The Mass Meeting.

The Wilcox farewell mass meeting at the Drill Shed last evening fell flat. The trio composed of Wilcox, Kaulia, and Kalauokalani were the representative politicians in the hall. Representative Beckley did not appear on the platform, nor any other members of the House.

Bipikana was there shaking his cane at the back of Bob, and there were a few newspapermen and the Princess with her ladies-in-waiting. Wilcox's address was a rehearsal of the usual I Am song, and he told all about what he is going to do and will not do in Washington. The meeting was attended by about sixty people, many of whom said "farewell" by leaving, before the show was over. Wilcox said, he would feel sorry if the voters should send a fool to Washington as Delegate, and the echo from the voters answered "We Am!" The following resolutions were read and of course passed without a dissenting voice:

Whereas, Henry E. Cooper, an acting governor of the Territory of Hawaii, has submitted his annual report for 1901 to the Secretary of the Interior, and

Whereas, the said report under the subhead "Labor," the acting governor has made statements absolutely at variance with the actual conditions existing in these Islands, conditions which no man holding the high office of governor and interested in the advancement of civilization and the Americanizing of this Territory could either ignore or dare to deny, and

Whereas, the entire report under this subhead is couched in form inviting special legislation in the interests of the classes; now, therefore, be it

Resolved, that the members of the Home Rule Republican party in mass meeting assembled do urge the Territorial Delegate to Congress to use every effort to defeat the object of legislation invited, and to devote his entire energy to securing the re-enactment of the Asiatic exclusion laws, because:

First—Ninety per cent of the present Asiatic population originally came to these Islands as contract laborers.

Second—Of the total Asiatic population there are but thirty-five per cent employed on sugar plantations.

Third—Not to exceed twenty-five per cent of the remainder work in rice fields, the other three-fourths being active competitors in every mechanical and industrial occupation as well as in mercantile pursuits, with Americans in this Territory today, and this circumstance, together with our Hawaiian land laws, are the potent factors preventing the influx of desirable American farmers and mechanics.

Fourth—There are in these Islands today more than 12,000 Asiatics who had the government acted in good faith would now be in their native land, and we affirm without fear of contradiction that any condition looking to the return of any laborers to the place of their nativity would be violated as was the law in the case of these coolies.

Fifth—The immigration of unskilled labor has not ceased. There is a constant stream of Porto Rican laborers coming to these Islands, assisted to these shores by the Planters' Labor and Supply Company. These assisted immigrants are a most undesirable addition to our Island community—illiterate, impetuous, of low vitality and lower morals. Many of them occupy prison cells, either for crimes committed or for vagrancy, thus through special privilege another dangerous and burdensome element is injected into our excessively cosmopolitan community, to be assimilated at untold sacrifice to the com-

munity at large—while creating conditions favorable to "the successful and economical production of sugar."

Sixth.—The white man can speak for himself, but we are satisfied that he, like ourselves, would work anywhere and at anything that will yield him the value of his labor.

That the white man will not stoop to the economic and associations of the "camp" or "barracks" is a matter to his credit.

When "American" land laws pave the way to "American" occupation of this Territory, the Hawaiian American will give cordial greeting to those coming across the water to live in our midst and "raise cane."

Seventh.—The relief, if any is required, is at hand. We already have a large surplus of Asiatics in our midst. A slight increase of wages will bring all that are required on the plantations.

It was passed as read. Then the following resolution was read and passed as read:

Whereas, the governor of this Territory is personally soliciting loans on government account, from private sources, pledging therefor the public credit and guaranteeing that, as heretofore, illegal acts of this kind will be ratified and provision made for their payment by the next legislature; and

Whereas, the superintendent of public works has been and now is making agreements, in advance of legislative action, whereby the credit of this Territory is pledged to private corporations for materials to be furnished and labor to be performed (said agreements being themselves violations of law in that there has been no call for tenders as required for work or materials to the value of five hundred dollars (\$500) or over; and

Whereas, these and kindred acts of the executive are in plain violation of law and subversive of those principles of democracy contemplated by the constitution of the United States and the Organic Act creating the Territory of Hawaii; and

Whereas, there is ample opportunity for promptly creating the legal conditions necessary for meeting present requirements without resort to the questionable practices herein complained of; now, therefore, be it

Resolved, that the Territorial Delegate to Congress be respectfully requested to inform the President and Congress of the United States of the actions of the executive of this Territory, and to request the removal of Sanford B. Dole for lack of ability to understandingly interpret the constitution and laws given him for guidance.

Resolved, that the Home Rule Republicans in mass meeting assembled give notice to those advancing moneys or creating other obligations to be settled by the next legislature, that they had better secure the payment of any obligation by seeking a personal bond from those contracting for anything for which specific appropriation has not been made, in the name of the government.

Resolved, that the Representatives and Senators of this party will go into the next legislature pledged to repudiate any unlawful acts of the executive, and make him and the heads of departments personally responsible for obligations created by them.

Both were then adopted together, and three cheers were given.

AN EXTRA SESSION.

Judge Humphreys says from the Bench that the Treasury is "busted." The Auditor declines to sign warrants under the appropriations for the Maternity Home. Treasurer Wright and his colleagues want an extra session. The Advertiser says editorially that we are in very prosperous circumstances. The Board of Health says "not a bean," and Governor Dole trims his whiskers, draws his salary and says "no extra session."

The Kapiolani Maternity Home is one of the most needed institutions here. Liberal support from the government to the Maternity Home and the Queen's Hospital should always be given. We are pleased at reading the following opinion rendered by the Attorney-General in regard to the Auditor's nonsensical refusal to sign the warrants for appropriations due the Home. The attorney general writes as follows:

"Territory of Hawaii, Office of the Attorney General.

"Honolulu, H. I., Nov. 16, 1901.

"To His Excellency Sanford B. Dole, Governor of the Territory of Hawaii.

"Sir—I have the honor to acknowledge your request for my opinion whether the existing appropriation in aid of the Kapiolani Maternity Home is open to such constitutional objections as make it the duty of the auditor to withhold warrants in payment thereof, without judicial order.

"The deed of the property occupied by this noble charity contains the following condition: 'This conveyance is made upon the expressed condition that the said Kapiolani Home shall use the property so granted exclusively for the use of native Hawaiian women, and that all persons of foreign nationality shall be received by the said grantee only for a reasonable compensation; and if such condition be at any time broken, the said grantors or either of them, or their respective heirs or assigns may at their option take possession of the property herein conveyed, and this conveyance shall at their option become void and of no effect, anything in this instrument contained to the contrary notwithstanding. It is hereby expressly understood that this conveyance shall not be deemed to give the Kapiolani Home, or its successors or assigns, the right or authority to lease or dispose of said premises, or

lease or dispose of a portion or strip of the said premises.

"The charter of the Maternity Home was drawn for the special benefit of Hawaiian women, pursuant to the above quoted condition in the deed.

"I express no opinion as to whether the fact that citizens of all races are taxed, largely, at least, for the benefit of a single race, is a vital objection to the appropriation. Any taxpayer who feels aggrieved can test it in the courts. Meanwhile, I think warrants should issue, unless the auditor is restrained by injunction, or wishes to raise the question by mandamus.

"I have the honor to be, sir, with great respect, your obedient servant.
"E. P. DOLE, Attorney General."

The prosperity article in the Advertiser this morning is so optimistic as to be ridiculous. We are not pessimistic, but we see no prospects for prosperity here for some years to come. It is not true as the Advertiser says, that money is being hoarded here. Our contemporary has evidently not figured on the enormous amounts which go out to absentee landlords, and which is constantly sent to China and Japan by the laborers. The Asiatics and the absentee landlords are the curses of this country, and the main cause of the financial stringency. When it takes four banks and sixteen wealthy merchants to raise \$4000, it is about time to stop the prosperity talk. An extra session of the Legislature is the only relief for the present plitika. Money can easily be raised under acts duly passed and signed. A specific tax on sugar would be sufficient to meet all emergencies, but Dole prefers to pass the hat around for financial succor, a policy which he always adhered to. How the Advertiser can say that the merchants are perfectly satisfied with existing conditions is simply impudence or shows the ignorance of the man who wrote the prosperity article. We will have the worst Christmas season Honolulu has known for years. We will have no sugar from two of the best sugar districts in the Territory for the next three years. We will have no dividends from those costly plantations, with their enormous crops on paper, and then we will face the down fall in sugar through a Cuban crop sufficient for the demands of the United States.

Is it not better to call an extra session now, fill the treasury and set all available money in circulation than to wait until a specific tax on sugar cannot be met by the planters. If Dole was a patriot, a true friend of the Territory, he would not hesitate for a moment before calling the representatives of the people together.

TOPICS OF THE DAY.

The District Court is no longer an "inferior" Court. Judge Wilcox has consulted with some of those "up above," and he calls strict attention to the fact, that the business of his Court can no longer be delayed because lawyers, and interpreters are engaged in the "upper courts." "This court must go on at all hazards," says the Judge, "because it is from this Court that the wherewith to pay the expenses of the 'upper courts come.' Lawyers will have to be careful in taking cases, because no longer will they be permitted to neglect the District Court to attend the Circuit Court.

Judge Humphreys is again suffering from the swell'd head, and imagines he is the whole IT. We notice that he refused to endorse papers of adoption of a child to Mr. Patrick Cockett, of Maui, and that he stated that the custom of adopting children would be stopped by him. His power in the matter is not discretionary. His endorsement does not make the papers of value until such papers are placed on record in the office of the Registrar of Conveyance. The endorsement of a Circuit Judge was inserted in the laws for the purpose of

giving the Court a chance to investigate whether the parties in whose care a child was to be given were responsible people. Mr. Patrick Cockett and his wife are held in the very highest esteem on Maui where their home is. Lucky indeed for a child whom they should wish to bring up and call their own. Adoption of children is permitted under the laws of every country in the civilized world, but the swell headed bantam who presides over the Circuit Court here, and whose resignation is written out by this time, has the audacity to take legislative powers into his hand, and declining to perform a duty, granted to him by the Legislative branch of the government. We suggest to Mr. Cockett to have Judge Kalua endorse the adoption papers, file them in the office of the Registrar of Conveyance, and then ask Judge Humphreys to kiss his—adopted child. And Pia Cockett is the man to do it.

The Milky Way.

Manuel Correa pleaded guilty to selling adulterated milk in the District Court this morning. "Very little milk," pleaded the culprit, "very plenty customers. If I no use water, milk don't go around." The judge was lenient, when he learned that the defendant was not the man who sold adulterated milk to Judge Humphreys. The magistrate, under the circumstances would have fined the offending milk and water dealer only a one cent post office stamp, but as the man had pleaded guilty he was mulcted only in the sum of \$5 and costs.

Is Marriage a Failure.

Marynu Ilianu Gregson have filed a libel for divorce in the Circuit Court against Thomas H. Gregson, on the ground of cruelty and neglect. The couple were married at Waipio, Sept. 4, 1897. The wife claims her husband has neglected to provide for her, although of sufficient ability to do so.

She alleges that during the last week of February, 1898, the libellee used menacing language toward her, and threatened to shoot and kill her, and she left his house and went to the home of a friend. She says she is destitute and is entirely dependent upon her own labor and the charity of friends for her support.

Priests Will Depart.

A very pleasing farewell reception was given at St. Louis College Hall last evening to Fathers Boardman, Megeevney and Maurice, who leave by the next steamer for the Mainland after having done excellent work for the church here, during the past two months. Mr. A. E. Murphy, on behalf of the Catholics of Honolulu, delivered an eloquent address in bidding the visiting priest farewell and God speed. In the name of the Catholics he gave the priests the Hawaiian greeting Aloha nui.

The Yachts Raced.

The Hawaii Miniature Yacht Club observed King Kalakaua's birthday anniversary on Saturday with a most interesting race among the small yachts. Prince David, who with Prince Cupid, are the patrons of the annual sport, had anchored the Viking his private yacht, at the starting point. The prizes with the judges and officers of the day were on board a launch following the miniature yachts:

The first boat to cross the line was the Lady L I, which made the journey in one hour and thirty minutes, winning the Hawaii Miniature Yacht Club cup a prize of \$20. The Laweshipo was a good second as model yacht races go, finishing thirteen minutes after the leader. The Kahakaalani, Wild Swan and Lady L II finished in the order named. All the boats finished inside of the time limit of two hours.

The race was judged by William Blaisdell, Morris Keohokalole and G. N. Shaw. E. K. Likalalani officiated as starter and timer.

In the evening there was a luau at the Princes' home, when the prizes were distributed.

The First Local Mint.

One of the institutions here which has the special attention of tourists as well as the local people is the Mint, which is established on Nuuanu street, opposite Queen Emma Hall. It is interesting to enter the large main working room, where general manager McDonough and his corps of assistants are at work. The cool and large laua is a proper resting place and the vaults, where the "bars" to be minted and beer are kept present a very tasty spectacle. The Mint is open from 5:30 a. m. to 11:30 p. m. and during those hours the work never ceases. Visitors after looking over the place will find first class refreshments and the purest of liquors.
