Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. Tacre is a feeling like a heavy poor. There is a recting rate a heavy load on the stomach; sometime- a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and fet become cold and feel clammy. After a while a cough sets in at first dry, but after a few months it is attended with a erea it is actually prostoration. The greeaish coloured expectoration. The afflicted one feels thea all the while, and sleep does not seem to afford any re.t. sleep does not seem to shord any re-t. After a time he becomes nervous, irrita-ble, and g oony, and has evil fore-bodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is ary and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tingen with yellow, the urine is scanty and high-coloured, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palphation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostra-tion and weakness. All of these symp toms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., but none of the various kinds of treatment have been attended with success, because the remedy should be such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the discase is) all of these organs wrtake of this discase and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediated relief. The following letters from chemists of standing in the community where they live show in what estimation the article is held.

John Archer, Harthill, near Sheffield : -I can confidently recommend it to all who may be suffering from liver or who may be suffering from liver or stomach complaints, having the testi-mony of mycustomers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully. Geo. A. Webb, 141, York Street, Belfast:---I havo sold a large quantity, and the parties have testified to its being what you represent it

HOW TO BECIN A NORMAL SCHOOL.

It has] been objected that a Normal School for preparing candidates for positions as teachers in our pubnot only for training the students and for a practising school, but also for the lodging and boarding accourmodation of students from country and other island districts. These would certainly cost money. So would a complete corps of competent instructors. This is admitted : but a beginning could be made in a way that would entail little or no expense. application of what they had been studying in theory. In some such way as this a beginning could be made that might gradually and ulti-mately develop into a perfect insti-tution, complete in all its parts and appointments. Not many years ago the London University made a humble beginning in the face of formidable obstacles, and in the midst of derisive predictions of sudden and ignominious collapse: to-day it stands prooudly up as the equal in some respects, and the superior in schools of Oxford and Cambridge, whose foundations date back many centuries. Why should not a similar beginning of a Normal School in Honolulu result in similar success?

EDITORIAL NOTES.

The Advertiser announces, as if by authority, that "the Government owes nothing to any one that is now due which it cannot pay at a moment's notice."" This is good news, for if all the old debts are to be wiped out immediately, many useful services at a standstill for want of money may be resumed out of the new taxes. We hope it will be the most necessary services in the Appropriation Bill which will have precedence.

THE POWER OF THE PRESS.

The danger of buying a boy an premises and carried off five gold samateur printing-press is well illustrated in the story of a lad, who, : two plated rings and about \$2 in short time ago, overheard his mother cash. Information was given to the and eldest sister talking about the police, but as yet no clue has been young lady's approaching marriage, and whom they should invite. The

mother insisted that the McFadden tribe should not be invited, while the marriageable daughter was posiwell made one, comfortable and tive she did not want old Mr. Wilkinson.

So it was finally settled that all friends of the family should receive an invitation (of course they would bring flowers, the mother said), with the exception of the McFaddens and Mr. Wilkinson.

The boy, who was the happy-pos sessor of an amateur printing-press. and imagined he had the head of a Benjamin Franklin, thought this was the time for him to get his work in. Colt, he being out of Minerva by Im ported Learnington, the sire of Parole He listened to the conversation of his mother and sister with more than down into the cellar, to his mammoth printing-establishment, and was not seen about the house for the remainder of the day. The next morning the neighbors were surprised to see the goats licking off the paste on the following "poster," which adorned every fence and bill-board for blocks around :

THURSDAY, OCT. 16, 1884.

AN ALARMING DISEASE AFFLICTING A NUMEROUS CLASS.

The disease commences with a slight derangement of the stomach, but, if ferangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, panereas, and, in fact, the entire glandu-lar system, and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is often mistakes for other complaints; but if the reader will a ked humself the but if the reader will a feed himself the following questions, he will be able to determine whether he himself is one of afflicted —Have I distress, pain, or diffi-culty in breathing after cating? Is there a dull, heavy feeling attended by drow-siness? Have the eyes a yellow tinge? Does a thick, sticky, mucous gather about the source and teach in the more about the guins and teeth in the morn lngs, accompanied by a disagreeable raste? Is the tongue coated γ is there pains in the side and back γ is there a fulness about the right side as if the liver were enlarging? Is there costive ness? Is there vertigo or dizziness when rising suddenly from a horizontal post tion? Are the secretions from the kid-neys scanty and highly coloured, with a deposit after standing? Does food fer-ment, soon after eating, accompanied by flatulence or a belching of gas from the stomach? Is there frequent palpitation stomach? Is there frequent patputation of the hearts. These various symptoms may not be present at one time, but they torment the sufferer in turn as the dread full disease progresses. If the case be one of long standing, there will be a dry, backing cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish ap-pearance, and the hands and fect are covered by a cold, sticky perspiration. As the liver and kidneys become more and more discased, rheumatic pains appear, and the usual incatment proves en-tirely unavailing against this latter ago-nizing disorder. The origin of this mainnizing disorder. The origin of this mala-dy is indigestion or dyspepsia, and a small quantity of the proper medicine will remove the disease if taken in its incr-piency. It is most important that the disease should be prompty and properly treated in its first stages, when a little medicine will effect a cure and even when it has obtained a strong hold the correct remody should be perserved in outil avery vectors of the disease is until every vestige of the disease is eradicated, until the appetite has re-turned, and the digestive organs restored to a healthy condition. The surgest and most effectual remedy for this distressing complaints is "Seigel's Curative Syrup," a vegetable preparation sold by all Chemist-and Medicine Vendors throughout the world, and by the preprietors, A. J. White Limited, 17, Faringdon Road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, roat and branch, out of the system

Market Place, Pocklington, York, October 2nd, 1882.

Sir,—Being a sufferer for years with dyspepsia in all its worst forms, and after, spending pounds in medicines, I was at last persuaded to try Mother Seigel's Curative Syrup, and an thank-ful to say have derived more benefit from it then are only and the second secon it than any other medicine I ever took, and would advise any one suffering from the same complaint to give it a trial, the results they would soon find out for themselves. If you like to make use of this testimonial you are quite at liberty to do so.

Yours respectfully, (Signed) R. Tensier,

Seigel's Operating Phils are the best family physic that has ever been dis-They cleanse the bowels

Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, con-sisted in the removal of a portion of the human stomach, involving nearly one-third of the organ-and strange to say, the patient recovered —the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following --man annetic the following symptoms:-The appetite is quite poor. There is a peculiar indes-cribable distress in the stomach, a feel ing that has been described as a faint "all gone" semation; a sticky slime col-lects about the teeth, repecially in the moruting, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and stickya cold perspiration. The sufferers feel tired all the time, and sleep does not seem to give rest. After a time the pa-

seem to give rest. After a time the pa-tient becomes nervous and irritable, gloomy, his mind filled with evil fore-bodings. When rising suddenly from a recumbent position there is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becom-ing thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented con-dition, sometimes sweetish to the taste. sometimes in a sour and fermented con-dition, sometimes sweetish to the taste. Oftentimes there is a papitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intes-tince becomes closed, or nearly so. Al-though this disease is indeed alarming, sufferers with the above named symp-tems sheadd not find nearens for since toms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrap, a vegetable pre-paration sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. 3. White (Limit-ed), 17, Farringdon-road, London, E. C. This Syrop strikes at the very founda-tion of the disease, and drives it, root and branch, out of the system.

St. Mary-street, Peterborough, November, 29th, 1881. Sir.—It gives me great pleasure to in-form you of the benefit I have received from Seigel's Syrup. I have been troub-led for years with dyspepsia; but after a few doses of the syrup. I found relief, and after taking two bottles of it I feel multe cured. quite cured.

I am, Sir, yours truly, Mr. A. J. White. William Breat.

September 8th, 1883. Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medi-cinal virtues: one customer describes it as a "God-send to dyspeptic people." always recommend it with confidence.

Faithfully yours, (Signed) Vincent A. Wills, Chemistalantist, Merthyr Tydvil,

St. Mary street, Peterboraugh, j November 29th, 1881, j

Sir, -lt gives me great pleasure to in-form you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup, I found relief, and after taking two bottles of to I found order oursed.

it I fell quite cured. I am. Sir, yours truly. Mr. A. J. White. WILLIAM BRENT.

Hensingham, Whitehaven, Oct. 16th, '82.

Mr. A. J. White .- Dear Sir,-1 was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.-I remain, yours respectfully, (Signed)

Jours H. LIGHTFOOT. 15th August, 1883.

Dear Sir,-i write to tell you that Mr. Henry Hillier, of Yatesburg, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life

Yours truly, N. WEAR, (Signed)

Mr. White. Chemist, Calne,

September 8th, 18:3.

Dear Sir,-1 find the sale of Seigel's Syrup steading increasing. All who have tried it speak very highly of its medi-cinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Faithfully yours, ned) VINCENT A. WILLS, (Signed) Chemist-Dentist, Merthyr Tydvil,

To. Mr. A. J. White:

Preston, Sept. 21st 1883.

My Dear Sir,-Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible

The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have muck faith in ""

The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great .-- I am dear Sir, yours faithfully, W. BOWKER.

Twelve months ago 1 was induced to try Beigel's Syrup, and although rather couptical, having tried so many reputed infallible remedies, 1 determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being sltogether, It is said of certain pens that they "come as a boon and a blessing to men" and I have no reason to doubt the trathfulness of the statement. I can truly say, how-ever, that Seigel's Syrup has come as a "boon and a blessing" to me. I have re-commended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am dear Sir,

Yours ever gratefally, (Signed) Carey B, Berry, A. J. White, Esq. Baptist Missionary.
