THEY DON'T LIKE OUR PASSPORT.

Our passport system is adversely criticised in San Francisco papers received by the Australia yesterday. Private letters by the same mail bring the information that people there regard with disfavor the fact that a person cannot enter this country without paying an admission fee, nor leave it without a passport, for which he also has to pay a fee. This fact is said to militate against travel to this country, and may be urged as one of the various reasons for the abolition of the system. It cannot be truly said that the Hospital tax collectable from a person before he is permitted to land, is particularly burdensome; nor that the legal requirement to procure and pay for a passport by a person who has been in the country more than a month, before he can leave it, is any serious trouble to honest people. But the actual operation of the law is a matter which people abroad are not likely to be familiar with, nor concern themselves to learn. The bald fact that the Hawaiian Kingdom has a passport system comes to their knowledge more easily, and it impresses them unfavorably. An American or an Englishman does not like a passport. He does not believe in such a document. It is something which he is not accustomed to. He considers it a remnant of despotism to be excluded from the polity of a free country. And we think the sooner the supporters of the passport system in this country adopt the same view, the better it will be for the country. Efforts are being made by our own people to induce tourist travel in this direction, and as long as the passport law remains on the statute books they will find it an obstacle to success.

The retail price of coal in New York has been higher in the last two months than at any previous period in twelve years. If the strikes in the mines and on the Reading Railroad are maintained, prices will still go up. One of the largest dealers said to-day the continuance of the present difficulty for thirty days will justify the dealers in demanding \$8, as much as the situation now warrants. The present asking price is \$6.25. It is estimated the dealers in town have coal enough on hand to last three weeks. There is little coming here.

HOW QUARANTINE IS KEPT.

EDITOR BULLETIN:—In case your readers up town do not know how quarantine is kept down town I will give you a few facts from a personal experience and illumine their lay minds.

The Australia comes into port, and after consultation is allowed to come alongside the O. S. S. Co.'s wharf. Almost immediately gentlemen connected with the agents' (W. G. I. & Co.), office go on board, mingle with the passengers, chat, have a talk on the veto, etc., all of course in a business way, then the President of the Board of Health goes on board, accompanied by some of his satellites, mingles freely, comes off and goes uptown. Presently, a Custom House officer goes on board, does exactly the same thing as before mentioned. Again the President of the Board of Health is back and on board again, giving some new orders, comes off, and is approached by a man who wants a job as guard. He is asked in terrible tones, how he ever came to get inside the sacred portals of this quarantine ground, and in answer to this question he is immediately ordered off the premises, so as to reduce if possible, the danger of infection, and so it goes on all day. There is constant intercourse between the people on board and those on the wharf, and the latter eventually will go uptown and mingle with their fellow men. Now, Mr. Editor, if this is quarantine what isn't? Is the President of the Board of Health or any one with his written permission, proof against smallpox, or of carrying its infection? If the Board of Health is going to have a quarantine, let's have it in toto or make no attempt at such a farce as is at present being perpetrated on a confiding public. Yours, H. Honolulu, Feb. 8.

A QUERY ABOUT WATER PRIVILEGES.

MR. EDITOR:—The law regulating the Government water supply passed in 1886 imposes a penalty (?) of ten per cent. in addition to the rate, if such rate remain unpaid 15 days after it became due.

Now the same law requires applications for privileges on a printed form supplied by the Minister of Interior to be signed by the applicant, this form to contain a statement of the terms and conditions upon which water may be used.

"The Superintendent of water works shall, at least ten days before such water rates shall be payable notify all persons then holding water privileges as aforesaid by advertisement in one or more newspapers published in the English and Hawaiian languages, that such rates are payable on the 1st days of January or July as the case may be, next following such notice." (Italics mine.)

It cannot be said that persons already holding privileges prior to the law of 1886 are going to know "the terms and conditions upon which water may be used," particularly as they signed no written application therefor. It seems to me that the Superintendent's notification by advertisement is notice only to those who had made written applications for privileges, and thus became acquainted with the "terms and conditions."

Query. By the statute of 1886, is the Superintendent of water works required to notify all holders of water privileges of the time of paying rates in the absence of rules regulating the same which said statute authorizes the Minister of Interior to make?

Late Foreign News.

AMERICA.

New York, Jan. 16.—In a talk with the Paris correspondent of the "World" De Lesseps says: "I shall run over to Panama toward the beginning of March, and may tell you, as a bit of news, that I will take Engineer Eiffel with me. We have just drawn up a contract with Eiffel & Son to construct a huge lock with iron gates at the foot of the Culebra, to be fed with the water of the Chagres river there, and it is by the construction of this basin or lock that the canal will be open for traffic. Eiffel, you know, is the man who is constructing that huge iron tower on the Exhibition grounds. They have been making lots of fun of Eiffel's Tower of Babel, as they call it, but all the same it will have excellent practical use for atmospheric and astronomical observations."

Kansas City, Mo., Jan. 16.—Saturday and Sunday nights were the coldest ever experienced in this section, the thermometer registering 19 degrees below zero at one time.

The reports of cases of freezing from points in Kansas are appalling. The blizzard that raged through that section a few weeks ago left the people in an exhausted condition. It is estimated that 3,000 people in Clarke county are in a destitute condition.

The Presbyterian minister of Hartford, Kearney county, writes to the Aid Society, imploring assistance for the people of that section, saying: "If relief does not come soon hundreds will die."

New York, Jan. 17.—Colonel Fred Grant has been offered by Governor Hill the nomination of

Quarantine Commissioner in place of Thomas C. Platt but he has declined it. Hill nominated him one year ago, but Platt prevented the confirmation of the nomination by the Senate.

The report of the Commission appointed by the Legislature to report upon the most humane and practical method known to modern science of carrying into effect the sentence of death in capital cases, was transmitted to the Legislature yesterday. It recommends the killing of culprits by electricity.

Pittsburg, Jan. 17.—There was another heavy break in oil to-day and great excitement prevails, but no failures are reported. The market opened at 90¢, advanced to 90½¢, then broke under heavy selling to 84½¢. A reaction then set in and at 1 o'clock prices were firm at 85¢.

Jacksonville, Fla., Jan. 17.—The health officials and the press are very indignant over the statements published about the prevalence of the yellow fever, and assert positively that there is not a single case of yellow fever in South Florida.

New York, Jan. 17.—No tidings have yet been received of the missing steamer Britannia, bound for this port with 850 Italian steerage passengers.

Washington, Jan. 17.—Speaker Carlisle, while at dinner at the Riggs House yesterday, was taken suddenly and seriously ill and reached home with the utmost difficulty. He will probably be prevented from presiding over the House for some days. He was somewhat improved last evening.

Speaker Carlisle was taken with another chill at 4 o'clock this morning, and his physician was hastily summoned. At 8 o'clock the Speaker was sleeping quietly. His symptoms at that hour were rather more favorable. At 11 o'clock Dr. Sowers reported Mr. Carlisle's condition much improved. Dr. Sowers speaks very encouragingly and predicts no alarming consequences of the attack.

Speaker Carlisle is resting more easily this afternoon. About 4 o'clock this morning his condition was so serious that for a short time he was thought to be dying. He had a violent chill and lapsed into unconsciousness. Physicians were hastily summoned, and under their care he obtained relief. Pneumonia is feared and should the disease follow the chills the chance for Mr. Carlisle's recovery are very remote. He is in poor general health and his constitution is enfeebled by over work and mental worry. In the House this morning the Chaplain prayed for the Speaker's recovery.

New York, Jan. 21.—An incipient smallpox epidemic has broken out in Brooklyn. The first of the present week there was not a case of the disease known to exist in the city, but since last Wednesday twenty-three cases have developed. Following the report of cases received by the Health Department of the city Wednesday, there were six new cases recorded, Thursday seven, and Friday ten. The cases so far are confined to cheap lodgings in the western part of the city and are largely among homeless people. Three fumigating wagons are kept going by the Health Department and thirteen persons in the employ of the department are giving individual attention to vaccinating. A member of the Board of Health says he does not anticipate a serious spread of the disease.

THE REV. E. C. OGCEL.

We clip the following from the
Holland City News of Michigan, un-
der date of January 14th, 1888:
Under the auspices of the Ladies'
Society of the First Presbyterian
Church, of Grand Haven, the Rev.
E. C. Ogcel will give a lecture in
that city, this Saturday evening, on
"The Hawaiian Islands." Mr. and
Mrs. Ogcel will be the guests of Dr.
and Mrs. A. Van der Veen.

DAILY BULLETIN SUMMARY.

Our Summary will be issued on
Saturday morning in time for the
mail which leaves here for San Fran-
cisco on the 12th inst. It will con-
tain in a concise form all the news,
local and general to date, besides a
large amount of correspondence on
the leading topics of the day. Per-
sons desirous of copies can be sup-
plied at the Office, or at the bookstores
of A. M. Hewett and J. H. Soper.

JAPANESE MISSIONARY.

Among the passengers by the
Australia was Mr. T. Shimizu, a
young Japanese, a graduate of the
Naval School, who comes to engage
in Christian work among his country-
men on these islands. He has been
engaged in this work in San Fran-
cisco in connection with the Metho-
dist Mission. He will work here
under the direction of the Hawaiian
Board, the Central Union Church
having voted to pay his salary for
six months.

PROSPECTS AT CHINESE NEW YEAR.

The Chinese New Year finds the
business men in Chinatown hard
pressed for money to settle their
accounts. The fire, the liquor law,
the opium license, the unsettled poli-
tical and financial prospects all have
had a share in bringing about this
state of affairs. Besides all this,
vessels expected from China have
not yet arrived, and the City of New
York was not allowed to land her
freight, much of which was goods
designed for the New Year's trade.

MORE DESTRUCTION.

By the steamer Kaala, which ar-
rived last evening, a report was
received of considerable damages done
to houses at Koolau and Waiiala,
during the recent heavy weather.
A warehouse at Mokuia was com-
pletely demolished. Two houses at
Kapuwiki were blown down, and
one at Waiiala was leveled by the
wind and washed away by the river.
Mr. Dickson's house had a close
shave from being blown down. Trees
were snapped off or uprooted and
houses shifted by the wind at some
places.

The weather last night was very
nasty. The Kaala did not stop at
Waiiala, on account of bad
weather.

AN IMPORTANT SALE.

We understand that Mr. Robert
H. Hind has purchased Messrs. W.
G. Irwin & Co.'s entire interest in
the Star Mill Co., at Kohala, which
includes the control of the stock,
and the present book debt amount-
ing to something over \$100,000. In
connection with this transaction Mr.
Hind also purchased from W. G.
Irwin & Co. some valuable tracts
of land which they owned near the
Hawi Mill. Altogether the sale is an
important one and involves a large
sum of money.

In another column will be seen
the annual election of officers of the
Star Mill Co. for the ensuing year.
We understand that W. G. Irwin
& Co. will still retain the agency of
the company as representing Mr.
Hind.

MR. MATHER HEARD FROM.

TOURISTS COMING.

Mr. L. M. Mather has been di-
rectly heard from by several gentle-
men here, by the last mail. He was,
at the time of writing, at Los An-
geles, presenting the attractions of
these islands to the people there,
with the view of inducing them to
come and see us. The "Los Angeles
Tribune" of January 29 contains an
article from Mr. Mather's pen,
graphically descriptive of these is-
lands. A party was being organized
to come down by next steamer: 13
names were on the list when the
Australia left. Mr. Mather complains
that many of the reports which go
from here have a damaging effect
upon the country, and strongly tend
to keep people from visiting it.

TENDERS.

The following tenders were open-
ed at the Interior Department yes-
terday, for the printing and bind-
ing of the license forms—26 forms
and 63 books.

Late Foreign News

Chicago, Jan. 21.—A Nebraska
City special says: Judge Kinney,
Agent at the Yankton Sioux Indian
Reservation, arrived here yesterday.
It took him five days to go thirty
miles, the thermometer being 4 de-
grees below zero most of the time.
The coal on the train ran low, when
the passengers all crowded into one car.
The men discarded their outer gar-
ments and wrapped the women and
children up in them. Two babies
perished. The Judge says the loss
of life in Dakota is under-estimated,
as the newspapers have tried to
cover it up. While at a station in
Bonhomme county nine frozen bod-
ies were brought into the depot in
one day. The loss in the whole
county will reach 160, and estimates
made in Yankton yesterday of the
loss of life through the Territory
figure up over one thousand lives.
The roads from the agency to Yan-
kton were lined with dead cattle,
many farmers losing all they had.
Although a large number of Indians
were out hunting during the storm,
none are missing.

Cleveland, Ohio, Jan. 21.—

late President James A. Garfield,

Mrs. Garfield, in Mentor, aged
eighty-six years.

Washington, Jan. 23.—The Su-
preme Court to-day rendered a de-
cision in the Maxwell-Preller mur-
der case, dismissing the case for
want of jurisdiction. The effect of
the decision is to affirm the sentence
of death pronounced by the Mis-
souri State Court.

New York, Jan. 23.—The Post's
Washington special says that the
new Postal Convention with Canada
simply adds to the provisions of the
other conventions the right to send
mail matter of the fourth class.
Anything which can be sent through
the domestic mails, liquids excepted,
may now be sent to Canada by mail.
Duties will be collected on dutiable
articles at the post office of the ad-
dress. The amount will be stated
upon a slip attached to the package
by the assessing customs officers at
the exchange office from which the
package will be forwarded to its
destination.

New York, Jan. 23.—The Essex
Market Police Court was crowded
this morning, the occasion being the
appearance of the officers of Peter
Cooper Post of the Grand Army of
the Republic, which was arrested
yesterday while taking part in the
funeral procession of a dead mem-
ber, the charge being, that the
parade was without a permit. In
addition to Peter Cooper Post many
other Grand Army men were pre-
sent. Justice Patterson says that
the law was originally passed to
prevent riotous anarchist parades.
He wished to read up, and post-
poned further examination for a few
days.

New York, Jan. 24.—An Ottawa
special says: It is semi-officially
stated that the Home Government
has urged the Dominion Cabinet to
make such concession on the fisher-
ies question as will bring about a
settlement. It plainly intimated that
while the demands of Canada are
admitted to be of importance, they
must not be allowed to prejudice the
larger international interests in-
volved. There are indications of a
yielding disposition on the part of
the Canadian Government under the
unusual pressure from Downing
street, and the absolute certainty
that the Canadian terms would in
any case be refused by the Ameri-
can Congress. In official quarters
the reports from Washington that
the negotiations have broken down are
denied.

New York, Jan. 24.—An Ottawa
special says: The semi-official an-
nouncement comes from England
that Hon. Joseph Chamberlain is
likely to succeed Lord Lansdowne as
Governor-General of Canada. It is
represented that in view of impor-
tant questions which are likely to
arise, the British Government desires
to have its Canadian Executive one
who cannot entirely keep the over-
ambitious Canadians in check, but
who is conversant with every phase
of the social and political condition
of the country. It is known that
Lord Lansdowne is anxious to return
to his Irish estates.

Washington, Jan. 30.—The Signal
Corps Station at Nantucket reports
upwards of fifty vessels in the ice
near Nantucket and from Great Point
to Tucker's Shoals. Many of them
are adrift, having lost their anchors
and chains. The ice is ten inches or
more thick, and the most powerful
vessels can render them no assistance.
Most of them will be wrecked unless
prompt assistance is rendered when
the ice breaks up.

Washington, Jan. 30.—The House
Committee on the Election of Presi-
dent and Vice-President will to-day
report favorably on Representative
Crain's Constitutional amendment
changing the time of the meeting of
Congress. It provides that Congress
shall meet on the first Monday in
January of each year instead of the
first Monday in December, as at
present, and that the sessions shall
not extend longer than the 31st of
December following. This is in-
tended to do away with the short
sessions of Congress.

New York, Jan. 30.—Various esti-
mates, ranging from \$2,000,000 to
\$5,000,000, are made of the losses
by the great fire on Broadway to-
day. It is claimed as aggravating
circumstances that there was an in-
sufficient force of water. Five large
buildings are total wrecks, and the
firemen are still pouring water on
the smoking ruins. It is said that
several hydrants were found frozen
when the flames had gained headway
and they had to be thawed out,
causing some delay. The stock is
completely ruined in eight buildings.
Two buildings, those at 549 and 551
Broadway, were old buildings. They
were in such a bad condition that no
insurance company would take risks
on them except at exorbitant rates.
They are reported to be a total loss.
During the progress of the fire many
persons who had business on the
premises, proprietors, reporters and
others, had narrow escapes from the
falling bricks and debris. The fire
is said to have been caused by a
badly banked fire in Roger's build-
ing.

Vienna, Jan. 18.—The "Frem-
denblatt" hopes the peaceful uter-
ances expressed by the Czar in re-
sponding to the New Year congratu-
lations of the city of Moscow fully
correspond with the earnest desire
everywhere prevailing for the main-
tenance of peace. It says it cannot,
however, overlook the fact that not-

withstanding the effort made to that
end, the feeling of anxiety regard-
ing the future, which is now weigh-
ing on everybody, does not seem to
disappear.

London, Jan. 23.—John Bright,
in a letter to the papers, says that
Gladstone prefers to maintain silence
when questioned regarding such
cases as the circulation of bills, at-
tributing the Mitchellstown riot to
Bright and Chamberlain. Bright
fears that Gladstone does not object
to the stones and mud thrown by his
followers. He says Gladstone lat-
erly has given no definite answer
regarding Irish affairs, probably be-
cause he fears that the reply might
injure his cause and party.

Sofia, Jan. 24.—Prince Ferdinand
and party arrived at Philippopolis
yesterday evening. At various stations
along the railroad crowds has assem-
bled, which displayed great enthu-
siasm, and presented addresses of
fidelity to the Prince. At Philipo-
polis the party was welcomed by the
Commander of the Garrison, the
Prefect, Greek and Bulgarian
Bishops, Turkish Mufitis and Jewish
rabbis, who presented Prince Ferdi-
nand with addresses. Along the
route to Dr. Tchoumakoff's resi-
dence, where the party is stopping,
the people showed the greatest en-
thusiasm, cheering the Prince and
his mother and throwing bouquets
to the ladies of the party. The town
was brilliantly illuminated.

New York, January 30.—A Rome
cable to the "World" says: An un-
pleasant incident, which has greatly
affected the Pope, occurred at the
Vatican the other day. As the Grand
Master of the Household of the
Prince of Colonna was advancing to
the throne of his Holiness to present
a magnificent diamond jubilee gift,
on behalf of his master, he suddenly
fell forward on his face, and when
raised was found to be dead.

Rome, Jan. 30.—The Cabinet
Council has decided not to renew
the commercial treaty of 1881 with
France, but will make new and con-
ciliatory proposals to France upon
which a treaty can be based. If
France should reject its ally's offers
negotiations will be brought to an
end.

THE SKELETON'S BRIDE.

A queer story comes from Bordeaux. A woman who was well known in the demi-monde, both in Paris and the Provinces, took a fancy to a man called the "champion skeleton," who was exhibiting himself with a giant at a local fair. The marriage ceremony was of the first class order. The "atomy" and his bride came out in gorgeous apparel, and were accompanied to the altar by all the mountebanks of the fair, including the giant, the lovely Circassian, the manager of the wax-works and the "artistes" of the various itinerant temples of Thespis and Thalia.

The bride, an interesting female 24 years old, was given away by her quondam protector, a personage with a princely title and a plethoric purse. He it was who paid the reckonings for the bride's toilet, the faultless evening suit and the laven-der kids of the "champion skeleton," the marriage ceremony, and the wedding breakfast. The church was filled with flowers; a crimson carpet was spread and the rice thrown by admiring mountebanks along the route of the bridal procession. In the evening, after the happy pair had departed for their honeymoon, there was a banquet at which fifty salimbanques sat down. This was succeeded by a bill, which was unique of its kind, the bride's former protector having given orders that no expense was to be spared in order to celebrate the auspicious occasion in a befitting manner. —(London Daily Telegraph.)

HINTS FOR THE HOUSEWIFE.

Fried Cream.—Make a smooth paste with three tablespoonfuls of rice flour or corn starch and part of a pint of milk; then gradually add the rest of the pint, two whole eggs and the yolks of four eggs, with a pat of very fresh butter, powdered white sugar to taste, and a few drops of essence of almond. Put the mixture into a saucepan on the fire and never cease stirring until it is quite thick. Spread it out on a slab to the thickness of a half-inch. When quite cold cut it out in lozenges; egg and crumb them; fry them a nice color in lard, and serve with powdered sugar over them.

A new way to cook cranberries.—Sort and wash the berries. Put them on the fire in cold water. As soon as they are scalding hot take them off and drain them in a sieve. Thus they lose much of their acrid taste, but not their flavor. The berries must not be left in the sieve a minute, for fear of losing their juice. Turn them into a pan. Add sugar in proportion of one pound to four quarts of fruit. Put in the berries and boil them soft, but not to a mash. Cover with a napkin while cooling, and stir them gently occasionally. Small bowls make very good molds.

An October Salad.—Rub the salad bowl with garlic. Take four tomatoes, not over-ripe, skin, slice them, and get rid of the pips and watery substance; chop the slices coarsely and put them in the bowl with four tablespoonfuls of tomato sauce out of a bottle, one of tarragon vinegar, and two of oil, pepper and salt to taste; slice in 2-inch lengths the middle rib of a dozen large leaves of lettuce, turn over the whole in the bowl till the salad is well mixed. Have some pulled bread pounded and passed through a colander, strew the top of the salad plentifully with this, and, after letting it rest ten minutes, serve with cold undercoat of sirloin.

POISON IN THE ASHES.

Many people believe that Nature has somewhere a remedy for every disease. So many and so terrible are the ills of life, and so slight the pleasure we get as time flies past, that such a belief is the least faith we can show in a gracious and all-wise Providence. A few remedies—but, alas, how few!—have been found. Others, so far, lie hidden from human inquiry. Occasionally death follows quickly on the heels of the evil—an illustration of the dangerous character of the ailment to be relieved.

For example, Nervous Dyspepsia is a comparatively new disease, growing out of the conditions of modern life. It is a joint affection of the digestive organs and of the nervous system. These two were formerly treated as separate ailments, and it was left for the clear-sighted thinkers to prove that the basis of this terrible and often fatal complication lies chiefly in the disordered and depraved functions of digestion and nutrition. They reasoned thus: "If we can induce the stomach to do its work, and stimulate the excretory organs to drive out of the body the poisonous waste matters which remain after the life-giving elements of the food have been absorbed, we shall have conquered Nervous Dyspepsia and Nervous Exhaustion." And they were right. Knowing the infallible power of Siegel's Syrup in less complicated though similar diseases, they resolved to test it fully in this. To leave no ground for doubt, they prescribed the remedy in hundreds of cases which had been pronounced incurable—with perfect success in every instance where their directions as to living and diet were scrupulously followed. Nervous Dyspepsia and Exhaustion may almost be called a peculiarly English disease. To a greater or less extent half the people of this country suffer from it—both sexes and all ages. In no country in the world are there so many insane asylums filled to overflowing, all resulting from this alarming disease. Its leading symptoms are these: frequent or continual headache; a dull pain at the base of the brain; bad breath; nausea; eructations; the rising of sour and pungent fluids to the throat; a sense of oppression and faintness at the pit of the stomach; flatulence; wakefulness and loss of sleep; disgust with food even when weak from the need of it; sticky and slimy matter on the teeth or in the mouth, especially on rising in the morning; furred and coated tongue; dull eyes; cold hands and feet; constipation; dry or rough skin; inability to fix the mind on any labour or calling continuous attention; and oppressive and sad forebodings and fear.

All this terrible group Mother Siegel's Curative Syrup removes by its positive, powerful, direct, yet painless and gentle action upon the functions of digestion and assimilation. Those elements of the food that build up and strengthen the system are sent upon their mission, while all waste matters (the ashes of life's fire) which, unremoved poison and kill, are expelled from the body through the bowels, kidneys, and skin. The weak and prostrated nerves are quieted, toned, and fed by the purified blood. As the result, health, with its enjoyments, blessings and power, returns to the sufferer, who has perhaps abandoned all hope of ever seeing another well day.

Mother Siegel's Curative Syrup is for sale by all chemists and medicine vendors, and by the proprietors, A. J. White, Limited, 35, Farringdon Road, London.
