### Nippon Maru.

The Nippon Maru arrived off port at an early hour last evening. She came to an anchor and Hackfeld's scow went out to bring in the mail as neither pilot boat was available, one having gone outside to the Albert and the other one being engaged in chasing the Inverness-shire. Mr. Schuitze of H. Hackfeld & Co., was the only man who went out on the scow.

The passengers did not come in last night but waited until the Nippon Maru hauled alongside the Pacific Mail wharf at about 8:30 o'clock this morning.

## BROWN OPPOSES BROWN

### Objection From North Carolina in Matter of D. B. Smith's Estate.

### Objection Asserts Existence of a Will and As Largest Creditor Objects to Administrator and Nominates a Receiver.

A telegram has been received at the Judiciary Department, as follows: "Statesville, N. C., Feb. 9, 1900. President Judge First Circuit Court, care Henry Smith, clerk, Honolulu, Hawaiian Islands. Objections made to appointment Cecil Brown, administrator estate D. B. Smith. There is a will. If it cannot be found I am entitled to administration as largest creditor. Postponement ninety days for hearing respectfully asked. Appoint E. I. Spalding temporary receiver.

"GEO. A. BROWN."

Mr. Smith immediately drew up the following reply:

"Department of the Judiciary, Honolulu, H. I., Feb. 16, 1900. To Mr. Geo. H. Brown, Statesville, N. C. Dear Sir:—Your objection per the Western Union Telegraph Co. to the appointment of C. Brown as administrator of the estate of the late D. B. Smith this day received. So far no will in this country has been produced or offered for probate. If there is such a document not in this country the appointment of an administrator here would be subject thereto and the administration would in all probability be treated as ancillary upon the filing of an exemplification of the proof of such a document in some other jurisdiction outside of these islands. I do not believe the court here, in this estate, would entertain the appointment of a receiver, the usual course of administration would be preferred. According to law in such cases, the nomination of an administrator by the heirs precedes that made by a creditor irrespective of the largeness or smallness of any claim; all creditors alike being protected by the amount of the bond, which is usually based upon the value of the estate to be administered upon. Both nominees C. Brown and E. I. Spalding, are equal in their standing in this community, commercially, socially or otherwise. I do not think anything can be gained by postponing the hearing for three months. However, the court may think otherwise. I write this simply to let you know that your objection has been filed. Yours truly,

"HENRY SMITH,

Clerk Circuit Court, First Jud. Circuit."

## VOTE TO EXTEND SEWERS

All the Cabinet members were present at the Executive Council meeting this morning, also F. M. Hatch, representing the Board of Health. With regard to the resolution of the Board of Health dated February 3, it was "Voted that the Executive Council recommend to the Council of State the appropriation of \$275,000 for the completion of the sewerage system under the present contract and the estimated cost of the extension of the sewerage system as outlined in Mr. Rudolph Herring's plans for the sewerage system of Honolulu; also for the proposed extension of sewerage to outlying districts; the same to be subject to the final approval of President McKinley."

It was also voted "that the Executive Council authorize the Minister of Finance to transfer \$100,000 from the current cash to the loan fund cash as provided for under Section 1, Act 63, Session Laws of 1898."

### Liliuokalani to Return.

Hon. Samuel Parker, who returned in the Nippon Maru last night, is authority for the statement that Queen Liliuokalani will be back in Honolulu some time this month. She would have returned in the Nippon Maru but her physician in Washington advised her to remain a little longer to fully gain the good effects of the change of climate. When Mr. Parker left Washington she was looking exceedingly well.

### Guardian's Sale Confirmed.

Judge Perry has signed an order confirming the guardian's sale of real estate belonging to Edwin Austin Jones, Helen Jones, Margaret Jones and Catharine Hay Jones, minors. The property consisted of an undivided one-half of seven land and water interests at Waikane, on the Koolau side of Oahu, the other half being the property of P. C. Jones, grandfather of the minors. The sale was made to L. L. McCandless, as the highest bidder, for \$12,500.

### Little and Masonry.

It is learned from authoritative local Masonic sources that Col. G. F. Little has not been elected to thirty third degree Masonry.

## HAS BULLER RETREATED?

### Telegram From Boer Sources Causes Anxiety.

### No Indications That Marked Headway Is Being Made—Activity With Methuen's Forces—Big Artillery Duel.

Pretoria, Monday, Feb. 5.—Col. Plumer's force February 2, attacked the Boer position near Ramonsta and after heavy fighting including an endeavor to take the place by storm, the British were repulsed. Their loss is unknown. No Boers were injured. London, Feb. 9.—6:40 p. m.—Up to the present time the War Office has evidently heard nothing of General Buller's retreat as described in the despatch from the Boer Head Lager, Ladysmith, February 8. When shown the despatch the officials appeared utterly dumb-founded. Apparently they had not the least suspicion of the possibility of such an outcome of the operations.

### Retired From Molens Drift.

Boer Head Lager, Ladysmith, Thursday, Feb. 8.—The British who were in possession of the kopje at Molens Drift, abandoned it after a bombardment by Boer cannon this morning and retired across the Tugela river to their former position. A desultory cannonade is proceeding at the Tugela this morning, but otherwise everything is quiet.

### Says Buller Retreated.

Head Lager, Ladysmith, Wednesday, Feb. 7.—An armored train yesterday made a sortie from Chieveley towards Colenso and landed 2,000 British troops on the right of the Boer position.

The Boers immediately crossed the river and made an attack with rifles and artillery forcing the withdrawal of both the train and the troops to Chieveley.

The fighting on the Upper Tugela river lasted, until 8:30 o'clock Tuesday evening. Particulars are lacking. Firing at Colenso and along the Upper Tugela has been proceeding since 5 o'clock this morning.

### Methuen's Men Retired.

Koodorsberg Drift, Feb. 8.—The Boers yesterday made a determined attempt to drive the British from a hill commanding the drift. Mounting two 7-pounders at the northern extremity, they shelled the position the whole day.

The Seaforth Highlanders gained a position on the rock; summit and kept up a sustained rifle fire, but suffered somewhat from the Boers' shelling. A battery was sent and succeeded in silencing the Boer fire. Meanwhile two companies of the Argyll Highlanders advanced along the plain in a westerly direction, found the Boers entrenched at a small drift. A sharp engagement followed, lasting the whole day.

In order to completely surround the Boers, General Bullington was despatched from the Modder river with a large force of cavalry and two batteries of Horse artillery but failed to reach here, although he started early enough in the day to enable him to get here early this afternoon. This morning, General Methuen ordered that the combined force should retire upon the Modder river, which movement is now proceeding. The British losses in the fighting on Wednesday were fifty men killed or wounded.

London, Feb. 9.—The despatch from Koodorsberg Drift does not say whether General Bullington finally joined General MacDonald, but the word "combined" seems to indicate that he did so.

### London Is Worried.

London, Feb. 9, 2:35 p. m.—There is still no news of General Buller's doings today or yesterday. A despatch dated Frere Camp, Thursday, February 8, but probably written with the advanced lines of Wednesday, February 7, and sent to Frere by runner, says: "The forces of the enemy are on both our flanks and continue to render our position difficult to maintain."

Beyond the fact that General Buller devoted Wednesday to bringing more artillery and troops across the Tugela, nothing is known of his movements, but that he badly needed reinforcements is evident from the foregoing from Frere. It is still more patent that it is impossible for him to advance until the artillery has been enabled to take up forward positions for the purpose of subduing the Boer guns on both flanks. Upon the length of time occupied in this operation depends the duration of General Buller's maintenance of the defensive. It is reasonable to suppose that the guns and re-

inforcements were in position yesterday and the important advance is now progressing, or at least that the bombardment preliminary to the actual movement of the troops is in progress. In the meanwhile, news is awaited with great eagerness, not unmingled with anxiety.

Almost all the critics now point out that the mere pushing through to Ladysmith without securing a decisive victory on the way there would only add danger to what is already a critical situation.

Another Frere Camp despatch says a Boer prisoner asserts that the burghers expected General Buller to cross at Sklot's Drift, and that thousands of Boers were being posted at Doorn Kloof, to oppose such a passage while on a captured hill there were only a few hundred Johannesburgers. This tends to increase the anxiety of those who believe that General Buller has scarcely begun the serious part of his advance, though encouragement is gleaned from the news that the heavy naval guns after repeated attempts during which the mules rolled down the hill, have succeeded in reaching the summit of Swartz Kop, when they are doing excellent practice.

General Hector MacDonald's retirement from Kood's Drift has created disappointment. But the operation was apparently only intended as a sortie or failure could scarcely have resulted in any material effect on the campaign.

A rumor that Ladysmith had been relieved is again current today, but the War Office authorities say they have no confirmation of the report.

Military attaches will leave tomorrow. Their destination is not given, but presumably they will join Lord Roberts, whose whereabouts have not yet been made public.

It was said today that one of the first steps to increase the home army will be the raising of thirty-seven new Horse and Field batteries with barracks on Salisbury Plain, and the addition of third battalions to numerous regiments which at present are without them.

### Britain's Terrible Loss.

London, Feb. 9, 4:30 a. m.—The heaviest fighting in the advance of Buller appears to have been on Tuesday. General Buller's 233 casualties are mentioned as having occurred before noon Tuesday. Large lists are consequently expected for the rest of the day. The casualties already reported brings the total British losses during the war to 10,244 killed, wounded and captured.

The supplementary army statement to March 31st was laid pro forma before the House of Commons yesterday, but was not made public. It is reported that the call is for £20,000,000, which would make the cost of the war up to that date £30,000,000. The maintenance of 200,000 men at the front, it is estimated, costs between £8,000,000 and £10,000,000 per month.

### Hard Fighting for Buller.

London, Feb. 8.—Spencer Wilkinson, in the Morning Post today, says: "The British forces appear to be everywhere on the move. In the absence of local knowledge it is idle to guess the site of General Buller's next attack. If, as seems likely, this is east of Potgieter's Drift, the distance to Ladysmith is only ten miles and the country is more open than any other route. In any event General Buller's troops will have to break the enemy's resistance by hard fighting, for the delay involved in crossing the river must make it difficult to gain the start needed to turn the enemy's flank."

"It is not known whether Lord Roberts has moved to begin the campaign or not. It may be that he has only moved to some point nearer the scene of operations, where he can be in communication with all his Generals."

### Buller Was Stopped.

London, Feb. 8.—A special despatch from Spearsman's Camp, dated Wednesday, February 7, says: "Our further advance is at the moment prevented, as the Boers enfilade us from their positions on Spion Kop and Doorn Kloof. Our casualties, although estimated at 250, are trifling, considering the great importance of the movement just concluded."

### Aguineldo Has Escaped.

Chicago, Feb. 9.—A special to the Chronicle from Washington says: "The War Department believes that Aguineldo has escaped from the island of Luzon. The department officials would not be surprised to hear from him next as in London or Paris in company with Agoncillo."

### Word to Employers.

Employers of inspectors and sub-inspectors are reminded of the request of the Citizens' Sanitary Committee that all the time necessary be allowed to enable these men to distribute and place rat poison.

## RETURN OF SAMUEL PARKER

### What He Has to Say About Hawaii's Future.

### Will Say Nothing About His Candidacy for Governorship of Hawaii Royal Maunaleum Set Apart.

Hon. Samuel Parker, who left Hawaii some four months ago, returned in the Nippon Maru from San Francisco last night. He was seen by a Bulletin reporter at the Pacific Club this forenoon just after he had finished a round of handshakes with his many friends, and, in answer to questions asked, gave the following report: "During my absence from home I was in New York, Washington and San Francisco. Two months of this time was spent in Washington where I saw the Queen and many of the Senators and Representatives and, of course, had many talks with them about Hawaii.

"The general feeling in Washington is that Hawaii should receive a territorial form of government as soon as possible and I think the native need have no fear as to their treatment by the Government of the United States.

"I, of course, worked as much as I could in behalf of Hawaii and asked those whom I knew to give Hawaii a territorial form of government laid along the same lines as the territories on the Mainland. The Committees were working hard on the bill when I left and you may be sure there will be many changes in it before the final passage. The friends of the Hawaiians in Washington—and they are many and powerful—are doing everything to assure a just and fair treatment of the Hawaiians. As to Senator Morgan's position, I have nothing to say.

"No, I really do not know the man Hartwell and Smith are advocating for Chief Justice of the Supreme Court. To tell you the truth, the time of the men in Washington as far as Hawaii's affairs are concerned, is being taken up with general measures and no individuals for various offices are being mentioned.

"What about myself as a candidate for the Governorship of Hawaii? That is a question I would rather say nothing about, one way or the other, but here is a telegram received from Senator Clark the day before I left San Francisco which gives the news of the passage of a resolution in Washington, setting apart the Royal maunaleum and grounds for the exclusive use of the royal family of Hawaii and excluding it from the government lands to be taken over by the United States. You see by this that the men in Washington are doing their best to see that the Hawaiians are given everything that they, as the natives of the country, should have."

It will be remembered that this resolution referred to by Mr. Parker, was mentioned exclusively in the Bulletin at the time of its introduction.

## ATTORNEY GEAR SATISFIED

George D. Gear, who went to Washington some months ago in connection with local constitutional questions, arrived this morning in the Nippon Maru. When asked as to the situation in Washington Mr. Gear spoke hopefully of the prospects of Hawaii's general interests before Congress.

"The legal matters connected with my mission," remarked Mr. Gear, "are receiving careful attention and I have no reason to anticipate disappointment in the outcome. You have probably noted that the provision in the Cullom bill giving our judges life tenure of office was very promptly squelched when the matter came up for serious consideration. Cullom, Clark and Hitt are doing splendid work for Hawaii.

"Hartwell? Why, Hartwell wants to come home. I know this to be a fact, provided he means what he says. The prominent men in Washington understand his position perfectly, and wonder why he was sent. Yes, Mr. Hartwell is devoting not a little of his time lobbying for Mr. Dole's personal political interests. I know whereof I speak. Owing to the personal work that is being done, I think this country's interests would be best served by the whole combination coming home, and leaving the situation in the hands of our Congressional friends. They know the situation here and know best how to accomplish prompt results in Washington.

"I am very positive that American interests in Hawaii will be properly cared for, without special favors to any particular faction. Hawaii will be given a thoroughly American government in every respect."

In a communication received by the Board of Health from the Citizens' Sanitary Committee late yesterday afternoon, it is requested that temporary arrangements be made for the cleaning out of the Kewalo ditch, the condition of which is fast becoming unbearable. This will be considered at the meeting today.

## Liberal Chinese Reformers

The Honolulu society of the China reform league has already \$10,000 collected here in the treasury. One man subscribes \$2500, and a woman \$500. One of the most intelligent Chinese in the city said to a Bulletin reporter: "The money will do no good. Suppose it was a million dollars, how far would it go in a revolution. An army of 100,000 men would not be too great. What would it cost to arm so many, and how much a day to keep them." The speaker doubted the news of the Queen Dowager's reactionary doings, resulting in the closing of the Peking University, saying, "It is only rumor."

## THREE CHINESE CLAIMS

J. T. De Bolt, attorney, has filed the following three fire claims in the Judiciary department:

The firm of Kai Tin presents a bill for \$2,362.75, of which \$900 is for a 12-room two-story frame building, the remainder for household chattels and merchandise—all totally destroyed by fire wrongfully permitted by the Republic's "agents, namely, the Board of Health, to extend thereto from the destruction by fire of the Chinese new theater on Kamakela street.

The firm of Sun Hop Sing claims, with similar language, an amount of \$1659.60, of which \$900 is for one frame building, the remainder for household chattels and merchandise.

Chow Lee claims \$1803.30, in like terms with the preceding two claimants, his building being valued at \$700.

These three claims, the first of Chinese losers to be judicially filed, aggregate \$825.65.

## MR DOLE GETS AUTHORITY

President Dole received the following dispatch in the Nippon Maru mail, which he regards as highly important: "Washington, D. C., Feb. 9, 1900.

"President Sanford B. Dole, Honolulu. The President approves you appointing five persons to take evidence of losses caused by the burning of Chinatown in Honolulu, and to make awards or judgments on such losses to be paid out of appropriation made by the Hawaiian Council of State in conformity with Hawaiian laws.

"JOHN HAY." This is an answer to President Dole's request that President McKinley appoint a Court of Claims in connection with plague suppression fires. It gives President Dole himself the authority to appoint such a court or commission. The Executive has not as yet taken action on the matter.

## Channel Wharf Committee.

There was a meeting this morning of the Chamber of Commerce committee of seven shipping companies and firms to direct the Channel quarantine wharf and warehouse. F. M. Swanzy of T. H. Davies & Co., Ltd., was elected chairman; J. P. Cooke of Alexander & Baldwin, secretary, and Jos. B. Atherton of Castle & Cooke, Ltd., treasurer; The meeting then adjourned until tomorrow on account of the departure of the mail for San Francisco.

## Larceny in Second Degree.

The Oxnards and Hawaiian Sugar

The Chronicle of Santa Paula, Ventura county, California, says: "It is rumored that the Oxnards have been making estimates as to the cost of constructing a ship canal from the ocean to their factory. They expect to ship crude sugar from Hawaii to be refined here, and they have no wharf nearer than Hueneme. It is claimed that Oxnard is a little below sea level, and by removing the sand dunes near the water's edge, and digging a canal, that it would easily fill from the ocean. The distance is only two and one-half to three miles, and the expense of constructing a canal would not be great."

No Alaska Agreement.

London, Feb. 7.—The officials of the United States Embassy deny that any negotiations in regard to Alaska are proceeding between Lord Salisbury and Mr. Choate, the United States Ambassador, or that a concession of a free port in Alaska is included in the Nicaragua agreement as cabled from Washington. A question will be asked in the House of Commons as to whether Great Britain has relinquished all her rights under the Clayton-Bulwer treaty in respect to the Nicaraguan canal, and if so, what compensating advantages, if any, have been secured in exchange.

Fish Inspector Berndt has come across some very curious and beautiful fish lately which are being peddled by KING BROS. artists. A very peculiar crab is on view in KING BROS. window, Hotel street.

### BUYING DANISH ISLANDS

New York, Feb. 7.—A Washington special to the Herald says:

A member of the Senate Foreign Relations Committee is authority for the statement that views with reference to the cession to the Danish West Indies have been officially exchanged between the United States and Denmark.

Negotiations are also in progress with Ecuador for the cession of Chatham Island of the Galapagos group, to this Government.

By the acquisition of these islands and the possession of Porto Rico and the Hawaiian Islands, the United States will practically control the approaches of the proposed Nicaragua canal.

There is authority for the statement that Secretary Hay, before agreeing to the provision prohibiting the establishment of fortifications at the terminal of the canal, carefully considered the possessions of the United States in the immediate vicinity and that in initiating negotiations with Ecuador for Chatham Island and with Denmark for the Danish West Indies, he was actuated by a desire to secure sites for naval stations which would effectively control the approaches to the canal.

With the islands now held and those being negotiated for, Administration officials are satisfied that no difficulty will exist as to the United States commanding and protecting the canal. The authorities are very loath to discuss the matter and, while refusing to admit that negotiations were in progress with Denmark, it was stated that the Minister at Quito was conferring with Ecuador's representatives relative to the acquisition of the island of Chatham or the right to establish a coaling station thereon.

No doubt is expressed that the United States will be able to secure the consent of both Denmark and Ecuador to the acquisition of the islands it seeks, but it is understood that this Government is not hurrying the negotiations.

### LIGHT WISDOM

Let us tell you something about Electric Incandescent Lamps. Perhaps you have noticed that your bill for electric lighting has varied peculiarly from month to month. When it is large you say bad words about your meter and you think that the Light Company is cheating you. The company is not cheating you—YOU ARE CHEATING YOURSELF. A lamp which has lived its normal number of ampere hours, though it may not be dead, consumes nearly twice as much current as when it is first used. If when your lamps show signs of having burned too long you would take them out and purchase new lamps you would find that the saving in your monthly bill would more than compensate for the price of the new lamps.

**PUGET SOUND AND HAWAII**

Col. Whyte Talks Before Seattle Chamber of Commerce.

Urges More Active Measures for Increased Trade —Northwest Can Do Business Here— McMillan Speaks Also.

Seattle, Feb. 1.—The outlook for more intimate commercial connections between Puget sound and Hawaii was discussed in the Chamber of Commerce yesterday afternoon by Col. Albert Whyte, a director of the railroad projected across the island of Hawaii and one of the influential commercial men of that part of the United States, and J. S. McMillan, head of the Roche Harbor Lime Company, who has extensive trade interests in the islands. Both speakers gave new and interesting analyses of the relations of the producers and tradesmen of the two divisions.

Col. Whyte said that the first and most important thing to be done was to marshal the men of the Pacific Northwest who were interested in Hawaiian commerce, so that they could be in a position to combine their business with the business men of Hawaii. That was the only way to make a successful inroad. He astonished his audience by stating that the San Francisco-Honolulu clique was powerful in administering the trade of the islands, but that the outsiders were more powerful, and that if they could get together and work in harmony there would be no doubt of the result.

COMBINATION IS NEEDED.

"Let the people of the Northwest who are interested in the Hawaiian markets unite and have their own representatives there, and there will be no doubt of the result," he said. "The day a warehouse is placed at Honolulu and Hilo, labeled Northwest, and filled with Northwestern products, will be a day of jubilee to Hawaii. The people of the islands want to have a close relation with Puget sound. There are three transcontinental railroads here, which give them more direct connection with the East, and will take their products as far across the country as those tributary to the Atlantic meet them coming this way. As it is now, California dealers come to this country and buy at the lowest possible prices your commodities, such as fruit, etc., and then sell them in Hawaii at enormous profits.

"The finest oranges and bananas are grown in Hawaii, and they can also give you new potatoes and corn during January, February, March and April, when they are not grown here. They need your products; you need theirs. All needed to make the exchange is better and more regular transportation facilities and united action."

The colonel said that a sugar refinery established here would be one of the best things possible to do to increase the trade. "If you can get one it will solve the problem; provided, of course, you have good transportation," he continued. "There is, of course, a sugar trust in Hawaii, but I was told that out of the 1899 crop of 300,000 tons there was 60,000 tons that could be gotten for Puget sound if there had been any means of handling it."

CALLIFORNIA A POOR MARKET.

"One reason more than any other, perhaps, why you should have the fruit trade of the islands is that California does not encourage the importation of oranges, especially from Hawaii, as they encroach upon the staple fruit of that State. It was not long ago that a cargo of Hawaiian oranges was dumped into the bay in San Francisco by the fruit inspector, who held that they contained germs that would destroy the entire fruit industry of California. The germs he so much feared were the size and flavor of the Hawaiian orange."

Mr. McMillan said his firm had labored for six years in building up a trade in lime in Hawaii, and was just getting satisfactory results. He said that if others intended to get into that trade they would have to be prepared to go ahead regardless of profits until they could get established. He said the transportation problem had to be better solved than it had been before trade development would increase much, and that one of the most important things to do was to get a sugar refinery established on the Sound. He emphasized this point so that he made a strong impression.

FRIDAY, FEBRUARY 16, 1900.

The expected happens when the President gives Mr. Dole authority to appoint members of the local court of claims to pass upon losses from the plague fires.

Employers of inspectors and sub-inspectors are reminded that the rat campaign starts in tomorrow. This work cannot be done properly unless the men in charge are allowed to be free from duty at their usual places of business.

The funny part of W. N. Armstrong's talk about Little and Cayless is that he gives them and their work so much importance. So far as known, no one but the government crowd is worrying. It is always a safe proposition to place confidence in the ability of United States Senators and Congressmen to size up lobbyists.

In the general legislation for the people of these Islands, Hawaii has no more powerful or friendly agent in Washington than Senator Clark of Wyoming. Mr. Clark knows the situation as it appears to the broad minded American. His influence counts for more than that of the whole Honolulu delegation now in Washington combined.

Reports from General Buller's advance upon Ladysmith have the old time tenor of preparing the British for news of another magnificent retreat. The latest despatches indicate that during the third advance Buller's troops reached still another strategical position which they were unable to hold and again retired beyond the Tugela river. It has yet to be shown that any serious losses have been inflicted upon the Boers, which might serve to offset the terrible losses the British have suffered.

One of the most important parts of Robert Wilcox's letter to Mr. Testa of the Independent is his reference to the restoration idea. He says: "All our strong and powerful friends are tired, such as the New York Herald, Washington Post, etc., also our friends in Congress." If this were the sum total of result of the Wilcox mission to Washington, the trip would be worth the while. Hawaii's status as regards its old time independence is established for all time so far as the present generation is concerned. The only way for the native Hawaiian to accomplish anything of benefit to himself or the Islands is to take his position, as an American citizen, that will be given under the assuredly liberal territorial law. The less the old restoration idea crops out, the more powerful will the Hawaiian Americans find themselves in national councils.

EXTENDING CONSTITUTION.

Washington, Feb. 7.—It is developed today in connection with the Porto Rico tariff bill that the majority of the Ways and Means Committee was not unanimous for the measure or for the principle it involved as to the government of territorial acquisitions and that Representative McCall, Republican member of the committee from Massachusetts, had presented a strong dissenting report.

When the Ways and Means Committee passed on the bill last week Mr. McCall withheld his vote, the understanding being that he had not yet given that careful study to the issues involved necessary to permit him to vote either way. In other respects the vote was on party lines all Republicans except Mr. McCall voting for the bill, and all the Democrats against it. The Ways and Means Committee at its meeting today reached a decision that the debate on the Porto Rico tariff bill would begin on the 15th, and last one week.

Police Court Notes.

In the Police Court this forenoon the following cases were disposed of: George Durkee, perjury, continued to February 17; Ah Leong, gross cheat, four months imprisonment at hard labor; J. W. Madrad, former mounted patrolman, selling liquor without a license, nolle prosequi. In the Police Court yesterday afternoon Tow Rawlins was fined \$10 and costs on the charge of heedless driving.

DOULTFUL ABOUT BULLER

London, Feb. 9.—The London newspapers fully realize that General Buller's fight to rescue Ladysmith has only begun, that he is not much better off than he was when he captured Spion Kop, and that there will be further long lists of dead and wounded, whether General Buller fails or succeeds.

Nothing has been published as to General Buller's movements on Thursday.

If he was able to hold his ground at Vaal Krantz and bring up more troops and artillery the critics will be satisfied. It is not known in London how important Vaal Krantz is, but it is pretty well understood that the Boers intend to fight every inch of the way. There is no strategy involved in General Buller's movement. He is hammering his way through the Boers by means of artillery. He is moving straight toward Ladysmith and seeking to split Joubert's army.

Pretoria despatches continue to describe the Boer losses as trivial and the British advantages of position as delusive.

The success of the British movement appears to be an artillery problem. Vaal Krantz is exposed to a long enflading fire from Spion Kop on the west and Doorn Kloof on the east. The British are on lower kopjes and the Boers have mounted heavy guns on higher summits, which command Vaal Krantz.

The British themselves have massed their heavy guns on Mount Alice and Zwart Kop on the southern bank of the river and have brought their field batteries into action with cumulative effect. Continued occupation of the kopjes and the advance of Buller's troops to Ladysmith depend upon the power of the British artillery to silence the enflading guns. This is the view taken in official circles and there is a buoyant feeling of confidence.

Much confidence is felt in Lord Roberts' campaign against the Free State from Cape Colony. It is not yet clear whether General McDonald's movement to the west of General Methuen's camp is anything more than a reconnaissance in force to protect a fresh advance from Belmont to Douglas, and the skirmishing still in progress is indecisive. General Gatacre has strengthened his outposts north and west of Sterkstroom, which were threatened with attack, but has not massed his forces for an advance toward the Orange river.

General French was bombarding the enemy's position vigorously yesterday near Colesberg, but his maneuvers have not yet been crowned with success. The Dutch in that quarter have been heavily reinforced and are no longer acting on the defensive, but are taking up new positions between Colesberg and Phillipstown, in the direction of De Aar, the chief British depot of military supplies.

There is no definite information respecting the distribution of the 20,000 reinforcements with which General Roberts is opening the campaign on the southern or western frontier of the Free State.

Rainfall, 0.74 in., normal, 3.20; total for November, December and January, 3.16. This is the lowest sum for these three months on record (26 years); the normal amount being 13.36.

Tradedwind days, 16; normal, 14; rainrecord days, 12; normal, —. Northerly air has been in excess. Cloudiness, tenths of sky, 4.1; normal, 4.5.

The artesian well level fell during the month from 34.85 feet above mean sea level to 34.25. This fall of .6 foot is doubtless mostly due to the flooding of the rice plantations from the artesian supply, January being the month of planting for the summer crop.

The rainfall has been deficient throughout the group, the amount being generally less than 50 per cent of the normal, and in many cases not over 25 per cent. In 1888-89 a winter, similar but not as dry, was followed by heavy rains in April and May.

Temperature at Waimea, Hawaii, 2,700 feet elevation, mean maximum, 69.5; mean minimum, 59.6. At Pepeekeo, Hilo, 109 feet elevation, mean maximum, 78.0; mean minimum, 66.3. At Dr. Bond's, Kohala, 76.6 and 65.5, 585 feet elevation.

Quarantine Matters.

San Francisco, Feb. 8.—Better speed is now being made in the dispatch of vessels at the quarantine station. The arrival of three transports yesterday threatened to complicate matters, but as the Sherman was discharged without fumigation immediately after her arrival and the Benmohr was got rid of at once the way was cleared. The transport Indiana and the sugar packers W. G. Irwin and Mohican are scheduled to come out today and the ship Fort George on Friday. It is not likely that the Alameda, which is due today or tomorrow, will be requested to go to quarantine, for she will not go into the harbor at Honolulu.

SHIPPING LAWS FOR HAWAII

Washington, Feb. 8.—At a meeting of the House Committee on Merchant Marine and Fisheries today it was decided to make a favorable report on the bill introduced by General Grosvenor to extend the laws relating to commerce, navigation and merchant seamen over the Hawaiian Islands.

The Commissioner of Navigation is empowered to make such regulations as he may deem expedient for the nationalization of all vessels owned by citizens of the Islands and which continue to be so owned to the date of nationalization and which have Hawaiian registry, temporary or permanent. The trade between the Islands and any other portion of the United States shall be regulated in accordance with the provisions of law applicable to such trade between any two great coasting districts. The Act is to become effective one year after its passage.

Senator Foster of Washington today laid before the Senate a petition praying that there be inserted in the new Constitution for Hawaii a clause prohibiting the sale and manufacture of alcoholic liquor and continuing the prohibition of gambling and the opium trade in these Islands.

Horses Go via Hilo.

San Francisco, Feb. 8.—Despite the fact that nothing has been heard of the Aztec's experience at Hilo, orders have been received from Washington to dispatch the horse transports Conemaugh and Leelanaw to Manila by way of Hilo. The horses are very much needed in the Philippines, and a chance must be taken. Yesterday the Conemaugh took on her quota of animals at Harrison street wharf. The Leelanaw will take her quota of animals on Saturday, and will probably sail on Sunday. Her cargo is already in.

**FALL OF DANGEROUS WALL.**

There was considerable excitement at the corner of King and Maunakea streets shortly before 5 o'clock yesterday afternoon. A particularly heavy gust of wind blew over a part of the King street wall of the ruins of the Sing Chong building. A tramcar was in the immediate vicinity at the time but fortunately, the wind took the section of the wall away from the street.  
Guards were at once stationed at the corner of King and Nuuanu and River and King to prevent further traffic past the danger point.  
W. H. Hills took charge of affairs, secured horses and attempted to pull down the remainder of the wall. In this he was but partially successful. Captain Parker and some of his men then joined the working force and, using dynamite, the dangerous swaying wall on King street was soon levelled, the greater part of the bricks and mortar falling toward the street, carrying away a strip of the new board fence and obstructing the street car tracks. As soon as this was done, the guards were removed and traffic was again permitted.  
Cyclomere Park has been subdivided into lots which are now offered for sale. These lots are particularly suitable for manufacturing sites, storage warehouses and residence purposes, parties seeking locations conveniently near to the business portion of the city will find this a most desirable property. For terms and particulars, apply at the office of Bruce, Waring & Co., Progress block.

HEALTH BOARD MEETING

At a meeting of the Board of Health yesterday afternoon there were present the following: Minister Cooper, Dr. Day, F. M. Hatch, Geo. W. Smith and F. J. Lawrey.

Minister Cooper read a communication relating to the removal of freight from the Anstronia by means of clean scows and packing the same on clean island steamers or schooners.

Most of this freight consists in plantation supplies such as rice, potatoes and the like. The only objection to the proposition was the employment of longshoremen who have not been in quarantine.

W. M. Giffard, representing W. G. Irwin & Co., stated that his company wished to assist the Board in every manner possible and did not desire to ask for anything that might be construed as inconsistent.

The Board discussed the matter further and then voted that the request of Messrs. W. G. Irwin & Co. be granted, with the proviso that the longshoremen doing the work be examined each morning by one of the medical staff of the Board of Health.

Minister Cooper read a communication from the Citizens Sanitary Committee recommending that all Oriental goods now in the islands be destroyed. This was referred to the special committee appointed the other day.

A communication from Gear, Lansing & Co. contained a request to be allowed to ship 200 bags of coal from the Inter-Island coal yards to Maunaloa by the schooner Golden Gate.

The matter was left in the hands of the president, Gear, Lansing & Co. will not be allowed to take Inter-Island coal but will be asked to get the required amount from a clean vessel in port.

A request from T. H. Davies & Co. to the effect that the Miowera, due Saturday for the Pacific Mail wharf and discharge 200 tons of cargo into island steamers, schooners or scows, only the crew of the steamer to do the handling of such freight, was granted.

President Cooper read the following letter from Dr. W. A. Schwalle, government physician at Kaunakakai, relating to the non-abatement of the fever on Molokai: Kaunakakai, Molokai, Feb. 8, 1900. Board of Health, Honolulu.

Sirs:—There is no abatement of the fever here. There are about twenty-five cases outside and on the plantation at Kamalo, and about forty cases here. Most of the cases are malaria with some typhoid and dysentery.

They are scattered along about fifty miles of coast, and it is impossible to give them all the necessary medical attention. The roads are in a very bad condition since the heavy rains. If you can give us a remedy the people here would appreciate it. You will probably receive letters from others.

Very respectfully, W. A. SCHWALLE, M. D.

UNCLE SAM TO INTERFERE New York, Feb. 7.—A special to the Times from Washington says: It is learned that under the terms of the Hague treaty, which has just been ratified by the Senate, an effort will be made before long to exert such offices as may properly be extended to the belligerents to bring about a termination of the war in South Africa.

Before this treaty was adopted it was maintained that the United States could not, without exposing this Government to the suspicion of unfriendly motives, venture to suggest the use of the good offices to both parties to the war. Even now there may be some hesitation about declaring by advances made even with the best intentions, that the Transvaal is or is not a vassal state, but it is beginning to be appreciated here that the sympathy for the Boers is widespread and increasing, and it may not be wise to defer too long the offer of friendly intervention to save life on both sides.

It has been discovered here that while there is no lack of appreciation of the attitude of Great Britain toward the United States during the war with Spain and a strong inclination to let the British go on and settle their own difficulties in their own way, there is making for the Boers a strong feeling of sympathy because they have at least a nominal republic.

On the Republican side the feeling is not so strong as it is on the Democratic side, where almost every man is a Boer sympathizer. This situation undoubtedly arises from a desire on the part of the Republicans to avoid pressing a course that will conflict with Mr. McKinley's policy. The Democrats may take advantage of this knowledge to press the Boer side in order to embarrass the Administration.

Driving the Insurgents. Manila, Feb. 7.—The insurgents have been driven out of Legaspi, on Albay Bay, province of Albay. The rebels of Tayabas province were conveying some 300 Spanish prisoners to Libmanan and on arriving the prisoners, exhausted and starved, revolted and dispersed their guards with stones and clubs. They also captured a few rifles and barricaded themselves at Libmanan where they are awaiting the arrival of American troops.

COMMISSIONER'S SALE OF REAL AND PERSONAL PROPERTY.

Pursuant to an order made by Honorable A. P. First Judge of the Circuit Court, First Judicial Circuit, filed the 3rd of January, A. D. 1900, I am directed to sell at public auction, subject to confirmation by the Circuit Court,

ON SATURDAY, MARCH 30, 1900. At 12 o'clock noon of that day, all the right, title and interest of Genevieve Dowsett, Marion C. Dowsett, being an undivided one-twelfth interest each of said minors, and also the one-twelfth interest of Madeline C. K. Dowsett and Annie H. K. Dowsett, Minors, in the Estate of James I. Dowsett, deceased, in and to all those certain pieces and parcels of land situate on the Islands of Oahu, Maui, Hawaii and Molokai, and more particularly described as follows:

1. The land situated in Nuuanu Valley, Island of Oahu, described in deed from John H. Wood to the Honolulu Dairy Company, dated April 30th, 1892, and recorded in the Registry of Conveyances in Honolulu in Liber 136, at pages 174 to 177. Containing an area of 271 acres more or less.

2. The land situated at Kapalama, in Honolulu, Island of Oahu, known as the Akepo lot, being a part of Royal Patent No. 5572, and described in deed made by Kahea and J. W. Akepo to James I. Dowsett, dated the 3d day of February, 1882, and recorded in Liber 73, on pages 210 to 212. Containing an area of 1.13 acres.

3. The land situated at Apua, in Honolulu, described in deed from A. Francis Judd to David Kahanu, dated March 21st, 1870, recorded in Liber 29, on pages 424 and 425, and the land described in the deed from John O. Dominis and E. Mahia, Administrators of the estate of Josia Kaunaki, to David Kahanu, dated June 7th, 1866, and recorded in Liber 21 on pages 313 and 316, and in a deed from Kahanu and Keohokii, her husband, and Kahuahine to David Kahanu, dated September 14th, 1866, and recorded in Liber 22, on pages 106 and 107.

4. The land situated at Kakaako, in Honolulu, described in the deed from Mookolohe and Nainoaehua to David Kahanu, dated March 30th, 1880, and recorded in Liber 63 on pages 415 and 416. Containing an area of 1.5 of an acre.

5. The land at Aala, on Liliha street, in Honolulu, described in the deed from Nika and Puniakala, his wife, and Keaka to David Kahanu, dated October 9th, 1869, and recorded in Liber 29, on pages 40 and 41; also the land described in the deed from John Thomas Waterhouse and Eleanor, his wife, to David Kahanu, dated January 25th, 1878, and recorded in Liber 56, on pages 63 and 64; also land described in the deed from Kia Nahaolelua and Nahahele to David Kahanu, dated January 10th, 1876, and recorded in Liber 49, on pages 385 and 386. Containing an area of 3.03 acres.

6. The land situate on King street, in Honolulu, described in the deed from F. M. Hatch to James I. Dowsett, dated October 18th, 1888, and recorded in Liber 115, on pages 66 and 69. Containing an area of 17-100 acres.

NEW PACIFIC MAIL LINERS.

San Francisco, Feb. 5.—Early in 1901 the Pacific Mail Company's fleet will be increased by two of the largest steamers ever built in the United States, and the equal of any of the trans-Atlantic liners with the exception of the Oceanic and Kaiser Wilhelm der Grosse.

They are to displace about 18,400 tons, and will steam close to twenty knots an hour in their passage between San Francisco and the Orient.

There will be luxurious apartments for 150 first-class passengers, their staterooms, dining and smoking rooms, social halls, libraries and grand saloons being placed amidship, while aft and forward there will be ample accommodations for 1200 steerage passengers.

The steamers will be 575 feet in length over all, or 550 feet between perpendiculars. The molded beam will be 63 feet, while the depth of hold will be 40.

The gross tonnage will be 12,000, which is the same size as the Campania, Lucania, Cymric, Gray Walden and Pennsylvania. They will both be driven by quadruple expansion engines, the total indicated horse power of which will be 18,000.

The cylinders of these engines will each measure 35, 50, 70 and 100 inches in diameter, by 66-inch stroke of piston. In each ship there will be six double ended and two single ended cylindrical Scotch boilers, each 16 feet in diameter.

The working pressure will be 200 pounds to the square inch. All modern accessories, such as electric lighting, ice-making machine, steam steering gear, etc., will be included in the general outfit.

The first of the new steamers will be called the California and she will be ready for service about January next.

The pioneer steamer of the Pacific Mail Company was the California, which sailed from New York for San Francisco on October 6, 1818. She was a side-wheeler of 1086 tons, and did yeoman service for the concern.

Manuacuse for Sugar Trade.

San Francisco, Feb. 8.—The Charles Nelson Company have chartered the Manuacuse, C. Tyson, in speaking of the charter, said:

"We intend to send her from here to Nahaia, where she will coal and then go on to the Hawaiian Islands and will return here with sugar. Oh, the Manuacuse is all right. In fact she is a regular yacht—a veritable pleasure boat."

Mr. Tyson is confident that his pleasure boat will do an enormous passenger traffic.

Honolulu Niter Trade.

The San Francisco Bulletin says: There are four vessels now engaged in carrying niter from Chile to Honolulu, and the evidences are that several more will shortly be engaged in that business.

The demand for niter in the Hawaiian Islands is greatly on the increase. The vessels employed in this work are the barkentine Omega, the schooner Addenda, schooner Iago and the schooner Encore.

Alameda in San Francisco.

San Francisco, Feb. 9.—The steamer Alameda arrived today from Australian ports via Apla, Samoa and Honolulu. She had 150 tons of freight consigned to Honolulu but it was not landed.

EMPEROR NOT DEPOSED.

Peking, Feb. 7.—It is generally believed that the Dowager Empress will not attempt the formal deposition of the Emperor at the present moment, though that this was her first intention there is little room to doubt.

It is gathered from creditable Chinese sources that the Dowager intended to carry out her plans during the first days of the new year. Everything had been prepared for the coup but at the last moment representations to her that such a course probably would create serious opposition in the south and this induced her to temporarily abandon her decision.

There is much anxiety in native quarters regarding the Dowager Empress' next move. It is generally thought, however, that she will allow affairs to remain as at present until she is able to ascertain to a certainty what attitude the Emperor's party is likely to assume. There is little reason to believe that the Emperor is strongly enough united to make serious trouble whatever action the Dowager Empress make take.

### The 1900

Columbia, Rambler & Hartford bicycles seem to be just about the right thing. We have had samples of these wheels and will have a big stock by the "Australia" in two weeks. Most of the Chainless Columbias are sold to arrive there is such a demand for this wheel. They are 4 pounds lighter this year and are fitted with the **SPECIAL TROPICAL TIRE** which makes them a perfect mount for these islands. The Columbia Chainless weighs less than 25 pounds and we guarantee it for any rider weighing up to 300 pounds. Our HARTFORD and RAMBLER chain wheels are beautiful, call and see the samples. We have a complete repair shop as ever, though it is not conveniently located at present. During this year we expect to get back to the old corner, where a fine modern department is to be fitted up in our new store. At present we sell, rent and repair wheels in the brick building on the upper side of King street opposite to where our old stand was and are able to do the best repair work done in town, rent the well known Columbia Chainless, and sell any model of Columbia, Rambler or Hartford for cash or on easy instalments. We want your custom.

### Notice to Shippers.

In the matter of disinfection or fumigation of freight, shippers will make no distinction between that destined for points on the island of Oahu and that destined to points on other islands.

The original cases must be opened and the straw or loose paper wrapper or sawdust, or other packing material, removed from each bottle or tin; each bottle or tin is then to be dipped in an approved disinfecting solution; the interior of the original case is then to be washed out with disinfectant; in repacking the already disinfected bottle or tin, no wrapper may be used unless same has first been fumigated or disinfected the filled case is to be closed up and the entire exterior is to be disinfected.

In cases where the tinned or bottled goods have no loose paper or straw wrapping, or where they are not packed in sawdust or any similar substance, the entire original package, after two or more large openings have been made in it, may be dipped in a disinfecting solution; but great care must be exercised to insure the thorough disinfection of each tin or bottle, and the whole interior of the original package as well as the whole exterior surface of such original package.

Shippers having the interests of the entire island community at heart will exercise very carefully every precaution, and assist rather than impede the efforts of the Board of Health in preventing a further spread of Bubonic Plague in these Hawaiian Islands.

Willful infringement or careless disregard of these or other regulations of the Board of Health on the part of shippers, will be followed by the immediate withdrawal of privilege of shipment of any goods whatever by those engaging in such infringement or carelessness.

### Board of Education.

There was not a quorum at yesterday's meeting of the Commissioners of Public Instruction. Minister Mott-Smith, however, explained to those present the financial situation as affecting school appropriations, in view of the failure of the Government to receive instructions from Washington. A lot of matters on the secretary's file was referred direct to the teachers' Committee.

### The Alice Cooke's Case Call.

San Francisco, Feb. 9.—The schooner Alice Cooke, from Honolulu with a cargo of sugar, drifted in between the Fort Point buoy and the fort yesterday afternoon and had to let go both anchors to keep from going upon the rocks. She was picked up and towed clear by the tug Sea Queen. One of the schooner's anchors became tangled in the sunset cable, but so far as can be learned did no damage to the wires. The Alice Cooke was sent to the quarantine station to be fumigated.

### Gen. Otis to Return.

New York, Feb. 8.—A special to the Herald from Washington says: Major General Elwell S. Otis will be detached from duty as Governor General of the Philippines and Commander of the Department of the Pacific immediately after the arrival of the new Philippine Commission and will be ordered to return to the United States. This action will be in compliance with the wishes of General Otis, who has informed the War Department that he is in need of a respite. The President believes General Otis can be relieved after the arrival of the Commission in Manila, which will occur late in April or early in May, without detriment to the interests of the Government. He will be succeeded by the senior officer in the islands, probably Major General MacArthur, who will be subordinate to the new Commission, which will possess plenary powers and will be responsible to the War Department.

### NEW TO-DAY

#### Notice to British Subjects.

The attention of British subjects is called to a Proclamation by Her Majesty Queen Victoria, which is now on exhibit at this office and at the British Vice Consulate at this port, referring to the state of war which exists between Her Majesty and the South African Republic and the Orange Free State, and warning Her Majesty's subjects against assisting either of the said Republics in the prosecution of hostilities or against trading with the enemy.

### ANOTHER QUIET DAY.

2 p. m.—There are no new cases today. The doctors do not know what to make of the Chinese child in Magoonville. Dr. Davis who has the case in hand, states that the child's temperature today was 103. While there are not any outward symptoms of the plague, the doctor cannot say as yet whether or no it is an assured case of the dread disease.

### Hilo Case.

Having made some cultures from the specimen from the body of Mrs. Serrao of Hilo, Dr. Hoffman prepared some slides yesterday and stated, after examination under the microscope, that the case was certainly most suspicious.

### Death List.

Matsuda Shige, female Japanese, aged 26, inanition and exhaustion, Auwalolu, Feb. 15.  
D. S. Kaul, male Hawaiian, aged 67, cancer abdominal, insane asylum, Feb. 15.  
Joseph Jacobsen, male Norwegian, aged two weeks, diarrhoea. Punch-bowl street, Feb. 16.  
Tal Hiu, male Chinese, aged 1 1/2 years, inanition. Kaili detention camp, Feb. 16.

### Specimens From Waialua.

During the Board of Health meeting yesterday afternoon Dr. Hoffman reported to Minister Cooper that he had just taken the outer covering off the specimen sent from Waialua by Dr. Hubert Wood. The inner covering was addressed to Dr. Alvarez. Minister Cooper told the doctor to go ahead and open the thing. Dr. Hoffman did so and found a bottle of alcohol with a specimen at the bottom. This, of course, was no use. Mr. Hendry was then sent up to Dr. Alvarez and returning, produced the same kind of a bottle with a like specimen. Alcohol having hardened them. However, as soon as the specimens can be imbedded in paraffine, sections will be made and the same examined under the microscope. Both bottles were labelled "Beriberi."

### Case of Koallii.

At a meeting of the Board of Health yesterday afternoon, Minister Cooper announced that Koallii, the native taken from the kerosene warehouse detention camp was not a suspect and therefore, the natives being held at that place pending a definite decision, could be freed at any moment.

### INVERNESS-SHIRE.

The Inverness-shire drifted to sea during the severe wind of yesterday afternoon and today all manner of stories are afloat as to the boats that followed her. The story learned from Captain Tuller, harbor-master, is as follows:

"I learned from the captain of the Drummair, who had his glasses on the vessel until dark, that the pilot boat started out with Captain Sanders, Mr. Rennie, Captain Pettie of the Inverness-shire, Harry Evans and a number of natives in addition to the pilot boat crew. In the channel another boat with fifteen men of the Champion going out to assist, was taken in tow. The captain says that he saw both these and another boat go alongside the drifting ship and that everybody got aboard."

There is a story about town today that Harry Evans was in the second boat and that this was caught in a gale and drifted to sea, away from the pilot boat and the Inverness-shire.

On account of the nature of the wind, it will be impossible for the drifting ship to make port before tomorrow or next day.
