## MORE CANNON MEN DEFEATED DEMOCRATS NAMING A COUNTY TICKET

### DEMOCRATS HAVE A COUNTY PLATFORM TOO

The Democratic county platform as reported to the convention this afternoon is as follows:

"The Democratic Party of the city and County of Honolulu hereby endorses the Territorial Platform of the party."

"We point to the record of Democratic members of the Legislature, The Mayor, The Supervisors, Police Department, Treasurer, and other officers as an earnest of what may be expected from our nominees in the direction of efficient and honest legislation and administration, whenever we shall succeed to the control of the several departments of government in the Territory and the County."

"We pledge our Segators, Representatives and Supervisors, if elected, to enact effective building and license laws and regulations to prevent unsightly and insanitary camps and tenements."

"We pledge our legislative nominees to endeavor to secure such modification of the existing election laws, as shall dispense with the requirement of a nomination fee or other payment of money by a candidate for office, and such as will make the certificate of the presiding and secretary of a bona fide convention of any organized political party a sufficient nomination of any candidate selected by such convention."

"We favor the construction of a belt road around this island and the construction of a road to Watertown."

"We favor the enlargement of the present efficient Fire Department and the erection of additional fire stations in the outlying district of Honolulu, made necessary by the increased growth of the city."

"We declare in favor of a sufficient Territorial Appropriation for the purpose of assisting in the maintenance of the work of the Hawaii Promotion Committee."

"We favor the erection and maintenance of a City and County Hospital."

There was plenty of music, but little business, at the Democratic county convention in Knights of Pythias hall this morning. The Fern quintette did itself proud, filling in intervals while committees worked. At noon, without having got farther than organization, the convention took a recess to two o'clock this afternoon. It will probably complete its work during the afternoon, as there are few contests in sight.

The platform committee, appointed just before he noon recess by Chair-

man E. M. Watson, consists of W. S. Edings, W. Wolters, George Kane, B. G. Rivenburgh, Robert Pahan, Daniel Damien, Gus Kalechano S. K. Hiu, Ed. Liko, Chas. Keawe.

The convention was preceded by caucuses of the Fourth and Fifth districts, both meeting together, in the same hall, and amid considerable confusion. Amid the strains of various hulas and songs in which were tributes to Fern and other pets of the party, the delegates scrapped over nominations, with the result that the Fifth decided that its supervisory nominees should be Henry C. Plemmer, Manuel C. Pacheco and Lester H. Petrie.

The Fourth had too many candidates and it will have to let them fight it out. They are R. Pahan, M. E. Silva, Supervisor McClellan, "Goody" Morse, Foster, A. V. Peters, Kane and Kiahaki. The nomination of McClellan is generally conceded.

B. G. Rivenburgh and E. M. Watson were nominated for chairman, when the convention was called to order. It fell to Rivenburgh's lot, as presiding officer, to put the vote. Watson had a majority on a rising vote. Klawe Haku was made secretary and George Fern sergeant at arms.

Watson suggested that the convention proceed immediately to business, remarking that there had been speeches and "hot air" last night. He appointed the following committee on credentials, and a recess was taken while the committee worked:

Fourth district—Lawelawe, Sol. Kaha, Saunders, Rathburn, Ben Dole.

Fifth district—A. K. Williams, Wm. Kaal, Kuhlmann, Moses Akawa, Kahaawinui.

The following committee on rules was appointed by Chairman Watson: Fred Turrill, J. W. Asch, A. E. Carter, A. V. Peters, Jesse Uluhi, D. K. Kaapu, Thomas Clark, James M. Kaaiahua, J. W. K. Nawahine, J. C. Anderson.

### KAMEHAMEHA EXCLUSIVELY

Mr. S. M. Ballou appeared in the Circuit Court this morning on behalf of the Trustees under the will of the late Bernice Pauahi Bishop, viz., W. O. Smith, Samuel M. Damon, E. Paxon Bishop, Albert F. Judd and Alfred W. Carter, who wished to be advised and instructed whether the thirteenth clause of the will, namely, "To devote a portion of each year's income to the support and education of orphans and other in indigent circumstances, giving preference to Hawaiians of pure or part aboriginal blood" should be construed as referring to such support and education as could properly be given in connection with the Kamehameha schools, or whether such direction should be construed to mean support and education of such persons elsewhere than at such schools, and whether, in any case, support could be given independently of education. Judge Robinson said that it referred merely to education in the Kamehameha schools.

Mr. C. H. Olsen appeared for the

### EARTHQUAKE BRINGS UP A NEW ISLAND

(Associated Press Cable to The Star.)

SEWARD, Alaska, September 16.—The revenue cutter Bear arrived here today, reporting the discovery of a new island in the Bogoslof group, raised from the sea by an earthquake on September 1. The report explains the location of one of the recent severe earth shocks recorded by seismograph but not before definitely located.

The new island discovered by the Bear arose from a depth of seventy fathoms.

### DISAGREE OVER A BIG LEASE FEAR ALMOST TOLD SOMETHING

At last night's meeting of the Land Board a proposal was submitted that some 10,000 acres of government land in Kula, Maui, be leased to the Cornell Estate. The land at present leased to this estate contains an amount of corn and sugarcane land along the coast but this is taken out in the proposed new lease. An offer was made to pay ten cents an acre for the remainder of the land, and is the same as it is at present paying with the corn and sugarcane lands included.

The question of leasing the land has been advertised for sixty days but no protest has been filed. There was, however, a letter from a Peter Joseph who suggested that instead of leasing the whole 10,000 acres to the one holder, it be cut up into ten blocks of one thousand acres each, and leased to ten persons. E. G. Correa also wrote stating that he and some other Portuguese had signed a petition asking that the land be cut up into smaller blocks. He wished to know whether the petition had been received, and explained that it had been entrusted to Attorney Tavares.

The Commissioner stated that the petition had not been received. He added that possibly the writer was referring to the letter from Correa as a petition.

Mr. Trent made the suggestion that possibly the Attorney had not filed the petition, or it may be that the Commissioner had not delivered the document.

Mr. Andrade defended the attorney, and stated that he was certain that he had not been guilty of such an act. He moved that the lease be approved.

Mr. Trent would not support the motion on the grounds that he would not vote for a twenty-one years lease; that he did not think that ten cents per acre was enough, and thirdly that certain Portuguese were about to apply for leases of the lands. He considered that the board should defer dealing with the matter.

That was where the matter stood when the Board adjourned at half-past ten until Monday afternoon next.

### DEACON TRENT IS SATISFIED

Deacon Trent was an interested watcher of the proceedings of the Democratic county convention this morning. The deacon has read over the Territorial platform, and says he is for it, from start to finish. In fact he denies the stories that he was in pillbox over the party's attitude, and says he is going to run on the platform.

Attorney General's Department. The Attorney General ruled that under the thirteenth clause of the will the trustees had power to send the children to other colleges, either in the island or on the mainland.

### INSURGENTS BEAT PROMINENT ILLINOIS REGULAR

(Associated Press Cable to The Star.)

CHICAGO, September 16.—Three insurgents have been nominated in the Republican primaries, one of them defeating Congressman Henry S. Bontelle, of the ninth district, who is now serving his sixth term in Congress, and was one of the prominent regulars. Bontelle was a member of the committee on rules, and stood by Speaker Cannon in the fight in the last session. He was defeated by Gansberger.

In the eleventh district Copley was nominated to succeed Congressman Snapp, and in the thirteenth McKenzie defeated Congressman Lowden.

In the tenth district, Foss, chairman of the naval affairs committee, and a regular against whom a bitter fight was waged, won by 500 plurality.

CHICAGO, September 16.—Congressman Bontelle has announced that he will run independently for Congress.

### CHOLERA THREATENS MANCHURIA NOW

ST. PETERSBURG, September 16.—Cholera has appeared in Siberia, on the Siberian border.

### NEW TARIFF HELPS THE PHILIPPINES

WASHINGTON, D. C., Sept. 16.—Treasury department figures made public today show that American trade with the Philippines has increased 84 per cent since the new tariff law went into effect.

#### BERKELEY WON'T BE SWALLOWED.

BERKELEY, September 16.—The project of annexing Berkeley to Oakland, which has been agitated for years, has been again defeated. The advocates of a "greater Oakland" are seeking to combine Berkeley, Alameda and Oakland, with suburbs, in one big municipal corporation. Berkeleyites have vigorously fought the proposition for years, and today they repeated their former expressions against it. The campaign for combination will nevertheless be continued.

MEXICO CITY, September 16.—A monument to commemorate the independence of Mexico was dedicated today with elaborate ceremonies.

#### ADMIRAL BERRY RETIRES.

WASHINGTON, D. C., September 16.—Admiral Robert M. Berry was retired today for age.

PRINCETON, September 16.—Woodrow Wilson has announced his resignation as president of Princeton University, in order that he may accept the Democratic nomination for governor of New Jersey.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahuiki and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 mins. The time whistle blows at 1:30 p.m., which is the same as Greenwich 0 hours 0 minutes. The sun and moon are for local time for the whole group.

### ON REGATTA DAY.

Haleiwa will be a mighty pleasant place at which to spend Regatta Day, and being a holiday, the stores and offices will be closed so that persons may go down on the train Friday afternoon and enjoy a lay-off until Sunday night or Monday morning. There is much to commend Haleiwa. The surroundings are all that the artistic eye could wish for and the golf links and tennis court meet all the demands of those who are strenuously inclined. Boating and swimming will aid in passing the time during the day and at night there will be a grand moonlight dance with excellent music.

### CHARITY COVERS, ETC.

Mrs. George McFadden, the beautiful Philadelphia, who made the Spanish dance of "The Roses" the feature of the Newport season, said at a dinner, in answer to a compliment on her success with this dance:

"Yes, I had better luck than a friend of mine in Philadelphia. My friend gave a charity concert in the ballroom of her country house, and the piece de resistance of the concert was the Spanish dance, performed by six young bachelors and debutantes."

"At the entertainment's end my friend shook hands with a group of little old ladies from one of the homes to be benefited."

"And how did you like our Spanish dance?" she asked.

"The old women looked at one another in some embarrassment, and finally in a soothing voice one of them replied:

"Well, ma'am, least said soonest mended, and besides, the object was so deservin'."

### Woman's Exchange

The platform of the Democrats as adopted by the Territorial convention yesterday is as follows in its dealings with Hawaii matters:

#### Public Lands.

We heartily congratulate the Democratic party in the gallant struggle for such amendments to the Organic Act in reference to public land laws as would be of some benefit and justice to the plain common people. We are no less proud of the intelligence displayed by the people in readily detecting the hypocrisy so cleverly concealed in the land law amendments proposed by a Republican conference; endorsed by a Republican legislature; applauded by a Republican press; introduced by a Republican Delegate and advocated by a Republican Governor, but so thoroughly repudiated by congress and amended to such an extent that but little of the original section as proposed remained.

The evidence and arguments produced by local Democrats before the House Committee on the Territories at Washington, D. C., resulted in very many changes in the bill so advocated by the Republicans in Hawaii; the more important of which are as follows:

First—"No such exchange shall be made except to acquire lands directly for public uses."

Second—"Whenever twenty-five or more persons, having the qualifications of homesteaders, shall make written application to the commissioner of public lands for the opening of agricultural lands for settlement in any locality or district, it shall be the duty of said commissioner to proceed expeditiously to survey and open for entry agricultural lands, etc."

Third—"In laying out any homestead the commissioner of public lands shall include therein an amount not exceeding eighty acres in area, sufficient to support thereon an ordinary family."

Fourth—"All necessary expenses for surveying and opening any such lands for homesteads shall be paid for out of any funds of the territorial treasury derived from the sale or lease of the public lands, which funds are hereby made available for such purposes."

These principal amendments and sundry others less important secured solely by the Democrats in behalf of the common people, carry with them a practical nullification of the exchange and the fifteen year lease laws, and compel the commissioner to survey a reasonable amount of desirable agricultural lands and also pastoral lands in various parts of the Territory for homestead purposes on or before January first, 1911, and annually thereafter.

We disapprove of any upset price or any rate of interest being demanded from the homesteader and contend that he is just as much entitled to a free homestead in Hawaii as in the Philippine Islands and on the mainland. We contend that five years of actual residence upon a homestead is sufficient to demonstrate the good faith of the homesteader. We still insist upon the right of appeal from rulings and decisions of local land officers to the land department of the United States and we pledge our candidate for Delegate to Congress to never cease in his endeavors until the public land law of Hawaii is further amended substantially as shown in H. R. 21425, introduced in the house of representatives at Washington, D. C., February 19, 1910, and locally known as the "Candler Land Bill."

#### Immigration.

We oppose the Immigration policy of the territorial government and assign the following as some of the principal reasons therefor:

First—There is now a surplus of laborers in this Territory, there being only about 35,000 employed on the sugar plantations out of a total population estimated at from 180,000 to 190,000, but few of which are other than laborers. If at the expiration of two years from this time there is found to be a shortage of laborers and our citizens are employed at good wages the Democratic party stands willing and ready to withdraw the objections we now offer to assisted immigration.

Second—The changed conditions to be brought about by a more liberal homestead law will induce farmers to cultivate their own land, and two years will offer a sufficient opportunity for our public land officers to make good their present professions. We believe that our public lands should first be offered to our citizens and after they are supplied, if any unoccupied agricultural land still remains the advantages of settling upon it should be thoroughly advertised in newspapers devoted to agriculture published on the mainland, to the end that farmers who intend to "till the farms they own" may be induced to settle here.

Bringing to our Territory large numbers of aliens, who must necessarily compete with our citizens not only as to employment but occupancy of the land as well, is a grave injustice to both our present and prospective citizen population.

Therefore, we favor the reenactment and continuation of the Special Income Tax law so amended as to divert all such funds now on hand as well as all funds to be derived therefrom to the construction of belt roads around the islands, to be expended substantially in the ratio of collections of said tax in each county. A liberal proportion to be expended in the construction of numerous homestead roads so as to make a homestead lands available. All of such funds to be exclusively at the disposal of the board of supervisors in each county.

We insist upon a legislative investigation of all funds already spent upon immigration and a detailed accounting of the same.

#### Statehood for Hawaii.

All the Territories on the mainland having been admitted as states, the Territory of Hawaii stands next in the line of promotion and the platform declarations of the National Democratic Party has again and again reiterated that it only favored the acquisition of such territory as should ultimately be admitted as States in the Union, therefore our only hope for statehood lies with the success of the Democratic party. We favor immediate statehood for the Territory of Hawaii and the bright prospects everywhere apparent for the election of a Democratic majority in the next house of representatives at Washington leads us to believe that the election of a Democratic Delegate to Congress would hasten the admission of Hawaii as a State.

#### Liquor Legislation.

We fully approve of the prompt and effective action taken by the Democratic Territorial Central Committee in passing resolutions relating to the Curtis Prohibition Bill while the same was pending in congress. Said resolutions, dated February 7, 1910, are as follows:

"Whereas, A large majority of the voters of these islands do not approve of any legislation being enacted for the Territory of Hawaii not applicable to other Territories, believing the electorate fully capable of self-government and

"Whereas, There is now pending in the congress of the United States a bill embodying special legislation to prohibit the liquor traffic in the Territory of Hawaii, and

"Whereas, The electors of this Territory should be permitted a voice in determining said question, therefore, be it

"Resolved, That the congress of the United States, in the event of the passage of said bill be, and it is hereby, requested to amend the same so that the question may be submitted to a referendum vote of the electors of the Territory of Hawaii at the ensuing general election. A majority of all the votes cast at said election being necessary for its adoption."

Though the question was not withheld until the general election the principle of referendum advocated by the local Democrats was adopted by congress in this matter, hence the plebiscite election of July 26, resulting in the defeat of prohibition. Though we deny that the vote then taken was any endorsement of the present liquor law we believe that any changes sought to be made therein by the legislature of Hawaii should be submitted by referendum to the people to be voted upon at the following general election and we pledge our candidates for the legislature to that course.

#### County of Kalawao.

We commend our members of the legislature to careful study of the County of Kalawao and the management thereof by the board of health. It is believed by many of the residents of said county that management under and by a non-partisan board, or commission, would be preferable.

The fact that nearly one hundred people who had been confined at the settlement for years and liberated through a resolution introduced in the legislature by the late Senator Harvey is conclusive evidence that the people throughout the Territory must be ever alert in causing investigations to be made whenever any complaint by the people of the settlement seems to be reasonable.

We pledge our candidates for the legislature to the passage of a law by which any person may try any cure for leprosy within reasonable regulations if such proposed cure is desired by any one so afflicted, and we further pledge liberal appropriations both Territorial and Federal for the care, comfort and cure of our fellow citizens detained at Kalaupapa.

#### Equity of Redemption.

We demand the enactment of a law securing the equity of redemption for

one year after any sale of real estate under foreclosure of mortgage, tax sale or execution sale upon payment of principal, interest and costs, and we severely criticize the Republican majority in the legislature during the past three sessions for defeating such a bill in each session. Nearly every State in the Union has such a law on its statutes and it is self-evident that such a law not only protects the poor man, but serves to prevent real estate from being consolidated in the hands of the few to the detriment of the many.

#### Fundamental Democratic Laws.

We pledge our candidates for the legislature to the enactment of the following laws which are fundamentally Democratic and the electorate will take no excuse for failure to vote for the same, namely: Direct Primary; Initiative; Referendum; Recall; and a law preventing corrupt practices similar to that upon the statutes of the State of Oregon. Such laws are in force in many of the States and have proven meritorious beyond question.

The recent scandals connected with the primary election in the Republican party and charged and counter-charged by leading Republican papers demonstrates the necessity for a Direct Primary Law in this Territory.

We regard the plank in the Republican party platform recently adopted, declaring for a direct primary law applicable to the island of Oahu, only, as the most ridiculous.

#### County Control.

We insist upon a more rapid expansion of county government and the addition of more elective offices who are subject to the will of the people in the performance of their public duty, namely: Recorder of Deeds; Tax Assessor; County Superintendent of Schools; County Surveyor and such other officers as may be found necessary to carry on the business of a county under such county government as obtains on the mainland. There is absolutely no reasonable excuse for withholding from the people their right to govern themselves to the full extent of complete county government which includes the right to issue bonds levy and collect taxes and do all other county business not prohibited or limited by the Organic Act.

#### Appropriations for Liliuokalani.

We pledge our candidates to the legislature to continuation of the usual appropriation for former Queen Liliuokalani, and pledge our candidate for Delegate to Congress to introduce and support a measure by which she shall be provided with a pension from the Federal treasury for such amount as congress may deem appropriate.

#### Hawaiian Language.

We pledge our candidate for Delegate, if elected, to work for the repeal of the law embodied in the bill introduced by Delegate Kalanikaula limiting the use of the Hawaiian language relating to government to ten years and we contend that there is no justification for such a law.

#### Vested Fishing Rights.

We urge upon congress the necessity of appropriating money and to acquire by condemnation, if necessary, all vested private fishing rights in this Territory and to open the same for public use, and also, to pass such laws as shall not abrogate any treaty rights but will protect the fisheries of Hawaii for the benefit of its citizens.

#### Employer's Liability.

We insist upon our legislature revising the laws relating to employers and employees, modernizing the same along the lines of the Employer's Liability Act passed by congress.

#### Water Rights.

We pledge our candidates for the legislature to revise and amend the law relating to water rights so as to more completely protect the people in the proper use of water to which they are rightfully entitled.

#### Incorporation of Cities and Towns.

We favor the passage of a general law, by the legislature, by which towns and cities may become incorporated and maintain a municipal government for such purposes separate and apart from county government, such government to be initiated by vote of the resident electors within the area sought to be incorporated and that such incorporated city or town be prohibited by law from granting any exclusive franchise, and empowered to own and operate electric light plants, street railways, water works and every other public utility with the right to issue bonds for the construction and maintenance of the same coupled with the right to levy and collect taxes for all municipal purposes.

#### Citizen Labor.

We repeat the citizen labor plank of our platform for 1908. We favor a strict enforcement of the citizen labor and eight-hour laws, including labor on the territorial wharves and wharves licensed by or leased from the government; and demand that in granting any license or making any lease for wharf purposes, these conditions shall be inserted. We endorse the minimum wage of \$1.50 per day of eight hours on all the public works in the Territory whether federal, territorial, county, or municipal, and we pledge our candidate for Delegate to Congress to introduce and work for the passage of a bill conforming to our lo-

cal citizens labor law, and requiring all federal public works in the Territory of Hawaii to be performed by citizen labor only, remembering that the present Republican Delegate introduced such a bill but never did anything more.

#### Education.

The Democratic party will support, as in the past, liberal appropriations for the education of the young, and for the more liberal payment of the teachers to whose hands such education shall be committed. But we view with dissatisfaction the increasing tendency of our educational authorities to depart from the solid and elemental branches of primary education and to engraft upon the curricula of even our primary schools certain expensive fads of no practical utility, whereby the time and efforts of both teachers and pupils are diverted from their true aims, the more necessary features of a practical education are neglected, and the expense thereof increased.

We feel that the administration of this important department should be brought nearer to the people, through the assumption by the people's representatives in the legislature of a greater degree of control over the subjects to be taught and the methods of teaching and administration.

We deplore the great increase in the expense of providing books and other material for the use of pupils—now grown to a figure beyond the means of poor parents. This figure should be regulated by legislation and necessary books should be freely provided for the children of the poor.

As the law now stands, the expense of building and maintaining school premises rests upon the counties, but those thus obliged to supply the funds have no voice in the administration of the schools for which they pay. Therefore the Democratic party will support legislation looking to the ultimate, but gradual, assumption by the people of the respective counties, of the control of the schools.

We favor raising the school age to eighteen years.

#### Public Service Corporations And Transportation.

One of the most pressing needs of the Territory, in order to the development of small industries, is cheaper transportation than now prevails by land and water, between different points. The rates of passengers and freight traffic, telegraphic, telephone, water service, etc., etc. should be regulated by law.

To this end the Democratic party will endeavor to secure the adoption of legislation providing for the establishment and maintenance of a commission to regulate such rates and fares within the Territory, or if thought more expedient to investigate conditions, and report to the legislature, in order that the legislature may enact statutes to regulate such charges.

#### Taxation Reform.

We favor a law by which taxes upon land shall be levied according to the products raised thereon and the receipts from the same.

We denounce the unequal and unfair tax laws of this Territory which have been under consideration by various commissions provided by the legislature and appointed by the Governor, but no reform or improvement has yet been made.

#### Election of District Magistrates.

We favor the election of district magistrates by the people.

#### Vaccination.

We favor a law by which all vaccination in the Territory of Hawaii shall be performed by Federal authorities, and that all virus used therefor be sealed under authority of the United States Health Department.

#### What Congress Should Do.

We urge upon Congress the further amendment of the Organic Act so as to:

- Abolish the office of superintendent of public works;
- Abolish the office of high sheriff;
- Allow election of public boards by the people as well as by appointment;
- Prohibit the ownership of real estate by aliens;
- Restrict the private ownerships of real estate by individuals to a reasonable limit;
- Extend the reclamation service to Hawaii, under authority of the secretary of the interior, and also to
- Appropriate money for the entire care of the leper settlement;
- Appropriate more money for federal agricultural experiment station;
- Appropriate more money for the agricultural College of Hawaii and maintain experimental farms on each of the four principal islands.

We pledge our candidate for Delegate to Congress to work for all the above provisions and appropriations.

## DEMOCRACY'S MAIN PLANK.

If it were practicable, the Democratic policy on the matter of the special income tax on corporations might open a field for rational discussion. As there is not the slightest chance of putting the policy into effect, even if the Democrats should have a landslide from Hawaii to Niihau, all debate on the merits of this plank will be futile. The tax in question is the result of a bargain between the government and the planters with the single purpose of securing a supply of labor from abroad for the sugar plantations. If either party to the compact withdraws, the measure will be as dead as Julius Caesar. There is a fighting chance for the success of the Republican policy in the matter, which is a compromise whereby a portion of the tax may be devoted to certain needy public services, in addition to conservation now receiving a quarter of the fund.

Yet although it is idle to discuss the intrinsic value of the Democratic proposal of how to expend the proceeds of the tax, the issue has to be met by the Republicans to the extent of unconvincing the voters relative to the false prospect held out to them. The lure of loads of money to be spent under the unrestrained control of the counties upon belt roads is great. As the tax for such a purpose is utterly impossible, it is incumbent on the Republican campaigners to make it plain to the people that the promise is made only to fool them. This should not be hard to do.

Of course it was Land Baron McCandless who suggested this plank in the Democratic platform: "Restrict the private ownership of real estate by individuals to a reasonable limit." Perhaps he now has all the land he wants and does not want to see the other fellow grow land poor.

## THE TRUE CONSERVATION.

Attorney-General Wickersham, on returning from Alaska in company with Secretary of Commerce and Labor Nagel, is reported as saying:

"We came to see a little place called Alaska, but discovered a big one. I realize more and more the importance of opening the coal lands. It is evident that this transportation cannot be furnished until recommendations that will result in straightening out the present tangle. The great necessity of Alaska is railroad transportation, as upon it depends the adequate development of mines and agricultural lands. It is evident that this transportation cannot be furnished until the coal lands are opened, for cheap coal is required to operate a railroad. I am in hopes that something will be done in this matter this winter."

It is only fanatical conservationists who would have the natural resources of Alaska locked up indefinitely. True conservationists would have capital go in and develop the country, under due regulation of law, which would prevent the evils born of unrestricted combinations. Hawaii would share with the Pacific Coast in the benefits of cheapened fuel if the Alaska coal fields were made to yield of their store.

As an argument for government support to American shipping, the San Francisco Examiner shows that, instead of having free coffee, as the face of the tariff would indicate, the United States is paying a tariff on coffee amounting to about seven cents a pound to the foreign steamship trust. Germany, the Examiner points out, levies a tax of seven cents a pound on all the coffee that enters its ports, yet the Germans do not have to pay more for their roasted coffee at retail than the people of this country. This coffee tax yields millions of revenue to Germany, to the lightening of other taxes and the support of her merchant marine. The argument is as strong for a duty on coffee as for a ship subsidy. Coffee would not be made dearer by a reasonable duty upon it, while the revenue would provide funds for building up the American merchant marine.

## POLICE REFORM.

San Francisco, or any other city, will never have an honest and efficient police force until the peace establishment is divorced from politics. The conditions obtaining in a modern city demand that police be treated as a science, with trained specialists of unexceptionable character to apply it in practice. A police commission representative of all parties should be the appointing power under civil service rules. There is no more reason why policemen should be the creatures of parties than that the national soldiers and sailors should be such.

"Appropriate more money for federal agricultural experiment station. Appropriate more money for the agricultural College of Hawaii and maintain experimental farms on each of the four principal islands." As Hawaii is receiving her full share of federal aid to the objects mentioned, along with all the states and possessions, the foregoing requests of Congress the local Democracy proposes to make are nothing more than flim-flam to catch votes.

There are some good points in the Democratic platform where it deals with education. Although the Republican party's deliverance on this subject is rather shy of practical ideas, when it comes to legislation on educational matters the Republicans will belie the party's record if they do not produce measures both safe and sound.

### The Poet Philosopher

Young Alexander Jimpson Jopp was working in a hardware shop, and as he wrapped up iron rails, and anvils, bolts and kegs of nails, and knives and screws and pigs of lead, he often to his fellows said: "This labor makes me tired, by jings! For I was built for higher things. I'm fitted to adorn the bench instead of selling monkey-wrench, and spade and hoe and tailor's geese, and evil-smelling axle grease." He loathed the work he had to do, and cursed it till the air was blue. Young Richard Henry James Kertopp was also working in that shop; he carried anvils all the day, and as he toiled he used to say: "There may be better jobs than this, imparting more of ease and bliss, but I will do my best, and strive, to show the boss that I'm alive; I may be built for higher spheres, but I won't wet the shop with tears. If those blamed spheres are hunting me, they'll find me busy as a bee." Young Alexander Jimpson Jopp still sweats around that hardware shop, and carries anchors to and fro, and draws a paltry bunch of dough, while Richard Henry sits in state, wears hard-boiled shirts and pays the freight.

WALT MASON.

THE LAST-MINUTE WOMAN.

She flourishes at all seasons, does the last-minute woman; but she is at the height of her tribulations at vacation time, unless it be that Christmas time divides honors with this season.

Just now she is going away, possibly to Europe. She has known for months that she is going to Europe, that she will want certain kinds of clothes, some special things for the steamer, such as cushions and little handy bags, that she will need guide books, and various other absolutely essential, if the trip is to be comfortable, and furnish its due quota of pleasure. Yet the week before she sails arrives, and her clothes are not ready, her guide books not purchased, not a cushion or bag provided. There is a frantic scurrying for dressmakers, urgent appeals to stores to send things by special delivery, piteous requests to friends to come and help her out. It becomes so imperative to get, even this last week, the eyeglasses her physician has been telling her for a year she must have. She goes aboard the steamer as the gangplank is being drawn up, almost on the verge of hysteria, not knowing whether she has half the things she needs or not.

It makes no difference what sort of vacation trip she is taking, the experience is just the same. And it is the same every year. She never profits by her past mistakes. When she is going to have the dressmaker, the last-minute woman is never ready. The date has been set months in advance, yet the dressmaker arrives, and sits and holds her hands, while needles and sewing silk and other essential notions are hurriedly rushed out and purchased. If she has an engagement for the theater or dinner, she is never ready, because at the last minute a lot of neglected things have to be done. The last-minute woman is a sore trial to those about her, but she is more of a trial to herself. She is worried, harassed. She misses much of the pleasure of the pleasurable affairs, and she adds much unnecessary work to the work of life.

## NEWSPAPER VISITOR.

Arthur Holliday and wife and Dr. Soper and wife form a party arriving in the Sierra this morning, to change over here to the Zealandia and proceed to Australia for a tour or the Colonies. Holliday is a leading writer of the San Francisco Examiner, and is expending today collating information for his paper. The party took big chances on connecting with the Zealandia, and were very much pleased to find that that boat had not yet arrived and they would have a day in Honolulu.

## NOTICE TO CANDIDATES FOR ELECTION TO CITY AND COUNTY OFFICES.

Notice is hereby given that, whereas it is required by law that candidates for election to City and County offices, on the Island of Oahu, shall deposit their nominations with the Clerk of the City and County of Honolulu, T. H., not less than 20 days before the day of election, it shall be necessary that such nominations be filed in this Office not later than twelve o'clock midnight of Tuesday, October 18, 1910.

In order to be eligible to fill any elective office created by the provisions of Act 118 of the Session Laws of 1907 of the Territory of Hawaii, a candidate shall be a citizen of the United States of America, and of the Territory of Hawaii; he shall have been a duly qualified elector of the said Territory and of the City and County of Honolulu for at least two years next prior to his election; excepting in the case of the Mayor, who shall be an elector of the City and County at the time of his election, and must have been such for at least three years next preceding such election. In the case of the Deputy Sheriff, he shall have been a duly qualified elector of said Territory and of the City and County of Honolulu for at least two years next prior to his election, and in addition thereto, he shall be a person residing in the district for which he is a candidate, and shall be elected by the duly qualified electors of such district. In the case of the City and County Attorney, he shall have been a duly qualified elector of said Territory and of the City and County for at least two years next prior to his election, and be a duly licensed attorney admitted to practice in the Supreme Court of the Territory of Hawaii and have practiced law in the City and County for at least two years.

Within the City and County of Honolulu the following City and County officers are to be elected:

A Mayor;

Seven Supervisors;

Other officers to be elected for the City and County of Honolulu, by the duly qualified electors of said City and County are:

A Sheriff who shall be ex-officio Coroner, a City and County Clerk who shall be ex-officio Clerk of the Board of Supervisors, an Auditor, a Treasurer, and a City and County Attorney.

Within each and every one of the districts of Honolulu, Ewa, Waiānae, Wailua, Koalaupoko and Koolau, in the City and County of Honolulu, there shall also be elected by the qualified electors thereof one Deputy Sheriff.

Nomination for each City and County Officer must be accompanied by a deposit of Twenty-five Dollars and be signed by not less than twenty-five duly qualified electors of the City and County of Honolulu.

Nomination for each Deputy Sheriff must be accompanied by a deposit of Twenty-five Dollars and be signed by not less than twenty-five duly qualified electors of his respective district.

Should any candidate desire that his name be printed on the ballot in the Hawaiian as well as in the English language, he must make a special request in writing to that effect at the time of filing his nomination.

D. KALAUOKALANI, JR., Clerk, City and County of Honolulu, McIntyre Building, Honolulu, September 12, 1910.  
3ts—Sept. 13, 16, 21.

## BASEBALL TEAM INVITED TO CALL

The Promotion Committee discussed a number of topics yesterday afternoon, among them being a proposal to invite the Chicago baseball team, soon leaving Seattle for Japan, to call here on their return and play a series of games. It is understood, however, that this team is booked for the round trip via the northern route, and to come away down here would cost a great deal of money. The matter was referred to Secretary Wood, who will take it up with the local baseball men.

The matter of the Floral Parade poster is also under consideration. There are now ten designs in hand, some fairly good but most indifferent. After looking them over the committee decided to pass the "buck" up to a special committee, on which were named D. Howard Hitchcock, J. T. Warren and E. Towse.

It was decided to take up at the next meeting the subject of street eye-sores, with the object of remedying same if possible. In furthering the idea, Allan Herbert was invited to attend and present his views.

## "WAT'S THAT?"

"A rate of 15c per kilowatt hour will apply for the first two kilowatts burned per month, for each 16-c. p. lamp installed or its equivalent. A discount of 9c per kilowatt will be given on all current in excess of two kilowatts per 16-c. p. lamp per month, etc."—Part of a notice sent out by the Hawaiian Electric Company.

## NEW DIRECTORS.

The following additional directors of the Bank of Honolulu were elected yesterday: A. N. Campbell, H. M. Whitney and W. H. McInerney. Richard Ivers and H. F. Lewis have resigned on account of leaving the country.

## CARNEGIE ARCHITECT.

Architect Whitfield, who is coming here from New York to plan the Carnegie library, reported by today's mail that he would be a passenger in the Siberia, due to arrive next Monday morning.

## SIERRA BRINGS NOTABLE PEOPLE

The Oceanic Steamship Company's steamer Sierra arrived in port early this forenoon from San Francisco having made the run across the Pacific in five days seventeen hours thirty-four minutes. The liner left 'Frisco two and a half hours behind time, but notwithstanding this she arrived on schedule time and berthed at the company's wharf, after being boarded by Drs. Raymond and Collins, shortly after eight a. m. For the first twenty-four hours after leaving San Francisco the Sierra was in a strong north-westerly gale with heavy sea running but the ship behaved beautifully. There were 150 passengers in the saloon, and twenty in the steerage. The vessel had on board 2100 tons of cargo and 140 sacks of mail matter. Included in the cargo were eight automobiles, one horse, four monkeys and a pedigree under shot bull dog, which latter has been shipped through Wells Fargo Express consigned to Mr. Williams. The dog is a valuable one, being listed at from \$250 to \$500.

Among the passengers were many who have their residence in Honolulu and others who are making the trip here for the first time. Captain M. M. Johnson and Victor Hurd, who have been on a trip to the states, returned bringing brides with them, and both will make their home in the islands for some time to come. They will receive the hearty congratulations of their many friends in the islands.

The members of the Hawaiian Rifle team which went to Ohio to compete in the National shooting competitions returned by the Sierra, after having done very well indeed at the butts. The list of the members of the team who returned is Major W. R. Riley and Major G. Rose, Captains C. M. Coster, E. Hopkins, M. M. Johnson; Lieutenant Luther Elvans; Sergeants W. Hulihui, A. T. Longley, S. Pinao, H. H. Williams, Silva and J. Stone; Privates J. K. Evans and D. K. Lemon.

Mr. James Wakefield, manager of the dry goods department of Theo. H. Davies and Company, accompanied by his wife, also traveled by the Sierra, after having spent four or five months

## HONOLULU WELLS SPOUT MUCH OIL

The San Francisco Call of September 7 contained the following:

The Lakeview is still making about 17,000 barrels per day, the great well 79 of the American oil fields on section 6-31-22, is variously estimated all the way from 22,000 to 40,000 barrels, the same company's well No. 68 has been doing 5,000 to 6,000 barrels, the Santa Fe's gusher on the same section was doing about the same, the Consolidated Midway's gusher in the north Sunset field is still keeping up its good record and still is under control so that it may be turned off or on at will; the Midway Northern on the southwest quarter of the northwest quarter of section 31-12-23 was flowing Sunday; the M. & T. has been spattering the crown block at intervals all the week, and well No. 1 of the Honolulu on section 4-22-21, finished this week with a depth of 2,700 feet, has been flowing by heads at a 500 barrel rate.

This list does not include the old wells that are gushers no more, nor the intermittent gushers that are taking their summer vacations. The Honolulu's new well was finished with a 4 1/2 inch casing and the oil is of 18 gravity, which is surprisingly heavy considering the depth and the character of other oil found in the vicinity. The oil from the Honolulu's well No. 1 on section 10 is of 29 gravity. A great flow of gas was encountered in the well on section 4, but it was cased off.

## WALDRON REPORTS.

Cards were received in yesterday's mail from Fred L. Waldron, president of the Merchants' Association, dated at Melbourne. To Secretary E. A. Berndt, of the Association, he enclosed a picture of the parliament house in Melbourne, and on the back of it he wrote his endorsement of a similar design for the Federal building here.

## MANY TOURISTS COMING.

Information was received from San Francisco this morning that the Sierra is booked full for the next three trips to the islands, and bookings are now being made as far ahead as midwinter. Other steamers are equally crowded.

In Europe, partly on business bent and partly on pleasure.

Other prominent personages to arrive were Mr. C. J. McCulloch, member of the New Zealand Legislature, who is returning to his home by the Zealandia which sails tomorrow; L. P. George, instructor in mechanical engineering who is to take up a position in the Kamehameha School; E. A. Jones, grandson of P. C. Jones; Dr. and Mrs. Soper, who are also going through to Australia on the Zealandia; Mr. J. M. and Mrs. Oat, the former being well known as having been postmaster general in Honolulu for about fourteen years, returning from a visit to the states; Mrs. W. H. Scott, Miss Anna Scott, Miss E. Scott, Miss Rice, and maid, Miss Rice being on a visit to her mother at Kauai; H. H. Scovell, hardware traveler, who visits Honolulu annually; Hon. H. T. Moore and A. D. Castro, members of the local legislature; Mrs. J. N. Jorgensen, who is going to join her husband at Pearl harbor.

Purser T. C. Smith, of the Sierra is looking as well as ever and has all the news of the trip at his finger tips.

## SEARCH BOOTLESS

After exhaustive inquiries Marshal Hendry and his staff have been forced to give up, to a great extent, the chase for the remaining five men who broke quarantine from the Matson steamer, Wilhelmina. The marshal was seriously handicapped by the fact that these five men were unknown, and the Wilhelmina having sailed there is but little prospect of their being apprehended now, as it is thought that they have left the island. On Wednesday last a wireless message was sent to Hilo asking the authorities there to try to discover if H. Morganson had taken refuge there. So far no reply has been received, so it is assumed that the search is still proceeding. When the Wilhelmina was in port the chief engineer, the purser and the chief steward, in whose departments the men were employed, gave valuable assistance in locating the runaways, but with the departure of the vessel the marshal and his staff have been practically compelled to abandon all further search, as the probability of locating the unknown men is very small indeed.

## ANOTHER SLACK SEASON IN STOCKS

This has been one of the dullest days of the month in stocks both as to trading and inquiries. There was scarcely a ripple of interest on the board this morning, and reports from the street were not encouraging. Nothing in the situation can be directly charged with the lack of enthusiasm, however, the market appearing to have merely fallen under one of those occasional spells of inertia which, of late, have been more frequent than welcome.

Between boards there was a sale of 25 Walluku at \$185, which was the basis of the last previous sale. This stock appears only occasionally in the trading. At the close this morning \$180 was bid for more, but none offered.

Another sale between boards was that of 25 Honokaa at \$18, this being about the former basis. At the close \$17.875 was bid and \$18 asked for the stock.

On the board this morning 10 shares Oahu sold at \$32.50, after which \$32.375 was bid and \$32.625 asked.

Interesting quotations without sales were: Hawaiian Commercial, \$39.75 bid and \$40.25 asked; Pioneer, \$225 bid and \$230 asked; Waiānae, \$129 bid and \$129.50 asked. Pioneer, it will be observed, is at least a dollar off.

## REPORTS OF DUN AND BRADSTREET

The weekly review of trade of R. G. Dun & Company (New York), dated September 10, contained the following:

There is a continuance of former mixed conditions of trade and industry which is less pronounced in productive sections than in the distributing markets. It shows most clearly in the speculative and financial centers, which are exceedingly sensitive to political influences. It is felt in some industries more than in others, there being an uneven development of trade. But in spite of the reaction, a vast aggregate of business is being carried on, making a really high average of transactions.

The profit of commerce, however, is not so evident as its volume, the margin between cost and price narrowed and leading in some cases, notably in Cotton spinning, to suspension of operations. While conservatism among buyers makes for purchases limited to current needs, yet there is no sign of any collapse of confidence, the crops are turning out much better than was feared, the banks are in a secure position, and there is for the

most part a more optimistic feeling.

Some check to the recent rapid decline in Pig Iron Production is indicated by the returns covering the output during August, which, while showing the smallest total since July, 1909, compared closely with the figures for the previous month.

Reports from leading jobbers of Dry Goods indicate a steeper distribution, but the volume of business is still below that of recent active years. Mills making Cotton Goods are still conservative in their desires to operate for Stock Goods, and curtailment is going on steadily. Some export business is being done with Australia, the Philippines and South America, but trade with the Far East is dull. Distinct improvement is noted in the demand for Silks and the Yarn trade is on a steeper footing.

Footwear lines continue quiet. Jobbers buy cautiously, and wholesalers hold off for lower prices. Trade in Leather is quiet and, though some increase in the demand was noted a week or so ago, no further improvement has since occurred.

Textile lines, also New York, reported on the same day as follows:

Developments of the week have been largely favorable, including better weather and crop reports, a larger distribution of fall goods by jobbers and retailers, more cheerful reports from the Iron and Steel trade, some resumption of textile mills, reduction in the number of idle cars, and a shading in prices of leading farm products.

All these have combined to make for a more optimistic feeling in general trade and industrial lines, but in financial circles there is little apparent gain in activity or strength, owing largely to the continuance of political activity, the rapid reduction of money supplies at the country's banking center, and the fear of a pinch in supplies later, with a possible effect upon rates.

The enlargement in jobbing and retail trade is not entirely uniform. Best reports come from the West, where unprecedented marketing of Cereals at good prices help trade and collections. At some Southwestern cities house trade is smaller, as buyers have returned home, but traveling men's orders are better.

On the Pacific Coast more is doing in trade, but collections still lag.

The Cotton crop movement has begun at the South and trade and collections feel some impetus the reform. Eastern trade advices are of some expansion in demand, but here conservatism as to buying far ahead, visible throughout the country, is most marked and there is less optimism than in Western advices.

Business failures in the United States for the week ending September 8th were 183, against 179 last week, and 119 in the like week of 1909; 191 in 1908, 172 in 1907 and 164 in 1906. Business failures in Canada for the week number seventeen, which compares with twenty-five for last week, and twenty-five for the corresponding week last year.

Wheat, including Flour, exports from the United States and Canada for the week ending September 8th, aggregate 1,511,068 bushels, against 1,924,188 last week and 2,615,683 this week last year. Corn exports for the week are 276,452 bushels against 216,403 last week and \$2,872 in 1909.

During my absence Mr. Geo. Paul will receive subscriptions for stock in Lakeview Oil Co., No. 2—at 1139 Fort street, next to Convent. J. Oswald Lutted, Agent for Hawaiian Islands.

## COL. PETER LEE'S VOLCANO HOUSE

Colonel Peter Lee, of Kuristown, Hawaii, is again forward with his plan for a new hotel at the volcano. He has revised his old prospectus and will make the start of floating the proposition both here and at Hilo.

It appears that Mr. Lee has secured a 21-year lease of 4.32 acres of land from the Bishop estate on the volcano road at 29 1/2 miles, close to the new volcano road and one and a half miles nearer the volcano than the present hotel. A carriage road will connect the hotel with the crater, the ride being only from five to seven minutes.

The proposal is to have the new hotel open not later than July 1, 1911. The stock of the corporation will be \$15,000, with privilege of increasing to \$25,000. This is a modest amount, but Mr. Lee accounts for the fact in the very low ground rental to be paid. Mr. Lee would be the manager of the new hotel, at a salary of \$100 a month and living expenses.

One of the most important announcements made in the prospectus is as follows: "Judging by past experience I know I can cut the rates now charged for similar accommodations in half, and still make money." This is refreshing, and suggests that somebody must have been making a lot of money out of volcano business in the past. Mr. Lee also calls attention to the proposed extension of the railroad from Glenwood, which will pass near his hotel.

CLOSING FOR THE SEASON.  
Helen (at the shore)—Well, the time has come for us to part.  
Harry—Well, if you'll return my presents I'll sign off from any future breach of promise action.

## What About That Dandruff?

There is just this much about it: Dandruff is a germ disease, is most untidy, annoying, and leads to baldness. When chronic, it is very stubborn, but surely yields to thorough and energetic treatment. All germs must be destroyed, the scalp must be restored to health. Here is the remedy: Ayer's Hair Vigor. Ask your doctor about using it.

# SPORTS

## REGATTA PROMISES GOOD SPORT

Tomorrow morning the greatest aquatic sporting event of the year will be pulled off—the fourteenth celebration of Regatta Day, which will be held on the calm and eminently suitable rowing course in front of the club houses of the Heian and Myrtle Boat Clubs. The course extends from the coral reefs at the north end of the channel to the wharves at the southern end, and given anything like fine weather good times should be recorded by the competing crews. For the past few days the water has been very smooth and the weather good. All who are interested in the sport will hope that similar weather will prevail tomorrow. The keenest of rivalry exists between the two clubs but it is rivalry of a very friendly nature and we have no doubt but that the losers in each event will be the first to congratulate the winners. The competition between these two clubs is of many years standing and this invests tomorrow's events with an interest which is often lacking in similar contests. Partisans of both clubs are loud in their prognostications of victory for the crews they are supporting, but from the training that has been done it is not unduly stretching one's imagination to assert that the Heian crew stand a much better chance of winning than they have done in the past. In the senior events, at least, the Heian crew hope to lower the colors of their doughty opponents and indeed in the Freshman event it would not be very surprising if the Heian men succeeded in catching the judges' eye first. True, in this event the Heian men are laboring under a disadvantage regarding boats, as the craft they will use is inferior in many respects to the boat to be used by the Myrtle freshmen. This is rather unfortunate but notwithstanding this handicap an excellent race is expected although it is confidently anticipated in many quarters that the Myrtle crew will more than hold its own. Dame Fortune has so frequently smiled on the Myrtellites in the past that such an untoward happening as defeat seems hardly to have entered into the calculations of their supporters, but nonetheless the crews of this club have not been taking any unnecessary chances which might jeopardize their prospects. The crews have trained hard, realizing that an opponent, however weak, cannot be totally despised. For some time past the crews have been out in the boats and various have been the changes made in the personnel of the different crews. Now, however, the final selections have been made and the representatives of each club who have been chosen to defend the flag are in as good a fettle as could be expected. Exciting racing is promised and whichever crew loses the other, as one of the prominent

oarsmen remarked, will "know that there has been a race when it is all over." Heian men are confident that the Myrtle crews will not have the clean sweep they have had in the past. They are also calm in the belief that they will put up a far keener struggle even if victory does not go their way. And in Myrtle club circles the same optimism prevails.

With the assurance born of a long succession of victories the Myrtle crews will enter the race strong in the belief that their prowess will carry them through the ordeals with success.

What will no doubt prove to be one of the most interesting features of the regatta is the race between the veterans, Judge Robertson and Prince Cupid against Charlie Chillingworth and Thompson. This special event is the outcome of an argument as to the respective merits of the two pairs and in order to settle the controversy in the most equitable manner a race was arranged and the Sam Parker trophy was put up. Each of the four participants in this half-mile pair oar race has done considerable training, and the only question which now confronts them is "Can they come back?" With in the past few years there have been many instances of athletes failing to "come back" after they have been quiescent from a sporting point of view for some time, but here all are in the same fix and though records are not likely to be beaten it is not beyond the realms of possibility to imagine that a close encounter will result when the two crews meet.

Another interesting encounter will be the canoe race between the champion Hawaiian crew and the Outrigger boys. The American crew has been doing excellent work, but as they are meeting the Hawaiians at their own particular game it will not be surprising if the Hawaiians win. However, K. Brown has his men well in hand and will make a good showing.

The crews selected are as follows:  
**Senior Six-oar Sliding Seat Barge Race**  
Heian—Bert Heilbron, stroke; Robert McCriston, No. 5; Joe Kamakau No. 4; Walter Ryeoff No. 3; L. Cunha No. 2; V. Fernandes, bow.  
Myrtle—W. Lyle, stroke; Walter McDougal No. 5; Jack O'Brien No. 4; Bob Chillingworth, No. 3; Paul Schmidt, No. 2; Oscar Myhre, bow.

**Six Paddle Canoe.**  
Outrigger Club—Will Cottrell, stroke, Francis Dodge No. 2; Eddie Melanphy No. 3; Alfred Young, No. 4; Randolph Hiltchcock, No. 5; and K. Brown, No. 6.

**Hawaiian Crew—**Kula, Pallaka, David Makunole, Maunahau, John Kulua-hiwa, Palakiko and Una, stroke.  
**Freshman Six-oar Sliding Seat Barge.**  
Myrtle—Eddie Sheeber, stroke; B.

Director, No. 1; Harry Bailey No. 4; B. Smith, No. 5; Lester Marker No. 2; E. Land, bow.  
**Heian—**Frank James, stroke, C. E. Myhre, No. 5; C. B. Whitmore, No. 4; E. Hennes, No. 3; L. Borogale, No. 2; H. Lemper, bow.

**Senior Pair Oar Boats.**  
Heian—Bert Heilbron and J. Kamakau.  
Myrtle—J. O'Brien and C. Dickson.  
**Junior Pair Oar Boats.**  
Myrtle—Byron Girdler and Eddie Sheeber.

**Heian—**C. Brown and W. James.  
There will also be a sailing race for sea winds and pearls. In the former class the entries include the Seamen, Galloping Mary, Roaring Girdler and Dancing Sally. In the latter class, Pearl, Ivy, and Viking will start.

The following are the members of the committee in charge of the function:  
Judges—W. W. Harris, W. E. Drake and Captain Cochrane.  
Starter—George Turner.

### SWIMMING.

A movement is on foot to organize a swimming carnival within the next couple of months, in which it is hoped that the Myrtle and Heian Clubs will combine and bring off a festival worthy of Honolulu. In addition to ordinary swimming races it is suggested that water polo matches be played and that various diving competitions be arranged. Unfortunately swimming sports have languished in Honolulu, but there seems no reason why this should be so. All the facilities necessary for the holding of these sports are available and there is plenty of talent in the islands. A water polo tournament open to all comers would prove a splendid drawing card if taken up in the right quarters.

### BASEBALL.

A meeting of the members of the Oahu Baseball League was held at the offices of Charlie Chillingworth last evening, at which the financial question was satisfactorily arranged and it was decided to go ahead with the second series of the league. The series will commence on Sunday week at the Athletic Park and will extend over a period of six weeks in all. Twelve games will be played, each team playing six. The umpires selected were Messrs. Chillingworth and Desha, and Antonio Marcellino was authorized to secure a cup for the winners of the championship. The schedule of games is as follows:

Sept. 25—U. S. M. C. vs. J. A. C.; C. A. C. vs. P. A. C.  
Oct. 2—P. A. C. vs. U. S. M. C.; C. A. C. vs. J. A. C.  
Oct. 9—J. A. C. vs. P. A. C.; C. A. C. vs. U. S. M. C.  
Oct. 16—P. A. C. vs. C. A. C.; U. S. M. C. vs. J. A. C.  
Oct. 23—J. A. C. vs. C. A. C.; P. A. C. vs. U. S. M. C.  
30—U. S. M. C. vs. C. A. C.; J. A. C. vs. P. A. C.

## CANNON IS IN THE FIELD AGAIN

CHICAGO, September 16.—Speaker Joseph G. Cannon has been nominated at the primaries for reelection to congress where, if elected, he will make a gigantic effort to retain the gavel. His friends predict that the next congress will be safely Republican, with Mr. Cannon seated in the chair, though his enemies declare that Cannon cannot be again elected speaker.

Representative George E. Foss and Henry S. Boutell have probably been defeated. Representative James R. Mann is running close.

The majority of the Larimer Democrats have proved successful. Browne is renominated for the State Legislature.

LONDON, Ky., September 16.—Caleb Powers has defeated Congressman Don C. Edwards for the nomination for reelection.

### LESS THAN 4 1-2 DAYS.

NEW YORK, September 16.—The Cunard steamship Mauretania has established a new transatlantic record, arriving here from Queenstown in four days, ten hours and forty-one minutes, averaging 26:06 knots an hour.

### POLICE PROTECT BUNCO MEN.

SAN FRANCISCO, September 16.—The mayor yesterday communicated with the commissioners of police, calling upon them to restore the police department to efficiency.

He declares the city to be overrun by pickpockets and bunco men are reaping a rich harvest from citizens who are not given the police protection to which they are entitled and for which they pay.

He says that the criminal class is receiving protection from the department and asks that an investigation be made and that there be a clean-up of grafters identified with the police.

## AT THE THEATERS

Manager Congdon has secured the services of a Filipino acrobat for the Park theater, and the man appeared for the first time last evening. He seemed to be very clever and will doubtless form an interesting part of the programs in future. The vaudeville stars now appearing at the Park will to night present a sketch entitled "The man who looks like me." This is immensely funny.

### NOVELTY TONIGHT.

Rance Smith, familiarly known as the "Banana Man," made his initial reappearance at the Novelty theater last evening and was greeted by a houseful of friends and admirers. He will "come again" tonight, as will also the old favorites, Hen Wise and Katie Milton. Some new picture arrived in the Sierra this morning, so that that section of the program this evening will be entirely new.

### AT THE EMPIRE.

"Trixie" the fat lady, who has been appearing at the Empire expects to sail in the Zealandia for the Colonies. It is figured that with the lady in one end of the ship, her baby brother in the other and the engine and machinery in the middle, the Zealandia will be pretty evenly balanced for the long voyage to kangaroo-land. The Empire loses "Trixie," but will still have Maud Rockwell, the little Affague sisters and the finest kind of pictures.

### PURE FOODS AND

#### PURE MEDICINES

means better health, happier people. It has been proved however, that all medicines are not adulterated and worthless any more than are all food products.

The wheat has been sifted from the chaff, and such medicines as Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs and complies with all the conditions of the Pure Food and Drug Law, will continue to hold its place as the standard American remedy for female ills.

## M'CANDLESS IS THE CANDIDATE

DEMOCRATS NAME HIM AND HE STARTS OFF WITH ROAST OF DELEGATE KUHIO.

Nominating L. L. McCandless by acclamation and adopting a platform representing his views of the immigration law, the Democratic territorial convention finished its work in quick time yesterday. The platform committee, which held quite a lengthy session, was able to report by about half-past four, and the platform went through without opposition, though C. W. Ashford objected to it on the ground that it was too Populistic. However, he voted for it.

There were cheers when McCandless was made the nominee of the party, and he responded with a speech in which he opened up with his opponent. He declared that Hawaii's influence in Washington was wielded by F. M. Hatch, Secretary McClellan and L. A. Thurston and not by the delegates. He predicted complete democratic success in November.

The platform adopted is published in this issue.

## HAWAII COUNTY TICKET NAMED

HILO, September 16.—The Republican county convention voting on the various nominations gave the following ticket.

County Sheriff—Sam Fua.  
County Attorney—W. H. Deers.  
County Clerk—W. P. Kaal.  
County Treasurer—Ollie Swain.  
County Supervisor—Lyman, Austin, Lewis, Pritchard, Steele and Kanehane.

County Auditor—No nomination.  
Territorial Senators—Fernandez and Hewitt.

Territorial Representatives—Hall, Affonso, Richard, Moanani, Holstein, Makokau of Kona, and Kaupiko.

### WORKING ONE'S

#### SELF TO DEATH.

There are some men in this world who believe it is possible to work continuously from fifteen to eighteen hours a day and that the success achieved by this process is worth while. A man died in this city recently who was an exemplar of this philosophy. In physique he was almost

perfect, his mental ability was great, while his capacity for sustained labor was enormous, so great that he devoted himself. At thirty-seven he went to a premature grave utterly exhausted in brain power, at an age when normally he should have had most of his best years before him. Modern psychologists are of the opinion that the personal ego is either man's will power or is controlled by it; certainly it is the will which dominates a human being's life and it is capable of education. We see many persons with no stamina at all, as we say, meaning a lack of will power, while others have so much that they defy the doctors and live to accomplish an enormous amount of work. Yet somewhere there lies a point of equilibrium which must be maintained. Sometimes the forces within the body are stronger than those without; often, those without are the stronger and a man succumbs. But it is coming to be recognized that a man's brain must be given a rest, whether it be by forsaking mental pursuits temporarily or engaging in others of a totally antipodal character. No man can continue mental processes in the same direction at high pressure for a greatly extended period without danger, and often death results.—Philadelphia Inquirer.

## SCHOOLS AND JAIL ARE IN NEED OF MONEY

GOVERNOR TRYING TO DECIDE HOW TO FIND FUNDS TO KEEP THEM UP.

Just now Governor Frear is going thoroughly into the contingency fund. So far the result of his inquiries have shown him that considerable inroads will have to be made upon this fund, chiefly through school maintenance and the proposed alterations to the Oahu prison. The amount of the fund is standing at \$50,000, and in former years it has always been necessary to ask for extra appropriations, but this will be avoided if possible this year. The various departments that are entitled to draw upon this fund are being run as economically as possible, and in order to keep within the prescribed amount, every effort is being made to economize. The Governor is hopeful that he will be successful, but if he is, he says it will be "a close shave."

## KOREANS FIGHT OVER A BABY

PART OF A COMPLICATED QUARREL HEARD BY JUDGE ANDRADE THIS MORNING.

The adoption of a two weeks old baby by a Korean named Ha led to a remarkable chain of trouble in which not only Ha, but a Korean ex-convict named Young and five other Koreans have become involved. Ha adopted the baby with the consent of the parents of the child and retained it in his care for well over a year, when at the instigation of Young it is alleged, the parents proceed by a writ of habeas corpus to regain possession of their offspring. He resisted the process but the child was eventually handed over. The part played by Young in the transaction aroused the enmity of Ha and had blood developed between the two culminating in an outbreak of hostilities at the Korean Society hall on the 9th inst.

Ha was in the hall with a number of other Koreans when Young entered and a wordy war ensued, at the conclusion of which fistfights were resorted to. Both parties agree on this point; blows were struck, but from this point onward the respective stories are greatly at variance. Young says that not only Ha but five other Koreans joined in the attack. His eye was blackened, he was kicked in various parts of the body and he was bitten on the forehead and on the back. This tale is strenuously denied by the Koreans alleged to have made the attack. Their story is that Ha and Young had a fight and that Young was worsted and went away carrying the marks of the fray with him.

Ha proceeded to the police station and laid a complaint against Young charging him with assault and battery. Ha had lost his hat and his shirt was ripped into shreds.

When Young found out the steps that had been taken against him he retaliated by filing information against Ha and five other Koreans. When the case against Young was called this morning before Judge Andrade, he reserved his defense and the case was sent over to the circuit court. But not so the other Koreans. They decided to have their case heard at the lower court and this morning it occupied the attention of Andrade. Mr. J. Lightfoot appeared for the prosecution and Mr. Lorrin Andrews for the accused. Testimony bearing out the story given above was tendered and the magistrate continued the case until Wednesday next when he will hand down his decision.

## FORGERY CHARGED

Deputy United States Marshal David K. Sherwood left by the Mauna Loa today for Lahaina, Maui. On arrival there he will cross over by steam launch to Pukou to serve the papers in the condemnation suit of the United States vs. American Sugar Co., Ltd., et al., at Molokai. While there the deputy marshal will try to locate Chas. Kanoel, who is wanted on a charge of having forged the signature of George Makalena, to a money order for \$50. The order was dated May 4, last, and was remitted by William George Lincoln.

The deputy should find no difficulty in obtaining the connecting steamer, for Marshal Hendry has sent a wireless message to deputy Eugene Duvauchelle.

Kanoel, who is in the serious scrape named, was corporation clerk in the Territorial treasurer's office until a few weeks ago, when he left for Molokai on a "vacation." Until the recent primary elections opened, he was secretary of the Republican club of the first precinct, fourth district, and a political henchman of Makalena.

The company of prize-fighters whom Hugh McIntosh is sending to Australia from Vancouver on the Zealandia on September 9. The party comprises Billy Papke, Jimmy Clabby, Ray Bronson and Johnny Thompson. William Corbett, the veteran Australian fight critic, is returning with the contingent. Thomas S. Andrews, a Milwaukee sporting editor, is with the party as manager. Thompson and Papke intend to return to America via England, and it is likely the other members of the party will go with them.

The M. N. Co's str. Enterprise from Hilo arrived in San Francisco on September 9th with 50,000 bags of sugar.

The M. N. Co's str. Hilonian which was scheduled to leave San Francisco on September 10, did not get away until the 13th, owing to her going into dry-dock.

## SUNNY JIM'S FEZZED PARTY

John A. McCandless has received a letter from his brother, James S. McCandless, saying that the Shriners will fill every berth in the steamship Wilhelmina, both down and up.

"Sunny Jim's Party," as it may be called, will add materially to the throng of visitors in the gay Floral Parade week next February.

The U. S. Transport Logan left this forenoon for Manila, via Guam. As already stated, the transport will return to Honolulu, via Nagasaki, arriving here about November 5.

The U. S. A. transports Buford and Thomas were in San Francisco harbor when the Sierra left.
