WHAT IS THIS DISEASE THAT IS COMING UPON US?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in at first dry, but after a few months it is attended with a greenish coloured expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constipated; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-colored, depositing a sediment after standing. The e is frequently a spitting up of the food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., but none of the various kinds of treatment have been attended with success, because the remedy should be such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community, where they live show in what estimation the article is held.

John Archer, Hartill, near Sheffield:—I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully.

Geo. A. Webb, 141, York Street, Belfast:—I have sold a large quantity, and the parties have testified to its being what you represent it.

J. S. McCallie, 55, Highgate, Kendal:—I have always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many gross.

Robt. G. Gould, 27, High Street, Andover:—I have always take a great interest in your medicines and I have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland:—I find that the trade steadily increases. I sell more of your medicines than any other kind.

N. Da roll, Clun, Salop:—All who buy it are pleased, and recommend it.

Jos. B. K. W. A. P. S., Kingsbridge:—The public seem to appreciate their great value.

A. Armstrong, Market Street, Dalton:—It is useful for me to say that your valuable medicines have great sale in this district—greater than any other I know of, giving great satisfaction.

Robt. Laine, Melksham:—I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself.

Frickheim, Arbroath, Forfarshire, Sept. 23, 1882. Dear Sir,—Last year I sent you a letter recommending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most patent medicines die out with me, but Mother Seigel's has had a steady sale ever since I commenced, and is still in as great demand as when I first began to sell the medicine. The cures which have come under my notice are chiefly those of liver complaint and general debility.

A certain minister in my neighbourhood says it is the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would not allow. A dear friend of mine, who is very much addicted to costiveness, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much pleasure in recommending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,
(Signed) William S. Glass, Chemist.

EDITORIAL NOTES.

The *Saturday Press*, we are glad to see, stands valiantly for organization and method in the cause of good government.

To make room for a large amount of local matter and latest foreign news, the editorial pencil is restrained to-day. The ship of state may come to anchor in the meantime.

Our puzzle department is gradually developing. Its success, of course, depends upon the interest taken in it by our young friends. It affords exercise calculated to sharpen their wits, and is therefore useful as well as entertaining.

A serious mistake is made, both in respect to justice and policy, in the disposition of some to attribute the present state of affairs in this Kingdom to the alleged controlling influence of the native race. It is time enough to do that when imported rascality is neutralized, and the blighting and corrupting influence of foreign viciousness wiped out.

There is nothing surprisingly new in the American election news by this mail. A letter to the Hon. W. W. Phelps from Mr. Blaine, is published, in which the Republican leader gives a history of his marriage, vindicating himself against the scandals attempted to be fastened upon that event by his enemies. He states that the stone over his eldest child's grave "has been recently defaced by brutal and sacrilegious hands." At last accounts Mr. Blaine was making a tour of Pennsylvania, his course being marked by a continuous popular ovation. The Republican majority for Governor of Maine is 19,851, a gain of 20,020 over 1880.

European complications are thickening. A Franco-Russian alliance in China is a menacing event indicated in the latest intelligence. The official journal of the Russian Government says the recent meeting of the three Emperors meant peace. That is, probably, peace on their own terms. German adherence to the tripartite alliance of Emperors will scarcely, however, stand the shock of the alliance of Russia with

France in China. England is almost certain to easily succeed in restoring order in the Soudan, when she will be so much the more able to stand by her Egyptian financial policy, that is proving so obnoxious to the other Powers. She will also have something to say about the interference of the over-ambitious operations of France with her commerce in China.

THE LIBRARY ASSOCIATION.

Last evening the annual meeting of the Honolulu Library and Reading Room Association was held in the reading room of the institution. So small was the attendance a few minutes after the announced hour, that an adjournment was barely prevented by the arrival of the two or three wanted to make up a quorum, and the President, Mr. Dole, called the meeting to order.

After the Secretary, Mr. Parmelee, read the minutes of last meeting and of trustees, meeting, certain recommendations of the trustees were taken up and adopted, as follows:

1. That the President, Secretary and Treasurer be a committee to select a proper person as canvasser to solicit additions to the roll of membership, and donations of books.
2. That the constitution of the Association be printed in cheap form.

Mr. A. L. Smith, Treasurer, presented his report, which was adopted and ordered to be given to the papers. It contains the following financial statement:

RECEIPTS.	
Balance, Oct. 3, 1883.	\$ 9 40

Accounts sundry expenses.	138 65
Total.	\$5,273 93
Balance in hand, Oct. 3, '84.	30 83

The election of officers for the ensuing year then took place, resulting as follows:

President, S. B. Dole; Vice-President, M. M. Scott; Secretary, H. A. Parmelee; Treasurer, A. L. Smith; Trustees, A. J. Cartwright, Dr. Rodgers, A. Marques, Walter Hill, Henry Waterhouse, H. R. Hollister, W. Johnson, Dr. Hyde, A. S. Hartwell.

The President appointed the following standing committees:

Hall and Library—M. M. Scott, Drs. Rodgers and Hyde.

Auditing—H. R. Hollister, Henry Waterhouse, W. R. Castle.

Entertainment—H. A. Parmelee, A. Marques, Walter Hill, Mrs. E. P. Adams, Mrs. Dr. McGrew.

The gratifying announcement was made that Mrs. Johnson, of Kauai, had made a large donation of books to the library, and on motion that lady was declared an honorary member for five years, with privileges of the institution.

The Rev. Dr. Damon informed the meeting that he had decided to present one hundred volumes to the library, and he was also made an honorary member for five years, with privileges.

Bills that had been presented were referred to the Auditing Committee, and the meeting adjourned.

LATEST FOREIGN NEWS.

The reports from the Provinces in Southern France on Sept. 26th, announce three fresh cases and three deaths by cholera that day.

From the outbreak of the cholera in Naples, Italy, until the 25th of September, there were 10,203 cases and 5,385 deaths. A despatch from Genoa of Sept. 25th says:—"The cholera is increasing to an alarming extent in the city. Sixty-eight new cases were reported to-day."

On the 25th of September, the diplomatic representatives of Ger-

many, Austria, France and Russia called separately upon Nubar Pasha, the Egyptian Prime Minister, and presented an identical note to him. In this the Powers make a formal protest against the action of the Egyptian Government in diverting the revenues set apart for the Sinking Fund to the general Egyptian Treasury. The Russian Government has expressed to England her regret that England did not consult the other Powers before deciding to authorize such a step. The French press is fuming terribly over the English lone-hand policy in Egypt.

Osman Digna, one of the leading rebel commanders in the Soudan, was almost deserted by his followers at last accounts. The siege of Khartoum has been raised. The country in the neighborhood is freed from the rebels and the obtaining of food supplies is comparatively easy. General Lord Wolseley was to have started up the Nile on the 27th September, without awaiting the further arrival of troops. Inhabitants of Mergaweh and Berber are frightened at the approach of the English expedition and some are leaving their homes. Merchants from El Obeid report that the Mahdi has twenty Krupp cannon, and 10,000 of his 25,000 followers are armed with Remington rifles.

A Shanghai despatch to the *London Times*, Sept. 22nd, says: A new complication has arisen in the French-Chinese difficulty. The blocking of the bar at the mouth of the Woo Sung river has been ordered by the Chinese authorities, although a passage for the ships of neutrals is to be left. This action is due to the Chinese disbelief in the promises of the French. A veritable panic prevails at Shanghai, and the merchants of the neutral Powers have asked the naval commanders of the Powers to take some action. The British Consul has advised the Chinese authorities to obtain skilled English assistants to keep the traffic open. Russian Consuls have offered to protect French interests whenever the French Consuls leave. The Russian fleet in Chinese waters comprises one ironclad, three cruisers, two privateers and six gunboats. Three other ironclads are expected to arrive. This strength, in view of the smallness of Russian interests in China, is considered significant. A despatch of the 23rd to the *Times* states that a Franco-Russian alliance means the disintegration of China and its partition between those two countries. France taking three of the southern provinces and Russia having China as a recruiting ground for her armies, the two countries being connected by railways. The alliance also means Franco-Russian preponderance in Europe, and is, therefore, fraught with danger to Germany. It also means the extinction of the China trade and imperils all English possessions in the East. 4,500 French troops are reported sick in Tonquin.

The revolution in Peru shows signs of collapsing under the successful efforts of the Government. Mr. Gladstone, the English Premier, in a speech at Carlisle, said: "In the present crisis the Lords ought to study the best means to provide that the House of Lords shall not fall. This end can best be secured by their acting with moderation and prudence."

The corporation of Limerick, Ireland, has rejected, 18 to 2, a proposition to provide for the payment of the special police tax as reduced by the Lord Lieutenant of Ireland. The British authorities are taking extreme precautions at Dover to prevent the landing of dynamiters endeavoring to reach London from the Continent.

WORD PUZZLE NO. 4.

EDITOR BULLETIN:—A plague on the careless typos, say I. I was one myself once, and I know them to be a contemptible set of heartless wretches, who delight in ruining the aspirations of their literary betters. One of this horrid class lopped off the tail from the answer to my Puzzle No. 2, and make it *Pearl* instead of *Pearly*. A third blunder typographical of this enormous magnitude, and the author of it dies with his room-mate's boots on!

I am dreaded by actors who make me. Though I often give pleasure to them, I am fondled by dudes, fops and dandies. And the lady-darlings of the *de la creme*. I am used by the healthy and feeble. And am often applied to the head—But do not apply me too strongly. Or some one may weep for the dead.

Few society belles can admire me. I am not what the girls like to wed. If a bright girl was forced to a choosing, She would marry a wild rake instead. I am known to the bar-men and printers. By the former I'm sold in a glass, And I sometimes am used by the gardener To coax little boys off the grass.

Behold me, and I am a warning That is heard every hour of the day—The voice of Old Father Time telling That life is fast ebbing away.

I oft am a boon to the needy. I'm a pest to the vendor of wares, I'm a friend to collectors and lawyers, And my outside the maid often ares. I'm a troublesome, tormenting creature, To bipeds and quadrupeds too, I'm a backbiting sucker and crawler. And our Premier can prove my words true.

"Sibyl," I smile to giggle if I can tumble to your little numerical racket of last Saturday. You say you are composed of 16 letters, and then demand an answer containing 26 letters, most of them being duplicated. But I may be too stupid to understand how such matters are managed, and had better *hoomanawani*.

A RIDDLE IN RHYME.

EDITOR BULLETIN:—The following clipping from an Eastern journal was sent to me by some friends yesterday, for the purpose of testing my abilities as an analyst of such mixtures. I do not consider it a very fairly worded riddle, yet I solved it quite readily—at least, I think I did. Will some of your readers try it? My solution will be forwarded to you with my next puzzle:

On one occasion, while at a dinner party, Dr. O. W. Holmes composed the following riddle:

"My initials show my date to be The morning of the Christian year; Though fatherless, as all agree, I am a father, it is clear? A mother too, beyond dispute; And when my son comes, He's a fruit. Now, not to puzzle you too much, 'Twas I gave Holland to the Dutch."

JOHN B. RASH.

NUMERICAL ENIGMA.

I am composed of 15 letters. My 7, 11, 4, 1, 3, is a culinary plant. My 5, 13, 1, 8, 11, is unlike a bird, as one of it in the bush is better than two in the hand.

My 12, 6, 14, 2, 12, 13, is where pure hearts should be better esteemed than heavy pockets.

My 6, 7, 2, 11, is common in the animal kingdom, and much used in similitude and symbolism.

My 15, 5, 7, 2, 10 is an architectural term.

My whole is an Australian mammal. TYRO.

The long looked for opening of this store will be on Monday, Sept. 15th, with a full stock of

Confectionery,
Soda Water,
And Tobaccos.

ROBT. DONNOLLY, manufacturer of Soda Water, Ginger Beer, Root Beer and Spruce Beer, will offer to the public on Monday, cooling drinks superior to any in the Hawaiian Islands. The drinks mentioned above are manufactured at my Soda Works, back of Ro'e Cottage. O. e. trial of my Arctic Soda will pronounce it the best in the city. My syrups are imported from London, comprise the choicest of English fruits, namely—Gooseberry, Cherry, Pear, Raspberry, Strawberry, Lemon, Red Currant, Black Currant and Pine Apple, caraparilla, Ginger, Orange and Vanilla. Any of these fruits at

5 cts per Glass.

My motto is, to give a superior article even if it cost more, and thereby ensure speedy sales.

With my GINGER BEER, ROOT BEER and SPRUCE BEER, I have been at a heavy expense experimenting on them, so as to give the public drinks that will be both strengthening and refreshing in this climate. I guarantee them strictly VEGETABLE, no MINERALS employed. I use some of the finest medicinal herbs that grow in the States. The public wants a drink with some nutriment in it, this you find in my beers that strengthen the body as well as dilute the blood for purposes of more easy flow through the system. They can be taken by any one as they are absolutely pure. They are the most enjoyable thirst quenchers ever introduced. I will sell them at prices to suit one and all.

Superior Ginger Beer, 10c. per bottle.

J. E. WISEMAN'S New Business Card.

Ready for Active Work Again.

THE Business Community and my Patrons generally throughout the Islands will please take notice that I have returned from my trip to the Coast and with improved facilities for conducting my General Office Business. I most respectfully solicit in the future the patronage heretofore extended to me during my business engagement in the Kingdom for the past five years.

In addition to my various departments, I have been appointed sole Agent for the St. Jo & Harbital and the Burlington and Quincy Rail Roads, also, soliciting Agent for the San Francisco Illuminating Card Advertisement Company. Orders for Goods, Wares and Merchandise of every kind and nature sent to the Coast, and satisfaction guaranteed and on the most reasonable terms.

In my Real Estate Department, I have always on hand choice property to sell and Houses, Rooms and Offices to lease and let. I collect rent, pay and discharge taxes, insurance and order necessary repairs when required. Landlords and Owners will find that it will be to their advantage to place their Real Estate interests in my hands, as I will carefully attend to this branch of my business to their entire satisfaction. Custom House Entries executed at short notice. Books and Accounts kept and adjusted, and Quarterly Bills distributed and collected accurately and promptly. Soliciting Agent for the Mutual Life Insurance Co. of New York, also Fire Insurance Agent.

Don't forget that I do business on business principles. Give me a call.

J. E. WISEMAN,
The only recognized General Business Agent in the Kingdom.

The Royal Hawaiian Band will give a Concert at Emma Square on Monday evening.

The S.S. Mariposa will be due from San Francisco on Wednesday morning next.

Improvements are being made to the sidewalk in front of China Engine House on King street.

We acknowledge the receipt of the *Planters' Monthly* for October, which will receive due notice.

The barkentine Ella arrived at San Francisco Sept 22d. She was thirty two days going up from here.

The barks D. C. Murray and Lady Lampon are now playing between San Francisco and Sydney.

The P. M. S. S. Zealandia arrived this morning at 8 o'clock, 6 days and 15 hours from San Francisco.

The brig Claus Speckels sailed for this port September 25th, with an assorted cargo valued at \$18,699, including 268 telephone poles.

Horn has got a nice lot of Easter citron buns, fresh made this afternoon.

The Bible lawn party announced for this evening has been indefinitely postponed.

The Zealandia brings the news that the price of sugar has gone down a shade since last advices.

The Strangers' Friend Society meets on Monday morning at 11 o'clock, at the Y. M. C. A. Hall.

Joe Thompson, the greatest book-maker on the Australian turf, was a through passenger by the Zealandia.

REMEMBER Lyons & Levey's sale of gold and plated jewelry, at their salesrooms to-night, commencing at 7 o'clock.

Mrs. Palmer is very much improved in health to-day, and Sister Mary Clare remains about the same.

The Zealandia brought no passengers for this port. She has in transit for the Colonies 44 saloon and 48 steerage passengers.

The steamer Kinross came from Lahaina to the bell buoy in the quick time of 5 hours 20 minutes, averaging 14 knots.

Cabinet Photos \$3 per doz, cards \$1 per doz at Sun Pearl Gallery, corner of King and Fort streets, formerly A. A. Montano's. 826 tf

The trial trip of the Inter-Island Steam Navigation Co.'s new steamer will take place on Monday, and she will leave San Francisco on the 15th for this port.

In the Police Court this morning, Kanui for being drunk was fined \$6, Kahanani, charged with disorderly conduct, was sent to the reef for five days and to pay costs.

PENNSYLVANIA has an editor 91 years old. He attributes his long life and excellent health to the fact that he never expected to please everybody, and never tried to.

The Mutual Telephone Co. is erecting on the top of Hon. Godfrey Rhode's building on Kaahumanu street, some frame work to receive the wires from Fort street, thus preventing any connections being made on Campbell's new block.

To-morrow at the Bethel Union Church, at 11 a.m. sacrament of the Lord's Supper will be administered and new members will be received. Children's service or Sunday school concert in the evening. Strangers and all others are cordially welcome.

Our attention has been called to the bad state of the Waikiki road. From Mr. Jaeger's to Queen Emma's residence, it is full of holes, some of them very large ones. From the native church to Kapiolani Park, the road is blowing away. This road, which is used so much, ought to be attended to at once.

By the Alameda, M. McNerny has again received 150 sets of those fine harness, which he has been selling for the past year, and which have been pronounced fine goods, at very low prices. They can be found in both single and double, Light Buggy, Express and Truck harness. Every one needing such ought to see them. 828 6t.

The Captain and officers of H. I. J. M's. Ship Tsukuba gave a delightful party on board yesterday afternoon. The ship was most beautifully decorated, and the refreshments were excellent. The attendance was not large, probably owing to the gloom cast over our city on account of a recent death. His Majesty the King was present attended by Major Purvis.

It is reported that some theatrical and musical companies are thinking of shortly visiting Honolulu. If our advice is worth anything we should say, most decidedly, that they would be better off by not coming. Certainly, it would be very pleasant to have a few good performances, but the present dull times do not admit of money being spent for such purposes.

We unintentionally omitted to mention yesterday, that a squad of police under direction of Deputy Marshal Dayton, rendered great service at the funeral of the late Mr.

May. The coffin, which was very heavy, was borne by them from the house to the hearse, also in and out of the church, and laid in its final resting place, not a hitch occurring.

Mr. J. W. Kalua, who is in San Francisco, writes to say that Consul Severance had received a telegram from Italy, stating that James Booth, one of the Hawaiian boys abroad, had died from cholera. His loss is to be much regretted, as he gave great promise for the future.

The attention of the Board of Health is called to Montgomery Square near St. Louis College. A sick horse lies there, and a native with handcart is dumping offal from town within twenty feet of a house. It is a very good chance for fever to break out in that quarter.

At Fort Street Church, Sunday morning, baptism and the Lord's Supper will be administered, and new members received. In the evening Mr. Cruzan's subject will be, "An Unerring Detective."

Mr. H. M. Whitney, Postmaster-General has tendered Mr. Cutler the following testimonial of the qualities of the People's Cyclopaedia of Universal Knowledge: "Having examined this publication carefully, I take pleasure in recommending it to all who need a work of this kind. Its chief merits consist in the admirable conciseness and clearness of its descriptions, which are confined to such information as the general reader or student wishes to obtain on any subject to which he wishes to refer. Its typographical execution, including its 5,000 illustrations, 58 colored maps, and numerous tables, can hardly be excelled. The size of the work, in its three handy volumes, furnished at a moderate cost, renders it convenient for daily use, and within the means of almost every one. The statistical tables in the third volume, referring to nearly every branch of information, and corrected to a recent date, are so comprehensive as to be invaluable to all. Having been for many years familiar with the leading publications of this class, I am certain that residents of these Islands, who purchase a copy of this Cyclopaedia, will prize it and never regret having used it."

EMMA SQUARE CONCERT.

The Band will play at Emma Square this afternoon at 4:30. The following is the programme:

March—Norah..... Hansen
Overture—Italian in Algiers..... Rossini
Gallop—Street Cars..... Verdi
Selection—The Partisans..... Bellini
Waltz—Vienna Bon-Bons..... Strauss
Dance—The Aborigines..... Thiers

A gentleman lately from Cape Town, Africa, said to a Detroit reporter that the diamond fields were by no means exhausted. The leading diamond mine is the crater of an extinct volcano, which, since 1870, has given to the world at least \$100,000,000 worth of diamonds, and is still yielding at least \$15,000,000 worth yearly. The crater has been emptied to a depth of 300 feet. Experts have bored down to almost endless depths, however, and report the supply as practically inexhaustible. Although the workmen are naked, have their hair clipped, are closely watched and liable to severe punishment for stealing, they get away with a great many diamonds by swallowing them. Crystals abound among the more precious stones, and are distinguished by being hard and unyielding when touched by the tongue, while diamonds in the rough are velvety to the touch.

Stallions at Marshfield!

"BAZAAR."
(Thoroughbred.)
By Jack Malone, he by Lexington.
1st dam, Ivy Leaf, by imported Aus-
tralian; 2nd dam, Bay Flower, by Lexington;
3rd dam, Bay Leaf, by imported
Yorkshire; 4th dam, imported Maria
Black, by Pello da Puth, etc., etc.
Bazaar was bred at the great Wood-
burn Farm, near Lexington, Ky., by the
late H. A. Alexander, and was sold to
W. L. Pritchard, of Sacramento, Cal.,
for \$500. He stands tall, hands,
weighs 1,605 lbs., and is a bright chest-
nut color. During his racing career he
won many a favorite, and won many
a haul of money for his owners, and
proved himself one of the greatest of
horses over a distance, most of his races
being at two and four miles. He has
already sired several colts in California
that are winners, among which are
Lizzie Danbar, Young Bazaar, Sophia,
and another called the Bazaar. Minerva
C. H. he beat out of Minerva, by im-
ported Laming on the site of Parole
and Inquans. Lizzie Danbar greatly
distinguished herself last year in her
two-year-old form by defeating one of
the largest fields of two-year-olds that
ever started in California, among which
were the two beautiful fillies brought
here last Spring by Mr. Agnew, distance
3/4 mile; time, 1:04 1/2, the fastest time on
record for two-year-olds at the distance.
This year she has won several important
events, and has proved herself to be a
crack three-year-old.

Bazaar has now been brought back to
Honolulu, and will remain here the
balance of the year, and breeders, horse-
owners and stock raisers should avail
themselves of the opportunity to obtain
his services while they have the chance.
Terms, \$40. Payable at time of
service.
The imported Clydesdale Stallion
Donald Dinnie, Jr., will stand at
the same time and place at \$30 for the
season. He was bred in Canada, sired
by imported Donald Dinnie, and out of
an imported Clydesdale mare. He is a
beautiful dapple grey, 16 hands high,
and weighs 1,400 lbs.; is very active,
and as fine a large horse as could be
found anywhere.
Also, the fine large imported Ken-
tucky Jack Sampson. This is one
of the largest Jacks that we could find
in California, and is an animal of im-
mense bone; is a very sure breeder, and
should be liberally patronized, as he is
one of the very best animals of his
kind. Terms, \$30 for the season.
The public are cordially invited to
call and inspect the above animals.

CATO'S SONG.

[Harper's Weekly.]
 "Cato, have you quite forgotten
 How you used to sing the cotton
 Still to sing some pleasant strain?"
 "Laws, no, I can sing again."
 And the clear voice clearer rang,
 As he swung his hoe and sang.

"If you want to purport water,
 Just go up to mountain side,
 Whar de river starts his running
 Down to catch de great sea tide.
 If you want de reddest roses,
 You will find dem nodding high,
 Whar dem catch de blessed dew drops,
 Whar dem see de morning sky."

"Would you eat dem sweetest peach s,
 Juicy red or yellow bright,
 Den you hab to climb up fur dem
 Whar dey grow right in de light.
 If you seek true friend or lover,
 Upward too de road you take,
 Hearts should neber trabel downward,
 Else dey might ay to break."

"If you look fur fame or a glory,
 You must climb up a will:
 Fur 'tis just de same old story—
 Up and up, and onward still.
 We am born down in de valley,
 But if heart and feet don't tire,
 We can still be going upward,
 Upward, higher, higher, higher."

"Higher! higher! higher! higher!"
 And at every cotton hill
 With and with de his hoing,
 Sing louder, clearer still.
 Till I heard de echoes ringing,
 In my spirit brave and strong,
 Till I homeward turned me singing,
 Singing over Cato's song.

Cows' Hair in Carpets.
 [Cincinnati Times-Star.]
 I don't suppose I could get any one to discuss with me the proposition that cows are very useful animals, but I imagine that it will be news to many that one of the uses of the cows is to furnish material for the manufacture of carpets. It is a popular theory that sheep have a monopoly in the carpet producing industry, and in fact they formerly did have things all their own way; but now the gentle sheep has been shorn of a part of its supremacy and the cow has been put forward as a rival. Perhaps I should preserve silence in this matter if for nothing else to avoid shaking the faith of unsuspecting housekeepers in the belief that all wool carpets are all wool; but my journalistic instincts will not permit me to suppress a bit of news, particularly when I know it will be of interest to so many.

One day last week a man showed me a bunch of something which at a distance might be taken for wool. It was perfectly white, rather soft to the touch, but was not curly enough for wool, and the fibers were but an inch or an inch and a half long.

"What is it?" I asked, somewhat mystified.
 "No, it is not a 'what is it,' the man said, 'but it's a bunch of cow's hair.'"

"Oh, yes," I replied, "it's to put in plastering."

"No, it is to put in carpets. This is the latest in adulteration—you know every thing must be adulterated nowadays. There is a firm in this city which buys up cow's hair, puts it through a chemical process which cleanses and bleaches it, and sells it by the bale to parties in the east—the home of wooden nutmegs, etc.—who spin it into yarn and use it, with a certain proportion of wool, in the manufacture of carpets and plushes. (Quite a large business has sprung up in the preparation of cow's hair, and as the process of preparing it is patented, the concern that owns the patent is making money out of it. I expect that they will be wearing clothes made out of cow's hair after a while.)"

Danger in Cooking Utensils.

[St. James' Gazette.]
 Apart from the danger which, according to doctors, we run of being poisoned by nearly every description of food we eat, there is another risk quite as serious involved by the consumption of cooked food, however wholesome of itself, which has not yet received the attention it deserves. It is to be feared that a thorough overhauling of kitchen utensils, even in well-regulated households, would lead to some alarming revelations from a sanitary point of view as to the condition of these articles. Some remarks bearing on this point which may be of value to those who are anxious to preserve life and health are to be found in the report of the principal of the Inland Revenue Laboratory for the past year, just issued. Speaking of samples received at the laboratory for analysis from the admiralty, the report says that special attention appears to have been directed by that department to the character of the enamel linings of cooking utensils.

It is well known that most of the enamels contain considerable quantities of lead and arsenic in a condition easily acted on by vegetable acids, and many of the specimens analyzed consisted of the enamel and glaze of dishes suspected to contain those metals. The results of the analysis showed the necessity of the examination; for many of the enamels contained dangerous quantities of lead and arsenic, and proved that most of the utensils could not be recommended to be used with safety, while a few showed that it was practicable to prepare an enamel and glaze free from harmful substances. The moral to be drawn from these observations is: Look not only to the food you eat, but also to the vessel in which it is cooked.

Working Up an Interview.

[London Truth.]
 The laws of interviewing admit of a wide margin. Charles Wyndham was telling me recently how he was interviewed in America. The energetic reporter caught him just as he was changing between acts. "I haven't a minute to spare," replied the actor, hurriedly. "This is one of my quickest changes." "You have been very successful," continued the interviewer. "I am glad to hear it," replied Wyndham. "May I call on you to-morrow?" "Unfortunately, I am off early in the morning, so I fear I cannot give myself the pleasure of seeing you." "Good evening, then." "Good night." This conversation the next morning occupied a column and a half.

Paper Plates.

[Chicago Times.]
 A daring landlord in Berlin has introduced paper plates. Bread and butter, cakes, and similar articles are served on these paper-mache plates, which have a border in relief and closely resemble porcelain. The landlord likes them because they are so cheap they can be thrown away after once using, waiters like them for their lightness and because they are neither to be washed nor broken, and guests are delighted to take them away as souvenirs.

His Objection.

[Exchange.]
 "Arise with the lark, and with the lark to bed," read a little boy from his first reader; then he stopped a moment and contemplated the picture of a lark at the head of the lesson. "Mamma," he said, "that lark's toe-nails are so long I'd be afraid to go to bed with him."

A SKILFUL SURGICAL OPERATION.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms:—The appetite is quite poor. There is a peculiar insupportable distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and sticky—a cold perspiration. The sufferer feels tired all the time, and sleep does not seem to give rest. After a time the patient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a reclining position there is a dizziness, a whirling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes closed, or nearly so. Although this disease is indeed alarming, sufferers with the above named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farringdon Road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary-street, Peterborough, November, 20th, 1881.
 Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the syrup, I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly,
 Mr. A. J. White, William Brent.

September 8th, 1883.
 Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues: one customer describes it as a "God-send to dyspeptic people." I always recommend it with confidence.

Faithfully yours,
 (Signed) Vincent A. Willis,
 Chemist-dentist, Merthyr Tydvil.

To Mr. A. J. White,
 Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Spanish Town, Jamaica, West Indies, Oct. 24, 1882.

Dear Sir,—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men," and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am dear Sir,
 Yours ever gratefully,
 (Signed) Carey B. Berry,
 A. J. White, Esq., Baptist Missionary.

Preston, Sept. 21st, 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.

The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "some of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it." The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.

I am, dear Sir, yours faithfully,
 (Signed) John H. Lightfoot.

To A. J. White, Esq.,

Hensingham, Whitehaven, Oct. 16, 1882.
 Mr. A. J. White,—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health—I remain, yours respectfully,
 (Signed) John H. Lightfoot.
