ESCAPED FROM WHERE?

Where did Henry Vierra escape from? Last evening's Bulletin had a glaring head-line that "Vierra Escapes," but fails to state where from, how and why, other than the bare statement that nolle prosequis had been entered in the cases of embezzlement he was charged with. We are given to understand that Vierra's attorney wanted to go to trial, but that County Attorney Douthitt would not, saying that there was no evidence against him, and for that reason he entered the nolle prosequis. Vierra and his attorney were both confident of winning the cases and they very much desired to be honorably tried and acquitted, but that being denied them, the other followed in consequence. It was just as we had expected long ago, a game merely to beamirch one as a means of favoring others. Attorney General Andrews has again failed to blacken another.

Much talk is being bandied about that the Elks Baseball team are a lot of bad and poor losers. And so say we; in fact, all and everybody say so and are still saying so.

When the National Guardsmen return from Seagirt they will doubtless have all sorts of excuses to make for their failure. The best excuse, however, will be that the other fellows outshot them. It was a case of too many shoulder straps.

The discussion between Douthitt and Trent looks like a case of the county attorney seeking an opinion from the treasurer, when the opinion was to be expected from the former. It looks like a case of "I don't know what to do; you tell me."

New Zealand must surely be drifting toward the ideals and systems of the Republican party. Although professing to have the best government on earth, there has lately dropped up enough grafting and reascality in it to make Washington uneasy as to its laurels in that line.

From the Garden Island the information is gleaned that the County of Maui will join Kauai in its fight for what it terms "the counties' rights," i.e., with regard to the collection of income tax. This is, indeed, news, and THE INDEPENDENT hopes they will—, hardly ever, in the sweet by and bye. Go it, boys!

That was a very charming, poetical appellation the President applied to the Governor. His Hawaiian sensitive plant. The one reminds you of the other just because they are so unlike. The Mimosa always shuts up when it is touched, but you touch the Governor and you will see him open up.—The Garden Island.

The Porto Rican girl who had her best fellow fined in the district court yesterday for biting her may have done an injustice to an ardent lover. Judging from the circumstances of the case, as brought out in the evidence, the young man probably loved the girl well enough to eat her and had started out to demonstrate the fact.

D H Case, of Wailuku, has volunteered to assist J D Willard in Kauai's contest case relating to income taxes. Surely "that do settle it." Oahu can never stand a legal assault by such eminent talent as that. The halo arising from the genius embodied in this combination would be enough to dazzle and hypnotize any Supreme Court on earth.

Honolulu didn't even get a mention in the Seagirt scores. There's yet a chance of laurels for them, however, in "eyeing" the pig on the voyage home. There is a rumor that the team will compete for the croquet championship on their return to Hawaii.—Advertiser.

Or, Sam Johnson might train them in the important art of garbage gathering and then challenge the world.

A policy that will ensure the

throwing open of public lands on all the Islands to small homesteaders will settle the labor problem quicker than anything else. It will provide all the islands ample labor and of a kind that will be permanent. Such a scheme would be infinitely better than bringing in riff-raff jail fillers from Europe and Porto Rico.

They are now talking of sending Jim Castle to Europe to enlist laborers for the plantations. It might be a good idea. His splendid figure, offset by a fiery beard would command attention anywhere; besides that, he has the finest snort in the country. Of course he has no other qualifications, but surely those mentioned should "set 'em comin' "

Percy M Pond may have been indiscreet in selling his tuberculous cows to a country rancher, but there was plainly no intent to evade the law in the transaction. The rancher knew what he was buying, and had the means of segregating the animals in such way that they would not be a menace to other cattle. Just what the rancher intended to do with the sick milkers is not clear, but that does not enter into the case anyhow.

The idea that the Japanese may start a revolution of their own on account of dissatisfaction with the terms of peace is extremely far fetched. To the Japanese mind the Mikado is a semi-god, and while the irresponsible element may be making a great howl, the conservative mass, it may be depended upon, accepts the will and course of their ruler. There is no more danger of trouble than ordinarily accompanies the process of settling down after a great war.

Kauai is all in a sweat because the Treasurer has licensed saloons in places where, it is claimed, they were not wanted. How would it do, say how, for the Legislature to turn the liquor business over to the counties, the county treasurer handling the licenses in the same way as the Territorial treasurer is now doing? Such a plan would be a distinct approach toward local option, which is always desirable. Oahu would not suffer by it and we believe the outside islands would be better satisfied with such a system.

American papers are still trying to lay the blame for the Bennington disaster upon the shoulders of Ensign Wade. In so doing they are merely following the lead of naval officers who have, from the first, tried to make a scape goat of the young man in order to defend Commander Lucien Young. It is true that Wade was in charge of the boilers, but it is a notorious fact that he and other officers reported to Lucien Young repeatedly that the boilers were defective. That is as far as his duty extended and as far as he could go under naval regulations. Commander Young is the

The Secret of Health

The health of the whole body depends upon the blood and nerves. Therefore the medicine that expels impurities from the blood and supplies the necessary materials for rapidly rebuilding wasted nerve tissues, reaches the root of many serious diseases. It is these virtues that have given

Dr. Williams' Pink Pills for Pale People

their wonderful power to conquer disease, and caused the miraculous cures that have startled the scientific world. Thousands of cases have demonstrated that this remedy is an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Frank Tucker, is a prominent farmer, of Versailles, Indiana. His daughter, Lucy, is now fifteen years old; three years ago she began ailing. The rosy color in her cheeks gave way to a paleness, and she became rapidly thin. As she grew weaker she became the victim of nervous prostration. Most of the time she was confined to the bed and was almost on the verge of going into St. Vitus' dance. "Finally the doctor told us to give her Dr. Williams' Pink Pills for Pale People. Said he was treating a similar case with them and they were curing the patient. We began giving the pills at once, and the next day we could see a change for the better in her. The doctor told us to keep giving her the medicine. We gave her one pill after each meal until she was well. We began giving her the medicine last August, and she took the last dose in October, having used eight boxes. She is now entirely well and has not been sick a day since. We think the cure almost miraculous." FRANK TUCKER, Mrs. FRANK TUCKER. HUGH JOHNSON, Justice of the Peace, Versailles, Indiana, April 23rd, 1897.—From the Republican, Versailles, Ind. Dr. Williams' Pink Pills for Pale People are sold by all druggists or sent, postpaid, by the Dr. Williams' Medicine Co., Schenectady, N. Y., on receipt of price, 50 cents per box, 6 boxes, \$2.50.

man responsible for the catastrophe, and if he gets out of it it will be a plain case of white washing.
