ALL STOCK IN THE COMPANY IS  
TAKEN UP.

Promoter Leaves Today for Northwest to Study Manufacture and to Look Up Machinery.

School teacher J. W. Smith's big Australian lumber scheme is a go. The promoter leaves by the Aorangi this afternoon for the northwest to study the latest methods of manufacture in that great lumber center. He will visit all of the leading saw mills. Shipping and marketing facilities will also be

From the sound the promoter will go east to interview manufacturers of sawmill machinery. His principal objective point is Indianapolis. Mr. Smith declined to say this morning that he would place orders for machinery, but such is believed to be his intention.

All of the stock in the proposed lumber incorporation has been taken up. Much of the money comes from Honolulu, though Australian capital will

also be interested. The company will not begin active operations until the colonial Parliament has granted it certain invaluable leases. It is certain that the leases will be granted, for Mr. Smith was assured on the point by prominent officials before leaving Australia last year.

The company will have a charter to work lumber, build railroads and engage in the kindred business. Over

Mr. Smith stated this morning that when he returns from the mainland all of the details of the project will have been completed and the company will be ready to make a start. He will probably proceed soon thereafter to Australia to begin active business operations.

WAS WELL RECEIVED.

Everyone pronounced the new program at the Orpheum last night, as

The comedy sketch, "The Contractor" is a fun producer and contains local hits upon some of the Fourth of July decorations.

The Cake Walk ended with the prizes going to Miss Edie Hartwell and Frank Barton. Miss Frankie Hartwell and Howard being close seconds.

The comedy sketch, "Men vs. Women" was excellent as were the new songs and dances by other members of the company. The same program is on for tonight and there is no place in Honolulu where you can have as much fun put into two and one-half hours.

BY WHITE LABOR.

BRISBANE, June 20.—Queensland's 1908 sugar yield (165,000 tons) was the largest ever recorded. Queensland had a surplus of 139,000 tons (over its own consumption) for export. The total import of Australia and Maoriland for the last year was 164,000 tons, only 25,000 tons above the Queensland surplus. Every year sees more white labor employed in the Queensland sugar industry, and every year sees a bigger output.

**MEMORANDA.**  
Mr. Mason, purser of the Aorangi, furnishes the following report of the Aorangi's trip from Sydney: The R. M. S. Aorangi, Campbell, Hopworth, R. N. R., commander, left Sydney at 2:15 p. m. on the 20th of June and cleared the Heads at 3 p. m. Fine weather was experienced to Brisbane, which port was reached at 5:30 a. m. on the 23d. After embarking passengers and mails, the Aorangi left again at 4 a. m. on the 23d. Strong head winds accompanied by high seas prevailed until the 3d instant, when fresh northeast trades were met with, accompanied by high head seas, the weather becoming overcast with frequent heavy squalls and rain until the 5th instant, and thence to port fine weather, with moderate sea prevailed. The equator was crossed at 4 p. m. on Saturday, July 1. The company's steamship Milowera was passed at 10 p. m. on the 23d of June.

"There are none so blind as those who will not see!"

There are some people who cannot be convinced that white is white and black is black, because they are determined to have their own way about it. Very good. Such people go through life missing the great truths and the greatest happiness as well as comfort.  
There are others again who are convinceable. It is to the men of this class that we like to talk about the merits of our clothing.  
They are better than nine-tenths of the made-to-measure clothes turned out in this city and the equal of the other tenth.

Alfred Benjamin & Company's clothes cost about half the price of made-to-order clothes and have every desirable attribute of the very best made-to-measure garments, besides embodying many unmatchable features strictly their own. That is why we say investigate the merits of the clothes bearing this label before going to a tailor. You risk nothing and stand to win a lot.

early on Monday, en route to Australia,  
there was a combination troupe of Afri-  
can minstrels numbering some forty in-  
dividual performers under the manage-  
ment of a Mr. M. B. Curtis. Had cir-  
cumstances been favorable, they would  
tended to have given an entertainment  
here, but as this did not allow conse-  
quent upon the Mowee resuming her  
voyage the same day, a portion of the  
band—some twenty performers—elected  
to play a few airs in the triangle op-  
posite the police office, and were much ap-  
preciated by the public. A couple of  
hours later, after the members thereof  
had had a run round the town, the band  
assembled and started up the parade.  
A little after and an emissary of the  
commissioner of police, directed the  
band to cease playing very much to the  
disgust of many of the citizens. The  
band then returned to the post office  
played the national anthem and after-  
wards two other airs. It then went on  
board. Many of the citizens are desir-  
ous of learning the why and wherefore  
of the police interfering with an amuse-  
ment which was affording them an un-  
usual pleasure. While at Honolulu on  
the way through, the band gave an en-  
tertainment at the opera house there,  
and it is said, played to a \$1500 house.  
The troupe proceed to Australia under  
engagement."Since the every issue of the Times  
has teemed with letters from indignant  
citizens, denouncing the official inter-  
ference. The ebullient state of public  
feeling in Suva may be judged by the  
following extracts from some of the let-  
ters published.Edward Magnus writes: "Today  
while a band of excellent musicians  
were playing some pleasing selections  
in front of the custom house affording  
us in this quiet town a few moments of  
enjoyment. Mr. Paymaster Thomas  
Molloy was sent to stop these musicians  
from playing music. He told the leader  
of the band that they were prohibited  
by the commandant of the armed con-  
stabulary from further playing. Your  
subscriber told the leader that Mr.  
Francis the commandant of the A. N. C.  
C. or colonel of the Fiji volunteer force,  
had no power to stop them playing as  
long as they caused no public obstruc-  
tion or became a public nuisance. They  
accordingly played God Save the Queen  
and two other overtures.""It is time that Mr. Francis was either  
removed or restrained from making  
himself such a tyrant and obstructor of  
the public welfare and pleasure and  
that we had a civil superintendent of  
police instead of the man now annoying  
us.""Freedom" writes: "May I ask if your  
attention has been drawn to the  
action of the superintendent of police in  
ordering the band landed from the mail  
steamer to discontinue playing? It is  
very seldom we have a chance to hear  
good music, and why that pleasure was  
denied us by the interference of the au-  
thorities I cannot understand. Really  
matters are being carried on with a  
high hand and we have had nearly  
enough.""Citizen" writes: "Our usually quiet  
town was greatly enlivened today by a  
band of musicians (colored minstrels)  
off the mail steamer, who kindly treat-  
ed us to some very excellent music."  
"But strange to relate this music had  
no charms for and did not soothe the  
breast of the superintendent of police,  
who sent orders to stop the band play-  
ing in the street. This gentleman seems  
to delight in making himself obnoxious."The arrival of a consignment of twenty-  
nine mules and three jacks is chronicled  
by the Fiji Times. The amount of the  
consignment is not noticeable, but the  
dislike of the traveling by them was  
great. These animals were bought in  
California and shipped to New Zealand  
by the Mariposa, and at Auckland were  
reshipped for Suva by the Upolu. They  
stood their voyage of over 10,000 miles  
in fine shape, and came ashore kicking  
vigorously.**COMMISSIONER'S SALE OF REAL

THURSDAY, JULY 6, 1899.

The decrease of population in Fiji is very marked. According to the Fiji Times, the population thirty years ago was 150,000 and today is 99,000, a falling off of over 33 1-3 per cent. The colony is troubled over the population and is seeking to make good its depleted population by importing immigrants from India. The great fault of the latter is the large amount of crime amongst the immigrants. They are turbulent and quarrelsome among themselves, and supply the courts almost entirely with the criminal cases. Other people then, in the Pacific, are a good deal worse off in the matter of population than we are.

The peace conference, when it got on to the discussion of shells and submarine boats, seems to have lost its head. In point of fact the whole conference is becoming an example of hysteria. The whole affair is an hysterical effort after the unattainable. The source from which it emanated may be taken as an hysterical one. The present Emperor of Russia is a peculiar racial throw-back. He is unlike the iron-willed ancestors from whom he descended, and in order to carry out schemes of brutality within his dominions, his advisers and masters, have had to supply him with a toy to keep his hysteric side amused and interested. As the other nations are not likely to agree to the program, it will then be easy to make him believe that what is done in Russia, is no worse than what would be sanctioned elsewhere. The American and English contingents, have proved, as was to be expected, practical.

The delay in the arrival of the America Maru can be ascribed to nothing else than to her having been put in quarantine at Kobe. That the plague was threatening the whole of southern Asia had been reported already, and in spite of all sanitary measures in Hongkong, it had been found impossible to eradicate it from that colony. There is every chance then that it may have been carried on board the mail steamer. At Bombay there is a fearful epidemic, and people are reported as dying at the rate of 200 a day. It is true that Bombay is a long way from Hongkong, but the black plague marches along the routes of travel, like a shadowy army, which nothing in Asia is capable of opposing. A branch of this army is menacing Europe, and the guards are strongly posted all along the eastern frontier, but in spite of all precaution, the insidious foe manages to creep in. Japan takes great precautions, and it is our business, even situated as far off as we are to observe the strictest care in dealing with vessels coming from the Orient, because even in spite of Japanese precautions, the dread destroyer may be hidden, ready to stalk forth and claim his victims.

#### AUTOMOBILES.

The automobile is soon to make its appearance in San Francisco, and proposes to revolutionize the rates of fares, since it is proposed to take passengers from the city to the Cliff House for 3 cents. It is calculated that an automobile can do the same amount of work as a horse at the rate of 3 cents an hour, while it takes 17 cents an hour for a horse. Of course that calculation is for the mainland. The Hawaiian Tramway Company's mules must be operated for a great deal less to judge by their boney looks. But then there is a patent upon our tramways.

However, that may be, if once automobiles become largely used in San Francisco, it will not be long before some enterprising individual has them down here. From all one can read upon the matter, this city would be an ideal one for operating automobiles. The roads are flat and well kept in all parts of the city to which the bulk of the citizens desire to have access, and we can look forward to the chance of cheap rides in decent vehicles with considerable pleasure.

Whether under energetic western management the automobile will run off all car lines, and by a process of survival of the fittest, banish them entirely from the streets is very problematical. It has not succeeded in doing so in Paris, where the machine is immensely popular, nor has it done so in New York. But transplanted to the West there is no telling what it will do. It will be welcome here, when ever it comes, but it is bound as all new ideas ever have, to meet with strong opposition aroused partly through ignorance, and largely from interested motives.

#### ABOUT DEATHS.

The mortuary report of the Board of Health for the month of June came to hand yesterday showing a death rate of 23.01 per thousand. The heavy rate was as usual caused by the loss among the Hawaiians, the total being 49 for the month, or at the rate of 50.08 per thousand, which is a very terrible mortality.

Of the deaths among Hawaiians 15 were between the ages of 1 and 5 years; 6 were between the ages of 10 and 20 years; and 17 between the ages of 20 and 50 years. There is serious food for reflection in the death rate of Hawaiians which should command the attention of the Board of Health.

It is the heavy death rate of the Hawaiians which swells the general death rate of the city. The death rate of citizens outside of Hawaiians and Asiatics was only 6.72 per thousand, which is a remarkably low death rate in the very healthiest part of the world. In view of these figures the Board of Health should have an investigation made to trace the causes of remarkable disparity in these racial death rates.

It is interesting to look back for the six months closed on June 30. During that period there have been 518 deaths in the city, as against 455 for the first six months of 1898, an increase of 63. The average per month has been 86 1-3. Of these 518 deaths, 270 have occurred among Hawaiians, rather more than half of the total number. The Hawaiian population of Honolulu, counting Hawaiian and part Hawaiians, is just about one third of the total population of the city and district. Therefore to put it more clearly, the Hawaiian population is 33 1-3 per cent of the total population, while the Hawaiians supply 52.12 per cent of the total deaths in the last six months. At this rate the Hawaiians will quickly lose ground. No set of people can stand such an awful drain.

During the same period 77 Chinese have died, 79 Japanese, giving a total of 156 for Asiatics, and 43 Portuguese, leaving 49 to be divided among the American and other European population. In other words 66 2-3 of the population account for only 47.88 per cent of the total deaths. The Americans and Europeans outside of Portuguese only being credited with 9.46 per cent of the total deaths.

Turning to the causes of death, consumption stalks gauntly at the head of the list. During the month of June 18 fatal cases are reported, during the first six months of the year, the total number of deaths amounted to 65 or at the rate of 5 5-6 per month. This means that 10.6 per cent of all the deaths that have taken place in the city and district of Honolulu, are from consumption.

There are no data published as to the nationality of those who fall victims to this disease, but it would be a valuable piece of knowledge for the board to acquire. Is the mortality among consumptives confined to one race, or is it common to all races? In what proportions does it affect the various races? It is no idle curiosity that would be satisfied by such a statement of facts, it would be knowledge that would be of immense value in meeting the disease.

The large number of deaths from consumption argues a very large number of unfortunates afflicted with the disease. It has been decided that consumption is contagious, that we can breathe the microbes, and that by intimate association the disease is readily communicated. Is the board going to take no steps towards meeting this terrible curse? Is it only going to read papers about consumption elsewhere, and not supply itself with information as to what is going on at its very doors? The home for incurables, and the home for segregating consumptive patients is still a chimera, a dream. But is not its urgent necessity brought monthly before us? Are we as a people doing our duty to sit quietly by and see this terrible disease going on without an effort to check it. There is medical literature enough upon the subject, there are original lectures upon tuberculosis by our own physicians, but these are of little good unless they bring about practical action. We want to do rather than to talk.

The various forms of fever account, for 47 deaths during the six months, standing next in order to consumption. Of the fevers, typhoid is credited with 14 deaths. So that this particular disease has nothing like the hold that it has been credited with by people who have not made an examination of our records. At the same time, from current report, typhoid seems prevalent in several places on the other islands. But for the outer districts no statistics are published, and it is impossible to judge what the relation of fatal cases, is to those from other diseases.

The mortuary statistics are of immense practical interest to every citizen, and to every transient visitor. What we want to make is a good showing, and where necessary a clear explanation. People abroad look at our death rate. It looks large, but for Americans and Europeans it is wonderfully small.

It must be noticed that this month, for the first time since statistics began to be kept here, the word "unknown" does not appear among the causes of death. This is a distinct step in advance.

RESPONDENT WOULD MANDAMUS  
JUDGE PERRY.

Particular About the Character of Testi-  
mony to be Elicited at San Fran-  
cisco—Petition Argued.

Before the supreme court this morning was a petition of respondent in the ship registration matters for a mandamus against Circuit Judge Perry to compel the withdrawal of a commission issued yesterday to Edward Gray Station to take testimony in San Francisco on the dictated questions, and substituting therefore a commission requiring that the examinations be conducted orally. W. O. Smith sat in place of Chief Justice Judd, who is indisposed. Attorney-General Cooper for petitioner; Kinney, Ballou & McInahan for respondent.

Ellen A. Pollyblank has filed a bond in the sum of \$1000 as administrator of the estate of the late Aueha Kekau-  
luohi. Tom May is surety on same.

The ejectment matter of Mary E. Foster, et al. vs. Kaneohe Ranch Com-  
pany, is still on in chambers before Judge Stanley. One witness, he for the plaintiff, was examined this morning.

Brief for defendant on demurrer, was filed today by Kinney, Ballou & McInahan, in the matter of Hana Umi Kakulani and the Lihaina Coffee and Fruit Company vs. Pioneer Mill Com-  
pany, bill to declare title.

The supreme court law library has today received ninety-five volumes of the North Carolina law reports, which is considered a very valuable accession.

The July term of the circuit court of the Fourth Judicial Circuit, was con-  
vened yesterday at Honolulu, Hawaii. The most important matter will be the homicide case at Waialae, Hilo, being the killing of a white luna by one of the plantation laborers.

S. S. PERTSHIRE SAFE.

Record of a Remarkable Breakdown at Sea.

SYDNEY, June 20.—The S. S. Perthshire was towed in yesterday after having been adrift with a broken shaft since April 25. The Perthshire left Sydney, April 26 for New Zealand. Two days later when 391 miles from Sydney, the tail end shaft broke. Sail was made, but the vessel could not even steer with it, and drifted for thirty days and a distance of 1000 miles. As a last desperate resource it was decided to break away the stern tube and attempt to couple the shaft. This took fourteen days, and was accomplished just in time to keep off the rock-bound coast of Norfolk Island.

On June 13 the Perthshire was picked up by the steamer Taline and towed to Sydney. It is said that the work of coupling the shaft on the Perthshire after the break, was one of the most remarkable feats of that kind of repairing ever done.

FIRST PICK TOMORROW.

Rapid Transit Company to Begin Ac-  
tive Operations.

The Rapid Transit Company will break ground tomorrow for its electric car lines in Honolulu. The point selected for the beginning is Alapai street between Beretania and King. Manager Ballentyne and others of the company will be present to see the first pick sunk into the earth. There will be no ceremonies. It is announced officially that a bottle of champagne will not be poured over the ground at the point of starting.

At the place selected for the beginning of operations the street is quite narrow. This will be remedied, however, when the Government gets a little farther along in its street widening policy. It is straight track work that will be done at this time. The power house and such things will come later.

OFF TO GERMANY.

Otto Isenberg and Family Leave for Six Months.

MAKAWELL, July 1.—Mr. and Mrs. Otto Isenberg and family left today to go by the next steamer to the Coast for a six months visit to Germany. There were many friends at the landing to see them off and they were followed aboard the Mikahala by many alohas and a mass of leis and other tokens of good will.

PASSING OF A FISH POND.

Ancient One Near Oahu Prison to be Filled up.

The old fish pond belonging to the Government just Walkiki of Oahu prison, is to be filled up. The material used will come from the dredging at the mouth of Nuuanu stream. The pipe line to carry it there is being put in place now. The pipe line is carried clear across Nuuanu stream on trestles and under the railroad.

This fish pond occupies the entire area between Oahu prison and the railroad track, running along the Ewa side of Nuuanu stream, and is said to be a very ancient one. It is heavily stocked with mullet.

FLIES THE HAWAIIAN FLAG.

Floats From the City of Columbia's Taffrail.

The City of Columbia now flies the Hawaiian flag. It floats from her taffrail now as she lies at the old fish market wharf. She is taking on coal and the present expectation is that she will sail for China on Saturday. If the America Maru, which is now two days late, should be quarantined here, it is possible the City of Columbia may again be requisitioned as a quarantine ship.

LANDING IMPROVEMENT.

KIPAHULU, July 3.—The Kipahulu landing is being improved and a new steam landing apparatus is being rigged with which to handle the coming crop.

A MILK CASE.

A. A. Montana has been arrested on a warrant of E. C. Shorey charging him with refusing samples of his milk for inspection when requested by the proper authority. The case will be heard this afternoon.

AUSTRALIA LATE.

The Australia will not arrive here until Friday, July 14, or three days late. Her regular date would have been next Tuesday.

The Warrimoo will be due from Vancouver tomorrow and the Rio from San Francisco on the 13th with later news.

AFRO-METHODISTS.

The Afro-American Review advocates an alliance of all African Methodists. They number 6,500,000 and represent four large bodies and numerous smaller ones.

The cleanest, brightest safest and really  
the long run, the cheapest and best light  
for use in the family residence, is the incan-  
descent electric light. Safe; nothing could  
be safer. A few days ago a prominent gen-  
tleman of Honolulu came rushing down to  
the office of the Electric Company and said:  
"Give me figures for wiring my house, and I  
want it done at once; no more lamps for me.  
Last night a lamp tipped over and it came  
so near setting fire to the house and burning  
my children and I take no more risks."  
This is the sentiment of quite a number in  
the past few weeks, who have ordered their  
houses fitted with the perfect light.  
Just think it over and make up your mind  
that you want the best and safest light; send  
for the Hawaiian Electric Company and tell  
them what you want.

**The Falling Leaves  
Give Warning of Winter**

So the falling of the hair tells  
of the approach of age and declin-  
ing power. No matter how barren  
the tree nor how leafless it may  
seem, you confidently expect leaves  
again. And why?

Because there is Life  
at the Roots.

So you need not worry about the  
falling of your hair, the threatened de-  
parture of your youth and beauty. And why?  
Because if there is a spark of life re-  
maining in the roots of the hair

**Ayer's

will arouse it into healthy activity. The  
hair ceases to come out: it begins to grow;  
and the glory of youth is restored to you.

THE FLAG AND THE GIRL WIN  
ADMIRATION.

Great Charity Bazaar in London Brings  
Fourth American Duchesses, Countesses,  
Actresses and a Bevy of Beauty.

LONDON, June 21.—The American  
flag and the American girl were two of  
the prettiest features of the great Char-  
ing Cross Hospital Bazaar that opened  
in the Royal Albert hall today. Royal-  
ties and republicans divided the honors,  
and the latter did not by any means get  
the smaller share.

The bazaar was a large success, as  
far as the attendance went, as well as  
in every other way. The American col-  
ony was on hand in a body, spending  
lavishly at the twenty-seven beautiful  
stalls.

All eyes centered on the American  
stall, over which floated the stars and  
stripes. Mrs. Mackay did much to make  
it splendid. She not only spent sums of  
money, but took infinite pains to deco-  
rate the stall herself, contributing beau-  
tiful Parisian embroideries, which she  
ordered specially to add to the charm of  
the display. The American silverware  
exhibit was superb.

Among the American stall holders are  
Miss May Goelet, Mrs. Goelet, Mrs. Ar-  
thur Paget, Lady Craven, Mrs. Mackay,  
Lady Gray Edgerton, Lillian, Duchess  
of Marlborough, Mrs. Ronalds, Lady  
Geleese and Mrs. James Brown-Potter.

On a raised platform in front of the  
green organ were 100 refreshment ta-  
bles, with seating accommodations for

450 persons. These were crowded all the  
time. The Countess of Chesterfield, with  
a small army of society women, played  
waitresses as if bred to the business.

Just behind the organ was the Amer-  
ican bar, by all odds the most frequented  
part of the bazaar. Mrs. James  
Brown-Potter was head barkeeper and  
Lady Anglessa associate barkeeper.  
The assistants were Lady Mary  
Sackville, the Marchioness of Granby,  
Lady Hesketh, Lady Maitland, Mrs.  
Frank Mackay, Miss Ward, Mrs. Nat  
Goodwin, Mrs. Newhouse, Mrs. Harry  
Penwick, Miss Elliott Page, Miss Ten-  
nyson, the Earl of Yarmouth, the Duke  
of Manchester, Lord Vivian, Lord  
Henry Seymour, Lord Edward Sey-  
mour, Mr. Aliston McGregor, Mr. Ralph  
Pulitzer, Mr. H. Savage Landon and  
Somers Summers.

The Duke of Manchester and Lord  
Yarmouth were in the garb of Amer-  
ican barkeepers, with white aprons and  
conciliatory smiles.

**CHRONIC DIARRHOEA CURED.**

Persons troubled with diarrhoea will  
be interested in the experience of Mr.  
W. M. Bush, clerk of Hotel Dorrance,  
Providence, R. I. He says: "For sev-  
eral years I have been almost a con-  
stant sufferer from diarrhoea, the fre-  
quent attacks completely prostrating  
me, and rendering me unfit for my du-  
ties at this hotel. About two years ago  
a traveling salesman kindly gave me a  
small bottle of Chamberlain's Colic,  
Cholera and Diarrhoea Remedy. Much  
to my surprise and delight its effects  
were immediate. Whenever I felt sym-  
ptoms of the disease I would fortify my-  
self against the attack with a few doses  
of this valuable remedy. The result  
has been very satisfactory and almost  
complete relief from the affliction." For  
sale by all dealers and druggists. Ben-  
son, Smith & Company, general agents,  
Hawaiian Islands.

### ENGLISH ENGLISH.

The following extracts are from advertisements which have actually appeared in English newspapers. English English seems to be worse than American English.

"A lady wants to sell her piano, as she is going abroad in a strong iron frame."

The P. C. & M. Co. will sell you a high grade Sterling bicycle for \$60.00 on small weekly or monthly installments. Save 50 per cent by having your nickel-plating done by the P. C. & M. Co. on Fort Street.

"Wanted, a room by two gentlemen about 30 feet long and 20 feet wide."

The Pacific Cycle & Mfg. Co. will make your old wheel look like new for \$6.00.

"Lost, a collie dog by a man on Saturday answering to Jim with brass collar around his neck and muzzle."

The P. C. & M. Co. have a few second hand bicycles for sale. Price, from ten to fifteen dollars each.

"A boy wanted who can open oysters with reference."

The P. C. & M. Co. carry a complete line of Spalding Brothers Sporting Goods.

Dog for sale: will eat anything, very fond of children."

When your wheel squeaks, rattles, runs heavy or leaks if it is sick, see the Doctor the P. C. & M. Co.

Why can the P. C. & M. Co. sell sporting goods and bicycles and bicycle sundries cheaper than any other dealer? because, they pay less freight, they have their own sailing vessels.

## RECEPTION TO MRS. MILLS

LIFE WORK OF A REMARKABLE WOMAN.

In Sixty Years She Has Taught Over Three Thousand Pupils—Many of Them Have Attained Distinction.

Much interest is being manifested in the reception to be tendered Mrs. C. T. Mills at Oahu college next Saturday afternoon, by her former pupils.

Her name is cherished by many men and women, both young and old, in these islands. At Oahu college, where she and her husband, Rev. Cyrus T. Mills labored for four years, from 1860-1864, were educated some of Hawaii's best women, and most distinguished men. Among the number are President Dole, Minister S. M. Damon and Mrs. Damon, W. O. Smith, H. P. Baldwin and wife, Mrs. C. H. Dickey, Mrs. H. A. P. Carter, Mrs. B. F. Dillingham, Mrs. Widdifield, members of the Alhertson, Cooke, Rice, Waterhouse, De la Verne, Casar, Lewers, Armstrong, Judd, Bailey, Dimond, Hall, Jones, Alexander, Brown and Hall families, besides many others.

Besides these, there are today in Honolulu many pupils who were with Mrs. Mills both at Benicia and at Mills college, among those who were at the latter place are Mrs. Philip Dodge, Mrs. Clarence Macfarlane, Mrs. Hastings, Mrs. Noonan, Mrs. E. D. Tenney, Mrs. F. M. Swanzy, Miss Damon, Miss Carter, Mrs. A. J. Campbell, Mrs. Gerrit P. Wilder and many others.

The early home of Mrs. Mills was Ware, Mass. She was educated under Mary Lyons at Mount Holyoke college, the first of its kind for the higher education of women. There as Susan Lincoln Tolman, she remained as teacher for three years, after her graduation. In 1849 she was married to Cyrus T. Mills, a graduate of Williams' college and of the New York Theological seminary. There were sent by the American Board of Missions to India, where Mr. Mills was soon placed in charge of Batticotta college, Ceylon. This institution was designed for the education of picked men, as teachers and ministers.

At the end of six years ill health compelled them to relinquish this work, and in 1856, Mr. Mills became president of Oahu college.

Mrs. Mills presided over the happy household, and, as the corps of instructors was small, the trustees urged her to aid in the teaching. She taught especially the Natural Sciences and English.

At that time Oahu college was poorly equipped with books, apparatus, etc. At the expiration of four years, Mr. Mills' health again compelled him to seek a cooler climate. When he left Honolulu, the college had ceased to be dependent upon the American Board, and had besides the nucleus of a good endowment fund. It has, at the present day, an endowment of nearly \$300,000.

After a few years rest, Mr. Mills purchased and took charge of the Denison Female seminary—the oldest Protestant school for girls in California. Still missionary in spirit, Mr. and Mrs. Mills sought to establish a school that, like Mount Holyoke, should be permanent, of high order, and thoroughly Christian in character. After six years of successful work, the school was moved from Benicia to its present beautiful location, east of Oakland, and within an hour's ride of San Francisco.

In 1871, Mr. and Mrs. Mills, carrying out the plan of a permanent endowment, decided 120 acres of ground, together with the fine buildings thereon to a self-perpetuating board of trustees. This entire property was valued at \$250,000. The only conditions of the gift were, that the institution "must be maintained as a school of high order, must be Christian, but non-sectarian in character." Mr. Mills continued in charge of the school until his death in 1884. Mrs. Mills was then appointed by the trustees to succeed her husband as president of the institution. This position she still holds, as well as that of treasurer, and also as instructor of biblical study.

Mills college is the only chartered woman's college on the Pacific slope; its curriculum corresponds with the universities. Many of its pupils have distinguished themselves in art and music, but they are best known as good teachers, wives and mothers.

Mrs. Mills is now seventy-three years of age, and has taught more than 300 pupils. This institution of Mills college is her life. She has devoted her heart and years to its service, and she still continues active in her magnificent work.

At present the endowment fund is but \$70,000, but loving hearts and hands are endeavoring to increase this amount, so like Stanford university, and our own Oahu college, Mills college may be placed on such a footing, that the dearest wish of the hearts of Mr. and Mrs. Mills may be realized—that Mills college be a permanent institution for the higher education of unselfish lives.

### TO CROSS THE ATLANTIC.

Howard Blackburn in His Four Ton Sloop, the Great Western.

GLOUCESTER, Mass., June 18.—Howard Blackburn of this city set sail this afternoon in his little sloop rigged four ton boat, the Great Western, to cross the Atlantic. Blackburn followed a sea-faring life in Gloucester fishing vessels for many years, and in January, 1883, was cast away in his dory on the Grand Banks with one companion for five days without food or water. His companion died, but Blackburn was rescued, although he lost his fingers and toes and was otherwise crippled as the result of his terrible experience.

The Great Western is stocked with provisions for ninety days, and Gloucester, Eng., is the point where Blackburn expects to land first.

### FUNERAL YESTERDAY.

The funeral of the late Edward Dowsett took place from the family residence in Palama yesterday afternoon. Rev. Alex Mackintosh conducted the services. These were the pall bearers: Bruce Cartwright, F. W. Wundenberg, George S. Smithies, G. P. Wilder, Colonel George W. Macfarlane, Hay Wadhouse, C. W. Macfarlane and William Auld.

### TYPHOID.

SUVA, June 28.—The half a dozen of the crew of H. M. S. Porpoise which were left behind here in charge of the hospital authorities, suffering from typhoid, are progressing as they could be expected. One or two of the cases are much more severe than the others.
