

CZAR SPEAKS FOR PEACE

Asks Europe to Decrease Its War Paraphernalia.

Would Thus Secure Continual Peace—Humanitarian Views Put Forward.

London, Aug. 28.—The text of the note to the powers issued at St. Petersburg is as follows: The maintenance of general peace and the possible reduction of the excessive armaments which weigh upon all nations, present themselves in existing conditions to the whole world as an ideal toward which the endeavors of all governments should be directed. The humanitarian and magnanimous ideas of his majesty, the Emperor, my august master, have been won over to these views in the conviction that this lofty aim is in conformity with the most essential interests and legitimate views of all the powers; and the Imperial Government thinks the present moment would be very favorable to seeking the means to accomplish this.

International discussion is the most effectual means of insuring all peoples benefit—a real, durable peace, above all, putting an end to the progressive development of the present armaments.

In the course of the last twenty years the longing for general appeasement has grown especially pronounced in the consciences of civilized nations; and the preservation of peace has been put forward as an object of international policy. It is in its name that great states have concluded among themselves powerful alliances.

It is the better to guarantee peace that they have developed in proportions hitherto unprecedented their military forces and still continue to increase them, without shrinkage from any sacrifice. Nevertheless, all these efforts have not yet been able to bring about the beneficent result desired—pacification.

The financial charges following the upward march, strike at the very root of public prosperity. The intellectual and physical strength of the nations' labor and capital are mostly diverted from their natural application and are unproductively consumed. Hundreds of millions are devoted to acquiring terrible engines of destruction, which, though today regarded as the last work of science, are destined tomorrow to lose all their value in consequence of some fresh discovery in the same field. National culture, economic progress and the production of wealth are either paralyzed or checked in development. Moreover, in proportion as the armament of each power increases, the less and less they fulfill the object of the government have set before themselves.

The economic crisis, due in great part to the system of armaments, outrance, and the continual danger which lies in this massing of war material, are transforming the armed peace of our days into a crushing burden which the people have more and more difficulty in bearing.

It appears evident that if this state of things were to be prolonged it would inevitably lead to the very cataclysm it is desired to avert and the horrors whereof make every thinking being shudder in advance.

To put an end to these incessant armaments and to seek the means of warding off the calamities which are threatening the whole world—such is the supreme duty today imposed upon all states.

Filled with this idea his majesty has been pleased to command me to propose to all the governments whose representatives are accredited to the imperial court, the assembling of a conference which shall occupy itself with this grave

problem. This conference will be, by the help of God, the happy presage for the century which is about to open. It would converge into one powerful focus the efforts of all states sincerely seeking to make the great conception of universal peace triumph over the elements of trouble and discord, and it would at the same time cement their agreement by a corporate concentration of the principles of justice and right whereon rest the security of states and the welfare of peoples.

NEW INTER-ISLAND BOAT.

Will Be Here Second Week in October.

A letter from Captain Godfrey dated San Francisco, August 31, was received by Vice-President John Ena of the Inter-Island Company this morning. In it Captain Godfrey stated that the new Inter-Island boat had just arrived in San Francisco from the Sound, laden with lumber.

The Fulton Iron Works people were of the opinion that they could put in the machinery in the course of three weeks. Captain Godfrey stated that he did not think this could be done.

In order to pass inspection according to United States regulations it would be necessary for the new steamer to have a donkey boiler and other things put in.

Mr. Ena said that he did not expect the new steamer to sail for Honolulu until the second week in October. Even then, this would be a month earlier than at first expected.

GRAND ARMY GREETINGS

Phil Sheridan Post of Washington Salutes Geo. W. Long Post.

Welcomed as Post of Great Empire of Liberty—The Local Post Issues A Warning Circular.

George W. De Long Post, G. A. R., at its meeting last night received an engrossed communication from Phil Sheridan Post at Washington, D. C. A neat border in red, blue and gold surrounds the document which will be framed and hung on the wall of Geo. W. De Long's headquarters. The full text of the writing is as follows:

GREETING TO GEORGE W. DE LONG POST FROM PHIL. SHERIDAN POST.

"At a regular session of Phil. Sheridan Post No. 14, Department of the Potomac, Grand Army of the Republic, held at Washington, D. C., Friday evening, July 22, 1898, the following Order was unanimously adopted:

"In the bonds of F. C. & L., Phil. Sheridan Post No. 14, Department of the Potomac, Grand Army of the Republic, send greeting to their former comrades in arms, the members of George W. De Long Post No. 45, Grand Army of the Republic, Honolulu, Hawaiian Islands, and welcome them to a prominent position under the glorious and triumphant Flag of our Nation. Recognizing the patriotic love of country that led to the establishing of George W. De Long Post in the beautiful islands of the Pacific, two thousand miles from home and kindred, under a foreign flag and government, we fraternally and loyally greet you as a part of the great empire of liberty, the United States of America, and, as we enjoy the many benefits resulting from the sacrifices and hardships of those who carried the Stars and Stripes westward and planted the flag on the golden shores of the Pacific ocean, so we see the onward mission of our Nation in extending liberty across the waters toward the islands of the rising sun, and earnestly pray that the comrades of George W. De Long Post may live to see the beneficent results that will accrue to the Eastern world from your pioneer efforts and loyalty, because of the raising of our beloved Flag over your most beautiful and fertile islands of the Pacific.

"Phil. Sheridan Post salutes George W. De Long Post as among the pioneers in unfurling the Flag of Liberty and Free Government.

CANADIAN-COLONIAL CABLE

New Zealand Recommends the Four-Ninths Scheme.

Legislative Committee Reports Favorably—Canada to Have Construction in Charge.

Wellington, (New Zealand), August 31.—The report of the Committee on Legislation, just issued, recommends joining the Australian colonies with Canada and the mother country by a Pacific cable, on the basis that if Great Britain and Canada together would guarantee five-ninths of the cost of the work, New Zealand and the other colonies would contribute the remaining four-ninths, of which amount New Zealand will contribute one-ninth.

The committee also recommends that Canada be intrusted with the construction administration, and maintenance of the cable on the understanding that the contributing colonies are to be entitled to representation and votes on matters of policy of the management, and that the cable is to be jointly owned and controlled by the contributors. The report concludes by advising that a conference of the colonies concerned in the new cable be held in New Zealand.

Nicaragua and the Canal.

Managua, Nicaragua, August 18.—The Diet of the Greater Republic of Central America has asked the Government of Nicaragua for all the documents in its archives relating to the construction of an interoceanic canal across Nicaragua, for the purpose, as El Liberal, Government daily newspaper says, of "investigating the reasons why the United States of North America appears to have decided to construct the canal."

DREYFUS AFFAIR AGAIN

Col. Henry Admits Forgery and Then Suicides.

This Forgery Played Important in Conviction—France Again Stirred Up With Army Matters.

New York, August 31.—A Sun cable from Paris says: A day of anguish to the vast majority of Frenchmen, ended today in indescribable emotion, caused by the news that the author of the army's latest disgrace had committed suicide in the cell he occupied in the fort at Mont Valerian. Colonel Henry, who was arrested yesterday on a charge of having forged a letter that had an important bearing on the Dreyfus case, was found lying in a pool of blood, having cut his throat with a razor he had taken to prison with him in a bag containing clothing. His confession of the forgery was immediately reported to Cavaignac, Minister of War.

It is a bare, terrible fact, that an officer, holding one of the most responsible and most delicate positions in the French army, head of the department concerned in procuring secret information, should have stooped to forgery in the pursuit of an obscure, underhand plan, that fills Frenchmen with despair of whom to trust, whom to believe among all officers concerned in the trial of Dreyfus. For the moment, anti-Dreyfusites and Dreyfusites among the Parisian public maintain their previous contentions more vehemently than ever. The former are now cursing both Colonel Henry and Dreyfus, but in Government circles the forgery revelations are working momentous changes. There is authority for stating that Cavaignac has decided to grant a revision of Dreyfus' sentence. True, he maintains that Colonel Henry's forgery does not affect the proofs of Dreyfus' treason, but his speech in the Chamber of Deputies, which was rapturously applauded and placarded throughout France, in which he proclaimed his possession of proofs of treason, was based on Henry's forgery.

Pavloff Sent from China.

London, August 29.—The Daily Mail's Peking correspondent says: "M. Pavloff, the Russian Charge d'Affaires in China, who has been appointed Russian Minister to Corea, will be succeeded by M. de Giers, who is at present accredited to Brazil. M. Pavloff's removal is generally attributed to Great Britain's sudden change of policy, the object of which was to impress Russia with the advisability of recognizing our paramount influence in the Yang-tse Kiang valley."

OUR TIGHT LITTLE ISLAND

Wailua Already in Training for Its Great Expansion.

Labor Healthy and Quiet—Railroad Extension Humming—Dr. Peterson Back from Inspection Tour.

Dr. C. A. Peterson, Inspector of Immigrants, was at his desk in the Agricultural Bureau this morning, after an official visit to Wailua, Kahuku and Laie plantations. He found almost no sickness—nothing to speak of.

Everything was quiet. There was not a vestige of restlessness among the Japanese laborers, following the expectation of a general strike, against contracts and for higher wages as free labor, consequent upon the hoisting of the American flag. The warning issued by Colonel Hirai has evidently had a most wholesome effect.

Wailua plantation is just finishing up its crop, amounting to about two thousand tons of sugar. Everything is being managed on the plantation to suit the immense expansion of its scope under the new company. The corporation just formed will have two thousand acres prepared for the first planting.

Both at Ewa and Wailua it was understood as decided that W. J. Lowrie, the manager who has piloted Ewa plantation up to its unparalleled position, would take charge of Wailua plantation the first of October. Mr. Lowrie will be back from the Coast in the Belgic on Friday night.

The O. R. & L. Co. is putting up a fine station at Wailua opposite the church. Finishing touches are being put on the railway bridge there. Pile drivers are being put in place for work at the Waimea bridge on the Kahuku extension. The line is nearly all graded from Waimea gulch to Kahuku. Contractor Jensen's camp is lively.

It is impossible now to go from Wailua over the gulch in a buggy, unless one has a crew enlisted to drag the vehicle up over the rocks after crossing the quicksands, as the Government bridge swept away by flood has not been rebuilt.

A native farmer a little beyond Kaena Point has piped water from a place high up in a gulch to his little holding near the railway—quite a neat piece of engineering.

Dr. Peterson is now making up his reports. He will probably go to Maui next, leaving Heeia and Waimanalo plantations, on this island, for visiting later.

Mrs. W. G. Irwin received news by the Australia of the death of her brother, Mr. Alfred Ivers of Oakland, on July 30. Mrs. Ivers, the mother, is now stopping with Mrs. Irwin at Waikiki.

ARMY OF 100,000 PROPOSED.

Congress Will Be Asked to Pass the Necessary Law.

New York, August 27.—One of the important matters that will occupy the attention of Congress at its next session will be legislation to increase the strength of the permanent military establishment, says the Washington correspondent of the Tribune.

Chairman Hull of the Committee on Military Affairs of the House will, early in the coming session, introduce a bill to correct the defects in the existing law and to increase the strength of the Army on a peace footing to 100,000 enlisted men.

The strongest opposition to the reorganization bill last winter and spring came from the representatives of the National Guard organizations of the various states.

The experience of the last four months, there is no reason to believe, has convinced that element, as well as a great many Congressmen, who surrendered to its influence, that the opposition was ill-judged and unreasonable.

Former Governor Hogg of Texas has a notion that, since his high living on board the troopship Arizona, he has the gout. He has placed himself under a rigorous course of Hawaiian history and laws to neutralize his pain. "No, there were so many little fellows in the water around me that I felt no danger!"

SOME MILITARY MATTERS

General Merriam's Work Being Completed He Will Soon Leave.

Inquiry Into Manoa Valley Vandalism—Colonel Fisher Talks About the Standing of the National Guard.

An officer of high rank in the United States uniform said to a BULLETIN reporter yesterday that he did not think the Executive buildings or grounds would be occupied by the troops.

As previously stated in this paper, the Government has offered the old stone barracks for housing a detachment of the garrison to do the saluting and guard of honor functions for Uncle Sam when required.

General Merriam and staff will leave in the Australia. Since the creation of a military district covering the islands their work here is about done.

An order was promulgated late Tuesday convening a Board of Officers, with Major Emmett at its head, to investigate acts of vandalism apparently committed by U. S. soldiers.

Colonel Fisher is annoyed at having been falsely represented in print as the authority for unfounded statements regarding the occupation controversy. No reporter had seen him about the matter, and the use of his name was wholly gratuitous.

He says the National Guard of Hawaii is an association existing under the laws of Hawaii, which laws continue in full force and effect until new laws be made by Congress, in accordance with the annexation resolution. If the premises heretofore occupied by the National Guard be now occupied by United States soldiers, the National Guard will simply have to move out. Their company rooms had been fitted up at the expense of the men themselves and it would be hard lines for them to suffer summary ejection. Then there might be annoyance arise from the necessity of passing the garrison sentries by N. G. H. men going in and out.

Regarding the talk about mustering a Hawaiian battalion into the United States service, Colonel Fisher disclaims any authority or responsibility in the matter. If the United States military authorities desire to muster in a local battalion, it is their function to publish a notice to that effect and abide the results. Had the war lasted, however, a Hawaiian battalion could have been mustered in, "in a wink," for active service in the Philippines.

An Insurrection Claim.
Mr. Sweger, attorney, presented the claim of Harry Juen before the Hawaiian Commission yesterday. It is for damages for illegal arrest, imprisonment and deportation of the claimant in connection with the insurrection of 1895. The late Minister Willis refused to press the claim, which was then sent direct to the State Department at Washington. The Department advised Juen to exhaust all judicial remedies in Hawaii. But the Hawaiian Government had, in the meantime, had a law passed preventing anyone, without the consent of the Legislature, from prosecuting the Government for damages for anything arising out of the suppression of the insurrection. Chairman Cullom accepted the claim for filing at Washington.

THURSDAY, SEPT. 8, 1898

If steamships could run for political office, the Australia will be on top of the popular wave.

It's a case of whistle and wait for those who want to know what the Commission is driving at.

The Executive certainly has no reason for worry from President McKinley's instructions thus far.

Secretary Alger says the people have no reason to make him "dance on the carpet," but the people don't see it that way.

Times will be hard and there'll be snow in the streets of Honolulu, when Hawaii can't get up some sort of a political circus.

France is again racked by the Dreyfus sensation. The facts of the practical murder of this officer are bound to come to the light sooner or later.

Tell American ship builders that they can't furnish ships enough under the American flag to do the Hawaiian business and see what they say about it.

Granting that Hawaii is a political hodge podge, may the Powers be merciful to the man who selects a name for Porto Rican, Cuban and Philippine political conditions.

The steamer Malolo and the Hawaii channels won't be in it for numbers when compared with the politicians who will be fishing for Hawaiian office about the Washington mill pond.

It does begin to look as though Minister Cooper were after all the commander-in-chief of the American military. If he wins the fight for the Executive, we'll have to congratulate him as the winner against big odds.

In the midst of war mutterings the Czar of Russia sounds a note for international peace. It is a good thing to talk about but we doubt whether any of the European nations, Russia included, will withdraw any orders for war equipment.

Our Advertiser friends appear to have forgotten that Senator Ingalls, who said: "The best governed city in the United States is the city where the people do not govern themselves" is no longer in politics. The people delivered him of his office and when last heard from, Ingalls was reporting prize fights.

If the Chamber of Commerce is actually considering asking the American Congress to make an exception of Hawaii in the extension of coast wise shipping laws, we trust its members will think twice or even three times before jumping. Such action is bound to arouse the antagonism of every shipping man in the States. These men have heretofore been among the staunch friends of Hawaiian business interests. Certain it is that what is worth having is worth asking for, but we fear that by asking too much special legislation our business people stand liable to turn former friends into strong enemies.

NO COMMISSION GOVERNMENT.

So the Advertiser thinks this country whose institutions have been built up on American principles, has suddenly become a political hodge podge. We are sorry to note the sudden falling away from the good works of the American business men and American missionary. Not without personal reason; the morning organ has cause to fear a government by the people. But it should not allow private greed to run away with its views on what is best for the country. A commission government is hinted at, and yet in the same columns the Commission now sitting is ripped up the back for its secretive methods. We do not believe in the methods of the present Commission, and having had this experience we see no reason why government by commission can be more acceptable than government by the people. Of course when the Advertiser talks about government by commission, it is to be taken for granted that the scheme will be a fine one—if the Advertiser constituents are made the controlling members.

There is no reason why the Republicans should give the Hawaiian territory anything more restricted than manhood suffrage. As a territory the islands will cut no figure in Presidential or Congressional elections. There is no reason why every American citizen in this territory should not be given the right of franchise. If in the course of time the people here find certain restrictions necessary to the welfare of the territory, then will be time enough to talk and let the people decide for themselves. There are some leaders here who are afraid of the people. We trust that the Commission in its deliberations will not allow itself to be swayed by the theories of the minority.

"As a rule" appointive offices will be filled as usual; "republic does not necessarily imply independence." These are some of President McKinley's instructions. There is room for still farther definite interpretation.

COURT NOTES.

Trial Long Drawn Out—Papers on File.

Lucas vs. Perry, quieting of title, mixed jury before Judge Stadley, is on for the twelfth day. It will go to the jury this afternoon. Only rebuttal witnesses were left this morning.

Wm. White of Lahaina, the famous politician, has taken the oath to qualify for renewal of license to practise in the inferior courts of the Hawaiian Islands.

W. R. Castle and P. L. Weaver, attorneys of record for W. S. Luce, administrator of the will and guardian of Beatrice M. G. Luce, minor heiress, in the matter of the estate of the late Mary E. Luce, have filed withdrawals in both cases.

Bruce Cartwright by his attorneys, Monsarrat & Weber, has filed a supplemental petition for perpetuating testimony in the suit of petition against R. W. Wilcox and others on a claim of title to certain lands in Palolo Valley.

FIGHTING IN CHINA.

Government Troops Said to Have Suffered Defeat.

London, Sept. 1.—A special dispatch from Shanghai dated Wednesday says:

The Chinese Government troops, it is reported, have been defeated in two pitched battles during the last ten days by the Kwangsi rebels, losing 3000 men. The rebels are said to number 80,000 and the provincial forces are against them.

A Governor of high rank has been ordered to lead his troops in person and competently suppress the rebellion within a month, under penalty of severe punishment.

An imperial edict just issued strongly censures the Governor of Kwangsi province for deceiving the Emperor in July last by reporting that the rebellion had been suppressed.

FOREIGN NOTES.

The steam whaler Fridjof has arrived at Tromsø, Norway, after landing Explorer Wellman and his party in the Arctic.

General Merritt has left Manila for Paris where he will appear before the Peace Commission.

Washington, Aug. 30.—Orders have been sent by the War Department to Manila, directing that General Greene, United States Volunteers, be sent to San Francisco to be mustered out, that General Babcock return to San Francisco for duty as Adjutant General of the Department of California, and that Major Simpson report at Washington for duty in the Adjutant General's office.

REMEMBER the MAINE

Thing to know is that we are gas and electrical engineers and that we are here for business. We install complete gas and electric plants with all the fixtures, etc., ready to run.

We handle all kinds of ELECTRICAL GOODS, gas and electric fixtures.

We are also sole agents for the Columbia Phonograph Co., and American Battery Co. "makers of the best storage batteries in the world."

We have already installed the following Acetylene gas plants complete with all fixtures which are giving entire satisfaction. Government Light House in harbor, Hawaiian Tramways Co., Mr. W. H. Hilt's residence, Oahu Railway and Land Co., and the new residence of Hon. C. W. Macfarlane at the Peninsula.

The light is absolutely reliable and will not go out as long as any gas remains in the generator.

The cost based on candle power is from $\frac{1}{2}$ to $\frac{3}{4}$ as cheap as electric lights at the present rates.

Several of the plants already installed are equipped with electric gas-lighting burners which make the use of gas as convenient as electric lights at about one-half the cost. A plant placed in your house makes you independent of lighting companies.

Our generator has received the unqualified approval of the Honolulu Board of Underwriters which does away with any increased rate of insurance. Call in and examine goods and get our prices. We want only a fair profit.

Remember that all our work, big or little is absolutely guaranteed and we replace and repair all material and labor which is defective within six months. Give us a trial order.

OLD BOAT BACK.

Australia Arrives from San Francisco
This Morning.

It was certainly a good sight to
see the old Australia hauled along-
side the Oceanic wharf this morn-
ing with Captain Houdlette on the
bridge, Chief Officer Lawless giv-
ing orders to the men, "Tommy"
McCombe rushing around attend-
ing to the newspaper men and
Chief Neiman standing on the
deck bowing to his many friends
on the wharf. After months spent
in the Klondike and Manila, the
Australia comes back to take her
old run, all cleaned and ready for
business.

She was to have sailed on the
2d of this month and the
agents were not ex-
pecting her until tomorrow.
As it was she got away a day
sooner. A fine trip throughout
was experienced. The Australia
brought 23 cabin and 40 steerage
passengers. Most of the latter are
men in search of work down here.
The Australia also brought 57
bags of mail and a cargo of gen-
eral merchandise.

On account of the fact that the
Australia was not looked for until
tomorrow, the Scandia was not
moved from the Oceanic wharf.
This caused the Australia to wait
a half hour in the stream or until
the Scandia could get out.

The present officers of the Aus-
tralia are as follows:

H. C. Houdlette, commander;
R. T. Lawless, chief officer; P.
Anderson, 2d officer; Geo. W.
Lasswell, 3d officer; W. H. Nei-
man, chief engineer; J. W. Smith,
1st assistant engineer; Jas. O.
Connor, 2d assistant engineer; T.
C. McCombe, purser; Dr. H. J.
McNulty, surgeon; J. G. Penfield,
chief steward.

Well Offended School.

Mr. Fitz, who arrived in the
steamer Aorangi, has come out
from Hurstpierpoint, England, to
take up a position in Iolani school,
the institution long maintained
with an excellent record by Bis-
hop Willis. The school is now in
the hands of Mr. Lane, seconded
by Mr. Fitz, and perhaps has
never had a stronger staff than it
has today. The Bishop has also
Miss Heslop acting as matron of
the school, which takes boarding
as well as day pupils. A number
of new boys have entered this
term.

Moonshiner Nalei.

Deputy Marshal Chillingworth,
in the guise of a soldier, went far
up into Maunā Tuesday night and
captured the Moonshiner Nalei
who had in his house, okolehao of
the finest brew. In the Police
Court this morning the defendant
pleaded guilty to the charge of dis-
tilling liquor.

Nalei was released from jail
four years ago when he had been
sent for ten years, having been
found guilty on the Island of Ka-
uai of murdering a Japanese, his
associate in the work of distilling
liquor.

The Japanese and he had a
quarrel on the banks of one of the
streams. The two fell in and
Nalei, being the superior swimmer,
held his antagonist under water
until he was dead.

When arrested by Deputy
Marshal Chillingworth last night
he confessed his guilt in the mat-
ter of distilling okolehao.

Police Court Notes.

In the Police Court yesterday
forenoon the following cases were
disposed of:

Ah Kee, unlawful possession of
opium, sentence to be imposed
Thursday, September 8.

Ah Pau, unlawful possession of
opium, nolle pros entered.

Flora, disobedience to parents,
ordered to return.

Richard Antone, intending to
commit an offense, discharge.

Nalei, selling liquor without a
license, nolle pros entered.

Nalei, distilling liquor, \$100
fine and 3 months imprisonment
Defendant plead guilty.

By Experience

Wise men use the experience of others and make it their own.

Those who have taken Hood's Sarsaparilla are the ones who are competent to speak of its merits.

The testimonials of cures by Hood's constitute a vast mass of testimony which proves the power of this medicine to cure a great variety of diseases.

These cures often seem marvelous, yet they are perfectly natural and are easily explained. They are the necessary result of purifying and enriching the blood.

"I have been troubled with scrofula all my life, and it effected my eyes so that I was obliged to remain in a dark room. I began taking Hood's Sarsaparilla. Now my eyes are so strong that the light never troubles me, and my health is good."

Among the arrivals on the James Makee this morning were the following: Mr and Mrs W H Rice, C M Cooke Jr and Col De La Vergne.

The last of the expeditionary soldiers in the Queen's hospital was transferred to the United States Army hospital day before yesterday. It was Sergeant Hatcher.

Sure Cure for Colds

When the children get their feet wet and take cold give them a hot foot-bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed. The chances are they will be all right in the morning. Continue the Cherry Pectoral a few days, until all cough has disappeared.

Old coughs are also cured; we mean the coughs of bronchitis, weak throats and irritable lungs. Even the hard coughs of consumption are always made easy and sometimes cured by the continued use of

Ayer's Cherry Pectoral

Your own doctor will explain this to you. He knows that wild cherry bark is the best remedy known to medical science for soothing and healing inflamed throats and lungs. You may rely upon Ayer's Cherry Pectoral to stop your cough.

Beware of worthless imitations. The name Ayer's Cherry Pectoral is blown in the glass of each bottle. Put up in two sizes.
