

The Pillars of the State.

The following are the names of the men who are the pillars of the State, as they are called in the title of the book which is the subject of the present number of the Hawaiian Gazette. The names are given in the order in which they appear in the book, and are as follows:—

Variety.

The first person who ever went round the world was a Spaniard. It is a fact that he was a Spaniard, and that he was the first person who ever went round the world. The name of the Spaniard was Magellan, and he was the first person who ever went round the world.

The Meeting of the American Board.

The sixtieth anniversary of this venerable body was held in Chicago Oct. 24. The place selected for the meeting was Fawell Hall, which is capable of seating about 2500 people. Rev. Dr. Mark Hopkins, the President of the Board, occupied the chair. Good men and women from all parts of the country, and from many foreign nations were in attendance, and despite the rainy unpleasant weather throughout the session the large hall was always full. A morning prayer meeting was held at 9 o'clock in the morning, and was held at 9 o'clock in the morning.

The Income of the Year for the Old Work.

The income of the year for the old work has been as follows: From donations, \$245,084 58; from legacies, \$68,708 38; from other sources, \$7,407 37; making a total of \$321,200 33. The disbursements have been \$340,238 28. As, therefore, the year began with a debt of \$18,037 95, it has closed with a debt of \$16,937 95.

HAWAIIAN GAZETTE

AN INDEPENDENT JOURNAL, DEVOTED TO HAWAIIAN PROGRESS.

PUBLISHED AND EDITED BY HENRY M. WHITNEY.

WEDNESDAY, DEC 1. NOVEMBER 28th, the anniversary of the recognition of Hawaiian National Independence was observed on Monday.

At 10 o'clock a national salute was fired, a national salute at noon, a turnout of the volunteer coast and picnic, nothing noteworthy occurred. The Guards were entertained at Captain Basinger's residence at Keolu, where a part of the day was spent in target practice, which showed some very skillful shooting.

The prize was won by Sergeant Williams. There was the usual number of accidents, most of them attributable to drunkenness, which seems to flourish on such occasions more than at other times. The opinion is general that the observance of this day as an anniversary is wholly unnecessary, and if quietly dropped, it would be better for the country, and probably save many sore heads, and bruised or broken limbs, if not lives.

It was pleasant to witness the large gathering at the band concert on Monday last, at Emma square, as well as on previous occasions of late, when evening concerts have been given. The improvements recently effected in this small but very pretty park, which were made by the public-health officer, the supervision of H. A. S. Cleghorn, render it a more popular resort than it formerly was, and serve to compensate in part, for the want of a larger park, such as we ought to possess.

Japan and Her Trade.

The latest news from Japan indicates that the war party is again urging the Government to commence war on the neighboring semi-barbarian people of Korea. It is not likely that Japan could gain anything by war, except to lose those of her subjects quiet for a time who are now restless. Peace should be her policy, for it alone has tended to develop her resources, as shown by the statistics which have lately been published. Her exports for 1874, amounted to \$20,000,000, including tea, silk, cotton, sugar, coal, wax, tobacco, copper, etc. In addition to this, specie to the amount of \$15,000,000 was exported, making a total of \$35,000,000. Her imports for the same period were \$20,000,000, including raw cotton, cotton goods, sugar, woolen goods, arms and ammunition, etc. Her population is estimated at 35,000,000, of which 25,000,000 are Europeans and Americans, and 27,250,000 are Chinese.

The Gullbord Affair.

Our readers perhaps have wondered what is the origin of the turbulence in Canada, concerning the burial in the Gullbord cemetery, the remains of one Gullbord. It appears that Gullbord died some three years ago under the ban of the Church of Rome. An anti-Catholic Society, called the Canadian Institute, endeavored to secure the interment of his remains in consecrated ground, in which the Catholics do, and the Institute appealed to the courts. It was carried through various courts of the Dominion, and as a finality was taken before the Ontario Court in England, which finally decided in favor of the Institute, giving an order for the burial of the remains in consecrated ground. The attempt to carry out this mandate resulted in a disturbance, which is not yet entirely subsided.

The United States, Spain, and Cuba.

Among the foreign news received, it is stated that Mr. Cushing, the American Minister at Madrid, has informed the Spanish Government, that the United States Government will be forced to recognize the Cuban insurgents if the war is kept up until the first of January next. In consequence of this note the Spanish Government has been putting forth extraordinary efforts to increase its military force in Cuba, and suppress the insurrection, which has now continued seven years, and interfered largely with the commerce between Cuba and the United States, as well as between Cuba and European countries. The following dispatch is all that has been made public so far:

Washington, October 24.—The dispatch of the Spanish Cabinet's reply to the note is a late Madrid telegram. The "Washington note," has reference to suggested questions between the two countries. The exact points of this official paper cannot be ascertained, but may be inferred from the views of the President, which form the basis of the President's reply. He states that the President is not prepared to recognize the Cuban insurgents, but that he is prepared to recognize the Cuban Government, if it is able to maintain its independence, and to suppress the insurrection, which has now continued seven years, and interfered largely with the commerce between Cuba and the United States, as well as between Cuba and European countries.

THE REPUBLIC OF LIBERIA HAS LATELY BEEN besieged in war with a tribe of semi-civilized blacks occupying the country near Cape Palmas, which adjoins Liberia. Just what the provocation was, if any, on the part of the Cape Palmas tribe, who commenced the attack, has not been ascertained, but it is quite evident that they have been badly beaten by the Liberian troops in every engagement which has taken place. From all accounts Liberia has done credit to herself in the manner in which she has dealt with these negro tribes, who are known to the world only as slave traders, and are among the worst and most cruel of the Africans.

Pacific Ocean Cables.

The arrival of the U. S. surveying steamer Tascapora, Captain Miller, on a cruise to take soundings between this group and Australia, will naturally attract attention to this ocean as a field for telegraphic enterprise. Already a cable connects Australia with Asia, and Europe, via Port Darwin, and Java. A new cable is soon to be laid connecting New Zealand with Australia. About one half the cable left London in October, and the remainder was to be ready to leave in December, the whole to be laid before April 1, 1876. This will bring New Zealand into telegraphic communication with London. A new English company is organized which proposes to lay a cable between Brisbane and the French colony of New Caledonia, and thence to Fiji. This will probably be accomplished during 1876. Fiji's being 3700 miles distant, we shall then be in better communication with the East, than we are at present. The American Coast having twice been surveyed, and found admirably adapted to the laying of a cable, its construction is now only a question of time. The service for which the Tascapora has been detailed, is to survey the ocean bed between this port and the Phoenix group Islands, thence to the Fiji, Australia, and New Zealand. The S. F. A. also gives what purports to be the instructions from the Navy Department to Captain Miller, which we copy:

"The following is an extract from the orders issued to Commander J. M. Miller, who commands the Tascapora: 'You will proceed to Oahu, thence to the Phoenix Islands (about 100 additional miles), making soundings at the usual distance apart, and wherever the bottom requires it, such additional soundings as may be necessary. You will make such observations of the Phoenix Islands and those adjacent as may seem advantageous for laying a cable cable. Thence you will proceed to Leeward Islands, making soundings as you may think advantageous, and thence to the Phoenix Islands, making soundings with a view to laying a telegraphic cable between those points.' It is further ordered that the Tascapora will be absent about 100 days."

Supreme Court—In Probate.

Late Foreign Items.

The ecologistical court has deposed the Bishop of Breslau. The Kaiserhof Hotel at Berlin has been burned Nov 21,000,000. Mr. Vialli the American Consul at Tripoli, has returned to that city. The Bombay Times reports a severe outbreak of cholera in the province of Mysore. A dispatch from Montevideo announces that Marshal Urquiza has been proclaimed there. Cardinal McCloskey has left Rome. Cardinal Franzini and others have departed from the Vatican, while Mons. Rosetti went as far as Civita Vecchia. The New York dispatch from Regens says 100,000 killed estimated that the Hereroes have lost 100,000 killed and wounded during the war. It declares that they now number 25,000, and are as dejected as ever.

A special to the Telegram from Vienna, says news has been received there from Vienna that the King of Saxony has been obliged to resign the office of the Ministry, and a dissolution of the Chambers is probable. Stanley's first letter from Africa was printed Nov. 10. He lost 125 men out of 300. They suffered great hardships, and were obliged to fight a portion of the way. They discovered new lands and new people. The greatest affliction was dysentery. A Paris special says a duel was fought with swords at Valenciennes, near Paris, between two young Americans, named respectively, 'Red' and 'Black'. The case was an old family feud. The result was that the 'Black' was wounded slightly in the arm. It is reported that the new Serbian Ministry has been formed, and that the members belong to the 'Young' party. A special dispatch to the Standard states that the Government have sent out a resolution of Prince Milan and rejected a motion for war by a vote of 62 to 21. A London special says letters have been received from Captain Alton Young and son of the officers of the United States Army, who were killed at the battle of Gettysburg, August 31. The boys were pleased. The parents could not sleep. They had some good news. There was some fighting on the 17th. The boys were well. Captain Young is greatly pleased for his kind and strict maintenance of discipline. In Virginia Bay they saw the 'Young' party.

Mail correspondence from Kingston, Jamaica, dated 10th inst., says the Bishop's message to the Emperor has a narrow escape from capture by the Spaniards off the coast of Cuba. Selling close in shore, under cover of the night, she was captured by the Spaniards, but was so close to the Spanish coast that they did not open her with rifles. Subsequently she was released by a Spanish war steamer, which carried her to the coast of Cuba, and she was released to the United States. The vessel was captured by the Spanish war steamer, which carried her to the coast of Cuba, and she was released to the United States. The vessel was captured by the Spanish war steamer, which carried her to the coast of Cuba, and she was released to the United States.

REPUBLICAN FRANCE.—Gambetta has issued a manifesto in which he declares that he is not approaching election with a great Republican majority. He speaks the system of Department voting, and says the labor of the future Assembly will be to reorganize the Republic, and to give to the State. He trusts that the era of political reconstruction will supersede, and then the participants in the Commune will be arrested. THE CATTLE DISEASE IN ENGLAND.—According to the latest returns the cattle disease has increased during the quarter ending October 31st, as follows: In Somersetshire, 25,200; in Devonshire, 15,400; in Dorsetshire, 12,800; in Wiltshire, 10,000; in Gloucestershire, 8,000; in Warwickshire, 6,000; in Northamptonshire, 4,000; in Leicestershire, 3,000; in Lincolnshire, 2,000; in Nottinghamshire, 1,000; in Derbyshire, 1,000; in Staffordshire, 1,000; in Shropshire, 1,000; in Cheshire, 1,000; in Lancashire, 1,000; in Yorkshire, 1,000; in Scotland, 1,000; in Ireland, 1,000; in the Channel Islands, 1,000; in the Isle of Man, 1,000; in the British Islands, 1,000; in the world, 1,000.
