Dressmaking done in all its branches by the well-known Dressmaker, Mrs. Renner.

### France is Likely to Take up Arms Against China.

CHINA TO ATTACK PORT ARTHUR.

A Lynching Party in the South, Strung up Six Negroes—Spain Does Not Like the New Tariff Law and Will Retaliate—Ruined by Wild Speculation.

LONDON, September 1.—The Central News' Shanghai advices received this morning say that the result of the reported attack upon Port Arthur is not positively known. It is reported that 4509 Japanese troops were landed, and they, with fourteen war vessels, took part in the attack.

The Chinese Government has issued orders for 7000 troops and a fleet to proceed to Port Arthur and attack the Japanese.

Eleven Japanese transports, conveyed by five war ships, have landed 6000 men and 300 horses at Chemulpo, whence the entire force marched northward. Thirty thousand Japanese troops in Korea are marching north.

The Emperor of China has ordered four native banks to provide the Government with 10,000,000 taels, to be used in prosecuting the war.

SHANGHAI, Sept. 1.—A dispatch from Chee Foo says the British gunboat Redpole has returned, and reports that there is no truth in the announcement that the Japanese made another attack upon Port Arthur.

Foreigners are uneasy on account of the outrages against missionaries in spite of the Imperial decree ordering natives to respect missionaries and foreigners.

A dispatch to the Standard from Berlin says: "Prince Kamashino, a nephew of the Japanese Emperor, and a Japanese Court official paid a visit to Krupp's Iron Works yesterday, and it is rumored that the Japanese Government is about to give the Krupps a large order for armament."

### Threatened By France.

PARIS, Sept. 1.—China may have to face two foes. France is likely to take up arms against the Mongol unless reparation is instantly made for the murder of the French Customs Collector at Monkai, in Tonquin.

With two forces striking at China, the French from the south and the Japanese from the east, it is easily seen what the end would be. Of course England and Russia would have a voice in the matter, neither nation wishing to see France make any further inroads into China than it has made in its ascendancy over Tonquin.

But French blood is beginning to reach the boiling point. The attack in Upper Meibong on the family of Collector Caillet is being used as the text for sanguinary articles in the newspapers. They demand not only an apology and money indemnity, but also an absolute guarantee against any more attacks on the French in Tonquin. If not, they cry for war.

### Ruined by Speculation.

NEW YORK, Sept. 1.—Unsuccessful speculation in sugar by a junior partner was the cause of the failure of the large knitting manufacture house of Theodore S. Baron & Co., and of S. Baron, of this city. The confession was made to a meeting of the firm's creditors by the younger Baron, who pledged his loss at \$7100. The latter is a son of the senior member of the firm.

This year S. Baron & Co. did a prosperous business, and when an assignment was made last month it was a surprise to the trade. Counsel for the firm said today that the assets were \$122,132.48; preferences, \$41,000; liabilities, \$185,000. The firm has hopes to pay 54 cents on the dollar, but instead submitted a proposition for 25 cents on the dollar.

This basis of settlement did not meet with the approval of the creditors. The creditors examining the statement sheet noticed an unexplained debt of \$7100, and asked for an explanation. The younger Baron was visibly agitated and his face flushed as he said:

"Gentlemen, I took that \$7100 to my father, who is the manager of the company. I drew it out in two checks—one for \$4000 and the other for \$3100. I speculated in Wall street and lost every cent."

"And what did you speculate in, pray?" demanded a creditor.

"Sugar," answered Mr. Baron.

"And you drew out this money unbeknowning to your partner? I demand that this story be investigated. Let us have his bankbook and brokers' accounts."

Counsel insisted that the young man was telling the truth. Subsequently the creditors agreed to compromise at 33 1/3 per cent, the money to be paid in three installments.

### Must Pay Duty.

WASHINGTON, Sept. 1.—The State Department has received no dispatch from Minister Taylor at Madrid confirming the telegram announcing that the Spanish Government had, by royal decree, abrogated the reciprocity arrangements with this country, by which special rates were accorded on American imports to Cuba

### Siam Is Restless.

LONDON, Sept. 1.—The Pall Mall Gazette today publishes a long letter from Bangkok, Siam, saying the city is in a fever of excitement on account of repeated announcements that the King was dead. Many people believe that the news was sent out in order to test public opinion, and that the real facts have been withheld for State reasons. Members of the diplomatic

and Porto Rico, but no doubt is entertained that such action has been taken and that all exports from America will have to pay the same duty in Cuba and Porto Rico ports that have been exacted on articles from other countries.

The officials of the State Department are not at all surprised at Spain's action and failure to give this country notice, as the reciprocal relations were merely the result of a diplomatic arrangement, no formal treaty being involved.

### Affairs in Germany.

BERLIN, Sept. 1.—The effect of the new tariff bill has been instantaneous in Berlin, Frankfurt and other export centers. The very day the law went into effect the invoices passing through the United States Consulate increased 50 per cent, and on the following two days the number was doubled. The industries most affected are decorative china, paper ware and chemicals. The whole German export trade to the United States will be increased owing to the passage of the United States tariff measure from 100 to 150 per cent, for some months, if present indications can be relied on.

The Vossische Zeitung printed a verbatim translation of the United States tariff bill on Wednesday last in an extra edition, a piece of journalistic enterprise much commented upon here as being quite a departure from the usual methods adopted in such cases.

Emperor William's activity continues. On Tuesday he reviewed his Brandenburgers on the Tempelhof review ground. He is in constant communication with his advisers on all subjects and is diligently discussing the plans to check the spread of cholera. Yet he finds time daily to take long excursions.

Since Emperor William's return to Berlin large numbers of uniformed police are always present at the railway station when he arrives there or departs from the city.

An interesting horserace or test of endurance is shortly to take place. The Emperor has ordered two officers of the dragoon guards to ride from Berlin to Cologne, 312 miles, within four days. Each officer is restricted to make use of one horse, and the two contestants will also be accompanied by bicyclists.

During the coming army maneuvers the bicycle and the use of trained dogs will be tested on a large scale. Henceforth, the bicycle is to form part of the equipment of each infantry corps, and each battalion will have a detachment of trained riders, as well as experts to train them. The dog is becoming more generally used in warlike operations, especially in advance guard and field dispatch service, although it has been demonstrated that coolies are the only dogs which have been found really available for this work, and their number is limited and the selection confined to first-class animals.

Owing to the prevalence of cholera in certain districts, the naval review, fixed to take place at Dantzic in the middle of the present month, will be held at Swinemunde, and for the Koenigsberg festivities the gathering of crowds has been officially prohibited.

If Emperor William has not succeeded in completely reconciling Chancellor von Capri and Dr. Mi-quel, he has at least been able to effect a truce between them. This result is apparent in a published interview, in which the Chancellor is quoted as saying that Dr. Mi-quel must stay in office, as his task is only half done.

### Fatal Forest Fires.

CHICAGO, Sept. 1.—Forest fires, which have been sweeping over Northern Minnesota, Wisconsin and Michigan, wrought terrible havoc today, wiping out two towns in Minnesota and four in Wisconsin and inclosing others in circles of flames from which there is little hope of escape. Hinckley, Minn., a town of 1200 inhabitants, was entirely destroyed and fifty people are reported burned to death.

Mission Creek, Minn., was also destroyed. Bashaw, Wis., was wiped out, and a train was sent from Rice Lake to pick up its people, many of whom were overcome with the heat and smoke. At Barronett, a lumber town, 500 persons lost homes and everything. The depot is the only building left standing. A railroad train was sent to the rescue of the people. Marengo and Milaca are reported as burned up. In the former place 200 families are homeless, and in the latter several lives were lost.

The people of Fifield have buried their goods and abandoned their homes. Cartwright, Cadott and other towns are surrounded with fires, with the probability that some will not escape. There is a reign of terror in the stricken district. Thousands are fighting the flames and others have fled out of danger. Railroad bridges have been burned and trains abandoned.

The telegraph wires are down and communication with many points is cut off. Pineries have been destroyed and millions of feet of lumber have been consumed. The drought has left everything of an inflammable nature dry as tinder, and the high winds have scattered the sparks far and wide. It is inevitable that immense damage and greater loss of life will follow.

### Must Pay Duty.

WASHINGTON, Sept. 1.—The State Department has received no dispatch from Minister Taylor at Madrid confirming the telegram announcing that the Spanish Government had, by royal decree, abrogated the reciprocity arrangements with this country, by which special rates were accorded on American imports to Cuba

corps, it is added, share the general ignorance on the subject. The British Minister has requested that another gunboat be sent from Hongkong in view of the alarming rumors.

In high Siamese circles it is ascertained that the King is suffering from fever, the real cause of his ailment being indulgence in alcohol. There is small hope of recovery. The royal palace is crowded with nobilities, and for some reason unexpected, the Crown Prince is not allowed to see the King. The palace ladies, the letter says, are turning their wealth into diamonds, and the King having elevated his relatives to important posts in the kingdom, the duration of the dynasty is regarded as improbable.

#### Another World's Fair.

STOCKHOLM, Sept. 1.—The eleventh Americanist Congress will meet in September of next year in the City of Mexico. This will be an extra session, as no regular conventions are held outside of Europe. The Mexican government has promised the delegates free access to and use of its national museum, its library and all its collections.

W. W. Thomas Jr., the former American Minister to Sweden and Norway, has just completed a series of lectures. He will return to the United States on October 6th on the American line steamer Paris.

Preparations are already being made here for an industrial exposition of giant proportions, which will be held in Stockholm in 1897. Engineer Arthur Leffler, who made a good record as Sweden's Royal Commissioner at the World's Fair in Chicago, has been appointed one of the directors of the coming exposition.

Among the prominent Americans who are at present visiting the Swedish capital may be mentioned Bishop P. Newman of Omaha, who is attending the International Methodist Conference, now being held here, and who has been elected president of the convention.

#### Raced in Bloomers.

ST. LOUIS, Sept. 1.—At the Pastime Athletic Club here this afternoon the event of the day was the half-mile bicycle race for women. This was the first time ladies wearing bloomers have ever appeared on any bicycle track in this country. There was much curiosity as to how the contestants, who are all daughters of prominent citizens here, would be received. When they came upon the track they were heartily applauded.

Miss Field was the first one to come out of the dressing-room. She had on a pair of short, loose pants and a blouse shirt, while the others wore bloomers and knee-skirts. The Misses Field and Walden were scratch, and the Misses Vail and Spellbrink each had fifty yards handicap. Miss Walden won by ten lengths from Miss Field, who took the place by a length from Miss Vail. Time, 1:28. Miss Walden later made a record for the mile paced by E. E. Anderson and Tom Coburn. The time was 2:50.

#### Two Noted Ex-Governors Dead.

WALTHAM, Mass., Sept. 1.—General Nathaniel P. Banks died at his home here this morning. For nearly two years the General had brain trouble, but he was not seriously ill until two weeks ago. Early this summer he was taken to the home of his daughter, the wife of Rev. P. Sterling, Mount-Desert-Isle, Me. Three weeks ago his condition became more serious and he was brought to his home here. He grew worse and was taken to the McLean Asylum at Somerville. He succumbed rapidly.

IOWA CITY, Sept. 1.—Samuel J. Kirkwood, Iowa's war Governor, died this afternoon. Governor Kirkwood had been confined to his bed since Monday. He has been an invalid for a year past. He leaves a widow, but no children. Telegrams of condolence are coming in from prominent men of the State and nation.

#### Won by the Vigilant.

DARTMOUTH, Sept. 1.—The Vigilant and Satanita started this morning in a race for the Bay Club prize. The course is triangular from Dartmouth range southwest to a boat off Torcross, thence east to another mark boat, and back to the starting point, three times around, a distance of forty-two miles. The weather was hazy, with light northeast wind blowing at the start. Both yachts jibed across the line, the Vigilant at 10:30:10, the Satanita at 10:30:31.

#### The Count of Paris.

PARIS, Sept. 1.—The Duke of Orleans has written to the Count of Housenville from Stowe House, asking him to request that prayers be offered in the principal churches of France for the recovery of his father, the Count of Paris.

#### Negroes Lynched.

MEMPHIS (Tenn.), Sept. 1.—Six negroes, members of an organized gang of incendiaries, were lynched by a mob near Millington, Tenn., a small town on the Chesapeake and Ohio Southwestern Railroad, thirty miles north of Memphis, last night.

#### Disorder in Morocco.

TANGIER, Sept. 1.—Disorder and revolution are spreading in Central and Southern Morocco. The towns of Demnat and Zamza have been pillaged. The town of Zanla has been looted and two Jews brutally killed. The wives of some of the Cadis have been outraged and their families enslaved. The outlook is threatening, and serious complications are feared.

#### The Cholera.

BERLIN, Sept. 1.—The health authorities of Myslowitz, Prussian Silesia, report 100 new cases of cholera and eighteen deaths. The first case of cholera was reported in Stettin today.

The goldfields of British Guiana are yearly becoming more profitable. The United States Consul at Demerara reports that the yield, which in 1884 was valued at \$4900, increased in the fiscal year 1892-93 to \$3,360,000. Gold seems to abound in all parts of the interior, but the fields are difficult of development, owing to the dense undergrowth which renders the country inaccessible.—Iron Age.

#### A Hot Weather Wish.

Oh, for a lodge in a wilderness  
Of icebergs, ten miles high,  
And snow so deep that a man could sleep  
On top of it, next to the sky.

Oh, for a polar sea in town,  
Where a man could swim all day,  
And sleep at night in the moon's cold light  
On an ice floe in the bay.

Oh, for a sea of lemonade,  
Ice cold, which he might quaff.  
Oh, for a cold-cold-cold-wave flag;  
And the North Pole for a staff.  
—Detroit Free Press.

#### Cooking Water

One of the secrets of palatable food is knowing how to cook water. The secret is to put fresh filtered water into a clean kettle already warm, to let it boil quickly and to use it the instant it is boiled. To let it steam and simmer means to have a combination of lime, iron and dregs in the kettle and all the good water evaporated into air.

It is surprising that many housekeepers, otherwise neat and particular, seem to think that a kettle will stay clean without active measures on their part. The mere fact that nothing but water is boiled in it does not guarantee it against the need of scouring. It will soon become coated with a rusty-looking layer of saline, unless it receives the same care as other cooking utensils. Food cooked with water which is not properly boiled or which is boiled in a kettle coated with dregs has not the same flavor that properly cooked food has. Moreover, it is dangerous to health.

Hustace & Co. have a new red wagon; it will be used to deliver wood and coal, which they sell to families at very low rates.

After July 1 England will become predominant in the councils of the Suez canal, the mortgage on the 176,602 shares purchased from Khedive Ismail by England in 1875 for \$20,000,000 expiring.

Louisiana has the largest farm in the United States. It is 100 miles one way by 25 the other. The fencing alone cost \$50,000.

The United States wheat crop leads the world with 500,000,000 bushels.

**The ADVERTISER is delivered by carriers to any part of the city for 75 cents a month, in advance. Subscribe now and keep up with the new year. Ring up Telephone No. 88.**

### BY AUTHORITY.

#### Water Notice.

An engine will be at work at Thomas Square pumping into the mains from 5 to 10 o'clock A. M. and 4 to 8 o'clock P. M. until further notice, to supply water to the residents living on the slope of Punchbowl hill.

ANDREW BROWN,  
Superintendent of Honolulu Water Works.

Honolulu, H.I., September 14th, 1894.  
3891-tf

#### Notice to Voters.

The Board of Registration for the Island of Oahu will be in session at the old Legislative Hall, Judiciary Building, from 9 to 11 o'clock A. M. and from 4 to 6 o'clock P. M. every day, from MONDAY, August 27th, until further notice.

C. T. RODGERS,  
HENRY C. MEYERS,  
L. D. KELIPIO.  
Board of Registration, Island of Oahu.  
3773-tf

#### Board of Examiners.

The Board of Examiners for special rights of suffrage to be granted by the Minister of Interior in conformity with Article 17 of the Constitution, will be in session at the old Legislative Hall, Judiciary Building, from MONDAY, August 27 until further notice. Hours: 9 to 11 A. M. and 4 to 6 P. M.

EDWARD TOWSE,  
CARL BUSCHJAST,  
DAN LYONS.

#### Water Notice.

Owing to the drought and scarcity of water, the residents above Judd street are requested to collect what water they may require for household purposes before 8 o'clock A. M.

ANDREW BROWN,  
Superintendent Honolulu Water Works.  
Honolulu, H. I., July 20, 1894.  
3744-tf

#### Irrigation Notice.

Holders of water privileges, or those paying water rates, are hereby notified that the hours for irrigation purposes are from 7 to 8 o'clock A. M. and 5 to 6 o'clock P. M.

A. BROWN,  
Superintendent Honolulu Water Works.  
Approved:

J. A. King,  
Minister of the Interior.  
Honolulu, May 25, 1894. 3698-tf

Mortgagee's Foreclosure Sale  
of Chattels.

BY VIRTUE OF A CHATTEL mortgage, executed by M. R. Colburn, to John F. Colburn, dated the 28th day of July, A. D. 1893, and recorded in the Registry of Deeds in Honolulu, book 147, on pages 469 and 470, and upon which default has been made, to wit: non-payment of principal and interest, I will expose for sale and sell for cash at public auction (unless sooner disposed of at private sale as hereinunder provided) on TUESDAY, the 18th day of September, A. D. 1894, at 12 o'clock noon, at the premises on King street, in said Honolulu, occupied by the said M. R. Colburn's draying establishment and situate just west of the Reform School premises, the property covered by said mortgage consisting of 1 New Double Dray, 3 Double Drays, 3 Single Drays, 6 Dump Carts, 1 Dump Cart, 1 Lumber Wagon, 2 Sorrel Horses, 2 Stallions (bay and grey), 4 Large Bay Horses, 1 Buckskin Mare and 2 Colts, 1 Bay Horse, 1 Bay Mare and Colt, 4 Sets of Double Harness, 8 Sets of Single Harness, 6 Sets of Dump Cart Harness, 1 Set of Double Leading Harness, 8 Extra Collars, Extra Harness and Chains, Rope and Blocks, 1 Deteriorated Pulley and Chains, 1 New Harrow, Lumber and Safe Planks, Blocking and Rollers, 1 Heavy Jack Screw, 1 Safe, 1 Brake, 2 Sets Brake Harness, 2 Pairs Extra Shafts, 2 Extra Sets Whiffle Trees and Neck Yoke, Saddler's Horse and Tools, 1 Medicine Box and Book, Brushes, etc., 1½ dozen Hoes and Handles 1½ dozen Scoop Shovels, 4 Pitch Forks, 2 Pick Axes, 3 Feed Boxes, 2 Large Water Barrels, 2 Iron Tanks, Hose, Tubs, etc., and 1 extra Goose Neck and Stables and Fixtures.

The undersigned is authorized under said mortgage to dispose of the aforesaid property at private sale and will do so if he receives an advantageous offer therefor, prior to the date of said auction.

A complete schedule of the property and further terms of sale and other particulars can be obtained of W. A. Kinney, attorney for the undersigned, No. 318 Fort street, Honolulu, or at the public auction aforesaid.

JOHN F. COLBURN,  
Honolulu, August 28th, A. D. 1894.

The above sale is continued for one week to-wit: to September 25th, at the same hour and place.

## CORRESPONDENCE.

MR. EDITOR:—Will you kindly give space to the correction of an error which has received currency through recent notices in the daily press?

It appears that complaint has been made that there is no elementary class here for the study of Theosophy where admittance is gained "without favoritism." Now I am pleased to learn that a demand has arisen for a new class, and approve any effort to assist others in study. But the complaint of favoritism is based upon an erroneous idea that is sure to cause misunderstanding of the objects and methods of the Theosophical Society, and could only come from one unfamiliar with its workings; hence the need of explanation.

The chief object of the society is to form the nucleus of a universal brotherhood. This is to be achieved, not by the violent breaking down of social or intellectual distinctions, but by the promulgation of a philosophy which will gradually substitute altruism for selfishness in daily life. It is not inconsistent with the formation of limited classes for study. One such body I am personally conducting, and I have repeatedly expressed my willingness to meet with any similar classes which might be arranged for me. Moreover, I would be glad to meet any inquirers who desire to consult me regarding Theosophical matters.

The truth is that the class now meeting is not arranged for beginners, but is the revival of an old class which decided to pursue further study together. This they have an unquestionable right to do. Indeed, in no other manner could progress beyond the elementary stage be achieved, for an open meeting, admitting new members at every session, would necessitate a continual repetition of first principles. This is so obvious that one is surprised to find the limitation of a class construed as favoritism.

It is to be hoped that no further misunderstanding will be possible, but that all who wish an opportunity to learn more of theosophy will make their desire known. This (Tuesday) evening an open meeting will be held in the hall of Foster block when I will explain the fundamental teachings of theosophy. Questions relating to it or to any theosophical matters will then be answered. All are cordially invited to be present.

MERCIE M. THIRDS.

## Mr. Emmeluth Again.

MR. EDITOR:—The Superintendent of Public Works in this morning's issue of your paper gives the community his reasons for accepting a bid for pipe, only claiming thereby to save the taxpayers \$1751.14. Will he please inform the public what the lowest tenders on connections, pig lead and valves were, and the prices at which he has let contracts for these various supplies? The public can then judge for themselves of the business acumen and astute financing methods by which the Public Works department saves at the spigot while the bung hole has full vent.

Mr. Rowell's communication avoids the matter at issue. We claim that only tenders for the full amount of supplies under each section should have been entertained. Messrs. MacNeale and Urban or any other firm that had pipe to sell could have joined with others who would have tendered for the remaining supplies under the head of pipe and fittings.

We drew our price from three sources, had a special rate of freight quoted us for the lot and for this reason could not entertain the proposition to supply any one line of goods forming part of our bid if we wanted to. Others no doubt were in the same dilemma, hence the fact that while Mr. Rowell will save a little on the pipe, he has to make up largely for this by the higher prices paid for the other material.

Strict adherence to business practice would have entailed no loss to the Government, while it would have commended the Government to the many firms at home and abroad who have tendered on these supplies.

There is not an honest man doing an honest business today but will quietly accept defeat in bidding on anything so long as like conditions are imposed on all bidders.

Let the Government adopt plain business rules and quit the slyster methods of the past, or it will take no oracle to foretell another Waterloo such as the Thurston Administration met in 1890.

JOHN EMMELUTH.  
Honolulu, Sept. 17, 1894.

## A TERRIBLE DEATH.

## A Child Left Alone in a House With Fatal Results.

Deputy Marshal Brown has investigated the death of a native infant that was burned to death on Saturday night at the house of some natives living on Wylie street. It seems that a native named Hoopal and a woman named Kapika lived together. The latter had a child by her husband who is now dead. The man and woman had been drinking heavily and about midnight they left the house to get some swipes, and when they returned the child was found in a terrible condition; all its clothes had been burned and its body was literally cooked. The infant lived until about daybreak. The child's clothes had caught fire from a lamp that had been left burning on the floor in the center of the room.

## Holomua Talk.

We have constantly and persistently counselled the Hawaiians to make up their minds to the fact that the destiny of their country is in their own hands, and that they must not look for foreign help if they really desire to run their own Government.

Two methods seemed feasible in this emergency. One was to fight, and the other was to register and vote. It is fully left to the Hawaiians to decide which of the two measures they will adopt. We have got no preference in the matter, because we believe that the Hawaiians will come out victorious in both instances.

If the Hawaiians had made up their minds to go to the polls, we believe that they would have been able to control the next Legislature. If they concluded that fighting was the best, we feel assured that the 11,000 could sweep the 2000 into the sea, as Mr. Gresham pleasantly suggested to certain Hawaiians a short while ago. We are inclined to believe that the strength of the royalists is to be found in politics and political intrigue. The reform party had everything its own way in 1887. In 1890 they were taught a lesson. They have everything their own way today. A month from now the ballots might have told a different tale. However, the people have made up their minds not to enter into the political arena. Time will show if they are correct. In the meantime, we presume that they have decided to use the other alternative, and we have no doubt that they will be equally successful in that enterprise.—[From the Holomua, September 14.]

## Auctions in France.

The French mode of conducting auctions is rather curious. In sales of importance the affair is placed in the hands of a notary, who for the time being becomes an auctioneer. The auctioneer is provided with a number of small wax tapers, each capable of burning about five minutes. As soon as a bid is made one of these tapers is placed in full view of all interested parties and lighted. If, before it expires, another bid is offered, it is immediately extinguished and a fresh taper placed in its stead, and so on until one flickers and dies out of itself, when the last bid becomes irrevocable. This simple plan prevents all contention among rival bidders and affords a reasonable time for reflection before making a higher offer than the one preceding. By this means, too, the auctioneer is prevented from exercising undue influence upon the bidders or hastily accepting the bid of a favorite.—[Jewelers' Circular.]

## HAWAIIAN HOP BEER.

The great cooling, health preserving, generous drink of the Islands, recommended by the medical profession. The late Lord Tennyson (Port Laureate) of England in "unpublished poems" thus pathetically and charmingly refers to Hop Beer, which His Lordship in preference to the port wine allowed his office from the Royal Table of Queen Victoria:

## HOP BEER.

The poet he'll sing of babbling brooks,  
And sparkling water clear;  
The lady fair will sip champagne,  
But give me good Hop Beer!  
The Dutchman loves his Lager,  
In it he has no fear;  
The Englishman will quaff his bass,  
But give me good Hop Beer!  
The American his whiskey straight,  
Will drink and not feel queer;  
The Irishman his Potteen loves,  
But give me good Hop Beer!  
The Scotchman revels in hot Scotch,  
His "mountain dew" so dear;  
The Hawaiian was content with swipes,  
Till he tried good Hop Beer!  
Then ring up Mutual 318,  
And then you need not fear;  
Your orders will be promptly met,  
With the only temperance Beer!

Head offices and stores: Hotel street, near Bethel. Delivered daily by our carts to any address in Honolulu, pints 50, quarts 80 per dozen. Mutual Telephone 318.

## POSITIVELY THE BIGGEST BARGAIN EVER OFFERED IN SILK!

## Homes at Pearl City!

## THE OAHU RAILWAY &amp; LAND CO.

Offer the Public Another Great Opportunity to Secure Homes in One of the Most Delightful Localities to be Found in the Paradise of the Pacific.

As a healthy resort—Pearl City has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

## The Water Supply is Ample.

And can be increased to meet the needs of a population equal to the largest city in the world.

Prof. A. B. LYONS of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

## SPECIAL INDUCEMENTS TO EARLY SETTLERS!

For ninety days from date we will sell lots on SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower prices than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to encourage this opportunity, those who avail themselves of this offer, within the time named, will be entitled to, and will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning (leaving a little before seven o'clock), and from Honolulu to Pearl City in the evening (leaving Honolulu station a little after five o'clock), for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 1 1/2 cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City will be allowed to ride free on regular trains between Pearl City stations to and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school at five cents each way for each pupil. This is equal to 24 to 26 miles ride for ten cents.

Equal inducements for those desiring to secure homes in this country have never before been offered to the public.

This Company has been requested from abroad to name the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

"A word to the wise is sufficient."

## SOMETHING MORE

## ABOUT SODA WATER.

The First Requisite in Making Soda Water is  
Pure Water.

HOLLISTER & COMPANY'S FACTORY was the only one in Honolulu that made use of the most improved method of purification—the Hyatt System—that removes all animal and vegetable matter, even microbes, and this is the kind of water we use in our Factory for our customers.

## As for the Gas,

it is immaterial whether it is obtained from chalk, marble, whiting, marl or bi-carbonate of soda, the gas will be identical in either case.

Bi-carbonate of soda has been used exclusively by HOLLISTER & COMPANY for over 26 years, and the TAMI LEMONADE WORKS since its foundation, because

## It is Cheaper

than any of the other sources, and easier to handle. But the gas must be cleansed before mixing with the water.

In generating the gas, the material is sometimes carried over with the gas and must be thoroughly eliminated. Most Soda Water manufacturers are satisfied by running the gas through one purifier. We are not. We run it through three. In using any one of the lime carbonates it would do no harm to any one if some did slop over as they are all insoluble and can be seen in the glass; but with bi-carbonate of soda it is different, because the bi-carbonate is converted into sulphate of soda (Glauber Salts) a very good horse medicine, but not very agreeable to have in a glass of Soda, and which is soluble and therefore cannot be detected by the eye.

We do not dispense Soda Water ourselves, but furnish the pure Soda Water to every fountain in Honolulu but one, and we guarantee the Soda Water to be pure.

Each dispenser of soda will use the kind of syrup that suits his trade, but this has nothing to do with the purity and wholesomeness of Soda Water.

W. N. ARMSTRONG, : : EDITOR.

TUESDAY, : SEPTEMBER 18, 1894.

We furnish, in another column, an extract from the Holomua, which serves as a straw to show the way of the wind. That paper is quite indifferent as to the course the natives should take—"fight or vote." Having recommended them to do one thing or the other, it very properly, wisely, and fearlessly awaits the decision of the people.

MR. ROWELL asks us to correct a typographical error made by us, in printing his letter which appeared in our issue of yesterday. In giving the bids for pipe, etc., for the water plant, the bid of the McNeal Pipe Foundry Company, to whom the contract was awarded, was placed at \$28,892.62, when it should have been \$21,892.62. Through this error the bid, which was the lowest, appears to be the highest.

In completing the new market, the Government should consider the advantages of building tanks, in which fish may be kept alive, until sold. Fish are now, and will be, the best food for the people, and the best methods should be taken to put them into the market. Travellers note the excellent marble tanks, in the fish market of Paris, in which the fish are kept alive, until sold. Although brought from points far distant from the city, in cars, carrying large tanks filled with sea water, their market value is very moderate. The proximity of our market to the salt water, will make the arrangement inexpensive. At present the fish are not brought in alive, but the fishermen can be educated into the ways of keeping them alive until transferred to the tanks.

## OVERCROWDING THE STUDY OF CHILDREN.

Earnest protests are made, in the older States, by intelligent students of educational methods, against the crowding of studies upon children. W. T. Harris, the Superintendent of Education, under the Federal Government, believes, that it is doing great injury, in many ways. Few parents are fitted, either by education, or study, to determine the needs of their children. At the same time, most parents arbitrarily select the studies to be followed. The competition among schools, and colleges, also, leads to the overcrowding of studies. The physical basis of life is greatly neglected, and the standing of the child, in the various branches of study, is looked upon as the chief end of education.

Only within a few years have the intelligent classes in civilized communities begun to realize the supreme importance and value of educational methods, and there is everything yet to learn. The office of the teacher of the young should be the first in every community. It should rank above that of statesman, preacher, merchant and soldier, and it should receive the highest remuneration given for any service rendered by man to his fellow man. It transcends all other occupations, in its far reaching results. It is not strange that we are only at the "cock-crowing" of civilization, when the office of teacher, in the estimate of the average citizen, is rated in value as something like that of butcher, or car driver, or cow boy. The stockholders of a corporation will give its president \$10,000 a year, because he makes money for them. The same stockholders will begrudge \$1500 a year to the teacher in whose hands the destiny of their children is placed. Therefore the development of educational methods move slowly, and among the evils which attend it, is the sacrifice of the physical and intellectual life of many children, by over study, and against the protest of many wise teachers.

## THE EX-QUEEN.

Accounts regarding the daily life of the ex-queen, agree in the main, that she lives quietly, and is in good health, with the exception of some temporary disease of the eyes. She still firmly believes in a restoration, and refuses to take, so far as we can learn, the advice of some of the most intelligent of her old friends, who recommend her to accept the situation. These, it is said, represent her to be extremely obstinate in her views.

There is nothing to be lost, and indeed, something to be gained by taking the most charitable view of her condition, and the outlook from it. She cannot be blamed for want of political knowledge after she ascended the throne. She was a Polynesian who dealt with the strong and intelligent Anglo Saxon race. Her heredity carried her away from this race, and not to it. In her downfall, she only repeated the mistakes of others, placed in the same condition. We recall the instance of Louis Phillip's fall. He believed, and was advised by his Minister Polignac, that the people were behind him and supported him, only the day before he was dethroned, and fled, in 1848. The ex-queen is now in a most embarrassing position. The largest number of her active supporters are those who, formerly, lived on the royal revenues, and who expect, through restoration, to get a living. These will bitterly resent any acceptance by her of the political situation. They have much at stake, and, it is said, have threatened her with personal violence, if she accepts. These supporters are not very numerous, but are active, and now excite the natives by sending out wild rumors.

Some of the conservative friends of the ex-queen are disposed to urge her to acknowledge the Republic. This she, naturally, hesitates to do, just so long as there is the slightest hope of restoration. That she "hopes against hope" is, of course, to be expected, and she should not be severely blamed for it.

Some of the strongest supporters of the Republic desire that she should make a settlement with the Government, by which she would receive a liberal pension. But she has intimated no desire to do so, so far as we can learn, and will probably not do so, until she fully and finally realizes that her cause is lost. This is unfortunate, so far as her own interests are concerned, because any irritation now existing in political matters is attributed to her influence, and maintains an unfriendly feeling towards her.

## Forfeited Her Rights.

A resolution has been offered in Congress and will doubtless be passed by both Houses, congratulating the new Republic of Hawaii on its establishment. This will not need to be signed by the President. The President, however, has done well in refusing to see the four members of the Royal Hawaiian Commission who came here to secure redress for the ex-queen and prevent the recognition of the new Republic. President Cleveland holds that when Liliuokalani insisted upon beheading the leaders of the Provisional Government, and refused the conditions required by President Cleveland, she forfeited all further rights to his notice. We should think as much.—N. Y. Independent.

## Auction Sales.

James F. Morgan.

## AUCTION SALE OF SUGAR STOCK

IN ACCORDANCE WITH INSTRUCTIONS received from the officers of Kahuku Plantation Company, I shall offer for sale at Public Auction, at my sales-room, on

Saturday, September 22 1894, at 12 o'clock noon, enough of the following paid up shares of stock in Kahuku Plantation Company to cover delinquent assessments now due on same:

- 25 shares of stock Kahuku Plantation Company or less.
- 20 shares of stock Kahuku Plantation Company or less.
- 10 shares of stock Kahuku Plantation Company or less.
- 5 shares of stock Kahuku Plantation Company or less.

JAMES F. MORGAN, Auctioneer.

September 18, 1894.

If the wet season has begun and will continue until about the time it usually ends the result will be marvelously beneficial to the sugar planters. Last year in Hamakua there was but six inches of rain in six months; this year it starts in a little better. The ground has been dampened and the prospects a few days ago were favorable. If there is one section of the country that needs rain Hamakua is the one. There are some fine plantations in the district and in the days when the conditions were favorable and the rainfall all that could be desired they paid their owners handsomely. Nowadays the rain comes from the Northeast, salutes the landsman and then goes on to Hilo.

Forests are known to attract the rain clouds and Hamakua was once blessed with an abundance of trees. A few years ago the people began cutting down the timber and before they were stopped there was scarcely enough left to supply lumber for a cabin. The suffering through this falls not alone upon the plantation: the residents in the villages must go with a short supply for toilet purposes and their clothing has to be sent to Honolulu to be laundered. We remember that less than a year ago the fortunate owner of a well was dispensing the water at five cents a gallon.

Honokaa is a nice little place and the residents are progressive enough to be up with the times; they want water but they have not yet hit upon a plan for getting it. We have canvassed the situation quite thoroughly and know that the water from the spring at the gulch near the landing can be forced to the village by simply using a series of Aermotors. These would not only pump as great a supply as a steam engine but it would do it at a very little cost either for the plant in the beginning or in maintaining it afterward. The Aermotor consumes no fuel, just a little free air and the water flows like water. The 16 foot Aermotor, either pumping or geared is in use in several public and private institutions, as well as on plantations and it has always given satisfaction. The only power used by the Water Works Co., of Waimea, Kauai, is a 16 foot Aermotor. The promoters of the scheme have no trouble in collecting their water rates because they give the consumers an abundance of water. There are plenty of villages on the islands that could be supplied in the same way and as long as the well or stream lasted there would be no danger of running short. We don't get the statements we make regarding the wonderful possibilities of the Aermotor from our imagination; we have demonstrated in many different places that the galvanized Steel Aermotor will do all that is advertised for it and more than can be done by any wooden mill of larger diameter. The Steel Aermotor has other advantages over wooden mills; being lighter it will run in less wind; being constructed of galvanized steel it will not rot away and cause the bolts to drop out. The Aermotor is galvanized after it is put together so that there is no part unprotected.

Another advantage is in the fact that we have every size Aermotor and pump in stock and we can deliver them on thirty minutes notice. Can you get these advantages with other windmills.

FORT STREET, HONOLULU.

## "If It's Hires' It's Good."

When folks drink more Hires' Rootbeer than all other rootbeers combined, there must be something in Hires', and there is—delicious flavor and public confidence.

Undoubtedly the reason of the popularity of Hires' Rootbeer is, because it surpasses all other preparations for making a delightful home-beverage. It is very easily prepared, and if the plain directions are followed, it will always be good. Every member of the family, from the baby to the grandfather, can enjoy this excellent summer drink. Children especially delight in Hires' Rootbeer. Its preparation interests them, and its use does them good. In thousands of homes, "Hires' Rootbeer that mother made," will be among the happiest recollections of childhood.

What others say will carry conviction:

A DOCTOR IS SURPRISED WITH THE RESULTS.

"About three months ago I bought a package of your Rootbeer, and after making it according to directions, I found it a very delicious beverage. Not only this, but I was so much pleased with it that I gave it to some of my patients, and was much surprised with the result. I have now used about 12 dozen. Dr. M. A. Somers, Plano, Ill."

SAYS ITS GOOD FOR DYSPEPSIA.

"I find great relief in drinking your Rootbeer, as I have been troubled with dyspepsia, and should feel very sorry if I could not keep myself supplied with it. I drink it when it is fermented. R. F. Scott, 2519 Meredith st., Philadelphia."

NEVER FOUND ITS EQUAL.

"I have used your Rootbeer for seven years, and have found it a superior article. I have sampled other rootbeer, but have never found any to equal Hires'. I have so much faith in it that I have persuaded ten different families to use it. Mrs. R. Stevenson, 1027 Lincoln Ave., Chicago."

This is typical weather for rootbeer drinking. Drink all the other beverages and you will die of disappointment if you don't try Hires'.

Just sample some once when rightly made, and we know the result—you will endorse Hires'.

It is doing more to advance practical temperance than many people realize. It is used and recommended by the most cautious and conservative temperance people. The most scrupulous abstainer can enjoy it and recommend it to others as an agreeable and healthful substitute for the strong drink which he opposes.

Storekeepers will find Hires' the only Rootbeer extract that has a gold seal and can be recommended to their patrons. We give elegant pictorial advertising matter with each order. Liberal discount to the trade.

## A CHILD'S IDEA.

He stood beside my knee the while I turned  
The pictured pages of the holy book.  
Scold in the wisdom of his three brief years—  
True wisdom—that which ever seeks to know.  
And now his eyes are wide with wondering  
A ladder set from earth to heaven! Where  
fore?  
The small brow knit, then came conclusion  
swift.  
"I see: so angels carry up the gold  
For God to make the harps of." Smiling, I  
Dismissed the childish fancy with a kiss.  
But pondering, as I ponder ever now  
On all his words, there grows the meaning as  
In darkness grows the star. The harp, in  
deed,  
In heaven are fashioned, but the withdrawal  
Is delved from earth's dark breast with toil  
and pain.  
Cleansed—tempered—it may be with bitter  
tears—  
Laid at the ladder's foot, our part is done.  
So shall the harp be ready, be attuned  
For symphonies divine—oh, wise, sweet soul!  
—Emily Jewett Royal in Washington Post.

## DISCOMFORTS OF ACTING.

Lack of Accommodations In the Green-  
room and Behind the Scenes.

The janitor has an important bearing on the actor's condition, which finds its expression in his playing and possibly on his nervous organization. He supplies the house and in most cases furnishes quarters for the actors such as no self-respecting slave owner would in the old days have condemned a slave to occupy.

For the public nothing is too good. For the actor, on the other hand, anything is good enough. Instead of silken draperies, he finds only a tattered curtain at the window, if indeed he find a curtain at all, or even a window which it might cover. Instead of soft, comfortable chairs, one wooden chair none too clean, or a chair minus a back, will be the only seat, and not infrequently, if he wishes to sit down, he must do so on his trunk. Instead of delicately tinted walls, he will find dirty walls which have not been treated even to a coat of whitewash for years. While in the auditorium a soft carpet covers the floor, in the actor's room a carpet rarely exists, or, if by chance there be something which once was a carpet, it is so dirty that it would be better away.

The washing appliances of the actor's room, if they are found at all, usually consist of a small basin with a tap of running water. Most people would expect that, as the winter is the theatrical season and the paints used by the actors are made with grease, hot water would be at hand. But this is rarely the case, and in many instances running water in the dressing rooms is unknown. It is not uncommon for actors to refrain from using the basins, preferring to remove the "makeup" as well as possible with vaseline and to wait until the hotel is reached to complete this portion of the toilet. Tin basins and buckets are not the worst that I have seen "on the road," for once the water was in dirty, battered, old lard tins, and basins had to be bought by our manager.—Forum.

## Pigg's Pig.

The following is a true copy of an indictment found a few years since by the grand jury of Lawrence county, Ky.: "Lawrence criminal court. Commonwealth of Kentucky against —, defendant. Indictment. The grand jury of Lawrence county, in the name and by the authority of the commonwealth of Kentucky, accuse — of the offense of malicious mischief, committed as follows: The said —, on the — day of —, A. D. 18—, in the county and circuit aforesaid, did unlawfully, willfully and maliciously kill and destroy one pig, the personal property of George Pigg, without the consent of said Pigg, the said pig being of value to the aforesaid George Pigg. The pig thus killed weighed about 25 pounds and was a mate to some other pigs that were owned by said George Pigg, which left George Pigg a pig less than he (said George Pigg) had of pigs, and thus ruthlessly tore said pig from the society of George Pigg's other pigs against the peace and dignity of the commonwealth of Kentucky."—Green Bag.

## Didn't Want to Be Shielded.

He took her hand gently in his. They were affianced, and there was no kick coming on the score of conventionality.  
"I will always," he murmured, "be at hand to shield thee in the great struggle of life."  
She gazed earnestly into his loving eyes.  
"No!"  
She seemed not to be aware that he started violently upon the word.  
—"I must insist upon going to bargain sales alone. You would only be in the way."  
Even as she spoke her face kindled with the excitement of the fray.—Detroit Tribune.

## The Retort Ceriat.

"Since you take me to task so roundly for my failings," said the physician, somewhat nettled, "let me ask why you don't restrain your own son. He gambles, drinks and plays the races."  
"Ah, yes," said the clergyman, with a sigh. "We don't seem to exert much influence over our own families, do we? By the way, doctor, please convey my warmest sympathies to your wife and say to her I am sorry she is still unable to find any relief from her rheumatism."—Chicago Tribune.

## A Time Saver.

It is the fashion now for ladies' maids to keep diaries two or three weeks ahead of their mistresses' probable engagements, putting the name of the dress against the day. The lady looks at the list at the beginning of each week, and if she does not approve of the gowns to be worn she alters it. It saves a great deal of flurry at the time of dressing.

## Perhaps a Slip of the Pen.

### Ladies' Column.

"Where'er I take my walks abroad  
how many poor I see."

Dr. Watts was the author of many hymns, but the learned and revered versifier was never in truer tune than when he wrote the lines we quote. He saw the class he described, just as they are seen now, and many of the causes which in those days created poor people, operates in exactly the same manner today—the greatest cause was undoubtedly INJUDICIOUS BUYING, mad waste of money in pursuit of the will o' the wisp of trade, neglect of opportunities, not taking advantage of a QUICK SALES and SMALL PROFIT system. Goods sold on that basis mean a positive saving to you. There is no denying this, and no one ever was made poor by economy.

We hardly know when to commence when it gets to mentioning goods.—Our stock is so full of new goods. Our White Linen and White and Colored Cotton Ducks are well worth mention.

We also have some lovely patterns of Cotton Crepes in Morning and Evening Shades. These Crepes are new goods and will please you.

Also a full line of Furniture Covering. We want you to look at them, SILK PORTIERES, CHENILLE PORTIERES, and as for RUGS we have almost any kind you want.

Next week WOOLEN GOODS will be heard from.

PATENTED UNDER THE LAWS OF  
THE HAWAIIAN ISLANDS.

The attention of Planters  
and Agents is called to the  
following letter from Mr.  
JOHN A. SCOTT, Manager of  
the Hilo Sugar Co., regarding  
the working of the National  
Cane Shredder, which he has  
just introduced into the Mill  
of that Company:

WAINAKU, HILO, HAWAII,

January 22d, 1894.

HON. WM. G. IRWIN, HONOLULU, H. I.  
DEAR SIR:—In reply to yours of the  
16th inst. regarding the National Cane  
Shredder furnished by the Universal  
Mill Co. of New York, and erected by  
the Hilo Sugar Co. this past season,

I would beg to say, that it has now been  
in operation day and night during the past  
three weeks working on plant cane, and  
also hard ratoons, and it is giving me the  
greatest satisfaction. The more I see of  
its capabilities, the better pleased I am  
that I put it in, as I am satisfied that it  
will repay the original outlay in a short  
time, in saving of labor, higher extrac-  
tion, etc.

It is shredding from 350 to 400 tons of  
cane every 22 hours with the greatest  
ease, and it could shred a much larger  
quantity if necessary. It delivers the  
shredded cane in an even uniform feed  
to the three roller mill, which receives it  
without the intervention of any labor,  
and as the cane is thoroughly shredded  
or disintegrated it relieves the mill of a  
great deal of strain, thus reducing the  
liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily  
on the mill, as only one man is required  
to regulate the amount of cane delivered  
by the carrier to the shredder. It has  
increased the extraction from 4 to  
5 per cent.

The economical use of steam is gener-  
ally a serious consideration in adding  
new machinery, as in most mills the  
boiler power is taxed to its highest limit,  
as it was in this mill, and any increased  
demand necessitated an additional boiler.  
But I find that the shredder delivered me  
three roll mill engines combined use no  
more steam than the three roll mill  
engine did when working on whole cane,  
while doing better work and more of it,  
and owing to the uniform feed on the  
mill, the engine demands very little  
attention.

The Messrs from the shredded cane  
makes superior fuel, and the fire, as  
have less difficulty in maintaining a uni-  
form pressure of steam than formerly.

I will be pleased to have a call from  
parties interested, as it is necessary to  
see the machine at work to fully appre-  
ciate its capabilities.

I remain, very truly yours,

(Sig.) JOHN A. SCOTT,

Manager Hilo Sugar Co.

Plans for erection of  
these shredders may be seen  
at the office of the Agents,  
where prices and other parti-  
culars may also be obtained.

## CHICKEN AND HONEY.

A FORAGING EXPEDITION OF ONE MAN IN THE WINTER OF 1863.

Lang knew the country and also human nature, for his little bluff worked. Uncle Joe, who was "Cap'n" then, liked his chicken and honey.

"It was a wretched night back in 1863," said Uncle Joe.

Uncle Joe's stories of the war were things to be looked forward to and remembered. He had served during the entire four years as a commissioned officer and knew whereof he spoke, having an excellent memory and an inimitably humorous way of telling the adventures of himself and his men.

"It was in Missouri in the winter of 1863 on a cold raw night that I, the officer of the day, prepared about midnight to make, with half a dozen of the guard, what is called the 'grand round,' or, more plainly speaking, the visiting of the soldiers doing picket duty at their different posts. We were on short rations, and every man of us, officer or private, longed for a good, square meal to brace him up against the raw, damp coldness of the night. As I was about to spring into my saddle a low voice at my shoulder said:

"Cap'n, how would a supper of chicken and honey taste?"

"I swung hastily around and beheld the speaker. He was a fellow called Lang, one of our most valuable spies, and in some respects a mighty clever fellow, but in—oh, well, I'll let it go by saying that his moral nature had never been overdeveloped. He was a short, thickset man, with twinkling black eyes and otherwise the most thoroughly impressive face I ever looked into. It was said of him that he would slip into the butternut suit of the rebel and make himself much at home in Lee's army. He was half fellow well met with all the men and came back to the Union lines possessed of the most invaluable information. He had experienced thrilling adventures and was a man of intrepid courage.

"Cap'n," he repeated as he stood beside me that cold night, "how would a supper of chicken and honey taste?"

"Excellent, Lang, excellent," I replied, thinking of our limited supply of smoked meat and hard tack. "Have you some?"

"No, but I might get some, I reckon, if I looked round a bit," he drawled, lazily kicking up clay with the toe of his boot. I saw immediately that he meant to go out of camp, find a farmhouse and help himself. Such things are not unheard of in the army.

"Nonsense, Lang," said I. "You would be killed sure if you went. The pickets are on extra sharp lookout to-night, and it's altogether too dangerous. You would never come back alive."

"With that I sprang into my saddle and rode away, followed by my men.

"We were gone two or three hours, making the rounds of the pickets, and a more miserable ride I had seldom taken. I was chilled to the bone and hungry and my men likewise. As I rode back toward camp the glow of a bonfire in a remote corner caught my eye, and I immediately turned my weary horse toward it. Before the crackling heap sat Lang, calmly frying chicken, while at his side reposed a hive of honey. He looked up and smiled grimly.

"Supper's most ready, cap'n," he said, touching his apology for a cap. "Make yourselves to home, gentlemen."

"Lang," said I sternly, "didn't I tell you not to go?"

"No, cap'n," he replied as he continued to cut up the plump fowl in his hand; "you didn't say I couldn't go, although, if I remember correctly, you didn't exactly advise it. On the score of its being dangerous, but a man what's led the life I have ain't going to let a little thing like that stop him when he's hungry," and he held toward me the plump leg of a chicken nicely browned.

"Lang," said I, "tell me how you did it."

"No very great matter," he replied, proceeding with his culinary art. "When you'd gone, I walks along quiet to the outpost and finds a picket walkin' up and down like he owned the earth, so I flops down on my stomach alongside a fence. Bein a dark night, as it is, Mr. Picket comes along and don't suspect that fence so of much as harborin a mouse. Minute he gets half a rod away over that fence I goes lightin' like and takes a scoot into some woods close by and then goes about my business."

"Go on," said I, with my mouth full of chicken and honey.

"Lang continued: 'You see, I know this country mighty well, so I makes tracks for a farmhouse close by where they keeps plenty of chickens. When I opens the gate to go in, along comes a dog. Well, cap'n, that's the only dog I ever met with that I couldn't either scare or make friends with. No, sir, that dog wouldn't take no stock in bluffs, so I whips out my revolver and lays him out. At that up goes a window, and a man begins to yell to find out who's there. 'Put your head inside that window and keep it there, or I'll knock it off for you,' says I. 'Now Jim,' I continues, 'you just watch that window, and if the fellow sticks his head out don't wait to be ceremonious-like, but just fire. I'm going to get some chicken and honey.' Course there wasn't no Jim along, but that fellow in the house had to be kept out of the way; so, being a dark night, I just bluffed him about there being more than just me around. You bet he keeps his head inside, and I goes to the chicken house and helps myself to some plump young coddgers, and takin a beehive on the other shoulder makes tracks for the camp the way I come."

"Have a piece of the breast, cap'n. That's done particular brown, the way you like it."—Chicago Post.

It is said that 200,000 books have been written about the Bible.

A California prune orchard covers 3300 acres.

## WHAT A CANNON BALL CAN DO.

Chance Shots in the Chilean War That Went Through Ironclads.

In dwelling upon the wonderful power of the guns of the Indiana, Albert Franklin Matthews, in an article on "The Evolution of a Battleship" in The Century, gives illustrations from the recent Chilean civil war, showing the effectiveness of the smaller sizes of breechloading rifle guns.

A shot weighing 250 pounds from an 8 inch gun of Fort Valdivia in Valparaiso harbor struck the cruiser Blanco Encalada above the armor belt, passed through the thin steel plate on the side, went through the captain's cabin, took the pillow from under his head, dropped his head on the mattress with a thump, but without injuring a hair, passed through the open door into the mess-room, where it struck the floor and then glanced to the ceiling. Then it went through a wooden bulkhead an inch thick into a room 25 by 42 feet, where 40 men were sleeping in hammocks. It killed six of them outright and wounded six others, three of whom died, after which it passed through a steel bulkhead 5 inches thick and ended its course by striking a battery outside, in which it made a dent nearly two inches deep. It was filled with sand. Had it released deadly gases no one knows what damage it might have done.

A 450 pound missile from a 10 inch gun in the same fort struck the same vessel on its 8 inch armor. It hit square on a bolt. The shell did not pierce the armor, but burst outside the vessel. It drove the bolt clear through, and in its flight the bolt struck an 8 inch gun, completely disabling it. Such is the power of the smaller sized guns.

## LONDON'S WATER SUPPLY.

Economy in Its Use as Compared With American Experiences.

In London, the largest city in the world, the water is furnished by companies and is charged for by the quantity. No one has a free faucet or can afford to waste his water. Every family bargains for as many gallons per diem as it needs, and this amount is placed in tanks. Then the water is shut off. If the family uses it up by noon, it gets no more until the next day unless it can borrow of its neighbor. There is no waste. The water is all measured and paid for. With three times our population London does not use one-third as much water as Chicago does, simply because the water is not wasted.

In Chicago the city furnishes the water, and every one is free to do with it what he pleases, and the result is anarchy in water. The man on the third story has no rights the man on the second is bound to respect, and the man on the first floor cheats both of them by running water via the sewers into the river and lake. So long as there is disregard of human rights by human hogs this waste will continue, and those on the upper stories will suffer because those on lower stories are running water all day to cool their rooms or to flood their lawns—in other words, are letting millions of gallons run into the sewers without being used at all.—Chicago Tribune.

## Beginning to See the Point.

"What have you to say to this charge of assaulting Michael Rafferty?" asked the judge.

"Oi licked 'im," replied Mr. Dolan, looking the court in the eye. "An wid no disrespect to anybody, it's hopin Oi am that Oi done it good."

"Was there any provocation?"

"They wor that same."

"What was it?"

"Oi have a goat, yer anner—a foine animal too. 'Does yer goat give milk?' says Rafferty to me. 'It does,' says Oi. 'Thin,' says he, 'it's buttermilk.' 'It's as swate an foine as any ye ever saw,' says Oi. 'Certainly, but it is butter-milk,' says he, an thin we came together. Though Oi must say, yer anner, that when Oi come to repate it over a few times an consider the nature av the goat Oi'm compelled to say Oi wor a bit hashty. Bedad, if the court'll give me lave, Oi'll 'pologize to Rafferty, so Oi will."—Washington Star.

## "The Paradise of Tips."

"The paradise of tips," as we are told by a writer in The Kleine Zeitung, is Carlsbad. His estimate is that not less than a million marks must be paid during the season in the questionable shape of "voluntary" gifts or gratuities to waiters and others, which do not appear in any bill. Everybody who does you any service in Carlsbad looks for his or her "trinkgeld" before you depart. The waiter gets upon an average from 6 to 10 florins (12 shillings to £1). The maid who serves you with water at the Brunnen expects and mostly receives 3 florins, the postman gets a florin, and there are various other male and female benefactors to whom you pay what you please.

## A Valuable Play Toy.

Miss Olive Schreiner recently told the following story: She and her brothers and sisters had as one of their playthings a bright stone that they called the candle stone. It was about the size of a walnut and would flash in a bright and singular way when held to the light. Not until she had quite grown up and the candle stone had been lost for years did any of them realize that it was a diamond of doubtless immense value. The Kimberley mines were in the unknown future, but this stone had perhaps been washed down by some torrent or brought by other chance from that region.

## Pulverized Diamond a Painless Poison.

According to the Mohammedans of southern India, pulverized diamond is the least painful, the most active and the most certain of all poisons. According to "Wilke's History," the powder of diamonds is kept on hand by the wealthy, presumably as a last resource. But a belief in the poisonous character of the diamond also existed in Italy in the sixteenth century.—Chicago Times.

FORT STREET.

Electric Lights for 21 Cts. a Month.

Honolulu uses the electric current for lighting purposes more generally than do most American cities of its population. The reasons are found partially in the climate conditions which urge the adoption of a light unaccompanied by heat or an offensive odor. Furthermore, no gas company has found our city an inviting field for investment chiefly because of its scattered condition and the consequent large cost of reaching consumers; and electricity has thus met no competitor except the original oil lamp and the tallow candle. A third cause we believe to be largely the fact that when electric lighting was first introduced by the Government, it was offered to consumers on a basis of rates, which in many cases of commercial lighting and especially for night lighting, considerably discounted the cost of oil for the same amount of illumination. The demand thus created soon reached the limit of that Government supply.

Today the Hawaiian Electric Company possesses working capacity equal to more than three times the present combined incandescent output of the Government service together with our own. We offer lighting at the Government flat rates as follows:

Stores and offices per 16 c. p. light per month \$1.00  
Residences per 16 c. p. light per month—45 lights 90cts.  
Residences per 16 c. p. light per month—excess of 5 lights 60cts.

We do much better than this for our consumers. We place lights in every nook and corner of your premises if you wish, measure the light you use, and charge for actual consumption only. You use light when and where you need it and you don't forget to shut it off when that need is satisfied, nor do you feel bound to keep the lights going from dusk till dawn in order to secure the value of a stipulated bill. We in turn know exactly what we have delivered to you and can figure with certainty upon a definite and rock bottom basis.

The cost of a 16 c. p. light per hour is 1 1/2 to 1 3/4 cents, varying with the efficiency of the lamp.  
The probable cost to you per month is clearly indicated by the following analysis of total charges made for residence lighting during June. Average number of lights per consumer, June 30 22; average amount paid for month's lighting per consumer \$4.54; average cost per light for the month 21cts. In view of these prices and the positive advantages of safety, convenience, simplicity and comfort, you can ill afford to use candles or oil. We furnish fittings and wiring of only the best grades and for obvious advantages at the lowest reasonable figures.

16 c. p. lamps reduced from \$8 to \$6 a dozen.  
Call at our office foot of Alakea St., or particulars or ring up 390.

CASTLE &amp; COOKE

IMPORTERS.

Hardware and General Merchandise

We have had a large CONSIGNMENT made to us of HARTMANN BRASS WIRE DOOR MATS, both the large and small size.

Our instructions are to sell these goods at cost which will be done as long as they last. These MATS are an excellent quality of mat, but must be sold to make room for our regular stock.

It has been reported that there is a case of Liver Fluke in Honolulu which suggests the advisability of looking into the question of FILTERED WATER. No easier or more satisfactory FILTERER was ever made than the old reliable—STONE FILTER—it should be in every House and Office. They not only filter the water but cool it.

EDDY REFRIGERATORS are another thing within the reach of all. If you want a good REFRIGERATOR the EDDY is the one to buy.

The same thing applies to the GEM ICE CREAM FREEZERS. These freezers are worth every cent asked for them.

We have received many new goods by recent arrivals, making our stock complete in every detail.

Remember, we sell PEARL OIL at \$1.90 per case, delivered, C. O. D.

History of the Convention

WHICH FRAMED

THE CONSTITUTION

OF THE

REPUBLIC

OF

HAWAII!

Special Edition

To satisfy the demand for a History of the Constitutional Convention, the GAZETTE COMPANY has prepared and today issues a report of its proceedings, which terminated with the Proclamation of the New Constitution on the Fourth of July at the Executive Building.

The pamphlet will also contain a fine portrait of President Dole, and the New Constitution in full, with an index. The whole is enclosed in a most artistic illuminated cover, which of itself is worth the price charged for the pamphlet.

Early application is necessary to secure copies of this memento of the birth of the Hawaiian Republic, as numerous orders are on file, and the edition is limited.

Now Ready for Delivery.

PRICE 50c.

Hawaiian Gazette Company,

318 MERCHANT STREET.

THE Hawaiian Revolution. IMPARTIAL! THE Hawaiian Revolution. FIDELITY!

DEDICATED BY SPECIAL PERMISSION

— TO THE —

Provisional Government

The Crisp photo process, by which "The History" will be illustrated, is acquiring a well-merited reputation for excellence, the productions being artistic triumphs.

An instantaneous success!!! The project received by the business men of Honolulu in a most enthusiastic manner.

Art connoisseurs warm in its praise. "An artistic gem of the purest ray serene" TO BE PUBLISHED IN 1894.

The historians have commenced with the frame-work of the construction, setting forth the remote causes of events and the motives of human action; and follow up their connection with other developments, and present the whole in a finished exterior of high literary worth. The foundation principles of government, the predominant sentiments swaying human minds at different epochs, the physical condition of different parts of the land, the nature of different influences brought to bear upon the people, have all been closely studied, and the effects philosophically traced. Accuracy of statement, soundness of reasoning, clear presentation, and high literary merit will be the commanding aspect of this ambitious effort. It will be published in an attractive form containing over 200 pages, fully illustrated, supplied with many maps and plans, containing tables of useful information and a complete index, it comprises all the accompaniments necessary to complete a work of its character.

## SYNOPSIS:

Chapter 1—Prof. Alexander's History of King Kalakaua's Reign.

Chapter 2—Prof. Alexander's History of Liliuokalani's Reign.

Chapter 3—A Brief Account of the Revolution of 1893.

Chapter 4—A Brief Account of the Provisional Government to date.

Chapter 5—Minister Willis' Letters to President Dole to abdicate.

Chapter 6—President Dole's Reply.

Chapter 7—Willis and Dole's Correspondence.

Chapter 8—Minister Thurston's Protest issued at Washington.

Chapter 9—Minister Thurston's Statement of the Hawaiian Case.

Chapter 10—President Dole's Specifications.

Chapter 11—Morgan's Report to the Senate.

Chapter 12—The Senate's Action on Hawaiian Affairs.

The publishers have the honor to announce that arrangements are being made for the insertion of the following Bodies:

The Committee of Safety, the Executive, the Officers of the original Annexation Club, Officers and members of the National Guard, the Fire Department, the 1st Advisory Committee, Members of the Bar, the Consuls.

The following firms have secured positions: WILDER & CO., H. HACKFELD & CO., ELITE ICE CREAM PARLORS, CUNNINGHAM'S DOG KENNELS, SCHMIDT & SONS, OCEANIC STEAMSHIP CO., PACIFIC HARDWARE CO., E. O. HALL & SON, J. T. WATERHOUSE, CASTLE & COOKE, LEWERS & COOKE, ELECTRIC LIGHT CO., T. G. THURM, WM. G. IRWIN & CO., OAHU RAILWAY & LAND CO., JOHN NOTT, T. B. MURRAY, YOKOHAMA SPECIE BANK, CALIFORNIA FEED CO., ITOHAN, DAI NIPPON, ST. LOUIS AND OTHER COLLEGES, F. J. KRUGER, COOKE'S FERTILIZING WORKS, J. HOPP & CO., W. C. PEACOCK & CO., HAWAIIAN HOTEL, SANS SOUCI HOTEL, McCHESNEY & SON, WOODLAWN FRUIT CO., CHAS. HAMMER, T. W. HOBSON, HAWAIIAN NEWS CO.

Special note to proprietors of Trades and Industries.—There is now only room for six or seven firms in the limited space devoted to the representation of Trades and Industries, and a great favor will be conferred if those desirous of inserting theirs between the pages of the beauty spots of the city and those pages assigned to the early efforts of Hawaiian pioneers will call at the publication office

## LOCAL BREVITIES.

Late foreign news appears in this issue.

N. S. Sachs is offering some good bargains in silks.

A native was fined \$100 yesterday for illicit distilling.

On the 1st instant sugar was quoted at both 3 1/2 and 4 cents.

E. C. Macfarlane is expected to return to town by the Mariposa.

The W. C. T. U. will meet at the Central Union Church parlors this afternoon at 2:30 o'clock.

The annual meeting of the Mutual Telephone Company will be held on the 25th inst., at 2 p. m.

Captain Jorgensen, of the schooner Transit, has the thanks of this journal for late San Francisco papers.

The Leilani Boat Club will hold an important meeting this evening at 7:30 o'clock, at the Hawaiian Hotel.

The chattel mortgage sale of property belonging to M. R. Colburn has been postponed until September 25th.

The members of Company B, N. G. H., are notified to report at the Armory this evening at 7:30 o'clock for inspection.

There will be a meeting of the members of the Schuetzen Rifle Club this evening at the Armory, Beretania street, at 7:30 o'clock.

Engineer Bromley is directing the pumping station on Thomas Square. He thinks it is a trifle far from town but otherwise he likes the place.

Mory, Sato and Ito, employment agents, can furnish Japanese laborers or house servants. They can be found on the corner of Smith and Hotel streets.

Many people have not seen the new well-appointed offices on the second floor of the Post office building; they should do so the next time they are in the vicinity.

N. S. Sachs is offering dress silks in solid colors or fancy stripes for 50 cents a yard. These are pure silks and the biggest bargain ever offered. See his new advertisement.

H. F. Wichman, the jeweler, has an important announcement in this issue, and it is no less than the fact that he is prepared to make seals and dies for national and other officials.

The Supreme Court met yesterday morning, and adjourned until Wednesday. Regular sittings will not be held until after the return of Associate Justice Bickerton from San Francisco.

P. A. Manning, an old theatrical man, will accompany the Dailey company to this city, and, in all probability, he will act as business manager for Mr. Dailey during the company's stay.

Acting Surveyor Gillfillan was a busy man yesterday morning; he had three vessels to look after; but he stationed his men on board as fast as they arrived, and did so in a businesslike manner.

The reorganized Bureau of Agriculture and Forestry met for the first time yesterday afternoon. Joseph Marsden, the Commissioner and Secretary, read his report. Mr. Marsden was re-elected to the positions named, to serve under the new bureau.

The Hawaiian Hardware Company will not let up telling of the virtues of the Aeromotor until a majority of the people on the islands possesses one. If there were more of these machines in Honolulu the lawns would not look scorched as they do now.

The ballad "Sweet Marie", now played by the Government band, originally appeared as a poem in the New York Sun, in 1892. The words did not show any fame or money on the author until a few months ago when they were set to music by a minstrel singer, named Raymon Moore.

The Catholic fair will not be held at Arion Hall but at the Armory on Beretania street instead. The Board of management decided to make the change on account of the large number of tickets now sold. The fair is for the purpose of raising money enough with which to repair the church organ.

At a meeting of the Schuetzen Club, held last evening, President Klemme and a majority of the charter members of the Club resigned in a body. The cause of the trouble is said to be a split in the ranks brought about by a number of the new members desirous of amalgamating the Club with the American League.

## FEATHERSTONE ESCAPES.

He Bolts From a Gang While at Work on the Road.

Arthur Featherstone, the man who tried to cut his wife into small bits some time ago, escaped from the prison gang yesterday morning and up to a late hour he had not been recaptured.

Featherstone has been working along with other prisoners, making a new road in the vicinity of Kalihi. He appeared to be a willing prisoner and made no attempts to escape, so his keeper did not consider it necessary to attach a ball to one of his legs.

The gang was taken out early yesterday morning, as usual, and Featherstone was seen working until about 9:30 o'clock, but after that hour he disappeared like magic. A search was made for him but it was fruitless, so finally a party set out and tracked him as far as Moanalua, where all trace of the runaway was lost. Deputy Marshal Brown was informed yesterday afternoon that some natives saw Featherstone in a skiff, he appeared to be making for Honolulu but the wind was against him and his boat commenced to drift toward Puuloa. He was seen again about 4 o'clock in close proximity to the breakers that beat on the shore near a place called Moku-kona. The spot mentioned is considered a dangerous landing place, and if Featherstone got caught in the waves his chances for life are not good.

Officers all over the island have been notified of the escape, and if he gains shore it is only a matter of a few days when he will be captured.

Jailor Low has been in charge of the prison for about sixteen months, and this is the first escape under his administration. No blame is attached to him, however, as the fault lies with the luna, who had charge of the men, for allowing Featherstone to work away from the other prisoners.

Featherstone was sentenced to serve nine months for his crime. He had been in prison for six weeks.

## A SONG TO BAILEY

## THE WOVEN WIRE MAN!

Give me a Campbell's fire a Petriach's grace, Still vain the task thy matchless charms to trace; When poets have passed away, and heroes all are dead, The clarion note will ring "Bless Bailey's Woven Wire!"

Our cherished darling sleeps, her little cares forgot, Her dimpled cheeks a dream of love in Bailey's Woven Wire; Dear mother in a hammock swings, of it she'll never tire, 'Tis a restful, pleasant "lovely thing," in Bailey's Woven Wire!

Dad's chair's a "lap of luxury" to which the god's aspire, Made right in Honolulu of Bailey's Woven Wire! Then let us stick to Bailey, and help him all we can, He's the President of Comfort—the Woven Wire Man!

## When

A man strikes a red pepper in his soup he receives an impression, and impressions are lasting. How can we impress it upon you that it is really your duty to trade with us, that our prices and service are better than elsewhere? Perhaps we can impress you in this way: Money talks, talks cents too. It persuades the stubborn and convinces the skeptic. We know of no such pleader as a LOW PRICE and we have tried to make its voice heard in every nook and corner of our store. It would only tire you if we gave you a list of the many different articles we have just received per "Santa" from England, "Amy Turner" from New York, and the "Rithet" and "Australia" from San Francisco, but we have the goods, and if you call on us you will get an impression or two. First, they are FIRST-CLASS and second, that our prices are LOW.

For that tired feeling—not Hood's Sarsaparilla, but more exercise—a gun, a rifle, or a boat if you take it out of doors, or dumbbells, chest weights, etc., if indoors. Our shot guns range from \$12 to \$65 in price, but we find the \$35 gun gives just about the right amount of exercise for this climate—that is we judge so from the way they sell. After using one of our Winchester Military Rifles till you can get inside an 8-inch bull's eye, 8 out of 10 shots, you will find not only is the tired feeling gone, but you have learned to be cool and careful—things that will serve you well in other ways than rifle shooting.

Have you heard of the story of the Irishman? He bought apples for one cent and sold them for two and said he made one per cent. profit. We do not commit business suicide by trying to make the Irishman's one per cent.

If you prefer boating and yachting to shooting, you will find we have most of the material needed to either build a yacht or boat or keep it in repair when built, and you do not have to buy any more than you need, as we have everything handy to retail as well as wholesale.

BETTER fence wire is now made than ever before and as POOR fence wire is now made as ever has been before. The BEST can be had right here in Honolulu, and—yes—the WORST. We sell the GOOD KIND.

Wait for our remarks about barbed wire. We have plenty now, but will soon have a lot of the best in the world and it will pay you to wait for it.

MARRIED.

TREGLOAN-CLARK—In San Francisco,

August 30, 1894, by Rev. Dr. Foute, Jan.

D. Tregloan, of Honolulu, to Ollie Dell

Clark, of San Francisco.

WHARF AND WAVE.

DIAMOND HEAD, Sept. 17, 10 P.M.

—Weather, cloudy; wind, light E.

Yesterday was a busy day along the water front.

Two vessels left in ballast yesterday—the Ceylon for Port Townsend, and the Santa for Fraser River.

The steamer Waialeali has been thoroughly overhauled, and it will not be long before she takes up her usual route again.

The German bark J. C. Glade left San Francisco on the 1st inst., bound for Queenstown with a cargo of wheat valued at \$46,337.

The steamers leaving today are the Claudine for Maui at 5 o'clock, the Mikahala for Kauai at 5, and the Hawaii for ports on Hawaii at 4 p.m.

The British cruiser Hyacinth left port early yesterday morning for target practice. Captain May steamed his vessel out the channel like an old steamboat man.

The barkentine Amelia, Captain Ward, arrived yesterday, 17 days from Eureka. She brought three passengers and a full cargo of redwood lumber for Allen & Robinson.

The schooner Transit arrived from San Francisco yesterday. She brought four passengers, a full cargo of general merchandise and about eighty head of live stock. She was out about fifteen days.

William Boone, a stevedore, who was crippled by falling into the hold of the steamer Panama, sued the Pacific Mail Steamship Company for \$100,000. A jury in the United States Circuit Court recently awarded him \$14,000.

On the Velocity's clearance papers now at the Custom House one item reads, "6 cases of bones," and further along the line it continues, "of no value on earth whatever." The six cases of bones referred to contain the remains of departed Chinese.

The bark Matilda arrived yesterday, twenty-seven days from Port Blakely. She brought about 627,099 feet of lumber for Allen & Robinson. It will be remembered that Captain Swenson's wife died in this city several weeks ago. He did not hear of her death until his arrival yesterday.

The sails, rigging, blocks, etc., of the R. K. Ham were sold at auction recently in San Francisco, the entire outfit bringing \$750. The hull of the wreck was sold to L. B. Hastings of Port Townsend for \$500.

The Ham went ashore on Dungeness spit on the night of July 2d, while on her way from San Fran-

cisco to Port Hadlock. A number of attempts were made to get the vessel off and she was finally pronounced a total wreck.

VICTORIA (B. C.), Sept. 1.—The steamer Danube from the north this morning, reports that the steamer Queen was temporarily repaired and floated off the beach at Alert Bay Thursday morning and left immediately for Alaskan points. A hole was punched in her outside bottom. The damage was very light.

PEORIA (Ill.), Aug. 30.—Considerable interest has been aroused in distilling circles by the filing of incorporation papers in Springfield for the new Atlas Distillery of this city, whose buildings are now practically completed. The distillery will be the largest in the world, and will be run outside the trust. The company is headed by Samuel Woolner, long and prominently identified with distilling interests both inside and outside the trust. The new house has a capacity of 800 bushels of grain a day, and will be run at such capacity as the trade warrants.

The British ship Glencairn from Astoria, which went ashore at Point Adams near that port, was gotten off on the 1st inst. The damage to her is not heavy. Only five men were aboard of her at the time, the captain, second mate, carpenter, sailmaker and one seaman. The others had been taken off by the Point Adams life-saving crew. Captain Kerr is given great credit for the manner in which he stood by his vessel, and it is probably due to his efforts that the vessel was saved. The Point Adams lighthouse is ten miles south of Columbia river bar channel, and at the very place where the Glencairn stranded the City of Dublin was wrecked some years ago.

The British ship Glenbreck, bound from San Francisco to Queenstown, has been heard from at last. She is now out 164 days and was not heard from since she left port until the 1st inst., says the Chronicle. From dispatches received here it was learned that she was spoken last July and, from all accounts, she has had a terrible experience. She encountered very severe weather about two months after she left here, but the storm which nearly sent her to the bottom with all hands on board struck her later on in the voyage. Her topsails were blown out by the wind and the waves washed over her, cleaning her from stem to stern. Her cargo was shifted by the huge combers which pelted against her side, and the ship was thrown on her beam ends. The captain and men must have pulled well together and worked like beavers, for the vessel was righted from her dangerous position, and the last seen of her she was proceeding on her voyage.

KOREA'S ONE IRONCLAD.

Built for Use in the War with Japan in 1619—Still in Existence.

Ensign George C. Foulke, U. S. N., who spent several years in Korea in charge of the American Legation at Seoul, in a report to the Navy Department in 1883, wrote regarding Korean strength at sea:

"The old navy consisted of junks, which were armed with grapnels, punching pikes, and small firearms. At present there are no vessels kept for war purposes at all. During the last war with the Japanese in 1619 an iron turtle-backed vessel was built by the Koreans and very successfully used against the Japanese wooden junks. From ports under the turtle-back grapnels were thrown on the Japanese junks, which were then capsized or sunk by having holes punched in them. This ironclad is still in existence at Yong Yong; it is one of the oldest, if not the oldest, ironclad in the world."

Missionary Boat for the Negroes.

A new gospel ship called the Morning Star is being fitted out in an Illinois Central ship. It is a steamer of the stern-wheel type, and is going south on the Mississippi river, where the missionaries who will live on board will labor among the negroes. The two missionaries are W. C. Palmer and J. E. White. Mr. White goes as master of the boat and Mr. Palmer as secretary. B. F. Richards is engineer. The steamer is wide and shallow, and has almost no sheer. It is constructed on the style of river craft, is 84 feet long and 17 feet beam. On the top of the cabin the space is arranged for a meeting-room which will hold 200 people. The boat has been built and fitted out by the two missionaries from money raised by selling publications of a religious nature.

—Chicago Times.

The coconut supplies food, light and household utensils to the Jamaica islanders.

## Shipping.

### CANADIAN-AUSTRALIAN Steamship Line.

Steamers of the above line, running in connection with the CANADIAN PACIFIC RAILWAY CO., between Vancouver, B. C. and Sydney, N. S. W., and calling at Victoria B. C., Honolulu and Suva [Fiji].

Are Due at Honolulu

On or about the dates below stated, viz:

From Sydney and Suva, for Victoria and Vancouver, B. C.:

S. S. "ARAWA".....October 2

S. S. "WARRIMOO".....November 1

From Victoria and Vancouver, B. C., for Suva and Sydney:

S. S. "ARAWA".....October 2

S. S. "WARRIMOO".....September 24

S. S. "ARAWA".....October 24

Through tickets issued from Honolulu to Canada, United States and Europe.
