Later Despatches About The War.

Consul Saito yesterday afternoon
received the following additional
despatches from Washington in re-
gard to the naval movements and
battle at Yalu river:

Washington, May 2, 1904.

To Saito, Honolulu:

Admiral Kamimura's fleet arrived
at Gensan on April 26th without
effecting the intended bombardment
of Vladivostok, owing to the thick
fog continually prevailing.

Yet learning that the "Kinshu
Maru" was overdue, the fleet left the
port on the 26th of April in search
of her and again proceeded near
Vladivostok, but incessant fog again
obstructed the fleet, which regained
Gensan. Takahira.

Washington, May 2, 1904.

To Saito, Honolulu:

The Captain of the "Maya" re-
ports that a naval detachment con-
sisting of the gunboats "Maya" and
"Seji" and torpedo boats ascended
the Yalu on the 1st of May, bom-
barding the enemy.

While they were returning, the
enemy's artillery suddenly attacked
the torpedo boats, who silenced the
enemy after thirty minutes' severe
engagement. The detachment all
returned to Yungampho without
casualties and our armed launches
reached Antung in the same morn-
ing and repulsed the enemy's infan-
try and artillery after thirty min-
utes' sharp fighting.

Fire was seen rising from the town.
A native says that the enemy fled
from Antung after setting fire to it.
Takahira.

Washington May 2, 1904.

To Saito:

General Kuroki's report from Ki-
lien-chang, May 1st, says that not-
withstanding the stout resistance to
the Second and Twelfth Divisions
and Imperial Guards, they advanced
by the three roads, driving the en-
emy with them.

We captured by 8 o'clock p m
a line extending from Antung to
Liaushukou, and the Imperial Guards
surrounded the enemy on three sides
and, after a severe fight, captured
twenty guns with horses and car-
riages, over twenty officers and many
men.

The General Reserve Corps ad-
vanced along the Liaoyang road.
The enemy was composed of the
whole Third Division and Twenty-
second and Twenty-fourth Regi-
ments of Sixth Infantry Division,
Sharpshooters, Mischauko's cavalry
brigade of about forty guns and
eight machine guns. They fled to-
ward Fenghoan cheng.

Our casualties at most were not
over 700. The total booty taken
was twenty-eight quick-firing guns,
large quantities of rifles and ammu-
nition. Our heavy field guns were
very effective.

A Russian officer taken prisoner
says that the commanders of both
army corps and division were woun-
ded, and their casualties exceed 800.
Takahira.

TUESDAY, MAY 3, 1904.

AN EXCELLENT MOVE.

The idea of sending a newspaper man to St. Louis to represent Hawaii before the congress of editors is eminently proper and wise. It is a drive at the fountain head of everything that is of value in the way of advertising. The man from Honolulu will meet, face to face, at St. Louis the men who shape the opinions of the nation and fire the impulses of the people in every direction—including that of where they will spend their Winters and their Summers. The enlistment of one of these men in the cause of Hawaii would be worth more than a shipload of literature promiscuously distributed and all the good that thousands of dollars expended for such expedients could possibly bring.

The Legislature appropriated the sum of \$6,000 for the circulation of Frazier's handbook of Hawaii, most of which were to go to St. Louis. The Territory not being represented at the exposition, it is to be presumed that these handbooks have been pigeon-holed somewhere. To get these books together and see that every newspaper editor present at the coming convention gets one will be a most important work of the editorial representative from Hawaii; and if this is done—and it will undoubtedly be done now—the money expended on these handbooks may yet be made to yield

many times over. To F. W. Macfarlane belongs the credit of suggesting the sending of a newspaper representative to St. Louis, and in doing so he was squarely on the right track.

NOT LOSING ANY SLEEP.

THE INDEPENDENT wishes to emphatically state to the Advertiser that Mr. Testa is not losing any sleep over its disfranchisement proposition, because it deems there is nothing in it other than a clear case of wind, puff and bluff. As to the provision of the Organic Act, Section 18, it is clear to any tyro in legal lore, let alone a school boy, to see through it, and is as plain to a blind man that he can also see through it, whether by day or by night, and whether by sunlight or starlight or moonlight, it would be all the same. No amount of legal quibbling or "piddling experiments" could hold sufficient water to disfranchise Testa (we are not now speaking of Meheula, as he has not yet been sentenced), as he was not sentenced to any imprisonment whatever, but only to a fine or money penalty. In order to disqualify Testa, he must first "shall have been convicted of any criminal offense punishable by imprisonment, whether with or without hard labor, for a term exceeding one year, whether with or without fine," which Judge Dole did not impose, to satisfy the appetite of Walter Gifford Smith for something "dark and toothsome," and that without resorting to the assistance of a dictionary (we dare not say anything more for fear of again being held and scored for mailing obscene matter). Further than this, there is no pressing need for seeking pardon nor of restoration to civil rights, which we claim that there is no need for any alarm over it on Testa's part, as his civil rights still remain intact. When the time comes for registration, he will be found on hand.

TOPICS OF THE DAY.

That "lobster" must have laid heavy on Walter G's stomach, for in all verity he has been jabbering on having found a mare's nest and now talks the disfranchisement of Testa. Go it, old boy!

For good and clear reading, take the Morning Exception and Exclusion, as its Sunday Bytander is an exponent of "piddling experiments" with regard to low fares in advertising Hawaii, getting tourists, etc.

The battle at the Yalu river seems to be claimed by both sides. The Japanese claim a signal victory, while the Russians claimed to have retired by previous arrangement. It is not recorded, however, that the Russians had prearranged to leave one third of their artillery and a large number of prisoners behind.

If Dr. Cooper can succeed in getting a Federal appropriation for the maintenance of the Molokai settlement he will have accomplished a great deal. It is not supposed, however, that the central government will expend a large sum of money for such a purpose without some return; and right there comes the stickler. We object, and will always object, to Molokai being made the dumping ground for patients from abroad. It will not only be unsatisfactory to our own un-

fortunates at the settlement but will give the Islands a black eye. If Dr. Cooper can secure an appropriation under terms that will leave the settlement under local control and subject only to local rule, then we say go ahead. But not otherwise.

If the Hill line of steamers can be induced to call at Honolulu a most important step in the direction of promoting tourist travel will have been accomplished. What is wanted in Hawaii is lower passenger rates. To realize such, competing lines of steamships are absolutely necessary. Honolulu has for far too long been the victim of a steamship monopoly, and it is high time that the turn should be called.

If it is the desire to silence THE INDEPENDENT, there can be only one way, and that is to either send Testa to jail or deport him out of his country. Before either course can be justly taken, free speech must be subdued and then gag him into submission at the stake of obloquy and perdition. In our opinion, Walter G will have to get out of the country before we ever will, as he is only a bird of passage as against our domestication.

We are informed that it is the desire of those opposing THE INDEPENDENT to find out who are behind us, rendering us assistance, either morally, financially or otherwise, as well as giving us physical and material aid. If that is really their object, then they have a "hard row to hoe;" even if they are driven to desperation, they will have to first silence us in the dust than divulge anything incriminating against anyone, for we know of none other than ourselves. Being responsible, we are what we are, and nothing else.

Berger's motley band is liable to cut all sorts of ice at St. Louis where it will run up against the best bands of the world, ain't it? The following, from the World's Fair reports, shows what calibre of bands will attend the exposition: "The celebrated First Royal Marine Band of Germany, one of the finest in the world, will be one of the attractions at the World's Fair. The members are all six-footers and the band is the crack military band of the German Empire. It has a repertoire of 1500 compositions."

The Marine baseball players are showing themselves to be a team that will have to be seriously reckoned with. In Saturday's game they ran up against one of the best teams of the League, but it took that team fourteen innings to make the decision. We are pleased at the record of the Marines, for the reason that they were not treated right from the start. Every effort was made by the competing clubs to keep them out of the League. They got there anyhow, and if they win the season's pennant the League will have gotten what it richly deserved.

In refusing to accept the position of deputy sheriff of Waimea because he was required to take the oath to the Republican party, John Wise did something highly commendable and something for which he will not be forgotten. The Territory is interested a little farther than that in the matter, however. Wise is a man entirely satisfactory to the Government for the position of deputy sheriff in the district referred to, or he would not have been offered the

place. But the same Government places the value of a party oath above that of a man's brains and capabilities. How's that for running a government?

A comely Porto Rican woman, dressed in a dark, low neck, calico holoku was seen by us on the street yesterday. She was hatless and accompanied by two men, but was wearing a Japanese pair of socks with a heavy Japanese wooden sandal. It was a peculiar sight to see a woman of another nationality wearing such footwear.

Strike at Waipahu.

A strike of Japanese laborers has been in progress at Oahu plantation since early yesterday afternoon. About 1,600 men altogether, quit work tying up operations in the fields and at the mill. When trouble first occurred six native policemen, armed with rifles, were sent to the scene. They were accompanied by one of the secretaries of the Japanese consulate. Late in the day ten mounted police were sent down and the foot police were withdrawn. The consular representative was unable to accomplish anything and returned to the city. This morning Consul Miki Saito went to the scene himself to inquire into the causes of the trouble. First reports were that the chief cause of grievance was against Head Luna Patterson, but that seems not to be the case. The trouble started with a luna named Hutchings, who is alleged to have whipped one of the Japanese without cause. In addition to this a number of grievances have been presented, involving almost everybody at the plantation from manager down.
