CONGRESS MAY BE KEPT IN SESSION BY REPUBLICANS

Minority Members Insist That Immigration Bill Be Passed Before Adjournment

UPSET PLANS MADE BY DEMOCRATS FOR CLOSING

Latter Anxious to Get to Their Home States on or Before September 1

(Associated Press by Cable)
WASHINGTON, D. C., Aug. 10.—A stand taken today by influential Republican senators may hold Congress in session after September 1, although the Democrats are exceedingly anxious to end on or before that date and have tried to get through by August 19. Republicans at a conference of senate leaders this morning refused to accept the program outlined by the Democratic members, through their steering committee. The Democrats laid down their plans for putting through certain remaining measures and adjourning in three weeks. Those Republican senators who were inclined to agree with the Democrats were outvoted by the senators who demand action on the immigration measure. This measure was originally coupled with the child labor law, on which the president insisted. Later the Democratic leaders decided that there was not time enough to put through the immigration bill and were ready to drop it but the Republicans insist on its passage.

WEST VIRGINIA'S FLOOD HORROR IS APPALLINGLY HUGE

Every Report Swells Figures of Deaths From Cloudburst Near Huntington

(Associated Press by Cable)
HUNTINGTON, W. Va., Aug. 10.—Twenty-three bodies have been recovered as a result of the terrible cloudburst which swept Cabin Creek yesterday. Returned rescue parties, after being out all night succoring the refugees, report that all of the mining villages have been swept away or devastated. People have taken refuge on the hillsides. Detachments of national guardsmen have been sent out to assist in preventing looting of bodies or buildings still standing. It is reported that a lineman who returned from a trip to Miami Desota Valley estimated that 40 have been drowned in that section. Four hundred people on an excursion, most women and children, have been cut off on Main Horse Creek. From Little Horse Creek and Jarold's Valley come the report that the village of Little Horse, with 500 people, has been swept away and 75 lost.

D. Paul R. Isenberg Weds Bertha Kopke In New York City

Couple Expected to Return Here After Their Honeymoon Trip

D. Paul R. Isenberg, who left Honolulu on the steamer Matsonia July 26, was married in New York yesterday to Miss Bertha Kopke, according to a cablegram received late yesterday by Ernest Ross, son-in-law of Mr. and Mrs. E. W. Kopke, father and mother of the bride. No details of the wedding are given in the cablegram, which was brief. They are expected to return to Honolulu after a honeymoon trip of some months. The bride is the fourth daughter of Mr. and Mrs. Kopke, and left here about two months ago for the East. Her father and mother were at the wedding, having left here some time ago, Mr. Kopke being on a vacation trip. The groom was divorced two weeks ago. Mrs. Annie Beatrice Isenberg, his wife, filed her suit for divorce in the circuit court on June 24, alleging nonsupport. The divorce was granted by Circuit Judge Whitney on July 26. No order was made by the court regarding the payment of alimony. It is understood that this arrangement was settled outside of court. The day the divorce was granted was the day the groom-to-be sailed for the mainland, proceeding direct to New York. The marriage came as a surprise to most of Mr. Isenberg's acquaintances.

ROUND TOP WILL BE RESERVATION FOR THE PUBLIC

Great Hill is Preserved To the People at Meeting Held in Honolulu Today

Round Top was today made a forest reservation, to be a breathing-space and resting-ground for the public for all time. At a meeting held this morning at the government nursery on King street, in accordance with law, a hearing was held, and all the necessary formalities completed. Those present were Governor Lucius E. Pinkham, representing the territory; A. L. C. Atkinson, the board of agriculture and forestry; District Forester C. S. Judd; Dr. Victor Norgaard and Allen Herbert, representing the public. The proclamation has been prepared and will be signed by Governor Pinkham in a few days. Herbert announced that if he lives another year he will erect a shelter and rest-house and water tank on the reservation, for the public benefit. The view from Round Top is one of the most magnificent to be had from any elevation in Honolulu. The area to be included in the reservation is 115 acres, with a tract of 3 1/2 acres at the summit reserved for military purposes.

CHINA TRADE IS GOAL OF NATIONS AFTER GREAT WAR

Japanese Commissioners On Way to Europe Foresee Keen Competition

THEIR GOVERNMENT GETS READY FOR THE FUTURE

Experts Investigating Conditions in United States and Europe

Keen competition between the manufacturing countries of the world for the trade of China—a competition tenfold keener when the war is over—is forecast by Dr. Chuzaburo Shiba, professor in the engineering college of Tokio and one of the government's patent experts. Dr. Shiba is one of the party of five noted Japanese who arrived on the Tenyo Maru yesterday on their way to the states, the others being Drs. Y. Haga, W. Okada, Y. Tashiro and I. Inagaki. "I do not know whether or not the new Russo-Japanese treaty will endanger American trade and interests in the Orient," he said on the steamer yesterday. "I am not in a position to say this, but it is certain there will be much competition between the two nations for the commerce of the Orient."

"I think that after the European war is over all the European countries will turn their attention to China as well as Japan for export trade. At present Japan is shipping all kinds of machinery to European countries, such as oil and gas engines, war engines of various sort, and of course, such war material, a good deal of which is of the same character we formerly imported from these countries. Dr. Shiba's particular mission is to investigate industrial conditions in the United States and Europe. He says that Japan's export trade is being carried on at a high level of prices.

"Perhaps our prices for manufactured goods now are as high as those of American plants," he said. "Since most of the materials which go into the making of our machinery must be bought abroad, largely from America, we cannot sell at cheap prices. I am not in a position to say whether my government thinks the European war is near an end, but it is not too soon for Japan to prepare for conditions after the war. "We are going to spend this year in peaceful America. We are all going to attend the one hundred fiftieth anniversary celebration of Rutgers college, representing different departments in our Tokyo university, then, we will leave America for France first, then England and Italy. We are going to take the trans-Siberian railroad back to Japan about May, 1917."

Dr. Y. Tashiro, who is professor in the medical college of Tokyo university, told of his mission as follows: "My mission is to investigate all the well known hospitals in the United States first, then those in European countries. The United States stands high in surgery. I am going to make a careful investigation while in the United States. "We cannot go to Germany or Austria at this time, but we are going to visit Italy and Switzerland, beside France and England. "In France and England I will particularly pay attention to government hospitals to investigate the method of treatment of the soldiers who have lost their hands, arms or legs in the war. The treatment of such cases will be my specialty."

SAY AMERICA IS ONLY FRIEND OF CHINESE NATION

This is Declaration of Peking Officials to E. M. Newman, Noted Lecturer

MENTAL STRAIN KILLED YUAN, VISITOR THINKS

Will Take Photographs in Hawaii for Use in Talks to People on Mainland

Army after army marching toward Peking, general dissatisfaction among the people of the empire and the almost hourly secession of provinces from the main government, brought about a nervous breakdown which, coupled with severe mental strain, resulted in the death of Yuan Shih-Kai, late president of China, says E. M. Newman, traveler and lecturer of New York who is in Honolulu after a four-months' tour of the Orient. The aged ruler was not poisoned, as many reports have stated, Mr. Newman believes. He was borne down by the weight of worry and the burdens of government affairs. So great was his desire to rule the nation as emperor that he had a crown made, and even issued edicts, signed by him as emperor, the lecturer says. But, he adds, these edicts were never recognized by the United States and other powers. Mr. Newman attended the funeral of Yuan, a procession about three miles long, in which thousands of persons marched. At the head of the procession was a Chinese band playing Chopin's funeral march. While in China Mr. Newman visited the palace of Yuan Shih-Kai, being the first photographer to enter the forbidden domain. He also visited the Ming tombs and the great wall, taking photographs for lectures which he will give in the larger cities of the East this winter.

Government officials in China told Mr. Newman that the United States was the only real friend the country has, and that they gave America the credit for saving Manchuria and maintaining the integrity of China as an empire. While in Korea, Mr. Newman visited the palace of the deposed emperor and the palaces of the Prince and Princess Yee. In Japan he was given access to the royal palace and allowed to photograph the emperor and empress. Interviewing Baron Shibuzawa, known as the J. Pierpont Morgan of Japan, Mr. Newman mentioned to

TEUTONS ASSERT ALLY LOSSES IN AIR THE HEAVIER

German Official Despatches Declare Many Entente Fliers Were Shot Down in July

German official despatches late yesterday contained the news that the losses of the Allied air-forces for July were nearly five times those of the Teutons. The official report yesterday follows: GERMAN HEADQUARTERS, Aug. 9.—It was reported yesterday that English and French attacks on the whole front of Poursaux wood to the Somme had broken down. The British left 100 machine guns in our hands; besides, their losses were heavy and bloody. Likewise, a strong British night attack from Ovillers, Barentin and Lepetit failed. Considerable French forces repeatedly attacked Thiaumont, Fleury sector, also Chaptre and the Mountain woods. The enemy was forced back with heavy losses by our fire, in several places by bayonets and counter-attacks. The number of prisoners reached 350.

Results of air combats for July: German losses in air combats were 17 shot down from earth, 1 missing and 1 captured. Total 19. Anglo-French losses are, 59 in air combats, 15 shot down from the earth, 6 landing within our lines, 1 landing for the purpose of leaving a spy. Total 81. Hindenburg's front: North of Point Kurland, our fire damaged and drove away a number of torpedo-boats, steamers and sailing ships. Russian attempts to cross Duena into East Friedrickstadt was frustrated. Strong patrols between Veslov and Narocz lakes were repulsed. Near the Shtshara front, artillery duels increased. Enemy's attacks in the vicinity of Ekrobova failed. Strong Russian attacks were repeated in Stochod section many times, but the waves flowed back under our artillery, infantry and machine gun fire. There is fighting south of Stobychva and Stochod and bending east toward Kovel and north of Klesian. In heavy hand-to-hand fighting with far superior enemy forces our troops were victorious near Kuchary and Porskaya and Volka. Combats west of Luck decided in our favor. Hardy Austro-Hungarian troops were counter-attacks took lost parts of po-Kichniov, Toliznica and Ottynia.

COLD WEATHER SUREST CHECK FOR EPIDEMIC

New York Physician Sees Little Hope Abatement of Cases While Heat Lasts

Cold weather will check infantile paralysis, probably nothing else, a first-hand information was received by the Star-Bulletin from a prominent New York City physician, Dr. Charles L. Lindley, visiting here. Dr. Lindley left New York before the ravages of the dread disease started, but has followed with professional interest all newspaper accounts. The visitor is at the Moana hotel with Mrs. Lindley. They will probably leave for home in the Niagara. They came in the Matsonia. When Dr. Lindley was asked what he knew about infantile paralysis he said: "Very little, and that is about all any physician knows, either here or abroad. So far as I know there is no cure for it." The doctor scouts a statement made recently by a Chicago physician, visiting here, that possibly several deaths of summer complaint from the excessive heat had been credited to infantile paralysis in New York. He says there can be no truth in this statement as the symptoms of the two diseases are not at all similar. "However, heat certainly spreads the epidemic and aggravates individual cases," says the doctor, "and I believe cold weather will do much to reduce the fatalities." Dr. Lindley has read with interest of the adrenalin remedy discovered by the Rockefeller Institute, but says he has heard of no diminution in deaths. It is said that the ravages are stopped when the medicine is injected into the spinal canal. It was discovered several years ago by a Japanese doctor, Takamina. It contracts the blood vessels.

OAHU WILL HAVE 16,877 TROOPS BY JULY, 1920

Table Sent Here By War Dept. Provides Nine Infantry Regiments for Island

STRENGTH TO BE MADE GREATER EVERY YEAR

Cavalry, Artillery, Coast Defense, Aero Corps, All Are Provided in Program

There will be 16,877 troops on Oahu by July 1, 1920. This is the approximate number provided by the War Department for the defense of these islands under the National Defense Act. A table received yesterday by mail from Washington at the Hawaiian Department shows what the total strength of the United States army in the Philippines, Hawaiian Islands and Panama Canal zone will be this year, in 1917, and until 1920, when the full strength will be reached. When the fifth increment, July 1, 1920, is completed, the total garrison on Oahu will be nine infantry regiments of 1336 enlisted men each; one cavalry regiment of 840 men; one light field artillery, 859 men; one heavy field artillery, 873 men; 14 coast artillery companies of about 75 men each; one regiment of engineers of 654 men; one field battalion; signal corps, of about 244 men; one telegraph company, one aero squadron and two ambulance companies. This will mean a total strength in the infantry arm here of 12,024 men, in the coast artillery corps of 1050, and in the other organizations of numbers ranging from 76 to 373. The first increment provided by the National Defense Act went into effect this week, when the 32nd Infantry and the 9th Heavy Field Artillery were organized at Schofield Barracks. July 1, 1917, the second increment will be added, consisting of one infantry regiment. The following year, two more infantry regiments will be added; the third year, 1919, one infantry regiment. The fifth increment, July 1, 1920, is one infantry regiment, which will bring the total infantry strength on Oahu to nine regiments. There are now four.

(Associated Press by Cable)
ROME, Italy, Aug. 10.—Following their victory in the capture of all the defenses of Gorizia yesterday and the occupation of the city, the Italians are now threatening Trieste, the main objective of all the campaign on this front and the principal city of Austria's Adriatic littoral.

The army of the Duke of Aosta, which has done signal work in preparing the way for the present victory, is now pursuing the fleeing Austrians on the left bank of the Isonzo river. Cavalry is being thrown out to drive in the Austrian advance posts and heavy masses of Italian infantry are following at a rapid rate. This advance down the Isonzo threatens Trieste, which is reported to be preparing for an offensive near the city. Gorizia, occupied yesterday, is virtually undamaged by the bombardment to which it was subjected. The Italians did not use their heavy artillery to batter down defenses but employed strategy to take the city.

Before leaving the Austrians made an attempt to destroy their large military stores and many buildings, setting fire to the storehouses, but the Italians made such quick work of occupying the city that the fires were put out and most of the stores saved. It is also reported from this front that the Italians have pierced the Austrian entrenchments northeast of Monte San Michele and have occupied Roschini. A total of 12,000 Austrian prisoners has been taken in the last few days of fighting.

Italy Wild With Rejoicing Over Signal Victory in Gorizia Capture

(Associated Press by Cable)
PARIS, France, Aug. 10.—All Italy is celebrating the fall of Gorizia before the Italian army. Despatches from Rome and other cities say that at the capital city, Bologna, Florence, Milan and elsewhere, flags are flying and there were public demonstrations yesterday.

All the Gorizia defenses were yesterday topped with Italian flags. The Italian artillery dislodged the Austrians, and the infantry then rushed the Austrian lines, while reinforcements by the thousand poured from underground passages and backed up the Italian rush.

Russians Take Important Railway Point and Drive Teutons in Further

(Associated Press by Cable)
PETROGRAD, Russia, Aug. 10.—The Russians have captured the railway station of Kryptin on the Stanislan river line, thus driving the Teutons away from an important field-base, which helped them hold the Nadvorna front. The Russians have also reached the Monasteryska and Nizinoft railway at the mouth of the Zlota Lipa.

French Progress North of Hem Wood

(Associated Press by Cable)
PARIS, France, Aug. 10.—Progress has been made by the French troops today in heavy fighting north of Hem wood, much of it of a hand-to-hand nature. South of the Somme river the Germans today used liquid fire before their infantry attacks. Nevertheless they were dispersed.

Y. M. C. A. PLANS FOR ASSOCIATION AMONG SOLDIERS

F. A. McCarl Will Arrive Here in Fall to Begin Work for Movement

F. A. McCarl, superintendent of the Coast Y. M. C. A. work in the army and navy, will arrive in Honolulu some time this fall to begin work on the establishment of an army and navy department of the Y. M. C. A. A. E. Larimer, who returned from the coast on Tuesday, states that prospects are bright for the establishment of an association building for soldiers in and around Honolulu.

McCarl is now on the Mexican border and reports that he has been meeting with success in carrying the Y. M. C. A. work to the soldier. When he arrives here McCarl will go over the work that has been done in the city and will make plans for the leasing of a building for establishment of reading rooms for the soldier.

The Ad Club has endorsed the plan as a good one, and a committee has already been appointed to assist the organization in the work. The committee is composed of James Wakefield, chairman; Brig-Gen. Samuel Johnson, Capt. Norris Statton, L. A. Thurston and Emil Berndt.

Mr. Newman wanted to know if there was any possibility of a clash between the United States and Japan.

"Politically, no; commercially, possibly," answered the baron. "I am sure Japan will never wage war against the United States unless compelled to by an act of your country."

While in Hawaii Mr. Newman will take a large number of photographs of island scenes to be used in mainland lectures. He is accompanied by a moving picture operator.

JUNK COMPANY FILES ASSOCIATION PAPERS

Articles of incorporation of the Honolulu Junk Company have been filed in the territorial treasurer's office by local Japanese. The capital stock is \$10,000, with shares of \$10 each par value. The company will do a varied business, ranging from buying and selling junk to dealing in land, renting autos and managing bus lines, to buying inventions and selling steel, copper, manganese, lumber and coke.

Incorporators are K. Asano, president; S. Kuba, vice-president and treasurer; K. Nishimura, secretary; S. Kato, auditor, and B. Mura, director. KOREA MARU

SAN FRANCISCO, Cal., Aug. 10.—The Korea Maru, formerly of the Pacific Mail Steamship Company, wired to San Francisco today the information that she would arrive at this port late this afternoon. The Korea Maru came from New York via the Panama canal.

Upon arriving at this port the freighter will take on a cargo of freight and will sail for Yokohama. After discharging cargo there the steamer will go to Nagasaki, where she will be refitted as a passenger boat for service in the Pacific. Capt. Ota and 130 members of the crew will arrive here on the Tenyo Maru to take charge of the steamer.

PIONEER MILL CO. STOCK WILL GO AT AUCTION

Stock of the Pioneer Mill Company will be sold at public auction next Tuesday. There are 129 shares in the lot and the highest bidder will have the option of taking the whole or any part of the lot.

The Pioneer stock which is to be under the hammer Tuesday morning, with James F. Morgan Co., Ltd., as auctioneers, is a lot resulting from the action of the stockholders in voting an increase of capital and the issuance of a stock dividend, July 21. From the distribution of such shares there arose some fractional shares, which have been combined to make up the parcel that is to be auctioned.

From present indications, says the auctioneers, this is the last but one of sales arising from stock increases, the one remaining being the Rapid Transit Company.

PROMINENT KANSAS ATTORNEY ARRIVES TO SPEND VACATION

One of the most interesting visitors who arrived in the Manoa is Kos Harris, Wichita, Kansas, lawyer, friend of Champ Clark and Congressman W. B. McKinley, who carries recommendations to several prominent Honolulu men as a "genial gentleman" and who bears out this assertion with an amazing store of humorous anecdotes suitable for any emergency and forthcoming, too.

Harris is staying at the Pleasanton Hotel, and in response to questioning there this morning said he was out of politics. He is accompanied here by Mrs. Harris and daughter.

The "genial gentleman" tells of going to Kansas 44 years ago when the nearest house was 400 miles in one direction and 600 in another, so he says, and naturally he had plenty of room to attain the six-foot stature and broad shoulders which he can boast. The visitor is chief attorney for the Illinois Traction system of which McKinley is president.

GUARD DANCE TO BE ONE OF FINEST HERE

Good Hawaiian music and plenty of it will be the rule Saturday night at the National Guard dance in the armory. The dances, held for the benefit of the enlisted men's clubroom, are increasingly popular. Last Saturday night a masquerade ball was held, and the prize for the best costume worn by a girl was won by a young lady wearing a costume made from a large American flag. The men's prize was won by a man making up as a pirate. This Saturday night's dance is not a costume affair, however.

CHAMBER OF COMMERCE ELECTS NEW MEMBERS

W. O. Barnhart, Frank Q. Cannon and John Watt were elected to membership in the chamber of commerce at a meeting of the board of directors yesterday afternoon.

CURRAN COURTS HIS LIBERTY BY HABEAS CORPUS

Convicted of Assault in Lower Court, Takes His Case Before Federal Tribunal

Holding that he was illegally convicted in circuit court on a charge of assault, James P. Curran has filed in federal court a petition for a writ of habeas corpus by which he seeks release from the custody of Sheriff Charles H. Rice, to whom he was remanded to serve a sentence of four months. Federal Judge Horace W. Vaughan was to hear argument on the petition this afternoon.

Curran, after two trials in circuit court, was convicted and sentenced to serve four months in Oahu prison. He appealed to the supreme court, taking exceptions to the verdict of the jury. The supreme court held that the exceptions should be overruled. A mittimus was issued remanding Curran to prison.

It is alleged by Curran that, in the second trial, the testimony of a witness in the first trial was read, and that the witness was not produced in person. This, he claims, is contrary to the constitutional provision that a defendant shall be confronted by his accusers.

NIGHTLY DANCES IN SCHOOLHOUSE TO BE STOPPED

A dance has been running for the last two months on city property and the authorities have not been aware of it.

Now the detective department will close it, and the good times enjoyed evening after evening by the young people in the neighborhood of the Kaahumanu school are to end.

Building Inspector Henry Freitas, who is in charge of school buildings, has complained.

"Open windows have provided an entrance to the buildings and ukuleles the music," he said this morning. "Only a few couples went there once in a while at first, I am told. But the number has been increasing and now, they tell me, the dances are running every night. It shows what the young people want, of course, but I cannot allow them to use the buildings without authority and supervision."

Freitas first heard of the dances this morning and immediately asked the detective bureau to send a man to the school tonight to see that no dancers gain entrance.

STOMACH PUMP IS USED FOR POISONING WITH GOOD EFFECT

William Gallmeister, private, Co. I, 2nd Infantry, is recovering at the Fort Shafter hospital today from an attempt at suicide with a bottle of chloroform at the corner of King and Fort streets about 9 o'clock Wednesday night.

Policeman William F. Meyers reports finding Gallmeister apparently drunk but later discovered he had taken chloroform. A stomach pump at the emergency hospital probably saved his life.

He left a note in which he wrote: "Goodbye, everybody. I am going to a better world."

COLLINS ASKS MAYOR FOR ADDITIONAL HELP

An additional clerk is needed in the road department to catch up in work neglected last year before he came into office, George M. Collins, city engineer, tells the mayor in a letter received this morning. He asks that the mayor recommend to the board of supervisors that he be authorized to hire an office man for four months. "It must be done if the annual reports for 1915 and 1916 are to be compiled," he says. "The continuous application of a man for four months is needed to catch up with the back work and make the monthly reports required by law."

HARRY MURRAY WILL ADVOCATE TAX INCREASE

Increase the tax rate two mills to \$61473 and build half a million dollars' worth of city roads, \$150,000 worth of country roads a year, make the garbage and sewer service free (\$50,000) and spend \$50,000 a year in extensions of the sewer system, then issue the maximum amount of bonds allowed yearly by the law, \$400,000, for two years to pay for extensions of the water system and let the revenues of the department pay the sinking fund and interest on the bonds.

That is Harry Murray's plan in brief. He has outlined it in four pages of closely typewritten matter which he intends to read at tonight's meeting on the bond issue to be held in the Chamber of Commerce rooms. He has the facts and figures needed for an argument to back up his plan.

"The law will not allow a vote on the issuance of more than one-half of one per cent of the assessed valuation in bonds," he said this morning. "That amount cannot be successfully expended on roads, for if it is spent in Kalihi and Kaimuki, for example, this year the people of those districts will not vote for a bond issue next year for the improvement of other districts."

POLICE NOTES

Following a trial for assault George Kelli was discharged.

Alexander Charles will spend a month in jail for assaulting his wife Antone Torres, before Judge Monsarrat for vagrancy, was discharged. The case of non-support charged against W. C. Luke has been dismissed.

Charged with needless driving Frances Abel was tried, found not guilty and discharged.

The hearing of John Gomes, accused of murder in the first degree, has been postponed to August 16. As a common vagrant Yanagi Yone-sawa was tried in Judge Monsarrat's court and sentenced to serve three months.

In the case of three Chinese accused of assaulting another, Git Hui was fined \$5, Lau Pan was discharged and Chow Hai paid \$10.

K. Adachi and Lum Hun, thought to have possessed cheft tickets and formally accused of vagrancy, will be tried Thursday morning.

David Noa was sentenced in police court to serve one year in prison for assaulting an old Hawaiian in Iwilei with the butt of a pistol.

Thirty dollars in fines, costs and bail forfeited were realized by the city in police court from four drunks arrested Wednesday night.

Lack of incriminating evidence caused the prosecution in police court to strike from the calendar the charges of gambling against 10 Chinese.

W. D. Ellsworth has been arraigned in police court on a charge of retaining the wages of Ricardo Camacho. He pleaded not guilty and will be tried August 11.

The charge of assault against William Monroe was dismissed and another of malicious injury entered in its stead. Monroe is said to have smashed a mirror in the Prost saloon.

Violet Lonohiwa received a suspended sentence in police court for slapping the little daughter of Policeman Joe Perry. The defendant said the girl was stealing flowers from her yard.

Orders have been issued by the supreme court designating Hon. C. W. Ashford as judge of the juvenile and land courts during the absence on the mainland of Circuit Judge W. L. Whitney.

ROTARIANS HEAR OPTIMISTIC TALK FROM R. H. TRENT

Business in Country at Large Amazingly Prosperous, He Sums Up Observations

In a rapid-fire talk—one of the best heard at the Rotary Club luncheon in months—Richard H. Trent, recently returned from the mainland, expressed strong confidence in the business outlook for the United States, both for the duration of the war and in post bellum days.

While making no hard-and-fast predictions as to business conditions after the war, he laid before the Rotarians some amazing figures on national bank business and bank deposits, and declared that the "munitions profits" are only a small part of the total industrial profits of the country. "The munitions trade is only a drop in the bucket," he said. "Conservative authorities believe that the war order business has reached its zenith and no matter how much longer the war lasts, will be going down, since the Allies are now making such a large part of their own munitions."

Mr. Trent went to New York on a cable summons to attend a meeting of large writers of life insurance business. His description of incidents in his hurried trip was given with a humor which kept the clubmen laughing, and his description of the Hawaiian section of the big parade at the Philadelphia club convention drew forth much applause. He admitted that as a compromise he had consented to march in the parade between two fair Philadelphiaans dressed as hula girls.

Speaking of his trip, he emphasized the fact that "courtesy" is the slogan everywhere sounded in transportation circles and that the big railroads are doing a great deal of work to impress upon the traveler their desire for his convenience and comfort.

He told of the beneficial results which should come from the passage of the rural credits law by Congress, enabling the farmer to get a guaranteed capital on which to develop his business. After mentioning the great prosperity throughout the country, particularly in the East, he said that the labor unrest and the talk of strikes is due to the desire of labor for a share in the very large profits reaped by big business concerns.

Cushingham had to return here without hearing all the cases, owing to pressure of business in his office.

DEALERS MAKE FULL REPORTS WEAPONS SOLD

List Furnished Includes Names of Persons Police Say Should Not Be Armed

Harry Lake, detective in the city attorney's office, expressed genuine surprise as he looked over the list of fire-arms sold by dealers since the last report was made, July 19.

Lake pointed out a half-dozen on the list of 86 who are known to

the police, and in his opinion are dangerous characters. "There ought to be some way of stopping these sales," he said. "But as there is not, this list is going to be mighty valuable to the police."

The new report blanks were first sent out August 1. The weapons sold before that are listed, mostly, are sold to "unknown" purchasers. Hereafter every sale will be recorded by the dealer and a list of names and addresses of purchasers sent to the city clerk, who will send a duplicate to the sheriff. Eight dealers have sent in reports.

Owners and possessors of firearms are reporting to the clerk daily since newspaper notice of the provisions of the law, compelling such reports under penalty of a \$500 fine or six months' imprisonment, have been published. One man came in this morning with a report of ownership of a Winchester rifle given to him by the provisional government in 1893, presumably for service during the revolution.

WIRELESS TESTS ACROSS PACIFIC PROVE SUCCESS

Marconi Company Will Soon Establish Service Between Tokio and Honolulu

(Special Cable to Nippon Jiji)

TOKIO, Japan, Aug. 10.—Japan will send wireless messages to Hawaii in a few weeks, according to the report issued from the department of communications today. The Japanese government has announced that the tests between Funihashi wireless station, near Tokio, and Kahuku, Hawaii, have been a complete success and that commercial messages will be received as soon as a contract has been arranged between the government and the Marconi Wireless Telegraph Company of America.

Every test has proved that the service will be of the best and the recent tests made during the daytime under the most severe conditions have proved that the sending of wireless messages from Hawaii to Japan will not only be successful, but economical. This wireless service will be about 1000 miles longer than any other service in the world.

CHINESE LEADER SAYS CHINA HAS GREAT PROMISE

Word has been received from Col. Gen. D. J. Wudan, who is now in Peking attending the session of parliament. Wudan went to China nearly two months ago to assist in the organization of the cabinet, and returned to his old position as a member of the lower house.

In his letter to Yong Kong Tat he states that China is peaceful, and with the exception of Kwantung province, where Lung Chi Quan is carrying out his campaign against the revolutionists and government party, that there is no dissension among the Chinese. He reports that Lee Let Quan has the confidence of the people in Kwantung, and expects that as soon as this affair is over China will begin to make a step forward among the nations of the world.

THURSDAY.....AUGUST 10, 1916.

A Victory For Advertising.

A mighty but bloodless battle was won yesterday by the railroads of the United States—won by the shell and bullets of systematic publicity fired through the advertising columns of the mainland press.

The four great brotherhoods of railway employees, representing 400,000 men, agreed to place their differences with the railroads before federal mediators.

This is the point for which the railroads have been fighting. Weeks ago the railroads, over the signatures of eighteen of the biggest railroad men in the United States, declared:

"The single issue before the country is whether this controversy is to be settled by an impartial government inquiry or by industrial warfare."

When it was evident that the employees and employers were so wide apart that a break was almost certainly inevitable, the railroads began to put their case before the people through paid advertising. They did not hesitate to put this case before the people in the news columns, of course, but they also contracted for advertising space in the country's dailies and began a well-executed advertising campaign which is an object lesson to corporations everywhere.

The first advertisement was headed:

"Federal Inquiry or Railroad Strike?"

Under this the roads told their story. They told of the differences between the operators and employees over hours and pay, told how the employees had made demands the companies felt themselves financially unable to meet, told how the roads had proposed public inquiry and arbitration and how this had been refused.

Then the roads made a frank, straightforward, vigorous appeal for public sentiment to come to their aid. "A question for the public to decide" they said and added:

"The railroads feel that they have no right to grant a wage preferment of \$100,000,000 a year to these employees, now highly-paid and constituting only one-fifth of all the employees, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts."

Does this sound anything like the "public be damned" attitude which many public service corporations a few years ago appeared to follow?

As a matter of fact, this advertising by the railroads is the most noteworthy development of a decade in the relations between corporations, their employees and the public.

And, by the way, it is interesting to note that the railroads declared for arbitration "preferably by the Interstate Commerce Commission."

The very body which a few years ago was regarded as a foe of socialism, as an enemy of the railroads, is now the tribunal to which they turn for assistance against alleged unjust demands.

Corporations are learning that, after all, the public and public institutions are their best friends. The public may criticize sharply at times, the public may show an interest in business which the employers regard as an intrusion on private rights, but it is the public—public sentiment and public bodies—which safeguards capital from oppressive demands by labor, just as it is the public which safeguards labor from exploitation by capital.

Whether the railroads win or the employees win in the settlement of the dispute, the railroads have secured the victory for which they conducted their advertising campaign—reference of this dispute to a public tribunal.

HOW CARELESS!

Deputy Sheriff Jack Fernandez conducted the inquest at Waipahu in the fatal plantation railroad accident case. The coroner's jury fixed no responsibility for the accident.

Deputy Sheriff Fernandez reports that testimony showed the accident to have been caused by a luma who turned loose two cars loaded with laborers returning from a late work in the fields. The cars ran down hill and crashed into a train coming up. The cars were turned loose, it appears, in order that the laborers might get home earlier. The luma, says Fernandez, was in charge of cars and laborers. What precautions, if any, were taken in the way of lights or guards certainly did not operate to prevent the accident.

Two men were killed and a dozen or so injured. But the jury blames no one. Accidents are acci-

dents, and a death or two more or less cannot be charged to lack of common-sense safeguards or to negligence of any one in responsible position. How careless, in fact, it was for these men to get themselves killed and injured! And if men will persist in rushing into fatal accidents, why make a fuss about it? Leave it to the coroner's jury to prove that nobody can be blamed!

ADVANCEMENT THROUGH WAR.

War is a tremendous waste of human material and its cruelty is unspeakable, but it drives home to careless civilization some much-needed lessons—economy, thrift, thorough efficiency—and it is a remarkable stimulus to inventiveness, research and conservation.

Such rapid strides are being made in medical and other branches of science that scientific men the world over welcome the opportunity to get into the warring countries of Europe and observe some of the new methods that have arisen, or work out there, with the human material at hand, problems based on conflict. For instance, the universities of Japan are sending some of their educational leaders, men such as those passing through here on the Tenyo Maru, to study conditions near the fronts.

Though French scientists have done a good deal, an Associated Press correspondent notes, to help the government catch up with Germany in the scientific department of her military preparation, there is still complaint that their services have not been utilized to the best advantage, and the Academy of Sciences now poses a question as to whether men of technical training shall not have a greater share in the formidable work of reorganizing France after the war.

Henry le Catelier of the institute, proposes that the academy go to work at once to formulate the working methods best calculated to accelerate the industrial and economic recovery of the country, without waiting for politicians to decide whether the services of technical and scientific men will be accepted.

Members of the institute expected that the government would have recourse to their technical knowledge in the organization of some of the army departments. Instead, members of parliament, entirely lacking in technical knowledge, were placed in charge of services such as the munitions, sanitary and aeronautic department, while men of technical training were allowed only to submit inventions and suggestions.

Previous to the Rouvier administration in 1905, there had always been a soldier at the head of the war department with the exception of the administrations of Charles de Freycinet, who was, however, a technician of the highest competence. Since that period the department has been in the hands of civilians seven years out of eleven.

The navy department has been administered by a naval officer only three years out of the last twenty. The rest of the time it was in the hands of lawyers or journalists. Just prior to the Tangiers incident that threatened war, the navy was administered by a journalist and the war department by a stock broker.

Washington despatches say that the Lusitania case is nearly finished. By the way, what punishment was given the commander of the submarine which attacked the Sussex? This case was to have been finished some time ago.

Tonight comes the public meeting for discussion of the proposed \$750,000 city bond issue. The time is 7:30 o'clock and the place is the Chamber of Commerce assembly room. The subject is vital and a large attendance should result.

Possibility that the Bremen may land anywhere from Maine to Florida lends unusual zest to life at the Atlantic summer resorts.

Congress may adjourn by September but fears are entertained by the country at large that the statesmen won't do it.

Democratic factions are beginning to waft the olive branch. The reason is they are afraid of losing the plum-tree.

Not all the gas-attacks are in Europe. Quite some few political trenches are in America.

Italy has needed a victory like that of Gorizia to cheer up somewhat jaded spirits.

CANADIANS WIN HEARTS OF LONDON COUSINS

LONDON, England.—Residents of the metropolis are coming to think more and more of the Canadians. Their popularity is immense, all classes being ready to cheer them on any occasion, their pleasant position being due to their prowess in the trenches and in the raiding lines at the front.

The most recent opportunity of the Londoners to pay homage to those of the Dominion has just occurred in the parade of 400 selected bandmen of the Canadian Expeditionary Force. The musicians, who were the soloists picked from 15,000 bandmen with the force, gave a promenade concert at the Royal Opera House in aid of the Women's Tribute Week. Then, divided into three complete

RESTRICTIONS ON DRESS HAVE TO BE RELAXED

It admits the necessity for considering individual cases, especially those whose vocations entail quick using up of clothes, and are therefore entitled to receive more frequent renewals. The following relaxation of the rules has been announced: "Presumptive Need for Renewals of Clothing."

First—At the inauguration of a

Third—Illness, or deaths, in the family.

Fourth—Special church festivals, or entrance into a profession.

Fifth—Other special cases affecting classes who presumably do not possess spare clothes.

The letter said that the great water fountain will be ready to ship to this country in about two months.

MRS. E. MACKENZIE, superintendent and founder of the Beretania mission, will make her permanent home in Los Angeles. This much beloved lady, with her husband, who is now recuperating in southern California, has devoted over 20 years to mission work. There is not a single Chinese family in Honolulu which does not know of the noble services of the couple. Mrs. Mackenzie takes with her a talented young Chinese lady, Miss Jessie Kam How Leong, who will pursue special courses in social service work. Miss Leong has been

AUSTRALIAN BOYS COME TO ENTER NEWSPAPER WORK

Sons of Percy Hunter Will Study American Methods in Honolulu

Percy Hunter's two sons arrived from London yesterday afternoon at 4:30 o'clock on the Makura. At 5 o'clock they were out with the Outrigger boys surfing in the big waves. These boys, who are 17 years of age, have all their lives been known as "Bont" and "Pete." Their real names are "David Grant Blair Hunter" and "Kenneth Hunter," but this is a family secret, and the boys are already "Bont" and "Pete" at the Outrigger club.

While Percy Hunter is in Australia outlining the destinies of the Liberal party of New South Wales, his sons will remain in Honolulu studying the work of the Pan-Pacific Club, and expect later on to do newspaper work in this city. They have been educated in Australia, Germany, France and England. Their father, an old Sydney newspaperman, wishes them to get something of the American idea of journalism, with its quickness and vivacity, for one of the boys, if he shows a fitness, will enter publicity work in Australia or begin real life as one of the workers in the Pan-Pacific movement.

Mrs. Hunter arrived yesterday with her two sons and will remain with them for a month or more. The boys, however, will probably remain in Honolulu for a year's study and experience, when, if the war is concluded in Europe, they will return to enter the Sydney university in Australia. If the war is not concluded by that time, the young men, being of age for enlistment, their father has promised that he will return to Honolulu and go with them to the front.

NO ONE HERE TO HEAR TRIALS OF WILDER'S SUITS

Ashford Disqualified, Whitney on Way to Coast, and Third Judgeship Vacant

Two perfectly good circuit court cases are completely lost. They have no place to go as none of the three divisions of the territorial tribunal will receive them, and they were scheduled to be heard today.

The cases in question are among the four injunction suits brought by Judge A. A. Wilder against Governor Pinkham, Charles R. Forbes, superintendent of public works, and other officials. One of the suits is against Territorial Treasurer C. J. McCarthy and the other against the harbor board. Both seek to prevent the payment of any moneys toward expenses incurred by Forbes during his trip to Washington some months ago.

Circuit Judge T. B. Stuart heard the first two cases and decided in favor of Wilder. The respondents have appealed. At the conclusion of the hearings the remaining cases were set down to be heard today.

The pending cases rightly should be heard in Judge Stuart's court, but Judge Stuart has left the territory. His resignation has been sent to the White House. Circuit Judge Ashford is not qualified to hear them because of his relation to the petitioner. He decided this much himself. Circuit Judge Whitney cannot hear them as he is on his way to the mainland and will be gone for two months.

Another obstacle is also in the way. Forbes, the respondents' principal witness in the first cases, also is on the mainland. As the matter now stands the cases are set down in Judge Stuart's calendar for trial today, and they probably will remain there until a successor to Judge Stuart is appointed.

LOGAN WILL BE HERE SATURDAY FROM MAINLAND

Has Many Passengers of All
Classes for Honolulu; Dix
Off Port 4 P. M. Today

Radio advices received this morning by the quartermaster's office from Capt. Williams of the U. S. army transport Logan say she will arrive off port from San Francisco probably at 3 o'clock Saturday afternoon, sailing about Monday for Guam and Manila. Another radio message, from the transport Dix, said she would arrive from Manila and Japan with coal at 4 o'clock this afternoon.

The radio from the Logan states that passengers aboard for Honolulu include 35 first cabin, five second cabin and 304 troop class, of which three are cavalry recruits unassigned, three privates of the 4th Cavalry, 157 recruits for the 4th Cavalry, 111 coast artillery, one corporal, Q. M. C.; one first class private, Q. M. C.; two first class privates, two second class privates, 3rd Battalion of Engineers; one corporal, three privates, Battery E, 1st Field Artillery; one private, 170th Company, C. A. C.; one corporal, Company A, one private, Company C; one private, Company H, 2nd Infantry; one corporal, Company I, 25th Infantry, unassigned; four enlisted men of the navy, five marines and one civilian.

Service passengers for Honolulu include Lieut.-Col. W. B. Bannister, Medical Corps; Maj. W. C. Short, 4th Cavalry; 1st Lieut. H. E. Pittz, coast artillery; 1st Lieut. E. R. Householder, 25th Infantry; George E. Stallman, dental surgeon; 2nd Lieut. S. M. Decker, John Kahle, coast artillery; C. J. Ballinger, 25th Infantry; L. H. Hines, headquarters clerk; M. H. Barber, armament machinist, ordnance department; navy, Capt. G. R. Clark. Capt. Clark comes to succeed Admiral Boush at Pearl Harbor.

Service passengers for Guam are Lieut. E. Talbot, U. S. Marine Corps; B. J. Jones, sub-inspector, U. S. navy; Miss M. L. Anton, Navy Nurse Corps, and 11 enlisted men of the U. S. Marine Corps.

For Manila the Logan has the following service passengers: Maj. W. R. Standford, P. S.; commanding officer; Capt. F. B. Hennessy, P. A.; D. I. Sultan, Corps of Engineers; Lieut. John C. Henderson, C. A.; M. Demmer, Max Sebald, Philippine Scouts; W. M. Chubb, Corps of Engineers; A. L. James, Jr., 15th Cavalry; C. E. Partridge, 13th Infantry; L. A. McLaughlin, R. N. Perley, A. S. Buyers, F. T. Hodapp, Ensign J. S. Farnsworth, Chief Gunner D. P. Henderson.

There are 56 cubic tons of freight on board for Honolulu, including two automobiles. The transport has 298 sacks of mail for this port and will require 650 tons of coal here.

LIEUT. CONNORS HAS NO LOVE FOR ALASKA VARIETY MOSQUITOES

A postal card received in the last mail by Honolulu friends of Lieut. G. R. Connors, formerly lieutenant engineer on the U. S. coast guard cutter Thetis when she was stationed here, says he is now on the coast cutter Bear, stationed at St. Michael, Alaska, where they are holding target practice. The young officer writes that the mosquitoes in Alaska this summer are a great deal more ferocious and persistent than the Honolulu variety.

CAPT. SMITH GETS HIS NEW COMMISSION

Another Oahu army man to receive his commission promoting him to higher rank in accordance with the National Defense Act of June 3 is Capt. Stephen F. Smith, commanding officer of the new motor ambulance company recently authorized by the War Department for Schofield Barracks. The captain is promoted from first lieutenant, and received his commission from Washington a few days ago.

K BOATS RECEIVING OVERHAUL FOR RUNS

Overhauling of the submaines and torpedo practice off and inside Pearl Harbor are the activities of the third submarine division, the K boats, this week. Nothing of any particular prominence is scheduled before the cruise to Lahaina, Maui, for practice runs begins the latter part of this month.

INGROWING NAILS

Many people in Honolulu are suffering right now with ingrowing nails and yet this torture is all unnecessary, for Dr. Ryan, Chiropodist, at McInerny's Shoe Store, can quickly relieve this affliction and remedy the cause.—Adv.

BAND TO BE FORMED FOR NAVAL STATION

Sweet music may soon resound at the Pearl Harbor naval station. An order has been received from the navy department authorizing the commandant to receive applications for enlistment as bandmen in the U. S. navy with station in Hawaii.

None but native Hawaiians who were born citizens of the United States, or who were inhabitants of the islands on or before August 12, 1898, the date of annexation, may be enlisted as bandmen. There will be 15 musicians, whose pay will range from \$30 to \$35 per month, including quarters, food and medical attendance. Applicants must be between 21 and 30 years old. Those interested should communicate at once with Lieut. B. F. Tilley, aide to the commandant. Rear-Admiral Clifford J. Boush, whose successor, Capt. George R. Clark, will arrive Sunday on the Logan.

6. Upon the recommendation of the commanding officer, supply company,

NEW RANGE WILL BE USED FIRST TIME ON SUNDAY

First Battalion Will Dedicate
Punchbowl to Crack of Its
Rifles; 4 Companies Fire

Punchbowl rifle range, the only range in the world located in an extinct volcano crater, will be "christened" to National Guard activities Sunday morning when bullets will whiz over it for the first time, as the 1st Battalion, 1st Infantry, N. G. H., begins annual instruction practice, preliminary to record target practice.

Companies A, B, C and D, comprising the battalion, will shoot, under the direction of Maj. M. M. Johnson, commanding the battalion, and Lieut. Col. William R. Riley, range officer, who has had general charge of work on the range from its inception to its completion.

The men will march by companies and not as a battalion from the National Guard armory to range, probably hiking up the regular trail. They will be served with lunch at noon at the battalion mess, a hot meal being given all the men, each company detailing its cooks.

Expert riflemen are limited to 100 rounds of ammunition, sharpshooters to 130 rounds, and marksmen to 167 rounds, for instruction practice. The telephone system, with telephones at each of the four ranges, 200, 300, 500 and 600 yards, has been completed, and installed by Field Company A, Signal Corps, N. G. H., commanded by Capt. R. L. Noggle.

As there are three battalions of four companies each in the 1st Infantry, each battalion will have a chance to fire every third Sunday. It will take at least two Sundays for a battalion to complete instruction practice, after which record practice will be held.

It is expected that it will be November before all the battalions have finished practice. The regular army course will be fired.

Company A of the 1st Battalion is giving a smoker tomorrow night in the armory, and a number of fine features have been arranged for the program. This company is commanded by Capt. Henry P. O'Sullivan.

The following appointments are made in that organization:

Pvt. H. S. Bush, to be regimental supply sergeant, to fill original vacancy.

Pvt. E. W. Burgess, to be regimental supply sergeant, to fill original vacancy.

Pvt. L. C. Thompson, to be first sergeant, to fill original vacancy.

GERMANY BUILDS LUMBERMEN MAKE TENYO CARRIES

HUGE MERCHANT FLEET

A STAND FOR OPEN SHOP

PROMINENT PEOPLE

THE HAGUE, Netherlands.—That Germany is building a tremendous mercantile fleet including the largest ship in the world, was declared by Herr Ballin, general manager of the Hamburg-American Line, in an interview with the Hamburg correspondent of the Frankfurter Zeitung.

The ship referred to is the Bismarck, of 56,000 tons, being constructed for the Hamburg-American Line. There is also the turbine ship Tirpitz, of 32,000 tons, under way, and the list also includes three others of 22,000 tons. At the Vulkan yards, Bremen, nine ships are building, four of them having a carrying capacity of 18,000 tons, these being the world's greatest freight steamers.

In addition, Herr Ballin continued, three big liners are under way at the Flensburg yard. Two more steamers of 13,000 tons and three larger passenger-freight steamers are being constructed. Two cargo ships of 17,000 tons each are being constructed especially for the Panama Canal trade at the Tecklenburg yards at Geestemünde. The North German Lloyd is building at Dantzig two fast liners of 25,000 tons, the Columbus and the Hindenburg. These are to be speedy, designed to cut down the time between the continent and New York. The same company is building 12 other ships of 12,000 tons, the München and the Zeppelin, of 16,000 tons each. The Bremen-Africa Line is constructing six steamers, the Hansa Line eight and the Cosmos Line 10, ranging from 9000 to 13,000 tons.

BRITISH TAX ON SHIPPING IS HIGH

At the present time British shipowners are making very handsome profits, but inasmuch as 50 per cent of these profits on the average have to be paid away in taxation, the net result to the shareholders is not nearly so good as some people seem to think, says "Fairplay." Whereas neutral vessels secure the full market rate of freight, and have to pay nothing like the extra taxation, British shipowners have to submit to 53 per cent of their tonnage being requisitioned by the Admiralty at rates only about equal to pre-war figures, and have the balance of their vessels "directed" to certain voyages at rates which are sometimes half those paid to neutrals, while of the excess profits over 70 per cent is paid away to the government in excess profits duty and income tax. Neutral shipowners are setting aside large amounts for the extensive repairs and repairs which are being delayed and to replace tonnage lost, but British owners are not able to make anywhere near the same provision.

MAKURA ARRIVES AND DEPARTS WEDNESDAY

With 26 passengers and 11 tons of freight for Honolulu the Canadian-Australasian steamer Makura arrived here from Vancouver on route to Sydney Wednesday at 4 p. m., and sailed at 7:30 p. m. From here she took 20 passengers and 11 tons of freight. Among the passengers was J. W. F. Johnson, manager of the Vancouver-Fiji Sugar Refining Company.

At the sale held Wednesday morning by the customs house of all abandoned and unclaimed goods, \$177.70 was netted. The 60 gallons of brandy which has been traveling back and forth between here and China for the past 20 years brought only \$23.

When Your Eyes Need Care Try Murine Eye Remedy

Lumber shippers all along the Pacific coast are deeply stirred over the recent strike of longshoremen and according to advices from various places have adopted methods and formed organizations which they hope will place them in such a position that future strikes will not affect them seriously. The recent strike disorganized the entire lumber fleet along the Pacific coast and seriously curtailed the shipment of lumber.

In San Francisco the lumbermen have formed the American Stevedoring Company.

The corporation is financed 50 per cent by the lumber dealers and 50 per cent by the lumber handlers—owners of lumber schooners.

The directors are Ben Reed of the San Francisco Lumber Company, C. S. Sutton of Pope & Talbot, Arthur Hooper, Andy Moran, Oliver Olson and Ralph Meyer of the Hobbs-Wall Company.

The organization is unaffectedly non-union in that all men who are competent will be employed whether they have union affiliations or not.

Andy Moran, formerly with Swayze & Hoyt and now a member of the firm of Pair & Moran, said that the American Stevedoring Company will handle lumber for practically all the lumber yards and wharves with open shop employees.

Mill owners in the Coos bay country have also organized a stevedoring company that will employ non-union men only. The organization will be conducted strictly on the open-shop basis and the wages will be 50 cents an hour straight time and 75 cents an hour overtime.

The addition of the new company at Coos bay makes five shipping points on the coast that have newly organized non-union stevedoring companies, and the same scale of wages is being recognized by all. The five points are: Puget Sound, San Francisco, Grays Harbor, Coos Bay and Portland.

Bringing a large number of prominent people, the Toyo Kisen Kaisha liner Tenyo Maru arrived here Wednesday afternoon and sailed for San Francisco at 11 o'clock this morning, taking mail. She will reach San Francisco August 18 and be here again, bound for the Orient, about September 3.

Among the prominent passengers were the Prince of Siam, Capt. Ernest Lent of the Chiyu Maru, wrecked in March; Sir and Lady C. P. Chater, the wealthiest people in Hongkong, and whose philanthropic work is known throughout the Orient; H. J. Gedge and wife, Prof. Y. Haga and Prof. G. Shiba, both of whom are connected with the Japanese government school system; D. M. Linnard and Miss Dorothy Linnard, Baron M. Matsumoto, wealthy Japanese nobleman and financier; U. Hashimoto, manager for the Asano interests; A. Hamberger, Los Angeles merchant; G. H. May, superintendent of police at Singapore, who is on the way to Trinidad, West Indies, to accept a similar position; F. E. McHugh, oil magnate of Amoy, China, and J. J. Elizalde, wealthy Spanish merchant of Manila, who is going to Spain.

The Tenyo Maru brought 32 cabin, eight second cabin and 425 steerage passengers to Honolulu. Of the steerage passengers a large number were Filipinos for the plantations. Through passengers numbered 201 cabin, 49 second cabin and 170 steerage. Freight for Honolulu was 1095.03 tons and for San Francisco 4445.10 tons. The principal items for here were Chinese merchandise and wine, rice and Japanese provisions.

The Tenyo Maru is carrying a fortune in silk to San Francisco. It is valued at \$3,940,400 and is consigned to merchants throughout the United States. Other freight for the coast is rice and tea.

DIX IS DUE TODAY, LOGAN HERE TOMORROW

The U. S. army transport Dix, from Manila with a cargo of coal for Honolulu, will arrive this afternoon at 4 o'clock and dock at naval slip No. 2. She will remain here 10 days and then proceed to Seattle.

Saturday afternoon the U. S. army transport Logan, which is taking the Thomas' run between San Francisco and Manila, will arrive from the coast at 3 o'clock and dock at Pier 6. She will probably sail for Manila, via Nagasaki, Monday, August 14, taking mail.

JAPAN WILL BE SELF-CONTAINED, SPEAKER ASSERTS

Visiting Expert Tells Japanese
of Honolulu of Industrial
Strides

Twelve hundred Japanese gathered last night in the hall of the Japanese Central Institution, Nuuanu street, to hear the five Japanese university professors who are going to the United States and Europe as expert commissioners of investigation.

Dr. I. Inagaki, professor in the agricultural college of Tokio University, spoke on rice culture and its development. Dr. C. Shiba, professor in the engineering college, spoke on Japanese mechanical industry. Dr. Y. Tashiro of the medical college spoke on longevity of the human race, and Dr. Y. Haga, the fourth speaker, who is a noted figure in literary education, spoke on the nature of Japanese as islanders, and Dr. W. Okada, doctor of medicine, spoke on care of the throat.

Dr. Shiba talked with particular interest on the progress of nations through industry. He said in part:

"As an engineer this is a good opportunity for me to go to the European countries while they are in conflict to investigate their present industrial conditions. The present or the future of the war depends not only on soldiers and commanders, but even more upon the power of industrial science. The reason why Germany is so strong is because that country is superior in the sciences and industry. Look at Russia. Against Germany can that country succeed without industrial assistance from Japan? Look at England. Her warships were sunk by the German submarines, but her great progress in industry allows her still to make ships for war. In Japan we are now developing our industry year after year. Not many years ago Japan could not make her own ships. Our cruisers or battleships were almost all foreign made, but not so today. We are making everything necessary for our country."

"Great development of industry is necessary in our country. In time of need we can make all our war implements."

He added that the private iron and foundry plants of Japan are being developed so that they can fill any orders which would become necessary in case of war.

PIRATES MASSACRE CREW

TOKIO, Japan.—The Japanese legation at Bangkok reports that a Malay schooner laden with salt was boarded off Minala recently by Chinese pirates, who massacred the entire crew with the exception of two who saved themselves by swimming ashore. The Siamese government dispatched a gunboat in search of the murderers.

THEATRICAL OFFERINGS

MASS OF DETAIL IN LITTLE GYPSY

Lavish attention has been paid to detail in the Fox Film Corporation's production of "The Little Gypsy," now being presented at the Hawaii theater with Dorothy Bernard in the leading role. No expense has been spared in this production and the cost is placed at upwards of \$500,000. Whether this is stage money or real "iron men" can best be decided by a visit to the Hawaii theater.

One of the most spectacular scenes is that in which a band of striking weavers, infuriated by a cut in their wages, attack and burn the plant in which they are employed.

To make this scene an entire village covering five acres was erected showing the weavers' huts clustering about the great central structure of the factory. The scene, which is only one of the many big sensational effects in "The Little Gypsy," consumed a month in the building and employed scores in its construction. The factory building was erected with solid care and fidelity to detail — and all that it might eventually be burned to the ground. Director Oscar Apfel took personal supervision of the construction work and narrowly escaped being severely injured when some of the scaffolding upon which he was overseeing the job collapsed, throwing him to the ground. There were several narrow escapes also during the burning of the factory; and incidentally the Fort Lee, N. J., fire department had to be called out to quell the flames, which threatened to spread to houses near the place where the village had been built.

HAS CHAPLIN A CORNER ON JOY?

"Carmen" was originally written in the French language and is a classic tale of love and passion, but a classic that did not require several centuries to make it properly appreciated. It has been translated into almost every written language, has been transformed into a play and also an opera. It has been produced on the screen by two of the leading photo-play companies of the country, but there is no record of anyone ever having had the nerve to burlesque "Carmen" until Charlie Chaplin undertook the task.

Whether Chaplin has made good as a burlesquer can readily be judged by an evening at the Bijou theater, and if laughter is any criterion of the worth of burlesque Chaplin has labored well. There are many who have formed the opinion that Chaplin is a slapstick comedian first, last and all the time. This is an error. In "Carmen" he is what the critics would term a "refined comedian."

In addition to the Chaplin film the Bijou is presenting another feature, "The Writing on the Wall," featuring Virginia Pearson and Joseph Kilgore.

HEWLETT'S NOVEL MAKES FINE PLAY

Elizabeth Barbridge, who won fame on the mainland and in Europe, where she appeared as leading woman with Frederic Tremann, will be seen at the Empire theater today in an exceptional three-act dramatization of E. H. Calvert's famous play, "Reckoning Day," a spectacular production. The film drama is based on the novel of the same name by Marion Hewlett and much of it is set in the quaint environment of more than a half century ago. The plot has to do with the rugged life of the northwest. It is of the melo-dramatic type where deceit and dishonesty are at last discovered and the victim of a plot is given

MARIE DORO IS BACK A BRIDE

"The Morals of Marcus" and "The White Pearl," both offered in Honolulu at the Liberty theater, firmly established the reputation of Marie Doro as a charming little film personage. Now comes Miss Doro with her latest screen triumph, "Diplomacy," adapted from Sardou's powerful drama of the same name and in which she won unqualified success on the speaking stage as co-star with Blanche Bates and William Gillette.

The presentation of "Diplomacy" is doubly interesting at this time as Miss Doro is a recent bride and her husband, Elliott Dexter, is an actor of marked ability and appears with her in the leading male role.

"Diplomacy" is based on the theft of a set of plans from a young diplomat, plans of the fortifications of Gibraltar. Dexter is the diplomat and his suspicious point toward Doro, his wife (Marie Doro). The suspicious prove erroneous, but not before this talented little lady has had ample opportunity to display her dramatic ability. "Diplomacy" opens at the Liberty theater tonight.

en a just deal. Miss Burbridge is said to make an ideal heroine and her beauty is accentuated by her dashing manner.

Sydney Drew will return to the Empire theater today in a clever comedy, "A Case of Eugenics." Mr. and Mrs. Drew have made much of Temple Saxo's play, which had a long run at metropolitan theaters. The troubles of the newswomen over the disposal of an adopted baby lead to a host of amusing complications.

FEW PLANTATION
LABORERS NEED
CHARITABLE AID

Higher Wages Keep Workers
Out of City and Independent;
Others Receive Help

"We have but few plantation hands who come to the city for work, get stranded and come to us nowadays," said E. E. Brooks, manager of the Associated Charities, during a discussion of his work of the last month this morning. "Wages are high and they don't come to the city. But we have the same number of sick and of families without a breadwinner appealing to us—in fact the number becomes larger every month as more people learn of the work we are doing. The charities is comparatively a new institution, you know."

Asked if there were many stranded mainlanders coming to him for help he replied: "We have a few now and then, but most of them go to the Y. M. C. A. or the Y. W. C. A. The class of people who come here from the mainland think of those institutions before they do of us, I guess."

His report for July, just submitted, shows 181 families under care, of which 89 are new, 42 old and 100 continued from June. They are 719 individuals in the 181 families. His report shows the social state, the nationality and other facts about those aided, the class of care given, the agencies and individuals sending cases to the organization for relief and other such facts. It is open for inspection at his office in the bungalow on the Palace grounds.

SCOUT NOTES
SEVERAL CHANGES
IN TROOP FIVE

TROOP V.
The minutes of the last meeting were read and approved. Mr. Jack Doly having been appointed assistant scoutmaster reported for duty and was introduced to all the members of the troop. Roll was called and found 23 on time. Leo de Roo was excused while on a trip to the coast.

Stephen Mathews, Norman Taylor and Ching Ching were also excused, being absent from the islands. The orders were issued and approved by Scoutmaster Barry and the following named boys were transferred to Troop 25, headquarters troop: James Holstein, Walter Akana, Charles Akana, Joseph Andrade and Albert McKinney. They were also dropped from the rolls of Troop 5 and wished much success in the new troop.

Orders were issued to James Holstein, the troop scribe, to turn in all property belonging to his former troop to Clarence Silva, who has been appointed troop scribe; also that Treasurer Charles Akana turn over all property and money now in his possession to the newly appointed treasurer, William Holt, Jr. Joseph Ikeole was elected junior patrol leader. One boy was transferred to the troop from California, and two new boys joined the troop. After business the troop was called to order as we had a caller, Mr. Hayward, the commissioner, who gave us a talk. Mr. Hayward also swore in one first-class scout, one second-class and two tenderfoot scouts. We had a short drill and began first aid in addition to the litter drill. Business closed at 9:15 p. m. and all went home to report for duty on Friday night at 7:30 p. m., August 11.

CLARENCE SILVA, Scribe.

TROOP VIII.
The first meeting after vacation was held on the 4th of August.

Mr. Bryan not being present, Robert Macconel took charge.

Scribe Macconel made Scout Leadership assistant scribe. He then told the troop he was going to the Kaula camp.

Treasurer Shin Ling handed in his resignation but it was not accepted by the troop.

Tests passed—1st class, Shin Ling, craftsmanship, signaling and swimming. Ship Lo, swimming.

Second-class test—Ship Lo, first aid; Wm. McBride, signaling.

A. S. LEITHEAD.

TROOP IX.

The meeting of August 4 was called at 7:15 by Mr. Haehnlen.

The report of the scout dance held on July 28 was read by Mr. Haehnlen. The future Kailua rally was discussed by the troop and Mr. Haehnlen.

It was decided to adjourn the meeting until August 25.

On that date every boy who is a scout in Troop IX is expected to be present. All the scouts of this troop are expected to practise at Kailua between now and September 4.

SHORTY MAC.

A health defense guard, including in its membership about 100 prominent residents of the town, has been organized at Greenwich, Conn., to assist the health authorities in taking precautionary measures against infantile paralysis.

POLICE REPORT
SHOWS INCREASE
CRIME IN YEAR

The July report of the police department has just been finished. It shows the total arrests of Oahu were 506, a lesser number than arrested during July, 1914, and more than in July, 1915. Fines, costs and forfeitures for the last month were \$3726, which is less than July, 1915, and more than July, 1914. Arrests in Honolulu alone were 434 and convictions 317 during July, 1916.

The report also shows that 248 were arrested for gambling, most of whom were convicted; 33 were in court for drunkenness; 17 were tried for vagrancy and nine convicted; 12 were charged with headless driving but only three convicted; four were before Judge Monsarrat for violating liquor laws and 12 were convicted for selling liquor without licenses. Many of these were old cases.

Segregation of those convicted into nationalities showed the Chinese leading with 138; Japanese, 67; Hawaiian 58; Portuguese, 8; "others," 116.

MOTHERS NOURISHED
BUT SINGLE WOMEN
STARVE IN GERMANY

LONDON, England.—The Morning Post quotes a Danish statement to the effect that a great number of German single women have arrived in Denmark seeking employment. According to the statement, the women say that it is nearly impossible for women, except mothers with children, to get food in Germany.
