## STRONG MOVE MADE FOR WHITE LABOR

### Bryan Recommends To Immigration Board Laborers From Italy

The Board of Immigration held a meeting this afternoon. It was called for 2 p. m., but as some of the members were late it did not convene before at about 2:30 p. m. Those present were Chairman Secretary A. L. C. Atkinson, and Commissioners E. D. Tenney, J. P. Cooke, J. J. Carden and J. H. Craig.

The application of Mr. Ham of Kohala for a position as agent of the Board was read. It was decided that all such matters should be taken up later. Ham's application was tabled.

Letters were read from F. J. Benney and others to the Planters' Association offering to bring white laborers, Portuguese and men from Cornwall. J. P. Cooke moved that all these letters be accepted and placed on file as the meeting had no time to take the matter up. Tenney said the Board was not at present in a position to take up such matters.

A petition was also read from Portuguese residents, praising the qualities of the local Portuguese and deploring their emigration from the Territory. It asked that Portuguese be brought here and was signed by a number of local firms.

Tenney offered a resolution that the Superintendent be authorized to advertise in foreign countries showing the inducements offered here, and to appoint advertising agents to attend to these matters. This resolution, Tenney pointed out, was drawn in accordance with the Federal laws on the subject.

Craig wanted to know first what inducements could be offered.

J. P. Cooke said plantation of Alexander & Baldwin would take 300 families and give each a lot of one or two acres and wages of \$20, \$21 and \$22 for the first, second and third year respectively with water, medical attendance, etc., and a house on the lot. At the end of five years these plantations would give the laborers a fee simple title to some of these lots.

Tenney said that he would amend his motion by adding that a form of advertisement should be prepared and submitted to the Board. With this amendment the resolution carried.

Atkinson asked when a full report could be obtained. Cooke said McBryde and Olua had replied as well as the Alexander & Baldwin's plantations. Tenney said that some plantations like Bwa were not able to deed any land

as its land was leased and could not be subleased. It could, however, make some inducements in the way of allowing the laborers to cultivate lots.

Cooke presented a resolution giving the Superintendent full power to investigate the powers of the Board for the carrying on of European immigration and if this resulted favorably to give him power to arrange for the immigration of ten or fifteen families from the north of Italy as recommended by Commissioner Sargent.

Cooke said that later on Portuguese would undoubtedly be imported. Italians, however, offered the advantage that they could be obtained without passing through the States. The resolution passed.

At this point Mr. Bryan and his escorts passed through the room. The Governor introduced the distinguished visitor. Mr. Bryan asked the Board which nationalities had been imported and was informed of the success of the former Portuguese experiment.

"Have you tried Italians?" asked Mr. Bryan.

Secretary Atkinson read the resolution just passed.

"Ten or fifteen families?" asked Mr. Bryan.

Atkinson explained that this importation was merely in the nature of an experiment.

"Have you investigated into the character of the Italian immigrants?" asked Mr. Bryan. "Great numbers have settled in the rice districts of the South."

Tenney said that he had and had found them very satisfactory.

"They are very thrifty and good laborers," said Mr. Bryan, and left the room accompanied by the Governor and his escort.

### BAND HOME AGAIN AFTER GREAT SUCCESS

Captain Berger and Madame Alapa of the now more than famous Hawaiian band returned from their California successes in the Manchuria. Most of the members of the band returned home with their leader and the singer. The band was absent about two months.

### HONOLULU WELCOMES BRYAN THE GREAT DEMOCRATIC LEADER SHOWING HIM HER WONDERS WOULD COME AGAIN TO SPEND A WINTER MONTH IN PARADISE

"Aloha! Do I get it right? You see I've already learned the most important word in the Hawaiian language," said the Hon. William Jennings Bryan to a Bulletin reporter this morning. Miss Grace D. Bryan, the great Democrat's charming young daughter, thought it a pretty word and repeated it several times to acquaint her memory.

Bryan was standing on the lower platform of the Palama railway depot, waiting for the ladies of the party to get aboard the Oahu Railway & Land Co.'s special train for the trip to Honolulu plantation, that the famous statesman might experience a demonstration of Hawaii's main industry.

He carried a long, black, silk-lined fall overcoat over his left arm, wore a large black felt hat, a rosy coat with the sleeves a trifle too long, low collar, narrow black tie and white shirt with narrow black lines. His shoulders and hat were covered with leis of purple and white asters, carnations, violets and maidenhair fern.

Would Spend Month Here.

"Do you know," said Mr. Bryan, with the memory of his automobile trip to the Pal and the prospect of the island from the deck of the Manchuria as she approached the harbor still in his mind, "we must certainly come down here some winter and spend at

least a month. I was just telling Mrs. Bryan that we could find no more pleasant, no more beautiful place on the world to spend a few weeks of rest and recreation and Mrs. Bryan heartily agrees with me. She wants very much to come here sometime when we can take our time in enjoying the country.

"My daughter is enthusiastic over what little she has already seen of Honolulu."

After Honolulu Plantation mill had been inspected and Mr. Bryan had, on the trip down the line and from the upper windows of the big mill, closely observed what was to be seen of Pearl Harbor, Mr. Bryan had the following to say to the Bulletin representative:

"It seems to me that Pearl Harbor is smaller than I expected to find it. Perhaps it appears small because of the manner in which I have viewed it. The numerous little islands seem to be in the way of accommodating a very large fleet. Now, how far is it from the shore to that first little island? Two miles! Oh, I had no idea it was so clear that distance is deceptive. It is larger than I thought. I would not be surprised if Pearl Harbor could accommodate several big navies. Immense importance.

"When I was in Congress they were

appropriating for Pearl Harbor—that must be over ten years ago. I have often wanted to see Pearl Harbor for myself. I have heard so much about it and it really is of immense importance to the United States, you know. The Federal government realizes the advantages of such an important harbor in the middle of the Pacific and will amply provide for its proper defense, I'm very sure.

To Learn—Not Talk.

"To tell the truth I'm out to learn; you must not expect me to talk much about things concerning which I know but little.

"Honolulu appears to be a promising American city. You appear to have a whole lot of energy here, considering that you are not so very far from the tropics. I like your railroad system. The road bed is good. The Rapid Transit was a considerable surprise to us. Why, you have as fine a system here as I have seen anywhere.

"Then you have some modern office buildings here that would do credit to much larger cities.

For Citizen Labor.

"I see that you employ Japanese laborers in the sugar mills and in the field. Now I have not studied labor as related to Hawaii's affairs, but I'm deeply interested in American labor

(Continued on Page 4.)

### BRYAN ADDRESSES KAMEHAMEHA BOYS AND GIRLS

The Bryan party received a surprise when it arrived at the Bishop Museum. President Horne of Kamehameha Schools had the students drawn up at attention in full uniform in front of the Museum and as the party alighted from the automobiles it was greeted by "Hawaii Ponoi," sung by the full chorus of boys and girls of Kamehameha Schools.

Mr. Bryan was introduced by President Horne and made a few remarks to the students in which he congratulated them on the splendid schools that had been endowed by their noble benefactor. He said that he was greatly impressed with the wonderful beauties of Hawaii.

"Of all the beauties that God has given to earth, by far the most beautiful is the human character," he said, and urged the students of Kamehameha to bear this always in mind.

After a hurried visit to the Museum the Bryan party left and the Kamehameha students sang "Aloha Oe" in farewell.

### Bryan Talks To People

The reception tendered to the Bryan party at the Hawaiian Hotel was very well attended. The lanai had been appropriately decorated for the occasion with palm fronds and directly above the reception party the antlers and banner of the Elks were in evidence. The guests were introduced by W. A. Kinney, County Treasurer Trent and County Supervisor Moore. Business men dropped in to pay their respects during the noon hour and a large number of Hawaiians were in evidence. Mr. Bryan chatted pleasantly with all who came and Mrs. Bryan was very gracious.

About a thousand people gathered in the court yard of the hotel at one o'clock to hear Mr. Bryan say a few words. He spoke briefly but effectively and left an impression with every word. As he appeared at the head of the steps, surrounded by the entertainment committee and other prominent Honolulu folk, he was enthusiastically cheered.

Mr. Bryan said: "I am very glad to see that such a condition of harmony prevails in the beautiful country between the native Hawaiians and foreigners. It is only through harmony that the greatest good for the Territory can be accomplished.

"Some folks seem to think that patriotism is something that can only be manifested in time of war.

"This is not so. There is always an opportunity for the exhibition of patriotism. Every year brings its opportunity; every great question that arises in the progress of our nation brings its host of opportunities for the expression of the noblest patriotism. The patriotism that works always for the good of the country, in peace as well as war, is the patriotism (Continued on Page 4.)

### The \$3<sup>50</sup> Shoe QUESTION

Our competitors are realizing the fact that the great value we are giving the public is driving a considerable portion of the business they once held to ALAKEA STREET, and are advertising extensively shoes for Men and Women at \$3.50; of course, a sacrifice of profits is not for a single moment by them considered. Inferior goods are advertised as leading values; but the people are the best judges, and are satisfied we have knocked out the days of unfair profits.

One house would have you believe they give every purchaser of \$3.50 shoes more value than any store in the city.

San Francisco, October 2.—The United States Circuit Court of Appeals rendered decisions yesterday in Hawaii cases as follows: Cotton Brothers versus Mary Almy, judgment of lower court affirmed; Hackfeld & Company against the United States, judgment of the lower court reversed and appellant ordered discharged.

On September 21, 1903, Mrs. H. N. Almy brought a libel in the Federal Court against Cotton Bros., for \$2500 for the alleged loss of a houseboat, which Mrs. Almy set forth was her exclusive property. The libel set forth that the houseboat had been leased to Cotton Brothers, who used the craft as a boarding house while they were engaged in dredging Pearl Harbor channel. On August 4 Cotton Brothers are alleged to have undertaken to tow the houseboat from Pearl Harbor to Honolulu. It was taken in tow by the steamer Kamea and placed between two heavily loaded scows. It is alleged that due to the carelessness of Cotton Brothers in placing the scow in this position, it was sunk while en route. A. S. Humphreys and J. J. Dunne were her attorneys.

## WEEKLY CROP REPORT

### WINDWARD PLANTATIONS GET TOO MUCH RAIN

#### COOL FOR THE GROWTH OF RUBBER TREES IN NAHIKU—SISAL ON MAUI DOING WELL.

Local Office, U. S. Weather Bureau, Honolulu, T. H., Oct. 2, 1905.

During the past week continual though slight fluctuations in atmospheric pressure have been attended by showery and unsettled weather in nearly all sections of the group. Temperatures have been about normal for this season of the year, with somewhat cooler nights.

Growing cane has, on the whole, made fair progress during the week, although most windward plantations have received rather more rain than required. In windward Hawaii and the windward sections of east Maui, the continuance of heavy showers has kept the ground entirely too wet for satisfactory weeding, cultivating and other field operations. On the other hand, more rain in the Kau district would now be beneficial, dry weather with occasional high winds having prevailed since last advices. Grinding at the Kahuku mill was finished during the week, and planting for the 1907 cane crop was completed in several plantations. A fair supply of mountain water is available for irrigation purposes in central Maui. Pineapple plants are in good condition, but planting and other field work have been interfered with in central Maui by stormy weather. Conditions during the past week have been quite favorable for the rapid ripening of coffee, relatively dry weather being reported in the Kona district of Hawaii for the first time in a number of weeks. Second crop rice is doing nicely in all sections and promises a very good yield. Pastures generally are in good condition, but grazing stock in the Koolau district of Maui is suffering from the effects of the continued heavy rains. In the Nahiiku section of Maui, the weather is reported as rather cool for the growth of rubber trees and altogether too wet for the planting of seed. Sisal in central Maui is growing well, and heavy dews have been of material benefit to vegetation in the Kula section.

REMARKS BY CORRESPONDENTS  
ISLAND OF HAWAII.

Kaunakakai—Weather continues unsettled and changeable; conditions generally favorable for plant growth but unfavorable for field operations; weeding and stripping cane.—J. E. Gamalison.

Papaikou—Weather still wet and disagreeable for weeding and cultivating; cane crops doing fairly well; weeding, cultivating and fertilizing cane.—John T. Moir.

### GAMBLING ORDINANCE

Supervisor E. R. Adams will introduce the following gambling ordinance, prepared by Judge P. L. Weaver, at the meeting of the Supervisors tonight:

"Prohibiting the Exposure of Gambling Tables or Implements in a Room Barred or Banned or Protected in any Manner to Make it Difficult of Access or Ingress to Police Officers, When Three or More Persons are Present; or the Visiting of a Room Barred or Banned or Protected in Any Manner to Make it Difficult of Access or Ingress to Police Officers, in which Gambling Tables or Implements are Exhibited or Exposed, When Three or More Persons are Present."

"Be It Ordained by the Board of Supervisors of the County of Oahu of the Territory of Hawaii, as follows:

"Sec. 1. It shall be unlawful for any person within the limits of the County of Oahu to exhibit or expose to view in any room or house or place barred or barricaded or otherwise built or protected in a manner to make it difficult of access or ingress to police officers, when three or more persons are present, any cards, dice, dominoes, or any gambling table or layout, or any part of such layout, or any other gambling implements whatsoever used in any game of faro, monte, roulette, tan, fan tan, or any banking or percentage game of faro, monte, roulette, tan, fan tan, dominoes or any other devices for money, checks, credit or any representative of value, or any other game in which money or anything of value is lost or won."

"Sec. 2. It shall be unlawful for any person within the limits of the County of Oahu to visit or resort to any such room or house or place barred or barricaded or otherwise built or protected in a manner to make it difficult of access or ingress to police officers, when three or more persons are present, where are exhibited or exposed to view any cards, dice, dominoes, or any gambling table or layout, or any part of such layout, or any other gambling implements whatsoever, used in any faro, monte, roulette, tan, fan tan, or any banking or percentage game played with cards, dice, dominoes, or any device, for money, checks, credit or any representative of value or any other game in which money or anything of value is lost or won."

"Sec. 3. Every person who shall violate any provision of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not to exceed five hundred (\$500) dollars or by imprisonment in the county jail for not more than six (6) months, or by both such fine and imprisonment."

"Sec. 4. This ordinance shall take effect and be in force from and after its passage."

### DR. BELL'S LECTURE.

A very good audience is expected to attend the first lecture by Dr. Bell, to be given in Odd Fellows' Hall tomorrow evening. The subject being: "Midnight Scenes in the Slums of New York."

The lecture is based upon Dr. Bell's experiences as midnight missionary among New York's submerged tenth and should be both instructive and enjoyable, for Dr. Bell has the rare gift of imparting information in such a way that it is a matter of very great pleasure to listen to him.

Seats are going rapidly but no more will be sold than the hall can comfortably accommodate.

### PARTY AT MILLERTON.

In honor of their daughter's eighteenth birthday, Mr. and Mrs. Geo. Meyer gave a surprise party at the Millerton House yesterday evening. Thirty invited friends were present, and spent a most enjoyable evening. Under the direction of Mrs. C. Wilkerson the house was prettily decorated, and at 11 o'clock a tasty supper was served.

Boys—"Listeners never hear any good of themselves." Joyce—"That's right; the one who is speaking is always talking about himself."

## ELECTRICITY

Of all the power developed by steam in Honolulu, 80 per cent. is used to drive shafting and belting—dissipated, wasted, before the work of the machine begins. Think of it! All the money paid for the coal which makes that wasted part of the power, might as well be thrown into the sea for all the good it does. With electric power, you use what you need, when you need it, where you need it. A turn of the switch puts it there. Have you learned to be power-wise?

### THERE IS NO SUBSTITUTE FOR A WOVEN WIRE BED.

The Woven Wire Bed has become so deservedly popular that 999 out of every 1,000 beds sold are of that make. Why? Because, when properly constructed, it has excellences possessed by no other. A level, flexible top, no gaps, will always resume its shape after use. Its supports, however, must be rigid. Wire or hoop iron will not support a spring bed. When you buy one of Bailey's Rust and Vermin-proof Wire Beds, you get an article very close to perfection. For sale in the Furniture Stores and at the factory on Alapai St. Tel. Main 1661.

TUESDAY, OCTOBER 3, 1906

Clouds with the silver lining furnished Mr. Bryan the appropriate weather Hawaii always has for its guests.

Until the typhoons are legislated out of existence there is no danger of the Philippines coming into competition with the tourist trade.

The misfortune the liner Alameda has met must bring the subject of increased and improved local service strongly into the foreground of discussion.

It is some consolation to have the list of incoming steamers filled with returning Honoluluans. We know they are not spending any more of their money abroad.

Naturally the Advertiser thinks there is ample law to prevent gambling. A more competent law might allow less opportunity to carry a personal campaign against Brown.

The tour of the Hawaiian band was a splendid thing for Hawaii, if for no other reason than to convince our own people that the organization is as popular as in the good old days.

High Sheriff Henry's very sensible statement of his experiences with gambling and gamblers does about the same thing to the morning paper's crusade that Theodore Richards' letter did to the Palama garb stunt.

## MR. BRYAN, AMERICAN

William J. Bryan is a man among millions. Hawaii is not alone to congratulate itself that he has taken the time for a trip to this part of the expanding American domain. The American people will follow his movements and listen attentively to the conclusions resulting from his observations. The nation should profit from his tour. He'll do the whole country good if by no other means than letting the people know that there is another side to the question, and it is not as bad as sometimes represented.

Every public man of our country who visits this Territory and the possessions in the Orient furnishes a valuable leading string to draw the attention of our mainland fellows to the really vital national problems that must be approached in a broad American spirit if the prestige of our country is to be maintained.

We have been honored with Secretaries and Governors and Congressmen and Senators. It is probable that Mr. Bryan will exercise as much influence as any one of them in shaping public opinion. He is one of those men, unusual in the history of the world, who can be killed off politically every other day by his enemies but just as frequently comes to the front again in a manner that proves that he has the steadfast confidence of a large body of the people. Though the majority has been against him in the great national political battles he has fought, Mr. Bryan has proved that a man can bear no more distinguishing title than Mister and still exercise a power with the people, second only to that of the highest officer.

The time was when it was said that Bryan could not change his mind. Ex-

perience has also shown that it isn't safe to believe all that his opponents have said of him. He has made a much greater success of keeping in touch with the spirit of the people than his special opponents within the ranks of his own party. Mr. Bryan did not enslave over the annexation of Hawaii. Thus far he has seen little virtue in the retention of the Philippines. In dealing with Hawaii it not probable however that Mr. Bryan will support any other plan than a well rounded scheme of American development. He cannot fail to be pleased with much that he sees here during even a brief stay. He will have opportunity to see for himself that Americanism in Hawaii does not necessarily represent degeneracy for Hawaii or Americanism, and seeing, he cannot fail to be inspired with a desire to put his American shoulder to the wheel and help the thing along.

Mr. Bryan will doubtless encounter conditions here that will grate on his Nebraska-American nerves. The Oriental and the semi-feudal conditions on large plantation properties sometimes arouse a spirit of revolt in the minds of men fresh from the mainland. This condition is one not built up under the American system of government. It cannot be revolutionized in a day or possibly a decade. The assistance of such men as Bryan is needed to aid in promoting changes in a manner that will not destroy the industrial structure during the reformation period. Hawaii wants him on its list of workers, not for selfish reasons only but because America's position in the Pacific must be maintained and Hawaii is the great outpost of peace and war.

There are lines of operations that call for Americanism before partisanship. Hawaii is the first station along that line in this part of the American world. Mr. Bryan has never shirked any responsibilities placed upon him as an American citizen. That is why Hawaii anticipates his active friendship.

## HELP INVENTORS ALONG

Editor Evening Bulletin:—With reference to the article in your issue of the 29th ult. regarding a cane cutting machine now being perfected by Messrs. Gineca and Thielein, allow me to call your attention to the following paragraph taken from the London "People" of the 27th of August last: "Mr. M. F. Cockrell, son of an American ex-Senator, has invented a sugar cane cutter that bids fair to revolutionize the sugar planting industry of the Southern States of America. The machine, it is said, will do the work of more than 100 men."

Now it is a question for our planters to determine which machine it is in their interest to adopt, as it certainly will be a source of great satisfaction to them to get rid of the human cane cutters, who are continually discontented with their pay, liberal as it is. A machine will certainly beat a whole gang of coolies armed either with an English Matchet, an American cane knife, or a Spanish

(Continued from Page 1.)  
and I should like to see Americans finding preference in all departments of labor wherever the flag floats. This is America—a very important part of America, and American citizens, it seems to me, should be given first chance. They tell me an effort will be made to get European labor to work on the plantations. To import labor, Americanize it and increase American homes here—that is the proper idea. The home is the keystone of any state—the more American homes Hawaii has the greater and grander will her future be. But, as I say, I have not

## Laurel Meets Bryan.

William Jennings Bryan, the great silver Democratic leader, arrived in Honolulu this morning after a pleasant and uneventful trip from San Francisco. As the Manchuria did not come into the harbor Mr. Bryan was met by the committee of local Democrats, who had planned for his entertainment, in the U. S. customs launch. The launch containing the entertainment committee was at the steamer at an early hour and conveyed Mr. Bryan with his family to the Oceanic dock where the party was met by a number of automobiles provided for the purpose.

Breakfast had not been served on board the steamer, so the whole party proceeded to an up-town cafe where they had coffee, after which they started for the Pall.

On the journey to the Pall the party was met by several copious showers and twice was on the point of turning back but a small patch of blue in the sky ahead gave some encouragement. Notwithstanding the inclemency of the weather the Bryan party enjoyed the trip thoroughly. Mr. Bryan remarked, somewhat humorously, that with such foreboding clouds the folks in Nebraska would prepare for a cyclone. Mrs. Bryan was charmed with the wonderful panorama which lay at her feet and said it was one of the most magnificent views she had ever beheld. While a general shower prevailed on the Honolulu side of the Pall the sun was shining beautifully on the Koolau side and made a very beautiful prospect.

Owing to the great number of places to be visited, the time at the Pall was cut somewhat short and the party hastened to the O. R. & L. depot where a special train conveyed them to Honolulu Plantation.

The Railroad Trip.  
The special train to Honolulu plantation left the Palama depot shortly after 9 o'clock this morning. The train consisted of an observation car and a parlor car drawn by Engine No. 19. Geo. P. Dennison, Superintendent, O. R. & L. Co., was in charge of the train.

The following composed the train party: Hon. W. J. Bryan, Grace D. Bryan, Mrs. Mary Baird Bryan, Wm. J. Bryan Jr., S. Justice McClanahan, Lor na K. Lauke, Mrs. W. A. Kinney, Ethel Waterhouse, Fred. T. P. Waterhouse, Perley L. Horne, C. W. Ashford, M. C. Woods, Richard H. Trent, John Coffee, W. T. Monsarrat, Jas. L. C. Palmer, P. Woods, John Effinger, T. B. Lyons, S. P. Woods, W. F. Dillingham, F. J. Testa, W. W. Miller, Henry S. Kerr and Geo. P. Dennison. In the order and manner above named the passengers placed their photographs in the party record book of the observation car.

## Bryan Wanted to Know.

Mr. Bryan, Mrs. Bryan and Miss Grace Bryan sat with several others on the observation platform, asking man questions in regard to everything they saw. W. A. Kinney, C. W. Ashford, E. B. McClanahan, R. H. Trent and others, in turn, kept the distinguished guests informed.

Mr. Bryan manifested great interest. He wanted to know all about sugar, Pearl Harbor and local Democracy.

How much could the islands produce; how many crops in a certain period; the cost of labor and manufacture; the preparation of the soil, irrigation, etc. What had been done in the way of dredging Pearl Harbor. How many white voters were there in Hawaii? In this latter connection the following conversation between Mr. Bryan and a local Democrat is interesting:

## Bryan Talks Politics.

"How many voters has this Territory?"

"Oh, about ten thousand."

"How many white voters?"

"About two or three thousand."

"Then the Hawaiians should be able to run things as they wish."

"But they do not."

"Why not?"

"They do not hold together."

"Why not?"

"The controlling party—the Republican—makes it a point to see that the Hawaiians do not hold together."

"Are the Democrats strong here?"

"They are getting stronger."

"You should send a Democratic delegate to Washington before long. Our next President will be a Democrat."

"We will make the try."

"Politics seems to be lively here for a small place—for the number of voters."

"You would think so, if you had been here during the last campaign."

"From what I have already heard from those so splendidly entertaining me—for you have been telling me a little about each other—I'm in the midst of men who have had considerable to do with the making of local history."

"Oh, we all take a hand."

"I'm glad you're going to take me to see the Governor. I've heard something of him. I believe he is a very active, strenuous gentleman."

"He is, indeed."

In the Sugar Mill.

The train trip was most pleasant. Arrived at the Honolulu plantation mill, the Bryan party was personally conducted through the great institution by Manager Low.

Manager Low held Mr. Bryan's most earnest attention as he showed him round, explaining everything, taking the greatest pains to clearly and briefly inform his attentive listener.

"We have sugar in Nebraska," said Bryan, "but it's beet."

The ladies of the party were also deeply interested and climbed around, taking it all in. Frequently the great statesman mopped his brow, for it was warm in some portions of the mill. But his interest abated not a bit.

Bryan and his family wetted their forefingers and took tastes of molasses from a stick dropped in the sweet by Manager Low.

Bryan asked concerning the extra expense of refining here, labor employed and chemicals used. Low provided a master lecturer on sugar processes. Samples of cane were brought back in the special train.

When the party alighted from the train a momentary shower sprinkled the visitors and Bryan found his overcoat handy.

"This is just some of our liquid sunshine," remarked a Honolulu man.

"Yes; I feel the liquid," said Bryan. Greeted With Songs.

Bryan and his family returned to the city in automobiles, going to the Kamehameha Schools, where the boys and girls welcomed him with Hawaiian songs and showered more flowers on the members of the party.

"If you could manage to give a little address while in Honolulu," said a city man to Mr. Bryan, "I'm sure the people would be delighted."

"Whatever you say goes," said Bryan, "what shall I say?"

"Anything you like."

"I will."

Besides William Jennings Bryan, Mrs. Bryan, Miss Bryan and Mrs. Bryan Jr., the party to the Pall consisted of W. A. Kinney, Mr. and Mrs. E. B. McClanahan, Miss McClanahan, Mr. and Mrs. Woods, Palmer Woods, Curtis Lauke, Miss Lorna Lauke, Richard H. Trent, and representatives of the Press.

It was forthwith arranged that Mr. Bryan would address the public from the veranda of the Hawaiian Hotel at 1 o'clock.

Until the hour of his departure this evening, Mr. Bryan will continue to be royally entertained.

## Is After Lumber Combine

It was today ascertained that the local meat trust will probably not be the only concern which will feel the long arm of Uncle Sam reaching out for it in the near future. It is a well-known fact that United States District Attorney Breckons some time ago submitted to the authorities in Washington facts which he had gathered relating to local octopi, and this report did not only cover the meat trust, but also several other suspected combines.

Among those others was an alleged lumber trust, which, it is thought, exists between several large local lumber concerns for the purpose of screwing up prices on lumber and to shut out competition in that line. While it is an assured fact that Breckons will in the very near future proceed against the alleged meat trust, it is also practically certain that he will institute proceedings against the alleged lumber combine, which will include some prominent firms.

## SOCIAL SCIENCE OFFICERS

J. P. Cooke entertained the Social Science Club at his residence last evening. It was the annual meeting and the election of officers resulted in the selection of Judge A. S. Hartwell as president and W. L. Whitney as secretary.

The discussion of the evening was led by M. M. Scott who gave a most interesting talk on observations of the influence of the mixture of races on physical and mental development of the offspring.

The Federal authorities have, at the request of the British Consul, arrested Geo. Jennings and Wm. Mattson, deserters from the British bark Safala.

## THE QUEEN'S HOSPITAL

## PAY PATIENT DEPARTMENT

THE QUEEN'S HOSPITAL PAY PATIENT DEPARTMENT offers superior accommodations and attendance for pay patients both in ward and private rooms. The recent "Pauali Annex" addition to the Hospital with its modern equipped Operating Room, Sterilizing, Anesthetic and Bathrooms, also portable baths, afford an up-to-date service in every respect, with Resident Physician, staff of trained Nurses, &c., also an Elevator Service. The following are the rates, which include all charges for ordinary medical cases if in charge of the regular Hospital Physicians and Surgeons:  
Ward Patients . . . . . \$2.50 to \$3.50 per diem  
Private Rooms . . . . . \$1.50 per diem  
Practicing Physicians are invited to place patients in the Hospital either in ward or private rooms, such patients to remain under the care of their own Physician, subject to the Rules of the Hospital; such patients will, however, have to pay their own Doctor.

Applicants for admission to the Hospital must furnish the Superintendent a surety for Hospital charges, or else pay two weeks in advance, which must be renewed every week thereafter. In Surgical cases a charge of from \$5.00 to \$15.00 is made for use of Operating Room and a "terials. Surgeons are invited to use the Operating Room of the Hospital under the above specified rates, and arrangements for hours can be made with the Superintendent.

Persons desiring admission to the Hospital should apply to the Superintendent, on the premises, Punchbowl and Miller Streets.

For further information or reference apply to the Superintendent or Resident Physician at the Hospital, GEO. W. SMITH, Esq., Secretary (Benson, Smith & Co.) or E. J. BISHOP, Treasurer (C. Brewer & Co.).

## DE BOIT DEGINES

AT PRESENT

**TO CONSIDER MERITS**

Judge De Boit this morning rendered the following opinion in the case of Bruce Cartwright, trustee under the will of Emma Kaleleonalani, vs. Queen's Hospital, Bruce Cartwright, administrator of the estate of Albert Kunulakea, and A. N. Campbell, administrator of the estate of Mele L. Kunulakea, bill for revivor and supplement.

"The plaintiff, as trustee of the estate of the late Emma Kaleleonalani, seeks the instruction of the court as to the respective rights of the defendants in said estate, his duties in the premises and whether or not certain lands belonging to the estate, or any of them, should be turned over to the Queen's Hospital, one of the defendants named. The testatrix, by her will, after various bequests to servants and others, devised to A. J. Cartwright, the predecessor of the present trustee, certain lands in trust to devote the rents, income and profits thereof to the payment of certain annuities and scholarships. As the court said in Sears vs. Hardy, (129 Mass. 529), 'The question which lies at the threshold of the investigation of this case, . . . is whether all the parties, who are interested in the subject matter of this suit, and may be affected by the decree, are before the court so that complete justice may be done and future litigation avoided.'

"Those entitled to the annuities and scholarships, as it would seem, have a vital interest in the subject matter involved in these proceedings. They have not, however, been made parties, and of course, if interested, they would not be bound by the result reached under the present pleadings. And, while the question as to a lack of necessary parties has not been raised by any of the parties now before the court, still, as it seems to me, a proper regard for the duties and powers of a court in matters of this character require me to decline to enter upon a consideration of the merits of the questions submitted in the present state of the pleadings. The bill, therefore, is dismissed; provided, however, plaintiff may have five days to amend if he desires so to do. Decree accordingly."

"There is no way for us to advance except to do the work which falls to our hands."

"Youth has its ambitions for wealth or office or influence and we sometimes lose sight of our work, but as we advance in years we see the import of things more in their proper proportion and are better able to measure events."

"We can not do anything all at once. We must take up the work begun by others and leave our work unfinished for others to carry on."

"But let us so do our work that when we die our friends, those who know us, will find the sky a little less bright because our light has disappeared and the world colder because the warmth of our heart is not here any more."

"There is an unfinished work! May you all work here in harmony, always, for the attainment of a grander, greater, more glorious civilization."

## CYCLOMERE TRACT

IS ORDERED SOLD

Judge Robinson this morning granted a decree of foreclosure in the case of John F. Hackfeld, trustee, vs. Chas. H. Desky, trustee, and W. Wolters, ordering the sale at auction of certain lots in the Cyclomere tract in Kewalo, which were mortgaged for \$10,000 by Desky. M. T. Simonton was appointed commissioner of the sale under a bond of \$1000.

The lands which are to be sold, with the exception of certain lots which have been released, the site of the old Cyclomere bicycle track, which was later on made a tract and cut up into lots by Desky.

While chasing a mouse the other day Mme. Delatour, of Paris, broke through the floor of her room and found in the hole a brass box containing gold coins of the value of \$1,000.

## Books, Bookish People and Things

We get no good by being ungenerous even to a book. E. B. Browning.

"The Hawaiian Forester and Agriculturist." July. A monthly magazine. 10 cents a copy; \$1.00 a year; foreign, \$1.25.

This valuable publication on "Forestry, Entomology and Agriculture," but broadly including as its field the whole vegetable world and what directly affects it, is edited by Leopold G. Blackman, and issued under the direction of the Board of Commissioners of Agriculture and Forestry.

The most of the July number is given up to a reproduction of an excellent paper by Wm. Alanson Bryan, entitled, "Paternalism in Agriculture," read before the Social Science Club in May last.

There are some timely editorial notes, a list of agricultural publications, and a list (partly 't is necessary) of insects which have reached Hawaii.

Among these are the "American Cockroach." Now I think it is about time for the United States to begin to use some discrimination in the bestowal of its political favors. To naturalize a cockroach, actually to make him an American citizen with the privilege of being familiar with the American Constitution and Webster's Dictionary, is going a little too far.

I confess that the Cockroach is not much worse than many other Americans we have adopted, but it is bad enough. Like certain others who use our name it runs down (also up and all over) our best American works. As evidence I can show the "President" totally disfigured by this wretched, disrespectful American cockroach. Call him Periplaneta or anything else, but for the sake of our national reputation call him no longer American.

"Woman's Home Companion." September. 10 cents a copy; \$1.00 a year. The Crowell Pub. Co., New York.

There is an attractive cover-page in color indicative of our modern-day progress. Wilson Barrett has a story "The Silver Pin," and Prof. James H. Hyslop contributes a highly interesting and "creepy" article on "Ghosts from Real Life." Dr. Hyslop is the vice-president of the American Society of Psychical Research. There are other stories, fashion notes, recipes, a photograph "prize contest" and Mrs. Sangster's page.

A large part of the journal is printed in fine type which is difficult to read by lamplight. This is a decided disadvantage to older readers—those who are halting between the spectacular and unexpected periods.

Many of the newspapers are printing with the same type, and if readers consulted their own comfort they would petition for a change.

"Tales." September. 25 cents a copy; \$2.50 a year. Tales Pub. Co., 2 W. 40th St., New York.

An unusually excellent number containing some 19 stories, four from the German, six from the French, one each from Norwegian, Persian, Polish, Spanish and Italian, two from the Russian and one American story by Inez H. Gilmore. Among the better known authors are: Anatole France, Sudermann, Chekhov, Bourget, Reibach and Wildenbruch.

This is the only publication we know of that places the best stories of so many countries within the reach of the average reader. In each case the translation is well done.

Dr. Barton, a Canadian by birth, is the author. He is a professor of Biblical Literature and Semitic Languages in Bryn Mawr College, and was Director of Oriental Study and Research in Palestine for one year. During that time he made the journeys and observations which fill his book.

But he is not technical, and has a modest, pleasing way of telling what he knows about the fascinating land he visited. The information and entertainment furnished is in the form of letters "written to brothers and sisters in the stress of travel—some of them—in a crowded tent by dim candle-light after fatiguing days in the saddle."

Being dated at specified locations, the letters are personal and quite free from literary pose.

I suppose there are few persons to whom Palestine is not vivid in the glamor of idealism. We love to think of Bethlehem and Nazareth as they were when Christ saw them—we are jealous of the changes which have occurred and so greatly altered them.

So while books of this sort are deeply interesting to us, yet being true descriptions they disappoint us. Why not be as sure as the ignorant residents are of this and that historical well or tomb or pool?

Probably, though, after visiting the land and realizing the uncertainty of fixing any particular place with its historical record, one would finally come to be satisfied with a certain certainty, that, after all, this was the Land where Christ was born. The same mountains and their sea, the same skies, the same grim rocks sheltering from heat in a weary land, the same sweet flowers to illumine the plains.

Of the Sea of Galilee Dr. Barton says with legitimate reverence: "No spot which I have ever visited

has impressed me as this region did. In itself the scenery is very beautiful, but the thought that the divinest ministry the world has ever known centered about this little sheet of water and was lavished upon the dwellers on its shores, fills one with holy reverence. On every part of the lake the Master must have been. As we rode along we instinctively were hushed to quietness, more stirred in heart than by many sermons."

To this traveler the Sea of Galilee seemed more "as of old" than even Jerusalem. This is the proper feeling to have, and with it a man can go even to Palestine and not suffer serious disillusionment.

Dr. Barton went from Montreal to Oxford, England, then to Athens, Corinth, Damascus, Jerusalem, Bethlehem, Hebron, the Jordan, Dead Sea, Samaria, Beersheba, Cairo, Luxor, Alexandria and the European cities. The illustrations made from photographs are numerous (145) and beautifully clear. These with the text give one a very good idea of Palestine.

"A Year's Wandering in Bible Lands." By Geo. A. Barton, Ph. D. Cloth gilt top; 12mo.; 276 p. p. Ferris & Leach, No. 29 North Seventh St., Philadelphia. \$2.00 postpaid. Half morocco \$3.00.

Just before the Ward anniversary meetings, a great and noble American woman died—Mary Livermore. May 25th her funeral services were conducted by Edward A. Horton, pastor of the Unitarian church at Melrose, Mass.

Like Mrs. Ward though in a different way, Mrs. Livermore served her country at its most trying period. She was a nurse among the wounded and dying, and after her service she wrote one of the notable books of the war.

The B. B. is not given to going into ecstasies over sermons he hears for he considers a large per centum of them very stupid, but he must say that the sermon he heard Mrs. Livermore preach one day a few years ago was a grand sermon, religious, reasonable and as helpful as words could be.

The sweet, kindly face, the pleasant, evenly modulated voice, and the strong, suggestive sermon, I shall never forget. Surely America has cause to be proud of her women!

Oscar Wilde is reported to be "alive and living quietly in France." But he is dead to all the world that knew him, and can never be resurrected again.

The author of "Fitzgerald's Guide to Tropical Mexico" has our thanks for a copy of his book. It contains much that is of interest to intending settlers in the land of the Aztec.

"The Cuba Review and Bulletin" for July has some very good articles and illustrations. Munson S. S. Co., New York.

"The New Era Illustrated Magazine." July. 25 cents a copy; \$2.00 a year. The New Era Illustrated Magazine Co., New York. There is an interesting historical paper on "Moses Hart's Mining America," a new religious system proposed by a Canadian Jew as early as 1815. David Lazarus writes on "Jewish Art and Artists," and Dr. Lasker on "The Games of the Jews." There is an illustrated sketch of Sairo by Professor Gotthell.

Ernst Von Wildenbruch, whose career began with the writing of a play in 1868, is now a leading writer in Germany. He has had many varied experiences, the grandson of a Prussian Prince, born in Beyroth, first military officer, afterwards lawyer then soldier in the war of 1870 and, finally, author. He has twice taken the Schiller prize for dramas, and is ranked with Sudermann and Hauptmann.

"Public Opinion." August 17. 10 cents a copy; \$4.00 a year. Public Opinion Co., New York. Mr. Flynt's interesting papers are continued to "Flammable and Non-Flammable in Russia." Other contents are: "Railroad, Town and Tramp in the West," "Coming of the Trolley" and "A New Painter of Beautiful Women."

### SPORTING WORLD

HARVARD ELEVEN LOSES MILLIONAIRE MANAGER.

Boston, Mass., Sept. 13.—Harold W. Vanderbilt, '07, has resigned his position as assistant manager of Harvard football eleven, and may not be seen on Soldiers' Field this fall in his managerial capacity.

Vanderbilt was second assistant last year, and was then appointed first assistant manager to F. A. Goodhue. He contemplates finishing his course at Harvard in three years, and as he would not be back next fall, has resigned, so that a new man could be fitted into the place.

The young man is the son of Mrs. O. H. P. Belmont, of New York and Newport, and is the first of the Vanderbilt family to complete his college course at Harvard.

While at Harvard he has been engaged in no college activities other than the business end of football. His successor has not been chosen, nor will the new man be named until the opening of college, when the Athletic Committee will meet.

### HEGEWISCH TO BANQUET NELSON.

Chicago, Sept. 12.—There are to be great doings at Tammany and Hegewisch way when Battling Nelson comes home. He is expected before many weeks. Nelson's victory over Jimmy Britt was a matter of great satisfaction to Hammond, where Nelson is better known than even at his home in Hegewisch.

It was there he received his first training as a fighter. His first glove fight was in the rooms of the Columbia Athletic Club, in Hammond, in 1896, where he got a decision over "Kid" Wallace. Three years ago came the first turning point in his pugilistic career, when he fought a six-round draw with Hurley, the Hammond feather-weight.

An immense reception and banquet is being planned for him on his return to Hammond by the Regular Athletic Club, of which Nelson is a member. Nelson's acceptance of a \$1,500 week theater engagement may delay his home-coming. He opened last night in San Francisco as the feature of a burlesque show.

### BARNEY OLDFIELD HAS THREE NARROW ESCAPES.

Bethlehem, Pa., Sept. 7.—Barney Oldfield, in his Green Dragon, went after the world's half-mile track records from one to ten miles at the State Fair here yesterday. He established new records for the distance from five to ten miles, but failed at the others. His best mile was in 1:14 and the ten in 12:38.4. He will make another attempt on Friday. There was a strong wind blowing the length of the track during the trial. A five-mile motor cycle race was won by Richard Ruch, in 7:25; F. R. Addis second—a new mark for the local track. Several women fainted at Oldfield's daring racing around the turns, and thrice he barely escaped the fence.

### GOTCH DEFEATED CARKEEK.

Butte, Mont., Sept. 5.—Frank Gotch, of Iowa, defeated Jack Carkeek, of Michigan, in a wrestling match here. Carkeek gave up the struggle after the first fall, which Gotch scored within five minutes.

### WHY PUGILISM IS POPULAR.

(By the Boxer.)  
Pugilism dates back to the year 1740. Great men have been its shining lights.

One former champion was later a respected member of Congress. It withstands the waves of reform, and is no sooner stamped out in one section than it springs up in another. It costs from 25 cents to \$25 to see a bout, according to the calibre of the men.

Some college men have become boxers, while some boxers have gone to college.

Some fighters would be a credit to a college, while some college men would not help the sport of boxing.

Theodore Roosevelt numbers among his best friends some noted boxers. The President conducted a ringside seat at the Maher-Choyanski fight in New York. That's all.

### WHY FOOTBALL IS POPULAR.

(By the Collegian.)

There are 455 universities and colleges in America.

The student population of these institutions numbers 125,834.

Four hundred and fifty-six Harvard students admit that they play the game. The remainder of the 2,963 confess that they love it.

The President of the United States, his Cabinet officers, and men who are making new and glorious history for America have sat through a cold winter's afternoon right here in our city and enjoyed the game.

Society fosters it.

The leaders of the 400 in all the large cities seldom miss a contest.

That's why it's popular.

## DR. CHARLES FLESH FOOD

### APPLIED AS A COLD CREAM ACTS AS A MEDICINE.

Whoever applied, its healing and nourishment is instantly absorbed by the pores. It strengthens and builds up the tissues underlying the skin and firm, healthy flesh is the result.

DR. CHARLES FLESH FOOD is no new experiment. It has been in use for more than fifty years and during that time thousands of women and men have used it with entire satisfaction.

That it is not to be classed with "Cold Creams" and other things of like superficial potency is proved by the fact that it is prescribed by leading physicians and used in hospitals for the nutrition of invalids whose stomachs are too weak to digest food.

DR. CHARLES FLESH FOOD should be used by every woman who has the least desire to be attractive. It is the only preparation that will round out hollowed, thin cheeks or scrawny neck with firm, healthy flesh and remove wrinkles from the face and hands, no matter how deep the furrows.

FOR DEVELOPING THE IMMATURE BUST or to make the breast firm, large and beautiful nothing can equal it. To prevent the breasts from shrinking after weaning baby, mothers should always use DR. CHARLES FLESH FOOD. It will also restore a bosom to its natural contour and beauty lost through nursing and sickness.

### ON SALE AT ALL DRUGGISTS.

SPECIAL OFFER. The regular price of DR. CHARLES FLESH FOOD is \$1.00 a box, but to introduce it into thousands of new homes we have decided to send two (2) boxes to all who answer this advertisement and send us \$1.00. All packages are sent in plain wrapper, postage prepaid.

FREE. A Sample Box—just enough to convince you of the great merit of DR. CHARLES FLESH FOOD—will be sent free for 10 cents, which pays for cost of mailing. With this sample we will also send you our illustrated Book, "Art of Massage," which contains all the proper movements for massaging the face, neck and arms and full directions for developing the bust. ## HAWAIIAN SISAL MATTRESSES

Try a Hawaiian Sisal Mattress and see for yourself, if they are not clean, cool and nice to sleep on. Sisal is not only made into Mattresses, but we make pillows and cushions out of it. By the last mail from the Mainland one of our men received a letter, and on the envelope was his name and then below, care Mr. Hawaiian Sisal Mattress, etc., so the Hawaiian Sisal has not only become popular here, but the name has reached the Mainland.
