ESCAPE PROPERTY TAX

VESSELS HURRYING TO GET OUT OF PORT.

The Rosamond and Olympic and Their Constant Race Joined by S. C. Allen and St. Katherine.

Vessels which are able to get their cargoes out of port before the first of the year will escape the heavy property tax which is levied on that date. This is the reason for some unusual activity just now in the loading of sugar cargoes.

The schooner Rosamond and the bark Olympic are racing again. In fact they are always racing. It is a race that never ends. They try speed with one another to San Francisco, then race in discharging and loading and begin another contest back to Honolulu. When a pilot boards either vessel outside Honolulu the captain comes to the ladder to see if he has won. It is the Rosamond Captain Ward wants to know if Gibbs has come yet, and if it is the Olympic Captain Gibbs wants to know if Ward has showed up. If the answer is no the captain who gets such a happy reply swells up and asks the pilot to have something.

This time the Rosamond and Olympic have companions in the race. The barks S. C. Allen and St. Katherine, which both left yesterday, are in the contest to get to the Rosamond, but Captain Ward thinks he will beat her yet, and he is likely to get away Monday.

In the Honolulu loading and discharging race this trip there was much more than mere rivalry. It was a matter of dollars and cents for sugar cargoes that are in port next Tuesday, January 1, will be assessed the one per cent property tax. By being in the high seas the cargoes escape this tax, which amounts to a large sum on the two cargoes. In the case of the Rosamond the saving is about \$1400 and the Olympic saves \$1900.

The Olympic is still loading and will have to do quick work to get away before the first of January.

MATE JOHNSON'S ILLNESS.

Mate Andrew Johnson of the bark S. C. Allen was taken to the Queen's hospital yesterday suffering with typhoid fever. He is a brother of Captain Johnson of the same vessel and was captain of the bark Alex. McNeely which was wrecked at Laysan island. The sick man is reported to be doing well and will probably recover.

WORRIED OVER TRANSPORT.

Fears Entertained Kintuck was Caught in Big Storm.

Considerable anxiety is felt by Captain Slaker, the quartermaster at this place, over the failure of the government horse transport Kintuck to appear. The vessel left Seattle on the 15th. In as much as the Sierra, Rio and Thomas all left about that time and encountered severe weather, he fears that a similar experience may have befallen the Kintuck. She had over 500 head of horses and mules aboard and if the heavy weather caught her, it is likely that most of the stock was lost.

THE CHARTER.

The Independent charter committee has or will have before it a copy of the charter of San Francisco and it is said that its recommendation to the legislature will bear the ear marks of that notable document very strongly. Some parts of the San Francisco charter are objected to but as a general proposition it will serve the Independent-Democrats as a guide.

THE WEATHER.

Weather Bureau, Punahou, 1 p. m. Wind light north northeast; weather clear; will continue so this evening. Morning minimum temperature, 62; maximum temperature, 72; barometer, 9 a. m., 30.00 steady (corrected for rainfall), 24 hours ending 9 a. m., 0; dew point, 9 a. m., 65; humidity, 9 a. m., 66 per cent.

CALLED FOR EFFECTS.

Mrs. Paulino, mother of a young Honolulu sailor who was lost at sea some months ago, called at the United States district court yesterday for the effects of her son. They were turned over to her. The property consisted chiefly of wearing apparel.

A REAL "HELL SHIP"

AWFUL CONDITIONS ON THE TWILIGHT.

Why the Men Want Vessel Condemned As Unseaworthy—Ten Months of Terrible Hardship.

The seamen on board the schooner Twilight want to leave the vessel, and well may they, for they have had ten months in her of such hardship as falls to few even of those who go before the mast. As a sample of cramped and filthy seamen's quarters the forecastle of the Twilight has not been matched by any vessel that has come to Honolulu in years and the schooner is only a small one, 26 years old, with which recent storms in the south Pacific played as with a little toy, until all hands were nearly worn out.

The Twilight is full of south sea curios, collected by the men on board, and they have had several visitors to look at them. Some of the visitors went down into the forecastle. They did not stay there long. It is a small hole under the forward deck, with bunks for six men. That human beings could spend months in such a place would seem incredible were it not an evident fact that they have done so. Cockroaches and vermin of all kinds abound.

"Want to look at some shells?" said one of the able seamen to a visitor, and he picked up a large curious shaped shell from the Gilbert Islands. In a moment there came from the interior of the shell a black swarm of cockroaches, racing all over it and leaping to the floor. The seaman took little notice. He shook the shell to scatter the roaches and showed the curious to the visitor. Other shells he picked up were the same.

A box of shells, bracelets, etc., was drawn forth, disturbing countless numbers of insects. The sailors dug down among them as if they had become quite used to the association.

"Hold on," said one to a companion, "There's a centipede."

The other man withdrew his hand and devoted a moment to looking for the insect and then went on picking out unique shells to show the visitor.

The quarters in which the six men sleep are not large enough for one man, and they are reeking with the smell of filth and insects. "There was no scuttle for a long time," said one man, "and the water used to come down in torrents."

He showed how it had been fixed, while the vessel lay at one of the South Sea Islands. Another man's bunk had a leak in the deck above it, and he had put a piece of tin in place to get the water past him on to the floor of the wretched apartment. There is no light in it, when the scuttle is closed to keep water out. Two men can barely stand up in it at the same time, and ventilation is unknown. In these quarters six men, doing the hardest physical labor and living on the poorest food that falls to the lot of human beings have known their home for ten months. They are white men, and all say that they want to be paid off as soon as possible.

For ten hours during one day on the trip here from Washington island the Twilight was at the mercy of wind and wave without a bit of sail, and how she surged no one on board knows. All sails were away by a blast of wind at eight o'clock in the morning, and it was six in the evening before the struggling crew managed to get the vessel under control, with sails set, again.

When the vessel finally reached Honolulu, even the sailors' clothes bags had been used to make sails with, and the old craft was leaking dangerously. "She left the coast with a leak," said one sailor, who seemed to think it quite an ordinary thing for a small schooner to start on a ten month's voyage with a leak. "It wasn't bad till heavy weather came, and then we went ashore once and that made it much worse. Now she is loose all over, but she might last to San Francisco if she went on the dry-dock and had a fixing up."

The incredible hardships of the trip have earned about \$500 worth of copra which is in the hold of the vessel. Pumps are at work much of the time, though the vessel does not leak now as fast as she did when she arrived here. Dirt is filling the leaks. A bit of rough sailing will soon open them again.

Since arriving here the men have been importuning Captain Cuthen for money, but have not been able to get any. Anyone who hankers after the hardships of sea life might learn something by the experiences of these men, who have spent ten months in one of the most real "hell-ships" ever seen, and so far have not a cent to show for it. They are hoping that the board of survey will condemn the vessel, so that they may be paid off. If the board does not, they will have to go on to San Francisco in her, according to the shipping articles, or else lose the ten months' pay. It is not a very cheerful alternative. The men are undecided. They are afraid of the vessel on the one hand, declaring that she is loose and rotten from end to end and fearing that they will never reach port if they start out again in her, and on the other hand they are ready to risk a lot and do a lot to save ten months' wages.

CIRCUIT JUDGE AFFIRMED

RULING ON A TECHNICALITY WAS SOUND.

Decision by the Supreme Court This Morning—Canton Hotel Controversy. Other Matters.

The Supreme Court this morning signed a decision in the case of Pekelo Akau vs. Akono, et al., sustaining the decision of the lower court. It is ruled that a court of equity cannot on the ground of fraud set aside a decree of a probate court admitting a will to probate, the alleged fraud consisting in adding the name of a second witness to the will after the death of the decedent.

In the matter of the Hawaiian Trust & Investment Company vs. Annie Barton, Helen A. Dunning and Gear, Lansing & Co., the two defendants first named have filed an answer admitting that one third interest in the Canton hotel land now occupied by the Waverly block, belongs to plaintiff and denying that Gear, Lansing & Company are the assigns of the lease of the property or that the lease is assignable. In their answer Gear, Lansing & Company said that the plaintiff acquired title through an instrument of conveyance signed by one George A. Aldrich, a non compos mentis.

The matter of the estate of the late Antonio Rodriguez has been returned to the Circuit court for a new hearing, and further proceedings, the Supreme court having overruled the judgment of the Circuit Judge.

In the matter of George B. Kapule vs. Hawaiian Gazette Company, libel, defendant has filed a demurrer claiming that the complaint does not state facts to constitute a cause of action and is ambiguous.

W. L. Hopper has filed bonds in the sum of \$100,000 as temporary administrator of the estate of James A. Hopper. His sureties are Mary Peterson, Margaret L. Hopper and Ellen H. Brown.

NOT LUCRATIVE POSITION

THE HAWAII DEPUTY MARSHAL COULD NOT GET RICH.

Marshal Ray States That His Earnings Would be About \$125 a Month—An Expedient.

Marshal Ray says that Hawaii island will have to increase some in population before a deputy marshal there could be able to earn his salt. He figures that at the present time a deputy marshal could earn about \$125 a month in and around Hilo. Sometimes he would not earn so much, for there is not always more than one paper a month to serve and the papers only pay fifty and seventy-five cents apiece. In such times, for instance, in the month of a court term, the deputy marshal might knock out \$175 or \$2.

Of course this is not much salary, and the glory and honor of the position is probably what makes the mouths of Hilo people water for the office. Marshal Ray has been besieged with applications and all of them have come from good men. One man almost threatened to bombard Honolulu if he did not get the job, and George H. Williams employed lawyer Carl S. Smith to "lobby" for his application.

"All the business we have or may have can be handled through the Territorial officers. On the mainland it is a common thing for a United States marshal to have accused men brought before State magistrates and by them bound over. I am sure that for a long time it will be wisest and even necessary to resort to this expedient in the country districts.

"Judge Estee will open court at Hilo the last of January. I am not aware of any business to come up at that time, but there may be some."

District Attorney Baird has discovered that there is no law against tearing down receipts for special taxes, as practiced by Deputy Sheriff Overend in three Chinese stores in Hanakoa. Overend wanted the receipts to use as evidence in liquor charges against the Chinamen and so took them from the walls. Revenue Agent Thomas thought he could be punished, but it is found that there is no law covering the matter. Mr. Baird has written Attorney General Griggs requesting the framing of a law protecting government receipts on the walls of business houses.

CHINESE TO LEAVE HANCOCK.

White Crew Will Replace Asiatic on Transport.

WASHINGTON, December 15.—Representative Kahn has succeeded in obtaining an order replacing the Chinese crew of the transport Hancock with white men. He received the following telegram this morning from J. B. H. Secretary of the Pacific Coast Marine Firemen's Union: "Transport Hancock has Chinese crew. I am ready to replace them with white men at any time."

Mr. Kahn immediately called the matter to the attention of Quartermaster-General Ludington, and after a conference with Assistant Mekilejohn, who gave him full authority, Ludington wired to Depot Quartermaster Long at San Francisco to discharge the Chinese crew, make arrangements to transport the Chinese back to China and engage a white crew in both the Quartermaster's and Commissary's departments. This affects about seventy-five men.

THINKS HE IS GUILTY

WILEY KNIFE-WIELDER PLEADS DRUNKENNESS.

Tells the Police He Thinks He Cut Toma But Does Not Know—Toma Identifies Him.

Insanity from drunkenness appears to be the plea of Kaga, the Japanese accused of nearly killing Toma at Iwilei yesterday morning. He has told the police that he "thinks" he did the cutting, and at the police station last night he acted as if still very drunk.

According to his story Kaga spent yesterday in hiding at Punahou, in the bushes. An attack of "cold feet" is supposed to have caused him to give himself up. After a day of hiding he probably became hungry and didn't feel equal to the strain of being pursued. The comforts of a jail appealed to him, and he went to the station and gave himself up. He acted as if much intoxicated, but appeared to become suddenly sober when given a shaking up.

Kaga appeared in court this morning. He is very hard-looking Jap, of powerful frame. A charge of assault with a knife to commit murder was placed against him, and the case went over until Monday. Attorney De Bolt appeared for him.

Kaga appeared to be still preserving his dazed demeanor. He stood before the judge with open mouth and looked straight ahead of him, not seeming to hear or care about what was going on. The police thing he is acting, with a view to making a showing for the trail. Officer Toma Abe took him in charge and escorted him below.

Kaga was taken to the hospital last night and Toma identified him as the man who cut her.

The woman whom Kaga is accused of cutting is said to have been brought into the country about a year since, as his daughter. Kaga owned a beach near a year ago and sold it for \$200. He appears to have decided to go into the procurer business with the money he took a trip to Japan and came back with two women. One was entered as his wife and the other as his daughter. Toma, his victim yesterday morning, is the daughter. The alleged wife is said to be now at Iwilei.

Kaga's trip to Japan and back is a sample of how the population of the Honolulu Yoshiwara is kept up.

THE ORPHEUM.

The Orpheum is giving an entirely new bill tonight and tomorrow night. There will be a children's matinee tomorrow afternoon at which the trained birds will furnish part of the entertainment. Sunday evening will be given the second sacred concert with augmented orchestra.

Invitation tickets for admission can be had on application at the box office. Persons who have paid for tickets will have their money refunded.

FROM TRUCK FARMS.

Byron O. Clark, the Daniel Boone of the truck farm at Waialae, has brought to town a lot of the finest green peas ever seen in this market. The hulls look healthy and the peas are even larger than those imported from California. Ready sale was found for the product, and the truck farmers are being brought into the city by the progressive Californians.

A NEW DIFFICULTY.

There was a new turn in the case of Yim Chun Sai, the little Chinese woman who has been refused a landing in the Islands, this morning. Judge Estee summoned the attorneys of both sides and stated that the court wishes some light on its jurisdiction in the matter. By agreement briefs on the subject will be filed Monday. If it is decided that the court has no jurisdiction the ruling of the customs collector against the petitioner will have to hold.

POPE AN EXPANSIONIST.

Thinks We Ought to Hold the Philippines.

NEW YORK, December 16.—A cable to the Sun from Rome says: "The Pope has announced that he will, after conference with the Archbishop of Manila, declare his conviction that the United States should retain its hold on the Philippines. The Pope considered that it would gravely imperil Christianity and civilization if the United States should abandon the government of the islands."

MANILA, December 16.—Most of the time of the Philippine Commission is now devoted to the tariff bill. Judge Taft said today that, generally speaking, the new rates would be about 40 per cent of the existing rates.

"It will be essentially a tariff for revenue," he remarked, "but some of the industries that are already established will be given protection. The Commission is not considering the question of the constitutionality of taxing United States products. The precedents have been established in the case of Porto Rico and by the military Government of the Philippines. The rate on kerosene will be reduced from 11 to 4 cents a gallon. Some American goods will be admitted free, and almost all will come in at reduced figures."

THE INAUGURAL COMMITTEE.

WASHINGTON, December 16.—The committee which will have charge of the forthcoming Presidential inauguration ceremonies was officially announced today. John J. Edson is chairman. T. E. Roosevelt vice-chairman, Colonel George Truesdell second vice-chairman, Southard Parker treasurer and Harrison Dingman secretary. The committee is made up of fifty prominent citizens of Washington and includes Justice Harlan, General Ellis Spear, Colonel Myron M. Parker, George H. Harris, Major James E. Bell, Colonel James G. Barrett, General H. V. Boynton, John W. Foster, General Miles and Thomas F. Walsh.

COMBINATIONS HOLD OUT

TWO MAY FIGHT THE DISTRICT ATTORNEY.

Will be Proceeded Against Criminally. Other Trusts and Boycotts Have Toppled Over.

Business combinations in restraint of trade are toppling over before the threats of District Attorney Baird. As he expected at most hands, Mr. Baird found the city full of such combinations. He investigated quietly and unearthed a surprising number. All were given a chance to cease and all except two have done so. The district attorney said yesterday afternoon that unless these two dissolved in a reasonable time he would proceed against them criminally, having the perpetrators arrested.

"I believe the plumbing trust is a thing of the past," said the attorney. "The plumbers have gracefully accepted the situation and have promised to obey. I have informed the dealers in plumbers' supplies that if I hear of a single case of a sale of goods to ordinary customers above the list price charged to plumbers, something would drop. The dealers have agreed to comply with the law and throw the market open."

"The combination against drummers has also fallen. This was a wicked thing and showed a bad spirit in the community. Where boycotts of this character are enforced there can hardly be a doubt about other wicked combinations in the same neighborhoods."

"Two combinations in the city are still holding off. I am giving them a little time to think it over. The men in the combination are willing to give up, but I understand their attorneys are advising them to fight. It resolves itself then into a question of opinion between these lawyers and myself. I am rather in hopes the combinations will consent to fight, as it would give me pleasure to ventilate the cases in the court. In both cases I will proceed criminally. I have the discretion of proceeding civilly or criminally, as the case may demand, and I believe that in these matters nothing short of a criminal prosecution will suffice."

"On account of the prosperity of the Islands little or no attention has been paid by the general public to illegal combinations. This has served to increase the number and to embolden the authors. I am sure it will be for the best interest of the community that all are destroyed and that business be conducted on legal lines."

LABOR ON HAWAII.

General Conditions in Kona and Kau Districts Improving.

Reports from the Kau and Kona districts on Hawaii are rather favorable on the labor situation. The various plantations in the former section have been able to make reasonably satisfactory contract arrangements with the Japanese regarding the leasing of the lands and cultivating on shares. Conditions in this respect are not so favorable however in the Kona district and while laborers are still in demand, the general condition seems to be improving.

The problem of introducing the negro to these islands is arousing keen interest on Hawaii for it is the Kohala plantation which has undertaken to effect this measure. Should the negro prove a desirable adjunct there is no doubt that he will replace thousands of Japanese.

WILL VISIT MAUI PLANTATIONS.

R. E. Blouin, the manager of the Planter's Experiment station will leave within the course of two weeks on the first inspection of the plantations on the islands. Owing to the change of location of the station and he work of becoming acquainted with the details of his new position, Mr. Blouin has not before found time in which to make the trip. He will first visit Maui.

TOMA'S HARD LUCK.

Toma, the Japanese policeman, has a grudge against the Iwilei knife-wielder. Toma was offered \$50 by the high sheriff as a reward for catching Kaga, and the officer started out on an all night chase. He followed the hunt until he found out that Kaga had gone to give himself up and then he tramped wearily back to the police station and borrow a quarter from Chillingworth to get breakfast. It was a heavy fall from the hope of \$50 and Toma says that Kaga knew all about it and only surrendered to do him out of the reward.

IN SUPREME COURT.

The case of Hong Kim vs. Hapal, appeal from Hilo, was argued in Supreme Court this morning and submitted.

W. A. Whiting presented the claim of the trustees of the Lunalihi Estate for commissions on \$29,000, being the difference between the purchase and selling price of certain land disposed of during the past year. The commissions amount to \$725.

The case of H. vs. Judd is on before the Supreme Court this afternoon.

"PATIENCE" IS POPULAR.

LONDON, December 16.—The death of Sir Arthur Sullivan has had a curious effect on the audience of "Patience" at the Savoy. It has so stimulated interest in the dead composer's work that the audience are exceeding the record of the production of the opera.

NO SESSION OF DIOCESE

BISHOP WILLIS POSTPONES IT INDEFINITELY.

Says He has Received Further Light On the Troubles Now Confronting The Anglican Church.

His Lordship, the Bishop of Honolulu, has postponed the meeting of the Anglican Synod until further notice. Members of the clergy and the diocese this morning received letters in their mail apprising them of the fact. It is not now known when the meeting will be held but it will probably not be for some time to come.

The session was called to discuss certain provisions of the charter in connection with the transfer to the American church. Among other things the charter provides that the English prayer book shall be used, which would be impossible under the American system. Again, considerable property is involved in the hands of a board of twelve trustees. These trustees can not let go, under the charter, until somebody is in sight to receive the property. In his letter the Bishop says he has received further light on the matter. The "light" came from an American Bishop, up in Vermont. The following is the letter calling the session of the Diocese:

"Alfred, by Divine permission, Bishop of Honolulu to our beloved in Christ, Henry Smith, Synodman.

"Greeting.

"No do by these presents cite you to the Third session of the Fifth Provincial Synod, which we convene in the Cathedral church of Honolulu on Monday, the seventh day of January, 1901.

"Given under our hand and seal this 28th day of September in the year of our Lord, 1900.

"ALFRED HONOLULU."

Bishop Willis was quite formal in the above letter, but in the following, which has just been received by the church members, is more democratic. His Lordship says:

"To the Clergymen and Synodsmen of the Diocese of Honolulu.

"My Dear Brethren,

"Since asking for your attendance at an extraordinary session of the Synod on January 7, 1901, new light has been thrown on the situation from which it becomes evident that it would be premature to come to a decision immediately on the principal matter I had to lay before you. As the position becomes better understood, I shall be able to consult with you on a surer foundation than that on which I had supposed action could be based. I therefore postpone the meeting of the Synod to a future day of which due notice will be given.

"Yours very faithfully,

"ALFRED HONOLULU," Honolulu, December 28, 1900.

SELLING WATERED MILK.

Two more milkmen have been arrested on charges of selling milk with water added to it. They are M. Aubrey and C. Lambo. Both were arraigned in the police court this morning. Attorney Long appeared for Aubrey and Pierce for Lambo. The Aubrey case went over to Monday, while Lambo's trial was postponed for a week. Lambo has a sample of the milk he is accused of selling and will have an analysis made on his own hook. Dr. Sherry is making analyses for the prosecution in both cases.

Bk. Mauna Ala, Hamilton, for San Francisco with sugar.

MEMORANDA.

The ship Prince Albert, which arrived off the harbor last night from Newcastle, had been looked for for some time. She was 82 days out, and has probably been detained in San Francisco. The bark Prince Victor, another Norwegian vessel, had the same experience coming here this fall, and was detained forty per cent.

NEW STEAMER LINE.

SAN FRANCISCO, December 16.—The steamer John S. Kimball has sailed from Seattle on her first trip to Honolulu as the pioneer vessel of the new steamship line established by Frank Waterhouse. The steamer Centennial and Charles Nelson will follow the Kimball, and all the steamers will touch at San Francisco on the return from the islands.

Among the vessels clearing yesterday were the steamer Belgian King for Yokohama and Hongkong the barkentine Wrestler for Lahaina and the schooner H. C. Wright for Kahului. Captain Fred. Mosher, formerly of this city, has come from Honolulu to take command of the new steamer Hanel recently launched at Alameda point, and which is to be placed in the inter-island trade. The machinery for the Hanel is to be placed in position next week.

KANSAS WOMEN ROUSED

INFURIATED OVER RELEASE OF JESSIE MORRISON.

Indignation Meetings Held Where Slayer of Mrs. Castle is Denounced. May Tar and Feather Jessie.

WICHITA (Kan.), December 18.—Unless Jessie Morrison leaves El Dorado very shortly she is in danger of being treated to a lynching party and she will be the guest of the occasion. Indignant women of El Dorado will conduct the lynching.

This morning an indignation meeting of about twenty women of El Dorado met at the home of Mrs. J. H. Stevenson and discussed the situation. Nearly every one favored the immediate lynching. Many speeches were made. Mrs. Roland Wiley, mother of Mrs. Clara Castle, was one of the speakers, although not a leader in the movement. Mrs. Johnson made the principal speech. She said in part:

"The action of the jury in practically acquitting Jessie Morrison is outrageous, and I fear if she is turned loose again in our community we may have other deaths from her hands. Women, let us give her tar and feathers. All we will have to do is to take her out of her house and tie her to some tree. I will help put on the tar and feathers and I don't care who knows it."

Mrs. Stevenson agreed to help, and all of the other women expressed their willingness. All that is necessary, say the women, is to secure a leader. Mrs. Wiley refused to lead the party. The women refuse to say when they will lynch Jessie Morrison, but they are open in their avowal to do so.

LAKE SHIPPING.

The chances are that the average man, asked from what parts of this country the greatest shipping was done, would promptly answer, from the ports on the Atlantic and the Pacific oceans; and thereby he would reveal that he had not kept informed on the subject. We imagine it will be a matter of considerable surprise to large numbers of people to learn, from the recent report of the commissioner of navigation, that of the something more than five million gross tonnage of our shipping during the last fiscal year, nearly one-third stands to the credit of the Great Lakes, that waterway of the north which has taken on such importance with the growth of the central and western states. Of the 740,342 tons increase in our shipping in ten years, 592,523 tons is credited to the Great Lakes. The Atlantic and Gulf coasts last year 2,737,892 tons; the lakes, 1,565,587 tons; the Pacific coast, including Hawaii, 612,904 tons; and the Mississippi, 258,455 tons. The shipping through the two great interior waterways was nearly three times that from our Pacific coast and was approached within a third of equalling that of the Atlantic and Gulf coasts. The comparison gives us a definite idea of the growing importance of those interior sections of the country that can take advantage of these fresh water channels.—New Bedford Republican Standard.

TAX SUMMONS.

Judge Dickey has signed something like 1,700 civil summons for delinquent personal tax payers. All these will have to appear and make a proper defense or judgment will be entered against them. If they have property the collector will be in clover, but as a matter of fact, not one in a hundred has enough land for a goat to stand on. Under the new order of things arrests can not be made for non-payment of personal taxes. Judging from the number of delinquents the tax-payers have ascertained as much.

THOMAS PHILLIPS.

Thomas Phillips, who died yesterday, was injured about three years ago on the steamer Waialeale, of which he was engineer, and died of those injuries. He had gone down one of the hatches to look after some matter and was struck in the back by a sling of sugar. Paralysis of the legs was the first result and after that was over he proved a physical wreck. Deceased left a wife in Honolulu.

Suitable for the
Season . . .

A bargain in time is doubly a bargain. A man's wardrobe is never too full of ties.

Don't take our word for it. Come and see.

The Kash—that name stands for progress.

Everything man or boy wears from hose to hats.

Keep your eye on our windows. You'll not go astray.

You need not go any farther than right here for the best.

We're taking other folk's valuation and quoting our price for it.

Just as natural for us to lead in variety and value as it is for others to follow.

Some clothing is made to sell; some to wear. Some clothing is made for both. That is our kind.

Don't imagine that Kash shirts will never wear out. They will, but they will last longer and fit better than other makes.

Pulse Beats.

Put a finger on your pulse. Do you feel the throbbing beats come strong and regular, or are they weak and uncertain? A weak pulse means a weak heart and retarded circulation of the blood. It means stomach trouble, indigestion, pain in left side, dizzy spells, shortness of breath, palpitation, fainting or sinking spells and breaking down of the entire system. If your heart is weak and your pulse irregular begin at once to guard against the coming breakdown by taking

DOCTOR
MILES'
Heart Cure,

The Great Heart and Blood Tonic.

"I had much pain about the heart, palpitation and irregular pulse, and for nearly three months had to be propped up in bed to keep from smothering. I had frequent sinking spells when it seemed as though my heart had stopped beating entirely and the most heroic measures were necessary to revive me. I had no appetite for food and lost flesh rapidly. Seeing that my doctors were doing me no good I took the advice of an old friend and began taking Dr. Miles' Heart Cure. The good effects were so apparent that I kept on with it, and I am satisfied that I owe my restoration to that valuable remedy."

INDIANA LYNCHING BEE**NEGRO MURDERERS PROMPTLY****EXECUTED.**

Mob Overpowered Officers, Broke Into The Jail and Secured the Trembling Prisoners Strung Them Up.

ROCKPORT (Ind.), December 16.—Two negroes, Jim Henderson and Bud Rowlands, who waylaid, murdered and robbed Hollie Simons, a white barber, early this morning, were lynched to-night in the jail yard by a mob of 1500. The negroes were arrested soon after the murder and although Rowlands' clothing was blood stained on it they claimed they were innocent.

In the meantime Sheriff Clemens of Union county, Ky., arrived with a trained bloodhound. When the dog was placed on the trail he followed it to the house where Rowlands lived, six blocks from the scene of the murder, and went baying to the bed the negro had occupied. This was enough for the excited citizens. Within a few minutes a mob of a thousand howling, bloodthirsty men, with sledge hammers, ropes and guns, were on the way to the jail.

Sheriff Anderson and his two deputies made a stand and attempted to protect the prisoners. The officers were seized by the leaders of the mob and disarmed. The Sheriff, although locked in a room and placed under guard, stoutly refused to give up the keys or tell where the prisoners were hidden.

The mob made a determined but unsuccessful attempt to break in the jail door. Finally they secured a telegraph pole, and using it as a battering ram, crashed in the wall of the jail. The door of Rowlands' cell was then quickly broken in with sledge and he was dragged from the jail to the east side of the courtyard, where a noose was placed about his neck. He was given time to make a statement, in which he implicated Jim Henderson and another negro. Rowlands then begged piteously for mercy, but the mob swiftly swung the confessed murderer to a tree and riddled his body with bullets.

Leaving no doubt as to the fate of Rowlands, the mob rushed back to the jail and burst open the cell occupied by Henderson. Before the bars yielded by the blows of the sledges someone in the crowd fired upon the terrified negro as he crouched in the far corner. It took but a few moments to get at Henderson, and the negro, more dead than alive, was dragged at the rope's end to the Courthouse yard and swung to the tree beside the body of Rowlands.

McGOVERN-GANS FAKE.

Moving Pictures Show That the Darky

Laid Down.

CHICAGO, December 16.—Moving pictures of the McGovern-Gans fight strengthen the charges that a fake was engineered at Tattersall's last Thursday night.

The first public exhibition of the pictures was made today. They portrayed Gans in the act of refusing to make any assistance and going down without being struck. They also showed the stomach blows which are alleged by the accused parties to the deal to have been struck in the first minute of the fight.

Referee George Siler saw the exhibition and could find nothing that would induce him to change his mind about the decision. His idea is simply that Gans made a weak fight, but he is not positive that the negro tried to lose.

UTAH HAS SMALL-POX.

DENVER, December 16.—A special to the News from Salt Lake City, Utah, says: The small-pox situation throughout Eastern Utah is becoming most alarming in view of the fact that the greater number of the cases are among the foreign-born miners in the coal camps, and if there is a general epidemic of the plague the coal output will be materially decreased. There are nearly a hundred cases at Scofield, while Winter Quarters and Clear Creek are fighting with the disease. Sunnyside Camp, in the east end of Carbon county, reports half a dozen cases.

MEMORY OF ARTHUR SEWALL.
H. M. and William Sewall have notified the town council of Bath, Maine, that they will present the place with \$15,000 in memory of their father, the late Arthur Sewall. The sum of \$10,000 is to be put into interest bearing bonds, to be held in trust for the needy poor of the city, while the remaining \$5,000 goes to found a perpetual free bed in the Maine General hospital for Bath people. The offer was accepted.

CHILDREN'S ENTERTAINMENT.
A children's entertainment was given last evening at the Salvation Army hall. Rev. W. D. Westervelt assisted by A. F. Cooke gave a series of stereopticon pictures illustrating scenes in the life of Christ. There was a large attendance.

WE MAY GET GOOD BUTTER.

One of the largest dairies on the Pacific coast is about to be established by Clarence J. The undertaking is to be operated on scientific principles, and professors from the state university have been asked to investigate the soil and report on the best variety of grass to be used for feed.—The Argonaut.

FRIDAY, DECEMBER 25, 1906

The approach of 1907 has not as yet revived the beginning of the century controversy.

The description of conditions on the schooner Twilight remind one of Campbell's lines:

"Ye gentlemen of England,
 Who live at home at ease,
 How little do ye think upon
 The dangers of the seas."

It is to be hoped that justice will be meted out to the wretch who attempted the life of his slave at the Twelfth stockade yesterday. Murder is always detestable, but in such cases and under such circumstances as surrounded this attempt, there seems to be something doubly loathsome and dreadful.

De Rougemont who fooled some of the most learned of scientific men, and got \$10,000 out of the "Wide World" Magazine is going to turn up here shortly. He will certainly be an interesting figure, and quite worth interviewing. Munchausen is not in its beside de Rougemont.

The seven largest items in Secretary Gage's estimates to congress for 1907 are \$134,774,767.78 for the army; \$55,953,977.72 for the navy; \$98,542,441.37 for the civil service; \$40,160,333.27 for interest; \$109,555,358.08 for the post office; \$10,175,306.76 for the Indians; and \$149,877,316.02 for pensions.

"My son" said the serious and elderly friend, to the younger, who had been to the Christmas luau the night before, "my son, the wages of sin is death."

"Yes," replied the other as he reached for the pitcher of ice water, "and I feel as if my salary had been raised to the limit."

The sailors on the schooner Twilight have found that the laws of the United States as administered in the federal courts are fully equal to all emergencies. They will not be obliged to choose the alternative of sailing in a vessel whose seaworthiness they fear or losing ten months' wages.

The changes that have been wrought on the water front by the creation of the naval station here, is an earnest of what may be expected when the naval necessities and resources of these islands are fully appreciated by congress, and time has been given for congress to work them out.

The increase of steam communication between Hawaii and the coast is shown no more strikingly than in the fact that it is not three years ago that news of the outside world was frequently brought here by sailing vessels. It is a good many months now since any sailing vessel has brought coast files that had not already been received by steamer.

The money left to Boston one hundred and ten years ago by Benjamin Franklin now amounts to \$368,000, and the managers of the fund have at last perfected a plan for its use. For some time the proposition has been under consideration of the erection of a building to be known as the Franklin Institute, to be used in part as a branch of the public library and to have reading and exhibition rooms, and assembly hall, and class rooms for institute work.

It is to be hoped that all the tangles which annexation brought about will be settled satisfactorily, as many of them have been already. The changed conditions which annexation brought to the Anglican church here is one that does not seem to yield readily, or at least speedily to the new conditions. It is to be hoped that the status and relations of the church will soon be made plain and satisfactory, that the work of the church may go on without vexations or hindrances.

The report of the treasury department regarding the money in circulation shows a net increase for month of November of almost \$19,000,000. The most noteworthy change among the items was an increase of over \$15,000,000 in gold certificates with which may be mentioned an increase of not for from \$3,000,000 in gold coin. As compared with the corresponding date last year the money in circulation on December 1 showed an increase of over \$180,200,000. The largest item of increase was one of over \$87,100,000 in national bank notes and the next in amount a gain of over \$80,300,000 in gold certificates. Other increases were of over \$27,300,000 in silver certificates, not quite \$3,000,000 in standard silver dollars, a little less than \$5,400,000 in subsidiary silver and a little over \$15,800,000 in United States notes. The decreases comprised a little over \$2,700,000 in gold coin, of over \$24,000,000 in Treasury notes of 1890 and of over \$11,900,000 in currency certificates. The per capita circulation, estimated on the basis of a population of 76,975,000, is put by the Treasury experts at \$28.04. This represents an increase of 22 cents for the month, and, if a comparison were made with the estimate made a year ago, would mark a gain of \$2.19 as com-

pared with the corresponding date a year ago.

The term of enlistment of the soldiers of the United States Volunteer regiments expires June 30, 1907, and by the terms of their enlistment and the act of congress under which they were enlisted, they must be returned to the States and mustered out by that date.

This means that another great movement transferring thousands of troops beyond seas must soon begin. There is something stupendous and imposing in this transfer of soldiers from one part of the world to another across the ocean. It is suggestive of those successive migrations from western Asia, the cradle of the race, which peopled Europe, and more than once changed the distribution of her people.

The past three years has seen more of this beyond sea movement of troops than as many previous decades did. Beginning with the Spanish American war when American volunteers were transported to Cuba, Porto Rico and the Philippines, and later brought back again, followed by the transportation of the United States Volunteers, the Boer war witnessed this transportation process on a still larger scale. Then the troubles in China brought another migration this time from all parts of the earth.

Mary Ellen Lease of Kansas, after twenty-seven years of married life has applied for a divorce charging her husband with incompatibility and failure to provide. Her husband will not contest the proceeding. He says he is tired of being referred to as "the husband of Mrs. Lease." Most people who know them will sympathize with Mr. Lease. Mrs. Lease first came into prominence nearly twenty years ago during the temperance crusade which resulted in making Kansas a prohibition state. She took part in that campaign on the prohibition side. The taste for public speaking seems to have grown on her and during the period of political unrest in the late eighties and early nineties which made Kansas such a picturesque state politically, she was almost continually on the stump. She developed into a most forceful and effective speaker, notwithstanding a certain masculinity in appearance and manner. Her voice while not musical had a carrying quality that gave it a certain charm and made her above most women speakers, peculiarly fitted for outdoor oratory. There was a time when she was probably more talked of and written about than any other public woman in America. While this was due largely to her own ability and forcefulness it was aided by a curious and amusing coincidence. Barry and Fay, the Irish comedians, were then presenting an amusing burlesque sketch entitled "Mary Ellen Ryan." In this sketch the expression "Yours forever, Mary Ellen Ryan" repeatedly occurred, and the public had become thoroughly familiar with it and indeed used it as a cant expression of humor. Mrs. Lease's pertinacity and persistence and the fact that her name was Mary Ellen made the association of her name with this vaudeville quotation easy. The newspapers and paragraphers did the rest, and Mary Ellen Lease rose to fame. Mr. Lease is a druggist of Wichita, Kansas, a good business man, who has acquired a considerable fortune.

EXPERIMENT STATION.

Suggestions of new agricultural enterprises for the islands so frequently and so ably made, with such sure guarantees of small investments and large profits, frequently ignore vital facts. The sugar industry of these islands was not established until years of discouragement and costly experiment had been gone through. Coffee growing is now in the years of discouragement.

Hawaii, however, is not alone in the experience. It is a universal experience. The growing of figs has been suggested as an industry in which men of small means might profitably engage. California has been striving for years to raise figs and is only now at a stage where success seems probable. California has for years grown large quantities of the black or Mission fig, the Brown Turkey fig, and the White Adriatic. But the fig of the world's commerce is the Smyrna fig. This is a variety or species that will not come to maturity unless the growing fig is fertilized by an insect known as the blastophaga, and the blastophaga can perpetuate itself only on the wild or Capri fig. It took California horticulturists many years and much money to find all this out. The Capri had to be introduced and planted near the orchards of Smyrna figs, and the blastophaga had to be introduced, which in itself was a matter of years and great expense. There are a number of men in California who have been financially ruined in their efforts to develop the culture of the Smyrna fig. Their experiments and efforts have led to what is probably final success.

Humble bees, or "bumble" bees, had to be introduced into Australia before red clover could be grown there with success. Doubtless before Smyrna figs, which are the standard commercial figs of the world, can be grown here, the conditions of their successful growth must be met. This cannot be done out of hand. It is one thing to suggest a new industry; but it is usually quite another to really introduce it. It is right in this class of cases that an experimental station under the direction of the United States Department of Agriculture is so desirable. It could conduct these necessary preliminary experiments along scientific lines at much less expense and with greater scientific accuracy than can be done by private individuals, and without the wastefulness and ruin which so often follows when it is attempted to carry on the experimental with the commercial prosecution of a new industry.

REPORT OF COMMISSION

SAYS SCHOONER TWILIGHT IS
NOT O. K.

Extraordinary Board Recommends
Changes Before Vessel May Sail, and
Same is Approved by Court.

The commission appointed by Judge
Estee yesterday to examine the Ameri-
can schooner Twilight and report on
her sea-worthiness submitted its opin-
ion and recommendation this morning.
There are no inspectors of hulls and
boilers here yet, although such a board
is provided in the shipping laws. When
complaint was made of the condition
of the Twilight, Judge Estee was
caught in a predicament. Had there
been a proper board already in exist-
ence the matter would have gone to
it. The court took upon itself the lib-
erty of naming a board for the particular
object and clothed it with the same
powers as any other board of the same
kind. The action was unusual here and
probably without precedent anywhere,
but the law behind it is good.

The cause of the appointment of this
board was the complaint of the sailors
of the Twilight that she was unsea-
worthy. They declared they were afraid
to sail in the vessel. The board of sur-
vey found a happy medium between
sailors and owners, as expressed in the
following report, filed today:

"We, the undersigned, at request of
the United States district court of the
Territory of Hawaii, beg leave to sub-
mit the following report on the Ameri-
can schooner Twilight as she lies at
anchor in the harbor of Honolulu, Ter-
ritory of Hawaii, said report to in-
clude everything appertaining to the
said vessel, namely, hull, sails, rigging,
apparel and other appliances.

"Hull: Wood ends forward to be
caulked and payed. Butts on deck
planking to be done likewise. We also
recommend that said vessel's pumps
be put in first class order.

"Rigging: Fore rigging to be lifted,
and mast head band to be properly
secured. All iron work on booms, gaffs
and blocks wherever necessary to be
repaired, subject to the approval of
your surveyors.

"We also recommend that said ves-
sel, before proceeding on her voy-
age of destination, be supplied with the
following amount of sails, namely: One
main sail, one fore sail, one fore stay
sail and one inner jib.

"All of which we most respectfully
submit for your approval.
(Signed) T. K. CLARK,
J. F. HAGLUND,
F. E. RENSCH."

In accordance with this recommend-
ation Judge Estee this afternoon issued
a decree commanding that the require-
ments therein named shall be at once
carried out.

TWO EXTRA COMPANIES.

A setback has been met with in the
organization of the two extra com-
panies of the First Regiment on ac-
count of a lack of interest in the mat-
ter by native Hawaiians. Not enough
natives have yet been signed to war-
rant the mustering of either element.
It is understood that the bugaboo
ahead of the Hawaiians is the pros-
pect of being ordered to China or
some other distant country, out of the
reach of poi and limu. The organiza-
tion of the two extra native companies
is being encouraged by the regiment
officers and others feeling an interest in
the N. G. H.

THE BOER WAR.

LONDON, December 17, 5 p. m.—The
report of another severe battle, result-
ing in a British victory, is current here.
According to the story the fighting be-
gan at daybreak today and lasted for
several hours. The Boers, who number-
ed from 1,500 to 2,000 men were sur-
rounded at the Orange river and total-
ly defeated with very heavy losses in
killed and wounded. A number of Boers
it is added, were captured.

MASERU, Dec. 17.—It appears that
Dewet's forces were twice repulsed be-
fore breaking through the British lines
in the neighborhood of Thabanchu. In
the third attack, Dewet led in person.
With a few determined men he charged
and broke the British lines, the rest of
the commando following. He was
forced, however, to leave in the same
of the British a 15-pounder and fifteen
wagons with ammunition and stores.

Commandant Haasbroeke, with a
commando and two guns, tried to get
through Springkatsk, but was driven
back, losing forty men.

ENDS OF YELLOW PAPERS.

CHICAGO, December 16.—Newspaper
publicity concerning the epidemic of
violent crime now prevalent in Chicago
has called forth an indignant protest
from Mayor Carter Harrison. He
says: "Files of newspapers will prove
that the cry now being made against
me is a very cold story. And what is
the result? It is not an exaggeration
to say that this year Chicago has lost
hundreds of thousands of dollars in
trade by wild rumors about the city be-
ing held in the grip of highwaymen
and a lot of foolish talk of the same
character. A case of robbery or bur-
glary is treated in the most intemper-
ate manner, simply to make sensation.
The newspapers get hysterical over
nothing, and consciously or uncon-
sciously grind political axes of a class
of people who are always seeking to
drift into popular favor on every out-
burst of reform that seizes a certain
class of citizens."

ART IN QUEENSLAND.

How Sweetness and Light is Cultivated
In Australia.

There are in Queensland at present
upward of 115 schools of art, libraries
and mechanics' institutes, which in-
stitute the government aids by dupli-
cating the amount raised by the sub-
scribers. In every case the site has been
contributed by the government. These
institutions have a membership ag-
gregating about 10,000 and the number
of books they own is over 144,000. Al-
together the government has contribu-
ted over £110,000 (\$334,000). In addition
to these there are several technical col-
leges which also receive government aid.
There are numerous agricultural
experimental stations throughout the
colony run entirely by the state, and
there is one large state agricultural col-
lege where boys are trained for agricul-
tural and dairying pursuits. The gov-
ernment is making a further departure
by initiating a school of mines. This
school will be at Charters Towers, the
premier gold field of the colony. Here
the youth of the colony so disposed will
be coached in mineralogy. When it is
stated that since 1867 the gold yield of
Queensland has amounted to over 14-
000,000 ounces, with a money value of
over £50,000,000 (\$243,320,000), it will be
seen that the interest has fairly war-
ranted the undertaking on the part of
the government.

The last meetings of the century are
beginning to be announced. It is a
solemn way of putting it, but it is
chronologically correct.

IMPORTS AT SAN FRANCISCO.

The value of the foreign imports of
merchandise at San Francisco for Octo-
ber compares as follows:

	1889	1890
Total	\$4,444,967	\$2,569,440
Decrease	\$1,875,527	
Of the imports last month the propor- tion of free and dutiable were as fol- lows:		
Free	\$309,904	
Dutiable	\$1,629,536	
Total	\$2,569,440	

The source of the imports for the past
months are as follows:

	1889	1890
Japan	\$1,801,581	
China and Hongkong	\$1,291,291	
Great Britain	\$153,550

Central America	\$9,458	
Mexico	\$11,000	
British Columbia	\$14,560	
South America	\$2,528	
East Indies	\$250,608	
Philippine Islands	\$39,759	
Society Islands	\$40,041	
Miscellaneous	\$24,858	
Total	\$2,569,440	

Part of the decrease for the month is
due to the omission of imports from the
Hawaiian Islands under the rule in
operation since June 14. Last year the
October imports from that source were
valued at \$912,860.

The sources of the imports for the
first ten months of the year were as
follows:

	1889	1890
Japan	\$1,198,525	
China and Hongkong	\$639,536	
Great Britain	\$236,599	
Hawaiian Islands	\$598,833

Philippine Islands	\$435,081	
Society Islands	\$56,324	
Siberia	\$697	
Miscellaneous	\$8,302	
Total	\$34,793,217	

*No values since June 14.

The proportion of free and dutiable
imports in the above totals compare as
follows:

	Free	Dutiable	Total
Jan.	\$1,648,036	\$1,608,576	\$3,256,612
Feb.	\$3,327,981	\$1,096,072	\$4,424,053

June	\$2,212,988	\$1,275,478	\$3,488,466
July	\$1,919,009	\$1,306,488	\$3,225,497
Aug.	\$1,861,101	\$1,780,312	\$3,641,413
Sept.	\$1,919,009	\$1,179,520	\$3,098,529
Oct.	\$309,904	\$1,629,536	\$2,569,440
Total	\$20,574,682	\$12,219,135	\$32,793,817

In 1889 .. \$27,157,012 11,471,351 38,628,363
In 1890 .. \$21,000,531 10,588,927 31,589,458

If the value imported from the Ha-
waiian Islands since the suspension
were added on the basis of the imports
from that source for the corresponding
four months last year would be about
\$40,000,000.—San Francisco Bulletin.

A VERY UNPOPULAR LAW

RULE 27 OF THE HACK REGULA- TIONS.

Hackman Green Arrested Because He
Would Not Pay for a Card of
Rates.

Rule 27 of the new hack regulations is
proving very objectionable to the hack
drivers, who find it very hard to keep
a card in a small case in their hacks. In
full sight of the passengers. Another
objection is that the police are charging
ten cents for each card.

Hackman George Green was arrested
yesterday for driving his hack with no
card in it. He lost his card and went to
the police station to get another. He
was told that it would cost ten cents.
Green said he would be fined before he
would pay ten cents for a bit of paste
board and he drove away.

This morning as a natural conse-
quence he appeared before Judge Wil-
cox. Deputy Sheriff Chillingworth ex-
plained that Green had refused to get a
card and Green said that he could not
afford to be driving to the police station
every now and then and putting up
ten cents because his card disappeared.
It appears that many of the hack riders
of Honolulu have taken a notion to tear
up or throw away the cards. Some-
times a torn-up card is carefully re-
placed where it belongs, and this is
what Green said happened in his case.

Green says that Rule 27 is one of the
cruelest laws that was ever enacted. A
man who is driving a hack can not
watch a card behind his back and the
card may be taken away or de-
stroyed at any time. There is no need of
a card anyhow, says the hackman, for
every driver has to carry a book giv-
ing rules and rates, in his pocket.

Judge Wilcox allowed Green to go
with a reprimand. It is said that some
of the hackmen in town are preparing
to make an effort to have the law
knocked out and some have openly an-
nounced their intention to defy the ob-
noxious rule.

THIS MAN IS PLEASED.

Correspondent Applauds Proposal to
Widen Hotel Street.

EDITOR STAR: I have read with
great interest and pleasure in last even-
ing's Star that the government is se-
riously thinking about the much needed
widening of Hotel street between Union
and Alakea. Well is high time that
somebody got a move on in that direc-
tion. Hotel street is a very important
thoroughfare and particularly so in the
evening. There is more travel in the
evening on Hotel street than on any
other street in the city. The sidewalks
in that section of the town also need an
overhauling and adjustment; such can't
be done too soon, when we claim the
title, "progressive town" for Honolulu.

WANTS HIS PRESENT BACK.
Objects to High Church Services in His
Building.

DETROIT, (Mich.), December 16.—
James E. Scripps, who built Trinity Re-
formed Episcopal Church a handsome
stone structure, adjoining his home, at
a cost of about \$90,000, and who deliv-
ered it to the episcopal charge of Bishop
Davies of the diocese of Michigan about
three years ago, some time ago wrote a
letter to the wardens and vestrymen
asking them to return the property to
him. This request has not been com-
plied with and he has instructed his
attorney to prepare a bill in equity to
ask the courts to compel the wardens
and vestrymen to turn the property
over to him.
Scripps claims that the church was
built and delivered to the society with
the understanding that no high church
services should be held therein. This
understanding, he says, has been vio-
lated and he has withdrawn from the
church in consequence. He demands
the return of the property in order
that the services for which it was de-
signed may be held there.

PNEUMONIA PREVENTED.

past few years, to our knowledge, not a
single case has resulted in pneumonia.
Thos. Whitfield & Co., 240 Wabash av-
enue, Chicago, one of the most promi-
nent retail druggists in that city, in
speaking of this says: "We recommend

grippe in many cases, as it not only
gives prompt and complete recovery
but also counteracts any tendency of
la grippe to result in pneumonia." For

THE OFFICIAL TIME TABLE

DATES OF MAIL SERVICE FOR THREE MONTHS.

Eighteen Vessels With Mail Will Arrive in January—Sonoma Will Also Make Her Initial Appearance.

The first official quarterly time table for the year 1907 has just been issued by Postmaster Out. This table gives the dates of arrival and departure of all mail steamships during the months of January, February and March.

Travel will be the heaviest in January as no less than sixteen boats are to touch here. Of this number eight will be from San Francisco and one from Victoria. There will be the same number of mails to those places respectively. In February, only eleven boats will arrive, five being from San Francisco and one from Victoria, while in March thirteen boats will be reported, six from San Francisco and one from Victoria.

The most interesting feature in January will be the initial arrival of the Sonoma, the sister ship of the Sierra. As a coincidence, both ships will arrive on the same day, the Sierra from her maiden trip to the Colonies and the Sonoma on her first trip to that part of the globe. On February 9, the Mariposa will arrive from San Francisco and inaugurate her regular runs between Honolulu and the Coast, returning on the 13th to San Francisco. The Ventura, the third of the new ships of the Oceanic Company's Colonial mail service is scheduled to arrive from San Francisco, March 12th and the same day the Sonoma will reach here on her return from Australia.

The time table in detail is as follows:

In addition to these regular mail steamships, a United States army transport may be expected from San Francisco on the 9th and 24th of each month, en route to Manila, unless the route is changed by the War Department. Transports do not touch here on the return from the Philippines however, going straight across from Yokohama via the great circle route.

DEATH OF DOIRON.

The funeral of A. Doiron, a very old resident of Honolulu, took place from the undertaking parlors of H. H. Williams at 2 o'clock this afternoon. Deceased was 87 years of age and a native of France. He died yesterday afternoon at the residence of his daughter, Mrs. Thomas Nott.

HEALTH OF CHINATOWN.
The Chinese are not taking kindly to the claim of the health department that new Chinatown is in such an unsanitary condition. They claim that the place is new and the many buildings were but recently erected so the section can scarcely be in such a dangerous state as described. The Chinese residents are very prompt, their countrymen claim to obey all the directions of the health department and the condition is they think exaggerated. The idea of posting notices and sanitary regulations is an excellent idea and is so considered by leading Chinese. No attempt will be made to interfere with the health inspectors.

KWANG HSU WILL RETURN.
Hopeful Outlook for the Beginning of Negotiation in China.

BERLIN, December 15.—The Foreign Office officials say they do not know whether Great Britain has not yet authorized her Minister at Peking to sign the joint note on the powers. Sir Ernest Satow has asked London for further instructions on the subject. Germany believes the instructions have not yet been received. It is pointed out that the signing of the note will be the first step of a binding character yet taken by the powers jointly, hence it is supposed that Great Britain wants to consider the matter fully.
It is believed Li Hung Chang and Prince Ching will be able to show credentials and it is assumed they are now communicating with the court in this connection. The Foreign Office officials admit that the indications are now most favorable to getting China to come to terms. They also say that the early return of Emperor Kwang Hsu to Peking seems likely.

KRUEGER TALKS OF THE DEFEAT LONDON.—December 15.—"Mr. Krueger and Dr. Leyde, who dined this (Friday) evening at the Palace," says the correspondent of the Daily Mail at The Hague, "on hearing of the British disaster at Nootgedacht, were quite unmoved. Mr. Krueger said he thought the English would break their necks on the Magellanberg and he reasserted his complete confidence in ultimately forcing England to initiate an acceptable settlement."

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

In today's advertisement, the Hobron Drug Company enumerates many suitable New Year's gifts.

The funeral of the late Thomas Phillips will take place from the K. of P. hall at 3:30 this afternoon.

The merits of the Oliver Typewriter are given by Wall, Nichols Company in their advertisement of today.

All the wooden buildings at the Punch bowl street detention camp will be sold on January 3 by Jas. F. Morgan.

A special sale of chickens on Saturday by the Metropolitan Meat Company. Fine roasting chickens only 50 cents.

On January 4 a number of wooden buildings on Vineyard street between River and Liliha streets will be sold.

A later mail will be due by the Coast tomorrow from San Francisco. She will probably arrive during this evening.

The Hawaiian Trust & Investment Company is now ready to receive applications for offices in the Boston building.

"Lord" Robert W. Podmore this morning renounced allegiance to the good Queen and became an American citizen.

It is the intention of Theo. Richards to purchase Relief Camp No. 2 on Vineyard street and continue it as private enterprise.

The Lace House on Hotel Street will remain open on Saturday and Monday evening. They have many articles suitable for New Year gifts.

Mr. Carrington reports that he has made contracts for more than 250 telephones, the number originally required to make the project a go.

A notice to mariners regarding the replacing of the Bell buoy at the entrance of the channel, appears in the By Authority column today.

Dr. Jobe, of the United States Marine Hospital service, expects to leave sometime next year for a course in the Post Graduate school in New York.

Tomorrow at noon, at the salesrooms of Jas. F. Morgan, the delinquent stock in the Olua Sugar Co., Ltd., will be sold, unless the 12th assessment is paid.

Frank G. Prescott, of this city, has announced his engagement to Miss Ethel Adams, of Oakland. The wedding will take place during next month.

Major Potter was engaged at the capitol yesterday making out a report of the expenses of the commission to Paris, to be submitted to the Territorial government.

Dr. McDonald is being spoken of as a successor to Dr. Hoffman as bacteriologist of the Board of Health. He is an expert in that line and also a lecturer of note.

Plaintiff in the case of Hollister Drug Company vs. John F. Colburn, assumpsit, has appeared from Judge Dickey to the Circuit Court. The amount involved is a little over \$92.

On account of the very rapid work done by Mr. Stevenson in house numbering it is now practically a certainty that free delivery of mail in the city can be started next week.

Dr. Noblitt has resumed practice from his office on King street and residence in Kailua. He has found that his recent trouble has made him friends in place of turning them from him.

There will be no rehearsal this evening of the choir of the Second Congregation of St. Andrews, but every member is expected to be at 9:45 o'clock service Sunday morning, when the Christmas music will be repeated.

Members of the Y. M. C. A. gave a Christmas entertainment yesterday to soldiers of Camp McKinley. Rev. G. L. Pearson delivered the address of the day. There was good music by Mr. Shanks and Mrs. Hoffman.

The boys at the Central Fire Station express gratitude to Major E. H. F. Wolter for refreshment supplied them on Christmas day. Major Wolter's fine house on Thurston street was saved by the fire lads Saturday night.

SWEDEN IN DIFFICULTY.

Hard times and scarcity of money are reported in Sweden. That kingdom is indeed in an unfortunate plight. Russia is rushing Cossacks into spoliated Finland and making scarcely disguised preparations to push her conquests westward so as to include Norland, if not the whole of the Scandinavian peninsula, and at the same time is stirring up trouble and hostility in the sister kingdom of Norway. Thus Sweden is compelled to strain every nerve and spend every crown to prepare for a life or death struggle on her borders. The result is industrial unrest and lack of confidence and scarcity of means for the legitimate pursuits of peace.—New York Tribune.
