Real Estate and Loans

The enlargement of the LOAN Market so as to cover the wants and necessities of the large number of honorable people who are not owners of unincumbered Real Estate was one of the most necessary innovations of recent years. To many it has meant relief from pressing claims at the very time when most essential. When properly and honorably conducted this business is of equally great importance and value to the community as Building and Loan Associations have proved themselves to be.

The Hawaiian Investment Co.

Makes a specialty of Negotiating and Procuring Loans for Borrowers who are unable to discount their Notes at the Banks and who do not care to obligate themselves to some friend or acquaintance by asking his endorsements to their Note. This Company will make Loans upon Household Furniture, Pianos, Organs, Horses, Mules, Wagons, Carriages and Personal Property without removing the Property from the Borrower's possession, and all business will be conducted on a STRICTLY CONFIDENTIAL BASIS.

SHIP CHARMER.

Notes on the Gallant Craft and Her Veteran Commander.

The cargo of the American ship Charmer for New York will amount to 2925 tons of sugar. Captain Holmes would like to have got the round 3000 tons, but circumstances prevented. Few more handsome ships have been in Honolulu harbor than the Charmer, which is right up to her name in every particular. Her hull lines are as graceful as could be desired in a yacht, and her spars and apparel are in keeping. The standing rigging and mooring hawsers are of steel wire. There is not an apartment in any house here more elegantly finished than are the cabins and saloon of the Charmer. They have panels of mahogany, birdseye maple and other fine woods, and pilasters with capitals decorated in crimson and gold. Adjoining the captain's cabin are a bathroom, etc., chart room and closets, with lots of space in each. On all sides are to be seen rare articles of ornament from many seas, together with many pictures on the walls, including one of the veteran master's beautiful home at Mystic, Connecticut. Captain Holmes found not a few family acquaintances from his State, as well as many other friends, during the stay of his ship in port. His cordial nature has been displayed to them in pleasant intercourse on shore and in generous hospitality on board of his ship. They all wish him a safe and speedy voyage to his destination, and hope to see him many times again. Captain Holmes was in Honolulu the last previous time in 1858, and has a vivid recollection of the primitive features then abounding. Few master mariners at the age of 73, which is that of Captain Holmes, would venture the perils of weathering Cape Horn.

IN TRUTH A WIZARD.

Something About the Mind Reader Now in Honolulu

Professor J. G. Leonard, psychologist, is more than satisfying most of those who interview him at the Hawaiian Hotel, with his wonderful solutions of secret matters propounded to him. A BULLETIN representative called on the professor Saturday evening and met a very genial reception. Professor Leonard anticipated a question that was going to be asked him, by a statement of some of the useful features of his craft. He showed testimonials of his services in rendering information of great value to applicants which baffled detectives to impart.

A few tests were given in mind-reading—"not for publication but as an evidence of good faith"—the results of which showed Prof. Leonard to be more than a peer of W. Irving Bishop. He says he does not care for doing mere tricks in revealing names and numbers or finding hidden pins, but his aim is to be of use to those who patronize him. He is quick to detect mere efforts at baffling him. As to his powers in divining future events, time will have to prove him to people here who consult him.

Prof. Leonard will give an exhibition to the press and a few others in a few days, when it will be competent to give an account of some of his best exploits.

Hotel Entertainment.

The French dinner at the Hawaiian Hotel was well patronized Saturday evening. Strangers especially were delighted with the native quintet's music. A very pleasant dance began in the laua soon after dinner, the merry-making being continued for two or three hours. Under the joint management of H. Meyer and J. H. Lewis the hotel is winning fresh popularity.

New Fruit Business.

George Cavanaugh, late of the California Fruit Market, is manager of a new business under the name of the California and Hawaiian Fruit and Produce Company. The store is opposite the railway station, King street. With Mr. Cavanaugh's long experience the concern will be sure of good management, and customers assured of satisfaction.

FOUND GUILTY.

Carroll Appeals to the Circuit Court.

J. W. Carroll was sentenced to pay a fine of \$100 and be imprisoned at hard labor three months in the District Court to-day, for assault with a deadly weapon, to wit, a revolver, on a native. Carroll, by his attorney, J. A. Magroon, noted an appeal from the judgment. The evidence went to show that Carroll did fire a pistol at a native and the man was confined in the hospital. There was disparity, however, as to the cause of the shooting, the defendant claiming it was in self-defense. He protected himself from mob violence.

The announcement of Easter Millinery opening attracted a great many ladies to the store of N. S. Sachs, all day Saturday and to day the department was thronged with ladies; the pattern hats and bonnets were very much admired, the little French bonnets were pronounced to be perfect gems; flowers galore, this being a rose and violet season, they were shown in great quantities; the new California violets are quite a novelty, fauery ribbons and chiffons are shown in all the new shades; the opening is a pronounced success. This is an opportunity the ladies should not fail to embrace. Mr. Sachs cordially invites the ladies to call and examine this fine stock, without feeling obliged to buy.

Now that the war of the revolution is over, it is the duty of every man to support the existing form of government. Although things may not move with that cordiality that would ensure an everlasting peace, still they may be allowed to subside into that indifference without animosity that would allow either party to work out their best interests. All things considered it may be for the best, but time, the only arbitrator in such cases, must alone decide that James T. Stewart is a Plumber and will do your work in good shape and at figures that will give you satisfaction.

JAMES T. STEWART,
15 Bethel Street, Honolulu.

In the fall of 1893 a son of Mr. T. A. McFarland, a prominent merchant of Live Oak, Sutter Co., Cal., was taken with a very heavy cold. The pains in his chest were so severe that he had spasms and was threatened with pneumonia. His father gave him several large doses of Chamberlain's Cough Remedy which broke up the cough and cured him. Mr. McFarland says whenever his children have croup he invariably gives them Chamberlain's Cough Remedy and it always cures them. He considers it the best cough remedy in the market. For sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

LATE FOREIGN NEWS.

VICTORIA, B. C., March 16.

[Per S. S. Moseley.]

OTHER LANDS.

It is expected that the Dominion Government will intervene with a remedial order in favor of the Catholics against Manitoba's non-sectarian school law.

James O'Brien, Jr., son of James O'Brien, the millionaire clothing merchant of Montreal, and partner in the brokerage firm of Messers & O'Brien, was arrested last night on a charge of obtaining money under false pretences, laid by the Quebec Bank. The amount involved is \$20,000.

The number of destitute families in St. John's, Newfoundland, is increasing every day. There are about 2800 families in St. John's and its suburbs in distress, and reports from many country districts show general destitution. Contributions of food are being received from New England as well as Canada.

CORDIAL RELATIONS RESTORED.

The Central News correspondent in Lisbon says the British Minister in Rio de Janeiro has been successful in his mediation between Brazil and Portugal, that the entente has been renewed, and that diplomatic relations will be resumed soon. The coolness between the countries began when a Portuguese warship carried Admiral Da Gama and other conspicuous insurgents beyond the jurisdiction of the Brazilian Government.

CUBAN REVOLT NOT SUPPRESSED.

The Central News correspondent in Madrid says: Private cipher telegrams from Cuba do not confirm the official statement that the rebellion has been virtually crushed.

Tampa, Fla., March 14.—When the Olivette arrived this evening from Havana, a rush was made for the passengers in search of Cuban revolutionary news. A Cuban, who has come on an important mission, stated that the Provisional Government had been organized and that General Marti had been made Provisional President. General Gomez was made General-in-Chief. The revolutionary army, as now organized, consists of 5000 infantry and 5000 cavalry. The Cubans are armed with machetes and rifles, while the Spanish forces are armed with rifles and the old-style sword, which is very clumsy.

Last Saturday a peace commission in behalf of the Government visited Munsilla, and conferred with the insurgent commander, General Maso, with a view to inducing that officer and his command to lay down their arms and take the oath of allegiance to the Government, in which case they would be granted pardon. They returned unsuccessful and thoroughly disgusted. Gen. Maso received them courteously, listened to their arguments and granted them an hour in which to leave camp under penalty of being shot. "Cuba will be free from Spanish misrule," said General Maso, "for war will endure ten years or longer if necessary."

From Santa Clara, in the eastern part of the island, come reports of general uprising during the past ten days. In Havana there are no signs of rebellion, although during Tuesday night the police quietly raided a house on St. Nicholas street, and confiscated a magazine of cartridges and powder stored there. No arrests were made as the house had no occupants at the time of the raid.

In Havana up to the time of the departure of the Olivette no word had been received regarding the firing on the Colon-New York mail steamer Alliance by a Spanish gunboat. "If the outrage occurred, as there is no reason to doubt, from the statement of Captain Cropman," said a well-informed passenger, "it must have been the torpedo cruiser Nuevo Espana, which has been painted black since being assigned to shore patrol duty." The Nuevo Espana is well-known on the east coast and is only capable of running 12 knots an hour, which accounts for the ease with which the Alliance escaped her.

Rumors have for several days been circulated in Tampa that a consignment of arms was en route to a Gulf port for shipment to Cuba in aid of the Cuban insurrection, and that a filibustering expedition would receive the arms at this place and sail for Cuba. Edward Castleton, evidently an American, tried to obtain from the Spanish vice-consul at Tampa the cipher code and the list of the consul's secret service agents in Florida. He asked to have endorsed a passport he presented from New York to Cuba. His requests were refused and Castleton was shadowed. He chartered a yacht and a schooner at Tampa, which were watched without anything sus-

picious being found, but the consul had Castleton arrested because he thought his action was only a stratagem to cover his real motive.

After being released Castleton caused a sensation by shooting into the Vice Consul's office. He was arrested and, after being fined \$5, was taken in charge by the State. In answer to an inquiry the Spanish Legation at Washington telegraphed that they knew nothing about the man.

THE ARMENIAN ATROCITIES.

LONDON, March 10.—The Daily Telegraph has a dispatch which was telegraphed from Kars yesterday, saying that a deputation of the survivors of the Sassout massacre, have appeared before the commissioners of enquiry and have narrated the whole story of the butchery. They presented a written statement of which the Telegraph will print a copy. The statement mentions that the cross and Bible were flung at the feet of an Armenian priest, who was ordered to trample on them. He refused and thereupon the Turkish soldiers gouged out his eyes and flung him into a pit with others who were dying. Of the 300 persons who were taken at the same time with the priest only one, a merchant named Avak, escaped. He saved himself in an almost miraculous manner. The correspondent says that the statement has impressed the delegates powerfully, but does not mention the day on which it was presented.

Another dispatch dated at Kars, yesterday, gives the testimony of Kurda who saw Turkish soldiers take children by the feet and dash them against stones. "A Turkish sergeant," says the dispatch, "bound an old Armenian head downward to some branches and slowly cut his throat with an axe. The same Kurds saw the soldiers take pregnant women, offer bets on the sex of the children, and then cut the woman open. The money was paid to the man who guessed correctly."

The Telegraph will say that it has received other details too horrible for print. A third dispatch, dated Kars, to-day, names 41 villages which Turkish soldiers have burned, but does not give the dates. These fires have been recorded in the evidence before the commission.

CONSOLIDATION OF THE EMPIRE.

London newspapers comment upon a speech delivered by Sir Charles Tupper, Canadian High Commissioner, at the Article Club on March 9th. Sir Charles said he was convinced that parliamentary confederation was impracticable. The consolidation of the union of the Empire was the goal toward which hopes should be directed. He was sure that Newfoundland, would soon join Canada. He expected the Australian Colonies and then South Africa to follow the example set by the Canadian provinces.

WILL BE A BRITISH LINE.

LONDON, March 12.—The Times tomorrow will say that it is authorized to deny the assertion that Mr. James E. Huddart, the promoter of the new Canadian Pacific Steamship line to Australia, had entered into any arrangement with the North German-Lloyd. The fundamental idea of the proposed service, the Times will say, is that it shall be an Imperial enterprise and that the steamers running in the line, shall be British vessels commanded by British officers and manned by British crews, so that if occasion should arise they would be available for British naval purposes.

EUROPE.

The Spanish cruiser Reina Regente is supposed to have foundered with 400 persons on board. She was sighted by the steamer Mayfair from Barcelona for London, between Tarifa and Cape Espantal. The warship had lost her funnel and bridge and was apparently in an unmanageable condition. The captain of the Mayfair did not think the cruiser could outride the storm that prevailed.

How to Cure Rheumatism.

ARAGO, COOS CO., OREGON, Nov. 10, 1893.—I wish to inform you of the great good Chamberlain's Pain Balm has done my wife. She has been troubled with rheumatism of the arms and hands for six months, and has tried many remedies prescribed for that complaint, but found no relief until she used this Pain Balm; one bottle of which has completely cured her. I take pleasure in recommending it for that trouble. Yours truly, C. A. BULLORD. 50 cent and \$1.00 bottles. For sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

Beyond Description The Misery Before Taking AND The Happiness After Taking HOOD'S.

Mr. R. H. Bishop, Hammon, N. J.

"C. I. Hood & Co., Lowell, Mass.: "Dear Sirs: I have been in poor health for 20 or 25 years, and have been taking doctors' medicines more or less all the time. I did not get much relief. My blood was in a bad shape and my system was all run down. I thought I must die, but noticing several testimonials in the papers in behalf of Hood's Sarsaparilla I bought three bottles and found that it did me so much good that I continued taking it. I was without appetite, sleepless, and had a headache most all the time. In fact I cannot describe my feelings. After using one bottle of Hood's Sarsaparilla I found it was doing me

much good and now I cannot praise the medicine too much for what it has done for me. I am a disabled soldier 69 years old and was afflicted with many ailments, including kidney, bronchitis, and catarrh. Since using 6 bottles of Hood's Sarsaparilla I am like another man. In fact I think Hood's Sarsaparilla saved my life." R. H. Bishop, Box 40, Hammon, N. J.

More Japanese Victories—Conditions of Peace

The Central News correspondent in Tokyo telegraphs: 1600 Chinese attack the outposts of Chien-yang, near the border of Corea, on the morning of the 11th. They were repulsed with heavy losses and were pursued. Another Chinese force, 1000 strong, made an attack on the Japanese rear and left flank, but were repulsed with 70 killed. The Japanese loss was six wounded.

The European edition of the New York Herald publishes this dispatch, dated at Shanghai to-day: It is reported that Li Hung Chang is instructed to consent to an indemnity, also, if necessary, to a cession of territory. The Japanese will occupy Manchuria, Shantung promontory and Formosa. The indemnity will be guaranteed by the customs and will be paid quinquennially. China is also ready to surrender her Southern square iron now hiding in Nakin. The Emperor and Dowager Empress warned Li Hung Chang that he need not return unless successful. They upbraided him for concealing from them the deplorable condition of China, which, they say, might easily have been victorious if properly prepared.

A DESIRABLE MAN WISHES EMPLOYMENT as stable keeper or ranch, and has a wife who knows how to make butter, wash and iron clothes, first class. He has been in the country for fourteen years and understands a great deal about horses and cows. Terms reasonable. Address "F. S." BULLETIN Office. 1294-6c

Pure Milk.

The business of the country is settling into its former groove. Our gentlemanly driver has returned from his vacation, the cows in the pasture switch flies instead of bullets with their tails and the cream is richer in consequence. We believe we have satisfied every one of our customers who have taken milk from us and we are in a position to supply a great many more. The people who from choice or necessity visited Waialae during the past two weeks have had an opportunity to see just what sort of diet our stock feed upon, and no longer wonder at the richness of the milk from our dairy.

Our facilities for delivery are the best. With the exception of a day or two early in the late unpleasantness our drivers have always been on time at our customers' residences. We take this opportunity to thank those who have been patient with us and to solicit a continuance of their patronage. We will be pleased to fill all orders telephoned to us and guarantee all milk to be pure and free from adulteration.

You ask the doctor

Most women feel the need of something that will tone up the system and put new life into a tired body—stop that constant headache and feeling of nervousness. In almost every case the doctor will prescribe iron in some form, but iron is hard to take, discolors the teeth (no woman likes that) and induces constipation and other ill-effects. However, there is one iron medicine—only one—known as

Brown's Iron Bitters

which is easy to take, palatable and pleasant. It is harmless and the most reliable iron medicine known. A bottle of this famous remedy will work wonders. It will fill out those thin cheeks, put energy into you, give you a new lease of life and won't stain the teeth. Thousands of testimonials prove these statements. The dose is small and the benefit great. Its good for all the family. Try it.

JUDICIARY NOTINGS

Ellis and Waterhouse Estates—Habeas Corpus Case.

Bruce Cartwright having resigned as trustee of the estate of the late Nancy Sumner Ellis, Chief Justice Judd has appointed C. L. Hopkins in his stead under \$1000 bond.

William Waterhouse Dimond and Henry Dimond have filed an answer to the suit of John T. Henry and William Waterhouse against themselves and other heirs of the late John Thomas Waterhouse. They admit that the plaintiffs are named as executors and trustees in the will of John Thomas Waterhouse, and that by said will they were given certain powers to carry on the mercantile business of the testator, and to make and change investments. But defendants say that such powers were given in support of a trust imposed upon said executors to carry on said business for the use and benefit of the testator's wife during her lifetime and no longer. They further say that the wife having died prior to the testator, said trust has absolutely ceased, determined and expired, and that plaintiffs now hold the estate of the testator solely as executors for the purpose of administration and distribution.

Defendants further say that, since the filing of their bill, plaintiffs have declined to further carry on the business of the testator for the benefit of the devisees and legatees under the will; and that John T. Waterhouse, acting in his private capacity, by private and amicable agreement with all of the other devisees named in said will, has purchased all of the stock of merchandise pertaining to said estate and the good will of the business of the testator, and has assumed all liabilities connected with said business. These defendants claim that said agreement of sale, joined in by all of the devisees, constitutes an acknowledgment that no further trust exists under the will except that of ordinary administration. They also say that it is not necessary to sell any of the real estate of testator for the purpose of paying debts, and no other reason or necessity exists for a sale of any of said real estate by the executors.

The respondents admit that the plaintiffs are executors but not that they are trustees under the will and codicils. They admit that the only persons interested as heirs, devisees or legatees in the estate are John T. Waterhouse, Henry Waterhouse, William Waterhouse, Mary Rice, William W. Dimond and Henry Dimond.

They say lastly that they are of age and are entitled to distribution of the personal property of said estate upon payment of the debts of the testator and the legacies mentioned in the will, and are entitled to the possession each of one-tenth of the real estate left by the testator not specifically devised, and they deny that the plaintiffs have now any right to sell said real estate. Wherefore they pray that the bill may be dismissed with costs.

In the case of Henry P. Poor vs. Henry Cannon, the defendant has filed a demurrer.

Judge Cooper has rendered a decision in the matter of Torao Tsu-

chuyamo, brought before him on a writ of habeas corpus charging that the subject was illegally detained on board the steamer Independent, under order to return to Japan, by Jas. B. Castle, Collector-General of Customs. The Court dismisses the writ on the ground that a sight draft of the Bank of Yokohama is not legal tender, and remands the petitioner to the charge of the Collector-General, W. S. Edings for petitioner; W. O. Smith, Attorney-General, for respondent. This was a test case relating to 70 or 80 Japanese immigrants, who showed \$50 drafts instead of coin under the law relating to the landing of aliens. The rest of the immigrants by the Independent came under contracts to labor and did not need to have \$0 each in their pockets.

A. P. PETERSON DEAD.

Pneumonia Attacks His Weakened System and Prevails.

A telegram was received from San Francisco by way of Vancouver by the S. S. Miowera yesterday, announcing the death of Arthur P. Peterson. His demise occurred at 10 o'clock on the night of March 16 at the California Hotel. Mr. Peterson was one of those arrested and imprisoned for suspicion in connection with the late uprising. He was put in jail on January 9 and kept there until about a week before his departure for the Coast—exiled. The deceased was a very weak man at the time, owing to his confinement in a damp prison cell. Prior to his departure Dr. Peterson, brother of the lamented gentleman, stated that Mr. Peterson was in no fit condition for the trip and his constitution could not stand it, but he had to go. He was very weak at the time and bore signs of his confinement. On arrival at San Francisco he was taken to the California Hotel. His friends and relatives made an attempt to move him to more comfortable quarters five days before he died, but were unable to do so. The immediate cause of his death was pneumonia.

It was the intention of Mr. Peterson to practise law with the firm of Gear & Gear, father and brother of A. V. Gear, his brother-in-law. The deceased was Attorney-General under the late King Kalakaua and again when Liliuokalani was deposed. Mr. Peterson was admitted to the Hawaiian bar from the bar of Massachusetts. On his arrival in Honolulu he went into law partnership with W. A. Kinney. He was well liked and enjoyed an extended practice. In criminal law practice Mr. Peterson was one of the ablest at the local bar.

Mr. Peterson leaves a wife and child, who are at present residing in Ouset, Massachusetts, the place of his birth. Letters to his relatives received by the last S. S. Australia told of a complete breakdown in his health, and his death was not a great surprise. The telegram was received just as the S. S. Miowera was leaving Vancouver for Honolulu.

Read the following extract from a letter of Chas. M. Gutfeld, of Reedley, Fresno Co., Cal.: "It is with pleasure I tell you that by one day's use of Chamberlain's Cough remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy." A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as the cold has been contracted it will cure the cold at once and prevent it from extending to the lungs. For sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

Timely Topics

March 11, 1895.

Is Hawaii to be without a cable through the action of the United State Congress, or will the people here awake from their sleepy ideas and tell Uncle Sam to do something or let England have Necker Island and go ahead with the work. Hawaii is as much in need of a cable as any place on the globe and other governments need the cable to Hawaii as much as we do. Why then should the government that feels a fatherly interest in a country stand in the way of its development.

Suppose the manufacturers of the Avery Plantation Implements would refuse to send them to this country would it be considered a square deal? The planters on Hawaii who are using these different implements are well satisfied with them and are willing to recommend them to other managers. They are coming more and more into general use; in another year there will not be a plantation on the Islands that will not use them. The following letters from such prominent managers should be convincing proof of their superiority:

ONOMEA SUGAR COMPANY,
PAPAIOU, HAWAII, Feb. 25, 1895.

Mr. JOHN A. SCOTT, Wainaku, Hawaii.
DEAR SIR:—The Onomea Sugar Company has now in use three of the Stubble Diggers.

I think these machines are indispensable for the proper cultivation of rattoons.

We have never had an implement that would so thoroughly loosen the earth around the stools, and put the soil in such condition that the air, moisture and fertilizer would so readily find access to the fine roots of the cane and the soil around them.

I am glad to testify to the merits of these tools. The Sugar Land Disc Cultivators arrived too late for much use in the cultivation of the last young plant and rattoons, but I believe they will prove to be very useful and labor-saving implements in districts where cane is raised without irrigation.

Yours truly,
WM. W. GOODALE,
Manager Onomea Sugar Company.

HUTCHINSON PLANTATION COMPANY,
NAALELU, HAWAII.

March 1st, 1895.
E. R. HENDRY, Esq., Hawaiian Hardware Company.

DEAR SIR:—In answer to your letter inquiring about the Avery Stubble Digger and Fertilizer Distributor, I would say that the fact that we have just received the second Stubble Digger speaks for itself. We have dug over four hundred acres of ratoon stools and consider it will be a great benefit.

The Fertilizer Distributor is a good thing and has effected a material saving of labor in the application of Fertilizer and applies it better than can be done by hand.

These machines are very simple and well constructed and we have had no trouble with the working of them and we consider them one of the most useful labor saving machines that can be used on plantation.

Yours truly,
G. C. HEWITT,
Manager H. S. P. Co.

HAKALAU, HAWAII,
February 16, 1895.

Mr. E. R. HENDRY, President and Manager Hawaiian Hardware Company, Honolulu, Oahu:

We use the Avery Stubble Digger, Fertilizer Distributor and Cane Cultivator. They save labor and do the work claimed for them. The Stubble Digger I consider a particularly good implement.

Yours truly,
GEO. ROSS,
Manager Hakalau Plantation Co.

Sugar Beets.

L. F. Moulton, an old and practical farmer of Colusa county, writes to the Sun as follows concerning the growing of sugar beets:

Sugar-beets are our coming industry. Every farmer should plant from one to ten acres of sugar-beets this spring on his finest and best land. Aside from their use for sugar production, they are the most productive and profitable crop a farmer can produce for hogs, cattle, horses, sheep, chickens, etc. The ground should be plowed deep with a single plow and harrowed fine, again plowed after the last rains to kill weeds and again harrowed. Then plant in narrow rows and thin, but leave thick enough to prevent them growing over four inches through. They are better feed for stock than pumpkins or anything else. They can be left in the ground or pulled and stacked.

Mr. Terrill, who lives on the east side, is now feeding fresh pulled beets to his stock with the best of results. The factories will be built as soon as the beets are raised, which can and should be done this present season. The seed is raised in Germany of a very highly improved percentage in sugar product.

There are parties here now to make arrangements to build a factory, but the first thing the beets must be planted during the next month. We pay each year to foreign countries for sugar as much as the three late gold bond issues. The sugar-beet industry will keep at home the gold we are sending abroad for sugar.

VICTORY FOR THE VISITORS.

H. B. M. S. Nympe Cricketers Easily Beat the Honoluluans

It gave the cricket team of H. B. M. S. Nympe little trouble to defeat the team of the Honolulu Cricket Club on Saturday. Both the bowling and the batting of the visitors were superior to those of the local players. Stanley for the latter made a brilliant one-hand catch, and Levey a good running catch. Following is the score:

The Dog Catching.

Up to this morning the police captured ninety-two dogs. Twenty-five were pulled in this morning. Twenty-three were released on Saturday morning, this taxes being paid, and thirteen were called for this morning. The remainder of the animals will be kept at Iwilei for three days, when, if they are not redeemed, they will be shot. The carcasses are turned over to the Hawaiian Fertilizing Works. Some of the better sort of dogs are kept several days longer, in order to give the owners time to call for them.

If you are out of Bill Heads, Letter Heads, etc., we can supply them.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these shredders may be seen at the office of

ANARCHY IN COLORADO.

Mob Rule in Full Effect at Coal Camps - Seven Men Killed.

DENVER, March 13.—Mob rule has reigned among the coal miners in the coal camps of Huerfano County since Sunday night, and seven of their victims, Italian, all but one have been slain by bullets from the mob's Winchester. Four of the Italians were killed from ambush yesterday while being taken prisoners in a wagon to the jail at Walsenburg after a coroner's commitment for complicity in the murder of Abner J. Hickson, a temperance saloon-keeper at Rouse. An American boy, who was driving the wagon, was unintentionally killed by the fusillade of bullets.

Before daylight this morning a mob of miners and citizens of Walsenburg gathered outside the jail where two of the Italians were confined, got inside by a pretence and killed both the prisoners. It is reported that the same mob thirsting for more bloodshed later took out of jail a German charged with rape and killed him. During the excitement two other prisoners escaped.

The names of the dead so far as known are as follows: Joe Welsby, boy, driver of prisoners' wagon. Lorenzo Danino, killed in jail. He beat Hickson to death. Pete Jacobini, killed in jail. The names of the four Italians killed in the road are unknown. Five others, suspects, had been released from custody before the mob rose. All of them lived at Rouse, where the Italians far outnumber the Americans.

Governor McIntyre telegraphed the State Department at Washington that he had instructed the Sheriff of Huerfano County to give him particulars and protect the Italian miners from further mob violence. He stated in his dispatch that from information he believed the Italian miners were American citizens, but he was not certain.

To-day's attack upon the jail was the result of the extreme excitement provoked by the summary vengeance of Hickson's friends. Three other Italians who were in custody as possible accessories to the murder of Hickson were overlooked by the mob. The massacre of the five men from ambush was evidently well planned with the exception of the killing of the driver. Four of those killed had been held for trial by the Coroner's jury. It is openly asserted that Welsby's death was accidental. In order to be certain that the fifth Italian held for Hickson's murder should not escape, the mob to-day did not stop to identify the two prisoners found in the jail, but riddled both with rifle balls.

The motive of the murder of Hickson is the subject of much speculation. The deceased was 36 years old and a native of Arkansas, and was not of an aggressive or quarrelsome disposition. It is thought he was attacked last Sunday while on the road from Walsenburg to Rouse, a coal mining camp six miles away, and knocked from his horse by a blow on the head. Workingmen going to the Rouse mine discovered him with his skull fractured. The injured man was unconscious and died two hours later. There was absolutely no clue to the perpetrators of this crime, but T. J. Brewer, pit boss at the coal mine, solved this difficulty. Hastening to his home, he secured a trained blood-hound and put him on the scent. The dog struck a trail that led the pursuers to the rear of a saloon, a half-mile away. The intelligent brute bayed and rushed to an old table standing in a rear room. An examination of the table revealed fresh blood-stains. Lorenzo Danino and Jobatto Antonio who were found in the room were immediately arrested. The dog continued to a neighboring cabin where Pete Pozzetti and Frank Aurico were found. The quartet of Italians made many damaging admissions of knowledge of the murder, and upon close questioning the names of five others implicated were divulged. Danino was charged with being the chief conspirator. Horsemen scoured the surrounding country and by 4 o'clock in the afternoon all the suspected Italians were under arrest and lodged in jail, where they remained until called to attend the inquest.

After the attack on the wagon, all was comparatively quiet until soon after midnight. About that time seven or eight men wearing masks knocked at the door of the jail where Danino, who was charged by the other Italians with having struck the blows that killed Hickson on Sunday, and the Italian wounded in the wagon attack were confined. In answer to a question the men said O'Malley the Sheriff wanted to enter. As soon as the door was opened, the guards found guns in their faces. Part of the masked men then went to the cell where the two Italians were confined, and fired 8 or 10 shots. Each prisoner received four or five bullets. One died instantly, but the other lived a short time in great agony.

Dr. Cuneo, the Italian Consul in this city, was this afternoon officially notified of the occurrences, and called on the Governor. If the men who were killed by the lynchers are American citizens, he will take charge of whatever property they may have for the Government he represents. The doctor had not the information at hand to form any opinion about the affair.

WALSBERG, Colo., March 14.—Quiet reigns again in the Italian colony here. While the friends of the murdered men are still intensely excited, there is little probability that they will attempt to resort to violence. There are a large number of Italians in Denver and they are loud in their denunciations of the slayers of their countrymen, but they have made no effort to organize, and are closely watched by the police, for whom they have a wholesome respect. Although loud threats of vengeance are made on every hand, there is a lack of concerted action, which indicates that there will be no serious trouble. Governor McIntyre is in readiness to send troops at a moment's notice should any necessity for such action arise. Only one of the victims was an American citizen.

Ringling Noises

In the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood.

Hood's Pills are the best after dinner pills, assist digestion, prevent constipation.

INDURINE

A COLD WATER PAINT

A SUBSTITUTE FOR OIL PAINT AND WHITEWASH.

AN EXCELLENT FIRE RETARDANT AND DISINFECTANT.

Especially Designed For INSIDE Work on Factories and Public Buildings

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint. It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

It will not rub, scale or crack, nor will it soften with age or discolor.

It will not set in the mixing vessel, in fact it improves by standing a few days.

It can be used to good advantage over old whitewash without scraping. IT DRIES OUT WHITE AFTER BEING WET.

It is cheaper than whitewash, durability considered.

It is supplied in barrels from 300 to 400 lbs., also in boxes of 100, 50 and 25 pounds.

Outside Indurine!

This is for OUTSIDE Work

Such as Fences, Outbuildings and Laborer's Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure as well as oil paint, and costs but a fraction as much. It is fire-resisting as it contains no oil, and has no equal as a light reflector in dark basements, damp cellars and similar places. It is supplied in colors.
