SPICES

Many who read this advertisement have never seen any PURE BLACK PEPPER. In its pure state it is a most pleasing, fragrant, pungent condiment, but the article commonly sold—a little black pepper and a lot of roasted peanut shells, cannot appeal to any one. Our PEPPER comes in 150, 250, 400 and 750 lbs. tins, and it will be a lesson to you to try a tin of it and learn how little you have known of BLACK PEPPER.

In future advertisements we will speak of Red Pepper, White Pepper, English Mustard, Leaf Sage, Allspice, etc. In the meantime we want to show you the goods at our store.

SHORT CABLEGRAMS.

Boston, Mass., June 28.—Christian Scientists have assembled in convention here to the number of 18,000.

Canton, China, June 29.—The Chinese authorities are pursuing a campaign of extermination against the rebel agents.

Peking, China, June 29.—Paul Lessar has received a summons to attend the Manchurian conference held at Port Arthur.

Washington, D. C., June 29.—Additional indictments against former Superintendent Machen and the Goff Brothers were today returned by the Grand Jury investigating the Postal frauds.

Madrid, Spain, June 29.—Rescue work at the scene of the Nejrilla railway wreck is being carried out with all possible dispatch. One hundred bodies have been taken from the wreck and seventy injured taken to the hospital.

Barratoeran, Mexico, June 28.—A great mine explosion occurred here today, resulting in heavy loss of life. Hundreds of miners were caught in a mine by the explosion. Before rescue work could be undertaken twenty-four were killed and fifty seriously injured.

Nejrilla, Spain, June 28.—An awful railway disaster occurred here today. A fast express train carrying a number of passengers, was wrecked and ninety people were killed. Over two hundred persons were more or less severely injured. It is said to be the worst railway disaster that has ever occurred in Spain.

New York, June 29.—Another victory was added to the yacht Reliance's record today in the trial races to determine the defender of the America's cup. The Constitution and the Columbia were defeated in one of the sharpest tests thus far given the new boat. Sir Thomas Lipton was an interested spectator of the races.

GREAT DOCK SYSTEM.

Brazilian Government Plans Enormous Outlay at Rio Janeiro.

Rio Janeiro, Brazil, June 28.—The government has planned an enormous system of docks for this port. Bonds to the amount of \$42,000,000 will be issued to meet the expense of the scheme. The enormous increase in the exports of Brazil is said to be responsible for the new venture, Brazilian exports now amounting to over two hundred million annually. Brazil has lacked many public improvements in the past through the unwillingness of cabinets to go into debt, but the new cabinet which came into office with President Alves last November, is determined to make all it can out of Brazil's export industries.

Rio Janeiro is situated upon one of the finest natural harbors known. It is the coffee emporium of the world. The harbor is about one hundred miles in circumference, but in the past its system of docks has been poor although it has had to accommodate a large amount of shipping. With railway communication to the north and east Rio can draw a tremendous amount of products for shipment to foreign countries. The port is known as the "Liverpool of South America."

Supt. Cooper Will Stay.

Honolulu, June 29.—Superintendent Cooper was seen this afternoon and stated that as soon as the concurrent resolution of the Senate and the House was formally presented to him, he would withdraw his resignation as head of the Public Works Department.

PART INVALID.

Judge Gear Decides Against Board of Public Institutions.

Honolulu, June 30.—There can be no doubt that the creation of this board by the Legislature is in direct conflict with Section 80 of the Organic Act and I so hold. It must follow therefore that the Territorial Board of Public Institutions has never been legally created.

Next follows an opinion on the elementary principle of constitutional law that the powers conferred to one department of the government cannot be exercised by another. Referring to the appointive power, the opinion reads: "If the legislature could take from him (the governor) this power and provide for the selection of such officers by any other mode, it could take from him every prerogative he possessed. Congress having pointed out the manner of filling the Territorial offices, the Legislature has no power to provide another and different mode."

The decision then states: "It follows from the above that the board is not a legal body, and so much of the County Act as attempts to create it is of no validity and void. Therefore the whole of chapter 64 of the County Act is invalid. Sections 397, 398, 400, 401, 483, 484, 485, 486, 487 and 494, in so far as they refer to the board, are likewise invalid and void."

Counsel for defendant in able and exhaustive arguments contended upon the hearing that the whole county act was void because of its title, and other sections of the act which they claimed were contrary to the Organic Act. Both counsel for the defendant and the Attorney General for the plaintiff expressed their earnest desire for the court to pass upon all the questions raised and argued by them so that the constitutionality of the whole act could be finally determined. The question then arises as to whether or not the court should go into these questions, and I shall briefly state my conclusions on this point.

There can be no question but that a statute may be valid in part and invalid in part and the fact that a part is invalid does not render the whole act invalid unless the provisions are so dependent that one cannot operate without the other, or so related in substance as to preclude the supposition that the Legislature would not have passed one without the other. This statement of the rules of interpretation and construction needs no citation of authority for it is well settled.

In this case I find that all the sections of the County Act which relate to the Board of Public Institutions are repugnant to Section 80 of the Organic Act and therefore void; and that they are not so intimately connected with the other parts of said County Act as to invalidate the latter, but that on the contrary the rest of said County Act is severable and can stand without the invalid portions. Judgment will therefore be for defendant.

For Cooper.

Honolulu, June 29.—At a short sitting of the Senate this morning the concurrent resolution passed in the House Friday, requesting Superintendent of Public Works Henry E. Cooper to withdraw his resignation and continue in office, was unanimously adopted upon motion of Senator Baldwin.

As no further business required the attention of the Senators, adjournment was taken until 10 o'clock tomorrow morning.

CHARGED WITH BAD FAITH.

Judge Humphreys Asks An Immediate Hearing by the Court.

Honolulu, June 29.—Charges brought by attorneys against fellow advocates, in the famous Summer case now come to a close, were reported on this morning in the Supreme Court. Attorney General Andrews reading the report printed below and filing a complaint.

When Attorney General Andrews made his report to the Supreme Court this morning, bringing charges against Attorney A. S. Humphreys and Frank E. Thompson, in the Summer matter, Humphreys addressed the Court as follows:

"Any suggestion from me as to the course which this Court should pursue in the conservation of its dignity would be impertinent; but if permitted to speak entirely from a selfish point of view I join in the request of the Attorney-General for an immediate investigation of the subject matter of his report and the charges thereto annexed.

"Speaking for myself, I am the representative in a purely professional way and as an officer of this court of large interests; I have the trust and confidence of men of affairs, and, while not assuming that the result of the hearing will be a disadvantage to me, but treating the matter in a spirit of argument, I suggest that if this affair should be concluded to my detriment, the gentlemen who have matters in my hands should be given a speedy opportunity of seeking other counsel.

"The case is not one in which the aphorism that 'justice travels with a leaden heel but strikes with an iron hand' can have any application. It is rather a case in which, if the charges be true, justice should strike not only with an iron hand but be fleet of foot.

"I pray that the Court may allow me to waive the issuance of a citation and to appear herein voluntarily and submit to the jurisdiction and judgment of Your Honors, and that the hearing may proceed without delay."

Believes in the Czar.

London, England, June 29.—Sir Joseph Dimsdale, Lord Mayor of London, states in an interview given for publication today, that he is opposed to the agitation among the Jewish population in consequence of the Russian massacres. He believes that the protests from the Jewish people through foreign Governments will not have the slightest influence on Russia. He also expresses confidence in the good intent of the Czar to grant religious equality throughout Russia in accordance with his recent edict. Coming from one of the most prominent Jews in official life, Dimsdale's attitude will unquestionably have a far-reaching influence in the course taken by Jewish organizations throughout England and the United States.

SHORT CABLEGRAMS.

Rome, Italy, June 22.—The Pope attended the consistory of new Cardinals today.

Vienna, Austria, June 20.—Dispatches received here state that King Peter will arrive in Belgrade Tuesday next.

Kiel, Germany, June 23.—The American squadron arrived here today to attend the maneuvers of the German Navy.

New York, June 20.—The defender Reliance won its second race against the Constitution and the Columbia over the cup course.

St. Petersburg, Russia, June 23.—The Russian Government has issued an order prohibiting the sale of guns and explosives in Finland.

San Francisco, June 22.—Anton Roman, the prominent real estate agent and broker of this city, was killed in the wreck of the North Shore train.

Tangiers, Morocco, June 20.—A fierce battle between the Moors and rebel forces is reported. The Moors are said to have lost 6,000 killed and wounded.

Tsodhjem, Norway, June 23.—The Zeigler polar expedition sailed for the north today. This expedition is backed by Zeigler, a Chicago millionaire, and is in charge of Captain Edwin Coffin.

Manila, P. I., June 22.—The frequent charge that the American troops looted many houses in Manila after the surrender had been formally recognized by the authorities. A thorough investigation will be made.

Washington, D. C., June 20.—The Government has made stipulations with the creditors of the shipbuilding trust which cover their claims satisfactorily and enable work to continue without delay on the gunboat Galveston.

Belgrade, Serbia, June 20.—Owing to the vigorous demands made by European Powers, the assassins of King Alexander will be allowed to retire temporarily. The sentiment of the people is not such as to require that the regicides be held strictly accountable.

Washington, D. C., June 20.—The United States Minister to Serbia has been instructed to delay in presenting his credentials to the new Serbian Government. The United States will probably act with Great Britain in its recognition of the new regime.

Richmond, Va., June 22.—The injunction brought by creditors of the Shipbuilding Trust has been dissolved in consequence of an agreement reached with the Government. Work on the gunboat Galveston is going forward and the ship will be launched during the week.

Washington, D. C., June 22.—Daniel H. McMillan, Associate Justice of the Supreme Court of New Mexico, was today removed from office by order of the President. McMillan was charged with immoral conduct and the charges were sustained in the investigation made by the Department of Justice.

The Hague, June 23.—The Netherlands Minister to Serbia has been ordered to leave his post before King Peter arrives at Belgrade. This action is taken as a protest against the murder of the late King and to impress King Peter's followers that the regicides must be punished as their crime demands.

Tokio, Japan, June 23.—The Japanese Foreign Office has received a dispatch from Peking announcing that the Manchurian convention has been signed by Russia and China. The final details of the convention are not given but it is thought that the conditions that occasioned a protest from the Powers have been eliminated.

Canon City, Colo., June 23.—Following the escape of six convicts yesterday by blowing up the prison gates with dynamite, a general search of the penitentiary has been made. A great many explosives have been found, showing that the convicts were prepared for a general destruction of the place if the first attempt was not successful.

THINKS WAR CERTAIN.

Czar's Officials Making Preparations For Conflict With Japanese.

St. Petersburg, June 5.—Japan's obviously growing anti-Russian feeling is a source of much anxiety to the Czar's advisers. The idea of the inevitability of war between the two nations is gaining ground not only in political circles but in educated quarters generally. The War office is taking precautionary measures at Port Arthur, Dalny and on the Korean frontier.

General Kuroptakin, Minister of War, has ordered a special watch to be maintained for Japanese spies in Russian forts and strongholds. Meanwhile both the Siberian railway and Black sea volunteer fleet are busy transporting colonists and troops to the Far East.

London, June 5.—According to the Peking correspondent of the Times Russia is daily establishing herself more solidly in Manchuria, and has not made even a pretense of evacuating the Kirin province. The building of barracks and houses for permanent occupation continues with great activity, but Russian officers deride the possibility of a war with Japan. Thousands of Chinese coolies are entering Manchuria and are working on the far western section of the railway.

The report is revived that Russia intends to construct a parallel strategic railway from Hailar west of the Khingan mountains to Kalgan, Pechili province, 110 miles northwest of Peking.

Tokio, June 5.—A Japanese who has recently traveled in Manchuria reports that the Russians have recently established military roads between Liau Yung, forty miles south of Moukden, and the Yalu river, and are now making surveys for a railway between the same points.

Cardinal Vaughan Dead.

London, England, June 20.—Cardinal Vaughan, Archbishop of Westminster and head of the Catholic Church in Great Britain, died today. Cardinal Vaughan has been ill since March last, when he was forced to give up the active duties of his office. Herbert Vaughn was born in Gloucester, April 15, 1832. He comes of a family of priests, four brothers being in the service of the Roman Church and his only sister a Sister of Charity. In 1871 Vaughan accompanied a band of priests to Maryland, sent on a special mission to the colored population of the United States. He was an active temperance worker and took an active interest in children rescue work. Cardinal Vaughn has been Archbishop of Westminster since 1892.

An Ocean Graveyard.

The most important headland in the world is Cape Race, the southeastern extremity of Newfoundland, says P. T. McGrath in McClure's. It has also a most unenviable notoriety.

Some of the most terrible tragedies in marine annals have occurred on this rugged, dangerous shore. An official chart shows the disasters there during the past forty years. Together with some not inscribed thereon they represent a total of ninety-four complete wrecks of ocean-going vessels—steamers and sailers—involving a loss of about 2000 lives and \$30,000,000 in hulls and cargoes. Ships which stranded and afterward escaped are not included. Last year alone eight steam and two sailing vessels came to grief there, thirty-five persons perished and a property loss of \$2,000,000 was involved.

DYSENTERY causes the death of more people than smallpox and yellow fever combined. In an army it is dreaded more than a battle. It requires prompt and effective treatment. Chamberlain's Colic, Cholera, and Diarrhoea Remedy has been used in nine epidemics of dysentery in the United States with perfect success, and has cured the most malignant cases both of children and adults, and under the most trying conditions. Every household should have a bottle at hand. Get it today. It may save a life. The Hilo Drug Co. sells it.

NEW ENGLAND CROPS A FAILURE.

No Rain in Forty-eight Days—Loss Fixed at Seventy Millions.

Boston (Mass.), June 5.—With the exception of two or three very trifling showers no rain has fallen in New England in forty-eight days, and the loss to the agricultural interests of the entire section is enormous. At the office of the Massachusetts Board of Agriculture today it was said that unless copious rains and warm weather come at once the previous estimate of the loss to the farmers of New England of \$70,000,000 will not prove too large.

This estimate is based on the value of the agricultural products in a normal year of \$135,000,000, divided as follows: Hay and forage, \$43,300,000; cereals, \$7,500,000; vegetables, \$84,500,000. The loss on these crops is already 75 per cent, and the probable loss on livestock and livestock products owing to the failure of hay and forage brings the total up to considerable more than \$70,000,000.

Drought conditions throughout New England are about equally as bad. In Vermont the hay crop is already so far gone that hay is selling at retail in the country at \$20 a ton, an unprecedented price. In New Hampshire the hay and grain promise to be almost complete failures, and in Maine, where great quantities of potatoes are raised, ruin faces the farmers.

In this State the tobacco crop will be a failure and truck farmers are already ploughing up their crops to get the land ready to plant again when the rain does come.

Rhode Island and Connecticut are slightly better off, owing to the character of the soil, than Northern New England, but their losses will be enormous. Hay in Boston this week jumped from \$18 to \$25 a ton, and is very scarce at that.

In all sections the fruit will be short. Added to drought losses, the forest fires of the past month have been very severe. On Cape Cod are immense tracts of burning woods, and Boston for three days has been densely overhung by clouds of smoke.

Maine and Vermont have lost many thousands of acres of forests and the fires are still raging. Several small villages in Maine have been almost completely wiped out by fires.

Crowd Blocks Brooklyn Bridge.

New York, June 6.—What the police call the most peculiar crush that has ever taken place at the Brooklyn bridge—peculiar because there was no apparent cause for it—occurred today at the Manhattan end of the structure. Mobs swept the police and guards aside like so many straws, and up stairs, where the passengers go aboard through trains, the receiving boxes for the tickets were torn up and the stout brass railing guarding the entrance was uprooted and cast aside. About ten thousand persons, the police estimate, succeeded in getting on the trains before the entrance was cleared of the dense mass of humanity surging around it. Probably none of the through travelers had bought a ticket or paid any fare.

Down below, at the trolley loops, the jam was just as great. The great crowd finally caused a stoppage of all trains and cars, and for three-quarters of an hour not a car left for the Brooklyn side. That no one was seriously injured in the crush is regarded by the police as remarkable. The twenty-eight regular police on duty were powerless and twenty-five more were detailed. Finally part of the crowd was driven back into the street and the police mastered the situation. Gravesend, Bath Beach, Coney island and picnic crowds helped make up the crush.

Irish Compromise Will Pass.

London, England, June 23.—A careful canvass of sentiment in Parliament indicates that a compromise on the Irish land purchase bill will likely be passed by a good majority. The possible changes in the bill will not impair the general principles laid down in the original measure, which provides for the purchase of lands by present tenants with the assistance of the Government.

GETS FAT SALARY.

Engaged by Chicago Tribune at \$20,000 a Year.

Chicago, June 3.—James Keeley who began work on the Chicago Tribune about twelve years ago as night police reporter, is now publisher of that newspaper, having graduated through the various positions of night city editor, city editor and managing editor. He succeeded Will Van Bethuysen in the last named position when the latter went to the New York World five or six years ago.

One of Mr. Keeley's first moves after R. W. Patterson, the editor of the Tribune, had installed him in his new job, was to engage John T. McCutcheon, the Record-Herald's cartoonist, at a salary that makes one dizzy. It is reported that Cutch is to get \$20,000 a year on a three years' contract for one cartoon a day. Some one has figured that this is at the rate of \$59 a cartoon.

McCutcheon will draw his last cartoon for the Record-Herald for next Sunday's issue. Next week he starts on a three weeks' automobile tour with George Ade in the latter's machine, the Little Whooping Cough. He will begin work on the Tribune on July 1st.

Thinks Civil War is Threatened.

Chicago, June 6.—"Respect for civil law and obligation alone can save this country from a civil war in the next generation." Dr. P. T. Chamberlain, formerly president of the Wisconsin University and now a professor in the University of Chicago, thus summed up the labor situation as seen in Chicago and throughout the country.

"Things are transpiring in Chicago," he said, "which are causing citizens grave concern. I refer to the labor question and the right of a man to labor where and when and how he pleases, and the right of a man to manage his business in what manner he may decide."

Dr. Chamberlain was the principal speaker at the annual banquet of the University of Wisconsin Club held last night in the Auditorium Hotel. He held out as a panacea for existing conditions education as offered in the State institution.

Threatened With Water Famine.

New York, June 5.—The World says: New York is threatened with a water famine, and Colonel Robert Gier Monroe, Commissioner of Water, Gas and Electricity, has sent a request to consumers that they use as little water as possible. If the drought continues for any length of time and lavish waste is not stopped the city will suffer badly.

Since the 1st of May the reserve supply of 45,000,000 gallons has been drawn on at the rate of 280,000,000 gallons a day. The effect has begun to show itself on the reserve, as the water is steadily going down in the reservoir. The water officials have found that there is a waste of at least 32,000,000 gallons a day in Manhattan.

The Grippe. This can be avoided by taking teaspoonful doses of PAIN-KILLER in hot water sweetened, as well as by external applications, full directions are on each bottle. A bottle of Pain-Killer kept in the house will prove valuable not only for the Grippe, but for ordinary coughs and colds. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c. For sale by Hilo Drug Company.

The Hilo Tribune.

FRIDAY, JULY 3, 1903.

Entered at the Postoffice at Hilo, Hawaii, as second-class matter.

PUBLISHED EVERY FRIDAY.

L. W. HAWORTH, Editor.

BUSINESS houses generally will close in Hilo this afternoon.

THERE will be no charge at the gate this afternoon at Hoolulu Park.

HILO feels remarkably well satisfied with herself this Fourth of July.

THE dengue will soon be at the end of its rope in Hilo. There will be none left who have not had it.

IT is expected that an air of undisturbed quiet will reign with equal solemnity at Honolulu and Lahaina tomorrow.

THE railroad ceremonial tomorrow forenoon will not be an uninteresting affair. It will be worth hustling around early to see.

THE decision of H. E. Cooper to retain the office of Superintendent of Public Works will please the people who want to see that office capably administered.

THE Hilo friends of Judge A. S. Humphreys and Frank E. Thompson will not worry until they see two gory scalp locks dangling at the belt of the Attorney-General.

IN POSTPONING the work of the Court at Honokaa until next week, and in declining the invitation to make the Fourth of July address Judge Little has disarmed his piping critics most effectually.

IT now looks like the weather would be favorable for fireworks. There are none on the program, but the TRIBUNE recommends that all that can be found in the stores be purchased and properly burned.

SOMEbody on the staff of the Star is unloading an awful lot of information just now about the Russian Empire. A few more of these terrible secrets let loose and the Czar will send a battleship into Honolulu harbor.

FOR THE success of today and tomorrow E. N. Holmes, general chairman, should come in for a full measure of credit. He has had to exercise the qualities of diplomat, judge and slave, and has done well in the role of each.

HALF the visitors in Hilo are wishing the Crescent City would live up to her reputation as a rainy town. They came loaded down with umbrellas and mackintoshes, which they have thrown away to join the residents in supplications for rain.

WHENEVER Admiral Beckley starts out to do something for Hilo he succeeds. The Admiral decided that Hilo must have the Hawaiian band for the Fourth of July. The band is here. The credit is due the plucky Admiral, who couldn't be beaten or bluffed. Hilo had given up hoping for the musicians, but Beckley brought them along with a fine flourish.

EXPERIMENTS in Honolulu have proved the dengue fever to be communicable by mosquito bite. Observation bears this theory out. There is no predisposing condition of the system necessary to render one susceptible. Old residents, tourists and people just returned from long vacations, alike fall a prey to the dengue microbe. That the mosquito is the man behind the gun in this case there can be no doubt.

THE success of Mr. Peck at this time in turning defeat into victory in the matter of a railroad connecting Hilo with Hamakua, entitles him to the front seat of honor in the celebration tomorrow. He has worked hard and wisely and doggedly. He has won out, and won out for Hilo. He took hold of a proposition discredited by the mistakes of others and has it on its feet. It is entirely fitting that the people accord to Mr. Peck a few lusty cheers.

THERE have been many complaints made against the policy followed in North Hilo of employing plantation Japanese labor upon the roads. It is claimed that the citizen population of that district is entitled to the first call in this work and protests have been forwarded to the Department of Public Works at Honolulu. From ten to twenty Japanese are given work by the Road Board which should go to citizens. The TRIBUNE believes the wiser and more just policy is for Road Boards to employ citizen labor wherever possible. It is not alone fair, put it is better policies.

Hand to Hilo.

Hilo will think its day of triumph over the rapacity of Honolulu for all the good things paid for out of the Territorial treasury has come at last when the steamer Kinau enters the wide-mouthed bay dressed in flags and the Territorial band playing upon the quarter deck.

Governor Dole, at the conclusion of an audience given to Admiral Beckley of Wilder's fleet and Captain Berger, military bandmaster, yesterday afternoon (June 29) gave his consent to the departure of the band for Hilo in today's Kinau to play at the Fourth of July celebration there with its central feature of breaking ground for the Kohala-Hilo railroad.

The appropriation for trips of the band to the other islands is not yet law, but Admiral Beckley provided against this little impediment by advancing the money for expenses of this trip.

Honolulu will have to worry out the Fourth—boat races, baseball and everything—with private band music. It will give the people of the capital an opportunity of cultivating a fellow-feeling with the Hilo people in their deprivation of metropolitan luxuries most of the year. The absence of the band from Honolulu on a Fourth of July will make the glorious anniversary on this occasion the most impressive, in one way, ever here celebrated.—Advertiser.

The beebes for the barbecue are now ready for the spits.

The Puna kahuna case has gotten-in to the papers on the Mainland and is doing full column service wherever it goes.

SUMMER COMPLAINT is the children's most dangerous enemy and the mother's most dreaded foe. Immediate and proper treatment is always necessary. Chamberlain's Colic, Cholera and Diarrhoea Remedy, given according to directions, is the most effectual remedy known. Every household should have a bottle at hand. Get it today. It may save a life. The Hilo Drug Co. sells it.

GOVERNOR EXCEEDED POWER.

He Could Not Legally Remove Auditor Austin.

Honolulu, June 30.—The Governor has no power to suspend or remove heads of departments, according to a decision rendered by the Supreme Court this morning in the matter of H. C. Austin's demand for his salary as Auditor for the period of his suspension. The court unanimously rules as Gear did on the mandamus, and orders Auditor Fisher to draw a warrant for salary from September 26 to November 30. The decision says:

"The salary follows the title" as a rule, and no sufficient reason is shown in the case why that rule should not apply, provided the appellant had the title to the office and the right to exercise its functions during the period in question. *** The question here is whether the appellant was rightfully suspended; that is, whether the Governor had the power to suspend.

"The appellant contends that this is res adjudicata in his favor of a judgment by a circuit judge in certain mandamus proceedings brought by him. *** It is unnecessary to consider whether the matter is adjudicata or not, for we agree with the circuit judge in that case that the Governor did not have the power to suspend."

The Court reviews the power of the President of the Republic and says: "Looking at the Organic Act alone, it is clear that the Governor was not authorized to suspend the Auditor. We may assume for the purposes of this case that the power of appointment carries the power of removal in the absence of constitutional or statutory restriction, and even that the restriction that the appointment shall be by and with the advice and consent of the Senate is not sufficient to prevent removal by the Governor alone, and yet it is clear that he could not remove alone when, as here, it is expressly provided that he may remove by and with the advice and consent of the Senate, and when it is further expressly provided that the officer shall hold office for four years, etc., unless sooner removed, that is, in the manner specified. If the Governor cannot remove except by and with the advice and consent of the Senate, he cannot suspend alone."

A. C. GEHR HERE.

Will Take Up Kohala Ditch Matters With Dole.

A. C. Gehr, representing the Hawaiian Ditch Company, arrived in Hilo by the Kinau. Mr. Gehr came from Washington a few days ago to press the interests of his company before the Territorial Government. Mr. Gehr and his associates are rivals with Sam Parker and others for certain Kohala water rights which they propose to develop. The matter was fought out in Congress last winter, resulting in no action, the fight serving only to convince all parties that the Territorial authorities are the ones to dispose of the question. Governor Dole has promised to take the matter up as soon as the Legislature adjourns. The rights will be put up at auction. Mr. Gehr says he is ready to bid for the concessions and pay what they are worth.

Kinau Passenger List.

Broncho Riding Rules.

The Cowboys Congress which takes place today at Hoolulu Park at 2:30 p. m. the following rules will govern the riding.

Riders must ride with clean saddles. Unnecessary abuse of horses will not be tolerated.

Riding on spurs fast to cinch will not be allowed.

Riders must not "pull leather," that is, they are not allowed to hold on by the pommel.

Stirrups must not be tied together.

Men who ride without showing daylight under them will have greater consideration shown them than those who "ride in the air."

Men will rope their horses but may have assistance in saddling if necessary.

Outgoing Kinau List.

Prince Kalaniano'le, Senator P. P. Woods, Rep. C. A. Long, L. Warren, F. M. Kiley and wife, W. C. Moore, Geo. Macy, Miss Feeney, Mrs. A. V. Inman and son, Wilder Wight, Capt. H. Berger, Miss J. Lucas, Miss Schmidt, Mrs. Rossewarren, two children and maid, Jas. McAuliffe and wife, twenty-eight band boys.

The Elks' Show.

Few tickets remain for the Elks Minstrel Show tonight and tomorrow night at Spreckels' Hall. The full dress rehearsals show that the public will be treated to no sloppy juvenile absurdities. It will be high class vaudeville, put on by painstaking artists. The dress rehearsal last night showed every participant perfect in his part. We miss our guess if standing room is not at a premium both nights.

First Foreign Church.

Usual services next Sabbath. Sacrament of the Lord's Supper at close of morning service. Everybody welcome. F. L. NASH.

Passengers by Maui Today.

Mr. and Mrs. Slade and two children, Mr. and Mrs. Crelin and two children, Mr. and Mrs. Cotton and two children, Mr. Steinberg, E. A. Irish.

St. James' Mission.

At 7:30 a. m., Holy Eucharist; 11 a. m., Holy Eucharist. No evening service.

Steve Avard has resigned from his position with the Volcano Stables. Mr. Bidgood has taken his place.

Miss Ruth Richardson and her cousin, Miss Minnie Ahrens, who have been attending school at Wellesley, will spend their summer vacation visiting Miss Richardson's mother, Mrs. Jules Richardson.

Geo. Davies and wife arrived by the Kinau Wednesday and are guests at the home of C. C. Kennedy while in the city. Next week they will make a tour of Davies' plantation properties on this island.

A game of baseball has been arranged between the Kamehameha School of Honolulu and Beamer's Specials for Saturday afternoon, July 4. The game will be for \$50 and promises to be a hotly contested match.

Hilo people will be interested to know that a new staircase is being built back of Spreckels' Hall to be used as a fire escape exit only. It will be ready for use this evening. The exit leads down to the rear of the Hilo Drug Store.

Mr. and Mrs. L. Severance and Miss Severance leave Monday for Seaconnet, where they expect to stay during the summer months. Later they will be joined by their nieces, Miss Annie Parke and Mrs. Wallbridge of Honolulu.

Mr. Lambert, Superintendent of the Hilo Railroad, has arranged a new time table for the accommodation of the Fourth of July festivities. This evening (Friday) at the close of the Minstrel Show a train will leave Hilo for Waiakae and Olua.

The Allied Trades held a most successful meeting at Fireman's hall last Monday night. New names were added to the roll of membership and new applications placed on file. The event of the evening was an address before the union by Rev. S. L. Desha. He spoke to all, but the Hawaiians especially. The speaker urged the Hawaiians to sobriety and faithfulness in all they undertook.

THE ROAD'S A GO.

Bankers in Germany Come to Hawaii's Aid.

The breaking of soil tomorrow for the Kohala-Hilo Railroad will be no empty ceremony. It will be followed up by actual construction of the road.

P. Peck came home from the Coast with financial arrangements complete for the building of the road to Hakalau. He also closed a deal with bankers in Germany to take the entire bond issue of \$3,000,000 upon completion of the line to Hakalau. This means the funds are in sight for building the road to Kawaihae or Mahukona.

One of the first steps to be taken will be the complete reorganization of the railroad company with the election of an entirely new set of officers and directors. The management will be in the hands of Hilo and Hamakua men. The present officers and directors who have struggled with the road through its early vicissitudes retire with the feeling that they have made the fight of their lives for Hilo and that their successors will carry the work on to complete victory. The new interests which have come into the road are united in the demand that Mr. Peck shall be President and that the management shall be in the hands of Hilo people.

As soon as reorganization is effected the directors will call for bids for construction work. The meeting for the reorganization will be held in Honolulu soon after July 4th.

Mr. Peck is pleased with the arrangements that have been made by the Fourth of July Committee for breaking soil for the road, and is confident that the people will see the ceremonies followed up with the solid road.

Cools the Blood

Hot weather takes the life out of everybody. You become languid, debilitated, nervous, depressed. You lose your appetite and you have indigestion. Your blood becomes impure, your head aches, your nerves are weak, and you are tired all the time. You want something to purify your blood and make it cool and healthy.

Mr. Giovanni D'Nesi, of Parkside, South Australia, tells you how this may be done. He sends his photograph also.
"In this warm and debilitating climate I believe nearly every one needs a good tonic. For a number of years I have relied on Ayer's Sarsaparilla. I can strongly testify to its curative power in cooling the blood in hot weather and in toning up the whole system. It is a wonderful medicine."

AYER'S Sarsaparilla

There are many imitations "Sarsaparilla." Be sure you get Ayer's.
Ayer's Pills are Liver Pills. They cure constipation, biliousness, sick headache, nausea, and all liver troubles.

LIFTING TONS.

One of the Important Uses of the Magnet.

One of the practical uses of a magnet, but to those immediately concerned a highly important use, is that in which it is sometimes employed to withdraw small pieces of iron from such out of the way places as the human eye. Another use of the attractive force of magnetism on a much larger scale was that to which it was put by Edison in his magnetic ore separator, in which the ore, previously crushed to a fine powder, is dropped down a chute past the poles of powerful electromagnets, in passing which the iron particles of the ore are deflected to one side, while the non-magnetic stone dust continues undeflected down the chute. Still another instance of the employment of magnetism in a small way is that in which a magnetized tack hammer is used in the manufacture of strawberry baskets on a large scale in conjunction with a mechanical device, which presents the tacks, one at a time and head up, to the operative, thereby greatly facilitating his work.

It is a far cry from lifting a tack by means of magnetism to the lifting of massive iron and steel plates weighing four, six and twelve tons by the same force, which is now being done every workday in a number of large steel works. Electromagnetism, of course, is utilized, the form of the magnet being usually rectangular for this work and presenting a flat surface to the plates lifted. The magnets are suspended by chains from cranes, and pick up the plates by simple contact and without the loss of time consequent to the adjustment of chain and hooks in the older method. It is also found that the metal plates can be lifted by the magnets while still so hot that it would be impossible for the men to handle them.—Cassier's Magazine.

WILL TRY SCOTCH DIALECT.

Birds Which Have Mastered Spanish and English.

New York, June 3.—Sad faced because of the trouble they expect in trying to acquire the Scotch dialect, four cockatoos from Santa Fe, N. M., were put aboard the American liner Philadelphia today on the way to Andrew Carnegie's estate in Scotland.

Roswell Pierce, the ornithologist, from whom Mr. Carnegie bought the birds for \$600, accompanied them from New Mexico to the pier. They were in separate cages. The birds have already mastered Spanish and English. For several weeks, with the aid of small pebbles held in their bills, they have been trying to acquire a Scotch burr, and one of them can say "Hoot Mon" once a day without hurting himself. Similar birds, so far as plumage is concerned, are not known, according to Pierce, to exist anywhere. The four birds are exactly alike in plumage, which is coal black, with the exception of pure white tails and the white ring around their necks. Pierce imported the parents from New Guinea twenty-five years ago.

Would End Kentucky Feuds.

New York, June 5.—The Sun's Lexington (Ky.) correspondent says: Within the next few days Breathitt county, the scene of the Kentucky feud, murder and strife, will be invaded by a band of twenty-five young preachers, who will spend the summer months in an earnest effort to evangelize the people and end feudal feeling. This religious army will be in charge of Rev. Barclay Meador of this city, assisted by Rev. Mr. Van Winkle and Rev. Mr. Douthitt of Kentucky University, and the entire body will be composed of students of this institution.

The main purpose of the pilgrimage is to reach the people wherever opportunity presents itself, and by instilling Christian principles into their hearts to create better social conditions and render impossible a recurrence of feudal murder. Country schoolhouses and cross roads, grocery stores and tents will be employed for meeting places.

ALASKA SALMON INVESTIGATION

Dr. Gilbert Starts for the North on Government Mission.

Stanford University, June 3.—H. Gilbert, head of the zoology department, left the university this morning for Seattle, where he goes to assume his Government commission on the Alaskan salmon investigation. From Seattle he will sail June 8th for Cook's Inlet, from whence he and his assistants will proceed by canal to the head of Bristol bay. In the vicinity of this bay he will spend the summer at work among the streams of the region. It will be Dr. Gilbert's special study to determine whether the northern streams are overfished, whether hatcheries are properly conducted and other things in connection with the economic conditions of the salmon industry in that part of the peninsula. During the summer the various other parties sent out under the Fish Commission will cover different portions of Alaska, but they will work independently of each other. At the close of the season in the fall the several groups of investigators will be picked up and returned home by the United States steamer Albatross.

Dr. Gilbert has been engaged in study for the Government Fish Commission throughout the past year, and has been on several previous Government expeditions. Last summer he was sent to Hawaii on a similar trip, and in the summer of 1897 he headed a party to Guadaloupe island to look into the reported existence of fur seals there. The exact time of his return from the Alaskan expedition is not known.

Will Not Annex the Congo.

New York, June 3.—A cable to the Sun from The Hague says: According to advices received here the Government of Belgium has decided to abandon the project of annexing the Congo Free State, allowing the option of annexation to expire. It is explained that Belgium is disinclined to assume the responsibility of governing the Congo as a colony because of popular opposition and the attitude of Great Britain.

The Congo Free State was established by act of the international conference of Berlin in 1885, under which it was declared to be a sovereign power under King Leopold of Belgium. Leopold bequeathed all his rights in the state to Belgium, and by treaty made in 1891 Belgium received the privilege of annexing the state after a period of ten years. This convention expired to-day.

Originator of Press Bureau Dead.

New York, June 3.—Henry Romeike, who is said to have organized the first newspaper clipping bureau, died of apoplexy to-day at his apartments in the Century. He was born in Memel, Prussia, in 1855, and started a clipping bureau in London in 1881. In 1884 he founded a branch here, and that soon became the head office of the enterprise. Romeike came to New York in 1886. He later established branches in other countries and had a number of royal persons as subscribers. By the industry he originated and built up to world-wide importance he added the word "remeiked" to the language.

New Kirkland, Ohio, June 20.—A bolt of lightning struck a dynamite magazine during a thunder-shower at New Kirkland today. An explosion followed immediately, wrecking the building and shaking up surrounding houses. Six persons were killed and twenty injured.

Ayer's Cherry Pectoral

Weak throats and weak lungs easily give way. Some extra strain, as a fresh cold, and you are down with bronchitis or pneumonia. Better strengthen these weak places before it is too late. Ayer's Cherry Pectoral heals these irritable throats, gives tone to the relaxed membranes, and imparts strength to the lungs.

LIFE OF SMALL BILLS.

Much Shorter Than is Generally Supposed.

The life of a paper note, and especially those of small denominations, as a \$1, \$2 or \$5 bill, has always been much shorter than the average person would imagine. Of late, however, owing to the great increase of property throughout the country, its existence has been curtailed until at the beginning of the present year it has been estimated that the ordinary outstanding note now lives but a little more than two years.

The main reason for this lies in the fact that as business becomes more active there is a greater demand for small bills for ready use, and these being handled often and more carelessly than the larger ones, they wear out much sooner. This tendency to have the average value constantly reduced has made a great increase in the issue of new money, amounting to over \$23,000,000 in bank notes and Government paper currency, and a proportionate increase in destruction and redemption.

All of this has its effect on every department through which the note passes, from the time of the beginning of its existence in the paper mills of Massachusetts, whence it is sent to the Bureau of Engraving, to the treasury, and to the countless people who use it until it again reaches the Treasury, where it is redeemed and ground into pulp.

In the paper mills this increase in the demand for notes necessitates more employees and more machinery. In the Bureau of Engraving, where the money is engraved, printed and numbered before being taken to the Treasury, the results are still more manifest. During the past year 450 more clerks have been added, thus bringing the number up to 2851, which, when set up against the 479 employees which composed the entire working staff of the bureau twenty-five years ago, is a forceful reminder of the rapid growth and prosperity of this country. The great amount of work done by the

bureau since 1900 has required the organization of a night force, besides the extension at times of the hours of labor of the entire printing force.—Washington Post.

Surprised by Society Women.

New York, June 6.—A special to the Sun from Newport says: Three young society women, Miss Scheneck, Miss Roche and Miss Rives, who several days ago started the fad of wearing their hair down their backs in schoolgirl fashion, have introduced another innovation, following the footsteps of many of the society men who for some years have gone hatless while in Newport. Today Miss Scheneck appeared about town not only with her hair in braids down her back, but hatless, causing no end of comment along the streets.

As a rule the society women of Newport go heavily veiled to protect their complexions, and although it is thought likely many will follow the fashion set by the three young women in headdress, it is not probable the hatless idea will become popular. These three young women are leaders in the younger set, and generally everything introduced by them is taken up by their followers.

Mormons Must Quit Germany.

Berlin, June 6.—Hugh J. Cannon, superintendent of the Mormon missions in Germany, his wife, his secretary and assistant secretary were ordered by the police today to leave Prussian territory within three weeks. Similar orders are about to be served by the local authorities on eighty-six other missionaries in Prussia, under the decision of the Government to expel them all. It is quite unusual to serve the wives of Mormon missionaries with a separate notice. Mrs. Cannon has only been here a month.

No explanation was given for the action taken, except that the presence of the Mormons was undesired. Mr. Cannon will move his headquarters to Zurich, Switzerland.

RAVAGE BULGARIAN BORDER.

Villages Razed After Inhabitants Are Put to Sword Inhumanely.

Vienna, Austria, June 28.—The Turkey-Bulgaria situation has reached an acute stage. Bulgaria is preparing to issue a strong protest to the powers, fearing that the Turks will so act that serious internal consequences may follow in Bulgaria. Turkish troops are being massed in many sections of northern European Turkey, and small bands of troops are persecuting people along the Bulgarian border and razing the villages. The Turks have brought large numbers of soldiers and munitions of war to Salonica, and are moving these further up country to advantageous positions in northern Macedonia and Turkey to be ready in case of war.

TO DECEIVE CZAR.

The Desperate Condition of Affairs in the Empire.

New York, June 6.—A cable to the Sun from London says: A curious explanation of the expulsion of the correspondent of the London Times from St. Petersburg throws light upon the almost desperate internal situation in the Russian empire. The Czar is a sovereign with the best intentions and liberal views, but he is unable to enforce his liberal policy within his own dominions. He does not possess force of character necessary to control his advisers, and they find it necessary to convince him of the necessity of enforcing the tyrannical policy which they advocate.

Their method of overcoming his conscientious scruples has been elaborate and mendacious misrepresentation. The principal foreign journal which the Czar insists upon reading regularly is the London Times. That newspaper has been moderate but persistent in exposing Russian perfidy in Manchuria, Russian tyranny in Finland and Russian atrocity in Kishineff. It became impossible, even by flat denials, to explain away the Times' criticisms.

The bureaucrats, in exasperation, resorted to the foolish expedient of expelling the paper's correspondent in order, as they themselves declared, "to read the Times a lesson." They could not have made a more stupid blunder, and it will not require long to make this clear even to their benighted understanding. Meantime evidence accumulates that the domestic affairs of Russia are fast approaching a condition quite intolerable.

To Close Southern Route to Chinese.

Washington, June 3.—The Treasury Department is taking steps to draw the lines tighter along the Mexican border, to prevent the unlawful entrance of Chinese. This is done in view of the importation of Chinese laborers at Manzanillo by the new China Commercial Company's line.

"We believe all the chinks are closed up along the border," said Acting Commissioner-General Larned to-day, "but we are taking extra steps in order to be sure. As soon as Commissioner-General Sargent returns, further arrangements will be made for patrolling the Mexican border. Not many Chinese will get over that line."

Saloon License Revoked.

Seattle (Wash.) June 3.—At a meeting of the Chamber of Commerce here to-day Mayor Croxton of Bremerton gave his assurance that at the meeting of the Bremerton Council Saturday night it will revoke all saloon licenses now outstanding.

In return the Chamber voted to extend every aid to Bremerton to persuade the officials at Washington to revoke the order directing that no more ships be sent to the Puget Sound Navy Yard for repairs.

Kiel, Germany, June 29.—A feature of today's events at the naval maneuvers was contests between ship's boats of the various squadrons. The races between the American ships were won by the Chicago's cutter and the San Francisco's launch.

ELY PECK'S WILL.

Phillip and Solomon Peck Named as Executors.

Honolulu, June 29.—Petition for probate of the will of Eli Peck, deceased, is filed. Philip Peck of Hilo, and Solomon Peck of Honolulu, brothers of deceased, are the petitioners.

Ely Peck died at San Francisco on June 5, leaving estate in Honolulu of value and character as follows:

Land on Vineyard street with buildings thereon, \$30,000.

Fifty-nine shares Pioneer Mill Co., 100 shares in E. Peck & Co.; 33 shares in Olaf Sugar Co.; cash in Bishop's bank; furniture and personal effects. The foregoing valued at \$10,000.

Deceased was unmarried and his heirs-at-law and next of kin are as follows:

Phillip Peck, brother, aged 64, at Hilo.

Solomon Peck, brother, aged 60, at Honolulu.

Four minor children of Herman Peck, a brother, residing at Berlin, Germany.

Sara Rachum, niece, aged 30, at Genesee, Prussia.

Four children (adults) of Sofia Kuttner, a deceased sister, residing at Berlin, Germany.

Augusta Moses, aged 40, niece, residing at Chicago.

Two children (adults) of Simon Peck, deceased brother, residing in Germany.

Four children (adults) of Moritz Peck, sometimes called Moritz Peck, deceased brother; three residing in New York and one in Germany.

Adolph Peck, aged 30, at Chicago.

Ruza Rathenstein, aged 30, niece, at New York.

Behrendt Peck, aged 30, nephew, at Gotha, Germany.

Phillip and Solomon Peck are named as executors without bonds.

Ely Peck's will, dated April 26, 1903, bequeaths Phillip Peck, \$10,000; Solomon Peck, \$10,000; Doris Peck, \$5,000; children of Herman Peck, share and share alike, \$5,000; Sara Rachum, \$3,000; Sofia Kuttner's children, \$2,000; Simon Peck's children, \$1,500; Moritz Peck's children, \$2,000; Robert Peck's children, \$1,500; Samuel, brother-in-law, of Prussia, \$250; residue of estate to Phillip and Solomon Peck.

Wall-Dietz Wedding.

Honolulu, June 23.—Walter E. Wall and Edith Louise Dietz were married in St. Andrew's Cathedral last evening, the Rev. Alexander Mackintosh officiating. The Cathedral choir sang the marriage hymns, Mrs. Folsom presiding at the organ.

The church was tastefully decorated for the ceremony. Members of the families of the contracting parties occupied the front pews.

Justice A. Perry of the Supreme Court was best man and Miss Margaret Dietz, sister of the bride, was maid-of-honor. Little Camille Raas and Muriel Howard were flower girls. Dr. Alfred Wall, Olaf Sorenson, Lee Austin and R. B. Booth were the ushers.

The bride was given away by her father, Gerhard Dietz. The lady wore a beautiful trousseau of mouseline de soie over liberty satin, made by Mrs. Frazier.

After the ceremony the newly married couple took the train for Haleiwa, where they will spend a week's honeymoon. The young people will then return to town to take up housekeeping at Makiki.

Salvador Will Settle.

Washington, June 3.—It is learned here that final steps have been taken toward a settlement of the award of \$1,000,000 by the arbitration committee in the case of El Triunfo, an American corporation, whose franchises were adjudged to have been invalid by the Salvadorean Government.

Russian Troops in Korea.

Seoul, Korea, June 28.—Russian troops have crossed the border line and are now in Korean territory. The government has great fears as to what the outcome of this move may be.
