## THE DAILY

Pacific Commercial Advertiser.

Be just and fear not:  
Let all the ends thou aim'st at be  
Thy Country's, thy God's, and Truth's.

MONDAY, DEC. 23, 1889.

We publish in another column the notice of the ward meeting in the First ward which will take place this evening. Every voter in the first ward who is interested in constitutional government and the upholding and improving of the present order is urged to let nothing hinder him from being present at this meeting. Participation in the primaries is necessary if you wish for a good ticket and success with it at the polls. The primary ought to represent all classes, and all shades of opinion among the members of the Liberal Reform party. Go, if you have to be carried, like Chatham, in a litter.

The cause of ballot reform, which has won such sweeping victories in England, in Australia and in so many American States, has reached Germany and found advocates there. The question of a perfectly free independent uninfluenced ballot is evidently one of difficulty wherever constitutional government exists at all. Not merely is the question the same in Germany as in America, but there, too, the friends of reform find that there is only one remedy for existing evils, and that is secret voting. It appears that the German imperial constitution does provide, in a way, for a secret ballot, but it does so in a way entirely insufficient to attain the object in view. The same tricks and evasions which have become so familiar to every one in American politics are resorted to in Germany. The law does not provide for the preparation of the ballots in a private compartment especially established for the purpose, nor for printing of ballots by the government. The result is that the usual stock tricks are successfully resorted to, such as printing ballots which in size and color are easily distinguishable from those of opposing parties; following voters up to within a short distance from the polls, etc., etc. In some cases it is said, voters have been provided with ballots which they have been required to hold up above the head with the right hand until the ballot box was reached, so that the substitution of any other ticket unobserved was of course an impossibility. The condition of parties in the German parliament is at present unfortunately such that there is little hope that any reformatory legislation will be passed. The facts mentioned, however, demonstrate that such legislation is necessary in Germany as well as everywhere else if purity and honesty of elections is to be attained. It is to be hoped that our own election law may ultimately be improved upon by the addition of this final provision so that the independence of our own election, around which the new law has already established so many safeguards, may be placed beyond the influence of fear or favor.

## CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

## Government Policy.

The clear and definite statement of policy on the part of the Government in answer to the resolutions of the Hawaii Central Committee, leaves no room for doubt as to what may be expected of this Cabinet. Passing by other points at present, the statement numbered, "Thirdly: Immigration and Labor Supply," demands the earnest and thoughtful attention of all Hawaiians. With a population of 90,000 or under, and a constant decrease of the pure native stock, the question of who shall make our future nation, is vital. I am an Anglo-Saxon. As such I love the liberal institutions of all Anglo-Saxon countries. The problem of popular government most successfully maintained has been more nearly solved in those countries. It is because that race is best capable, through intelligence and freedom from priestly control, to understand, appreciate and use the form of personal power exercised by the ballot that success has attended popular government in such countries. Constitutional government has not reached its highest development with any other race. Passing unsaid much that might be added on that subject, and coming directly to Hawaii, it is right to say, that the

Hawaiian has shown a remarkable aptitude for politics. He has been appreciation of the power of the ballot. But it is a disparagement to say that the Hawaiian is yet in his political infancy. With education, with correct training, with instruction as to the highest and noblest use of the ballot he will be as capable of self government as any other nation. It becomes of great importance then, who shall fill up the country. The Government and the majority of the foreigners have declared against the Chinese. The present unlimited and active importation of Japanese is almost criminal, it is so foolish. The Chinaman is not a fighter, the Japanese is, and he is revengeful and does not forget injuries. He has learned to run away from the plantation and no Chinese is keener than he in taking up and carrying on trades and industries. It is difficult to understand what is meant by this Japanese infatuation. They are not the population we want. The Portuguese are better, but if the Aurora Hawaiian speaks their opinion they not only do not want to come but will oppose any further introduction of that race. Very well, let us take them at their word and let them alone. Introduce no more Portuguese, but let us turn elsewhere. It would be a great and lasting benefit to the country if we could secure immigration from the crofters of Scotland or from the north of Europe. Very true, our Norwegian experiment did not prove a very great success, but it seems to be pretty well understood by this time that our Norwegians mostly came from the slums of the coast cities instead of from the industrious agricultural class. The few shining exceptions show what we might have had if all of them had come from the country instead of mostly from the purlieus of Norway. What this country needs more than anything else is small resident proprietors who will themselves cultivate the soil and gather equally its rich produce. Every effort of the Government should be directed toward this end, instead of simply procuring labor for the sugar plantations. The time will come when our broad plains, now occupied with herds of cattle and horses or covered with unbroken fields of waving cane, will be speckled over with the dwellings and farms of an industrious population. Our exports will be increased and diversified and the fixed wealth of the country will be quadrupled. Such a condition will not come without effort, and the Government should look constantly and steadfastly to the attainment of that condition. Instead of continuing the importation of Japanese or any kindred race, let earnest efforts be made to invite and procure immigration of some of these north of Europe races. The United States offers lands gratis to actual settlers. We have no land to offer in such large tracts, nor is it necessary. From ten to twenty-five acres here of fair agricultural land is amply sufficient to support a considerable family. It is said that nearly two-thirds of the fair agricultural lands of the Kingdom is taken by the crown lands and Bishop estates. It is time that the Legislature found a method of taking the one and inducing the sale in small farms of the other. Perhaps this is the first step in a live immigration policy. The Legislature of 1890 should not adjourn till steps have been taken in advance. A. S.

## Baseball.

The dual games of baseball which took place on the Recreation grounds last Saturday attracted the usual crowd of onlookers. The first game was called at 1:30 and was between the Barracks and the Aliolani, and after a close contest was won by the Barracks with a score of 6 to 4. The second game was called at 3:30 and was between the Kamehameha Jr.s, and the Iolani. This game was the final one in the Junior League series and although the Iolani did not need the game to win the title of "1889 champions of the Junior League" yet they endeavored to add it to their record, but failed, the Kamehameha Jr.s winning with a score of 13 to 8. Following is the score by innings, and elsewhere will be found a summary of the games played by the Junior League clubs:

Kam'ham'ha 2 0 1 2 5 1 0 0 2-13  
Iolani.....0 1 0 3 0 1 3 0 0-8

## Memoranda.

The S. S. Zealandia, K. Van Oterendorp commander, sailed from San Francisco December 14, 1889, at 2:30 p. m.; passed steamer Alameda December 18th at 7 a. m. and the steamer Australia at 1 a. m. of the 21st inst.; arrived at Honolulu December 21st at 12:30 p. m. The Zealandia brings twenty-six cabin and twelve steerage passengers for Honolulu, thirty-five cabin and thirty-eight steerage passengers for the Colonies, 216 tons of cargo for Honolulu and 1,100 tons for the Colonies.

From the 15th to the 19th strong westerly winds and moderate sea with thick weather were experienced. From 19th to port strong easterly winds and fine weather.

## Public Concert.

The Band will play this evening at Emma Square, at 7:30 o'clock. Following is the programme:

1. Overture—The Exiles.....Gassner  
2. Polka—The Dragons.....Fahrberg  
3. Finale—Tannhauser.....Wagner  
4. Rondo—The Duet.....Godfrey  
5. Fantasia—Rupa Loke, Owi Nani  
6. Schottische—Slightly on the March—Send  
7. Waltz—Vienna Chronicle.....Strauss  
8. Quadrille—Tulipation.....Offenbach  
Hawaii Ponoi.

## The British Capitalists.

The British syndicate which recently bought the flouring mills and elevators at Minneapolis and the elevators at Chicago, has purchased the largest mills at Duluth, Minn. The price was \$4,000,000.  
A British company has bought all the breweries in New Orleans, paying \$2,975,000.  
A British company with a capital of \$100,000,000, is proposed in New York. This corporation will loan money to railroads in distress.

## OUR SAN FRANCISCO LETTER.

San Francisco, December 14, 1889. Per S. S. Zealandia.

(From Our San Francisco Correspondent.)

## The Sugar Market.

The local market remains firm but prices have not undergone any alteration. No fluctuations of any moment are expected at present. The Eastern situation shows much unsteadiness and no one seems to know just what is likely to happen. The "Spreckels" refinery at Philadelphia was opened December 9th, Claus Spreckels himself dumping the first hoghead into the melting pans. For the present the refinery will melt about 1,000,000 pounds daily, and Spreckels is amply supplied with raw sugar for some time to come. The Spreckels' interests have just had a bout with the Pacific Rural Press, which published a squib to the effect that there was much dissatisfaction among the beet growers at Watsonville about the division of the proceeds of the season's operations. A retraction was promptly made, the growers themselves writing to the journal and posting the statement as without foundation.

The sorghum sugar business is not as prosperous as the Kansas and Missouri experimenters would have the public believe. Many of the principal sorghum producers say that for anything except syrup, sorghum is a failure. An investigation has just been made into the affairs of the American Sugar Co., of Ashland, Missouri. It shows that extensive frauds were carried out. The company erected a mill and then asked the townships surrounding the site to vote \$150,000 in bonds. The company had a secret process, known as the "roasting process," which it would not describe. Proceedings will be instituted if possible.

During the month of November the exports of merchandise to Hawaii were valued at \$21,500, and the total for the first eleven months of the year was \$3,047,700.

## To Investigate Leprosy.

Clarence W. Ashford, the Attorney-General of Hawaii, has arrived at Ottawa. He says that the Government has engaged Dr. Lutz, an eminent authority on skin diseases, to make a systematic study of leprosy to see if a cure is possible. Dr. Lutz is well known to the profession throughout America.

## Hawaiian Cable.

A brief dispatch has been received from Clarence W. Ashford who is now at Ottawa, saying that British capitalists have been offered several concessions to lay a submarine cable from Vancouver to Honolulu. The dispatch also states that the concessions have been accepted, and that the cable will be in operation in two years. The particulars are not known, but it is supposed that the concessions are the same as already offered for a cable from Honolulu to San Francisco.

## Davis' Funeral.

The funeral of Jefferson Davis occurred on the 11th inst. at New Orleans. Six or seven Governors of Southern States were present and the crush on the streets was tremendous. The body laid in state for two days before the funeral and was viewed by thousands of people. The funeral services were conducted by Bishop Gallagher, of New Orleans, assisted by six Episcopal and Catholic priests. The eulogy was pronounced by the Bishop. He referred in the mildest terms to the enemy stirred up by the war and paid a fine tribute to Davis' worth as a man and friend. The body was conveyed to the cemetery on a military caisson decorated with the stars and stripes. The parade included the militia of Louisiana and other States and many civic organizations. On the day of the funeral business was suspended throughout the South and memorial services held.

## Foreign News.

Conflicting reports have come from Brazil regarding the new republic. From Rio the news is that every one is satisfied, while from Para the report is that much dissatisfaction exists in Bahia. Dom Pedro has reached Portugal, and on his arrival at Lisbon on the 7th inst. he was given a reception by the King. The ex-Emperor was robbed of her jewels before leaving Rio. The collection of diamonds was one of the finest in the world. Prince August, (the Count d'Eu) grandson of Dom Pedro, has endeavored to secure an abridgment in his favor, but without success.

Stanley has arrived at Zanzibar and is being fetted there. He will soon leave for Europe. Emin Pasha, who was so seriously injured, is but little better, yet it is hoped that he will eventually recover. The news of the accident to him has made a great sensation in Berlin.

Farnell has turned up all right, having secured a summary of the games played by the Junior League clubs.

Influenza is rife in Paris, London, Vienna and other cities of Europe, and is spreading.

Robert Browning, the poet, died at Venice December 12th, aged 74.  
A crisis is impending in Canada, it being reported that the French government will make inquiries as to how far the treaty of 1763 has been violated. The French claim that the rights granted in the treaty of cession have been violated.

Harry E. Searle, the World's Champion oarsman, died at Adelaide, Australia, December 9th. His death was caused by typhoid fever which O'Connor thinks he contracted on the Thames. O'Connor now claims the world's championship as does also Kemp of Australia.

## General American News.

Congress has not yet got down to business and will not until after the holidays. Several bills against trusts have been introduced and that is about all that has been done.

The Pan-American delegates are considering a junket into California. There was a panic in Parkes Opera House at Johnston, Pa., on December 10th and nine persons were crushed to death in the rush to get out.

Regulators in the Big Horn Valley, Wyoming, recently broke up a band of horse-thieves and robbers known as "Kettle Jack's Gang" and lynched eleven of the gang.

Senator Call of Florida has introduced the expected resolution in Congress authorizing the President to open negotiations for the purchase of Cuba.  
According to the New York Herald a scheme is on foot to establish an international Catholic banking institution with a capital of \$100,000,000. The Pope denies it.  
The Mormons have begun the persecution of witnesses who testified against them in the recent Endowment House cases. The Court promised protection to these witnesses, but no Court can protect a man against a shot in the dark. If Mormon persecution is carried on to any extent it would not be surprising to see some counter Gentile organization effected, but in an illegal contest the Mor-

mons would have the advantage in both numbers and organization.

The New York Chamber of Commerce at the instance of C. P. Huntington has adopted resolutions condemning the Chinese exclusion act.

The Cronin case is nearly ended. The jurors are now deliberating over a verdict.

## San Francisco News.

Up to the night of the 7th inst., rain had fallen almost incessantly in every part of California for over a fortnight. The rainfall in San Francisco up to that time was about twenty inches for the season, as compared with seven inches last year, and the rainfall all over the State was very heavy. The Sacramento river burst through the levees above the town of Colusa, converting all the low lands in the vicinity into a great sea of water, and at one time it was feared that the town would be washed away. Great damage was done at other places, and the river was higher than ever before known by several inches. At the time of the departure of the steamer the worst was over as the rain had ceased and the river was falling. The total damage is hard to estimate, but it will not be less than a million dollars.

in existence. No brick work about it, just a clean cut Stove,  
whose Baking qualities are unsurpassed.

## Reversible Grates.

This Grate is of a triangular form, having three surfaces which are reversi-  
ble, so that a separate top surface can be used on alternate days; or if the one  
surface in course of use shows any wear then the other can be turned up, and so  
on the other, making it equal in durability to three distinct Grates.
