PHILADELPHIA ARRIVES

MADE THE RUN DOWN IN SIX DAYS AND TWENTY HOURS.

The Admiral to Confer with Minister Sewall About Time for Raising the Flag—List of Officers.

The Philadelphia, bearing Admiral Miller, arrived at noon. The Admiral has orders to confer with Minister Sewall. Until after this conference, there will be nothing definite decided as to the flag raising program.

Minister Sewall has received the instructions of his government in regard to the flag raising, but until after he has had a conference with Admiral Miller and perhaps the Hawaiian government, he will make no announcements regarding it. These will probably be made some time tomorrow.

The Philadelphia was sighted at 10:35 this morning and at 12:30 she was anchored in Naval Row. The cruiser came down in the rattling good time of 6 days and 20 hours, having left San Francisco at 4 p. m. By the courtesy of Admiral Miller, The Star was furnished with complete files of San Francisco papers, while Lieutenant Andrews, his flag secretary, furnished the correct list of officers as follows:

Rear Admiral J. N. Miller, commander in chief; Lieutenant A. C. Winterhalter, flag lieutenant; Lieutenant Philip Andrews, flag secretary; Captain C. H. Wadleigh, commanding; Lieutenant Commander T. H. Stevens, executive officer; Lieutenant P. V. Lansdale, navigator; Lieutenants C. W. Brown, H. A. Field, T. H. Brown; Ensigns D. F. Sellers, J. R. Monaghan; Medical Inspector Dwight Dickinson, fleet surgeon; Passed Assistant Surgeon G. A. Lung, Assistant Surgeon H. E. Odell, Paymaster J. R. Stanton, Chief Engineer A. C. Engard, fleet engineer; Passed Assistant Engineers W. W. Bush and C. A. McAllister, Assistant Engineers T. W. Clarke, N. K. Davis, J. R. Seifried; Lieutenant of Marines C. M. Perkins, fleet marine officer; Boatswain J. S. Croghan, Carpenter J. A. Barton, Fleet Pay Clerk J. J. Doyle, Pay Clerk O. G. Haskett, Naval Cadet R. Morris, Chaplain A. A. McAllister.

Assistant Surgeon Orvis also came down on the Philadelphia to join the Mohican. The Philadelphia is a twin screw steel cruiser of 4,300 tons displacement, with protective deck, and with two wooden masts fitted for fore and aft sails.

The main battery consists of twelve 6 inch B. L. R., and the secondary battery of four 6 pounders, four 3 pounders, two 1 pounders, three 37 Mm., four long Gatlings, one 3 inch R. F. gun and field carriage, two Colt automatic 6 Mm. (not mounted). The vessel was built by Cramp & Sons, of Philadelphia, at a cost of \$1,350,000, without armament, and was launched September 7, 1889. The complement is about 380 officers and men.

The ship is fitted with electric lights, four search lights, and has 94 water tight compartments. The following are some of the principal dimensions and data: Length, extreme, 335 feet. Length, between perpendiculars, 315 feet. Beam, extreme, 48 feet 6 inches. Draft, 23 feet 6 inches, forward. Draft, 22 feet, aft.

BOARD OF HEALTH. Reports and routine matters occupied the Board of Health yesterday afternoon. Dr. Kokaku, the Yokohama agent of the board, reported that the sanitary condition of Japan was unusually good, although there were cases of the plague in Formosa. Dr. Jordan at Hongkong reported the plague diminishing, there being only 36 cases with 32 deaths in three weeks prior to writing. Matters at the leper settlement brought on the usual prolonged discussion.

SPAIN SUES FOR PEACE

FRENCH AMBASSADOR VISITS McKINLEY.

Dons are the Under Dog—Want to Save What Fat Out of the Fire They Can.

WASHINGTON, July 26.—The Spanish government has sued for peace by direct appeal to President McKinley. The proposition was formally submitted to the President at 3 o'clock this afternoon by the French Ambassador, M. Jules Cambon, who had received instructions from the Foreign Office at Paris to deliver to the United States government the tender of a peace formulated by the Spanish cabinet.

The following official statement was issued from the White House: "The French Ambassador, on behalf of the government of Spain, and by direction of the Spanish Minister of Foreign Affairs, presented to the President this afternoon at the White House, a message from the Spanish government looking to the termination of the war and the settlement of terms of peace."

This was the only official statement made public, but it sufficed to put at rest all conjecture, and to make it clear and definite that at last Spain had taken the initiative toward peace. Shortly before midnight last night a dispatch to the French Embassy made it known that the Ambassador would be charged with the important mission of opening peace negotiations in behalf of Spain.

The complete instructions including an official letter from Duke Almodovar de Rio, Spanish Minister of Foreign Affairs, were received this morning. WASHINGTON, July 27.—What terms will be offered by the two sides is largely a matter of guess work, notwithstanding the fact that many rumors are in circulation. It is said that Spain will agree with little protest to the independence of Cuba under an American protectorate, and to the surrender of Porto Rico, but will not consent to giving up the Philippines. The United States, it is conceded, will insist on Spain surrendering Cuba and Porto Rico, and may also refuse to return the Philippines and other Pacific Islands. Various members of Congress, notably Senator Morgan, are bitterly opposed to surrendering the Philippines to the Spaniards.

MADRID, July 27.—It is reported that the government will protest to the powers against the continuance of the landing of troops in Porto Rico by the Americans after Spain has sued for peace.

POWERS WILL OPPOSE. LONDON, July 27.—The Madrid correspondent of the Daily Mail says, "The result of the protracted negotiations initiated by Germany is that the powers have arrived at a formal agreement to oppose American annexation of the Philippines, which must remain Spanish."

HAS MANILA SURRENDERED? MADRID, July 26.—It is rumored here that Manila has surrendered to the Americans. The Government believes the town has been bombarded by American warships and it was concurrently attacked by 12,000 Americans and 20,000 rebels.

VICTORY IN PORTO RICO. ST. THOMAS, July 26, 9:30 p. m.—To the Secretary of War, Washington: Circumstances were such that I deemed it advisable to take the harbor of Guanica first, 15 miles west of Ponce, which was successfully accomplished between daylight and 11 o'clock. The Spaniards were surprised. The Gloucester Commander Wainwright first entered the harbor, met with slight resistance and fired a few shots. All the transports are now in the harbor and the infantry and artillery are rapidly going ashore. This is a well protected harbor. The water is sufficiently deep for all transports and heavy vessels to anchor within two hundred yards of shore. The Spanish flag was lowered and the American flag raised at 11 o'clock today. Captain Higginson with his fleet has rendered able and earnest assistance. The troops are in good health and the best of spirits. No casualties.

RED CROSS GIFTS AWRY

CONTRIBUTIONS TO THE SOLDIER BOYS THROWN INTO THE SEA.

Dons by Order of the Officers on the Puebla—Ship was Searched for Them This Morning.

A quantity of fruit and delicacies, contributed by the Red Cross Society, for the enlisted men on board the City of Puebla, was thrown overboard this morning. Fruit and delicacies purchased by the soldiers themselves or given by individuals, shared the same fate.

Orders were given on the Puebla last night that no fruit, vegetables, delicacies or bundles of any sort, except laundry, should be brought on board for the enlisted men. But prior to this order some of these contraband articles had been brought aboard, and during the night considerable more was smuggled in.

This morning a search of the enlisted men's quarters was ordered. It was conducted by the company officers, and whatever was found contraband of last night's order was confiscated by direction of the officers. It seems not to have occurred to them that if military regulations precluded its being retained by the men, it might have been turned over to the Red Cross or some other agency which could have made good use of it.

In one case a soldier had been given a bunch of bananas by a friend, and had them in his quarters ripening, against the time when they would be a delicacy at sea. This went overboard with the rest. Delicacies of all sorts, fruits and jams, no cakes of all sorts, fruit and jams, no whether they were gifts or purchases, all went overboard.

The Puebla is the only transport of all that have been here where such orders were carried out. J. T. Waterhouse has sold great quantities of this sort of goods to soldiers on all the transports. But in the case of the men on the Puebla those who made purchases or many of them brought the goods back because they were not allowed to take them on board. In all such cases, the goods were received back and the money returned.

CRAFT IN COLLISION. C. F. Sargent Strikes the Otterspool Squarely Amidships.

The bark C. F. Sargent and the ship Otterspool were in collision about 8 o'clock this morning. Little damage was done, but a lot of property was in jeopardy for a few minutes.

The Otterspool finished discharging at the Irmgard wharf yesterday, and this morning was being taken to an anchorage near the Mohican. She was fastened by a bowline to the Inter Island wharf and was being allowed to drift with the tide, stern foremost, into the position at anchor designed for her. At this stage of the operation she completely cut off the passage way in the harbor past the anchorage grounds. While in this position the bark C. F. Sargent, in tow of the Eleu, and under the command of Pilot McCauley, came down the channel. As soon as he reached the lighthouse McCauley saw the condition that confronted him. He cast off the tow line and immediately ordered one of the anchors out. This failing to hold a second anchor was thrown out, but both dragged. Nearer and nearer came the Sargent, and finally crashed into the Otterspool, amidships. Her speed by that time was so slow however that little or no damage was done the Otterspool, and the only damage done the Sargent was the breaking of the chains that stay the bowsprit.

LEHUA IS READY. Will Start on the Molokai Run Next Week.

The Wilder's Steamship Company steamer Lehua is now ready for service and will begin the Molokai and Lanai run next week. She has been entirely rebuilt. Her engines have been refitted. A new propeller has also been added, and she will be able to make good time. She will be commanded by Captain Bennett of the Mokoli. The latter steamer will be laid up to be used as an extra boat when needed.

The Lehua is supplied with refrigerators for use in shipping game and other dairy products.

CLAIMS AN INTERREGNUM

AND THAT MEANWHILE NO COURT CAN SIT.

Jurisdiction of the Circuit Court Assailed in Two Important Criminal Cases—The Objection Overruled.

Following up the attack made on the jurisdiction of the Circuit Court by Cecil Brown on Monday in the civil cases in which he was interested, Attorney George W. Davis again fiercely assailed Judge Stanley's right to hold court this morning in the two criminal cases in which he is associated for the defense with Judge Davidson. The matter came up at the opening of court on the motion to quash the indictments against G. L. Edwards and W. D. Hamilton, the latter being for murder in the first degree.

In his argument Mr. Davis held that from the time President McKinley signed the joint resolution annexing Hawaii, these Islands became American soil, and by the terms of the resolution the entire machinery of government became vested in the hands of President McKinley. Pending the arrival of the commissioners from the province of Canada becoming united under the Dominion, when it was held that the provincial courts had no jurisdiction after the passage of the act creating the Dominion. Mr. Davis maintained that no courts could be held here until the sovereignty of the United States was completely established by the hoisting of the flag and the re-commissioning of the officials.

Judge Stanley in overruling the motions, said that nothing had been advanced to cause him to change his opinion since making the ruling on Monday. The attorneys could take their exceptions but he would hear no more argument.

CUSTOMS LAWS STAND

The following advices have been received from the Treasury Department by Collector Jackson: "Until legislation shall be enacted extending the United States custom laws and regulations to the Hawaiian Islands the existing customs relations of the Hawaiian Islands with the United States and other countries shall remain unchanged."—Examiner.

THE ADVERTISER SOLD. It is stated that Lorrin A. Thurston has purchased the entire Castle interest in the Advertiser newspaper. The purchase price is not made public.

KENILWORTH SUGAR. A telegram was received at the Merchants' Exchange on July 26th, from Valparaiso, stating that a survey of the cargo of the burning ship Kenilworth has been ordered and that a portion of it would be discharged at that port.

CABINET MEETING. The Executive Council this morning authorized the Minister of Interior to sign the contract asked for by the Kahului railway.

An appropriation was made for the immediate widening of Union street.

NO LONGER POLICEMEN. Henry and W. Vida were notified by the Marshal this morning that the police department has no further use for their services. This action is the result of their being fined \$25 each yesterday for assaulting James Carty.

CIRCUIT COURT NOTES. Judge Perry with a native jury is hearing the civil suit of Mary S. Bush against W. C. Achi, assumpsit. Bruce Cartwright, trustee of the estate of R. W. Holt, deceased, has filed his annual account, showing receipts of \$18,111; disbursements, \$17,215.71; balance on hand, \$895.23.

FOOD INSPECTOR. Arthur Johnstone was appointed food inspector by the Board of Health yesterday. His appointment has been under consideration for a long time.

FARRAGUT'S TRIAL TRIP. SAN FRANCISCO, July 24.—The Union Iron Works has issued a notice to the effect that the trial trip of the torpedo boat destroyer Farragut will be made between the 25th and 31st of this month. The new war craft has a speed of about thirty knots and the builders ask that masters of vessels give the torpedo boat chaser absolute right of way when she comes out.

FRESH IMPORTS. By the S. S. Alameda, Camarinos received cherries, rhubarb, asparagus, celery, cauliflower, fresh salmon, crabs, flounders, oysters (in tins and shell), apples, grapes, figs, lemons, Burbank potatoes, pure olive oil, dried fruit, new crop of nuts, raisins, etc. California Fruit Market, King street.

DREAD THE INSURGENTS

PEOPLE OF MANILA READY TO SURRENDER.

Ex-United States Minister John Barrett Describes Conditions in the Capital of the Philippines.

Ex-United States Minister John Barrett thus describes the condition in the beleaguered capital of the Philippines:

MANILA BAY, June 14.—Manila would fall to-day if Admiral Dewey would let it. This proud capital of haughty Spain's East Indian possessions is at the mercy of the Americans. Were the truth known in its nakedness, it would disclose a Governor General, a Council, a Commander in Chief, an Admiral, an army, a populace—all subjects of the child King of Spain—secretly wishing that the American Admiral out there in the bay would demand their absolute surrender and so provide them with protection against the insurgent hordes, seeking vengeance, they fear, for ages of slavery and long suffering, who at this hour are not only at the very gates of the city, but threatening, in the opinions of the Spaniards, at any hour of day or night to break through, to loot, to destroy, to kill, to burn.

But were the insurgents to capture Manila to-morrow, I do not think that they would then destroy, kill or burn. Loot they might without restraint, but their most humane treatment of the wounded Spaniards and prisoners at Cavite, where they have nearly one thousand of Spain's crack riflemen and regulars behind the bars, is evidence that they would not massacre indiscriminately or destroy property wantonly.

To-night Manila is completely surrounded on the land side by no less than 3,000 insurgents, who cut off every avenue of possible escape. The cordons that cannot be taken means starvation to the Spaniards. One body of rebels is to the south, near Malate, a suburb that joins Manila proper; another is to the east on the San Juan del Monte side of the Pasig river, that flows through the heart of Manila; while a third is to the north, controlling the railway to Dugubah and access to the friendly provinces—if there are any—in the upper section of Luzon.

BATTLES OF DAILY OCCURRENCE. There is continual fighting. The outskirts of Manila are the scene of bloody skirmishes of daily occurrence, in which the same old story is repeated: numerous Spaniards killed and few insurgents.

The most decisive since the naval battle of May 1 has just been fought. It was a plucky assault by the rebels. A thousand of them interpidly attacked 2,000 Spanish regulars of the famous Seventieth and Seventy-fourth regiments, which once achieved honors in Cuba and were expected to be invincible in the Philippines.

At first the Spaniards, in solid phalanx, held back the insurgents, who kept under cover, biding their time. Then night came, and with it their opportunity. Like wild men, bent on deviltry, they suddenly sprang upon a body of the enemy, some several hundred strong. They used rifles, but they used machetes also—and to better advantage. Before the Spaniards could realize what kind of a human typhoon had struck them, and organize for return fire, the rebels were off to prepare for another attack elsewhere, perhaps a mile away.

When morning dawned 150 Spaniards were found dead, including a lieutenant colonel who had first won his spurs near old Matanzas, in 1894. Beside him lay two captains and several lesser officers.

At another point on the river some sixty Spaniards were killed, and still in another section a lesser number gave up their lives—unintentionally—for a leader who declares that Americans are the worst offshoots of a putrid civilization.

THE POPE WANTS PEACE. LONDON, July 26.—A special dispatch from Rome says the Pope has communicated to the Powers peace proposals that he considers acceptable to both Spain and the United States, namely, the American annexation of Cuba and Porto Rico, the restitution of the Philippines to Spain and a commercial treaty giving Spain exceptional advantages in the colonies surrendered.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." OFF AGAIN FOR MANILA

PENNSYLVANIA AND RIO HAVE SAILED.

City of Puebla and Peru Making their Last Preparations—Several Enlistments of Hawaiian-Americans.

The Pennsylvania and the Rio de Janeiro sailed shortly after 5 o'clock this morning. The Rio pulled out into the stream at 5 o'clock yesterday afternoon, all ready to go. The Pennsylvania, which was already in the stream, pulled into the Pacific Mail wharf after the Gaelic left in order to get a fresh supply of water. They expect to keep together and to be overtaken by the other transports before reaching Manila, because the Pennsylvania is a slow boat.

It is said that four Honolulu men stowed away on the Pennsylvania, and their grit and determination is admired considering the crowded condition of the vessel. One of them is said to be Henry Lancaster.

A large number of Islanders have sought enlistment in the regular troops where enlistment is open to them. They are being examined physically on board the Peru this morning. Among those who have accepted are F. J. Perrine, who is now a trooper of C troop, Fourth cavalry. Another is Cornetist Austin of Company E, N. G. H., who has been accepted as cornetist in Battery G, Sixth light artillery.

The City of Puebla was taken over to the Oceanic wharf soon after the Rio went into the stream, and about 150 additional tons of coal were put aboard. Today she is putting on a supply of fresh fruits and vegetables for the officers.

The Peru at the Irmgard wharf is likewise stocking up with fresh fruit and vegetables. Both vessels will be ready to sail at any time after today, and unless they wait for the flag raising will probably sail tomorrow. All the sick from the Puebla and Peru who are at all able to be taken aboard will go with them.

A sergeant of one of the companies on the Pennsylvania got left by his ship. He says he was asleep on top of some boxes on the wharf and was overlooked. When he woke up the Pennsylvania had gone. He reported this morning to the flag-ship and will go aboard one of the other transports.

CIRCUIT COURT NOTES. In the case of Alfred Roche vs. C. W. Dickey, action for damages for malicious prosecution, defendant has filed an answer denying each and every allegation of the complaint.

An appeal has been taken from the decision of the Circuit Court in the case of Malia Sylva vs. J. W. Kuaimoku, in which judgment was given for the defendant.

EVENTS AROUND MANILA AUGUSTI CABLES IMPENDING ATTACK.

Monterey Said to Have Captured the Carolines—Dewey's Opinion of the Capacity of the Insurgents.

LONDON, July 25.—A special dispatch from Madrid says that General Augusti, Captain General of the Philippines, has telegraphed to the Government as follows:

"The Americans are about to attack Manila. Grave events are impending." WASHINGTON, July 24.—It is learned that Admiral Dewey in a recent dispatch to Washington stated that the inhabitants of the Philippines are better able to govern themselves than are the Cubans.

LONDON, July 25.—The Berlin correspondent of the Daily News says: "According to a dispatch from Washington the interview between President McKinley and the German Ambassador, Dr. von Holleben, was very cordial, the latter assuring the President of the friendly feeling of Emperor William and Germany toward the United States."

"The German firms at Manila have decided to petition the Government again to obtain from the United States indemnity for their losses. They wanted the British traders to join in the appeal, but the latter received a hint from London not to join, as Lord Salisbury had already received 'favorable assurances from Washington.'"

OLD REGIMENTS. The oldest British regiment dates back to 1660. The oldest Austrian regiment is said to have been raised in 1618, the oldest Russian regiment in 1700.

Sold by druggists.

Made From Hawaiian Fruit. The Guava, like the Mango, a fruit which furnishes food for many a people throughout all tropical countries, possesses medicinal virtues which are certainly beneficial.

Guava. Within our shores we grow a bountiful supply of these fruits, and as their value is well known the introduction of the name is sufficient to insure the endorsement of most all who have indulged in eating the fruit.

Cordial. We have prepared a Cordial from the fruit of the Guava which cannot be surpassed for correcting bowel troubles. A sure panacea for dysentery and summer complaint. Safe to administer to children. The taste is quite pleasant.

Corrects. Most bowel correctants produce unsatisfactory results on account of their constipating tendency. Guava Cordial will not constipate. Put up in 25-cent bottles. Ask your druggist for it, and take no substitute.

WEDNESDAY, AUGUST 3, 1898.

Advices received from Maine and Washington state that during the period of the commission, Minister Sewall will be appointed as President McKinley's direct diplomatic agent, with considerable powers. As soon as the commission's labors are completed the permanent appointment as governor will come to him almost certainly.

The United States regulars in port must be very much pleased at the implication that they are "most of them bars and half of them thieves," which a morning paper indulges in, and as we are all good Americans now, we must be rather proud of our army.

Rice growers ought to be happy. According to latest advices Hawaiian rice was quoted at six cents, with the market firm. The prospects are that with the continuance of the war the price of rice will be apt to advance. The Carolina rice crop will go largely to Cuba, where rice is a staple food. In the province of Santiago a large market will now be open.

There really are some men to be found who would rather be regulars in the United States army at \$13 a month, ready to fight for their country at all times, than be the privileged buffoon of a dusky monarch with a salary of \$5,000 a year, ready to shoot off moss backed patent medicine almanac jokes at any hour of the day or night. Strange preference.

The war is making some political as well as military reputations. Fitz Hugh Lee and Roosevelt have both a political boom, which may or may not lead to great political honors. What it will do for Bryan is problematical. He may get a chance to go to the front, but then again he may not. Of course if he does not, the fact will be used against him, and he will be called a stay at home soldier, whether it was his fault or not.

The condition of affairs in Guatemala is not a very pleasant one. One hundred dollars of American gold is worth \$285 of currency. Plantations that a year ago were valued at \$150,000 of this money can now be bought for \$50,000 currency or a little over \$17,000 in gold. The rate of interest is from one and a half to two per cent a month on first mortgage and nearly all the planters are heavily in debt. Hawaii is better than Guatemala.

Another thought comes with regard to the Dole incident and the \$500 subscription, which is now called an "official" act. It was heralded as a private subscription from one end of the States to the other; it was so regarded by the newspapers here, and remarks made upon it. Mr. Dole reads the papers and should have put himself right. It was only when the accounts were called for by the Legislature that the "official" act came to light. It is to be presumed that buying under clothing was also an official act, lengthening the sleeves of a coat, another; ironing a hat, another; all of which items and a great many more of such petty things appear in the accounts. The subject is not a pleasant one; it is a pity it was forced so ill advisedly to the surface.

An opportunity was given by The Star to a gentleman who claimed that the food supplied to the soldiers on the last transports was both good in quality and well cooked, to make his statement to the public. The statement has not materialized, so it is to be presumed that after further investigation he is satisfied that the complaints are based upon substantial grounds. His claim was that the soldiers are chronic growlers, that many of them were unaccustomed to hard fare and that while in camp in San Francisco they had too many indulgences. To this it may be replied that though there may be some truth in the contentions, these are the only transports where the men universally made complaint, and further that the complaints came not only from the volunteers, but also from the regulars, who for years had been accustomed to a soldier's rough fare.

WAR'S LESSON.

The press of the United States teems with articles, more or less correct, upon the Hawaiian Islands. The wisdom of the step taken by Con-

gress in annexing the Islands. The whole country has at last wakened up to the fact that it now owns the cross roads of the North Pacific and dominates it both from a military and a commercial point of view.

War is a great instructor of geography. People get out their atlases and study the location of places where their armies may be. When the first transports arrived here one of the journals published in this city devoted some time to dilating upon the fact that this was the first occasion on which American soldiers would cross the line. Since then, no doubt, the erudite writer has studied his map, and discovered that Manila is considerably north of the line.

So with the vast majority of people. The fact that the United States fleet and the United States troops had gone to Manila, drew attention to the North Pacific, and the study of the North Pacific soon brought a realization of the commanding position of these Islands. With that knowledge the importance of the step that Congress took in annexing these Islands at once became apparent, and the move a popular one. It passed from the nebulous idea of mythic islands in an unknown ocean into a practical realization of the occupation of an outpost in an ocean over which thousands of America's sons were sailing and for whom warm hearts were beating from bleak Dakota with its snows and blizzards, to sunny Tennessee, from California in the golden west, to New York and the rugged coasts of the Atlantic.

It is this, no doubt, that has, more than anything, had its effect upon the mind of the nation. The annexation of the Islands always had warm friends among the thinking part of the population, it had friends in California and some of the western states and in the east, because, during the forties and fifties, through the whaling industry, the east was intimately acquainted with the Islands. It always had strong advocates among far seeing statesmen, from the time of William L. Marcey to the present. But there can be no doubt that a large section was apathetic. In spite of all that had been written and said they did not know or care where the Islands were, and could see no tangible reason for their occupation. Now this is all changed. They see it for themselves and hence the widespread popularity of the joint resolution. The war hastened it on, and the war made it popular.

AT THE BATTLE OF MANILA

Admiral Dewey's fleet was lubricated with Vacuum Oils, obtained at Hongkong. At the same time Vacuum Oils were in use ashore in the sugar and jute mills of the Philippines.

The British Navy and the Japanese navy regularly use Vacuum Oils, and various battleships and cruisers of every other nation obtain them at various ports around the world where stocks are carried.

Vacuum Oils are so well known and highly thought of by the naval officer, the mill owner, and the machinery user everywhere, that one hundred and twelve foreign warehouses are required for their distribution. The reason is—they lubricate most. Other oils sell for less by the gallon, but Vacuum Oils cost least by the day.

Hood's Cure Liver Pills

Hood's Pills are as peculiar and as pleasant, in comparison with all others, as is Hood's Sarsaparilla. To compound a pill which shall be pleasant to take, shall not be mixed with what by age becomes insipid, which shall be just that mild stimulant to the liver and bowels which shall restore her disordered nature—that is the problem for the pharmacist. It is easy to give, but that is not what is wanted—put out sure and un-

CURE

disturbing cardiac will set Nature to going, and relieve the head, the stomach, the liver and all the organs of the body from the evils of a clogged drainage. The Liver is the gateway between the stomach and the organs which the stomach purveys for. Stop up the gate and death quickly ensues. Burden it with obstructions and a thousand ills result. Hood's Pills CURE Liver ills, sick headache, biliousness, indigestion, nausea, constipation, without purging, without pain, without violence. Everybody at sometime needs them. Everybody should keep them on hand at all times for emergencies.

Liver Ills

Hood's Pills are sold by all druggists. 25 cents. Sent by mail on receipt of price, by C. I. Hood & Co., Lowell, Mass., U.S.A. Hobron Drug Company, WHOLESALE AGENTS.

Hawaiian Electric Company.

The cleanest, brightest safest and really, for use in the family residence, is the incandescent electric light. Safe, nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. I don't think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers

The Fattening Leaves Give Warning of Winter

So the falling of the hair tells of the approach of age and declining power. No matter how barren the tree nor how leafless it may seem, you confidently expect leaves again. And why?

Because there is Life at the Roots.

So you need not worry about the falling of your hair, the threatened departure of your youth and beauty. And why? Because if there is a spark of life remaining in the roots of the hair

Ayer's Hair Vigor

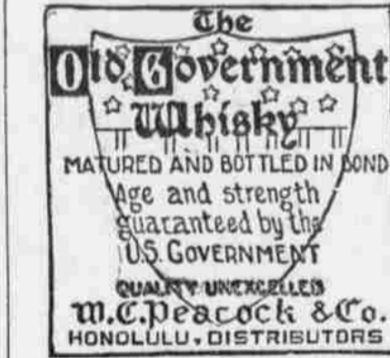

will arouse it into healthy activity. The hair ceases to come out; it begins to grow; and the glory of youth is restored to you.

PLAN TO RAISE THE COLON

LIEUTENANT HOBSON DESCRIBES HIS SCHEME.

Cruiser of Seven Thousand Tons on Her Beam Ends Almost Completely Submerged on Shelving Beach.

NEW YORK, July 25.—Lieutenant Hobson announced today that the Merritt and Chapman Wrecking and Derrick Company had consented to undertake the recovery of the Cristobal Colon, and was making every effort to begin the work as soon as possible.

"The difficulty of saving the Colon," he said, "lies in the complete submergence, upon her beam-ends, of a steamer of 7,000 tons. Only a short portion of her stern is clear of water, which fills her whole interior. The beach upon which she lies is exceedingly shelving, forming a part, in fact, of the mountains which there rise out of the sea. In short, all the conditions are present which render the righting and raising of the ship an engineering feat of large proportions. At the same time it is simple and quite feasible. No new appliances are needed, nothing to be invented, it is simply a question of getting to the spot in time with the accepted means and methods on a sufficient scale."

As to the plan for raising the Colon, Lieutenant Hobson said: "We will run the pontoons alongside of the Colon, submerge them, and after the chains under the bottom of the ship have been fastened to the pontoons and tightened the pontoons will be pumped out. At the same time we will use air pumps in trying to force the water out of her air chambers and water tight compartments. If many of these compartments are found to be in good condition, this combined force from the outside and inside will be sufficient to raise the Colon several feet. If they are not sufficient then air bags will be put in her hold and inflated by compressed air."

"Every time the ship is raised a few feet from the bottom she will be towed further in shore, so that after several easy stages she will be high enough out of the water to make all the necessary repairs. I think it will be fully two weeks before the work of raising the Colon can begin."

HONOLULU POST.
SAN FRANCISCO, July 26.—The fact that Honolulu is to become a most important post of the army becomes more certain every day. Major Langfit, commanding the battalion of engineers, has been asked to lose no time in leaving for Honolulu, in advance of his command. Being a skilled engineer, he will make a preliminary survey of the harbor and plan in a superficial way the fortifications that will be erected at once. The defenses are to be of the most modern and formidable kind.

"Uncle Sam will make Honolulu impregnable," said a prominent officer last night. "The city is to be a naval and military base and will be the site of the strongest fortifications in the world, if money and brains can construct them. This will take time, but meanwhile steps will be taken so that the city will not be open to attack. A reservation will be secured by the army, and on it will be erected barracks and houses for officers, to form a post of considerable size."

"Just how many men will compose the garrison cannot be said, but I look for several thousand to be detailed for the Islands within the next three months. Before three years have elapsed Honolulu and Pearl Harbor will be able to defy the battleships of any hostile nation. The next Congress will be asked to make a large appropriation for this purpose, and millions will be spent in the work."

SCRYMSER TALKS CABLE

TELLS OF THE COST OF THEIR MAINTENANCE.
 Life of a Submarine Cable is Only Twenty Years—Difficulty of Cutting Them.
 NEW YORK, July 29.—The New York Evening Post publishes a long interview with James A. Scrymser, the president of the Central and South American Telegraph Company, and the head of the Pacific Cable Company, on the proposed cable from California to Hawaii.
 "The importance of a Pacific cable is now in some measure realized by the government, thanks to recent happenings in the Far East, brought about by the war with Spain, and there appears to be a great probability that the necessary action authorizing the cable will be taken by Congress. It would seem that there certainly should be no hesitation when the opportunity is now offered the government of commanding such important communication, to be established absolutely without risk to itself, and at such comparatively small outlay for the advantages to be gained. All that is asked of the government is to grant to this company the right to lay a cable from the Pacific coast to Hawaii, and to pay \$100,000 a year for twenty years, in return for which the company is to transmit gratuitously forever the official messages of the government. Personally, I am of the opinion that these terms are excessively favorable to the government, and that the Bennett bill before Congress ought to be amended so that after the expiration of the twenty years the government would pay at least half rates, or press rates. All South American countries pay such rates for official messages, and why should not the United States do so? However, the opportunity to get this service perpetually for nothing after twenty years is now open to this country."
 "It is generally not understood what the risks involved in cable laying and maintaining are. How many persons know that four Atlantic cables have been abandoned on account of old age, and that each of them cost \$4,000,000? Nor had they been in operation over twenty years. That period is supposed to be the life of a cable. Some, however, last much longer. The cable out of Santiago for instance, which has been cut so many times, and which apparently has more lives than a cat—the last strand having been cut by our cruisers repeatedly without in any way interfering with the working of it—was laid by me in 1869."
 "If," continued Mr. Scrymser, digressing for a moment, "recent history could be told about the cable and others in West Indian waters, it would be astounding. The United States was totally unprepared for cable operations. I gave the government full information concerning all the cable lines in West Indian waters, but apparently very little good has come of it. To cut a cable effectually is an art which seems to have been totally unknown to our cable cutting cruisers. To cut a deep sea cable, its exact location and that of all its branches must be known. Our cutting always appears to have been at the wrong end. We have seemed to think that it was perfectly effectual to cut a cable wherever we could pick it up. That is a great mistake."
 "To return to the risk of maintaining a cable. The cable across the Atlantic of one of the companies was interrupted for over a year, and was finally recovered and repaired at a cost of \$500,000, notwithstanding that the point of injury was not more than 700 miles off the coast of Newfoundland. Now, naturally, the repair of a cable in the Pacific would be apt to be vastly more difficult and expensive, on account of its greater distance from the base of operations. From all such risk the government would be freed by entering into the proposed contract with our company. Yet there are those who advocate the cable being constructed by the government."

TO PLAY IN CALIFORNIA.
 Local Cricketers Receive an Offer from the California Association.
 Mr. Christian, a California cricketer of some note, who spent several weeks in the Islands lately and played in several matches here, is endeavoring to make arrangements for a team of Honolulu players to go to California and play a series of matches. In yesterday's mail Captain Herbert received a letter from the secretary of the California Cricket Association, offering to arrange several matches for the Hawaiian visitors and to do all in his power to make their stay in the Golden State a pleasant one.
 The local men would be only too happy to go but the expense of steamship fares is too great for their resources.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea, accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. BOGGS, Stumptown, Gilmer Co., W. Va. A Good Article

Is worth striking for. And in nothing is this better illustrated than in Footwear.

Ten cents taken out of the sole, and fifteen cents taken out of the upper, in the factory, makes the biggest kind of a difference when the Shoe is put into actual service. It's wise in the end to spend the extra twenty-five cents and thus secure security for your feet and pocket-book.

There are heaps of job lots sold at \$2.49 a pair, when an outlay of a few cents more would secure for you the real article.

Don't be led away by odd figures. A Shoe dealer with a reputation to sustain cannot afford at any time to put out a shoe that will not sustain this reputation of value.

We have a reputation to sustain.
