GOVERNOR CARTER TO SEND FORWARD PINKHAM REPORT

**He Disclaims Secrecy and Wants Statements of
Labor Bodies Who Refused to Sign
the Document.**

"This is the day for the giving away of secrets," said Governor Carter yesterday.

"No, no; the secrets are not mine. I had nothing to do with throwing any veil of secrecy about the work of the Pinkham commission. I put the matter into the hands of the labor bodies. If they wanted to hold back the publication of their report until it had been signed and forwarded, that was their business and not mine.

"I have merely urged them to give me their report. It has grown since the work was undertaken, to a much greater scope than was at first intended, and the expense has been consequently greater. But I had been given additional help upon that matter. If the report is against the small farmer, that is not my fault nor do I believe it is the fault of the commission. The testimony in the report comes directly from the small farmers themselves. The Pinkham commission has been on the ground, and seen what they were doing, endeavoring to treat all fairly. It is true that an occasional successful farmer may have been overlooked, but the commission has been and seen.

"The Advertiser has tried to build up a middle class here, and that is what most men who think for the future have tried to do. The Pinkham commission has been an effort to reach the same result in another way. If the laboring men do not now see fit to sign the report, I still want the report to go forward to Washington with the statements of the bodies who have refused to sign showing why they have refused."

And, with this preface, Governor Carter gave out the following statement concerning the Pinkham report, and its publication by the Advertiser in advance of its presentation to him:

"Honolulu, Jan. 9, 1905.

"The Advertiser is making a great ado about the labor investigation, and I am perfectly willing to be interviewed and give to the public the facts, for it is unfortunate that those in control of the labor organizations, while groping and reaching out for better conditions, should have turned down a proposition greatly in their interests; and the day will come when they will see their own mistake and will realize that the Advertiser has done them an injury in its antagonism to Mr. Pinkham.

"When East, there was again forcibly brought to my at-

WHY GOVERNOR CARTER ENDORSED MR. PRATT

**Recognized His Ability, and Believed He Was
Entitled to Something at the Hands
of This Community.**

"I was led to endorse Mr. Pratt for the appointment as postmaster at Honolulu," said Governor Carter yesterday, "by my recognition of his ability, in the first place.

"And then, I felt that this community owed him some recognition for the good work that he had done for Honolulu.

"I believe that nothing but good can come to the community from this appointment. I have the most complete confidence in the ability of Mr. Pratt to handle the business of the postoffice, as he is a most efficient man, and I think that his friends in Washington will be led to appreciate what we have done for him, and will feel more friendly toward the Territory than they might have felt if he had been turned down.

"There is always the consideration, that an impression exists on the mainland that no stranger can come to Honolulu and get to the front, no matter what his ability or merits. They think that we have a kind of close corporation down here. That impression has been hurtful to us, in times past.

"I thought, if Pratt should be compelled to leave here, after what he had done for the Territory, without having received any recognition or any reward of any nature whatever, that much more would be done to confirm this impression. And that would have hurt us abroad.

"This, it is true, was a negative reason in my consideration of the appointment, but I will admit that it had weight. My principal reason for recommending Mr. Pratt, as I said before, was because I recognized his ability, and because I believed that nothing but good would come of his administration of the office."

And now it would be interesting if somebody would find out from Delegate Kuhio why he recommended Desha. Maybe, however, it is not needful to ask him. He recommended Desha because he could not recommend anybody else—with any show of having him appointed. Even a Delegate has to do some things to keep up the dignity of his job.

FEDERAL BUILDING IS DEBATED BY MERCHANTS

Resolved, That it is the sense of the Merchants' Association of Honolulu in special meeting held January 9, 1905, that the bill for an appropriation as introduced in Congress by Delegate Kalaniana'ole of Hawaii, for the purchase of a site and the erection of a Federal building in the city of Honolulu, is hereby endorsed and be it further,

Resolved: That we do not favor the purchase of any building now in Honolulu for Federal purposes, and that Delegate Kalaniana'ole be immediately advised by cable to the above effect.

(Signed) JAMES WAKEFIELD,
W. W. HARRIS,
J. G. ROTHWELL.

The above is the resolution unanimously adopted last night at a meeting of the Merchants' Association, one member not voting. The resolution was cabled in full to Delegate Kalaniana'ole at Washington and should be on his desk the first thing this morning.

The expression of opinion of the members present at the meeting was that the Kuhio bill, in preference to either the Cushman or Perkins bills, should be supported by the business element of Honolulu. Three members did not share this view, favoring the bills which looked to the purchase, by implication, of the Young Building. The resolution, presented by the committee as named above which was selected on motion of the members, received thirteen votes, and three against. Mr. Gilman, for the minority, moved that the resolution receive a unanimous vote and was seconded by Mr. Steiner, also of the minority. Mr. Babbitt, for reasons which were obvious, asked to have it made unanimous, on his request that he should not be considered voting.

MOANA HOTEL MUST PASS UNDER THE HAMMER

**Order of Foreclosure and Sale at the Instance
of the Bondholders to Satisfy Bonded
Debt of \$107,500.**

Under foreclosure by the bondholders, the Moana Hotel and all its equipments will be sold at auction on Monday after next, January 23. Interest on the Moana's \$100,000 of bonds is in default to the amount of \$7150, making the bonded indebtedness \$107,500. Judge Robinson made the order of sale yesterday, appointing J. T. Simonton as commissioner.

The proceedings were instituted by the Hawaiian Trust Co., trustee of the bondholders, for which H. E. Cooper and S. H. Derby appeared. E. A. C. Long represented the respondent, making no contest. Mr. Hertsche, treasurer of Moana Hotel Co., was called and testified to demand and default.

Rent had been kept paid up and some insurance had been carried by the trustee, but the property was in arrears of taxes for the past year.

Mr. Cooper waived all claims other than principal and interest of the bonds. A deficiency judgment would not be asked for. Time of ninety days for notice of sale was also waived, enabling the date to be set as early as already stated.

Judge Robinson asked if there was no prospect of a buyer from the mainland.

"No," Mr. Cooper replied, "the situation has been canvassed pretty thoroughly."

Evidently the proceedings were but a legal formality to facilitate the surrender of the property of the company to the bondholders.

The Moana was built in 1899 and has been running five years. It represents the pioneer effort to establish a first-class hotel at Waikiki beach, the most famous suburb of Honolulu. Sans Souci, where Robert Louis Stevenson stayed near the end of his life and did some of his best literary work, was a delightful retreat—half seaside, half sylvan—but it was not strictly a hotel. W. C. Peacock was the promoter of the Moana and has controlled the enterprise as a corporation.

LOUISE MICHEL OF THE COMMUNE IS DEAD

ASSOCIATED PRESS CABLEGRAM.

PARIS, Jan. 10.—Louise Michel is dead.

Louise Michel was born at Maison-Forte, Vroncourt, Haute Marne, in 1830, and was a teacher at Audeloncourt in 1853 and later in Paris and Montmartre. She sprang into prominence during the Revolutionary Commune in which she took an active part being imprisoned at its close. She was sentenced to transportation for life but in 1880 was released and returned to Paris. Her anarchistic doctrines caused her re-imprisonment in 1883 and 1886 so she found an asylum in England. She was the author of many anarchistic books and tracts.

PATHETIC PRISONERS

BETTINA GIRARD, ONCE A FAMOUS BEAUTY, DEAD

NEW YORK, Jan. 10.—Bettina Girard, the actress, is dead.

Twenty years ago, Bettina Girard was the petted daughter of one of the proudest and most aristocratic families in Baltimore, the city of aristocrats, high living and beautiful women. She lived the life that women of her class live, taking the froth that rises to the top of society and apparently having no thought of the darkness that lies in the lees of the cup. There was, in that day, no breath of scandal to touch her. But it came, fast. She had a mimic talent, and a rich voice, and she was a belle so toasted that once an officer in the United States Army, carried away by her beauty, drew off one of her satin slippers at a midnight feast and drank from it in foaming champagne a toast to beauty.

That made Bettina Girard notorious, but still no real scandal touched her. A little later, she married one of her own set, a wealthy Baltimore merchant of the name of Padelford—and there was a child, and unhappiness. Bettina pined for worlds outside her home, and went on the stage, forsaking husband and child—but keeping her husband's name, as she declared, to humiliate him.

Joining the Carleton Opera Company, she starred in comic opera from New York to California, living all the life that such women live and more than all. She went down, down, animated by her desire to humiliate Padelford, who offered her any sum she might name to abandon the stage, or his name. Anything, he would give but the child—and at the last she said that she wanted the child.

Finally, she drifted to New York, still going downward. She became a "dope fiend," and fell lower and lower. Her own people tried, more than once, to lift her up, but it was of no use. She was determined to go her own gait—and it has ended as the lives of such women always end.

GEN. MOORE OUT CALLING

Pays His Respects to the
Governor and Capt.
Lyon.

There was a ruffle of drums and more than that at the Capitol grounds yesterday afternoon, for the whole band was out in the band stand, dressed in its spotless white duck. The band struck up the "Star Spangled Banner," and an army ambulance drawn by four high stepping mules swung into the grounds from the King street entrance and came around to the main door of the building at a sweeping trot.

Two militia officers ran down the Capitol steps to meet the approaching vehicle, and out from it there stepped Brigadier General Francis Moore, U. S. A., commander of the Department of the Pacific, Lieutenant C. F. Cox, his aide, and Major Feibiger, Inspector-General of the Department. These distinguished officers had come to pay their official respects to the Governor, and the ruffle of drums was their official due.

The call upon the Governor was made at three p. m., and the soldiers remained with the executive for a little more than an hour. Gen. Moore, by the way, is a soldier who has come up from the ranks, and has had an interesting career. He enlisted as a private in the Colorado cavalry at the outbreak of the civil war, and in 1863 had risen to the rank of sergeant. He was commissioned as captain, in the Sixty-third United States colored infantry in 1863, and served with that regiment until 1867, gaining the rank of Major and Colonel by brevet. At the close of the war he was appointed to the regular army as second lieutenant, serving in the Ninth cavalry. He was made First Lieutenant in 1867, Captain in 1872, Major in 1882, Lieutenant Colonel in 1889 and Colonel in 1901.

Before calling upon Governor Carter, General Moore and his suite paid their respects to Captain Lyon, commandant of the Navy Yard, being received with a salute of nine guns and a file of marines, after the naval manner.

Concert at Seamen's Institute.

A good concert was given on Saturday evening at the Seamen's Institute by Dr. and Mrs. Waterhouse. Captain Berger took part and was applauded loudly by sailors present; also Mrs. Alapai, who sang several selections. Other ladies who participated were the Misses Judd, Schaefer, Jones and Waterhouse. The evening closed with light refreshments served by Dr. and Mrs. Cofer.

AN EDITOR'S OPINION.—John S. Dawes, Esq., editor and proprietor Guardian and Star, Hokitika, New Zealand, said: "I have found Chamberlain's Cough Remedy a very valuable medicine, having received great benefit from its use when suffering from a cold, and as a preventive for croup in children its excellent properties have been testified in my family." For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

MAPPING OUT PALOLO LOTS

Land Commissioner
Pratt Doing Things in
His Department.

Since his return from the coast, Land Commissioner Pratt has gone to work doing things in his office. Yesterday the survey department began the work of arranging its data preparatory to the opening of the Palolo valley lots to settlement. As a preliminary to this work, it is necessary to get a list of the kuleanas, so that the new lots will not impinge upon any private holdings, lay out the roads and run the lines of the proposed subdivisions of the lots. When all this work is completed and the data gathered, the Palolo lots will be at once put on the market.

It had been supposed that Palolo valley would be thrown open at once upon Mr. Pratt's return, but it seems from this statement, made by the Commissioner himself, that there will be some little delay about it yet. "However," said the Commissioner yesterday, "the work commenced today. The surveyor will take the field at once, and rush matters along as fast as he can."

But three applicants filed on the Pupukey and Paumalu tracts, thrown open recently by the land office, Elizabeth Bigelow Shaw took lot No. 1 of 127.8 acres, at \$12.50 per acre, a total price of \$1596. On this she paid in cash \$92.75.

Juergen Thor took lot No. 4, containing ninety-two and two-tenths acres, at the upset price of \$1152.50. He paid \$66.90 of the purchase price.

Will Pennar Thomas took lot 18, containing eighty-five acres, at a cost of \$1062.50, making a payment of 61.68.

"We have made a decided success in the lots we lately opened at Hanalei, on the island of Kauai," continued Mr. Pratt. "There were twenty-three of these homestead lots, and we have had applications for all of them—and for fifty-one more than there were in the tract opened. That is, there are the names of fifty-one more citizens on file who are eligible and who want homesteads. These lots comprised about one acre of taro land each, and several acres for house lots and grazing. They were all taken by native Hawaiians, on the nine hundred and ninety-nine year lease plan, and the applicants for the additional lots are likewise natives."

And that would seem to indicate that the natives are going back to the soil, although it is doubtful if one of them ever heard of such a thing as the "Simple Life." They merely have a desire to live it, having met with small success with the complex.

The San Francisco Weekly Examiner will distribute \$100,000 in prizes among its subscribers this season and Mr. H. W. Hoiling, their traveling agent, is now canvassing Honolulu for subscriptions, with local headquarters at Wall, Nichols Co. Don't miss this opportunity to subscribe; only \$1.50 a year, with a chance to get a fortune.

CAUCUS FIGHT MUST BE MADE IN TWO DAYS

Effort Will be Made to Avoid Open Battle for
the Speakership on the Floor
of the House.

When it comes to the election of a Speaker of the House, it is extremely likely from the way that things political are beginning to shape that the caucus must move more swiftly than any like body has ever done so far in island political history.

Heretofore, it has been the desire of statesmen to have at least two weeks of caucusing before the meeting of the legislature. There will be nothing of that sort this time. Indeed, it will be more than is now expected if there is a week of it. The limit placed by men in the know for the caucus gatherings is two days.

When Carl Smith of Hilo was in town the other day he announced to the politicians here his ultimatum in the caucus matter. "I do not propose to go to the expense of coming to Honolulu for the stay of two weeks before the meeting of the legislature," said Mr. Smith. "The luxury is too expensive. And I do not believe that any of the other outer island representatives will come either. In fact, I do not see any occasion for it."

There were even some legislators found to favor an open fight for the Speakership on the floor of the house, but it is not at all likely that it will come to that—although it would be a pretty fight enough.

The plan now is to endeavor to have all the outer island men in Honolulu on the Saturday before the meeting of the legislature. As the inter-island boats run, they must all of them be here by that date anyway, or most of them at least must be. As the session opens on Wednesday, February 15th, that will give the members a couple of days to rest, and they can begin caucusing on Monday, keeping at it steadily until the session opens on Wednesday morning, if they have failed to come to an agreement before that time.

GOVERNOR CARTER TO SEND FORWARD PINKHAM REPORT

(Continued from Page 1.)

tention the ignorance of the people and the leaders there as to our conditions here, and it was the impression on every side that labor out here was in abject slavery. It is not long ago since a book was written on Hawaii, where it told of the arsenals kept up by every sugar plantation here; that the crack of the rifle and the groan of the dying slave who had unfortunately prowled into the manager's grounds was no uncommon thing in Hawaii. Within the last month the San Francisco papers contained a statement of some Porto Ricans from Hawaii, which shows that the San Francisco papers are still of the opinion that slavery, in its worst form, exists in Hawaii. No other thing impressed me so deeply as the harm done to the community through ignorance of labor conditions here.

"While East, in discussing this, an opportunity came for financial assistance to secure reliable data. I accepted it, and cabled out here to start an investigation for a report, bringing the matter down to date, and suggested Pinkham as the most intelligent and best friend of labor in Hawaii to organize it. I knew of no man in Hawaii sufficiently intelligent to collect the data, who would give labor as fair a representation as Mr. Pinkham would.

"The labor organizations responded heartily, and selected a committee of their leaders, and they went to work with a will. I paid no further attention to it.

"It now turns out (like all men enthusiastic in their work) the matter developed from a simple report of statements, into a proposition, made lately to the planters, to meet them half way on a solution of the labor difficulties in Hawaii, going beyond what I anticipated.

"Their proposition, as I understand it, was that they recognized in our industrial structure built as it has been and the situation as it is here, that common Oriental labor was a necessity, and that they were ready to recommend the admission of Chinese, so that the balance of power could be maintained in the Territory, conditioned upon certain requirements. The planters demurred at first, I am told, and Pinkham hammered away at them, and finally succeeded in securing an arrangement, where practically the two interests went into partnership on equal terms.

"An arbitration committee to settle all questions that in future might arise between the sugar interests and labor interests in Hawaii was provided for. I find that they have selected me as the fifth member or arbitrator; and as the thing has gone by the boards, I am glad to be relieved of that responsibility.

"The proposition, as I see it, was greatly in the interests of that result which the Advertiser has held up as the main cause of its campaign for small farming, in that through the small farming movement we would secure the middle class which all deem so essential to the well-being of our community.

"The report has grown into a proposition that has that very object in view, the increasing of our middle class in Hawaii by the plantation owners stimulating to employ citizens or those eligible to become citizens in all skilled and semi-skilled positions—surely something that labor organizations ought to be glad to see put into operation.

"It provided that the planters should put up \$25,000, to be expended by this arbitration committee in another earnest attempt to secure common labor from other than Oriental sources. It did not, and does not express, on the question of small farming, any other than the result of the expressions of the small farmers themselves. There may have been cases of individual successful farmers being left out; but that is not its great object. To my mind, it is not whether small farming is a success—but to bring these two great forces of capital and labor together into harmony, and to provide a path by which in future they can keep in harmony.

"Through technicalities, and by the influence of some percentage (whether it is a majority or not, I do not know), the matter has been turned down, and exposed by some member of the commission before being presented to me. This is unfortunate, and cannot be helped.

"Nevertheless, I want that report to be sent on. I want the statement of these at the head of the unions that turned it down to go with it. I want the world at large to know the efforts we have made in this direction, and the result. There is nothing dishonest in our efforts. I cannot agree with the Advertiser that publicity is needed for everything, and I presume it was largely at the wishes of the members of the commission that their plans were kept to themselves. They did not take me into their confidence, and I do not believe Pinkham has improperly influenced the commission in its endeavor to get at facts. We all want the truth."

There was a rumor current on the streets yesterday that Pinkham would leave for the mainland with the report on the steamer Alameda, sailing Wednesday, and hurry on to Washington, but this seems hardly likely in view of what Governor Carter said. The protests of the labor bodies, if they are to be sent forward, could hardly be ready by that time.

"And I have not yet received the Pinkham report," said Governor Carter in concluding his talk.

THE KAU WINE COMPANY APPEALS TO GOVERNOR

Asks for Reconsideration of Refusal to Grant a Dealer's License—Symposium of Views of Residents of Kau.

The following correspondence shows the continuance of effort by the Kau Wine Co. to obtain a liquor dealer's license, notwithstanding the veto of the Governor:

Honolulu, T. H., Jan. 6, 1905. To Hon. A. J. Campbell, Treasurer Territory of Hawaii.

Dear Sir: 1. The Kau Wine Co., Ltd., begs to submit herewith copy of its letter dated January 5, 1905, to the Governor of the Territory, the purpose of said letter being to show that, whereas the punishment of offences against the liquor laws of the Territory lies with the police alone, and that the Governor as chief administrative officer is interested therein, the discretion of granting "Dealer's Licenses" lies solely with the Treasurer of the Territory and the Governor possesses no part of this discretion.

2. The Kau Wine Co., Ltd., respectfully asks of the Treasurer of the Territory a reconsideration of its application for a "Dealer's License" at Honouapo, Hawaii, for the following reasons: (a) After an investigation on the ground by an officer of the government, Sheriff Andrews of Hawaii, the granting of the license asked for by the Kau Wine Co., Ltd., was approved and recommended by Sheriff Andrews.

(b) The two plantations in the District prefer a Dealer's over a Retailer's license; and a "Dealer's License" to no license at all.

(c) A Dealer's License was granted on about December 9, 1904, to M. V. Holmes at Honokaa, Hawaii; a Dealer's License was granted on about December 22, 1904, to P. A. Diaz at Wai-pahu, Ewa.

(d) The people of the district for which the Kau Wine Co., Ltd., has made its application for a "Dealer's License" are desirous of having such application granted.

(e) These people show by their letters that the conditions at Kau are not as set forth in Sheriff Andrews' reports to the Treasurer. That as a matter of fact the district has been in better order since the granting of the Dealer's License for the District than at any time theretofore. That the Kau Wine Co., Ltd., have conducted their business in an orderly manner and with a view to law and order in the District. That drunkenness has decreased and looting has almost disappeared. That a licensed seller of liquor is much more preferable from the standpoint of control of labor than no license at all.

It is submitted that the idea that illicit selling can be controlled or prevented in so extensive a District as Kau, or in any outlying District, by the refusal of any and all license is fallacious and logically incorrect as it is bound to produce a mischievous effect among the plantation laborers.

These people have the same legal right to purchase liquor as any other residents or citizens of the Territory, and to refuse to them a convenient and authorized place where such demand may be lawfully supplied can only tend to their obtaining it by any other available means in any other place that it may be offered for sale. Where there is a dollar to be made there are always to be found those who are willing to take chances and make it, honestly, if they can, otherwise dishonestly.

The theory that goods can be forwarded from a central point say a particular wharf or landing, and watched until it reaches the consumer indicates an intention on the part of the authorities to establish a system of espionage, that for several reasons is not practicable.

1.—Such a system is certain to irritate those who have no intention of wrong-doing, and if carried out effectively, cannot fail to produce trouble and perhaps strikes among a laboring people, who are known to be both sensitive and tenacious of their rights.

2.—In order to carry this out effectively a large force of spies and informers will be necessary, whose presence, when known, never fails to excite opposition and defiance in any community.

The greater the difficulty placed in the way of lawful trade the more certain will be the demand, and consequently locally manufactured substitutes, such as swipes, okolehao, etc., will be supplied. As the result of this the only licensed distributorship point in Kau, there were upwards of 20 packages of sake and liquors shipped per steamship "Mauna Loa" on her last trip to outside parties, while the Kau Wine Co., Ltd., were prevented from shipping a single case.

By the present trip of the steamer, owing to the fact becoming known that no supplies can be legally obtained, it is probable that twice or thrice the above quantity will be forwarded. We submit that most of these goods will reach the consumer by and through the same hands as heretofore, and now, practically all through illicit channels.

How can it be argued that the withdrawing of a license can possibly result in the stopping or even diminishing of illicit selling in a particular section or district?

Is not the exact opposite result to be anticipated and that by adopting such a course practically all such sales in such district will be illicit, with the same if not greater difficulty for the police to convict offenders? The offense is committed by the man selling illicitly no matter where he gets his liquor from.

The Kau Wine Co., Ltd., encloses herewith copies of letters written by people in Kau the originals of which were enclosed in a letter dated December 30, 1904, by G. C. Hewitt, Esq., to the Governor; and also original let-

ters from other people in that District; and submits that these letters show the true state of affairs at Kau, and bear out the assertions above made.

We do not believe we are trespassing upon any statute or principle of law when we ask the exercise of the personal discretion of the Treasurer with regard to this application for reconsideration. Under the Bradley-Thurston decision of our Supreme Court this discretion cannot be reviewed. Under these circumstances, the mind of the Treasurer being the court of last resort such discretion, we submit, should be exercised all the more carefully and moderately. The power over life and death is exercised, for force, more deliberately than the power to punish for minor offenses. To put the one into operation may be as easy as to put the other into operation, but the effect of the one is vastly more far-reaching than the effect of the other. The greater the power, the more care should be used in the exercise of it. Otherwise all sense of security and stability is lost.

We respectfully submit, that though the Treasurer cannot be compelled by law to exercise discretion under the Bradley-Thurston decision, the duties of his high office themselves require, in the exercise of his discretion, that he should proceed without taking advantage of this decision. The Bradley-Thurston decision is for his protection. It is impossible to regard it in the light of his office as a shield for an abuse of discretion, or a justification for such.

In other words, notwithstanding the Bradley-Thurston decision, to which Mr. Justice Dole strongly dissents, and whose dissenting opinion expresses today the weight of authority as enunciated by the decisions of the State Courts, we submit that the exercise of discretion by the Treasurer in his matter should constitute the discharge of an official duty and not a mere expression of personal will, or of personal views that the scope of the licensing laws is against public policy, or views on the propriety or impropriety of licenses, or that there is no necessity for the license. Such discretion should be exercised in this particular case and upon the facts and circumstances submitted, after they have been heard and duly considered, regard being had to the interests and policy of the state as manifested in the statutes, as well as to the interests of the applicant and of the District in which the business is to be carried on.

We submit that under the facts and circumstances above enumerated, the denial of the application of the Kau Wine Co., Ltd., for a Dealer's License at Honouapo, Hawaii, should be reconsidered and that said application should be granted.

Yours respectfully,
KAU WINE COMPANY, LTD.,
By J. G. ROTHWELL,
Its President.

Naalehu, Kau, Hawaii, Dec. 28, 1904.

J. G. Rothwell, Esq., Honolulu.

Dear Sir: I have made a thorough canvass of our district regarding the relative advantage and disadvantage of wholesale and retail liquor business, and I find it practically unanimous that if a decision must be made between the two, that it would be by far the best plan to leave it as it is. (Mr. Wolters concurs in this.)

It would be better, all think, if it could be so as to permit the wholesaler to sell by the bottle in these thinly settled districts which would be near enough to retail to satisfy, and at the same time thoroughly eliminate the illicit dealer. If the wholesaler is abolished the Japs, who are by far the greatest consumers, will order by the case from Honolulu and will all become illicit dealers, thus diverting the trade from the citizen and sending the money out of the Territory to the damage of business interests. If a wholesale license can not be secured, then a retail one becomes a necessity if sale by the bottle is allowed, as I understand it is. This district is too large and thinly populated to rely alone on a retail license. The wholesaler would be needed in any event.

It is hardly to be expected that a person would come fifteen or twenty miles to quench his thirst, and if he can not obtain refreshments in shape to take to his home, he will manufacture it, which would mean plenty of swipes, plenty of drunks, and plenty of trouble. There is very little drunkenness in the place, and what there is is mostly confined to the remote parts of the district.

The Sheriff informs me that his experience in investigating the matter agrees with mine.

Yours very truly,
L. S. THOMPSON,
Government Physician, Kau.

Waiohina, Dec. 30, 1904. Having been asked to state if drunkenness in this district in on the increase, I answer that I have not any reason to state that drunkenness is increasing. But what I can state is that since we have a wholesale liquor house there is no more drunkenness on Sundays, all round the coffee shops as it used to be before.

The undersigned, a resident of Kau District for many years, does hereby certify that to the best of his knowledge intoxication is certainly not on the increase in the vicinity where he resides, neither has it been within the past four or five years.

(Signed) WM. P. HART,
Teacher of the Catholic Mission School, Waiohina, Kau, Hawaii, Dec. 30, 1904.

Waiohina, Kau, Dec. 31, 1904. Being brought up and having resided in Kau District since an early age, I can safely testify to the following statement:

First, that a wholesale liquor license is essential in my opinion for the benefit of the community at large, as it stops the illicit traffic in liquor sale. Second, that since the establishment of a wholesale liquor house at Honouapo in Kau District, Island of Hawaii, I can truthfully state that intoxication has lessened and decreased.

(Signed) C. G. MACOMBER.

Waiohina, Kau, Dec. 31, 1904. Before the issuance of a license to sell Spirituous Liquors in the district of Kau, 2 per cent of the cases brought before the District Court were for drunkenness. Since the issuance of the Wholesale Dealer's License to sell Spirituous Liquors in the District of Kau, the cases of drunkenness brought before the District Court have diminished until only 1 per cent of the cases were for drunkenness per month, and some of these cases were caused by home made liquor, namely "Swipes."

(Signed) J. H. WAIPIULANI.

G. C. Hewitt, Esq., Waiohina, Hawaii. My Dear Sir: Replying to your request for my views on the liquor question as it affects our local district, I will say, that I have traveled through the islands to a considerable extent, and nowhere have I seen less drunkenness than right here in our own district. During the past year I do not recall having seen a single disorderly drunk, nor more than five persons under the influence of liquor. This speaks highly for the district, for, as you know, my vocation calls me out and around all the time, and all over the district.

It is rumored that we are to have a retail saloon at Honouapo in place of the present establishment. Such a place would play havoc with the working men, especially the Hawaiians. It would be the resort of all the worst characters of the district, and would require the constant attention of the police force. Having the interest of our district at heart, I must say I hope such a change will not be made.

Believe me very sincerely yours,
(Signed) EDWIN IRISH,
Kau Telephone Office.
December 31, 1904.

Waiohina, Kau, Hawaii, Jan. 1, 1905.

Mr. G. C. Hewitt, Waiohina, Hawaii.

Dear Sir: In one of our local papers, I notice an article in reference to the Honouapo, Kau, wholesale liquor license. It seems to me, that the government is trying to stop the renewing of a license for 1904. I do really believe, that to discontinue the chance of having a wholesale liquor house in Kau, is a step ten years back. Since the opening of the Honouapo wholesale liquor house, I notice that less disorderly living among the native population in Waiohina existed, and hardly any drunkenness on the streets, and do not hear of any big fights; of course, they do make swipes and get jolly over it, and that it is all. I write this to you, because I am an old Hawaiian, have resided in Kau at least 47 years, and know pretty well what I am saying. Take the year previous to last, there were more fights, drunks, and a very disorderly crowd of people living at the west corner of our little village, but today there is hardly any.

Although I am not one of those who enjoys the use of intoxicating drinks, I wish them who do, to enjoy it in a lawful way, and to buy from a wholesale house, take it home and have a good time in a step in the proper way. I wish to mention here, that on one New Year's day twenty-five years ago, there were 77 cases of drunkenness before the district court of Waiohina, myself being an acting Judge at the time, think of that, only 77. In closing these few remarks, I may say, that the illicit sale of intoxicating liquors in Kau during the past has been greatly reduced. I hope they will give the Kau people a chance to get home buying from a wholesale house here, instead of going either to Hilo or Honolulu to buy.

Wishing many a happy day to you,
(Signed) JNO. H. S. MARTIN.

Waiohina, Hawaii, Jan. 1, 1905. Being asked whether, in my opinion, drunkenness in this district has increased or decreased since there has been a wholesale liquor establishment in the district, I unhesitatingly say that I have seen far less. I remember of seeing but one person under the influence of liquor around any of the coffee shops during this time, while prior to the granting of the license it was so common sight.

(Signed) B. B. TAYLOR,
Principal Waiohina School.

Pahala, Hawaii, Dec. 31, 1904. Mr. J. G. Rothwell, Honolulu, H. T.

Dear Sir: I can say with assurance, that since there has been a wholesale liquor house in Kau, there has been much less illicit selling, and I believe much less drunk, because the consumer at present can buy a dozen bottles of beer or a gallon of wine, but if he has to order it from Honolulu, he would order a case or barrel of beer, and ten gallons of wine to make it "worth his while" ordering, paying charges, etc.

Respectfully,
(Signed) W. A. SCHWALLIE.

Pahala, Hawaii, Jan. 1, 1905. Mr. J. G. Rothwell, Honolulu.

Dear Sir: Mr. Hewitt has asked me to express my views as to whether there is more insobriety in this district since the advent of the establishment of the "Kau Wine Co., Ltd." or more illicit liquor selling, he also asked me as to what I thought of the establishment of a saloon for the district, in place of a wholesale liquor house. With

regard to the first question, from careful observation and a long and continued residence in the district of Kau, that there is not more illicit liquor selling at the present time than has always been, as to drunkenness I remember times when there has been far more of it than any time since the Kau Wine Co., Ltd., has been in existence, speaking of this and of the district, and of the Hawaiian Agricultural Co.'s plantation, who until quite recently have had a large body of workmen, I have often wondered at the general sobriety of the men, liquor and other drinks they get, and always will get in some way, but they seem generally to use it in a reasonable manner, and it is uncommon to see an intoxicated man at this place.

Now as to a saloon for the district in place of a wholesale house. One saloon as a distributing medium would not effect the object and at the same time do away with illicit selling, four or five might. Put a saloon within easy reach of customers of such places and it would probably do away with the present sly sellers, but one house will effect nothing, and I do not think it likely that the plantation authorities will agree that saloons shall be put on their premises. Speaking personally, if I were a manager I should certainly not favor it. I have not time for more.

Very truly yours,
(Signed) T. C. WILLIS.

THE WHY AND WHEREFORE.

The genesis of Mr. Pinkham's attempt to discredit the work of those who are trying to "build up Hawaii on traditional American lines" and thus carry out the noble aim of President Roosevelt, as expressed in his first message to Congress, is about as follows:

The planters having agreed that 30,000 Chinese laborers were needed in the Hawaiian canefields, an effort was made to sound the leaders of Congress and the administration in advance as to whether legislation admitting these inhibited aliens could be had. We are informed that Governor Carter, when last in Washington, raised the question and found the leaders much more disposed to encourage white settlement here than Asiatic. Naturally they wanted this Territory to be Americanized, not put under the thrall of Asia.

Governor Carter, sharing in the general opinion of the planters that Hawaii can never become a land of white producers, though he was willing enough to introduce white mechanics in their stead, at once cabled Acting Governor Atkinson to send out Mr. Pinkham and a committee of labor men to report upon agricultural and labor conditions and to "spare no expense."

Mr. Pinkham was, presumably, known to the Governor as an opponent of the small farm idea, for he never concealed the fact; and if executive faith was reposed in his ability and willingness to report that white farmers or laboring men could not make a living here and that the soil must either be left uncultivated or turned over to the yellow man, then such faith was surely not misplaced. Mr. Pinkham took up the task of discrediting Hawaii with great eagerness and by means of exparte methods, the nature of which has already been described in these columns, he produced a report which, from its appearance of plausibility, may be used in future to keep American settlers at a distance and leave Hawaii to perpetuate, in its special way, the baronial traditions in agriculture of the South before the war. Fortunately the trades union interest, which supplied the labor members of the commission, have refused to let the latter sign with Pinkham, so the report will be a minority one at best. But it is to be used, with the assent of the Governor, to persuade Congress that there is no virtue in the patriotic argument against Mongolizing Hawaii.

That 30,000 Chinese would be useful here the Advertiser has no doubt; but it has believed that, as an offset to yellow and brown immigration, every effort should be made to bring in farmers and fruit growers and establish the American middle class. It wants to see the planter and the farmer thrive side by side. Governor Carter and the planters, we are informed, offered the labor unions an opening for their artisans and engineers on the sugar estates in return for their assistance in making up the Pinkham report, and it was because of that the labor commission went on its travels. But the scheme did not work in the last analysis. If we understand the Governor aright he honestly believes that an American middle class may be made out of mechanics, and so it may, if the mechanics stay on the soil, but as they are a nomadic class, not often home-builders, and as the plantations call for a number far less than is required for the population of a single Eastern village, it is plain that, if we are to have an American middle class, its basis here, as elsewhere, must be agricultural. The farmer buys land, settles down, establishes his home and builds his institutions. Of every civilized country he is the stay and the prop. Unless he is brought to Hawaii to offset the growth of Asiatic numbers and the threat of citizenship by Asiatics born on the soil, Hawaii, twenty years from now, will be no place for white men. So far as the Advertiser is concerned it will devote all its energies to making this an American Territory, in fact as well as law; not seeking to harm the planters on the one hand, nor being willing to permit interests inimical to white civilization to deceive Congress

on the other. If Governor Carter is willing to help, he, as well as the Territory, will be benefited.

A SAN FRANCISCO REVIVAL.

It was said of San Francisco by a clever Bohemian half a score of years ago that the town would never rise to the commanding destiny which nature seemed to have marked out for it until there had been twenty funerals in Front street. What the clever one meant was that there were in the street named a score or more of old commercial houses whose heads had grown rich by the business methods of forty-nine, and these old merchants could not forget old days or learn the ways of new.

It was because of this spirit of conservatism that the domination of the Southern Pacific endured for so long, and that the Sound cities were built up, threatening the commercial supremacy of San Francisco. The Sound cities took the Klondike trade without an effort, and reached out for the commerce of the Orient. Los Angeles grew up on the south and now sells goods in Southern California and Arizona in a market once thought to belong exclusively to the northern California town. The Front merchants did not care. They were rich enough and their sons would be. So they continued in their simple old way, losing trade, paying toll to the Southern Pacific and swearing by the "dollar limit" of taxation.

Then came the Santa Fe railway to the Bay and the dawn of a new day in business. The twenty funerals occurred in due course. Even the oldest settler cannot live forever. And the dollar limit was a thing of the past. That led in a flood of political grafters, but it also led to much work in creating the city beautiful. It will lead to much more after the present freak administration of municipal affairs goes out of power, and the people elect men to office whom capital has sufficient confidence in to entrust with the proceeds of the sale of a bond issue.

Now, also, it is announced that the Gould system of railways is to be extended through to the Pacific, finding its western terminus at San Francisco, and giving that city the benefit of sure enough competition. It is the dawning of a new day. The Klondike trade, perhaps, cannot be wrested from Seattle, nor the trade of Arizona and the Southwest from Los Angeles, but the men of new San Francisco are alive to what their fathers have lost and will enter into keen competition to win back the trade. And that is the spirit that builds up great cities.

As a part of the knocking campaign, Thurston publishes a portion, a very small portion, of the commission's conclusions. He straightway begins to criticize the remainder of the report, or such details as he, according to the inferences from his paper, has learned from a member of the commission.

The Advertiser has published the full report as it was given to the Labor Council to pass upon. If there are any exhibits not incorporated in the report this paper would be glad to print them. It would particularly like the names of the farmers who have confessed failure or partial failure in their work, but it has not the slightest expectancy of getting them from the custodian of the archives. The report itself would never have seen the light if Pinkham could have prevented it. His whole scheme in its inception and promotion was a secret one. Knowledge in the commission's one-sided operations first reached this paper in the form of complaints from responsible men on the other islands and the facts there given were verified officially.

Happily if the question comes up in Congress about the agricultural opportunities of white men here the debaters will be able to turn from the special pleading of Pinkham to the official reports and bulletins of the United States Experiment Station in Hawaii, all of which are on file at Washington. These data constitute an unanswerable protest, though not designed for such use, against the exparte conclusions which Mr. Pinkham hired himself out to make. A file of the Forester and Agriculturalist, containing the views of successful farmers and fruit growers, will also come in handy, as will official pamphlets hitherto issued by the governments of the Republic and the Territory. This paper predicts that if things come to a show down the report of the Pinkham embassy will gutter out like a tallow dip—with a bad smell.

Considerable remark was made yesterday about the pineapple statistics in the Pinkham report, the published statement being that two citizens and 166 aliens were engaged in the pineapple industry. For two read eleven. The figures were given in the manuscript as Roman numerals and in setting them up the character II was interpreted as 2, because of the fact that in the paragraph following, I was typewritten as 11. But what Mr. Pinkham meant was 11. Even then the author of the report was at fault because there are

eleven citizen pineapple growers at Wahiawa alone. Apparently, in spite of Mr. Bruner and others on the outlying islands, Mr. Pinkham concluded that the Wahiawa plant was the whole cheese—or the whole pine.

The official cable report on sugar was not changed yesterday except in the case of sugar beets. Mr. Pollitz reported that raw sugar sold in New York at five cents. The news, if true, will probably be verified officially today. Five and even six cents are possible soon, as the statistics show that there is no more than a six weeks' supply of sugar in the world.

Confidence...

Just a word about "Confidence"—to begin this new year with. You know how much easier you feel when you are very sick and the old family doctor comes in? That is satisfaction born of Confidence—the conviction, based upon experience, that he will do all that can be done to help you. So, also, in matters of such vital importance as the examination of the eyes and the purchase of glasses it is a comfort to know that you are placing your business where you can also place your Confidence. Begin the New Year right.

CASSAVA GROWING IS NEW INDUSTRY

Many Farmers in the South Are Trying to Raise
a Vegetable Which is Chiefly Valuable
for Its Abundance of Starch.

GULFPORT, Miss., December 28.—The growing of cassava is a new industry that is being tried along the coast and along the Southern end of the Gulf and Ship Island Railroad. It is cultivated for its starchy roots, which are used extensively for food and for the manufacture of starch.

It is a native of Brazil and is classified by the Department of Agriculture as a member of the milkweed family. In appearance it has no resemblance to the milkweed, but when growing might be taken for a shrub variety of buckeye. It grows four to twelve feet high and branches repeatedly, making a plant of rare beauty. S. M. Tracy, special agent of the Department of Agriculture, bureau of plant industry, says:

"During the last two years a great amount of work has been done in a study of cassava, especially in attempting to find the most productive varieties, and varieties which may extend the possible limits of its cultivation to localities further North. At the present its cultivation is limited to Florida and the Gulf Coast, but it is possible that, by selecting seed from the earliest maturing sorts and continued cultivation in cooler regions, its area for proper cultivation may be extended. Up to about two years ago, only two varieties were known in the United States, though fifty or more varieties were cultivated in South American countries. These varieties differ greatly in the relative proportions of starch which they contain, some having double the amount found in others. Of course the variety having the greatest percentage of starch in the roots is most profitable for cultivation. We have obtained a large number of varieties from Porto Rico, Jamaica and other tropical countries, and I now have forty-two distinct varieties growing on my place, at Biloxi.

"The principal practical uses of cassava in this country are for manufacture of starch and for feeding cattle. In Florida there are now three large factories for manufacturing starch, which is used mostly for sizing by the makers of cotton goods. Excepting in the immediate region of a starch factory the crop is grown for stock feed, and for that purpose is becoming popular in the coast region. As a feed it takes the place of corn, and as its yield is much greater

while expense of cultivation is about the same it is more profitable.

"I have made arrangements for the importation of a large number of additional varieties from South America, and purpose to follow up the work in every direction until we are able to demonstrate that the crop is one which may be made profitable in certain parts of this country—or that it is worthless. From what we have already learned we do not hesitate to recommend the crop for nearly all of Florida and for many localities along the coast."

J. H. Bouslog, immigration agent of the Gulf and Ship Island Railway, has had several farmers along the line making experiments this year with cassava. At Landon Joseph P. Wilson has a grove that has made phenomenal growth this season. The stalks are ten and twelve feet high and the ground is filled with the root, which is the valuable part of the product. Mr. Bouslog says that it is used for every purpose for which corn is used and is more nutritive because it possesses such large quantities of starch. Horses, cattle and hogs are fond of it, and it is very fattening.

Mr. Bouslog has also had experiments tried on the coast, where the soil is all sea sand, and at points along the line of the Gulf and Ship Island, and the results are very satisfactory here.

Besides the erection of large starch factories Mr. Bouslog sees no reason why the farmers of South Mississippi should not grow and fatten their own hogs and beefs, and besides supplying their own tables have enough to supply the local and even the domestic demand.

Some of the best fields, where the soil is just right, make ten to fifteen tons per acre, but such yields are unusual. Captain Wilmoth, of Harrison county, Miss., gathered nine tons from one acre which had been fertilized with two hundred tons of bone meal.

Mr. Bell, of Baldwin county, Ala., harvested twenty-five tons from two acres without any fertilizer, but his soil was unusually good, and he was fortunate in getting good seed canes for planting. Yields of twenty to thirty and even forty tons an acre are often reported, but it is doubtful if as much as twenty tons has ever been gathered from one acre of land. Such reports have usually been based upon the weight of a few roots from which the yield of an acre has been estimated.

A Florida newspaper published a description of a root weighing 29 1-2 pounds, and stated that the yield of the field would be 39 1-2 tons per acre. Roots weighing forty pounds are occasionally found, and by the same method of calculating the yield to one acre would produce fifty-four tons. Roots two years old sometimes weigh as much as 150 pounds each, which is at the rate of 204 tons per acre.

ABOUT COLDS.—In all countries and among all nations of the globe, cough medicines are used and used probably more extensively than any other one class of medicines. Every human being is subject to throat and lung troubles, which may terminate his existence. People everywhere realize the dangerous consequences of a neglected cold, for the majority of fatalities have their origin in and are characterized by a simple cold. The more careful and prudent persons do not permit a cold to run its course, but treat it promptly. For many years Chamberlain's Cough Remedy has been in use throughout the United States and many other countries and time has proven it to be the best adapted of any remedy yet made for all throat and lung diseases, and especially coughs, colds, croup and whooping cough. It always cures and cures quickly. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

Fix Things Up

You have had your Christmas dinner and the man of the house has spent one whole day at home. He has noticed that new window shades are needed, that brass rods would look better than old poles on which to hang dainty window curtains. He has remarked about that broken rocker laying on the back lanai and perhaps said that a new couch cover would look better than the old.

There are a thousand and one little things about every house that need fixing up at the first of each year. We fix all of these things and supply new things for those that cannot be fixed. We have trustworthy workmen, men who have been engaged about Honolulu houses for over twenty years.

We have linoleum for your bath-rooms.

We have mattresses, or make them, in any style, of any material, and to fit any bed.

Ask us to figure on these matters for you.

BILL HUIHUI WINS FIGHT

But the Police Call It
Assault and
Battery.

Bill Huilui, the prize fighter, signed articles yesterday for a match and fought at once, getting the decision on a knockout. Bill was the only one who signed the articles, giving the other party no chance to do so, which is probably a violation of the ring etiquette. Furthermore Huilui's opponent is said not to have been in training and was also below his weight.

The result was that Huilui was arrested yesterday afternoon and sent to jail. The police called the result of the knockout an assault and battery, and on this charge the prize fighter will be tried in Police Court this morning.

Huilui's opponent was his wife. Huilui gave her a black eye and otherwise beat her. The fighter, who has been the admiration of the local colony of ring enthusiasts, was able to easily win a fight in this case, because his opponent was weaker, had never trained in ring tactics, and was otherwise not fitted for such an experience. Huilui will probably be pronounced a dub by his ring associates, and if he enters the ring with a man—a real man, not a woman—again, the audience will probably be not so full of admiration for him as before.

An Enjoyable Outing.

The most attractive day's outing is that afforded by the excursion down the railroad line. The HALEIWA LIMITED, a first-class train, leaves Honolulu every Sunday morning at 8:22 o'clock making the run in two hours, the rate for round trip being only \$2.00. From 10:22 a. m. until 8:10 p. m. is spent at the beautiful HOTEL HALEIWA, with fresh and salt water bathing, tennis, golf drives and walks, shooting or fishing and you are back in town at 10:10 o'clock in the evening.

IN AMERICA Chamberlain's Cough Remedy is a great favorite with the mothers of small children for colds, croup and whooping cough. It contains no harmful substance and always gives prompt relief. Sold by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

THEY LOOK FOR WORK AND FIND EXEMPTION

Four native Hawaiians who had been called upon for their poll taxes went to the Governor's office yesterday looking for work so that they could earn the money with which to pay. Incidentally, they said that they were sixty years of age and did not have to pay anyway.

Then the clerical force went to work, and it was found from the registry of voters that the men were, as they had said, over sixty years of age. Indeed, one of them was over seventy. That settled the tax question, and the men went away happy. As to work—well, that is another story. Perhaps they will get it, the next time that they happen to think that they need it.

So Different

Lots of Claims Like This, But
so Different—Local Proof
is What Honolulu
People Want.

There are a great many of them. Every paper has its share. Statements hard to believe, harder to prove.

Statements from far-away places. What people say in Florida. Public expressions from California. Oftentimes good endorsement there. But of little service here at home. Honolulu people want local proof. The sayings of neighbors, friends and citizens.

Home endorsement counts. It disarms the skeptic; is beyond dispute.

This is the backing that stands behind every box of Doan's Kidney Pills. Here is a case of it:

Mr. Cyrus S. Edison of Kapiolani Park, this city, says: "I am at present a teamster and came to the Islands fifteen years ago. Previous to that I drove a stage coach in the United States. These occupations necessitating my being out at all seasons were no doubt the cause of my kidney disorder. I had the ordinary symptoms of this complaint, and resorted to a host of things to cure it. All of them failed to do so, however, and when I had almost given up hope I heard about Doan's Backache Kidney Pills and got some at the Hollister Drug Co.'s store. They did indeed relieve me and I am quite satisfied with the benefit they have been to me."

Doan's Backache Kidney Pills are for sale by all dealers; price 50 cents per box (six boxes \$2.50). Mailed by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

THE HEPBURN BILL TO PROVIDE A LEPROSARIUM

A bill to provide a leprosarium for the segregation of lepers and to prevent the spread of leprosy in the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That for the purpose of carrying out the provisions of this Act the Surgeon-General of the Public Health and Marine Hospital Service of the United States, under the direction of the Secretary of the Treasury, is authorized to select a site suitable for the establishment of a leprosarium to be administered by the said Service.

Sec. 2. That the Secretary of War, the Secretary of the Navy, or the Secretary of the Interior is authorized to transfer to the Secretary of the Treasury any abandoned military, naval, or other reservation suitable for the purpose, or as much thereof as may be necessary, with all buildings and improvements thereon, to be used for the purpose of said leprosarium.

Sec. 3. That there shall be received into the said leprosarium any leper presenting himself or herself for treatment, or any leper consigned to its care by the legally constituted authorities of any State, county, or municipality, and the Surgeon-General of the Public Health and Marine Hospital Service is authorized, upon the request of the proper State, county, or municipal authorities, to send for any leper within their jurisdiction and convey him or her to the national leprosarium for detention and treatment, and when the transportation of such a person is undertaken for the protection of the public health it shall be proper to pay the expenses of such removal from funds set aside for the maintenance of the institution: Provided, That no lepers shall be brought from any territory or possession without the continental boundaries of the United States.

Sec. 4. That the Surgeon-General of the Public Health and Marine Hospital Service shall endeavor, through the annual conference of the State and Territorial health officers provided for in accordance with section seven of an Act approved July first, nineteen hundred and two, to procure a uniformity of legislation and practice in all States and Territories in regard to the measures to be taken to prevent the spread of leprosy.

Sec. 5. That regulations shall be prepared by the Surgeon-General of the Public Health and Marine Hospital Service, with the approval of the Secretary of the Treasury, for the government and administration of the leprosarium, and for the treatment and detention of all persons voluntarily presenting themselves at or sent to the leprosarium for participation in its benefits.

Sec. 6. That for the purposes of carrying out the provisions of this Act there is appropriated from any money in the Treasury not otherwise appropriated the sum of two hundred and fifty thousand dollars, or as much thereof as may be necessary, for the preparation of the leprosarium, including the erection of buildings, and fifty thousand dollars, or as much thereof as may be necessary, for the maintenance of the patients and employees, and the pay and allowances of the officers, pharmacists, and employees of the Public Health and Marine Hospital Service, detailed by the Surgeon-General for duty at the said leprosarium until June thirtieth, nineteen hundred and six.

Sec. 7. That when any commissioned or noncommissioned officer of the Public Health and Marine Hospital Service is detailed for duty at the leprosarium herein provided for, he shall receive, in addition to the pay and allowances of his grade, one-half the pay of said grade and such allowances as may be provided for by the Surgeon-General of the Public Health and Marine Hospital Service, with the approval of the Secretary of the Treasury.

The Original Remedy that "Kills the Dandruff Germ."

DON'T BLAME YOUR MIRROR
Many ladies compel their mirrors to bear silent witness to needless hair destruction. Day after day they see beauty and attractiveness despoiled by the removal of great combfuls of slightly diseased hair that could be saved. If your mirror could talk it would plead with you to "save your hair—not the combings." It can be done with Newbro's Herpicide which kills the microbe that causes dandruff, brittle and lusterless hair, also dandruff and falling hair. Destroy the germ and the hair's natural luster and abundance will return. Marvellous results. An exquisite hair dressing.

MISS ELIZABETH PENN, THE ACTRESS WHO
CLAIMS HIGH CONNECTIONS IN HAWAII.

FREE TO MEN, AND WOMEN, TOO!

Do you want to be a big, husky man, with vim and power in your every action, with courage, self-confidence and ambition to "do things"? Do you want to get rid of that feeling of gloom, that weakness in your back, that nervous, worn-out feeling which unfits you for business or pleasure?

Do you want to feel like a man all over, to hold up your head with the knowledge that you are the man that nature meant you to be?

I know that no man remains a weakling because he wants to. I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book in which I describe how I learned that strength was only electricity, and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks, and are now among the finest specimens of physical manhood.

I can do just as much for women as for men. I have thousands of letters from grateful women, who had spent years and money trying to get relief from drugs, and who came to me as a last resort and are cured now.

Why should you be suffering when you know that your friends and neighbors are being cured? Why, if money you spend for drugs is a lament, will assure you health and happiness for life. Don't you believe it? Then send for this book with the proof that I can give you, and you will be convinced.

Don't wait a minute. Send for this book now. If you will inclose this ad. I will send it sealed, free, and will give you the names of your own neighbors who are cured. I will tell you whether I can cure you or not, if you will tell me your troubles.

THE FUNDAMENTAL LAW OF HAWAII: A NEW LAW BOOK

The Hawaiian Gazette Company, Ltd., announce the publication of a book, edited and indexed by Lorrin A. Thurston, containing the several constitutions and other fundamental laws of earlier days, the annexation treaty, resolutions and procedure and the Organic Act.

The book contains 298 pages of text and 138 pages of index. It is printed in regulation law book type and style and is substantially bound in calf skin.

The price is \$5.

The scope and character of the book and the reasons for its publication are given in the preface, which is as follows:

PREFACE TO THE FUNDAMENTAL LAW OF HAWAII.

Congress has expressly enacted a law organizing Hawaii into a Territory, and extended the provisions of the United States Constitution to the Territory.

In a restricted sense, therefore, the United States Constitution and the Organic Act constitute Hawaii's fundamental law; but the Organic Act specifically re-enacts the great body of pre-existing Hawaiian statute law, which was based upon the several Hawaiian Constitutions and organic laws.

A large proportion of the law governing real estate, property and personal rights in Hawaii being based upon these early constitutions and laws; and precedents, decisions and court practice having grown out of them, it is necessary to consult them in order to have a comprehensive understanding of existing Hawaiian law. They are nearly all published, however, in books now out of print, and in scattered volumes, inaccessible to many, and inconveniently located for all. In fact, not even practicing lawyers in Hawaii can, except at considerable loss of time, place their hands on the laws and constitutions necessary for the study and decision of practical questions continually being presented to them.

Under these circumstances it is believed that the public interest requires the re-publication in convenient reference form of what may be called "the fundamental law of Hawaii." To meet this requirement the following constitutions, laws and documents have been compiled under the common title of "The Fundamental Law of Hawaii," viz.:

1. The first Constitution of Kamehameha III, 1840, including the previously issued Bill of Rights.
2. The first laws of Hawaii, enacted under Kamehameha III, (1833-1842), published together in 1842.
3. The law creating and principles guiding the Land Commission.
4. The second Constitution of Kamehameha III, 1852.
5. The Constitution of Kamehameha V, 1864.
6. The Constitution of Kalakaua, 1887.
7. The Proclamation and orders incident to the establishment of the Provisional Government, 1893.
8. The Constitution of the Republic of Hawaii, 1894.
9. The treaty annexing Hawaii to the United States, 1897.
10. The Resolution of the Hawaiian Senate ratifying the annexation treaty, 1897.
11. The Joint Resolution of Congress annexing Hawaii, 1898.
12. The documents and procedure incident to the transfer of the sovereignty and possession of Hawaii to the United States, 1898; and the executive orders of President McKinley, relating

GOVERNOR TO CLOSE DOORS

To Devote His Time to Preparation of his Message.

"I am going to shut myself up to begin work on my message after to-day," said Governor Carter. "I think I will decline to make any more appointments for callers, and if anyone wants to see me I will have him state his business to the chief clerk and only see those visitors whose business cannot be attended by anyone else. Also, for the present I am afraid that I will have to let my mail go by the board. There is a lot of work to be done preliminary to the meeting of the legislature, and the more that is done now the less there will be to do during the session."

"I am beginning to wish for the return of the Secretary from the mainland, as his presence here now would be of considerable help to me."

"When will he get back? I think that he will return as soon as he can. In fact, I do not believe he will stay in Washington during the whole of the month."

Doubtless the Governor is beginning to feel the need for a buffer. He has borne the slings and arrows of outrageous newspaper people and politicians and job chasers and central committee men wanting people to get out of politics for a number of months now, and doubtless realizes that if he had Jack between the wind and his nobility he could stand a good deal more there.

As to the Secretary, no word has been received from him directly as to when he will come back. He was ready to come after he had successfully closed the bond deal, but at that time some of the men at Washington who wanted to know more about Hawaii expressed a desire that his stay should be extended—and by the efforts of the Governor, it was. And nobody has heard from the Secretary as to his return since.

WEEKLY CROP BULLETIN

For the Week Ending Jan. 7, 1905.

Honolulu, T. H., January 9, 1905.

GENERAL SUMMARY.

Throughout the entire group temperatures have been decidedly below the normal all week, the weather during the latter half of the week being the coldest, thus far, during the present winter season. There has been no rain of importance except in the windward districts of Hawaii and along the northeast slope of Haleakala, in Maui. High winds are reported in the Hilo district of Hawaii, the Kula district of Maui, and the Honolulu district of Oahu, causing some slight damage to cane, plant rice and young garden tops.

On account of the cold weather vegetation has made little or no growth. Both the 1905 and 1906 crops of cane are reported generally as in good condition, the 1905 crop ripening slowly, and grinding having commenced at nearly all of the mills. The preparation of land for the first rice crop of 1905 continues apace and a considerable quantity of seed rice has been sown. The coffee crop is about harvested and although of a good quality the yield is below the normal. The winter crop of pineapples is ripening very slowly under the adverse temperature conditions. Pasture lands generally are in fair condition, but begin to show the need of rain in most sections, particularly in Kauai and the Kona and Kau districts of Hawaii.

The local markets are well supplied with garden truck, grapes, oranges, lemons, bananas and pineapples. Palms and strawberries are less plentiful.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunapali—Weather continues dry and cool; have had some rain, but need more, especially over lower levels, where it is warmer; crops doing very well on partly shaded land and near the woods at high elevations, where dew have been heavy. Pasture getting short and grazing stock falling off.—J. E. Gamelleison.

Papaikou—Weather very stormy; blowing a regular gale, but very little rain; stripping, cutting and grinding cane; playing land.—J. T. Moir.

Pepeskee—Cold and very blustery; light rainfall.—Jas. Webster.

Honolulu—Weather dry and cold, especially at night; high northerly wind on the 5th whipped the leaves of both 1905 and 1906 cane and did some damage; a good rain would be welcome for fluming purposes.—Wm. Pullar.

Laupahoehoe—Cool weather with north winds and showers; foggy in woods; all crops looking well; sea rather rough, with north swell.—E. W. Barnard.

Ookala—Light showers and cold weather, with northwest winds.—W. G. Walker.

Paahau—Fair temperatures in daytime; crops growing well; no wind.—Paahau Sugar Plantation Co.

Honokaa—Young cane growing but slowly owing to cool weather; plenty of moisture in ground; cutting cane to grind on the 5th inst.—C. H. Bragg.

Niuli—Temperature has been low, with light winds tending from north-east in afternoons and at night; weather too cold for cane ripening or growth; practically no work done on account of New Years and Japanese holidays.—Robt. Hall.

Kohala Mission—Low temperature has materially checked growth of cane crops; rains have been sufficient for both pastures and crops and springs are generally rising, though not yet up

"I Was Sick—Dizzy—Worn-Out."

North Weymouth, Mass., Dec. 14.—Paine's Celery Compound is the best and most effective medicine I have ever taken. I was sick, dizzy and worn out for a long time and unable to attend to business. My blood was in troublesome condition. I was advised to try Paine's Celery Compound, which I did with pleasing results, and in a short time I was able to return to my business. My blood is greatly benefited. I would advise all who are run down by overwork or who need a blood tonic to take Paine's Celery Compound. They will find that it will be a great benefit to them.

NEW TEST FOR JURORS

In Arroyo Murder Trial. Hana Receivership. Court Notes.

Practically what the jurors examined on qualifications to try Arroyo for the murder of Rivera were asked by counsel for the defendant was if they considered, under stated circumstances, that the victim "needed killing," as Pudd'neah Wilson would put it. The men were Porto Ricans of most respectable class, who quarreled and as the homicidal ending was related to jurors, Arroyo having been knocked down shot Rivera, who was coming at him with a threatening motion of hand to hip pocket, inflicting a wound that caused death.

The Attorney General objected to the line of examination, arguing that the jurors were being questioned on the law of self-defense, though, if impounded to try the case, they would be under oath to take the law of the case from the court. Judge Robinson ruled against the objection, considering that there was an element of fact in the questioning. When the defense challenged a juror who said the menaces of the victim would have to be "decisive," and if not so, the person who shot him would have to show he was insane from fear at the moment of shooting, the court denied the challenge for cause.

ONE PANEL EXHAUSTED.

Eugenio Arroyo was put on trial for murder in the first degree before Judge Robinson yesterday morning. Attorney General Lorrin Andrews appeared for the Territory, and L. M. Straus for the defendant. Up till the noon recess sixteen jurors were called, of whom four were excused for cause—F. E. King for opposition to capital punishment, Charles Gridler on challenge by defense allowed, J. S. Azevedo because he sat on the Coroner's inquest, and William J. Karranti for unfamiliarity with the English language.

In the afternoon L. R. A. Hart and L. K. Sheldon, both part Hawaiians, now wed scruples against capital punishment and were excused. The panel was then exhausted, with eleven jurors sitting in the box, and a special venire for fifty more jurors was issued and made returnable at 10 o'clock this morning.

OTHER CRIMINAL MATTERS.

Hana Kenloha, found guilty of burglary, was sentenced by Judge Robinson to be imprisoned at hard labor for two years.

Domingo Ferreira, indicted for affray with John Cabral, pleaded not guilty.

This balance he kept to cover amounts due persons who had

A FAIR EXCHANGE.

Large sums of money are no doubt realized from simple speculation, but the great fortunes are derived from legitimate and honest business—where the goods furnished are worth the price they bring. Certain famous business men have accumulated their millions wholly in this way. Prompt and faithful in every contract or engagement they enjoy the confidence of the public and command a class of trade that is refused to unstable or tricky competitors. In the long run it does not pay to cheat or deceive others. A humbug may be advertised with a noise like the blowing of a thousand trumpets, but it is soon detected and exposed. The manufacturers of WAMPOLE'S PREPARATION have always acted on very different principles. Before offering it to the public they first made sure of its merits. Then, and then only, did its name appear in print. People were assured of what it would do, and found the statement truthful. To-day they believe in it as we all believe in the word of a tried and trusted friend. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It aids digestion, drives impurities from the blood, and cures Anemia, Scrofula, Debility, Influenza, Throat and Lung Troubles, and Wasting Complaints. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil in a most palatable form." It is a scientific remedy and a food with a delicious taste and flavor. One bottle convinces. "You cannot be disappointed in it." Sold by chemists here and everywhere.

FEDERAL BUILDING IS DEBATED BY MERCHANTS

(Continued from Page 1.)

George W. Smith presided, with Theo. Lansing as secretary. Present were J. A. Gilman, E. A. McInerney, J. G. Rothwell, Norman Watkins, A. Hocking, J. A. M. Johnson, W. W. Harris, John Soper, James Wakefield, M. Brach, J. Steiner, L. B. Kerr, Mr. Lecker, W. H. Babbitt, M. A. Gonsalves.

The chair said the meeting was called for the purpose of answering the cablegram received from Delegate Kuhl in answer to one sent by the Merchants' Association regarding the Federal building appropriation.

Mr. Harris of the committee which sent the cablegram on Friday stated that an answer had been received from the delegate to the effect that it was necessary to choose between the Kuhl and Perkins-Cushman bill. The Perkins bill, Mr. Harris stated, called for an appropriation of \$1,400,000 for the purchase of a site and erection of a building, while the Kuhl bill provided for \$1,000,000 for the purchase of a site and the erection of a Federal building. The chair reminded the members that both the Kuhl and Perkins bill had been printed yesterday morning in the Advertiser.

The matter was then placed before the members for action. Mr. McInerney stated that he would like to see the matter decided upon at the meeting.

Mr. Harris stated that the committee had nothing to recommend, but personally, from the reading of Kuhl's message, he considered the Perkins appropriation of \$1,400,000 an enormous appropriation. The Kuhl bill, for \$1,000,000 was considerably less, and he believed there was more chance of its going through Congress. The fear was that asking for such a large appropriation as named in the Perkins bill would spoil all chances of getting a cent. Kuhl, Mr. Harris thought, was asking support for his own bill. The speaker thought that under the circumstances, rather than lose a chance of getting any appropriation at all, the association should support the Kuhl bill.

Mr. McInerney said the matter should be decided once and for all. Kuhl had stated that the committee at Washington was wavering between buying a building and erecting a new one. He felt the delegate seemed to be in a reasonably short time, and expressed their views on the subject, definitely. Taking the cablegram altogether he felt that the Kuhl bill should be supported. He did not think the association should delay. There was comment on the street that the association did not want to take action. He did not want to mention any special building by name, but he did not believe in the government taking over anybody's building for a Federal building.

Norman Watkins did not believe that if Hawaii got the million dollar appropriation that it would be all the territory would get from Congress. The history of public buildings elsewhere showed that more money always had to be spent to complete buildings erected under the original appropriation. James Steiner wished to be put on record as favoring the purchase of the Young building.

James Wakefield said he did not know how far Kuhl would be able to push his bill, but if he had sufficient backing, it would be desirable for the association to back him. He favored the erection of a new building. There was much to be said in favor of the Perkins bill. Subsequent to the above date he paid to certain lien holders, who had brought suits, an aggregate of \$4219.39. There remains in his hands a balance of \$1535.15, but prior to the institution of the present suit a suit was filed by Constant Sterling against defendant and garnishee to enforce a lien of \$27,748, with interest from January 4, 1903, and any judgment therein will constitute a prior lien on the fund. Therefore, until judgment has been rendered in the Sterling suit it is impossible to determine what sum, if any, will remain in the garnishee's hands subject to the Davies claim.

COURT NOTES.

In conformity with the Supreme Court's decision in the case Judge De Bolt filed a decree overruling the demurrer of L. B. Kerr to the petition of the Territory of Hawaii for an injunction. Defendant is given ten days in which to answer the petition, which plays that he be enjoined from building a seawall below high water mark at Waikiki.

Judge Robinson, at 9 o'clock this morning, will hear the petition of E. A. Mott-Smith, receiver of Hana Plantation Company, for allowances of accounts and discharge. The receiver asks to be allowed \$44,335.96, and charges himself with \$42,566.36. He borrowed \$27,955.09 upon receiver's certificates from M. S. Grinbaum & Co., Ltd.

After argument by Mr. Peters for libellant and Mr. Achi for libellee, the motion of libellee for reduction of alimony and of attorney's fee in the divorce case of Louisa Watson vs. David Watson was withdrawn.

Judge Robinson granted permission of withdrawal and a new motion to be filed.

It is stipulated in the mortgage foreclosure suit of J. F. Haddock, trustee, vs. C. S. Desky, trustee, and W. Wolters, that respondent Wolters may have ten days after January 10 in which to plead, demur or answer.

Plaintiffs in the suit of Hoffman, Rothchild & Co. by their individual names, against Leech, give notice to defendant requiring him within forty-eight hours to admit that they are co-partners under the firm name above given.

D. Kalanokalani Jr. yesterday took the oath under renewal of his license to practice law in the district courts and before circuit judges at chambers on appeal.

Magoon vs. Chin Gow, the case in which a lady stenographer lost the notes of testimony, was argued before the Supreme Court yesterday.

Young block for a Federal building and much against it. The question was, which would benefit the public most. From the traders' standpoint the erection of a new building would benefit them most. From the narrow point of view it will benefit other hotel, rooming houses and office buildings, if the Young Hotel was taken over by the Federal government. For the benefit of the community as a whole, Mr. Wakefield, was strongly in favor of the Kuhl bill.

M. A. Gonsalves was in favor of erecting a new building, and gave his preference to the Kuhl bill. Mr. Brach favored the Kuhl bill. It was right that the delegate to Congress should be supported. He had been sent to Washington by the majority of the people, and therefore represented the territory. Aside from this he believed the bill he had presented was for the better benefit of the people here.

L. B. Kerr and Mr. Lecker favored the Kuhl bill.

W. H. Babbitt said his feeling was that the Cushman bill could be put through for \$1,400,000 as against the million dollar bill of Kuhl. The Cushman bill gave Hawaii the benefit of a commission to be sent here. Discarding the Young building feature from the matter altogether, there was an advantage of \$400,000 over the Kuhl bill. There was undoubtedly support behind the Cushman-Perkins bill which had been brought forward in both houses, whereas that of Kuhl was only in one branch of Congress—the House. He thought there was more likely to be support on the Perkins-Cushman bill than on the Kuhl measure.

John Soper thought the association should support the Kuhl bill, because Kulanianole was the delegate from Hawaii, and the representative there of the people of the territory. He was undoubtedly working the best he knew how in behalf of the community.

A. Hocking thought Mr. Harris had expressed his views. He would support the Kuhl bill. He believed Kuhl was in a reasonably short time, and expressed their views on the subject, definitely. Taking the cablegram altogether he felt that the Kuhl bill should be supported. He did not think the association should delay. There was comment on the street that the association did not want to take action. He did not want to mention any special building by name, but he did not believe in the government taking over anybody's building for a Federal building.

Norman Watkins did not believe that if Hawaii got the million dollar appropriation that it would be all the territory would get from Congress. The history of public buildings elsewhere showed that more money always had to be spent to complete buildings erected under the original appropriation.

James Steiner wished to be put on record as favoring the purchase of the Young building.

James Wakefield said he did not know how far Kuhl would be able to push his bill, but if he had sufficient backing, it would be desirable for the association to back him. He favored the erection of a new building. There was much to be said in favor of the Perkins bill. Subsequent to the above date he paid to certain lien holders, who had brought suits, an aggregate of \$4219.39. There remains in his hands a balance of \$1535.15, but prior to the institution of the present suit a suit was filed by Constant Sterling against defendant and garnishee to enforce a lien of \$27,748, with interest from January 4, 1903, and any judgment therein will constitute a prior lien on the fund. Therefore, until judgment has been rendered in the Sterling suit it is impossible to determine what sum, if any, will remain in the garnishee's hands subject to the Davies claim.

Chairman Smith stated that the community would undoubtedly regret it very much if the Federal government took over the Young building. The community would regret it if it were used for anything but a hotel. He did not believe the community was inconvenienced for want of a Federal building. The organization should support the delegate whom the territory had sent to Washington. Setting aside all personalities, for the time being Kuhl represented the territory at Washington and should be so supported.

Mr. Wakefield moved that action be taken. The members agreed and the chair appointed Messrs. Wakefield, Harris and Hocking a committee to draw up resolutions. They were drawn up and adopted as above.

BALL PERFORATED VICTIM'S HEAD

Deputy Sheriff Fernandez of Ewa brought up to the police station yesterday one Agostino de Corte who is charged with having fired a revolver on Sunday, the bullet from which perforated the head of a Portuguese. The gun is said to have been discharged during a violent quarrel between the men. The wounded man is undergoing hospital treatment.

IN AND OUT OF PILIKIA IN AN AUTO

Norman Halstead, formerly of Honolulu, and now residing in a Southern State, recently had a trying automobile experience, it is said, in which the speed of a big Winton touring car both got him into trouble and took him out of it.

The story runs that he was on a country road and in some manner the machine collided with a young woman, knocking her down. In the excitement following it became imperative for Mr. Halstead to flee from wrath, and he turned his machine out of the way of coming harm, and putting on all speed, escaped into an adjoining county, outstripping the officers on the run. Mr. Halstead took refuge, so the story goes, in the other county so that he might prepare himself for whatever legal battle might ensue.

FOR GENERAL MOORE.

Program of Public Band Concert at Hawaiian Hotel.

The band will give a concert at the Hawaiian hotel, complimentary to General Moore and suite, beginning at 7:30 this evening. Following is the program:

PART I.

March—"United Flags".....Gabriel
Overture—"Military".....Kling
Grand Selection—"Tone".....Petrella
Vocal—Hawaiian Songs, arr. by Berger
Mrs. N. Alapai.

PART II.

Selection—"American Aires".....Conterno
Intermezzo—"A Bit of Blarney".....Helf
Waltz—"Beautiful Blue Danube".....Strauss
March—"Stars and Stripes Forever".....Strauss
"Aloha Oe".....Scuza
"The Star Spangled Banner."

Band Notes.

The band played yesterday four times. In the morning it had a long rehearsal. It performed in the afternoon at the Capitol, when General Moore called on Governor Carter, and then went down to the Naval wharf and played the transport, Thomas, off. The band wound up the day's duty in the evening with a concert at Emma square. This evening the band will give a concert complimentary to General Moore and suite at the Hawaiian Hotel.

Barracough-Harwood.

Oakland society had been looking forward to a gay time at the wedding of Josephine Winifred Barracough, and Percival J. Harwood of Honolulu. The affair was to be solemnized at the home of Miss Barracough's brother in Piedmont, but the expectant groom finds that he cannot get away from his business. Therefore Mrs. J. T. Barracough will sail for Honolulu with her sister-in-law and the wedding will take place there in March.—Town Talk.

New Auction House.

W. E. Fisher, auctioneer, and L. C. Ables, accountant and real estate agent, have formed a partnership to conduct an auction and commission business. They will occupy the old Masonic Hall stores, at Fort and Queen streets, where Lyons & Levey and the late L. J. Levey successfully did business as auctioneers for many years.

Last night the Social Science Club met at the residence of President Griffiths of Oahu College. C. Hedemann was chairman. The essayist of the evening was S. A. Deel, director of the United States Magnetic Observatory, on the subject of "Terrestrial Magnetism."

C. L. Beal will take charge of the financial end of the Hawaiian Hotel matters for the Hawaiian Trust Company, which represents the bondholders.

Honolulu Branch of the Theosophical Society meets now and until further notice in Kapikani building, room No. 22, at 7:30 on Tuesday and Thursday evenings. Visitors welcome.

Witnesses in the Maui distilling case were unable to take the Claudine at Lahaina, owing to the weather, hence the examination of Kondo before Commissioner Judd had to be postponed until they arrive.

Professor Edgar Wood of the Normal School, T. H. Gibson of the Boys' Industrial School, Inspector Baldwin of Maui and Misses Forsythe and Reid of Kamehameha schools visited the Royal School yesterday.

The bimonthly meeting of the Buckeye Club will be held at the Castle Home on King street this evening. A good program has been prepared and a pleasant time is anticipated. All Obioans are cordially urged to be there. United States Circuit Judge Doie gave a "clowder" at his Waikiki place on Saturday afternoon to the officials attached to the Federal Court. They were all there and the affair was a most pleasant and informal one. In fact, it was like the gathering of one big family, all sitting down together at the most home-like of homes.

As a result of a drunken carousal among some Japanese at Waianae last Sunday one man is undergoing treatment for several wounds inflicted with a knife. Haraguchi is the man who was cut and Tagata, with Ogata, a witness, were brought to town yesterday and placed in the police station tanks.

Services were conducted by Mr. F. W. Everton of the Seamen's Institute, assisted by members of the Chapter of the Brotherhood of St. Andrew of St. Andrew's Cathedral, on board the U. S. S. Patterson, U. S. S. Petrel and U. S. S. A. T. Thomas, which were much enjoyed by a large number of men who attended. Miss Potwine kindly presided at the organ on board the Petrel and transport Thomas.

TRANSPORT GOES ON TO MANILA

The transport Thomas got away for Guam and Manila shortly after 5 o'clock yesterday afternoon. A big crowd was on the dock to bid farewell to the voyagers and many prominent people were in the crowd. General Moore, who stopped off here, was among those who waved a good by to his fellow passengers.

The Hawaiian Government band played on the hurricane deck for about an hour and was given a thunderous salute of applause at the conclusion of every selection. When Dixie was played the soldiers went wild with excitement and shouted until their lungs were hoarse.

The last person to leave the transport before the lines were cast off was a Chinaman and he had to slide down a rope to the dock. The Castinos left for Guam. Mr. Castino says he will take up his old work, that of superintendent of public works. He will also do missionary work.

ARMY OVERCOATS ARE LEFT BEHIND

Seventy-five or more army overcoats were left in town yesterday by the troops aboard the transport Thomas. One soldier said he had received a dollar for his coat and others were sold at a higher figure. Chinese were among the heavy buyers, and they are said to make their purchases on the chance of selling them again to troops just returning to the States.

The troops just leaving San Francisco and en route to the tropics feel that an overcoat can easily be dispensed with from their wardrobes. The soldiers from the tropics, however, on arriving at Honolulu, generally feel the need of overcoats against their landing in San Francisco. It is somewhat of a crime for a soldier to dispose of his army clothing. Officers of the army have the right to confiscate all overcoats found in the possession of people not soldiers.

Shipping Notes.

The army transport Dix is expected here from Manila about January 16, en route to San Francisco.

The bark R. P. Rithet may finish loading sugar today and may get away for San Francisco tomorrow morning.

The Mauna Loa will go on the Marine Railway today for an overhauling. She will go on her regular run next week.

The Ke Au Hou went out yesterday on a run after being laid up for several weeks. She will return Saturday from Kauai with a sugar cargo.

The Inter-Island steamer Iwalei left Midway last Friday for Honolulu. She will stop at Eleele en route and bring in a cargo of about 6000 bags of sugar.

The bark Olympia has about 1200 tons of sugar aboard and will take on about 1100 more to complete her load. She may be delayed, owing to a big cargo being collected for the Texan.

The Hiloites know nothing about the alleged coming of the Zealandia of the Oceanic line to that port. It was recently announced that if the Matson's steamer Enterprise came to Honolulu to get refined sugar from the Honolulu plantation the Zealandia would cut in on the Enterprise's Hilo trade.

As previously announced the Sheridan is to follow the Thomas, and will be here about January 22 en route to Manila. The Sherman is to turn about at San Francisco and start again for Manila on February 1. The Sheridan is carrying an immense amount of fortification supplies for Philippine posts, and will also carry troops. About April the interchange of regiments will begin to take place and Honolulu will then be alive with seasoned regulars, with occasional drafts of "rookies."

The American-Hawaiian steamer Texan is due here about January 15 from Manila en route to San Francisco, and a big lot of sugar is being gathered into the company's warehouse in readiness to be placed aboard. The Claudine discharged 2000 bags of Maui sugar yesterday. The steamer Kanai also left over 6000 bags from McBryde.

It is said that about 5000 tons for the Texan will come from the Castle & Cooke plantations. Three thousand tons will come from the Hackfeld plantations. Her complete cargo will be about 11,200 tons. The steamer Helele is discharging 4200 bags of Papaia for the Nebraskan.
