## LUCAS IS IN A BUSY DAY CONTROL OF ROADS

### Smith Resolution to Give Precinct Clubs Are to County Engineer Select Their Officers Charge Lost, Tonight.

The most important piece of business transacted at last night's session of the Board of Supervisors, was the turning down of G. W. Smith's resolution to place all engineering work of the road department under the control of the County Engineer.

Smith introduced this resolution a couple of weeks ago and met with spirited opposition from Chairman Lucas of the roads committee.

The matter went over a week and at the last meeting of the board, Smith made a statement explaining and defending his resolution, action on which was again deferred.

Last night the matter came to issue. Smith stated that in presenting the resolution he had the present and ultimate interests of the county at heart, and denied that the personal equation had entered into his calculations in any way whatever.

Lucas fought the resolution tooth and nail. He scented usurpation of the powers of the road department and ironically pointed out the possibility of the County Engineer an appointee of the board, dictating to the board, provided the resolution was adopted.

Moore stood with Smith and repudiated the idea of dictatorship.

On a vote the resolution went aglimmering. Smith and Moore leading the forlorn hope and the county members negating the resolution, which died unwept, unhonored and unsung.

Present were: Chairman Smith, Supervisors Moore, Cox, Peale, Lucas, Archer, Stenographer Aea, Clerks Buf-fandeau and Kalaokalani, Sergeant-at-arms Hanalei, Captain Sam Johnson, County Attorney Douthitt, Criminologist Doyle, and members of the press.

The following appropriations were made:

Fire department, \$833.17.  
County Auditor, \$31.85.  
Road department, \$3191.19.  
Electric light department, \$738.32.  
Garbage department, \$372.13.  
Police and fire alarm system, \$47.65.  
County Treasurer, \$3.70.  
Keeper of parks, \$40.20.  
Ewa road district (commission), \$11.60.  
Honolulu road district (commission), \$11.75.  
Police department, \$888.35.  
Pail road, \$250.  
Waihalu road district, \$273.90.

#### THE PARK'S UPKEEP.

A bunch of bills under the account of "Kapiolani Park, materials and supplies" were held over for a week. The bills cover the last four months and there is a question if the park people had a right to run into debt against the county during the time when it was undetermined whether or not the county could appropriate money for the park's upkeep.

#### MUST WORK ALONE.

On account of slack finances it was decided not to authorize the employment of an assistant to the County Engineer at present.

#### BAND MAY PLAY.

It was recommended that an appropriation of \$150 a month be allowed the Concordia Band for concerts to be given twice a week under the direction of the band committee. The recommendation went through.

An opinion from the County Attorney was read to the effect that the county was legally entitled to none of the money collected in fines for breaches of Territorial ordinances but that any such moneys collected in fines for breaches of the County ordinances should and does belong to the county.

Another communication from Mr. Douthitt explained why there was one necessary signature missing from the list of petitioners against Deputy Sheriff Chris J. Holt, three non-voters being on the list, thus bringing the total one below the required legal number.

Regular reports were read from H. A. Wilder, auto inspector, and Chief Engineer Thurston, of the Fire Department.

The Peleue letter, accusing policeman

(Continued from page 1.)

This will be a busy day among the politicians, because all the Republican Precinct Clubs are to meet this evening and nominate officers, and an effort is being made to get the decent men to turn out and give the tar babies a battle for the control of the clubs.

Whether this effort will prove to be successful or not, remains to be seen. Heretofore, such efforts have not amounted to a great deal for the reason that, while decency might win once through being aroused to action, it has then become apathetic and permitted things to drop back into the old rut, whereas, the policies who make their living at it are busy all the time. And they do not take one defeat as final, either.

Aside from this effort to get the respectability of the community to take an interest in politics, there are some scores to settle among the politicians themselves, and it is expected that there will be a deep growling before these matters are adjusted. For instance, there is the war in the Seventh Precinct of the Fifth District, where Henry Vida has one club roll and Sol. Mahelona has another, made up at the instance of Chairman Hustace, of the County Committee.

Vida, who is a strict party disciplinarian for everybody but himself, has his red helmet on, and Mahelona has donned the yellow maul and sharpened his spear. The two will walk around each other on their toes, therefore, but are not expected to do much more than that because their meetings have been called at different places in the precinct and should not clash at all.

It is much handier to do battle with a fellow who goes on his own fighting ground while you stay on yours—and, as a general average, much safer, too.

#### KUHIO COMES HOME.

Matters are expected to open out in a large way with the return home of Delegate Kuhio today. Perhaps that is the reason for the reappearance of the rumor that Alex. Robertson would consent to let himself be put in the legislature as the possible leader of a forlorn hope there. The Republican managers have really begun to get a bit scared about the complexion of the next legislature. It is almost conceded that fusion will carry on Hawaii, and there is no safe betting that it will not carry on Maui.

Of course Kauai is safe enough for the party, but if Maui goes there is likewise reason to fear for Oahu—and that in the face of the fact that strong men like W. W. Harris and Frank Andrade and Fred Waterhouse are bitten with the prevalent desire to shake Territorial affairs and get down into the county muck. Wherefore, it may be that Mr. Robertson is being pressed to save the situation—to dominate the legislature if it is Republican, and to steer it in the way that it should go if it is not.

It should always be borne in mind, in this connection, that nobody has yet officially explained away that much-talked-about promise that Kuhio is said to have made to let Mr. Robertson run for Congress this time, if the chairman of the Territorial Committee would step out of the way. It is true that there have been unofficial denials of the passage of any promise, but mostly there have been loud assertions that promises counted for nothing in the face of the "demand of his people"—the inference being that a promise to a mere haole, even a kamaaina, was rather more to be honored in the breach, anyhow.

#### ALMOST A PORTENT.

It is a fact, that there will be no Hawaiian opposition to Kuhio this time. This has been admitted, so far as Hawaii is concerned, and the same admission has been made by eminent leaders among the natives on Oahu. These admissions being on the quiet.

(Continued on Page 4.)

## DREYFUS WILL BE GIVEN THE RANK OF LIEUTENANT-COLONEL

(Associated Press Cablegram.)

PARIS, July 13.—Dreyfus will be restored to the army with the rank of Lieutenant-Colonel.

The story of the disgrace of France in the wronging of this officer is one with which the whole world is familiar. The afternoon cables yesterday carried news of his final vindication, in the following dispatch from Paris:

"The Supreme Court has rendered a decision completely vindicating former Captain Dreyfus and holding that he is entitled to restoration to his rank in the French army."

FORBIDDEN PORTRAIT OF CAPT. DREYFUS.  
This portrait of Captain Dreyfus was made by the French authorities immediately after his degradation by the military authorities. Its circulation is forbidden in France.

## WANT LAND IN HAWAII

### Mainland Home-Seek- ers Are Beginning to Look This Way.

People on the mainland who want homes are beginning to look toward Hawaii. This has been demonstrated by the fact that a batch of letters was received by Secretary Atkinson in the last mail making inquiry as to whether there were lands for settlement under the Kohala ditch, the letters having been drawn by the reading in mainland newspapers of cabled accounts of the ditch opening.

These letters, which ask for various information, all want to know about lands, price and quality and productive-ness and method of acquisition, and so have all been referred to Land Commissioner Pratt, who has prepared separate answers to them. As showing the manner of the inquiries being made, a couple of sample letters are presented herewith. The first of these, dated at College Place, Washington, U. S. A., is as follows:

Secretary Atkinson, Honolulu, Hawaiian Islands.

Dear Sir: Will you give me information concerning the land which the Kohala ditch will irrigate. Will it be open for homesteads, the same as in the States, and how much can one man take? What about transportation? Will the rates be such that home-seekers with families could afford to go? What kind of soil? Is it volcanic ash? What is the climate? What will the land be worth per acre? What would be the cost of lumber? What can be produced? What wage is paid farm laborers? What season of the year would be best to go there, fall or spring? Would it pay to take household goods from here?

#### TYPICAL HOME SEEKER.

This letter, the name of the writer of which is withheld by request, is the typical letter of a home-seeker wanting land, of whom there are thousands on the mainland of the United States. He is of the class that go into a new country, taking all chances, and from which eventually a real American population is built up—the class that works its own farms and lives upon the land.

A second letter, from a man who

(Continued on Page 2.)

## WORK FOR GOOD ROADS

### Promotion Committee Takes Up Several Im- portant Matters.

"I will be one of a hundred men to give a thousand dollars each to make good roads throughout Oahu," said Chairman J. A. McCandless at the meeting of the Promotion Committee yesterday afternoon.

This announcement followed a suggestion from E. I. Spalding that the automobilists should advance the impoverished county funds to go on with their road work, which has now practically come to a stop.

There were present at the meeting Chairman McCandless, F. C. Smith, E. I. Spalding, F. Waldron and Secretary Wood.

The question of the roads throughout the island was brought up by Mr. McCandless. One of the County Supervisors had told him that it would be five years before the road around the island would be finished. At present some of our roads are disgraceful.

Mr. Spalding said that owing to the shortage of funds the road work would have to be confined to necessary repairs. The supervisors had started off lavishly and now had to come up with a turn. He thought that the county should finance the necessary road work in some way, by the floating of bonds or other arrangement.

The Secretary was instructed to address a letter to the Central Improvement Committee asking them to take the matter up and urge the finishing of the roads, especial attention being called to the uncompleted sections of the road between Honolulu and Wai-alea.

Regarding Mr. McCandless' offer to lead off the hundred who had a thousand each to give, Mr. Waldron offered to go out and get the other ninety-nine if the Committee would wait.

#### EIGHTY EDITORS ARE COMING.

Secretary Wood made the pleasing announcement in his regular report that the plans of the excursion of the Southern California Editorial Association are progressing most satisfactorily.

On June 28th between forty and fifty had booked for the trip. It is fully expected that there will be between sixty

(Continued on Page 3.)

## RUSSIA FEARS AN UPRISING AGAINST JEWS

(Associated Press Cablegrams.)

### Streets of St. Petersburg are Patrolled by Troops, and Serious Disorders Are Reported From Provinces.

ST. PETERSBURG, July 13.—In anticipation of an anti-Jewish outbreak, the streets of this city are guarded by troops.

#### DISORDERS IN THE PROVINCES.

Increasing disorders, and many collisions with troops are reported from the provinces.

#### JEWS FLEE FROM WARSAW.

WARSAW, July 12.—Forty thousand Jews have fled from this city for New York within the last few days, out of fear of the threatened revolutionary outbreak.

#### ADMIRAL CHOIKNIN DEAD.

SEBASTOPOL, July 13.—Admiral Choiknin, who was shot by a sailor here on Wednesday, is dead.

#### RUSSIAN CABINET WANTS TO QUIT.

ST. PETERSBURG, July 12.—The cabinet has tendered its resignation to the Emperor who has as yet taken no action in the matter.

## YOUNG MITCHELL IS SHOT BY HIS OWN SISTER

(Associated Press Cablegrams.)

SEATTLE, July 13.—Young Mitchell, who was acquitted here on Tuesday on a charge of murdering Creffield, chief of the Holy Rollers, was shot and killed by his sister Esther last night.

The plea advanced for Mitchell on his trial was fear that Creffield would cause the ruin of his sister. The following dispatch from the last Coast files received here tells the story, briefly:

SEATTLE, July 2.—That the belief that his sister, Esther Mitchell, would be ruined by Creffield, leader of the "Holy Rollers," drove George Mitchell insane and caused him while in that condition to kill Creffield is the defense that the young Oregon farmer boy on trial for his life will offer, according to the opening statement made by Silas M. Shipley, one of the defendant's attorneys.

For two and a quarter hours the attorney outlined the evidence that the defense will offer. The fanatical acts of Creffield in his so-called religious camp were detailed at length. Nothing was omitted. Everything that could sway the emotions of the jurors in Mitchell's favor was brought out in the opening statement, as the defense fears that it will be precluded by the court from introducing much of it as evidence.

Esther Mitchell will be called to testify. It is expected that she will prove an unwilling witness for the defense, as she still mourns Creffield's death and declares her brother should be punished.

#### SIX CHILDREN DROWN.

CEDAR RAPIDS, Iowa, July 13.—Eight children were playing on the bank of the Cedar river here, and one fell in and sank. In attempting to rescue their playmate, six of the children were drowned.

#### WRIGHT RECEIVED BY EMPEROR.

TOKIO, July 13.—Luke Wright, American Ambassador, has been received by the Emperor.

#### KILLED IN A CLOUDBURST.

EL PASO, Texas, July 13.—Seven persons were killed by a cloudburst in Chihauhau.

## CLERK SIMS DENIES ANY IMPUTATION OF SHORTAGE

"The publication in last night's Star is the result of a difference between the management of that paper and myself as to whether a bill for \$31.50 is due to that paper from an estate in which I was commissioner or not," said Wm. R. Sims, clerk in Judge Lindsay's Department of the Circuit Court, last night. "The paper sent me the bill, and a letter giving me until July 10th to settle it, both of which I found in the mail box at the court room on the afternoon of that day, after I had been stopped on the street and shown a carbon copy of the letter. This was the first intimation that I had had that the bill was still claimed to be due. I did not receive the bill, nor the letter because I had been on a vacation, as all the court employes in that depart-

ment are, and had not been near the court room since the Fourth of July. I have not been out of town. I have been sick. And, because I have been sick, I have been unable to consult the records and see whether the bill in dispute has been paid. I am morally certain that it has been.

"There is no shortage in any estate in my court and has never been. I have lived in this community twenty-seven years, and have children growing up here, and I do not propose to rest under any imputations of wrong doing. I am ready to pay all lawful claims against me."

From perfectly credible sources, it was learned yesterday that Judge Lindsay had granted Clerk Sims a vacation before leaving for the mainland.

## Preserve and Beautify Your Houses

### by staining them with Cabot's Creosote Shingle Stains

The Creosote will make the woodwork impervious to decay or to injury by insects, and the soft, velvety colorings will give a beauty that can be got in no other way. They are made with the best pigments and pure linseed oil, and the colors are guaranteed to be fast. They are the original shingle stains, and the only bona fide Creosote, wood-preserving stains.

For samples on wood, prices and full information, apply to

## MUSH PILE EXPOSED

### Expert Hopes to Finish Dam Inspection Tomorrow.

Expert H. C. Kellogg paid a short visit to the Nuuanu dam yesterday morning but found that there was nothing ready for him to go ahead with his work. This had been expected, however, as he had given instructions the day before for the shifting of the pump on the core trench, which had turned out to be a bigger job than expected and gave the water a chance to fill up in the trench higher than it was when the pumping first commenced.

"They promise to use every effort to have this all out for me by Saturday," said Mr. Kellogg last night. "And as I asked that a night shift be put on the pit work over the mush pile that will be far enough down to allow an examination."

"I want that pit sunk to the bottom of the core wall if possible, but if it runs in on them so fast that headway cannot be made I will have to test the bottom in another way. This place and the foundation of the concrete core wall are what I have left now to examine, everything else has been opened. I hope to do it on Saturday and probably will unless the rain prevents the work going on."

It was reported last night by Patterson that the mush pile pit had struck the soft ground. There had been a difference of opinion between Patterson and Howland as to how soon this would be found, and the actual work has borne out the contentions of the ex-inspector. Patterson has also expressed the opinion that it will be impossible to sink the pit to the bottom of the core wall owing to the flowing ground and the water, an opinion in which Mr. Kellogg seemed to concur last night.

#### EXAMINED HIS OWN DAM.

The expert took advantage of the delay at Nuuanu to visit the Wahiawa dam yesterday and returned well pleased with what he saw.

The water is steadily piling up behind the big rock fill, there being yesterday a depth of 29 feet two inches above the bottom of the outlet pipe, this depth backing the water beyond the bridge which spans the gulch at Wahiawa.

## REPRESENTATION AT MOHONK CONFERENCE

Honolulu, T. H., July 12, 1906.

Editor Advertiser: In this morning's Advertiser I noticed that you printed in full the informal letter I wrote to Mr. Jas. Gordon Spencer, secretary of the Honolulu Chamber of Commerce, in which I only in a general way spoke about the last Lake Mohonk Conference and referred particularly to the printed reports I had secured from the various New York newspapers in which the most important speeches were printed in full.

From your little editorial I understand that you take a particular interest in the importance of these meetings and I thought, therefore, it might interest you to read the enclosed platform adopted at this conference and which I have just received from the secretary. I also believe that it would interest a great many of your readers if you were to reprint extracts, or in full, some of the most important speeches, for instance the one made by Cardinal Gibbons (enclosed), and I refer you therefore, to the newspaper clippings now in the hands of Mr. Spencer.

You are perfectly right in stating that this is a most excellent opportunity for us to bring yearly before a large number of the most prominent citizens of the United States our particular wants created by our unique geographical and political position, particularly in case of war between other nations.

Yours faithfully,

C. HEDEMAN.

[By oversight the platform was not enclosed with the letter.—ED Adv.]

#### CIVIL SERVICE EXAM.

A competitive examination under the rules of the U. S. Civil Service Commission, for all third grade positions in the customs service, Honolulu, will be held on August 11th, 1906, commencing at 9 o'clock a. m.

Applications for this examination must be made on the prescribed form, which, with necessary instructions, may be obtained from the Commission's local representatives, Messrs. Wm. C. McCoy, postoffice, Prof. W. D. Alexander, Coast and Geodetic Survey, and R. C. Stackable, custom house, or from the undersigned.

Applications will not be accepted unless received by the undersigned before 4:30 o'clock p. m., on August 11th, 1906. All persons wishing to take this examination should secure blanks and fill them out at once in order to allow time for any necessary corrections.

JNO. W. SHORT

Secretary, Hawaii Civil Service District.

## WANT LAND IN HAWAII

(Continued from Page 1.)

knows a little more about conditions here, still shows that the writer is willing to take a chance to get a home.

This letter is addressed directly to the Commissioner of Lands, the writer being resident of Chicago, and it follows:

"Sir: I have a desire to immigrate to Honolulu this fall. Can you give me an idea as to the opportunities for me to secure land there, say ten acres or fifteen acres or five acres or twenty acres, near Honolulu or elsewhere, suitable for coconut or fruit raising? Are coconuts grown for market in your country? Are they profitable? I know they require ten years to bear. If you have tracts open under right of purchase leases, what are the costs, etc.? I would be glad to receive any information as to how I could acquire land there, and the price."

#### SUGGESTION FOR PROMOTION.

This letter does not refer directly to the Kohala ditch, but all the others do, and they come from places as widely separated as Chicago, North Dakota and the state of Washington. There are three from different places in Washington. In answering them, Land Commissioner Pratt has given detailed information upon all the heads asked for, and has enclosed with each answer a copy of Jared Smith's pamphlet, "Hawaii: Its Agricultural Possibilities," prepared and circulated by the Promotion Committee.

As a matter of fact, there would seem to be a suggestion in this that could be most profitably followed up by the committee. Those who are familiar with conditions on the mainland know that there is in the breasts of many Americans, having pioneer blood, a great and abiding land hunger, and a great desire to try new scenes. That land hunger and the pioneer blood have made the Western States of America.

#### PLENTY OF LANDS.

Those of us who are familiar with conditions here know that there is available lands in the Islands for the production of marketable things not grown on the mainland, and those of us who face the real condition know, too, that white men can work in the fields here as comfortably as anywhere in the world. It is only necessary to give them the fields, and stop trying to put them down to the Asiatic coolie level. These white men will make the Islands really American.

A little promotion work among home-seekers would do very much to carry out President Roosevelt's idea as to the future of Hawaii. How little would be needed is shown by the letters drawn as a result merely of reading the cabled stories of the opening of the Kohala ditch. The home-seekers are beginning to look this way of their own accord. They will not need much urging.

#### LANDS OF KOHALA.

As to Kohala, there are about 3300 acres of government land there in the ditch region. Of this about 800 acres cannot be served with water, either because it is above the ditch or because it is not arable in character. Of the remaining 2500 acres, all of which is arable and under the ditch, two thousand acres is held on leases which expire in 1907 or 1908, and the balance is on a lease under the terms of which it will revert to the government in 1913.

There would seem to be a good chance, therefore, for American farmers to get homes under the Kohala ditch within the next few years. The lands, of course, are cane lands, leased to the plantations, and the government would doubtless require that they be kept in the same high state of productiveness as now, to the end that revenue from them should continue to fall in; but otherwise there would be no objection to turning them over to American farmers who would work them, make their homes on them, and raise up families of Americans to the future prosperity of this Territory. The Kohala country is as rich and productive as any in the Islands, and circumstances might be created which would make that region most attractive to the best class of home-seekers.

#### SELF CURE NO FICTION!

MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR, but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily, and economically cure himself without the knowledge of a second party. By the introduction of the New French Remedy, THERAPION, a complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1 in a remarkably short time, often a few days only, effects a cure, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

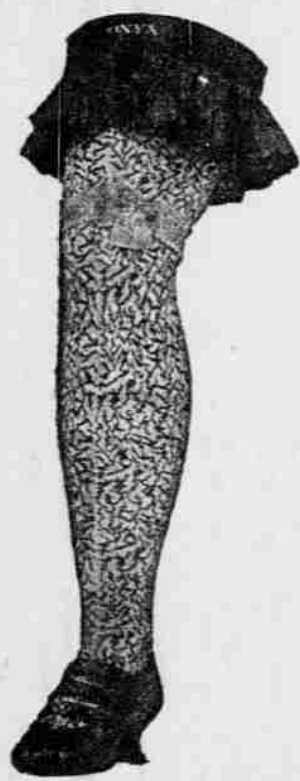

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, gout, rheumatism, secondary symptoms, etc. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3, for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of dissipation, worry, overwork, etc. It possesses surprising power in restoring strength and vigour to the debilitated.

#### THERAPION

chasers should see that the word "Therapion" appears on British Government Stamp (in gold) by the principal Chemists throughout the world. Price in England, 2/6 and 4/6. Put white letters on a red ground affixed to every box by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

**SUGAR OUR  
ONE SUPPORT**

**Pinkham Pleads for the  
Planters Before  
Engineers.**

The problems affecting the agricultural lands of Hawaii in comparison with the standards of America were dealt with last night in a lengthy paper read before the Hawaiian Engineering Association by L. E. Pinkham.

Mr. Pinkham devoted the first part of his address to tracing the rise of the American farmer from "the man with the hoe" to "the man with machinery," the result of applied science, agricultural economics and transportation. The American farmer is rich and independent beyond any division of men of physical activity in the world.

The fixed land laws of the government and the land policies of the railroads were praised. The immigrant knew exactly what he was to get and where he could get it, not having to wait for a land policy to be adopted, surveys to be made, or halting officials to make up their minds.

The American policy only restricts the acquiring of land by foreign non-residents. The American farmer stands on his rights to do as he chooses with, or to dispose of, as he will, his lands. He stands or falls on his own ability, and not on Government regulation or dictation. To change from this American land policy to a paternal land policy is not American. If a man is fit for American citizenship he is fit to exercise independence in his private affairs. When a government chooses to part ownership of any of its lands it should let go the apron strings and let her citizens become independent men and not wards. We, in Hawaii, must come to this or there can be no development on American lines.

#### AGRICULTURE IN HAWAII.

No place in the world has agricultural operations that can approach either in daring, cost of plant, or result, those of Hawaii. Eighty per cent of the arable land requires irrigation, and in 1905 the value of the sugar production was 98 per cent of the total value of our products, showing that the support for the population and the government rests on the sugar industry.

Of the total of 568,000 arable acres 199,460 were planted in cane, requiring the operation of 716 miles of railroad representing an investment of \$94,389,617.29. All this that \$5,443 acres might be cropped in 1905.

In the installation of irrigation systems and their operation there is invested \$70,603,893.49.

From this can anyone claim that the agriculture of Hawaii is not the most costly in installation and intensive in operation of any existing or historically recorded?

In 1898 many sugar plantation schemes were floated and speculation in the stocks was rushed into, resulting in disastrous effects, now running through the life of the Territory, the end of which has not yet been reached.

Of the fifty-three plantations, twenty-three have been very profitable, seven have been so at times, seven have never paid a dividend and fourteen have had occasional prosperity. This will dispose of the idea that sugar is always enormously profitable and will stand an indefinite amount of political and economic experimenting and exploiting.

It is the fairy tales spread everywhere, particularly in Washington, that have created belief as to the Hawaiian sugar industry to the everlasting

#### THE EASY OIL.

Scott's Emulsion is "the easy oil"—easy to take, easy in action. Its use insures deliverance from the griping and nauseating sensation peculiar to the raw oil. Nobody who has any regard for their stomach thinks of taking cod liver oil in the old way when Scott's Emulsion is to be had. It is equally certain that no one having a regard for their health will accept a cheap emulsion or alcoholic substitute for Scott's Emulsion. It fulfills every mission of cod liver oil and more.

SCOTT & BOWNE, 409 Pearl Street, New York.

ing embarrassment of this Territory. The Territorial government does not as extensively as imagined control the land situation as regards plantations. On Kauai, Oahu and Maui the proportion government controlled is small, and cannot be the determining factor in establishing the agricultural population.

As leases expire, the plantations, having brought these lands to high cultivation and their investments still being necessary to preserve its productive-ness, have an equity that cannot justly be ignored nor unduly taken advantage of. Neither can the plantations be subject to ignorance, indifference nor erratic agricultural projects, nor to schemes to acquire title to lands by those who do not intend to personally cultivate them but aim to make the plantations finance them and practically work the land and pay tribute to proprietors whose responsibility is only nominal.

The relief for the sugar planters lies in the adaptation of machinery in their work, relieving them of their labor problems and raising the status of their laborers.

#### CONCLUSIONS.

Justice is due the sugar planters of Hawaii.

They are not land monopolists; they are the most daring land reclaimers the world has ever known.

They have made the desert support a commonwealth.

They have made agriculture a business of the highest organization.

They have wrung nearly every possible drop of water from the caverns of the earth.

They have caught nearly every drop of water that flows within the reach of man on these islands.

Still the demand is for more water. The investment per acre cropped is unparalleled by any other agriculture in the world.

They have absolutely created ninety-nine per cent in value of all the products of the Territory.

Their lands can grow no other crops commercially.

Ruin them and you ruin Hawaii, so far as human foresight can predict.

He who claims otherwise is an astrologer and sees stars.

They based their agriculture on contract labor, which, whatever its faults, bettered the condition of the laborer.

Labor possibly did not always receive its just dues. Evidently labor intends to settle that point in the future.

The labor situation might have been bettered in Hawaii, but hindsight has excelled foresight for a decade and a half at least.

They have supported an educational system that has deprived them of needed labor.

They have been between the devil and deep sea of their pocketbooks and their missionary consciences.

The latter have won often enough to give them great credit.

Ownership in plantations is not so exclusive all stockholders may be termed sugar barons.

What all the dear general public, and its widespread distress in Hawaii, is what ails it the world over, it buys high and is sold out low.

It gets into a game where the cards are stacked and the pot already spoken for.

The plantations are distressed for labor and are forced to two choices.

First. To seek peasant labor, Occidental or Oriental, the world over at enormous expense.

Second. To endeavor to make a place for more effective, intelligent, adequately paid and domiciled self-respecting labor by trying to substitute "The Man with Machinery" for "The Man with the Hoe."

Far from this paper to assert the machinery can be devised, but to urge the attempt. Many more difficult mechanical problems have been solved.

If the plantations should conclude to make the effort, it is to be hoped "The Hawaiian Engineering Association" may be a chief factor in creating the various machinery needed and that the educated young men of Hawaii may operate it.

May we hope invention, fostered by the Hawaiian plantations, may yet dignify labor and the educators of Hawaii may teach the dignity and worth of physical labor.

#### WORK FOR GOOD ROADS

(Continued from Page 1.)

and eighty in the party. Edgar Johnson, secretary of the association, writes that their tickets will be good for four months and that some of the members may stay even longer.

Mr. Johnson also sent a copy of a letter forwarded to the Southern California girls, who have been asked by him to furnish a brief account of their trip to Hawaii, extracts from which he will include in a circular letter that he is preparing for distribution among the members of the association.

A prominent newspaper man of Los Angeles, writes in part as follows:

"I can assure you I think of a fine delegation from Southern California of men who do not as a rule attend these ordinary trips and I feel sure that if you desire it later, you can secure the National Editorial Convention."

"I am busy building a house, but will drop it for the trip to Honolulu if I don't get through."

#### CHANCES TO SPEND MONEY.

A proposition from the New York World, offering five pages of their 1907 World's Almanac for a write-up of Hawaii at \$100 a page was read and tabled, the funds of the Committee not warranting any discussion of the matter.

A similar fate came to a proposition from the Los Angeles agent, who asked as to a change in the location of the branch office with an increase in the monthly rent to \$200.

It was decided to subscribe for 50 copies of the Paradise of the Pacific for distribution as promotion literature, and the payment of current expense bills amounting to \$368, was ordered.

Leave of absence was granted Secretary Wood, who expressed a desire to visit Hawaii for a short stay.

#### THE SECRETARY'S REPORT.

The regular report of the secretary was as follows:

I am pleased to report that the papers and magazines to which we sent copies of Mr. Charles Mulford Robinson's report on the beautifying of Honolulu, are giving extensive reviews of the same. Some of the papers such as the "World Today," published in Chicago, are making prominent editorial mention.

Our plan of sending out letters to the editors of every daily paper in every city, on the itinerary of the Royal Hawaiian Band has resulted in a number of intelligent and interesting write-ups.

The Managing Editor of the Standard Publishing Company of Ogden, Utah, writes under date of June 28th.

"I have just received your announcement that the Royal Hawaiian Band would play in this city June 30th, and July 1st, and will aid in giving them a royal reception."

"I have been contemplating a trip with my family to Alaska, but after looking over your advertising matter, I am now inclined to run down to Hawaii."

The Passenger Traffic Department of the Southern Pacific Company, writes under date of June 28th, acknowledging receipt of certain photographs forwarded to them and saying that they will make good use of the photographs in their advertising matter.

Mr. W. O. Aiken of Makawao, Maui, writes under date of July 5th that every preparation has been made for the reception and entertainment of Mr. Bonine upon his visit to that island.

Communications from bankers to whom we sent the Lyster letter, continue coming in expressing interest in the islands and asking for additional information, stating in several instances that an early trip to Hawaii is contemplated. One man writes that our letter has resulted in his endeavoring to make up a party and expressing the desire that we should send him additional matter to use in endeavoring to persuade his friends to join with him in making up a party.

On or about June 1st last Postmaster Pratt furnished me with a list of those who were members of the Shriners Pilgrimage to Honolulu of 1901. To each of these parties we sent out a polite note asking if it were not time to again visit the islands and urging them to help us by again speaking of their trip to such of their friends as might not have enjoyed such an outing. Replies are coming in to these letters showing a very friendly spirit and I have no doubt that this effort on our part will result in a certain amount of travel toward Honolulu.

We are in receipt of a letter from Mrs. Lizzie K. Puahi, president of the Pa-u Riders' Club, expressing her thanks to the Committee for the assistance rendered in making their parade of June 11th such a success.

Mr. Tom McKay of Hongkong, writes under date of June 14th that our box of pamphlets had been received and that he will put them out wherever they will do the most good. Mr. McKay also asks for a Honolulu paper and we have placed him on the list for the Weekly Bulletin; copies of which we have arranged to be sent regularly to the leading hotels of New Zealand, Australia, China, Japan and other parts of the Orient as well as the great Resort Hotels of the western part of the United States. Regarding stop-over privileges at Honolulu, Mr. McKay says that he will take this matter up and probe it for us.

At the suggestion of our chairman, Mr. J. A. McCandless, I wrote to Governor Carter in the name of the Committee, expressing the hope that he might deem it desirable to extend an invitation to President Roosevelt to visit Hawaii upon his return to the United States from Panama. It was pleasing to note by yesterday's paper that Governor Carter had sent such an invitation to the President which we hope may induce the Chief Executive to come to Hawaii if it can possibly be arranged.

We now have on our counter eighteen (18) directories including nearly all of the leading cities of the Pacific coast. This number will be added to right along. We are also in receipt of some twenty-four (24) telephone directories covering the Northwest. These will also be added to by every mail. It is pleasing to note that our efforts along these lines are appreciated. Scarcely a day goes by without different people coming in to look up addresses, etc.

A letter from Mr. Bonine reports that the cattle loading scenes at Kawaihae were very fine, as also were those views taken at Laupahoehoe of the Kinau landing freight. He also reports several fine surf scenes, as well as a run through a cane-field on the Waiakea plantation, cutting cane, loading sleds with cane, hauling to steam-loader, loading machine in operation, train hauling cars to mill, canoes racing up Waiakea river, Japanese wrestling, etc. By this time Mr. Bonine is on Maui and we may expect him back in Honolulu either the end of this week or the first of next.

I am pleased to state that we were able to make a very satisfactory report to the Chamber of Commerce and the Merchants' Association for the quarter ending June 30th.

Mr. Wm. Wehrlich of the Hawaii Fiber Company, promises the brightening of his exhibit within a few days making the window even more attractive than it has been.

Our new postal folder which we propose using in working up interest in next year's Floral parade, will be out the first of next week. We already have addresses to which we will send large numbers of this folder.

Within the last month we have sent letters to the commercial bodies of Los Angeles, Portland and Seattle suggesting that they endeavor to arrange for a Business Man's Excursion to Hawaii. The time would seem to be opportune for such a movement and it would not surprise me if the effort went out.

I have been asked to bring to your attention the necessity for a continuation of the general road work about the island. The probabilities are that we will have a great many more visitors next winter with automobiles than ever before and no effort should be spared that may tend to result in the completion of a thoroughly good road around the island of Oahu.

## COMMERCIAL ADVERTISER

WALTER G. SMITH : : : : : EDITOR.

FRIDAY - - - - - JULY 13

## A PLAIN CIVIC DUTY.

The time has come around once more when the average citizen has to be urged to perform his plain civic duty and when, alas, he too often neglects to do it. After which neglect he spends much valuable time in bewailing the character of the ticket which the professional machine politicians have presented for his suffrage.

As a matter of fact, the machine politician does politics all the time, and achieves results to his liking; while the respectable citizen, too much absorbed in his business or too closely wrapped in the mantle of his own respectability to mingle with the mass of voters, takes no part in the politics of his precinct—and, too often, takes no part in the primaries either. He could achieve results, for the civic good, if he would but give the time to their achievement that his duty as a citizen demands. The result of the activity of the nefarious element and of the apathy of respectable taxpayers is, that the machine prospers and grows fat, rewarding its friends and punishing its enemies, and the public business is permitted to become a private snap in the hands of men who are often incompetent and more often corrupt. The machine politicians trade upon the apathy of the better class.

There is weight enough in the respectable elements in Honolulu to control the politics of this island, if that weight is put forth. There is a sufficient weight of respectability in the islands to control the politics of all the Islands, if that weight is brought to bear. And a very good time to bring it to bear so far as Oahu is concerned, is this very day, in the precinct club elections. That is beginning at the very bottom of things. It is true that it is not of vital moment to name the heads of the precinct clubs, but if the decent men control the clubs, as in the main they can, they will next week name the delegates to be voted for at the primaries, and these delegates, being sent by decent men, could nominate a ticket such as no decent voter need hesitate to vote for.

The way to do politics, gentlemen, is to do politics.

## THE THIRD TERM.

General Grant, with all his vast popularity, was denied a renomination in 1876 and again in 1880, because of the valid party and national objection to a third term for any president.

The political literature of those times is full of sound reasoning against any departure from the custom, approved and advised by George Washington, of limiting the presidential incumbency of any one man to two terms of four years each.

Should President Roosevelt be re-elected in 1908 and live until March 4, 1913, he would have been in the White House for eleven years, thus establishing a precedent which the founders of the republic deemed dangerous to constitutional liberty.

True, despite the way in which President Roosevelt sometimes rides roughshod over the co-ordinate rights of Congress, there is no imperialistic peril to be predicated of the man himself. But that is not the point. The danger lies, as we say, in the precedent. Who knows but that a time would come when some successful soldier or some Machiavellian genius who had taken a brief from the trusts, would find in such a precedent an easy road to a life presidency like that of Diaz in Mexico? Great business interests even now complain of the disturbance caused by quadrennial elections; those interests represented by the holders of vast fortunes would be glad to see a man like Aldrich in the presidency for the next twenty-five years. The American people should guard, with jealous vigilance, against any such inroads upon the political system which has not only guaranteed their liberties but has been the school of statesmen, stimulating the young to high ambition and lifting, from the ranks of the lowly to the chief magistracy of the nation, a succession of great administrators. If the American spirit is to be kept alive in the White House a fresh recruitment from the people must be made, every few years, for the presidency. This spirit cannot be maintained if the country ever settles down under the indefinite magistracy of any one man. That way the empire lies.

## THE SIX-BIT COMPANIES.

We are inclined to think that the "six bit" insurance companies are not so far wrong, in their methods of doing business, as the coast papers would have us believe.

Look at the matter of a 25 per cent. discount on San Francisco risks from the point of view of the man in Honolulu whose property is insured for a term of years in one of these companies. He does not want to have his own protection weakened. It is far from his wish to see the reserve of his insurers vanish, leaving him practically without the safeguards he has paid for. If his company is justly bound to pay in full he cannot, of course, legitimately complain; but he has the right to demand that his insurers should not, for sentimental or advertising reasons, or under duress of San Francisco sentiment, assume risks at his expense which were not nominated in the bond.

These "75 per cent." companies, so-called, did not insure against earthquakes nor against the destruction of property by public order. Theirs was plain fire insurance. If an earthquake shook down a house upon a lighted kitchen stove or grate or a lighted lamp, that was something not covered by the risk. If soldiers touched off dynamite in a house, that absolved the insurer from making good the loss. No doubt it would be comforting to the San Francisco sufferer to have his insurance company waive all these things out of sympathy and beggar itself to help him, but how about the insured man in Honolulu? Is he the San Francisco man's keeper? Is insurance an eleemosynary proposition with the Honolulu policy-holder left out?

Conservative insurance means the strict letter of the law. Philanthropy is another matter.

## EVADING THE LAW.

There have lately been complaints that a number of saloons in the lower part of town treat the closing feature of the liquor law as rather a farce. That is to say, the doors of these places are closed at 11:30 at night, but the men who are in them are permitted to stay in after that hour and liquors are sold to them as long as they will continue to buy. The law does not say that saloons shall be closed at half past eleven, but it does say that the sale of liquor over bars shall cease at that hour.

This is not a matter that comes properly within the purview of the Territorial Treasurer, until after the licensee has been arrested and convicted of selling liquor out of hours. Then, after conviction, the license is at once revoked.

The work of getting the evidence, procuring the arrest and securing the conviction rests, of course, with the police—but in the absence of any enthusiastic desire, in campaign times, to move against the saloons, it is likely that it will devolve upon the citizens themselves interested in the enforcement of the law. Indeed, it is said that the Anti-Saloon League is going to take up this feature of the fight.

It should not be difficult to get evidence, because the offending has become notorious. There are any number of places where the closing provision of the liquor law is violated nightly, and any citizen who cared about it could see the violations.

The vindication of Dreyfus in the eyes of the world took place long ago; the formal acceptance of the world's verdict was given by the Supreme Court of France yesterday. Captain Dreyfus is now eligible to his old rank, though not, it appears, to the seniority promotion he would have probably had but for the false charge that sent him to the martyrdom of Devil's Island. Very likely he will not return to the army, which would be a hornet's nest for him. But his name has been officially cleared and he is vastly better off than his chief accuser, Major Esterhazy.

Is there any reason which can be justified on any ground of public interest or welfare why the resolution putting the responsibility for county engineering into the hands of the county engineer, should have been defeated in the Board of Supervisors? Furthermore is there any explanation of the adverse vote which does not have its roots in cheap politics and patronage? Chairman Smith's proposition was entirely sound and could not be argued away; it was simply voted away for the sake of the spoils.

What! Reduce the police force with a campaign opening. Never! What are the police for?

## FIRST HALF AVERAGES

## A BUSY DAY

(Continued from Page 1.)

of course. It has even been said that, if the Republicans did not nominate Kuhio, he would run anyhow and that he would receive the vote of his own people, solid.

The Delegate, can of course answer for himself as to all these things much better than anybody can answer for him. As to Mr. Robertson and his possible candidacy for the legislature, even the newspaper that prints the story of his running says that the gentleman himself is saying nothing.

The gentleman never does say anything. He is the Hawaiian Sphinx. And he always bursts into one of his most massive silences when matters political are discussed, particularly if he himself be one of the matters. All the same, there be those who affect to think that he will have a few pleasant words to say when he greets the delegate. Mr. Robertson has a winning way with him, when he really strives to please.

One of the significant things connected with the present political activity is the apparent lack of interest in such matters that characterizes the Capitol building. Nobody connected with the administration, so far as anybody has been able to find out, is doing a thing. The Governor is governing right along, and letting the politicians, county and others, settle their own squabbles among themselves. Nobody is even accusing the Governor of anything, which in Hawaii may be looked upon as almost a portent.

## A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among these—by no means least important—discoveries in medicine comes that of THERAPION.

This preparation is unquestionably one of the most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, Maisonneuve, the well-known Chassaigne, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand, and Roux, by whom it was some time since uniformly adopted, and that it is worthy the attention of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of those diseases has (like the famed philosopher's stone) been the object of search of some hopeful, generous mind; and far beyond the mere power—if such could ever have been discovered—of transmuting the base metals into gold is surely the discovery of a remedy so potent as to replenish the falling energies in the one case, and in the other so effectively, speedily and safely to expel from the system the poisons of acquired or inherited disease in all their protean forms as to leave no taint or trace behind. Such is the New French Remedy THERAPION, which may certainly rank with, if not take precedence of, many of the discoveries of our day, about which no little ostentation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine wherever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men.—Diamond Fields Advertiser, Kimberley.

**WANT WINE IN WAIMEA****Liquor Men to Arbitrate Campbell's Refusal of License.**

The Waimea Wine and Liquor Co., of Kauai, has appealed from the decision of Territorial Treasurer Campbell refusing to grant it a license to sell liquor, and has named as its arbitrator attorney J. W. Cathcart. This notice of an appeal to arbitration under the new law was served upon the Treasurer late yesterday afternoon, and he has not yet named the man who shall act as arbitrator in behalf of the Territory.

There seems to be a pretty considerable storm brewing in this matter of the liquor license for the town of Waimea. Some time ago applications were made for third and fourth class license in behalf of the Waimea Wine and Liquor Co., S. Ozaki and K. Odo, all of Waimea. Against the granting of any of these applications, protests were filed signed by a majority of the voters in the vicinity, as required by law, and upon the presentation of these protests the Treasurer refused to issue the licenses.

It is against this decision that the appeal is made to the Board of Arbitration in behalf of the Waimea Co. In the meantime, a bunch of affidavits and counter affidavits have been received at the office of Treasurer Campbell which disclose, among several things, that somebody in the Waimea country has been treating the truth in a most disrespectful way. First comes a bunch of affidavits from fourteen of the persons who signed the protests claiming that they had been tricked into giving their signatures, being made to appear as protestants against the granting of the license to the Waimea Wine and Liquor Company, when as a matter of fact they were not opposed to that concern at all. They aver that they supposed that they were protesting against the granting of license to Odo and Ozaki, respectively. All the affidavits of this kind are sworn to before Notary Crowell.

On the other hand, a bunch of affidavits from the persons who circulated the protest, made before Notary Omssted, aver that there was no deceit practiced and that the protestants knew perfectly well what they were doing when they signed the protest.

Now the matter goes to a Board of Arbitration, and will be fought out under the law.

**THE EDITORIAL EXCURSION.**

From information gleaned from the Commercial Advertiser of Honolulu—of which paper our old-time friend, Walter Smith, is editor—we learn somewhat of the plans laid for the entertainment of the Southern California Editorial Association. And they are great.

**THE BRIGHT SIDE**

of life. It is a feeling common to the majority of us that we do not get quite the amount of happiness we are entitled to. Among the countless things which tend to make us more or less miserable ill health takes first place. Hannah More said that sin was generally to be attributed to biliousness. No doubt a crippled liver with the resulting impure blood, is the cause of more mental gloom than any other single thing. And who can reckon up the fearful aggregate of pain, loss and fear arising from the many diseases which are familiar to mankind; like a vast cloud it hangs over a multitude no one can number. You can see these people everywhere. For their life can scarcely be said to have any "bright side" at all. Hence the eagerness with which they search for relief and cure. Remedies like WAMPOLE'S PREPARATION have not attained their high position in the confidence of the people by bald assertions and boasting advertisements. They are obliged to win it by doing actually what is claimed for them. That this remedy deserves its reputation is conceded. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry. Nothing has such a record of success in Scrofula, Influenza, Throat and Lung Troubles, and emaciating complaints and disorders that tend to undermine the foundations of strength and vigor. Its use helps to show life's brighter side. Professor Reddy, of Canada, says: "I have much pleasure in stating that I have used it in cases of debility and found it to be a very valuable remedy as well as pleasing to take." You cannot be disappointed in it. Sold by chemists.

READ THE ADVERTISER  
WORLD'S NEWS DAILY

## THE NEWS OF THE WORLD FROM LAST COAST PAPERS

**Wellman Ready to Start for Pole—Rojestvensky's Plea—Ocean Race—Reid Baited Bryan—Thaw Case—Korean Emperor in Prison.**

CHICAGO, July 2.—A special cable dispatch from Tromsø, Norway, says Walter Wellman and party have landed the first section of the men and equipment at Spitzbergen. They were taken up on the steamer Fritzjof.

Major Hersey and seventeen men are erecting buildings, including shops, at Spitzbergen. The balloon material arrived yesterday at Tromsø from Paris. Wellman said: "I have no intention of delaying the expedition until next year. I will make a determined effort to reach the North Pole this summer if possible."

The full complement attached to the air ship is forty men, but only five will be on board when the huge craft takes its northward flight. These will be Mr. Wellman, Major Hersey, who represents the National Government and Geographic Society; Gaston Hervey, a celebrated French aeronaut; M. J. Smith, wireless telegraph expert, and Paul Colardeau, who will have charge of the motors. Three of these will always be on duty. One will be stationed in the navigating deck to work the rudder and to watch the instruments; another will be in the engine room and the third will be occupied in working the windlass that operates the drag anchor and guide rope. It is calculated that none of the crew will be able to get more than three or four hours' sleep a day.

#### ROJESTVENSKY'S PLEA.

CRONSTADT, July 4.—In a manly effort to save the surviving members of his staff and the other officers who, he believed, surrendered the gunboat Bedovi on account of their affection for their wounded commander, and their desire to save his life, Admiral Rojestvensky today pleaded guilty before a court-martial. In a short speech to the court the Admiral declared that he took all the blame on his shoulders, and asked that he alone be punished to the fullest extent of the law, virtually an appeal for condemnation to death, which is the penalty for hauling down the stars and cross to a hostile vessel.

All the other defendants, including Captain Decolouge, chief of Admiral Rojestvensky's staff, and Captain Baranoff, commandant of the Bedovi, pleaded not guilty.

The little courtroom in the marine headquarters at Cronstadt afforded a place for a small audience, most of whom are connected with the Navy. Among the spectators in the first row was the widow of Vice-Admiral Makaroff, who lost his life on board his flagship at Port Arthur in April, 1904, when the vessel was sunk by a Japanese mine.

Admiral Rojestvensky appeared to have quite recovered from the wounds he received in the battle of the Sea of Japan. After he had entered his plea the taking of testimony began. Members of the crew of the Bedovi were examined to determine who ordered the surrender, the condition of the vessel and the incidents of the capture. The taking of testimony will occupy several days.

KOREA'S EMPEROR IMPRISONED.

NEW YORK, July 4.—A cable to the Sun from Seoul says: The Japanese have virtually imprisoned the Emperor of Korea within the palace. They have established special guards, and henceforth no one will be allowed to enter or leave the palace without an official order.

The Japanese say the step was necessitated by the Emperor's constant intrigues and attempts to invoke foreign aid against Japanese suzerainty.

The Emperor has steadily refused from the outset to surrender his independence. Lately he has vainly asked to be allowed to take refuge in the American Legation.

#### AN OCEAN RACE.

NEW YORK, July 4.—The second eastward transatlantic race between the Hamburg-American line steamer Deutschland and the French line steamer La Provence ended this morning with a decisive victory in favor of the German boat.

The Deutschland was reported 140 miles southwest of Browhead at 7 o'clock yesterday afternoon, and was reported passing Eddystone lighthouse, at the entrance to Plymouth harbor, at 6:39 a. m. today. Her time of passage from New York to Plymouth is 5 days 14 hours and 9 minutes, an average speed of 23.01 miles per hour. The distance covered was 3093 miles.

La Provence was reported by wire-

less telegraph when the vessel was 150 miles south of Browhead at 5:10 o'clock this morning.

The Deutschland, for Plymouth, Cherbourg and Hamburg, cleared Sandy Hook bar at 11 a. m. Thursday, June 28th, and La Provence, for Havre, followed an hour and fourteen minutes later. Allowing for this difference in time, the Deutschland beats La Provence nearly eleven hours, against four hours claimed by the French steamer on the previous race.

#### GROVER'S FOURTH.

CLEVELAND, Ohio, July 4.—Grover Cleveland, former President of the United States, experienced exciting Fourth of July during his boyhood. Fireworks engaged his attention as much as they do the youth of today.

At least such is the conclusion one would draw from his brief description of his celebrations of Independence Day when he was a boy.

The editor of an afternoon paper wrote to him, asking him to tell about the most exciting Fourth he had ever had when he was a boy. His reply is characteristic. He replied: "They were all odd and exciting and interesting. I cannot very well discriminate."

#### NEW MEXICAN EARTHQUAKES.

ALBUQUERQUE (N. M.), July 4.—Beginning at 3:15 o'clock Monday morning, Socorro, seventy-five miles south of this city, experienced a succession of the severest earthquake shocks within the memory of the people of the city.

There were two or three premonitory quivers. Then came a loud subterranean rumbling, followed immediately by a rocking and swaying that awakened every inhabitant of the city and caused them to flee to the yards and streets for safety. Many of the native people fell upon their knees and prayed aloud for protection. Buildings swayed and creaked.

Walls were cracked, plastering was shaken from ceilings, while doors, windows, dishes and other movable things rattled as though shaken by unseen hands.

The disturbance continued severe at intervals of a few minutes for half an hour, then gradually died away, the last of no less than twenty distinct shocks being felt about eight hours later. No serious damage was done.

#### MRS. MIZNER ILL.

NEW YORK, July 4.—The Morning Telegraph says: Mrs. Charles T. Yerkes Mizner is believed to be dying in her home in Chicago, and her husband, Wilson Mizner, is hurrying to her as fast as a continental train can carry him from San Francisco. Mrs. Mizner's condition is the result of an operation for appendicitis, performed a few days ago. She has grown steadily worse since the operation, and the physicians were compelled to tell her that it would be well to telegraph for her husband to come at once to Chicago.

Mrs. Mizner has suffered frequently from slight attacks of appendicitis, and while these always have been treated successfully heretofore without recourse to an operation, Mrs. Mizner had been warned that eventually it would be necessary to resort to the knife. Her age told severely against her from the first. She is now well past 50, and the surgeons in charge of her case were aware that she would rally from the operation with difficulty.

#### BRYAN AND REID.

LONDON, July 4.—William J. Bryan was the central figure at the annual Independence day dinner of the American Society at the Hotel Cecil tonight. Nearly 500 members and guests surrounded the society board and cheered the patriotic sentiments with the peculiar zest born in exile. Ambassador Whitelaw Reid and Mr. Bryan engaged in some sharp but good-humored rivalry and banter over political differences, the crowd evincing its enjoyment of the sport with cheers and shouts of laughter. Mr. Reid, in responding to Sir W. B. Richmond's graceful proposal of his health, said with reference to Mr. Bryan: "At home, as a citizen, I have openly and squarely opposed him at every stage of his conspicuous career. I am reasonably sure that when I return home I shall continue to do the same. I believe he is tonight as well satisfied as I am, though by different reasoning, that the country we both love and try to serve has not been ruined by its gold abroad. As the official representative of the American, without distinction as to party, I am glad to welcome him here as a typical American, whose whole life has been lived in the daylight, and one whom such a great host of my countrymen have long trusted and honored."

Mr. Bryan, rising, amid laughter and cheers, said:

"The temptation to make a political speech is strong within me. I have not had a chance to do so for ten months. However, I will restrain my-

self. With reference to the Ambassador's remarks on gold, I wish to say that when I see the progress my country has made walking on one leg, I wonder what it would have done walking on two legs? It is pleasing to testify that the Ambassador not only has fought me, but that he has done it well. No American believes more than I that he is 3000 miles from his base. While abroad I have met many good Republicans—holding office—and I only wish there were enough offices abroad to take all the Republicans out of the country."

Chairman W. J. Jones proposed the health of King Edward, and Hayward Greenwood, president of the Canadian Society and member of Parliament for the city of York, proposed the health of President Roosevelt.

When they arose to drink to the toasts the crowd discovered Mrs. Longworth in the gallery and cheered and drank her health.

Following the passage between Ambassador Reid and Mr. Bryan, the latter read his formal speech, the subject being "The White Man's Burden."

The reading of the speech proved a disappointment to the crowd, which wanted oratory unhampered by manuscript.

John L. Griffiths, the American Consul-General at Liverpool, answered for the guests and won rounds of applause when he compared the financial and meat packing scandals of the United States to spots on the sun, and paid his respects to those persons who could see the spots but not the sun.

The American and British flags were draped on the walls of the dining-room, and the orchestra played a program of American melodies.

The guests included Sir Laurence Alma-Tadema, Paul Morton of New York, Franklin MacVeagh of Chicago, Consul General Wynne, Isaac Seligman of New York, Representative Nicholas Longworth of Cincinnati, George Harvey of New York, J. G. A. Leshman, Ambassador to Turkey; Sir H. S. Maxia and Admiral Sterling. During the dinner Ambassador Reid read a letter from Queen Alexandra expressing the keenest sorrow over the Salisbury Railway disaster and tendering her heartfelt sympathy to all concerned. "Especially the young bride so suddenly bereaved," meaning Mrs. Frederick H. Cossitt of New York.

#### INSANITY THAW'S PLEA.

NEW YORK, July 4.—So grimly relentless was Harry Kendall Thaw's pursuit of Stanford White, whom he killed on Madison-Square roof June 25th, that he spent one-fourth of his income of \$80,000 a year on detectives, who were directed to gather such evidence against White as would land the architect in jail. This was the report made to the District Attorney's office today. Urged on by hatred of the man for whom his girl wife showed such abhorrence, in fear Thaw would fling money lavishly into the hands of detectives. Had White accepted the lure of enticements which were dangled before him, both by men and women, even Thaw would have been satisfied by the sensational Police Court disclosures that must have come.

But white was forewarned, and thus forearmed he pursued pleasures of his own, arranging with companions of his own selection. Not one move of Thaw's men was unknown to him. A spy reported to White each plan and movement of the enemy in time for him to outwit him.

Mrs. William Thaw, mother of Harry, is to return from England and bend all her efforts and lavish all her wealth, if necessary, to save her son from the electric chair or from imprisonment. She is expected to leave for the Earl of Yarmouth's country seat at Park Hill as soon as she has rested and recovered from the shock caused by the news of the tragedy. Insanity will be the plea upon which she hopes to save Harry Thaw from punishment.

Evidence regarding an affidavit sworn to by Evelyn Nesbit in contemplation, it is believed, of a suit against Harry Thaw a short time before their marriage is likely to be placed in the hands of the District Attorney tomorrow. Assistant District Attorney Garvan is to have a talk with the lawyer who drew up the affidavit for Miss Nesbit. The prosecution has been informed that in this affidavit Miss Nesbit made serious charges against Thaw, that a compromise was effected and that Thaw subsequently married her. Thaw believed the threatened suit was the work of White, and if expectations are realized in regard to the matter the prosecution will have what is regarded as a very strong case against Thaw.

No attempt has been made to subpoena the friends of Stanford White or run down the many stories circulated recently about him. A hunt is to be made, however, for persons to whom Thaw is said to have talked in a threatening way about White. The District Attorney has heard that Thaw made threats to kill White several times in restaurants in the hearing of several persons. These persons have not come forward, but the District Attorney is on the track of some of them. There is strong belief around some of the restaurants that Thaw patronized liberally that he is insane. One of those who think so is Charles E. Rector. According to Rector, Thaw made scenes whenever any former friend of his wife's even nodded to her. On several occasions Thaw tried to strike men who had come over to shake hands with his wife, Rector says. His actions were those of a man insane from jealousy.

#### WANTED AT ONCE.

A little forethought will often save an end of trouble. Think of the pain and suffering that must be endured in case of an attack of pain in the stomach or cramp colic when medicine must be sent for. Every family should have a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house. It is sure to be needed sooner or later and when that time comes it will be wanted at once. Buy it now. It may save life. Sold by Benson, Smith & Co., Ltd., Agents for Hawaii.

## FOR NERVOUS PEOPLE

DR. WILLIAMS' PINK PILLS THE BEST NERVE TONIC.

A Michigan Mother Preserved to Her Family by This Wonderful Remedy.

When the blood is impoverished the nerves starve and neuralgia or something more serious swiftly follows. Nervous people are generally pale people. By supplying through the blood those vital elements that the nerves need, Dr. Williams' Pink Pills for Pale People have performed those remarkable cures that make it impossible for any nervous sufferer to neglect them with justice to himself.

A recent case is that of Mrs. Peter Morrisette, of No. 315 Eleventh street, Alpena, Mich., who writes as follows: "My trouble started with childbirth. After one of my children was born I had a kind of paralysis. I was very weak and my mouth was a little crooked. I was always tired and was so nervous that I could not bear to hear a dog bark or a bell ring—even the little bird in its cage would annoy me. My heart fluttered a great deal and I had dizzy spells. I was not able to be left alone."

"My doctor gave me different kinds of medicine, changing it several times. When it was evident that he could not help me he said he did not understand my case. This was three years ago and I was very much discouraged, when my brother, who had taken Dr. Williams' Pink Pills, recommended them to me. I tried them and noticed a change for the better when I was taking the second box. Dr. Williams' Pink Pills cured me and I have been well ever since. I now do all my own housework, sewing and washing for seven of us. I have recommended the pills to a number of people and am very glad to make this statement."

The fact that Dr. Williams' Pink Pills cured this stubborn case, as well as others more severe, leaves no doubt that they will cure lesser troubles arising from disordered nerves and lack of nerve force. They have also cured diseases caused by impure or impoverished blood, such as rheumatism, anaemia and after-effects of the grip.

All druggists sell Dr. Williams' Pink Pills or the remedy will be mailed, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams Medicine Co., Schenectady, N. Y.

# JONES HAS LOST NERVE

## Hawaiian Accused of Murder Employs a Lawyer.

In the attempt to break the web of circumstantial evidence that the officers of the law are weaving about George Jones, the half-breed kanaka accused of the murder of Mrs. Elizabeth Brandrup at Baden on June 22, says the San Francisco Call of July 4, the defense is endeavoring to cast suspicion on Harry Coffland, who was arrested at the same time Jones was taken into custody, but later released. Coffland left Baden on Saturday, ostensibly for San Francisco, just before Sheriff Mansfield arrived to serve a subpoena on him. A search is now being conducted for him in this city.

The defense will likely attempt to throw suspicion upon John Brandrup, the Baden blacksmith who had divorced the dead woman. At the time of her death she was suing him for maintenance. The defense yesterday intimated that this might be the motive for the crime. The theory is ridiculed by the prosecution, who claim that Brandrup was out of town at the time the murder was committed.

Jones' preliminary hearing was begun but not concluded at Baden yesterday before Justice James Hannon. The accused man has lost much of the bravado that characterized his actions after his arrest, and as the testimony of witnesses at the hotel told heavily against him beads of perspiration shone on his forehead and dampened his curling black hair. Later in the day he took the stand in his own behalf and made absolute denial of much of the corroborated testimony of other witnesses.

Charles Jones, a brother of the accused, who is a refugee in one of the tents of Hamilton square, came to his brother's aid yesterday. It was through his exertions and advice that Jones was persuaded to secure counsel, the kanaka having determined to fight his own case. Harry E. Styles of Baden was chosen at the eleventh hour to defend the man.

Yesterday's hearing was adjourned late in the afternoon while Jones was testifying in his own behalf. He will be cross-examined by Attorney Bullock tomorrow morning at 10 o'clock. The examination will probably end tomorrow evening.

Dr. D. B. Plymire, who conducted the autopsy on the body of Mrs. Brandrup, was first on the stand. He repeated his testimony regarding the nature of the woman's injuries but refused to attach an exact time for the killing of the woman. At the inquest the physician stated that death occurred from three to six hours before the autopsy was performed, but under persistent questioning by Attorney Styles he said that it might have occurred from one to ten hours prior to the autopsy.

A strong witness for the prosecution was Elise Vandemboss, chambermaid at the Linden hotel, where the murder was committed. She said that she went to Jones' room just before dinner to make his bed. She opened the door slightly, she says, but on seeing a person on the bed quickly closed it. Jones came to the door and told her he would make the bed himself. She was later corroborated in this testimony by Mary McDonald, the eldest daughter of the dead woman, who says she was passing through the hall at the time Jones was speaking. Jones denies strenuously that he saw either of the women at that time and declares that Miss Vandemboss did not come near his room that day.

Jones also claims that he was not in his room from 11:30 until nearly 3 o'clock. The prosecution seeks to prove that Jones was in his room during that period and that the murder was committed at roomtime, when the rest of the people in the house were at dinner. Miss Vandemboss testified that she got only a hasty glimpse into the room and could not tell whether the person she saw on the bed was a man or a woman. She was positive, however, it was not Jones, for the clothing was different, and Jones immediately came to the door when she opened it.

### SIERRA AND SONOMA.

The following cablegram has been received from San Francisco by W. G. Irwin & Co.: "Sierra sailed from San Francisco at 4 p. m. Thursday. Sonoma sailed from Auckland on Wednesday at 10 p. m."

**RUBBER STAMPS**  
HAWAIIAN GAZETTE CO.

The army transport Sheridan arrived from San Francisco at 3 p. m. yesterday, after a fair, uneventful trip. The vessel sailed on July 5 and brought mail and three days later files. The transport was flying the yellow flag for quite a time after tying up at the naval wharf, the reason for the display of the dread signal being the presence of a suspected case of diphtheria aboard.

The transport carries about fifty cabin passengers and the same number of enlisted men. Among the cabin passengers are Major R. K. Steedman and wife, Sixth Infantry; Captain C. G. Sawtelle Jr., Eighth Cavalry; Captain F. E. Johnson, Artillery Corps; Captain B. H. Dutcher, Medical Corps; Captain F. D. Woodbury, Medical Corps; Lieutenant James M. Churchill, Sixteenth Infantry; Lieutenant R. L. Mosely and wife, Philippine scouts; Lieutenant T. A. Nichols, Philippine scouts; Lieutenant Roscoe Treadwell and wife, Philippine scouts and Lieutenant E. S. Sayers and wife, Twenty-first Infantry. Lieutenant Sayers has been aide upon the staff of General F. D. Baldwin, recently retired, and is on his way to rejoin his regiment.

In addition, the Sheridan carries a ship's guard of thirty selected men of the First Infantry, under the command of Lieutenant Tariton, to guard a large amount of specie. The transport has 100 tons of cargo for Honolulu, an equal amount for Guam and forty-five tons for Manila.

Judge W. L. Whitney and wife arrived from a trip to the mainland, by the Sheridan. The transport will probably sail for Guam and the Philippines tomorrow morning.

**BUFORD TO ALASKA.**  
The United States army transport Buford, commanded by Captain Hall, sailed from San Francisco, July 4. The vessel is carrying supplies to the various military stations in Alaska. E. Oylatt, who was yeoman on the Sheridan, has been promoted to the position of freight clerk of the Buford.

**BIG SHIPS RACING.**  
An unusual amount of interest is being taken in the voyages of the American ships Arthur Sewall and William P. Frye from Manila to Honolulu. The former vessel sailed twenty-five days ago and the Frye followed her the day after. The vessels are evenly matched, and those who know them are unable to pick the winner of the race.

Both are four-masted steel ships and measure about the same in length, breadth and depth. The William Frye is registered as being 2998 net tonnage, while her sister ship is 2919. Both vessels came from the yards of Arthur Sewall & Co. of Bath, Mo.

**CHIEF O'NEILL DEAD.**

Arthur O'Neill, chief officer of the Pacific Mail liner Siberia, died yesterday morning July 3, at 75 Cole street, this city, as the result of an operation performed last Tuesday for appendicitis. The Siberia arrived last Sunday week from the Orient. O'Neill was on duty, and, although complaining of severe pains, did not leave his ship until he had completed his work. He was unable to leave his bed Monday, and Tuesday night an operation for appendicitis was performed. Favorable reports were received from the sickbed and prospects for recovery seemed fair. Yesterday morning, however, the patient suddenly collapsed and died. His wife and a few intimate friends were with him at the end.

Prior to entering the service of the Pacific Mail Company Arthur O'Neill was first officer of the liner Doric. He left the White Star line to accept a position with the Realty Syndicate, but was there but a short time when R. P. Schwerin appointed him chief officer of the Siberia. When the Siberia's former commander, the late Captain J. Tremaine Smith, died in the Orient, O'Neill was placed in command and brought the liner home.

Capable and conscientious as a seaman, frank and fair with his friends ashore, O'Neill will be mourned by his old shipmates and by those who knew him here and at every port in the Far East.

He was married about two years ago and his widow survives him.—S. F. Call.

### CHOPS AND CHANGES.

Second Officer Bloodgood of the S. S. Korea may be the new chief officer of the S. S. Siberia.

W. B. King, the assistant freight clerk of the steamer Mongolia, was stricken with a severe case of pleurisy on the last homeward trip, and when the liner arrived at San Francisco, he was still unable to perform his duties. The ship's surgeon stated his case to be serious and it is improbable that he will recover in time to make the next trip of the liner.

George Engelhardt, purser of the Pacific Mail Company's liner Siberia, has resigned from the service to accept a position with the Bank of California.

Walter Hollingum, second steward of the Mongolia, has been appointed chief steward of the Siberia, to succeed Chief Steward Johnson, who will for the present remain in San Francisco.

### WILBERT L. SMITH IN.

The schooner Wilbert L. Smith, Capt. Smith, arrived from Newcastle yesterday morning, 60 days out. Her cargo consisted of 1200 tons of coal. In rough weather encountered a week after leaving Newcastle, she lost her foremast and sustained damage to other sails.

### SHIPPING NOTES.

An official launch landing is to be located at the foot of Fort street. The A.-H. S. S. Alaskan will leave San Francisco for Honolulu direct, on July 20.

Two days later mail should arrive from San Francisco today by the S. S. Siberia.

The A.-H. S. S. Nevada leaves Portland for Honolulu via Tacoma and Seattle, July 19.

The naval transport Lawton from San Francisco should arrive today or tomorrow.

It is probable that the U. S. S. Ironquils will not get away for Midway before Sunday.

The bark W. B. Flint is reported loading 6000 bags MCB sugar for San Francisco at Eleale.

The S. S. Doric is expected from the Orient next Monday. She will take the next mainland mail.

The S. S. Sonoma from the Colonies will not arrive until July 21, five days behind her schedule time.

The Matson Company's steamer Hiloian, Captain Peter Johnson, sailed from San Francisco July 6 for Portland, on the way to Honolulu and Hilo.

The steamer Claudine arriving from Hilo and Lahaina yesterday morning brought 254 sacks potatoes, 94 sacks corn, 24 sacks castor beans, 11 hogs, 1 horse, 126 packages sundries.

Purser J. A. Spalding of the steamer Iwalani reports the following sugar on hand on Kauai: Kealia, 4800; H. M., 2649; K. P., 2500; K. S. M., 1000; MCB, 9422; P. 4251; G. & R., 1650; Diamond W., 500; H. S. Co., 2500.

The schooner Eva was shifted to the Inter-Island wharf yesterday morning, where she has commenced to take the wreckage, which was saved from the schooner Olga lost of Kahoolawe and which belongs to the same owners, Charles Nelson & Co., on board. The Eva goes to Eureka.

## NICANOR TELLER OF TALES

"This was what he loved,—to fare forth at night and come upon some group about the fire; to begin his chant abruptly, in the midst of conversation; to see his listeners draw close and closer, gazing wide-eyed, half in awe; to sway them as the marsh winds sway the reeds. At times, when his sense of power shook him, he took a savage delight in seeing them turn, one to another, simple-hearted children of moor and forest, whose emotions he could mould as a potter moulds his clay."

AND if you are a lover of old romance you will want to follow the adventures of Nicanor the story-teller, of the lord's daughter who forgot that he was a slave, and of Eldris, who loved him best. It is a novel for those of us who have not forgotten Scott and Kingsley and the nobler traditions of historical romance. It is especially commended to anyone who would like to forget for a time the hard commercial age in which we live.

"NICANOR, TELLER OF TALES," is a tale of Roman Britain, by C. Bryson Taylor, with beautiful illustrations in full color and other decorations by the Kinneys. It is just published, and your bookseller has it today.

Read the Advertiser

## MOTOR OMNIBUS GETS AWAY FROM DRIVER

(Associated Press Cablegrams—Afternoon Service.)

LONDON, July 12.—A motor omnibus running between London and Brighton got beyond control today while running down hill and was wrecked with fatal results. Eight of the occupants were killed and many more injured.

### KILLED IN BATTLE.

SALVADOR, July 12.—Troops have invaded Guatemala. Regalado, the former president of Salvador, was killed in battle.

### BLOOD-THIRSTY TURKS.

TIFLIS, July 12.—Horrible outrages have been committed by the Turkish troops in Armenia.

## LUCAS IN CONTROL

(Continued from Page 1.)

Jim Kuphea of drunkenness and politics, was read. E. P. Peleue, the reputed signer, was present and denied all knowledge of the letter and complaint. Whereupon the matter was dropped.

In spite of the written objections of Sidney Ballou, who said that such action would depreciate the value of Tantalus property, Supervisor Lucas introduced his Tantalus ordinance, which forbids the running of motor cars on the Tantalus road. The ordinance provides a \$10 to \$25 fine for anyone driving an automobile on, along or over the road known as Tantalus road, northerly of Punchbowl Hill, and applies the same fine for any person riding in an automobile so driven.

### SMITH IS DOWNED.

G. W. Smith's resolution that all road engineering work of the county be placed under the control of the County Engineer, was brought up for discussion.

Lucas strenuously combated the resolution on the ground that it usurped the authority of the road department. He didn't propose to have a man employed by the board be a dictator to the board.

Moore denied that there would be any dictatorship at all. Smith called for a vote. He said that he offered the resolution in the best interests of the county and stated that if the resolution were defeated he would have nothing more to say on the matter.

Lucas moved that action on the resolution be indefinitely postponed. The motion did not find a second and the resolution was voted on being defeated by 4 votes to 2, Moore and Smith voting "aye."

This concluded the business of the board.

## JEWELS DEFEAT THE PUNAHOUS

The Diamond Heads played a practice seven-innings game with the Punahous on Wednesday, on the Oahu College campus defeating the big league team, 5 to 0.

This is going some and the winners are perhaps the fastest bunch of ball players ever got together here.

For a newly-formed nine to put it over a veteran team like the Punahous, which defeated the redoubtable Honolulu on Saturday, is a performance as praiseworthy as it is astounding.

### Pure Soda Water

You can't get better Soda Water than that bearing the FOUNTAIN brand, for the simple reason that there isn't any better made.

FOUNTAIN Soda Works, Sheridan Street, near King. Phone Main 270.

## Precinct Club Meetings Tonight

### NOTICE.

There will be a meeting of the Republican Precinct Club of the 2nd Precinct, Fourth District, at the residence of J. H. Soper, corner Keeaumoku and Lumahilo streets, at 7:30 p. m. Friday, July 13, 1906, for the nomination of club officers.

J. H. SOPER, President.

### MEETING NOTICE.

There will be a meeting of the Republican Precinct Club of the 5th Precinct, Fourth District, in the old Government Stables, South and Queen streets, at 7:30 p. m. Friday, July 13, 1906, for the nomination of club officers.

SAM JOHNSON, President.

### NOTICE.

There will be a meeting of the Republican Precinct Club of the 10th Precinct, Fourth District, in the vacant store opposite the old tramway stables, Beretania street, at 7:30 p. m. Friday, July 13, 1906, for the nomination of club officers.

W. W. HARRIS, President.

### NOTICE.

Assessment No. 1, of 40 per cent., or \$10 per share, has been called on the capital stock of the Oahu Country Club, due on July 1, 1906, and payable at the office of the treasurer, 606 Stangenwald Building.

All persons who have signed their intention of joining the club, but have not signed the subscription list, are requested to call at the office of the undersigned and do so.

J. O. YOUNG, Treasurer, Oahu Country Club.

Honolulu, June 25, 1906. 7461.

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT, TERRITORY OF HAWAII.—AT CHAMBERS, FOR DIVORCE.

Virginia Johnson, Libellant, vs. Charles Johnson, Libellee. Libel for Divorce. Order: Notice of Pendency of Proceedings.

Upon motion of libellant, Virginia Johnson, it appearing that on January 4, 1906, suit was instituted herein against Charles Johnson, libellee, praying that the bonds of matrimony between said libellant and said libellee be dissolved and that said libellant be awarded the care and custody of the minor children of libellant and libellee, on the grounds of desertion and neglect and refusal of said libellee to provide suitable or other maintenance for said libellant, and of the neglect and refusal of said libellee to provide suitable or other maintenance for said children.

And it further appearing that summons herein has been returned unserved, the serving officer being unable to find said libellee within this jurisdiction, and that more than six months have elapsed since the bringing of this suit, and that said libellant has been unable to ascertain either the address or residence of said libellee after reasonable and due inquiry and search made within said six months.

It is ordered that notice of the pendency of these proceedings be given said libellee by the publication of this order in the Pacific Commercial Advertiser, a newspaper published in Honolulu, within said circuit, six times as follows: July 3, 10, 11, 12, 13, 14, 1906, and that said libellee appear before such judge of this court as shall be sitting at chambers in the court room at Honolulu, aforesaid, on or before August 4, 1906, to answer libellant's bill of complaint herein, and in default of such appearance, judgment shall be rendered in favor of said libellant.

Witness my hand at Honolulu this 7th day of July, 1906.

W. J. ROBINSON, 3rd Judge of said Court.

Attest a true copy: (Sgd.) M. T. SIMONTON, Clerk.

7462—July 3, 10, 11, 12, 13, 14.

H. T. MOORE, Comd'r.  
R. H. LONG Adjutant.

## "IT SAVED MY LIFE"

## PRAISE FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham:

Dear Mrs. Pinkham:—  
"I can truly say that you have saved my life, and I cannot express my gratitude to you in words."

"Before I wrote to you, telling you how I felt, I had doctored for over two years steady and spent lots of money on medicines besides, but it all failed to help me. My monthly periods had ceased and I suffered much pain, with fainting spells, headache, backache and bearing-down pains, and I was so weak I could hardly keep around. As a last resort I decided to write you and try Lydia E. Pinkham's Vegetable Compound, and I am so thankful that I did, for after following your instructions, which you sent me free of all charge, I became regular and in perfect health. Had it not been for you I would be in my grave to-day."

"I sincerely trust that this letter may lead every suffering woman in the country to write you for help as I did."

When women are troubled with irregular or painful periods, weakness, displacement or ulceration of an organ, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes.

For 25 years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Address, Lynn, Mass.

Glass for  
any  
purpose

We cut glass to your order. If you want it for a picture frame or similar purpose we will select a specially-clear piece for you.  
If you want plate glass you can get any size from our stock.  
Also stained glass for fancy effects in great variety.

## LATE NEWS NOTES

## From Coast Files.

It is reported that yellow fever has appeared in Cuba.  
Socialists have nominated a full state ticket in Georgia.  
Four hundred saloons were opened in San Francisco on July 4.  
The battleship Nebraska made 18.95 knots on her builders' test.  
Mayor Schmitz of San Francisco favors a car line on Van Ness avenue.  
Thirty millions of dollars of Panama canal bonds have been placed on sale.  
Governor Folk has pardoned Martin Hedgepeth, a notorious Missouri train robber.

Two miners imprisoned in a Welsh coal mine sustained life for six days on candles.  
The Sultan of Turkey has revoked his order forbidding Jews to settle in Palestine.

The government of Ecuador had a formal celebration of the Fourth of July at Guayaquil.

Secretary of the Treasury Shaw will deposit ten millions of public funds in San Francisco.

There is a movement in England to establish a two-cent rate on letters to the United States.

Senator La Follette of Wisconsin says that Roosevelt is the only man who can defeat Bryan.

United States Circuit Judge Morrow has declared that the California insurance law is sound.

A negro kleptomaniac was operated on by surgeons to cure him at San Bernardino, but still steals.

Thirty-eight small boys met death on the mainland as a result of the celebration of the Fourth of July.

The Japanese military authorities have transferred the control of Mukden to the civil officials. These latter are also Japanese.

Franklin K. Lane of California has been sworn in as a member of the Interstate Commerce Commission.

A new treasury regulation forbids the importation of bogus jewelry bearing the stamp of purported genuineness.

The Czar has told the Duma that he will accept laws allowing liberty of conscience and more freedom of speech and meeting.

It is said that the rising of the Salton Sea will once more compel the Southern Pacific to move its tracks on the Colorado Desert line.

Chinese rebels are taking advantage of discontent caused by the high price of rice, and fomenting trouble in the province of Chekiang and Hankow.

A nephew of President Diaz, who was a student on the Mexican training ship Zaragossa, became lovesick and senile and deserted the ship at Havana.

Mrs. Harry Thaw has issued a statement to the effect that she was married to Thaw in Europe before the American ceremony, and that all reports to the contrary are false.

Mrs. Stuyvesant is to give a bathing suit dinner at Newport, at which the ladies will wear bathing suits coming just below the knees, and the gentlemen will have their suits tucked and ruffled and fluted and tied up with ribbons.

Rainmaker Hatfield went to the Klondike to break a drought, and a Dawson dispatch announces that he has failed to deliver the goods. He is the man who claimed that he broke a drought in Southern California a couple of years ago.

Count Boni de Castellane wants to fight a duel with Regnier, who voted to unseat him from the Chamber of Deputies. He has told Regnier to consider his face slapped, in return for which he has been invited to consider himself dead.

Sum See Yee, one of the Secretaries to the Chinese Minister at Washington, has been appointed Chinese Consul General at San Francisco. The appointment is made because it is desired to have at that post a statesman of the highest rank.

The Moffat railway from Denver to Salt Lake is to be made a link in a through line from ocean to ocean. The new plan is backed by the Chicago Great Western, and the Salt Lake & Los Angeles will be the western end of it, with its terminus at tide water at San Pedro.

## THE DEBRIS OF SAN FRANCISCO.

It is estimated that there are 600,000 tons of junk, exclusive of the brick, lying in the debris in the devastated district of San Francisco. It consists mainly of copper, brass, iron and steel, which, when marketed, will net the junk dealers many millions of dollars. If this enormous amount of scrap metal were to be shipped to Hongkong, the great junk market of the world, it would require a fleet of between 100 and 200 great steamships. If transported in sailing vessels it would need a fleet of 1000 fine sailers and weigh them down until their gunwales were awash. If all this wealth of junk were sent East by rail, allowing an average of 30,000 pounds to the car, it could be carried by a train of 40,000 cars, and a train of 40,000 cars would stretch along the rails for about 800 miles.

Six hundred thousand tons are 1,344,000,000 pounds. Estimating that the average man can lift 100 pounds, it would take 13,440,000 men to lift the junk of San Francisco. One horsepower is 550 pounds per second, so that it would take more than 2,000,000 horses to move this mountain of junk for one second, though 600,000 horses could readily haul it.—S. F. Call.

## EVER THINK ABOUT IT?

Many a Resident of Honolulu Will Tell You.

We are living in a very rapid age. Few of us bother our heads about small things, and so many persons look upon a pain, ache or lameness in the back as a small thing. They wait for it to pass off, giving no thought to the cause. Remember; The kidneys are the sewers of the system; they carry off the impure matter, but sewers sometimes become clogged up. So do the kidneys. The kidneys are located near the small of the back, hence any stoppage affects the back. This means backache, lame back, weak back and many other distressing symptoms. There is lots more to tell on this subject, but we won't do it here, for we want to show you how to keep the kidneys so the back will have no cause to ache. You might not believe us, so we will let one of your own citizens tell their experience:  
W. F. Williams of this city, is a light-house keeper, and he has held this position for the last 30 years. He says: "I was for a number of years, one of that numerous army of people who suffer with their backs. Mine ached and pained me to no small extent, so that I was glad when I heard of a remedy for it, Doan's Backache Kidneys Pills. I obtained some of these at the Hollister Drug Co.'s store, and took them. They gave me great relief, and I make this short narration of my experience for the benefit of others who perhaps do not know that nearly all backache arises from the kidneys, and the best medicine for it is Doan's Backache Kidneys Pills."  
Doan's Backache Kidneys Pills are 50 cents per box, for sale by all druggists; sent by mail on receipt of price

by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

## THE FAVORITE GROTTTO.

There is nothing which tones the stomach so pleasantly and effectively as those hot dishes made originally in Mexico and now in favor all over the world. The GROTTTO chef is an adept in the preparation of hot stuffs and his work never fails to give satisfaction. Every now and again something peppery is included in the day's menu.  
Today's lunch menu follows:

petition for the extension of postal de-  
livery in Manoa will be considered,  
with other important matters.The Hawaiian Forester and Agricul-  
turalist for the month of July contains,  
among other interesting articles, an  
editorial on pineapples by Leopold G.  
Blackman. The writer shows that he  
has studied and thoroughly mastered  
his subject.Charles De Young has become busi-  
ness manager of the Chronicle and  
John McNaught has retired from the  
Call to be succeeded by two Chronicle  
men, Mr. Hornick, who will serve as  
business manager and Mr. Simpson as  
managing editor.Mrs. Julia Edwards, of Gilroy, Cal-  
ifornia, has brought a suit in ejectment  
claiming three lots in Honolulu which  
are occupied by Mary and Raymond  
Reyes, and Pedro Lyzan, and asking  
\$500 damages. The lands are at Robel-  
to lane and King street.A committee of prominent politicians,  
headed by Senator John Lane, will be  
on hand to meet and greet Delegate  
Kuhio when the Siberia docks this  
morning. The vessel is expected to  
arrive between eight and nine o'clock,  
and will dock at one of the Naval  
wharves.Fisher sells white Pekin ducks on  
Saturday. See his column on page 3  
today.R & G. CORSETS

... Means ...

## Economy

A gas stove in the kitchen means economy for the house-  
hold, a cool kitchen and splendid culinary results. Baking  
on a gas stove is simplicity itself and the bread and cake  
taste better. Roasting is not a problem when gas is the  
fuel used and the meat or fowl is cooked to a turn. You  
cannot get any such results on a wood or coal stove.  
Ask the gas company how to keep your stove polished.

## Honolulu Gas Co., Ltd.

Ask the Gas Company how to keep your stove polished.

Borden's Eagle Brand  
Condensed Milk

The Original and Leading Brand

Since 1857.

Best for Infants—Best for House-

hold.

## THEO. H. DAVIES &amp; CO., LTD.

DISTRIBUTORS FOR HAWAII.

## ALLIGATOR PEARS and MANGOES

are now in season!

Did you ever realize that any fruit bruised by falling  
looses much, if not all of its delicious fresh flavor, and that  
this is more particularly true of both the Mango and Alligator  
Pear?

\$1.00 FRUIT PICKERS \$1.00

We carry, are especially made to save the fruit. Are ad-  
justable so that fruit can be picked from low trees as readily  
as from high ones. Poles can be had any size from 4 to 25  
feet.

## W. W. DIMOND &amp; CO., LTD.

53-57 KING STREET.

ANTI-SALOON LEAGUE  
ADOPTS A PLATFORMThe regular monthly meeting of the  
Anti-Saloon League, held yesterday  
afternoon, was devoted to the drawing  
up and adoption of a platform for the  
approaching campaign. This platform  
consists of the seven planks adopted  
some weeks ago by the Civic Federa-  
tion with three additional planks, and  
is in full as follows:First. That all fifth-class licenses be  
abolished. (\$100.)Second. That the annual fee for  
fourth-class licenses be \$1000. (Now  
\$500.)Third. That in every case of applica-  
tion for license the Treasurer be di-  
rected to publish the fact of his receipt  
of such application for four consecutive  
weeks before issuing the same in a  
newspaper having general circulation  
in the precinct where the license is to  
be exercised.Fourth. That opponents of the grant-  
ing of a license be given the right to  
arbitrate the decision on the same  
terms as the applicant.Fifth. That signers of petitions for  
licenses be restricted to "real estate  
owners" within the prescribed limits.Sixth. That saloons be not allowed  
within 400 feet of a church, chapel or  
school.Seventh. That licenses be issued to  
citizens only.Eighth. That the provision which  
subjects to penalty any one purchasing  
liquor from an unlicensed person or  
from a licensee contrary to the condi-  
tions of his license be repealed.Ninth. That it be forbidden under  
penalty to sell liquor to a woman or to  
allow a woman to remain in or lounge  
about a saloon.Tenth. That liquor shall be sold only  
where a full unobstructed view from  
the street at all hours of the day or  
night can be had of the entire place of  
sale, no screens, curtains, shades or  
other obstructions of any kind whatso-  
ever being allowed to interfere with  
full public gaze through window or  
door.SAN PEDRO WANTS  
STEAMERS TO ISLANDSH. B. Gurley, the acting secretary of  
the Los Angeles Chamber of Com-  
merce, writes to H. P. Wood, of the  
Promotion Committee, that Salt Lake  
people have in mind the establishment  
of a steamship line between San Pedro  
and Honolulu. This line would natu-  
rally have to be in a position to handle  
freight at a rate that would compete  
with any port on the Coast.As it stands now San Pedro does not  
obtain terminal rates and probably will  
not until that town is consolidated with  
Los Angeles as part of the city and  
county of Los Angeles. An effort to  
bring about this consolidation was  
made at the recent special session of  
the California Legislature, but was de-  
feated in spite of the strong fight put  
up by the Los Angeles people.

## Women and Girls

Who suffer every month from Cramps,  
Backache, Headache, Vomiting, Dizzi-  
ness or Fainting Spells should know  
that if a few doses of the Bitters were  
taken at the first symptom they would  
save all this unnecessary suffering. Al-  
ways keep a bottle ofHostetter's  
Stomach  
BittersHandy and you'll  
always enjoy good  
health. Thousands  
of other sickly  
women have found  
this true. It also  
cures Insomnia,  
Poor Appetite,  
Sleeplessness,  
Indigestion,  
Dyspepsia,  
Constiveness,  
Biliousness or  
Malaria, Fever  
and Ague.  
We hope all sickly  
men and women  
will try it at once.
