

Refuses To Resign Now

SUPERINTENDENT OF PUBLIC INSTRUCTION ATKINSON WRITES TO CARTER, DECLINING TO SEND IN HIS RESIGNATION WHILE INVESTIGATIONS OF THE DEPARTMENT ARE GOING ON—ADMINISTRATION OF DEPARTMENT UNSATISFACTORY TO CARTER.

Superintendent Atkinson today sent a letter to Governor Carter in reply to the latter's request for his resignation, in which the Superintendent declines to resign while the present investigations are going on. Atkinson says in his letter that he feels that it would be unjust to his subordinates for him to step out immediately, and that as a matter of fair play he is entitled to a hearing, having demanded a full and open investigation, before he is condemned. The letter was received by the Governor at about noon today. It means that Atkinson will probably remain at the head of the Department of Public Instruction until the close of the present investigations, and will then retire to make way for a successor.

Governor Carter was seen after he received the letter, and repeated that he had no charges against Atkinson himself, except that the administration of the department was not satisfactory. "My first letter to the Superintendent was for the purpose of giving him the opportunity to take the initiative in resigning," said the Governor, "and had nothing to do with charges. It has been the understanding between myself and Mr. Atkinson all along that in case the management of the department should become unsatisfactory to me I should give him notice, and that in such event he would resign."

"I am not acquainted with the work of the joint committee which is holding sessions and making investigations," continued the Governor. "I only know of the work of the Public Expenditures Committee. There are things in connection with the management of the Education Department for which I cannot stand, and I therefore notified Mr. Atkinson, that he might resign. I did not expect that he would take the position of standing by all those under him, but expected him to step aside and allow the investigation to proceed. It will proceed now."

The Governor expressly stated that the administration of the department was not satisfactory, but that there were no "charges" against Superintendent Atkinson. "There is very much public misunderstanding of what has been going on," Carter said. "There are two committees making investigations, and their work has been much confused in the public mind, with the result that the situation is misunderstood. The investigations will go on, and results will be seen, later."

The Board of Education held another meeting this morning, at which the situation was further discussed. It is understood that the members stand behind Atkinson in his refusal to resign during the pendency of investigations of the department.

LEGISLATURE GOES TO THE SETTLEMENT

ACCOMPANIED BY CROWDS OF THE UNFORTUNATES THE LAW-MAKERS VISITED THE SETTLEMENT TO SEE FOR THEMSELVES WHAT MAY BE REQUIRED.

There were men who had stood dry-eyed in the presence of their own dead, who had gazed unmoved on gruesome sights past all telling but who yesterday felt salt tears running down their cheeks as they heard the wailing when the Kinau pulled away from Kalaupapa after a boat with one party aboard had landed and there seemed no chance of any other boat getting ashore.

Aboard the Kinau there were four hundred and thirteen people. She pulled away from Wilder's wharf a little after eleven and arrived at the Leper Settlement at four o'clock Sunday morning. There had been little sleep aboard and all were anxious to get ashore at as early a moment as possible.

BILL TURNED DOWN

The bill of J. D. Avery as clerk of the County Act Commission, amounting to about \$450, has been turned down by the governor, and Avery will have to look to the legislature for compensation. Avery wrote over 1700 pages of typewriting in his capacity as clerk of the commission, and supposed that the matter of compensation had been arranged for, but when he presented his bill to the governor, he was informed that there was no provision for his payment, in the resolution which created the commission.

FIRE HITS UNCLE SAM

THE WAHLAWA DESTRUCTION IS MOSTLY ON LAND RECENTLY ACQUIRED BY THE FEDERAL GOVERNMENT FOR A MILITARY SITE—CAMP MCKINLEY SOLDIERS MAY BE ORDERED TO FIGHT THE CONFLAGRATION.

"The Wahlawa forest fire is all on either United States military reservation property or private land," said Land Commissioner Pratt this morning. "If any government fighting of the fire is to be done I should think the federal government should take its part."

The land on which the fire is destroying forest was acquired recently by the United States for a military reservation. Pratt did not receive any further word from Oiaa this morning and consequently did not decide whether to go on the Kinau tomorrow or not. He and Hosmer will go if they are needed and expect to hear more news before the Kinau's sailing time.

"If this weather continues," said Pratt, "there is danger of more fires. A good rain will save the situation."

It is said that Camp McKinley men will be called out if the Wahlawa destruction continues.

INVESTIGATING THE MORMONS

REPORTED OFFICIAL INQUIRY GOING ON REGARDING POLYGAMY AT LAIE.

Investigations of the Mormon colony at Laie are said to be in progress by the federal authorities, under instructions from Washington, to ascertain whether polygamy is being practiced at Laie. One report has it that Breckons is searching for a polygamous wife of United States Senator Reed Smoot. The senator was investigated recently by a Senate. It was explicitly admitted at that hearing that he was not personally practicing polygamy, and that charge against him was dropped.

District Attorney Breckons would not say anything about the reported investigation this morning, declining to answer a question as to whether there was any investigation or not.

TO LOOK FOR THE C. KENNEDY

GUNBOAT PETREL REACHED MIDWAY YESTERDAY AND MAY START HOME TODAY.

The U. S. S. Petrel arrived at Midway Island yesterday. She did not cross the bar as the sea was breaking. The vessel anchored outside. She is expected to sail for Honolulu today. Nothing was seen of the schooner C. Kennedy. It was arranged that in case the Kennedy had not arrived at Midway the Petrel would stop at Laysan Island on the way home to look for the missing schooner. The Petrel will bring home the marine guard from Midway Island, the relief having been taken out by the vessel. She goes to San Diego from Honolulu.

A Contest Over The Galbraith Will

COURTS WILL BE CALLED UPON TO CONSTRUE THE LAST TESTAMENT OF THE LATE GEORGE GALBRAITH; WHO LEFT AN ESTATE OF \$150,000 AND MADE A LARGE NUMBER OF BEQUESTS.

Cecil Brown announced in Judge Robinson's court today that there was to be a contest over the will of the late George Galbraith, who died here about a year ago, leaving an estate worth about \$150,000. Galbraith was an old resident of Honolulu, and lived the life of a poor man though possessing a large estate. His will created a trust and left his money to be distributed to a large number of relatives, many of them in Ireland. Small bequests were numerous.

The will has not yet been admitted to probate and Cecil Brown, who appears for the proponents, stated in court that there would be no contest of the probating. "The contest," he said, "will be over construing the will, and will come later." J. J. Dame and A. S. Humphreys represent the contestants.

The hearing of the petition for probate was postponed, owing to the attorneys being engaged elsewhere. W. T. Simonton, clerk of the court, has received a letter from England, from a relative of the deceased who also wants to know about the will.

THE CHARGES FALL DOWN

WITNESSES BEFORE THE LEGISLATIVE INVESTIGATING COMMITTEE ON EDUCATIONAL AFFAIRS TESTIFY STRONGLY AGAINST STATEMENTS IN THE GRAND JURY REPORT AND THE CHARGES BASED UPON THEM—FOUR SCHOOL PRINCIPALS TESTIFY.

The legislative committee which is investigating the Department of Education held another meeting in the Bungalow this morning, hearing further testimony on the charges formulated by its sub-committee. Four principals of schools were examined, and all the testimony was favorable to the department. The session was in secret, but the general results soon became known. The only result of the closed sessions appears to be to put in circulation scores of varying reports of what took place.

Professor Scott of the High School, Edgar Wood of the Normal School, Mrs. Frazier of Kaulaui School and Miss Felker of Kaahumanu school were the witnesses who testified this morning. All of them denied the charge that the superintendent "showed indifference" to their work, or that the commissioners of education and superintendent never visited them. One of the principals testified to being "in touch" with the superintendent all the time through oral and other communications, and all said that he showed interest in the work. The commissioners also visited the schools, it was stated. There were few visits in a body and the superintendent did not often visit. In reply to a question from Senator Hewitt one of the teachers stated that she did not expect the superintendent to make the inspectors' visits or do their work.

The witnesses denied that there had been discharges of teachers without cause. The proposition of gifts to teachers, which the Grand Jury denounced, was stated by Professor Scott to be nothing more than presents of flowers or leis. As to the sanitation which was another matter brought up by the Grand Jury report, the testimony was that it was generally good. The site of the new normal school was said to be the best one obtainable, though it was roared by the jury and a "charge" was made of its location.

The witnesses agreed in their testimony that it was best not to have printed rules for teachers. The lack of printed rules is the basis of one of the charges brought against Atkinson. The testimony this morning was to the effect that it was not advisable to attempt to govern by such rules and that the present system of control is better. The Grand Jury report, by the eminent pedagogue John Coffee, severely criticized the department for failing to have printed rules.

At ten o'clock the committee adjourned to tomorrow morning when another session will be held. Four more teachers have been sent for, to testify regarding the manner of conducting the department.

TO FLOAT M'BRYDE

There was a renewed report on the streets this morning that the McBryde bond issue would be floated. The fact that W. A. Kinney is at present on the mainland was taken by some as corroborative of this report as it was surmised that he had been negotiating for the placing of the bonds. Inquiry in local quarters while tending to confirm the report of the placing of the bonds was not by any means conclusive.

THE "FOREST CITY" ART PORTFOLIOS

Constitute a Complete and Artistic Pictorial and Descriptive History

OF THE

GREAT ST. LOUIS WORLD'S FAIR

(Reduced Pen Sketch of Cover. Size of Page, 11x14 inches.)

SO THOROUGHLY does this Great Exposition represent the world's civilization that if all men's other works were, by some unspeakable catastrophe, blotted out, the record here established would afford a necessary standard for the re-establishment of our entire civilization. And, just as the Louisiana Purchase Exposition held within its gates an epitome of the civilization of to-day, so the Forest City Portfolios are a complete record and reflex of the great Exposition. This great World's Fair, one of the most remarkable undertakings in the history of American civilization and progress, will inspire many pens, but no history of the great event can compare with the one written on the grounds by Secretary Stevens and illustrated with 480 magnificent photographic reproductions, which transfer the Exposition to the printed page.

ment as possible. With dawn, however, it was plainly to be seen that the matter of landing was going to be a serious proposition. The surface of the ocean was untroubled by any breeze but great smooth rollers came in majestically from the north lifted themselves high in the air and broke on the black shore with a protesting roar which shook the steamer lying a mile away.

There was a long wait and those who cared to do so spent their time in enjoying a sight of such scenery as can be seen in few places on this earth.

It was at eight o'clock that President Pinkham of the Board of Health said that he was going ashore. That there was great danger was obvious and with that in view he absolutely refused to allow anyone in the boat with him save Freight Clerk Phillips whose duty it was to take the mail ashore. The crowd on the Kinau watched the boat as under the guiding oar of Captain Naopala she neared the danger zone. There was a long pause as the captain watched for a chance and suddenly the strong arms of the Hawaiian crew bent to their work and the boat shot forward, just making the lee of the breakwater as a huge combler burst into dazzling foam. Another boat put out but found it impossible to make the landing and the first boat made the comparatively easy return trip with orders to permit no further landing in the meantime.

There was a long wait again and when the Kinau's anchor finally rattled aboard and the steamer gave three parting blasts of the whistle the big crowd on the main deck thought that all was over. The grief of the people who had waited thus for two years to see their loved ones, stricken with the awful disease, passes description.

But the Kinau, under Captain Freeman, had no intention of giving up so easily. She steamed round to the other side of the peninsula but a landing at Kalawao was out of the question and she proceeded to Waikolu where one boat succeeded in making a very lucky landing with only two casualties. After a wait the ship returned to Kalaupapa and the noon hour was reached when the sea had gone down sufficiently to allow another boat to put forth. There was pilikia every time a landing was made and two boats were carried ashore in the surf, their occupants being pulled ashore wet and bruised before the receding waves could carry them out to sea.

Things at the Settlement were found by those who landed to be in the very best possible condition. That there is no need to dwell on the sad sights there, is obvious and it will suffice to say that the unfortunates there are as happy as could possibly be expected. There were few complaints and most of these were merely the whims of persons naturally self-centered by their environment.

For Superintendent McVeigh and his assistants the lepers had nothing but words which expressed an affection which was even pathetic and the good sisters at the Hospital were spoken of in a reverent tone which in itself was an object lesson. For Dr. Goodhue, too, every one had a good word.

There is one word of criticism to come in here, and it loses none of its force because it is delayed by the telling of the many good things about the conduct of the Settlement. The rules relating to keeping lepers away from their visiting relatives were violated in every possible particular. Sobbing with emotion, women and men who today are mixing up with the rest of the community, embraced and kissed their stricken relatives without apparent let or hindrance. The stockade was there and the rules were there but there was no attempt to use the former or to enforce the latter.

Who is to blame for this may be left for further discussion but in all fairness it cannot be placed on the shoulders of the Board of Health as that body has repeatedly objected to the visits by the Legislature with the accompanying crowds of friends and relatives.

A start was made for home just before dusk but when the Kinau had all clear and had given her parting salute there was a frantic wail from the wharf and Secretary Atkinson, accompanied by two policemen, appeared. Another boat had to be launched and the Secretary with his escort was brought aboard.

"There are several things we want at the Settlement," said President Pinkham to the Star's representative "and the very first of these is an assistant physician. Dr. Goodhue simply cannot do all that is required of him. Imagine one doctor looking after over 800 people in ordinary health and then think of what he has to do under the circumstances attached to his present position. He is able and efficient and he has voluntarily assumed a position which most men would avoid, but he cannot do everything. Apart from general treatment of the lepers he performs an average of five operations a day. Can you guess what a general practitioner who did such work would make in a year?"

"Next we want an appropriation from the legislature for medicines. At present the money we get amounts to only one and one-tenth of a cent a day for each leper and that is ridiculous. In connection with this I may say that there is no operating room and no operating table and the doctor has to do his work under the most discouraging conditions. These are crying necessities."

Continuing, President Pinkham said that an appropriation of \$15,000 for the purpose of improving the water service from the Waikolu valley would pay for itself in three years as by means of additional piping much irrigating could be done and much of the taro needed on the Settlement could be raised by the lepers themselves. It was not the policy of the Board to make the unfortunate work, but the taro could easily be raised by those who wished to work and the government could buy it from them at a fixed price. A machine for the making of poi is also desired to enable those with diseased hands to be relieved from working on poi.

"I have asked for an appropriation of \$400 as a sort of contingent fund for the Superintendent," said the President, "as a matter of fact that is too little but it will help. He has demands on his pocket all the time and these are demands which he has no call to pay for out of his own salary. I have also asked for \$1000 for the improvement of the trail over the pali. Twice the amount could easily be spent on the work to make it secure."

The question of allowing a beer license on the settlement is discussed more generally among the lepers than would be supposed. There are strong partisans in favor of the admission of beer and there are strong opponents of the idea but the majority of the lepers spoken to yesterday seem to take little interest in the matter. Superintendent McVeigh is in favor of the proposition with the proviso that a rigid check be kept on the distribution of the beer.

The Kinau reached home shortly after eleven o'clock last night.

A New Political Partnership?

The peculiar manner in which the news of the correspondence between Governor Carter and Superintendent Atkinson first became public is a matter that seems to call for some explanation. It appears that the man who first gave out the information was the Hon. Solomon "Che Fa" Mahelona, representative of the Fifth District.

This choice leader of the attacks upon the department of education was in the very closest touch with all that went on in the executive chambers in utter secrecy from less privileged characters. Though no one has ever before accused him of too much familiarity with a Department of Education, in this case he was so advantageously situated that early last Friday he was gleefully giving out information that Governor Carter had sent a letter to Superintendent Atkinson which meant a resignation.

Kuropatkin Sacrificed

The dismissal and disgrace of Kuropatkin are exactly what was expected would occur. The fate that observers generally predicted has fallen upon him but well may the impartial quote Shakespeare that " 'tis true 'tis pity and pity 'tis 'tis true." If ever a man deserved better of his country than disgrace and dismissal that man is Kuropatkin.

Few men have ever had such a difficult and it is even safe to say such a nearly hopeless task as was that put upon General Kuropatkin when he was sent to Manchuria. That he realized the situation and the desperate straits of the Russian forces is known. He outlined his policy of strategy soon after reaching Manchuria, but apparently even the famous "luring on" policy failed to do harm to the Japanese.

It has been claimed that the battle of Liaoyang was a material victory for the Japanese as it prevented Kuropatkin from advancing to the relief of Port Arthur. Such a claim is erroneous for Kuropatkin had early in the campaign abandoned Port Arthur to its fate and was not advancing to its relief when the battle of Liaoyang occurred.

And the disgrace has fallen on the one man who was recognized as the greatest general of the Russians. It seems a cruel fate to sacrifice a man because he failed to accomplish what he knew to be impossible and what he had declared to be in opposition to his plan of operations.

It is not by any means improbable that all of this talk of renewed activity on the part of the war councils and the Czar is but the prelude to try and bluff the Japanese into relinquishing their demands upon Russia for an indemnity so that Russia can make favorable terms of peace.

CORRUPT PRONUNCIATION.

There is a tendency here, as there is everywhere, to corrupt the pronunciation of geographical and other local names. The tendency is all the more marked here, because of the fact that so large a proportion of such names are Hawaiian.

With an increase in the number of tourists and other visitors to the islands, there will be a rapid progress in the corrupting process unless efforts are made to counteract it. One method by which the corrupting process may be greatly retarded, and correct pronunciation, at least of street names, be secured, is through care on the part of the street car conductors.

It would not be difficult for the management of the Rapid Transit Company to have their conductors instructed in the pronunciation of the various streets and places that they are called on to name in the course of their duties, and if this instruction were given and faithfully followed, the potent influence in this matter of this class of men would become a constant force tending to preserve purity of pronunciation.

Correct pronunciation could be made a matter of pride among the conductors. For it is not probable that any of them, anymore than anybody else, intentionally mispronounces. With instruction as to the correct pronunciation, and an esprit du corps in favor of it, there would be no difficulty in the matter, and the example and influence would be wholesome and important.

Prof. M. M. Scott has expressed himself very strongly in disapproval of the action of Delegate Kalaniana'ole in failing to nominate for West Point the boy, William Kirby Tucker, who passed the best examination. He claims that the throwing open the appointment to competitive examination was in effect a promise that the youth passing the best examination should get the nomination.

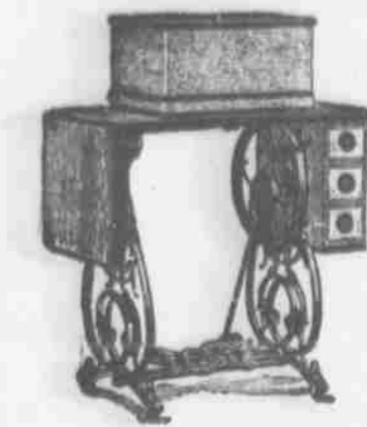

PUNISHING PUPILS.

An English schoolmaster turned the tables on a couple of smart pupils recently in rather a clever way. It was the master's custom to keep all his pupils who were late to school after school; if a boy was 10 minutes late he had to stay 20 minutes. One day the master came in 20 minutes late and two of the boys met him and said they were delegated by the school to tell him he must stay an hour after school. He readily agreed to this, but said that the pupils must all stay to see that he was properly punished.

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use.

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would faint after eating and frequently become nauseated. I had an acrid discharge and pains down my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness,

faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" blues and "want-to-be-left-alone" feelings, and hopelessness, they should remember Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is free and confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

THE LEGISLATURE

MATTERS RELATING TO THE SETTLEMENT CAME UP IN BOTH HOUSES THIS MORNING—IN THE HOUSE THERE ARE RESOLUTIONS TO INCREASE FOOD AND CLOTHING ALLOWANCE—IN THE SENATE ALL MATTERS ARE DEFERRED.

THE SENATE.

Four senators, Achi, Gandall, Hewitt and Haymenden, were absent when the Senate was called to order this morning. The Senate went right on the order of the day, which was the third reading of Senate Bill 42, providing for the commutation of sentences of prisoners. The bill passed without dissent.

Senate Bill 41, giving the governor the right to set aside land for forest reserves, came up on second reading, with the reports of the majority and minority of the Public Lands Committee. It passed and will be read for the third time tomorrow.

Senate Bill 44, the Lane Leprosy bill, was next in order on second reading. That is, this is one of the Lane leprosy bills, being the one that permits outside physicians to treat lepers on application to the Board of Health. It was read section by section, and Dickey offered an amendment providing that the patients so treated should remain in the custody of the Board of Health during treatment.

Dowsett spoke strongly in favor of deferring action upon the whole matter of leprosy, in view of the action of Congress looking toward a scientific study of the disease. This was a bad time to enter upon any new departure. It would look like a lack of confidence in congress. Paris took the same view as Dowsett, on whose motion the bill was laid on the table.

Senate Bill 91, the prison parole bill, on second reading, was passed and will be read for the third time tomorrow.

House Bill 50, to prevent the use of the flag for advertising purposes, was read for the second time section by section, and passed. It will be read for the third time on Wednesday.

A letter from Maui Republicans and citizens accompanied a set of resolutions passed by the Sixth Precinct Republicans of Wailuku and the Wailuku Improvement Club asked for the passage of the County Act.

Incidentally, the resolutions asked for a new court house at Wailuku, to cost \$50,000.

The County Act resolution was placed on file, and the court house adjourned to the Maui delegation. The Senate then took up the County Act, second reading, at Chapter 12, relating to the first election of County officers. Consideration of Section 51, relating to the date for holding the first election, was deferred, and then like action was taken with the whole chapter.

Chapter 13, relative to the removal of County officers, was passed.

Chapter 14, relating to the powers and duties of Boards of Supervisors, was amended to give supervisors power to fix the salaries of all County officers and passed, action on the tax rate being deferred.

Chapter 15, defining the duties and powers of the Sheriff, was passed as in the bill, although Dickey claimed that the effect would be to legislate the High Sheriff out of office. This was the first action of shrewdly section. The balance of the chapter passed.

Chapter 16, relating to the duties of Deputy Sheriffs, passed.

Chapter 17, relating to the duties of the County Clerk, came next, and Dowsett moved that all the duties of the County Recorder as defined in the original Commission bill, be added to the chapter. The senator did not favor the plan himself, but wanted to get the sense of the Senate on the point as to whether there should be records kept in the counties, or whether that should be a Territorial matter.

Dickey did, but did not think the transcript of records could be made for the counties at this time. The Dowsett amendment was lost, and the chapter passed.

Chapter 18, relating to the duties of County Auditor, passed as in the bill.

Chapters 19 and 20, defining the duties of the Assessor and Tax Collector, went to the Dowsett special committee, having the taxation matter in hand, and the Senate took a recess until 2 p. m.

GAMBLERS IN NEW DODGE

APPARENT CESSATION OF GAMBLING WAS DUE TO WILY CHINK PLAYING IN WEE SMA' HOURS.

Chinese gamblers have been using a very smart method of eluding police raids but the officers ascertained the scheme and early today Deputy High Sheriff Rawlins and some officers made a successful raid. The Chinese postpone their gambling until the wee sma' hours not starting until about 2 o'clock in the morning. They figure that the police after wandering about until midnight and failing to find trace of gambling, the officers will naturally go home to bed so the Chinese will then be able to gamble without fear of molestation. This scheme worked for a while but when the police became acquainted with the plan they changed the time of their operations and have been able to raid several resorts, suspected of being gambling places.

DINNER TO THE BROWNS.
Mrs. Fanny Love entertained at dinner Saturday evening in honor of Mr. and Mrs. Willard E. Brown who leave shortly for a year's stay in Europe.

THE HOUSE.

That some of the stricken ones over at Molokai had not missed the opportunity to put in a bid for better treatment during yesterday's visit of the legislature was obvious from a couple of resolutions introduced at this morning's session of the House.

Hain introduced a resolution to instruct the Board of Health to increase the poi ration issued to lepers at the settlement from 21 to 25 pounds a week and the beef ration from 7 to 10 pounds.

Hain also had a resolution to increase the clothing allowance of lepers from \$10 to \$16 a year and to issue the same at the rate of \$4 per quarter.

The Health committee will deal with the matter.

Coelho introduced a resolution for improving the pali trail at Kalaupapa at the cost of \$5,000 for the Kaunakakai road to the top of the pali \$2,000 and for a jail at the settlement \$1,500. The resolution went to the Committee on Public Lands.

Aylett also brought in a resolution to appropriate \$3,000 to purchase Dr. Go-to's medicine for use at the leper settlement.

Pulaa had a resolution to enquire why the Land Commissioner had not opened the Kealahike and Honouliuli lands to the public.

The following petitions were presented:

For \$20,000 for a road from Kaloko road to Honolulu road. (Pulaa.)

From employes of the Hawaiian Registry office asking the house to sanction the use of typewriting machines. (Andrade.)

For three more electric lights at Wai-kiki. (Lilikialani.)

For bridge on School street Hilo and new right of way \$5,000. (Smith.)

Pall introduced a bill to equip a volunteer fire department at Lahaina.

Lewis introduced a bill to protect live stock and perishable produce from injury by rough usage by carriers.

A bill to regulate the trial of civil and criminal causes was introduced by Long.

A bill to define the plumbing district of Honolulu and to establish plumbing regulations was brought in by Kala-wala.

The order of the day being reached the bill to tax social clubs \$200 per annum passed its third reading without opposition.

The bill to provide a close season for the Hawaiian wild geese also passed third reading. Broad, for some unknown reason, voting against it all by himself.

Long introduced a bill to regulate the conduct of civil and criminal causes.

Andrade's bill relating to attachments a long measure intended to change the present attachment law in several details was up for third reading.

Kaleiopa moved its indefinite postponement and Coelho moved to defer action on the measure. Representative Pulaa moved to defer consideration until tomorrow his motion carrying.

The Judiciary committee reported on a number of bills.

The House rose at noon.

SONOMA DUE TOMORROW.

The S. S. Sonoma is due tomorrow morning from the Colonies. She will probably sail about 3 p. m. for San Francisco. A good sized crowd of passengers will depart by her.

NO MAIL UNTIL FRIDAY.

There will be no mail from the mainland until next Friday. The S. S. Sierra and the S. S. Mongolia will arrive here on those days. The Sierra will probably have the bulk of the mail and the Mongolia will carry one days' later mail.

CAN NOT MAKE SCHEDULE.

Although the S. S. Mauchnia is scheduled to sail on her outward trip from San Francisco April 12, it is now probable that she will be unable to make that schedule. She has not sailed from Yokohama yet and as she will have at least 16 days of travelling before she make San Francisco, she will have not more than eight days in San Francisco. This will scarcely give her time in which to discharge her Oriental cargo and load her outward cargo and leave on April 12.

HALEIWA.

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu Station and Trent & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10 p. m.

STOMACH TROUBLE.

Is greatly relieved, and in most cases cured with Dr. Miles' Nervine. It nourishes and strengthens the nervous system, which increases the activity of the stomach nerves, regulates the heart action, improves the circulation, and in giving health to the nervous system, removes organic disorder. Sold by druggists under a guarantee that if first bottle does not benefit, your money returned.

CAN NOT HOLD INQUEST.

High Sheriff Henry says that any attempt upon the part of San Francisco authorities to hold an inquest in the Stanford case would be ridiculous. The death occurred in the Territory of Hawaii and a coroner's inquest was held and a verdict rendered here. An attempt to hold a second inquest 2,000 miles away is preposterous. He says that the witnesses who testified here would have to be called.

You go to your barber, week after week, hoping the shampoo will cure your dandruff. But the dandruff continues to form as badly as ever. The trouble is you do not get it in the right way. The scalp is diseased, and you must cure it before your dandruff will ever disappear. Simple washing will never bring this about.

Ayer's Hair Vigor

This splendid hair preparation cures dandruff because it cures the disease of the scalp, and then the dandruff soon disappears for good. Ayer's Hair Vigor will prevent dandruff, and at the same time it will keep your hair soft and glossy.

LUMBER AT LAHAINA.

LAHAINA, March 18.—A few weeks ago the unoccupied low land near the Pioneer hotel was filled in with car loads of sand from the beach. This improvement was quite reasonable as an addition to the lumber yard was necessary for the large piles of lumber brought from Gray's Harbor by the schooner Robert Lewers.

'FRISCO POLICE DISAGREE WITH HENRY

LONG BEFORE INQUEST WAS COMPLETE THEY DEEMED THE PROOF OF MURDER INCONCLUSIVE—COMPLAINT ON THE COAST THAT LACK OF FINAL OFFICIAL WORD FROM HONOLULU WAS SADLY HAMPERING THEM.

SAN FRANCISCO, March 9.—Though they still deem the proof of murder inconclusive, the police of San Francisco are trying to find a possible motive for the poisoning of Mrs. Stanford. In this search they are making a minute examination into the stories of household intrigue and graft told by Beverley, the ex-butler, and Elizabeth Richmond, the former maid, who now lives in Beverley's cottage at San Mateo.

These stories Beverley and Miss Richmond did not tell at first. It was on Saturday last that the ex-maid, harassed and shadowed at every step, broke down and declared that she would tell the police everything she knew. On that day she said to Beverley:

"I can keep this up no longer. No matter what you do I shall tell all. We all knew what was going on about my poor old mistress. I can hold my tongue no longer."

Beverley says that it was this declaration which brought out the story of the pair upon which Captain Burnett is now centering his attention in the effort to solve the mystery of Mrs. Stanford's death.

To the police Miss Richmond stated:
First—That she had full knowledge of a system of graft and "rake-downs" practiced by Beverley and Miss Bertha Berner, Mrs. Stanford's secretary.

Second—That she had quarreled with Miss Berner and had told the latter that it was "no way to treat Mrs. Stanford" and that the two had bitterly discussed the matter of alleged "graft."

Third—That both Miss Berner and Beverley had made no secret of the "graft" with her and had frequently spoken of it, although Miss Richmond was no party to it.

Fourth—That Miss Berner had stated that she was a legatee under Mrs. Stanford's will, but had no knowledge as to what amount would be left to her.

Fifth—That Miss Richmond had accused Miss Berner of using undue influence over her aged mistress in many ways, and that a bitter quarrel followed.

Albert Beverley, who for the two years ending in May last was Mrs. Stanford's butler, verified the statements of Miss Richmond and gave the police much further information. He said that in all by means of "rake-downs" and commissions he had "grafted" about \$2100. After each "rake down," according to his story, he would divide with Miss Berner. He says that her share amounted to between \$1000 and \$1100. Mrs. Stanford, according to his story, was easy to deceive when it came to business.

According to the system as explained by Beverley, merchants would be approached and a transaction quickly carried out by which Mrs. Stanford was charged double or triple prices for what she wished to purchase. Then the merchant would give Beverley what he terms "commissions." Miss Berner would have knowledge of the bill and, if necessary, would "O. K." it. Then Beverley, according to his story and that of Miss Richmond, would divide the amount of the "commission" with Miss Berner.

As an illustration of the ease with which Mrs. Stanford could be imposed upon, Beverley and Miss Richmond cited the case of Ah Wing, the Chinese housekeeper, who, they said, obtained a present of \$1000 from her. After the death of Harry Lathrop Ah Wing went to Mrs. Stanford, they said, and told her that before his death Lathrop had promised to make him a present of \$1000. Without hesitation Mrs. Stanford gave Ah Wing \$1000 to make good the alleged promise of her brother, although, according to the gossip of the servants, no such promise had been made.

The quarrel in which Miss Richmond alleges that she told Miss Berner that it was "no way to treat Mrs. Stanford" happened at Palo Alto following an outdoor fete given by Mrs. Stanford. Beverley, according to Miss Richmond, had been given a free hand in ordering for the entertainment, and the "commissions" had been unusually large. Beverley and Miss Berner were discussing their profits when Miss Richmond put in her objection. Then came the quarrel, but Miss Richmond made no report of it to Mrs. Stanford.

At no time, according to Miss Richmond, did Miss Berner seem to fear exposure. The secretary was strong-minded and very self-assertive. The thought of losing her place and legacy did not seem to occur to her. Miss Richmond says that when, after the incident of the poisoned Poland water, she left the employ of Mrs. Stanford she still had no intention of accusing Miss Berner. It was only after Mrs. Stanford's death that the ex-maid determined to tell her story.

Miss Richmond said that Miss Berner knew she was to receive a legacy, and that Ah Wing, the Chinese housekeeper, also knew that he was mentioned in the will. These matters were common talk among the servants.

Both Beverley and Miss Richmond stated to the police that they had no knowledge of Miss Berner being a party to "commissions" with other employes, but detectives are now looking up former servants of Mrs. Stanford who were employed by the latter during Miss Berner's years of service. Their present line of work is an effort to find out if Miss Berner could have leared exposure and discharge, which would have meant the certain loss of the legacy which Miss Richmond says Miss Berner knew she would receive.

The lack of final and official word from Honolulu is sadly hampering acting Captain Spillane and Captain of Detectives Burnett in their investigation. A verdict by the Coroner's Jury that natural causes brought on Mrs. Stanford's death would place the Police Department in a peculiar plight if too much vigor marked its actions meanwhile. A verdict that Mrs. Stanford came to her death by strychnine poisoning on the other hand might mean sharp action. Detective Reynolds is expected to be heard from by Saturday, when the Alameda should arrive at Honolulu, or by Sunday. Upon his report much of the future action of the local department will be based.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, Territory of Hawaii.

At Chambers—in Probate.

In the Matter of the Estate of Andrew J. Cahill of Honolulu, Oahu intestate deceased.

Order of Notice of Hearing Petition for allowance of final accounts, Distribution and discharge.

On reading and filing the petition and accounts of Norman E. Gedge of said Honolulu, Oahu, administrator of the estate of Andrew J. Cahill, intestate deceased herein he asks to be allowed \$51 75-100 and he charges himself with nothing, and asks that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him and his sureties from all further responsibility as such administrator.

It is ordered that Monday, the 24th day of April A. D. 1906 at ten o'clock a. m., before the Judge of said Court at the Court room of the said Court at Honolulu Island of Oahu, be and the same hereby is appointed as the time and place for hearing said Petition and Accounts, and that all persons interested may then and there appear and show cause, if any they have why the same should not be granted, and may present evidence as to who are entitled to the said property. And that notice of this order in the English language be published in the Hawaiian Star a newspaper printed and published in said Honolulu, once a week for three successive weeks, the last publication to be not less than two weeks previous to the time therein appointed for said hearing.

Dated at Honolulu this 13, day of March 1906.

W. J. ROBINSON, Judge, First Circuit Court.

GEORGE LUCAS, Clerk, Circuit Court, First Circuit.

THE CADETSHIP EXAMINATIONS

PRINCIPAL M. M. SCOTT EXPRESS-ES HIMSELF QUITE STRONGLY ON THE SUBJECT.

EDITOR STAR: I noticed in the Star, Saturday's issue, that the Delegate to Congress had selected young Lyman, third on the list in the recent preliminary competitive examination, as his choice as a cadet at West Point, and had placed Tucker, first on the list in both examinations, as an alternate. Had the Delegate, exercising his undoubted right, selected Lyman as his choice, without competitive examinations, no complaint of unfairness could possibly have been lodged against his action; but this he did not do. The competitive examination was his own motion. He had notices of it sent to all the schools of the territory. Anyone, wishing to take advantage of the incomparable training given in the two great national schools of the United States and thinking himself qualified to enter, was invited to enter the competitive contest. What was the inference? Naturally that the best qualifications, both mental and physical, would win the place. This was what all the young men understood. If the Delegate had already made up his mind as to his appointee, what was the use of the tom-fodder of a competitive examination? If all the credits belonging to the various best-classes of Honolulu are asked by those having charge of such matters to enter a register, would it not be unscrupulous, the race being perfectly fair, for the judges to hand over the trophy to the crew fished on the list? Indeed, the Delegate seems to think "the last shall be first."

It seems to me that this action of the Delegate has much sadder, ramifying moral influence than the wrong done to any one boy. The young are prone to believe in and to imitate the action and conduct of their elders, especially if their elders be placed in conspicuous positions. Not only the direct words, but implications of words and actions should be transparently plain to youth, "for the reverence due to boys" as Juvenal says. In conclusion, it can hardly be believed that young Lyman can accept the position tendered him by the Delegate under the circumstances. It would be a cloud at the opening of his career.

M. M. SCOTT.

SAILING CRAFT ARRIVE.

There was considerable activity in sailing craft yesterday. The bark St. Katherine arrived in the morning from San Francisco 23 days out and the schooner Wilbur J. Smith also arrived from Vancouver. She was en route to Oahu with a cargo of lumber. The Fish boat of Fresh Water to land off the port until she could get on a fresh supply. She sailed at noon yesterday. The schooner Aloha arrived yesterday afternoon 24 days from San Francisco. This is Captain Dabel's first trip in her as master. The British ship Senator sailed yesterday forenoon in ballast for Royal Heale.

MATERIAL FOR BUILDING.

The steamer Mabua Loa leaving tomorrow on her Maui and Hawaii run, will take some of the material for the new court house at Hookea. Last trip the vessel carried material for the new school house at Waiolihi.

LOST ANCHOR AND CHAIN

STEAMER IWALANI HAD MISHAP AT ANAHOLO SATURDAY—GREGGIAN COMING FOR SUGAR.

The steamer Iwalani had a mishap at Anahola Saturday. A heavy swell caused the port anchor chain to part. The anchor and about thirty fathoms of chain were lost.

Sugar is being moved rapidly to port from Anahola, steamers having been making special trips during the past week.

Sugar is piling up in the warehouse of the Railway wharf. The S. S. Nevada will take several hundred tons from the supply but will get the bulk of her cargo at Kahului.

The next vessel of the American-Hawaiian Atlantic fleet to call here will be the S. S. Oregonian. She is to sail from Tacoma about March 23 for Honolulu. The vessel will load about 8,000 tons of sugar at island ports for Delaware Breakwater.

The S. S. Nebeskan did not have to go to the Sound this trip. The S. S. Oregonian went up there so the other vessel escaped that trip. The Nebeskan's crew naturally felt delighted as they are enjoying a 16 day stay in San Francisco. The vessel will sail March 20 for Honolulu.

CARRIES RUSSIANS.

The St. Katherine arrived yesterday from San Francisco 23 days out. She had northwest and southwest gales during a considerable portion of the trip. In her crew are four Russians. Captain Saunders thinks that the Russians combined with the presence of a red-headed pig, acted as a hoodoo on the vessel.

FIRE IN OLAHA.

Land Commissioner Pratt on Saturday afternoon received a wireless from Hawaii as follows:

"HILO, March 18.—From Williams. To Landis. Fire on Oloha homestead. Am going up with ranger. Any instructions?"

The message is from George H. Williams, sub land agent. It was communicated to Governor Carter and Forester Hooper, and a decision was reached that Hooper should go to take charge of the fire fighting unless reassuring news was received.

BOX PLAN OPENS TOMORROW.

The box plan for the Jessie M. Manchurian concert in the Opera House on April first will open to the public at 9 a. m. tomorrow morning at Wall, Nichols Co. The price of admission to the orchestra, dress circle and balcony seats (all reserved) will be \$1.50 and to the gallery 50c. Miss Maehela, who had never before appeared in Honolulu, will give only this one concert. She will be supported by other eminent artists including John McLehden, the famous Scottish cellist.

HOLT LEAVENS STEVEDORES.

B. Griggs Holt has resigned as secretary and a director of the McCabe, Hamilton and Ferry Company as he will shortly remove to Hong Kong to accept a position as chief clerk in the office of the Pacific Mail. Holt was one of the organizers of the stevedoring company and has been with the concern during the six years of its existence. Charles Bond has been elected his successor with the stevedoring company.

In The Nevsky Prospect

This is the bivouac of the Imperial Guard at the point where the Nevsky Prospect opens into the square of the Winter Palace. It shows the famous corner a few minutes after the first firing upon the troops by the soldiers. The picture is the work of a German artist who witnessed the scene. He immediately left for Berlin, where he painted this picture and forwarded it to America.

THE ATHLETICS ON THE BOYS' FIELD

THE KAMEHAMEHA WIN IN A BRILLIANT WAY—MADE 31 OUT OF 19 POINTS.

The Kamehameha for the second time won the handsome trophy on the Boys' Field Saturday afternoon. They scored 63 points more than the combined scores of their adversaries. The Kamehamehas took 11 firsts and the Malies 2.

The only records that were claimed to have been broken were the 120-yard low hurdles and the shot-put. In the hurdles the previous record of 15 1-4 was lowered by Wells who made the distance in 16 flat. Jones put the shot 22 ft. 1 inch. The previous record was 22 ft. 8 inches.

Following is a summary of the events and the way in which they were won:

- 100-YARD DASH. En Sue, M., 1st; Alamo, K., 2nd; Pa, P., 3d. Time, 11 sec.
- 200-YARD DASH. Scharsch, K., 1st; Malcho, K., 2nd; Clark, M., 3rd. Time, 2 min. 14 2-5 sec.

CHANGE IN SCHEDULE.

There has been a change in the schedule of the Oriental boats. The S. S. Dark sails from San Francisco April 18 on her outward trip in the Orient, two days ahead of the former sailing date. The big Manchuria will sail from San Francisco April 15 five days later on her outward trip. In future none of the big steamers of the Pacific Mail will go to Manila. Only the China, Conde and Doric will be permitted to visit that port.

Chairman Wilcox has called a public
 meeting of the Miscellaneous Commit-
 tee on Senate Bill No. 84 in regard to
 game laws on Wednesday, March 2,
 at 7:30 p. m., in the Senate chamber, Ex-
 ecutive building.
 Portuguese Consul A. de Souza Cana-
 varro, as the senior consul of his coun-
 try within the United States may be
 called to Washington to take charge of
 the Portuguese legation there during
 the absence of the Minister on his vaca-
 tion.
 Fred Ganzel will leave in the Sono-
 ma for the Farrallones, to work on a
 contract for erecting the buildings of
 a telegraph station there. The com-
 pany employing him is the same as he
 worked for in putting up the cable sta-
 tion buildings at Guam.

LINDSAY SITS ON SUPREME BENCH

QUALIFIES AS CIRCUIT JUDGE TO-
 DAY IN RESPONSE TO CALLED
 INSTRUCTIONS.

Alexander Lindsay qualified as a cir-
 cuit judge this morning and immedi-
 ately took a seat on the Supreme bench,
 as a substitute for Associate Justice
 Wilder, who was disqualified in the
 case of Silveira vs. Aho, in which
 Robertson and Wilder were counsel.
 A cable for Lindsay was received from
 Washington signed by Attorney Gen-
 eral Moody and reading as follows:
 "Commission mailed March 8. Qualify
 immediately."
 Judge Lindsay will take up work as
 a circuit judge at once, hearing cases
 on the calendar of the present term.
 Secretary Atkinson also received a
 cable, giving notice of the instruction
 sent to Judge Lindsay. Both cables
 were the result of a message from At-
 kinson on Saturday, asking that Lind-
 say be advised to qualify at once, owing
 to the press of business for him.

THE TERRITORY SHOULD PAY COST

BALLOU AGREES WITH CAUTION
 ABOUT DESIRABLENESS OF IN-
 TRADITION.

"Governor Carter's anxiety to have
 criminals brought back when they
 escape is very pleasing," said Attorney
 S. M. Ballou this morning, "but there
 is one feature of it that does not seem
 to have attracted its due amount of
 attention, and that is that the govern-
 or wants it done at someone else's ex-
 pense. It is nice for the Territory to get
 a reputation such as will prevent wrong-
 doers from thinking that they are safe
 as soon as they manage to get away
 on a steamer, but it would also be nice
 if the Territory would pay for it. In
 the case of the Hawaiian Trust Com-
 pany, as the governor is personally in-
 terested in the concern, he is probably
 unwilling to ask for an appropriation
 to extradite Henry Kapea, and the
 company has to pay the expenses.
 "But it is only right that the Terri-
 tory should pay such expenses. Now
 that the legislature is in session, I
 think an appropriation should be made
 to pay for the extradition of criminals
 or defendants who skip out to foreign
 lands."

WILDER FLEET MAY BURN OIL

STEAMER CLAUDINE IS TO BE
 SENT TO THE COAST IN JULY
 FOR AN OVERHAULING.

The steamer Claudine is to go to San
 Francisco in July. She will be given
 new boilers and her deck arrangement
 will be changed similar to that of the
 steamer Kinau. The company is also
 considering the advisability of equip-
 ping the vessel as an oil burner but this
 matter is not definitely determined
 however. In case oil is installed as
 fuel aboard the vessel and the experi-
 ment proves a success all of the Wilder
 fleet will be equipped as oil burners.
 The steamer Lehua has been sold by
 the company to Captain Miller of the
 Pacific Oil Transportation Company.

HENRY VIDA LEAVES TOMORROW

Deputy Sheriff Henry Vida leaves by
 the S. S. Sonoma tomorrow for London
 to extradite Henry Kapea alias Kent-
 well who is wanted here to answer to
 a charge of embezzling money from
 the Hawaiian Trust Company.

JAP MURDER CASE

Judge Robinson this morning began
 the trial of Kanaioro Tandu for murder
 in the first degree. Kanaioro is alleged
 to have shot and killed one Yamasaki,
 in Honolulu, on February 25, 1904. J.
 W. Cathcart appears for the defense,
 and E. C. Peters is prosecuting, assist-
 ed by Chester Doyle. The jury panel
 was exhausted this morning and a
 special venire of fifty was issued, return-
 able tomorrow morning.

SALES OF PROPERTY SATURDAY.

A number of sales of property were
 held on Saturday at Morgan's auction
 rooms. Most of the sales were under
 foreclosure of mortgages. Some land
 at Moanalua belonging to George Mark-
 ham was sold to S. M. Damon at private
 sale, so the auction sale was with-
 drawn. Bishop & Co. held the mort-
 gages given by Markham. In the fore-
 closure of the mortgage held by Bishop
 & Co. from D. I. Akwal to two leases of
 property near River and Boretania
 streets, S. M. Damon bid the leases in
 for \$750. The foreclosure of mortgages
 on property by W. H. Pain to Bishop &
 Co. was postponed until next Saturday.
 The guardian sale of property belong-
 ing to the Holt Estate was postponed
 until April 1.

A WEAK HEART

weakens every other organ of the body,
 for they all depend upon the heart to
 furnish them with an abundance of the
 pure life-giving fluid. To give the
 heart power to do this, Dr. Miles' Heart
 Cure has no equal. It strengthens and
 regulates the heart action, and furnishes
 nerve power, the vital element.
 Money back if first bottle fails to benefit.

SENATE AT WORK
 ON THE COUNTY ACT

GOES ENTIRELY THROUGH THE
 MEASURE AND REFERS SEV-
 ERAL SECTIONS TO COMMITTEES

At the afternoon session the Senate
 continued its work with the County
 Act taking it up at Section 21 relative
 to the duties and powers of county at-
 torneys. Section 74 of this chapter
 which in the bill limits the power of
 the attorney as to giving advice to the
 supervisors relative to claims against
 counties, was referred to the judiciary
 committee for elucidation. Otherwise
 the chapter passed as in the bill.
 Chapter 22 defining the powers and
 duties of the County Treasurer and
 the matter of the payment of interest
 on warrants was referred to the judi-
 ciary committee. The balance of the
 chapter passed with a few minor
 amendments.
 Chapter 23, as to general provisions
 and the last in the act. Section 110
 was referred to the judiciary commit-
 tee. Section 113, was stricken out. This
 section reads: "The short title of this
 act shall be the 'County Act'." The
 last section was made 113, and Downett
 moved a reconsideration of Section 98,
 relative to how the Treasurer should
 receive money. The reconsideration
 was merely to correct a reference to
 another section.
 On motion of Hayselden Section 113
 was put back into the bill.
 The bill then passed second reading
 as to its title, action on the measure
 itself being deferred.

The Senate was notified that the gov-
 ernor had signed Senate bills 5, 6 and
 7. Two of these are amendatory of the
 code, and Senate bill 6 is the measure
 to encourage agriculture by exemption
 from taxation of farming lands.
 The House failed to concur in Senate
 amendments to Senate bill 37 and the
 matter was referred to the judiciary
 committee.
 Then the Senate adjourned.
