HILO MEETS AND GREETS THE COMMISSION

Members Elaborately Entertained While On the Big Island.

Public Meetings Held at Which Addresses Are Made On Behalf of the Citizens.

Wednesday, August 24 was a memorable day for the residents of Hilo, on Hawaii. This day was made eventful by four important incidents. The first took place in the early morning, when the Claudine, carrying the Congressional commission, arrived from Maui. The second event was the appearance of the U. S. S. Philadelphia in the harbor of Hilo for the first time. The big cruiser arrived about noon with Admiral Miller and United States Minister Sewall on board. The third incident was the arrival of the Kinau, late in the afternoon with ex-Queen Liliuokalani and party. A large and enthusiastic mass meeting, which was addressed by members of the commission, closed a day which will be long remembered in the town of Hilo.

The Claudine left Kahului about dusk on the 23rd. A quick trip to Kona was made, where a portion of the party went on shore. The vessel soon resumed her journey and at daylight the next morning the steamer was skirting the green and fertile coast of Hamakua. Hilo was reached about 8 o'clock and after breakfast the members of the commission were transferred to shore and taken to the Hilo hotel under escort of a special committee of leading citizens. In a short time an excursion to the neighboring plantations was arranged for and at the same time the commissioners were invited to address the people in public meetings.

The arrangement of the program offered a breathing spell in the meantime the cruiser Philadelphia was rapidly nearing port. She dropped her anchors about noon and was soon visited by Senator Cullom, Congressman Hitt, Judge Frear, Attorney General Smith and Major Iaukea, who paid their respects to Admiral Miller and Minister Sewall. Later in the day, Mr. Sewall came on shore and called on Senator Morgan. Admiral Miller remained on board, kept there by an injured foot.

Later in the day the smart little Kinau came bowling along and came to anchor on the Waialea side of the harbor. The neighborhood along the shore and at the landing, was crowded with spectators of all nationalities. Newspaper correspondents were as thick as bees and kodaks were as plentiful. A desire to see the former ruler of the Hawaiian Islands was the cause of the gathering. Her arrival on shore was a picturesque one. Some Hawaiians built a platform and fastened it on two native canoes. This platform was decorated with leis and festoons. Four men manned each canoe. This improvised affair was paddled to the side of the steamer and the ex-Queen and her party were soon seated on the platform. The voyage to the landing was made without any signs of enthusiasm on the part of the Hawaiians. When Liliuokalani stepped on shore, she was greeted by a young Hawaiian woman, who placed a royal lei around the neck of her former queen. As the party drove off an Hawaiian proposed three cheers, which were given in a hearty manner.

THE MASS MEETING.
When the commissioners arrived at the hotel they were met by numerous citizens and greetings exchanged. Rev. S. L. Desha was introduced to Senator Morgan and in an interview the latter stated that it was the wish of the commissioners to meet the Hawaiians. John Richardson joined in the conversation and it was arranged to hold a meeting of Hawaiians at Hilo church at 3 p. m.

This meeting was confined exclusively to natives and addresses were made by S. L. Desha, John Richardson and others. The speakers spoke well of the United States commissioners and impressed those present with the importance of pressing their claims to a territorial form of government and full franchise for Hawaiians. The meeting was harmonious, and the audience listened with the greatest interest to the remarks delivered. They were asked to be present at the Hawaiian meeting to be held at the court house on Friday evening, where they would have an opportunity to hear the commissioners. The meeting at Spreckels hall in the evening was largely attended. Colonel Little acted as chairman and introduced the speakers. Senator Cullom first addressed the meeting.

He said: "An impression seems to exist in some localities where we have been on the islands that possibly this annexation was but a temporary measure, brought about as a result of the war. That is a great mistake, annexation is for all time. That man

or woman does not live on the earth that will ever see the time when the Hawaiian Islands and the balance of the United States will not be one. "We are now all on the same level, and it is a good thing to be a citizen of the United States, for to the furthest corners of the earth you will be protected by the American flag which floats over you.

"We have not come here to be cross examined nor to tell you what we want you to say. We came to say in a plain, blunt, sincere manner just what we are called upon to do. "Our duty under the statutes is to make such inquiries as we may be able, and report to Congress; and to be sure to make no mistakes we deemed it proper not only to visit Honolulu, where the records and officials are, but the other islands as well, especially the city of Hilo, where you have commerce and the most magnificent stretch of country I ever laid my eyes on in my life, for eighty miles by the shore here. And the government has also sent along the superintendent of the coast and geodetic survey, to find out what is necessary to be done to give you better facilities for shipping."

Congressman Hitt said: "I had great curiosity to see a gathering of people of our own race in this land, chiefly to see what they were when exported, and I think the American does not suffer by the exportation. I want to say to these people, a people whom I have long foreseen would be a part of us, we are glad to have your good will, and I consider it a fortunate thing the United States wished to annex these islands, but whether you wanted it or not it was inevitable as a decree of fate. Our present war showed us the necessity of possessing them. "I do not wonder that some men and women when they saw the symbol of their nationality changed, even for that of the Great Republic, saw it with moistened eyes.

"Annexation will be for the benefit of our people in a certain degree. With you it will make property more secure, for the prosperity of everything in these islands for twenty years has hung upon a vote that might be brought about by repealing the reciprocity treaty. The sap of life runs strong in the young American Republic; a little more than a hundred years old, and it stands among the loftiest on the face of the earth."

Additional speeches were made by Justice Frear, Attorney General Smith and S. L. Desha. Then C. A. Galbraith, a prominent citizen of Hawaii, made an address advocating local self government. Friday morning the commission and a party numbering fifty people in all, left for the Volcano. The ex-Queen and her party went along, but in a separate conveyance. The journey up the Volcano road was a hard one, on account of a severe rainstorm. A stop was made at Mountain View, where the commission was entertained by the planters of Olaa. After lunch the planters presented a petition praying that their lands be exempted from taxation until they commenced to bear. They also want a subsidized steamer line between Hilo and San Francisco, and ask that they be allowed to import Japanese laborers until coffee is placed on a paying basis.

When the Volcano house was reached it was raining hard and but few members of the party ventured into the crater. Just why the ex-Queen journeyed to the Volcano is not known. It was surmised that she wanted to see the members of the commission, and picked out the Volcano house as the best meeting place. Her plans did not carry. It is true that she met members of the party while having lunch at Mountain View. She was introduced to the commission, offering the services of Dr. English in case any member of the party was indisposed. The Queen and her party will leave for Honolulu on the Kinau, the same boat which carries the commissioners. Hilo will entertain the commission tonight. Elaborate preparations have been made and the function will take place Saturday, at the Hilo hotel. Previous to the reception, a mass meeting will be held for the Hawaiians, commencing at 6:30 o'clock.

The Kinau leaves Hilo tonight at 10 o'clock, and will sail around Hawaii. A stop will be made at Kailua, where the commission will address a meeting.

THE ALLIANCE ARRIVES

ARIZONA AND SCANDIA ARE NOW ON THE WAY.

Three Companies of the First New York on the Alliance—Brings Mail and Five Days Later News.

The steamship Alliance of the Johnson-Locke line arrived at 11:30 this morning and is docked at the Oceanic wharf. She left San Francisco at 4:30 p. m. on the 18th, bringing a mail and five days later papers. The Arizona was to have left early on the 20th and the Scandia on the 23rd or the 24th. These two vessels will bring the Third battalion of the Eighteenth and Twenty-third infantry, and recruits for the Oregon, Pennsylvania, Colorado and Nebraska regiments, in all 2,000 men. The Scandia will also bring the rest of the New York regiment comprising 300 men, under Lieutenant Colonel Stackpole.

On the Alliance are Companies F, G and H of the First New York, under command of Captain U. A. Ferguson. Chaplain Karl Swartz is on the Alliance, also Chief Surgeon Major Davis, who has order to establish a forty-bed hospital in Honolulu for which there is a complete outfit on board. Brigadier General Charles King, the detached officers and recruits of the regiments now in the field at Manila, and a large detachment of the hospital corps under Major W. H. Corbuser and Major E. R. Morris, surgeons, U. S. army, are on board the Arizona.

Everybody on the Alliance from the captain down is overjoyed to reach Honolulu ahead of the fast Arizona.

STOCK EXCHANGE.

A meeting of the charter members of the Honolulu Stock Exchange was held last night to elect officers. Colonel J. H. Fisher was chosen president, George A. Carter secretary and the Bank of Hawaii treasurer. Meetings of the exchange will be held Tuesdays, Thursdays and Saturdays, beginning September 1st. The limit of membership was made twelve. Five seats are unfilled. There were nine applicants for them. It was decided to give these seats to the highest bidders. Sealed bids will be received and opened Monday morning at 9 o'clock.

THEY BOTH QUIT.

MADRID, August 15.—The government has received from Captain General Blanco a dispatch tendering his resignation. The reason given by General Blanco for resigning is that he does not wish to superintend the evacuation of Cuba.

HONGKONG, August 17.—During the capture of Manila, some Spaniards hoisted a white flag. General Augusti immediately jumped into a German launch, which was in waiting, and went to the Kaiserin Augusta, which sailed before the bombardment was concluded.

GIANTS OF PATAGONIA.

The tribes to the east of the Cordilleras, in Southern Patagonia, belong to Arcaucan stock and are a superior race. The Tehuelches—as they call themselves—of southern and eastern Patagonia are the people whose unusual stature give rise to the fables of the early days to the effect that the natives of this region were giants, averaging nine or ten feet in height. It is a fact, says the Boston Transcript, that they are the tallest human beings in the world, the men averaging but slightly less than six feet, while individuals of four to six inches above that mark are not uncommon. They are in reality by no means savages, but somewhat civilized barbarians. They are almost unacquainted with the use of fire arms notwithstanding some contact with the whites, but they have plenty of horses and dogs.

Unsurpassed hunters, they capture the guanaco and the rhea, or South American ostrich, and from the skins of these and other animals they make cloths and coverings for their tents. They make beautiful "tompes" or "mantles" of furs and feathers, which are highly prized by Europeans and find a ready market, most of the proceeds being spent for bad whiskey, which is brought into the country in quantities.

LOSS TO THE ARMY.

The great disadvantage in going to war consists in the fact that the men who know just how a battle should be fought are unable to get away from home.—Boston Transcript.

ASSAULTED BY SEA AND LAND MANILA FALLS

Navy Under Dewey and Army Under Merritt Share the Glory.

Americans Lose Nine Killed and Forty Wounded and the Spaniards Six Hundred.

NEW YORK, August 16.—Before the news that peace negotiations were on foot could reach Admiral Dewey and General Merritt, Manila had capitulated to the Americans. The officers of the army and navy held a conference on board the Olympia on Friday, August 12th, and arranged to demand on the morrow that the city should capitulate, and if the demand was refused that a joint land and sea attack should be made at noon on Saturday.

Early Saturday morning under flag of truce Admiral Dewey sent the dispatch boat McCulloch with a formal demand to Captain General Augusti that the city should capitulate. The captain general peremptorily refused to listen to the demand. Signals were made to General Merritt that an attack would be begun at noon, as previously arranged, and promptly on the hour appointed the Olympia, Boston, Monterey and Charleston began to bombard the fortifications of the city and to drop shells into the city itself. The eight inch shells of the Olympia did great damage to the fortifications. Instantaneously with the arrival of the bombardment of the forts the American land forces advanced upon the city. This battle lasted for two hours, when a white flag was hoisted over the forts, which had been nearly destroyed. No serious damage was done to the city proper, although a number of buildings were blown up or burned. The fortifications however were almost demolished.

The Spanish commander, convinced that further resistance was hopeless, hoisted a white flag at 1:30, and orders to cease firing were immediately issued in the center of the town, but in the outskirts street fighting continued for some time afterward between rebels and Spaniards.

The Spanish intrenchments varied in point of distance from two to four miles from the center of old Manila. Defending this long line of at least ten miles were not over and probably under 5,000 Spanish regular troops, volunteers and natives.

The attacking force numbered from 10,000 to 20,000 natives and 10,000 Americans on shore and aboard the fleet. The American field guns threw heavier metal and had a longer range than the Spanish. The attacking squadron formed in line between Malate and old Manila, with the Concord watching the fort

at the mouth of the Pasig. The American fleet lay outside the breakwater. The Olympia fired the first shot at 9:40 and a fairly continuous, but by no means furious, cannonade was kept up until 11:20. By that time the Malate fort was silenced, and the American troops then stormed the entrenchments. The Spaniards say that the quick firing guns of the little gunboat Rapido which lay close to the shore, were far more terrible in their effect than the raking fire of the ships. Resistance to the American attack was impossible.

The American casualties were nine killed and fourteen wounded. The Spanish loss is estimated at from 120 to 600 killed and wounded. The Americans captured 11,000 prisoners, 7,000 being Spanish regulars; 20,000 Mauser rifles, 3,000 Remingtons, 18 modern cannon and many other canon of obsolete pattern.

The terms of the surrender of Manila may be briefly outlined as follows: An agreement for the capitulation of the Philippines and a provision for disarming the men who remain organized under the command of their officers, no parole being exacted.

Necessary supplies to be furnished from the captured treasury funds, any possible deficiency being made good by the Americans.

Safety of the lives and property of the Spanish soldiers and citizens to be guaranteed as far as possible.

The question of the transportation of troops to Spain to be referred to a decision of the Washington government, and of returning their arms to soldiers to be left to the discretion of General Merritt.

Banks and similar institutions to continue operations under existing regulations unless these are changed by the United States authorities.

Foreign firms in Manila have also agreed to urge the following considerations:

First—The expulsion of Franciscans, Dominicans and Augustines, who are the real cause of the rebellion.

Second—No independent republic.

Third—Spaniards, if they retain dominion, must pledge themselves not to hamper trade.

Fourth—That applications for concessions shall be quickly considered and not shelved for years.

Fifth—That freedom of religion be stipulated for.

KILLED AT MANILA.

HONGKONG, August 17.—The Astor battery last three men killed. Two Californians, Privates Dunsoupe and Lamerson, were fatally wounded.

MONADNOCK AT MANILA.

HONGKONG, August 16.—The United States monitor Monadnock, Captain Whiting, which left San Francisco about six weeks ago, has reached Manila safely, according to advices just brought by the Zafiro.

CORBETT'S FATHER.

SAN FRANCISCO, August 17.—The father of J. J. Corbett, the famous prize fighter, shot and instantly killed his wife, and then himself, while suffering from a fit of insanity.

HAY SECRETARY OF STATE.

LONDON, August 17.—United States Ambassador Hay said to an Associated Press correspondent today: "I have been offered and have accepted the post of Secretary of State. I shall leave London in about a month."

S. S. AUSTRALIA.

The Australia reached San Francisco August 17th, from Manila, via Japan. Third Officer Hallett was very sick when he reached port and was not expected to live.

THE PHILADELPHIA.

The Philadelphia arrived from Hawaii this morning.

DEATH OF A. FROMBERG.

A. Fromberg died at the Queen's hospital today. Mr. Fromberg met with a severe accident on the 23rd of June, 1896, has been at the hospital ever since and has been a very great sufferer. The Metropolitan Meat company, in whose employ Mr. Fromberg was, have paid all expenses since the accident. The funeral will take place tomorrow at 2 p. m. from H. H. Williams' undertaking parlors.

MRS. HATCH'S LUNCHEON.

A very pleasant luncheon was given yesterday by Mrs. F. M. Hatch to the ladies of the Congressional commission. There were present at the luncheon, Mrs. S. M. Cullom, Mrs. Hitt, Mrs. Ridgeley, Mrs. Dole, Mrs. Sewall, Mrs. Hayward, Mrs. S. M. Damon, Mrs. W. O. Smith, Mrs. Renjes, Mrs. James B. Castle and Mrs. Ballou. The decorations were golden shower, and were most artistically arranged. During the entire luncheon an orchestra of Hawaiians played native airs on the veranda. The music was especially admired by the visitors, who spoke of it most enthusiastically, both during the lunch and afterwards, at Mrs. Dole's reception.

LIZARDS FOR GERMANY.

By the next steamer to the coast a number of specimens of the little lizard which is seen about houses at night in these islands, will be sent to Germany. The request that they be sent came to Rev. Hans Isenberg from a distinguished scientist in Germany, who thinks that the definite determination of the species of these lizards may throw some light on the geological age of the Hawaiian group.

NEW OFFICE BUILDING.

A handsome new brick and stone building at the corner of King and Alakea streets is one of the possibilities of the near future. It will be a building for stores and offices and in the best modern style. Definite plans and arrangements have not yet been made, but the matter is under consideration.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by Benson, Smith & Co., wholesale agents for Hawaiian Islands. All druggists and dealers.

ORGANIZE FOR POLITICS

NEW NATIVE ASSOCIATION TO BE FORMED TODAY.

Native Ladies Taking Steps to Present Their Views on the Franchise to the Congressional Commission.

The meeting of natives called by S. K. Ka-ne may develop into a movement of considerable importance. It is proposed to form an entirely new political organization, designed to supersede or in any event to be independent of the other native societies having similar objects. The inception in the movement is S. K. Ka-ne, a leading native lawyer and member of the Council of State. With him are associated Hon. John L. Kaulukou, speaker of the last House of Representatives; J. M. Poepeo of the Hawaiian bar, and fifteen or twenty other native gentlemen of more or less prominence.

Asked to define the purposes of the organization, Mr. Ka-ne said: "In common with many others in what may be termed the educated class of Hawaiians, I have felt that the time has come to show that some of us at least appreciate the change that has come over Hawaii. The commission is here and ready for business. It is showing every desire to consult the wishes of the natives, and doing everything to make us feel that our interests will be properly looked after. Now is the chance of our lives to be heard. Upon the report of the commission the future of the Hawaiians will largely depend. Hence I have thought that those of us who claim to be leaders among the Hawaiians would be largely to blame if by our neglect the commissioners should leave the islands without thoroughly understanding how the Hawaiians feel.

"After consulting with some of those whose views coincide with mine, it has been decided to organize a new political association, having for its primary object the presentation of the views of the Hawaiian race to the commission in a concise and acceptable form and the ultimate object of advancing the political interests of the Hawaiians as a race under the new conditions.

"The meeting this afternoon is largely preliminary. We shall effect a temporary organization and appoint committees on constitution and by laws. We hope to be in permanent shape early next week and our executive committee will then consider the subjects to be presented to the commission and will be entrusted with their proper preparation. It is too early to give you a list of the topics we shall ask the commission to hear us on, as that has yet to be talked over and decided on after we effect our permanent organization. I can say however that the franchise will be the most important. After that we shall ask the commission to hear us on matters of local interest to our race, laws on the statute books affecting us, etc. We realize that the time of the commission is limited and for that reason we propose to discuss all these matters first in our own meetings and then through our executive committee to present them to the commission in a concise form and in as brief a time as possible."

A RECEPTION.

Mrs. Dole held a reception yesterday afternoon. A large number of people called, noticeable among them being the ladies of the Congressional party, and a number of strangers recently arrived, besides the usual attendance of citizens. President Dole was present and assisted Mrs. Dole in entertaining those who called.

COFFEE PLANTERS KICK

MEETING OF TAX APPEAL BOARD SITS IN HILO.

Dr. Russell Argues for the Olaa Planters and Wants a Precedent Established—May Go to Supreme Court.

At the meeting of the Tax Appeal Board on Monday, August 22nd, says the Hilo Tribune, the coffee planters who wished to object to what they believed was an unjust valuation appeared in person or through Dr. Russell, who acted as their attorney. U. C. Austin appeared for the assessors, Messrs. Russell, James, Peck, Sattay and others spoke at length stating their reasons against the valuation for taxation purposes made by the assessors.

The basis of the protest is the law which exempts coffee, coffee machinery and all improvements on coffee lands from taxation for a certain period. Upon this ground the planters claim that to tax upon a value above that originally paid by them or very much above that, is a distinct injustice. This notwithstanding the fact that the market value of the Olaa forest lands is as high if not higher than set by the assessors, for the cause of this increase of value is the work, improvements and success of the planters themselves, for all of which they have paid themselves in time, money and hardships, nor has the government assisted in this one iota. All the risk has been taken by the planter, and all improvement is due to him, and to tax the unimproved land is really but an indirect way of taxing the improvements themselves, and renders the law practically a dead letter. Although the financial interests at present involved are trifling, the principle is of the greatest importance and may involve much financially if the assessors continue from year to year to raise their estimates on unimproved land to correspond with the success met with on improved land. On the strength of this argument the Board of Appeals deducted 25 per cent from the assessors' valuation. This did not, however, seem satisfactory to the planters present either in itself or as a precedent for the future and Dr. Russell gave notice of an appeal. Whether the appeal will be perfected and carried up to the Supreme Court will be decided at a meeting of the coffee planters to be held in Olaa August 27th, at the residence of Dr. Russell; at the same time some other questions of general interest to the planters will be discussed, among them the formation of a coffee planters society.

EVENTS ON MAUI.

Colonel and Mrs. Parker Visit Halekaka—Social Notes.

Maui, August 25. Colonel Parker and party arrived from Hawaii, on Friday evening last, and are stopping at Maunaloa Seminary, Makawao. Monday under the guidance of C. H. Dickey they visited Halekaka, and spent most of Tuesday in the crater. They return to Honolulu on Saturday.

C. H. Dickey gave a very pleasant dancing party last evening at Haiku, the dining room and veranda being utilized for that purpose. The floors were comfortably filled with dancers, who kept up the enjoyment to the music of the piano until 10:30 o'clock when refreshments were served.

Frank Baldwin returned Tuesday from school in the states, and will enter plantation life at Pala. He will take John L. Fleming's place as time-keeper for three months during which time Mr. Fleming goes to Oregon for a vacation.

Walter Giffard, Jr., who has been quite ill for several weeks past at Paia hospital is improving slowly.

Miss Alice Jones came up Tuesday and is visiting Mrs. H. A. Baldwin at Hamakua. She returns home on Saturday.

SAMOAN COALING STATION

MODERN PLANT INSTALLED AT ONCE.

Money Comes Out of Appropriations For Naval Stations in the Pacific Intended for Pearl Harbor.

A late special to the Chicago Record says:

"The President has decided to make practical use of American rights at Pago Pago harbor, Samoa, and the establishment of a fully equipped naval coaling station there will be undertaken at once. With this view Civil Engineer Frank P. Chambers, now on duty at the New York navy yard, has been ordered to Washington for consultation with the authorities prior to departing next week, with official instructions and full power to carry out the important project. Pago Pago is the only harbor of any value in the Samoan group, and the one considered by naval officers of scarcely less strategic importance in the Pacific ocean than Pearl harbor, Hawaii. The decision to utilize the concession secured by Admiral Mead, twenty-five years ago, giving the United States permanent ownership of the harbor, indicates sufficiently the administration's appreciation of the vastly extended sphere of American interests in the Pacific. It is the inauguration of a great naval and commercial policy in that direction, due in a great measure to the responsibilities incurred in Asiatic waters.

"Few details have been disclosed regarding the maintaining of a naval establishment at Samoa. It is known however, that Civil Engineer Chambers will estimate for the benefit of congress the appropriations essential to the making of a first-rate naval base at Pago Pago. In the meantime, he will superintend the construction of a wharf, with an outfit of automatic coaling machinery, similar to the modern plant now being installed at Dry Tortugas. This preliminary work is rendered possible through two appropriations heretofore made by congress for naval stations in the Pacific, which provide a balance of \$250,000 immediately available. One of these amounting to \$200,000, remains out of an appropriation of recent date specifying no particular locality for its expenditure, although at the time it was understood to be intended for the preliminary improvement of Pearl harbor, Hawaii now being United States territory and sure of elaborate improvement and forts in time, can wait, it is thought, while the urgency at Samoa is imperative.

"Another \$50,000 remains unexpended in the sum of three times that amount that was placed at the disposal of the executive more than fifteen years ago. Out of the latter appropriation 3,000 ton of coal were sent in a schooner from Philadelphia and landed at Pago Pago, where sheds were built over it. Most of this fuel has already been used by American warships. On account of the difficulty of transporting it from the shore to the ships by means of small lighters, however, the locality was not popular with naval officers as a base of supplies, although every official report from the commanders visiting the harbor was enthusiastic in recommendation of its improvement and maintenance by the United States.

"The great advantages to be gained by possession of this station are evident from a glance at the map of the Pacific ocean. It is situated exactly 4,160 miles from San Francisco and 4,000 miles from Yokohama, the distance between Yokohama and San Francisco being 4,819 miles. Pago Pago is 2,268 miles from Honolulu, the latter American port being just about the same distance from San Francisco. The island of Guam, in the Ladrones is barely 3,000 miles away. It is understood that one or more American gunboats now on duty in Cuban waters will start for Samoa as soon as the blockade is raised, going by way of Cape Horn and will display the American flag there until released by other vessels. These gunboats were built specially for duty in the Pacific but were detained on the Eastern coast of the United States when the war began. One of them, the Helena, accompanied the Oregon on her famous cruise from California to Cuba, and will probably be the first to reach Samoa."

THE ARTIST'S IDEAL.

The artist's ideal is 5 feet 6 inches high. Her bust measures 32 inches and her hips 32 inches. Her waist would discourage any member of the corseted sisterhood, for it is 26 inches around. The weight is 130 pounds. These are the measurements which are considered proper for statues. The English ideal is 5 feet 5 inches in height. She weighs 120 pounds; her waist measures 20 inches and her bust 26. Her hips are 38 inches in measurement. The New York ideal is 5 feet 5 1/2 inches tall. Her bust measurement is 30 1/2 inches. Her weight is 126 pounds. The accepted California girl shows: Height, 5 feet 6 1/2 inches; bust, 35 inches; hips, 35 inches; waist, 24 inches; weight, 130 pounds.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea, accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. BOGGS, Stumptown, Gilmer Co., W. Va. Made From Hawaiian Fruit.

The Guava, like the Mango, a fruit which furnishes food for many a people throughout all tropical countries, possesses medicinal virtues which are certainly beneficial.

Guava

Within our shores we grow a bountiful supply of these fruits, and as their value is well known the introduction of the name is sufficient to insure the endorsement of most all who have indulged in eating the fruit.

Cordial

We have prepared a Cordial from the fruit of the Guava which cannot be surpassed for correcting bowel troubles. A sure panacea for dysentery and summer complaint. Safe to administer to children. The taste is quite pleasant.

Corrects.

Most bowel correctants produce unsatisfactory results on account of their constipating tendency. Guava Cordial will not constipate.

At the Chicago Cycle Show in 1897, each visitor on entering the show was handed a coupon reading as below:

"After viewing the exhibits, kindly fill in the name of the Bicycle which pleases you best as regards beauty and mechanical merit, and deposit the coupon in ballot box near exits."

"Name of Bicycle....." The "SHIRK" received 17,489 ballots against 12,377, the next highest. When it is known that all the leading makes of wheels in the United States were on exhibition at this show the above speaks for itself. The Honolulu Bicycle Company have secured the agency for this elegant high grade wheel. It will interest you to call and see it.

SATURDAY, AUGUST 27, 1898.

The officers of the Honolulu Stock Board are sound, conservative men, and will inspire confidence in the stability of the newly organized body. The organization of the Board is one of the most progressive steps made on the Islands. With the cable, which we may expect soon, the business of the Board will increase considerably.

A Hilo paper jumps a little too quickly, and gives vent to a howl that the Congressional committee will neglect the other Islands. As a fact the commissioners have set out to inform themselves about outside conditions as soon as it was possible after organization, and it is the well known intention of the Federal government to make improvements of great value in Hilo bay. But there are always people who will growl even if you feed them on truffles and champagne.

Of course cables will come thick and fast now, the Australian and Canadian line is on the tapis as a recent telegram shows. There was a conference this month between Lord Strathcona and Mount Royal, Mr. Mulock and some Australian gentlemen with regard to it. During the conference it was elicited that there was now a strong majority in the Canadian parliament in favor of the scheme. But we, of the Islands, need no longer go cap in hand begging for a branch line to this scheme; we shall have a direct line to the mainland within a year, and will then be in touch with the whole world.

The formation of the new plantation at Waiakua is one of the most important commercial transactions that has occurred in the history of the Islands. It is not only that the scheme is excellent from a commercial point of view, but there is another side. The scheme of J. B. Atherton to divide up the lands on the plateau above Waiakua, where upwards of three thousand families can locate upon small farms and establish pleasant homes, in an excellent climate, with an abundant water supply, and with the further opportunity of obtaining work upon the plantation, should they wish it, is one which commends itself as an eminently practical one to the economist. With its numerous plantations, and its many minor industries, with its abundant water supply and its almost entire lack of waste land, with its excellent harbors and bays, Oahu bids fair to hold its position as the foremost Island in the group.

It can now be clearly seen how unwise those were who advocated that the Hawaiian flag should be raised on one of the minor flagstaves when Old Glory was unfurled to the breeze. The Hawaiian would never have understood the matter. A flag is after all a symbol, it is the symbolic representation of a nation. The Hawaiians ceased as a nation, but they entered upon a larger national birthright. The Union Jack floats alone in every part of the British dominions, and Old Glory will float alone in every part of the Union. Thank heaven, we can now claim as being part and parcel of the Union.

"FOREVER AND A DAY."

Senator Cullom struck a keynote on Maui the other day, and the vibrations of it will be heard in the remotest parts of the group. It has settled once and for all a question which was bothering some of the Hawaiians and which was fortunately asked. The answer was sharp and decisive. President Keanu of one of the Hawaiian societies asked, "Is annexation to be a lasting union or for a time only?" The answer came like a trumpet call: "Just so long as the American Union shall endure as a nation; just so long as the American flag waves, the Hawaiian Islands will be a part of the United States."

The Hawaiian has been constantly and deliberately misled by his self-interested leaders. Instead of being taught by them to accept the manifest political destiny which had to come, he has been cajoled and fooled by men of his own race and by the royalist adventurers of an alien race. And even when the event had really happened, when the logic of events had been carried out, these false

friends who had misled him, were ready, and are ready now, to urge him into a belief that annexation is but temporary, and that there is a chance of restoration. This Senator Cullom's words have blown to the winds. They were ringing words, they were timely words, and above all they were kindly words.

That the Hawaiian should have the idea that the raising of the Stars and Stripes is not a permanent measure is not to be wondered at. He saw them go up in 1893 and he saw them come down after floating above the government building for two months. He has been carefully taught that ex-President Cleveland wanted to restore the ex-Queen. He has never quite understood how it was he failed to do it, he has never appreciated that Mr. Cleveland's action was a ruse and that the mistaken politician dared not do by sheer bluff. The Hawaiian has been fed on false information. The royalist papers have been filled with translations of articles written by mugwumps, by hysterical old ladies who visited the ex-Queen during her stay in the United States, and by that inveterate little creature, Julius Palmer. Other statements were before the Hawaiian eyes, but they were not believed. It was difficult to cast off the trammels of ages of subservience entirely. A Kamehameha it was argued would always tell the truth, why should not the person who sat in the seat of the Kamehamehas not act as they would.

The brightest and most advanced Hawaiians understood. Some of the old men like Senator Kauhane understood and joined the ranks of the annexationists, but there were many who did not understand, and in spite of events still failed to understand. Interested people were circulating stories among them, mischievous, lying stories, which the circulators knew could bring about no good, but were made up to do the Hawaiians harm, and to cause a false impression to be given to the members of the Congressional commission. Like clouds before the beams of the morning sun these falsehoods have melted away before the words of Senator Cullom. There is no mistake about their meaning, the Islands are annexed "for ever and a day" as the old ballad has it. And to this incisive statement the kindly hearted Senator added the very best of advice. "It is now the duty of the Hawaiian people to rally round the flag, the same as the people of the mainland." We are a part of the United States, the Stars and Stripes under whose protecting folds abides liberty in its highest and most beautiful form, is our flag, and we, who were Hawaiian citizens are now citizens of the United States, the equals of the greatest states in the world.

THERE IS A STATUE

Inside of every block of marble, but only a artist can release it. On the same principle it required skill and patience to extract from cod liver oil its curative and fish-building properties, leaving out the bad odor and nauseous, disgusting taste. In

WAMPOLE'S

PREPARATION,
this is done. It is made from Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark. Search the world over and you will find nothing so pure and effective. Children who protest with cries and struggles against "That nasty cod liver oil," and other nauseous medicines, take the preparation as they would take compound syrup. So much for its superior quality. As a remedy there is life and health in every dose. For Nursing Mothers, Invalids and Convalescents, it acts every way. It expels disease germs from the blood on modern scientific principles. Twelve pounds in weight have been gained from a single bottle. Taken before meals it gives you an appetite and makes your food do you good. For Anemia, Scrofula, Rheumatism, Bowel Complaints, Blood Impurities, etc., it has no rival; its merit is wholly its own. It is not a petrified relic of the Medical Dark Ages. It was made to cure and it sells because it cures. You cannot be disappointed in it. Sold by all chemists.

HIS HANDS WERE TIED.
"Our little boy broke out with eczema. We were obliged to tie his hands to keep him from scratching, and he suffered everything. We began giving him Hood's Sarsaparilla, and in a short time his face healed. He took five or six bottles and has not had a sick day since." Olney Soucie, Pioneerville, Idaho.

HOOD'S PILLS are the only pills to take with Hood's Sarsaparilla. Easy and yet efficient.

UNCLE SAM

It is said, will take more care in providing room, comfort and good feed for the horses he will send to the Philippines than he does for the privates.

This is because they cannot take care of themselves. A good horse is faithful to you and you should be faithful to him, by giving him good, wholesome food, regularly.

MAUIANS EXTEND GREETING

WELCOME THE CONGRESSIONAL COMMISSION.

They Accept the Invitation to Ask Questions Which are Replied to Fully and Thoroughly.

Maui, August 25.
It was a pleasure to have seen and heard the commissioners if only for a moment. From the time they arrived at Kahului early Tuesday morning, to the time they left in the evening, they were kept steadily on the go. Breakfast was taken at Judge Kalua's and a meeting in the court house, Wailuku, was held at 9 a. m. This meeting was very largely attended by all sides of the question, and W. R. Keenu, president of the Aloha Aina of Maui, addressed many questions to the commissioners.

Senator Cullom, Representative Hitt and Judge Frear, addressed the audience, and were very well received and loudly applauded. Senator Morgan was obliged to remain quiet at Judge Kalua's all day, and it was a keen disappointment to everybody not to have seen and heard him.

At noon the party left Wailuku in a special train for Paia, and lunched with Hon. H. P. Baldwin at Haiku. At 3 o'clock another largely attended meeting was held in the Paia Foreign church, and the three commissioners present spoke to an audience of which a great part were royalists. Their remarks were concise and to the point and created a very favorable impression. Judge Kalua again made an eloquent address to the natives. On motion of Senator Cullom a vote of thanks was extended to Attorney General W. O. Smith for his kindness in acting as interpreter, and his general assistance to the commission. Rev. E. G. Beckwith, in a few well chosen words, thanked the commission for coming, and moved a vote of thanks to President McKinley for sending such able men, and to the American people for taking us in, which was enthusiastically carried. The meeting ended by singing "America," all standing.

Makawao's fair ladies turned out en masse, and the meeting was most thoroughly enjoyed by all present. But they all wish to express their regret to Senator Morgan that he was not able to be present.

The party went direct from the church to the train, and aboard the steamer for Hilo.

During the day the Stars and Stripes were generally floated throughout the Island. It is regretted that the commissioners could not spend more time on the Island, and see something of it.

TROOPER ARRIVES.
The S. S. Alliance, United States troopship, arrived at midday from San Francisco. She brings the remainder of the New York regiment for garrison duty and also the band. Her cargo consists of stores for the garrison. She is consigned to Grinbaum & Co.

THE POWDER MAGAZINE.

The powder magazine will not be located on the new beach road by any means. It will be placed out in the ocean at a spot opposite Kakaako at least 600 feet from the shore and a considerable distance from the road. Superintendent Rowell has not yet decided of what material to build it. He is averse to using brick because in case of an explosion each separate brick would become a dangerous missile.

THE BEST REMEDY FOR FLUX.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." For sale by Benson, Smith & Co., wholesale agents for Hawaiian Islands. All druggists and dealers.

FRESH IMPORTS.

By the S. S. Mariposa, Camarinos received cherries, rhubarb, asparagus, celery, cauliflower, fresh salmon, crabs, flounders, oysters (in tins and shell), apples, grapes, figs, lemons, Burbank potatoes, pure olive oil, dried fruit, new crop of nuts, raisins, etc. California Fruit Market, King street.

Hood's

Cure Liver Ills Pills

Hood's Pills are as peculiar and as pleasant, in comparison with all others, as is Hood's Sarsaparilla.

To compound a pill which shall be pleasant to take, shall not be done with what by age becomes insipid, and which shall be just that mild stimulant to the liver and bowels which shall impel Nature to restore her disordered functions—that is the problem for the pharmacist.

It is easy to purge, but that is not what is wanted. To purge out sure and un-

CURE

disturbing catarrh will set Nature to going, and relieve the head, the stomach, the liver and all the organs of the body from the evils of a clogged drainage.

The Liver is the gateway between the stomach and the organs which the stomach purveys for. Stop up the gate and death quickly ensues. Burden it with obstructions and a thousand ills result.

Hood's Pills CURE Liver Ills, sick headache, biliousness, indigestion, nausea, constipation, without purging, without pain, without violence.

Everybody at sometime needs them. Everybody should keep them on hand at all times for emergencies.

Liver Ills

Hood's Pills are sold by all druggists, 25 cents. Sent by mail on receipt of price, by C. I. Hood & Co., Lowell, Mass., U.S.A.

Hawaiian Electric Company.

The cleanest, brightest, safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind what you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers

WHY SPAIN DEGENERATES

COLD STATISTICS SHOW THE REAL REASON.

Professional Beggars, Monks, Nuns And Illiterates Run Into the Millions.

The Philadelphia Commercial Museum has compiled from the official figures of Spain a few deductions tending to show reasons for the deplorable condition of that country. The population of the country is estimated at 18,000,000, and half of this number have no employment.

According to the census, 8,726,519 have declared to have no trade or profession, and of these 6,764,406 are women. The agricultural census is the largest and is composed of 4,033,291 men; while 828,531 women work in the fields.

The total number of persons unable to read or write is estimated at 6,104,470, of which 3,417,855 are men. The schools of the country are attended by 1,728,920 pupils of both sexes, for whose instruction there are 39,528 teachers, 24,624 of whom are men.

Comparing the degree of illiteracy with the opportunities offered by such a large corps of instructors, the Commercial Museum argues that the country should show a higher degree of education.

The following table is also appended, showing the number of persons engaged in other pursuits:

Number of public employes, 97,257; number of pensioners, 64,000; physicians, male, 39,477; female, 78; writers, 1,171; female writers, 32; actors and actresses, 3,497; male servants, 3,497; female servants, 319,506; professional beggars, male, 39,279; professional beggars, female, 51,948; priests and monks, including the dignitaries, 43,328; nuns, 48,449.

RICHEST WOMAN.

The richest woman in the world is probably Senora Cousino, who owns most of the copper mines in Chili and Peru. She is supposed to be worth £20,000,000, while her annual income is believed to reach £1,600,000. Her personal characteristics are thus summed up: "She is about 55 years old, tall, dark, and still beautiful."

EMPRESS OF JAPAN.

The Empress of Japan takes a great interest in all that concerns the nation, from the rice crops upward. Her Majesty is said to have a special talent for literature. A pretty poem of hers set to music is sung all over the land.

MILITARY STATURE.

Those who declare the British army is going to the dogs, and that the physique of our soldiers is not what it once was, must change their opinion, says the London Daily Telegraph, when they hear of the stature of cadets at Woolwich and Sandhurst. The Military Board of visitors declare, indeed, that the average height of the budding officer at the first mentioned place is 5 feet 9 inches, and of those at Sandhurst 5 feet 9 3/4 inches. Not unnaturally the visitors have in their formal report expressed their great satisfaction with the physique and build of the cadets.

ALMA-TADEMA.

One of the most remarkable features of the luxurious London home of Alma-Tadema R. A., is a wall paneled with pictures, each by a different painter. Lord Leighton, George H. Boughton, John S. Sargent, and P. H. Calderon are among the artist's famous friends who have contributed to its embellishment.

MAKING A DESERT BLOOM.

No fewer than 12,000,000 acres of land have been made fruitful in the Sahara Desert, an enterprise representing perhaps the most remarkable example of irrigation by means of artesian wells which can anywhere be found.

NO AUSTRIAN COLONIES.

Austria is the only empire in the world which has never had colonies or even transmarine possessions in any quarter of the earth. Her ambition has hitherto been purely continental.

A BLACKSMITH'S STORY.

He Became so Run Down That Work was Almost Impossible—His Whole Body Racked With Pain.

From the Bridgewater Enterprise: Mr. Austin Fancy is a well known blacksmith living at Baker settlement, a hamlet about ten miles from Bridgewater, N. S. Mr. Fancy is well known in the locality in which he lives. He is another of the legion whose restoration to health adds to the popularity of Dr. Williams' Pink Pills. Mr. Fancy related his story of illness and renewed health to a reporter of the Enterprise as follows: "During the last winter, owing I suppose to overwork and impure blood, I became very much reduced in flesh, and had severe pains in the muscles all over my body. I felt tired all the time, had no appetite, and often felt so low spirited that I wished myself in the other world. Some of the time necessity compelled me to undertake a little work in my blacksmith shop, but I was not fit for it, and after doing the job would have to lie down; indeed I often felt like fainting. I was advised to try Dr. Williams' Pink Pills, and after using a couple of boxes, I felt a decided relief. The pains began to abate, and I felt again as though life was not all dreariness. By the time I had used six boxes I was as well as ever, and able to do a hard day's work at the forge without fatigue, and those who know anything about a blacksmith's work will know what this means. Those who are not well, will make no mistake in looking for health through the medium of Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."
