WEDNESDAY, - MARCH 27, 1895.

WILL BE INTERESTING.

The annexation mass meeting at Union Square tomorrow evening is rather an impromptu affair. Behind the demonstration primarily is all the old enthusiasm for union with America. There are also other sentiments and motives underlying the present revival. There are thoughts and ideas, suggestions and plans, perhaps grievances, ripe for expression. It is meet that these should be aired in the public forum. Heretofore the only means for communication between the political elements here has been the newspaper. And very often in cases of this kind the newspaper doesn't know its business, or being acquainted with its duty shirks and neglects it out of deference to "policy." Tomorrow evening there will be addresses from men who have been in the front rank of annexation, workers for years, men wedded to the cause, men whose names are inseparable from the issue. There will be speeches from men who have heretofore held that annexation was folly and meant humiliation and ruin. There will be speeches from men who have favored annexation in the abstract, but who have not cared to share the political blanket with the annexation leaders. There will be speeches from men who have declared that there was no honesty in the annexation movement, that it was a cover for assault on the public crib. There will be speeches from men who have favored a monarchy for the Islands. There will be speeches from men who have been placed in the position of being royalists because they objected to the personnel of the Provisional Government and the Republic and the manner in which the downfall of royalty was accomplished.

It is presumed that all these men who have in the past dissented from the successful propaganda will amalgamate with all of it or some view of it. To THE STAR it seems that one idea should be paramount. This is that to strengthen the Republic is the first duty of every citizen as well as of every annexationist. It is morally certain that the present Government must continue for some time. Why not, then make it more agreeable to all its units and more fit for companionship in the Great Republic? Along these lines the present Government is entitled to the support of every man within its borders. Now, support does not mean subservience. It means proud, responsible citizenship.

The meeting tomorrow evening will be different from any ever held on the Square. It should prove interesting at least and THE STAR trusts it will turn out profitably and agreeably to all concerned.

A GOOD MAN.

THE STAR begs leave to suggest for the Legislative vacancy Alex. G. M. Robertson, now the deputy attorney-general. It is understood that he is to resign office and enter upon general practice.

In this matter Mr. Robertson appeals to THE STAR as the man of the hour. We are firmly of the belief, too, that his candidacy would command almost unanimous endorsement. His known qualifications meet and fill the demands of the occasion. He is young. He knows Hawaii and her people. To his native ability there has been added the training of the lawyer. He has been successful at the bar. There was never a more capable man upon the bench of the District Court here. And then in the Constitutional Convention he won the spurs of a full-fledged publicist. He showed keen insight, rare judgment and ready utterance. He has been prominent as an annexationist, and untiring, faithful and brave as a defender of the Republic. In the Legislature such a man as Mr. Robertson will do splendid service for the country. He has had the apprenticeship. He is no unknown quantity.

Mr. Robertson enjoys personal popularity, the reputation of high merit, and more. He possesses the fullest confidence of the whole people. No man could defeat him at the polls.

No mistake can be made in nominating Mr. Robertson. His election is assured.

Timely Topics.

March 23, 1895.

It seems that captains of whale ships have their woes the same as other folks. It has been the impression for a century or more that it was the poor sailor who suffered hardships, and that the captains and owners basked in perpetual sunshine. It is no doubt true that holes were bored in the hull of the Gayhead and that the fire was incendiary, but the idea promulgated that the officers and crew were a very happy family must be taken cum grano salis. Men do not attempt criminal offenses on their employers without some reason for it. There is really no way of telling whether the sailors on the Gayhead have been luxuriating in pie during the voyage or whether they have even had the regular allowance of "duff" or if the articles in the "slush box" have been issued at San Francisco prices. But we have reason to guess that such is not really the case judging from the regulation treatment accorded sailors on whale ships.

The celebrated Dietz Oil Stoves sold by us are acknowledged to be the best and safest stoves for quick heating manufactured. We have sold a number of these stoves during the past few months and they have in every instance given the purchaser better satisfaction than was expected. With the Dietz Oil Stove you can fry, bake, roast or broil without the slightest danger of explosion and with absolutely no odor from the oil. They are supplied with utensils necessary for cooking anything in the edible line. The price is reasonable and the cost of fuel amounts to about three cents a meal.

The Clauss Bread Knife is the cheapest and best for the purpose manufactured. For a dollar you get three separate knives: one for bread, one for cake and one for paring fruit or vegetables. They are manufactured of finest aluminum steel and with handles that will not become loose through contact with hot water.

The Avery sugar land implement for which we are sole agents for the Hawaiian Islands are most satisfactory articles for use on plantations. Letters received from managers of various plantations speak in the highest terms of them and commended them highly for their economic qualities as well as the manner in which work is performed through their aid. We have a full stock of the Stubble Diggers, Stubble Shavers, Fertilizer Distributors and Disc Cultivators and will be pleased to furnish photographs and information concerning them to parties interested in plantations.

While "all the ills that flesh is heir to" may not come from drinking impure water it certainly is a part of the cause. If you believe that unfiltered water, whether it come from an artesian well or from a reservoir, is pure, just draw a bucket full and let it stand forty-eight hours. The millions of wriggling things you will find in the bucket at the end of that time will convince you of your error. We sell two makes of filters and experience has proven them to be the best manufactured. The Improved Stone Filter has been tested for years and given satisfaction in every home in which it is used. They are easily cleaned and have no intricate parts to take out and no lining to become foul. We have also the celebrated Pasteur Filter about which so much has been said and written in the Scientific journals. These filters are highly recommended by physicians as being thorough in their work.

When the spring time comes is time to think about painting. We have the best paint, the greatest variety of colors and we sell them at the lowest prices of anyone in Honolulu. We claim that our Hendry's Ready Mixed Paints are superior in quality and will go further than any ready mixed paints in the market. They contain a greater proportion of zinc and Japan than other "ready for use" paints and for that reason they retain their color and gloss for a longer period. We have them for inside and outside use in quart, half gallon and gallon containers.

ELECTION PROCLAMATION

DEPARTMENT OF INTERIOR,
HONOLULU, March 26, 1895.

In accordance with Article 80 of the Constitution, notice is hereby given that a Special Election for a Representative to fill the vacancy caused by the death of Charles L. Carter will be held in the Fourth Representative District, Island of Oahu, between the hours of 8 o'clock a. m. and 5 o'clock p. m. on Monday, the 6th day of May, 1895.

The Voting Precincts, Polling Places and Inspectors of Election are as follows:

FOURTH DISTRICT.

All that portion of the Island of Oahu lying east and south of Nuuanu street and a line drawn in extension thereof from the Nuuanu pali to Mokapu point.

1st Precinct.
All that portion of said district comprised in Honolulu or Kona and lying east of Punahoa street and a line drawn in extension thereof, mauka and makai. Polling place: Government Nursery, junction of King and Waikiki streets.

Inspectors: W. L. Howard,
A. C. Pestano,
John Kea.

2d Precinct.

All that portion of said district comprised in Honolulu or Kona and lying between the western boundary of the First Precinct and a line drawn as follows, viz: From the foot of South street along South, King and Alapai streets, and from the head of Alapai street to the flagpole on the old battery on Punch-bowl; thence to and along the ridge on the easterly side of Paoa Valley to the summit of the mountain. Polling place: Beretania Street School House.

Inspectors: J. A. Mageon,
W. C. Wilder, Jr.,
M. L. Sylva.

3d Precinct.

All that portion of said district comprised in Honolulu or Kona and lying between the western boundary of the Second Precinct and Nuuanu street, and mauka of School street and a line drawn from the junction of School and Punch-bowl streets to the flagpole on the old battery on Punch-bowl. Polling place: Building at entrance to lower reservoir grounds, Nuuanu avenue.

Inspectors: W. H. Hoogs,
J. D. Holt,
F. P. McIntyre.

4th Precinct.

All that portion of said District comprised in Honolulu or Kona and bounded by the 3d and 3d Precincts, Beretania and Nuuanu streets. Polling place: Royal School.

Inspectors: J. M. Vivas,
James Nott, Jr.,
S. Decker.

5th Precinct.

All that portion of said District comprised in Honolulu or Kona and bounded by the 3d Precinct, Beretania street, Richards street and the Harbor. Polling place: Kapuwa Building.

Inspectors: Alex. Lyle,
J. U. Kawaiului,
C. S. Bradford.

6th Precinct.

All that portion of said district comprised in Honolulu or Kona and bounded by Richards street, Beretania street, Nuuanu street and the Harbor. Polling place: Bell Tower.

Inspectors: Henry Smith,
M. McCann,
J. S. Ramos.

7th Precinct.

All that portion of said District, comprised in the judicial and taxation District of Koolau, and lying east and south of a line drawn from the Nuuanu Pali to Mokapu Point. Polling place: School House, Waimanalo.

Inspectors: H. Cobb Adams,
Aaron Ku.

J. A. KING,

Minister of the Interior.

615-4-1

It is possible for nearly all flower lovers to find wild roses or the fragrant sweet briar growing near their homes where they may be successfully transplanted. They are well worth cultivating, will prove to be ornamental to any lawn, and the foliage is always fine for bouquets. If both the white and pink varieties can be secured, they will make a handsome group when planted with the lovely crimson rose rugosa, which has recently become so popular. -Garden and Forest.

VALUABLE REAL ESTATE FOR SALE!

WE OFFER for Three Days only that Valuable Property located between PENSACOLA and PIKOI STREETS of this City, formerly owned by J. A. Hassinger. CHINESE SOLDIERS.

Asking Leave to Organize and drill a Company.

Deputy Marshal Brown had a couple of interesting visitors about 10 o'clock this morning. They were Messrs. Lan Chong and Mau Wa of the Chinese colony. These men wanted to ask a favor of Mr. Brown. They wished to organize and maintain a Chinese Military Company in Honolulu and sought the permission of the acting Marshal. Mr. Brown referred them to the Military authorities.

The object, they claim, of the organization is to promote military discipline among Chinese, that when they return to China, they may be skilled in the art of war. They do not propose to fight for the Government, nor do they intend to take either side in event of trouble in this country. Their ultimate idea is to aid in carrying certain points the Chinese are aiming at in their own land. How far the higher authorities will extend the matter of drilling cannot now be said.

IN A SKIFF.

Proposal to Go Around the Horn in a Cuckleshell.

MARSHFIELD, Or., March 14.—Captain Gustaf Broman of this place is preparing for a journey to Europe in the smallest craft with which a man has ever ventured upon the high sea for a long journey. Broman came here five months ago, and shortly afterward commenced the construction of the boat in which he intends to sail for San Francisco, where he will make some improvements in the rigging of his craft, and then sail for Europe. He has been very quiet about his undertaking, and it was long after he had started the work of construction that it became known that he intended to make the perilous journey.

Captain Broman's boat, which was launched ten days ago amid much enthusiasm from the spectators, measures 10 feet keel, 13 feet 6 inches over all, 2 feet depth of hold and 3 feet beam. The staunch little vessel was made of a cedar log, which was sawed in two, then dug out and afterward put together again with water-tight compartments.

More Important.

"Better let us build a house for you out on your property at installment basis," said Buttress, the architect, to his friend Will Norris.

"I don't want to build. I only bought the lots for a quick turn," replied the latter. "You might do worse. It's a pretty place."

"I know it, but I shouldn't care to live there."

"You might do worse. You'd better build anyway. You'll be more apt to get a good price for the rest of the lots if you improve some of them."

"Yes, and you'll save your rent. Let us put up one of our attractive little suburban cottages for you, and before you've been in it six months some one will come along and take the place off your hands at a handsome profit. But you won't want to sell out."

"I will if I get the chance."

"Oh, no, you won't," protested Buttress warmly. "You won't want to sell one of our houses! No one ever does. You'll grow attached to it and hurry and settle down there. And you'll have no trouble in getting the girl either. You've no idea what we can do in the building line. I tell you what, old man, we guarantee a wife with every house we put up!"

"Ah, I have no doubt," said young Norris sagely. "But do you guarantee a cook?"

A New Business.

HENRY WATERHOUSE

REAL ESTATE. INSURANCE. COMMISSIONS. COLLECTIONS.

I am now prepared to do all kinds of business which may be intrusted to me. Collections made, Buildings Insured from loss by fire or water. Real Estate property cared for. I shall be pleased to carry out the instructions of anyone unable to come to Honolulu to do their business. Prompt and careful attention.

QUEEN STREET.

A bad complexion

means misery to many—it is sadly disfiguring in woman. It is one of nature's danger signals—means impure blood, poor circulation. Not incurable, but very troublesome and annoying. Are you a sufferer in mind and body from a bad complexion? If so, don't delay or neglect a cure, but commence at once taking

Brown's Iron Bitters—take it faithfully and you will have cause to be thankful. This celebrated remedy thoroughly cleanses the system and removes those impurities in the blood, of which the outward signs are pimples, blotches, boils, etc. Brown's Iron Bitters won't stain the teeth or cause constipation. But get the genuine.

See what you are purchasing. Don't let the druggist sell you a substitute for large profit. Look for crossed red lines on wrapper.

It's to Your Interest.

KRAJEWSKI'S

PATENT

CANE CRUSHER

THE HONOLULU IRON WORKS COMPANY having secured the EXCLUSIVE AGENCY for the Hawaiian Islands for the Krajewski Patent Sugar Cane Crusher, are now prepared to receive orders for the same, to be delivered in time for the next crop.

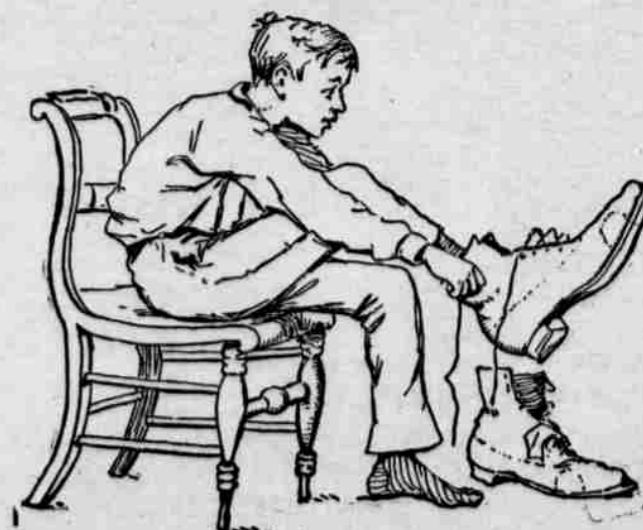

This machine, which has been invented but a few years, has been adopted by a great number of cane sugar manufacturers, especially in Cuba, where it was first put to trial and where it became extremely popular. Nearly one-third of the whole sugar crop made in Cuba is being made with the assistance of these crushers. These crushers have also proved a great success in other West Indian Islands, and Louisiana, as can be seen by testimonials on hand.

These crushers when attached to any cane mill will increase its capacity by from 50 to 100 per cent; will improve extraction, will regulate feed of the mill. We have three of these machines in the way. For further particulars enquire at the

COL. R. H. McLEAN, N. G. H.

THE MAN WHO IS LIKELY TO BE IN COMMAND HERE.

Formerly in the United States Navy—Now an Instructor Ashore—Another Name.

When the plan to place a trained professional man at the head of the army here was up a year ago, the nominee for the place was Major R. H. McLean. He was then instructor at a military school at Ogotz, near Philadelphia, Pa. The selection was made by Minister Thurston, and the recommendations sent here were gilt-edged. At that time the officers of the First Regiment voted against importing a commander, and correspondence with Major McLean was broken off.

It is more than likely that negotiations with the Pennsylvania man will be re-opened and it is probable that he will be here and take charge within ninety days. This is the aspect of the matter now, though nothing has been heard from the instructor for some time.

Major McLean is retired from the United States navy which he entered soon after the war. In some of the affairs in South America he won distinction as a cadet and altogether has a first class record. His reasons for leaving the service were personal. At that time he was a lieutenant. The rank of major came with service ashore. In his picture Major McLean is a fine-looking soldier. He is of medium size, wears glasses and has a heavy mustache.

There has been some talk of trying for a frontier soldier in active service, but this would require months, even if it could be done at all. A home suggestion is to make an offer to Capt. Cochran, of the flag ship Marines.

Six hot baths for \$1 at J. Ashworth's model barber shop, No. 80 King street.

LOSS OF THE S S PELE.

AN ISLAND STEAMER STRIKES A SUNKEN ROCK.

Accident off Kaula—No Lives Lost—She Quickly Went to the Bottom—Worth \$25,000.

At 2 o'clock Sunday morning the steamer Pele of the Inter-Island fleet struck on a rock off the coast of Kaula and was completely wrecked. Vessel and cargo are a total loss. The Pele sailed from Honolulu shortly after 12 noon Saturday. She had aboard 200 tons of coal and two boat-loads of freight for Makaweli, the total value of which was \$1800. At the hour mentioned above while steaming one mile off shore between Kaula and Eleale, she struck, bow on, on the sunken rock known as Pohakunani. A great hole was made in her bottom, and she almost instantly filled.

Fortunately she stood on the rock and gave the people aboard a chance to escape. Had she rolled off immediately, she would have gone down like a rock, taking her human freight with her.

Captain McAllister, the crew and three Portuguese passengers, two women and one man, took to the two boats of the ship and made the shore near Eleale. Nothing was saved except a few trinkets around the cabin. Four hours later the Pele rose loose from the rock and went straight to the bottom.

The Pele was built at San Francisco, especially for the Island trade, in the year 1884. Her tonnage was 134.02. She was valued at \$25,000. The Inter-Island Company carry their own insurance, and therefore the loss to them is complete.

Captain McAllister and crew returned to the city by the Iwalani this morning.

TAXES WELL PAID UP.

THERE ARE FEWER DELINQUENTS THIS YEAR THAN FOR 1894.

How it is on Oahu—Maui has been delinquent—Hawaii and Kauai did well.

Tax collections on Oahu have improved since the time Montano was around last year. The '94 list of delinquents for this island totaled up 1,752 names. This year it will not run above 1,500, if that figure is reached. The total sum due the Government is also much less.

On Maui there is an increase in the delinquent list. This applies to poll and property taxes. Hawaii and Kauai have paid up well. Their delinquent lists are very light, much less than last year. However, after all, the delinquent lists on all of the other islands will not mean as much money as one column in the list for Honolulu.

Poll taxes have been very well paid throughout the group. Contrary to rumors during the year, natives in communities where politics are rampant, have paid up in a very good measure. Collection of poll taxes on Hawaii and Kauai has been attended with almost complete success.

On this island non-payment of poll taxes is not ascribed to political reasons. In most cases the matter has been simply neglected, and it is believed collections in most cases will be made even without resort to legal measures. Warrants are being issued in cases of wilful neglect.

G. H. Mumm & Co. Ahead.

The following list shows the importations of champagne into the United States for the years 1893 and 1894; by which it will be seen that Mumm & Company's Extra Dry is far in the lead of all other brands, as taken from the official statistics of the New York custom house:

A breast pin made in three minutes. See this novelty and do not forget our new line of goods.—Temple of Fashion, M. G. Silva, proprietor.

THE MODERN WAY.

Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant effects, use the delightful liquid laxative remedy, Syrup of Figs.

THE MOUNTED PATROL.

BRANCH OF POLICE SERVICE TO BE RE-ORGANIZED.

United States Cavalry Standard—Extra To Be Dropped—Question of Captain.

At the end of this month a radical change in the mounted patrol of the Police department will likely be made. From a force of forty men the number, with the return of peace and safety, has been gradually reduced to about twenty-eight. In addition to this a day patrol of eight to ten men has been maintained. R. L. Warson captain the former and Gus Cordes the latter. The day patrol is the one that formerly performed night duty. The other was organized during the existence of Martial law.

It is now proposed to cut down the number in the two squads to about twenty men altogether, and place both under one officer. The day patrol will be kept up, and about six men will be detailed for that work. The remainder, or perhaps fourteen, will be placed on night duty. All of these men will be uniformed and subject to the regulations of the police, which they will really become. Their horses will be required to come up to the U. S. cavalry standard.

A captain for the double patrol has not yet been selected. It is understood that Captain Warson will decline to run, as he desires to leave the service. Captain Cordes of the day patrol, Sergeant O'Connor of the night detail, and a man in the barracks are spoken of with favor for the position. The matter will most likely be disposed of by Saturday night of this week.

A place to spend a few quiet hours is the Lanai Baths. Walkiki cars pass the door.

A FINE PROPERTY.

Choice Lot Offered by the Safe Deposit Company.

The Safe Deposit Company advertises the Hassinger property, between Pensacola and Piikoi streets, today, offering to sell it if taken as a whole—nearly five acres of land—for \$15,000. This offer will be kept open until Saturday next, and if not sold by that time will be divided up for building lots. There is probably no place of its size in the city where there are so many choice varieties of fruit and ornamental trees as in this estate, and the price is cheap. It is understood that very easy terms can be made for payments. Do not fail to examine the property, and if you want to purchase do so at once.

EXECUTORS AUCTION SALE

By order of the Executors and Trustees of the Estate of J. T. WATERHOUSE, Deceased.

A LEPROSY TREATMENT.

CINCINNATI PHYSICIAN WHO HAS A SUPPOSED CURE.

Wishes To Try It On Molokai—Recommended—Philadelphia Candidate For Place as Nurse.

The Board of Health will meet at 3 o'clock this afternoon. Owing to the fact that no meeting was held last week, a large amount of routine business has accumulated. Several applications for medical positions under the Board of Health have been received since last meeting. A Philadelphia lady wishes to come out and nurse lepers. Other letters inquire about the islands, from a medical point of view.

Dr. Charles Castle, bacteriologist of Cincinnati writes for permission to come to Hawaii and experiment with lepers. He claims to have knowledge of a certain treatment that will cure leprosy, which he wishes to try. Among the Doctor's credentials is a very complete recommendation from Congressman Belmont Storer of Ohio, a late member of the Committee of Foreign Affairs.

NEW STORES.

The Block at Fort and Beretania Soon To Be Occupied.

The group of six stores at the corner of Fort and Beretania streets will probably soon be occupied and by foreigners. Arrangements to stock the first four are now well under way. The ones on the corner and next to the corner will carry dry goods, etc. The next will be a bicycle, machine and second-hand furniture business. In the fourth will go a full stock of groceries. The first two stores will likely be rented during the week. A millinery stock may go in one of them.

NEWS CAUGHT IN KONA.

TELEPHONE AND MUNDY ITEMS FROM THE COFFEE BELT.

Improved Mail Connections—Dead Japanese in the Woods—Citizens' Guards—Church—The Oath.

The final survey of actual route for wires of the Telephone Company has taken place this last week. Mr. Aungst going over the entire length, making final arrangements as to placing instruments, incidentally getting willing signatures to a petition asking the pending legislature to appropriate the sum of \$3,000 to aid the scheme. The poles and paraphernalia are expected by deep water ship to Kailua.

The making of a main road from Hoonaka to Kailua seems an assured fact, a man now being at Kealekua awaiting orders from Engineer Bruner to commence duties as gang luna.

After April 1st the mail route along the above-mentioned track will be changed and improved so as to enable one to get letters by the Kailua and reply next day by the Hall. No more mail will be sent by the roundabout way of Hilo via Kauai. The eastern division will be from Hoonaka to Pahala.

Last Friday a Japanese, in the employ of J. Gaspari, was found dead at Keel and buried next day. No inquest was held.

Some residents of the Kona have talked of arranging for a detail of Citizens' Guards to be organized and only await someone to call them together for that purpose! Meanwhile a few have banded for a rifle club, which is the next best thing to do.

Several natives have spoken to the writer, asking when they can take the oath of allegiance to the Republic; they do not care to go to Honolulu and it would seem expedient to have the district officials furnished with blanks and power to administer formalities required in the case.

Several whales have been seen off the coast this month. The island seas would be a hunting section that would make some local steam whaler happy and rich. When we get wire connections with Honolulu, the tug and its portly captain may be sent in chase, with Biplane the Bloodless to cut up the blubber.

A successful church and Sunday School meeting was held in the native church at Kailua yesterday. Representatives from all parts of the island were present, the singing being very fine. The business was conducted with the help of Rev. S. Desha, of Hilo.

KOR-PIRE.

March 25.
