PHILIPPINE PORTS OPENED TO COMMERCE.

Action Results in a Great Revival of Business in Manila—Prospective Boom in Hemp.

MANILA, June 28, 7 a. m.—Major-General Otis has ordered the opening to trade of many important ports which have been closed since the outbreak. These include San Fernando, on the west coast of Luzon; Aparri, on the north coast; Curimao and all ports in the islands of Samar and Leyte. Many ships used in inter-island commerce have been tied up in the harbors for months, and the shippers and merchants have been urging the Government to raise the blockade. When the decision was made known yesterday the scene in the custom house was as animated as the floor of an American exchange. It was a busy day. Shipowners rushed to get their clearance papers.

There will be a great boom in the hemp business, which has been at a standstill. The ships will race to bring the first cargo before the demand weakens. As there is a heavy export duty on hemp, this will greatly increase the revenues. The interests of the natives, as well as the merchants and traders generally, led General Otis to take this action. Delegates from the southern islands told him that the cessation of business was bringing much suffering to peaceful inhabitants.

Gunboats will protect the shipping in some ports, but elsewhere shippers must risk confiscation by the insurgents, who exact heavy tribute for all ships they permit to sail.

SIXTY THOUSAND IN LUZON BY SEPTEMBER.

Plans of the Government to Wage Active War at the Close of the Rainy Season

WASHINGTON, June 27.—The President today, after a conference with Secretary Alger, sanctioned the work done by the War Department in the preparation for enlistment of a full provisional army of 35,000 men. Reports of recruiting officers bring confidence that the army can easily be recruited to the full strength of 100,000, and no general call or apportionment of troops between States will be issued.

By the close of September it is expected not to have less than 60,000 men in Luzon. At the close of the rainy season an aggressive campaign will be waged. The talk now is of making Otis Military Governor and Lawton commander of forces in the field. No distinction will be made between new recruits and those now in the service. Under the act authorizing a temporary increase of the army the full force of 100,000 are to be considered regular troops.

SUGAR WAR MAY NOW BE FINALLY SETTLED.

Report Not Confirmed, but General Anxiety to Make Money Gives It Strength.

NEW YORK, June 28.—The Tribune says: The report that the sugar war has been practically settled finds many believers in Wall street, although it has had no official confirmation. Wall Street Topics, discussing the losses incurred in this contest by the sugar company and its competitors, will say in its issue to-day:

The cost of the war to the sugar trust (the American Sugar Refining Company) cannot be far from \$10,000,000. The cost to Arbuckle Brothers and to Doscher (New York Sugar Refining Company) is insignificant compared with the cost to the sugar trust.

Arbuckle Brothers and Doscher are willing to follow the trust in advances, for they are anxious to make

money. They will co-operate with the trust should it make a difference of 90 cents, which was the difference prevailing before the sugar war began.

PROTECT AMERICAN INTERESTS

The Cruiser Chicago Sails for Delagoa Bay.

WASHINGTON, June 27.—The cruiser Chicago has sailed from Tamataree, Madagascar, for Delagoa. The ship was on her way around the Cape of Good Hope to Brazil, but owing to the unsettled state of affairs in the Transvaal she will be retained in that vicinity as long as may be necessary to afford protection to the American interests in that quarter. These interests are considerable, both in the number of American residents in the Transvaal engaged in mining operations and in the volume of American capital employed in the mining industry.

WORDS! WORDS! WORDS!

It is nauseating to hear the parsons and rabbis, the generals and admirals, the professors, newspapers and professional politicians, daily telling the world that America is the land of the "Free," where all men are equal and no distinction of class exists.

They do not practice what they preach these screeching patriots, and the worst feature in the matter is that they know it. They realize fully that when they talk about equality and true democracy they are jaunting hypocrites who in their own hearts cannot command the respect of themselves.

Money is everything in the United States, and the person possessing the golden key can open the door to the inner circles of cultured men and women, to the exclusive upper set in any part of the world and to the hand of any "free-born" damsel—if the key is gilded sufficiently enough.

Of course all know the sad truth of our assertions, but what brought it to our mind was the words of Rabbi Levy, the eloquent orator of the 4th of July, when he told his audience that the army of the United States was the type, the only democratic army in the world. That same evening the 4th of July committee had arranged a public ball at the Drill Shed. It was a very democratic assembly which honored the ball with its presence and, among them were the men of the army and navy. Among the latter were a number of sailors from the Iroquois dressed in civilian clothes and one who went there in the clean and pretty uniform belonging to his rank as an able seaman. The wearer of the bluejacket was a fine looking, respectable, sober young man. May be he did not own any civilian clothes, or may be he preferred to attend the ball in honor of his country's great holiday in the uniform in which it may be his privilege to fight, bleed and die for his country. But he didn't go to a ball in that dress. Faugh! it is simply utterly disgusting to the "democratic" officers who displayed their uniforms. At least the young fellow, after remaining in the hall for some time, talking with his friends and watching the dancers, was approached by a very polite gentleman connected with the U. S. Consulate and told in gentle terms that "officers" objected to his presence because his uniform was distasteful under the circumstances. Of course he withdrew at once. He did not ask the consular gentleman who the officer was who objected to Uncle Sam's uniform in a ballroom. He didn't say that it would have been in better form if the Reception Committee had stopped him at the door and said: "You cannot enter in that suit of clothes." In fact, he said nothing but left. What right has a bluejacket to have feelings or be sensitive to vulgar insults from superiors?

But that is the democratic army and navy we hear so much about and we presume that hundreds of instances could be mentioned similar to the one related and all tend to confirm us in our opinion that the fine words of Rabbi Levy and others are only words and wind.

TOPICS OF THE DAY.

It is twelve years ago to-day since the constitution of 1857 was promulgated. The constitution which was read at a revolutionary meeting on the 30th of June 1887 provided for a republic but between that day and the 7th of July somebody was "seen" and the new constitution materially amended. How many oaths were broken in those days and how many since then? Will the C. J. tell us?

Our Board of Health deserves credit for the determined stand taken in regard to the quarantining of vessels from Asiatic ports. The Nippon Maru which was not allowed to enter here was quarantined for 13 days in San Francisco, and the America Maru due here on the 5th was to be quarantined for 14 days in Nagasaki. We certainly cannot do better than follow the example given by our neighboring ports.

Let us have another holiday. On the 12th of August we can celebrate the Admission Day of Hawaii. Admission day is a great holiday in all the States of the Union, and we are supposed to be ahead of the bay-seeds on the mainland. Let us have another jubilee, a parade, speech-making and similar jollifications. There may even be some old bombs left in the storehouse for a pyrotechnical display. Hurrah for the 12th of August.

A sailor from the Argentine man-of-war made things lively for a while yesterday afternoon on Queen street. He smashed a window in the office of Henry Waterhouse & Co., tried to take a shingle off the roof with a knife and wanted to know what the "bears" were trying to do anyhow. An attempt to pacify him with Niuhii stock or paid up "Lava (a)" failed and he finally had to be knocked down by Sam Mahuka of baseball fame and delivered to the police. It was a case of Stock Exchange demerit, but the "bears" nearly "had it."

CORRESPONDENCE.

The Eagle Screeches

ED. THE INDEPENDENT:—

It was rather a bold action for a German to raise his country's flag within seven miles of the glorious stars and stripes on the Fourth of July, when the blood of every son of Uncle Sam was at boiling heat and ready to fight the world. Has that German forgotten the marvelous victory of Uncle Sam's boys over Spain, the most powerful nation in Europe—a nation whipped and prostrated in about three weeks? And did she not clean out Simoa's powerful fighters in about two days? And now when the powerful nation of the Filipinos with nine million sturdy fighters, are about to succumb to Uncle Sam's brave boys. It took only one Yankee to capture Hawaii! In fact, Europe stands aghast at the present time, not knowing where Uncle Sam will next strike with his victorious armies. If she strikes Europe, she will walk through it in about one month, carrying death and destruction wherever opposed. And also, Uncle Sam's navy is the wonder of the world, and could clean out the combined navies of England, France, Germany and Russia in one straight fight. The American Eagle is the grand noble conquering bald headed storm bird from Jupiter, and don't you try to oppose him.

Lord Plunket's Wit.

Lord Plunket is said to have acutely felt his forced resignation of the Irish Chancery and his superseding by Lord Campbell. A violent tempest arose on the day of the latter's expected arrival, and a friend remarked to Plunket how sick of his promotion the passage must have made the newcomer. "Yes," replied the ex-Chancellor, ruefully, "but it won't make him 'throw up the seals.'"—Short Stories.

Sympathy for Orphans.

Many anecdotes of pithy and facetious replies are recorded of a minister of the South, usually distinguished as "Our Wattie Dunlop." On one occasion two irreverent young fellows determined, as they said, to "taigle" (confound) the minister. Coming up to him in the High street of Dumfries, they accosted him with much solemnity. "Maister Dunlop, hae ye heard the news?" "What news?" "Oh, the devil's dead." "Is he?" said Mr. Dunlop, "then I maun pray for two faitherless bairns."—Short Stories.

Von Deiderichs Gets a Letter From Dewey.

VANCOUVER, B. C., June 27.—Admiral Dewey has contradicted the story of his reported feelings and statements at the time against the German at Manila.

Admiral von Deiderichs received a letter from Dewey, which explained briefly that he had not made the statements that were attributed to him about blowing the Germans as well as the Spaniards out of the water if the former interfered with the conduct of affairs in any way.

The North China News says that it was informed that as the German admiral was passing through Hong-kong homeward bound in the Prince Heinrich he received the letter from Admiral Dewey expressing the latter's regrets at the unfounded statements made as to their relations at Manila. The German admiral asked for permission to publish the letter and this was readily granted. A peculiar future was that when this announcement was made from Admiral Dewey on the German ship the Germans actually raised hearty cheers for the Americans.

Accident or Suicide.

Harry N. Almy, the local agent of the Washington Light, is a man prostrated with grief.

Yesterday he and his young wife were as happy as a pair of turtle-doves and this morning he found himself a widower, deprived of the sunshine of his life.

Mrs. Almy, a young woman of about 25 years of age arrived here on the 11th of June in the S. G. Wilder to join her husband, who for some months had been established in business here. The Almys were married a year ago in San Francisco and the husband came to Honolulu to see whether there was an opening here for his business as agent of the Washington Light.

He met with success in his enterprise and sent for his wife who immediately responded to his call. Last night Mr. Almy was not feeling very well and he and his wife decided to take a drive and enjoy the balmy air. They visited a few friends and returned to their residence on Young street about midnight. Mr. Almy went to bed immediately while the young wife lingered in the dining room. When she entered the sleeping room she complained of being tired and sick. The husband did not think anything serious was the matter and laughed at her. She continued to complain, however, and he sent a telephone message to Dr. Miner, asking him to come but saying that he did not that it was a very serious affair. The condition of Mrs. Almy became alarming and the husband sent an urgent message to the doctor who arrived as soon as possible, but too late as the young woman had passed away.

On the dining room table a vial containing lysol, a powerful poison, was found and a glass from which a dose of the deadly stuff had been taken by the unfortunate woman. No reason has appeared why the deceased should desire to end her life, and it is a plausible theory that she wanted to use some medicine before retiring and by accident used the lysol which was prescribed for her for external use.

Deputy Marshal Chillingworth was summoned and this morning the following jurors were called to attend the coroner's inquest: E. O. White, L. F. Prescott, Wm. Love, A. Peyster, L. Marks, F. L. Dortch.

PELE AT WORK.

Lava Flows In Lurid Light From Mokuaweoweo.

The W. G. Hall brings the news that an eruption has taken place from Mokuaweoweo, and that two streams of lava are flowing from the crater, one directing its course towards Olae, and the other pushing its way towards Kau. The information is apparently correct, and is endorsed by all the passengers on board the steamer. Rumorists have frequently announced volcanic eruptions but they did not come true. In this instance there is no doubt that a severe eruption has taken place.

The last flow from Mokuaweoweo took place in 1880, when Hilo was threatened and Princess Ruth stopped the disastrous flow by offering costly brandy and fat pigs to the fiery goddess. The lava-flow stopped immediately—it would probably have done so without pig and brandy, but as a matter of fact it stopped.

If the sugar season does not dispose of all available steamers of the inter-islands a boat will probably be forwarded at once to learn whether this eruption is genuine or only a repetition of the old cry of "Wolff wolff!"

If Mokuaweoweo is really spitting forth fire, rocks and lava, the sight must be a grand one, and we hope the younger generation will be given a chance to see the great mountain while Madam Pele is angry and is shovelling coal on the fire, which we have always poured on her face and body.
