SOLE AGENTS, Hawaii Territory.

TAKE NO SUBSTITUTES.

### THE INSANE ASYLUM.

Dr. Herbert Reports the Excellent Condition of the Institution.

From a report of the Oahu Insane Asylum submitted by Dr. George H. Herbert before the Board of Health yesterday afternoon, that institution was shown to be in first-class condition:

OAHU INSANE ASYLUM AT THE PRESENT TIME.

January 1, 1901.

BUILDINGS—There are at the present time six (6) Wards in the Asylum as follows:

No. 1 WARD—A wooden building, size 28 feet 6 inches by 72 feet 6 inches, with accommodations or cells (8x10) for 18 patients. Each cell has one window and one door, the windows and upper panels of the doors are covered with strong wire netting on the inside, and mosquito proof netting on the outside. One extra large cell is set apart to be used as a hospital. There are at the present time 17 patients in this Ward. Each patient is supplied with a mattress, pillow, mat and double blanket, as nearly all the patients in this Ward are violent or destructive, we do not supply them with bedsteads.

No. 2 WARD—This is the old original building erected in 1866 and remodeled in 1887. Size 40 feet by 100 feet. It consists of one large dormitory and three cells. At present there are 34 patients in this Ward, 32 of them sleep in the dormitory and two others who are not to be trusted sleep in the cells. These patients are harmless old Chronics and with the exception of the two in the cells are all furnished with an iron bedstead, mattress, pillow, blanket and bed linen.

No. 3 WARD—Is a wooden building 64 feet 6 inches by 64 feet 6 inches, in which there are a good many Chronic cases whom we cannot trust in No. 2 Ward, at the same time there are no such violent and dangerous patients here as in No. 1. In this Ward there are 32 cells each with a ventilator let into the wall close up to the ceiling and fitted with an electric light which is put out by means of a switch outside the door of the cell. Each door is fitted with a small wicket so that by turning on the light and opening the wicket the patient can be observed without opening the door. The Ward at the present time is full. Each patient is supplied with mattress, mat and pillow and blanket, except in the case of 4 of the most rational patients who have, in addition to the above, an iron bedstead each, and bed linen.

No. 4 WARD—This is a wooden building, size 51 feet by 92 feet 6 inches, and is used exclusively for female patients. There are accommodations for 19 patients only, the rest of the building being taken up by a large dining room, a bath room, water closets, etc. The cells are fitted with electric lights controlled by switches on the outside of the doors of the cells. Each cell is well ventilated by a ventilator let into the wall close to the ceiling. There is also a device to be used in case of fire, by which all the cell doors are unlocked simultaneously. There are at the present time 31 patients in this Ward who have to be quartered as follows, owing to dearth of accommodations. In the dining room, which we have been compelled to turn into a dormitory, there are three, and in two other cells, there are two in each. The balance, fourteen, are each in a separate cell. The majority of these patients we are able to furnish with an iron bedstead, mattress and bed linen. The remainder, amounting to ten, either refuse to use a bedstead or are not to be trusted with one. The crowding here is not proper and should be avoided by adding wings to the building.

No. 5 WARD—Is a small cottage 32 feet by 30 feet, which is used as a private Ward or Hospital. The cottage contains two bedrooms, a bathroom and closet, and is kept furnished with iron bedsteads, mattresses, pillows and bed linen, two tables and two chairs. The rooms are mosquito proof, the windows and doors being lined with heavy wire netting on the inside and mosquito netting on the outside. Each room is well ventilated through the ceiling so that all the doors can be locked and there still remains abundance of fresh air inside.

No. 6 WARD—This is a building which has been put in temporary use as a ward, I believe it was originally intended to be used as a power house from which to supply the Asylum with electric light. Owing to the dearth of accommodations for the patients continually arriving, it has been turned into a Ward, into which are promoted the best behaved patients from No. 1 and No. 3. The size of the building is 30 feet by 70 feet, and contains accommodations for twenty patients. Each cell is thoroughly ventilated and mosquito proof, the upper panels of the doors being heavy wire netting on the inside and mosquito netting on the outside. Each cell is fitted with a mosquito proof ventilator close to the ceiling and let into the wall of the building. Each patient in this Ward is supplied with an iron bedstead, mattress and pillow and bedding. At the present time there are sixteen patients in this Ward. In addition to the buildings mentioned above is the Executive building with assistant superintendent's room, office and dispensary, parlor, three bedrooms dining room, pantry and kitchen. At the opposite end of the grounds is a cottage 20 feet by 28 feet, containing the female nurses' quarters. Also a cottage 16 feet by 24 feet containing the captains' quarters. Cottage 18 feet by 50 feet containing guard's quarters, male patients' bathrooms with upright boiler baths, etc. Patient's kitchen and dining room. This is an addition built onto and at the back of No. 2 Ward, one part of which is the kitchen where the patient's meals are cooked and the other the dining room where the guards and the trustworthy patients dine. The kitchen and dining room are divided by a partition in which there is a sliding window, the panels of which are fitted with heavy wire netting. This is kept closed except at meal times when the food is passed through from the kitchen.

OUTBUILDINGS—Carpenter's shop, servant's quarters, stables, wash-house and poi house.

The force of attendants employed at the Asylum number nineteen persons consisting of two captains, twelve guards, one matron and four female nurses. The force is divided into two watches of eight hours each. Two guards are stationed at Ward No. 1. One guard at Ward No. 2. Two guards at Ward No. 3. One matron and two nurses at Ward No. 4. The captains make a round of all wards before going on watch. During the night half-hour rounds are required. Ship's bells are struck all through the twenty-four hours watch.

In regard to sanitation, it was stated that each ward was thoroughly disinfected every morning.

All patients with the exception of those confined to Wards 2 and 6 dine upon the lawns in front of their respective wards. In case of rainy weather they dine on the verandas. Breakfast usually consists of beef stew, rice, coffee, soft bread, crackers and poi, served at 6:30 a. m.

DINNER—11:30 a. m.—Soups, tomato, vermicelli, vegetable and macaroni, boiled beef, taro, poi, rice;

(Continued on 2d page.)

## OBEY THE LAWS.

If you wish to live in Hawaii, do not take the law into your own hand but obey the laws which wise, good and experienced men have placed on our statutes. Our laws furnish ample protection for every law-abiding citizen, and any man who believes that the laws do not cover newspapers and the journalists is making a very serious mistake.

We regret deeply that an affair should have happened here, like that which occurred last night in the editorial rooms of a morning paper. We know nothing whatever about the merits of the articles, which caused the trouble, and we say frankly that we do not care, because whatever was said or written there, even if it was offensive, or libelous, or unbearable, could be reached through the legal and lawful methods by the parties claiming to be injured.

We have had some experience in Hawaii in the newspaper business, and we know that every man feeling offended by a newspaper article has his remedy, without becoming a trespasser, an intruder, and a breaker of the law. If Mr. A— doesn't like an article in a paper, and believes that it refers to him, and that every man and woman meeting him in the streets whispers, "that's him," he has the right to be awfully mad and take his choice of the form of his revenge. He can rush into print and write a scathing article against everybody and everything in sight, and the editor will publish it with a grin. The ravings of the writer do not pierce through the rhinoceros hide of the editor, and the ebullition in cold print is awfully gratifying to the angry man.

The other privilege of the man who imagines that he or his friends have been insulted, is to treat the paper with silent contempt. That, also, is gratifying to the indignant reader, whom nobody has compelled to read the paper, and it doesn't crush the editor to any marked degree.

The third and only lawful remedy is to swear to a warrant of arrest, and charge the editor with criminal libel, and then endeavor to reach the editorial wealth by bringing a civil suit for damages, say, for \$1,000,000, or whatever sum an editor is generally supposed to carry in his pocket.

But we want it distinctly understood, that the bullies who walk into newspaper offices to wipe up the floor with the writers deserve to be treated exactly like the man Stevens was. If any man, dear reader, entered your house and there avowed his intention to do you up, would you wait until you were struck in the face, or would you at once call upon your bull-dog, your cat and your gun to attend to the intruder?

We care nothing for the cause which led to the fracas, because we

know nothing at all about the parties connected with it. We have spoken, perhaps fifty words, with Mr. Gill since he arrived here, and we have never met Mr. Stevens. We regret, on behalf of the city, that ladies visiting us should have been annoyed by a newspaper article, but we can assure them that the true annoyance and undoubtedly undeserved notoriety to which they have now been submitted, are solely due to the hasty and tactless acts of their, perhaps, well-meaning friends.

The late Chief Justice held, in a celebrated homicide case, that a man must run until virtually cornered, before he has a right to shoot. We believe that the late jurist would admit that Gill was justified, when in his sanctum, he found himself attacked by a professional athlete, in drawing his gun and even shooting to kill.

The editor of the Advertiser is off his base when he talks about "a manly fist" and a "cowardly ball." Bless his soul; in 1893, the same valiant gentleman sat at his editorial desk in the Star office with a couple of loaded revolvers on his desk, and never appeared at the Hotel bar-room except the handle of his gun was in visible sight. And surely he wasn't looking for gun attacks in those days!

That Mr. Gill is only 5 feet 4 inches tall, and his assailant is, by the Advertiser, reported as being a football player, a high diver, a crack cyclist, a wrestler, and a hurdler, is not for us to consider; we simply want people who wish to live here to obey the law or take the consequences. Old Hawaii will yet prevent the revolver era from taking control here.

## THE INSANE ASYLUM.

(Continued from 1st page.)

three times a week boiled mutton, once a week fresh fish, Sundays pork and beans.

Supper—4:30 p. m.—Beef prepared in various ways, meat balls, etc., soft bread, bananas, tea.

In cases of sickness, beef-tea, tapioca, sago, corn starch, eggs and milk, poi and milk, egg-nogs, etc. Private patients get their meals directly from the assistant superintendent's house and are charged at the rate of 50 cents per diem.

It was also stated that the restraints to which the patients were sometimes subjected, were humane. Irons are used only in extreme cases, and then a leather wristlet is put on first to avoid chafing the skin. Gloves are sometimes resorted to as a preventive against patients removing bandages. Whenever a patient is placed in restraint a note is made in a book kept for the purpose.

A monthly report of the inmates is made out at the end of each month, giving the number of inmates in the Asylum at that time, the number admitted during the month, the number discharged, and the number who have died, with their nationalities, sex, age, asylum number, etc.

A patient upon being admitted to the Asylum is immediately bathed and clothed in clean clothes, temperature and pulse taken and the same entered in the records, etc. In addition to the regular attendants named above there are employed in the Asylum one foreman, one taro man and helper, two cooks, two gardeners, one laundryman and one hostler. The foreman has a general supervision of all the work around the Asylum, such as taro planting and pulling, making poi, repairs to buildings and fences, digging graves for deceased patients, etc. The taro man is under the foreman and in direct charge of the patients who do any work. He has a man to help him in this work. The two cooks are employed to cook for the patients and the working force. The two gardeners are employed in

keeping the grounds in order, planting flowers, cutting grass, etc. The laundryman keeps all the bed linen, bed spreads, etc., in first-class condition. The grounds need to be seen to be appreciated; plenty of green lawn adorned with colored shrubs and plants makes it one of the most beautiful gardens of Honolulu.

Each and every one is treated as though he, or she, was a private patient, and as irresponsible as a child would be. Therefore it behooves us to look for ailments and suffering, and not to wait until the patient complains, but to observe them, and instruct those in attendance to watch and note every peculiarity or idiosyncrasy, of those under their supervision. A physician, even though resident, cannot be always with each patient, and he has to depend on the watchfulness and intelligence of the attendants. Their physical condition is observed and each phase of mental disturbance noted.

The Asylum is visited and the patients all seen daily by me; occasionally by one of my partners, and frequently by both of us. If there is a case of special interest or difficulty, I invariably call on one of them for counsel. In case of emergency there is always someone on duty in my office, who is acquainted with my whereabouts, and a telephone message has always been immediately attended to. No case of urgency has ever been kept waiting, and when the danger of serious illness demanded it; as many as three or four visits have been paid in one day.

When you consider that fifty-three of the inmates are incurable and have been over three years in the Asylum and forty more, doubtful and practically incurable, (have been in the Asylum for over two years), and for the most part, showing no ameliorate of symptoms—

but in many cases remaining in status quo or progressing, it leaves but about thirty who require very special attendance.

Finally, after considerable experience with the insane, I believe that you will find in no similar institution that the patients have been better cared for, or better results have been obtained than in the Oahu Asylum.

**L. B. Kerr & Co., Ltd**  
QUEEN STREET.

## LOCAL AND GENERAL NEWS.

The China is due here to-morrow from San Francisco.

Papa Ita is evidently having a hot time in Wailuku.

The Kinau, Claudine and other islands steamers left this morning.

If the weather permits it the band will give a concert at the Hawaiian Hotel this evening.

The leading grocery stores will be closed at noon to-morrow, on account of the memorial services.

When desiring a hack, surrey, buggy, etc., with careful drivers, ring up Telephone 113—Territory Stable Co., Ltd.

When you want a hack ring up 191. On that stand you will get a reliable and good driver, a fine hack, and no overcharging.

No pains are being spared to make the Memorial Service in St. Andrew's Cathedral on Sunday next at 3 p. m. worthy of the great and solemn occasion.

Ten thousand pieces of new stylish dress goods at less than one-half the original cost at L. B. Kerr & Co.'s sale of bankrupt stock. Call early and examine this immense assortment.

The Honolulu Iron Works will close their works and offices at 12 o'clock to-morrow, and will remain closed for the rest of the day on account of the Memorial Service in honour of Queen Victoria.

E. S. Gill, editor of the Republican was charged this morning in the District Court with committing an assault with a deadly weapon on M. I. Stevens, an attache on the reportorial staff of the P. C. Advertiser, and a continuance until Monday next was granted, at the request of the prosecution.

The public is cordially invited to attend the Memorial Service at Kawaiahao Church on February 8, at 2 p. m. The cards issued are simply for the officials invited to attend the solemn function, while the Church will be open to all who wish to honor the memory of the late great Queen.

### Death of Thomas W. Gay.

A telephone message from Wailuku received this morning states that Thomas W. Gay, manager of the Mokuleia ranch, died at his home there early this morning. Deceased had been in ill health for some years but appeared to be improving. Recently he contracted a serious cold to which his system succumbed.

Mr. Gay, who was about 55 years of age, was a native of Scotland, but spent most of his life in the Colonies, where he became an expert on sheep raising and a rancher of great experience. He was at one time a member of the mounted constabulary in Australia, and a practitioner of law in the district courts.

He came to Hawaii about twenty years ago at the invitation of his brother, the late James W. Gay, and resided here ever since. While here he managed several sheep ranches and was always recognized as an authority on matters pertaining to ranching and horse breeding and racing. After the death of his brother he assumed the management of the Mokuleia ranch in the interest of his nephews and nieces.

Deceased was a half brother to Francis, George and Charles Gay of Kauai, and he enjoyed the friendship of every man who came in contact with him and recognized his many sterling qualities. He leaves no family of his own.

Mr. Cecil Brown, the administrator of the Gay Estate, upon receiving the sad message, sent H. H. Williams, the undertaker, to Mokuleia, to bring the body of the deceased to Honolulu, and upon the arrival of the train this afternoon the arrangements for the funeral will be made.

### Born.

THURM—In this city, February 5, 1901, to the wife of Wm. F. Thurm, a daughter.

## TOPICS OF THE DAY.

The agent of the Board of Health called the attention of the Board yesterday to the large expense connected with the burial of the poor. Would it not be cheaper for the government to have its own hearse, undertaker, etc.? Since the Territory is going into the "Iwilei" business and the liquor dealing we should imagine the "undertaking" business would be very congenial and kind of homelike.

A canvass among the legislators now in town shows that the Dispensary bill to be introduced will be passed by a large majority. We now ask our wise men to consider the standing of the new brewery if the Dispensary system should be inaugurated. Is the government expected to buy that concern or will the Legislature simply shut it up? You can't have a private brewery and a Dispensary law at the same time, don't you know!

We are told that the Mr. Hawes of Greeley, Colorado, who has been permitted to visit the Leper Settlement is a fullfledged doctor and the vice-president of the American Medical Association. Mr. Fred. Beckley is not a doctor or a member of a medical association which undoubtedly will approve of making Hawaii the dumping ground for lepers. Mr. Beckley is simply the man representing the inmates of the Settlement, a member of the Legislature and in a position to make radical changes in the present peculiar rules guiding the Settlement. We admit that we do not comprehend the logic of the Board of Health.

### ATTACKED, HE SHOOT.

Editor Gill Wounds Reporter Stevens in the Office of The Republican.

An article which appeared in the Republican yesterday has caused a good deal of unnecessary trouble.

Yesterday morning a man, who is a stranger here called on Editor Gill of the Republican and used language which ended in a small row which was promptly stopped by the employees in the printing room.

In the evening Mr. Gill was at his desk when M. I. Stevens, a reporter of the Advertiser, entered the office and took exceptions to the editorial in the Republican and insisted in the editor in the future desisting from writing more about the subject which seems to have caused annoyance to some people who by no means desired notoriety. Mr. Gill answered that he would put into his paper what he saw fit to do, and the result was that Stevens struck him in the face and when things began to look hot Gill pulled a gun and ordered Stevens to desist. If Stevens had then retreated from the room there would probably have been no serious matter to report. He advanced, however, to disarm Gill, as he says himself, and in the excitement the gun was discharged and Stevens wounded near his left hip.

The injured man was taken to the Hospital and Gill surrendered himself to the police. After a brief detention he was set at liberty on furnishing bail for \$1000. Stevens' wound is not considered dangerous.

### BY AUTHORITY.

Samuel McKeague, Esq., has this day been appointed, Keeper of Powder Magazine, for the City of Honolulu, Island of Oahu, Territory of Hawaii, vice W. T. Monsarrat.

J. A. McCANDLESS, Supt. of Public Works, Public Works Dept., Honolulu, Feby. 1, 1901.

19-3t

The sale of bankrupt stock in Progress at L. B. Kerr & Co.'s has attracted crowds to Queen street all day and genuine bargains were obtained. The stock will be on exhibition Monday.

### THE INSANE ASYLUM.

Dr. Herbert Reports the Excellent Condition of the Institution.

From a report of the Oahu Insane Asylum submitted by Dr. George H. Herbert before the Board of Health yesterday afternoon, that institution was shown to be in first-class condition:

OAHU INSANE ASYLUM AT THE PRESENT TIME.

January 1, 1901.

BUILDINGS—There are at the present time six (6) Wards in the Asylum as follows:

No. 1 WARD—A wooden building, size 28 feet 6 inches by 72 feet 6 inches, with accommodations or cells (8x10) for 18 patients. Each cell has one window and one door, the windows and upper panels of the doors are covered with strong wire netting on the inside, and mosquito proof netting on the outside. One extra large cell is set apart to be used as a hospital. There are at the present time 17 patients in this Ward. Each patient is supplied with a mattress, pillow, mat and double blanket, as nearly all the patients in this Ward are violent or destructive, we do not supply them with bedsteads.

No. 2 WARD—This is the old original building erected in 1866 and remodeled in 1887. Size 40 feet by 100 feet. It consists of one large dormitory and three cells. At present there are 34 patients in this Ward, 32 of them sleep in the dormitory and two others who are not to be trusted sleep in the cells. These patients are harmless old Chronics and with the exception of the two in the cells are all furnished with an iron bedstead, mattress, pillow, blanket and bed linen.

No. 3 WARD—Is a wooden building 64 feet 6 inches by 64 feet 6 inches, in which there are a good many Chronic cases whom we cannot trust in No. 2 Ward, at the same time there are no such violent and dangerous patients here as in No. 1. In this Ward there are 32 cells each with a ventilator let into the wall close up to the ceiling and fitted with an electric light which is put out by means of a switch outside the door of the cell. Each door is fitted with a small wicket so that by turning on the light and opening the wicket the patient can be observed without opening the door. The Ward at the present time is full. Each patient is supplied with mattress, mat and pillow and blanket, except in the case of 4 of the most rational patients who have, in addition to the above, an iron bedstead each, and bed linen.

No. 4 WARD—This is a wooden building, size 51 feet by 92 feet 6 inches, and is used exclusively for female patients. There are accommodations for 19 patients only, the rest of the building being taken up by a large dining room, a bath room, water closets, etc. The cells are fitted with electric lights controlled by switches on the outside of the doors of the cells. Each cell is well ventilated by a ventilator let into the wall close to the ceiling. There is also a device to be used in case of fire, by which all the cell doors are unlocked simultaneously. There are at the present time 31 patients in this Ward who have to be quartered as follows, owing to dearth of accommodations. In the dining room, which we have been compelled to turn into a dormitory, there are three, and in two other cells, there are two in each. The balance, fourteen, are each in a separate cell. The majority of these patients we are able to furnish with an iron bedstead, mattress and bed linen. The remainder, amounting to ten, either refuse to use a bedstead or are not to be trusted with one. The crowding here is not proper and should be avoided by adding wings to the building.

No. 5 WARD—Is a small cottage 32 feet by 30 feet, which is used as a private Ward or Hospital. The cottage contains two bedrooms, a bathroom and closet, and is kept furnished with iron bedsteads, mattresses, pillows and bed linen, two tables and two chairs. The rooms are mosquito proof, the windows and doors being lined with heavy wire netting on the inside and mosquito netting on the outside. Each room is well ventilated through the ceiling so that all the doors can be locked and there still remains abundance of fresh air inside.

No. 6 WARD—This is a building which has been put in temporary use as a ward, I believe it was originally intended to be used as a power house from which to supply the Asylum with electric light. Owing to the dearth of accommodations for the patients continually arriving, it has been turned into a Ward, into which are promoted the best behaved patients from No. 1 and No. 3. The size of the building is 30 feet by 70 feet, and contains accommodations for twenty patients. Each cell is thoroughly ventilated and mosquito proof, the upper panels of the doors being heavy wire netting on the inside and mosquito netting on the outside. Each cell is fitted with a mosquito proof ventilator close to the ceiling and let into the wall of the building. Each patient in this Ward is supplied with an iron bedstead, mattress and pillow and bedding. At the present time there are sixteen patients in this Ward. In addition to the buildings mentioned above is the Executive building with assistant superintendent's room, office and dispensary, parlor, three bedrooms, dining room, pantry and kitchen. At the opposite end of the grounds is a cottage 20 feet by 28 feet, containing the female nurses' quarters. Also a cottage 16 feet by 24 feet containing the captains' quarters. Cottage 18 feet by 50 feet containing guard's quarters, male patient's bathrooms with upright boiler baths, etc. Patient's kitchen and dining room. This is an addition built onto and at the back of No. 2 Ward, one part of which is the kitchen where the patient's meals are cooked and the other the dining room where the guards and the trustworthy patients dine. The kitchen and dining room are divided by a partition in which there is a sliding window, the panels of which are fitted with heavy wire netting. This is kept closed except at meal times when the food is passed through from the kitchen.

OUTBUILDINGS—Carpenter's shop, servant's quarters, stables, wash-house and poi house.

The force of attendants employed at the Asylum number nineteen persons consisting of two captains, twelve guards, one matron and four female nurses. The force is divided into two watches of eight hours each. Two guards are stationed at Ward No. 1. One guard at Ward No. 2. Two guards at Ward No. 3. One matron and two nurses at Ward No. 4. The captains make a round of all wards before going on watch. During the night half-hour rounds are required. Ship's bells are struck all through the twenty-four hours watch.

In regard to sanitation, it was stated that each ward was thoroughly disinfected every morning.

All patients with the exception of those confined to Wards 2 and 6 dine upon the lawns in front of their respective wards. In case of rainy weather they dine on the verandas. Breakfast usually consists of beef stew, rice, coffee, soft bread, crackers and poi, served at 6:30 a. m.

DINNER—11:30 a. m.—Soups, tomato, vermicelli, vegetable and macaroni, boiled beef, taro, poi, rice;

## OBEY THE LAWS.

If you wish to live in Hawaii, do not take the law into your own hand but obey the laws which wise, good and experienced men have placed on our statutes. Our laws furnish ample protection for every law-abiding citizen, and any man who believes that the laws do not cover newspapers and the journalists is making a very serious mistake.

We regret deeply that an affair should have happened here, like that which occurred last night in the editorial rooms of a morning paper. We know nothing whatever about the merits of the articles, which caused the trouble, and we say frankly that we do not care, because whatever was said or written there, even if it was offensive, or libelous, or unbearable, could be reached through the legal and lawful methods by the parties claiming to be injured.

We have had some experience in Hawaii in the newspaper business, and we know that every man feeling offended by a newspaper article has his remedy, without becoming a trespasser, an intruder, and a breaker of the law. If Mr. A— doesn't like an article in a paper, and believes that it refers to him, and that every man and woman meeting him in the streets whispers, "that's him," he has the right to be awfully mad and take his choice of the form of his revenge. He can rush into print and write a scathing article against everybody and everything in sight, and the editor will publish it with a grin. The ravings of the writer do not pierce through the rhinoceros hide of the editor, and the ebullition in cold print is awfully gratifying to the angry man.

The other privilege of the man who imagines that he or his friends have been insulted, is to treat the paper with silent contempt. That, also, is gratifying to the indignant reader, whom nobody has compelled to read the paper, and it doesn't crush the editor to any marked degree.

The third and only lawful remedy is to swear to a warrant of arrest, and charge the editor with criminal libel, and then endeavor to reach the editorial wealth by bringing a civil suit for damages, say, for \$1,000,000, or whatever sum an editor is generally supposed to carry in his pocket.

But we want it distinctly understood, that the bullies who walk into newspaper offices to wipe up the floor with the writers deserve to be treated exactly like the man Stevens was. If any man, dear reader, entered your house and there avowed his intention to do you up, would you wait until you were struck in the face, or would you at once call upon your bull-dog, your cat and your gun to attend to the intruder?

We care nothing for the cause which led to the fracas, because we

know nothing at all about the parties connected with it. We have spoken, perhaps fifty words, with Mr. Gill since he arrived here, and we have never met Mr. Stevens. We regret, on behalf of the city, that ladies visiting us should have been annoyed by a newspaper article, but we can assure them that the true annoyance and undoubtedly undesired notoriety to which they have now been submitted, are solely due to the hasty and tactless acts of their, perhaps, well-meaning friends.

The late Chief Justice held, in a celebrated homicide case, that a man must run until virtually cornered, before he has a right to shoot. We believe that the late jurist would admit that Gill was justified, when in his sanctum, he found himself attacked by a professional athlete, in drawing his gun and even shooting to kill.

The editor of the Advertiser is off his base when he talks about "a manly fist" and a "cowardly ball." Bless his soul; in 1893, the same valiant gentleman sat at his editorial desk in the Star office with a couple of loaded revolvers on his desk, and never appeared at the Hotel bar-room except the handle of his gun was in visible sight. And surely he wasn't looking for gun attacks in those days!

That Mr. Gill is only 5 feet 4 inches tall, and his assailant is, by the Advertiser, reported as being a football player, a high diver, a crack cyclist, a wrestler, and a hurdler, is not for us to consider; we simply want people who wish to live here to obey the law or take the consequences. Old Hawaii will yet prevent the revolver era from taking control here.

## THE INSANE ASYLUM.

(Continued from 1st page.)

three times a week boiled mutton, once a week fresh fish, Sundays pork and beans.

Supper—4:30 p. m.—Beef prepared in various ways, meat balls, etc., soft bread, bananas, tea.

In cases of sickness, beef-tea, tapioca, sago, corn starch, eggs and milk, poi and milk, egg-nogs, etc. Private patients get their meals directly from the assistant superintendent's house and are charged at the rate of 50 cents per diem.

It was also stated that the restraints to which the patients were sometimes subjected, were humane. Irons are used only in extreme cases, and then a leather wristlet is put on first to avoid chafing the skin. Gloves are sometimes resorted to as a preventive against patients removing bandages. Whenever a patient is placed in restraint a note is made in a book kept for the purpose.

A monthly report of the inmates is made out at the end of each month, giving the number of inmates in the Asylum at that time, the number admitted during the month, the number discharged, and the number who have died, with their nationalities, sex, age, asylum number, etc.

A patient upon being admitted to the Asylum is immediately bathed and clothed in clean clothes, temperature and pulse taken and the same entered in the records, etc. In addition to the regular attendants named above there are employed in the Asylum one foreman, one taro man and helper, two cooks, two gardeners, one laundryman and one hostler. The foreman has a general supervision of all the work around the Asylum, such as taro planting and pulling, making poi, repairs to buildings and fences, digging graves for deceased patients, etc. The taro man is under the foreman and in direct charge of the patients who do any work. He has a man to help him in this work. The two cooks are employed to cook for the patients and the working force. The two gardeners are employed in

keeping the grounds in order, planting flowers, cutting grass, etc. The laundryman keeps all the bed linen, bed spreads, etc., in first-class condition. The grounds need to be seen to be appreciated; plenty of green lawn adorned with colored shrubs and plants makes it one of the most beautiful gardens of Honolulu.

Each and every one is treated as though he, or she, was a private patient, and as irresponsible as a child would be. Therefore it behooves us to look for ailments and suffering, and not to wait until the patient complains, but to observe them, and instruct those in attendance to watch and note every peculiarity or idiosyncrasy, of those under their supervision. A physician, even though resident, cannot be always with each patient, and he has to depend on the watchfulness and intelligence of the attendants. Their physical condition is observed and each phase of mental disturbance noted.

The Asylum is visited and the patients all seen daily by me; occasionally by one of my partners, and frequently by both of us. If there is a case of special interest or difficulty, I invariably call on one of them for counsel. In case of emergency there is always someone on duty in my office, who is acquainted with my whereabouts, and a telephone message has always been immediately attended to. No case of urgency has ever been kept waiting, and when the danger of serious illness demanded it; as many as three or four visits have been paid in one day.

When you consider that fifty-three of the inmates are incurable and have been over three years in the Asylum and forty more, doubtful and practically incurable, (have been in the Asylum for over two years), and for the most part, showing no ameliorate of symptoms—

but in many cases remaining in status quo or progressing, it leaves but about thirty who require very special attendance.

Finally, after considerable experience with the insane, I believe that you will find in no similar institution that the patients have been better cared for, or better results have been obtained than in the Oahu Asylum.

L. B. Kerr & Co., Ltd  
QUEEN STREET.

## LOCAL AND GENERAL NEWS.

The China is due here to-morrow from San Francisco.

Papa Ita is evidently having a hot time in Wailuku.

The Kinau, Claudine and other islands steamers left this morning.

If the weather permits it the band will give a concert at the Hawaiian Hotel this evening.

The leading grocery stores will be closed at noon to-morrow, on account of the memorial services.

When desiring a hack, surrey, buggy, etc., with careful drivers, ring up Telephone 113—Territory Stable Co., Ltd.

When you want a hack ring up 191. On that stand you will get a reliable and good driver, a fine hack, and no overcharging.

No pains are being spared to make the Memorial Service in St. Andrew's Cathedral on Sunday next at 3 p. m. worthy of the great and solemn occasion.

Ten thousand pieces of new stylish dress goods at less than one-half the original cost at L. B. Kerr & Co.'s sale of bankrupt stock. Call early and examine this immense assortment.

The Honolulu Iron Works will close their works and offices at 12 o'clock to-morrow, and will remain closed for the rest of the day on account of the Memorial Service in honour of Queen Victoria.

E. S. Gill, editor of the Republican was charged this morning in the District Court with committing an assault with a deadly weapon on M. I. Stevens, an attaché on the reporter staff of the P. C. Advertiser, and a continuance until Monday next was granted, at the request of the prosecution.

The public is cordially invited to attend the Memorial Service at Kawaiahao Church on February 8, at 2 p. m. The cards issued are simply for the officials invited to attend the solemn function, while the Church will be open to all who wish to honor the memory of the late great Queen.

### Death of Thomas W. Gay.

A telephone message from Wailuku received this morning states that Thomas W. Gay, manager of the Mokuleia ranch, died at his home there early this morning. Deceased had been in ill health for some years but appeared to be improving. Recently he contracted a serious cold to which his system succumbed.

Mr. Gay, who was about 55 years of age, was a native of Scotland, but spent most of his life in the Colonies, where he became an expert on sheep raising and a rancher of great experience. He was at one time a member of the mounted constabulary in Australia, and a practitioner of law in the district courts.

He came to Hawaii about twenty years ago at the invitation of his brother, the late James W. Gay, and resided here ever since. While here he managed several sheep ranches and was always recognized as an authority on matters pertaining to ranching and horse breeding and racing. After the death of his brother he assumed the management of the Mokuleia ranch in the interest of his nephews and nieces.

Deceased was a half brother to Francis, George and Charles Gay of Kauai, and he enjoyed the friendship of every man who came in contact with him and recognized his many sterling qualities. He leaves no family of his own.

Mr. Cecil Brown, the administrator of the Gay Estate, upon receiving the sad message, sent H. H. Williams, the undertaker, to Mokuleia, to bring the body of the deceased to Honolulu, and upon the arrival of the train this afternoon the arrangements for the funeral will be made.

### Born.

THURM—In this city, February 5, 1901, to the wife of Wm. F. Thurm, a daughter.

## TOPICS OF THE DAY.

The agent of the Board of Health called the attention of the Board yesterday to the large expense connected with the burial of the poor. Would it not be cheaper for the government to have its own hearse, undertaker, etc.? Since the Territory is going into the "Iwilei" business and the liquor dealing we should imagine the "undertaking" business would be very congenial and kind of homelike.

A canvass among the legislators now in town shows that the Dispensary bill to be introduced will be passed by a large majority. We now ask our wise men to consider the standing of the new brewery if the Dispensary system should be inaugurated. Is the government expected to buy that concern or will the Legislature simply shut it up? You can't have a private brewery and a Dispensary law at the same time, don't you know!

We are told that the Mr. Hawes of Greeley, Colorado, who has been permitted to visit the Leper Settlement is a fullfledged doctor and the vice-president of the American Medical Association. Mr. Fred. Beckley is not a doctor or a member of a medical association which undoubtedly will approve of making Hawaii the dumping ground for lepers. Mr. Beckley is simply the man representing the inmates of the Settlement, a member of the Legislature and in a position to make radical changes in the present peculiar rules guiding the Settlement. We admit that we do not comprehend the logic of the Board of Health.

### ATTACKED, HE SHOOT.

Editor Gill Wounds Reporter Stevens in the Office of The Republican.

An article which appeared in the Republican yesterday has caused a good deal of unnecessary trouble. Yesterday morning a man, who is a stranger here called on Editor Gill of the Republican and used language which ended in a small row which was promptly stopped by the employees in the printing room.

In the evening Mr. Gill was at his desk when M. I. Stevens, a reporter of the Advertiser, entered the office and took exceptions to the editorial in the Republican and insisted in the editor in the future desisting from writing more about the subject which seems to have caused annoyance to some people who by no means desired notoriety. Mr. Gill answered that he would put into his paper what he saw fit to do, and the result was that Stevens struck him in the face and when things began to look hot Gill pulled a gun and ordered Stevens to desist. If Stevens had then retreated from the room there would probably have been no serious matter to report. He advanced, however, to disarm Gill, as he says himself, and in the excitement the gun was discharged and Stevens wounded near his left hip.

The injured man was taken to the Hospital and Gill surrendered himself to the police. After a brief detention he was set at liberty on furnishing bail for \$1000. Stevens' wound is not considered dangerous.

### BY AUTHORITY.

Samuel McKeague, Esq., has this day been appointed, Keeper of Powder Magazine, for the City of Honolulu, Island of Oahu, Territory of Hawaii, vice W. T. Monsarrat.

J. A. McCANDLESS, Supt. of Public Works, Public Works Dept., Honolulu, Feb. 1, 1901.

19-3t

The sale of bankrupt stock in Progress at L. B. Kerr & Co.'s has attracted crowds to Queen street all day and genuine bargains were obtained. The stock will be on exhibition Monday.

### SHERIFF'S SALE.

In pursuance of an Execution issued out of the Circuit Court of the First Circuit, Territory of Hawaii, on the 9th day of January, A. D. 1901, in re Matter of W. L. Stanley, Second Judge of the Circuit Court of the First Judicial Circuit, suing for the use and benefit of C. Lai Young, Guardian of the person and property of Laahia, a minor, vs. Akoi and J. H. Barenaba, I have, on this 22nd day of January, A. D. 1901, levied upon, and shall expose for sale at Public Auction, to the highest bidder, at the Police Station, Kalakaua Hale, in Honolulu aforesaid, at 12 o'clock noon of Saturday, the 23rd day of February, A. D. 1901, all the right, title and interest of John Hahakea Barenaba, in and to the following parcels of land situate in the Island of Oahu, Territory of Hawaii, unless the judgment, amounting to Two Hundred and Twenty-four 97-100 Dollars, interest, costs, and my expenses are previously paid:

— 1 —

Four lots of two land situate at Kawaiiki, in the District of Honolulu, near the last turn of the Asylum Road going mauka, before reaching the Insane Asylum; subject to a lease by John Hahakea Barenaba to Sun Lee dated Feb. 23, 1898, for ten years, at a rental of Thirty-five Dollars (\$35.00) a year, recorded in Registry Office in Book 197, page 295; assigned by Sun Lee Co. to Sun Cheong Co., by Bill of Sale recorded in Registry Office, in Book 193, page 379.

— 2 —

R. P. 7251, L. C. A. 8989, to Kaimu, at Kaopa, Koolapoko, Oahu, containing 9.95 sq. chains, under lease by J. H. Barenaba to Hang Sime at \$15.00 a year. Lease expires June 30th, 1901, and is recorded in Registry Office, in Book 134, page 40.

— 3 —

A parcel of land situate at Punaluu, Kaneohe, Koolapoko, containing an area of 1.77 Acres known as lot 6, of Punaluu Hui land and the share of Nalua (Kaboochanohano) described by metes and bounds in deed to Nalua, recorded in Registry Office, in Book 48, page 496.

— 4 —

A parcel of land containing four tenths of an acre situate at Heeia, Koolapoko, described in R. P. 1022, L. C. A. 10711, to Pa, subject to mortgage of J. H. Barenaba to Henry Smith, Trustee, mortgage recorded in Registry Office, in Book 129, page 172.

— 5 —

R. P. 1394, L. C. A. 3706a, to Nawai, situate at Keana, Kaneohe, Koolapoko, (Apana 2 is under lease by J. H. Barenaba to Ahlo, expiring Dec. 31, 1905, for \$16.00 a year; Lease recorded in Registry Office, in Book 150, page 324.)

— 6 —

R. P. 1436, L. C. A. 4489, to Kahoochanohano, at Kaluaeleele, Punaluu, Kaneohe, containing 11.1-2 sq. chains.

— 7 —

Apana 1 of R. P. 2091, L. C. A. 772, to Kalua, at Kamakela, Kona, Island of Oahu, containing an area of 0.456 acres.
