HEAVILY FINED.

Petty Officer of Coptic Attempted to Land Opium.

Michael McMann, an under officer of the Coptic, was arrested at the gate of the Pacific Mail wharf this morning for having opium in possession. At 9 o'clock he was taken to the station house by Inspector McCaulay. Having to leave by his vessel, he was given a hearing promptly, pleaded guilty and fined \$150. Four tins of Hongkong opium were found on the person of the man. Two tins were fastened around his legs above his shoe tops. He had evidently landed the same way before, and it was by the merest accident that it was discovered this morning.

END OF THE QUARANTINE

CITY OF COLUMBIA HAULS DOWN THE YELLOW FLAG.

The Passengers Quarantined From the Nippon Maru Come Ashore Just After Noon Today—Danger Past.

The yellow flag is hauled down. The City of Columbia is out of quarantine. The Nippon Maru's passengers are ashore. The fear of bubonic plague is at an end.

The quarantine period of those on the City of Columbia was up at noon today. The physicians of the Board of Health reported that no symptoms of the disease had developed, and thereupon those in quarantine were authorized to be landed. Commander Pilot Macaulay brought the City of Columbia into the harbor immediately after noon and anchored in naval row, not far from the lighthouse. The cabin passengers were brought ashore immediately on the tug to the Kinau wharf. A good many of their friends, in expectation of the event, were down to meet them. All expressed themselves as glad to be home again.

Dr. Monsarrat who went from here to Manila on the Consenagh, says that vessel lost two blades of her propeller fifteen days out from this port, and for the rest of the trip made only about six knots an hour. She arrived there safely, however, and he was in Manila for fifteen days. He has a very poor opinion of Manila and was glad to leave it. Notwithstanding this fact and the fact that he was seven days in quarantine in Nagasaki and ten days here, he is looking in robust health and has gained in weight.

Mr. and Mrs. Wichman were met on the wharf by their children and a number of friends. The Chinese and Japanese steamer passengers were taken to the quarantine station to be sent from there to various plantations.

TYPHOID IN KAU.

PUNALUU, Hawaii, June 26.—At 8 o'clock on the evening of June 26, the heaviest earthquake of years was felt at Punaluu. A lighter one was felt the following day. An epidemic of typhoid fever is threatening this district. There have been two deaths within a very few days of the disease. The jailor's wife died on the 16, and two of his children are now down with the same ailment.

TO STUDY ELECTRICITY.

E. T. Dreier, son of August Dreier, sailed by the Coptic today for the East where he will take a thorough course in electrical engineering. Besides a college course he will enter the Westinghouse works at Pittsburg for practical training. Mr. Dreier will likely join the rapid transit company upon his return to Honolulu.

IMPORTING SLAVES.

Illinois Steel Company is Replacing its Workmen.

CHICAGO, June 15.—Slavonic laborers are being imported by the wholesale into south Chicago, tagged like express packages. The majority are promptly given employment by the Illinois Steel Company. United States immigration inspectors have been watching this big influx and are convinced that there have been many violations of the contract labor law. One batch of men has been sent back to their native land, and efforts are being made to get evidence sufficient to return 2000 more, who have arrived in south Chicago since last fall.

Ever since the steel company began to displace its American, Irish, Welsh and German employees with Slavonic labor, there has been a steady stream of the foreigners pouring into south Chicago.

COMMON NUISANCE.

Marshal Brown has ordered Daly, the Owl lunch man, off the streets under the law relating to common nuisance. Mr. Owl man is now thinking of getting up a petition to President McKinley on the subject. He said Saturday night that he was sure of 1000 signatures.

SILVER WEDDING.

Mr. and Mrs. H. Voss entertained a number of friends Saturday evening in honor of the twenty-fifth anniversary of their marriage. The reception was held at the residence on Berea street. A pleasant social program was carried out and all thoroughly enjoyed the occasion. All of the presents were silver.

SILVER DOLLAR IN MANILA

BANKS ARE DISCRIMINATING AGAINST IT.

Rate of Exchange With Mexican Currency Has Been Changed—Much Inconvenience and Loss Results.

MANILA, May 25.—The present state of the currency is such that if continued for long it will threaten a commotion in all business affairs. The two banks are discriminating against American silver. The commercial rate of "two for one," upon which basis trade has been carried on since the American occupation of the city, they are forcing down. The exchange rate of American gold in local currency is now \$2, where it was formerly \$2.07. Our silver, formerly passing freely at the banks 2-1, has been depreciated to 1 96-1.

At the present writing, some merchants about town have begun to refuse American silver at all. They are forced to it by the newly established bank rate. A prominent tobacco dealer who has not yet changed the rate of exchange with his customers, has over a hundred silver American dollars lying in dead weight in his safe. If he changes them at the bank he loses, perhaps half of the profit which they represent, neither can he pass them out in change as fast as they come in.

This dealer says that he will be compelled hereafter to change American silver at the established bank rate, or add enough to the price of his goods to cover the exchange loss. Either alternative he thinks will hurt his business. The banks hold the peso at the gold value of 50 cents. Yet the United States paymasters in these waters buy thousands of pesos at Hongkong for 47 2-10 cents. From this it is easy to calculate that bank profits any way, but they shake their victims going and coming.

While they are very willing to consider our money of little value, when receiving, they put on a different pair of glasses when it comes to paying the same money out. Our gold goes out over their counters at \$2 05 and our silver dollars at \$2.

Both the United States pay department here, and the postal authorities have been complaining of the refusal in order to defeat the rapacious greed of the money changers. The chief paymasters, realizing that the soldiers here would be wholly at the mercy of the banks, asked the treasury department to refuse certain amounts to his credit in the sub-treasuries. This bit of wise forethought made it possible for him to give soldiers, who wished to send money home, certified checks upon the United States sub-treasury, when otherwise they would have been compelled to pay exchange tariffs on bank drafts. This, to be sure, was before the postal department issued money orders from this office.

There is some stir being made among merchants here by the refusal of the authorities to accept American money at the custom house. This, however, cannot be charged against the customs authorities, for they are but acting on orders from higher sources. Paragraph 268, United States Provisional Customs Tariff and Regulations, reads: "The monetary unit of the Philippines Islands, is the silver peso." In an order issued by General Greene, shortly after entering the city, he sets forth what moneys are to be received for customs. The order designates the coin and bills in use before our occupation, but makes no mention of American money.

The tradesmen here are becoming suspicious and wary of a currency that is in constant fluctuation, and refused by at least one department of the Government.

MRS. CAPTAIN NICHOLS.

Was a Through Passenger on the Steamship Coptic.

Mrs. Nichols, widow of the late Captain Nichols, U. S. N., of the Monadnock, was a through passenger by the Coptic. She was in Yokohama at the time of her husband's death and only received a brief cablegram from Captain Barker announcing Captain Nichols' death from sunstroke just before sailing on the Coptic.

Mrs. Nichols is well known here and during the stay of the Coptic, many friends called on her.

MEDALS FOR DEWEY'S MEN.

Washington, June 15.—The Navy department today received the 1700 bronze medals authorized by Congress for the officers and men who participated in the battle of Manila bay. The Bureau of Navigation will see to the distribution of the medals, those for the officers and men of the Olympia and Raleigh, being given to them in this country, while those for the men on the ships still at Manila will be forwarded. The medals are handsome products of the jeweler's art, one face showing a bas-relief of Admiral Dewey, while the reverse shows the idealized head of the American sailor.

MAKES ONE'S MOUTH WATER.

The popularity of "Apollinaris" seems to have no limits. One reads that it is obtainable in practically all parts of the world, and in New York, as in England, no social function is without "The Queen of Table Waters." The menus of the Astoria, Metropolitan Club dance given at Sherry's, as well as those of the Vanderbilt and the Astor balls, all of which took place recently, bear witness to the pre-eminence of Apollinaris.

BODY NOW LIES IN STATE

THRONGS VIEW REMAINS OF KAPIOLANI.

Band Plays Funeral Dirges at Pualani—Arrangements Tomorrow for the State Features.

The body of the late Queen Dowager Kapiolani is lying in state today at Pualani, the Waikiki residence of deceased. Between 9 a. m. and 4 p. m. are the hours during which friends are calling. The Government band is playing dirges on the grounds from 2 to 4 this afternoon.

From an early hour this morning a family and a government guard of honor have been kept at the bier. There are also the kahili bearers. A constant stream of humanity has kept up to and from the place. Most of them were natives, who went out to see the face of their dead all and to give expression to their feelings of sorrow. There will be a meeting to be held between Government representatives and the relatives of the queen dowager tomorrow afternoon, arrangements for the state funeral will be made. In all likelihood the general lines of the Princess Kaiulani funeral will be followed. There will most likely be a government grand marshal and a military escort. The religious services will be held in Kawaiaho church as before.

It is finally settled that the remains will lie in state at Kawaiaho church from noon on Friday to late Saturday night. It is expected that a number of natives will arrive from the other Islands with the steamers on Friday and Saturday to attend the funeral.

BALL IN DRILL SHED.

Big Fourth of July Event to Take Place There.

Minister Mott-Smith and Colonel J. W. Jones have tendered to the ball committee on 4th of July celebration the use of the drill shed for the big social event of next Tuesday evening.

The Government has also tendered the services of the band and Berger's musicians will be there. Invitations for the ball will be issued next Saturday morning. Most of the people will receive them that day or Sunday morning. It is found impossible to get them out before that time.

The Government refused the use of the Executive building for the ball on the ground that the building should be used for state functions only.

COPTIC TURNS BACK.

Recalls Pilot Boat to Send a Man Ashore.

After the pilot left the Coptic outside the harbor, the steamship turned back and signalled the pilot to return. The maneuver was seen from the shore and occasioned lively interest and speculation. It turned out that after the pilot left the ship, a man by the name of Pearce was discovered aboard without a ticket. He was put on board the pilot boat and brought ashore. The account given of the affair by Pearce was that he had been drinking and going aboard the Coptic did not realize that he was being carried away from here until after the pilot left the ship. Then he reported to the ship's officers and the pilot boat was recalled.

NOT PUBLIC.

The commencement at the Kamehameha School for Girls tonight is not a public one. Invitations have been issued.

BUBONIC PLAGUE.

SINGAPORE, June 5.—Immigration into the Straits Settlements from Hongkong, Macao, South China ports, and Hainan is prohibited. There are no new cases at Penang.

SINGAPORE, June 5.—There have been four cases of plague in Penang during the month of June, and one death from that disease.

YOKOHAMA, June 10.—During the first week of this month five cases of plague and seven deaths were reported at Taipei, Formosa; two cases and two deaths at Taichu; and nineteen cases and twelve deaths at Tainan, bringing the total cases and deaths in the island from the beginning of the year up to June 7, to 2200 and 1637 respectively.

STOLE MR. DOLE'S PEARS.

A young Portuguese named A. Santos was arraigned in the police court this morning on three charges of larceny in the second degree. The fellow, it appears, has been stealing pears by the wholesale from President Dole's premises. He was caught red-handed yesterday afternoon with a whole basket full of the fruit. To two charges he pleaded guilty and was given three months at hard labor on each, making six months in all. The third count was dropped by the prosecution.

SOUTHWELLS COMING.

It is more than likely that the Southwell Opera Company, one of the very best on the Coast, will visit Honolulu in July. For a long time the concern has been playing at the Grand in San Francisco. Two local promoters will bring the aggregation to Hawaii.

FOR THE FOURTH.

Silk, bunting and cotton flags; red, white and blue bunting and decorative tissue papers, shields "our heroes," etc. were received by Golden Rule Bazaar and are selling rapidly for Fourth of July.

MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergerson, agent, Bethel street.

IMMENSE QUANTITIES.

Kerr, the Queen street merchant, has just received from London an immense shipment of dry goods. They were purchased by his London agent at the lowest possible rates for cash, and will be sold accordingly.

MRS. WILHELM'S ESTATE

ABOUT \$10,000 LEFT HUSBAND AND DAUGHTER.

Monsarrat Matter Argued and Submitted This Morning—Court Adjourns Out of Respect to Kapiolani.

The supreme court adjourned at noon for the day out of respect to the memory of the late Queen Dowager Kapiolani. The flag over the building was set at half mast.

In the supreme court this morning the question submitted by J. J. Sullivan and John Buckley on the one side and M. D. Monsarrat on the other, was argued. The court took it under advisement. This is a request to the court to determine whether or not the divorced wife of Monsarrat has the right of dower in certain property sold by him to Sullivan and Buckley. The lot is a part of the old fire house premises in Union street.

Fritz J. Wilhelm has applied in the circuit court for letters of administration of the estate of his late wife. The property consists of realty and personal effects, valued at about \$10,000. The heirs are the petitioner and Mrs. Archie Smith, the latter a daughter.

The petition for guardianship of the Brown minor at Hilo was argued before the full supreme court yesterday and submitted. This is the girl baby in the Rutman case. The name of the child was changed to Brown under certain adoption proceedings.

Indications now are that the supreme court will finish up its work this week. It is not likely that any decisions will be handed down until the term is closed.

TEACHERS SAIL.

About a Dozen Get Away for Convention at Los Angeles.

There were school teachers galore on the steamship Coptic when the vessel sailed this morning. About a dozen got away, mostly for the education convention at Los Angeles. Professor J. Lightfoot of the High school, was pilot of the party. This dignitary, by the way, bought the room of the steward for the trip, having been cut out of a cabin on account of the crowded condition of the vessel.

W. J. Lowrie manager of Spreckelsville, and family were passengers by the Coptic. Miss Lowrie will remain thirteen months at school in California. Two members of the local garrison, who have received their discharges, sailed by the vessel for home.

INTERVIEW REPUATED.

Consul Pratt of Singapore Secures an Injunction.

HONGKONG, June 2.—Spencer Pratt, United States Consul to Singapore, has secured an injunction in the supreme court of the Straits Settlements prohibiting the publication of John Foreman's new book on the Philippines in which appears the alleged interview with him in which he was said to have promised the Filipino leaders independence if they would help the United States against Spain. The ground of the injunction is that the publication as regards him is untrue and libelous.

TENNIS TOURNAMENT.

The Tennis Tournament Committee held a final meeting yesterday and closed up the business of the tournament. There was a full attendance at the meeting. All bills were ordered paid, and the final records of the tournament were officially made up. The tournament was one of the most successful ever held in the Islands.

PATRIOTIC ADDRESS.

Rabbi M. S. Levy will deliver a 4th of July address at Central Union church next Sunday evening. He will discuss the constitution, the flag and the application. The latter part of the address will be devoted to the Hawaiian Islands and their relation to the main body of the Union.

Rabbi Levy is an ardent friend of Hawaii and firmly believes that Congress will do the right thing by the territory in December.

THE WEATHER.

Weather Bureau, Panahou 1 p. m. Wind moderate northeast; weather clear; will probably continue the same. Morning minimum temperature 71; midday maximum 83; barometer 30.05; steady (corrected for gravity); rainfall 24 hours ending 9 a. m. .01; humidity 60 per cent 9 a. m.; dew point 63.9 a. m.

CURTIS J. LYONS, Observer.

ILL ON MAUI.

C. W. Dickey, the architect, has been quite ill of tonsillitis at Haiku. He was taken sick the day he reached Maui and at one time his case came to a serious stage. By the W. G. Hall today, however, it is learned that he is much improved and will try to return to Honolulu by the Claudine next Saturday night.

GAINING IN POPULARITY.

Monday night and a full house at the Orpheum only emphasizes the fact that its popularity is steadily on the increase. Everyone goes away pleased and they tell their friends that the show is worthy of their patronage. The same excellent program tonight. Go and enjoy two hours of solid amusement.

ONE APPLICATION RELIEVES THE PAIN.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by all dealers and druggists, Benson, Smith & Co. company, general agent, Hawaiian Islands.

UNCERTAIN SUGAR STOCKS.

Make an investment in low price dry goods that Kerr is now offering and it will give better returns on the money than uncertain sugar stocks. Never before has dry goods been offered at the prices he is now selling them.

AMARINO AND ANTIDOTE

TWO FAST FLYERS MATCHED FOR JULY 4.

Wager of \$500 a Side—There Will Not be Racing Program Next Tuesday, Only One Event in Sight.

The Jockey Club will not have a race meet at Kapiolani park track on July 4. This will be officially announced before tomorrow.

The reason given is that there are not sufficient entries to warrant an attractive program. Many of the races of June 10-12 have been withdrawn from the track already and the owners of others have given notice of their intention to pull out.

"I see no possible chance of a program," said John S. Walker, the club's secretary, this morning. "The 4th is only a week off today and we have not enough horses in sight to run an hour." During the day Mr. Walker will see other officials of the club and call the program off.

Last night a mile match race, to take place next Tuesday afternoon, was arranged between Forrest's Antidote and Ballyne's Amarino. The event will be for a wager of \$500 a side. There has always been sharp competition between these animals and the race will undoubtedly attract all the sports and be of wide interest.

TRAVELERS RETURN.

Mr. and Mrs. Fred J. Lowrey Arrive by the Coptic.

Mr. and Mrs. Fred J. Lowrey returned by the Coptic last night from China and Japan. In China they visited Hongkong, Canton, Macao and Shanghai, returning to Japan when the weather began to get hot. They were in Japan during the cherry blossom season, and saw and enjoyed this picturesque festival. They traveled extensively in Japan.

They express great satisfaction with the trip, but are glad to be at home again.

WHAT DIT IT.

"I have been subject to neuralgia for a number of years. It affected not only my head and face, but my stomach and back. After taking Hood's Sarsaparilla a short time I was relieved. I have now taken six or eight bottles, and seldom feel any symptom of neuralgia." M. H. MINCHER, Elsinore, California.

"There are none so blind as those who will not see!"

There are some people who cannot be convinced that white is white and black is black, because they are determined to have their own way about it. Very good. Such people go through life missing the great truths and the greatest happiness as well as comfort.

There are others again who are convinceable. It is to the men of this class that we like to talk about the merits of our clothing.

They are better than nine-tenths of the made-to-measure clothes turned out in this city and the equal of the other tenth.

NEW ROUTE FOR THE CANAL

NICARAGUAN COMMISSION GETS TO WORK.

Calls in a Body Upon the President. Professor Haupt Explains His Position and Will be Continued.

WASHINGTON, June 15.—The members of the new canal commission appointed to investigate the Nicaragua and Panama canal routes called on the President in a body this afternoon to discuss with him the work outlined. Commissioner Pasco of Florida was the only absentee.

The commission discussed with the President its plan for the work ahead and then proceeded to its temporary quarters. Admiral Walker was elected chairman. It will be about three weeks before the members of the commission start for the Isthmus.

Professor Haupt, the commissioner whose alleged interview announcing the delays in beginning construction of the canal placed his commission in jeopardy, said the President personally that the interview was not correct and the incident was closed.

The commission spent several hours together in general discussion and an interchange of views between individual members on various phases of the project. The probable inability of the commission to accomplish its work and draft its report in time to submit it to Congress the coming winter was referred to and the opinion expressed that the commission cannot dispose of the preliminary portion of its work, make careful, detailed examinations in the field and return here and place the results of the investigations in intelligible shape before the session of Congress beginning a year from next December.

The last two or three American commissions have devoted their attention exclusively to the Nicaragua canal, so that the scope of the present commission will necessarily involve a large amount of work hitherto untouched by our investigations.

FROM ALBUMEN.
M. Ferdinand Blumenthal recently described to the Academie des Sciences of Paris a process of making sugar from albumen, which may throw light on the obscure disease known as diabetes. He believes that twelve grammes of the sugar (a species of glucose) can be obtained from 100 grammes of albumen.

ALL RUN DOWN.
Without vital power the heart, stomach, lungs, bowels and all organs of the body would be unable to perform their functions and life would cease. The kidneys furnish this vital power; and when the nerves are all run down, the appetite disappears, rest is broken by sleepless nights and a tired feeling reigns supreme. Dr. Miles' Nerve will put things to rights. "Four years ago my nervous system was broken down from overwork and I was prostrated for many weeks. I could not sleep at night, had no appetite and could gain no strength until Dr. Miles' Nerve gave it to me. It is a grand medicine."

NOTES ON PARISIAN PRESS

LE PETIT JOURNAL HAS LARGEST CIRCULATION.

No Associated Press in France—Editors Always Color the News to Suit Their Own Views.

LONDON, May 28.—Paris has more daily newspapers than any other city in the world, and the most of them are of the yellow variety. In no other city exist, because each editor insists upon trustworthy and so corrupt. There is no association in France corresponding to The Associated Press of the United States for the purpose of gathering news. It would be very difficult for such an institution to prosper or even exist, because each editor insists upon distorting the facts to suit his own views, and hence he must depend upon his own representatives.

The most important of all the papers is Le Petit Journal, edited by M. Marini, a small four-page paper, published for the masses, without political affiliation, made up of short telegrams and news articles. It has a circulation of about 1,400,000 copies, and during the present crisis is anti-Semitic. Le Petit Parisien, edited by Jean Dupuy, a senator, has a circulation of about 700,000, and is independent in politics. La Libre Parole, a penny paper edited by Edouard Drumont, republican in politics, anti-Semitic, has a circulation of 200,000. L'Intransigeant, published by Henri Rochefort, sells for a penny and has a circulation of 200,000. L'Echo de Paris, another penny paper, edited by M. Sabatier, anti-Semitic, has a circulation of 150,000. L'Autorite, published by Paul de Cassagnac, a Bonapartist organ, has a circulation of 60,000. Le Soleil, edited by M. Herve, is an Orleanist publication, with a circulation of 100,000 and sells for 1 cent. Le Petite Republique, a 1 cent paper by M. Jaures, a socialist organ, has a circulation of 50,000. L'Aurore, edited by M. Clemenceau, has been brought into existence since the Dreyfus agitation especially for the purpose of advocating the prisoner's interests. It has already reached a circulation of about 80,000. Le Gaulois, edited by Arthur Meyer, an Orleanist, and clerical organ, sells for 3 cents a copy, and has a circulation of 35,000. Le Matin, which supports the government in all matters, has a circulation of 50,000 and is sold for 2 cents a copy. L'Echo de Paris, republican, is the organ of the army, a 2 cent paper with a circulation of 40,000. Le Journal, a literary rather than political publication, has a circulation of 150,000, and is anti-Semitic. There are the principal morning papers.

The leading afternoon paper, Le Temps, edited by M. Hebrard, consistently supports the government in all issues, gives considerable space to cablegrams and foreign mail correspondence, is sold at 3 cents a copy and has a circulation of between 50,000 and 60,000. Le Journal des Debats is a political and literary sheet, moderate republican, 2 cents a copy, with a circulation of 30,000. La Patrie, 1 cent, is a government organ, anti-Semitic, nationalist, advocating France for the French, has a circulation of 35,000. Le Solr, edited by Edmond Blanc, is published about 8:30 in the evening, contains all the latest telegrams and local news, has a circulation of about 20,000 and is anti-Dreyfus.

The principal illustrated papers of Paris are L'Illustration, 35,000 circulation; Le Monde Illustré, 15,000; Le Rire and La Vie Parisienne, 20,000.

The Paris newspapers have regular subscription circulations, served by carriers, but most of the copies are disposed of at booths placed at convenient points upon the boulevards and avenues, large enough to accommodate one person, who is usually a woman. There are some newsboys, but they are comparatively few in number.

A GOOD SIGN.
"Do you think Brierly is as much of a bicycle enthusiast as ever?"
"Oh, no; he has recovered. I heard him say the other day that he didn't propose to let any of the dealers impose upon him by selling him a new wheel while his old one was practically as good as new."—Chicago News.

TUESDAY, JUNE 27, 1899.

The Assistant Secretary of War Melick has published the statistics of revenue receipts and of the movement of vessels in the new possessions for the first four months of the year. The receipts in Cuba amounted to \$4,443,999 15; in Porto Rico \$481,128 27 was collected, and the Philippines turned in \$1,701,691 20, of which \$1,545,269 40 came from Manila. During the four months Cuban ports entered 1,385,009 of foreign tonnage, while 1,444,620 tons cleared. Porto Rico entered 532,272 foreign tonnage and cleared 463,324 tons. There was no return of tonnage from the Philippines. When the little trouble in the Philippines is cleared up, the revenue will expand enormously, for Manila does a gigantic trade, and there is a big back country.

THE LONG-LIVED MICROBE.

A paragraph has been going the rounds of the papers which is worth reproducing. It is vouched for by a Swiss paper, a writer upon which hunted up the information. If it is true it shows what a virulent and long-lived microbe the plague bacillus is, and how necessary it is to guard carefully against him. The story told by the Swiss paper runs as follows:

"In 1660, the Dutch city of Haarlem was devastated by the plague. Whole families perished, and among them a family of the name of Cloux, the members of which were buried in the Haarlem church. Thirty or forty years ago it was found that the masonry of the tomb was out of repair, and the vault was entirely rebuilt. The masons in charge of the work remained in the vault an entire day, and, strange to say, notwithstanding the fact that two centuries had passed since the epidemic, all these workmen were attacked with the infectious glandular swelling called 'bubo,' and had to undergo treatment at the hospital."

A case so extraordinary is most probably treated of in medical works. It is a well known fact that bacilli are very hard to kill, but that they should exist for 200 years seems hardly credible. Still bacilli will live even under most adverse circumstances for a long time, and there is no use in fooling about them. The Board of Health is justified in taking the precautions it has, even though it has caused great inconvenience and discomfort to a number of people. An ounce of prevention is worth many pounds of cure, and the Board of Health could afford to take no risks. Every sympathy is felt for the unfortunate people confined on the City of Columbia, but the safety of the city demanded the precaution. In matters of this kind it is well to err on the safe side.

THE COST OF LABOR.

Every now and again, someone who knows nothing about the matter, talks about the degraded condition of the laborer on our sugar plantations, and speaks of the low wages which are paid. Dr. Maxwell, in his pamphlet upon the Hawaiian Islands, which was prepared for the year book of the Department of Agriculture for 1898, and thus forms a portion of the report of Secretary Wilson to President McKinley, devotes considerable space to labor conditions, and it is extremely interesting to compare this report with an article by Richard Heath upon the "Prussian Rural Laborer," which has appeared in a recent number of the Contemporary Review. This becomes the more interesting as in the eastern Prussian provinces if the aboriginal peasants do not like the labor conditions, their places are eagerly labor conditions, their places are eagerly so that if the condition of the Prussian laborer is bad, the condition of the Gallician in his own country is infinitely worse.

The Prussian laborer receives in the Gumbinnen district, Pomerania 213 marks a year or \$53 25, reckoning a mark equal to 25 cents which is about 5 mills more than its real value. In Brandenburg he is better off and gets 444 marks per annum, or \$111. An average of sixteen districts gave an annual wage to the laborer of 333 marks or \$83 25 a year. A more recent writer says that wages in the Saxon villages amount to 180 marks or \$45, and fall as low as 70 or 80 marks \$17 50 to \$20 per annum. And to this is added "they live chiefly on rye bread." Moreover, this writer says that "rural proprietors, contractors and employes, seeing prices presently falling, seek to lower wages." These people work in the best fields which supply the best sugar of commerce.

Then again the Prussian laborer can keep no cow, and has to buy his milk out of his wages. The cottages are unsanitary and in bad repair. Many of them contain only one room. Says the writer who is quoted, "the little furniture they have is dirty and broken, the beds are in a miserable condition; and they possess only one, and in it, not unfrequently, three generations

sleep." The conditions resulting from such a state of things are not difficult to imagine and Mr. Heath gives many quotations. It may further be added that the work is from sunrise to sunset with time for the midday meal. This pittance is not an inviting one. Is it any wonder that there is constant emigration, that in the five years between 1885 to 1890, the agricultural districts of Germany lost 872,800 inhabitants. But what must be the condition of the Gallician and the eastern Pole when he gladly leaves his own country to take what the eastern German has left.

Now take a look at our own wages. No one for a moment argues that a plantation laborer's life is an ideal existence, but his rewards are very much better than his German confrere gets on the beet fields of Prussia. Dr. Maxwell gives a table from the pay roll of Ewa plantation. From this table all skilled labor is excluded. According to this the Portuguese received during the month of December, 1898, \$27 55 per month or \$330 60 a year; contract Chinamen \$15 16 per month or \$181 92; contract Japanese \$15 66 per month or \$187 92 per year; day Chinese \$17 73 per month or \$212 76 per year, and day Japanese \$18 04 per month or \$216 48 per year.

To this must be added free lodging, free water, free fuel and free medical attendance. There is also hardly a plantation where the laborers do not have garden patches where they raise vegetables, which add largely to the variety of their food, and where ever Portuguese are, there will be found the ubiquitous goat, which supplies milk, and the cost of feeding the goat is nil. Moreover as Dr. Maxwell says "the Hawaiian laborer requires less clothing, and what is more important he does not need to lose one day in the year from weather."

Taking all these things into consideration, Dr. Maxwell considers that the value of the wage including money and free house, etc. of the average unskilled laborer in Hawaii is 70 cents per day or \$219 10 for the 313 working days of the year. Now the highest wage for the unskilled laborer in Pomerania was \$111 per year, while the lowest wage was calculated at from \$17 50 to \$20 per annum. To people who wish to make a preliminary study of the subject, the article in the May number of the Contemporary Review, and Dr. Maxwell's terse statements in his report to Secretary Wilson will be valuable, and serve to sweep a good many preconceived misconceptions.

AN EXPERT OPINION.

Clement Routier, the French expert, whose report was published in The Star, certainly gives a good opinion upon our coffee. He classes the samples submitted to him as among the choice kinds, and considers its aroma equal to Mocha, though the flavor is not so mellow. Of course we know perfectly well that our coffee is a good article, and that it has locally a high reputation. When once one has become used to Hawaiian coffee, the inferior grades which are produced in Brazil and in South America, are soon detected, and rejected. There is no doubt about the excellence of our coffee.

But it is one thing to know ourselves that our coffee is good, and quite another thing to have other people acquainted with the fact. The excellence of our coffee is known in the San Francisco market, it is desirable that it should be known in many other places. To have obtained a favorable opinion from a Parisian expert is therefore valuable, and the more opinions we get, the better.

It is not enough, however, to have established a good name for our coffee, it should be produced in sufficient quantities to meet the market demand. It is no use having a name for good coffee and be unable to put an adequate supply on the market. A good deal of our best coffee on the San Francisco market sold lower than it should, simply because there was not enough of it to sell alone. It had to be mixed with other coffee.

The advice which Mons. Routier gives with regard to grading our coffee is good. He suggests three classes. The round bean, the large bean, and the medium bean. All goods which are sent to market are the better for being attractively put up, and if the different grades of beans are separated and classified, they look better and customers can obtain the very best we have at once, without searching for it through several bags.

The thanks of our coffee growers are due to Consul Vossion for the care he has taken to have samples of our coffee examined by proper experts, and the advice given should be followed.

WEDDING AND RECEPTION

MR. CRANE AND MISS JENNINGS, MAN AND WIFE.

Many Friends Congratulate the Happy Young Couple at Their Beretania Street Residence.

Charles S. Crane and Miss Hazel Jennings were married at St. Andrew's cathedral at 8 o'clock last evening. For the occasion the church was prettily decorated and was filled with the friends of the popular contracting parties. Rev. Alex. Mackintosh officiated. Henry Crane was best man and Miss Clara Lowrie, bridesmaid.

Immediately after, a reception was held at the pretty residence of Mr. and Mrs. Crane on Beretania street, beyond Pihoko. The bridal party stood on the front lanai beneath a bower of national flags and evergreens. Guests were received by Mr. and Mrs. Jennings, father and mother of the bride. The bridal party stood a few feet away toward the entrance to the parlor, where their friends were received. More than 200 people congratulated the happy young couple.

The display of presents was one of the most elaborate ever seen in Honolulu. Several tables were filled with them and there were numerous others in various parts of the house. A solid silver service from employees of the Gazette company attracted a great deal of attention. There were gifts from the Myrtle Boat Club, the employees of the Mutual Telephone Company and other organizations, with which the groom is connected. Several beautiful presents bore the cards of the Lowries of Spreckelsville, and others came from Ewa, the home of the bride.

The reception continued until 11 o'clock. Music was a feature of the evening. The wedding cake was cut and passed around and a light collation was served in a special lanai.

Mr. and Mrs. Crane have a very pretty little home. The house is simple but is a model of convenience and is handsomely furnished. It looked especially inviting last night with its bright lights, cosy apartments and its brilliant assemblage of friends of the young couple who will live there.

A CROWDED SHIP.

Premiums Paid for Officers Quarters on the Coptic.

The Coptic did not get away from the wharf until 1 o'clock this afternoon. The reason was that a large quantity of bananas to be shipped by her did not get to the wharf until late.

The Coptic went away with her passenger accommodations crowded to the utmost. Very few of those here who wished to sail by her were able to get accommodations. Some very handsome premiums were paid for officers quarters.

ST. ANDREW'S ALUMNI.

Former pupils of St. Andrew's Priory will meet at the school building at 10 o'clock next Saturday morning, July 1. This is the third meeting of the graduates. It is urged that as many as can be present, as matters of importance to the graduates will be discussed.

We Know By Experience

Wise men use the experience of others and make it their own.

Those who have taken Hood's Sarsaparilla are the ones who are competent to speak of its merits.

Thousands of these people say Hood's Sarsaparilla has cured them.

The testimonials of cures by Hood's constitute a vast mass of testimony which proves the power of this medicine to cure a great variety of diseases.

These cures often seem marvelous, yet they are perfectly natural and are easily explained. They are the necessary result of purifying and enriching the blood.

Pure blood is the foundation of health. Hood's Sarsaparilla is the One True Blood Purifier and cures disease by purifying and enriching the blood.

It possesses peculiar curative power, that is, it cures when other medicines cannot cure, because it is peculiar in combination, proportion and process.

That is all there is to be explained about the cures by Hood's Sarsaparilla.

If you have faithfully tried Hood's Sarsaparilla you know how it is yourself; if you have not tried it, why not do so today?

"I have been troubled with scrofula all my life, and it affected my eyes so that I was obliged to remain in a dark room. I began taking Hood's Sarsaparilla. Now my eyes are so strong that the light never troubles me, and my health is good."
MRS. CARRIE WEEKS, Lompoc, Cal.

Ayer's Hair Vigor

What does it do?

It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.

It cleanses the scalp from dandruff and thus removes one of the great causes of baldness.

It makes a better circulation in the scalp and stops the hair from coming out.

It prevents and it cures baldness.

Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.

It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

PROGRESS OF AUSTRALIA

ENORMOUS GOLD PRODUCT IS REPORTED.

Population Shows Steady Increase, Proportion of the Sexes Remains Very Even—Careful Statistics.

The external trade of the Australian colonies continues to be of fair volume, says Bradstreet. The import trade has not, however, fully recovered from the great blow inflicted upon it by the crisis of 1893. On the other hand, exports have increased, not withstanding bad seasons and low prices. The increase has, however, been principally in gold. The total exports of the seven colonies in 1898 amounted to \$78,458,933, against \$72,213,526 in 1897, and the total imports to \$68,541,872, against \$65,599,530.

The Australian production of gold for the year 1898 was equal to about 3,250,000 fine ounces, of the value of about \$13,500,000, all of which was shipped to over sea destinations. The value shows an increase of about \$2,500,000 as compared with 1897, which, in its turn, showed an increase of about \$2,000,000 as compared with 1896. That is to say, the production has increased—largely owing to the great developments at Kalgoorlie, in Western Australia—by about 50 per cent in the short period of two years.

Each of the Australian colonies has a well organized statistical department, and several of the government statisticians are possessed of very considerable ability. Those for Victoria and New South Wales have commenced to publish the 1899 statistics, bringing down to the close of 1898, while in agricultural production they include the season of 1898-99, which may be regarded as ending on March 31. One of the most important tables, just published, is that of the population of the Australian colonies. The movements year by year are of comparatively little interest, but the period from, say, the date of the last census, April 5, 1891, is one sufficient to afford a fair view of the subject. On the census date the population was 3,809,895, and at the close of 1898 it was estimated at 4,476,998, the estimated increase thus being 667,100. The numbers of the sexes are: Males, 2,386,015; females, 2,090,983. The movement in total population is not so rapid a rate as in former years, and, indeed, immigration from the United Kingdom is now on a moderate scale only.

AGAINST BIG ODDS.

Twenty-five Soldiers Fight Through 300 Filipinos.

MANILA, June 10, 6:45 a. m.—Twenty-five American soldiers who were engaged in reconnoitering in the fortified hills in the vicinity of Morong yesterday were attacked by 300 of the insurgents. The Americans fought their way home through the enemy and inflicted serious losses on them. The chief scout accompanying the Americans was killed. Five insurgents were captured and taken to Morong.

The enemy is very active. The garrison cavalry and the North Dakota infantry are employed in throwing up intrenchments.

TO FIGHT SHARKEY.

NEW YORK, June 12.—It is practically determined that Jim Jeffries and Tom Sharkey are to battle for the heavy weigh championship of the world. There has been no meeting of the principals or representatives and no decision as to the time or place, but there is a general understanding on the material fact that the men are to meet in the conventional roped arena and the time is indefinitely set down for September or October.

RUSSIAN WHEAT CROPS.

Holders of Grain in England are Holding Out.

LONDON, June 11.—Prolonged droughts in Southern Russia have made holders of grain in England reserved and they are holding for higher prices.

Cadessa reports that winter wheat is greatly damaged and spring wheat suffering to some extent. The Roumanian crops are much improved by abundant rain.

France, Italy and Austria report practically favorable conditions, and Germany's report is much better than at this season last year.

KIDNAPPER SENTENCED.

NEW YORK, June 15.—George Beauregard Barrow, the principal in the kidnapping of Marian Clark, the infant daughter of Arthur Clark of this city, was today sentenced to fourteen years and ten months' imprisonment.

IT CURED HER COUGH.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, MRS. MARY A. BEARD, Chamberlain, Ark. KRUGER'S PROPOSALS.

Outlanders do Not Consider the Offer Adequate.

JOHANNESBURG, June 16.—at the mass meeting of Outlanders held here today for the purpose of confirming and supporting the proposals of Sir Alfred Milner, the British high commissioner, a resolution was adopted declaring that "no sentiment will be satisfactory which does not provide for the recognition of equal political rights to all."

President Kruger's proposals were considered wholly inadequate to satisfy the just demand of the unfranchised, while Sir Alfred Milner's were indorsed as the minimum acceptable. The meeting was orderly, and was attended by 5000 Outlanders. The Government issued a notice advising the enfranchised burghers to allow the meeting to proceed with disturbance.

NOTICE

To Ewa Plantation Stockholders

It having been voted to increase the capital stock of the Ewa Plantation Company to \$5,000,000 and to issue certificates of stock of the par value of twenty dollars (\$20.00) each, for the full amount thereof to the present holders of the stock, now THEREFORE the stockholders are hereby notified to at once produce and surrender their present certificates of stock to the Treasurer of said Ewa Plantation Company in order that such exchange into \$20.00 shares may be made. It is requested that the Stockholders make CLEAR INSTRUCTIONS IN WRITING to the Treasurer as to the number of certificates, and number of shares each, in which he may wish his certificates issued. It must be borne in mind that there will be due on each new share issued (covering the increase of stock voted) a charge for revenue stamps as required by law.

Notice is further given that in all cases where such new issue and allotment will involve fractions of shares, the persons who may become entitled to such fractions must within thirty days make such arrangement either by sale, or purchase of other fractions, as will obviate the issue of fractional shares, whereof notice must be given the Treasurer, or such fraction of shares will be sold at public auction and the proceeds divided among those entitled thereto.

AN ADVENTUROUS DUKE

LUIGI DE SAVOIA'S EXPEDITION TO NORTH POLE.

Royal Adventure Which Promises to be of World-wide Interest—Exploring Vessel named Polar Star.

The adventurous duke of the Abruzzi, who has set at naught the easy-going traditions of his family by undertaking a journey to, or toward, the north pole is now in Christiania superintending the final arrangements for his voyage. Almost up to the hour of his departure from Rome there were croakers who made light of the duke's determination, which they declared would never carry him so far as a respectable beginning; but those who know him have from the first start taken the polar expedition more seriously.

The little vessel, the Jason, purchased for this expedition and renamed the Polar Star, is now receiving the finishing touches at Laturvig, the home of the famous shipbuilder, Collin Archer. The hull has been strongly reinforced in anticipation of struggles in the ice, and the duke has given the outfitting of the ship his personal attention, to the end that not a thing that is needful may be omitted.

This royal expedition has an interest all its own, and the fortunate or unfortunate ones—as one may choose to regard them—who accompany the duke will have a story to tell, if only they survive. Twenty persons will accompany his royal highness—Chevalier Umberto Cagni, captain of the corvette, and second in command; Count Quirini, lieutenant; Dr. Cavalli-Mollinelli, ten sailors from the Italian navy, ten Norwegian sailors, four mountaineers and an Eskimo guide. Captain Cagni is one of the most prominent officers of the Italian navy; he was also with the duke in his Alaskan tour. Count Quirini served with distinction in the insurrection in Crete and wears the silver medal given for military valor.

A few details as to the baggage carried by the explorers will show how much intelligence and foresight this prince of Savoy has sent about his work. The necessaries for the voyage are stored in about 1500 boxes, each weighing about fifty pounds and so constructed that in case of need they may be carried conveniently. The boxes are of four different colors, according to contents, a scheme whereby it will be possible to make a rapid sorting of supplies in case any have to be abandoned. For the 120 dogs, horse meat, made into cakes with fat and flour, is provided, and every variety of food taken for the explorers has been subjected to a rigorous analysis. Every box is tinned over and soldered so as to render it impervious to moisture.

The duke takes along a goodly assortment of musical instruments and games to beguile the Arctic nights on board the Polar Star, and it may be judged that he means to make discoveries, for 1000 bottles of wine, strictly for purposes of "celebration," are included in the outfit.

He is only twenty-six years old, this adventurous duke of the Abruzzi, and he is considered as the manifest of the three sons of the King of Amalthea. In intelligence and common sense he is certainly the superior of the rather effeminate duke of Aosta and the giddy and fun-loving duke of Turin. He is the youngest son of the first wife of King Humbert's brother, and was born in Madrid in 1873, being the youngest child in which his father reigned as king of Spain. His mother, Maria del Pozzo de la Cisterna, died three years after his birth. The two passions of the duke have always been sailing the sea and the climbing of mountains, and he is never happy unless he is engaged in one of these pursuits. When he is not climbing a high mountain he is taking a long ocean voyage.

As a parting souvenir the king gave him a powerful marine glass, while the queen remembered him with a "necessaire," where he finds gathered together in a small space all the toilet articles a man can possibly use on a voyage to the pole. The prince of Naples gave him thirty volumes containing a collection of histories of the most celebrated voyages that have been made in recent years toward the frozen north—Columbo de Belimere, in Chicago Record, June 13.

The duke visited Honolulu on board the Christoforo Colombo three or four years ago.

PRODUCTIVENESS. Kipling's Wonderful Output of Books and Stories.

A critic has lately called attention in Literature, to Kipling's astonishing output in published books as compared with that of other celebrated authors of the same age. Among those whose career was terminated early one naturally thinks of Byron, who died at thirty-six; but the writings of Byron may easily be gathered into a single volume. Scott at thirty-three—Kipling's present age—was only writing the Lay of the Last Minstrel, Marmion, The Lady of the Lake and Rokeby; he did not begin his splendid series of novels until he was forty-three.

Dickens at the same age as Kipling had finished only his Sketches by Boz, Pickwick, The Old Curiosity Shop, Barnaby Rudge, Oliver Twist, American Notes and Martin Chuzzlewit. Thackeray had written but seven books, and these not famous ones. Hawthorne at three-and-thirty had produced only Twice Told Tales. Cooper had only Precaution and The Spy to his credit as an author.

Irving had only two books and Howells only three, at the same period of life. The titles of Kipling's printed works in prose and verse would fill several volumes. Already an American house is bringing out a library edition of his collected writings; and, as a further reminder of his fame and rank as a classic, the first edition of one of his early works is almost unobtainable, and a copy of it commanded a high price the other day in London.

COMPENSATORY ADVANTAGES. "I rather like this house cleaning time of year."

"You don't mean it!"

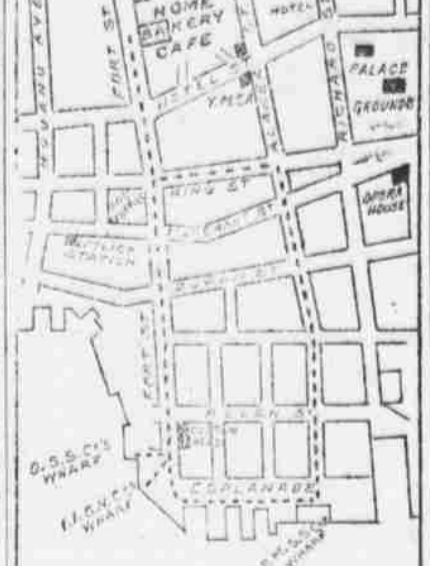

"Yes; when I get home at night my wife is so tired that she lets me have my own way about everything."

remembered that our stock represents the finest ready-to-wear clothing made in the United States—stylish, serviceable, becoming clothes that have nothing in common with ordinary "ready made" garments, nor with the kind of goods turned out by the average custom tailor.

We have recently added to our stock the lines made by Hart, Schaffner & Marx of Chicago, in addition to our Stein-Bloch goods. Do not pay out money for awkward, old fashioned ready made clothing when you can have the H. S. & M. goods for the same cost. AN INQUEST.

Chief Justice of England Has to Appear as Witness.

The lord chief justice of England was a witness at an inquest which was held at his residence, Tadworth Court, recently. Edward John Charles Leeming, who was on a visit to Lord Russell, was found dead in his room on Thursday morning, and medical evidence showed that death was due to suffocation. Mr. Leeming suffered from epilepsy, and it was believed that suffoca-

"Time is Money"

Is well illustrated by the hurried business man in his fruitless search among the accumulation of papers in his desk for an important document which he has just five minutes to produce. "A place for everything," is an excellent motto. This is what our new desks, with their latest, up-to-date, time-saving devices, represent in reality. All styles and all prices in the lot just received by the "Mohican." Also a large assortment of

tion was due to his falling on his face during a fit. The coroner remarked that he held the inquest because he was bound to be no respecter of persons. The lord chief justice: I would have been sorry if you had done anything else. In my official capacity I am chief coroner of the Kingdom, and I say you did quite right in holding the inquest.—London Daily Graphic.

KODAKS.
You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.
Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.
Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
