## GREAT WESTERN ABSORBED

Consolidation Deal In Which Local Bond Investors Are Interested.

According to the Examiner of the 20th, the Great Western Power Company, in which much local money has been invested, has been absorbed by the Pacific Gas & Electric Co.

The Examiner says:

Word was received here last night that a meeting in New York yesterday between the officials of the two companies had resulted in an agreement between the Pacific Gas & Electric Co. of this city and the Great Western Power Company, whereby the former is to receive the power of the latter and distribute it in San Francisco, Oakland and northern California cities and towns in which the local company is thoroughly established.

The agreement is said to carry many other provisions advantageous to both corporations, but no one here was prepared to discuss their nature. Negotiations for a working agreement between the two big electric

concerns have been under way for some time and their satisfactory conclusion is said to have resulted only yesterday. The presence in New York of Frank Drum, president of the Pacific Gas & Electric Co., who hurriedly departed for the East two weeks ago, The advance during the past ten days of Pacific Gas & Electric common stock from 55 3/4 to 67 1/2, and Great Western preferred stock from 47 to 67 1/2, indicated that something was doing. However, there was little surprise when the news of the compact was received yesterday.

To effect this deal it is said the Pacific Gas & Electric Co. has had to guarantee to the bondholders of the Great Western Power Company the payment of the first year's in-

terest on the latter company's bonds. To this obligation is imposed another—that the second year the dividend on the preferred stock should be added and that the guarantors would assume all responsibility so far as the common stock was concerned after the third year. The Great Western Power Company, whose plant is at Big Bend, has found it difficult to dispose of its electric power, for the reason that the Pacific Gas & Electric Co. practically controls the distributing business, so far as its big consuming centers are concerned. The Great Western Power Company got as far as Oakland when it was made to appreciate the strong hold of the other concern, and, realizing the se-

rious difficulties it would encounter in trying to get into San Francisco, is said to have promoted the negotiations that ended in yesterday's compact.

The Great Western Power Company some time ago entered into a contract to supply the Southern Pacific Company with power for its increased electric lines in Alameda county, but whether the contract will pass to the Pacific Gas & Electric Co. along with its arrangement for distributing the balance of the company's power is not known.

## COMEDY DRAMA ON THE BOARD

Howard Company Will Open in "The Easterner" at Orpheum Tonight.

The third week of the George B. Howard company engagement at the New Orpheum, which begins this evening, will be ushered in as auspiciously as the opening for the fact

that every indication points to another crowded house. "The Easterner," an up-to-date Western comedy drama, will be the offering of the Howard company this evening and will be followed Thursday by one of the funniest farces ever written, "The Private Secretary." "The Easterner," which will hold the boards tonight, Tuesday and Wednesday evenings, was at one time the joint starring vehicle of Nat C. Goodwin and Edna Goodrich, and is regarded one of the best plays in the well known actor's repertoire. There is the usual demand for seats for both pieces and like last week, crowded houses will welcome both pieces. Several theatre parties have been arranged for tonight and during the week.

## IMMIGRATION PROBLEMS

Clark Shows That Board Has Far-Reaching Scheme Formed.

That the present Board of Immigration has comprehensive and far-reaching plans for securing immigrants for Hawaii is evidenced by a statement made this morning by Dr. Victor Clark, head of the immigration work for the government here.

"I believe that the government, in so far as is practicable, should bring immigrants to Hawaii in small parties and by the most direct route, thus using the funds available to create a permanent channel for immigration and the return of immigrants to their own country, as these returning workers are the best advertisement for Hawaii, and will do more good than those who remain permanently in the Territory as laborers to assist immigration into the country."

"Further, the number of immigrants brought to the Territory in any one year should not exceed the capacity of the country to absorb them promptly. This is not likely to be the case, on account of the limitation of the amount of money available for this purpose but a possible excess in this direction should always be kept in mind."

"In future the Board of Immigration hopes to keep a record of every immigrant coming into the country, showing his former home and previous occupation before coming to Hawaii. I should like to see this matter required by statute."

Asked of the plans for recruiting laborers at Panama, Dr. Clark said the only thing that could be done at present was to find out how many of the laborers from northern Spain there were on the isthmus, their condition of work and whether or not they had families with them.

There is a Federal statute prohibiting anyone going there and trying to induce laborers to leave, which would prevent anything being done in the zone by labor agents of Hawaii at present.

In addition, Panama, or the Canal Zone, is regarded as foreign territory as far as bringing laborers into any part of the United States is concerned, and that also would prevent contracting there for laborers to come to Hawaii.

Nevertheless, the immigration board has its eye upon that section and the Gallegos, and when the work there is finished an attempt will be made to induce them to come to Hawaii. This will probably be done by advertisements showing the possibilities of Hawaii which will be published in the zone.

In regard to the work being done in Portugal by immigration agents, Dr. Clark stated that although the revolution might hinder the work somewhat, it was still being prosecuted with success, and in a short time some of the Portuguese immigrants would be on their way.

## HONOLULU WOMAN DOUBLES INCOME

(Continued from Page 1.)  
This was an encouraging news to the members, some of whom have evidently thought that the treasury was running low.

Mrs. S. M. Damon, one of the active members of the society, promised to donate \$1000 annually on monthly installments. Mrs. S. B. Dole, the president, also promised to give \$100, and a number of other people, it is stated, have expressed their willingness to help the society.

Treasurer Campbell reported that during the year \$467 was collected from fees and dues of the members. The total receipts during the year were \$1545.96, and the disbursements \$1024, the balance on hand to date being \$521.96.

According to Mrs. Murphy, the secretary, there are upward of 200 members in the society.

The society is about three years old now, having been established when Sheriff Laukea was in office. The officers who were elected this morning for the ensuing year are:

## AWFUL CRIME SATURDAY NIGHT

Three Young Men Are Charged With Committing Statutory Crime.

Charged with a statutory crime against two young girls, and facing the death penalty if convicted, three young men appeared before Judge Lyne, at the police court this morning. The names of the youths are James Evans, Eddie Olds and Isaac Ahu. All three stated in court this morning that they wanted the services of a lawyer, and the preliminary hearing was therefore set over till November 4.

The outrage with which the three young men are concerned happened late on Saturday night at the half-finished theater at the back of the Art, on Hotel street.

Evans and Olds are employed at the Art Theater. The other youth was working with a drug firm. The girls concerned in the affair were half-whites of fourteen and sixteen years of age.

It appears that the girls were walking along Pauahi street, between Fort and Nuuanu, when Olds accosted them and inquired if they wanted him to escort them home. The girls allege that they told Olds that they did not want to go along with him. Then Evans is alleged to have come out of the vacant lot of land adjoining the skating rink and the half-completed auditorium, and to have grasped the eldest girl. He is alleged to have gagged her with a handkerchief, and then to have carried into a room that had been used by him as a bedroom.

The other two youths, Ahu and Olds, are said to have converted the younger girl to the building also. The girls' cries were muffled by the gags; the late hour—it was then after 11 o'clock—made the chances of appeals for help being heard useless.

One of the young men admits that he helped in the matter, and the other two have not said much so far. Ball has been refused and the three will have to stay in jail till their trial comes up.

## THE PARK THEATRE.

The feature film at this place of amusement this week is called "Gold Seekers"—one of the best of the Biograph company productions.

The show at the last week-end was one of the best ever given at this theatre. The vaudeville was exceptionally good, and there was a noticeable appreciation of Alberto's feats of magic. Their appreciation, however, deprives him of an opportunity to get in a line of chaff that is enjoyable. Harney and Haynes did the best act of their engagement, and it is pleasant to say that it will be repeated in a slightly changed form tonight. Harney plays the piano, and then a good deal more. Miss Haynes does a species of cake-walk and winging that is really very good. The clog dance by Brown and Wilnot does not cease to interest, and applause is generous. This team is one of the best in the line on the American stage. Business at the Park has been phenomenal during the month.

Sewer rates collected since the beginning of the fiscal year amount to \$12,100.75 and water collections for the same period amount to \$5,711.08, according to figures given out this morning.

President, Mrs. S. B. Dole; first vice-president, Mrs. F. M. Swanzy; assistant vice-presidents, six in number, Mrs. B. Walbridge, Miss Nellie Rice, Miss Lucy Ward, Allan Herbert, Mrs. S. M. Damon, Judge W. L. Whitney, Mrs. Murphy and A. N. Campbell were, respectively, elected secretary and treasurer of the society.

Before the meeting adjourned, the president announced that if the financial condition of the society was good, she would favor increasing the number of the humane officers to three, instead of one, as at the present time. She thought that Miss Davison is doing more than she can successfully attempt.

Fifty dollars is now the fee for a life membership, and \$1 a year is the fee for annual membership.

The matter of giving entertainments and concerts for the purpose of raising funds for the society was talked over, but the officers decided to wait until some opportune time in the future.

## REPUBLICAN ENEMIES.

It is during the present week that the voters must guard against eleventh hour statements and charges by the ones who are stopping at nothing to elect L. L. McCandless—Editorial, Thurston's Advertiser, Oct. 31, 1910.

The Advertiser advises its friends to support Mr. Thayer as the man Honolulu should have in the city attorney's office.—Editorial, Thurston's Advertiser, Oct. 31, 1910.

L. L. McCandless can look for no better support than the Republican who splits his ticket. And the Republican party can find no more detestible enemy than the hypocrite whose allegiance is no more to be depended upon than the chronic falsifier subjecting party and community welfare to the whims of his personal spite.

## YOUNG HAWAIIANS' OPPORTUNITY.

The young and progressive Hawaiian-Americans of Hawaii County have an opportunity to make a splendid record for themselves this year by voting Kealauiwa out of office and putting J. N. Koomoa in the position of County Supervisor from the district of Kona.

The contest between these two men is practically the contest of the old and shady do-nothing against the bright aggressive, progressive and educated young Hawaiian-American of this Territory.

Mr. Koomoa has behind him all the progressive elements of his district and he is entitled to the vote of every young Hawaiian-American who wants to see his people and his district go ahead, and command respect from all its reputable elements of the country.

Make the balloting of next week a victory for the young Hawaiian-Americans who stand for the right kind of men in office and solid progress for te Counties.

## KAUAI HEARS BOSS RAVING

That Link McCandless, who made a circuit of the island of Kauai recently on a political mission, told many lies to the Hawaiians on that island was charged this afternoon by Rev. Stephen L. Desha at the corner of King and Bethel streets in a soap-box speech.

According to Desha, who went to Kauai with Delegate Kalaniani'olani, subsequently said today that during their tour on Kauai, the Hawaiians told them that McCandless and Kanoho declared that within four years the Hawaiian language ceases to be recognized and that thereafter, all the Hawaiians who spoke the Hawaiian language would be imprisoned.

The Kauai Hawaiians who heard the remarks made by McCandless asked the Prince if such was the case. The Prince was indignant at hearing that the Hawaiians have been sent to believe that they will be sent to jail if they continued to speak their mother tongue.

Desha warned the Hawaiians to keep themselves wide awake so that McCandless will not be able to catch their votes on the election day.

Desha was given rousing cheers and applause from the crowd, who turned their back on J. M. Poepeo, Democrat, who was occupying the Ewa corner soap-box.

The rivalry of the two orators attracted a big crowd, of which by far the larger part was Republican in sympathy.

## UYENO'S ALOHA TO YASHIRO.

Japanese Consul General Uyeno this morning sent a wireless to Admiral Yashiro, commander-in-chief of the Japanese training squadron Asama and Kanani, extending his aloha to him and the men under him.

It is expected that the squadron will arrive off port early Wednesday morning, November 2, a day before the birthday anniversary of Emperor Mutsuhito, which will be commemorated here in grand style.

"You will find, no matter whom you send to Washington, that I have made it my policy to make friends instead of using hot air. When McCandless was in Waikuku, he asked who was a liar, Thurston or the Republican party. Yet he dares to come before you and claim that he is responsible for the amendment to the land law which provides that land must be opened upon the application of twenty-five citizens. You can judge for yourselves who is the biggest liar. The cheek of the man! Anyone can go before a committee in Congress. As to the Land Laws. "He is showing letters from Candler and Judge Houston. Congressmen pronounce a 145,000 thinks that to get rid of those who by their them. I will go on record as saying that I cannot understand Candler and Houston. I moved that the two bills be referred to a sub-committee, and the Republican party, the dominant party, does the legislation in Washington. These amendments were put in by myself. I wanted the land given to every citizen who applied for it, but Judge Hatch opposed that, and thought it was not fair, but finally the twenty-five applicants clause was inserted by myself, and neither Candler nor Houston was there. Candler said that he did not propose to introduce McCandless' bill, and that he had never read it. Neither he nor Houston had any amendments to my bill."

By a deed dated September 19th and filed in the bureau of conveyances October 29, George Lycurgus transferred to Hilo Hotel Co., Limited, two parcels of land for the sum of \$20,000. These two parcels are located at Pihoonua, Hawaii, the first comprising 1.92 acres, the second .16 of an acre.

## M'CANDLESS IS TALKING ALONE

Boss McCandless' insistence on his own ideas and theories as to Democratic politics and campaigning has alienated him so badly from the real Democratic leaders in Oahu county that on the last week before election, when he needs every ounce of support that he can get, he has been almost thrown over by his own machine.

During this last week McCandless will have to wage practically a lone fight for the delegateship. The Democratic campaign managers are doing a lot of hustling for the county ticket, but McCandless is ignored. The best he can do is to attend the meetings called by the district leaders and speak on his own behalf.

Two campaigns are being run from the local Democratic headquarters, the county campaign and the boss campaign. Col. C. J. McCarthy is running the county campaign, and the boss is running the other.

McCandless and McCarthy speak when they have to, and that's about all. McCarthy has a desk on one side of the room, and when McCandless has any political business to transact that has to be done at headquarters, he pulls it off over in a corner.

The boss isn't around headquarters very much, for he isn't particularly welcome, and when he does come, he goes over to his pet corner, holds whispered conversations with his lieutenant and soon is out again scurrying around on his little buttonhole campaign. McCandless is one of the busiest button-holders this Territory ever saw.

McCandless' personal workers arrive at odd times during the day, report to the boss, get their instructions and whatever is necessary in a material way to carry those instructions out, and then depart. Col. McCarthy has made it plain in the few days he has been in charge that he isn't conducting McCandless' campaign, and doesn't intend to be drawn into it, nor to allow the county candidates to be drawn into it.

In fact, McCarthy says openly that he doesn't believe McCandless' immigration plank should have been injected into the local campaign, and right here is where McCandless has lost the platform support of the Democratic candidates. They are all busy trying to get themselves elected, and as the week's fight gets hotter and hotter, McCandless is going to have more and more to do to keep himself before the voters.

Democratic meetings have been scheduled for every night this week, from two to four each night, and McCandless plans to take in as many of these as possible. Tonight the meetings are at Jack Lane, Nuuanu, and Kalaialani tract, in Kailua valley.

## HALLOWE'EN FOR TONIGHT

Sheriff Jarrett anticipates no trouble this evening, although Halloween is in some countries the cause of much gate shifting and other alleged jokes. The local police will keep an extra sharp eye out for any daring fun makers, and should any of them be captured while planting an undertaker's sign board outside of a doctor's office there will be some arrests made.

The removal of gates, and the changing of signs, may be carried out to a slight degree, but to nothing like the extent that prevails in older countries. Ducking for apples and hitting at treacleed buns is considered to be the correct thing for this evening, and much merriment is occasioned by the attempts of the unfortunate, whose hands are tied behind his or her back, to bite a bobbing apple in a tub of water.

The festival of All Saints Day is a very old one and many centuries ago it was instituted to celebrate the occasion of the conversion of the Pantheon at Rome into a Christian place of worship dedicated to the Virgin, and all the martyrs who had been slain there.

### APPLICATION BY EIGHTY MADE

There were eighty applications for land in the fourth land district at Hilo opened in the Throne Room this morning, there being but two improperly executed ones in the lot.

The public land thrown open in the fourth district comprises more than 20,000 acres, and the applications received this morning call for but a small fraction of that amount. Most of the applications were for land at Hamakua made by Portuguese residents, there being more than 100 lots in that section of the fourth district.

## LEPROSY EXPERT IS DOUBTFUL

(Continued from Page 1.)  
Dr. Nottage, "Cerebral Neoplasms," Dr. Judd, "Temperament versus Temperature," Dr. Goodhue, unpublished business.

Evening, 7:30—Banquet, Toastmaster, Dr. C. B. Wood.

In his address Saturday night, Dr. Currie said in part:

"In my opinion, the one great fundamental basis for success in eradicating a disease from a locality, is to secure the cooperation of the people of the community in which the disease exists. There may be countries where a disease can be stamped out in spite of the opposition of the majority of the population, but I must see such a phenomenon to believe it possible. Certainly no such possibility exists in any part of the United States of America.

We see in the case of an afflicted race in this Territory, first, little fear of the disease; second, great prejudice against the measures attempted for its control. The result is opposition to these measures, and it follows, as 'the night follows the day' that the disease continues among them and will continue among them, just as long as conditions are as they are.

**One Remedy Now.**

What is the solution of this problem? Excepting the possibility of some advance in scientific knowledge, there is but one rational solution:

First—The people must be educated to the fact that leprosy is a communicable disease, and that it exists here to a great extent.

Second—The measures against it must be reduced in severity to a point where reasonable cooperation will be secured.

Just what this latter point is, is a detail I can not enter into fully, but it is self-evident that two lepers under the most lenient isolation are less dangerous to this community, than one leper at Molokai and the other attending a moving picture show in Honolulu.

I am painfully aware that the "solution" I propose is quickly and easily written on this paper, but slow and difficult to execute.

**Solution is Slow.**

But with fifty years' experience back of this community in fighting this disease and with the history of fights against it elsewhere, will some one point to an easier or quicker method? Gentlemen, bearing some advance in science, there are but two other ways it can occur. One is for the disease to die out of its own accord—possibly that has occurred in some countries, (we can not be sure of this though), but if it ever occurred, it took centuries and in ancient Egypt we first knew of leprosy and in modern Egypt it is common today.

The second is the extinction of the race that is the most heavy sufferers—and unfortunately that event seems to be occurring all too fast—but will it not be established among other people by then? Does its tendency not appear to be in that direction in recent years?

**Publicity and Education.**

Slow and difficult as the process of education is, public lectures, teachings in public schools and other similar means, if systematically carried

out by organized direction, will accomplish something year by year just as certainly as other processes of education will succeed, if percolated in. The doctrines of a religion, the political belief of a party, the claim of a manufacturer are all, if spoken often enough, accepted by the majority of any people and just that certain are the teachings of a sanitarian accepted, if the same efforts are made.

As to the other beam of the balance, which we are trying to establish between a wholesome fear of the disease and lack of dread of the measures against it, how far shall we go in lessening the severity of the measures? As I previously stated, I am not prepared to enter into the details of this, but only to say, as a general rule, reduce the measures to a point that will secure the largest number of lepers, consistent with reasonable safety. That does not mean Molokai. On the other hand, I would personally hesitate to recommend that the leper hospital of Honolulu be as centrally situated as Queen's Hospital is, although Hansen would tell you that the Queen's Hospital site was a perfectly safe one for such an institution, and Hansen and Hansen's ideas stamped leprosy out of Norway.

**Measures Must Be Lenient.**

The only point I wish to emphasize is that the measures should be the minimum considered necessary—not seeking the absolute ideal, but meeting the conditions as best you can. Unless the measures are lenient, indeed, if they secure more patients, they will give better results, than will the complete isolation of the few late cases that surrender themselves to go to Molokai.

In this connection I wish to commend the present law as a step in the right direction, but it is my humble opinion that you must advance much farther—the six months' treatment clause in a hospital here must some day be changed to permanent hospital treatment in some locality where friends and relatives may visit freely under sanitary restrictions. Why should they not? What evidence of either a clinical or laboratory character is there against such a practice? None that I know of, only our adherence to a medieval tradition keeps up such policy; it is neither scientific, productive of the best results, nor humane.

**BIG COMPANY TO COMPETE**

(Continued from Page 1.)

from the city when the bids are opened, inspecting the Hilo breakwater site, the contract for which has been awarded to them.

The Standard-American has done some work in local waters before, and at one time several years ago operated a dredge, the Pacific, in the Honolulu harbor. The great dredge which will be built here, the hull for which arrived Saturday, is the Standard-American machine, and will be used on the Pearl Harbor work. It is believed that the company from this time on will be an active bidder for government dredging work, of which there is plenty in sight in the Territory.

2185 editorial rooms—2256 business offices. These are the telephone numbers of the Bulletin.

## BIG CONTRACT TO LORD-YOUNG

The Lord-Young Engineering Company of Honolulu has been awarded the contract for the construction of the Hilo breakwater, a \$200,000 job, according to a cablegram from Washington received late Saturday afternoon by Major Winslow of the local U. S. Engineer's office. The bids were opened several weeks ago and sent to Washington for final award. The Lord-Young company bid \$1.54 a ton, which is regarded as a low figure.

No advice from Washington on the Kahului breakwater award has yet been received. The only bid of this was from the Kahului railroad, and it was accompanied by protests from the Lord-Young company and the Morgan Dredging Company, but both protests have been withdrawn.

The contract for the Hilo breakwater was signed up today by the successful firm and the U. S. Engineer's office, and Lord and Young will leave tomorrow for Hilo to begin operations at once.

**CHANGES IN LOCAL PASTORS**

Two Will Leave for the Mainland in a Week.

According to the notices given out there will be a number of changes of pastors in the local churches during the week and a couple of new faces will be seen in the pulpits next Sunday.

Illness in his wife's family has decided Rev. A. C. McKeever to return to Kansas at once and last night he preached a farewell sermon in the Christian Church. He has made a host of friends while here and there is much regret expressed at the news of his going away.

Rev. Jones will preach his farewell sermon next Sunday. He has been the moving spirit in the getting together of the money to erect the beautiful edifice at the corner of Berea and Victoria streets. Dr. Jones has been quite popular in church work in this city and will be sadly missed among those who depended so much on him.

A most cordial welcome awaits Rev. Dr. Scudder, who is expected to arrive today. He will at once take hold of the church duties that have long been in the able hands of Dr. Ebersole. Dr. Scudder has been traveling in foreign climes and it is possible that he will have some interesting lectures to make.

**A SUGGESTION ON ECZEMA**

It is suggested that eczema sufferers ask Honolulu Drug Co. of this city what reports they are getting from the patients who have used the oil of wintergreen liquid compound, D. D. D. Prescription.

## A "SLASH" SALE

is imperative. The store is full of goods and we just have to make room for Fall and Holiday Goods. To do so we "slash" all standard prices in a manner that must seem startling to our big-profit competitors.

"Slash" Prices in effect today and until after October 31.

There is no line so standard in our stock that it has not been marked with the "slash" sale price.

There are SHOES, MEN'S HATS and LADIES' TRIMMED HATS, DRESS GOODS and SHIRT-WAISTS here in abundance, at prices that are MONEY-SAVERS—for you. The bargains are too numerous, and the profits too small to pay for big advertisements, but our windows and counters tell the story. See them.

Buyers  
are of  
Two Kinds:

Those who want the best car for the least money.

Those who want the best car regardless of price.

## Chalmers MOTOR CARS

In speed contests they were given the title of "Champions of the Year," having won more races than any other car, even from cars twice their price and horse power.

In hill climbing and endurance tests the same record holds good.

The Chalmers "30" was selected pathfinder for the 1910 Glidden Tour.

The Chalmers "30" was awarded the Glidden Trophy in the 1910 Glidden Tour over the longest and most difficult route ever mapped out for this event.

THE Chalmers car is the one car that appeals to both classes of buyers. That accounts for its wonderful popularity.

It is easy to show the man who wants a "cheap" car how much more value he can get in the Chalmers by paying a little more.

It is easy to prove to the man who wants automobile satisfaction, regardless of price, that Chalmers cars compare favorably at every point with the highest priced cars.

Real motor value is what you want, and real motor value means greatest utility for least money. The way to judge a car for value is by what it has done rather than promises of what it will do.

Regardless of price consider what records have been made by the

We could go into details of construction, quality, workmanship, transmission, ignition, etc., but after all, the shortest, strongest and most convincing thing we could say is "See what the Chalmers has done." Where can you get greater value, and what more can you ask of a car at any price?

The 1911 models are now on exhibition at our salesrooms, ready for inspection and demonstration.

### HAWAII WILL SEND DELEGATE

Mott-Smith to Represent Hawaii at Pacific Coast Congress.

Owing to the fact that Governor Frear cannot leave Hawaii to be present at the Pacific Coast Congress to be held in San Francisco next month, it is likely that Secretary Mott-Smith will be delegated as the official representative of Hawaii to the congress.

There will be three days' meetings at San Francisco, beginning November 17, at which will be present the Governors of all Pacific coast States, and other influential men of the coast to talk over and devise some means for getting action on a merchant marine for the country and the stationing of an adequate battleship fleet in the Pacific ocean.

The formal invitation from Governor Gillett to Governor Frear was received on the last mail, but several days prior to that time a cablegram was received by Governor Frear from the coast stating that his presence at the conference was most necessary and to let nothing interfere with his coming.

However, much as the Governor realizes the importance of the conference to be held at the congress, he can not get away at this time to attend its meetings.  
Secretary Mott-Smith leaves for a trip to the mainland, which will include Washington and New York, on November 12 by the Pacific Mail liner Siberia and will arrive in San Francisco in time to be present at the second day of the conference.

On this account it is likely that the Territorial Secretary will be named by the Chief Executive to represent Hawaii at the congress and to voice Hawaii's ideas on the questions of subsidies for the merchant marine and a large battleship fleet for the waters of the Pacific.

### INCURABLE CASE

(DROPS CRUTCHES)  
Authorities declare kidney disease incurable after the sixth month. This was the situation up to the working out of the new emollient treatment—the only thing known that dares claim in print to cure chronic kidney disease.

Every case presented has been declared incurable by physicians and in some cases four to six have joined in the fatal diagnosis.

Case of W. R. Marquis, a business man in Bartow, Fla.—To show how serious his case of kidney disease was will say that three physicians in the Sanitarium in Memphis where he went for treatment, gave the case up and advised him to go home. On his return he heard of the new emollient treatment. Patient was so low that the extreme symptoms were in evidence. The fourth week the patient began to mend and the fourth month he was walking over town without crutches. All known treatment had failed in this case as in others.

Fulton's Renal Compound, the first successful treatment for chronic kidney disease, can only be had in your city of our authorized agents, Honolulu Drug Co.  
We desire to hear from and advise with those not recovering.

### YESTERDAY AT OCEAN BEACH

Day, Surf and Other Conditions Were Perfect and Large Crowd Out.

Although nearly every day out at the beach is ideal yesterday was just a trifle ahead of anything in the shape of weather that the frequenters of that part of the island have experienced for some time. The conditions were perfect in every phase, the surf was just right for the hundreds who were out on surf boards and in the canoes; the surface of the water was dotted with the heads of bathers to the extent of many hundreds; children by the score played in the sands, filling their mouths and eyes occasionally with that health-giving quantity which brought forth cries of alarm and caused a hurrying of mothers with handkerchiefs to wipe out the grit and then they would do it all over again.

The weather itself was of the made-to-order variety. There was no chill on the air and everybody was happy; not a grouchy face was to be seen. To those who have not been out there for some time there is a surprise in store as regards the change in the shore line directly in front of the resorts which are thrown open to the public. Where once were long stretches of clear sandy beach new looms heavy concrete walls, rising some four or five feet. Behind these walls quantities of sand have been retained which make a nice place for the children to sport in but it certainly lacks the beauty and freedom of the open beach.

The city generally went out to the beaches yesterday for a breathing spell and all were repaid for the time and money spent.  
The mallin, who visits the beaches at once notices the absence of moss, shells and other marine life that forms the list of attractions on a California beach, but notwithstanding all that Hawaii has beautiful beaches and the comfy that is experienced in bathing here offsets any thing that can be found elsewhere.

### BOURBONS FAIL TO GET CROWDS

Saturday Night Meetings Show Big Republican Audiences.

Honolulu had a recess in politics over Sunday, except for the button-hole campaigners, who put in a busy day. Saturday night the city was unusually quiet, most of the politicians being out of town or in suburban meetings.  
One of the biggest meetings of the week, however, was that of the Republicans, held on Saturday night on W. C. Achi's premises at Kapalama. The premises were decorated with lights and the speakers appeared on a flag-draped platform. Nearly all of the candidates were present, including John C. Lane, nominee for Mayor, R. W. Shingle, for treasurer; James Bicknell, for auditor; Cox for Sheriff, and the legislative candidates appeared in full force. Many speeches were made and the big crowd was noticeably enthusiastic.

The Democratic party leaders went out of town for a week-end rally at Waianae, with Link McCandless featured on the program, and the center of the local Bourbon stage was left for some graduates of the soap-box school of oratory, who gathered at Aala park to hear each other spout. The attendance at Aala Park was not in excess of three hundred, although it was Saturday night, and several times little knots of speakers on the outskirts of the crowd started arguments that drew a large share of the audience away from the platform. The speeches, had a decided socialist trend, and the only encouragement given most of the speakers was laughter.

### COAST FIRMS GET ARMY CONTRACTS

Awards for local army work contracts have been made to a number of coast firms. Hind, Rolph & Co., are to furnish the lumber for the army buildings here for the sum of \$28,789.25. Specification call for 1,445,830 feet of lumber.

Four hardware companies of Seattle were the successful bidders for the small contracts in their line. These were The Seattle Hardware Company, the Wheeler-Osgood Company, O. B. Williams & Co., and the Schwabacher Hardware Company.  
This lumber is to be used for the erection of the barracks at Lihouua for the battery of the field artillery, which will probably leave on the next transport from the coast, which is due to arrive here about November 12.  
Blank books of all sorts, ledgers, etc., manufactured by the Bulletin Publishing Company.

FACING the beautiful park in the heart of the city, which is the theatre of the principal events of the famous festivals of San Francisco, this hotel, in environment and atmosphere, expresses most pleasantly the comfortable spirit of old California.

The royalty and nobility of the Old World and the Far East and the men of high achievement in America who assemble here contribute to the cosmopolitan atmosphere of an institution which represents the hospitality and individuality of San Francisco to the traveler.

The building, which marks the farthest advance of science in service, has now the largest capacity of any hotel structure in the West, and upon completion of the Post street annex will be the largest caravansary in the world.

### PUBLIC MONEY FOR KING'S DEBTS

(Associated Press Cable.)

LONDON, Oct. 30.—Ex-Premier Franco, who headed the last cabinet prior to the overthrow of the House of Braganza and the flight of King Manuel, was arrested today by order of the President of the Portuguese Republic.

The charge against the former premier is that he used the public money of the country to pay the private debts of the former King, encouraging the youthful monarch in his extravagances and saving him from the consequences. An examination of the public accounts is said to show that Franco illegally issued decrees against the treasury, under which decrees a half a million crowns were drawn and paid to the private creditors of the King.

Militia Plan Restoration. Another sensation was caused here today by the arrest of thirty-two militia officers, their arrests leading to the publication of the discovery of a widespread plot against the republic among the militia. The plotters are accused of having sent agents throughout the country with the intention of arousing the loyalists against the provisional government and ultimately replacing Manuel upon the throne.

### FLEW AROUND LIBERTY STATUE

NEW YORK, Oct. 30.—One of the most hotly-contested and most sensational air races of the international meet was flown today, when Moisant, Grahame White and de Lesseps, representing France and England, started from Belmont Park, circled the Statue of Liberty and returned, a distance of thirty-six miles. Moisant came in ahead, having gone the distance in thirty-four minutes. Grahame-White finished second, a narrow margin behind the winner.

The prize of \$10,000 offered by T. F. Ryan for the winner over this course was not won; the start not having been according to the conditions laid down. The aviators will be given another chance today at the thousands.

### FLYING RECORD AND ACCIDENTS

NEW YORK, Oct. 30.—Leblanc, the French aviator, in the race yesterday for the Gordon Bennett trophy, established a world's record by covering the kilometer course in two minutes. Later, while traveling at a rate of eighty miles an hour, the gasoline feed pipe of his engine became loosened and his machine crashed into a telephone post, wrecking the biplane.

The accident was the cause of another a second later, Brookings' Wright machine falling with him.

Neither of the aviators was seriously injured.

### UPHOLDS FRENCH PREMIER.

PARIS, Oct. 30.—Premier Briand, who was yesterday blamed and reviled by the socialistic members of the Chamber of Deputies, today turned upon that wing and flayed the socialists in a bitter speech.

Following his denunciation of the members who had called upon him to resign and who had dubbed him a dictator, the premier asked for a vote of confidence. The chamber divided in an uproar, but the majority was overwhelmingly on the side of the government.

### NEW YORK POLICE HANDLING STRIKERS

NEW YORK, Oct. 30.—Street clashes between the striking drivers of the Wells, Fargo and United Express companies and the strikebreakers continue. Last night the entire police reserve was on duty, suppressing disorders and preventing the strikers from destroying property.

### PEON KIDNAPS GIRL.

LINCOLN, Neb., Oct. 30.—Grace Holph, seventeen years old, a member of a well-known Lincoln family, is reported to have been kidnaped recently near Chey, Mexico, where she was visiting. Her abductor is said to be a peon. The State Department at Washington has been appealed to and is taking an interest in the rescue of the young girl.

### LOOKS BAD FOR URUGUAY.

MONTEVIDEO, Uruguay, Oct. 30.—The threatened revolution has become an actuality, and the government is facing a serious situation. Ten thousand revolutionists are being concentrated, and already there have been skirmishes between them and the loyal troops.

### SAVED FROM AN OPERATION

### By Lydia E. Pinkham's Vegetable Compound

Louisville, Ky.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a world of good and I cannot praise it enough. I suffered from irregularities, dizziness, nervousness, and a severe female trouble. Lydia E. Pinkham's Vegetable Compound has restored me to perfect health and kept me from the operating table. I will never be without this medicine in the house."—MRS. SAM'L LEE, 533 Fourth St., Louisville, Ky.

Another Operation Avoided. Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—LENA V. HENRY, R. F. D. 3.

Thirty years of unparalleled success confirm the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

## SOLDIER KING PROVES TO BE TOO SPEEDY FOR ANTONE KAOO

OLD WAIALUA HORSE RAN GREAT RACE AND SHOWED PLUCK—MAN FROM MAINLAND COULD HAVE WON BY LARGER MARGIN IF HE HAD WANTED TO—THOUSANDS WATCH RACE.

Soldier King defeated Antone Kaoo by one mile in the fifteen-mile race at the Athletic Park yesterday. The old Hawaiian did not have a chance of winning, and it was evident early in the race that Kaoo was outclassed. King did half the distance in 46:48, while Kaoo took 49:29. The ten miles were thrown behind by King in 63:36, and Kaoo took 69:01. King finished the full fifteen miles in 1:38:18, and Kaoo stopped running at the end of fourteen miles, which he covered in 1:38:34.

Auwe! auwe! the Pride of Hawaii was beaten fairly and squarely by Soldier King yesterday. There was no doubt about the result of the race from the second mile on to the finish. The best man won, and he ran like a thoroughbred every inch of the long journey.

King in action is like a machine, and he gave the people of Hawaii some idea of how the world's best runners perform on the mainland. His style is perfect, and he ran a beautiful race right through.

When four miles and two laps had been covered, King overlapped Kaoo, and the soldier's supporters yelled themselves hoarse. King then dropped in behind Kaoo, and ran along at an easy rate of speed. At the beginning of the fifth lap in the fifth mile, King shot out ahead and Kaoo answered the challenge in game fashion.

King finished the five miles with one lap to the good—and running easy. Kaoo sprinted when he had done four laps over the five miles, and cheers went up from the Hawaiian's supporters.

Six miles were thrown behind by King in 36:16, and he was then rapidly overhauling Kaoo for the second time. The soldier got close behind Kaoo at two laps over the Hawaiian a yell went up from Kaoo's backers. They claimed, first of all, that King had trodden on Kaoo's foot, but as King was running in shoes that had no spikes, there was nothing to that complaint. As a matter of fact, Kaoo was just touched. King ran an absolutely square and fair race and no foul was committed. If King had chosen to do so, he could have cut out the pace so fast in the first few miles that Kaoo would have had no chance at all. Kaoo came to a stop when the foul was claimed, but resumed running shortly afterwards.

To dispose of the wild rumors that went the rounds last night, it may be stated that after the race Kaoo and his managers told the three judges that they did not wish to enter any protest, and that there was no doubt that the better man had won. The old Waialua Horse was satisfied that he had no chance of beating King over fifteen miles.

**Big Crowd Present.** There was a great crowd present, and the grandstand and bleachers were absolutely full. The overflow found its way around the sides of the ground, and many hundreds were seated on the benches. Automobiles and carriages were ranged at the Ewa side of the ground, and taking it altogether, it was a fine sight. Although most people lost through Kaoo's defeat, there was no kicking when the judges gave their decision. There was absolutely no excuse for Kaoo's defeat, except that King was too good for the Hawaiian over the distance.

**The Start.** The men were called together by the judges and a short consultation took place. King said that he didn't care who had the inside running; Kaoo answered "Likepu." It was agreed that if either man wished to, he could get off the track and be rubbed down. Passing on the inside, unless there was plenty of room, was barred, and whichever runner took the lead had to go on to the outside.

**On!** At 2:50 the men toed the mark and the starter quickly got them away. Kaoo at once took the lead, with King a stride behind him. The first lap—six to the mile—was cut out in 69 seconds. The second lap

was covered in 62 3-5 seconds; third in 63 2-5; fourth in 65 2-5; fifth in 64 2-5, and the sixth in 65 1-5. The first mile was very slow, and King's backers knew that the soldier was merely trying out the Hawaiian.

In the third lap of the second mile King tired of the slow pace put up by Kaoo. He sprinted out, and in two laps had put a distance of 200 yards between the native and himself. From that time on King increased his lead until, in the fifth mile, he overlapped Kaoo.

From then till the end of the race it was merely a matter of whether or not something might happen to King that would allow Kaoo to catch up.

There was nothing doing in the way of catching up by Kaoo, however, and King increased his lead with every stride.

**Half Way.** At seven and a half miles, which King ran in 46:48, Kaoo was no less than 2 minutes 41 seconds behind. The eight miles were cut out by King in 19:59, and he was running very strong.

At ten miles, which King did in 1:33:36, Kaoo was completely out of the race so far as winning went, and a lot of coin that had been invested on the ten-mile result changed hands there and then.

Kaoo brought forth cheers by sprinting a few times whenever King got close, but it always ended in the Hawaiian slowing up and the soldier adding another lap.

Even after ten miles had been covered, with King so far in the lead, there were Kaoo men who thought that King might collapse and allow the native to win after all.

King, however, was running in his best possible style, and seemed ready to keep it up for a week.

Toward the end of the race King quickened his pace a lot and he got over the ground at a great rate. He was running as strong as at the start, and seemed as fresh as ever.

Kaoo lengthened his stride a bit and appeared to be running better than at the beginning. The old fellow looked as if he could have gone the full Marathon distance with ease.

NEW CHAMPION.

Soldier King, who yesterday defeated Antone Kaoo for the fifteen miles running championship of Hawaii.

ed their way to the dressing rooms, where the champions held court.

Nigel Jackson was the busiest of men, and he had King in the pink of condition. Bill Rice was Kaoo's henchman, and the old Waialua Horse looked good to the eye.

The crowd outside was deeply interested in the event, and here and there could be seen bunches of men gathered together discussing the race. People seemed to be about evenly divided about the matter, and the way in which the Hawaiians backed their fancy was a sight to see.

The times of the two men for each stage of the race were as follows:

Miles.	King.	Kaoo.
* 1 .....	6:21	6:31 1-5
* 2 .....	12:14	12:26
* 3 .....	18:11	18:41
* 4 .....	24:16	25:04
* 5 .....	30:23	31:27
* 6 .....	36:16	38:36
* 7 .....	43:29	45:48
* 8 .....	49:59	53:00
* 9 .....	56:44	61:28
* 10 .....	63:36	69:01
* 11 .....	70:20	75:35
* 12 .....	77:00	83:05
* 13 .....	84:20	90:45
* 14 .....	91:32	98:34
* 15 .....	98:18	.....

King averaged 6:33 1-5 to the mile, and cut out the last lap in 53 seconds.

Kaoo averaged 7:21 2 to the mile for fourteen miles. Ben Hollinger and Bill Chilton kept independent lap on the times, while Frank Kruger and Lester Petrie were the official timers.

The race was a success in every way, and although the Pride of Hawaii was defeated, it was by a much faster man over a fifteen-mile course.

**DOTS AND DASHES.** On November 13, there will be a yacht race in which the young members of the Honolulu Yacht Club will sail the large boats of the Hawaii Yacht Club. The Hawaii I will be navigated by Sullivan, the Charlotte C. by Campbell Crozier, the Kamehameha by George Sims, the Gladys by Luther Hough and the Helene by either McVeigh or Will O'Brien.

The mile skating race at the rink last night, in which George Wilkinson gave Manuel Freitas half a lap start, resulted in a win for the scratch man after a very close contest; Wilkinson's time was given as 2 minutes, 47 seconds, which is very fast considering the size of the rink.

## HAW. COLLEGE BEATS HIGH

COLLEGIANS HAND OUT SCORE OF 16 TO NIL

Bill Rice and Birdseye Do Great Stunts—High Do Better in Second Half and Prevent Further Scoring.

On Saturday afternoon the College of Hawaii football team defeated the High School by a score of 16 to 0. The collegians had the best of the game right through, although the Highs did good work at times. The game more closely resembled Rugby than anything else, and some fine runs were made down the field by the speedy ones on the team. In the first quarter Bill Rice made two fine touchdowns, and he showed remarkable speed and dodging ability. Birdseye also made a touchdown in the second quarter, and it was from this try that Mar-allino kicked a goal.

The Highs then got going properly, and for the rest of the game they held the college down to no further score. They put up a great defense, and try as the collegians would, they could not get through the line. During the last two quarters the game was strenuous enough for anything, and the Highs pressed so hard in the last quarter that the college had to resort to many forward passes in order to save the day.

There were four quarters of ten minutes each played, and there were three-minute intervals between them. At half time there was a spell of fifteen minutes, and it was much appreciated by the players and also by W. T. Rawlins, who officiated as umpire. The day was rather warm, and the new rules make the game more open. Consequently the men were kept on the go all the time and there were many bellows to mend before the game was finished. Although the Highs were defeated, they were well pleased with the showing they made in their first game. The college possesses some tall men, and they were able to reach for the ball and take it well above the heads of their smaller opponents.

**DOTS AND DASHES.**

Charlie Reilly probably missed an opportunity of meeting Battling Nelson by being in Honolulu. Charlie will be wending his way back to San Francisco on the Sierra, maybe. He will return later off, and it is possible that Madison will come along, too.

Last night at the rink, the Princess roller polo team defeated the Marines by a score of 4 to 0. The result was a surprise to the spectators as the Marines were thought to be invincible at the game.

Joe McGurn and Ironman McCullough are matched to box at Leilehua early next month. The two should put up a great go and the Cavalrymen will have a treat for sure.
