AGASSIZ SPURNED A SMALL FORTUNE.

The following despatch appeared in the New York Herald of October 23, concerning Prof Agassiz, the scientist who has visited Honolulu several times and is well known here:

With the departure of Professor Agassiz from New York for Panama on Tuesday comes the denouement in a very unusual incident. It has to do with the case of a Harvard professor who will spend \$75,000 out of his own pocket rather than surrender any of the scientific credit which he believes rightfully belongs to him, and of the first case of a downright refusal to accept \$25,000 from Andrew Carnegie, offered on condition that Carnegie's name should be given to the expedition.

The statement was sent out from Washington some time ago that the government steamer Albatross would take charge of the deep sea sounding work in the Pacific, under charge of the "Carnegie-Agassiz" expedition. There will be no such expedition.

It is true that the Harvard professor was asked if he could suggest any use for the Carnegie funds in deep sea sounding work. He replied courteously, telling of his plans for work in the Pacific. A promise was made to him of at least \$25,000 for work along such lines.

Work on the expedition was being pushed rapidly when a statement came implying that in consideration of the \$25,000 cash down and a prospect of \$50,000 more it would be expected that the expedition should be known to the public as the "Carnegie-Agassiz Expedition." Professor Agassiz informed the trustees of the Carnegie fund that the negotiations would go no further. The money would be found elsewhere.

The work has been pushed and money has been found. The \$75,000 comes from Professor Agassiz himself. Practically all the expenses of the trip from November until March, except the ordinary expenses of maintaining the Albatross in commission, will be met by Professor Agassiz. This means a voyage of months with a crew of seventy-five officers and men on scientific work.

The Albatross will have on board with Professor Agassiz, Professor Kofoid, of the University of California, an artist, and a Harvard assistant, and two assistants furnished by the United States Fish Commission. It has already sailed from San Francisco, leaving there three weeks ago to meet the Harvard party at Panama.

The cruise will take in the Galapagos Islands, Callao, Peru, and the Easter Islands, and then back to the Galapagos. Afterward the Albatross will go to Mangrove, one of the Gambler Island, and thence to Acapulco.

The expedition will be known as the "Agassiz Scientific Cruise." While the purpose is primarily to determine the general conditions of the bed of the Pacific, a careful study of the characteristics of the forms of life at that depth will be made.

Kamama is appointed.

Kamama, the deputy jailer of Oahu prison, was yesterday afternoon appointed jailer to succeed William Henry. The new incumbent has been a jail official ten years. He was born at Waihee, Maui, and is in his fifty-third year. One drawback to his competency is his health, which has not been good for some time.

KAMANA APPOINTED.

We take great pleasure in noting the advancement of Wm Kamana as Jailor of Oahu prison. This is a step in the right direction and it is to be hoped that it may not be a lone instance of merited reward of Hawaiians for faithful performance of duty.

THE INDEPENDENT feels disposed to take a considerable measure of credit to itself for this particular appointment in that, under the the caption of "Why not Kamana," it printed a strong plea for promotion in his case. We congratulate Mr Kamana on his promotion.

We congratulate the appointing power on the good judgment displayed by making the appointment and reiterate the hope that it may not have been a spasmodic attack of righteousness, but the forerunner of a consistent purpose to advance civil service ideals. Time will tell.

George Lyeurgus wants to buy the Volcano House. A flirtation between the handsome Greek and Madam Pele will be hot stuff indeed.

Who is McClellan?

We are daily receiving inquiries from taxpayers as to who George B McClellan, Prince Cupid's secretary, is. We presume that he must be a man well posted on Hawaiian affairs; a man, who, during a long residence has familiarized himself with the wants and interests of the Hawaiians; a man, in short, who is a kama-aina, and who fairly and honestly will help the ignorant Delegate in forwarding the interests of the masses who elected Cupid against the classer, to whom the Prince is simply a necessary evil, but not a choice for the responsible position to which he is elected.

Before letters from here reach influential quarters in Washington in regard to our Delegate and his brain carrying secretary, the official organ ought to make some public mention as to the qualifications of Mr McClellan, otherwise an injustice might be done to him as well as to his princely boss. Who and what is McClellan should be explained before Kuhio leaves for Washington with his unknown facitum.

Carter's Responsibility.

Governor Carter, who personally manipulated the election, must occasionally have some interesting interviews with his conscience. He is supposed to be a good Christian, and he strictly observes, publicly at least, the Sabbath; but how about his secret approval, if not his instrumentality, of the corrupt methods, which gained a victory for the Republicans the other day. Mr Carter knew, that if an honest election with the strict observance of the secret ballot system was held tomorrow, the Republicans could never win on Oahu. He knows, that the majority of the voting population is decidedly an emphatically opposed to him, and that he presents in an American Territory the unheard of spectacle of a government against the people and opposed by the people. Carter has certainly nothing to boast of, because even his "strenuous" chief in Washington will refuse his approval of the methods, used in carrying the election in Hawaii. Roosevelt has many faults, but he tries at least to be honorable. Carter—well, he is a very poor understudy of his chief—and doesn't try.

Browns Topsy-Turvy.

What's the matter with the great Brown family anyhow? In his effort to Carterized everything in the Territory, the Governor shows a most wonderful antagonism toward the Browns. Arthur Brown is "out;" Cecil Brown is in the dumps; "Jackie" Brown is retired; "Plumber" Brown is a has-been; "Kanaka" Brown no longer waters the ships, and, in fact, all the Browns are under a ban, and the future looks dark brown for the great Brown family.

Mr Withington made an interesting address at the Young Men's Research Club last evening on the subject of Civic Righteousness. We wonder whether the lecturer felt inspired by the Governor's attitude during the late election, where civic righteousness was sadly ignored, and where the "wide and common use of its application" was well illustrated.

TOPICS OF THE DAY.

Who is Governor of this Territory, Carter or the Republican Central Committee? Don't answer all at once.

Some one on the Mainland wants to start a "Third Party." Here in Hawaii we want to get rid of the "Third Party."

Automobiles are very capricious at all times. We hope the automobile floral fiesta will not prove a fiasco. Why do the automobilists use "furrin" words instead of speaking plain American?

It would be a good thing for Hilo and the island of Hawaii if George Lyeurgus actually came into possession of the Volcano house. With connecting links here and in Hilo, he could make the place pay if such a thing be possible.

A very interesting article appears in the Advertiser this morning, dealing with reform of the voting plan. The ideas set forth are excellent, and they forcibly remind us about the man who locked the stable door after his mule was stolen. The Republicans have stolen the election in a most brazen manner, and, even if the plans of the Advertiser correspondent were adopted, they will do it again, as long as a man like Carter is Governor of the Territory.

The Advertiser man is advocating an anti-treat law to be passed by the Legislature, which will prevent anyone from "setting 'em up" for the other fellow. A most excellent idea, but our friend Mazuma says, the last law will never pass, as long as thirly but impecunious Solons sit in the Legislature. During the last session poor old Mazuma used to greet his lady friends with a "what-willyoutake"—he was so used to speak to the members of the Legislature on the Pauoa water steal.

It seems to be difficult to find a man, willing to accept the office of Attorney-General. The fact does not surprise us. As long as the Governor wants to be the strenuous boss of every department under him no self-respecting man will take a "porto folio" in his "cabinet." An Attorney-General will have to find legal excuses for all the Governor's blunders, and that task alone would indeed be "strenuous." Fancy a decent jurist justifying the Governor's methods at the late election!

If Representative W W Harris has the interest of the government at heart, and really wishes a brief session of the Legislature, he will forego the honor of being Speaker of the House and will resume the leadership on the floor. All parties are anxious to see a short, business-like session, and Harris will be of great value on the floor in expediting the business as far as debate is concerned, as well as pressing ahead the work in committees. There is no special honor in being Speaker of the House here, especially when the House is composed of such material as the Republican party has seen fit to saddle on the people of the Territory.

Gas bag Republicans are loudly proclaiming, that the Democrats feel very sore over the result of the election. The "windy" element of

The Secret of Health

The health of the whole body depends upon the blood and nerves. Therefore the medicine that expels impurities from the blood and supplies the necessary materials for rapidly rebuilding wasted nerve tissues, reaches the root of many serious diseases. It is these virtues that have given

Dr. Williams' Pink Pills for Pale People

their wonderful power to conquer disease, and caused the miraculous cures that have startled the scientific world. Thousands of cases have demonstrated that this remedy is an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Frank Tucker, is a prominent farmer, of Versailles, Indiana. His daughter, Lucy, is now fifteen years old; three years ago she began ailing. The rosy color in her cheeks gave way to a paleness, and she became rapidly thin. As she grew weaker she became the victim of nervous prostration. Most of the time she was confined to the bed and was almost on the verge of going into St. Vitus' dance. Finally the doctor told us to give her Dr. Williams' Pink Pills for Pale People. Said he was treating a similar case with them and they were curing the patient. We began giving the pills at once, and the next day we could see a change for the better in her. The doctor told us to keep giving her the medicine. We gave her one pill after each meal until she was well. We began giving her the medicine last August, and she took the last dose in October, having used eight boxes. She is now entirely well and has not been sick a day since. We think the cure almost miraculous.

Subscribed and sworn to before me this 28th day of April, 1897.
