RETURNS FROM CAROLINES PREDICTED LATEST FLOW

MORNING STAR REACHES PORT THIS MORNING.

Welcomed by Spaniards, Natives and Missionaries in the South—Story of the Cruise.

The missionary craft Morning Star docked at Brewer's wharf about 11:30 this morning. She came direct from Kuka, one of the larger islands of the Caroline group, and was busy six days in making the trip but experienced no bad weather other than calms.

The captain of the Morning Star is G. F. Garland. He states that he was well received in all the Caroline ports and especially so by the Spaniards. He says there was no uprising against the Spaniards during our war with Spain, but that the natives were at that time fighting among themselves. However, it was stated by one of the passengers aboard that the Spanish authorities had been lately persecuting several prominent natives because of their Protestant religion. The Spaniards of the Carolines have been practically deserted by their government since the late war. The garrison on the island of Ruk would have perished from starvation had it not been for assistance from some of the natives.

The Protestant mission schools of the Carolines are in a very prosperous condition. The schools maintained in the island of Kusaie by the Hawaiian Mission Board are doing splendid work, educating and civilizing the rising generation of natives. The teachers of Kusaie were reported to be in good health. The schools at Ruk and other islands maintained by the American Mission Board are also meeting with success in civilizing and christianizing the natives. The male and female academies at Ruk are now training fifty boys and thirty girls respectively. Marriage is no bar to attending these schools, as twenty-four of the above pupils are married men and women. Captain and Mrs. Foster and Mrs. Mary Logan, only passengers on the Morning Star, were lately teachers in the Ruk schools. They had been continuously engaged in that work for over three years, and are returning home for a breathing spell; definite ideas as to when they will return.

The Morning Star left Honolulu the 6th of last April and made the trip in fifteen days, beating the record. She touched at the islands of Kusaie, Pohnia, Ruk, and other islands. Captain Garland states that the vessel will return to the Carolines at an early date; probably in three or four weeks.

PROFESSOR LYONS FORESAW VOLCANIC ERUPTION.

Refers to Letter Written in April Last and Explains Some Facts in Connection Therewith.

Professor Lyons sends to The Star a copy of a letter written by himself in April with respect to sun spots and seismic disturbances, with some present explanatory notes thereon. His statement in April, and remarkable prediction at that time of just what has happened, is as follows:

The following table showing the relation between the years of least sun spots, and the dates of the more prominent volcanic outbursts on Hawaii certainly suggests some connection between the two. The sun spot periods are from the Monthly Weather Review (American) for December, 1897.

Years of Minimum Sunspot.	Most Important Lava Eruption.
1799-1801	Hualalai.
1810-12	Mauna Loa.
1823-25	Mauna Loa and Kilauea.
1833-35	Kilauea.
1843-45	Mauna Loa.
1856-58	Mauna Loa.
1867-69	Mauna Loa.
1873-75	Mauna Loa.
1889-91	Mauna Loa South Slope.
1900-02	Probable.

The variation in number of sun spots during the average eleven year cycle is strongly marked, the ratio of maximum to minimum being about as 30 to 10 and sometimes greater. It is an accepted fact I believe that the solar heat is slightly greater when there are the fewest spots, but how this should cause volcanic outbreak does not appear. It may be the expansion of the sun's surface, or the heat of a fluid interior breaking through a rigid crust.

The next minimum period is due about 1900 as near as can be estimated from past intervals, so without being in any way alarmists, it is reasonable for us to look for a notable lava flow at some time between now and 1901. The Hawaii lava flows are generally confined to desolate parts of the island. This is not to be considered as a prediction, but simply a statement of facts. The lava flows of Mt. Etna have followed in a measure the same period.

STRONG WORDS.

Cardinal Vaughan Favors American Expansion in Asia.

LONDON, July 4.—A declaration of immense importance concerning the fate of the Philippines and all Asia was made tonight by Cardinal Vaughan, Archbishop of Westminster, at the Independence Day banquet given by the American Society in London. There is good authority for saying that his utterance is an authorized announcement of the policy of the Roman Catholic Church on the far Eastern question. When it is said that he astonished and electrified his audience by his eloquent appeal to America and England in co-operation, to carry civilization into Asia in opposition to Russia, it may easily be imagined what a sensation his words created.

Nor was his only imperialistic speech of the evening. It was the keynote of every word spoken, and the spirit of imperialism aroused an enthusiasm surpassing anything witnessed at former gatherings of Americans in London. The banquet was attended by the largest and most representative society of Americans ever held in Europe. It was nearly midnight when Cardinal Vaughan spoke.

APOLLINARIS.

(The Queen of Table Waters.)

1895	19,520,000 bottles
1896	21,973,000 bottles
1897	22,585,000 bottles

The ever-increasing popularity and the pre-eminence of Apollinaris are clear to all from the foregoing quantities bottled at the Apollinaris Spring, Rhenish, Prussia.

Far exceeding the fillings of any other mineral spring in the world. The "Times," London, says, regarding Apollinaris: "These figures are more eloquent than words."

A BOND FOR APPEARANCE

SYDNEY BOYD MUST FILE ONE IN WADE CASE.

Is Most Important Witness and Attorney-General Wants to Keep String on Him—Amount Fixed at \$500.

Sydney Boyd, butcher on the steamer Australia and the principal witness in the murder proceedings against George Wade, is hustling around this afternoon for a bond in the sum of \$500 to appear before the August term of the Circuit Court to testify against the slayer of Wm. Gillespie.

The lawyer gives the attorney-general the right to detain a witness in a murder case, even to the extent of imprisonment without labor, if there is reason to suspect that he will not show up when wanted. Marshall Brown is perfectly satisfied that the other witnesses in the Wade case will be on hand. On account of the importance of Boyd's testimony it was felt that no chances should be taken with respect to him. Judge Stanley this morning heard argument on the petition to place the witness under a strong bond to appear. Petition was allowed, and bail was fixed at \$2,000. Marshall Brown later notified the court that the department would be satisfied with a bond of \$500. This was after Boyd had failed to get backing for the larger amount. The court allowed the reduction and this afternoon amended the order to read \$500.

It is believed Boyd will be able to put up bonds in the smaller sum. If he fails, however, nothing remains but for him to stay here.

Ann Maria Stangenwald was this morning appointed executor of the will of the late Dr. Stangenwald, to serve without bonds. The property consists of real estate valued at \$42,000, and personal effects, \$14,000.

In the matter of Mary C. Aldrich, et al. vs. Priscilla E. Hassinger, et al., Mrs. Hassinger, Mrs. Turton and Mrs. Ross have moved the court to dismiss plaintiff's bill, for want of prosecution of same and on the ground that the plaintiffs lack of money for failing to comply with the ruling of the Supreme Court making D. K. Brown a party defendant.

In the matter of Ung Lin, et al. vs. Leong Hoo, et al., bill for injunction, it has been stipulated between respect and the court that the matter be heard before Judge Perry at 10 o'clock next Thursday morning.

A FRIGHTFUL ACCIDENT

A brakeman named Wetzel, on the Oahu Railway, fell between the cars at Halawa this morning and is lying in a very precarious condition at the Queen's hospital.

His left arm and left leg were both run over by the wheels of the car and both will have to be amputated. The leg is being cut off at the hip and the arm is to be taken at the shoulder.

It is very doubtful if the man will survive the operation.

The man was new in the railroad employ. He was a sailor until five days ago. Just how he happened to fall between the cars is not definitely known and will not be until the train returns from Oahu.

A special car was sent to Halawa to bring the poor fellow to the city. At the hospital he received the immediate attention of Dr. Cooper, chief hospital surgeon.

Dr. Cooper stated this afternoon that the case was a most delicate one. He has hopes that the man may be able to pull through, but his chances are exceedingly slim.

CASTELLANE INSULTS MONACO

Criticizes the Prince for Inviting Dreyfus to His Chateau.

PARIS, July 4.—Comte Boni de Castellane, who married Miss Anna Gould, has addressed a communication to the Prince of Monaco sharply criticizing the prince for his recent letter to Madame Dreyfus, inviting her and her husband to sojourn at his chateau after the prisoner's acquittal, of which the prince expressed himself as confident. The prince's letter to the prince with "interfering in an affair in which you are in no way concerned," says:

"If, as a foreign sovereign, you thought you could influence French officers in the grave verdict they are about to pronounce, I beg you to note that we don't condescend to call to account a prince who is under tutelage."

"You are, perhaps, a relative of Dreyfus by marriage, but in that case it is premature to triumph. If, on the other hand, it is as a protector of gambling houses that you intervene, permit me to tell you that Dreyfus himself would dispense with your services."

A GREAT FRENCH HOLIDAY

ANNIVERSARY OF THE FALL OF THE BASTILLE.

Consular Flags Flying and Consul Most Receives Diplomatic Corps This Afternoon—History.

This date, Friday, July 14, is the 110th anniversary of the fall of the Bastille. Consular flags are flying in honor of the great French holiday. Services were held this morning in the Catholic Cathedral. From 1 o'clock this afternoon M. Most, French consul, is receiving government diplomatic friends at the consulate. The Hawaiian band is playing on the grounds, the program concluding at 3 o'clock.

The anniversary of the Fall of the Bastille is celebrated in France much as the Fourth of July is in the United States. In old times it was a great day here, but with the departure of French prestige its observance has declined. In San Francisco, New Orleans and other American cities in which are many French people the day is observed with most elaborate exercises and ceremonies. Mrs. Annis Montague Turner, the Hawaiian nightingale, was the principal vocalist for the celebration in San Francisco last year.

The Bastille was a prison fortress built at the Porte St. Antoine, Paris, in 1299. It was destroyed by a popular uprising on July 14, 1789. The prison was regarded as a symbol of monarchic despotism, and in honor of its obliteration, July 14 was made a national holiday.

VOLCANIC SMOKE.

All Over the Town and the Mountains Today.

Smoke has hung over this island all day. It has been especially noticeable in town, on Tantalus and among the hills of Waialeale. At times the sky was hazy, and there was a noticeable effect on the sun.

Professor Lyons states that the smoke is undoubtedly from the volcanic flow on Hawaii. He has been watching it all day, and noticed it yesterday afternoon. So much smoke appearing at this distance would indicate that the flow is very great, perhaps greater than has been reported.

FUNERAL THIS MORNING.

Religious Services Over Remains of Late Capt. Satterlee.

The funeral of the late Captain Satterlee took place from St. Andrew's Cathedral at 10:30 this morning. Religious services were conducted by Bishop Willis, assisted by Bishops V. H. Kitchin and Wray Taylor were organist and the choir sang.

The casket was moved quietly to the cathedral. Services were according to the ritual of the English church. After the ceremonies were over the casket was placed in the hearse and the funeral procession started for the cemetery.

The line was headed by the Hawaiian band. Marching behind that were the officiating clergymen, the surpliced choir and the military escort. The body will be returned to the old home of deceased in the East.

MONTELEY'S COMMANDER.

Captain John McGowan of the United States Navy is a through passenger by the Rio de Janeiro for Manila. He goes there to take command of the coast defense vessel Monterey. He succeeds Captain E. H. C. Lettice, who has been transferred to the coast defense vessel Monadnock. Captain Lettice succeeds Captain H. E. Nichols, who died recently. Captain McGowan is a well-known navy officer, who for some time past has been in charge of the naval training station at New York. Quite a number of his army and navy friends in this city met Captain McGowan last night.

SUIT FOR TITLE.

T. R. Mossman has brought suit against the trustees of the Bishop estate to establish his title to a piece of valuable land in Manoa valley containing fourteen acres. The case will come up before the August term of the circuit court.

YEAR ON THE REEF.

N. Neuhart, a man who deserted from the Yorktown here one month ago and has since been knocking about, was given a year on the reef at hard labor by Judge Wilcox this morning for malicious injury. A few days ago he took Dower's sloop without permission and went out for a sail. In some way he lost control of the boat and left her.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. LIST STOCKS IN NEW YORK

S. M. DAMON'S OBSERVATIONS IN SAN FRANCISCO.

Island Securities Bought for a Rise—Capitalists Have Not Gone In Yet—Ignorance About Our Industries.

"The average California mind," said Minister Damon this morning, "considers the islands as very far off indeed. In spite of our close connection with San Francisco, in spite of the number of tourists who are constantly visiting our shores, in spite of our many business dealings, and in spite of all the advertising we have had in the papers, outside of certain circles very little is known about the islands. I speak more especially in reference to our business. As far as stock investments and so forth the average San Francisco knows very little and cares less. They have so many affairs of their own to attend to, so many things to develop and get money for, that they do not pay much attention to matters which appear to them so distant."

"In talking with a prominent stock broker," continued Mr. Damon, "he said 'why don't you list your shares in New York. They are accustomed to do things on broad lines there, and it is there that you will find the true capitalists.' To this I replied that we wanted to get a standing in San Francisco first, and that ultimately we should try to get to the New York market. The stock broker pointed out that the transactions on the San Francisco market were not in the nature of investments, but were simply for a rise. The stocks were bought in San Francisco by clerks and small people, and sent down to the islands for sale again, the big people did not touch our stocks. I have urged several stock brokers to come down and make personal observation."

"Our ventures here are not a boom. The investments we have to offer will all be dividend paying, and even under adverse circumstances. Up there they know nothing of our intelligent methods of cultivation and irrigation. When I told some of the farmers, prominent men too, about our scientific certifying they opened their eyes. They don't understand it up there. Why some of them get a crop every other year, allowing the land to lie fallow. As for our economic methods for getting all the juice out of the case, it is a revelation to them."

"I noticed that the French and the Italians are making much progress in the State. There are upwards of 15,000 French, who are chiefly engaged in wool, while the Italians, 25,000 in number, devote themselves to the cultivation of fruit and vegetables and the production of wine. They are very industrious."

"The delay in giving us our political status is regarded on the Coast as an indication that Congress desires to disturb us as little as possible. It is becoming evident to political thinkers that you can't make a New England town out of an Hawaiian, or a Philippine, or a Porto Rican, but that each must work out its progress upon special lines, which it is best to interfere with as little as possible."

Mr. Damon is improved by his visit. He stayed some time in San Francisco, went to Monterey, and took a trip through Northern California.

AN ENJOYABLE EVENING.

The audience at the Orpheum last night enjoyed the play very much. If the applause extended is a criterion. The five murders at the toll gate was a ghastly sight, but very effective. The sketch of Boggs and Miss Heward added very much to the program, and is highly appreciated by regular attendants. All the actors done well and have something new and entertaining to offer each evening. The grand tonight and tomorrow at 2 p. m. Full change of program for Saturday night.

THE NEW CUP DEFENDER

COLUMBIA MAKES READY FOR TRIAL MATCH.

Has Largest Spread of Canvas Ever

Yet Used—Cup Challenger Shamrock

Will Not Have Trial Race.

NEW YORK, July 3.—The new cup defender Columbia had another trial trip today on the sound and according to Mr. Iselin she is now in readiness for her first race against the Defender off Sandy Hook on Thursday. Her crew was up at an early hour yesterday and by 10 o'clock five batteries had been placed in her gigantic mainsail, which is now the most perfectly fitting sail ever seen on a cup defender. Shortly after 10 o'clock Mr. Iselin, accompanied by Mrs. Iselin, his nephew Arthur Iselin and Woodbury Kane, boarded the Columbia. Sail was hoisted and with her club topsail aloft the Columbia was soon slipping down the water. She went as far as Oyster Bay and returned to her anchorage off Echo bay at 4:30 p. m.

The twenty painters completed their work on the Columbia on Sunday night and at 7 o'clock this morning started to give the Defender a second coat. Mr. Butler Duncan, her manager, came aboard from All View, Mr. Iselin's home, shortly afterward and superintended the work. The sailors completed the work of shortening the Defender's mainsail this morning and tomorrow they will have an opportunity of testing it.

There has been some dissatisfaction between the crew and the officers, and as a result eight of the Deer Island men left the boat last week.

As usual, both yachts were surrounded this morning by a large number of small craft containing persons anxious to see them. The final arrangements for the first race between the Columbia and Defender, which will be sailed off Sandy Hook on Thursday, are all completed. The prize is a \$250 cup offered by the club. The course over which the yachts are to race will be thirty miles in length, starting from the Sandy Hook or Scotland lightship.

SOUTHAMPTON, July 4.—It is reported whether the cup challenger Shamrock will not engage in any trial race with the Prince of Wales' cutter Britannia. The Shamrock bent her sails today and will take a spin on Friday. She will start for the Clyde, according to rumor.

ABOUT CATARRH.

It is caused by a cold or succession of colds combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Hood's Sarsaparilla which purifies and enriches the blood, soothes and rebuilds the tissues and relieves all the disagreeable sensations.

HOOD'S PILLS cure all liver ills. Mailed for 25c by C. I. Hood & Co., Lowell, Mass.

"There are none so blind as those who will not see!"

There are some people who cannot be convinced that white is white and black is black, because they are determined to have their own way about it. Very good. Such people go through life missing the great truths and the greatest happiness as well as comfort.

There are others again who are convinceable. It is to the men of this class that we like to talk about the merits of our clothing.

They are better than nine-tenths of the made-to-measure clothes turned out in this city and the equal of the other tenth.

Alfred Benjamin & Company's clothes cost about half the price of made-to-order clothes and have every desirable attribute of the very best made-to-measure garments, besides embodying many unmatchable features strictly their own. That is why we say investigate the merits of the clothes bearing this label before going to a tailor. You risk nothing and stand to win a lot.

RIOTS IN SPAIN.

Situation Has Become Quite Serious at Barcelona.
BARCELONA, July 5.—While work-
men were leaving the factories today
further disorders occurred. The civil
guard charged the demonstrators and
many were injured. Attacks were
made against priests and churches.
Crude is almost at a standstill. The
heaters are all closed and it is thought
probable that martial law will be pro-
claimed.
There were also disorders here last
night. Bands of rioters attacked the
church of Santa Matrona and the Jesu-
its' school. The police charged and the
mob pelted them with stones. Later
the police were reinforced by gen-
darmes and infantry and finally scat-
tered the mob. Many conflicts took
place and many people were wounded.

The volunteers are gradually being
withdrawn from the Philippines, leav-
ing Aguinaldo and the Twentieth Kan-
sas to fight it out.—Globe Democrat.

YELLOW FEVER RAMPANT

SPREADING AMONG THE TROOPS
AT SANTIAGO.

Ten New Cases and Seven Deaths on
July 5.—All the Victims Were Amer-
ican Soldiers Except One.

SANTIAGO DE CUBA, July 5.—Ten
new cases of yellow fever and seven
deaths were officially reported today.
All the victims of the disease were sol-
diers except one, an American black-
smith.
A new fever hospital has been estab-
lished near Boniato camp, north of El
Cane.

WASHINGTON, July 5.—Surgeon
General Sternberg has received the fol-
lowing cable from Major O'Reilly, chief
surgeon at Havana, giving the yellow
fever situation:
"Harvard (chief surgeon at Santiago)
telegraphed today that the total cases
were about 100, with twenty-one deaths.
Surgeon Clendennin died yesterday;
other medical officers are sick and three
nurses. Of our General Wyman's sol-
diers except one, an American black-
smith, five miles away, and will probably be
moved in a few days. One case is re-
ported from Manzanillo."

In order to make more effective the
quarantine against the introduction of
yellow fever from Vera Cruz and other
infected Mexican cities, the surgeon
general of the marine hospital service
has located Assistant Surgeon L. E.
Cofer at the city of Mexico. He is in-
structed to keep watch upon the rail-
way travel to the United States, to give
certificates to passengers and to super-
intend disinfection when necessary. His
reports to the surgeon general indicate
a decrease of the fever at Vera Cruz.
A report has been received from the
consul at that city, saying that the
present epidemic followed upon the dis-
mantling of a number of old houses in
1898. Surgeon General Wyman accepts
this theory that the yellow fever germ
lurks in old buildings and is likely to
be liberated to the detriment of the
community when the buildings are de-
molished or repaired in the summer
season.

EDUCATORS GATHERING.
Pouring Into Los Angeles by Thousands
for Convention.

LOS ANGELES, July 3.—Los Angeles
is assuming a holiday garb in anticipa-
tion of the big convention which will
open in this city one week from tomor-
row, and the 4th of July decorations
now being put into place on the public
streets of the city will be allowed to re-
main throughout the time of the gath-
ering. The private decorations of the
city will not be attempted for several
days yet.

The movement of teachers toward
Los Angeles from the cities in the ex-
treme East is well under way, and the
Santa Fe overland which will arrive on
Wednesday morning will bring the
first instalment of these passengers.
The train will come in nine separate
sections, one immediately following the
other, the whole bringing to Los An-
geles a division of nearly 1000 pedagogues
and their friends. The Southern
Pacific train from the north today
brought in six coaches, which, when un-
loaded, 133 passengers at La Grande
this morning. Tomorrow's Santa Fe
overland will bring in 160 persons.

The above refers to the international
meeting of the educators. It was esti-
mated that 15,000 teachers, from all
parts of the United States would be
present. A delegation from the Hawai-
ian Islands, headed by Inspector-Gen-
eral Townsend, is a part of the conven-
tion this year.

WILL CONSULT.
MANILA, July 5.—Admiral
Dewey, Colonel Danby, Professor Wor-
cester, Colonel and Professor Schurman
will meet in Washington during the autumn
to compile a report of the commission's
labors. The commission recently in-
vestigated the question of currency and
the Chinese problem, as it presents it-
self here. A large majority of the busi-
ness men wish to continue on a silver
basis. There are a few, however, who
favor a gold basis or the adoption of a
Japanese system. The Filipinos are
anxious to exclude Chinese labor. On
the other hand, many large employers
prefer Chinese, because they are more
efficient, although the element of
cheapness doubtless influences this
view.

TRIED TO KILL AMER.
LONDON, July 5.—The St. Petersburg
correspondent of the Globe says that
advices have been received there from
Kabul, capital of Afghanistan, that an
Afghan recently discharged a rifle
bullet blank at the ameer, but missed
him, the bullet lodging in the shoulder
of a general standing nearby. The ad-
vices also say that the ameer's brother,
Isak Khan, attempted to bribe a cook
to poison the ameer, and that when the
plot was discovered Isak fled into Rus-
sian Asia and the cook was hanged.

PAPAL ABLEGATE OF CANADA.
MONTREAL, July 5.—Cardinal Ram-
polla has announced to Archbishop
Bruchesi that the new papal ablegate
who will permanently reside in Canada
and be the direct representative of the
holy see, will be Monsignor Falconio,
titular archbishop of Accenna and
Matera.

Monsignor Diomede Falconio is an
Italian by birth but an American citi-
zen by virtue of naturalization.

INTERNATIONAL TEAM.
Harvard Men Take the Lead on Cinder
Track.

NEW YORK, July 4.—The final make
up of the Yale-Harvard team to contest
against Oxford and Cambridge was an-
nounced tonight, as follows:
One hundred yard dash—F. A. Blount
and C. Dupee Yale; J. T. Roche and F.
J. Quinn, Harvard.
Quarter mile run—D. Bordman and
T. R. Fisher, Yale.
Half mile run—T. E. Burk, Har-
vard; J. P. Adams, Yale.
Mile run—C. B. Suttler and P. Smith,
Yale.

Three mile run—H. P. Clarke and H.
W. Foote, Harvard; C. K. Palmer,
Yale.
Broad jump—C. D. Daly and J. T.

Weights—W. A. Boaland and H. J.
Brown, Harvard.
High jump—N. Rice and C. M.
Rocher, Harvard.
Hurdles—F. Z. Fox and J. W. Hall-
well, Harvard; W. N. Finko, Yale.

The list shows that Harvard will have
the larger representation on the Ameri-
can team, thirteen of the twenty-two
men constituting the team being from
Harvard. The team will sail tomorrow
on the St. Louis.

situated on the magnificent hillside between Nuuanu and
Pauoa Valleys and commanding a superb, marine and scenic
view stretching from Diamond Head over Punchbowl to the
Waianae range of mountains.

A broad winding boulevard giving access to the property
is now in course of construction and choice lots of sufficient
area for magnificent homesteads will soon be available.

On the Nuuanu side of the hill is a Pali protecting it from
the high winds and heavy showers of Nuuanu Valley, ensur-
ing a salubrious climate.

The elevation of the property is from 150 to 750 feet
above sea level.

Applications will be numbered and filed and choice will
be allotted according to the number of the application.

Only \$1,000 for a lot 100x200 feet. Terms Easy.

FRIDAY, JULY 14, 1899.

A glorious send off was given at Manila upon the 4th of July. The display must have borne it in upon the minds of the Filipino spectators that American institutions and American ways of thought had started out to be dominant upon the Islands. But the teaching of English in the schools, opening an entirely new literature, with new ideas, will have the more powerful and permanent effect. The school man and the school book are the most potent weapon of expansion.

Leong Kai Chon, the Chinese Reformer, who is to visit the Islands, will be an interesting man. The reform party in China has had a tremendous setback, and whether it could have accomplished very much, had it not had a setback is quite questionable. It will be extremely interesting, however, to have a cultivated Chinese gentleman here who can tell what his party's aims have been in the past, and what are its hopes in the future. If any advance is to be made by China it will be through men of the stamp of Leong Kai Chon and Dr. Sun. The native Chinese must do the work, the foreigner will never do it. The great change in Japan came from a party within, which recognized the advantages that it saw without.

The Samoan difficulty seems to have come to an end, and the commissioners consider that the Islands can be left to themselves. What machinery of government has been set up, now that the kingship has been abolished, has not yet been announced. The machinery that Berlin treaty had to deal with was, after all, only the governing of the municipality of Apia, which is a very small affair. They have practically disarmed the Samoans, and if the traders can be kept from importing ammunition and weapons, it will be hard for the islanders to again carry on aggressive war. Malleton goes to Fiji upon some kind of an allowance, but what becomes of Mataafa, we must wait to hear.

In an article in The Star on July 6, the desirability of operating automobiles in Honolulu was urged, and the possibility of these motor cars superseding trams was considered. The introduction of automobiles is now assured, and a certain number will be in use here by the beginning of next year. The automobile will soon become popular for private use, as well as in the form of public carriages. In France there is a perfect craze for them, and it is there where the best machines have been made hitherto. In the United States the automobile is steadily pushing its way both as a public and a private conveyance. Automobiles are expensive as a first investment, but the cost of operating is much less than with a horse and carriage. There is quite an interesting article upon automobiles in the July McClure's Magazine, which gives comparative cost and much general information upon the subject of the horseless carriage.

The healthy growth of a church is always a good sign in a community. The Central Union church has a congregation so large, that one man finds it impossible to attend to the multifarious duties which come upon the shoulders of the pastor. The church body has therefore determined to have two assistants in order to properly attend to all the details of the church work more thoroughly. This marks a growth of considerable strength in the city. When people from abroad consider the social conditions of a city, the churches form one of the main items in the consideration. The fact that the churches show vigorous growth, no matter what the denomination may be, shows a healthy and respectable development of the social system. Honolulu has lost much of its puritanical spirit, and people are free to spend their Sundays as they please, without remark, and the church going is the better for that spirit having disappeared, because those who attend church now, do it of their own free will, and not because they are coerced by an iron-bound public opinion. The advance in Central Union is only typical of the churches all along the line.

SOME CRITICISM.

The physicians of Honolulu gave a great deal of attention lately to the subject of tuberculosis and strong papers were read and vigorous discussions succeeded. But there the matter rests. Nothing is done. Yet consumption is the most fatal disease in the mortality list of Honolulu.

That the time calls for action is very patent. There is much of the town which is unsanitary and which the Board of Health does not seem able to cope with. One of the members plaintively remarked the other day "We give orders, but they are not carried out the way we want them, and we can't go round and see that the things are done."

We haven't the time. We have to trust to others, and the consequence is that we get the blame."

The Star wishes to see the hands of the Board of Health strengthened as much as possible, and believes that the members of the board are earnest in their desire for improving the public health and the sanitary condition of the city. But when men accept responsibility they are to blame if their subordinates do not carry out their orders. No one expects the head of any board to do the work himself, or the members to do the work themselves, but they should so impress themselves upon their subordinates that their work must be done their way and no other, and if it is not so done, why they must get men who will obey commands. It is no excuse for responsibility to say that orders are not properly carried out. They must be carried out, there is nothing else about it.

If orders are given to clean up the slums, those orders should be carried out to the letter. There is certainly need enough. If men are a menace to health, they should be removed. The picture which a physician paints of a consumptive Celestial sitting in a restaurant and expectorating upon the floor, is not an inviting one. Certainly some effort should be made to prevent the spread of tuberculosis by such means. If we can remove a smallpox patient or a fever patient, we certainly ought to be able to remove a tuberculous patient. But—and here comes a big but—where are you going to remove him to? The hospital won't have him, because he would be dangerous to other patients. The quarantine station cannot be given over for an indefinite time to one particular disease. What are you going to do? What is done, is very simple. Let the matter alone and allow tuberculosis a free hand. That is what is done, and it is having eminent success as the mortality tables for the last six months show.

GLOOMY OUTLOOK.

The condition of a great part of Europe is not a very brilliant one at the present moment. Among the great powers France has been on the verge of revolution for months. The monarchists, the imperialists and the ultra radicals, are all ready to overturn the present bourgeois republic, and the torch to set the whole thing in a blaze is ready at hand in the present Dreyfus trial. If he is acquitted the aristocrats and anti-semites, will howl and desire a resort to arms. If he is again condemned, the radicals and socialists, and all who detest the bourgeois, the fat and greasy citizen, will be ready to take up a similar role.

In Spain the monarchy is in danger from two sources. The carlists who would bring back, if they could, even a more conservative and intolerant government than Spain now has, and who promise success to the very tarnished arms of the monarchy, and the republicans, who would establish a form of republicanism which would send a shudder through any good American, for it would mean a rule in which the danger would play a very prominent part. Spain has also a difficult problem in her army. With the return of her regiments from the colonies, there must be a large class of idle and turbulent officers, who need employment, and who despise civilian pursuits. It is a problem that all history has found difficult of solution.

Italy is also in a bad way. The country is overtaxed, and the peasantry is discontented. The government has to resort to arresting the parliamentary deputies, a step bound to bring about grave complications, and calculated to increase, rather than to allay the irritation of the masses against the classes.

Belgium is practically in the throes of revolution. If the government is firm against the demands of the popular party, it stands in danger of being swept away by force. If it yields, as there seems every indication that it will be obliged to, the monarchy will in all probability be legislated out of existence.

In all states there is great discontent among the poorer classes. The problems which face these older countries do not become prominent in the west, at present. The root of all the discontent in Europe must be sought in political inequalities, in the unequal distribution of wealth and in the strong social distinctions. The end must be an immense social upheaval. There was one at the end of last century. There was one in the middle of this century. Neither reached the aims desired. The time is at hand for another. Will it merely clear the air for a time, or will it establish a permanent good which will make the next century a better and a pleasanter one than this?

**MINISTER DAMON AGAIN HEAD
OF FINANCE OFFICE.**

Cabinet Decides to Put up a Block of
Ewa Lots at Auction—Piece of Land
for Street Widening.

Minister Damon appeared in the Cab-
inet meeting this morning and reported
for duty. Attorney-General Cooper re-
signed from the office of Minister of
Finance, and Mr. Damon resumed his
duties of the department.

There was prolonged discussion on the
application of either claim of persons
at Ewa to certain lots of land down
there now held by them. The Cabinet
ruled that they had no claim to the
lands. This holder then submitted a
proposal for a cash compromise, but
this was refused. They then asked to
be allowed to tender upset figures in
case the land should be put up at auc-
tion. Agent Brown recommended that
the land be put up at auction as re-
commended and that the petition of the
holders be allowed. This was approved.

Land Agent J. F. Brown was granted
a vacation for two months. He will visit
on the mainland. It has not yet been
decided who will handle the business of
his office in the meanwhile, but it will
probably be one of the two clerks to be
the head of the bureau.

Dr. Wood made a proposal to ex-
change the land on the front of the
Dickson premises in Beretania street
required for street widening, for a Gov-
ernment lot adjoining his residence
site on the slope of Punchbowl. It was
decided to accept this proposal, but up-
on the payment of Dr. Wood of \$95
bonds.

All of the Cabinet officials were pres-
ent, for the first time in a great while.

CLOSING OF IOLANI.
An Afternoon of Literary Exercises and
Sports.

Closing exercises and sports at Iolani
college yesterday proved a great
success. All the pieces were excellently
rendered and much appreciated by the
large audience. The singing was espe-
cially good.

The prizes were awarded immediately
after the literary exercises. Following
were the winners:

In the sixth and fifth grades—John C.
Anderson, Henry Hart and J. D. Almo-
ku, for English subjects; T. Andrews,
religious knowledge; Phillip Wong and
Kim Fook, mathematics; Lo Chang,
history and geography.

In the fourth grade—Luther Evans,
English subjects.

In the third grade—Ed Mahaulu,
English subjects.

In the second grade—Fo Sue, general
subjects.

The sports, which were of a high or-
der, immediately followed. The best
achievements were five feet two inches
in the high jump; eight feet two in the
pole vault; ten and four-fifths in the
100 yards dash. The potato and shoe
races created much amusement.

Trick riding by Ku Kamanu, one of
the pupils was a feature. Prizes were
presented to the successful competitors
by Miss Hoare.

The finely executed specimens of map
drawing, free hand work and school
work were admired by everyone.

CHOATE IN LONDON.

Receptions Given by Ambassador
Largely Attended.

LONDON, July 4.—Joseph H. Choate,
the United States Ambassador, and
Mrs. Choate celebrated the day with
receptions both at the United States
Embassy and at their residence. Each
of the buildings was tastefully decor-
ated with flags and flowers represent-
ing the national colors. The guests in-
cluded Sir William Collins, the Queen's
master of ceremonies, Samuel T. Cle-
mens and Mrs. Clemens; Senator and
Mrs. Mark A. Hanna; Senator and Mrs.
Lodge; and United States Consul-Gen-
eral and Mrs. William M. Ostroff.

The reception at the Choate residence
was attended by 1,500 persons, includ-
ing many English people and a num-
ber of the leaders of the International
Council of Women.

Among the guests were the Duchess
of Marlborough, Lady William Bore-
ford, Sir William Vernon Harcourt,
Lord Strathcona and Mount Royal, the
Canadian High Commissioner; Mr. and
Mrs. Gilbert Parker, Mr. and Mrs.
Stephen Crane, Mr. and Mrs. John
Drew, Messdames Forde, MacKay,
Rider Haggard and Frank Leslie; Gen-
eral Wheaton; F. C. Choate and Ad-
miral Kimball and Mrs. Kimball.

American flags were numerous
throughout the city, and many business
houses closed and the employees were
given a holiday.

In Berlin many members of the Amer-
ican colony were on a special steamer
for a picnic on the Spree. There were
dancing and fireworks in the eve-
ning. The Embassies in Berlin, Paris,
Rome and other continental centers
gave receptions.

LIKE A WILD BEAST.

LONDON, July 3.—The correspondent
of the Daily Telegraph at Hrest says
that Dreyfus was guarded on board the
Sfax like a wild beast. He was isolated
like a cholera stricken patient. If the
cruiser had foundered he would have
gone to his grave believing that General
de Boisdeffre was his courageous friend
and champion and altogether ignorant
that such a man as Colonel Picquart
exists.

WILL BEARD LI

Kang Yu Wei Returning to Peking to
Explain.

VANCOUVER, July 4.—Kang Yu
Wei, the celebrated Chinese diplomat
and exiled rival of Li Hung Chang, is
in Vancouver again, on his way to Pe-
king. He did not expect, when he left
here six months ago for London, that
he would be back so soon, but now he is
going out to scheme against the machi-
nations of Li Hung Chang, under Brit-
ish protection from Lord Salisbury to
Sir Claude Macdonald, the British Am-
bassador at Peking. These direct that
all diplomatic and other influences be
brought to bear to make Kang's life
secure. Kang accordingly has decided
to go at once to Peking, where he thinks
that conditions are changed materially
enough to allow him to live in safety.

At any rate, he is at best only an exile
at the present time, and thinks that this
is the best time to have the whole mat-
ter fought out.

THE RELIEF RUNS AGROUND.

WASHINGTON, July 5.—Major
Beardsley, surgeon in charge of the
hospital ship Relief, today telegraphed
Surgeon General Sternberg that the ship
grounded on entering Yokohama, but
was soon floated, suffering no injury.
The Relief will sail on July 7, will be at
Honolulu July 11, and arrive at San
Francisco July 28. She is bringing 250
sick soldiers from Manila.

One Large Scar

**Is All That Remains of Great
Scrofula Sores**

**Neighbors Could Not Bear to Look
Upon Her—A Grand, Complete
Cure by Hood's Sarsaparilla
After Others Failed.**

"I was taken with neuralgia in my
head and eyes. Not long after this, a
scrofula sore appeared on my left cheek,
extending from my upper lip to my eye.
Other sores came on my neck and on my
right arm and one of my limbs. They
were very troublesome and painful and
soon became great running sores. My
face looked so bad that some of my
neighbors could not bear to look at me
and advised me to wear a bandage, but I
feared this would irritate the sore and
make it worse. So I

Could Not Hide the Sores.

My niece, who was familiar with a case
similar to mine, which had been cured by
Hood's Sarsaparilla, urged me to try it.
Finally I was persuaded to do so, and in
a short time I saw it was helping me.
The sores began to heal and the neural-
gia in my head was better. In a few
months the sores on my arms and limbs
all healed; those on my neck gradually
disappeared and now they are all gone.
I have never had any symptom of scrofula
since. One large scar on my right arm is
all the sign that remains of my terrible
affliction. The neuralgia is also cured."
Mrs. J. M. Hatch, Etta, New Hampshire.

The cleanest, brightest, safest and really
the long run, the cheapest and best light
for use in the family residence, is the incan-
descent electric light. Safe; nothing could
be safer. A few days ago a prominent
gentleman of Honolulu came rushing down to
the office of the Electric Company and said:
"Give me figures for wiring my house, and I
want it done at once; no more lamps for me."
Last night a lamp tipped over and it came
so near setting fire to the house and burning
my children and I take no more risks.
This is the sentiment of quite a number in
the past few weeks, who have ordered their
houses fitted with the perfect light.
Just think it over and make up your mind
that you want the best and safest light; send
for the Hawaiian Electric Company and tell
them what you want.

We have a complete stock of everything in
this line and have just received a lot of the
very latest designs in chandeliers

AMERICANS GAIN A POINTWORK OF PEACE CONGRESS AT
THE HAGUE.Question of Neutrality of Commerce
Passed by Delegates, With Reservations
in Some Cases.THE HAGUE, July 5.—The peace
congress today adopted in committee
the American clause for the protection
of commerce in time of war.The second committee met this morning
and Andrew D. White, head of the
American delegation broached the sub-
ject. The question of its admissibility
under the conference mandate was dis-
cussed. No vote was taken, but an
agreement was arrived at to allow the
Americans to present their case in full
this afternoon. Had a vote been taken
immediately, the Americans would
doubtless have carried their point by
a majority of one or two and to avoid
this a resolution was proposed recog-
nizing the importance and complexity
of the question and recommending the
summoning of a special conference.At the afternoon sitting of the com-
mittee the successive clauses of the
laws of war having been adopted, M. de
Mertens of the Russian delegation
moved a resolution to that effect. Mr.
White seconded it. In the course of a
clear and eloquent statement of the
American case he said the American
Government had accepted the invita-
tion to participate in the conference
with alacrity, because of the opportu-
nity it was expected the conference
would afford for preaching the truth
with regard to the immunity from cap-
ture of private property at sea. He ad-
mitted, however, that the United States
Government recognized it would be
hopeless to expect any decisive result
from this conference.The causes which will prevent a de-
cided result from this conference are:
Absence of instructions or power from
the governments; second, doubts as to
the competence of the conference, and,
third, the length of time necessary for
a discussion of all the bearings of the
case.White frankly admitted the difficul-
ties involved in deciding what consti-
tutes the contraband of war, but in-
sisted that these supply one of the best
arguments for a full and prominent dis-
cussion. The head of the American de-
legation concluded with an eloquent ap-
peal to the jurists, diplomats and
statesmen of all nations assembled in
the conference to take the subject un-
der careful consideration, declaring in
the words of Count Nesselrode, that
"the addition of this plea to interna-
tional law would be a crown of glory to
the world's diplomacy."M. Rahusen of the Dutch delegation,
supported White and suggested that
the governments favoring the idea
should conclude treaties among them-
selves.Sir Julian Pauncefote, head of the
British delegation, said that British
opinion was divided on the subject and
that he had no instructions regarding
it. In his personal opinion, the question
was outside the scope of the conference.M. Bourgeois, head of the French de-
legation, and Captain Schein of the
Russian delegation, announced that
the absence of instructions they could
not vote. The resolution was then put
and carried without opposition with the
reservations on the part of Great Brit-
ain, France and Russia.The committee also adopted a resolu-
tion that the question of the determi-
nation of rights and duties of the
several states should be placed on the
program of a future conference.**MOTOR CARRIAGES.**A motor carriage competition will be
begun at Liverpool on the morning of
July 31, says the Scientific American,
and the tests will conclude on the eve-
ning of August 2. Trial runs will be
made from Liverpool, over a distance
of from thirty to forty miles. There will
be four classes of vehicles eligible, the
minimum loads being two tons, three
and one half tons, five tons, and six
tons, the long ton being reckoned. The
vehicles must be propelled by mechan-
ical power only, but there will be no
restrictions as to the source of power
or the nature of the agents used. The
hope has been officially expressed that
vehicles from the United States will
take part in the competition.**BOY SLASHER COMMITTED.**David Kui, the boy who cut young
McCaigan in Palama two weeks ago,

day and charged with assault with in-
tent to kill. Silliman and Kaulukou

CAPT. DREYFUS AT RENNESAWAITING ORGANIZATION OF HIS
COURT.All Quiet But Trouble is Predicted on
National Fete Day—Madame Dreyfus
Still Wears Mourning.RENNES, July 5.—For Captain Drey-
fus, today passed off much as yester-
day. Madame Dreyfus, Mathieu Drey-
fus, his brother, and Maitre Labori, his
counsel, visited the prisoner, but other-
wise no special incident occurred. As
an illustration of the indifference of the
population, it is worthy of note that
the words "Vive Dreyfus" chanted on
a wall in a corner of the town, re-
mains absolutely undisturbed.Many, however, predict trouble on
the national fete day, when a review of
the garrison will be held. The anti-
Dreyfusites, it is feared, will attempt to
draw the troops into a demonstration.
Madame Dreyfus, accompanied by
her parents, drove to the prison in a
carriage this afternoon. Her parents
were not admitted, but she remained
with her husband an hour. On leaving
she showed for the first time, signs of
distress. Her eyes were swollen and red
as though she had been weeping bitter-
ly. She is still in deep mourning, and
is determined to remain so until her
husband regains his liberty.There were interesting developments
today in the Saxe-Preussene affair.
General Julliard, commanding the gar-
rison, issued to the troops an order to-
day on the occasion of the departure of
Colonel Saxe to take up the new com-
mand to which he was transferred, as
a disciplinary measure, by the minister
of war, General the Marquis de Gallifet.
General Julliard paid Colonel
Saxe high tribute for his brilliant
qualities and declared he enjoyed the
entire confidence of his chiefs. Thus
General Julliard ranged himself on the
side of Colonel Saxe against the min-
ister of war, who is not likely to allow
the matter to pass in silence. The re-
sult probably will be that General Ju-
liard will be transferred to another bri-
gade and that another general will re-
place him here.The name of Colonel Saxe was men-
tioned as the probable president of the
court martial which is to try Dreyfus.
M. de Pressense, editor of the Temps
of Paris, criticized the possibility of his
appointment on the ground that the
already pronounced himself against
Dreyfus. Colonel Saxe then
had an order of the day read to the
regiment, in which he classed M. de
Pressense as an "infamous scoundrel."
For this he was transferred to another
regiment.**CECIL RHODES.**BERLIN, July 5.—The German Re-
view prints a series of conversations of
Cecil Rhodes, in the course of which he
says that in the interest of his African
undertakings he has done all he could
to influence the British Government in
favor of the German proposals on the
Samoan question.He declares his intention to hold en-
tirely aloof from the Transvaal con-
troversy and to leave the government
to have it out with Kruger on its
own responsibility. He repudiates the
suggestions that he is in favor of using
force toward the Transvaal, saying:
"I once made that mistake and it was
enough for me."**FEARFUL LOSS OF LIFE.**FORT WORTH, July 4.—Two hun-
dred people perished from flood within
a radius of thirty miles of Seely, Texas.
They lived in the Brazos bottom. The
river rose suddenly and overflowed.
Nearly all the casualties were among
negroes.**THE BEST TREATMENT FOR

FRESH HUMOR AND STERLING FACTS.

A passenger who had observed to the street-car conductor on King street that it was a—D hot, suddenly turned and discovered a lady within hearing. "I beg your pardon, madam," he said, contritely. "Oh, you needn't, sir," responded madam, fanning herself vigorously. "It's very much warmer than that."

The Sterling bicycle sold by the P. C. & M. Co. on Fort street, are the acknowledged chiefs. No one seriously questions this the world over. There is no occasion to use that over-worked word "best" in telling of them. For the past eight years they have had the recognized lead. Other wheels have appeared and have improved. The Sterling has steadily improved, too; for today's perfection is but to-morrow's starting point. The Sterling is the premier of all bicycles. Its makers have been satisfied to let others use hurry machines, the Sterlings are hand-made. Different as the house that has been made up of ready-made parts joined by hurried contractors, Sterling wheels have been high in price, but their makers have quickly seen the new day-dawn of the bicycle business, and have been quick to profit, and let the public profit, by the change.

HORSES FOR PHILIPPINES

TRAINED CAVALRY ANIMALS ON THEIR WAY.

Arrived by the Wyfield Late Yesterday and are Landed in Twilel-Future Transports.

The big United States transport Wyfield, Captain Cartmer, steamed into the harbor yesterday afternoon. She brings 140 horses for the Fourth cavalry, now at Manila. These animals are all trained and will greatly aid the men in the Philippines in the campaign.

Not a horse was lost on the voyage down and there was no sickness of consequence aboard. Shortly after reaching the dock yesterday afternoon the animals were landed and taken to the government paddock in Twilel, where they will remain about two weeks.

Dr. Plummer, who is well known here, is veterinary on the Wyfield. He was here with the Tacoma on her first trip with mules. Twenty-three men of the Fourth cavalry on board are in charge of Lieutenant Slavin, U. S. A.

The Wyfield is quite a big steamer. She is a British bottom under charter. She is 340 feet in length and has a carrying capacity of 5500 tons. Besides the horses, the Wyfield carries a big lot of supplies for the troops in Manila. Captain Cartmer's wife and daughter accompany him on the voyage. The officers of the vessel are as follows:

Captain, Cartmer; first officer, Cron; second officer, Duncan; third officer, Moore; purser, Cartmer; chief engineer, Rhubarb; second engineer, Turner; third engineer, Johnson; fourth engineer, Lewis.

It will be some time before other transports arrive here from San Francisco, there being no vessels available at present. Several will shortly arrive, however, with the returning volunteers and will be fitted out as fast as possible for the Manila route. Besides the regulars already assigned to the Philippines, something like 14,000 or three brigades of additional troops are to be hurried to Manila during the summer. At San Francisco and Mare Island at present are the following government vessels, all of which are war craft, however:

Albatross, Alert, Davis, Farragut, Fox, Hartford, Justin, Madrona, McArthur, Mohican, Pensacola, Philadelphia, Ranger, Scindia and Wisconsin, (new).

TRAIN SMASHED.

ELKO, Nev., July 5.—The eastbound overland train which left San Francisco Tuesday morning was wrecked at 8 o'clock this morning three miles west of Elko. Of the eighty passengers on the train, fourteen were hurt, but the wounds are all slight. Eleven of the injured are Californians.

DEATH OF R. STAHL.

Former Musical Director of the San Francisco Tivoli.

NEW YORK, July 5.—Richard Stahl, musical director of Daly's Theatre, died suddenly from heart disease tonight at his home in this city. He became ill while in Chicago with "The Runaway Girl" company upon the receipt of the news of Mr. Stahl's death, and was brought to this city three weeks ago by members of the company. His condition improved somewhat during the last week. His family had no fears for his recovery until tonight, when he suffered a relapse and expired at 8 o'clock.

Mr. Stahl was for many years the musical director at Hoyt's (now the Madison-square) Theatre, and he wrote the music for Charles Hoyt's farces—comedies. About a year ago he went to Koster & Bial's, where he remained until this spring, when he was engaged by Augustin Daly to conduct "The Runaway Girl." He accompanied the piece when it went on the tour.

As a composer Mr. Stahl's work was chiefly confined to song writing. His most pretentious work was the opera "Said Pasha," which was highly successful. He wrote "The Sea King." He was for years leader of the Tivoli orchestra in San Francisco.

EDUCATION MATTERS.

Transfers, etc., Considered. But Most strong and Referred.

At a meeting of the Commissioners of Education held yesterday afternoon a long list of applications for discharges, transfers, positions in the schools, her devote themselves to the cultivation and nearly fifty were referred to the committee on teachers. This was all the business handled.

Mrs. H. W. Peck's resignation from the Pohukaina school was accepted.

Mrs. Peck's resignation was also among the number accepted. She will shortly be married.

FEVER AT SANTIAGO. SANTIAGO DE CUBA, July 5.—Ten new cases of yellow fever and seven deaths were officially reported today. All the victims of the disease were soldiers except one, an American blacksmith. A new fever hospital has been established near Boniato camp, north of El Caney.

LONG PASSAGES.

SAN FRANCISCO, July 5.—Nine vessels are making very long passages from Honolulu. The barkentine Archer, which made a good run down to Honolulu, and the ship Standard, which went to the Islands from New York, are out twenty days. The Standard has been bought by J. Brown, part owner of the Alec McNeil, and Captain Backus of the Edward May. The barkentine Irngard, ship Aryan and the schooner William Bowden are making a close run of it, all three being out fifteen days. The big Lurline went down to Honolulu in ten and a half days. The bark Santiago is out twenty-six days. She went down in twelve days. The new schooner H. D. Bendixen, on her maiden voyage, is out twenty-six days, and the Mohican left Honolulu twenty-five days ago.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

Pagar remains firm at 14.

The Rio got away this afternoon for Japan and China.

Charles Todd returns to the Coast on the Australia this afternoon.

The Australia will sail at 4 o'clock this afternoon. Mail will close at 3.

Mrs. R. B. Macdonald left today via City of Rio de Janeiro for Yokohama.

Special Agent Sewall was an informant called at the Executive building this afternoon.

Tenders will be opened at the Interior Office tomorrow for a new can buoy to go in the harbor.

As soon as Mr. Peacock returns from San Francisco a start will be made on his fine seaside hotel.

The Tribune wheel is so popular that D. E. Whitman finds difficulty in keeping the demand supplied.

Two trips each are being made this week by the Mokoli, Leleia, Helene and Maui, of the Wilder fleet.

During the absence of Gerrit P. Wilder from the Islands, George R. Carter will act for him under full power of attorney.

The disbarment cases in which two native lawyers are respondents will come up in the supreme court Tuesday morning.

Quite a large number of city and visiting people enjoyed the band music and singing at the Hawaiian hotel last evening.

Chas. E. Hooper has been awarded the contract for the road from Honouliuli to the Napoosoo road. His bid was \$1550.

John K. Wilder celebrates his birth on the anniversary of the Fall of the Bastille. He is sixty-six today, but is still a young man.

The Semi-Weekly Star was issued early this morning, and carries to its many readers the very latest foreign and local news.

This is the evening of the Olive Branch concert and reception in Progress Hall. The music will be by the Amateur Orchestra.

The band will play the Australia off this afternoon. Three engagements will have been filled by Berger's men today when the steamer sails.

Maui contributed \$250 to the Omaha exposition fund. Besides this a large number of plants and articles were sent down to help out the show.

John Cassidy, who returned yesterday from the Coast, today resumed his duties as Superintendent of the Mutual Telephone Company's business.

The Minister of the Interior asks for sealed tenders for construction of roads to Honokaa landing, etc. Bids received until noon, Monday, July 24, 1899.

Charles Bellman, manager of the Club Stables, returned by the Rio yesterday afternoon from San Francisco, where he went three weeks ago on business.

The musicale for the benefit of Olive Branch, Rehearsal Lodge occurs at Progress Hall this evening, and the ladies promise an enjoyable time for all who attend.

The committee is having the resolutions adopted at the Fourth of July meeting engrossed and will send copies to President McKinley and the President of the Senate.

Miss Rose Davidson, school agent, has begun a campaign of school house repairing to last through the summer. Nearly all the fences around the school houses of the city will be repaired.

Cabin passengers for Honolulu, detained on quarantine island, were released yesterday afternoon and spent the night at their homes. George Carter was around today greeting friends.

A friend of John Wilson states that his native village will represent Hawaii of the past and Hawaii of the present. The hula dancers will be the past and quintette club the present. This is comical.

Sidney Miller Ballou, Harvard '92, had the degree of Master of Arts conferred upon him at the annual commencement of the University at Cambridge, June 28. This is a high distinction for the rising lawyer.

H. Williams has on exhibition and sale a fine line of baby carriages fresh from the factory. He also is making a specialty of wall pictures, at low prices. New furniture being unpacked will be on sale in a day or two.

Royal makes the food pure,
wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

DECKS FOR CRUISERS.

WASHINGTON, July 5.—A final decision has been reached by the Naval Board of Bureau Chiefs to put a two inch nickel steel protective deck on the six small cruisers about to be built. Admiral Hichborne, chief constructor, reported that the deck would not cost above \$16,000 for each ship, and that no important alterations in the plans would be required. The main change will be in widening the ships about a foot.

The board will put in first-class condition the miniature torpedo boat Somers, bought in Germany during the war. She is lying at the New York Navy Yard.

Another decision of the board was to sell the old single turreted monitor Ajax. This craft is one of the relics of the Civil war, and has been for years at the League Island Navy Yard.

KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as representative. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
