Frivolous Causes for Which Separations are Sought Denounced Last Night.

of Central Union church, says that di- understanding of one another." forces are imperilling the American home, and that this is due in a large measure to the latitude allowed by the courts for the dissolution of the marriage tie.

In a sermon last evening to his congregation, Mr. Kincaid made some startling revelations concerning the abuse of the divorce laws and the frivolous causes upon which annulments of the bonds of matrimony are sought. "What God hath joined together let no man put asunder" was the text. He considered the divorce evil as the

greatest foe to family life. He divided the subject into two parts: What is marriage? and under what circumstances may it be dissolved?

He contrasted the two conceptions

f the subject from the Pagan and the Christian points of view. The Roman Catholic position was that marriage was a divine law and that the church has the right to determine who should carry and who should not. On the other hand the Protestants, in their revolt from the Catholic church, denied that marriage was a sacred rite and that the church had any right in deermining who should marry and who should not, and said that it was a civil entract, like any other contract. This lectrine taught that in taking this position the parties to this marriage vere simply partners in a common enterprise and that being partners in a ommon enterprise the natural logical conclusion was that the partnership February, for the settlement of the could be dissolved by mutual agreement of the two parties.

Mr. Kincaid said in contrast to this all should turn to the teachings of Christ from which the text is taken. pears that the Chinese claims are less the words of Christ were a denial of than was at first estimated and that Christ from which the text is taken. the Pagan conception of marriage at the total of the Japanese and Chinese three crucical points—first, that it was claims is approximately \$1,800,000.

The Chinese Government has not ordinance, and second, it defied the been in a condition of late to exert parties to a marriage were partners, pressure in behalf of the claims of its out declared them to be of one flesh,

Excerpts from dissertations on the old Roman customs were quoted to show what the Pagan view of marriage

The ease with which divorces were granted was illustrated by the record of the St. Louis courts, where between the hours of 9 a. m. and 4 p. m., in a single day not long since, sixty divorces were granted. He then quoted the California laws under which divorces could be granted. These were for cruel and inhuman treatment and other statutory causes, and he cited many amusing instances as adduced by the testimony to show how frivolous cruel and inhuman treatment. Among them were the following which he read:

"The witness testified that he had seen the plaintiff with but one button on his vest, and that he heard the de-Between Boards-One hundred Ookala, fendant say that she would not allow the plaintiff to go to fires at night. court decided that the wife was The guilty of cruel and inhuman treatment

and granted a decree of divorce."

Another was that "defendant treats December 27. No. 7198-Lipeka Kaushi plaintiff with great and unmerited congoing remark was adjudged to be cruel December 28. No. 7200-L. K. Puahi and and inhuman treatment, as it caused husband, M., to W. R. Castle, Jr., tr.; and inhuman treatment, as it caused mental anguish. A decree of divorce Grant 837, Kalihi, Honolulu, Oahu. Con-

December 21. No. 7226—W. Piipali et and women in this land where so much has been made of manhood and women in the land where so much has been made of manhood and women in the land where so much has been made of manhood and women in the land where so much has been made of manhood who will stand up before God and pledge themselves to love and

cherish and respect and take each other for better, for worse, who after a few weeks or months tear their covenants into pieces and fling them to the winds for the frivolous reasons that the husband did not take her out riding or another did not get up early in the morning.

"The safety of the American home depends upon the recognition of funda-mental principles; that marriage is a divine ordinance brought into hu man society; that husbands and wives are not merely partners who can break the partnership at will. The marriage bond is not only for richer or poorer, for health or sickness, but for better or worse. They fly for refuge from con-nubial infelicity to the divorce courts That is not the remedy. It is a long-suffering love; the remedy is not in separation, but in closer union. It is the spirit of discontent that seeks to make separations. It is the spirit of suspicion, not of truth, the discouragement, and not hope, that makes separations. The love that trusts, and when it can no longer trust, still hopes, and when it cannot longer hope, still en-dures; the love which is like the love of Christ which nothing can destroy Rev. William Morris Kincaid, pastor will bring men and women into a better

#### **PADEREWSKI** IN THE ROLE OF DUELIST:

NEW YORK, Dec. 26 .- A cablegram from Paris says it is rumored that Ignace Jan Paderewski, the famous planist, fought a duel near the French capital and was killed. No particulars were given. PARIS, Dec. 27, 5 a. m.—Inquiries in quarters most likely to be correctly informed on the subject show that nothing is known in Paris to justify the report circulat-ed in the United States that Ignace Jan Padereswki, the planist, has Jan Padereswki, the planist, has been killed in a duel in France.

Commandant O. L. Hein Testifies.

Hazing is Traditional at the Academy and Thought Well of By Many.

WEST POINT, N. Y., Dec. 29,-Lieutenant Colonel Otto L. Hein, Commandant at the United States . Military Academy, was the first witness called today to testify before the Court of

Inquiry appointed to investigate the allegations of brutal hazing of cadets. Col. Hein produced the Superinten-Col. Hein produced the Superintendent's sick reports, which showed that Cadet Booz had only reported sick once while he was at the academy. He was excused on that occasion from drill, as he was suffering from an acute attack of diarrhoea, The records made it clear that Booz had never been absent from a meal while he was a cadet at West Point.

An extract from the records was read
by the witness, who said Cadet Booz
had availed himself of the Saturday
evening privileges of going anywhere by the witness, who said Cadet Booz had availed himself of the Saturday evening privileges of going anywhere within the reservation on Saturday, August 6, the day of the Booz-Keller fight. Booz reported his going away at 1:58 p. m. and his returning at 2:18 p. m. In reply to General Clous, the witness said that in the summer of 1899, through an anonymous letter, the brutal hazing of Cadets MacArthur and Governor Dole May Ask the Haskell came to the knowledge of the academy officials. An investigation was immediately ordered, but no information as to the facts could be elicited from any of those examined, among whom were MacArthur and Haskell. The regulations prohibiting hazing provided punishment for hazers and hazed alike. In telling of the agreement made by the fourth class men in 1899, among whom were Cadets MacArthur and Grant, not to submit to hazing, Col. Hein said:

"I called the class together (it was a not to submit to hazing and promise not to haze anyone themselves they would rid the academy of a foul blot on its reputation. Soon afterwards they appealed to me to be released from this agreement, but I refused.
"I also heard." continued the wit-

#### BUYS A PACIFIC ISLE. The Government Acquires Private

Property at Guam. NEW YORK, Dec. 29.—Secretary Long has purchased for the United

States Government another Pacific Island, avers the Washington correspondent of the Herald.

This island is under the American flag and lies in the harbor of San Luis d'Apra, Guam. It is proposed to use it as a site for a coaling station. The price paid for the island was \$900 in American gold. It is 130 acres in extent, is healthy and, it is believed, will make an admirable site for the proposed station.

The island was owned by severa prominent natives of Guam, who, officials say, will live in affluence as a result of the sale.

Situation Brightens For the Planters.

### HAPPY ITALIANS ON MAUI

Day of the Sullen, Loafing Japanese Passing With Coming of Whites.

(Special Correspondence.)

MAUI, Jan. 5.-The labor situation begins to show some signs of improvement, insomuch as a beginning has been made in introducing a different class of workers than the Orientals; and one hopeful feature is that those men who have come seem to be animated by a feeling of friendliness towards their employers, which is con-LONDON, Dec. 27.—"The New York Yacht Club," says the Daily Express, "will invite Emperor Welliam and the Prince of Wales to witness the cup races, and Prosident McKinley will also send notes express in the pleasure their visits would give."

Sir Thomas Lipton, who has been interviewed on the subject for the Daily Express, said he thought it within the range of possibility that the Prince of Wales would accept such an invitation.

wards their employers, which is considered and instance of this:

At the New Year's eve dance at Sprecketisville the lately arrived Italians came over to the manager's house, a distance of several miles, spontaneously, and rendered a fine vocal serenade, which was much appreciated and applauded by the assembled guests.

The singing was, remarkably good and a great musical treat, but the chief of several miles, spontaneously, and rendered a fine vocal serenade, which

and a great musical treat, but the chief part of the pleasure to be derived from It lay in the fact that it seemed like the dawn of a new era in that a nearly allied race had taken the place of the alien Oriental, and that consequently much closer relations between employers and employed seemed to be foreshadowed. Are we not all breth-ren? some one may inquire; but an affirmative reply is much easier when instead of a howling mob of strikers giving a medley in the language of the Mikado one meets with a band of sweet singers rolling out the dulcet lyrics of BURLINGTON, Iowa, Dec. 27.—A one of them.—Canadian-French, Portuelephone message from Washington, guese, Porto Ricans and even to the

All the mills on this Island are now grinding, but few of them can make more than half time on account of the scarcity of laborers in the fields, and not a moment should be lost in remedying this defect.

# GREAT FAILURE IN THE LONDON FINANCIAL WORLD

ONDON, Dec. 29.-The London and Globe Finance Corporation, Limited, has suspended payment. When the brokers yesterday delivered stock purchased on account of the London and Globe and asked for payment they received checks which were dishonored. This was followed today by the failure on the Stock Exchange of twelve firms, as follows: Haggard, Hale & Pixley. Garle & Driver, Douglas, Jr., & Co., Cornfoot Bros., F. A. Cohen, Blockey & Buckingham, Gunn & Aubrey, Richards & Sloper, Baker, & Smith, F. C. Watts & Co., Flower & Co., and F. Boully &

The first named is a big firm with important connections. It is feared a number of smaller jobbers will be affected.

While the differences of the firms closely connected with the London and Globe division were largely discounted, the repeated fall of the hammer this morning caused a great sensation. It is feared the full list of failures is not yet

known.

Almost the whole interest on the Slock Exchange today centered in the West Australian market, the condition of which sympathetically affected the others. All the shares of the London and Globe group toppied, especially Lakeviews and Leroi No. 2. The shares of the latter were yesterday quoted at 23, but today they are unsaleable at 4. The London and Globe is also heavily involved in the British Columbian market. The situation is not yet cleared up, as the rumors of arrangements to assist the London and Globe are not credited in well-informed circles. There is the greatest indignation against Mr. Whitaker Wright, who is the fountain-head of the concern, and others of the London and Globe group. There has been somewhat of a recovery in Lakeviews since last evening.

The chairman of the London and Globe Finance Corporation, Limited, is the Marquis of Dufferin and Ava, the former Governor General of Canada, and British Ambassador at Paris. The failure of the concern of which he is the head adds one more sorrow to the closing chapter of his life, for he is today preparing to start for South Africa, in company with Lady Dufferin, in consequence of the serious condition of his son, Lord Frederick Temple Blackwood, licutenant in the Ninth Lancers, who was wounded Monday at Glenfontein. It is scarcely a year ago since Lord Dufferin lost his eldest son, the Earl of Ava, who died at Ladysmith. He is now encompassed by family grief, to which are added these serious financial troubles.

Lord Dufferin's fellow directors are Whitaker Wright, who is well known a connection with many companies; Lieutenant General, the Hon. Somerset-Gough Calthorpe, who has been colonel in chief of the Fifth Dragoon Guards since 1832, and Lord Pelcam-Lincoln, Master of the Queen's household and a son of the former Duke of Newcastle. Lord Dufferin holds 5,000 shares of the London and Globe and 20,000 British Americans.

According to last night's dispatche from London, some trouble was disclosed on the Stock Exchange yesterday in the West Australian market, resulting in a considerable fall in the share of the London and Globe Finance Corporation, Limited, and Leroi Mining Company, Limited. Seven firms had checks returned by the clearing house. This, the dispatch added, did not imply failure, however, as it is expected that the usual period of grace allowed will enable the firms to meet their engagements.

dispatch added, did not imply failure, however, as it is expected that the usual period of grace allowed will enable the firms to meet their engagements.

The thirteenth failure of stock brokers was announced before the close of the Exchange. It was that of Bartholomew & Jacks. The fact that a crisis has been reached in the speculations of the Whitaker-Wright group of mines and that the worst was known, occasioned a feeling of relief, after the strain of anticipation. While the mining market continued depressed, other departments quickly recovered.

NEW YORK, Dec. 22.—There was a reflection in the opening stock market of the unsettled conditions in London, growing out of the embarrassment of the London and Globe Finance Corporation. A number of international stocks opened down from I to 1-5-8, Kansan and Texas preferred and Northern Pacific being the greatest aufferers. Sugar feil 1-5-4. The few stocks which showed gains were not aggressively strong. The opening declines attracted large buying orders all through the list and there were quick recoveries all around.

#### **QUERIES FROM** CHINESE COURT

NEW YORK, Dec. 29 .- A dispatch to the Herald from Peking says: A note was received last evening from the imperial court at Si-Ngan-fu acknowledging the receipt of the demands of the

It further contained five questions, or requests, namely: First, might not the Taku forts remain standing, hough dismantled?

Second, is it proposed to behead princes the same as other offenders? Third, if the demands are acceded to, could the allies cease sending out ex-

peditions? Fourth, what places do the allies proose to occupy? Fifth, how long do they propose to

ecupy them?

Gerritt P. Judd, son of the late A. F. Judd, who was injured Friday night at a cattle corral near the Damon Ranch, is getting well. The young man was engaged in lassoing cattle there and was mounted on a mule. The animal atumbled while a bull was being pursued, and young Judd was thrown from the saddle, his foot catching in the stirrup. The mule continued on its the stirrup. The mule continued on its run as seen as it regained its feet, and the young man was dragged about the enclosure, unable to help himself out of his difficulty. He was much bruised about the face and body, while a severe cut was inflicted on his chin. Several stitches were taken to close several of the wounds.

# FOR THE BIGGEST CITY ON EARTH

### The Republican Charter Committee's Municipality Plans.

#### MAJORITY REPORT RECOMMENDS THE INCLUSION OF ALL OF OAHU

Startling Proposal Made Public Last Night Which Brought the Protests of the Minority and a Flood of Argument.

HE Republicans were treated to a surprise last night at the regular semi-weekly meeting of their charter Committee. Their sub-committee on "draft of charter" brought in two reports on the question of boundaries of the proposed city, and the present Territorial laws, rules and regular reports.

In the biggest city in the world.

This proposition rather staggered most of the committee which, as stated by Clarence M. White, had been led to believe from the verbal report of the sub-committee at last Friday's meeting that the city of Honolulu at the most world not extend the most extend to the most extend the most extend to the most extend to

Mr. Davis had said in effect that his vested of the control of municipal saids, committee would have to personally and the same being ledged in courty and visit the suburbs, and until then could municipal organization, as provided not report definitely. He also said that might be done in the Organic Act, will the committee would probably report to a very great degree reduce the cost

THE MAJORITY REPORT.

Your committee appointed to prepare a charter for the municipal government of Honolulu, and to establish the boundary

(From Saturday's Daily.) thereof, shall constitute the legislative body of the municipality, so forming a representative government, and shall

majority report, signed by three of the lations as the laws, rules and regulations of the municipality, thereby continuing in force the present well-organiz-

to believe from the verbair report of the sub-committee at last Friday's meeting that the city of Honoluu at the most, would not extend beyond the present taxation district of Honoluu, Time for mature consideration was demanded by Mr. White, and his motion to postspone a vote on the size of the new city until the next regular meeting, on Tuesday, finally prevailed.

Opinion varied as to whether the sub-committee could proceed with a draft of a charter until the question of boundaries was disposed of, but no one except members of the sub-committee conductives, the general committee adjourned to gather their scattered thoughts and recover from the shock produced by the prossition and, after hearing formal reports from the other sub-committees, the general committee adjourned to gather their scattered thoughts and recover from the shock produced by the prossition and, after hearing formal reports of the committee, however, it looks as though there will be plenty of arguments presented at Tuesday's meeting, and meantime it is hoped to source through the press and street corner and restaurant discussion some expression of public opinion on the topic of the proper boundaries of Honoluiu. "The Committee of Thirty" was called to order at 7.40 o'clock by Chairman, J. A. Gilman, treasurer; J. H. Boyd, George A. Davis, and the seeratary prot tem. Rolt call showed nineteen members present. They were fearly being absent, W. R. Sims, end T. H. Fisher, chair on the faces generatary prot tem. Rolt call showed nineteen members present. They were fearly being absent, W. R. Sims, end T. H. Weaver, C. M. White, E. O. White and J. H. Wilson.

After approval of the minutes, the chair called for the report of the sub-committee had been instructed to report to the general committee on the face of the committee had been instructed to report to the general committee on the face of the committee of the property.

While it may be urged that the expenses of the committee to treat with this view of the property of the property of the proper

committee had reported verbally by erly under consideration by the committee George A. Davis and had been in- tee, as to afford the committee reason-structed to bring in a written report, able grounds for touching upon the During the course of his remarks same. The Territorial Government de-

not report definitely. He also said that the committee would probably report to a very great degree reduce the cost in favor of a city restricted to the residence district, or what within the next six years or so would be the residence district, as a city covering the entire Island of Oahu was too unswieldy.

This statement was not combatted at the time by the only other member of the draft committee present. Consequently, when a majority of the committee, consisting of J. G. Pratt, T. McCants Stewart and A. V. Gear, brought in a report which proposed to include the entire Island, the general committee was unprepared.

After a preliminary statement as to what his committee had done, W. O. Smith, chairman of the committee on draft, said there was a disagreement and a majority and minority reports would be presented.

As he belonged to the minority, he

would be presented.

As he belonged to the minority, he matter of boundaries being determined yielded to J. G. Pratt. who had drafted and who presented the following:

then be better prepared to enter upon the details of drafting a charter of govern-

THE AUGUSTIVE REPORTS

THE COMMISSION TO PROVIDE THE CONTROLL OF THE CONTROLL

W. O. SMITH'S ARGUMENT. W. O. Smith said in part. "The mi-nority of the committee believe that his is an experiment—the introduction this is an experiment—the introduction of municipal government in these Islands, and that the need for a municipal government is greater in Honoluiu chiefly for the reason that a third of the population of the Islands reside in Honoluiu, which at present is six or eight miles in length and not less than one mile in width. The total area of the Island of Oanu is 600 square miles, which is larger than any city in the world.

"The occasion for seeking to have a city government for Honolulu arose from the fact of the congregation here of a large number of people in a small area. The wants of a city are different from those of a country district. I might mention pavements, lights and water. There are matters of police regulation and other matters of government, which are not required in the country district. The result is for a

regulation and other matters of gov-ernment, which are not required in the country districts. The need is for a city government for Honolulu and not for the entire Island of Oahu. There are serious objections to it. Each dis-trict now has its district judge, deputy sheriff, school agent, road board and noundmaster, a simple and inexpensive sheriff, school agent, foad board and poundmaster, a simple and inexpensive form of government. Unless there are also county governments established on the other Islands, we will have to also maintain the Territorial govern-ment, and 1 do not see that we will need a single Territorial official less unless there are county governments

of the city government and should pay for it. The outlying districts will re-ceive no material benefit, but taxation will be doubled.

"If we begin this experiment with the city of Honolulu, it will be easier transfers.

man was discussed. Dr. Raymond said that he believed there should be no bacteriologist appointed at present. He said that the board had gathered little fruit from the work of the bacteriologists of the past. The board had but triffing data in possession regarding the board of Health. bacteriological examinations. One bacteriological examinations of his study gained under the board's pay. Raymond said that the job had been a sinecure. He said that since the United States had acquired Hawaii and the Philippines it had become interesting the Board of Health. Any person violating the above regulations of the Sanitary Code of the Board of Health, adopted December 7th, 1591, as set forth in the laws relating to public matters and rules and regulations of the Board of Health, adopted December 7th, 1591, as set forth in the laws relating to public matters and rules and regulations of the Board of Health, adopted December 7th, 1591, as set forth in the laws relating to public matters and rules and regulations of the Board of Health, adopted December 7th, 1591, as set forth in the laws relating to public on the Board of Health, adopted December 7th, 1591, as set forth in the laws relating to public of Health and Philippines it had become interesting the Board of Health, adopted December 7th, 1591, as set forth in the laws relating to public of Health and Philippines and the Philippines it had become interesting the Board of Health an thoroughly look into the disease of leprosy. He believed that thorough

explained that he had referred to Dr.

and made law:

Dr. J. H. Raymond. President of the Board of Health.

Sir: Complying with the orders of the Roard of Health, I would make the following recommendations:

First—That the following letter be printed and sent to all persons in the District of Honolulu who are keeping lodging or tenement houses, hotels, boarding houses or restaurants, whether at present licensed or running without a leasnest licensed or running without a lower of the schools under their care in a sanitary condition, and plans have been made for more extensive improvements when funds can be secured for the purpose.

By direction of the President, the work of the sanitary inspectors of the Board has been enlarged and a more aggressive policy outlined. The changes will improve this department, and secure better results.

BACTERIOLOGIST'S REPORT.

John Doe—Sir: Your attention is called to portions of section 760 and to section 761 of chapter 55 of the Penal Laws of the Territory of Hawaii relative to lodging or tenement houses, hotels, boarding houses and restaurants, which

rend as follows:

"Section 760. 4. That no more persons shall at any time be lodged therein than are permitted by the license.

The following was the report of the

are allowed for this room by the licens for this building

PAGE 4 SEC. 700, PENAL LAWS: z. "Every person who shall keep his twelling in so filing a state as to be a misumes or injurious to health, or who shall refuse or neglect to remove any hui e or substance he may have caused laced in the vicinity of the dwelling sceupies or any other dwelling, or is commit any nuisance in any stream or thoroughfare, shall, on conviction, pay a fine not exceeding three dollars, or be imprisoned at hard laber for any term not exceeding thirty days."

SEC. 942, PENAL LAWS:

2. "Every violation of the above pro-ters will be prosecuted to the full ex-ent of the law."

Per order Board of Health.

J. H. RAYMOND.

President of the Board of Health.

I would further recommend that the High Sheriff be requested to have issued

special police commissions to the sani-tary inspectors of the Board of Health so that they may have the power to at-

rest persons found violating section \$42 of the Penal Laws, quoted above. In connection with the above I would also recommend that a regulation be passed by the Board of Health and made a section of the Sanitary Regulations, to read something as follows:

(From Saturday's Daily.)

When the Board of Health met yes
When the Board of Health met yes-

Respectfully submitted, J. S. B. PRATT, Excutive Officer.

The report of the Board of Health o the sanitary condition of the city will Letters of application were read from be completed within the next ten days

The following resolution

The question of filling the position of bacteriologist lately held by Dr. Hoffman was discussed. Dr. Raymond said of the Board of Health, who will issue

thoroughly look into the disease of leprosy. He believed that thorough bacteriologists should be appointed with nothing else to do but investigate leprosy.

"I believe," said Dr. Raymond, "that the United States Surgeon General will appoint such a bacteriologist. This Board of Health should present to him ment, 4: applications received previously and approved during the Board of Health should present to him ment, 4: applications received previously and expressions and to the Legislature the necessity of such appointment. We can carry out and to the Legislature the necessity of such appointment. We can carry out the duties performed by our bacteriologists of the past without expense to the Territory."

Dr. Emerson differed with Raymond as to the statement that the job had always been a sinecure. Dr. Emerson wanted the expression modified on the records of the board. Dr. Raymond explained that he had referred to Dr.

cases the time given has not yet ex-

explained that he had referred to Dr. Arnig, who is now in Germany and who had held the position of bacteriologist and after advertising himself in the medical journals of the world had left no record with the Hawaiian Board of Health.

Dr. Emerson said that he received this explanation but wanted the board to consider carefully before it bound therefore the carefully before it bound the consider carefully before it bound the cases the time given has not yet extend that the admissibility of proof of these facts, to show fraud were passed upon by the Supreme Court, but that the admissibility of proof of these facts, to show fraud were passed upon by the Supreme Court, but the admissibility of proof of these facts, to show fraud were passed upon by the Supreme Court, but the admissibility of proof of these facts, to show fraud were passed upon by the Supreme Court, but the admissibility of proof of these facts, to show fraud were passed upon by the Supreme Court, but the admissibility of proof of these facts, to show fraud were passed upon by the Supreme Court, but the cases the cause this explanation but wanted the board to consider carefully before it bound itself to any policy in regard to the study of leprosy. He thought they should be cautious in turning over this matter to the United States,

After some discussion the board declared itself in favor of keeping the position vacant.

Dr. Monsarrat was appointed meat inspector and veterinarian at a salary of two hundred dollars a month. Monor of two hundred dollars a month. Monor in the state of the Santary regarded on verbal notification. Examination of four pig ranches has been made and one permit for keeping pigs issued, Two of the places are in such stape that it will be impossible to put them in sanitary condition, while at the remaining ranch a small amount of work is necessary.

At the request of the School Agent, I have made a special examination of all the device of Whiting & Robinson, attornoys for the estate of M. de Medeiros, deceased, Mary Medeiros, the widow, was appointed an inventory should be filed within ten days, and notice to creditors be given in a

of two hundred dollars a month. Mon-sarrat was the only applicant for the position. Dr. Pratt, executive officer of the Board, read the following recommendations, which were adopted by the board

The following was the report of the Territorial bacteriologist:

I beg leave to submit the following report for the month ending December 31, 1990, which is as follows: Number of microscopical slides, 28; number of culture tubes, 20; number of visits to Kalihi Re-celving Station, 28.

"5. That the buildings and premises licensed shall be kept in good sanitary condition, in accordance with law and with orders of the agent of the Board of Health.

"6. That the police and agents of the Board of Health shall at all times have access thereto for purposes of inspection. log Standard Pipe in 2-story buildings, 6: three of these were corrected to com-ply with the rules and were accepted; number of sewer connections made dur-ing the month of December, 14.

ing Standard Pipe in 2-story buildings, 6: three of these were corrected to comply with the rules and were accepted number of sewer connections made during the month of December, 14.

#### M'KINLEY SUSTAINS DOLE.

Another one of the sensational bubbles blown from the dream pipe of the anti-Dole press has been pricked by the

its news facilities.

Now comes the autographic approval by President McKinley of these sales and the official statement of the Department of Justice that "the Act of April 30, 1900, continues in force "the laws of Hawaii relating to public lands" and thereby provides a system whereby the public lands of those Islands may be disposed of until Congress shall otherwise provide." Moreover, as a concrete example of the meaning of the Government's construction of the Organic Act, the Olaa squatters are definied the rights usurped by them and others to approve their staying on the pre-empted lands is disallowed.

The anti-Dole editors and the Olaa climate-all high-priced tsquatters may now pass through the grown in humid climates. cheesecloth to reduce radi

#### MILK ADULTERATION.

The usual farce has been enacted in the police court in an attempt to convict one Lambo, a driver for Magoon's Star Dairy, of selling adulterated milk. The prosecution was prepared with evidence that the milk had been tampered with but the court held that, as Lambo had not received money for the fluid but had merely delivered it for others who got the pay, he could not be held responsible. It was upon some such technicality that Magoon got one of his drivers free several months ago; and as the dairy company itself is not prosecuted, it looks as if the growing milk-and-water industry of Honolula was bound to flourish.

The law applying to such cases is as follows:

Chap. 55. Sec. 770. Any person who shall sell, or offer for sale, any milk which has been adulterated by the addi-tion of water or other substance; or from which the cream has been skimmed of separated, unless the same is specifically or openly stated to be skimmed milk, shall be fined not more than fifty dollars. Sec. 771. Any police officer or agent of the Board of Health shall have power to inspect any milk sold or offered for sale, and to confiscate any adulterated milk which he may find.

We hope the Legislature in its wisdem will amend Sec. 770 to read some-

Any person, firm or corporation that shall sell, or expose or offer for sale, or cause to be distributed, any milk which has been adulterated by the addition of water or other substance, etc., shall, up on conviction; suffer the loss of the license under which such person, firm of corporation is doing business. And any employe convicted of delivering adulter-ated milk shall be fined not less than fifty dollars or be imprisoned for ten days

A law framed on those lines and one of the meanest of the prevalent swindles of which the people of this city

and to confiscate any adulterated milk which he may find.

Why is it not practicable for agents the Board of Health under this clause to intercept milk wagons all over town and make the test then and there for adulterants? The test, which may be made with a small pocket device would not cause much loss of time, and would enable the Board to prevent the delivery of milk that is below the renized standard of purity. When Inspector Dockery was doing this sort of

we are to have the Single Tax, which, as Henry George could have informed the Independent, is a tax on nothing but land; or a graduated income tax, such, perhaps, as the Supreme Court has pronounced unconstitutional and charter committee.

public. The five years' contract which the book trust enjoyed here to the detriment of the schools of Hawaii, was given it by the Board of Education at a secret, black and midnight meeting in 1894 or 1895. Publicity would have laid on the opinions of those who merekilled the scheme and that is why it was a coulded. Fair play to those who revenue. was avoided. Fair play to those who pay the public bills and who have the right to be heard before final action is taken in matters gravely affecting their interests, requires that the officials of Hawaii, from the highest to the lowest, should do the people's business in the open. "If not, why not?"

#### TOBACCO IN HAWAII.

We believe that tobacco culture has been successful in Hawaii despite the fertility of the soil and the humid earmth of the climate, and this in face of the further fact that other islands in the same latitude are bountiful producers of the smoker's weed. Perhaps enough experiments have not been made; possibly by trying the one described in the following extract from the San Francisco Chronicle, Hawaii An and the Philippines:

During the past season some Connecticut tobacco growers have been experimenting under the direction of the Department of Agriculture in growing fibe varieties of tubacco under the shade of New York is to have an orthodox Rus-Federal Department of Justice. commenced to pour in and forced him General Cronje ...... (Thomas) 2

ors—red and white.

In the first heat between Tom Ryder and Silas S they got away to what looked to be a good start and Ryder speedily assumed the lead. The judges thought differently, however, and after waiting till the eighth was reached, rang the bell. Next time off Silas led by a length at the quarter, which lead he had somewhat increased at the half. Then Ryder woke up and had caught Silas when the three-quarters was passed. Desperate racing down the stretch ended in a dead heat in 2:25%. racing down theat in 2:25%.

McManus' vigorous whipping did not help his horse any. If allowed to go the first time Ryder would probably have

taken the heat. Silas was never headed in the second

quarter and Ryder passed him. At the judges' stand Judd stopped but McManus continued to complete his mile, and on pulling up was told by the judges that it was no go. When the heat was finally and officially started Silas won easily in

Abbey, whose boy, by the by, wore a ribbon sent down from the stand by Miss Abbie Campbell, created a diversion at the post by refusing to break, and by a finished exhibition of rearing, which threatened to put his jockey out of commission. After twenty minutes' fooling. Remus, a stable boy, took a hand and succeeded in rendering the brute somewhat tractable. Then he got off and Nichols resumed his seat and the race started. Bushwhacker led to the three-eighths and then gave place to Figure started. Bushwhacker led to the threeeighths and then gave place to Fierro, the washington correspondent of the seighths and then gave place to Fierro. Herald the statue of Pere Marquette, who won handliy in 544, Abbey finishing second. The winner won a race from the same field in 544 on the previous Tuesday. A notable feature of the preliminaries was the ordering off the track of Sheriff Andrews by the judges, The working for the statue of Pere Marquette at all.

This statue was presented to the nation by the state of Wisconsin. Objective the summons. He summons. He summons. He

Dewey, Ethel Mae and Gray Eagle. The two former were the contenders. Ethel Mae is new at the game but has lots of the famous priest as day is from It is that any male citizen over forty. "Were I, as chief executive of this speed, and when she learns to stay down she will make a racehorse. Dewey took the first heat in 2:44. Both broke frequently in the second heat and the lady so covered with dust that no outline of a running match, which Dewey won in 2:3912.

It is believed that this painting is the provision which has been accepted. In the premises, "Were I, as chief executive of this state, disposed to recognize the authority of the judiciary in the premises.

"Were I, as chief executive of this state, disposed to recognize the authority of the judiciary in the premises.

"Were I, as chief executive of this state, disposed to recognize the authority of the judiciary in the premises.

"Were I, as chief executive of this state, disposed to recognize the authority of the judiciary in the premises.

"Were I, as chief executive of this state, disposed to recognize the authority of the judiciary in the premises.

"Were I, as chief executive of this state, disposed to recognize the authority of the judiciary in the premises.

When Snow Dies, Cannon and Young May Cross Swords.

NLY THE LIFE of a feeble old man is between the Mormon Church and a crisis affecting the succession to it presidency. Lorenzo Snow, the present head of the church, is 86 years of age, and the state of his health gives his people frequent apprehension and causes consideration of the question as to his

Not since the time at Nauvoo, when Brigham Young overcame rivalry and became the head of the church after the killing of Joseph Smith, has there been any doubt as to the right of succession. The theory of the Mormon Church is

any doubt as to the right of succession. The theory of the atermon Church is that the Lord inspires the . welve Apostles in the naming of the caurch president, but invariably the presiding apostic has been chosen, and the presiding apostic has been the senior one in term of service in the quorum of the twelve, as the apostolic organization is called. So heretafore it has been simply a formal matter to designate a new head of the twelve or a new head of the church. But when Apostle Richarlos, the president of the twelve, died a few months ago, he bequeathed an ecclesiastical problem to his brethren.

The president of the church has two counselors, who are chosen from among the apostles. Their apostolic functions are suspended while they act as counselors, but if when their chief dies his successor does not retain them they go back to their scats among the apostles. George Q. Cannon and Joseph F. Smith are the counselors of President S ow. Cannon became an apostle in 1800, and Smith reached the apostolic rank in 1867. But Brigham Young, son of the prophet, was ordained an apostle by his tather's favor in 1856, although he did not become an actual member of the apost is quorum until 1888, after Cannon and Smith had taken seats in it, and he claims seniority, with the right of succession, on the ground of his earlier ordi ation.

When the apostles were confronted with the duty of selecting a chief on the death of Richards, they evaded a decision of the question of succession involv-

death of Richards, they evaded a decision of the question of succession involved by leaving the position of president of the twelve vacant. To take the place George Q. Cannon would have been com elled to retire from his present position, in which he is regarded by many as virtually the head of the church. On the other hand, the clevation of Brigham Young would have been a concession, according to precedent, of his claim to the church presidency. So the failure to select a chief apostle is regarded as on the whole indicating the preference of a majority of the apostles in behalf of Cannon. But Young and his adherents hope that his name has not yet lost its power to conjure, and that the favoritism shown him by his father wi.. hav strong influence in compelling recognition of his claim.

# BOTH CLAIM THE WATER

A Question of Rights in lao Valley.

### COMPROMISE PROBABLE

Hawaiian Commercial and Sugar Company and Wailuku Parties Interested.

(Special Correspondence.)

WAILUKU, Maui, Jan. 5 .- A most im portant lawsuit for trespase is on the tapis. It is a question of the water rights of the crown lands in Iao valley. formerly under lease to the Walluku Sugar Company, but now since January 1. 1961, (the date of the expiration of the lease), at the disposal of its owners-the Hawatian Commercial & Sugar Company. By an old decision the water of Iao valley was apportioned to the Walluku Sugar Company, and to the Hawalian owners of kulcanas in the valley. The decision did not consider the rights of the crown lands (being then leased to the Wailuku plantation), and so is probably defective.

The Walluku Sugar Company has since purchased a number of the native kuleanas, so the water question is somewhat involved. The recent visit of Attorneys Hartwell, W. O. Smith, Alex. Robertson and W. R. Castle to Maul was concern-ing this proposed suit, for they, together with F. M. Hatch, have been employed by the Hawaiian Commercial & Sugar Company to prosecute its side of

The water under dispute is capable of The water under dispute is capable or irrigating about 700 acres of cane. The new upper ditch of the Wallaku plantation is said to divert some of the water in dispute. People well informed concerning the case state that there is right on both sides, and so it is a matter for compromise. It is to be recalled that the Hawalian Commercial Company not long ago purchased for \$100,000 all the right, title and interest of Claus Spreck-els to the crown lands in Wailuku.

W. R. Castle, one of the counsel re-tained by the Hawaiian Commercial &

tained by the Hawaiian Commercial & Sugar Company in this matter, said yesterday that the plantation was hoping to come to an amicable arrangement with the Walluku Flantation Company, and he believed this would be effected.

"I do not believe there win be a law-sult over the question," said Mr. Castle. "The lease of the Walluku company merely expired on January 1, 1901, and we are now to determine what shall be done with this surplus in the future. This lease was of the crown lands to the Walluku company for twenty years. Walluku company for twenty years, Since that lease was made Claus Spreck-els bought out the right of Ruth Keeliko-lani, one of the Kamehamehas and the last heir to the Kamehameha property. That is, her rights in the crown lands lease were purchased. Then the Legis-lature of 1882 authorized the Crown lease were purchased. Then the Legis-lature of 1882 authorized the Crown Lands Commissioners to convey to him the entire ahupaa of Walluku, includ-ing Iao valley, the towns of Walluku, Kahului and the Hawalian Commercial & Bugar lands. Claus Spreckels was succeeded twice in the ownership of the Hawalian Commercial & Sugar Compa-ny—the last transfer being made in 1888. The successors bought out whatever. ny—the last transfer being made in 1888. The successors bought out whatever rights he had in the valley and the lands of the ahupaa. So, of course, today the Hawallan Commercial & Sugar Company owns whatever whis belonged to the konohiki, but what those rights are in the water have never been determined. The principle is well established in Hawallan courts that the tare lands are entitled to their water, and I support

having been brought down to do reserving the many acts and his house voir work. A large number of white are as follows:

Chalmoogra Treatment For Leprosy.

#### BACTERIOLOGIST'S REPORT

Experiments at Kalihi Receiving Station are Explained to Health Board.

The following is Bacteriologist Hoffmann's report to the Board of Health on the treatment of leprosy by subcutaneous injections of Chaimoogra oil:

To the President and Members of the Board of Health.

Gentiemen: In the following lines please find my report on treatment of leprosy by subcutaneous injections of Chalmoogra oil:

Dr. Donitz related in an article pub-lished in the "Berliner Klinische Wo-chenschrift" on the 3d of September. 1900, that he treated several persons afflicted with leprosy, internally with Chalmoogra oil, but was forced to fore-go this treatment on account of the ill ef-

fects which the oil had on the stomach.

For this reason it occurred to Dr. Donitz to inject the oil hypodermically, which he did, and in two months the re-sults were encouraging enough to recom-mend a further trial of this treatment.

Dr. Donitz lays no claim, however, to the above method of treatment, as Tur-tollis Bey had before obtained good results from this manner of administering the drug. Dr. Donitz states in his paper that an injection, even of a few drops of the oil, is followed by a local and general reaction, i. e., a slight reddening of the skin and soreness on the place of injection and a slight rise in the temperature, with signs of irritation of the discussed parts agreeinly noticeable in eased parts, especially noticeable in cases where the eyes were afflicted, where always a pericyclitis followed the injection and afterwards a cleaning up of

the leprous infiltration.

He repeated the injection—0, 2-0, 5 c.
c. m.—when the reaction disappeared. The results obtained in two months were, that the infiltrations of the skin were decidedly disappearing.

These above facts inspired in me a desire to begin a trial of this treatment, at Kalihi Receiving Station, which I did, commencing October 4th, 1990, on eight persons afflicted with various forms of leprosy and added to this number, one, on October 8th; one October 22d, and three on November 26th.

The temperature has been taken twice No other method of treatment has been given to any one, and the results so far obtained are as follows:

One—No bad effects have been experienced by any one of the patients, with the exception of a very few small abscesses on the place of injection.

Two-The injections caused a local re-action more or less and were painless with the exception of one case, which al-ways had immediately eradiating pains, ways had immediately eradiating pains, which, however, disappeared in two or three days. Following the injection a slight rise of temperature to about 100 was noticeable in most of the cases, inside of from twenty-four to thirty-six hours, no matter how large the dose was —i. e., large doses up to 4 c.c.c.—it did not seem to cause the temperature to go not seem to cause the temperature to go

to a higher degree.

In some cases no rising of the temperature was at all noticeable. In others not

regularly. No case has, during this treatment, developed any new outbreaks of the dis-ease, a fact which would be of great im-portance if it should be found true in prolonged treatment.

In tubercular cases, especially the worst-looking cases, was a decided improvement noticeable.

The tubercles are smaller, the skin is not any more so tense and has recuperated its clasticity.

In all nerve cases the treatment was less noticeable, except that every person claimed to have felt "life"—as they them-selves termed it—in the benumbed parts.

selves termed it—in the benumbed parts. The least effect was found on the eruptions of the skin without tubercles, only that as stated above an outbreak of new eruptions has not been observed.

The time elapsed since the beginning of this treatment at Kalihi Receiving Station is too short to allow anything else, than to express a hope to prevent by this treatment, a further spreading of the disease and a regalning of the normal shape of the parts which have been disfigured by the tubercles.

The following was Bacteriologist Hoff-

The following was Bacteriologist Hoff-mann's report on the merits of Jarabe para la elefancis, and tua-tua: On the 19th of December, 1900, I receiv-

ed two bottles of Jarabe para la Elefan-cis and two bottles of tua-tua extract from Dr. Carmichael with the under-

standing to give those preparations a trial in the Kalihi Receiving Station. Two patients since then have taken daily three tablespoons of the first preparation: so far without any result; even the pursative and emetic effect, which this medicine is claimed to have, could not be observed.

and the Inspector General, their meeting having been held on Thursday afternoon. The recommendations of the

THE STOCK EXCHANGE resumed to session on Wednesday after the holiday vacation of five days with numerous street sales reported in the interim. Among these sales were several hundred shares of Waislua at prices between 116 and 117, a number of Ockala at 15 1-4 and 15 1-2 and some Ewa at 28 1-4. Since the opening session there has been little activity in stocks, the sale being confined almost exclusively to Ewa, Waialua and Ookala, Ewa closed on yesterday's board at 28. Waialua has falled to 115 1-4 and Ookala has advanced to 16. Assessable stocks, like Kihel, McBryde and Olaa, are the most popular. Kihel paid-up shares are now held at 171-2, a few snares of Olaa paid

is now fully paid up, all of the assessments having been paid in, Kihel plantation is now selling at 1: -2 paid in, the remaining \$2.50, which will make it fully paid up, will be called, so it is believed, some time in March. McBryde assessable is now 15 paid ..., and Olan assessable is 8 paid in, there will be no further assessments called in on these two stocks until July of the

up have sold at 15 1-2. McBryde assessable closed at 9 3-4. Waialua plantation

will be no further assessments called in on these two stocks until July of the present year.

Most of the usual dividends were paid on the second day of this month, although some were paid on the last day of last year. Poncer Mill and not pay its usual dividend of 2 per cent, and Hawalian Agricultural paid 3 per cent instead of 5 per cent. Kahuku paid its usual dividend of 30 cents a share. The annual meeting will be held some time this month, when, it is understood, the dividend will be reduced, but to just how much 1 not understood.

There has been considerable talk on the streets among stockholders of the Walalua plantation concerning the proposition of putting that company on a dividend basis by reason of their bonding the company or issuing capital stock to the amount of \$50,000. This proposition, it is understood, will come up before the \$tockholders at the annual meeting to be held in February.

Hawalian Agricultural will reduce its dividend the coming month from 50 to 40 cents a share.

40 cents a share.

BOND QUOTATIONS IN THE LOCAL MARKET. There is little or no change in the bond quotations. There have been some sales of Hawaiian Government 5 per cents at 39, the quotation being 39 bid and

It is understood that a block of hilo Railroad bonds amounting to \$125,000 were placed on the market last week, the buyers being a local banking institu-

Among the recent bonds to be listed on the Stock Exchange are Olaa, Rapid Transit and Oahu. The quotations on the latter two are 101 asked.

Ewa plantation has finished its 1910 crop and has taken off in all very nearly 28,000 tons.

The latest sugar advices from San F ancisco are dated December 26, Williams, Dimond & Co. in their circular t Messrs, Schaefer & Co. state that no changes in the quotations have taken pl ce since the 22d ultimo. Their letter is

as follows:

We last addressed you 22d inst., per Coptic.

SUGAR.—Since that date no changes have occurred in the local market or for export to Honolula; dry granulated f r local consumption is still being quoted at 5.65c and for export 5.49c.

BASIS.—No sales since last advices, making basis for 36 degree centrifugals in New York 4 3-8c; San Francisco, 4c.

LONDON BEETS.-December 22d, 5s DRY GRANULATED NEW YORK.—No change.
HOLIDAYS.—The New York taw and refined sugar markets were closed
inday, December 24th, and Tuesday, D cember 25th.

Monday, December 24th, and Tuesday, D cember 25th.

EASTERN AND FOREIGN MARKS, 7S.—Latest mail advices from New York under date of December 21st indicate a quiet market in raws with current quotations maintained in the absence of sugars for sale, but in view of the condition of the London market together with the favorable reports from Cuba foreshadowing early deliveries, it is though that a somewhat lower basis in future transactions must be looked for when receipts increase. Refined is in light demand and with the exception of Arbuckle Bross, who continue to take orders at 5c per 100 pounds under A. S. R. Co. posted rates, refiners are well up with deliveries now. European markets are dull in consequence of increased stocks, LONDON CABLE.—December 21st reports Java No. 15 D. S., 12s; fair refining, its: December beets,—9s 1 82d; January beets, 9s 3d.

LONDON CABLE.—December 21st reports Java No. 15 D. S., 12st fair remning, ils; December beets.—9s 1 b-2d; January beets. 9s 3d.

LATEST STATISTICAL POSITION.—Willet & Gray report December 20th, total stock U ited States four ports in all hands estimated December 19th, 69,121 tons, against 213,782 tons last year; six principal ports Cuba estimated December 18th, 1,500 tons, against 19,000 tons last year. Total stock in all principal countries by cable December 20th, at latest uneven dates, 1,505,294 tons, against 1,606,498 tons; deficiency under last year, 101,204 tons.

THE NEW WAIALAE CEMETERY.

THE NEW WAIALAE CEMETERY.

Perspective plans of the new Waiala cemetery have been prepared and the company is now preparing to lay out the tract into the various denominational and racial divisions proposed. The cemetery lies in the Waialae valley on the Koko Head side of the Island, and is an ideal spot for a burial ground. There are fifty acres laid apart for this purpose divided as follows: Protestant, 25 acres; Catholic, 10 acres; Chinese, 5 acres; Japanese, 5 acres; extensions and main roads, 7 acres. It is proposed to lay th grounds out in a manner that will make the cemetery one of the prettiest garde spots on Oahu. Algeroba trees will be planted in profusion, while around the en ire tract a beautiful hedge will be grown, shutting it in entirely from the surrounding country. It can be reached by Beretania street and the Waialae groud, or by King street and the new electric railway line when completed. Both the Rapid Transit Company and the Tramways Company have made propositions for extending their lines to the cemetery and running funeral cars who desired. The Bishop of the Catholic Church has agreed to consecrate the ground dedicated as a Catholic burial ground, and it is possible chapels for both the Protestant and Catholic burial ground, and it is possible chapels for both the Protestant and Catholic denominations may be erected. It is stated that the charge for burial plots will range from \$5 to \$20. The roads through the tract will be wide enough for vehicles, and pathways will be numerous. More definite plans, showing the detail of the subdivisions will be gotten out soon.

THE STORM SEWER FOR 5URFACE DRAINAGE.

THE STORM SEWER FOR SURFACE DRAINAGE. The Public Works Department is at work on the trenches for the new storm sewer by which the street surface water is to be drained off and led by large pes into the harbor. The outlet will be at Brewer's wharf. From the foot of pipes into the harbor. The outlet will be at Brewer's wharf. From the foot of Kaahumanu street the pipe has been lai along Queen street and thence through the Brewer square to the outlet. A grated catch basin is located at the corner of Kaahumanu and Queen streets leading directly into this sewer. This will be a vast improvement during the heavy rainy season and will prevent a repettion of the damage to stores done by floods during the month of December on Queen and other streets. A similar sewer system will be put in on Fort street and another on Alakea street, leading from the electric light station, which is to drain Halekauwila and adjoining streets.

THE WORLD'S SUGAR PRODUCTION.

During the year 1900-1901 the production of beet sugar—including the cane sugar production of Spain—amounted to 5.546,000 tons, to which Germany contributed 1,890,000 tons, Austria Hungary 1,040,000 tons, France 1,000,000 tons, and Russia 900,000 tons. Belgium produced 320,000 tons, Holland 160,000 tons, Sweden 110,000 tons and Italy and Spain 160,000 tons. The production of cane sugar amounted to 2,817,000 tons—Java having been the largest producer, This gives a total sugar production of 8,357,000 tons, as compared with 7,821,000 tons in 1898. DEATH OF EMILE M. LEFEBVRE.

There died on Thursday of last week at his home at Eliza plantation, Parish of West Baton Rouge, Mr. Emile M. Lefebvre, one of our oldest and well-known sugar planters, a gentleman of the old school, a successful sugar planter and successful under the changed conditions brought about by the Civil War, says the Louisiana Planter of December 15.

Mr. Lefebvre owned feur large, first-class plantations, Eliza, Australia, Longwood and New Hope. He had been ill for some time and owing to his advanced age, 82 years, was necessarily feeble, but his death came suddenly and was a surprise to his many friends, who deeply deplore it and sympathize sincerely with his bereaved family.

from Ohio; that Miss Mattie Tiver be granted a grammar grade certificate on normal diploma; that the resignation of Miss Lina Hart of Walmea be accepted; that Miss Elizabeth Quint, a graduate of the San Francisco Normal ula school, Oahu.

A short meeting of the Commissioners of Public Instruction was held yesterday afternoon at the office of Superintendent Atkinson, at which were
present Mrs. Jordan, Mrs. W. W. Hall,
E. A. Mott-Smith and T. H. Gibson,
inspector general of schools.

The report of the teachers' committee was read. This was signed by Mrs.
E. W. Jordan, Superintendent Atkinson
and the Inspector General, their meet
Hull school, Oahu.

remoon. The recommendations of the committee were adopted by the commissioners in each instance as follows:

That the resignation of Miss Henricita Christian of Hanamaulu be accepted as of January 31; that the appointment of Miss Eleanor A. Thomas of Hilo as substitute at Ookala; that Mrs.

M. F. Scott, principal of the Holualoa school, be granted a life certificate on satisfactory experience and certificate.

Hives are a terrible torment to the little folks, and to some older ones after for children to take and always cures. It is intended especially for cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children, for it contains no opium or other rjurious drug and may be given as confidently to a babe as to an adult. For sale by Benson, Smith & Co., Ltd. THE MOTHER'S FAVORITE.

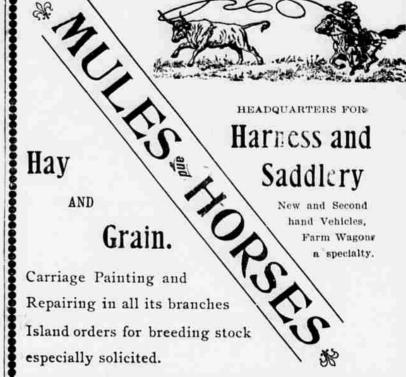

# FOR BABY'S SKIN SCALP AND HAIR

#### Something for Mothers to Think About

EVERY CHILD born into the world with an inherited or early developed tendency to distressing, disfiguring humours of the skin, scalp, and blood, becomes an object of the most tender solicitude, not only because of its suffering but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available.

That warm baths with CUTICURA SOAP to cleanse the skin and scalp of crusts and scales and gentle applications of CUTICUBA Ointment to instantly allay itching, irritation, and inflammation, and soothe and heal, to be followed in the severest cases by mild doses of CUTICURA RESOLVENT are all that can be desired for the alleviation of the suffering of skin-tortured infants and children and the comfort of worn-out worried mothers has been demonstrated in countless homes in every land. Their absolute safety, purity, and sweetness, instantaneous and grateful relief, speedy cure, and great economy leave nothing more to be desired by anxious parents.

Complete External and Internal Treatment for Every Humour, Consisting of CUTICURA SOAP, to cleanse the skin and scales and scales, and soften the thickened cuticle, CUTICURA Continuent, to instantly allay tching and irritation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. Sold throughout the world. Aust Depot: R. Towns & Co., Sydney, N. S. W. So. African Depot: LENON LTD., Cape Town. "How to Cure Baby Humours." free: Potter Drug and Chiem. CORP., Boston, U. S. Extraordinary prices are already being asked and paid for accommodation.

> PREPARING THE CITY. In the city there is a great note of preparation everywhere. Through in miles of streets which the procession is to go through on its way to the Centennial park, thousands of poles (painted white and relieved with Lord Hopetoun's colors, blue and gold) have been placed at short distances. Massive arches are being constructed, the cost of two of them, the Citizens' and the Victorians', running into four figures. America "will greet the new nation" with a magnificent arch and Germany will be represented with a beautifully designed archway, while there will also be wool and wheat arches to commemorate the occasion. The Nile, Trafalgar and Fashoda will be forgotten in Pitt street, where the street will be one mass of tri-color. For novelty the Canadians will take the palm. In the procession "The Lady of the Snows" will be represented by an embiematical car. All that Sydney art can do is being devoted to the decoration of these arches. Rising high in the Domain and parks are stands for the electric light illuminations. As apart from the festooning of the line of march by myriads of flars and strings of flower the citizens will decorate their build-

#### AUSTRALASIAN NOTES.

Two dredgers have been constructed at Stanthorpe, Queens and, for the pur-pose of dredging for tin. During November there were 4,030

men employed in the co-operative works under government departments. It is reported that deer are spread-ing rapidly in the East Coast districts the North Island, and that rabbits becoming very scarce, shearer named Banby put up a

record recently on Mr. Kennedy's sta-tion, near Masterton, by shearing 212 sheep in eight hours and a half. The Wairoa (Hawke's Bay) Hospital Board proposes to canvass the district with a view to supplementing the gov-eroment grant of \$1,000 for a new frospital by £400 or £500.

There appears to be a wave of em-bezzlement passing through the population, remarks an exchange, for seldom is a paper lifted but news comes of fraud from one direction or another. The North Canterbury Education Board has decided to allow one of its inspectors, and also a delegate chosen by the teachers, to attend the same tion conference to be held in Melbourne

in January next.

Most of the old colonists will remember Alfred Henry Jakins, who arrived in Auckland in 1861, and took part in the Maori war of 1863 and 1864. News has just been received of his death at residence in Brixton, near Lon-

The Justice Department are busy framing the regulations required by the Shorthand Reports' Act passed last session, and they will shortly be gazetted. They will provide chiefly for examinations, and the standard number of words per minute will be fixed. fixed.

Small birds may not be the nulsance that some imagine. Orchard pests in Wairarapa appear to be growing less and less formidable, and this is now attributed by many fruit growers less to spraying and other precautions than to the multiplication of the imported warblers

The question of back-block settlers purchasing old broken-down horses, and making them work hard as pack-horses, was seriously discussed at a re-cent meeting of the committee of the Society for the Prevention of Cruelty to Animals, at Masterton, when it was decided to take immediate action to suppress the system. A very peculiar accident occurred up country the other day, says the West-

ern Star. A man was driving down a hill when the reins caught in the wheel, drawing the horse's head round to the right, with the result that the

Thorndon parish,
A large and fashionable congrega-tion assembled at St. Mark's Church,
Darling Point, Sydney, on December 17, to witness the marriage of Lieuten-ant Vivian Henry Gerald Bernard, R. N., H. M. S. Royal Arthur, second son of the late Inspector General J. Ber-nard, R. N., of Charleville, County Cork, Ireland, to Miss Ida Marie Gilles, arrive in Melbourne until the end of the month, and then they would have to be specially trained for Sydney. The birth of a nation would not be complete withfriends, and blue-jackets from H. M. S. Royal Arthur lined the pathway from the gate to the church. The ceremony was performed by the Rey. Willoughby Flower, M. A., rector of St. Mark's. The bride was given away by her father, and wore a handsome dress of white satin duchesse, entirely covered with an overdress of chiffon and lace insertion. The bodice had a yoke and sleeves of lace, and the tollette was completed by a coronet wreath of orange blossoms, over which a tulle veil was arranged. She also wore a pale blue enamel and diamond pendant, and carried a beautiful shower bouquet tied with white satin ribbons, with H. M. S. Royal Arthur stamped in silver.

Sours 0 minutes. Sun and moon are for ocal time for the whole group.

HOW to Save Fue!

THE GAS WEIGHING ECONOMIZER.—A gas balance for indicating continuously the proportion of carbonic gas in the flow of the furnace gases, and which enables the engineer to get the best result from the fuel. These machines are now in use at the Oahu Sugar Company, Pioneer Mill, Kekaha Mill and the Kukaiau Mill, Hawaii.

DESTROYING STAMP DIES WELLINGTON, Dec. 7.-Today I had call from Mr. J. Davis, who has re-ided in Samoa for twenty-seven years. sided in Samoa for twenty-seven years, and has acted as posimister for the past fourteen years. Mr. Davis was first appointed postmaster in 1885 by the Consuls of the three treaty peris of Great Britain, America, and Germany, who were then governing the municipality of Apla. A year later he was appointed by King Mallotoa to act as postmaster for the whole of the kingdom. During the time he has been acting in that capacity he has seen revolutions, civil wars, and no end of internal disagreements. He knew Robert Louis Stevenson, and saw many Consuls come and go, yet throughout the different changes he continued to act as postmaster, and continued to act as postmaster, and only closed his office at the end of February last, when the Germans took ever the stand of Upolu, on which he resided. During the time he was post-master he designed his own stamps.

and valuable, notably the "Black Error" stamp on which was the picture of King Maileton's head. Unfortunately this stamp was first printed in black, and as the Samoans are not black-skinned, this was regarded as a sort of reflection upon Maileton, and control of reflection upon Mail while the country Chambers an unsettled state after the last war, Mr. Davis' mission to New Zealand is in connection with the late Samoan Mr. Davis informs me that Dr. Soit, the new German administrator, is like in said Territory of Hawaii, either in by all nationalities, and so far has been successful in his rule. Mr. Kuntz, a wealthy German, who bought Stevenson's house and the Vailima estate, is spending thousands of pounds on the property. The house is being added to and beautifully decorated inside in white and gold. The grounds are also being attended to, and six or seven Japanese gardeners will shortly be imported to put the garden in order.

Your attention is called to the followported to put the garden in order. The Americans are busly engaged in Pango, and the fact that the Spreckels' line of steamers to New Zealand and Australia will call there in future, instead of at Apia, will detract somewhat from the importance of Apia, the capital of the German possession.

AMERICAN NAVAL STATION. WELLINGTON, Dec. 18.—Governor Tilley, who comes to New Zealand on the Abarenda, from the United States naval station, Tutulla, Samoa, is likely to visit Wellington, though the ship will not come further south than Auckwill not come further south than Auckland. The Americans have been very busy of late in connection with their new naval station in the South Pacific. The natives of the island of Tutula are friendly disposed towards them, and are very thankful that a continental power has been prevented from stepping in. The Spreckels' line of the proper will in the page future of the state of th steamers will, in the near future, give the German port of Apia the go-by, and will call at Tutulla instead. Much and will call at Tutulla instead. Much of the success of the American administration so far has been the result of tact and energy displayed by Mr. Edwin Gurr, the New Zealander, who has been appointed judge and secretary of native affairs. Mr. Gurr, writing to a friend in Wellington, says the sympathies of the Americans are entirely with the British and the colonials, and it has been quite a pleagure. lifely with the British and the co-onials, and it has been quite a pleasure to live with them during the recent troubles of our nation. He expresses a hope that the New Zealanders will give the officers and men of the Abarenda a good time during their stay in this colony. in this colony.

JUDD-In Honolulu, January 6, 1901, to the wife of A. F. Judd, a son.

Schooner Marie Palmer, Carlisle, which arrived at Clenfuegos November 26 from Baltimore, made the passage from Cape Henry to anchorage off Clenfuegos in seven days, which is probably the quickest on record.
