GRIM ENDING OF AUTOMOBILE RIDE

Wife of Senator Stewart
Hurled to Death
In Alameda.

CRASHED INTO TELEGRAPH POLE IN TURNING CORNER

SUPPOSED THAT STEERING GEAR
WENT WRONG—OTHERS ES-
CAPED WITH SLIGHT
BRUISES.

San Francisco, Sept. 15.—Mrs. William M. Stewart, wife of the junior United States Senator from Nevada, was dashed to death yesterday afternoon in an automobile smash-up in Alameda. Her two nephews, Henry F. Foote, son of W. W. Foote, and H. B. Taylor, both of Oakland, were her companions on the fatal ride. They escaped with the slightest of injuries.

During the afternoon Mrs. Stewart, who was visiting her brother, W. W. Foote at his Oakland home, said she desired to call on her granddaughter, Mrs. Theodore Hofer of Carson, Nev., who is the guest of R. E. Kelley at 1829 Clinton avenue, Alameda. Her nephews offered to take her across the estuary in their automobile, a big, two-seated Winton machine, rapid and roomy. Young Taylor was the chauffeur for the little excursion and Mrs. Stewart elected to sit beside him, Mr. Foote occupying the rear seat.

At 4:10 p. m. the automobile reached the intersection of Santa Clara avenue and Bay street, moving east on the former thoroughfare. Accounts vary as to its speed, the estimate of Mr. Taylor, who held the steering bar, being ten miles an hour. A delivery wagon driven by a boy approached at a right angle to the course of the automobile, moving north on Bay street, and to avoid it the chauffeur veered to the north. Evidently his purpose was to gain room so that he could cross ahead of the wagon. Either the turn was too abrupt or the steering gear failed to respond. The rapidly moving machine sped on in its course to the left, across gutter and curb, dashing with great force against an electric light pole at the northeast corner. So heavy was the automobile and so high the speed that the pole, a solid stick thirty feet high and eighteen inches in diameter, was cut square off near the base and crashed down on the house of John Hackett, carrying with it a tangle of wires.

Mrs. Stewart and her nephews were flung violently out of the machine. The unfortunate lady struck her head either on a fragment of the shattered pole or on the curb. The impact of the automobile was so severe that the front axle was broken, one of the front wheels was knocked off and the front seat was carried away.

Help came quickly. Mrs. Stewart was put on a stretcher improvised from a window shutter, and carried to the house of William M. Bowers, 1109 Santa Clara avenue, and a little later the city ambulance took her to the sanitarium on Clinton avenue. She was still alive when Dr. A. A. Stafford and W. O. Smith examined her, but it was found that her injuries were so extensive and so serious as to preclude hope for her recovery. Four ribs were broken, with indications of grave internal injuries, but the wounds on the head were the most serious. One eye was all but torn from its socket. Dr. J. Emmet Clark was called in and the three physicians exhausted their resources in the effort to save the dying woman, but to no purpose. At 6 o'clock she was dead.

O. S. S. ALAMEDA HERE.

The steamship Alameda arrived off port from San Francisco at noon today and was docked at the Oceanic wharf at about 1 p. m. She made a fast run from San Francisco, leaving that port on September 13 and passing the lighthouse at 3:30 p. m. This makes the time 5 days and 22 hours. The voyage was an exceedingly pleasant one and without event.

BASEBALL NOT DEAD

CUSTOM HOUSE BOYS
ALREADY AT WORK

OFFICERS CHOSEN—BURT BOW-
ERS WILL AGAIN CAPTAIN
TEAM—JOHN W. SHORT
BUSINESS MANAGER.

The employees of the Custom House have decided to keep up the old standard of that institution in baseball and are already beginning to look ahead to the 1903 season. On Tuesday evening the employees of the force held a well attended meeting in the inspectors' office, the purpose of this meeting being to organize and maintain a Custom House baseball team for the season of 1903.

The following officers were all unanimously elected: Captain, George G. Bowers; John W. Short, business manager, and George W. Klester, secretary. The sport loving Custom House employees are all enthusiastic over the plan and will move the thing along for all it is worth. In the near future further meetings will be held at which important details will be decided on, such as the time when the team shall practice, by-laws, etc.

J. T. DE BOLT NAMED JUDGE

Washington, Sept. 11.—The President has removed William Vaughn, United States District Attorney of the Northern District of Alabama, for neglect of duty. The President has appointed John T. De Bolt Judge at Honolulu, vice Abram S. Humphreys, resigned. Mr. De Bolt is a prominent member of the Honolulu bar.

LAVA LAKE RISES

The officers of the steamer Helene which arrived from Hawaii this morning state that advice brought from people who had been to the volcano are to the effect that on Tuesday night the lake in the crater rose seventy feet inside of three hours. The display is said to have been a splendid one.

SETTLING THE STRIKE

Harrisburg, Pa., Sept. 13.—The conference between Governor Stone and President John Mitchell, of the United Mineworkers of America, on matters pertaining to the strike, ended at 4:30 o'clock this morning after a discussion of two hours and a half. At the conclusion of the meeting Governor Stone gave to the waiting newspaper correspondents the following written statement:

"Messrs. Mitchell, Nichols, Fahy, Duffy, Senator Flynn, Col. Richardson and Governor Stone have been in conference. All the differences have been discussed with the best of feeling."

GEN. MILES COMING

St. Paul, Minn., Sept. 13.—Gen. Nelson A. Miles and party, en route to the Philippines, arrived in St. Paul today and after a stay of two hours departed for the West. A stop of one day will be made at Fort Assiniboine.

AMERICAN TEAM WON

Ottawa, Ont., Sept. 13.—At the 800-yard range shoot in the Palma match trophy the American team scored 281 and the Canadians 263.

Commission Holds Session On Board Claudine—Kepoikai and Coke—Prince Cupid and Cecil Brown on Crown Lands.

Kawahae, Sept. 18, 2 a. m.—The Senatorial Commission got to work between Lahaina and Malansea Bay and held a session in the president's room of the Claudine from 4:45 to 9:30 Wednesday.

At Lahaina, where the party went ashore for a few minutes, they were joined by Judge A. N. Kepoikai and James L. Coke of Wailuku who wished to make statements to the Commission. The court was quickly organized and Judge Kepoikai was sworn. He gave his birthplace as Wailuku and stated he was of Hawaiian parentage and raised in the Islands. Had been an office holder under the monarchy and republic and was at present a member of the Fire Claims Commission and a notary public.

Mitchell—Are you acquainted with the labor situation in the Islands?

Kepoikai—With past conditions I am very familiar and with present conditions I am familiar with those existing at Hawaiian Commercial, Haku and Paila plantations.

Mitchell—State in your own way present conditions of business and the remedy if remedy is needed.

Kepoikai—Business is at a standstill on account of the shortage of labor and low price of sugar. Much of the last crop of Maui cane dried and spoiled for want of field labor.

Mitchell—What is the character of the labor?

Kepoikai—Mostly Japanese. Last year Southern negroes and Porto Ricans were introduced with very poor success. I think the latter, however, will make good laborers when they become accustomed to the climate and manner of living and food of the Islands. When they arrived here the Porto Ricans were half starved and sick. They are not good laborers until they get acclimated.

Mitchell—What wages are paid on the plantations?

Kepoikai—From \$18 and \$22 to \$24 a month.

Mitchell—How do wages compare with three or four years ago?

Kepoikai—They did not get as much before. Now, in addition to their wage they get firewood and medical attendance except in the case of serious illness when they are sent to the government hospital.

Mitchell—What do you recommend as to action by Congress?

Kepoikai—I have given very little time to the consideration of the matter as I have had much time taken up on the Fire Claims Commission.

Mitchell—Have you any other statements to make to the Commission?

Kepoikai—As a practicing attorney I wish to protest against Judge Kalua the Circuit Judge of Maui. He was appointed by President McKinley. He takes sides in every case that is heard before him.

Mitchell—What do you mean? Is he corrupt?

Kepoikai—In plain language, he is. Before appointment he embezzled money and the case against him coming up for hearing in his court after he was appointed he settled the case.

Parker's Opinion.

Col. Sam Parker—Kalua is a diplomat. One day he is missionary the next a drunkard. He is a politician and I told the President he was a scoundrel.

Mitchell—What next?

Kepoikai—Our wharf.

Burton—Do you favor Chinese immigration for agricultural labor?

Kepoikai—I do. I think it would be better.

Burton—Do you think the Hawaiians would think well of it?

Kepoikai—As a practicing attorney I wish to protest against Judge Kalua the Circuit Judge of Maui. He was appointed by President McKinley. He takes sides in every case that is heard before him.

Mitchell—What do you mean? Is he corrupt?

Kepoikai—In plain language, he is. Before appointment he embezzled money and the case against him coming up for hearing in his court after he was appointed he settled the case.

Judge Stanley—Is it not a fact that Hawaiians are given the preference by plantation people?

Kepoikai—Yes. The plantations represent H. C. & S. Co., Haku and Paila, encourage the Hawaiian laborer.

JAMES L. COKE.

Jas. L. Coke, attorney of Wailuku, was the next witness. He gave testimony regarding the labor situation substantially the same though stronger than that of Judge Kepoikai. In his estimation the Porto Ricans were much poorer than the Japanese as they worked but about one day in three, their average on the payroll being about eight or ten days in a month. The negroes were very unruly and frequently got into jail for rioting and other offenses.

Portuguese Desirable.

He stated that the Portuguese were a most desirable class of laborers. They will make a home for themselves, raise families and are thrifty. There are about 1000 of these men on Maui most of them as overseers and tending to the irrigation and get better pay than ordinary field laborers. Mr. Coke suggested as a remedy for the labor problem amendments to the Kahuna-Mitchell bill which would admit a limited number of Orientals to the Islands for agricultural purposes only. This would result in benefit to all as sugar plantations are the backbone of the Islands.

Senator Mitchell asked for and was promised the last reports of the Maui plantations to be filed with the Commission as exhibits. After being asked several questions regarding the leasing of lands and values of sugar lands the witness made statements regarding Judge Kalua at present the incumbent of the bench of the Maui Circuit Court, substantially as follows:

Coke on Kalua.

I am positively certain of the utter unfitness of Judge John W. Kalua to hold office. He was born and raised here and has but a very elementary knowledge of the law. His legal education is but elementary. I don't think his knowledge entitles him to his position on the bench.

The honesty and integrity of the Maui Circuit Judge means a great deal to the people of the island as we are so far from Honolulu and the Supreme Court. Instances of Kalua's dishonesty I could give by the hour. I brought a suit against him for embezzlement before his appointment. It was in the case of a man named Kahale for whom \$200 had been paid Kalua by Mr. Castle. It was not turned over.

One case of dishonesty after his appointment is as follows: Kalua was arrested and charged with assault with a weapon. He had chopped two women nearly to pieces with an axe. I went to the jail to see Kalua and he told me that Judge Kalua had already been to see him, had arranged about his bail and advised him to waive examination in the District Court; come to his (Kalua's) court plead guilty and get off with a light sentence. Kalua did this and was fined \$75 on each case. As soon as he was released Kalua deeded his property in Wailuku to Judge Kalua's wife. The property was worth about \$250. Kalua's wife still holds the property.

Commission Astounded.

Another case was that of Cecil Brown charged with stealing hogs. Witness stated that Kalua had made same arrangements with defendant and let him off with a \$25 fine. This last man was re-arrested. In stating to the Commission the fact that this Judge Kalua had sentenced a negro to life imprisonment for stealing \$700 the witness could not have surprised the committee more had he exploded a bombshell in their midst. They deemed it incredible that in a civilized country the crime of burglary was punishable with life imprisonment. When assured, however, that it was a Hawaiian

law continued in force by the Organic Act they admitted the statement as evidence. The negro in question is now serving his sentence in Oahu prison.

Supreme Court.

The question of filling temporary vacancies on the Supreme bench by inviting practitioners to sit in place of justices disqualified to sit or otherwise incapacitated. Witness condemned the practice.

The Commission asked for and was promised written charges against Judge Kalua.

Crown Lands.

Judge De Knight and asked his opinion as to the effect of action by Congress regarding remuneration for loss of crown lands to the Queen would be. He stated that he thought it would have a very good effect on the Hawaiians. Attorney Coke gave the same reply to the same question. The Commission then adjourned for supper.

After supper the Commission got to work again, hearing evidence in the case of the claim of remuneration of Crown Lands for loss of the crown lands. Attorney De Knight for the Queen questioned Prince Cupid and Cecil Brown.

The Republican candidate for Delegate for Congress was the first witness.

He gave it as his opinion that the sentiment of the Hawaiians was in favor of granting an indemnity. From the Hawaiian standpoint the crown lands belonged to the monarch. Hawaiians take the view that the overthrow of the Queen was the direct result of the interference of the marines from the Boston. It is the feeling of the Hawaiians and the Queen's followers that she should be paid. If the Queen had died the lands would have gone to the Princess Kaiulani. In the Prince's opinion the American Minister was responsible for the overthrow and it would not have taken place if marines had not landed.

He thought the objection to the monarchy was that the Queen tried to promulgate a new constitution. He was not here at the time. The lands were mostly agricultural and the Queen had the leasing of them and disposal of the proceeds in her own hands. He believed the white residents favor seeing the Queen recompensed. If the Territory could afford it there would be no objection to its paying the claim.

In answer to Senator Burton's question, Would the Territory be willing to pay indemnity if Congress would turn over lands to the Territory, the Prince said he thought the Territory would be willing.

Cecil Brown.

Cecil Brown gave testimony as follows: Was Attorney General under the monarchy and an annexationist after the overthrow. During the time of the Provisional Government I was a member of the advisory council. Was not one of the famous thirteen at first but afterwards was. Was not originally with the overthrow movement. Left one meeting when they said the idea was to tear down the Hawaiian flag. Brown said he was not ready for it then. That was the meeting when they asked Governor Dole to become the head of the government. It was before the proclamation and Mr. Dole was to give his answer the next day as to whether or not he would take the head of the government. Joined the annexationists about six weeks after. Am acquainted with the claim of the Queen and think the payment by the United States would be a graceful act.

The landing of the marines from the Boston in Mr. Brown's estimation made no difference in result. While it intimidated the Queen it prevented bloodshed. The movement would have gone on just the same. If several of the ringleaders had been arrested by the Queen before the landing of the marines the movement might have been hindered.

ARE GOOD FISHERMEN MERCHANTS OUT AFTER TOURISTS

SENATORIAL PARTY HAS
PLEASANT EXPERIENCE

GREAT PREPARATIONS FOR ENTERTAINMENT AT HILO—WILL VISIT THE VOLCANO AND PLANTATIONS.

Lahaina, Sept. 19.—After a very pleasant and smooth trip the Claudine with the Senatorial party aboard reached this place about 3:30 Wednesday. The trip thus far has been an exceptional one and only one or two of the party felt the pangs of sea sickness. When off Kaunakakai, Admiral Geo. Beckley organized a fishing party for the ladies and his akua bining at work, they were successful in getting three great ones and one nahnai, the smallest fish weighing thirty-five pounds. There was great excitement. The ladies helped pull in the great fish and several photos were taken of the funny monsters, with their fair captors.

Luck favoring the Claudine, Capt. Parker, expect to reach Hilo by 7 o'clock Thursday. A great welcome has been prepared by citizens of Hilo for the visitors. At the landing a salute of seventeen guns will be fired and a committee of welcome accompanied by the Hilo brass band and leading citizens will receive the Senators and the ladies at the landing. Col. Richely, who is personally conducting the party has made arrangements for the stay in Hilo and vicinity as follows: As soon as possible after arrival an executive session will be held at the courthouse. The session will then open and will continue until 6 p. m. At 8:30 a banquet at Demosthenes cafe will be given for the gentlemen, while the ladies will be entertained by Mrs. Peck at Puno.

Friday morning the Commission will be shown about the city and harbor. A special train through the courtesy of B. F. Dillingham will take the party to Ola, where they will inspect the plantation. They will then proceed to the Mountain View terminus. Arrived there they will hold a session for one hour, then by carriage to the Volcano House and remain all night. A visit to the crater will be made Saturday morning. After luncheon the party will proceed by carriage and train to Hilo.

Saturday morning the party will be entertained by Mr. and Mrs. Richely at Riverside park. Senator Foster and party including Senator Thurston and wife by Mr. and Mrs. P. Peck, Puno; Senator Burton and party by Manager Kennedy of Waiakae, Col. and Mrs. Sam Parker by A. B. Lobenstein.

Senator Mitchell and party will be entertained by Mr. and Mrs. Richely at Riverside park. Senator Foster and party including Senator Thurston and wife by Mr. and Mrs. P. Peck, Puno; Senator Burton and party by Manager Kennedy of Waiakae, Col. and Mrs. Sam Parker by A. B. Lobenstein.

Association Adopts In
Toto Report of Special
Committee.

BOARD OF DIRECTORS
TO CANVASS THE CITY

ESTIMATE OF PROBABLE SUB-
SCRIPTIONS TO BE MADE AND
SUBMITTED—TWO WEEKS'
TIME FOR WORK.

A special meeting of the Merchants' Association was held in the Chamber of Commerce rooms, Hackfeld building, at 10:45 o'clock this forenoon, for the purpose of taking action on the report of the committee of the association on tourist travel, as already published in pamphlet form and signed by J. G. Rothwell (president), J. F. Humburg and W. Lishman. The following were present: F. W. Macfarlane (chairman), W. W. Harris (secretary), F. L. Waldron, P. R. Helm, J. F. Soper, W. W. Hall, J. G. Rothwell, F. J. Church, C. R. Collins, L. E. Pinkham, F. Lange, Ed. A. McInerney, W. H. Hoogs, W. Lishman, C. M. V. Forster, W. W. Dimond, W. Pfothenauer, George W. Smith, Robert Catton and J. Kirkland. Upon the meeting being called to order, President Macfarlane stated the object of the gathering and then read the report referred to.

President Macfarlane stated that the report just read had been distributed quite generally and that its recommendations had been discussed frequently in the community. The financial question was necessarily the most important one to be considered. Many of the merchants had intimated that the times were hard and that to contribute to the fund would be a great hardship. The argument could go out against this that the hard times prevailing constituted the very reason why the work should go on. It was in carrying out the idea of attracting tourists to the country that lay the relief of the community in these hard times. The association should take some definite action on the report, one way or the other.

Mr. Macfarlane went on to say that in soliciting subscriptions for the work the subscribers be not asked to make their entire contribution all at once, but that they be given six months' time at so much a month. The fact could then be compiled, submitted to the board of directors and then to the association. The matter should be settled at once. There should be no more procrastination.

Mr. Dimond referred to the proposed assessment on the hotels, saying that this was not in proportion with the assessment on the merchants or the steamship companies. With this one exception, he would be in favor of

Jared G. Smith left for Kona in the Mauna Loa today, there to remain for the next two weeks. The visit is being made at the request of farmers residing in the district. General conditions will be studied.

Treasurer Wright has received \$140,000 from Washington in payment of interest on the Hawaiian debt taken over at annexation. The money was appropriated by last Legislature for the payment of fire claims. It will cover more than one-tenth of the awards.

In reporting the funeral of Mrs. Joseph W. Reeves on that day, the Norwich Evening Record of September 3 says: "Mrs. Reeves is survived by a husband, Joseph W. Reeves, two sisters, Mrs. James Lyle of Honolulu, who had lately visited her, and Mrs. Governor H. Brown of this city, and one brother, Ambrose Hull of Ledyard."

The Ladies' Society of Central Union church gave the initial social for the new year in the parlors of the church last evening. On account of the state of the weather, there were not many people present but those who were there had a delightful evening. There was no set program, the affair being informal throughout. Mrs. C. B. Dyke, Mrs. Gill and Mrs. R. D. Mead greeted the guests as they entered. The refreshment committee was composed of Mrs. St. C. Sayres, Mrs. Dillingham, Mrs. Ralph Evans and Mrs. Philip Frear.

BANKRUPTS MUST PAY

According to Attorney General Dole, bankrupts are still liable for taxes even after discharge by the courts. An opinion to this effect rendered yesterday at the instance of Tax Assessor Pratt, reads as follows:

Honolulu, H. I., Sept. 18, 1902.
Captain J. W. Pratt, Tax Assessor and Collector, First Taxation Division, Honolulu, Oahu.

Dear Sir:—In reply to the question which you asked me yesterday, I desire to say that the bankrupt law of 1898 (Supplement to Revised Statutes United States, Vol. 2, No. 8, p. 859) declares that: "A discharge in bankruptcy shall release a bankrupt from all of his provable debts, except such as (1) are due as a tax levied by the United States, the state, county, district or municipality in which he resides."

Under former bankrupt laws the same rule has been declared. A territorial tax is a preferred claim entitled to payment in full, which not even a discharge in bankruptcy can affect.

Very truly yours,

E. P. DOLE.

Attorney General.

REGATTA DAY RACES

ALL ARRANGEMENTS FOR DAY COMPLETED

FOUR CLASSES OF YACHTS WILL COMPETE—MYRTLES TO KEEP OPENHOUSE—MORE THAN \$1,000 RAISED.

All arrangements have been completed for the aquatic sports in the harbor tomorrow forenoon and afternoon. The first race will start at 9:30 o'clock.

The band will be stationed on the Pacific Mail wharf as usual and a large number of chairs will be placed there for the accommodation of the public.

The Myrtle Boat Club will keep open house and will provide entertainment and refreshments. The Hawaiian Boat Club is issuing invitations.

In connection with the yacht races the committee requests that each yacht carry the number assigned to it, on each side of the mainsail. The numbers are to be painted black and be at least one foot high so that they can be easily determined from a distance.

Sixteen yachts have entered for the races and only four classes will compete, it having been decided not to add a fifth class. The course for all classes of yachts is the same, the classes starting in reverse order with five minutes difference in the start of the fourth and third classes. The second class starts ten minutes behind the third and the first class ten minutes later than the second class.

The course is as follows: From starting line, passing out of channel, keeping between line of buoys and piles, leaving Spar and Bell Buoys on port side, thence to and around flag boat off residence of W. G. Irwin, keeping it on the port side while rounding; thence to a flag boat off entrance to Kailua harbor, keeping it on the starboard side on rounding; thence to flag boat off Irwin's residence; thence to flag boat off Kailua harbor; then to spar buoy, passing it on port side; thence keeping between lines of buoys and piles in channel to judges' stand.

All rowing races are to be governed by the racing rules of the Hawaiian Rowing Association.

All sailing races are to be governed by the racing rules of the Hawaii Yacht Club, the numbers on the sails of the yachts to correspond with the numbers opposite the name on the program.

The start in all the yacht races will be made from an imaginary line extending from the lighthouse to the Heanani boat house. The finish in all the yacht races will be an imaginary line from the judges' stand to Wilder's S. S. Co. wharf.

The start in all the yacht races will be made from the "one gun start," i. e., a preparatory gun followed by another five minutes later. All time to be taken from the last gun. All yachts failing to comply with the above regulations will be barred.

There must be at least three boats started before a second prize will be awarded, and at least four boats started before a third prize will be awarded.

Allan Dunn will be the judge in the yacht races only.

As each yacht in every class passes the finishing line a member of its crew will drop from stern into the water and remain as nearly in the same position as possible, the yachts will come about and rescue the man. The time in each case will be taken and a trophy awarded for the quickest time of rescue. This will in no way interfere with the result of the position at finish.

The officers of the day are as follows:

Capt. T. K. Clark, Walter E. Wall, Chauncey Wilder.
Starter—W. L. Wilcox.
Timekeepers—L. Marks, Geo. Donn, L. P. Scott, C. E. Eakin.
Clerk of Course—Capt. E. H. Parker.
Regatta Committee—S. E. P. Taylor, M. M. Johnson, W. C. Parke.
Recorders—W. Short and C. Charlock.

Secretary—J. W. Smithies.
The regatta committee has turned in more than \$1000 for the expenses of the day.

AN ISLAND SINKING.

New York, Sept. 9.—A cable to the Sun from London says: A dispatch from Paris to Dalziel's News Agency says the Admiral commanding the French naval division in the Atlantic has sent word of the sudden disappearance of the island of Bermeja, in the Gulf of Mexico. No reefs have been discovered on the spot formerly occupied by the island, but the navigators are recommended to use extreme caution while sailing in that vicinity. The Admiral says the volcanoes in Mexico, Yucatan and Guatemala are very active.

A \$20.00 BELT FOR \$5.00

The Dr. Alden Electric "Belt" is guaranteed to possess all the curative properties of the expensive belts now sold by doctors and druggists. It gives a very strong current of electricity and is easily regulated. Bound to supersede others. Can be had from the undersigned only; no agents; no discount. Circular free. Address Pierce Electric Co., 205 Post St., San Francisco. Sent free to Hawaii for \$5.00.

THE WEIR SELF-SEALING --- STONE FRUIT JARS

These jars have been on the market for a number of years, and have given the best of satisfaction. They are a perfect SELF-SEALING JAR; are practically unbreakable, will exclude the light as well as air; and you can tell in advance whether fruit will keep. The jar can be opened and closed by a child without burning of fingers or scalding of hands. No slivers of glass can get into the fruit. No metal comes in contact with the fruit. No corrosive substance can gather in the lids or threads of the jar. The most perfect sanitary jar made.

THESE JARS make an excellent container for milk and butter, as they can be placed in the refrigerator and the contents of the jar are absolutely protected from taint.

WON'T DISCUSS TERMS

BOER GENERALS PRESENT SUBJECTS TO CHAMBERLAIN

WHO PROMPTLY CLAIMS THAT
ALL THESE POINTS WERE
SETTLED BY PEACE
TREATY.

London, Sept. 10.—A parliamentary paper issued today gives a full report of the recent conference between the Colonial Secretary, Joseph Chamberlain, and the Boer generals, Botha, De Wet and Delarey. Prior to agreeing to the interview which the Boers asked for August 20, the Colonial Secretary requested a list of the subjects which it was desired to discuss, and the generals forwarded a list, including the following:

Complete amnesty to the rebels.
A yearly grant to all Boer widows and orphans and maimed burghers.
Equal rights for the English and Dutch languages in the schools and courts.

That equal rights with the British be conceded to burghers complying with the terms of surrender, including the right to return to South Africa.

The immediate release of all prisoners of war.

The reinstatement of the officials of the late South African republics or compensation for their loss of office.

Compensation for all loss occasioned by the British troops by the use, removal, burning or destruction by other means of all private property.

The reinstatement of the burghers in the ownership of their farms confiscated or sold under the proclamation of August 7, 1901.

Compensation for the use of the property of burghers taken by the British authorities.

Payment of the lawful obligations of the late South African republics, including those incurred during the war.

The rescinding of the decision to annex a portion of the Transvaal to Natal.

Granting an extension of time for the payment of all debts due by the burghers to the late governments of the South African republics.

Chamberlain in reply expressed great surprise at the number and character of the proposals, pointing out that the conditions agreed on at Vereeniging were duly accepted by the burghers and the British Government, and that they could not be reopened, nor could proposals rejected at the time be again discussed. If the interpretation of the agreement was open to question, his Majesty's Government would endeavor to remove all doubts.

THE NEW REPUBLIC.

Among the most widely read fiction which has recently been published must be included "The War of the Worlds," "The First Men in the Moon," and other shorter semi-scientific stories, by Herbert George Wells. The readers of The Cosmopolitan Magazine will have great satisfaction in learning that it has secured all of Mr. Wells' work for the year of 1902, with the privilege of renewing this contract for 1903. The work which Mr. Wells begins in the September issue of The Cosmopolitan is undoubtedly the most serious yet undertaken by him. Scientist and philosopher, he has hitherto used the delightful stories of his imagination to convey profound philosophical teachings by indirection. In this he has drawn to him many million readers who, while carried along by his simple exposition of scientific truths, dealing in "The New Republic" with a plain discussion of the world's problems, he will not perhaps draw new readers, but he will undoubtedly receive the careful attention of those who have learned to follow him in the lighter journeys of his imagination. Undoubtedly Mr. Wells possesses one of the most direct minds of the century, and his extraordinary power of seeing truth with a vision undimmed by custom or environment will give him as readers of his speculations even those who radically differ from him in his conclusions.

SWINDLER TURNS PREACHER.

New York, Sept. 8.—A dispatch to the Press from Rochester, N. Y., says: Alonzo J. Whiteman, prince of bank swindlers, who in the last twenty years has occupied a cell in almost every jail in the country, has turned Methodist minister and now fills the pulpits of country churches throughout Livingston county.

Last Sunday Whiteman preached in the Methodist Episcopal church at Byersville, choosing as his text, "Judge not, lest ye be judged." He has considerable oratorical ability and preached for an hour without a break, leading the singing and reading the Scripture lesson. He also spoke before the Sunday school.

GENERAL LYTTETTON, KITCHENER'S SUCCESSOR IN SOUTH AFRICA.

General Neville Lyttelton, who succeeds Lord Kitchener as chief in command of the British forces in South Africa, is one of the few British generals who did not meet severe defeat at the hands of the Boers in the recent war. He is a sturdy, grizzled old soldier who won honors in India and Egypt before being sent to South Africa.

Rockefeller's Grief An Aid To Science

New York, Sept. 7.—A special to the Journal from Baltimore says: The wealth of John D. Rockefeller and the grief he felt over the death of his little grandson, "Jack" McCormick, have combined to give to science one of the greatest discoveries since Koch found the germ of tuberculosis.

The germ which causes the disease commonly known as summer complaint has been discovered and the first authoritative announcement is made today. Less than a month after the death of the child, Mr. Rockefeller had put the machinery of science in motion to discover the cause of the disorders so fatal to infants.

He announced that a fund of \$200,000 would be devoted to research, and asked Dr. William H. Welch of this city to take charge of the matter. The investigation has been conducted this summer in the laboratory of Thomas Wilson, at the sanitarium for children at Mount Wilson, Baltimore county.

In forty cases out of fifty the specific organism isolated by the investigator was found. The cases represented every variety of summer complaint except cholera infantum. In all cases the organism found was nearly identical with that which produces acute dysentery in adults. Dr. Welch will now try to find an anti-toxin or cure for the disease.

Washington, Sept. 8.—The sum of gold now in the United States Treasury exceeds that of any previous time in the history of the country, and, with one possible exception, it exceeds that of any country in the history of the world. The single reported exception is that of Russia, about eight years ago, when that country was preparing to resume gold payments. At that time Russia is said to have had in its treasury \$588,000,000 in gold.

Last Saturday the vaults of the United States Treasury contained \$573,935,194—an increase since July 1, 1901, of \$79,087,897. This stock of gold is now being added to at the rate of \$200,000 to \$300,000 a day, with no immediate prospect of a cessation in the rate of deposits. This condition of things is eminently satisfactory to the Treasury officials, who regard it as the best possible evidence of prosperity and of confidence in the financial ability of this country.

The gold now coming in is being replaced by gold certificates, United States notes and silver certificates, the former being supplied where the denominations wanted are \$20 and over, the United States notes for \$10, and silver certificates for \$5, \$2 and \$1.

Experiments recently made have demonstrated that the brain is susceptible to peculiar influence from electricity.

Around the World To Get Married

New York, Sept. 8.—A dispatch to the Press from New Haven says: Mr. and Mrs. Howard Osborn have returned to their former home in Berlin, in this State, after three years of misunderstanding, which caused a trip around the South American continent for the couple.

The date for the wedding was fixed four years ago in Berlin. The guests assembled, but Osborn did not appear. His broken hearted fiancée took the train for New York the same night, unwilling to face the gossip the incident would cause. Osborn arrived two hours after her departure and explained that his absence was due to a train wreck. He left town shipping as a sailor to Brunswick, Ga.

Miss Humphreys learned two days later that Osborn had not deserted her. She took the next steamer for Brunswick, but Osborn had sailed thence for South America. She followed him from port to port around the Horn to San Francisco, to Denver, where she lay a month with a fever, and finally met him in San Francisco, where they were recently married.

SCHOOL OF ANARCHY

Chicago, Sept. 8.—In the anniversary week of the Nation's horror over the deed of Leon Czolgosz, who shot the late President McKinley September 6, 1901, a peculiar renewal of anarchistic activity is displayed in Chicago, the installation of a school of anarchy being announced in the columns of the paper published by Abraham Isaak Sr.

The plans of the anarchists contemplate what is called an educational propaganda. This is to have several unique phases, among them being a Sunday gathering for lectures, weekly business meetings, distribution of literature, Russian tea parties and various social gatherings.

Curious persons will be attracted to the gatherings. It is expected, as well as men of radical ideas. Editor Isaak will be "head professor." If a man rises and asks, "When is it advisable to kill?" he will probably look calmly back and say, "Unnecessary bloodshed should be avoided. Anarchists have seen in the prevailing discontent over combinations of capital, and in the widespread interest and effect of the coal strike a lever to move many minds. While a man munches a pleasantly flavored water or sips a cup of tea he may hear many suggestions without thinking of what is behind the talk. Theoretically dealing a blow to capitalism does not imply assassination, and the work of conversion is slow and insidious.

There are some Simple Remedies indispensable in any family. Among these, the experience of years assures us, should be recorded PAIN-KILLER. For both internal and external applications we have found it of great value; especially can we recommend it for colds, rheumatism, or fresh wounds and bruises.—Christian Era. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

Fine Job printing at the Bulletin office.

THERE are more Adams-Bagnall Enclosed Arc Lamps used for street lighting throughout the United States, Canada and Mexico, than all other makes of this type of lamp combined. Thousands of A-B Arc Lamps have been installed in all classes of mills, factories, foundries and retail and wholesale stores throughout the country, and are giving universal satisfaction.

If you care to know more about them, let us know where to find you.

FRIDAY, SEPTEMBER 19, 1902.

A session of the Senatorial Commission while crossing the Hawaii channel is a splendid tribute to the working capacity and sailor qualities of the Senatorial landmen.

Hilo Republicans are to be congratulated. The ticket they have put in the field is made up of men favorably known throughout the Territory, who will unquestionably appeal to the good judgment of the voters.

Attorneys Kepolka and Cooke have filed such serious charges against Judge Kalua that it will not be surprising if the Commission displays an interest in hearing Kalua's side of the story on their return from Hilo.

CAMPAIGN FOR TOURISTS.

The decision of the Merchants' Association to move forward in an aggressive campaign for tourist trade is in keeping with the energetic spirit in which this association has approached all matters which have a direct bearing on the prosperity of the Territory.

The step having been taken, it now remains for the community to join issues with the association and give it the moral and financial support which will be the guarantee of success. The business leaders who have taken this work in hand are vigorous men whose standing in the community and accomplishments of the past inspire confidence in their ability to properly manage the movement and make every dollar count. The Association has yet to make a failure. It has made a reputation and intends to uphold its good name. Every citizen of the Territory shares in the benefits to be derived and a proper appreciation of the duties and responsibilities of wide-awake citizenship should lead each individual to cooperate with the organization in every way possible. Let the campaign for tourist trade be characterized by united enthusiasm which refuses to consider the possibility of failure or indifferent success. What other cities have done Honolulu can do.

DILLINGHAM'S WORK.

[Hawaii Herald.]
B. F. Dillingham has once more shown himself a financier of no mean ability. In spite of the low price of sugar and the general conditions existing here he has negotiated a loan of many thousands of dollars on island securities, and the money will be used in paying the assessments on Oloa Sugar Company stock. The result of Mr. Dillingham's efforts in this instance proves that there is an abundance of idle capital on the Mainland and that those who control it are willing to place it in this Territory if they are approached by the proper person. Those who know Mr. Dillingham have confidence in him because he has shown that enterprises engineered by him have proven successful. Not in the beginning, perhaps, but in the end they have been very satisfactory to those who have invested. Hilo is glad that he has interests in this part of the Territory and it regrets that he was not a promoter of the railroad to Kawaihae; if he had been, the cars on that road would have been hauling freight into Hilo today.

ASKS PROTECTION FOR COFFEE

To the Sub-Committee of the Committee on Pacific Islands and Porto Rico; in Relation to Protection for the Coffee Industry.

The coffee industry has vast possibilities in Hawaii, and would be one of vast magnitude with us, if protection could be secured against competition of non-American producing coffee countries.

I should like to state at the outset that Hawaii could not supply the entire United States with coffee, but it must not be forgotten that we possess, Porto Rico and the Philippines, which, in conjunction with our own Territory, could eventually supply her entire demands.

The industry has the advantage that same thrives most advantageously in the mountain and elevated regions of the tropics, and is therefore a most ideal one for white people to engage in. The harvesting of the crop being a light and easy one, enabling women and children to find employment therein, as witness the fact that in the Kona District, the school vacation is placed at harvesting time.

No other industry would so rapidly Americanize and diversify the agricultural productions in the tropics as coffee, firstly, from the fact that other profitable crops can be raised along with it, the harvesting of which would take place at a time when coffee is not being gathered. Secondly, on account of its healthfulness, its adaptability for Saxon and Latin races is undisputed, and healthier regions are nowhere found upon this globe than in the elevated and mountain regions where coffee thrives. I believe sincerely that if we are given the chance to assist Italian and Portuguese immigration for this industry, the same, under a protective tariff, would succeed admirably. It must also not be forgotten that these people, at least their children, would grow up as Americans and form a substantial and vigorous addition to a most desirable commonwealth.

To engage in its culture vast sums of capital are not necessary, and it may be undertaken by classes of all means, thereby giving us a great many independent and prosperous citizens.

Prior to annexation to the United States Hawaii had a duty of seven cents a pound against foreign coffees, whilst today we have not even a lot of protection for our own little home country, much less for the grand development that will await us if the United States markets can be ours.

Hawaii's present production is about 25,000 bags annually, while with protection the future would see it grow from 3,000,000 to 4,000,000 annually, if not more.

Now, I should like to dwell upon the conditions confronting this industry. The chief competitor of all coffee-growing countries of the world, is Brazil, where, owing to an enormous production, the markets of the world have become flooded. In Brazil the industry possesses an enormous advantage, regarding cheap labor, also a standard silver currency, which also lowers cost of production by one-half, in comparison to ourselves. These conditions are not to be overlooked.

MERCHANTS OUT AFTER TOURISTS

(Continued from Page 1.)

adopting the whole report as published. The speaker suggested that the merchants be seen first in order that a committee upon conferring with the planters, steamship companies and other possible sources of revenue, might have something tangible present should it be asked: "What have you merchants done?"

Mr. Church spoke on the recommendation of the committee to the effect of a non-advocacy of any undue reduction of rates of travel between the Mainland and Honolulu. He stated that if such a recommendation were to be embodied in the accepted report it might prevent any reduction on the part of the steamship companies. As a matter of fact, the rates were out of all proportion to those on the Pacific Coast and for Atlantic travel. He cited as an instance the charge of only \$20 for the trip from Seattle to San Francisco, which took from three to four days.

Among those who might come to Hawaii were Englishmen and New Englanders, who were conservative people and who would not come here unless the rates of travel were found to be proportionate with those of the Atlantic and Pacific Coasts. An effort should be made with the steamship companies to get them to reduce the present rates.

Mr. Rothwell, speaking for the committee which had prepared the report, said that since the report was written, some two months ago, there had been another \$10 added to the fare each way. As the committee intended asking the steamship companies for a subscription on each ticket, it was thought best that no undue reduction had been asked for. However, since that time, the rate had come, so that the remarks of the committee did not apply to the present rates of fare.

On being asked a question as to the schedule of assessments, Mr. Rothwell stated that the list had been prepared simply by way of suggestion. There was nothing hard and fast about it. However, the committee felt that unless the association could get a sufficient fund guaranteed, the matter might as well be dropped.

Mr. Pinkham was under the impression that the matter of a reduction of

fees, as well as other South and Central American coffees, are sold for gold in the American and European markets and with labor being paid in silver, really doubles the price of their product. Aside from this fact, I understand that the labor in those countries is not one-half so costly as in our Territory, and these mentioned facts place us at an enormous disadvantage in competition in our own home markets. If this industry is to live, then the United States should place a duty on coffee produced in non-American territory. It is impossible for it to thrive and make progress otherwise.

The United States have made a mistake in putting coffee on the free list, instead of using it for reciprocity purposes. Take, for instance, the importations from Brazil and South America. Statistics show that 92 per cent of the products imported from countries south of us are admitted into the United States free of duty. We furnish to those countries 15 per cent of their imports, and purchase of them 30 per cent of their entire exports. So that it will be seen that the balance of trade has been in their favor. In ten years we sold to those countries \$904,000,000 and bought of them \$2,135,000,000. In a period of thirty years, we purchased of Brazil \$1,500,000,000 worth of her products, and sold to her only about \$250,000,000 worth of American products, leaving a balance of trade in her favor of the enormous sum of \$1,250,000,000 gold. Yet Brazil discriminates against us today. She charges a higher duty on flour when it comes from the United States than when it comes from the Argentine Republic. She does this in return for a reduction of duties by the Argentine Republic on Brazilian coffee, whereas we admit that coffee free of duty. And the United States imported from Brazil \$66,643,347 value in products more than the Brazilian importations by the Argentine Republic. This only illustrates to what unjust discriminations the United States submits, in permitting Brazilian coffee free of duty into the United States.

The same condition of affairs exists with reference to our trade relations between the United States and all the South and Central American producing countries. The cultivation of coffee in these islands is in its infancy, and so long as our product has to compete with the cheap coffees admitted free into the United States from countries where contract labor laws, trades unions, and laws against slavery and the use of convicts are not enforced, this industry will be retarded in its growth and commercial success.

I forgot to mention that it is a fact that South and Central American coffee producing countries charge on all coffee exports an export duty of \$2.25 (in gold) per cental (110 pounds) which duty, naturally, the United States pays. My views regarding the future welfare of this industry naturally meaning the future welfare of our Territory, are shared by all American citizens, and I trust that these claims for recognition will bear fruit.

Yours respectfully,
ABRAHAM L. LOUISON.
Hilo, Hawaii, Sept. 18, 1902.

MERCHANTS OUT AFTER TOURISTS

Upon motion of Mr. Hall, the report was accepted as presented and ordered placed on file, the committee tendered a vote of thanks and then discharged. The chair thereupon praised the committee for its hard work, saying that great credit reflected on the members for what they had done.

On motion of Mr. Waldron, the board of directors of the Merchants' Association was authorized to proceed to raise the necessary funds for the purpose of encouraging tourist travel to these islands and to report back to the association in fourteen days.

On motion of Mr. Harris, the board of directors was authorized to add to its number as it might see fit in regard to the raising of the necessary funds for carrying out the work.

The board of directors of the association is composed of the following: F. W. Macfarlane, W. W. Dimond, Jas. Wakefield, H. F. Wichman, Geo. W. Smith, L. E. Pinkham, M. Phillips, J. F. Humburg and W. W. Harris.

Mr. Hoops suggested that the assessment of twenty-five cents on each of freight imported, as suggested by the chair early in the meeting, was exorbitant. Ten cents was plenty and would be in proportion to the other proposed assessments.

The chair further suggested that when the committee started out to see the various business houses, there should be some general argument to be placed before the prospective subscribers. It should be understood that all the details of the plan would be attended to later by the association. In the meantime, every member should thrash the thing out in his own mind from the standpoint of a modus operandi.

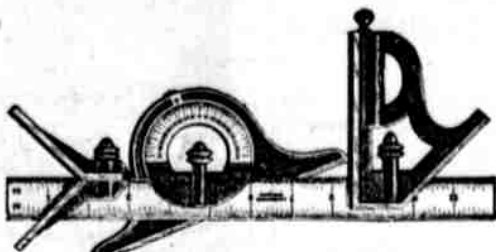

At the suggestion of the chair, Mr. Helm moved that the board of directors be authorized to secure the services of a clerk as an assistant to the secretary, Mr. Macfarlane explaining that this would be the best way to expedite the work. The matter of compensation was also included in the motion, which carried unanimously.

Messrs. Helm and Dimond both stated that there were a half dozen or more good substantial firms of the city whose desire it was to become members of the Merchants' Association. All they wanted was an invitation to join. Mr. Helm said this mat-

I hereby apply for INFORMATION in regard to the new MONTHLY PENSION POLICY.

I would like to leave my family a monthly income of \$..... per month for Ten Years after death.

Age..... Name.....

Plan..... Address.....
Under this special form of contract you can leave a monthly income of \$10, \$20, \$30 or any other larger amount. The policy also pays 20 per cent of face immediate on death in addition to the income. Issued on ordinary Life, Limited Payment or Endowment Plans.

ter should be attended to, since the greater the membership of the association, the more representative that body would be. Besides that, the income of the organization would be increased. Mr. Dimond stated that this was just the work that the clerk could do.

Mr. Catton asked when the association would be in its new quarters in the Judd building and the chair answered that he hoped it would be accomplished in about a week's time. The meeting adjourned at a little after 11:30 o'clock.

DILLINGHAM PARTY'S TOUR OF HAWAII

Hilo, Sept. 18.—L. A. Thurston of Honolulu, accompanied by representatives of E. H. Rollins & Sons of Boston, Mass., arrived in Hilo Monday night. Tuesday morning they left by carriage over the Hamakua road and will return to Honolulu by boat from the other end of the island. The trio of investigators accompanying Mr. Thurston were Messrs. Batchelder, Taylor and Corbett of San Francisco and Denver. Their object in visiting the islands at this time is to look into the merits of Hawaiian Industries from the investor's standpoint. They have been visiting the fields and plantations and taking a careful survey of the material conditions of the numerous Hawaiian concerns which offer their stocks and securities in the markets of the United States.

E. H. Rollins & Sons first became interested in Hawaiian enterprises in the Rapid Transit street car lines in Honolulu. This firm took Rapid Transit securities and by its faith in Honolulu made this splendid street railway system a possibility at the capital. These representatives came to the islands this trip primarily for the purpose of looking into the merits of proposed extensions of the Rapid Transit. They have found the proposed extensions feasible from their point of view, and are pleased with the results of their first dip into Hawaiian business.

The successes of their first expedition led them to look further for opportunities in Hawaii, and they have therefore made this exhaustive tour of the Big Island with Mr. Thurston as pilot.

Mr. Thurston said to a Tribune reporter Monday evening: "We are making this tour of Hawaii in order that the gentlemen who accompany me may see for themselves what Hawaiian industries are. We have gone well around this island and will complete

the circuit tomorrow and next day. I do not know what impressions have been made on the gentlemen who are with me. They are forming their own conclusions, and whatever they are you must find out from them.

"All I can say is that the case in the fields where we have gone is in a first-class condition and that I myself have been greatly pleased with the appearance of things all around your island."

When asked about conditions on the Mainland, Mr. Thurston reiterated the statements made by others who have lately returned from the Coast. He said business in all lines on the Coast was in the full tide of an era of great prosperity.

DEPONTE INNOCENT

The case of M. S. Deponte, charged with procuring money by false pretenses, fell through in the Police Court this morning and was nolle pro'd.

Deponte was supposed to have procured \$60 from J. S. Melo, an elderly Portuguese, by giving him a note endorsed by a certain woman, this endorsement being fraudulent.

Melo was the only witness put on the stand. He proved to be a very hard witness to handle and when he finally stated that he had not seen the endorsement at all when he got the note, the prosecution nolle pro'd the case.

Attorney Robinson, who appeared for the defendant, asked the court that an acquittal be given the defendant, a nolle prosequi being very unsatisfactory in so serious a charge.

The court stated that as the case had been nolle pro'd it was out of the jurisdiction of the court and no acquittal could be given. The court, however, further stated that the defendant ought to have had an acquittal.

It is understood that a suit for malicious prosecution will be instituted by Deponte against Melo.

CARDINAL GOTTI, WHO MAY BE THE NEXT POPE.

By appointing Cardinal Giralamo Maria Gotti as prefect of the propaganda to succeed the late Cardinal Ledochowski it is believed that Pope Leo indicated his preference for Gotti as his successor to the papacy. Cardinal Gotti is a man about sixty-four years old and still retains his full force and vigor of age. His knowledge of canon law is asserted by many to be superior to that of any other member of the sacred college, while his generalship of the Carmelite order has had the effect of endowing him with prompt and thoroughly businesslike habits. He is a distinguished orator, speaks French with rare perfection and Latin with as much grace as Leo XIII. His most conspicuous characteristic, however, is his spirit of conciliation.

BAND NEEDS UNIFORMS BAGGAGE OF TOURISTS

The band boys want new uniforms, Captain Berger has applied to Governor Dole for ways and means, the Governor has referred the matter to the Attorney General and he has rendered an opinion that the money can be drawn from an appropriation which is hardly in a condition to permit of the expenditure. The opinion reads as follows:

Territory of Hawaii,
Office of the Attorney General,
Honolulu, H. I., Sept. 18, 1962.
To His Excellency Sanford B. Dole.
Sir:—I have the honor to acknowledge receipt of your request for my opinion whether the band can be supplied with military uniforms under the appropriation for the support of the military.

Act 4 of the extra session of 1961, under the title of "Military" appropriates \$5000 for "Uniforms, enlisted men." It seems to me that this appropriation is limited by the plain language of the Legislature to the purchase of uniforms for men enlisted in the military service of the Territory. I do not understand that the members of the government band answer this description.

The same Act, under the title of "Band," appropriates \$2400 for "Incidentals, uniforms, carfare, new music, repairs, express, etc." As it is one of the duties of the band to furnish music for and take part in military parades, I see no reason why suitable uniforms for that purpose may not be purchased from the last named appropriation.

I have the honor to be, sir, with great respect,
Your obedient servant,
E. P. DOLE,
Attorney General.

YOUNG HAWAIIANS WED

Surrounded by a host of friends Miss Rosa Williams and Moses Kekahio were yesterday united in marriage at the home of the bride in Kalihi. The ceremony took place at 7 in the evening, Elder William M. Waddop tying the knot.

The room in which the ceremony took place was beautifully decorated with flowers and greens.

At 7:30 there was a big luau celebrating the event. The feast was spread in two large canvas covered lanais while on the veranda of the house a band of musicians kept things lively.

The groom is an employee of the Rapid Transit Company and a large number of his fellow employees attended the event. Among them were Manager Ballentine, Superintendent Pratt and other prominent officials of the company.

A large number of presents were received by the young couple from their numerous friends. Among them was a magnificent dinner service, the gift of the Rapid Transit employees, for which especial thanks were expressed.

Emperor Francis Joseph of Austria has sent King Edward a full-length portrait of himself, painted by the Hungarian artist Gyula.

SKILLED LABOR VIEWS

Editor Evening Bulletin:—Let us see how Mechanic's views would affect the plantations, by employing whites and Hawaiians as skilled labor as against Asiatic skilled labor.

First, they pay the Asiatics from \$40 to \$60 per month; the whites or Hawaiians from \$50 to \$120. The field labor they now pay from \$20 to \$22. The white or Hawaiian would give better work and do more than two or three Asiatics. He would take better care of his mill, his building, his pumps and save more lumber, coal and iron. The labor the planter would import would get about \$16 to \$18 per month, which would be a saving of from \$4 to \$6 per month. The small plantation would require from 300 to 400. The larger ones would require all the way from 1500 to 2000. The plantation would save at the least from \$750 to \$1950, according to the number of laborers required. It would require as skilled labor, sugar boilers, engineers, carpenters, blacksmiths. Now in proportion what would be the gain of one of the larger ones. That is the thing for the plantations to consider. It shows that Mechanic knows what he is talking about. I see the Advertiser gives him a dig about sugar money. He may think that it is the same lawyer or some one who is now before the Senatorial Commission, but I think he is wrong. He appears to be one who has invested his little all in sugar stocks and does not wish to lose it. I thought myself that those who carried a gun in times gone by would not be cast aside for the Asiatics to take their place as skilled labor, but, sir, it has ever been thus. The big fish will eat the little ones and will never get their fill. But I think they will this time unless they come to terms with Mechanic's views. I am, sir,
SKILLED LABOR.
Honolulu, Sept. 18, 1962.

A Wasp Stopped
The Song of Patti

New York, Sept. 7.—A cable to the Herald from London says: A story about Mme. Patti, Baroness Cedersstrom, comes from the Welsh town of Brecon. She and Mr. Santley agreed to sing at a concert there in aid of Brecon Hospital. They had not been long on the platform when it was evident that the diva, in the midst of her singing, was becoming first disconcerted and then alarmed. Then she fled from the platform, followed by Santley.

Shortly afterward Mme. Patti returned and said: "I am very sorry. It was a wasp that got in my mouth and we couldn't go on."

Legal Notices.

Assignees' Notice of Intention of Foreclosure and Sale.

Notice is hereby given that pursuant to the power of sale contained in that certain mortgage dated November 28th 1900, made by YICK LUNG WAI COMPANY, a co-partnership formed to carry on the business of rice planters at Laid, District of Koolaula, Island of Oahu, Territory of Hawaii, as Mortgagees to LAM YATE and YONG KONG HOON, both of Honolulu, in the said Territory, as Mortgagees, and recorded in the Registry of Conveyances in said Honolulu in Liber 215 on pages 289 to 295, Sing Loy, the assignee of the said mortgage, intends to foreclose the said mortgage for conditions broken, to wit: the non-payment of principal and interest when due; the non-payment of taxes; the non-payment of rent under that certain indenture of lease dated October 24, 1900, made by and between Lorenzo Snow, Trustee, as Lessor and the Mortgagees as Lessees, and the non-cultivation and abandonment of the plantation in the said mortgage mentioned.

Notice is likewise given that the property assigned by the said mortgage will be sold at public auction at the auction rooms of James F. Morgan, Queen street, Honolulu, on Saturday, the 20th day of September, 1902, at 12 o'clock noon.

The properties covered by the said mortgage and to be sold as above consist of:

First—That certain indenture of lease dated the second day of October, 1900, made between Lorenzo Snow of Salt Lake City, in Utah, United States of America, as Trustee for the Church of Jesus Christ of Latter Day Saints as Lessor of the first part and the Mortgagees as Lessees of the second part the term of years thereby granted and the estate right, title and interest of the mortgagees and each of them in and to all that certain tract of land and rights of pasture and firewood described in and demised by the said indenture of lease or intended so to be together with the appurtenances.

Second—The crops of rice now growing on the land described in the said lease.

Third—All wells, buildings, improvements, tools, implements, horses, cows, carts, wagons and harness situate on the premises described in said indenture of lease.

Assignee.

Terms—Cash, United States Gold Coin. Deed at the expense of the purchaser.

For further particulars apply to Holmes & Stanley, Attorneys for the Assignee.

Dated Honolulu, August 28, 1902.

THE NORMAL RAINFALL

Curtis J. Lyons, Director of Weather Bureau, in a preliminary statement to his report on "The Rainfall of the Hawaiian Islands," says:

"This is the first series of tables arranged by stations that has been issued. Nearly all the stations established prior to 1897 are included. As the names of the observers are published in the annual reports and are not given in this pamphlet, excepting a few that serve to identify the stations. The (thanks of the office and of the public, and of scientific men abroad, are hereby sincerely given to those who by voluntary effort have made these statistics possible."

Mr. Lyons gives information and suggestions regarding the care of gauges and the varying influences of different winds upon rainfall, and concludes the statement thus:

"Through the courtesy of the United States Weather Bureau the monthly rainfall of Hawaii, which is now a Territory of the United States, is published regularly in the Monthly Weather Review."

"It is hoped that this pamphlet will be of use to the agricultural and commercial interests of the Territory as well as to those of scientific research everywhere."

The following table is made up from Mr. Lyons' statistics for stations, designating the annual normal rainfall in inches:

Hilo (100 ft.) 135.85

Waialeale (50 ft.) 127.94

Kaunakakai (1250 ft.) 189.53

H. A. P. CARTER ESTATE

George R. Carter and J. O. Carter, trustees under the will of the late H. A. P. Carter, have filed their report for the year ending June 30 last.

They charge themselves with receipts on account of principal amounting to \$244,257.77 and ask to be allowed sundry payments to the sum of \$50. The balance of principal, \$244,207.77 is invested as follows: Deed to block 74, Stockton, Cal., \$398.94; C. Brewer & Co. stock, \$128,300; bills receivable, \$49,300; O. R. & L. Co. first mortgage bonds, \$53,467.50; Ookala plantation bonds at \$101.50, \$5075; Ewa plantation bonds at \$100, \$2000; Kahuku plantation bonds at \$100, \$5000; cash in Bank of Hawaii, \$726.53.

The income account balances at \$42,189.67 receipts and payments respectively, commissions of trustees being \$238.48.

Croighton & Correa have filed satisfaction of judgment in the case of Fred Meyer vs. D. K. Naone and J. T. Naone.

By stipulation between Robertson & Wilder for plaintiff and Holmes & Stanley for defendant, the bill of complaint of E. L. Heuter, trustee et al., vs. John M. Dowsett may be amended by joining as a party defendant Alice Edith Brune, a minor daughter of Alfred E. and Anna Adelheide Brune.

Nuuanu St., Corner of Merchant TELEPHONE 308

G. E. BOARDMAN'S WILL REMARKABLE

W. Austin Whiting today filed the will of the late George Edgar Boardman for probate. It names Messrs. Whiting and S. B. Rose as executors. The real estate is valued at \$42,400 and the personal at \$20,943.42, the latter including a fire claim judgment for \$8831.88.

Bequests and devise of the will are as follows: Unto Miss Moringa Isune, Japan, \$500; Mrs. Newton, a cousin in the Eastern States, \$500; Mrs. A. H. Charitan, New York, \$500; Hatsuhiro Umoto, son of a former servant, \$200; Amy Laura King, his sister, and each of her children, each one dollar.

To Louise Kaohilani Boardman (born King), his adopted daughter and niece, the testator bequeaths the house and lot on the makai side of Kinuau street, between Alapai and Kapiolani streets, in fee simple and free from the control of her husband.

All the rest and residue of his estate he leaves to the executors in trust for the payment of the net income thereof to Miss Boardman, his niece aforesaid, for and during her natural life and free from husband's control. In the event of her death leaving issue, the property is to be transferred to her lawfully begotten child or children, and in the event of the death of any such child leaving issue its share to go to such issue. Should his niece and adopted daughter die without issue, then the estate is to be transferred to her heirs general by right of representation.

The executors are authorized to convey to Miss Boardman personal articles such as jewelry, furniture, pictures, books, etc., from time to time, not exceeding in value \$1000, free from trust. They are also empowered to pay her out of the personal estate not exceeding \$2500, if in their discretion they shall deem it for her own personal material benefit, support or maintenance.

The will was executed at Honolulu on November 21, 1900, in presence of F. E. Thompson and W. J. Robinson.

Judge Robinson denied without prejudice the motion of George R. Carter, guardian of William A. Hall, spendthrift, to mortgage certain property of the ward. The reason for this setting aside the matter was that a petition to remove the guardian is pending before Judge Gear. Should this be denied, the guardian may renew his motion. C. S. Dole appeared for the guardian, Geo. A. Davis for the ward.

The appeal of plaintiff from District Magistrate Dickey, in the suit of Crispino da Camara vs. John Machado, is being tried by Judge Robinson. There are three other cases to which this one is related. The plaintiff sued for \$250 damages for trespass in entering a house at Kalihi and the court below awarded him but \$10 and \$3.75 costs. J. M. Vivas for plaintiff; T. W. Rawlins for defendant.

Chiu Koo Chau et al., defendants, have appealed from Judge Robinson's decree in favor of J. Alfred Magoon and wife, plaintiffs, in an equity suit to reform and cancel a lease.

The schooner Lassie, built by Captain James, will be launched this afternoon between 2 and 4 o'clock at the Fishmarket slip. As soon as she is in the water, Captain James will begin to rig her. She will be ready for work in about two weeks.

SUCCESS

in life, social or business distinction, for man or woman, old or young, in these days of activity, depends largely on personal attractiveness. Money In Hawaii, Is Well Invested

Hilo, Sept. 18.—Geo. A. Batchelder, San Francisco manager for E. H. Rollin & Sons of Boston, and superintendent of the Oakland electric railway system, who is touring the islands in search of good investments, is pleased with Hawaii as a field for this purpose. Mr. Batchelder was interviewed by a Tribune man at the Peacock Monday evening. He spoke frankly and openly regarding his impressions of the islands and gave clear-cut ideas of what he considered necessary for their continued prosperity.

"You are trying to do a wholesale business on a retailer's capital," said he. "All you need to make a complete success is the aid of outside capital. You have undertaken to do too much with merely home capital. I have looked over some of your great plantations and investigated some of your biggest enterprises. They are in splendid physical condition and show that they were projected by master minds. The planning was well done. The managerial skill in developing these plans has been of the highest order."

"But you have not been able to bring into this expansion enough local capital to bring these later ventures to complete development without the inevitable stringency in local financial circles. There is going on here the same transformation that has revolutionized business enterprise elsewhere. You are passing from the era of small business and big margins to the modern era of large business and small margins. General prosperity may be as good under the latter conditions as under the former. But it takes more capital to run things under the new order."

"In my travels through your island I have seen nothing that should make it difficult to secure outside capital. Hitherto business and political conditions have been unsettled in Hawaii. Those conditions are passing and consequent stability will follow. From what I see in Hawaii you are the best sugar raisers in the world. As long as there is sugar raised anywhere you will raise it here, and so long as there is money to be made in sugar, you have certain advantages which will keep your Territory at the head of the procession."

"San Francisco is the city which should rightly finance these islands. She has money in abundance and her geographical situation makes Hawaii her field exclusively. San Francisco has not put the amount of money in these islands that she should. This is owing to the unsettled political and business conditions which have been incident to the overthrow and annexation. The labor problem is one which I think will adjust itself."

"One thing I notice is the high prices that prevail. I do not know the cause of this unless commodities are being artificially held at a level fixed when sugar was worth \$100 a ton. I think you must diversify a little in agriculture."

"I have been interested and pleased with every step of my journey through the islands. Our firm took hold of Rapid Transit in Honolulu and are well pleased with results. We came down to look into some proposed extensions of that system and will furnish the money to make them."

How soon will you be ready to give Hilo a Rapid Transit street railway? "When Hilo has a population of 20,000," replied Mr. Batchelder. "There are electric systems in towns of less size than that, but few of them are making money."

Pla, or Hawaiian starch, manufactured by W. H. Rice, Lihue, Kauai, for sale in lots to suit. Ask your grocer for it. California Feed Co. wholesale agents.

PASSENGERS IN TRANSIT.

From Kawaihae to Maalaea Bay, per stmr. Helene, Sept. 18.—Mr. Batchelder, L. A. Thurston, Mr. Leary.

VOLCANO ACTIVE AGAIN

Hilo, Sept. 18.—The Volcano is acting in a most accommodating way this week. Sunday morning fire broke through the cracks of the lava which formed the surface of the lake that appeared September 1. The old crust has evidently solidified to such an extent that considerable force must be exerted from below to break it up.

Therefore the frequent upward movements of the lava produce a fine display of geysers through the cracks. Jets and fountains of lava shoot upward with enchanting effect as the sea of fire surges up from below.

Tuesday night a small cone formed in the center of the old lava lake where the molten flood broke through. For a considerable time there was a fine flow of lava from this aperture and it spread outward in waving lines of fire. As the Volcano is now acting it is said to be more interesting than when the molten lake covered the bottom of the pit.

after it sailed. New York, Sept. 11.—At the great "peace meeting" just held at Asbury Park, N. J., in connection with the Quaker conference, nearly 2,000 Quakers were in attendance. A paper read by Henry M. Haviland of Brooklyn, declared:

"We can't be careless with dynamite if we want to live a quiet life. Nations having irreconcilable lines of progress have seemed to be able to ascertain that which is most fit to survive only by the arbitrament of the sword, but who can say how many peaceful arts have been destroyed, how much the progress of the conquered race has been retarded, how much the spirit of intolerance, arrogance, vainglory and hypocritical cant has not been fostered in the victorious nation and has interrupted her development."

"Civilization is not extended so much by stretching the boundary line as by the growth of peaceful arts; it is suspended during national conflicts."

Fireflies are sold nightly by peddlers in crowded quarters of Tokyo and other Japanese cities. The insects sell for three rin apiece, a rin being equal in value to the twentieth part of a cent.

Special Waist Selling

What woman has enough shirt waists

She can always find a need for one more, especially when such an exceptional opportunity as this is presented. The waists comprise the finest creations in White Lawns, Silk Mulls, Swisses, Madras and Mercerized Fabrics. Mostly with long sleeves and the NEW STOCK COLLARS.

A NEW LOT OF WAISTS

We have just received a big new lot from one of the Best Waist Makers in the country. They come to us at so much less than normal, early summer prices, that we have marked them irresistibly low. In addition to this, many of the waists in our regular stock have been radically reduced. It's the Waist chance of the summer, and the last chance you will have at a fresh, crisp lot of the daintiest NEW YORK WAISTS.

WHITNEY & MARSH, LTD

WHY THEY COME

The work done by the New York Dental Parlors has stood the test of two years in Honolulu. Our oldest patrons are sending their friends to us because their work was satisfactory. Do not experiment. We have established a reputation in Honolulu that is past the experimental stage.

If money is an object to you, come and see us. We will tell you in advance exactly what your work will cost. No charge for examination.

All our instruments are thoroughly sterilized.

Hours, 8 to 6; Sundays, 9 to 12. Ladies in attendance.

Full plate of Teeth\$5.00
Gold Crowns 5.00
Bridge Work, per Tooth 5.00
Gold Fillings \$1 and up as to size
Fillings, .50c to \$1 accdg. to material

NO PLATES REQUIRED

TO LET—Cottage containing parlor, 2 bedrooms, dining room, kitchen, bath; possession give immediately. Apply 352 Vineyard St. nr. Miller. 2255-1f

BRITISH PACIFIC CABLE

Victoria, B. C., Sept. 12.—The Wilapa has returned from the west coast of Vancouver Island with a party of officials who inspected the preparations at Bamfield creek for the landing of the Pacific cable. The necessary buildings for the station have been erected there. The party will now await the arrival of the cable steamer Colonia, which is hourly expected. The Colonia will proceed to Bamfield creek and commence the work of cable laying, starting from that point and proceeding to Fanning Island, where the Angila will meet her with the other end of the line. A few days will complete the telegraph line across Vancouver Island. With this line completed telegraphic communication will be had direct with the Bamfield creek station and may be kept up with the Colonia during her cable laying trip across the Pacific.

Victoria, B. C., Sept. 11.—R. E. Peake, engineer of the Pacific Cable Company, and Mr. Lucas, engineer for the Pacific Cable Board, arrived from England last night and left later for the west coast of the island, where the new Pacific cable is to land in Canada. The Colonia, with the cable for the stretch from here to Fanning Island, was reported coming up the straits tonight. The laying of the cable will commence as soon as the Colonia has sailed.

New York, Sept. 11.—Discussing the second day of the German military maneuvers the special correspondent of the Daily Mail says: "Boer tactics" were freely employed, cables the London correspondent of the Tribune. The troops were instructed to use their own initiative, direction by officers not being always possible on account of the great extension of the firing line. Several old tactical methods were also put into operation, including the forward rush and shock attack, with drums beating. The artillery also followed a new tactical method, being no longer concentrated and massed at a single point, but placed at intervals in single batteries. It is reported that when Lieut. McKinley was presented the other day the Kaiser warmly shook him by the hand and said he regarded it as a special favor to meet a kinsman of the late President.
