THE AVERAGE LIFE.

It is difficult to determine accurately the average life of a good bicycle, but it is estimated that the ordinary person, riding to and from his business and for pleasure, covers about 2,000 miles in a year. There are Sterlings in use that have been ridden nearly 40,000 miles, which would be equivalent to 20 years of average service. One Sterling bicycle was ridden in one year over 38,000 miles, and in doing this the wheels rotated in their bearings nearly 25,000,000 times, and the bearings when examined showed no appreciable wear. The bearings for the '99 model Sterling are the S. & J. special drawn steel, carbonized and ground bone, to diamond temper, and ground on their own centers, making them not only true, but absolutely in line with each other. Felt washers and ball retainers are used throughout. The Pacific Cycle & Manufacturing Co. have 50 of the new improved '99 model Sterling bicycles in transit. They expect part of this shipment to arrive on the Moana.

COLUMBIA GOING TO SEA

TO BE USED IN WRECKING THE EDWARD O'BRIEN.

Judge Perry Released Her for This Purpose Under Bonds of \$10,000—Smith and Colegrove Promoters.

A section of the City of Columbia came before Judge Perry in Circuit court this morning. It was a motion of Russell Colegrove, who has engaged to wreck the Edward O'Brien, to file bonds in a sufficient sum and to waive the charter in wrecking operations here. After argument by respective counsel the court agreed to allow the use of the vessel for the purpose under an approved bond in the sum of \$10,000. This, it is understood, will be filed forthwith by Mr. Colegrove.

The Edward O'Brien is well heeled over to starboard this morning and getting further over. William Larsen, who went out with two pilots this morning, reports that there is a very heavy swell on the sea. The bilge of the wreck is under water and the surf rolls on the decks every fourth or fifth breaker going clear over her. In his opinion her side is more or less stove in.

The project to use the City of Columbia to wreck the O'Brien originated with Captain Smith, the navigating officer of the Columbia. He believes he can save the cargo, and perhaps the vessel. The purchasers of the wreck completed their contract this morning for the salvage of coal.

An entry for the ship Edward O'Brien was today by Alexander & Baldwin. The vessel was bound for here with a cargo of coal, which is free from all duty. She never got into the harbor. But in order to make a record of the matter an entry was made, following the custom in previous cases of a similar character.

A \$100,000 CORPORATION. J. J. Egan Incorporates to Enlarge and Extend Business.

Articles of incorporation have been filed with the Minister of Interior by E. C. Hobron, J. M. Whitney, J. H. Fisher, J. J. Egan and H. T. Marsh, as incorporators of "The J. J. Egan, Ltd.," capitalized at \$100,000, fully subscribed by the incorporators, a number of other local shareholders and a trustee for G. M. Whitney of South Bend, Ind.

The corporation will purchase the dry goods business of J. J. Egan, who will continue to be identified with it, and he intends to shortly visit the eastern cities in the interest of the company.

A large part of the increased capitalization represents increased capital put into the business to extend and increase it. Mr. Egan's entire business life has been spent in the dry goods business, which he has made all of his means. This new move is evidence of the excellent reputation he has established.

McKINLEY'S GREAT SPEECH

HONOLULU BOY WRITES OF HIS IMPRESSIONS.

Great Gathering of the Boston Home Market Club in Honor of the President and Cabinet.

Among the guests at the Home Market club dinner in Boston, at which President McKinley made his great speech, was a young Honolulu man, who has sent back his impressions of that event. The organization is to protect the rights of the American producer and the dinner was one of the biggest ever served on the mainland.

There was a reception before the dinner and the Honolulu lad had the honor of shaking hands with the President, Secretary Alger, Long of the Navy, Bliss, and others. Of the president the lad writes:

"I was disappointed with his appearance. It seemed incredible that such a small body should shelter such a great man. When I went up to the President I gave him a hearty shake, seeing he was directly responsible for annexation, and therefore, indirectly, for my being here. As I passed on to the next, I heard him remark, 'My, but that young man has a good hand.'"

"After the reception we went into the main dining hall, where covers were laid for some sixteen hundred men. We sat at the middle table and I felt myself foolish among so many great men. W. R. Castle sat on the speaker's platform at the same table with the President, Alger, Gage, Bliss, Smith and others. The system of waiting was done by a double set of waiters. At the raising of a white flag one set came in, at the raising of a red flag another set came in, while the first set went to fetch fresh supplies; there was one waiter to eight persons.

"Of course the speeches were what all came to hear, and I was near enough to catch every word. 'First, William B. Plunkett, president of the Home Market club, welcomed the president as the guest of honor. Then Governor Wolcott of Massachusetts arose and was received with great cheering, so that he could not speak for some time. He has a wonderful delivery, and told of the great things McKinley had accomplished, and welcoming him as the legal representative of the state. Mayor Quincy, a Democrat, followed. He gave all credit to McKinley, but he set forth that was the strength and good sense of the American people that had won the day, and that no one should have the entire credit of it."

"Then came the speech of the evening. When McKinley stood up I thought the crowd would go crazy; they cheered so lustily. When silence came he spoke with wonderful effect, though his voice is not powerful. 'He outlined the progress of his administration very clearly, telling how unwilling he was about going to war, but how, when it was upon him he pushed it to the finish, even to the ratification of the treaty, and how those who shouted first and loudest for war, were the earliest to fall away when it came to the solution of the knotty problems that followed, and how the conservative ones had to take it up and unravel it themselves. He also spoke of the great trust that was put into the hands of the United States by the terms of the treaty in the disposition of the Philippines, but said we were competent to cope with it or any other question."

"The whole speech was clothed in the guise of humanity, and I feel the man is sincere in that respect. The President closed after justifying the nation in its own conscience with an allusion to the great Magistrate, Jesus Christ. 'The speech was made so as to solicit public opinion on the Philippine question, and those present justified the President in every move, putting confidence in him for the future, thus sealing the fate of the Philippines, which will remain ours."

"After the President, came Charles Emory Smith, the orator of the cabinet. He took up the state of the country before the present administration, telling of its financial distress and depression, and how Bryan had been defeated by his own bad money basis. With every difficulty in the way the McKinley administration had built up industry to the highest pitch in the history of the country, as the exports of the last year plainly showed. After the triumph of our arms and industry our aim should now be commercial supremacy."

"John D. Long was hailed as 'Dewey's Friend.' He made a humorous speech and was applauded again and again. The whole affair wound up with all singing America. 'It certainly was an event worth taking in, and probably no such time will occur again. You see the administration has not had an opportunity to air its policy since its success. It was the chance of a life time to see and hear all these brilliant speakers together at such a favorable moment, and to know that all that was said would be flashed all over the world before morning."

SUFFERED FOR FOURTEEN YEARS. I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain-Expeller, which I did, and was immediately relieved, and in a short time cured. I am happy to say that it has not since returned. -Jose, Edgar, Germantown, Cal. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

THE TARIFF LAWS. It is but a question of time when the United States tariff laws will be applied to this country; then European dry goods will go up in price. Kerr's bankrupt sale will be continued until Saturday. Buy your supplies now.

A GOOD THING. There's one good thing when they feel dry. That business men cannot pass by. For far and wide it's fame you hear. They stop to drink of "Rainier" beer. On draught or in bottle at Criterion.

MAY BE NO COMMISSIONER

BYRON O. CLARK'S CHAIR MAY REMAIN VACANT.

Probability That the Central Government and Hawaii will Work Together—That Resignation.

It is just possible that there will not be a successor to Commissioner Clark in the bureau of agriculture. The indications are that the application of the American system to Hawaii will do away with the necessity for the office, save an assistant or sub-bureau.

Dr. Walter Maxwell has already been appointed correspondent, or agent, of the agricultural department at Washington. As such representative he will be the official head here of all work in that line for the central government. Besides the foreign correspondence and business with Hawaii, which Mr. Marsden and Mr. Clark have had to wrestle with in the past, will now be transferred to Washington. Thus a large per cent of the labor and responsibility of the bureau will be eliminated in the future.

The principal work of the new department here will in future be keeping up with agricultural matters in the country and caring for the Nuuanu and Makiki forests. Dr. Maxwell will attend to the former and David Haugs the latter. The work of the entomologist, which is so important, will continue without interruption. In his laboratory Professor Koebel will co-operate with Dr. Maxwell and Mr. Haugs.

The resignation of Mr. Clark was commented upon in various ways yesterday. Some said his resignation would have been requested had it not been sent in. This is a fact. Members of the bureau were practically a unit on the matter. They say that Mr. Clark has taken no interest in the work in outside districts—on Hawaii, Maui and Kaula—and that he is giving more time to the establishment of the colony at Kaula than to the work of his office. These charges were preferred at the meeting held yesterday, and were the cause of the committee to investigate the workings of the office.

It is the opinion of many people about town that Mr. Clark has done a great deal of work, although he has never been a visitor to outside districts. He is a practical agriculturist, and has worked on practical lines.

THE CREMIC TILE.

Ripley & Dickey have received from the east specimens of the new Cremic tile used for flooring. These tiles are white in color and not over an inch in diameter. They are fastened together by means of stick paper under the bottom in large blocks. The transverse side is laid in the cement, and the paper rubbed off, leaving the floor complete and hard.

Thus far the Cremic tile has not been employed in this country, but probably will be now at an early date.

LUAU AND FAIR.

Maternity Home Scene of a Happy Gathering This Afternoon.

Maternity Home, Beretania street, is the scene this afternoon of a most attractive spread, an interesting fair and a big gathering of the people of the town. The grounds are being used for this purpose, most of the fair being under special lanterns.

As has already been stated repeatedly the function is given by the ladies of the city in aid of the Hawaiian Relief Society, a worthy organization now in need of funds.

BUYING COAST HOMES.

Money Made in Sugar Goes Into Real Estate.

SAN FRANCISCO, February 24.—Another sugar man has been buying real estate, and Robert Oxnard has, through Shalvick, Buckbee & Co., purchased a lot on the north side of Broadway, west of Buchanan. The house was owned by Mrs. Helmrich, and is known as 2110 Broadway.

This purchase suggests the influence of sugar on the realty market in the past few weeks. Many of the purchases have been made by sugar stock operators, or men whose money is directly traceable to the plantations in the Hawaiian Islands. U. S. A. William G. Irwin paid \$150,000 to Irving M. Scott for the unimproved lot on the east line of Laguna, extending from Washington north to Jackson street, and to Miss Elizabeth Spooner her portion of the same property for \$29,000. Henry St. Ger, the stock broker, purchased for \$24,000 the house adjoining that of Russell J. Wilson, 2925 California street. Edward Pollitz, another sugar stock broker, bought the house, 2735 Broadway, for \$29,000, and Clinton Boney, a large jobber's stock of dry goods, etc. Mr. Fishel will open in the Irwin block on Nuuanu street.

SAITO IN COURT.

Goto, or Saito, the alleged Ewa murderer, was arraigned in the police court this morning. He was represented by Mr. Brooks. On motion of the defense plea was reserved to Monday.

POLICE COURT.

In Judge Wilcox's court this morning Yen Chui was fined \$5 for cruelty to animals.

Five common drunks paid the usual fine of \$2 each.

FISHEL'S NEW STORE.

Charles J. Fishel returned by the Moana from the coast. In the east he bought a large jobber's stock of dry goods, etc. Mr. Fishel will open in the Irwin block on Nuuanu street.

EXCLUSIVE NOVELTIES.

Complete assortment of advance styles and novelties have been received by N. S. Saehs Dry Goods Company, Ltd., in all departments. The varieties are larger than ever, while the prices are lower than ever. A visit to their store will repay you.

THREE ASSISTANTS NEEDED

AN ERUPTION PREDICTED

APPOINTMENTS RECOMMENDED BY COLLECTOR GENERAL.

Other Judgment Prevailed and Only One Assistant Harbor Master was Appointed—Efficient Service Test.

Collector General McStocker feels that an injustice has been done him in a publication in which the statement is made, in connection with the work, or over-work, of the harbor master, "the head of the department under which they are placed seems unaware of the fact that such is the state of affairs." The same idea is contained in the statement in the same publication, "It is a poor excuse, and it is not justice to the overworked officials mentioned, that the heads of departments do not desire to make any change in the existing state of things on the islands pending the final transfer of all authority to the United States government."

"Three months ago," says Collector General McStocker, "I recommended to the cabinet the appointment of three, or at the very least two, assistant harbor masters and wharfingers. In my view the standard to determine how many men were needed was not the question of whether any particular individual was overworked or not, but how many men were required to give efficient service. I consider that the test, efficient service. In my judgment we needed three, or at the very least two, assistant harbor masters and wharfingers. I recommended their appointment to the cabinet. Harbor Master Fuller went before the cabinet and said he could get along with one, and one was appointed. In justice to myself, I think I ought to make this statement. Efficiency of service is the test I have sought to apply in all my recommendations both to the legislature and the cabinet."

RETURN CHINESE.

Contention That All May Return is Not Sound.

Chinese residents interpret the decision of the secretary of the treasury to mean that not only Chinamen who received permits prior to August 12th may return to Hawaii, but those holding them out later and up to the time of the present decision, or at least until the question was raised by Agent Brown, may also come back.

Agent Brown and local legal authorities consulted do not so understand the decision. The newspaper dispatches, which contain the only information yet to hand, are clear on the point that the ruling applies only to return permits and residence bond monies antedating annexation, and the inference is that permits issued after August 12th were stamped subject to the laws of the United States, and every Chinaman receiving one did so with his eyes open and with the express understanding that the application of American laws here would invalidate the paper. Thus the Chinaman has no ground or chance of appeal.

This is the evening of the lecture by Professor Scott at the Y. M. C. A. hall on the subject of Japan. It is expected that a large number of people will be present. Professor Scott lived for many years in Japan and is thoroughly conversant with every detail of his subject. His talk should be instructive as well as interesting.

EVENING WEDDING.

Charles Johnson, a nurse at the Honolulu Sanitarium, and Miss Gertrude Vollmer were quietly married Thursday evening, Elder B. L. Howe officiating. Miss Vollmer arrived by the Moana that morning from the mainland.

LAND FOR SETTLEMENT.

The Kalahiki lands of South Kona, Hawaii, the property of the South Kona Coffee Company, Ltd., are soon to be thrown open for settlement. There are upwards of 3,000 acres of as fine land as there is in the Kona, situated above Hookea.

The present intention of the owners is to start an agricultural colony on the tract and develop the land in the production of coffee, tea, cinchona, rubber, sisal, cardamon and sugar, for all of which it is fully adapted.

BIRTH-DEATH.

Born—In Honolulu, H. I., March 3, 1899, to the wife of Henry Smith, a son.

Died—In Honolulu, H. I., March 3, 1899, the said new born son of Mr. and Mrs. Henry Smith. Buried yesterday.

SALE CONTINUED.

Kerr's bankrupt sale will be continued until Saturday. Bigger bargains than ever will be offered. Buy dry goods now and save money.

POINTS OF MERIT.

Strong, durable, easy running, simple attachments, all the result of constant study for many years, of men who have made a life study of perfecting the Singer sewing machine. With few equals, it has no superior, and is sold as low as any other first class sewing machine. Buy a Singer and you take no chances. If you doubt our word, ask your neighbor who has been using a Singer for the past ten or twenty years. For sale by B. Bergerson, agent, Bethel street.

ALWAYS THE BEST.

On every steamer Camarinos receives fresh goods from the Coast. His facilities at the Coast for securing the best on the market cannot be excelled. As for Hawaiian fruits and vegetables, he is fortunate in having a plantation of his own. When you cannot get what you wish in fruits and vegetables at Camarinos', King street, it is safe to conclude that it cannot be found in the city.

McINERNEY.

PUNA KAHUNA ANNOUNCES PELE'S ACTIVITY.

Positively Asserts That Kilauea will Soon Become Active—Less Occult Indications are Reported by Others.

Kilauea is not yet in activity, at least according to the latest reports from there. But there is the positive assurance of one of the most venerated and profoundly occult kahunas in the district of Puna that it soon will be in eruption. The kahuna, who is a woman, has been predicting an eruption for some time. Lately her prophetic voice has grown stronger and more positive. She now declares the eruption is imminent. Her reputation and influence have created the most positive belief among many of the Hawaiians in the region near the volcano, that there will be an eruption soon.

What will probably be received with more consideration by people generally is the statement received from the manager of the Volcano house, that indications of activity were observed some time ago. The heat in the crater is increasing very remarkably, and there is more smoke and steam issuing from cracks now than for many months although all these still fall short of an eruption.

Peter Lee, who has had long experience there, says the indications are similar to those which have preceded former eruptions, and he believes it very likely an eruption will take place, though he is far from having the positiveness of the Puna kahuna.

PARADISE OF THE PACIFIC.

The Local Magazine Makes its March Bow.

The opening article in the Paradise is upon Agriculture in Hawaii and is a portion of the report prepared for the Hawaiian Commissioners by Mr. ... The information is full and accurate, and will be of great interest to people who think of visiting the Islands for the purpose of settlement. The names of Channing A. Bartow and J. Martin Miller appear among the contributors, commenting upon and describing the Islands.

A new departure is a brand new story of adventure from an anonymous pen. This is localized and will repay perusal.

The plates represent coffee picking, with Japanese at work; a group of Hawaiian women, Oahu colleges and its celebrated night blooming cereus hedge and a bit of coast scenery in the Hana district, showing the southern boundary of Kipahulu. The latter is an especially good plate and brings the scene of ocean and cliff vividly before one's eyes.

COME TO THE CAPITAL.

The following arrived this morning by the steamer Lehua from Molokai, Lanai and Maui:

D. Center, J. Dudoit and wife, A. Kane, Rev. Kaulili, O. S. Meyer, Mrs. J. K. Kaulili, Mrs. M. Moore, Lucy Aa, and 5 on deck.

EMMES WHARF.

The cabinet has decided to start the dredger at work upon the berth along the Youman's estate as soon as it can be spared from other contracts. It was decided some months ago to build a long wharf parallel with Queen street toward King street bridge at this point.

LEHUA'S CARGO.

The steamer Lehua brought the following cargo: 1,315 bags sugar, 23 cattle, 5 calves, 1 colt, 75 sheep, 5 lambs, 87 hides, 50 packages of sundries.

HAT MANUFACTURERS.

If the manufacturers of native hats want to keep up with the procession and get foreign trade, they should be prepared to put up their goods in proper shape for going by parcel post. United States manufacturers pay great attention to this. In Honolulu it is almost impossible to put up a hat properly for postage.

THE ORPHEUM.

This is the evening of the reopening of the Orpheum with the new vaudeville company brought down by James Post. The curtain will rise at 8 sharp. This is undoubtedly one of the best variety combinations ever in this city. The last number on the program, that of the trained dogs, will be a novelty here.

MORE DEFECTIVE BLASTING.

Residents of Hotel street and Adams lane had another shower of coral stone at 7:30 this morning. A blast in the excavations for the new Elite building at the corner was not properly packed and went off with a volcanic bang, hoisting rock, dirt and dust high into the air. The debris fell over the premises in the neighborhood.

Received, S. G. Wilder, handsome line of carriages and phaetons. W. W. Wright.

The Peerless preserving paint has a heavier body than any other paint.

WHAT PIRATES DID.
 Shot the Captain of a River Steamer and Ransacked His Vessel.

News comes from Canton of the piracy of the Chinese steamer Chung On on the West river. The Chung On is a small Chinese steamer of about 70 tons burden, running between Canton and Wuchow. She left Wuchow for Canton with passengers for various ports, between there and Canton. It appears that ten pirates boarded her at Wuchow as passengers, and at Do Sing several more came on board with some large earthenware jars, which they said contained food. All went well until after the vessel had passed Tak-hing. Then the pirates commenced business at Chat Par-lin. They broke the jars and in one there were revolvers and in the other ammunition.

The Chinese captain got hold of a pistol, and was holding it out of one of the wheelhouse windows ready to shoot anyone who came along, but one of the pirates crept softly around the house and grabbed the pistol before the captain was able to make use of it. The pirates then shot and mortally wounded him, and while he was lying helpless on the deck they opened his jacket and after the chamber of his revolver into his stomach. After he was dead they cut off two fingers and two toes. One sailor was wounded in the shoulder by a bullet, and another man in the thigh. The pirates took all the valuables, money and clothes of the passengers, and left the vessel at Do Kse, a place about a mile below Yue Sing. The passengers refused to go on to Canton, and the steamer was headed for Tak-hing. As the officials there seemed to be unable to do anything, the vessel was steered to Wuchow, where the affair was reported to the officials.

MAN.

What Can be Made of His Body When Dead.

German science announces that everything needed to make a man weighing 150 pounds can be found in the whites and yolks of 1,200 hen's eggs. Reduced to fluid the average man will yield 98 cubic metres of illuminating gas and hydrogen enough to fill a balloon capable of lifting 155 pounds. The normal human body has in it the iron needed to make seven large nails, the fat for fourteen pounds of candles, the carbon for sixty-five gross of crayons, and phosphorus enough for 820,000 matches. Out of it can be obtained, besides, twenty coffee spoons of salt, fifty lumps of sugar and forty-two litres of water.

CHAMBERLAIN'S COUGH REMEDY
 This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

THE VALUE OF EXERCISE HOW CONSUMPTIVE PATIENTS ARE CURED. Second Point in Dr. Walther's Method for Fighting the Dread Disease and Winning the Battle. Following the remarks upon "Feeding," published yesterday, The Star gives the views of Dr. Walther upon the necessity of proper exercise and rest, which should be carried out by the consumptive patient. The necessity of the mind being freed from all excitement is especially dwelt upon. The results as stated are startling and are vouched for as true by James Arthur Gibson, who has undergone the cure with success. Mr. Gibson writes as follows: "Doctors at home little realize that this is such an important matter. Certainly there is nothing so harmful to a consumptive patient as over-exertion in any form, mental or bodily. Even too great intoness in reading a novel, or let us say, the excitement and engrossedness of listening to a concert, are injurious. Dr. Walther gives great attention to this matter of regulating the amount of exertion for the days that more consumptives kill themselves by doing too much than in any other way. Each patient has to take his temperature, by the rectum, four times a day and note it on a chart. The doctor visits him three times a day and can tell at a glance from the temperature chart whether the patient is doing as he ought, and instructs him accordingly; whether he is to be in bed or to lie on his couch, to sit outside, or to go a long or a short walk. When there is fever the patient is required to be in bed until such time as the temperature becomes normal. In old standing and obstinate cases this is sometimes for months. When in bed the patient is expected to eat quite as much as when going about. Walking is generally uphill, and always at a small pace, so that the heart is exercised without being exerted, and are thus strengthened and healed. These walks are increased in length as the patient grows stronger, until by the time he is quite cured he is allowed to walk long distances, say ten miles, and is so thoroughly hardened and confirmed in health that he is able to return home to at once resume work. When cured, the erstwhile patient is sent back to this country as readily in mid-winter as in mid-summer. Winter in fact is the best time for consumptives under the Nordic treatment, as then they eat more and gain weight more rapidly. Ten hours sleep every night for each patient; to bed at 9 and up at 7 o'clock. Though one may not be sleeping all the time, one is resting. The doctor is very much displeased when any one disregards his instructions on these matters. Indeed the patient soon finds out for himself that the laws laid down are for his own good. Over-exertion to the length of fatigue results in return of cough or fever, or tells a tale in some other unpleasant way."

LIBERAL GIVER. Dr. Edward Murphy of New Harmony, Ind., has given \$2,000 for the town's public library, in addition to the sum of \$20,000, which he gave some years ago.

THE STRONGER EYE. An eminent specialist states, after a long course of visual examinations, that in only 1 case out of 15 are both eyes in good condition. In 7 cases out of every 10 people possess one eye which is stronger than the other. Nearly 50 per cent possess an imperfect appreciation of color.

STRONG CONSTITUTION. "For forty years I was not in bed a day on account of illness, but I have recently been threatened with kidney and bladder difficulty, and sometimes with the grip. Believing an ounce of prevention is worth a pound of cure, I resorted to Hood's Sarsaparilla and it has kept me in good health." Mrs. W. E. Beckwith, Lompoc, California.

AN ISLAND KING. George Ross of Keeling Islands Received in England. George Clunies Ross, king of Keeling Islands who passed through Honolulu a few weeks ago, has lately been officially received by the British government. Duchess de Belmeire, writing in the Chicago Record, says: "It might be thought perhaps that Monaco held the record among principalities for diminutive size. Not at all. England has just been welcoming the full fledged king of a much smaller kingdom, at least as far as population is concerned. His majesty, George Clunies Ross, rules over the kingdom of Keeling Cocos, inhabited by 600 faithful subjects. There are eighteen islands in his kingdom, ranging in size from the area of a billiard table to that of a kitchen garden. His majesty has just been received by Mr. Chamberlain as representative of her majesty's government. It is said that his majesty has discussed with Mr. Chamberlain the fortification and defense of the kingdom of Keeling Cocos, so one may assume that he will soon have an army, artillery, arsenals, war budgets and the rest. He is getting on. The regency, by the way, is being exercised in his absence by his wife, and the actual ruler will not return before having visited the capitals of a few of the continental states."

SATURDAY, MARCH 4, 1899.

Another installment of James Arthur Gibson's article upon "The Open Air Cure for Consumption" is published today. The subject is one of the greatest interest to us on the Islands. Mr. Gibson claims that ninety per cent of the patients that have accepted the methods employed at Nordrach are cured and become robust. When we see that twenty-one sufferers died from consumption in the Honolulu district during the last two months anything that can give hope to those sufferers is worthy of deep consideration.

The City of Columbia sale has been again postponed. It was only the other day that everyone thought that the last had been heard of her, and that Harry Evans would ring down the curtain on her career, but she has brought him into legal difficulties. She brings bad luck to everyone who is connected with her. Away back in last year when she came round the Horn, she commenced putting misfortune upon those who possessed her. It is plain that she must have been commenced on a Friday, launched on a Friday, sailed from the east on a Friday, and if she is not broken up, some of these weeks she will sink on a Friday, and so end all her troubles. A man who owns her ought to be glad to pay money to any one who will take her off his hands. She is a combination of hoodoo, ill luck and wicked fairy.

FINANCIAL STATEMENT.

The auditor general publishes the monthly cash statement for the month of February, 1899, with a comparison for the same month last year. The total amount of current receipts is \$17,514.93, as against \$13,664.98 for last February, which is satisfactory. On the other hand the current expenditures on current accounts in February, 1899, amounted to \$99,628.69, while those upon current account of this year amounted to \$169,708.89, being pretty close up to the current receipts for the month. Under the Loan Act, in February, 1898, only \$6,192.65 were expended, and in 1899 from the same source \$24,798.89 have been spent, making in all an expenditure, for February, 1899, of \$194,507.69, against \$105,822.31 for the same month in 1898. This does not look like undue parsimony.

It is interesting to look at the items of receipts from the customs and postal bureaus. The former brought in \$86,751.13 and the latter \$12,824.17, or \$99,575 in all. The expenditures for running these bureaus were \$9,966.41 for customs, and \$7,547.74 for postoffice, making \$17,514.15 as a total. Deducting this sum from the total receipts we get \$82,061.15, which would be the net revenue for the month that we would surrender to the federal government when it takes hold. No wonder the Minister of Finance desires to keep a good balance in the treasury to tide us over the difficulties which must come until our finances adjust themselves to the new condition of affairs. And this period of adjustment will last over some length of time.

JAPANESE CRIMINALS.

The determination of certain classes of the Japanese to shield any of their countrymen who have committed crime from its consequences seems likely to break down. It has given the police authorities an immense amount of trouble. In the Ewa case, one of the men, who now confesses to the crime, was able to baffle the efforts of the police for a long time. According to his own statement some society of which he is a member managed to hide him from the police and eventually smuggled him off to Kona. However money eventually caught him. Had the reward for his capture not been offered, he might have escaped his deserts for some time, now however he is lodged in jail. His "friends" wanted money, and as he had none to give them, they were quite willing to take what money they could get out of the government.

There is another Japanese crime to unravel and the alleged murderer has been in the hands of the police, but when the case came to trial, the witnesses who had been ready enough before the trial, were afflicted with loss of memory and a complete alteration of facts. So the government officers had to enter a nolle prosequi, in order to enable them to bring the man to trial at some future time, should evidence yet be forthcoming.

The better class of Japanese and the thrifty among the laborers are satisfied that their countrymen, if they commit crime, should be punished for it. They no more desire to have thieves and murderers among their ranks than any other nationality.

The success of the police in this case may be the forerunner of success in other cases also, and it may be possible to get a clean up of Japanese crim-

inals. From the statements made about Kona, there seems to be a plentiful lot of fugitives among the coffee plantations. No wonder they worked cheap.

ISLAND PROGRESS.

There is a considerable rush to put in new land in cane, and daily suitable locations are being found. There is much yet to be developed in Hawaii, and Maui in the direction of Honokohau should supply at least one more plantation. There is a fine water supply which could be tapped in the upper part of the valley and brought upon the flats that lie between Honokohau and Kahakuloa.

Molokai and Lanai have sprung into life with plantations, and these were islands which were utterly neglected before. Oahu is pushing forward in the race, and bids fair to equal, if not to exceed, some of its larger neighbors. Ewa plantation was the banner one of the group last year.

The only island that has remained quiescent during this period is Kauai, and yet there is much land on Kauai quite capable of high cultivation which at present is covered with guava and underbrush, while the water which might irrigate it pours uselessly into the encircling ocean. It is a fact that Kauai has ever been a conservative island, and different from the other islands of the group. You can tell a Kauai Hawaiian by his speech. The foreigners who have settled in Kauai are also different in character from those who have settled elsewhere. The fever of energy has at last begun to work upon the island, and Wahiawa changes from a cattle ranch to a sugar estate, and others will follow. But it is a certainty that those who live there now will resent the change, and not enjoy it. Progress, however, sweeps all before it, and Kauai can no more remain the quiet pleasant, dreamy island it has been, than the land about Chicago can be peopled by Indians and wild animals, as it was sixty or seventy years ago.

A GRIEVANCE.

The Japanese journal, the Jimmin, makes an admission with regard to Japan's policy toward the United States which is not likely to be endorsed by the government. It says "the reason which influenced Japan to obstruct America in the Philippines." Now the Japanese have posed as the friends and almost allies of the United States, so that if the Jimmin is truthful it is making a very unpleasant statement of Japanese duplicity.

However, the Jimmin says that the "obstruction" policy gave way, and hints that had it not been for Japan's kindness in withholding her hand, "the United States could not have had her way so easily as she does." It is to be hoped that General Ots and Admiral Dewey are thoroughly appreciative of this forbearance on the part of the Empire of the Chrysanthemum.

What, however, troubles the Japanese most is the possible closing of the Hawaiian Islands as a field for Japan's redundant labor supply. Over this the Jimmin mourns. If one reads between the lines one will see that the Jimmin represents the section of Japanese thought which calculated to fill the Hawaiian Islands with Japanese and then demand the franchise, with the object of ultimate absorption by Japan. Annexation to the United States killed this hope forever. The expansionists of Japan looked then to the Philippine Islands, but again the United States has been forehanded, and the prospect is again clouded. No wonder the Jimmin is angry. The condition of mind explains why a portion of the vernacular press of Japan so greedily seizes upon and republishes as facts the lies against American soldiers sent forth by the Filipino Junta at Hongkong.

The demand still continues for the celebrated

Blue Flame Oil Stoves

and being out of them caused great inconvenience to our customers and resulted in loss to us. But we have just received a large shipment of these justly famous stoves in three sizes, which we offer at the following prices:

\$16. \$22.50 \$25

These stoves are absolutely non-explosive and free from odor. So clean are they that a meal can be cooked in the parlor and the stove wheeled out, and no one know that cooking had been going on. They are very economical also and are just the thing for small families and light house-keeping.

We have also left a very few of the

FISCHER STEEL RANGES

which we desire to close out, and in order to do so quickly we have reduced the price to

\$45.

This figure for the Fischer Steel Range will be appreciated by those who know the value of them. It is very low and the price will soon dispose of them.

To Attorneys.

And to whom it may concern:
I beg to call your attention to my capabilities as an auctioneer, and respectfully solicit such business as might be at your disposal. I act as referee; conduct such sales as are formally demanded in the transaction of legal affairs; make appraisements and act as administrator of estates. I have all the facilities necessary for the successful conduct of this special class of business. I am a licensed auctioneer, thoroughly familiar with all the requirements demanded in the office as such, and PERSONALLY CONDUCT all sales. In short, I will take full and complete charge of all affairs appertaining to real estate.

Real Estate Owners.

My Real Estate Department is devoted to the listing and sale of Realty, and is most thoroughly equipped. My methods are peculiarly my own and are uniformly of satisfaction to all with whom I have business relations. In all the departments the utmost courtesy is extended to all. Special attention given to the subdivisions of outlying tracts. Twenty-five and more years experience justifies this statement.

House Renting

—AND—

Collection of Rents

In no department of the real estate business should greater caution be exercised than in these departments. EXPERIENCE, TRUSTWORTHINESS, AND AFFABILITY are absolutely necessary. CIRCUIT COURT CLOSING

JUDGE STANLEY DECLARES IT AT NOON TODAY.

All Business of the Term is Finished, and the Term Would Expire by Limitation Tomorrow.

At 12 o'clock noon today Judge Stanley adjourned the February term of the circuit court, sine die. All business had been finished up and the term would expire by legal limitation tomorrow.

In the matter of J. Todd vs. James Hooper Davis and William Hooper, garnishee, defendant, Hooper, garnishee, has filed an answer denying that he has any property or funds in his hands belonging to defendant Davis. This is an assumpti matter.

In the matter of L. L. McCandless vs. S. Mabelona, et al., action to quiet title, plaintiff has perfected his appeal to the supreme court. Judge Perry has approved the appeal papers in the matter.

In the matter of F. L. Dorch vs. A. V. Gear, bill to declare a trust, plaintiff today filed a motion in circuit court that the case be heard forthwith.

In the matter of the application of Lincoln D. Spencer for the registration of the Star of France, petitioner today filed a motion to have respondent's answer quashed on various grounds.

In the matter of the Republic vs. Hawaiian Commercial and Packing Company, bill for injunction, William O. Smith for plaintiff has filed a motion that the bill be dismissed. This is equivalent to a settlement of the cause.

LABOR COLLEGE OPENED.

Oxford, February 23.—The Labor college for labor leaders, called Ruskin Hall, and founded by two young Americans—Messrs. W. V. Vrooman and C. A. Board—was formally opened last evening at the Oxford town hall at a largely attended meeting, presided over by F. York Powell, professor of modern history in the University of Oxford.

Ruskin will accommodate about forty men. There will be no ordinary servants, but among the students will be cooks and other servants, who will get their board free in return for four hours' daily work. The remainder of their time will be available for study. The entire expense of the students for board, lodging and tuition will be a pound a week. The funds for the new scheme are provided by American admirers of John Ruskin, the famous art critic and author.

THE CELTIC.

The U. S. supply ship Celtic expects to sail for Manila at 8 o'clock tomorrow morning.

FIVE CENT SHOPS.

Pexiotta, the barber, who has returned from Hilo, says that there are thirty-five Japanese shops in the rainy city shaving for 5 cents.

NICARAGUA'S ROW.

NEW ORLEANS, February 23.—The steamer Sundal of the Bluefields Steam Company, flying the Norwegian flag, reached this port tonight.

General Reyes from Bluefields dispatched an officer and a company of men to go north and seize \$40,000 in the custom house at Cape Gracias. The money was captured, but the officer in command of the freebooting expedition pocketed the coin and left the soldiers without a leader to return empty handed to General Reyes.

General Reyes is preparing his gunboat, the San Jacinto, for an expedition to Greytown, taking most of his army with him. It was the general understanding that President Zelaya was at Greytown with the larger portion of his forces. General Reyes' forces are much smaller, and made up to a large extent of Americans.

The belief was expressed that a very strong effort would be made by the insurgents to secure the mouth of the proposed Nicaraguan canal, and that when General Reyes or any other body forms an independent republic, it will hold a strong card for American recognition.

Tonight the Nicaraguan consul in this city received an official order from President Zelaya saying that no further clearance papers should be issued to vessels for Nicaraguan ports.

A Tumor Formed

Finally It Broke Inwardly and Discharged

Trouble Began With Dyspepsia and Impure Blood

Thorough Course of Hood's Sarsaparilla Completely Cures.

There is danger in impure blood. Disease and suffering are surely coming to those who neglect this threatening symptom. Read this:

"Gilliam, Missouri.

"C. I. Hood & Co., Lowell, Mass.:

"Gentlemen:—My troubles began with nervous headaches, which would last me for two or three days. The doctors pronounced my trouble dyspepsia, but they could not do anything for me, and advised a change of location. At the age of 55 a tumor formed on my spine, which

Was Very Painful

but did not rise or discharge. The doctor thought best to cut it out, but I objected. It finally broke and discharged a great deal. The doctors said they could do nothing for it. Then the tumor began to rise inwardly and discharge. I read much about cures by Hood's Sarsaparilla and thought I would try it. Before I had finished taking one bottle I was much relieved. I continued the use of Hood's Sarsaparilla, and after taking 12 bottles I was entirely cured. I am now well, have a good appetite and feel that I owe my life to Hood's Sarsaparilla." W. D. FORD.

Hawaiian Electric Company.

The cleanest, brightest safest and really the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lantern tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. First think it over and make up your mind what you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in my line and have just received a lot of the very latest designs in chandeliers

INFLAMMATORY RHEUMATISM.

From St. Lawrence Plainedealer, Canton, N. Y. To suffer for years with a prevailing painful ailment, which baffled skillful medical treatment, yet which was cured by a simple household remedy, is the lot which befell Mrs. George L. Rogers, of West Main street, Canton, N. Y.

"Thirteen years ago," said Mrs. Rogers to a reporter, "I was attacked with inflammatory rheumatism and a complication of diseases. You can judge somewhat of what I endured, when you look at these hands. They were distorted, twisted and swollen. My foot, too, is so much out of shape that the big toe lays across the others, the end touching the little one."

Goes to Church.

"Notwithstanding I am sixty-five years old, have a pleasant home and other comforts, life to me was far from enjoyable, for all other things pale into insignificance when you are without good health. I tried many different doctors and many proprietary remedies, but was not benefited. "Last March I tried Dr. Williams' Pink Pills for Pale People and before I had finished the first box I began to feel that they were doing me good. I continued using them and steadily grew better."

"I have used thirteen boxes of the pills and today feel better than for the past fifteen years. My appetite is good, I feel bright, cheerful and have a desire to live and enjoy society."

"I have been a member of the Methodist church for many years, but for six years was unable to attend. I am able now to attend the church services regularly and certainly appreciate that privilege. I consider Dr. Williams' Pink Pills for Pale People a wonderful medicine and am confident no other medicine could have effected the wonderful cure they have in my case. Dr. Williams' Pink Pills for Pale People are composed of vegetable remedies that exert a powerful influence in purifying and enriching the blood, thus curing many diseases."

FEBRUARY

Was a very cold month in the bean cutting and wooden nutmeg making sections of the United States, but it was rather a warm month in the poi section judging from the way our large stock of COLUMBIAS and RAMBLERS melted away. Thirty-eight Columbias and Ramlers sold for the short month of February, was our record, and five for the first three days of March, makes us believe that this is going to be a good month also. No one to blame for all this but Columbias and Ramlers themselves. Best wheels on earth can't help selling. Seventy-nine bicycles ordered for return trip of the Australia. Do not know just how many we will get till she gets here, as it is hard to get all orders filled for Columbias and Ramlers, as they cannot be made fast enough. Columbias, \$50.00, \$60.00 and \$85.00. Ramlers, \$50.00. The only thing for nothing is wind, and that you will find on the sidewalk on tap.

BAILEY'S BIKE BITS.

We have now on tap a supply of pure and undiluted wind, free to all, direct from our own wind-bag, warranted to ride easier than any other brand on tap in Honolulu; puncture-proof and free from oil or any substance that could possibly injure the most sensitive tire. Remember, that a blow up at Bailey's will go farther than any other in town. We have the finest thing in connection with free air; no hose, no trouble. Talking about puncture-proof, we shall have in stock in a few days a tire that a Kiawe thorn cannot penetrate. We sent to the maker a full line of thorns for trial. The factory experimented with them and found that the Milwaukee Puncture-Proof Tire is impervious to the worst Kiawe thorn you can find. It is also as easy to ride as any first class tire in the market. Puncture Proofing has not affected its resiliency. No metal strips in the tread. THE FILIPINO LEGENDS

CURIOSLY LIKE EUROPEAN FOLK LORE.

The Pied Piper of Hamelin Repeated in Manila—Filipinos Historical Plays Show Chinese Influence.

There is little Filipino literature, according to the author of "Manila and the Filipinos." What there is consists of legends, ancient songs and curious historical plays. The legend of the "bankiva" bears a strong resemblance to the European Pied Piper of Hamelin. The author tells it as follows: "The jungle fowl or bankiva possesses the power of charming children by a special cry or call. But they are only allowed to use this power either one day of the year or one week of the year, when the spirits give them the privilege so that they can avenge themselves against their chief enemy—man. "The handsomest bankiva is selected by the flock to lead a procession of the jungle fowl, who fly from the forest to the outskirts of the village and there give the call. Grown people do not hear it, but little children hear it and are intensely delighted. Babies turn in their mothers' arms and coo in response, and little toddlers hurry on fast as their feet can carry them to see the strange bird that produces the beautiful music. When they reach the little ring in which the bankivas are singing, spreading their feathers and

dancing, they pause for a moment, and then as the flock begins to move towards the forest, they follow unconsciously. Into the forest and into the marsh, into the lairs of serpents and into the haunts of alligators, the helpless innocents wander, drawn by the magic of the bankiva's call. They seldom return, and when they do, they come back as old men and women to whom the village of the morning is another and very different place." The native dramatic literature, we are told, is extremely crude and at the same time very artificial. The writer goes on to say: "It would seem as if the Malays had been influenced by the Chinese stage across the sea. They employ, like the Chinese, very rich costumes, use an open platform without scenery or any stage properties, and employ sing-song delivery, which to the Caucasian ear is very monotonous and unpleasant. Their plays are of three classes. One is of a religious type, something like the miracle plays in old English civilization. A second class, which is more popular is known as the Moro-moro, named after the Moros or Mussulmans of Mindanao and the Sulu archipelago. These are heroic, or rather melodramatic, productions, in which there is a brave Christian prince and an equally brave but wicked Moslem potentate, a heroine who is captured or robbed or otherwise injured, soldiers of the Cross and warriors of the Crescent, and any amount of fighting, bloodshed and massacre. "The heroine is always rescued, the Christian prince always wins, and the luckless follower of Mohammed is consigned to defeat, disgrace and to death. These Moro-moros last from two to six days, and produce so much excitement that when a company comes to a village nearly all labor is suspended until its departure."

GERMANY VS. RUSSIA.

BERLIN, February 22.—Much importance is attached here in diplomatic circles to the sudden decision of the German foreign office to recall several of the German consuls from Persia. The incumbents will be replaced by military men of high standing. The kaiser, it is said, is responsible for this new and interesting departure, which is obviously inspired by alarm felt at the immense spread of Russia influence in Persia; thanks to the activity and ability of the czar's representatives.

KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
