Majuro Dist.

(a), (b) and (c) None. See Summary this section.

(d) Status of requisitions: (In compliance with ComMarianas spltr Serial 3806 of 24 February 1947).

<u>DATE</u>	<u>ORDER NUMBER</u>
8 October 1946	115-47
10 October 1946	121-47
10 October 1946	122-47
9 January 1947	9-47

(a) Provisions (number of days supply on hand) -

- (1) Fresh - 43 days
- Frozen - 45 days
- (2) Dry -150 days
- (3) other -120 days

(b) Fuels (number of days supply on hand) -

- (1) Mogas - 15 days
- Diesel - 20 days
- AvGas -180 days

(c) Material -

(1) Construction - None on hand except a small quantity of cement.

(2) Equipment spares, etc - Adequate supplies of non-critical parts. Extreme shortage of critical parts, requisitions are outstanding however for these items.

(3) Other - Requisitions are constantly being submitted for items as required. Transportation remains the determining factor in the logistics picture.

(d) Status of requisitions. Numbers and dates of those outstanding over two months. - Source of supply is NSC Pearl Harbor.

*(list omitted here)*

(a) Provisions (number of days supply on hand) -

- (1) Fresh - zero days.
- (2) Frozen - 43 days.
- (3) Dry - 180 days.
- (4) Other - 100 days.

(b) Fuels (number of days supply on hand) -

- (1) Motor Gas - 480 days
- (2) Diesel - 270 days.
- (3) Avia. Gas - 180 days. Note: Tank Farm out of commission and issues are not being currently made. Tentative plans call for the lifting of this Aviation Gasoline by ComMarSubArea.

(c) Material -

(1) Construction - none on hand except a small quantity of cement. Two requisitions totalling 19,000 lbs are on order, and another requisition requested canned cement to counteract the damp weather and insure dry cement for future use.

(2) Equipment spares - etc. - standard stock items are on hand in sufficient quantities but lack of transportation of dependable nature prevents ideal stock control and maintenance of four to six month stock levels. Proprietary spares ordered as requested.

1 October 1947

Majuro Dist.

(3) Other - Office supplies are on hand in excellent quantities, tools are plentiful, nails are in good supply, and standard stock consummable items are adequate in classes 17, 28, 38, 33, 41, 42, 45, 46, 47, 51, 52, 53, 56, 64, and 70. Critical shortage exists continually in class 63 due to the lack of transportation in receipt of outstanding requisitions.

(d) Status of requisitions. Numbers and dates of those outstanding over two months. Source of supply is NSC Pearl Harbor unless otherwise indicated: (not included)

1 Jan 48 (Rep.7)

Majuro District

(a) Provisions (number of days supply on hand) -

- (1) Fresh - 5 days
- (2) Frozen - 45 days
- (3) Dry -180 days
- (4) Other -100 days.

(b) Fuels (number of days supply on hand) -

- (1) Motor Gas bulk 7 mo.
- (2) Diesel bulk 4 mo.
- (3) Aviation Gasoline - Note tank farm distribution system out of commission.

Excess 4 inch vitraëlic pipe has been removed from tank farm to be used for temporary bulk barge-to-shore motor gas and Diesel distributing system.

(c) Materials -

(1) Construction - Supply of cement on hand nearly exhausted. Large quantities on order have not arrived as yet. Plumbing fittings have arrived in substantial quantities but the galvanized pipe and brass pipe of corresponding size has not although ordered at the same time. Supply of nails on hand is sufficient. Because of the very limited amount of allotted funds, (appropriation 1781201 - 152. Bureau of Yards and Docks, granted for maintenance and operation purposes only) expenditures of building materials for maintenance of the naval establishment plant account must of necessity be held to bare essentials as fuel for the utility systems depletes a large percentage of the allotment currently. Any large expenditure for construction Materials must therefore be for Island Government purposes and of a civilian expense nature.

- (2) Receipts of equipment spares on order are good but increased receipts of Naval

Majuro District

Stock Account material is rapidly increasing maintenance cost chargeable against the station maintenance allotment.

(3) Ether - arrival of a large quantity of class 63 material has remedied the past shortage of this type item. Tools and nails on hand are plentiful.

(d) Status of requisitions. Numbers and date of submission of all outstanding requisitions of our two months duration. (Numbers, dates of submission to, and supply point of requisition status for 2 months duration omitted)  
*in this note, but included in original.*

(a) Provisions (number days supply on hand).

- (1) Fresh - 14 days
- (2) Frozen - 28 days
- (3) Dry - 90 days

(b) General Stores:

- (1) NSA - 60 days
- (2) APA - 30 days

(c) Fuels:

- (1) Motor Gas - 30 days
- (2) Diesel Fuel - 150 days
