ORPHANS MET A DREADFUL FATE

Scores Burned or Hurt in a Rochester Asylum Fire.

ROCHESTER, N. Y., Jan. 8 .- The Rochester Orphan Asylum burned shortly after midnight. Over twenty inmates were killed, and over fifty injured.

ROCHESTER, N. Y., Jan. 8 .- At noon the identified dead by the Orphan Asylum fire had reached thirty-six | children, one nurse and a cook.

The scenes about the building while

the fire was at its height were heartrending in the extreme. Crazed women were running about trying to find out whether certain little ones had been taken from the building in safety, while others were looking for their friends. All who were rescued had nothing on but their nightciothes, Po-licemen, citizens and firemen united in the work of rescue. Four little children had been forgotten on the fourth floor until a woman screamed out that they had been left behind. Instantly a dozen volunteers started for the stairway. Two were allowed to go to the rescue, and in a moment it seemed ages, they returned with the babies in their arms. A cheer went up from the crowd which was hushed

as the children were seen to be un-conscious. They were removed to the house of a neighbor across the street. About thirty children were carried into the house of Herman Behn, a shoe merchant across the street on Hubell Park, and as fast as the ambulances

lor of Cambridge.

Now, the authorities affirm that out of 900,000 babies born annually in England and Wales, probably not more than one in twenty lives out his natural life; and the writer thinks that estimate is too high.

All the rest die-bar the few accidentally killed-from preventable diseases such as measles, scarlet fever, smallpox, influenza, consumption, etc., long and dreary list; all the maladies on it having a family likeness and all arising from and propagated by germs. It is likely that one-third of the cows have tuberculosis, and, of course, people drink the disease in the milk.

It really does look as though it would be a good idea to boil the bacillus-as early in his career as posisble. If neces-

"I am no longer in the brigade, but live at Hubert street, Woolloongabba, South Brisbane, Queensland, where shall be pleased to see anybody who wishes further details of my case. John K. Orthwein, Oct. 7th, 1899.

The accuracy of the above statement is vouched for in writing by Mr. R. Cumming, Assistant Superintendent South Brisbane Fire Brigade.

We may kill the bacillus by boiling it, and we may cook a lion if we can catch him; but the only certain way to get rid of indigestion and the black flock of allments which arise from it is by the use of Mother Seigel's Syrup.

C. K. Towt Asks \$12,000 of the Kona Sugar Company for Damages.

When the brigantine Consuelo reaches the port of Mahukona, her master will find Chief Deputy United States Marshal E R. Hendry awaiting him ready to serve process against the vessel. The libel proceedings are the outcome of salvage money claimed by Robert R. Hind, living at Kohala, and owner of the steamer Upolu.

It seems that the Consuelo was lying in port at Mahukona on November 15, 1900, when a severe storm broke over the vessel, and she became endangered to such a degree that she was abandoned by her officers and crew, and all sought safety on shore. Then one Frazer, who safety on shore. Then one Frazer, who acted as agent for the Consuelo, requested the captain of the Upolu to assist the brigantine and prevent her being driven ashore. Rev. John Cook Says This Is the Home for the Negroes.

FRANCISCO, Dec. 22.-The

Rev. John Henry Cook, a colored preacher of Mississippi, who recently went to Hawaii to inspect the sugar plantations and the opportunities there offered to negro laborers, returned by the Zealandia today. He says he is much pleased with the outlook, and the companion who went with him remain-ed at Kohala and began work on a plantation. Cook says he will advise the people of his race to emigrate to Hawaii and he will accompany them. He says the advantages Hawaii offers over any of the Southern States are higher wages, shorter hours of labor, Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine mane for these diseases. There is not the least danger in giving it to children, for it contains no opium or other rjurious drug and may be given as confidently to a babe as to an adult. For sale by Benson, Smith & Co., Ltd.

He says the advantages Hawaii offers over any of the Southern States are higher wages, shorter hours of labor, and no extremes of heat and cold. In addition he says the quarters provided free by plantations are better on the average than the negroes are able to provide for themselves in Mississippi. Then there are free medical attendance and other advantages, which make the real wages much larger than the apparent ones. There is a good system of free schools and an absence of race real wages much larger than the ap-parent ones. There is a good system of free schools and an absence of race antagonism. Here is something from the Builetin which everybody ought to read for the purposes of comparison:

If "the young clerk, the mechanic, the American farmer are told without ceasing that the market is crowded and openings few," then the Bulletin is doing most of the telling. No one else has the job. That journal demands to know what is doing to increase the number of "educated, thoughtful farmers" and then proceeds to scare them away by talking about the need of having "capital of thousands" to succeed (at farming) in the Hawaiian Islands-a proposition which will make the members of the Wahiawa colony and some hundreds of industrious Portuguese smile. In the teeth of that the Bulletin goes on to inquire if the mercantile and commercial organizations are doing anything (more shame to them) to induce citizens of the maintand to come to Hawaii "to try their fortunes with no other capital than honesty and readiness to work?" That is to say, while nobody can do anything here without "thousands" this reckless and purblind government is neglecting to invite people here who have no capital but their good inten-"The young clerk, the mechanic, the American" are not encouraged to come even where the individual has \$500. The Bulletin stops in the foam of its indignation over the narrow-minded policy of Government to tell this wouldbe investor that if he wants to buy Hawaiian securities with his \$500 he might as well save himself the trouble of coming here and make the deal in San Francisco.

The Bulletin is keen for the white laborer and farmer on its editorial page but in its column of advice it discourages their coming while abusing the ing hand paragraph:

Some weeks ago this journal announced that Pearl Harbor would be improved. The next day another morning paper denied the story and quoted a local Federal official to the effect that Pearl Harbor, owing to the high price of land along its shores, had no attractions for the Federal Government. As this issue of the Advertiser contains a Government advertisement asking for bids for the opening of Pearl Harbor, the questions raised may now be regarded as settled.

Since its inception, Judge Humphreys' paper has had four business managers and several city editors. Every effort was made to get a circulation, but some accident of policy intervened. Advertising was taken at any price, and many trade announcements were and perhaps still are, carried gratis. At the end of six months the paper said it had reached a paying basis, but Mr. Ziegenfuss, just before his departure, said it was losing from \$800 to \$1,000 per month. Other former employees said the same thing. Lately the office has cut salaries and dischargall the men it could possibly do without.

IMMIGRANTS ARE POOR LOOKING LOT

Four Hundred Go to Other Islands --- Pitiful Scenes Among Them.

(From Thursday's Daily)

ISERY and filth are not strangers to the four hundred and more Porto Ricans who arrived here yeserfay on the City of Peking and who were hustled in Island steamers to other Islands, where they are to work on the plantations.

The truth is but told when it is said that no more wretched-looking lot of buman beings ever came to these Hawallan Islands.

Half-starved and consumptive-looking, dirty beyond all description, formaterial to cheer or comfort them in their poverty, they have come to this ing on the steamer, he pulled out a country in the hope that they will earn knife from somewhere just as the vessenough by honest toll to provide them enough by honest toll to provide them sel was getting ready for sea and made with sufficient to keep body and soul

As they were transferred from the City of Peking yesterday to the Island steamers which were to take them to their new homes, those who saw them infants, looking more like living skelesad, pity-beseeching eyes had long ceased to know the poor comfort of useless tears, caused many hearts to ache and many heads to turn away. It was not a sight to look upon long.

The country which these unhappy ones have left has sent forth fearful charmles of the conditions existing like the idea of eating from the deck.

there, Here, in Hawall, they are to
find homes and food and wherewithal compelled the captain to send for the there. Here, in Hawaii, they are to find homes and food and wherewithal to clothe themselves, and perhaps happiness. It is a change from positive suffering to contentment for them; for the country it is an experiment.

One who went among them yesterday morning told an Advertiser reporter that it would be some time before they could be expected to do any work. They have first to be nourished; they to regain some of the strength which has been lost by semi-starvation.

It seems that they have been picked from the very poorest and most hope-less class in Porto Rico; it would be hard to imagine people in more destitute circumstances.

About half the Porto Ricans are women and children. They very naturally have suffered more than the men. The men are better able to stand it. The dirt which was so evident on the persons of the immigrants was not by any means only the stains of travel; it seemed rather to be the accumulation of days and weeks and even months of living in the most squalid circumstances. But how could they well be contentioned the first of the most squalid circumstances. But how could they well be bearing a tag with his name and the name of the plantation to which they increased to the continuous contents. The police came to the conclusion that it would be best to leave the man provement of the rivers and harbors of the plantation to which they increased to the plantation to which they increased to the continuous contents. CHARTER

MONEY IN SIGHT FOR EXPENSES

Question.

Many Arguments Made in Favor of Municipal Law---Will Go Ahead.

(From Wednesday's Daily.) UCH good humor prevailed at the meeting of the Republican Charter Committee last evening at their rooms in the Elite building. Very little actual business was transacted as many of the committees were unable to make a report and were compelled to ask for

more time. A. V. Gear was called to the chair and as soon as the usual business relative to the last meeting was finished the report of the financial committee was heard. L. L. McCandless, chairman, reported that they had been able thus far to secure pledges for about \$600 and he had no doubt but that the balance of the amount required could be raised. Continuing, he said: "We have seen Continuing, he said: "We have seen many people and find that a number object seriously to the idea of a charter, at least for some time to come. Many claim that they do not want a charter at all and do not wish to donate any money to further such an object. I saw one man who has been liberal in the past and one from whom I fully expected material assistance, but was much surprised to find that he said, 'I would willingly give \$100 to have the municipal law put off for at

least two years, but I do not care to give any money to aid it."" "Was he suggesting a fund?" inter-

jected T. McCants Stewart.

"Another person that I approached, continued McCandless, "told me that we were spending time and money in a hopeless cause and that all our efforts would be of no avail. I was told that the charter would not be considered by the Legislature but before I left him I succeeded in obtaining \$50. I believe that it would be advisable to get more information from the people before we draft the charter. Many prominent men say that they don't think that it would be passed at all. I am free to confess that I have not met with the success that I had expect-ed and feel somewhat disheartened. There are many things to be considered before we go much further and we should all give the matter very care-

ful thought." W. O. Smith rose to argue the question and cited his opinion that it mat-tered little what individuals thought—

it was the people at large who were to be considered.
"This is a matter which affects the

entire community," said Mr. Smith, "and requires lots of thought and much hard work. The work is of great value to this question and I say that when appointed: we do have a city government let us have a good one. Let us have a good one or have nothing at all. If we do not be careful we will have a government that will be a burden to the com-

going ahead."

P. L. Weaver gave as his opinion that the question of the charter should be allowed to pass over to the next Smith, C. Holte, J. H. Boyd, W. R. Sims, Fred Waterhouse. be allowed to pass over to the next session of the Legislature. "We would session of the Legislature. "We would then be better prepared," he said, "and better able to offer suggestions of value as the result of more careful thought and preparation, and unless we do give this careful thought we will have nothing ready to propose, and we have nothing ready to propose, and we

At this point the report of the finance committee was dropped for a time and the committee on statistics was called upon. Through its chairman, E. A. Mott-Smith, it asked for more time, stating that it had been unable to obtain all the information required ow-ing to the arduous duties imposed up-

> Pale People

Mrs. Minnis Fiedler, of Mt. Pleasant,

"I was afflicted for years with St. Vitus' dance. The first symptoms of the disease began in 1889, when the nerves began twitching in my left hand. I consulted physicians of this city, but none of them ever did me a particle of good. After I had suffered for two and one half years, the disease continuing to grow worse, I heard of Dr. Williams' Pink Pills for Pale People.

disease, although it is eight years since I was cured. "

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the ele-ments necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia rheu-matism, nervous headache, the after-effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in pack-ages. At all druggists, or direct from the Dr. Wil-liams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.
