Insurance.

WHY THE

Equitable Life

Assurance Society
of the United States is the Best com-
pany with which to Assure.

I.—Because of its Safety.

Its surplus is larger than that of any
other assurance company.

II.—Because of its Promptness.

Of 1,043 death claims paid in 1885,
nearly one-half were paid the very day
proofs were received; while of the re-
maining, the majority were paid within
the following three days. No other
company can show such a record.

III.—Because of its Liberality and
Reforms.

All policies are INCONTESTABLE after
three years. All incontestable policies
are payable immediately upon receipt
of proofs of death. The Society's
policy contract is clear and simple, and
liberal in its conditions. Its Non-
feeling Tontine (or Semi-Tontine) policy
affords all the ultimate benefits of the
full Tontine, and has during its earlier
years the surrender value and other
material advantages of ordinary life
policies.

IV.—Profit.

No other company is paying on its
policies, as large profits as are shown
under the Equitable's matured Tontine
policies with fifteen-year periods. Per-
sons desiring assurance may obtain
estimates of the probable results of
similar policies, and of policies with
twenty-year terms, which are expected
to show even larger profits.

V.—Prospective Advantages.

The unexampled progress of the
Equitable in the past is the best guaran-
tee of the increasing future value of
assurance with the Equitable.

Assets, \$1,000,000,000
Liabilities, \$2,000,000,000
Surplus, \$10,000,000,000

Standard, \$17,355,324.40
New Assurance in 1885, \$8,000,000,000
a larger business than that of any other
company.

Outstanding
Assurance, \$357,338,240.00
Total Paid Policy-
holders in 1885, 7,138,680.05

Paid Policyholders, \$8,211,175.63
since Organization.
Income in 1885, 16,590,053.13

Improvement During
the Year.

Increase in Premium In-
come, \$1,430,348.00
Increase in Surplus, 3,375,000.05
Increase in Assets, 8,391,401.06

SATURDAY, JULY 31, 1886.

THE ADVERTISER IS RIGHT.

We believe the *Advertiser* is fairly entitled to credit for the idea of making Honolulu a free port, and most of what it has published on the subject at different times is deserving of consideration. The meaning of "free port" seems to have been misunderstood by some people doing business here, they taking it to signify "free trade." Whereas nothing of the kind is intended. Abolition of wharfage and other port charges with which vessels are usually taxed by governments is what is generally understood in other countries by a "free port," and this is the sense in which the term is used by our contemporary. "Free trade," or the admission of imported goods without payment of duty, is an entirely different matter. No one can truthfully deny that "the history of all free ports is identical. It means commercial and business prosperity." No doubt, a similar history would be made for Honolulu, by making it a free port. Nothing could be so strong an inducement for vessels in this ocean to make this a place of call, and the "Assembled Wisdom" of the country would do well to give the matter early and careful attention.

ROAD TO ST. LOUIS COLLEGE.

St. Louis College occupies a lovely spot. The spacious grounds, with their large evergreen shade, ornamental, and fruit-producing trees are charming. The school buildings, class rooms, chapel, and dormitories are convenient, well ventilated, and comfortably furnished. The institution is supplied with a corps of efficient, conscientious, and devoted teachers. In short, everything within the enclosure conspires to make the college an excellent place for boys to acquire the foundations of knowledge and learning. But while the premises, the grounds, and the teachers may be almost everything that could be desired, there is one thing apart from these, and yet in a sense closely related to the two former, which is far from what the directors and teachers, the boys, their parents and guardians, and all who wish well to the institution, could desire; and that is the road leading there, from Smith's bridge to the college. A portion of it is inconvenient from its narrowness, and the whole is rough, rutty, and in a generally bad condition. In dry weather it is by no means pleasant to walk over; in wet weather it is execrable. Considering that a greater number of children attend this school than any other in the city, and that this road is used daily by more than three hundred boys in going to and from school, it seems reasonable to ask that it be put in a better condition, and that a small grant of public money be used for that purpose. Much is not needed. A few hundred dollars would do a great deal, and produce a wonderful transformation. The objection may be raised that it is not a regular government road, and therefore government money should not be expended upon it. Government road or no government road, it is a public thoroughfare, and the road by which hundreds of boys, who are the hope of the nation, go to school, and the Minister of Interior would be justified in ordering it put in proper condition at public expense as soon as possible.

The Earl of Clanwilliam, commander of the North Atlantic squadron of the British Navy, has been promoted to the dignity of a full admiral. It is understood he will remain at the Halifax station until October. A number of years have elapsed since the British North America and West Indian fleet was last in command of a full admiral. The event was signified by a salute of 17 guns from the warship *Dido* in Halifax harbor, and hauling down the Vice-Admiral's flag from the foremasthead of the *Bellerophon* to be hoisted on the mainmast, signifying that a full admiral was in command.

IMMORAL REFORM.

EDITOR BULLETIN:—Noticing in a late number of the BULLETIN, amongst the "Police Reports," the commitment of one of the pupils in the Reformatory School to Oahu Jail for a short term (for stealing 25 cents worth of salmon) the thought occurred to me that perhaps the public generally do not understand what is one at least of the consequences of sending boys from the Reformatory institution to the jail. It is that—to use the descriptive language of a person well acquainted with the subject—"what that boy does not know of devilry, of convict tricks and low cunning practices before he goes into the jail, is taught him while he is there by the more seasoned jail birds, and when he goes back to the Reformatory the chances are that he is a worse criminal than before."

I would not wish to be understood as finding fault with the management of the jail or school, but write this solely for the purpose of pointing out the imprudence of temporarily even, subjecting boys guilty of minor offenses, and presumably ignorant of vice and crime in their fully developed phases to the most intimate enforced contact with hardened criminals. Surely there must be some way of efficiently dealing with bad cases in the Reformatory School so that it will not be necessary for the principal to confess his inability to control them without calling upon the Police Magistrate to do so. C.

SUNDAY SERVICES.

ROMAN CATHOLIC CATHEDRAL.—High mass at 10 A. M. Vespers at 4:30 P. M.

Second Congregation. Rev. George Wallace, A. M., pastor elect. Holy Communion with sermon, 11:15 A. M.; evening prayer, with sermon, 7:30 P. M. Sunday school meets at 10 A. M. in the Punahoa Preparatory School building. Seats free at all services.

AN INDIAN DUDE.

An Indian dude has revealed himself. It is Little Chief of the Cheyennes, who writes to Secretary Teller: "I want to let you know the clothes are now gone and I would like the promised suit, so that I may appear before the whites and my own people as becomes a Cheyenne chief. I don't care much for grub, but I do like to dress in proper style. I want the best white hat you can purchase in the market."

THE LARGEST ORGAN IN THE WORLD.

An organ which has just been built in Germany is believed to be the largest in existence. It counts 174 registers, and is worked automatically by an Otto gas-motor of four horse-power. Its height is twenty metres, its width eleven and its depth ten. Its largest wooden pipe is ten metres long and of a cubical capacity of 2,000 litres. The instrument is to be set up in the Cathedral of Figa. For the St. Stephen's Cathedral of Vienna, the same builders are soon to construct a still larger organ. The well-known organs of Ulm and St. Petersburg were built by the same men.

THE EFFECTS OF SMOKING ON BOYS.

Dr. G. Decaisne has submitted to the Society of Public Medicine the results of some interesting observations concerning the effects due to the use of tobacco among boys. Thirty-eight youths were placed in his charge, whose ages varied from nine to fifteen, and who were in the habit of smoking, though the abuse of tobacco varied in each case. The effects of course also varied, but were very emphatic with twenty-seven out of the thirty-seven boys. With twenty-two patients, there was a distinct disturbance of the circulation, bruit at the carotids, palpitation of the heart, deficiencies of digestion, sluggishness of the intellect, and a craving, more or less pronounced, for alcoholic stimulants. In thirteen instances there was an intermittent pulse. Analysis of the blood showed in eight cases a notable falling-off in the normal number of corpuscles. Twelve boys suffered frequently from bleeding of the nose. Ten complained of agitated sleep and constant nightmare. Four boys had ulcerated mouths, and one of the children became the victim of pulmonary phthisis, a fact which Dr. Decaisne attributed to

the great deterioration of the blood produced by prolonged and excessive use of tobacco. Treatment with iron and quinine gave no satisfactory result, and it seems tolerably evident that the most effective, if not the only cure, is to at once forswear the habit, which to children in any case is undoubtedly pernicious.—[Lancet.]

Dissolution of Co-partnership.

THE business of Mayhew & Crewes, heretofore carried on by them as Contractors and Builders, is this day dissolved by mutual consent. The business will be continued by E. E. Mayhew, and he is responsible for all debts incurred by the said partnership; and all moneys due the late firm are to be paid to the said E. E. Mayhew. Dated Honolulu, July 31, 1886. E. E. MAYHEW, 93 3t. W. CREWES.

Notice to the Public in General.

The Best Route to the World Renowned

Volcano of Kilauea

The new and staunch Steamer W. C. Hall Leaves Honolulu at 10 o'clock A.M. on Friday, July 23rd.

The steamer passes along the entire coast of the leeward side of Hawaii, affording tourists a panorama of charming scenery, and will stop at Kealahou Bay, where sufficient time is allowed to visit the Monument of Captain Cook.

Tourists by this route reach Punaluu at 5 o'clock on the day after leaving Honolulu, being only one night on the vessel, making the entire passage in smooth water. At Punaluu there is the

FINEST HOTEL ON HAWAII,

and from there tourists will be conveyed by railroad to Pahala, thence by stage coach to Half-way House, where horses and guides will be in attendance to convey them to the Volcano.

Tourists will have two nights and one whole day at the Volcano House.

Tickets for the round trip, \$50, which includes all expenses.

Apply to HARRY ARMITAGE, Agent, at Williams' Photograph Gallery, Fort street, or at the office of the I. S. N. Co., Esplanade. [370 6m]

A CARD.

Since establishing our Mission in this city, we have frequently been solicited to procure larger and more convenient quarters for worship and Bible class, quite a number expressing themselves as willing to contribute toward the necessary expense. We have now secured the building on Fort street, formerly used as a gymnasium, thus incurring quite a debt; besides, some changes are necessary. Therefore we would say to all who would esteem it a privilege to aid us in the matter, that they can confer with Mr. N. F. Burgess, or with the undersigned. I. A. SCOTT, 74 1m] A. LA RUE.

LOST.
THURSDAY evening, A BUNCH OF KEYS, the finder of which will be rewarded on leaving it at THIS OFFICE. 92 2t

Saddle Horse for Sale.
A young, stylish SADDLE HORSE; also works in harness. Apply at THIS OFFICE. 92 2t

SATURDAY, JULY 31, 1886.

KILAUEA'S FRESH ACTIVITY.

INTERESTING DESCRIPTION FROM AN EYE WITNESS.

We learn from Rev. J. A. Zahm, C. S. C., who has just returned on the steamer "W. G. Hall," from a visit to Kilauea, that the great volcano is again quite active. This we are sure will be good news to every one. Father Zahm says that there is quite an extensive lava lake, just west of the ruins of Halemauau and bordering on the western wall of the depression formed by the recent break-down. As nearly as could be ascertained, this lake is about four hundred feet wide and seven hundred feet long. There is a ridge of lava crossing this lake from west to east, making in reality two lakes, one on the north and the other on the south of the ridge. The sides of this ridge or neck are occasionally overgrown with bright liquid lava, which comes from small vents on various parts of its surface. In the south-west corner of the north lake there were two active fire-fountains which were intermittently but strongly active during the whole of Monday afternoon and evening. Indeed the light emitted was so bright that it was clearly observed by several persons at Punaluu, as reflected from the clouds. The lava from the fountains ordinarily rose to a height of only a few feet, but occasionally there were more violent outbursts, when the molten matter was ejected to a height of fully twenty-five or thirty feet. At these times the pyrotechnic display was truly magnificent. Occasionally, too, the whole of north lake would break up, when the scene was even grander. The guide who accompanied Father Zahm was quite enthusiastic over the display and declared it to be by all odds the finest exhibition he had given since last March. "Pele has returned," he said, "and Kilauea will soon be grand as ever."

From a scientific point of view, Father Zahm regards Kilauea more interesting now than it was before the break-down. There is, it is true, such a display of fireworks, such huge billows and such large lakes of molten lava, as were to be seen before, but there is much better opportunity of studying the form and nature of the crater, and the workings of the volcano than could possibly be had while New Lake and Halemauau were full. What with the ruins of the old craters, the yawning abyss that has been formed by the withdrawal of the lava that formerly filled it; the numerous vents in various parts of the depression which continuously evolve immense volumes of smoke and sulphurous vapors, and the wonders of north and south lakes—even the non-scientific visitor will find as much—probably more—to see and admire, than was visible when Kilauea was considered at its best.

"One thing is quite certain," says Father Zahm, "no one will be disappointed in making a visit to the volcano as it now is. It will fully equal the expectations of even the most sanguine." He says his principal reason in coming to "the Islands" was to see Kilauea, and that he is fully satisfied with his trip. He could find only words of praise regarding the facilities afforded for visiting the great volcano. He went via the Inter-Island Steamship Co., to Punaluu, and thence by an outfit furnished by Mr. Peter Lee, to the summit of Kilauea. Everything, he says, was a series of surprises to him; the unvarying courtesy of the officers of the steamer "Hall," the unexcelled comforts of Mr. Lee's homelike hotel at Punaluu and the charms and conveniences of the "Halfway House" under the same management; and last, but not least, the noble animals, and intelligent and accommodating guides placed at his disposal. Father Zahm says he has had considerable experience in mountain climbing, but was never able to make a similar trip with less discomfort or delay than was occasioned by his journey up the lava-covered sides of Kilauea. He says that the time required to go from the "Volcano House" to Punaluu was a little less than four hours—exclusive of the time for lunch at the Halfway House—and that he reached the Pahala plantation in four hours and a quarter, and with but little fatigue. For those who are accustomed to riding—he is not—he says the descent can be made in less time. The time of ascent was a little longer, but it was made most comfortably.

Father Zahm is Professor of Physical Science at Notre Dame University, Notre Dame, Indiana, U. S. A. He leaves for the coast on the steamer "Australia" to-morrow (Saturday). During his stay in Honolulu he is the guest of St. Louis College. He expresses himself as delighted with what he has seen during his short stay in Hawaii, and entertains the hope of being able to make, at no distant day, a longer visit to the Islands; with a view of making an extended study of our more important volcanoes—active and extinct—especially those of Hawaii and Maui.—[July 30th.]

An important London banking house is considering the project to construct a railway from Winnipeg to Hudson Bay. Capitalists in London favor the project.

ADVERTISING THE VOLCANO.

Mr. F. L. Clarke has edited a neat brochure on "The Great Volcano of Kilauea," including a sketch of a flying trip from San Francisco to Honolulu and return, with a visit to the greatest active volcano in the world. The pamphlet is intended to advertise our greatest natural wonder at the National Encampment of the Grand Army of the Republic at San Francisco. It is issued in the joint interest of both inter-island steamship companies, the steamship lines between San Francisco and Honolulu and the Colonies, and the Hawaiian Hotel. A larger work is projected by Mr. Clarke, which will include a historical sketch of the volcano and be a work of permanent value for scientists and tourists. The whole edition of the pamphlet above referred to goes forward by to-morrow's mail, to be distributed by Mr. R. W. Laine, delegate from the Geo. W. DeLong Post to the National Encampment.—[July 30th.]

CHINESE FIRE RELIEF.

Mr. C. Afong, having taken charge of a subscription list to aid the sufferers of the late conflagration, and having collected and expended the money as he deemed advisable, furnishes the following facts:—The amount raised was \$3,890, as per the following subscriptions: Mr. C. Afong \$500, T. H. Davies & Co. \$250, Chulan & Co. \$400, Mr. C. Lee \$100, Claus Spreckels & Co. \$250, W. G. Irwin & Co. \$250, C. R. Bishop & Co. \$250, Castle & Cooke \$250, Schaefer & Co. \$200, Hackfeld & Co. \$250, C. Brewer & Co. \$100, A. J. Cartwright \$100, Wing Wo Chan \$200, J. A. Hopper \$100, Jas. Campbell \$150, Pacific Hardware Co. \$100, E. O. Hall & Son \$100, Mr. Paul Neumann, Lau Kau, Freeth & Peacock, C. I. Lyons, E. B. Thomas, Goo Yook, W. R. Castle and M. McNerny also subscribed for the sufferers. One thousand nine hundred and forty-five dollars were expended among the sufferers in aiding those worthy of assistance in the following ways: For 86 passengers for Hongkong per bark Hydra, at \$21 per passenger, \$1,806; two funerals \$55.50; attendance on patients in the Hospital \$83; advertising notice of subscription \$2.50—making a total of \$1,945 expended and leaving a balance of \$1,945. Mr. Afong is very grateful for the kind assistance he received, and having relieved the sufferers in a worthy manner, will take pleasure in refunding to the subscribers the remaining \$1,945, pro rata.—[July 30th.]

LOCAL ITEMS.

FRIDAY, July 30th.

Mr. John Robello came from Kau by the steamer W. G. Hall yesterday and was committed to the Insane Asylum.

HUSTACE & Robertson's dray drivers appeared on their seats today in neat and gay uniform. This is a pretty stroke of enterprise, and will not be likely to hurt the drivers.

The Captain and officers of H. B. M. Ship Polaris were entertained at breakfast by His Majesty the King this morning. The Band was in attendance and furnished excellent music.

INTEREST in the annual regatta on Nov. 16th is warming up in boating circles, as evidenced by quiet but energetic practising by some of the best crews. "Mum" is all the word that can be got in reference to the question of new boats.

A POMEGRANATE weighing 31½ ounces and measuring 15 inches in circumference was grown at Mr. Giffard's place and can be seen at Irwin & Co.'s office. This pomegrante is probably the largest ever grown in Honolulu. It looks like a huge wax apple.

A CASE before Justice Bickerton was interrupted yesterday by the counsel for the prosecution in another case desiring to have the latter take precedence for reasons given. One barrister rose to discuss the point, followed by two more, each saying he appeared for the defense. The Judge said he had not time for a fourth speaking, to the good of the court, and presumed he was on that side, at which Deputy Marshal Dayton facetiously remarked in an undertone that there were enough lawyers for the defendant to hang him. In the afternoon, when the case was called, the formidable array of legal talent had dwindled down to a single practitioner, calling forth the observation from the bench, that counsel for the defense was named Legion in the morning, but it was hard to denigrate it accurately now. The transformation, however, seems to have worked well for the defendant, for the charge against him was withdrawn this morning.

There is one thing that monopoly does not seem able to control, and it is agriculture. The tendency in this country is to smaller farms, notwithstanding the developments here and there of great estates under one head. One of the most famous enterprises of this kind, Dr. Glenn's California farm of 15,000 acres, is about to divide into six equal parts and sold.—[Philadelphia Ledger.]

Great Excitement in Wales about a Marvellous Cure.

Living Six Years Without Going to Bed.

Mr. EMMON.—While spending a few days at the pleasant seaside town of Aberystwyth, Cardiganshire, Wales, I heard related what seemed to me either a fabulous story or a marvellous cure.

The story was that a poor sufferer who had not been able to lie down in bed for six long years, given up to die by all the doctors, had been speedily cured by some Patent Medicine. It was related with the more implicit confidence from the circumstance, as was said, that the Vicar of Llanystyd was familiar with the facts, and could vouch for the truth of the report.

Having a little curiosity to know how such stories grow in travelling, I took the liberty while at the village of Llanystyd, to call upon the Vicar, the Rev. T. Evans, and to enquire about this wonderful cure. Though a total stranger to him, both he and his wife most graciously entertained me in a half hour conversation principally touching the case of the poor man, in which they seemed to take a deep and sympathetic interest, having been familiar with his sufferings, and now rejoiced in what seemed to them a most remarkable cure.

The Vicar remarked that he presumed his name had been connected with the report from his having mentioned the case to Mr. John Thomas, a chemist of Llanou, He said Mr. Pugh was formerly a resident of their parish, but was now living in the parish of Llanidloed.

He strongly vouched Mr. Wm. Pugh's character as a respectable farmer and worthy of credit. I left the venerable Vicar with a livelier sense of the happy relation of a pastor and people, feeling that he was one who truly sympathized with all who are afflicted in mind, body, or estate.

On my return to Aberystwyth, I was impressed with a desire to see Mr. Pugh, whose reputation stood so high. His farm is called Pannoc-Mawr, signifying "above the dingle," situated near the summit of a smooth round hill, overlooking a beautiful valley in which is situated the lovely Llanidloed Church of Llanidloed. I found Mr. Pugh, apparently about 40 years old, of medium height, rather slight, with pleasant and intelligent face. I told him I had heard of his great affliction and of his remarkable and almost miraculous relief, and that I had come to learn from his own lips, what there was of truth in the reports.

Mr. Pugh remarked that his neighbor had taken a kindly and sympathetic interest in his case for many years, but of late their interest had been greatly awakened by a happy change in his condition. What you report as having heard abroad, said he, is substantially true, with one exception. I never understood that my case was ever given up as hopeless by any physician. I have been treated by several Doctors hereabout, as good as any in Wales, but unfortunately no prescription of theirs ever brought the desired relief.

Fifteen years ago, he said, I first became conscious of a sour and deranged stomach, and loss of appetite, which the Doctors told me was Dyspepsia. What food I could hold in my stomach seemed to do me no good and was often thrown up with painful retchings. This was followed after a time with a hoarseness and a raw soreness of the throat which the Doctors called bronchitis, and I was treated for that, but with little success. Then came shortness of breath and a sense of suffocation, especially at night, with clammy sweat, and I would have to get out of bed and sometimes open a door or window in winter weather to fill my lungs with the cold air.

About six years ago I became so bad that I could not sleep in bed, but had to take my uneasy rest and dreamy sleep sitting in an armchair. My affliction seemed to be working downward into my lower chest, and was now into my lungs and throat. In the violent coughing-spasms which grew more frequent, my abdomen would expand and collapse and at times it would seem that I should suffocate. All this time I was reduced in strength so that I could perform no hard labor and my spirits were consequently much depressed.

Early in this last spring I had a still more severe spasmatic attack, and my family and neighbors became alarmed, believing that certainly I would not survive, when a neighbor, who had some knowledge, or had heard of the medicine, sent to Aberystwyth by the driver of the Omnibus Post, some seven miles distant, and fetched a bottle of Mother Selig's Curative Syrup.

This medicine they administered to me according to the directions, when to my surprise and delight no less than my own, the spasm ceased. I became at ease, and my stomach was calmed. My bowels were moved as by a gentle cathartic, and I felt a sense of quiet comfort all through such as I had not before realized in many years. I could walk around the house and breathe comfortably in a few hours after I had taken the medicine. I have continued to take the medicine daily now for something over two months, and I can lie down and sleep sweetly at nights and have not since had a recurrence of those terrible spasms and sweatings. I have been so long broken down and reduced in my whole system that I have not tried to perform any very hard outdoor labor, deeming it best to be prudent lest by over-exertion I may do myself injury before my strength is fully restored. I feel that my stomach and bowels have been and are being thoroughly renovated and renewed by the medicine. In fact I feel like a new man.

I have been much congratulated by my neighbors, especially by the good Vicar of Llanystyd, who with his sympathetic wife have come three miles to shed tears of joy on my recovery.

I bade Mr. Pugh good-bye, happy that even one of least among thousands had found a remedy for an aggravating disease.

Believing this remarkable case of Dyspeptic Asthma should be known to the public, I beg to submit the above facts as they are related to me.

F. T. W.

Hawaiian Ferns.

THE undersigned is prepared to furnish specimens of all the

Ferns of the Hawaiian Islands

at reasonable rates.

Complete Collections embracing 140 varieties representing 23 families prepared to order only. These collections display entire fronds of each fern with roots and other important parts of each plant. Collections embracing from 20 to 80 varieties elegantly mounted and decorated with mosses, lichens and seaweeds peculiar to the Islands always on hand at Messrs. King Bros. Art Store, Fort Street, Honolulu.

FERN SPORES.

Packages of the spores of all varieties of ferns found in the group for sale. These packages are guaranteed to contain fresh spores and are securely put up and accurately named. Price per packet 10 cents.

Pamphlet containing particulars in reference to living plants, with a catalogue of the ferns mailed to any address within the Postal Union upon receipt of 5 cent stamp. Address,

F. L. CLARKE,

Honolulu, Oahu, H. I.

One Trial will Convince You!
