A SUSPICIOUS DROWNING

INQUEST POSTPONED TO MAKE MORE INQUIRIES.

Some of the Mikahala's Crew Supposed to Know Something About the Death of Kiki Ringer.

Deputy Marshal Chillingworth empaneled a coroner's jury yesterday afternoon to inquire into the cause of death of Kiki Ringer, a young half-white, whose body was found floating in the bay. Captain Thompson of the Mikahala, first noticed the body and had it taken on shore and the police notified. It was identified as that of a young man who was last seen alive on Sunday night, when he appeared to have been drinking. When found the body bore severe bruises about the breast and a cut over the right eye. After viewing the body the jury was excused until this morning.

After making inquiries during the night the police came to the conclusion that it would be advisable to postpone the inquest until the return of the Mikahala, and the jury were accordingly dismissed with instructions to report when called on. It was ascertained that the deceased, who was employed as a deck hand on board the Mikahala, was last seen in the vicinity of that vessel and that the night watchman of the ship, a native named Dan, should know something of how the deceased met his death. The police do not charge that there is any foul play in the matter but only that the circumstances of the death are suspicious enough to warrant further investigation, and for this reason the inquest will be postponed until some of the men on the Mikahala can be questioned.

As the result of David Kapa's investigations since the affair was placed in his hands two native sailors on the W. G. Hall were arrested this afternoon and are held at the police station for investigation. One of them was so much under the influence of swipes as to be unable to talk while the other said enough to make the police sure that he knows more about the death of Kiki than he ought to.

The funeral of the unfortunate young man took place this morning. The cut over the right eye was much deeper than at first supposed and penetrated to the brain. The face was so much discolored before burial as to be almost black, while the bruises on the chest showed up much more prominently than yesterday. These circumstances, together with the reticence of the police in the matter, would indicate that the fears entertained that a terrible crime has been committed were not without foundation.

JOYFUL MEETING.

Ensign G. E. Gelm of the Bennington was married just before his vessel sailed for the north in search of the Spanish privateer reported in the Alaskan waters. Mrs. Gelm came here last week on the Coptic. She was early on board the Bennington to greet her husband.

THE MARCH ENDED.

Captain Draper's Company I of the volunteer engineers reached Pearl Harbor this morning about 10 o'clock and went into camp at once at Remond Grove. The camp is conveniently located and will offer a change from Camp McKinley. The soldiers stood the march excellently and enjoyed it. The work for which they went to Pearl Harbor, that of surveying it, will be commenced at once.

LEFT FOR MAINLAND.

D. J. O'Leary, who spent several months in Honolulu, sailed for the coast on the S. N. Castle, last Saturday. Mr. O'Leary made many friends while he was here. He expects to return within a short time.

THE BENNINGTON RETURNS

DROPS ANCHOR IN NAVAL ROW THIS MORNING.

Brings an Almost Entirely New Set of Officers and the Laurels Won in Chasing North Pacific Privateers.

The Bennington, fresh from the laurels of conducting the naval operations of the late war in the North Pacific, arrived in port early this morning.

She came with an almost entirely new set of officers since she left here four months ago, and, it is said, with the youngest set of officers ever on an American man of war.

The officers are: Commander E. D. Taussig; Executive Officer, Lieutenant C. B. T. Moore; Navigator, Ensign E. H. Campbell; Watch Officers, Ensigns R. C. Bulmer, W. S. Whittier, G. E. Gelm, I. C. Wittengel; Engineer Officers, Chief Engineer H. Gage; Assistant Engineers, E. Winslip, W. R. Strickland, W. K. Clark; Passed Assistant Surgeon, B. R. Ward; Paymaster, B. P. Du Boise; Naval Cadet, R. Hayden; Paymaster's Clerk, W. D. Ballard.

Assistant Engineers Strickland and Clark are volunteer officers. Ensign Wittengel was on the Suwanee, formerly a light house tender, in the operations around Santiago. It was the Suwanee that landed Lieutenant Blue when he made his wonderful tour of observation on which he traveled seventy miles around Santiago. The Suwanee landed arms for the insurgents, spies for the army and provisions and men for the Cuban campaign. The other officers describe themselves as privateer chasers pure and simple, referring to the cruise the Bennington made to the north in search of the Spanish privateer which was persistently rumored was in the North Pacific lying in wait for the treasure laden vessels from St. Michaels and the Klondike.

Jokingly referring to this cruise, the officers say that after they got through there was not a Spanish privateer in the North Pacific.

Ensign Gelm and Assistant Engineer Winslip are the only officers aboard who were with the Bennington when she was last in port.

Something unusual in the navy, an ensign, Ensign E. H. Campbell is the navigating officer.

The Bennington comes to relieve the Philadelphia, which is already coated and ready to sail for the coast with Admiral Miller, who is to be succeeded in the command of the Pacific squadron by Commodore Kautz.

The Bennington sailed from San Francisco at 5 o'clock, Sunday morning, September 18th, thus making the trip in almost exactly eight days. She brings neither mail nor newspapers. The voyage down was a delightful one, it is said.

Captain Nichols, formerly in command of the Bennington, now on sick leave in Oakland, is reported much better in health.

As the Bennington sailed into port this morning she saluted the admiral's flag floating from the Philadelphia. Her men and officers in spanking uniforms were at attention on deck. The shipping in the harbor dipped colors in salutation which was acknowledged in the same way, and altogether it was a very pretty sight witnessed by several hundred people who went down to the water front to welcome the return of the familiar and favorite man of war.

Commander Taussig early made his official call on Admiral Miller aboard the Philadelphia.

The Bennington is now at anchor in naval row and will soon have a telephone aboard and be at home in these tropical waters.

SUPREME COURT DECIDES

RIGHTS OF HUSBAND AND WIFE INVOLVED.

An Elaborate Dissenting Opinion from Justice Frear—A Chattel Mortgage Suit Finally Settled.

In the case of Fred Harrison vs. Louis Marks and J. A. Magoon, the supreme court in an opinion written by Justice Frear, holds that the possession of the mortgage, covering after acquired as well as original stock, was sufficient to perfect his title so as to protect him against a distraint of the chattels by the landlord of the mortgagee, although he, the mortgagee, retained the mortgage to take charge of the chattels for him. Bearing in mind in this case that the mortgage was recorded and that there is no suggestion whatever of fraud the court is of the opinion that the finding of the lower court cannot be disturbed and the exceptions are accordingly overruled.

The supreme court also, in the case of Kemilia Holt vs. Kaaukai, in a decision signed by Chief Justice Judd and Justice Whiting, to which Justice Frear dissents, decides that under Section 1287 of the Civil Code, now repealed, to enable a wife to convey her lands to a third person, her husband must consent in writing. The court says: "In this case the husband had a right to the income from his wife's land and he therefore had an estate therein and her alienation of the land would deprive him of this. His consent to the conveyance should be in writing. The wife's deed, by the statute of frauds, must be in writing. She is civilly dead and cannot contract. It therefore should appear on her deed or by some other writing that her deed is not void and that she is thus made capable of contracting. The case before us is a good example of the mischief of holding that such consent may be proved orally. The husband here says he never knew of or consented to the deed. Two witnesses, after a lapse of twenty-two years, swear that he did consent orally. We hold that the circuit judge was right in excluding oral evidence of the husband's consent to his wife's deed, and overrule the exceptions."

Justice Frear files an elaborate dissenting opinion in which he claims that the authorities introduced were mostly "single judge opinions," and holds that the husband's consent was not required and that the exceptions should be sustained and a new trial granted.

M. J. ASHMORE DEAD.

Perished in the Recent Big Fire at Jerome, Arizona.

Many people in Honolulu will remember M. J. Ashmore, who came here from San Jose, Calif., something over a year ago, bringing letters of introduction to W. George Ashley and other former residents of that city. After a stay of about four months, Mr. Ashmore returned to California, and now a late dispatch says he is supposed to be one of the victims of the recent conflagration at Jerome, Arizona. Mr. Ashmore was county clerk of Santa Clara county for many years and was well known all over the state of California.

His reputation is a sufficient guarantee that all who attend his performance this evening will be highly gratified.

BISMARCK'S WILL.

A Dantz paper publishes an outline of Prince Bismarck's will. The paper asserts that the will amounts to 20,000,000 marks, although it was sworn to at 3,000,000 marks. Count William Bismarck inherits the Pomeranian estate with the exception of Rhinefeld, which Prince Herbert Bismarck gets. Prince Herbert also received the valuables deposited in the Reichsbank, estimated at 1,000,000 marks, for which he pays Count William 200,000 marks. Countess von Rantzau receives 900,000 marks, and each of Count William's three daughters gets 100,000 marks.

AMENITIES IN OLD MANILA

SOCIAL ENTERTAINMENTS BY THE SOLDIERS.

A Reception at Which there Were Three Hundred Men and One Woman—Spanish Soldier Traits.

Many stories are told by Americans returning from Manila illustrating the ignorance of the Spanish soldiers and the narrow range of information and education of the officers. One who was on the City of Sydney, which carried the Spanish garrison of Guam to Manila, says that for a long time after the soldiers were taken aboard they expected to be executed and were correspondingly surly and disagreeable. But by the time they got to Manila they had become so thoroughly grateful for the treatment they had received which was so different from what they expected and from what they had been accustomed to, that a number of them applied to General Greene to be enlisted in the American army. This of course was refused, but it showed their feelings.

On the arrival of the Sydney at Manila the officers were offered their release on parole and given permission to go into Manila. But they declined to accept it, saying they were safer with the Americans than with their own people.

The Spanish soldiers who became prisoners of war with the surrender of Manila are quartered in barracks inside of what is called the Intra Muras, the walled city. This has an area of about half a mile each way, surrounded by an old wall and fortifications. They have the freedom of this part of the city. Spanish soldiers are not provided with knives and forks as a part of their outfit, but eat with their fingers. When their rations are issued to them now they gather in groups anywhere on the street and squatting down eat in the most unconventional manner.

Since the capture of Manila the American soldiers have occupied their time with all sorts of social entertainments. One of the first of these was given by Major Sims and the other officers of the Second battalion of the First California. It was given in a hall around which there was a gallery. The men of the battalion occupied the floor and gave a program of songs, recitations and instrumental music. The officers and the invited guests from among the civilians occupied the gallery. There were about 200 of these in all, including a number of Englishmen resident in Manila, a Frenchman and a few other foreigners. There was only one woman present, Mrs. Wilson, who came with her husband, an Englishman, who has charge of the water works system of Manila. She is described as a charming woman, who recognized and became mistress of the situation at once. The officers were in very kind of costume from dress uniforms to the canvas service uniforms in which they had spent nights in the trenches.

MAIL BY THE VALENCIA.

Postmaster General Oat announces that the United States transport Valencia will carry mail to the coast. It is expected now that she will sail about noon tomorrow. Mail closes at 11 o'clock tomorrow (Wednesday) forenoon, providing there is no change in the time of sailing.

GUARDIANSHIP MATTER.

In the matter of the guardianship of George Iuko, the ward petitions for his release from guardianship on the ground that he is of age and that his guardian died two weeks before his coming of age, being indebted to him in the sum of \$254.59.

THE ZERBE CASE.

The case of H. Zerbe against the Republic of Hawaii for balance of salary alleged to be due as assistant appraiser of the custom house, comes up before the supreme court next Monday.

A SECOND CONVICTION.

Sam Kalanidilli was sentenced to one year's imprisonment by Judge Wilcox today for stealing a bicycle. This is Sam's second offense. The last time he stole a hack.

PAY DELAYED.

The soldiers of the Honolulu garrison have another piece of hard luck. The pay rolls which went up to the paymaster's department on the coast some time ago were found to contain some slight technical or clerical error and were sent back on the Coptic. The error was corrected and the pay rolls went back to the coast on the Gaelic. But it will be October 10th before they can be got back here and the soldiers get their pay. These pay rolls call for about \$75,000.

FRESH IMPORTS.

By the S. S. Australia, Camarinos received cherries, rhubarb, asparagus, celery, cauliflower, fresh salmon, crabs, flounders, oysters (in tins and shell), apples, grapes, figs, lemons, Burbank potatoes, pure olive oil, dried fruit, new crop of nuts, raisins, etc. California Fruit Market, King street.

CHINESE AND CONTRACTS

MOVEMENT TO UPSET PRESENT CONDITIONS.

Reasons That are Urged on Chinese to Induce Them to Endeavor to Break Their Contracts.

There is a movement on foot to get the Chinese contract laborers on this island to enter into a combination having for its object the breaking of their present labor contracts. The scheme includes the assessment of such Chinese as are willing to enter into the compact \$2 each, and the fund thus created is to be used to pay certain attorneys, who in return agree to use their best efforts to procure a decision by which they will be released from the fulfillment of their contracts. It is set forth by those who are engineering the scheme that the present contract labor laws are at variance with the Constitution of the United States and that a final decision to that effect can be obtained by taking a test case to the supreme court at Washington. As this is a process that will take both time and money it is proposed to assess all the Chinese interested \$2 each and thus raise about \$10,000.

From a gentleman who is conversant with Chinese affairs the following information was gained. He said: "I have heard that such a scheme was on foot but I doubt if it will succeed, unless it should have official backing, which I am inclined to think it will not. By official backing I mean the support of the United Chinese Society, which usually takes the lead in such matters. In this case I happen to know it has done nothing. The inducements held out to the Chinese to break their contracts are the higher wages they would obtain were contract labor abolished. The plantations are even now offering \$16 a head for men who will re-engage, and it is held out that were the Chinese in Hawaii all free laborers they could command at once \$16 or more, in place of the \$12.50 they are now supposed to get. I say supposed, because the \$12.50 really becomes about \$8 after all legal deductions, plantation penalties, etc., are taken off."

A prominent Chinese merchant, who being a large importer of labor would naturally be interested in the matter, was next seen, but he denied any knowledge of the scheme.

Go Kim Fui, the Chinese Commercial Agent and Consul, said that he had no official knowledge of the matter nor had he given his official sanction to it. While he had heard that some such steps were being taken, it was being done, as far as he knew, by private parties on their own responsibility.

ENGLAND IN DELAGOA BAY.

LONDON, September 13.—The Cape Town correspondent of the Daily Mail confirms the report that Great Britain has leased from Portugal the town of Lorenzo Marques, on the north side of Delagoa bay.

COMING BACK.

The four boat boys who went to the coast as a part of the crew of the Morning Star, are returning by the Australia. They are Sharkey, John Leily, David and T. K. Pinao. Some of the members of the Bennington crew saw them in San Francisco.

TUESDAY, SEPTEMBER 27, 1898.

And now Hilo has another grievance against the capital. It has discovered that Honolulu is keeping the Columbia out of pure malice, so as to injure the trade of the rainy city. Seeing that the Columbia is libeled by her own passengers and has a United States Consul General to look after her interests when necessary, it does not seem very clear where the wickedness of the Honoluluites comes in. As far as the courts are concerned they would like to be done with the case, as it is taking up valuable time which might be devoted to local cases.

The secrecy shown in the matter of the appointment of H. C. Austin to the position of Auditor General is on a par with much that has gone on in government methods here. It was known to a chosen few that the place was vacant, but that fact was whispered in dark corners. Now there was no necessity to have any secrecy in the matter. The government may have really made a good appointment in Mr. Austin, or it may not. It is a matter which will become patent after he has conducted the office for some time. But there was no reason for the hole and corner whispering over the appointment, except that such methods are ingrained in government circles, and will remain till an earthquake shakes them out.

As a matter of vital interest to the community it would be very satisfactory to know exactly where the government stands in the matter of the loan. The Star does not for a moment say that the loan is not a good thing, that the public improvements are not needed. The bulk of them The Star and the community heartily endorse. But upon what authority is the loan made. According to the official organ the present Cabinet has nothing to do with the people, is not representing the people. Upon what authority does the Cabinet pledge the credit of the people. It may all be easily explained, but why is it not explained. Every business man is directly interested, and The Star represents the interests of the business men of the community. Will some Minister kindly rise and explain and not leave the whole people, outside, presumably, of what the official journal calls the "family compact," quite in the dark. What is the status of bonds issued by the Republic of Hawaii, today?

WATER SYSTEM.

It is satisfactory to see that the water system of Honolulu is to be attended to. There is no doubt that only good luck has carried us through this year without there being a water famine in some part of the city. It is but natural that it should be so, for the water supply is taxed not to its capacity in times of drought, but it is taxed to its utmost capacity in times when the reservoirs are full. The contention that has often been made is that the government sells an article which it does not have.

Of course every house that is put up wants water and should have it, but the supply should be such that every house should have a proper share. What has often been done is this. There has been adequate supply for one house, then that supply is divided among four houses, from each of which the full water tax is collected, while each gets practically a one-fourth share. Upon such principles there is no reason why the water works should not be a profitable branch of the executive.

However, it is to be hoped that this condition of affairs will soon cease. With a new pumping plant at Kalihi, and with larger mains there should be considerable relief. One of the essentials to a healthy life in a city is a good and abundant water supply. Whether by letting every one have free use of the pipes all day we do the best for our citizens, or whether the method used in European cities would be the most just and better, is quite a question. By our present method there are undoubtedly people who, when the supply is short, and the superintendent orders that water should only be used at certain hours, pay little or no attention to the regulations

and take far more than they are entitled to. Again when everybody is using water for irrigation purposes at the same time, houses at the lower end of the pipes get no water at all, or the very merest dribble.

In many places this difficulty is overcome by each house having its water tank. At a certain hour a particular section of the town has the water turned on and the tanks filled. Ample time is given for this, and the house holder pays according to the size of his tank. Then the water is turned off from that section and another part of the town is attended to. Upon this plan there can be no stealing of water, each household gets exactly what it is entitled to and no injustice is done any one. Some such plan adopted here would work well and would be found to give satisfaction to the householder, and save water from running to waste as it frequently does now.

A DILEMMA.

There will be some difficulty in completing the purchase of the Malama property on Kauai. The amount of \$10,000 for the purchase of land and buildings for a reformatory school was inserted in the appropriation bill by the Lower House and was one of the items not concurred in when the bill was returned by the Senate. It then went to a conference committee, consisting of Senators Lyman, Baldwin and McCandless and Representatives Robertson, Pogue and Achi. The report of the conference committee shows that this item was one of those which failed to pass that body, and consequently there is not money available to make the purchase.

As to the reason for its failure to pass the committee, of course there is no record. It probably was dropped through inadvertence. There were two items of \$10,000 which were passed in the lower house for the purpose of industrial schools, one was for the running expenses and the other for buildings for manual and industrial schools. The amounts being the same the committee no doubt thought that there had been a mistake and that the item had been doubled, and hence the second was struck out.

But though the explanation may be perfectly clear as to how the item disappeared, it is by no means clear how the Board of Education is going to get the money, which, much as it is needed, is not in the appropriation bill. The opportunity to get a good location is an excellent one, but the strict letter of the law is against its acquisition, which is a pity.

THE SUREST WAY

To success in business, is to have a useful article to sell and then to tell the plain truth about it in simple words. The popularity of our preparation proves the soundness of this principle. The best and most intelligent people throughout the world, use and rely on it. There is no haze of mystery nor affectation of magic about this remedy. The formula is on the label; made from Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark. There you have the whole thing.

WAMPOLE'S

PREPARATION, the very soul of healing for the diseases which everywhere prevail. Cases that were pronounced real Consumption have completely recovered by the use of it; and Rheumatism, Malaria, Anemia, Debility, the sequelae of scrofula, and all ailments accompanied with rapid loss of flesh and strength, yield very kindly to it. It always agrees with the stomach. All the more because, although it contains the nutritive properties of Cod Liver Oil, there is no appearance or taste of that valuable yet nauseous drug. And this is a point sick people will appreciate. It is a scientific victory of our own time and an insurance policy against disease. Palatable as honey. You cannot be disappointed in it. Sold by all chemists.

that we chiefly pride ourselves. These are in use on nearly every plantation on the Islands. Only within the last three weeks we have sold a number of the large plows to take the place of place of plows from other firms which had been returned as unsatisfactory.

The great advantage of the Perfect plow is that it requires less animals to draw it, and cuts an excellent furrow without digging down.

PHILADELPHIA TO LEAVE

WILL SAIL FOR THE COAST ON FRIDAY.

Admiral Miller is to be Succeeded in Command of the Pacific Station by Commodore Kautz.

Admiral Miller and the flagship Philadelphia will sail on Friday for San Francisco.

Admiral Miller now the senior Rear Admiral of the navy will go on the retired list by operation of law about the middle of November. He will be succeeded in the command of the Pacific station by Commodore Kautz, who is already on his way to San Francisco.

Admiral Miller has been more than forty years in active service; has had command in all parts of the world, has been a member of the instructing faculty at the naval academy at Annapolis, and is universally liked and esteemed both in and out of the navy. Here in Honolulu no one is more popular.

It is understood that on his return to San Francisco there will be a public function of some sort in his honor.

He served with distinction throughout the civil war and before that was stationed for a time on the Pacific coast in the early days of the complete evolution of naval vessels from the wooden ship through the iron-clad to the steel structure of today, with the accompanying change and improvement in armament.

Admiral Miller has an interesting personality and he will be missed both here and from the navy. Much aloha will go with both him and the Philadelphia.

Little that is definite is known of the future of the Philadelphia. It is not known whether she will be the flagship of the new commandant or not.

She arrived here on her last voyage the latter part of July, bringing Admiral Miller with President McKinley's instructions and directions as to the ceremonies of the transfer of sovereignty. Those ceremonies are still fresh in everybody's mind.

We Know By Experience

Wise men use the experience of others and make it their own.

Those who have taken Hood's Sarsaparilla are the ones who are competent to speak of its merits.

Thousands of these people say Hood's Sarsaparilla has cured them.

The testimonials of cures by Hood's Sarsaparilla constitute a vast mass of testimony which proves the power of this medicine to cure a great variety of diseases.

These cures often seem marvelous, yet they are perfectly natural and are easily explained. They are the necessary result of purifying and enriching the blood.

Pure blood is the foundation of health. Hood's Sarsaparilla is the One True Blood Purifier and cures disease by purifying and enriching the blood.

It possesses peculiar curative power, that is, it cures when other medicines cannot cure, because it is peculiar in combination, proportion and process.

That is all there is to be explained about the cures by Hood's Sarsaparilla.

If you have faithfully tried Hood's Sarsaparilla you know how it is yourself; if you have not tried it, why not do so today?

"I have been troubled with scrofula all my life, and it affected my eyes so that I was obliged to remain in a dark room. I began taking Hood's Sarsaparilla. Now my eyes are so strong that the light never troubles me, and my health is good." Mrs. CARIE WEEKS, Lompoc, Cal.

Hawaiian Electric Company.

The cleanest, brightest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind what you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want. We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

GIVE US A CALL.**Ayer's Hair Vigor****What does it do?**

It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.

It cleanses the scalp from dandruff and thus removes one of the great causes of baldness.

It makes a better circulation in the scalp and stops the hair from coming out.

It prevents and it cures baldness.

Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.

It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

THE MORNING STAR'S TRIP

THIRTY-EIGHT DAYS TO THE COAST.

Is Waiting in San Francisco for Orders as to Future Movements—Will Go to the Carolines.

SAN FRANCISCO, September 14.—The missionary steamer Morning Star returned to port yesterday after an absence of over a year, during which time she has been to the Caroline Islands and has spent about five months in Honolulu waiting for the war cloud to pass by. The Morning Star left here in the month of July, 1897, and was to have been gone for several years. The war with Spain, however, altered her plans. The islands between she was intended to travel belonged to Spain. It is doubtful whether the inhabitants of Papeete and Ruk have any knowledge of the war, but Captain Bray of the Morning Star did not care to take chances, especially as a Spanish gunboat was stationed at the Carolines. After learning at Honolulu that there was war between Spain and America he decided to return to this port and to await developments.

When the Morning Star left here she took with her Miss Benlah Logan and Miss Olin, two young lady missionaries. Miss Logan was landed at Ruk, where her mother is engaged in missionary work, and Miss Olin at Kusaie. The ladies and the other Americans engaged on the islands in missionary work may have been subjected to serious inconveniences on account of the war, but Captain Bray said he did not care to run the risk of losing his ship and will not return to the Carolines until he receives orders from Boston, the headquarters of the society owning the Morning Star. The Morning Star was thirty-eight days coming up from Honolulu, and had on board in addition to Captain Bray, his wife and daughter, two passengers, Mr. and Mrs. Kingdon of Honolulu. The Morning Star brought from Honolulu a cargo of sugar.

SO SAYS SECRETARY LONG

IOWA AND OREGON DIRECT FOR HONOLULU.

Where They Will be Available for any Duty in Pacific Waters and Handy to Manila.

The importance of Honolulu as a naval rendezvous is made apparent by the orders given to the Oregon and Iowa to come here direct, instead of going to San Francisco. There can be little doubt that these two battleships are really coming to Honolulu, and should any exist the following dispatch should dissipate it:

NEW YORK, September 14.—The Herald's Washington correspondent telegraphs: Secretary Long informed me today that the battleships Oregon and Iowa are under orders to proceed to Manila via Honolulu for the purpose of reinforcing Admiral Dewey's command.

The secretary's statement is a confirmation of the announcement made by the Herald on Tuesday last that the battleships would proceed to Manila. In directing them to touch at Honolulu the authorities were actuated by two motives—first by putting them in a central position, where they could be available for any duty in Pacific waters which might be considered desirable; and second, because they did not care to send reinforcements to Rear Admiral Dewey before the armistice now in force between the United States and Spain expired. It is expected in official circles that the battleships and five colliers which will accompany them will be ready to sail for the Pacific by Monday next.

While believing there will be no international developments to change the program the authorities do not propose to be in such a position that they cannot modify instructions to vessels in case of necessity. And it is for this reason that they desire them to touch at certain points, report their arrival and receive any orders the department may find it advisable to send them. So far as Germany is concerned the authorities say there is nothing in the attitude of that government to cause a belief that it proposes to interfere with any disposition of the Philippines that this government may see fit to make. It is appreciated, however, that it will be the part of wisdom for the United States to put in the Pacific a force which will be so formidable as to discourage even a suggestion of interference. It is for this reason that the Oregon and Iowa have been sent to join Rear Admiral Dewey rather than because of any pressing emergency.

WAIKAEA'S NEW MILL. The Waikaea Mill people are busily at work putting in place the machinery of the new nine roller mill lately received from the Honolulu Iron Works. The cost of these new improvements will aggregate \$50,000, and the new processes now made possible will save a sufficiently larger percentage of saccharine to pay for the new mill in two or three years. New boilers will arrive from the coast by the Santiago, and the whole thing will be ready for this year's grinding, in November.—Hawaii Herald.

Mrs. M. Grau announces that she is prepared to give lessons in art needle work, and to take orders for the same, at her residence, corner of Union street and Garden lane.

Benjamin Fernbach disclaims having charge of the electric wiring of the Hawaiian Hotel seaside annex. He is simply an electrician on the work employed by the Oceanic Gas and Electric Company.

Last Sunday Secretary Coleman, Professor Richards and Dr. M. L. Berger held a very interesting meeting at the Y. M. C. A. army department, at Camp McKinley. The new tent presented to the association by Mr. Dillingham is a fine addition to the accommodations. About 150 young men attended the service, joined in the songs and heartily enjoyed Dr. Berger's address.

ABOUT REPAIR WORK.

There is a great deal that might be said about repair work and a great deal that it is better to leave unsaid.

We claim to have the facilities, workmen and experience which enables us to turn out work that is entirely satisfactory to you and to us. We never slight any work entrusted to us but rather, the reverse, by making a little better job than you anticipated. In the long run it pays us—for when you next have a job—you naturally bring it to us.

Do you like our policy?
