## A BEWILDERING TASK.

IT IS ALMOST IMPOSSIBLE TO KEEP POSTED ON SPRING FASHIONS.

Oliver Harper Writes of the Great Variety in Dresses, Wraps and Other Spring Goods That Will Soon Delight the Ladies Throughout the Land.

[Special Correspondence.]  
New York, March 3.—It is almost enough to bewilder one to try and keep track of the new spring dresses, wraps and goods that will soon be made up into lovely garments. Every day brings out something new that is so much prettier than the last that it is no wonder that women have to spend half their time in shopping so as to know what they really do want.

It has been a standing reproach to fashion writers that they will not look at or mention any material that does

BATISTE AND SATEN GOWNS.

not cost at least \$2 a yard, and so this letter shall be about the really pretty and durable goods that can be purchased at very moderate prices.

I give with this three cotton gowns. One is of indigo batiste, made just as it would be of the richest goods. The waist is gathered at the middle of the back and front, and a high collar sets up at the wearer's neck. The front is laid in four deep plaits and the sides fitted over the hips, while the fullness of the demi-train is held in fan plaiting. Such gowns can be laundered, but they can also be worn a season without it by any reasonably neat person. The dressy gown on her admiring friend is of almond brown saten, with pale pink flowers. The panel and vest are of dark brown saten. The style of making can be judged by looking at the picture. To make a dress of this style it requires ten to eleven yards in all of saten, percale or gingham, for all of which it is well adapted.

The pretty princess gown is made of plain pale blue chambray, trimmed simply with three rows of narrow saten braid. It buttons from the shoulder down, and has a close row of buttons all the way down to the bottom of the skirt. This style is suitable only for young girls or very young matrons, and it could be reproduced in cashmere or any other material, and is particularly adapted to a tailor-made gown. One of the lovely new French broadcloths would be beautiful made in this style. They cost from \$1.50 to \$2 per yard, fifty-four inch wide. Five and a half yards of broadcloth would be sufficient for this model.

The India silks come next in cheapness and beauty. They can be purchased as low as fifty cents in good quality, and they make very dressy gowns, requiring very little trimming. The sharp little bargain hunter can watch her chances of "bargain days" and "bankrupt" sales, which latter have become very frequent lately, and can often pick up lovely India silks and Bengamines at thirty-five cents a yard even. The picture given will show a pretty style for such a gown. The skirt is quite plain, with wrinkled front draping. The waist and sleeves are plain, the only ornament being a fall of oriental lace. The wash surahs, made so popular last season, cost from 50 cents to \$1 per yard, but they are certainly worth three times as much as China or India silk, besides being a yard wide.

CHINA FAYLE AND ALMOND CLOTH COSTUMES.

The fashionable color is a sort of light brown called almond. It combines or contrasts with almost every color known, and is found in every material. A very handsome tailor made suit of it I give here. The skirt is quite plain, with two deep box plaits in the back. The basque has a pointed belt made of mordore velvet, and lapel shoulder cape which simulate a cape. There is a very narrow border of beaver fur up the opening of the waist, and a high collar, which can also be worn down if preferred.

The secret of making a tailor gown is to have every seam pressed flat as fast as it is sewn, and the finish of every part done in the neatest possible way—every corner exact and every line perfect. It is quite possible for a neat sewer, with the aid of the patterns now obtainable, to make a stylish tailor gown.

OLIVER HARPER.

## EIGHTH ANNUAL MEETING

OF THE

## Hawaiian Jockey Club

THURSDAY, June 11, 1891.

OFFICIAL PROGRAMME

6- Race to Commence at 10 o'clock Sharp.

1st Race—QUEEN'S PLATE—\$100.

## COLEO!

FOR THE HAIR!

FOR THE SKIN!

FOR SALE BY

BENSON, SMITH & CO.,

FORT STREET.

7-11

## Barry's Tricopherous

Established 1801.

Infallible for removing, invigorating and beautifying the hair, removing scurf, dandruff, and all affections of the scalp, and curing eruptions of the skin, diseases of the glands, muscles and integuments, and relieving itches, cuts, chaps, eczema, etc. The affinity between the sebaceous glands which feed the roots with moisture and impart life to the fibres, the result is scurf, dandruff, shedding of the hair, grayness, dryness and hardness of the ligaments, and entire baldness, as the case may be. Stimulate the skin to healthy action with Barry's Tricopherous, and the torpid vessels, recovering their activity, will annihilate the disease. In all affections of the skin and of the subcutaneous muscles and integuments the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands that Barry's Tricopherous has its specific action, and in all affections and injuries of these organs it is a sovereign remedy.

Beware of Counterfeits.

From the Greatest Living Physician, Madame Adeline Parnassopoulos, New York, July 30th, 1888.

Messrs. BENSON & CO., New York.

Dear Sirs:—I take pleasure in assuring you that Barry's Tricopherous is one of the few articles always to be found on my dressing table. In my conception it is one of the best of toilet waters, and for the body it is not only delicious, but refreshing and invigorating. I recommend it without reserve.

Yours truly,

Adeline Parnassopoulos.

#### Daily Bulletin

Pledged to neither Side nor Party.  
But established for the benefit of all.

FRIDAY, JUNE 5, 1891.

The price of sugar is almost the first news sought after the arrival of the steamer from San Francisco. The news received yesterday is somewhat reassuring, as there has been a sharp advance of a quarter of a cent a pound in refined sugars, while raws advanced a sixteenth of a cent. There seems to be no reason why the forward movement in the price of sugar should not continue. Sugar is a staple article of consumption in the United States and it is hardly probable that the price can be kept forty or fifty per cent. below the old market valuation, after the reaction of the new tariff law has exhausted itself.

We received by the last mail, through the kindness of Mr. William Tebb of the London Royal Commission on Vaccination, two pamphlets treating of the relation between vaccination and leprosy. The pamphlets in question are filled with testimony taken in various portions of the globe, and much of the space is devoted to the evidence collected by Mr. Tebb while in Honolulu. The subject is treated by Mr. Tebb under the following heads, viz: The increase of leprosy; Causation; Vaccination; treatment and prevention; conclusion, etc. To this is added a portion of the third report of the Royal Commission on Vaccination, of which mention has already been made in this paper.

The New York Herald of May 20th prints an article from the pen of the able and well-known Rev. Philip Schaff, D. D. The Herald in a column editorial endorses the learned doctor's views and gives some timely advice to the Presbyterian Church relative to trials for heresy. The Herald is of the opinion that trials for heresy, in this day and age, cannot be made a success. Dr. Schaff handles the question of alleged here-

ties without gloves and claims that the Presbyterians are inconsistent, inasmuch that eighteen months ago they passed a resolution in favor of the "revision of the Westminster Confession of Faith" and are now demanding that the Rev. Dr. Briggs be tried for heresy "for departure from the very same confession." Dr. Schaff does make very strong language regarding "the rule of faith" in the Protestant churches and implies that "theories of inspiration," as held by the Protestant churches are not at present in accord with the views "held by any commentator of note" at the present day. The Herald believes that a split will occur in the Presbyterian church, if the trial of Dr. Briggs is pushed to an issue. In concluding its remarks that paper says:

The split which may ensue is nothing. The Presbyterians must take care of themselves in that event. But if the show of hot blood in the church, the array of one party of passionate contestants against another, with a purely doctrinal issue at stake, and at a time when our modern civilization is honeycombed with evils which are utterly ignored—if all that gives rise to doubts, to infidelity, to an indifference to religious obligations, it will be a calamity that no religious denomination would care to shoulder.

#### LATEST FOREIGN NEWS.

##### UNITED STATES.

THE CHARLESTON IN PERU.  
The Charleston arrived at Callao, Peru, not having touched at Panama. Capt. Remy saw nothing of the Itata. The Charleston will join the squadron under Admiral McCall in Chilean waters, and it is surmised that a report at no distant date will come thence announcing the peaceful surrender by the insurgents of the elusive craft, which the United States Government will libel and perhaps forfeit for violation of the neutrality laws.

##### A MECHANICAL EYE—LATEST INVENTION BY EDISON.

Edison has invented a new wonder to be called the "Kinetograph." It is a combination machine in which the photograph and a photographic camera work together. It will reproduce not only sound, but also a picture of what passes before it. Mr. Edison claims it will reproduce an opera and the performers so that their presence on the stage will be depicted. Every muscle of their faces will be seen to work and their movements will all be true to nature. A process of successive photographing is to be kept up for thirty minutes without a pause, so that 2760 photographs are taken in a minute, or 82,800 every half-hour. Afterward the photographic slips will be developed, replaced in the machine, and a projecting lens will be substituted for the photograph lens. Then the reproducing part of the phonograph will be adjusted and by means of a calcium light the whole effect can be reproduced life-size on a white curtain in front of the audience. The original scene will appear to their eyes as true as life. They will see the singers before them, and all their movements and gestures will appear, but otherwise you will see and hear the opera as if at the theater. The machine is in fact a mechanical eye.

##### RAPID TRANSIT IN NEW YORK.

New York, May 27.—The route for the underground, four-track, electric, rapid transit railroad running through the west side and running north from the south ferry, was today adopted by the Board of Rapid Transit Railroad Commissioners. It follows the line of Broadway and Boulevard and Eleventh avenue to and across Spuyten Duyvel creek. Thence it will go by a line not yet determined to the city limits.

The plan proposed could be carried out at a cost of about \$3,000,000 a mile down town and \$100,000 a mile up town, or about \$40,000,000 altogether. The commissioners had assurances from capitalists that this amount could be easily raised and that the company would be at once formed that would be ready to take hold and begin the work as soon as the plans proposed were approved by the Mayor and Aldermen, as the law requires. The total length of the road will be twenty miles, and the time not be more than forty minutes, including stops. The motive power must be electricity or some other power not requiring combustion within the tunnel.

##### U. S. ITEMS.

The schooner Corona has been chartered by Roth, Blum & Co., to carry a cargo of supplies to the Russian military station at Vladivostok. The same parties chartered for a similar purpose the ill-fated schooner W. S. Bowne, which recently went ashore on the Japan coast.—S. F. Chronicle.

It is the general belief along the water front that the smuggler Haley, on handed over some of her cargo of opium to one of the many lumber schooners trading between Victoria and this city. The suspicious schooner is now said to be on her way to this city. Whaley has gone to Victoria, with the probable intention of joining the Haley on that port.—S. F. Chronicle.

Chicago will try to raise \$2,500,000 additional for the World's Fair. It is expected to increase this amount later to \$5,000,000 either by a loan or contribution from the National Government. The additional amount is found to be necessary to carry out the growing plans of the management.

Dr. R. H. McDonald, San Francisco, owns a clock that once belonged to George Washington. It still records seconds, minutes, hours, days of the week and month, and phases of the moon, although two hundred years old.

The German squadron comes from Yokohama to San Francisco under sail, and was given another week to be due.

Ex-Senator Reagan says Texas will demand in the Democratic national convention a Western man for President.

Glanders has broken out in Wisconsin.

Surplus earnings of the Pacific Mail Steamship Company for the past year were \$808,000. No dividend is declared because the company has decided to use the money in improvements for the purpose of taking advantage of the subsidy laws.

The Lutherans propose to establish a college at Omaha.

The revenue cutters Rush and Bear have been ordered to sail for Alaska.

It is not known yet whether the French warship at Newfoundland has prevented Americans from buying bait or Frenchmen from selling bait. In other words, the Government does not know whether it is American or French subjects who have been coerced.

Indictments were made by the grand jury at Los Angeles against George A. Burt, supercargo, and Captain O'Farrell of the schooner Robert and Minnie. Burt was released on \$10,000 bail. Judge Ross ordered the detention of the five seamen in \$1500 each as witnesses. Other indictments have been kept secret.

##### MISCELLANEOUS.

A cable from London to the Toronto Globe says Professor Goldwin Smith has a brief letter in the Times today on Tupper's article in the Contemporary Review, specially dealing with the charge that the Conservatives at the last election had to face a formidable conspiracy to subvert British institutions in Canada and to annex the Dominion to the United States. Smith shows that Sir John Macdonald at Ottawa had not dared to utter one syllable on the subject. The charge, he says, is a figment constructed out of materials supplied by reptile agencies for election purposes, and is now discarded. The Canadian Liberals are fighting, he says, not only against protection, but against government by corruption.

Hanlan and O'Connor have signed articles for a race with McKay and Gaudaur for the double-scutt championship of the world. The contest is for \$1000 a side, and it is to be held about the middle of July.

The New South Wales Assembly is debating the motion of want of confidence in the Ministry proposed by Dibbs, leader of the opposition, against the resolutions in favor of the Australian federation.

The Chamber of Deputies passed a bill providing for the storing of a stock of grain in every fortified town in France sufficient to feed all civilians of such town in time of war for two months.

The Hamburg-American steamer Fuerst Bismarck passed Scilly at 4:30 p. m., May 27, six days, fourteen hours and thirty minutes from New York, the best time on record.

The Portuguese Finance Minister, in the course of an interview with the governor of the Bank of France, stated his intention to introduce bimetalism in Portugal.

The Berlin Zeitung says Henry Villard has arrived at Friedrichsruhe and will be the guest for a few days of Bismarck, who met him at the depot.

The Argentine Senate has extended for an indefinite period the delay of twenty days accorded to the banks in payment of deposits.

Auction Sales by Lewis J. Levey.

## "German Syrup"

Asthma.

"I have been a great sufferer from Asthma and severe Colds every Winter, and last Fall my friends as well as myself thought because of my feeble condition, and great distress from constant coughing, and inability to raise any of the accumulated matter from my lungs, that my time was close at hand. When nearly worn out for want of sleep and rest, a friend recommended me to try the valuable medicine, Boschee's German Syrup. I am confident it saved my life. Almost the first dose gave me great relief and a gentle refreshing sleep, such as I had not had for weeks. My cough began immediately to loosen and pass away, and I found myself rapidly gaining in health and weight. I am pleased to inform thee—unsolicited—that I am in excellent health and do certainly attribute it to thy Boschee's German Syrup. C. B. STICKNEY, Pictou, Ontario."

Gentle, Refreshing Sleep.

refreshing sleep, such as I had not had for weeks. My cough began immediately to loosen and pass away, and I found myself rapidly gaining in health and weight. I am pleased to inform thee—unsolicited—that I am in excellent health and do certainly attribute it to thy Boschee's German Syrup. C. B. STICKNEY, Pictou, Ontario."

Auction Sales by Jas. F. Morgan.

#### RESIDENCE LOTS!

For Sale at Auction.

I have received instructions to sell at Public Auction, at my Salesroom, Queen street,

ON MONDAY, June 29th,  
AT 12 O'CLOCK NOON.

36 Unrivalled Residence Lots

At Kalihi, about a quarter of a mile beyond the Kamehameha School. The lots are all staked out and can easily be located.

The lots have been laid out and divided in such a manner and size as to bring them within the reach of all who desire a home of their own within convenient distance from the business center of the city.

The location and general advantages of these lots are unequaled by any property of the kind offered in this city for years.

Situated at the mouth of Kalihi Valley, at a good elevation, pure air and healthy conditions are assured. All these lots front on Kalihi Avenue 55 feet wide, running through the place connecting King and Beckley streets, and being the widest street in the suburbs of Honolulu.

The lots are situated at less than 3 minutes' walk from the terminus of the King Street Tram Cars.

WATER.—The plans are perfected, and it is now the intention of the Government to lay an 8 inch water main along the line of King Street from the foot of Liliha Street to the road passing the Kalihi Churches, from which extension water is expected to be available within 8 months.

For the present, water for domestic use can be obtained from Kamehameha School premises.

TERMS.—ONE HALF CASH, Balance in 1 year at 9 per cent., secured by mortgage.

A large map of the property can be seen at my Salesroom, Queen street, where all desired information will be given.

JAS. F. MORGAN,  
133 20 Auctioneer.

**SHIPPING NOTES.**  
The steamer Claudine is due tomorrow evening from Maui and Molokai. The barkentine Irmgard is docked at Brewer's wharf. She brought a cargo of general merchandise. The 4-masted schooner Carrier Dove is docked at the P M S S Co's wharf. The barkentine S G Wilder is alongside the steamer Iwalewa loading sugar. The steamer Mikalala will be in service again Tuesday next. The steamer Kilauea Hou is on the Marine Railway. The schooner Kulamann brought yesterday from Puna a cargo of railroad ties for the O R & L Co. The steamer Iwalewa will sail for her usual ports Monday. The barkentine W H Dimond is at the O R & L Co's wharf. The barkentine S G Wilder will sail for San Francisco tomorrow with a full load of sugar. G F Smith & Co of San Francisco, in addition to the two 4-masted schooners have placed an order with the Hall ship building company for a large barkentine for this trade. She will be built on lines similar to the barkentine S G Wilder. Captain Windling, formerly of the bark Albert, is now in command of the bark Claudine.

PACIFIC HARDWARE CO., L'D.

**FOR TIED BRAIN.**  
(See Horsford's Acid Phosphate.)  
DR. O. C. STOUT, Syracuse, N.Y., says: "I gave it to one patient who was unable to transact the most ordinary business, because his brain was 'tired and confused' upon the least mental exertion. Immediate benefit, and ultimate recovery followed."

**LEWIS & CO.** Just received ex S. S. "Mariposa" New Zealand smoked snappers, New Zealand Apples, New Zealand Potatoes and Onions. Also, ex S. S. "Alameda" from California, Fresh Frozen Oysters in this and shell, Cherries, Celery, Green Kibbabs, Fresh Salmon, Flounders, Crabs, Etc., Etc. 132 St.

**LOCAL & GENERAL NEWS.**  
The Zither Club will practice this evening.  
The Board of Education is in session this afternoon.  
A much needed sidewalk is being laid in front of "Temple Bar" on Kaimukoo street.

Our Fellows' Memorial Day will be observed on Sunday next, in Harmony Hall, King street, at 10 o'clock p.m.

A badly secured load of fire wood lumbering apart obstructed the junction of Fort and Merchant streets at noon.

COMMANDER KEMPFF, who was on the Adams here, has been promoted to be Captain in the United States Navy.

The Board of Immigration today shipped 654 of the Japanese who arrived by the S. S. Mike Maru to different plantations.

The German steamer Independent arrived this afternoon from Mexico. On her way there two months ago the Independent called here for coal and water.

MR. U. J. ORDWAY will give the first of a weekly series of dances at Arion hall tomorrow evening. His own well trained orchestra will furnish the music.

CHONG YET is the name of the Chinaman found dead at Kapena Falls. The coroner's jury have returned a verdict of accidental death caused by falling over a precipice and fracturing his skull on the rocks below.

CHIEF Justice Judd has decided in favor of the defendant in Davis, D. O., the case where the plaintiff sued his brother for \$500 damages on account of personal effects lost in the burning of defendant's residence.

J. H. BARENABA and Ah Wa prosecuted each other for assault and battery this morning. They had engaged in a tussle over water rights. Barenaba, who is a native lawyer, was found guilty and fined \$12, including costs. The Chinaman was discharged.

THERE is still much flame and smoke in the kerosene warehouse, but the fire is showing signs of choking. As it gets lower the smell grows stronger and pervades the air heavily to leeward. A large portion of the walls on the Waikiki side has fallen.

LITTLE business was done at this week's session of the Board of Health, beyond receiving and considering correspondence from district physicians. Most of these doctors have had the grip, which is still prevalent in every district. Dr. Albro at Waialua has had a bad attack of the malady.

The annual exhibition of Kawaihae Girls' Seminary yesterday afternoon gave great enjoyment to a large number of friends who attended. Dressed in white the girls made a charming appearance. Chorus and piano duets were well rendered. Miss Aukai read an essay, in which she praised the benefactors of the school. A flag drill by little girls was fascinating. The dumb bell and calisthenic exercises of the big girls were done in perfect style.

**ADVERTISING NOTES.**  
Mrs. Kingsley has a house to let on Beretania street.

DEPARTURE BAY coal of best quality has been received by the Inter Island Steam Navigation Co. by the barkentine Modoc.

MR. LEWIS J. LEVEY will sell at auction, Wednesday next at 10 o'clock, merchandise belonging to the bankrupt estate of Geo. H. McLain, of Nawiliwili, Kauai.

MR. JAMES F. MORGAN will sell at auction on the 29th inst., thirty-six unvalued building lots at Kailua, about a quarter of a mile beyond the Kamehameha School.

The members of the Honolulu Fire Department are notified to assemble at the Bell Tower at 6:30 o'clock tomorrow evening, to join in a torchlight procession in honor of Her Majesty's return to the capital.

MR. M. GOLDBERG sings in verse in another column as to the unrivaled qualities of Dr. Jaeger's sanitary underwear, doubtless the best ever brought to this market. For sale at Mr. Goldberg's emporium, corner of Fort and Merchant streets.

MR. E. B. THOMAS, who has a new card in this paper, has lately gone into new quarters at King and Smith streets, next door to the Chinese Club. He has built a commodious brick office there, and in an ample yard has stored all sorts of building material. Mr. Thomas is putting up the new British Club, to go to the long list of prominent buildings erected by him.

**AN INTERESTING EVENT.**  
On next Thursday (Kamehameha Day) an interesting boat race will take place between the junior crews of the Myrtle and Heanani boat clubs. The boats used will be the Stranger and Liliuokalani, six-oar racing barges. The crews are as follows:

Myrtle—H. Giles, W. Harris, W. Armstrong, Geo. Angus, Geo. Ross and O. Sorenson.  
Heanani—W. Wilder, Jr., H. M. C. P. Hammer, Chris. Holt, A. L. C. Atkinson and L. del Ward.

Although the Heanani Boat Club has only been recently organized, and is not fully equipped as its competitor, the members show a determination to give the public what will, no doubt, be an exciting race. The Myrtle Club is well known to the Honolulu public, and some excellent oarsmen have risen from its ranks. Their junior crew for this race has been well selected and has been rowing together for some time, and already show the result of long and experienced practise, while their opponents, although being of heavier weight, have been rowing together but a short time.

**HONOLULU FIRE DEPARTMENT.**  
The regular monthly meeting was held at the Bell Tower on Thursday evening. First Assistant Engineer George R. Norman in the absence of the Chief Engineer, presided. There were fifteen members present. After the minutes were read, it was voted by the department to receive a torchlight procession on Saturday next, upon the return of Her Majesty from the United States. This was proposed to escort Her Majesty to the Palace, and the time for the meeting of the members for that purpose is announced elsewhere.

Two members of the department, one from Company No. 1 and another from Company No. 5, were reported in absolute circumstances, and a relief of thirteen dollars per week was voted for them.

A resolution presented by the Secretary was adopted by the Board, that the junior companies attached to the several engine companies be admitted and created as active companies, to form part of the Honolulu Fire Department.

Messrs. Ascher, Keane and McVeigh were appointed a committee to wait on the members in want from Engine Company No. 5 and to report to the Board. After other routine business the meeting adjourned.

**NOTHING KNOWN.**  
It was reported yesterday morning that Marshal Wilson had returned to town the previous night on the steamer Mokohi. Enquiry for the Marshal at the Station was met by the assurance that nothing was known there about his arrival. This morning the story was repeated in print and verbally, with the addition that the steamer left immediately with twenty-five of the Royal Guards. Again the Station authorities declare they know nothing of such an event.

At the office of Wilder's Steamship Co. nothing was known of the surreptitious visit of the Mokohi. "You mean you know nothing of it?" "We know nothing about it in any way, beyond the rumors in circulation," was the reply of Secretary Rose.

The Chamberlain is not aware of any diminution of strength in the Household Guards on duty at the Palace.

**MAIL TIME SHORTENED.**  
The mail time between Liverpool, San Francisco and Auckland has been lessened from thirty-five to thirty-two days under a schedule recently adopted. The steamer Urapia arrived at New York from Liverpool on Saturday last. Mails from the steamer left for San Francisco on the same day. They will arrive here in time to leave by the steamer Alameda, which is to sail for Honolulu and the British colonies this afternoon. Return mails from Auckland will leave on June 15th by the Monowai to San Francisco, will be sent to New York and thence to London, arriving within the time mentioned.—S. F. Chronicle.

**DEATH OF MRS. EMMES.**  
The widow of the late G. E. Emmes, the well-known shipbuilder who was killed by a carriage accident in 1884, died at 10 minutes to 5 o'clock this morning. The funeral takes place at 4:30 o'clock this afternoon. Mrs. Emmes had been a resident of the Islands since 1849. Her age was 63 years, and her mother, Mrs. Gay, survives her after turning 82 years. Mrs. Emmes also leaves a sister, Mrs. Samuel Swigge, and three daughters—Mrs. John Cassidy, Mrs. James Robertson and Miss Emmes.

**"AEROMOTOROLOGY."**  
The man who wants a windmill usually looks around and investigates the statements made by the dealers in the respective mills. We are pleased to recommend purchasers to parties who have Aeromotors on their plantations because we know what the result will be. Thus far we have not had a bad report from any of the mills we have sold here; in every instance we have received the same satisfactory expressions. When we procured the Agency of the Aeromotors we did not do so blindly; we felt that if the machines were good enough for the officials of the Union Pacific Railway they were good enough for us. We saw hundreds of places on the line of that road where wooden mills were being replaced by the Aeromotor. We thought it a good indication of which way the wind was blowing and arranged accordingly. There is not a windmill in existence that will do the same amount of work, last as long, or that can be bought so cheap as the Aeromotor. It is ridiculous to say they will not last! Who ever saw piece of steel that would not outlast wood in any climate?

The Aeromotor has so many advantages over other windmills that it would require all the space in this paper to set forth half of them and as new features are cropping up almost every day we can hardly keep up with them even in the many changes in our trade. We have concluded then to condense all the good features of the Aeromotors and express them in four words, "They are the best," and anyone who has seen an Aeromotor at work will agree with us. There are so many good uses to which the Aeromotors may be put that they are becoming a necessity on every ranch and plantation. In a few months the question will not be "how many acres of corn have you," or "how many head of stock do you own," but, "Have you an Aeromotor?" and the probability is that the answer will be in the affirmative. It is a pretty sure sign that the Aeromotors give satisfaction when persons return to our store and buy a second one.

The Hawaiian Hardware Company, Sole Agents, Fort street, opposite Spreckels' Block.

**PROF. SCOTT'S LECTURE.**  
Mention of Prof. M. M. Scott's lecture on "Microbes," at Y. M. C. A. Hall Monday evening, has been packed aside hitherto by a notification of circumstances. The lecture was a plain and lucid description of what microbes are and what they do. They were the principal agents in the development of organic matter as even in decaying processes. Different kinds had their existence limited by different temperatures, some being killed by a low and others by a high temperature. The lecturer spoke of the great value of the investigations of such men as Koch, Pasteur and others into the subject. Their discoveries had resulted in means of checking and preventing diseases of animals and plants which were produced by poisonous microbes. The audience, comprising many pupils of the schools, the young people frequently giving audible evidence that they understood and liked it. Mr. F. M. English, President of the Art and Science Association, presided.

## The Equitable Life Assurance Society of the United States.

New Assurance Written in 1890 ..... \$ 203,826,107 00  
Income ..... 35,036,683 24  
Surplus (from which dividend will be made)..... 23,740,447 34

### An Investment Worth Knowing About!

Before assuring your life, or investing your money, examine the Twenty-Year Tontine Policies of The Equitable Life Assurance Society of the U. S. Policies maturing in 1891 realize cash returns to the owners, of amounts varying from 120 to 176 per cent. of the money paid in, besides the advantage of the Assurance during the whole period of twenty years.

The following is one of many actual cases maturing this year:  
Endowment Policy No. 64,925.  
Issued in 1871, at age 27. Amount, \$5,000.  
Premium, \$239.90. Total Prens. Paid, \$4,798.

### RESULTS

at End of Tontine Period in 1891:  
Cash Surrender Value, \$8,449.45

(Equal to \$176.10 for each \$100 paid in premiums, which is equivalent to a return of all premiums paid, with interest at 7 1/2 per cent. per annum.)  
Or, in lieu of cash,

A Paid-up Life Policy for \$19,470  
(Equal to \$405.80 for each \$100 paid in premiums.)  
Or,

A Life Annuity of \$633.55.

**ALEX. J. CARTWRIGHT,**  
General Agent for the Hawaiian Islands, Equitable Life Assurance Society of the U. S.

111 1st.

## Metronome's American Admirer.

I think that no country people had a greater share in the spoiling of the vain and arrogant artist. One American millionaire laid a blank check upon his easel with a request for the painting of a picture, for which the check was to be filled up with whatever sum the painter thought sufficient. Another stayed Metronome's hand as he was about to sign a work he had just completed for him, and then the purchaser announced all his family around him to witness the solemnity of the signing.

On another occasion he was engaged to paint the portrait of an American. Cabanel was informed of the fact, and immediately asked if the price had been agreed upon beforehand. "Certainly not," was the reply. "Metronome is too great a man to be dealt with in that manner." "You have made a mistake," was the sole remark made by Cabanel.

And when the portrait in question came to be paid for Metronome charged just \$4,000 more for it than he had ever before asked for a portrait of similar dimensions.—Cor. Philadelphia Telegraph.

### Cats' Intelligence.

My mother used to tell a story of an old cat who used to sit on the table beside her mother's old housekeeper and play with her cotton balls (reels were not in those days). It was a common custom to stick pins or needles in these cotton balls if a pin cushion was not at hand.

This cat, finding herself pricked with the needles when playing with these balls, used to draw them out first with her teeth in order to play with comfort. If people would treat cats as they do dogs, and study them as much, they would be repaid by the amount of intelligence and sagacity shown.—Spectator.

### Explaining the Item.

Client—You have an item in your bill, "Advice, Jan. 8, 85." That was a day before I retained you.

Lawyer—I know it. But don't you remember, on the 8th I told you you'd better let me take the case for you?

Client—Yes.

Lawyer—Well, that's advice.—New York Sun.

### "Is this the best?"

Is a question often asked, when medicine is wanted. The following are a few of the medicines of known reliability, sold by Benson, Smith & Co., druggists, of this place. They have many other excellent medicines, but these are worthy of special mention:

CHAMBERLAIN'S COUGH REMEDY, famous for its cures of severe colds, and as a preventive for croup. Price 50 cents per bottle.

CHAMBERLAIN'S PAIN BALM, a general family liniment and especially valuable for rheumatism. Price 50 cents per bottle.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHEA REMEDY, the most reliable known medicine for bowel complaints. It is especially prized by persons subject to colic. It has cured many cases of chronic diarrhoea. Price 25 and 50 cents per bottle.

ST. PATRICK'S PILLS, for disorders of the liver and bowels. A vigorous but gentle physic that cleanses and renovates the whole system. Price 25 cents per box.

CHAMBERLAIN'S EYE AND SKIN OINTMENT. For better, salt-rheum, scald-head, eczema and chronic sore eyes. Price 25 cents per box.

These remedies are for sale by all dealers in Medicine. Benson, Smith & Co., Agents.

## THE KILAUEA VOLCANO HOUSE CO.

Has purchased the Volcano House and the Punaluu Hotel.

Arrangements have been completed with the Wilder's Steamship Co. and the Inter-Island Steamship Co., so that

### A Single Route Round Trip Ticket

Can be obtained at the office of either Steamship Co. for FIFTY DOLLARS (\$50) which COVERS ALL EXPENSES, including steamer ticket, reserved state room, meals, board and lodging at Hilo or Kilauea, transportation to and from the Volcano by either carriage or horseback, and board, lodging, steam sulphur baths and guide into the crater, at the Volcano.

This ticket involves an absence from Honolulu of eight days and GIVES FIVE DAYS ON SHORE, which can be spent at any point the ticket holder chooses, either at the Volcano, Hilo, or Punaluu.

If the trip up to the Volcano is made the day the steamer arrives, and the return on the day she leaves, it allows FOUR NIGHTS and THREE DAYS at the Volcano, or two days and two nights longer than heretofore allowed on this ticket.

### Double Route Round Trip Tickets

May also be obtained for SEVENTY DOLLARS (\$70).

This ticket includes all expenses covered by the other ticket and the holder may go by either the Hilo or Kilauea route and return by the other.

By taking this ticket AN ENTIRE WEEK MAY BE SPENT AT THE VOLCANO, in a cool bracing climate, with invigorating steam sulphur baths at hand, and the GREATEST VOLCANO ON EARTH in constant action in the front yard of the Hotel.

Until a rearrangement of time tables can be made, this ticket will be issued only to go up by the "Hall" and back by the "Kinau."

Further information can be obtained from either of the Steamship Companies.

KILAUEA VOLCANO HOUSE CO.  
Honolulu, May 25, 1891.
