## DYNAMITE THROWN BY BLACK HAND

### IAUKEA AND HENRY CLASH

SHERIFF INDIGNANT BECAUSE HIGH SHERIFF ISSUES LICENSES  
WHICH IAUKEA REFUSED TO HACKMEN BECAUSE THEY ARE  
ENGAGED IN IMMORAL TRAFFIC—WHAT THE SHERIFF SAYS  
—HENRY IS BUTTING IN—TROUBLE BETWEEN DEPARTMENTS

There is a serious clash of authority between High Sheriff Henry of the Territory and Sheriff Curtis Iaukea of the County of Oahu.

Iaukea has ordered the hack inspector to refuse to issue licenses or to renew licenses to certain hackmen, because, says Iaukea, the hackmen thus debarred are conducting an immoral traffic; they are luring women to wrong and are taking advantage of the fact that they are hackmen to making a business of securing women for wrongful purposes.

Refused their licenses by the Sheriff of the County, these hackmen are going to the Territory's High Sheriff and are securing their licenses from him.

"I consider that High Sheriff Henry is butting in," said Sheriff Iaukea this morning, "and I don't like it, for we are refusing these licenses and license renewals on moral grounds, grounds that are evidently lost sight of by the High Sheriff. I want to know where I stand legally. Morally, I know where I stand—for I stand for the protection of the young womanhood of this community and the High Sheriff, nor any one else, can show me my duty in that respect. I know what is right and I'm not going to be bluffed into issuing licenses to drivers of hacks who are in

(Continued on Page 8.)

### WILD WEST SHOW

Eben Low, who has charge of the Wild West Show which will be given at Kapiolani Park during fleet week, stated this morning that he had received word from Kauai that the string of twelve polo ponies which will be used by the Kauai players during the tournament will arrive here on the 12th of July. He also has had assurance that five cowboys would be here during the show to represent Kauai, and that their horses would arrive on the 12th of July. The fame steer that will be used to advertise the show will also be shipped down with the horses.

"The bleachers and fence at the park have been completed," Mr. Low said, "and if I had the animals here I would give a show most any time now, as everything else is in readiness for the week of sport. I expect to have the best riders and horses in the islands in the different events, and I earnestly hope that the show will please the officers and men of the fleet. From all that I can see at practice the local polo team will give the visitors a very hard go for the honors. Two full teams were on hand yesterday afternoon and played a very fast game."

#### INFANTILE CHOLERA.

Any unusual looseness of a child's bowels during the hot weather should be a warning to mothers. Infantile cholera may develop in a few hours, and prompt action should be taken to avoid it. Chamberlain's Colic, Cholera and Diarrhoea Remedy, followed by a dose of castor oil, will check the disease in its incipency, and all danger may be avoided. For sale by all dealers, Benson, Smith & Co. agents for Hawaii.

Best cup of coffee in the city at New England Bakery.

## STOP

Stop and think of the risk you are forcing your family to assume by not having your will made out.

Have it done now by us. We make no charge for drawing it up in proper legal form, if we are made one of the Executors.

Hawaiian Trust Co., Limited,  
923 Fort Street

### THE YACHT RACE

No official word regarding the withdrawal of the Lady Maud or the Gwendolyn II from the trans-Pacific yacht race which starts on Saturday has been received here by any of the committee, and they all feel that there is a mistake somewhere. The Coast papers say that the Seattle yacht left San Francisco for Honolulu nearly three weeks ago, but no word to that effect has been received from the Marine Exchange who would certainly know if anything had left the Coast for Honolulu. The race is due to start from San Pedro Saturday noon, the starting gun being fired by President Roosevelt from the White House. With any sort of wind the yachts should arrive here the same day as the fleet or maybe a day earlier. That would mean the same time that was made in the race two years ago when the Lurline won.

#### GOOD MEALS.

Meals served at all hours. The best of everything in the best of style at the A. Y. Cafe.

#### THE SOLE AGENCY.

Through his agents in Japan, K. Yamamoto, wholesale merchant, secured the sole agency for Tengu Brand Japanese Rice. The sale of this well known brand is daily increasing. Phone 339. Hotel street near Nuuanu.

### LOOKS MUCH LIKE GRAFT

CHINESE LABOR DOING THE WORK ON FEDERAL LEPROSARIUM.  
MOLOKAI, ARE SQUEEZED FOR RAKEOFF OF TWENTY PER  
CENTUM ON THEIR WAGES—PAY HIGHER THAN THAT GIVEN  
AT PEARL HARBOR TO CITIZENS.

The investigation being handed by the Federal grand jury, in regard to the employment of alien labor on the work at the Leprosarium being constructed at the Molokai Settlement, has started a fuss which seems likely to grow larger before it is through.

In the session of the grand jury yesterday a number of witnesses were heard, among them Constructor Pease of the Treasury Department, who has charge of the work. He was at first hard to get information from, but finally made the statement on the stand that he would be glad to employ citizen labor if it could be obtained and would if necessary discharge aliens who were at work now to put Hawaiians, Portuguese or other citizens to work.

In regard to the possibility of finding citizens who would take the work it is interesting to note the fact that, when the Naval people wanted men to work at Pearl Harbor, over one thousand applications for work were received within two weeks, all coming from citizens.

At this rate of pay at Pearl Harbor is lower than that on Molokai. Laborers at Pearl Harbor receive the same rate which is ordinarily paid here, which in the government work is \$1.50 per day. The Chinese employed at the leprosarium get \$2 per day, and still work only eight hours.

This rate is only for laborers, carpenters and other skilled laborers getting more. The most astounding thing of all, brought out in the investigation, was to the effect that Pease is hiring all his men through the City Mill Company of this city and every one of the men who has gone to Molokai under the auspices of his company has, before leaving here, signed an agreement to pay twenty per cent of the wages received to the City Mill Company for obtaining this employment.

Mr. Pease states that he never heard of this before.

William Mutch, foreman of the work, was interested in the City Mill Company until last December and his relations with the concern are still said to be very close. He sold \$1500 worth of stock just before the first of the year to Akl, the manager of the company, this happening about the same time that the City Mill Company was awarded the lumber contract for the work.

In speaking of the matter this morning Mr. Pease made the following statement:

"The matter has just been called to my attention and if I find that Mutch has been doing anything which savors of graft you may be sure that I will take decisive action at once. I have heard rumors of the matter before, but now for the first time had it placed

before me in a concrete manner.

"In regard to the laborers on Molokai, the situation has been a rather peculiar one and it would be very difficult to get Hawaiians or other citizen labor for the work. If they can be obtained I shall be very glad to employ them."

There are several other matters which are liable to come up in court as the result of the investigation. In looking up the records in the Treasurer's office to find out whether Mutch was a stockholder in the City Mill Company it was discovered that this concern has failed to file its annual corporation exhibit, as required by law, for the past three years. The last exhibit was filed in 1905 and showed that Mutch owned fifteen shares of the stock. It was also learned that while the City Mill Company was most certainly been in business as an employment agency, it has failed to take out a license and in doing so has violated the Territorial law. The two matters will be taken up by Treasurer Campbell.

There is considerable talk among the contractors of the city in regard to the manner in which the contract for the building of the Leprosarium has been handled by Constructor Pease. He is apparently far from popular. It is alleged that he gave the contract to the City Mill Company, a Chinese concern, when another bid, which would have landed the lumber on the beach, was submitted at a rate only a very little above that submitted and accepted for delivering the lumber alongside of a vessel.

Another complaint is made on the fact that all the outside work, that not included in the contract, has been turned over to the City Mill Company, without giving the other firms of the city a chance to submit bids. How much truth there is in these assertions will remain to be shown, as it hardly seems likely that a man employed by the Federal Government, as Pease is, would allow such a thing to happen.

The evidence of graft in regard to the taking of twenty per cent out of the salaries of the men is in the hands of U. S. District Attorney Breckons, in the shape of contracts signed by the men themselves and also powers of attorney which are addressed to the Collector of the port and authorize him to pay any sums owing them to the City Mill Company.

These would not stand for a moment in law, the principal reason being that a claim against the United States government cannot be assigned. Just what action will be taken is hard to say, but it is hoped that a public investigation will be made through the Treasury department and the whole matter cleared up.

### ONLY DRUNKEN ROW

Chief Engineer Daly, of the steamer Despatch, who was arrested on a Federal warrant a few days ago charged with having attacked Captain Kokeritz of the same vessel with a knife and having inflicted a slight wound, will not be indicted by the Federal grand jury. This decision was reached yesterday after a considerable amount of time had been spent on the matter and all the evidence had been carefully considered.

It is understood that the Grand jurors took the view that the affair was rather a drunken row, with blame on both sides, and at the worst simply a matter for the police court to handle and for that reason refused to bring in an indictment.

Many a first-class talker wouldn't make even a second-class philosopher.

### GERMAN BOAT IN HARD LUCK

The German steamship Miesel Jeben, Captain Bendixen, yesterday evening arrived off this port from Salina Cruz.

She has 200 Chinese aboard, from Hongkong, and was refused landing at Salina Cruz because it was there contained that her immigrants had trachoma.

There was nothing for the Jeben to do but put about and here she is, sixteen days from Salina Cruz and calling for water, coal and provisions. She is in quarantine.

The Jeben is one of several vessels under contract to land Chinese coolies in Mexico and the Mexican authorities don't want them and are making excuses to refuse landing.

Two days from the Mexican port there was a suspicious death aboard

### WALLACH OUT AGAIN

J. Lor Wallach, the worm doctor and female rocks leprologist, yesterday paid his fine or had it paid for him—for the unlawful practice of medicine and was released from Honolulu jail.

He was about town today as chirpy as ever, telling all he met he felt in fine tune.

### CENTRAL REST HOUSE

The fleet executive committee met this afternoon in the Chamber of Commerce rooms, those present being G. R. Carter, J. F. Morgan, H. P. Wood, J. P. Cooke, W. C. Weedon, C. H. Dickey and G. W. Smith.

Mr. Weedon reported that the Wilder building on the corner of Queen and Fort streets would be a very good place for a rest station. He also reported that it would cost from \$100 up to \$200 to decorate the building and another \$100 to supply electric light fixtures.

Mr. Cooke made a motion which was carried, that 200 placards be printed and distributed among the property owners who were willing to open up their grounds for the use of the men in the fleet.

On motion it was decided to have all information and events on the official program.

No other business coming up, the meeting adjourned until tomorrow.

### LINK MOSES IS THE MAN

Murder will out.

It is now well understood that Link McCandless, the new Moses of the local Democracy, is the client of Judge Humphreys who is using good American money to put Dr. Cofer out of the presidency of the Board of Health.

It might have been supposed that no Republican would seek to divorce the Federal and the Territorial health services, thus early in their united status, especially in view of what Honolulu has reason to expect from Federal sanitation, also considering the fact that the Republican platform just adopted at Chicago declares in favor of nationalizing all public health affairs.

### WOMAN SUICIDE

Okake Sayo, Japanese woman, 40 years of age, this morning in her home in Moiliili hung herself by her obi to the rafters of her humble home, being dead when the act was discovered.

Professor Kotinsky, entomologist, was passing and he heard a little Japanese girl crying. Asking her what was the matter, the child declared that her mother was cold and stiff and would not answer her, hanging by her neck in a manner the child was at a loss to understand, from the rafters of the bedroom.

Kotinsky investigated and, finding the woman dead, he at once notified Deputy Sheriff and Coroner Jarrett who went out himself and secured a coroner's jury en route.

It seems that in March last the woman bore a child and in the month following her baby died. Since then she has been despondent and has not acted like her usual self.

About 8:30 this morning she sent one of her two children to a store to buy something for the house and when the child returned she found her mother stark. Sago was the wife of a stone-cutter.

The Jeben and for this reason is she now held in quarantine here.

It is expected that the Jeben will sail for the Orient this afternoon.

### TWO HOUSES WRECKED IN PITTSBURG

(Associated Press Cable to The Star.)

PITTSBURG, Pa., July 2.—Four persons were injured and two houses were wrecked by dynamite this morning. The explosion is attributed to the Black Hand Society.

### 900 MEN DEAD IN EXPLOSION

YOZOVKA, Russia, July 2.—Today a terrific explosion occurred in the Rikovsky mine and nine hundred men were killed.

### DEMOCRATS TO DENVER

SAN FRANCISCO, Cal., July 2.—Many delegates left this city today in a special train for the Democratic National Convention at Denver, Colorado.

### OHIO EDITOR DEAD

CINCINNATI, July 2.—Murat Halstead, editor of the Cincinnati Enquirer, died here today.

He was born in Butler County, O., September 2, 1829, and began newspaper work on a literary weekly and joined the staff of the Commercial of this city in 1853, buying an interest in the year following. He edited the Brooklyn Standard Union. He went to the Philippines during the war with Spain, passing through Honolulu.

### CALLS FOR \$45,000,000

WASHINGTON, D. C., July 2.—A call has been issued for \$45,000,000 reserve funds held in deposits in the National banks, to be paid into the treasury on July 15.

### JOHNSON REFUSES

DENVER, July 2.—Governor Johnson of Minnesota will not accept the nomination for the vice-presidency on the Democratic ticket. Johnson's ambition was to be offered the nomination for the Presidency.

### BAD TRAIN WRECK

ST. LOUIS, Mo., July 2.—Six persons were killed and many injured in a collision which occurred here today between the California Limited and a Missouri Pacific train.

### JUDGE OF EGYPT DEAD

PARIS, July 2.—George Sherman Batcheller, Judge of the International Tribunal, of mixed courts, of Egypt, is dead. Batcheller was born July 25, 1837, in Saratoga, New York. He served in many public and diplomatic capacities.

# THE LOG-BOOK

Dredger Reclamation is undergoing an overhaul.

Schooner Allee Cooke, Captain Penhallow, sails for San Francisco tomorrow.

A. H. S. S. Virginian leaves San Francisco on July 17 for Honolulu; on July 19 the S. S. Alaskan sails from Seattle.

S. S. Indravelli will arrive from Auckland on July 16, the day of the arrival of the American fleet. She is consigned to Davies & Co.

Sorenson & Lyle this morning commenced the work of replacing the burned housework aboard the launch Brothers, the cost coming out of insurance.

Engineer Asa Miller is held blameless as the result of the investigation of the burning of the superstructure of the launch Brothers and is commended for saving the boat.

C. P. C. Co.'s steam-auxiliary schooner Florence Ward, Captain Plitz, early yesterday afternoon sailed for Midway Island with supplies for the cable station. Operator Philip G. Cox was a passenger.

Captain Jorgensen of the S. S. Kaena is in hospital with a crushed foot sustained by jamming between the fluke of an anchor and the steamer's deck, on Tuesday, while the mudhook was being swung aboard.

United States Naval supplyship Culgoa, Lieutenant Commander John B. Patton in command, yesterday evening sailed from San Francisco for this port, following the auxiliaries Ajax, Arethusa, Glacier, Panther and Yanikton.

Secretary Metcalf announces that the two new battleships will be named Florida and Utah. He said that the new battleship authorized would bear the name of Wyoming. The name of the monitor Florida will be changed to that of some city in the state.

The British government has announced that the steamers Lusitania and Mauretania have fulfilled all the conditions in the agreement whereby it was understood that if the two steamers made the two trips at an average speed of 24 1-2 knots for the round trip they would receive the subsidy of \$750,000 per year.

The official list of dead and injured by the bursting of a boiler tube on the U. S. S. Tennessee follows: Dead—G. Wood, Earl C. Boggs, Adolph Reinhold, G. W. Meek, Edward J. Burns, John P. A. Carroll and F. S. Maxfield. The injured are S. Stamatis, G. M. Corns, A. Hayes, R. W. Watson, H. Fitzpatrick and R. F. Rutledge.

The torpedo boats Farragut, Fox and Davis will be towed to Samoa by the Pacific fleet on its cruise to South Seas. At Samoa the boats will be joined by a collier and go to Manila under their own steam. The tank steamer Iris will probably be used as a moth-

(Continued on Page Five.)

A SHEEP SHEARER'S TRIALS. "I have followed the shearing season through New Zealand and all over Australia," says Mr. R. L. McBean of Dunrobin, N. Z., "and the changes of water and tucker always bring an attack of diarrhoea. The only relief I can obtain is from Chamberlain's Colic, Cholera and Diarrhoea Remedy. Every shew now has some shearers who use this wonderful medicine and always carry a bottle with them." For sale by dealers, Benson, Smith & Co., agents for Hawaii.

# WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED JUNE 27, 1908.

Honolulu, June 29, 1908.

## GENERAL SUMMARY.

The mean temperatures were slightly higher than those of the preceding week at all but two stations on Hawaii; at all but one station on Maui; at three on Oahu, at all on Kauai, and at one on Molokai. The greatest excess over last week's mean temperature was 1.4 deg., and the largest deficiency 0.9 deg.

The rainfall for the week was above the average of ten or more years at all stations having such records in the Kohala, Hamakua and Hilo districts of Hawaii; at all on the windward side of, and in the Honolulu district of Oahu, and in the southeastern portion of the Kona district of Kauai; elsewhere deficiencies occurred.

The changes, in inches, in the several districts were: Hawaii—Kohala +4.32 to +2.35, Hamakua +0.25 to +0.32, Hilo +0.74 to +1.71, Kau +0.20 to +0.28, and Kona +0.63; Oahu—Koolaula and Honolulu +0.03 to +0.12, Koolau +0.10 to +1.02, and Waianae and Ewa +0.06 to +0.09, and Kauai, Koolau +0.01, and Kona +0.08 to +0.68.

The greatest amounts of rainfall during the week were reported from the windward side of Maui, and in the Kohala and Hilo districts of Hawaii. The amounts, in inches, in the several districts were: Hawaii—Kohala 1.95 to 2.94, Hamakua 0.80 to 0.91, Hilo 2.30 to 3.10, and Kau and Kona 0.00 to 0.89—one station in each district reporting no rainfall; Maui—Koolau and Hamakua 0.67 to 4.14, Hamakua 2.80, Hana 1.59, Kula 0.00, Wailuku 0.00 to 0.05, and Lahaina 0.12;

## The Nippu Jiji Co., Ltd.,

Y. SOGA, Manager.

Phone Main 48. Hotel Street near Nuuanu.

Oahu—Koolaula 0.34, Koolau 0.48 to 1.94, Honolulu 0.26 to 1.95, Ewa 0.06, and Waianae 0.00; Kauai—Koolau 0.84, Puna 0.23 to 0.52, and Kona 0.63 to 1.61—excepting 0.02 at Makaweli; and Molokai 0.30 to 0.87.

There was considerable more rainfall than during the preceding week on the windward side of Maui, and at several stations in the Kohala and Hilo districts of Hawaii. At the remaining stations there was a slightly greater rainfall than during last week, excepting small deficiencies in the Waimea section of Kauai, in the Hana district of Maui—with no change at Kihei, and at Papaikou, Hawaii—with no change at Pahala and Puuwaawaa.

The following table shows the weekly averages of temperature and rainfall for the principal Islands and for the Group:

	Temperature.	Rainfall.
Hawaii.....	70.9 deg.	1.78 inches.
Maui.....	73.7 deg.	1.82 inches.
Oahu.....	75.7 deg.	0.70 inch.
Kauai.....	75.0 deg.	0.64 inch.
Molokai.....	73.0 deg.	0.58 inch.

Entire Group..... 73.2 deg. 1.39 inches.

At the local office of the U. S. Weather Bureau in Honolulu, cloudy weather obtained on the first three days followed by partly cloudy. Measurable rain fell on four dates and amounted to 0.26 inch. 0.12 above the weekly normal and 0.15 more than last week's. The maximum temperature was 82 deg., minimum 68 deg., and mean 75.3 deg., 1.8 deg. lower than the normal, and 0.6 deg. higher than the preceding week's. The mean daily relative humidity ranged from 63 per cent to 80 per cent, and was 70.6 per cent for the week. Northeast winds prevailed, with an average hourly velocity of 8.9 miles. The barometer was slightly above the normal throughout the week.

## U. S. DEPARTMENT OF AGRICULTURE, WEATHER BUREAU

The following data, covering a period of 33 years, have been compiled from the McKibbin and Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month July for 33 years.

## TEMPERATURE.

(18 years 1890-1907.)

Mean or normal temperature, 78 deg.  
The warmest month was that of 1900, with an average of 79 deg.  
The coldest month was that of 1894, with an average of 76 deg.  
The highest temperature was 88 deg., on the 18th, 1900.  
The lowest temperature was 63 deg., on the 1st, 1899.

## PRECIPITATION.

(Rain 21 years, 1877-94, 1905-7.)

Average for the month, 1.43 inches.  
Average number of days with .01 of an inch or more, 14.  
The greatest monthly precipitation was 6.03 inches in 1880.  
The least monthly precipitation was 0.34 inches in 1882.  
The greatest amount of precipitation recorded in any 24 consecutive hours was 3.17 inches on the 12th, 1880.

## RELATIVE HUMIDITY.\*

Average 9 a. m., 66 per cent; average 9 p. m., 72 per cent (1893-1904.)  
Average 8 a. m., 66 per cent; average 8 p. m., 70 per cent (1905-7.)

## CLOUDS AND WEATHER.

(18 years, 1890-1907.)

Average number of clear days, 17; partly cloudy days, 17; cloudy days, 1.

## SPORTS

The postponed game between the Puns and the Saints which was scheduled for the afternoon of the 4th on the league grounds has again been postponed, as neither team will be able to have the full complement of players on hand. The game will probably be played after the second series.

The sports committee met yesterday afternoon in the office of the chairman, A. L. C. Atkinson, seven of the sub-committee chairmen also being present. C. F. Chillingworth, chairman of the baseball committee, stated that if it was desired he could have four teams ready to play every afternoon during fleet week. He suggested that four games be played one afternoon, two at Kaplani Park and two at Aala Park, and the following afternoon four more games, two at the league grounds and two at Atkinson park. He also reported that national teams had been arranged for, to compete with the teams from the fleet. Atkinson stated that he thought some of the money that had been appropriated for baseball should be spent in improving the condition of the Aala park field, and that as many games should be played there as possible, as more people would be present there than at any other place in town.

Chairman Super of the track committee reported that gold, silver and bronze medals would be given in each event, and that some of the money should be spent in improving the condition of the Boys' Field where the events will be held. Chairman Charley George of the foot-ball committee reported that he had twenty-five men secured for his foot-ball team if games could be arranged, but he did not think that any games would be played. On motion it was decided to assist the soccer team as much as possible if any games could be arranged. It was reported that John Anderson had the soccer team in hand and that he could place a team on the field at short notice. It was decided to leave the appointment of a chairman of the boxing, wrestling and tug-of-war committee to Atkinson.

The regular weekly shoot of the Hawaiian Gun Club was held yesterday afternoon on the Kakaako traps, Harry Whitney winning the shoot. Whitney, Harvey and Spalding all tied in the first round, but in the shoot off Whitney made six birds straight, while Harvey and Spalding were only able to make five each. Whitney and Harvey are now tied for first place for the cup, each having won two legs on the cup. To win the cup permanently it has to be won three times by the same person.

A large number of golfers have expressed their intentions of entering the medal play golf tournament which will be held at the Country Club Saturday. Two handsome prizes have been offered and with the present condition of the course some good scores ought to be turned in.

The Riverside Baseball League will meet this evening at seven-thirty in President Atkinson's office. The most important business of the evening will be action on the request from the Honolulu Baseball League to postpone the scheduled Riverside games on Sundays during the stay of the Santa Clara and Kelo teams. Another matter that will be brought up is the request of the Newspaper League to have one of the games on Sunday transferred to Saturday afternoon at the league grounds, and to arrange a game with a picked

team from the Riverside League to play with a picked team from the Newspaper League on Saturday also. All members are requested to be on hand.

At the meeting of the sports committee yesterday afternoon the money amounting to \$1000 which had been appropriated for inter-fleet boat races was turned over to the committee for the Hawaiian regatta which will be held at Waikiki during fleet week.

Plans for the boxing matches tomorrow and Saturday night at the Aloha A. C. are about completed and the lovers of the fistie art will be treated to some good sport.

Makala and Leahi Girl may be matched for a race Saturday afternoon at Kaplani Park.

The first tournament for the Tansan Cup will probably be held on July 12 at the Country Club.

There is some talk about an automobile race on Saturday afternoon at Kaplani Park.

The baseball game on Saturday afternoon at the league grounds between the Puns and the Saints, which was postponed yesterday, will be going a long way to see. If the game is arranged the line-up will be announced tomorrow.

Next Wednesday will be a red letter day in the history of baseball in Hawaii, because on that day the crack Keio and Santa Clara teams are expected to arrive, and will no doubt start in to practice at once so that they will be in shape for the opening games on Saturday against our local teams. The old time fans who have been watching baseball here ever since it started are certain that our teams will learn a good deal about the national game whether they win or not. Both of the visiting teams are noted for their team work, and their ability to play a hit and run game, which is something the local teams have not learned to perfection as yet. The Keio team are very fast on the bases and their hitting has improved a good deal since last year, so it is learned from people who have watched them in action in their own country. The Santa Clara team, everyone knows, is one of the strongest amateur teams in the United States today, having defeated many of the professional as well as the best college teams from all parts of the country. They are bringing with them twelve men who know every trick in the game, and who are noted for their heavy stick work, as well as their team work. The local players feel confident, however, that they will be able to win some of the games against the crack visitors, but at any event the people who watch the games will be treated to the best ball they have ever seen here. The four teams in the big league here have been hard at work getting in shape for the coming series, and they are going to do the best they can against players who have a great record behind them. During the series two games will be played every Saturday and Sunday, which should draw a crowd that ought to tax the league grounds to their utmost seating capacity.

GUY OWENS INQUEST.

Deputy Sheriff and Coroner Jarrett last evening conducted an inquest to investigate the death of Electrician

## TOWNE WANTS SECOND PLACE

Judge Gray Denies That He Is a Candidate for Vice Presidency.

BRYAN MUM ON THE SUBJECT.

Bishop Potter of New York Reported To Be In Dying Condition.

WILMINGTON, Delaware, July 2.—Judge Gray, who has been prominently mentioned in despatches from Denver as a probable choice of the Democrats for the Vice Presidency, disclaims that he is a candidate for the nomination. LINCOLN, Nebraska, July 2.—Ex-Senator Charles A. Towne is a candidate for the Democratic nomination for the Vice Presidency. He visited Bryan yesterday. The assured candidate for the Presidency refused to name his preference for his running-mate.

DENVER, Colorado, July 2.—The headquarters for the workers for Governor Johnson of Minnesota, Bryan's rival for the Presidential nomination, were opened yesterday. The headquarters for the Bryan forces will be opened today.

Charles Arnette Towne, who is mentioned as a candidate for the nomination for the Vice Presidency, is a former United States Senator from Minnesota. He is notable as an orator and for the stand he took on the advocacy of the free coinage of silver, leaving the Republican National Convention in 1896 because of the gold standard plank. He was chairman of the Silver Republican party from 1897 to 1901, and in 1899 received the Fusion vote of the Minnesota Legislature for the Senate. In 1900 he was nominated for the Vice Presidency by both the People's party and the Silver Republicans, declining both nominations. He was appointed to the United States Senate in 1900 to fill a vacancy. In 1904 he was elected to Congress by the Fourteenth Congressional District (New York) as a Democrat.

BISHOP POTTER SINKING.

COOPERSTOWN, New York, July 2.—Bishop Potter's condition is more serious. His physicians report that he is sinking.

Henry Codman Potter, Bishop of the Protestant Episcopal Church of New York, whose end is probably near is over seventy-four years old. He was ordained as a deacon in 1857, and has filled several of the most important pulpits in his church since. He was secretary of the House of Bishops 1863 to 1883, leaving to become coadjutor to his uncle, Horatio Potter, Bishop of New York, whom he succeeded in 1887. He is the author of many church publications. He was a visitor in Honolulu a few years ago.

Guy Owens, killed by an electric shock while endeavoring to cut out the power of the Hawaiian Electric Company at the Kamehameha Schools' plant connection. The verdict was merely that death was due to electric shock. The jurors were C. Bradley, W. A. Ackermann, J. Westbrook, J. Pulaa, D. Aloheka and David Kauhane.

This woman says that after months of suffering Lydia E. Pinkham's Vegetable Compound made her as well as ever.

Maudie E. Forgie, of Leesburg, Va., writes to Mrs. Pinkham: "I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. For months I suffered from feminine ills so that I thought I could not live. I wrote you, and after taking Lydia E. Pinkham's Vegetable Compound, and using the treatment you prescribed I felt like a new woman. I am now strong, and well as ever, and thank you for the good you have done me."

**FACTS FOR SICK WOMEN.**  
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Letters to THE HAWAIIAN STAR should not be addressed to any individual connected with the office, but simply to THE HAWAIIAN STAR, or to the Editorial or Business Departments, according to tenor or purpose.

GEORGE F. HENSHALL ..... MANAGER

THURSDAY ..... JULY 2, 1908

## MEN ARE FLYING.

Briefly yesterday's cable announced, that Count Zeppelin made a successful trial, at Lucerne that day, of his dirigible airship. Yesterday's Star gave an account of the breaking of all American records for aeroplane flights accomplished at Hammondsport, New York, on June 21 by Glenn H. Curtiss in the third aeroplane built by the Aerial Experiment Association of which Dr. Alexander Graham Bell, inventor of the telephone, is the president. Much space is being given in the magazines and newspapers to the experiments of the modest but persevering American aeronauts, the Wright brothers, with their flying machine the chief merit of which seems to be its solution of the problem of maintaining equilibrium in winds variable both in velocity and direction. It is almost safe to say that, with so much human mentality converging on the problem, the navigation of the air will be a practical verity within the lives of some not elderly persons now living. At the first probably the science will not encompass more than the carriage of light parcels besides the men required to operate the airships—say urgent government mail matter in peace or military in war. Yet once the mere art of flying is mastered there is no saying the extent to which it may be developed.

Count Ferdinand Zeppelin's experiments, of which a success was yesterday reported, were to have begun on June 16. They were under military auspices and the German government had issued the strictest injunctions that details of the construction of the airship should be kept secret. Nevertheless a news correspondent gave the following as an approximate description of the airship: "Length, 443 feet; diameter, 45 feet. The balloon is fitted with two independent platforms, each carrying a motor capable of developing 140 horsepower. These are extremely light, weighing only 4.4 pounds a horsepower. In case one of the motors breaks down, the airship can continue, but at a reduced speed."

It was hoped eventually to attain with the full power a speed of 46½ miles an hour, compared with a maximum of 31 miles an hour hitherto attained. The radius of action was estimated at 1430 miles. This, it may be observed, is only two-thirds of the distance from Honolulu to San Francisco. Sufficient fuel would be carried to enable the airship to remain afloat 100 hours, sleeping accommodations being provided for the crew. An apparatus had been installed for the dispatch and receipt of wireless telegraphic messages. One of the conditions of the contract of construction was the ability of the airship to maneuver at an altitude of 4000 feet. The lifting capacity of the ship was said to be more than 16 tons, to be distributed among 16 separate interior compartments charged with inflating gas and contained within the outer rigid envelope of aluminum. Two tons of ballast would be carried.

The cabled success of the airship implies that all the conditions of the prescribed flight had been fulfilled. If the test was a final one the German war department possesses a workable airship or has one at its immediate command.

Owing to the importance and universal interest in the subject, The Star is printing in full the report of the Tax Commission to the Governor. The first instalment appeared yesterday and a second is presented today. All taxpayers as well as those who expect to sit in the Legislature should secure and preserve the document. No doubt the recommendations of the Commission will form an issue in the coming elections and they ought to be carefully studied by everybody. Comment on the report is reserved until the publication has been completed.

Along with the war against "the great white plague," which has now for years been well organized nationally and internationally throughout Christendom, it looks promising that a scientific campaign against the fearful growth of insanity has been started by an act of private benevolence. Understandings relative to the gift of half a million dollars by Henry Phipps to the Johns Hopkins University give assurance that the investigations under the foundation will reach to the bottom of the subject. One of the most important features of the movement is the examination of children in the public schools, for it is certain that a great deal of the confirmed insanity in adults originates in curable weakness of childhood and youth. Incidentally the investigations will likely promote reform in educational methods, through exposing the necessity of checking the indiscriminate forcing of young people in their studies.

At the Republican convention in Chicago the submitted plank in favor of the popular election of Senators was voted down by more than seven to one. The ayes were 114 and nays 866. Whether this result was due to a heavy Senatorial influence in the convention or to a disinclination to load the platform with an additional weighty subject cannot here be said. Yet, although it is true that neither Roosevelt nor Taft has ever advocated the proposition, it is one of the most popular reforms in the United States today. The election of United States Senators by direct vote has five times been endorsed by the national House of Representatives. On three of the occasions the House was Republican. The proposal has moreover been endorsed by

## BENSON, SMITH & CO., Limited

nearly two-thirds of the states of the Union, and probably there is not a state in which it would not be indorsed, or at least carry a very large vote, at a popular election.

Evidently the Supervisors are unafraid of Shakespeare's characterization of the man who hath no music in his soul being applied to them. However, at this writing it is reported that the county fathers have taken second thought on the question of voting money to bring the Hawaiian band up to something like its oldtime strength for the visit of the fleet. A special meeting will be held late this afternoon, it is said, when the matter will be reconsidered. It is more important than may casually be thought. One of Honolulu's greatest tourist assets in the past has been the music frequently given the public by the Hawaiian band. No doubt there is anticipation in the fleet, among the press correspondents as well as the sailors, of pleasure from hearing our famous band that, a quarter of a century ago, won first honors in a great parade at San Francisco and throughout a longer period has received myriad press notices abroad. Disappointed expectation always makes a deeper hurt than a performance or an appearance that a great reputation has not preceded.

# MAIN POINTS IN REPUBLICAN PLATFORM

After enthusiastically indorsing President Roosevelt and the Republican Administration, the platform adopted by the convention in Chicago declares the following principles:

TARIFF—Revision by a special session immediately after inauguration.  
CURRENCY—A more elastic system, with every dollar redeemable in gold.

POSTAL SAVINGS BANKS—Establishment of depositories as provided in the measure now pending in Congress.

RAILROADS—Amendments to the Interstate commerce law, permitting public traffic agreements, subject to the commission's approval, and Federal restriction preventing future overissue of stocks and bonds.

GOVERNMENT AND RAILROAD EMPLOYEES—Further provision for their safety and improved condition.

THE AMERICAN FARMER—Extension of the rural free delivery postal service to every community.

INJUNCTIONS—Amendments to the Federal Court statutes preventing summary issue without proper consideration.

NATURAL RESOURCES—Systematic improvement of waterways, harbors and Great Lakes.

ARMY AND NAVY—Unalterable devotion to a policy of preparedness to insure peace.

SHIPPING—Legislation to revive our merchant marine and enlarge foreign trade.

HEALTH—A single national department.

CRUSADE PLANNED  
AGAINST INSANITY

Phipps's Gift to Johns Hopkins Makes  
Possible Great War on  
Dementia.

WILL BEGIN IN THE SCHOOLS.

Prevention by Treatment in Incipient  
Stages The End to be  
Sought.

WASHINGTON, June 15.—The gift  
by Henry Phipps of approximately  
\$500,000 to Johns Hopkins University  
for the study of insanity and to pro-  
mote more careful treatment of in-  
sane patients probably will have the  
effect of starting a crusade against in-  
sanity is the opinion expressed tonight  
by Dr. William A. White, superintend-  
ent of the Government Hospital for the  
Insane. This crusade will not  
rest content with the establishment  
of a regular clinic in connection with  
the university hospital. As explained  
by Doctor White, the diagnosis of in-  
sanity already is on a scientific basis  
as other branches of medicine. The  
radical departure to now be inaugu-  
rated will be in seeking out cases of  
incipient insanity and applying treat-  
ment of a preventive nature.

The public schools will be thoroughly  
overhauled and just as now the school  
is used as a central point for forcing  
children to undergo vaccination, so  
the next few years, said Doctor White,  
will see the schools used as a rallying  
point against the first germs of in-  
sanity.

CAUSES AND GROWTH OF  
INSANITY.

As formally specified in the deed of  
gift, the bequest will be used to es-  
tablish an additional ward at Johns  
Hopkins University, where special  
treatment will be provided for patients  
in the earlier stages of insanity. It  
is in treating these incipient cases  
that the clinical work will come out.  
An opportunity which Doctor White  
declares was heretofore beyond the  
reach of scientists will be given to  
study the growth of insanity.

The next step contemplated in the  
general plan of the gift is to go back  
to the causes of insanity. Here  
nothing could be accomplished without re-  
course to the public schools. Not  
only will patients in need of treatment  
be supplied from the schools—free  
for the early stage of mental disease  
treatment being offered to parents of  
afflicted children—but to a certain  
extent the schools themselves will be-  
come clinics on a larger scale than  
would be possible in any hospital.

Here the effects of nervous diseases  
and their gradual growth into more  
serious cases of mental disturbance  
will be watched and a careful selective  
process will be made possible to the  
officers in charge of the work. Chil-  
dren who show signs of undue morbid-  
ness or shyness, or who have become  
"high strung" from efforts to surpass  
their classmates in their studies, will  
come under the direct attention of  
trained medical experts.

## EFFECT OF "FORCING" CHILDREN.

Under this system it will be possible  
to study the effect of the strenuous life  
on the young. The universal criticism  
that has been directed at public schools  
for unduly forcing children into pre-  
mature study of Latin, Greek and  
mathematics already has directed the  
attention of scientists to this quarter.  
It will now be looked at not as a  
branch of medical investigation that may  
solve one of the problems regarding the in-  
ception of insanity.

The erection of the new ward at  
the hospital will make it possible for  
cases that warrant it—and the experts  
intend to take up the treatment of  
cases as soon as the signs are de-  
finitely diagnosed—to be brought at

once under systematic treatment. This  
treatment at first probably will not go  
far from the established treatment of  
insane patients now in vogue at the  
best sanitariums.

The difference will be that since the  
treatment is free patients may be in-  
duced to take treatment who other-  
wise would be set down as merely  
"queer" and allowed to get along by  
themselves. This phase of the crusade  
is expected to put an enormous  
amount of data at the command of  
medical men. The benefit to the in-  
dividual patients will be that they  
will have the advantage of preventive  
treatment instead of waiting until a  
positive cure alone would save them.

## FIELD A WIDE ONE.

The field opened in the schools by  
this bequest is an enormous one, and  
the authorities do not expect to get  
it thoroughly systematized for some  
years. But meanwhile the crusade  
will be carried into an entirely differ-  
ent quarter, and the plans followed  
in the war on tuberculosis will af-  
ford a guide to physicians in their  
campaign against insanity.

The method to be pursued in this  
second phase of the crusade will con-  
sist in popularizing in all ways the re-  
sults of scientific investigation. Every  
effort will be made to interest parents  
in the subject, and information for  
the use of teachers and nurses will be  
scattered broadcast.

Under this head plans already are  
being formulated for a series of pub-  
lic lectures on the symptoms of in-  
sanity, the treatment of the disease  
and the methods of preventing the  
growth of morbid or abnormal ten-  
dencies in children. These lectures,  
as time goes on, will assume the pro-  
portions of "Chautauques of health,"  
and a knowledge of the earlier forms  
of mental weakness will be as gen-  
erally known and discussed in homes  
as the ordinary run of children's sick-  
nesses are at present.

## HARRY THAW'S CASE.

PITTSBURG, June 15.—News that  
Henry Phipps has donated approxi-  
mately \$500,000 to Johns Hopkins Hos-  
pital for making researches in insanity  
was received with interest here, where  
Mr. Phipps' ideas on insanity are well  
known. It is asserted that the case  
of Harry Thaw, who was a great favor-  
ite of Mr. Phipps, was instrumental  
in inducing the gift. Mr. Phipps at  
one time sought to have Andrew  
Carnegie interest himself in a venture  
to expend \$1,000,000 in investigating  
insanity.

Since his young manhood Mr. Phipps  
has taken great interest in the study  
of insanity, and is said to be well  
versed in the subject. He always has  
been opposed to insane asylum methods  
and does not believe in close confine-  
ment except in case of criminally or  
incurably insane. Some years ago  
while on a visit to Pittsburgh Mr.  
Phipps went through the Dikmont In-  
sane Asylum, and his observations  
communicated to the State Board of  
Charities resulted in a close inspection  
of the institution.

That the family of Mr. Phipps is in  
harmony with his ideas is known  
from the fact that the consent of his  
sons was necessary to permit such a  
move as that at Baltimore to be made.  
Some years ago Mr. Phipps agreed with  
his sons that he would make no moves  
involving the expenditure of large  
sums of money without their consent.

## WAS A GREAT SIGHT

The cane fields afire as seen from  
Haleiwa was a beautiful sight and one  
greatly enjoyed by the guests of the  
hotel. At distance it may have ap-  
peared as though the hotel was in  
danger but this was not the case at  
any time. It was a small affair at  
all events. Haleiwa is the popular  
place for Honolulu people to visit and  
the week end visits are growing more  
in vogue all the time. Manager Bid-  
good looks after the comfort of his  
guests in a way that spells "care."

When you get something for noth-  
ing the something and nothing are  
nearly always synonymous.

the Bishop Trust Company, Limited,  
do solemnly swear that the above state-  
ment is true to the best of my knowl-  
edge and belief.

JAS. L. COCKBURN, Treasurer.  
Subscribed and sworn to before me this 30th day of June, 1908.  
J. HARRIS MACKENZIE,  
Notary Public, First Judicial Circuit.

WOOD'S  
LETTER

Secretary H. P. Wood's letter to the  
Hawaii Promotion Committee today  
tells about his office force being en-  
gaged in getting out 15,000 postal cards  
containing Hawaiian descriptions by  
Haskin, which will be distributed  
among fourteen railroad companies.

Mention is made of the receipt of  
letters from many organizations and  
transportation officials. Many letters  
from editors thanking the committee  
for Mr. Cooper's publicity sheets have  
been received.

A. C. Braden, a well-known lecturer,  
writes that he will arrive here in the  
Siberia on August 17, on a trip round  
the world, and stay two weeks gather-  
ing material for a lecture on Hawaii.

George Myers of N. S. Sachs Com-  
pany, writes from New York that the  
folders sent him were quickly distrib-  
uted and asks for a larger consignment.

CRUISER  
GOO OUT

Wireless Expert Isbell at 8:15 last  
night received a wireless message from  
the operator of the U. S. cruiser St.  
Louis to the effect that she was 500  
miles out and was making 12 1-2 knots  
an hour. The weather was fair and the  
sea smooth and the St. Louis operator  
said he would communicate again  
tonight, about 8 o'clock.

Isbell has not yet heard from the U.  
S. N. supplyship Glacier, which is  
equipped with perhaps the best wire-  
less in the Pacific.

The Yankton, also en route, is equip-  
ped with wireless, a one kilowatt plant.  
The auxiliary fleet will probably be  
heard from in a day or two by either.

DR. COFER'S  
POSITION

No opinion in regard to the eligibil-  
ity of Dr. Cofer to hold the position of  
president of the Board of Health has  
yet been rendered by Attorney General  
Hemenway. The matter is requiring  
a good deal of thought, though, in the  
Executive department. This morning  
Governor Frear, Dr. Cofer, Secretary  
Mott-Smith and Attorney General  
Hemenway were closeted together and  
every now and again bundles of law  
books would be taken in for consulta-  
tion. The general opinion among the  
lawyers of the city is that Judge Hum-  
phreys' objections are well grounded.

JOHN MARKS  
HAS CHANCE

The case of the Territory vs. John  
Marks, charged with stealing two cows  
from the Dowsett estate property in  
Wahiawa, was completed this morn-  
ing and will go to the jury this after-  
noon. Attorney George Davis for the  
defence has made out a very strong  
case and it looks very much as if he  
would obtain a verdict of acquittal.  
The case for the prosecution which has  
been handled by Deputy Attorney Gen-  
eral Prosser, presenting the Territory  
and also the Dowsett estate, is  
hardly as strong as in the former case  
where Marks was convicted of steal-  
ing a horse and sentenced to five years  
in jail, but which has been delayed by  
a writ of habeas corpus which Davis  
secured.

## LADY AUTOIST'S ACCIDENT.

A lady autoist, Dr. Minnette Burn-  
ham, has been served with a penal  
summons by S. Shimamoto, storekeep-  
er of Alea, charging her with heedless  
driving. Her auto yesterday morning  
ran into the rig of complainant near  
Murakami's store on Hotel street, up-  
setting the vehicle and knocking down  
Shimamoto. The accident is said by  
the occupants of the auto to have been  
the result of skidding on the wet road.  
Dr. Moore was in the machine with  
Dr. Burnham.

Promoters of the Standard Telephone  
Company have placed in the hands of  
Washington attorneys the procuring  
of a renewal of the franchise from  
Congress. It expired by limitation last  
month, when the time for beginning  
construction lapsed.

It is reported that Dr. Cofer may  
resign the presidency of the Board of  
Health without fighting the protest  
made by Judge Humphreys against the  
legality of his incumbency.

Fine Job Printing, Star Office.

## THE LOG-BOOK

(Continued from Page Two).

er" ship for the Philippine submarines,  
if not, the Mohegan will be used.

Superintendent of Public Works  
Campbell and James Morse are hust-  
ling work on barge boat landing in the  
Alakea street slip and at the Fort  
street wharf for the launches of the  
big fleet which arrives two weeks from  
today. The Waikiki section of the  
front is being "tidied" and shelter  
fents near the boat landings will soon  
be provided.

The Superior Council of the French  
navy proposes the laying down of six  
large battleships between 1908 and 1910.  
In the plans as originally prepared the  
displacement was to be about 20,000  
tons, the speed twenty knots, and the  
armament six 12-inch, eight 9.4-inch,  
and eighteen 2.9-inch guns. The in-  
tended quality of caliber in the heavy  
guns excited the greatest opposition in  
the naval press, and it is probable that  
the plan will be modified.

The appellation of "Atlantic Fleet"  
for the battleships now in the Pacific  
does not sit well on the San Francisco  
News Letter, which says "It is nothing  
of the kind." "It is the Pacific fleet!"  
It goes on "and most of the vessels  
in it will remain in the Pacific indefi-  
nitely. The reference to the battle-  
ship section of the Pacific fleet as the  
"Atlantic" Fleet is due to two causes.  
One is the desire to throw a sop to the  
narrow-minded, selfish people of the  
East, who roared energetically when it  
was ordered to the Pacific. The other,  
and a deeper one, is the guessing that  
is aroused among certain foreign na-  
tions as to the exact mission and move-  
ments of the battleship fleet. Beneath  
the memorable cruise and the disposi-  
tion of our Navy at this time, there is  
something which the Federal adminis-  
tration does not care to divulge just  
now."

## BOXING CARNIVAL

The sports are all arranging to flock  
to the Aloha Athletic Club tomorrow  
night to take in the first section of the  
boxing carnival arranged for the week  
end.

The main event, a ten-rounds affair  
between Kahaulelio (Wild Swan) and  
Soldier Platt, promises to be as good  
a contest as has been seen here for  
many a day. Both men are in fine  
condition and confident of winning.  
The natives look to see their man  
clean up the hable in short order, as  
he has always done with an opponent,  
and will be there in force to cheer Ka-  
halelio on to victory.

Platt is said to be a much better  
man than he has yet shown himself to  
be. There are many who think that  
he should have received the decision  
over Frank Murphy at the Orpheum  
on Decoration Day. In that contest  
he showed himself to be a slashing  
boxer of the type that the public de-  
lights to watch.

Two other soldier boxers are slated  
to perform tomorrow night. They are  
Richardson and Oakley and they will  
go six rounds. These boys are very  
evenly matched and the referee is apt  
to have a hard job picking the winner.

The curtain-raiser, a four-round af-  
fair between Ernest George and Man-  
uel Reuter, two willing 125-pound  
boys will provide lots of fun. These  
are new men to local ring-goers, but  
both of them can handle themselves  
surprisingly well and both are out to  
win as quickly as possible. A prelimi-  
nary often furnishes the best contest  
of the evening and the four-rounder  
mentioned is more than likely to con-  
firm this statement.

Mike Patton will referee the bouts  
which will be held in the large arena  
at the corner of Queen and Richards  
streets.

The sale of tickets will commence  
tomorrow morning in Fitzpatrick's cig-  
ar store at the corner of Fort and  
Hotel streets.

The Aloha Athletic Club is backed  
by Harry Klemme, Fred Harrison, A.  
V. Gear and other well known citizens.

## \$15,000 FOR LOSS OF WIFE.

MEADVILLE, Pa., June 4.—The  
jury in the case of Prof. Robert S.  
Breed, of Allegheny College, against  
the Meadville Traction Company, this  
evening awarded the plaintiff \$15,000  
damages for the death of his wife.  
Mrs. Breed was one of several per-  
sons killed in a trolley car accident  
on College Hill, December 13, 1905.  
In other suits growing out of the  
accident, judgments were given  
against the Meadville and Cambridge  
Springs Companies, lessors of the line,  
but they were set aside in the Superi-  
or Court. Breed's is the first case  
against the Meadville company.

# TAX COMMISSION REPORT RENDERED

(Continued.)

## THE EIGHT-YEAR RENTAL RULE.

The Commission recommends that the last paragraph of Section 1216 of the Revised Laws be amended, and further provided that when any real estate or house is leased or rented for a term of eight years, the rental thereof shall be the assessment value of such real estate or house unless such valuation shall be manifestly unfair or unjust, it is repealed. The Section was passed several years ago at a time when a return of not less than 12½% on capital invested in real estate or houses was deemed to be an ordinary and proper return. Conditions have changed since that time and, if ever, is the calculation of the value of the principal of the property from the rate based on that rate. The exception stated in the paragraph just quoted is almost as broad as the rule itself. In practice, application of the provision as it now stands is valueless. It serves no good purpose and may in a few instances hinder the assessor in the application of a more equitable rule of calculation. No such definite statement of a percentage to be used is necessary. There is no danger to a taxpayer or detriment to the Government in omitting it. See Exhibit "A," Section 1216, pages...

## TAXATION OF LEASEHOLD INTERESTS IN GOVERNMENT LANDS.

Section 283 of the Revised Laws provides as follows: "For the purpose of taxation the value of general leases hereafter executed shall be the value of the fee of the real estate leased, and the lessee shall be assessed thereon accordingly; such leases shall be void upon default in the payment of taxes thereon for sixty days after such taxes have become delinquent." From taxpayers the suggestion has come to be found in paragraphs marked 2 summarily on the ground that the rule there stated prescribes an untrue standard of measurement of the value of the leasehold interest in such lands. The Section is a part of Chapter 22 of the Revised Laws, which chapter deals with the subject of public lands generally and in particular with the sale, lease and other disposition of such lands. While the language used in Section 283 is somewhat unfortunate, it seems to be beyond doubt that the object of the Legislature in inserting the Section was to provide that as a part of the consideration for the use of the land under such leases the lessee should pay the taxes on the whole value of the fee; and when a lessee accepts a lease under the provisions of that chapter and with the condition contemplated by Section 283 inserted he does so with the knowledge and understanding that as a part of his contract with the Government he is to pay certain taxes or additional rent, whichever it may be called, measured by the value of the fee. There is no unfairness in asking the lessee after the execution of the lease to pay taxes so measured. Moreover, the Organic Act in Section 73 prescribes that the laws of Hawaii relating to public lands "shall continue in force until Congress shall otherwise provide." Section 283 is a part of those laws and prescribes one of the conditions to be attached to leases granted thereunder. It is not within the power of the Legislature to repeal the Section. For all of these reasons the Commission does not recommend the repeal of the Section.

## BASIS OF VALUATION FOR PROPERTY TAX.

The Merchants' Association of Honolulu has asked of the Commission that it recommend certain amendments in the matter of the standard of valuation of certain classes of property the sections which that body has proposed for incorporation in the law being set out in Exhibit "A" hereto attached and made a part hereof. The essence of the proposed changes is to be found in paragraph marked 2 and 4 giving the proposed definition of "cash value." The Commission is of the opinion that to adopt the change thus suggested would be a step backward. The definition proposed is too limited and will be found insufficient in many cases. In all cases where there are no actual sales of property of like value made during the previous twelve months within the vicinity of property assessed, or "sales of property of a similar character" the parties, assessor and assessed alike, will be left without any prescribed standard of measurement of the valuation to be fixed. Again, the definition presupposes a factor as known which is just as open to doubt as the value of the particular property then under consideration. This it does when it refers to property "of like value" the actual sales of which may be considered in fixing the assessment in controversy. Still further, actual sales are not necessarily a true guide. Such sales are some times influenced by extraordinary circumstances, such as the present necessity of the seller or a lack of advertising which could not be held to apply to the case of any particular piece of property under consideration. The standard now prescribed by the statute is, as it seems to the Commission, more definite and more satisfactory. The existing provisions of the law in this respect have, moreover, been repeatedly construed by the Supreme Court of the Territory, and there is now practically no excuse for not understanding their meaning. To substitute a new standard now such as that proposed by the Association would, in addition to the other objections stated, lead to confusion and uncertainty. Paragraph 4, it might be added, and the paragraphs evidently intended to be in aid of paragraph 4, leave it too greatly in the power of the taxpayer to fix his own valuation for purposes of taxation upon the classes of property mentioned in paragraph 4.

The "inventory value" and the property "shown as assets in the merchant's ledger and trading books of the business" would be matters too easily arranged with unfairness by any taxpayer desirous and willing to deprive the Government of a part of the taxes due to it.

The object sought to be reached by paragraph 10 is substantially covered by the present provisions of the income tax law except in so far as it attempts to introduce the principle of a tax graduated in accordance with the value of the property of the taxpayer. The latter feature does not appear to be added upon this particular point unless the Territory is prepared to adopt generally the principle of progressive taxation with reference to the general property tax as a whole. Upon the subject last mentioned the Commission will touch hereafter.

While on this subject of the basis of valuation, it may be well to note that in Section 1217 of the Revised Laws there is a certain inaccuracy of expression which should be remedied. The section prescribes that the interest of every person in any property shall be assessed separately, and that such person shall be liable to taxation in respect to the "full value" of his interest in such property; and that the interest of any person as occupier of real property that is exempt from taxation shall be assessed to such occupier in respect to the "value" of his interest therein. For the sake of uniformity in the statutes the Commission recommends that in both of these sentences the expression "full cash value" be used. (See Exhibit "A," pp. 1217, 1218.)

## CAPITAL ISSUES EMITTED.

Act 88 of the Laws of 1905, amending Section 1216 of the Revised Laws, declares in Section 1 that "the combined property of every corporation holding a public utility franchise and occupying the public streets or highways of the Territory other than any such corporation that by the terms of its franchise is required to pay a percentage of its gross income to the Territory, shall be valued and assessed at not less than the total amount of the par value of the capital issues emitted by such corporation. In 18 Hawaiian 15, the Supreme Court of the Territory says that the phrase capital issues is of great "ambiguity and uncertainty" and one of the justices adds that to him "the phrase appears absolutely incoherent. It is the most elusive phraseology that I have ever tried to interpret. Some people seem to understand what it means but I think that is because they know, but as I do not know what was intended by 'capital issues emitted' there seems to me to be an absolute confusion of thought." The Commission, likewise, does not know what the term means. The Court further remarked (18 Hawaiian 20) that there is "very grave doubt as to the constitutionality of the statute," presumably because it appears to constitute an attempt to discriminate against a certain class of corporations in the matter of valuations of property without any sufficient ground for the classification attempted, but whether the provision is constitutional or unconstitutional the Commission believes that it is unfair to the class of corporations sought to be reached because it establishes as to them a standard of valuation of property that in many instances will be higher than that permitted to be used with other corporations and taxpayers. The Commission recommends that Section 1 of Act 88 be amended by striking out the proviso just quoted. (See Exhibit "A," Section 1216, page 1217.) The franchise of public utility corporations will still remain taxable.

One member believes that that portion of Section 283 which prescribes a rule of assessment of "Government leases" is not land legislation in the view of the Organic Act but is exclusively tax legislation, presenting a peculiar and artificial standard of assessment not authorized with regard to any other leasehold interest in the Territory, and setting at naught the cardinal principle of equality in taxation and that if possible it should be repealed by the legislature or else be referred for the same purpose to the federal congress.

## PERSONAL TAXES.

These consist of one dollar poll tax and two dollars school tax and two dollars road tax. (Revised Laws, Sections 1199-1201.)

Their abolition is suggested by some of the tax officials and would undoubtedly meet with the approval of many of those directly benefited by the change. The Commission does not, however, deem it wise or necessary that the change be made. The small amount required now by the law under the name of personal taxes is certainly not an undue burden, measured by the standard of ability, upon those against whom it is assessed. All residents, even though not owners of any property, should as a matter of fairness contribute something to the support of the Government which affords them protection in their lives and liberty. It may be added that in the aggregate the personal taxes collected (the total revenue annually received from this source is about \$250,000) is a sum not to be despised in this Territory, and aids substantially in the maintenance of the government.

## SUBMARINE CABLES.

One line of submarine cable at present lands on the Island of Oahu and gives this Territory overseas telegraphic communication. Our statutes, as construed in a recent decision of the Supreme Court of the Territory, impose a tax of 1% upon the full cash value of as much of the cable as lies within three miles of the shores of this island, including of course a considerable

portion lying below low water mark. The owners of this cable have requested that the Commission recommend the exemption from taxation of all submarine cables lying below low water mark, and serving the government at government rates.

The Commission does not see its way clear to recommend that this request be granted. It does not believe that the fact of the cable company being required to pay a property tax on its submerged cable within three miles of the shore of Oahu is a burdensome matter to the company, or that such fact would deter any other cable company from landing additional cables on this island. It does not believe that a change in the law as construed by the Supreme Court declaring that submerged cables are without the territory for the purposes of taxation would be any encouragement to other cable companies. The property for which exemption is sought is within the territory and like all other property in the territory it should be taxed. The evident theory of taxation exemption, except as to eleemosynary institutions, is that of protection and encouragement of infant industries. The cable company does not come in either of these two classes. It may be observed that the cable company makes no income tax return, and that the tax assessor of this division has not been able as yet to collect any income tax from the company.

The commission understands that the company is locally shown being used, against local receipts the entire local expenses are charged. As the bulk of the company's business is in through messages, relaying merely at Honolulu, the receipts for which are credited to offices in other tax jurisdictions, and to care for which the entire local plant is practically necessary, such deductions from local gross earnings would appear to be incorrect in principle. Many cables land on the coast of New Jersey. That state measures the property of cable companies by their gross receipts, on which is imposed a tax of two per cent.

At least until some fair results of taxation be obtained through the income tax or a property tax under the "Enterprise or profit" method of assessment, based on the actual earnings and expenses of the corporation, the Commission thinks that no special exemption law should be passed.

## PUBLICITY OF TAX RETURNS.

The Commission recommends that Section 1241 of the Revised Laws be amended by including therein a more specific enumeration of the documents and records which are to be open to the inspection of the public. See Exhibit "A," Section 1241, page 1241.

It would seem to have been the purpose of the legislature in enacting Section 1241 to make all records of the tax offices open to such inspection, but in practice the section has been construed by some at least of the assessors as not authorizing or requiring the tax officials to permit inspection of the returns filed by taxpayers and of perhaps other documents. The purpose of the amendment is, as readily appears on its face, to make it entirely clear that the law does permit any and all taxpayers at all reasonable times to learn by personal inspection of any of the records, including returns, what property or income has been returned by and assessed to any other taxpayer, and what valuations have been so returned and assessed. It has been the experience of the past that oftentimes taxpayers believe, whether justifiably or not, that discrimination is being made in the valuation or assessment of their property as compared with similar property of others. The section as amended will afford a safety valve for the allaying of any of the suspicion where it is ill-founded and permitted, and whether intentionally or unintentionally. It will further place it within the power of any taxpayer who has knowledge or reason to believe that some other taxpayer is concealing property or income from taxation to render assistance to the assessor in that respect after ascertaining from the returns that property or income has been listed and should to the same extent make it increasingly dangerous to any taxpayer to present a return false in any respect.

## PENALTY, INTEREST AND LIENS.

The laws as it now stands (R. L. Section 1265) imposes a penalty of 1% upon all delinquent taxes from date of delinquency and 10% interest per annum from fifteen days after delinquency. It constitutes every tax a lien for five years upon the property upon which it accrues. From various sources the suggestion is made that all these provisions be stricken out, the argument advanced being that they constitute an undue burden upon the poorer taxpayers, and, as to the lien, impede transfers of real estate, because intending purchasers and mortgagees are always subject to the danger of subsequently discovering that there are unpaid and enforceable claims for taxes five years' taxes. To the Commission it seems wise to have severe penalties for the non-payment of taxes. It is not as though the claims for taxes, whether on May 15 or November 15, were to come in the nature of surprises to the debtor, for every taxpayer has notice for months and even years in advance that on those two days of each year his taxes must be paid. To remove the penalty wholly or to lessen it in severity would be calculated to result in increasing laxity in the payment of taxes. As to the period during which tax liens shall continue effective, there are considerations which weigh in each direction. The possibility of five years' accumulations of claims enforceable out of the property itself certainly tends to some extent to restrict the free alienation of land, and on the other hand, to shorten the period deprives the assessor to that extent of the power to give a tax debtor in poor circumstances extensions of time within which to pay the taxes due and save his property from enforced sale. The Commission recommends that the period be changed to three years and that the provisions concerning penalty and interest be not amended. See Exhibit "A," page 1265, section 1265. It may be added in this connection

that it seems desirable, to avoid possible questions of law and to facilitate foreclosure of liens, that specific provision be made in the law for substituted service of summons by publication or otherwise upon taxpayers who are non-resident or otherwise out of the jurisdiction. The certainty of tax collection should be as nearly absolute as possible and to this end it is recommended that all taxes, of whatever nature and from whatever source accruing, and whether due from residents or from non-residents, be made a lien upon the real property of the tax debtor (this in addition to and not as a substitute for the liens otherwise provided by statute) and that, when a lien is foreclosed or enforced in any of the various methods prescribed by statute, satisfaction be had out of the proceeds of such sale for all taxes due at the time of such sale from the tax debtor. (For such proposed amendments see Exhibit "A," page, section 1265.)

## TAX ON GROWING CROPS.

Certain farmers have requested that the tax on growing crops be abolished on the ground that it is double taxation and that it tends to discourage cultivation of the soil. The Commission does not see its way clear to recommend the change. Theoretically any step which tends to discourage cultivation should be discontinued. In practice, however, a very large proportion of the revenues from taxation in this Territory comes out of the growing crops. This is an agricultural country. If the tax on growing crops were to be abolished, it would become necessary to substitute some other source of revenue or method of taxation, capable of producing equal revenue. The probability is that that would meet with at least as much opposition as that which is offered against the present tax. As to double taxation the objection is, the Commission thinks, not well founded. Even if it is in one sense double taxation to tax the growing crops themselves and to tax later under the income tax laws the net income derived from those growing crops, still this is not objectionable double taxation. Such double taxation may or may not be objectionable according as to whether or not it affects equally all those within a given class. If it does as it does in this instance, it is no more objectionable than if in place of the rate now prescribed of 1% the rate should be made 3%, and no more objectionable than if it would be to tax the livestock on a farm under the property tax laws and to tax, under the income tax laws, the proceeds derived from the sale of the same livestock after deducting the cost thereof. The result is the same in both instances. The tax objected to is neither unconstitutional nor unjust.

## TAXATION OF LARGE HOLDINGS OF LAND.

The suggestion has been made that the Commission recommend progressive taxation upon land, the method of graduation of the tax to be such as to render it unprofitable for any one person, partnership or corporation to hold many or large tracts of land, and in that way to cause the owners of many or large tracts to sell and place the property within reach of men of an agricultural class and encourage the coming of such immigrants to the Territory. The suggestion is not made, as we understand it, in order to accomplish a distribution of the burdens of taxation which shall be more nearly in accordance with ability and therefore more nearly just. In so far as the purpose of such an amendment would be to produce the breaking up of large landed estates, it involves a question of broad policy concerning land and immigrants in particular and the welfare of the Territory in general which the Commission deems to be not within its province, just as it would not be within its province to consider, for example, the question of whether or not prohibitive license fees should be prescribed for the sale of liquor, at the request of strict prohibitionists. In so far, on the other hand, as the proposed amendment would be justified or required as a part of a general system of progressive taxation the Commission is not prepared to recommend its adoption at this time. Progressive taxation in theory and perhaps in practice under some circumstances commends itself favorably to the Commission, but the Commission believes that for a time at least no such radical departure from the present method of distribution of taxes ought to be attempted. The income tax laws and the inheritance tax laws should be permitted to be applied for some time

longer before an additional innovation is attempted. There has been no demand for a reduction of the tax rate as to any class of taxpayers, and it would be bad policy to voluntarily reduce it under the circumstances. On the other hand, as already remarked, the indications are, from the silence on the subject, that there is no present necessity for an increase of the rate as to all or any class of taxpayers. When either or both of these conditions shall arise and a greater familiarity on the part of the taxpayer public shall have been had with the income and inheritance taxes, it may be found advisable to adopt progressive taxation as to the property tax or as to the income tax or as to the inheritance tax or as to all of them.

## TAX ON LAND OF EQUAL PRODUCTIVITY.

Another request from farmers is that lands of equal productivity, whether cultivated or uncultivated, be taxed upon the same valuation, the argument advanced being that unless this course is followed there is in reality discrimination against those who have cultivated the soil and encouragement to others to hold for less useful purposes large tracts valuable for cultivation. The instance is cited in support of the argument of an owner of a large uncultivated tract, used solely for the purposes of a cattle ranch, whose land adjoins a large cultivated pineapple plantation, and the claim is advanced that in this instance the first mentioned tract is valued for purposes of taxation simply with reference to the availability of the land for cattle raising purposes and not with reference to its capacity to produce pineapples or other crops. If the fact is that in view of the capacity of the rancher's land to produce pineapples or other crops that land can be sold upon the market for cash at the same price that the cultivated pineapple lands bring, then under our property tax laws as they stand upon the books today the two tracts are taxable at the same valuation, and any failure to so tax them is a mere error of administration which can be corrected at any time. If, however, the contention goes further and is to the effect that the same valuation should be placed upon both tracts, even where the uncultivated one is of a full cash value less than that of the cultivated portion, one sufficient reason for not making the requested amendment is that in this Territory conditions differ very greatly as between almost every two pieces of land that could be pointed out, conditions as to water for irrigation, rainfall availability to market, etc. In other words, but very few pieces of land could be found situated under exactly the same circumstances, and it would be impracticable to make any just rule capable of general application throughout the Territory such as that requested. For this reason, if for

no other, the Commission does not recommend the amendment.

## CERTAIN TAXES AND LICENSE FEES AGAINST CORPORATIONS.

Complaint has been made to the Commission that Act 74 of the Session Laws of 1907, amending Section 2560A of the Revised Laws is unduly severe in its requirement that corporations pay upon the filing of a certificate of incorporation twenty cents for each thousand dollars of the total amount of capital stock authorized, and in support of the complaint an instance is cited where a foreign corporation seeking to do business in Hawaii was met at the threshold with the advice of counsel that a fee was required by law for the filing of its certificate of the fact of its incorporation amounting to \$6000, the capital stock of the corporation being forty million dollars. Chapter 157 of the Revised Laws, of which Act 74 is amendatory, relates solely to domestic corporations, and so does Act 74 except in so far as express provision is therein made to the contrary. As the Commission reads that portion of Act 74 which imposes the filing fee just referred to, the provision does not apply to such an instance, of a foreign corporation, as that cited but merely to companies incorporated in this Territory. Further, the Commission does not regard the provision as being unduly severe in its practical operation. In the very great majority of cases of corporations formed in this Territory, the capital stock does not exceed one million dollars. The highest local capitalization thus far is about five million dollars. The fee for a corporation of one million dollars capital is \$200, and that amount certainly such a corporation can afford to pay at its formation or at any subsequent increase, for a similar amount, of capital stock. No amendment is recommended.

Under Act 98 of the Session Laws of 1905, an annual license fee of three hundred dollars is sought to be imposed upon foreign corporations doing business in Hawaii. The provision is practically a dead letter. During the current fiscal year but six corporations have paid the license fee. The remainder, it is said, have found methods, presumably within the law, of doing business in Hawaii and yet not complying with the requirements of the statute in question. One or more of the six corporations referred to have considerable property in Hawaii and pay a considerable amount to the Territory by way of property tax and income tax. To the latter corporations, certainly the three hundred dollars license fee seems unduly severe. The Commission recommends that in place of the words "Three Hundred" in the Section in question the words "Twenty-five" be inserted. See Exhibit "A," section 2560, page 2560.

## AGRICULTURAL BOARD MEETING

Resolution of Condolence on Death of Entomologist Alexander

Craw.

### THE MENACE FROM GLANDERS.

San Francisco May Be Cut Out For Shipments of Livestock

Hither.

A resolution of condolence to be spread on the minutes and sent engraved to the widow, with respect to the death of Alexander Craw, the Territorial entomologist, was passed yesterday at a meeting of the Board of Agriculture and Forestry. It was moved by W. M. Giffard and seconded by D. P. R. Isenberg and contained these sentiments:

"The efficient manner in which he administered the duties of his office has won the respect of all and resulted in lasting benefit to the agricultural interests of Hawaii, and by his genial and kindly manner he has endeared himself to his associates and all others with whom he came in contact."

Mr. Giffard had received a letter from Mr. Craw's brother, written before his death, stating that the sick man had been delirious for some time and that all his utterances during his delirium were concerning his work in Honolulu.

Dr. Norgaard reported a case of glanders in a shipment of mules for Kaual from the Coast while detained here in quarantine. The Territorial veterinarian also reported a proposal made at a meeting between the animal industry committee and the sugar factors, that in future the stock for the Hawaiian plantations be bought in the Middle States and shipped here via Seattle, cutting San Francisco out, as it was feared that much of the glanders brought here, four times since Dr. Norgaard took office, had been contracted by the stock while awaiting shipment in San Francisco.

Steps were taken looking to the erection of animal quarantine stations at Hilo and Kahului.

Dr. Leonard N. Case was appointed assistant veterinarian in place of Dr. Fitzgerald, who goes to Maui as deputy veterinarian.

Dr. Norgaard had arranged for permits from Washington to land possible shipments of livestock from New Zealand in October and December.

L. A. Thurston by letter, on behalf of three Kona coffee planting companies, asked for a share of the 300 Mocha coffee plants lately offered to the Board for distribution. Mr. Giffard asked for some for Maunawili on this island.

Mr. Isenberg complained of the destruction of most of a shipment of seedlings he had made to Kaual by salt water on board an inter-island steamer. It was decided to write the company asking it to be more careful with such shipments.

On the report of David Haugh, the acting forester, the thanks of the board were tendered to W. M. Templeton, the Waialua fire warden, and H. C. Dolliver of the Hawaiian Pineapple Co., for their assistance in putting out a forest fire at Waipio last Monday.

## JOCKEYS HURT IN AUTO WRECK

DUGAN INJURED AND ANOTHER KILLED IN COLLISION DUE TO RACING.

NEW YORK, June 21.—Charles E. (Boots) Durnell's sixty horse power touring car and a smaller automobile came together in a head-on collision on Long Island near Hempstead this afternoon. In Durnell's car with him were his chauffeur, Harry Benedict, Edward Dugan and William Dugan, the jockeys, and a young woman whose name is given as Miss Emma Graham, and who was also said to be William Dugan's wife.

Chauffeur Benedict raced with another car which passed him and failed to see a small automobile coming in the opposite direction, in which were Joseph Arosemen, his wife and children. Arosemen's skull was fractured and he died within an hour. His wife was hurt, but not seriously. All the occupants of Durnell's car, except Durnell, had to be taken to the hospital. William Dugan's nose was broken and his jaw dislocated, and Edward Dugan's right arm was broken according to the hospital report. At the hospital the young woman, whose head was severely injured, was recorded as Mrs. Emma Dugan, William Dugan's wife.

Eddie Dugan, after leaving the hospital and returning to New York, made light of the injuries of himself and his brother, saying that neither of them was more than slightly bruised, and stated that the young woman was Miss Emma Graham. He was anxious

to have it announced that he would ride tomorrow, he being the \$15,000 a year star jockey of Harry Payne Whitney's stable. Willie Dugan, formerly a jockey for Russell, is now a trainer.

Willie and Eddie Dugan are San Francisco boys who have met with much success in the saddle. Eddie is one of the best lightweights in the country, but Willie has grown too heavy during the past two years to do much riding. His last engagement was with Barney Schreiber. Dugan was successful at Oakland and Arcadia during the season just closed. He won a number of important events for Sam Hildreth.

"Boots" Durnell had a contract on the services of Eddie Dugan, and this year turned him over to Harry Payne Whitney, for whose stable he has been riding on the New York tracks.—S. F. Chronicle.

### ROOF GARDEN CONCERT.

The Hawaiian band will give a public concert tonight on the roof garden of the Alex. Young Hotel, commencing at 7:30 o'clock. The program follows:

PART I.  
March—"Fidelity" (new).....Brown  
Chorus—"Tannhauser".....Wagner  
"Pilgrim Chorus and Evening Star"  
Selection—"Popular Operas".....Verdi  
PART II.  
Vocal—Hawaiian Songs, ar. by Berger  
Selection—"Morning Parade".....Hume  
Waltz—"Golden Shower".....Waltz  
March—"Greetings".....Luscomb  
"Star Spangled Banner."

### FIRE FOR VENGEANCE.

A blaze caused by the firing of a gunny sack and some papers soaked with kerosene was discovered in an upper room of the tenement house on Kukui street, Ewa of Nottley Hall, Tuesday night. The fire was seen almost immediately following its inception. The room had, up to Tuesday morning, been occupied by people who had been advised to leave Iwilei and later advised to leave Kakaako. It is said that they made threats of getting even with the Chinese landlord who ejected them. One was seen in the house a short time before the fire was discovered.

### HER NICE QUALITY.

"She seems like a very nice girl."  
"One whom it would be safe to marry?"  
"Oh, no. No girl is safe enough for that. But she's nice enough to think about marrying, if you only know when to stop."—Life.

# YOU WANT The News First.

## You Want Your Ads Read

### Here Is Some Advice—

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

# New Process Gas Ranges

The "New Process" Gas Range is the range of universal favor—the most economical in the use of gas. Absolute satisfaction guaranteed.

The entire line is on display in the household department and it will us give much pleasure to explain to you the advantages and superiority of the "New Process."

		
\$12.75 each	\$25.50 each	\$18.50 each
Quality Durability		Convenience Low Gas Bills

### Many Others In Style And Price

See the window display as you go by and when more time at disposal drop in and let us show you what we have. If not interested in Gas Ranges surely the Wood and Coal Stoves and Ranges will be an attraction. We carry the undisputed peer "The Jewel."

THE VIRGINIAN  
AT THE ORPHEUM

One of the best plays ever presented in America will be produced at the Orpheum tonight—"The Virginian," a wonderfully constructed comedy drama of love and life on the plains of the far west. It tells the story of cattle thieves and the love story of a ranch foreman and a pretty school-marm. The story grips one at the very start and so masterly is the playwright's treatment that the audience becomes fairly beside itself in the culmination of exciting events. The role of the Virginian will be taken by Richard Buhler and the supporting company is a large one. Here is the cast: The Virginian...Mr. Richard Buhler Judge Henry...Mr. Thomas Bates Uncle Howie...Mr. H. Taylor Henry Higgins...Mr. M. J. Hooley Trampas, cowboy...Mr. Thos. Lowell Stever, cowboy...Mr. Leo Lindhard Shorty, cowboy...Mr. Elmer Hallard Spanish Ed, cowboy...Mr. C. Stevens Educated Simpson...Mr. O. Clemens The Bishop...Mr. St. Clair Moore Barkeeper...Mr. Fred Albert Mrs. Ogden...Miss Maybelle Alberta Mrs. Henry...Miss Louise Orendorf Mrs. Howe...Miss Harriet Jocelyn Mrs. Westfall...Miss Hope Mosher Mrs. Taylor...Miss Selma De Forrest Mrs. Dow...Miss Helen Brandon Molly Wood...Miss Virginia Thornton

Synopsis of scenery:  
Act I—At Uncle Howie's. The dance and christening "We ain't been introduced."

Act II—Judge Henry's ranch. The black list "I've met a real hero."

Act III—Horse thief pass. The lynching. "We'll take our medicine gracefully."

Act IV—Street in Medicine Row. The meeting at sundown. "Thou shalt not kill."

Place: Wyoming Territory. Time: In the early eighties. Summer.

Stage under the personal direction of Richard Buhler.

Special scenery by Marshall and Clemens.

Session Sales: 20 McBryde Sug Co., \$4.00.

HILO FEELINGS  
SEEM TO BE HURT

The following letters speak for themselves:

Waialae, 29th June, 1908.

F. L. Waldron, Esq.  
Dear Sir:—Yours to hand and noted, with 25 tickets enclosed. I do not believe any one cares to buy tickets for the ball in Honolulu to be given to the officers of the fleet.

Everything has been done to keep the fleet in Honolulu, and as far as I understand the people here are not inclined to subscribe toward anything in that way. I remain, yours truly,  
C. C. KENNEDY.

Wailuku, Maui, T. H., June 27, 1908.

Fred. L. Waldron, Esq., Chairman  
Sub-Committee on Entertainment of Fleet, Honolulu.

Dear Sir:—I beg to acknowledge receipt of your note of the 25th inst. enclosing reception and ball tickets numbered 210 to 219 inclusive for disposal. I will do what I can to sell same. Yours very truly,  
A. N. KEOPIKAI.

## THE PUNAHOU PARK

Superintendent of Public Works Marston Campbell, who is very much in favor of the park on the corner of Wilder avenue and Punahou street, being turned over for the use of band concerts, when asked this morning by a representative of the Star if he had seen the Governor as yet about the transfer of the property, replied:

"The Governor has been very busy ever since Secretary Garfield left, and he has had no time to take up the matter as yet, but I expect some decision on it some time next week. I am very much in favor myself of having band concerts in that neighborhood, and there are a number who feel the same as I do about it, although there are just as many who are against it. How the Governor feels about it I am unable to say, but he usually looks at things in the sensible way."

The Peninsula, Saturday, July 4. Children are requested to be at the depot at 9 o'clock, when free tickets will be given them. Parents and friends are cordially invited. Tickets for the round trip will be 25 cents. The refreshment committee will be at the depot at 8 o'clock to receive provisions.

BIG MINSTREL  
SHOW COMING

Everything is very nearly ready for the big minstrel show of the Saints at the Hawaiian Opera House on Thursday and Saturday nights of next week. Come and laugh with the merry jesters for when you laugh the world laughs with you, and when you weep you weep alone. The tickets are selling fast and indications point to big houses for both nights.

The show will be a good one and the choruses par excellence.

There will be some very pretty olio numbers, among them being the fancy dances by pretty children belonging to Mrs. Mary Gunn's dancing classes. Don't forget, the box plan opens with Wall, Nichols Co., on Monday morning, July 6.

LAUKEA AND  
HENRY CLASH

certificate required for obtaining a license. I have no choice in the matter. If I should refuse I would be doing contrary to my oath of office and could be mandamus.

"I appreciate that the Sheriff of Oahu County wishes to act as the censor of public morals and hope that his crusade against vice will have good effects, but, regardless of that, I must do as I have been instructed by the laws of the Territory. When the request came and I found the conditions named in the law had been fulfilled I had but one thing to do, issue the license."

## MADAME ARRAL

The "Bolero Espagnol" which Madame Arral sang to the accompaniment of tambourine and castanets is not really a Spanish song but was adopted by them from the Moors when the latter were driven out of Spain. It is practically the national air of Spain, being played on all public occasions whether a bull-fight, church parade or coronation. Originally sung to the clashing of cymbals it ended with the wild yell, "Hurra!" of the Moors, meaning kill. Vasseur inserted it in his opera comique and it has always been very popular. While studying Spanish songs and music, under tuition of Madame Helena Sanz, Spain's greatest contralto, Madame Arral became familiar with this air and sang it in the original tongue where the Spanish gulf was much in evidence. Her rendition of gypsy and Spanish songs has always been extremely popular and her appearance lends itself easily to these roles. On Tuesday next Madame Arral will sing among her other items "La Veritable Mauola" one of Bougeois' brilliant melodies, and also by request "Thou Charming Bird" from David's opera "The Pearl of Brazil" in which the voice and flute are mingled in such charming cadences. As an entirely new program will be given there should be no delay in securing seats.

HOOGS' FIRM  
RUSHING WORK

The Honolulu Construction & Draying Company, under the personal direction of W. H. Hoogs, is hurrying the construction of the walk and bridge to connect the Seaside and Moana hotels for the pleasure of the officers and men of the big Atlantic fleet due here two weeks from today.

Actual work is well under way and a broad and convenient walk renders communication by walking between the hotels a matter of pleasure, and not a matter of jumping waterholes as it was before.

The bridgework is in the hands of artists and the result will be satisfaction to Honolulu as well as to the fleet. The dancing pavilion is as satisfactorily going forward.

THE SUPREME COURT.

The Supreme Court, with the three decisions which were handed down yesterday, has practically completed its work for the present. The only case now pending is that of Malca vs. Whitehouse and a decision on this may be expected soon. Then the court will be able to take a vacation which it certainly deserves after one of the hardest terms for many years and in which very many cases of importance have been decided.
