience and training.

No physician in the world has had such a training, or has such an amount of information at hand to assist in the treatment of all kinds of female ills, from the simplest local irritation to the most complicated womb diseases.

This, therefore, is the reason why Mrs. Pinkham, in her laboratory at Lynn, Mass., is able to do more for the ailing women of America than the family physician. Any woman, therefore, is responsible for her own suffering, who will not take the trouble to write to Mrs. Pinkham for advice.

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

fense. The parties were married on October 19, 1903.

WANTS REINSTATEMENT.

David Watson has petitioned to be reinstated as an attorney in the inferior courts. Wm. Henry and W. C. Achi sign a certificate in his favor. Judge De Bolt has assigned the petition to Judge Robinson as being more familiar with the facts relating to the revocation of Watson's license in 1904.

FEDERAL COURT.

Hiram Eolomoku was adjudicated a bankrupt on his own petition by Judge Dole yesterday.

Manuel De Corte, Portuguese, was naturalized yesterday in the Federal Court.

COURT NOTES.

An appeal has been taken, waiving jury, by defendant in the suit of Tung Yau vs. W. O. Smith, executor of the will of W. L. Wilcox, deceased, from judgment by District Magistrate C. S. Dole in favor of plaintiff for \$225, with 6 per cent. interest from June 1, 1901, attorney's commission of \$13.15 and costs of \$5.50.

Ng See has petitioned that she be appointed administratrix of the estate of her late husband, So Yong Chung, valued at \$385. Besides the widow the heirs at law are an adopted daughter, three sons and two daughters, all under age.

Robert L. Colburn, a defendant in the suit to foreclose mortgage brought by August Dreier against John D. Holt Jr. and others, has filed a demurrer.

Time for defendant to plead in the case of Elise Newman vs. Whiting & Robinson, bill for accounting, is further extended to July 10.

Judge De Bolt has allowed the plaintiff's bill of costs in the suit of W. V. Bruner vs. Kamalo Sugar Co. in the sum of \$55.69.

In the equity suit for accounting of Louis M. Whitehouse vs. John H. Wilson, defendant has thirty days in which to answer.

Place on Friday
Evening.

The Bar Association's annual dinner will take place at the Young Hotel on Friday evening at 7 o'clock. Hon. A. G. M. Robertson will be the toastmaster, and the toasts have been arranged as follows:

"The President of the United States," Acting Governor A. L. C. Atkinson; "The Bench," Mr. Henry Holmes; "The Unsuccessful Bidder in Contracts for Public Works," C. F. Cligmons; "The Prosecution," Attorney General Andrews; "The Law of Libel," Hon. R. W. Breckons; "Opening and Closing," Mr. F. E. Thompson. The address of the evening will be on "Some Questions of Practice," by Judge Sanford B. Dole.

At the meeting of the Bar Association yesterday afternoon at 4 o'clock the following attorneys were admitted to membership: Antonio Perry, C. H. Dickey, J. J. Dunne, H. E. Cooper and W. S. Fleming.

ONE TOURIST WHO
IS VERY ENTHUSIASTIC

The Hawaii Promotion Committee is in receipt of the following letter:

Hilo, Hawaii, June 22, 1905.
Gentlemen: Having spent nearly five months in these islands, I feel it a privilege, to say that I have enjoyed every moment of the time since arriving in what is rightly termed, the Paradise of the Pacific. Here one sees all kinds of tropic growth, ferns of wonderful size and beauty, and palms of a rich glossy natural freshness. Here are majestic banyans, covering ground, nearly an acre each, and coconut, breadfruit, papaya, pear, mango and many other fruit trees.

The pineapples of these islands are superior to all others both in size and quality, the bananas are delicious in flavor and the Kona coffee is unexcelled.

The sugar plantations are a revelation to all lovers of sweets, and to the holders of dividend paying sugar stocks. On most of the islands are evidences of a wonderful work of nature showing immense craters which centuries ago were the centers of volcanic action, and even now there is one of these, Halemauau, where you can see at times the boiling, seething masses of lava and brimstone, in a veritable Pit of Hell.

When one considers that all this, and much more can be seen without hardship and in a land where the climate is one long dream of balmy pleasure, seldom a day too warm and never a day too cold for comfort, why hesitate?

It is only six days from San Francisco and the steamship service is excellent. I can heartily recommend the trip to all.

JAPANESE BURNED.

At yesterday morning's fire a Japanese who began working at the Union Grill the day before was severely burned about the legs and arms. He was removed to the hospital, where he is on the road to recovery. The burned building was the property of Lee Yin Kwai, and was occupied as a grocery by Tsau Ne Kyau. The loss on the stock was about \$500, fully covered by insurance, the loss on the building was \$1200 and the insurance \$1000. No cause for the fire has been discovered.

OPPORTUNITY
FOR CHARITYSalvation Army Rescue
Home in Need of
Assistance.

In any rounding out of the list of Honolulu's benevolent institutions the absence of a rescue home for females would make a noticeable gap. Such an omission was some time ago prevented by the action of the local Salvation Army Corps. For about a year past the matron of the institution has been Ensign Lena Anderson, S. A. That she has done efficient work is evidenced by the fact that the home has outgrown its financial resources, while earning for itself the status of being able to show tangible results of most gratifying nature.

A year ago the rescue home sheltered three little children and six girls. Now there are fourteen little children and thirteen girls in the domicile. The children are waifs of various kinds, including some whose parents, on account of having to earn their living away from home, cannot take proper care of them. As for the girls, they are unfortunate rescued from degradation or neglect by Salvation Army workers. Some of them have even been in jail.

Being of various alien races and diverse tongues, the girls form a difficult class to instruct in the ways of respectable living and means of self-help. Yet by kindness, patience and devotion Ensign Anderson has been able to make promising young women of some of her charges. Of the thirteen now at the home, six girls are out working for families in the neighborhood and, pleasant to relate, no complaints about them have been received.

The rescue home is located in the old McCully homestead, Pawaa. It is now short of funds, owing to the increase of inmates. Remittances in its aid may be made to Ensign Anderson, addressed either P. O. Box 32 or 1680 King Street. Money is needed chiefly for clothing and, from any who might prefer to help in that way, the donation of an odd bolt of muslin or calico would be thankfully received. House-keeping utensils would also be acceptable gifts, in which connection it may be stated that the home is much in need of a stove.

NEW EDUCATION CODE
TO BE PROMULGATED

Superintendent James C. Davis on Saturday submitted the finished draft of Rules and Regulations of the Department of Public Instruction to Governor Carter, who went over the entire document with him. The Governor will probably sign the code, when it will be printed in pamphlet form. It will be valuable for reference to all who take an interest in the public and private schools. Perhaps it may not be generally known that the department has considerable jurisdiction over private as well as public schools.

A great deal of labor has been expended by Superintendent Davis and his staff in preparing this school code. Provisions of the Education Act and rules and regulations that the Board of Commissioners has from time to time, over a series of years, adopted were compiled, revised and, where deemed necessary, enlarged. The code embraces the duties of Commissioners, of the Superintendent and his executive subordinates, of teachers and of pupils. It also covers the matters of examinations, salaries and promotion of teachers.

MORE EVIDENCE.

IT IS COMING IN RAPIDLY IN HONOLULU.

Evidence on the following subject will prove of interest to every Honolulu reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.

Charles Comey, of Cyclomere street, this city, one of the many persons who have tried Doan's Backache Kidney Pills with great advantage, relates his experience thus: "I have been a hack driver for a number of years past and this is an occupation in which, through exposure to weather and much jumping up and down from the vehicle, one is particularly liable to kidney complaint. I suffered myself from a lame back for a long while, and in my anxiety to get rid of it tried several things which did not reach the root of my trouble. An advertisement acquainted me with what grand work Doan's Backache Kidney Pills were doing, and I got some of them at the Hollister Drug Co.'s store. I used them and with very much profit, for they relieved my back wonderfully."

Doan's Backache Kidney Pills are for sale by all dealers or sent by mail on receipt of price, 50 cents per box, by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name, Doan's, and take no other.
