### **WASHINGTON NOT EASY** OVER THE PANAMA CANAL

By Ernest G. Walker. (Mail Special to the Advertiser.)

progress in building the big ditch and will meet with his approval. about the early date when it will be completed, a feeling prevails in official circles here that this is too big a project for the American people to be content some really reliable information about prospects must be had.

stood that practically every man in like. He was for a lock canal, notwithstanding the recommendations of fordecided to accept the President's view

On the other hand, there has been a band of carpers in Washington, always ready to speak and write gloomily Champ Clark, the Democratic leader. about the canal. They have predicted persistently that the present generation would not live to see the canal completed and all that sort of thing. Among these carpers are many prominent Senators and members of the House. Their output of unfavorable forecasts has made those who want to know the truth about the canal rather skeptical. But it has come to be pretty well known here that only the most favorable aspect of things is permitted to reach the public through the regular publicity channels on the isthmus.

Taft Well Qualified to Judge.

Mr. Taft, however, is probably as well qualified as any man in public life to inspect the canal and to pass judgment upon the present situation there. Washington looks for him to bring back definite word as to whether there is anything serious in the criticism of engineers about the foundations for the Gatun dam. These criticisms have become so persistent as to be giving the ampaign for a sea level canal,

open to him to investigate. He will have with him engigineers on the isthmus in charge of the immediate operations.

Many things that critics of the canal emphasized are already coming true. Senator Teller of Colorado said Mossman, Alice Oto, Madeline Fernansome years ago that the original \$130, dez, Kathleen Ruttmann and Mabel 900,000 voted for the construction of the canal would fall far short of the necessary amount, and that the aggregate cost would be nearer \$500,000,000. Senator Hale of Maine, chairman of the Appropriations Committee, has been of the opinion that the ultimate eost of the canal would be half a bil-

lion dollars. There has already been spent about \$100,000,000 on the big ditch, and that apparently is not half what the government will have to pay. If it should happen that Congress authorize a sea level canal, the enterprise will easily reach the half billion mark. It is believed at the Capitol that if Mr. Taft is convinced the locks and dams will not be secure and can not be constructed sufficiently staunch to withstand earthquakes, he will say so when he has returned to the United States.

Escort of Two Fine Cruisers. The President-elect will be accompanied on his trip to the isthmus by two of the newest and best cruisers in the American Navy-the North Carolina and the Montana. Every precaution is to be taken to ensure his safety. He will start for Panama after the electors have assembled in the several States and east their votes for him. If anything untoward should befall after that time and before his inauguration, it is very uncertain what course the government could constitutionally pur-Roosevelt's successor. For that reason there is more anxiety among the constitutional lawyers, at least, over Mr. Taft's forthcoming trip to Panama than there was when President Roosevelt disregarded another time. honored precedent and left the soil of the United States to visit the canal zone. For if anything ill had befallen President Roosevelt there would have been a Vice President to have stepped

It is said that as President, Mr. Taft will not leave the United States. and that he is not likely to travel again to the canal zone while he is an occupant of the White House. He stated while he was in Washington on his last trip that he expected to observe carefully the traditions of the presidential office.

President Roosevelt is very anxious for Mr. Taft to make the Panama trip. He is not altogether easy in his mind about things on the isthmus,

No Holiday for Ways and Means.

The poor old Ways and Means Committee is about the only official body in Washington that is taking no thought of the holidays. It has been holding hearings right along, bringing people before its members on suboenas and working with might and main to discover facts about the tariff schedules. President-elect Taft prodded the Republicans of the committee so hard that they have been driven to des-

The hearings are closing this week. Some of the big magnates, such as Schwab and Gary, the steel captains, testified last week, and Andrew Carnegie was one of the last to be called. With the conclusion of the hearings the Republicans of the committee are beinning to frame a tariff bill. Before this week is over some of the new bill Pauahi Street, off Nuuanu Street.

will have been written. The Republicans of the committee are to hold WASHINGTON, December 21.—The executive sessions from ten o'clock till one o'clock every day. This program impression grows in Washington that will probably be kept up during the by no means the least important of next month or two, or at least till the President-elect Taft's tasks this win- bill has been completed. It is thought ter is to be his visit to the Isthmus of probable that the first draft of it will Panama to inspect the canal. In spite and probably to President-elect Taft, be submitted to leaders of the House of all the hurrah talk about splendid because of the desire to get a bill which

Plain Sailing for the Bill.

Just at present everything looks like plain sailing for the bill in the House of Representatives. # INDIANS MAY

Something About the Educated "Redskins" of the Northwest.

Do you remember the first real Indian story that your grandmother read you out of that big, red-covered book? Or did you happen to have one of "redskins" himself, and could say that he had really killed one of the "'varm.nts"? If so, you may be prepared to believe everything that is now told of the Indian and his ways of living and the things he does.

The antiquated idea that an Indian is a demon just because he is an Indian has pretty well disappeared, yet, just as there are a great many laughable things said and written about Hawaii and Hawaiians by people who haven't the slightest conception of the real truth, so it is with the Indian and his race. My good friend, Alexander Hume Ford, who in his interesting article on the Chemawa Indian School made the statement that the Indians might come to these Islands to compete in the Pan-Pacific Carnival, must have been slightly muddled when he said that they would live in their teschool, would think of domiciling himself in a wigwam or a tepee, is absurd. They don't do that sort of thing in the wild and wooly West any more.

leges and universities of the West in time was 18 min. 40 sec. all branches of sport. They are usually beaten, except in certain kinds time limit, and the Bisho brothers and of games, but their grittiness is al. Spencer did not finish.

the elimination walking race which carriages and automobiles followed the started yesterday afternoon and finish- walkers over the course. ed at Bergin's place at Waikiki. The be desired, the police kept the course idea was to see how many confestants well cleared, and the race was walked Chinese A. C ...... 6 those fine old grizzled veterans of a could beat nineteen minutes over the without a hitch, grandfather who fought against the course and by so doing qualify for the cup race over the same course which takes place next Sunday afternoon.

No less than ten of the starters made better than the stipulated time, the the time limit.

The feature of the race was the showing made by Henry Chillingworth, who presented by H. Hackfeld & Co., Ltd. covered the distance in 16 min. 31 sec., and was easily the fastest man in the race proper.

H. M. Ayres went over the course for a training stunt, starting with the Co. crowd. He made the distance in sixteen minutes flat, three seconds better than made by Sullivan in the first race C. Lynch, and ten seconds better than his own time on that occasion.

Starter Jack Scully fired the gun at Fallon, 2:15 p. m., and the following got away at the signal:

G. J. Boisse, W. F. McTighe, C. R. here. To one who has lived in the Northwest, the suggestion that a Weyers, W. Feagler, Chas. Spencer, J. The way is now compared to the committee. W. Caldwell, G. #### TROPIC AND SUBTROPIC IMPORTS.

of tropical and subtropical products last year the continental United States imported six hundred million dollars' worth, of which Hawaii contributed less than fifty millions. Of the more than half a billion contributed from foreign countries, sixty-eight million was the value of coffee, ninety million was the 'How do you explain these great earthvalue of cane sugar, while sisal, rubber, cocoa, fruits, tobacco and a host of articles Hawaii might raise but doesn't in any great quantities make up a large part of the balance.

The growing dependence of the United States upon the tropical and subtropical world for its food and manufacturers' material is illustrated in some figures just made public in the annual report of the Chief of the Bureau of Statistics, Department of Commerce and Labor; they show that practically come of natural law, and will point six hundred million dollars' worth of products of tropical and subtropical out as a matter of economics, the folly countries come into the United States annually against practically two hundred million dollars' worth in 1875, and practically three hundred million dollars' worth in 1895. The report enumerates certain tropical and subtropical products brought into the country to the value of five hundred and sixteen million dollars' in 1908 and five hundred and sixty-seven millions in 1907, but does not include the imported articles manufactured from tropical products and certain other groups of articles, of which a part are brought from the tropics and a part from the temperate zone countries. If to the imported tropical products, distinctly enumerated as such, is added those imported articles manufactured from tropical products and a proper share of the other articles coming in part from tropical countries, the grand total would approximate six hundred million dollars, or practically two million dollars for every business day of the year, and form practically one-half of the total imports into the country.

Sugar, coffee, tea, cocoa, fruits and nuts, rice, sago, tapioca, spices, tobacco, india rubber, silk, cotton, hemp, jute, sisal, cabinet woods, gums, cork, dyewoods, and numerous other articles of this character form five hundred and sixteen million dollars' worth of tropical and subtropical products brought into continental United States in 1908, and the five hundred and sixty-seven million dollars' worth brought in 1907. The falling off in tropical and subtropical laid up with a broken collar bone. Mr. products imported in 1908 occurs chiefly in india rubber, silk, cotton, jute, Ashiya was trying out a new wheel, hemp, and sisal, a part of this reduction being due to lower prices and a part to the partial suspension of activities in the manufacturing industries by which they are consumed. In practically all these imports, however, the closing months of the calendar year 1908 show a marked increase, and it is probable that the record of 1909 will bring the total of tropical and subtropical imports again in the vicinity of the six bundred million dollar line.

South America, Central America, Mexico, Cuba, and the other West Indian islands, the Hawaiian Islands, the Philippines, the Dutch East Indies and Straits Settlements, India, and Southeastern Asia are the chief contributors in this large supply of tropical and subtropical articles imported. Of the \$133,-600,000 worth of can sugar brought into continental United States in the fiscal year 1908, Cuba contributed \$58,000,000, Porto Rico \$19,000,000, the Hawaiian Islands \$40,000,000, and the Dutch East Indies \$11,000,000. Of the \$68,000,000 worth of coffee brought in in the fiscal year 1908, Brazil contributed \$48,000,000, other South American countries \$9,000,000, Central America \$4,500,000, Mexico \$3,333,000, and the East Indies a little over \$1,000,000. Of the \$14,000,000 worth of cocoa imported in 1908, \$4,500,000 came from the British West Indies, \$2,000,000 from other West Indies; practically \$3,000,000 from Brazil, and \$2,500,000 from other South American States. Of the \$32,000,000 worth of tobacco (including in this term the manufactured as well as unmanufactured articles) brought into continental United States in 1908, \$13,000,000 came from Cuba in the crude state, and \$4,000,000 in the manufactured form, \$6,000,000 from the Netherlands in the form of wrappers for cigars, \$3,500,000 from Porto Rico in the form of eigars, and \$1,500,000 from that island in the un manufactured form. Of the \$14,500,000 worth of cotton imported in 1908, \$12,250,000 came form Egypt. Of the \$37,000,000 worth of fruits and nuts, \$11,500,000 consisted of bananas, of which practically \$6,000,000 came from Central America and nearly \$4,000,000 came from the British West Indies; while the \$4,333,000 worth of lemons came chiefly from Italy. Of the \$36,-500,000 worth of india rubber imported in 1908, \$19,000,000 worth came from Brazil, nearly \$4,000,000 from Mexico, while about \$10,000,000, which is credited to Europe, was chiefly the product of Africa, while smaller quantities from the British possessions in India, Ceylon, and the Malayan Peninsula. Of the \$16,000,000 worth of tea imported in 1908, Japan contributed about one-half, China about one-fourth, while the remainder came chiefly from India and Ceylon, a part of it direct from these countries and a part of it by way of the United Kingdom. Of the \$63,000,000 worth of raw silk, usually considered as at least a subtropical product, \$40,000,000 worth came from Japan, \$13,-000,000 from Italy, \$8,250,000 from China, and \$1,500,000 from France. Of the \$17,000,000 worth of goatskins imported in 1908, though not usually classed as a tropical importation, \$5,500,000 worth came from the East Indies, practically \$2,000,000 from Mexico, nearly \$2,000,000 from Brazil, \$1,000,000 from other South American countries, and \$500,000 from Oceania and Africa.

Most of this large and growing supply of tropical and subtropical material comes from sections to which, at present, our exports are comparatively small. Brazil and Cuba supply a larger share of these tropical products than any other two countries. From Brazil our imports are practically five times as great as our exports thereto. The figures of trade with Brazil in the fiscal year 1907, a normal trade year, show imports from that country of \$98,000,000, and exports to that country of \$19,000,000. In the case of Cuba the imports therefrom amounted, in the fiscal year 1907, to \$97,500,000 and the exports thereto to \$49,000,000; in the case of British India the imports from that country in 1907 amounted to \$59,000,000 and the exports thereto to \$7,000,000; in the case of the Straits Settlements, the imports therefrom amounted to \$21,000,000 and the exports to \$1,500,000; in the case of Egypt the imports from that country in 1907 amounted to \$16,500,000 and the exports thereto \$1,250,000; in the case of the Dutch East Indies, from which large quantities of sugar are imported, the imports therefrom amounted in 1907 to \$11,500,000 and the exports thereto to \$2,000,000; in the case of Turkey in Asia, a tropical section, the imports therefrom in 1907 were \$7,500,000 and exports thereto but little more than

The course being pursued by the editor of the Nippu Jiji in the publication of articles calculated, to say the very least, to disturb the present harmonious relations between the Japanese and the other races in these Islands, is neither that of a wise man nor a real friend of his people. Conditions among the Japanese laborers of Hawaii are not as he represents them to be, nor as he would have his readers believe. The plantation laborers here are working under a constantly increasing wage scale, and it is only the least worthy class among them who receive the wages the Jiji editor would make out are those generally prevailing. Incendiary articles, such as that of Saturday, may easily breed trouble from which no good can result, and the consequences of which will be upon the heads of those stirring up the strife.

A writer to the Pall Mall Gazette from San Francisco, notes the fact that two sailing vessels cleared from San Francisco for London recently, taking canned pears as their only cargo. Honolulu is no farther by water from London than San Francisco is, and it should only be a question of a short time before cargoes of Hawaiian canned pines are shipped from here direct to that great canned fruit market. Our fruit can compete with any, and its market ought to be the world.

The Hawaii Shinpo remarks that it will probably surprise the management of the Susannah Wesley home to know that the Japanese women regard the institution as a short cut to the divorce court and the Japanese men regard it as an institution maintained for the purpose of harboring runaway wives. We co not doubt that this will surprise more than the management of the Home.

If there is to be a beef shortage in Hawaii, as seems probable, it is well that the fact has become known before the arrival of the additional troops for Oahu posts. The shortage can not now be attributed to the greater demands upon the supply and provide a basis for any statements that the Territory should not be considered when it comes to the purchase of supplies.

If all else fails in the meat supply, we have the goats of Lanai to fall

# CAUSE OF EARTHQUAKES

Dr. J. W. Wadman, superintendent of the Methodist mission, delivered a sermon at the Methodist church yesterday morning on earthquakes, his text being chosen from Acts 16:26, "Suddenly there was a great earthquake." He stated that the reason for speaking on that subject was because a gentleman put the following question to him: quakes from your standpoint in the-

In answer he said that one class of people held that they are direct visitations of God because of the sins of the people, which is one extreme, and another class with more scientific knowledge. see nothing in it save the ordinary outof risking so much life and property in well defined and well understood earthquake belts or volcanic limits. That is another extreme and between these two extremes all manner of theories may be

In summing up Dr. Wadman said that from all we know of history and from all we know in the present day of nature, when science is still in its infancy, the working of the natural and supernatural cannot be so accurately defined as to permit any man to say that earthquakes are judgments of God, nor to allow any man to rub God entirely out of the event and say it is the mere outcome of natural law.

landed from the vessel.

plies. On Friday the Oceanic steamthe new turbine steamer Chiyo Maru of ing. the T. K. K. line is due from Yokohama en route to San Francisco.

This makes a total of eight large ceamers due between now and Saturday. Sandwiched in are many of the Pacific Coast and the Hawaiian Islands Inter-Island steamers, in and out of port, and some sailing vessels are about porated by capitalists of that city and eighteen days from San Francisco. San Pedro, Los Angeles & Salt Lake Nothing has yet been heard of the ship R. R. The projected lines are to make Fort George, 168 days out from New port Los Angeles their chief coast York for this port, considerably over-

#### Cocos Island Again.

attorney of New York city, and States for railroad ties of a particularly Davenant Rodger, now residing here, tough Hawaiian wood called ohia is the to form a corporation for financing an reason for the activity of the Los Anwhich owns the island.

Rodger states that his personal investigations concerning the treasure have been carried on for the last ten years. He has charts of the island which he thinks will aid in locating the hidden gold. Some of the treasure is supposed to have been left there in 1802 by a British schooner which had turned pirate. Eleven boatloads of ther gold were secreted there in 1835 by the crew of the barkentine Mary Dyer. Part of Rodger's information consists of a statement said to have been made by a sailor named Keaton, one of the three survivors of the Mary Dver's crew.

The Rodger party, if enough money

## **Atcherley Fills** Wayson's House With Bullets

(Continued from Page One.)

and his wife heard the crack of the shots, but, as they were probably aim- 'I have no wheels in my head," Atchered at the office, which stands in front ley is alleged to have answered, drawof the house proper, were not able to ing himself up haughtily. "Voices detect the noise of one of the bullets, come to me in the night and tell me which struck, plowing its way through that you are my mortal enemy; that a front window pane and burying itself in the wooden door on the interior of the office.

From all appearances Atcherley had been aiming promiscuously at the house from Kauai 5000 bags A sugar and 2 KATUNA, Br. S. S., from Hon. for one chickens.

KATUNA, Br. S. S., from Hon. for his leaden death messengers would locate itself in Wayson's body. Shots called at the control of the locate itself in Wayson's body. Shots called at the police station and asked have been fired from almost every angle, | Fred Iaukes, the receiving station clerk, One bullet, which is probably one of those fired yesterday morning, cut a clean hole through the window pane in Wayson's front office, facing directly on Beretania avenue. Streaks in the grass where others have been badly aimed and struck the ground, then ricochetting upward and burying themselves in the porch wall, were easily made out yesterday afternoon. Three bullets are imbedded in the exterior of the house, all of them apparently having been shot from different positions. According to policeman Anderson, who saw the flashes of each shot, Atcherley was running, in a crouching position, while he was firing yesterday morning, and this probably accounts for the angles from which the shots were fired, the result of the first trigger-pull of vesterday's fusillade being that the bullet went through the office window from

the Waikiki side. Last Wednesday night both Dr. Wayson and his wife heard the sound of shots, but they have only a dim recollection of the occurrence, as they were Wayson is a prominent member, accomhalf-asleep. On Thursday night, how panied the latter to the police station ever, after returning from the theater, yesterday morning. They went, not in Mrs. Wayson thought she heard some their official capacities, but merely as after midnight. About this time Dr. Wayson also heard a noise outside the house, apparently of someone walking cautiously on the front porch. He looked outside but saw no one, though it is probable that Atcherley, or whoever the prowler was, had hidden himself

Dr. Wayson received an urgent call that night from Punahou, and, rather than leave his wife alone with the sick baby, called in Dr. Mackall, who lives just across the street. Before Wayson the three, and later on when Wayson returned, was again heard.

The shooting awakened the family again last night, but, as before, Wayson paid little attention to it, merely saying to his wife that "it was quite a familiar sound."

Morphine is Blamed.

It is generally believed that Atcherlev returned to an old habit of taking morphine, and this is substantiated by the fact that it was found necessary at the police station yesterday to administer the drug hypodermically a number of times to keep him in a quiet, restful condition. When booked at the station house yesterday morning, Atcherly is alleged to have reiterated numerons times that Dr. Wayson stole his leprosy cure.

Accused Wayson.

The shooting by and arrest of Atcherblow to him.

held full sway over the man who won notoriety through his connection with Wallach. Two months ago he called on Wayson in the latter's office, asking him why it was that he (Wayson) opposed him so bitterly in the Board of Health.

"Why are you my enemy?" asked Atcherley. "You are mistaken," replied Way-

son. "I have always been one of your best friends in the board. Get those wheels out of your head-" "Sir, I'll have you understand that

you have stolen my cure for leprosy. They speak to me from the manhole of the sewer and I hear them in my room Had Been Persistently Bombarding. at night. You are an enemy of mine." At this time, Wayson calmed the drugged unfortunate who finally left

> About two weeks after this, Atcherley "If he is'nt, he ought to be," Atcherley said when he was informed that

> Wayson still enjoyed his freedom. This incident was told to Wayson at the time, but he only laughed and promptly forgot all about it, until it was recalled to his mind by the recent happenings.

#### Once a Dope Fiend.

About eight years ago Dr. Atcherley was in a bad condition from the use of drugs and liquor, and would have gone entirely to pieces had it not been for the splendid work of Dr. Wayson, who pulled the morphine fiend together and started him off right. Atcherley was out of his mind much of the time then, and his morbid thoughts have probably been induced of late through the recur-

#### rence of the habit.

Atcherley Could Not Be Seen. Mark P. Robinson and C. Charlock, president and secretary respectively of the Board of Health, of which Dr. one fumbling around the back door, but, intimate and warm friends of Dr. Wayon hearing nothing further, decided that | son. They did not see Atcherley, howshe had been mistaken. Eleanor, their ever, as he was held for investigation little daughter, was very ill with the and no interviews were permitted. They croup on that right, and consequently learned that Dr. Emerson had been comthe lights in the house were lit until pelled to administer morphia to the

#### prisoner to keep him tractable. Cure Not Atcherley's.

"So far as I know," said Dr. J. T. Wayson yesterday afternoon, "the treatment which I use in leprosy cases is not in the least similar to Wallach's or Atcherley's. I know nothing whatsoever of the alleged cure which Dr. Atcherley has. As a matter of fact, the formula for the remedy with which I have had marked success was given me about five or six years left the house, the firing was heard by ago by two men who are at present prominent in this city. I do not care to mention their names for publica-

"The remedy is very simple, and I mix the ingredients at the Kalibi Receiving Station myself. I do not claim to have a cure in this medicine, as I have stated before, but I do maintain that the treatment will remove ali clinical evidence of the disease. "I will insist that Atcherley be

thoroughly examined as to his sanity. I want to be perfectly fair in this, but for the safety of my wife and children I will insist that an examining board be selected to determine whether or not the man should be detained." Dr. Wayson apparently is not great-

ly worrying over the fact that his life was endangered, but he will take steps to protect his family. Dr. Atcherley was an applicant a

## From Honolulu to Vancouver

By Alexander Hume Ford

There were those on the Makura who and come out, on this her first voyage, rom Glasgow, bound for America. She your trunk for a voyage around the a palatial boat, 8350 tons, can make Sound! that the trip from Honolulu to Victoria and balmy breezes of Puget Sound. was accomplished within seven days. Look at the map! Board the steam-There is one innovation made by the er at Seattle or Taeoma and for four Makura; above the dining saloon is the sightseeing, paying for the whole trip, ladies saloon, no smoking here even including comfortable berth and unsurabout the big fireplace of blazing logs passed meals, only \$12.00. Can you that graces one end of the sumptuous beat it? Is it not cheaper, and far parlor finished in pink damask. Above their electric lighting, their commodions the ladies saloon is still another pala- staterooms, handsome lounging pariors, tial parlor, for ladies, mind you, who large promenade decks, great size and do smoke, or who don't object to their staunch seagoing qualities, these big escorts who smoke. None of the ladies ocean steamers of the Pacific Coast aboard who smoked were American, for features for the pleasure seeker. This it is not always so. The table on the Makura was equal

to any on the Atlantic greyhounds, Meets every first and third to any on the Atlantic greyhounds, Thursday, at 7:30 p. m., in Odd Fellows' Hall. Visiting Rebekahs are cordially invited to attend. FRANCIS BINDT, N. G. SALLIE L. WILLIAMS, Secy. usual ardor, although delicious asparagus and still more expensive fresh erisp celery was always on the table. There B C., was a lack of chicoryless coffee, but then Grey of the Moana is the only Australian bred steward I ken of who will serve real Kona, strong as you wish it and without chicory. I am placing these facts before the head of the commissariat department in Vancouver and hope to convince him that it is the seeming trifles that count at sea and that such a floating palace as the Makura should be flawless in every respect. Real coffee (with no "mixture" in small letters on the original package) and the violation of the Australian rule of no green peas aboard ship would create perfection in travel on the Makura between Honolulu and Canada. It was a rough voyage, but few realized that the weather was stormy, so steady was the boat. Several round-the-world voyagers aboard pronounced her the steadiest ship they had ever boarded-and I believe she is. One passenger on the Makdra whom hope to have with me in Hawaii for

a mountaineering tramp about the islands is S. Turner, of London, the tamous mountain climber, F. R. G. S., author of a celebrated work on Siberian mountain elimbing that won him a medal from the Russian government, and the only man who has ever crossed over the summit of Mt. Cook in New Zealand. Our Russian and Siberian experiences formed a bond of sympathy and when I dwelt on the mountain trails of Oahu, the crater of Haleakala and the big mountains of Hawaii, Turner agreed to come back with me next year to Hawaii and we will explore. He will bring his wife and chil-Meets every second and fourth Saturday evening at 7:30 o'clock, in Pythian Hall, corner Beretania and Fort streets. Visiting brothers cordially invited to attend.

> nountain climbing. We had five evening hours in Vietoria and started out for the nearest Seafood restaurant, where I met my tourist than do the heart tourist than the heart tourist the heart to heart tourist the heart to heart first Puget Sound erab fifteen years tourist than do the boardinghouses of ago. Victoria seemed a struggling village then compared to what she has since become. Crabs as big as a soup plate were then given away gratis with a small steak-order; now they are a layery. We see a live were the new they are a layery. luxury. We ate a big one, each, were beguiled to a theater by an advertisement of a Hawaiian sextet and came back for more. The content of the success of any plan to people Haback for more. The content of the success back for more. The crabs were good, from Vancouver to Seattle, I am imwas one-half Hawaiian in the group, a pressed with the fact here that each hapapake, and the rest—well they look-ed like malihinis, they sang like mali-offers a variety of scene and mountain hinis, and I believe they were malihinis. Yet, although they sang but one song that might by any evasion be call- kura passed out before glorious Manoa ed Hawaiian, "Tomi," they were en- in the gloaming, some one on the beach cored again and again as the star feat. at the Outrigger Club lit a farewell ure of the bill; which only demonstrates bonfire-well, I would rather see that that the stranger does go in raptures signal fire again and Manoa valley, over the music of Hawaii. I prefer it with the prow of my ship turned Ho-

knew it. Turner and I discussed the great vast reaches of mountain valleys seen from Puget Sound; valleys and mountain peaks that would take weeks to explore, and for what? One continuous tramp through pine and snow. Puget Sound is wonderful. Next to the sounds of New Zealand perhaps the most aweinspiring stretch of mountain and water vistas in the world. But there is no such grouping as in Hawaii, the world's jewel box of surprises. For lonely overpowering grandeur, Puget Sound and mountains, yes. For inviting, enticing, embracing, resistless mountain charm, Hawaii. That is the conclusion Turner and I reached, and I like Turner, for he has done something, and even at a glance he recognized the fact that he had left the best undone, and he is going to rectify that by doing Hawaii as only an experienced thrill-loving mountain climber can do our most difficult and interesting peaks. Hawaii and her mountains for mine, with Turner, that I may know the land I love as I wish to know it and make

others know it. I take off my hat to the Puget Sound transportation companies. What an example they set Hawaii. They really set out to tempt the tourist and they succeed. I hope to take up the matter of combination cruises from Hawaii and the South Seas, including the Puget Sound eruise. If only such a scheme could be worked among the Hawaiian islands! With the Matson Company's 32 KING STREET. P. O. E., will meet in their Puget Sound boat in operation this may come about-at least I shall work for every Friday evening. By it, and persistence accomplishes much

in the long run. I asked for a five-dollar-a-day cruise-for the tourist-among the Hawaiian Islands. See what these progressive Puget Sounders give the tourist for his money! Cruises on palatial steamers, at \$3.00 a day if you please, meals and berth included-and only four dollars a day including ocean voyage to San Francisco. Or if a trip to Nome, Alaska, is added, only five dollars a day. We will yet have our popular cruises among the Hawaiian Islands

See the example Puget Sound sets us this little circular everywhere:

Round the Sound Excursions. Quit your worry and work and pack

That's a trip worth while! Away 18 knots an hour and did make 15, so from the heat and dust to the cool air

glorious days travel from port to port is an opportunity you can not duplicate! Now is the time to go!

From Victoria, B. C., the fare is only \$15 for a five-days' voyage and is yearly taken advantage of as one of the grandest short trips from that City, From San Francisco, eleven days for \$45, with ample stopover, if desired, on the return trip, at Seattle or Victoria,

This vacation cruise is on the big steamers President, Governor or City of Puebla sailing every five days. You will find many congenial people also making the excursion. There will be a continuous panoramic shore line of mountains and forests, beautiful beyond description, the Cascade Range with peerless Mount Rainier (Mt. Tacoma) 14,444 feet high, the mysteri ous and unexplored snow-capped Olympic Mountains, enchanting islands, and interesting stops with trips ashore at many large cities! You can loaf and rest aboard ship, send messages or re ceive news via wireless telegraph, fatten up on good things from the commissary, or vary the rambles about the steamer's ample decks with sightseeing trips ashore. From San Francisco stops are made at Victoria, B. C., Port Townsend, Seattle, Tacoma, Everett, Anacortes, Bellingham and Vancouver, B. C., in the order named, then return is made to Seattle and the vessel proceeds back to San Francisco via Port Townsend and Victoria. While the steamer is in port and freight is being hurried aboard and ashore, there must needs be a stop of many hours dura-Passengers are informed how long this will be by the ship's officers and usually pass the time visiting the

Everywhere I find the Puget Sound people take to the plans proposed by the Territorial Transportation Committee for joint Hawaiian-Australasian work in America. They even wish to contribute toward the expenses on the ground that it brings people to the Pacific Coast, and that he cause of Hawaii and he South Seas is their cause also. The Honolulu Home Hotel init anyway, and there seems only one way to get it. Mr. Turner is to be my pupil on the surfboard, I follow him cife Coast papers give ample space to cific Coast papers give ample space to telling the truth regarding the really

scape that one does not get here in a day's ride on the train. As the Masignal fire again and Manoa valley, to this day to any in the world—for noluluward, than any one sight this pleasure without intellectual effort—side of the regions that are reserved and I know that it will pay Hawaii to for the blest-and I am now whizzing give more attention to her native sing. along through a most aweinspiring ers and songs. The sextet did not portion of the world's great wonder sing "Aloha Oe". I don't think they book of scenic illustrations. book of scenic illustrations.

# BAND WILL PLAY

The program for tonight's band concert at Emma Square will be: Part I.

March-The Navy ..... Berger Overture—Unrest ...... Storch Intermezzo—Clouds of Roses..Bergere Selection-Soldiers Parade .... Hums Part II.

Vocal-Hawaiian Songs. . Ar. by Berger Selection-Italian Melodies ...... ..... Rempezotti The Star Spangled Banner

# AN ARTISTIC TREAT Mr. and Mrs.

The entertainment to be given at the Opera House next Saturday night for the benefit of the Italian Relief Fund will be an artistic success, as well as a financial one. The members of the Dramatic Circle who are to take part in the sketches and the balcony scene from "Romeo and Juliet" have been working faithfully, and will surprise their friends by their clever act-

The musical part of the evening will be one of the best musical entertainments that have been given in Honolulu for years. All of the participants are well known locally, and the program will be varied and full of interesting numbers. Some very fine orchestral, quartet and solo work may be expected.

Every cent taken in will go to the relief of the Italian sufferers, as there will be no expense for talent, hall or advertising. Honolulans should turn out in a body to make this benefit a

THE GEM.

If the "old man" happens to overstay his leave any night this week, attribute it to his visit to the Gem where the attractions in music and motion pictures will be unusual. It is a delightful place to spend an hour or so because the temperature is low and the air kept fresh with the aid of a dozen electric fans. Go there any day this week and see something good.

# AN ESSAY ON CATS

When a man wants to make a wise remark, concerning a mining stock that he knows nothing about, he says, "Another Wild Cat." A man reading one of my advertisements the other day remarked, "Another D- Wild Cat," meaning, I presume, "Another Dear Wild Cat." I know that all "wild cat" propositions are dear at any price, and I wish he would not speak of my proposition in that en-

H. H. Williams, the man who undertakes to embalm you after you are dead, owns a handsome cat of the Thomas variety, possessing marked intelligence. You go into Mr. Williams' office and you say to his cat: "Tommy, shake hands," and Tommy will gravely put out his paw to be shaken. Then you say, "Tommy, shall I buy MAYFLOWER Stock today," and Tommy will say "M-e-o-w," which I presume means Yes. At least Tommy knows just as much about Mayflower, as the man who calls it a "wild cat" without giving it a particle of investigation. I repeat, Mayflower is a legitimate proposition. It's a mine. BUY "MAYFLOWER" STOCK. BUY IT NOW! When I first came to Honolulu, Mr. Williams riding by in his automobile, was pointed out to me as a "wealthy planter." Do not think I am trying to advertise his business. He is a good friend of mine, but I like to see his business dull and quiet. Of course I would just as soon Williams would plant me under a Kukui tree, when my time comes, as any other man in his line. He is bound to get us all sooner or later. May it be later, and "Mayflower" bloom (and pay dividends) for many decades, ere he gets any of us. Selah! which is scripture for See!

In conclusion I want you to cat-ch on to these facts. The Mayflower Mine, is in the Nevada City-Grass Valley mining district, Nevada Co., Cal. This district is said to contain more rich quartz veins, than any similar area in the known world. It is so richly mineralized, that the U. S. Government Geological Survey, have published a Special Folio of this District. I can show you a copy of the Folio at my office. The Mayflower ground has eight quartz veins. In addition it has a rich gravel channel. It has a modern twenty stamp mill. It owns its own water power. It has two miles of underground development. The North Star is down a mile. We need money to go down to greater depths. Our stock is a good buy at 25 cents per share. Don't procrastinate. Take on a block to day. Don't wait till by and by. BUY "MAYFLOWER" STOCK. BUY IT NOW!

# SYNOPSIS OF AMENDMENTS

(Continued from Page Nine) port of a family and upon such terms appeal from his own decision is amendof payment, residence, and other terms ed slightly, and the provision against motion of bona fide homesteading on the tried by him is omitted, that by genlands in question. This provision is eral consent not having operated well. Reclamation Service on the mainland than like other public lands on the applying to Congress for that purpose. mainland. They require much capital for their development; they yield heavily and command high prices. More-over, the conditions of temperature, small. Consequently it has seemed best that wide scope should be given for the settlement of those lands for homestead purposes, jut as is done under the reclamation act. The intention is to make conditions of residence and cultivation sufficiently strict and terms of payment sufficiently easy to accommodate bona fide homesteaders and discourage speculators; in other words, to require what to permit the President to turn over to the bona fide homesteader would wish the Territory the title of lands used or would find no object in doing. In general, it is proposed to require a residence of five years, to begin within three years, thus permitting the taker tion until he can get the land developed, owing to the large expense required for developing lands in Hawaii and the long time required for raising tropical products, to require ten years for ceeds now all go to the Territory. The stantial part of the land to be continallow payment to be made in installments extending over a period of ten divisions for their purposes.

Preference rights of purchase have in other times.

area which may be taken and prevents ways insisted as far as possible upon repeating. It also requires a person, if maintaining a high standard in their an alien, to have declared his intention judiciary. The cost of living in Hawaii under the preliminary agreement, and the profession of the law is not so to become a citizen before he can ob- evercrowded there; consequently it is tain his patent; and, while it provides difficult to get the best men to serve for forfeiture for non-compliance with on the bench without adequate com-the terms of the agreement, it provides pensation. Unless these salaries are

n good faith. The amendment provides for bringng the management of the public lands entirely under the land office, instead of leaving it, as at present, under several departments-except insofar as certain lands may be transferred to other departments for their use. At present | Territory authority in local health mat lands may be sold and conveyed by anyone of three departments, at least, thus giving rise to confusion in records and other difficulties. It also provides that when private lands are obtained by exchange for public lands they shall have the same status as if they had previously been public lands. This is ntended merely to settle various quesalso that the setting aside of lands for Governor, and that while so set aside the lands may be managed as may be provided by the laws of the Territory. It is now a question whether the Governor or the Commissioner of Public Lands is the proper person to set aside lands for certain public purposes and also whether, for instance, in the case of forest lands they may be managed now paid annually into the Federal by the Bureau of Agriculture and Forestry or must be managed by the Su-perintendent of Public Works. The amendment repeals a number of seetions in the land laws which are in conflict with or superseded by the proosed amendment. Other minor difficulies experienced in the administration of the lands are also remedied by the

May Abolish High Sheriff's Office.

Section 6, Repealing Section 79 .-Section 79 provides that there shall be a High Sheriff of the Territory. That was enacted before the establishment of county governments. Now that there are county sheriffs there is little need of a High Sheriff, and the repeal of this section will permit the Legislature of the Territory, if it deems it best, o abolish that office.

Governor's Power to Dismiss.

Section 7, Amending Section 80 .- The main object is to permit the Governor to remove officers appointed by him without requiring the consent of the Senate. The consent of the Senate is equired now for the removal as well as for the appointment of officers appointed by the Governor. The provision inserted under conditions arising out of the monarchy and its overthrow, which no longer exist. The requirement of such consent to removals placed my two predecessors in the governship in embarrassing positions, There the biennial sessions without having to call the Senate in special session at a cost of several thousand dollars,

Incidentally the amendment removes the uncertainty as to whether justices and judges of the Supreme and Circuit appointed and qualified or whether their offices are ipso facto vacated upon the expiration of their terms,

Disqualification of Judges Section 8, Amending Section 84.—The Stat., 630).

still suitable in some cases, except the a judge a person who has been of counsettlement association, which is abol. sel in the case, the Territorial Supreme ished) permits the sale of land in lots Court having decided that that is not of such area not exceeding 160 acres a disqualification. Incidentally the proas may be deemed requisite for the sup- vision against a judge sitting upon an as may be deemed proper for the pro- his sitting on a new trial in a case similar to that in the reclamation act The Legislature of the Territory is also on the mainland. The lands of Hawaii given authority to add other causes of are more like those reclaimed by the disqualification in case they should be desired, thus obviating the necessity of

Territorial Land Titles.

Section 9, Amending Section 91 .- Under Section 91, the public property ceded to the United States upon annexrainfall, crops, population, etc., vary greatly in Hawaii and the available ritory but the President or the Conarea of public land is comparatively ernor may set aside any of it for the ritory, but the President or the Govuses and purposes of the United States. In some cases property has thus been set aside as a matter of precaution which has subsequently been found not needed. One object of this amendment is to permit such property to be restored, but only by direction of the Pres

ident, to its previous status. desired for use by the Territory for public purposes. At present the Territory has schools and other buildings and public works upon lands the title to which is technically in the United to earn money at some other occupa- States. The Territory is constantly expending money on these in keeping the buildings in repair and in erecting new buildings and public works and ought to have the title to them. Their proobtaining a patent; to require a sub- amendment also permits the Governor, when authorized by the Legislature, to uously kept under cultivation, and to turn over portions of such property to cities, counties, or other political sub-

several instances been given by special I desire particularly to emphasize the acts of Congress on the mainland. | need of increasing the salaries of the The amendment proceeds to limit the judges. The people of Hawaii have alto become a citizen before he enters is greater than on the mainland and also that the time for compliance may increased it is probable that in the extended upon its appearing that near future several of the best judges an effort at compliance has been made will feel obliged to resign or not accept reappointment.

> Federal Health Assistance. Section 11, Amending Section 97 .-

Section 97 distributes the health author ity, giving to the United States authority in quarantine matters and to the ters. In view of the special circumstances it would seem that the national government should also assist to some extent in maintaining local health conditions. This it has already done in one respect by the establishment of a leprosarium and the institution of a scientific study of leprosy. It is now to maintain a large military and a large ions of doubt that have arisen as to naval force in Hawaii and therefore has the title to and status of lands obtained a special interest in internal health by exchange. The amendment provides conditions as well as occasioning greater expenditures for the maintenance of forest and other purposes, or withdrawing the same, shall be done by the the filter, as it were, for purifying the stream of immigration and travel from the Orient to the Pacific coast. In other words, it is a national necessity that the internal health conditions of Hawaii should be of the best. Not only is the Territorial government handicapped for lack of funds owing to the loss of one and a half million dollars Treasury in custom receipts, but the expense for local health matters is in considerable degree for the benefit of and occasioned by national interests. There is constant danger from plague, cholera, and yellow fever. Moreover, largely as a result of conferences with Doctor Koch, the celebrated German scientist, a radical change is being inaugurated in the handling of leprosy with a view to eradicating the disease. The emergency fund under the Public Health and Marine Hospital Service is available only after an epidemic has broken out, and owing to the distance of Hawaii it is practically impossible to obtain an allotment from that at all. Prevention is better than cure. There should be a fund which can be applied by the Governor immediately when oceasion requires, to be used by either the Federal or the Territorial health authorities or by both as may be best under the circumstances. An effort is being made with good results to bring

these authorities into close cooperation. The Naturalization Tangle.

Section 12, Amending Section 100. The recent naturalization act gives the naturalize aliens. Under the previous law it was doubtful whether they had that authority, that is, whether they were "disrict" courts of a Territory within the meaning of that law. Nevertheless they exercised that jurisdiction and naturalized 889 persons. These are should be authority to remove between the population, and if they were not natamong the most desirable elements in uralized for want of jurisdiction in the circuit courts, not only would it be a great hardship to them, but the Territory would suffer

The object of the amendment is to validate those naturalizations, but onso far as the jurisdiction of the courts concerned. The language of the amendment follows that of a similar act passed recently with reference to the criminal court of Cook County, Ill. (34

## LEPER HOME PROPOSED FOR ADIRONDACK MOUNTAINS

To the Editor of The Evening Post: greatness of the work would lead one Sir:-The question which I here bring to your attention is the very tion of the spread of leprosy, by segregation of all lepers, and the necessity for establishing at once a national leper asylum for those poor unfortu-States, are refused ordinary hospital

There is recently an uncomfortable frequency of reports concerning lepers sporadic and endemic, in this country. Until the Philippines and Hawaii came knew, there were not so many cases recognized as lepers in the United States. Now reports of their appearance and doings are not uncommon. A few weeks ago an aged veteran sacrificed himself by joining his wife, afflicted with leprosy, in Arizona. Lately, a man from North Carolina, who had come to Washington, D. C., was pronounced a leper, and was quarantined there, with his family near him. Congress, or the commissioner of pensions on his own authority, has allowed him a pension for his self-support till the end comes.

Another leper was chased from Maryland to Virginia, and died in abject misery, being hunted down like a wild beast to the hills of a sparselysettled neighborhood. On last Saturday a dispatch from New Orleans stated that John Monton, a leper who, about a year ago, had escaped from the leper home in Iberville Parish, Louisiana, was found selling tickets at a New Orleans nickel theater. Three other lepers who escaped with him are today probably at large, exposing Est of B P Bishop by Trs to others to the contagion of their awful malady. A leper who was prematurely declared cured at the Louisiana leper home, was caught by the New Orleans Board of Health engaged in euring lepers on his own account. There are some hundreds of lepers loose, in Louisiana, principally in the southern hot, moist parishes, where the germs multiply and obtain especial virulence. Louisiana is not able, with her little home facilities, to cope with the problem, which from that center property in Lib 282, fol 449, \$187,000. of the disease threatens the health of B 321, p 31. Dated December 26, 1908. the American people. The Bergen leper conference, which is to meet in Norway in 1909, will not help us at all. For out of compliment to Hansen, a declaration will be made by it for mixed isolation laws, the same Pfotenhauer, D; por R P 606, kul 610. An authority among Japanese News for mixed isolation laws, the same papers, published in the Territory of which have already signally failed in Louisiana, and also in Minnesota, and which would have failed in Norway had not Dr. Hansen, the inspector of leprosy, sent, or at least countenanced the emigration of one-half of the population to the United States, many of December 19, 1908. whom were contaminated. #### Around the Police Station

Detective Ahia made a raid Chinese gambling joint on Liliha street yesterday noon and bagged seventeen men, who are alleged to have been present while the game of paikau was being played. The police secured as evidence, dominoes, buttons, dice and matches, but no money.

Engineer Under Arrest. W. F. Franks was arrested on Friday on a warrant charging him with larceny. A few nights ago a woman rode to Waikiki on a trolley car. She laid her purse down beside her on the seat, but when she left the car forgot it. During the time she was on the ear a soldier from the Engineer camp sat beside her and it was thought he might have picked up the purse. The woman notified the mounted police officer on the beat and gave him a description of the man. Police headquarters were rung up and a visit to the Engineer camp made. The woman identified a soldier as the man who sat beside her, while an examination of his box disclosed the missing purse and contents. The soldier explained that he had found the purse on the car and, not knowing who it belonged to, kept it. He made no report of his find to the conductor, nor to any one else up to the time the purse was found. His case appeared on Saturday's calendar, but was set over until today. Sailors Three.

Several sailors of the Canadian-Australian steamship Makura yielded to the attractions of John Barleycorn while the vessel was in port and forgot that there was such a palatial vessel as the Makura awaiting them. Just at 2 o'clock the patrol wagon rolled into the station with three of them, and just at that hour the Makura sailed for the Colonies. One of the crowd managed to pull himself up the gangway just as the crew was about to lower it, almost falking through the ropes, but gaining the deck safely. The three sailors at the station will probably notify the British Consulthat they are here. The next C.-A. boat passes through in February.

Deputy's Hard Climb. Deputy Sheriff Rose had his first experience in posting up notices in mountainous regions on Saturday. He was handed a lot of Torrens Land Act notices to be posted up on the Manoa ridge back of the Castle Home. What he expected to be an easy job proved otherwise. He returned to town after dark, and is in hopes that his official duties with official notices will be few and far between.

#### NOTICE OF SALE OF VALUABLE REAL ESTATE.

Pursuant to order and license of Waianae ...... the First Judge of the Circuit Court of the First Judicial Circuit, Territory Koolauloa ..... 1,525.00 of Hawaii, made at Chambers in Probate on December 29, 1908, in the matter of the guardianship of Samuel Namokueha, a minor, the undersigned, as guardian of said minor, will sell at public auction at the front, mauka, entrance to the Judiciary building, in Honolulu, on Tuesday, February 2, 1909, at 12 o'clock noon, all of the undivided one-fourth interest or share of said minor in and to that certain lot, piece or parcel of land situate at Palama-kai, said Honolulu, bounded on the north by the track of the Oahu Railway and Land Company, Limited; on the south by a private road running from the government road to the soap works; on the east by the pineapple factory, and on the west by the soap works, being portions of L. C. A. 2937, Part 2, Section 1, to William Harbottle, and pond known as "Loke Kapukui," and more particularly described as follows, to wit:

Beginning at a 3-inch, cement-filled iron pipe at the west corner of a portion of L. C. A. 153 to Wm. Sumner belonging to the Hawaiian Pineapple Company, Limited, the coordinates of said iron pipe referred to the Punchbowl Trig. Station being 1909 feet north and 7466.6 feet west, and running by true azimuths: 1: 112° 48' 142.8 feet along makai

side of 16-foot roadway to a 3-inch, cement-filled iron pipe; 2. 118° 33' 62.7 feet along same to an

iron pin; 180° 02' 141.5 feet to a 3-inch, cement-filled iron pipe 20 feet from center line of Oahu Rail-

way; 4. 268° 32' 422.9 feet along right of way of Oahu Railway to 3-inch, cement-filled iron pipe;
