# Daily Bulletin

Pledged to neither Sect nor Party,  
But established for the benefit of all.

WEDNESDAY, JULY 16, 1890.

Mr. Charles Wilcox, Secretary of the Legislature, writes to say that the "Pac Aina" has erred in stating that the President has not appointed a select committee on the item of \$1000 in the Appropriation Bill for the return of indigent Hawaiians. A committee was appointed on the 8th instant.

The recognised weakness of the Honolulu Fire Department is the lack of an organized and efficient police in connection therewith—recognised by the firemen themselves and by intelligent spectators at fires. The rabble, which ordinarily keeps under cover, turns out at the first tap of the bell, and appears at the scene of a fire, to rob, steal, and obstruct the firemen in their work. The duty of fire police is to keep this element at a distance, to protect exposed property from their appropriating proclivities, and to prevent all non-workers from being an obstruction to the firemen. An attempt is being made within the department, and with promise of success, to provide for the admitted deficiency. A fire police has been organized, and if its several members acquire a clear understanding of their duties, turn out promptly when needed, and work together with judgment and energy, the organization will be a valuable auxiliary to the companies who battle with the flames.

## LOOK OUT.

Look out for the near approach of Saturn and Venus this evening in the western sky, if it is clear. The two planets will be twenty-five minutes of arc, or less than the diameter of the moon, from each other. The actual conjunction will take place ten hours later, and be visible in eastern Europe where they will be only five minutes of arc apart. They will still be near together tomorrow evening, but reversed in position.

## MEETING OF FIRE POLICE.

The new Fire Police Company met last night in the hall of Mechanic Engine Co. No. 2, and completed its organization. The company is limited to thirty members, and that number was made up at the meeting. A constitution and by-laws were adopted and officers elected. The officers are: T. Kruse, Captain; J. Purdy, Lieutenant; L. Toussaint, Sergeant; H. Armitage, Secretary; W. Hill, Treasurer. The first Tuesday evening of each month was decided upon as the time of regular meeting, but for a while meetings will be more frequent.

## THE WAVE.

A copy of "The Wave," No. 6, published July 13th, has reached the BULLETIN through post. "The Wave" is printed and published on the U. S. Flagship Charleston. J. L. Bennett is editor and publisher. It is a neat little four-page two-column sheet. It contains much matter in small space. "Multum in parvo" describes it accurately. Its tone is generous and kindly. There is not a harsh word in it. Its navy news includes other nationalities with that of its own. The late large race is commented on in just and fair terms. The BULLETIN places The Wave on the list of its exchanges.

## HOUSE AND LOBBY.

Monday was the last day for receiving petitions. Ninety-nine hundredths of the time devoted to their reception has been sheer waste. What is the use of the people having representatives, if their local wants have to be set forth by petition? Petitions are proper when asking for redress of grievances.

The members who have not yet made their maiden speeches ought to be immortalized in a historic painting. They have saved the country thousands of dollars by their silence. Silence is golden, especially in the Legislature.

Noble Phillips' bills are intended to secure sanitary regulation of both lodging and eating houses. The mechanic senator is seldom heard in the House, but never except to a practical purpose.

Opium promises to monopolize a good month of the session, including the time taken to investigate the opium scandal. The House should be careful not to act rashly in legislation on the seductive drug, without better reasons than the failures of officials to carry out laws that have nothing else against them.

THE drink of the times is Hart's Delicious Ice Cream Soda, cool, refreshing and invigorating. Only 15 cents a drink, served at the Elite Ice Cream Parlor.

THE WEEKLY BULLETIN—36 columns, purely local matter—mailed to foreign countries, \$5 per annum.

## Latest Foreign News.

San Francisco, July 1, per bark Lady Lamson.

The Standard Oil Refinery at St. Louis was burned June 30. Three lives were lost. Five acres were turned into a sea of fire.

General Caprioli, German Chancellor, says he accepted office fully convinced that Germany, now she has embarked in colonial enterprises, must advance.

The Louisiana Senate will pass the House lottery bill in the form of a constitutional amendment, to be voted on at the next State election. If the vote be against the lottery the company will withdraw its offer and leave the State when its charter expires.

The National Bank of Buenos Ayres has suspended. Gold is at a premium of 172.

Several cases of cholera have appeared in the city of Narbonne, France. A disease suspected to be cholera has appeared near Oporto, Portugal.

Osman Digna led the Derivishes who were defeated by the Italian allies in Korea.

The General Act of the Anti-Slavery conference at Brussels was signed June 30.

Two French inhabitants of Cuba, near the frontier, were fired upon June 30 by a German sentry. They were gathering firewood in the forest, when the sentry challenged them and ordered them to withdraw. As they made no reply he fired, wounding one of them.

Prohibition went into effect in North Dakota midnight of June 30. About half the saloon keepers will go out of business, the other half going into the original package traffic.

Captain Murrell, who rescued the passengers of the steamer Danmark over a year ago, was to be married on the 1st inst. to Miss Mary McCormick, one of the sweetest and prettiest girls in Baltimore.

Buck Ewing, the famous New York catcher, has revealed proposals of the National League for amalgamation with the Players League, which the latter has rejected, and Ewing does not believe the National League clubs will last out the week.

Eyraud, the French murderer who was tracked through the United States and Canada, and arrested on the detection of a woman in a Havana millinery store, has reached Paris and been lodged in prison. Enormous crowds turned out to see him.

The ship Great Admiral, 104 days from Hongkong, arrived in New York just in time to break a corner in firecrackers, of which she had 4,000,000 bunches.

Convicts at a coal camp in Texas assaulted and killed the guard squad. They then visited another camp and liberated three gangs. A large force of officers with bloodhounds in pursuit, and bloodshed is expected to follow, as the convicts obtained firearms from farm houses.

Gastemela, having interfered in the selection of a President in Salvador, the people of Salvador appeal to Mexico for help. Mexico remains neutral. Honduras will make common cause with Guatemala, and Salvador is seeking an alliance with Nicaragua and Costa Rica. Guatemala has declared a censorship over all telegrams. Everything is to be feared from Barillas, as he is a tyrannical President.

Captain Urban, President of the board appointed to try the cruiser Philadelphia, reports that the vessel made an average speed of nineteen and a half knots per hour over a forty-mile course. He would submit a written report July 1st. The report will insure the acceptance of the Philadelphia, and guarantees the contractors a premium of \$100,000.

The second race between O'Connor, the Canadian oarsman, and Stansbury of New South Wales, which was rowed owing to a claim by O'Connor that he was fouled by Stansbury in the first race, took place June 30, and was won by Stansbury, who thus wins \$5000 and the championship of the world.

The Examiner's commercial news of July 1st has the following: "The heavy transactions and decline in the stocks of the Hawaiian Commercial and Sugar Company and the Hutchinson Sugar Plantation Company were caused by the throwing on the market of a large block of hypothecated stock consequent on the legislation in Congress on the Tariff bill—Hawaiian selling from 19 1/2 down to 11 1/2 and Hutchinson from 22 1/2 to 18. At the close a better feeling prevailed, both stocks having regained most of their loss."

Sugar 96 test was 5 1/2 in New York June 30.

General Middleton, the British army officer commanding the Canadian militia, has been compelled to resign, owing to exposures of his illegal confiscation of furs belonging to half-breeds while he was suppressing the Northwest rebellion.

The Glenlivet distillery in Scotland has been burned.

The failure to select a site keeps San Francisco from getting a new Post Office.

The New York Mail and Express prints a story from Washington to the effect that the law lately passed giving amnesty to deserters from the regular army was to clear up the

record of a wealthy gentleman, who deserted a generation or more ago and has since been in constant terror lest he should be apprehended and imprisoned. It is further stated that there are thousands of others to whom the law is a great relief, but who could not have commanded influence to secure such a legislation.

Henry Saunders, wife, two children, and a hired girl were poisoned at New Albany, Indiana, by eating ham. Poison had been put in the closet for rats, and the rats distributed the poison over provisions. The father and hired girl would probably die, and the others were dangerously ill.

CAPT. Soderger, of the Lady  
Lamson, and Pilot Babcock have  
our thanks for San Francisco papers  
of the 1st inst., enabling us to give a  
budget of news three days later than  
by last steamer.

"Peck's Bad Boy" kept a crowded  
house laughing last night. The sing-  
ing of individuals of the Iolani Gaiety  
Company was particularly enjoyed.  
The farce will be repeated at a ma-  
tinee Thursday afternoon, Saturday  
evening the company will play "For-  
bidden Fruit."

THE examination of candidates for  
teachers' certificates announced in  
the official notice of the Inspector  
General to be held on Saturday next,  
is postponed until the following Mon-  
day on account of the Saturday ex-  
ercises on the railway, to which the  
members of the convention are in-  
vited by the President of the Board  
of Education.

A CHINAMAN is locked up in the  
Station House on a charge of robb-  
ing chicken houses at Palama. The  
fellow is tall, well built and sly-look-  
ing. He is the same person who was  
caught at chicken stealing by a  
mounted policeman, about a year  
ago, and has been convicted of that  
offense twice. The Chinaman to  
whom the chickens were sold was  
also hauled in. Mr. Paiko found 9  
and Mr. A. Jones 3 of their chickens  
among a number of fowls at the  
Chinaman's store.

## THE LEGISLATURE.

### THIRTY-SECOND DAY.

WEDNESDAY, July 16.

The House opened at 10 o'clock.

#### PETITIONS.

Rep. Kalua, on suspension of the  
rules, presented a petition from the  
Board of Genealogy of Hawaiian  
Chiefs, asking for \$1,266.66 due  
them for four months' services prior  
to repeal of the Act. Finance Com-  
mittee.

Noble Crabbe, petition that road  
from Iwilei to Puuhale be finished,  
petitioners offering 10 feet of land  
on each side. Finance Committee.

Rep. Cummings, petition for \$10,-  
000 for opening a road from Liliha  
street to Nuuanu, and from Nuuanu  
street to Wailolima. Public lands  
committee. Also, a petition for  
\$10,000 for opening a road from Li-  
liha street to Palekai bridge, thence  
to Fort street. Also, a petition for  
\$7,000 for extending Kukui street  
to Liliha street. Public lands com-  
mittee.

Rep. Bush, petition from Koolau-  
poko, for appropriations for roads,  
namely: Pal road, \$35,000; Uwapo  
to Kaneohe, \$3,000; Palekai to Wal-  
hee, \$1,000; Kaalana, \$1,000; Pa-  
loke, \$800; Waikane, \$800; Uwapo,  
\$2,000. Public lands committee.

#### REPLY TO QUESTIONS.

The President asked the Secre-  
tary to read the reply of Hon. C. R.  
Bishop, President of the Board of  
Education, to questions submitted  
by resolution of Rep. Kahookano.  
Enclosed were a list of teachers em-  
ployed by the Board, a list of teach-  
ers imported from abroad with re-  
spective lengths of service, and a  
list of dwelling houses provided for  
teachers. In answer to the ques-  
tion as to reason for importing  
teachers from abroad, the reply  
stated that it was because the home  
supply was inadequate. The reply  
was ordered to be printed.

#### RESOLUTIONS.

Rep. Cummings moved that Jas.  
Auld, watchman at Aliiolani Hale,  
be paid \$240 for the two years end-  
ing March 31, 1890. Referred to  
Minister of the Interior.

Rep. Bush moved that, whereas  
statements have been made in this  
House that certain persons holding  
offices in the Interior Department  
had engaged in conspiracies against  
His Majesty and the Government,  
His Excellency the Minister of In-  
terior be requested to state whether  
it is the intention of the Govern-  
ment to retain these persons in of-  
fice.

Rep. Nawahi moved that the edu-  
cation committee request the Presi-

dent of the Board of Education to  
lay before the House a copy of the  
instructions issued to school agents  
relative to payment of expenses of  
teachers attending the convention in  
Honolulu.

Minister Peterson gave notice of  
a bill to enable trials to be held in  
the Supreme Court in addition to  
those in term; also, of a bill to pro-  
vide for inspection of medical es-  
tablishments of the kingdom; also,  
of a bill to amend the Act to miti-  
gate, etc.

Rep. Waiulani gave notice of a  
bill to provide accommodation for  
prostitutes in Honolulu.

#### ORDER OF THE DAY.

The House proceeded to consider-  
ation of the Appropriation Bill in  
committee of the whole, Rep. Na-  
wahi in the chair.

Department of the Interior, con-  
tinued.

Compiling statistics of the king-  
dom, \$2400.

Minister Brown said the item was  
for the purpose of paying the ex-  
pense of compiling statistics of the  
different departments. This would  
make a valuable book but should be  
left to private enterprise. He moved  
it be struck out. Carried.

Messengers, \$2400. Passed.

Bureau of Survey.—Salary of  
Surveyor General, \$7000. Passed.  
Expenses Bureau of Survey, \$56,-  
900.

Minister Spencer by request gave  
a detailed statement of the ex-  
penses making up the item.

Noble Widemann, referring to a  
stated item of \$5000 for survey of  
Molokai, said he thought there was  
an appropriation for this purpose  
last session. Molokai seemed to be  
costing a good deal for surveys. The  
House should know more about  
the expenditures of this bureau, and  
he moved the item be referred to a  
select committee.

Noble Burchard remarked on  
\$10,000 for surveying homesteads,  
which seemed a large amount for that  
purpose.

Rep. Wilcox spoke of the bureau  
as a "family compact" that exclud-  
ed young Hawaiians who had learned  
surveying in the schools. The re-  
port mentioned the illness of one of  
the staff as a reason for delay of  
the work. They should not vote a  
salary to a man too sick to work;  
he ought to be pensioned.

Minister Brown, replying to No-  
ble Widemann, said one benefit of  
the Survey's work was the recovery  
of Government lands held in private  
hands.

Rep. Bush said that the bureau  
did things without authority of the  
Legislature. The item should be  
investigated by a committee.

Noble Pua criticised the increase  
of \$15,000 over the appropriation of  
last session.

Noble Kauhane spoke of the great  
benefits of this bureau. Before its  
establishment lands were sold with-  
out the sellers knowing how much  
they were selling. The Government  
Survey had cleared up titles and es-  
tablished boundaries.

Rep. Kanealii regarded the money  
expended on this survey as anything  
but wasted.

Rep. Baker told of employees of  
the bureau killing turtles on the beach.  
One of them was nearly killed  
chasing bullocks in the woods.

The motion to refer to a select  
committee carried.

Registry of Conveyances—Salary  
of Registrar, \$6000.

Noble Widemann said a great  
boast was made by the great Reform  
Government last session over the  
advantage that was to be had from  
a change in the system of the office.  
He thought he told them at the time  
that it would be seen in the next Ap-  
propriation Bill, and there it was—  
"Re-indexing old records, \$3300."

They had better go back to the old  
system.

Noble von Tempesky—To the Gib-  
son system?

Noble Widemann—No; nor to  
the Reform Ministry. I would  
rather go back to the Gibson system  
than to the Thurston system. You  
can get your bottom dollar on that.  
Mr. Gibson always acted like a gen-  
tleman, which Mr. Thurston never  
did.

Noble Baldwin said the hon. No-  
ble was indulging in personalities  
and ought to be called to order.

Noble Widemann said he had  
great respect for the hon. Noble in  
springing to the defense of his  
friends.

Rep. Brown moved that the com-  
mittee rise and report the whole Ap-  
propriation Bill to a select commit-  
tee. Then that select committee  
could go to the Government and  
say, "We will run the whole Gov-  
ernment." He would like to know  
what a committee of the whole was  
for if it was not for discussing and  
passing upon those items. He won-  
dered whether the hon. Noble had  
a protegee he wanted to put in that  
office and pay out of his own pocket.  
It looked that way.

Noble Widemann disclaimed all  
personal interest in the matter.

Minister Brown saw no reason for  
sending the items to a committee.

Noble Muller would vote the  
Registrar's salary with the condi-  
tion that he devote his whole time  
to the office and do no other busi-  
ness.

Rep. Wilcox was of the same  
opinion. The Registrar was to be  
seen wandering round like the ghost  
of the Reform Party.

Passed as in the bill.

Deputy Registrar, \$4000. Passed.

Pay of Clerks, \$5500.

Rep. R. W. Wilcox objected to  
this as another lump sum.

Minister Spencer moved the item  
pass as in the bill, and gave a de-  
tailed statement of the pay of clerks,  
ranging from \$75 to \$300 a month,  
with \$100 for extra hire.

Passed.  
Incidentals, \$950. Passed.

Re-indexing old records, \$3300.  
Rep. Bush asked for an explana-  
tion, and was referred by Minister  
Brown to the page in the Interior  
report where the information was to  
be found.

Noble Widemann moved that the  
item be struck out, as the late Gov-  
ernment promised the Legislature  
that this work would be done by  
the staff in regular working hours.  
Lost.

Passed as in bill.

Copying records and commis-  
sion, \$3150. Passed.

Committee took recess from 12 to  
1:30.

## THE LEGISLATURE.

THIRTY-FIRST DAY.

TUESDAY, July 15.

AFTERNOON SESSION.

The House resumed at 1:30 and continued with the

ORDER OF THE DAY.

An Act to repeal Secs. 109 to 117, inclusive, Civil Code, relating to the vaccination of children.  
Rep. Kahookano said he introduced the bill at the request of some of his constituents. He moved it be referred to the sanitary committee. Carried.

An Act to amend the Act of 1889, providing aid for the establishment of hospitals for the benefit of sick and disabled Hawaiian seamen.

Minister Brown said the bill was introduced by the late Minister of Finance. Its object was to reduce the tax on passengers entering the kingdom, imposed for the benefit of the Queen's Hospital, from \$2 a head to \$1, and make the ship responsible for it. The bill also extended the meaning of "Hawaiian seamen" to all seamen employed on vessels of Hawaiian registry. He moved the bill pass to engrossment.

Rep. Kalua thought the tax would be taken from the passengers anyway. It would be better to repeal the law altogether, but for the present he only moved it be referred to the finance committee.

Rep. Rickard considered the bill a good one, and supported the motion to pass it.

Rep. R. W. Wilcox knew from his own experience, the last time he came from San Francisco, that the tax was obnoxious to passengers. This bill was very plain as it stood, and he thought it should pass.

The bill passed, to be read a third time on Friday.

An Act to amend sec. 22, chap. 55, laws of 1876, relating to stamp duties, as amended by sec. 1, chap. 20, laws of 1888.

Minister Brown explained that the object of the bill was to enable residents of the country districts to obtain the adhesive stamps required for affixing to documents. The Postmaster-General was to be charged with the distribution of these stamps through the country post offices. He thought the bill should be passed without hesitation.

Noble McCarthy thought the bill should go to a committee. The finance committee had found 22,000 and odd impression stamps in the Custom House above what the books called for. The blanks were distributed to merchants without account of the number, on the theory that the stamps were not negotiable till they passed over the counter. He thought the impression stamps should be abolished and adhesive stamps substituted. The bill should go to the committee on commerce.

Rep. Kalua moved it be referred to the finance committee. Carried.

An Act to amend chap. 31, laws of 1882, to admit fertilizers into the kingdom free of duty.

Rep. Kalua moved the bill pass to be engrossed. It was intended to assist in developing our agricultural interests.

Rep. Kahookano moved the bill be referred to a committee. It was as important bill and a committee should ascertain whether it was for the benefit of the whole country or only of a few people.

Rep. Rickard thought there would have been no discussion after the remarks of the honorable member for Wailuku (Kalua). The honorable member for Kohala might as well have asked whether the fertilizers, if placed at the root of a tree, would benefit the whole tree or only a few branches. If there were a variety of manufactures in the country, the case might be different. Even the barbers and the dentists here owed their living to the agricultural interests of the country.

Rep. White moved the bill be referred to the sanitary committee, as it was possible that bad-smelling fertilizers caused much disease in the country.

Rep. Lucas did not see what the sanitary committee had to do with it. It was not proposed to keep fertilizers out, duty or no duty. The present duty was a nominal one. He supported the motion to pass the bill.

Rep. Rickard explained that he was not speaking for his personal interest, as they used no fertilizers at Honolulu. (Smiles.)

Noble Muller saw no reason for referring the bill to a committee. Fertilizers should be admitted free, also material for making fertilizers here.

Noble Burchard agreed with the previous speaker. Agents came down here representing that certain fertilizers were suitable for all kinds of soils. Planters should be enabled to import materials cheaply, so that they could compound them here to suit different soils.

The bill passed to engrossment to be read a third time Friday.

An Act to provide additional facilities in acquiring homesteads.

Rep. Brown moved the bill be referred to the committee on public lands and internal improvements. Carried.

An Act to establish branch hospitals on the different islands.

Noble Marsden, saying the bill involved important changes in the laws relating to the public health, moved it be referred to the sanitary committee.

Rep. Rickard, introducer of the bill, accepted the motion, and the bill went to the sanitary committee. An Act to provide for a Police Justice for the District of Makawao, Island of Maui.

Rep. Rickard moved it be referred to the judiciary committee.

Rep. Brown moved it pass to engrossment. No point of law was involved. The bill simply raised the District Justice to be a Police Justice the same as that of Wailuku and other Districts. It was due to the increased importance of the District that the change should be made.

Rep. Paehaole did not see the necessity of a Police Justice in Makawao, there being one at Wailuku close at hand.

Rep. Halstead spoke as the introducer of the bill, saying the reason for the change was that there was a large mixed population in the District, and it was necessary to increase the jurisdiction of the magistrate. It would be very inconvenient for residents to have to go to Wailuku whenever they wanted a Police Justice.

Rep. Paehaole did not see that sufficient cause had been shown for giving the magistrate of Makawao criminal jurisdiction over the whole island. Hana and other districts would be wanting police justices, and then magistrates in these places would have to get higher salaries.

Rep. Kalua agreed with previous speaker. Makawao was so near Wailuku that there was no necessity for the change. He had never heard of any difficulty from the present position of the magistrate.

Rep. Rickard supported the bill on the ground that changed conditions made the measure desirable. He intended to ask the House to pass a similar bill for his own district.

Noble Baldwin thought the time had come when Makawao should have a Police Court. In 1886-7 the fines collected in Makawao amounted to \$3,613 and those in Wailuku to \$1,296, while in 1888-89 the amount for Makawao was \$5,486 and for Wailuku \$4,372. Their relative positions of importance, as shown by amounts of fines, had become reversed. The House had already passed a salary to a Police Justice for Makawao.

Rep. Paehaole was called to order by Noble von Tempisky, for having spoken three times. The speaker smiled and held on the tenor of his way. As to the salary being already passed, he said items were often increased on the third reading. What he meant was that the time would come when increased salaries would be asked. Therefore he moved the bill be indefinitely postponed.

The bill passed, to be read a third time Friday.

An Act to amend an Act entitled "An Act to consolidate and amend the law relating to the garnishee process to facilitate the collection of debts," approved the 19th day of September, A. D., 1876." The bill provides for extending the garnishee process to the collection of debts from persons employed by the Government.

Rep. Rickard moved the bill be referred to the judiciary committee, because it imposed onerous duties on the superiors of Government employees, as well as hardships on the employees. These might have wives and young children and it would be very hard to garnishee half their salaries from month to month, especially when their financial troubles were caused by sickness in their families.

Rep. Lucas could not see why this bill should not be engrossed. Persons not in Government positions often had sickness in their families, and had as much right to be free from liability for their debts as officials. It was a bill to compel public servants to be honest, and it ought to pass to be read a third time tomorrow.

Noble McCarthy, who introduced the bill, did not think it was so harsh a measure as had been represented. It was only to prevent officials from being above the law, as some of them snapped their fingers at their creditors. If the bill was passed it would probably not need to be used, as, if heads of Government offices were dragged into Court to answer for the debts of subordinates, they would soon fire those subordinates out. It was not those on small salaries who were most remiss in paying bills, but those on the larger salaries.

Rep. Brown sympathized with the object of the bill, but said it was not in condition to hold water. It ought therefore to go to the judiciary committee.

Rep. R. W. Wilcox believed the object was good, but the bill should go to a committee.

The motion to refer the bill to the judiciary committee carried.

An Act to encourage a larger circulation of that certain publication called "The Paradise of the Pacific." It provides \$12,000 to aid in the publication and distribution of the paper named.

Noble McCarthy moved the bill be referred to the committee on commerce, so that the publishers could have an opportunity of conveying information to the House.

Rep. Nawahi moved the bill be indefinitely postponed.

Rep. Hind seconded the amendment. Millions of copies of this paper had been distributed to little or no purpose, and it was ridiculous to expend so much money in this manner under the pretext of encouraging tourist travel.

Noble Macfarlane did not like to see any bill indefinitely postponed. The bill should go to a committee for the purpose of gaining information. As to the means proposed, the same thing had been employed with success in California. The encouragement of tourist travel to the islands should be promoted in every possible way.

Rep. Paehaole supported the indefinite postponement. It was all very well for the honorable Noble to say he did not like such treatment of bills, but the action of that gentleman and others on the fishery bill yesterday was not yet cold.

Noble Macfarlane explained that the fishery bill had been rejected session after session.

Rep. Paehaole took the honorable Noble at his own word. The bill to encourage the Paradise of the Pacific had been rejected last session after a long fight.

Noble Macfarlane wanted to be understood. The fishery bill was not thrown out till it had been to a committee, and all he advocated was that this bill should be committed.

Rep. Paehaole contended that the Paradise of the Pacific, with its twenty-four issues in two years, was less valuable than the regular newspapers in advertising the country abroad.

Noble von Tempisky called the speaker to order, as he had spoken fifteen minutes.

Noble Kaulane was in favor of the bill being referred to a committee. He thought it would have been better if last Legislature had given assistance to this paper. People abroad were not too well informed about this country. There had been an increase of tourist travel the past two years. He had seen the last two steamers come in with a great many strangers, most of whom were tourists who would spend a great deal of money in the country.

Rep. Nawahi was still in favor of his motion. It was not certain that the increase in travel was due to this paper. By and by the Bulletin would claim to have helped and ask for a subsidy. Then Dan Lyons would come along and ask for aid for his paper, and even Mr. Bush himself might want a subsidy.

Noble McCarthy spoke of the benefit of similar publications in booming Southern California. The publishers refused offers of advertisements of patent medicines every mail, because their object was wholly to advertise Hawaii. Although he knew that three members of the Committee on Commerce were hostile to the bill, he was willing that it should go before them for investigation.

Rep. Kaula said the bill provided \$500 a month out of the treasury to these publishers, and wanted to know if the treasury would get anything in return.

Noble McCarthy said not at present, but indirect benefits to the country were expected which would repay the expenditure.

Rep. Kaula considered it a bad bill, and it should be killed before it did any harm. If parents saw a centipede approaching a child in a cradle, they would not wait till it got at the child and bit it. If the honorable Noble wanted to know what harm was in the bill, let him come to his house and he would give him something to listen to all night.

Rep. Lucas thought it would not cost more if the bill was referred to a committee. He thought it was a good bill and it would be time enough to throw it out after a committee reported on it. The committee, if they saw fit, could reduce the amount proposed. If the paper would help out the Punchbowl and Volcano roads it would do good.

The ayes and noes were called on the motion to indefinitely postpone the bill, with the following result:

Nobles—Ministers Cummins, Brown, Peterson; Nobles Berger, Macfarlane, Muller, McCarthy, Phillips, Crabbe, Kaulane, J. M. Horner, Marsden, Baldwin, W. Y. Horner, Walbridge, Anderson, von Tempisky; G. N. Wilcox, Kanoa, Isenberg; Reps. Marques, Lucas, Baker, Rickard, Rice, A. S. Wilcox—26.  
Ayes—Nobles Pua, Hind, Burchard; Reps. Brown, Bush, Kaula, Nawahi, A. Horner, Kahookano, Waiipuni, Apiki, Paehaole, White, Kaneali, Halstead, Kamai, Knudsen—17.

The bill was referred to the Committee on Commerce.

President Walker appointed the select opium committee as follows: Reps. Brown, Bush, Baker, Noble von Tempisky, Rep. White, Noble Anderson, Rep. Rickard.

The House adjourned at 4:12.

# THE TEACHERS' CONVENTION.

TUESDAY FORENOON.

The convention opened at nine o'clock, the Vice-President in the chair. The assembly was divided into two sections and the lectures duplicated. Mr. J. A. Moore, to whom had been assigned the duty of discussing arithmetic in the fifth year grade, opened with a promise to develop the subject to a higher point than was reached yesterday. The great principle enunciated as necessary to inculcate in class teaching is that a fraction is simply unexecuted division, a principle which every thorough teacher of fractions is pretty sure to ignore. The fundamental processes in common fractions were touched upon up to division, when time was called.

Miss Coursen brought in a class of seven, five boys and two girls, to elucidate the processes of primary instruction. The lesson comprised exercises in drawing, writing, numerals, and geometrical elements, particular attention being given to the development of clearly enunciated English.

Miss J. Deyo spent half an hour in discussing the Grube method in Arithmetic. To the uninitiated, a definition may be useful at this point. The Grube method is described as one by which addition, subtraction, multiplication and division are all taught at the same time, the smaller numbers being taught in succession, giving all the operations within the range of each, and applying the knowledge gained before proceeding to the next number. The processes described had particular reference to the teaching of native Hawaiians and other nationalities to whom the English language is unknown territory. The use of the fingers in object lessons on numerals continues since time immemorial to be recognized as decidedly advantageous, one reason for which is that the objects are always on hand and not likely to be superseded by the latest improvements.

Mr. H. Gibson took up the subject of reading lessons. The first Christmas Tree, Third Reader, was used as the basis of the exercise which was similar to that of the preceding day. Several problematical veins of English idiom were struck by different members of the convention, but the appliances for mining them seemed to be wanting.

In connection with the writing of abstracts of lessons, a lively breeze sprung up on the matter of names, surnames and ages of pupils, particularly those of Hawaiian and Portuguese nationality. It was suggested that the Hawaiian style of individual nomenclature should be remodelled through the agency of the public schools. Every pupil should be registered under the usual "hole" form of two names, and the ages of pupils should also be recorded. Mr. Mitchell of Hana, Maui, said he had tried to get over the difficulty by adding names of parents to names of children and had found it necessary to go outside to ascertain the parentage of his pupils, but he found so many diverse opinions on the subject of enquiry that he gave it up. Mr. John Umea threw light on the matter by explaining the Hawaiian custom of designating as "father," not only the real immediate ancestor but also the grandfather, uncle, cousins, and friend. This, he said, would account for the mystification in which foreign teachers are involved when a schoolboy's father is reported "dead" one day and "sick" perhaps thirty days later.

The remainder of the forenoon session was devoted to tonio-sol-fa music, under the efficient conduct of Rev. J. B. Alexander.

TUESDAY AFTERNOON.

An able elucidation of the method of instruction in English composition was given by Professor Scott. The too common initiatory lessons consisting of essays on the horse, the cow, and the dog, were shown to be radically defective. Statements of fact and interesting stories should be given out by the teacher and the pupil taught to rehabilitate

them in his own words,—a piece of "home industry" which may be expected to reach its first stages of development in the country schools of the Hawaiian Islands five years after date. Mr. Lord continued the course of lessons opened yesterday on writing and how to teach it. The regulation position was given as being three quarters front, and right side to the desk. A quiz was put in here: Suppose I was working on a six hundred page ledger, how would that position suit?

A.—We are supposed to be in school now, not working on ledgers. Q.—Should pupils be taught things in school that they must unlearn when they enter into real life? My idea of the business is that a boy should grade from the schoolroom to the counting room. A.—I have been in a counting room and the writing position was what is known as the front position. Q.—Then why is a different position prescribed here? Your right position is unphysiological. A.—It is admitted that the right position, when the desk is too high, tends to produce curvature of the spine. But there is no cast-iron rule in the matter. Q.—No, but there will be a "kick" if the inspector finds a school practicing methods contrary to those laid down at this convention.

Some very good points were made in the methods of drilling a class in the elementary stages of penmanship.

The programme of the day closed with a further elaboration of phonics, commenced Monday by Mr. Lucas. If the phonic lessons can be reproduced in the public schools of the country, the difficulties of the Anglicising process will be largely overcome.
