ROOSEVELT AND SHERMAN FORCES AT WAR DEMOCRATS TO BRING STUMP SPEAKER

California Insurgers Victors

SAN FRANCISCO, Aug. 17.—Returns from the primaries held yesterday throughout the State, under the operation of the new direct primary law, give a sweeping victory for the insurgent Republicans or what it known as the Lincoln-Roosevelt League.

Hiram Johnson was nominated for Governor by a vote of fifty thousand over Curry, his chief opponent. The others on the list trailed far behind.

William Kent has defeated Congressman McKinlay in the Second District, Kent was one of the staunch supporters of Francis J. Heney in the graft prosecutions.

In Southern California, Stenhens has defeated Congressman McLachlan, and it is possible that Kirby will defeat Congressman Smith, although the returns indicate a very close vote.

Judge Weeks of the Circuit Court will probably receive the endorsement for United States Senator, the ballot securing an advisory vote.

HONEYMOON FOR MAYOR.

Mayor Fern has been granted a vacation extending from August 24 to September 2, during which time His Honor intends to pay a visit to Kona. The asked for leave of absence at last night's meeting of the supervisors was readily granted.

KING OF THE FIRE ROOM

There was a high degree of heat to be found within the confines of the fireroom of the new and palatial Canadian-Australian liner Zealandia during the few hours that vessel remained at the port of Honolulu.

A large amount of the torridity did not originate from coal, but was produced by one lone recruit who had secured permission to join the crew and work his passage to Vancouver by standing his watch at the furnace.

However, this was not the cause of the delay in the sailing of the Zealandia. The agents had announced that the steamer would be dispatched for the Northwest coast at 9 o'clock. This hour arrived and several subsequent periods were covered by the hands of the clock.

It was 2 o'clock in the morning before the lines were cast off and the Zealandia, with some forty additional passengers from Honolulu, steamed through the channel and out to sea, en route to the Canadian ports.

Between 11 o'clock and midnight there were all kinds of excitement going the rounds in Zealandia circles. It even reached the bridge deck of the new liner, and brought Captain J. D. S. Phillips from out a round slumber to the lower portion of the ship.

The Zealandia arrived at Honolulu yesterday afternoon after a quiet voyage from the Antipodes, but was minus several men for the fireroom. Yesterday evening the chief engineer received an application from a man who had been left at Honolulu

Democrats Will Bring Candler

Plan Is Nearly Completed For Congressman To Stump For Bourbons

The Democrats are planning to do a campaign stunt the like of which has never been seen in the islands before. It involves nothing less than the importation of a real live Congressman to do a stumping tour on the various islands.

The Congressman in question is Representative Candler, who visited the islands last year as a member of the Congressional party.

It appears that Candler liked the islands and the people he met here so well that before he departed he made the remark that he should like to return to renew acquaintances. The untimely ones took this remark literally, and when they began to prepare for the campaign a short time ago some remembered Candler and his statement.

It was decided that it would be a most desirable thing for the Democrats to get Candler here as the elephant in their show, and they accordingly wrote asking him if he would be willing to do a campaign stunt here this fall. He answered that he would do it, if he were called on.

Now the leading Democrats in Honolulu are getting ready to carry the plan into execution. Many of the members of the party are strongly in favor of the plan. The idea is to

E. N. Voeller was found guilty of malicious injury at the Police Court this morning and was fined \$15 and costs by Judge Andrade. The case arose through Voeller slashing down a number of plants and trees in the grounds of a cottage on Kamehameha IV Road, Kalia.

HAWAII MEN IN LEGISLATURE

Candidates Talked Of For Service In Senate and House

(Special Correspondence.) HILLO, August 15.—V. M. R. Fitzsimmons, the well known clerk at the Manna Kea wharf, is the last Hilo man to be dragged into the limelight as a political possibility. The Republican party leaders are figuring on running Fitz as a candidate for the House, and he says that he is willing to make a try-at it.

The same parties figure that Jim Lewis may be induced to run for the Senate, while Fernandez is also spoken of as a Republican candidate from this side of the island for the upper house.

Hewitt, Paris and Kamauoha, the former two old senators, are being mentioned as possibilities for the Senate from the other side of the island.

When it comes to candidates for the House from the windward side one is given the choice of Alfonso, Moanaoli, Kelakolo, Fitzsimmons, Fernandez (who has stated that he would prefer the House, where he feels at home, to the Senate) and Kallimat, who was defeated when he ran last election.

From the leeward side Holstein, David Kaupko (of South Kona) and M. K. Makekan are mentioned.

Miss Inez Mulholland of New York, who was hailed as the "princess woman" in the London suffrage parade, is championing many radical English movements.

Big Island Politicians Have Scheme On Foot

WANT SUPERVISOR AT LARGE REPRESENTING ALL HAWAII

(Special Correspondence.) HILLO, Aug. 15.—The report of the committee of the Board of Trade, showing the conditions prevailing in the matter of the Honolulu road contracts, the deplorable condition of the county, and finally the scorching condemnation by the Bulletin of the present methods of the Board of Supervisors, where every member is fighting for the benefit of his home district, have all combined to make the politicians, particularly those who have their habitat in the county office, sit up and take notice. Various remedies are being discussed.

One has found particular favor among members of both the Republican and the Democratic parties, and

TALK WATKINS FOR MAYORALTY

"I believe that Norman Watkins would be a good Mayor for Honolulu, and a first class candidate for the Republican party," said a business man of the city this morning.

This bringing in of Mr. Watkins is an entirely new political feature. Whether the comment means that a search is being made for a compromise candidate as a result of the old fight over the mayoralty, is not known. Nor is it known that Mr. Watkins has been consulted. The business man bringing the matter up said he thought Watkins was a man whose candidacy would appeal to the business men of the city and county.

Appeals Possible On Condemnation

Both U. S. And Fort Street Owners Can Carry Case To California Court

In case the property-owners of the Mahukoa site, which has been selected for the Federal building, can not come to an amicable agreement with the Government over the price of their property, then condemnation proceedings will be instituted by United States Attorney Breckons.

Asked this morning what would be done in the event that no agreement could be arrived at, Attorney Breckons stated that all the property-owners would be subpoenaed to appear in the Federal Court before the jury and there their case would be heard and decided upon.

The jury would fix the value of the property in dispute, he said. If either the Government or the property-owners are not satisfied with the award which is made by the jury on the property under condemnation, then an appeal may be taken to the United States Circuit Court, and the case would be taken to the California circuit of this court.

"I hope this thing is going to be settled amicably," said Breckons. "I don't want to have anything to do about it, and if it can be arranged out of court, it will be much better for everyone."

FAMOUS BUM MISSES BOAT

John Oliver Could Not Arrange Passage On Zealandia

Much to the surprise and relief of Chief McDuffie, John Oliver, the famous tourist and steam bum, did not return to Hawaii on the Zealandia. It appears that John is in prison at Suva for theft, and although he begged that he be allowed to depart on the Canadian boat for the Paradise of the Pacific, the British authorities told him to be patient and that there were many more C.-A. steamers on which he might, at a future date, return to the land of liquid sunshine.

John took his imprisonment much to heart, as he has been accustomed to being allowed to pull out of any country as soon as he did anything wrong. It quite upset his ideas of the eternal fitness of things, when he found that he would have to serve three months' jail and thereby miss traveling by the Zealandia on her maiden voyage.

There is every chance of John coming along next boat, as his free meal ticket will expire in plenty of time for him to make arrangements to catch the Marana. Whether he will get ashore here or not depends on how quick he is at dodging McDuffie.

BIG INVESTMENT IN MACHINES

More Than \$2,000,000 Tied Up In 861 Automobiles

According to figures which Governor Frear is incorporating in his report to Washington, there is about \$2,000,000 invested in automobiles in the Territory of Hawaii.

There are on the different islands 861 machines, and at a low estimate they must have originally cost on an average \$2000 each. This figure would probably be below the actual average cost of machines here, but taking that as an estimate, then the people of Hawaii have tied up in automobiles, which are deteriorating every day, \$1,722,000.

As the registration shows, there are more by far in the city and county of Honolulu than any place else, about two-thirds of the total number of machines being owned on Oahu.

By counties the figures are: Honolulu, 553; Hawaii, 122; Maui, 109; Kauai, 75 (estimated). The figures for Kauai are not exact, but approximate, as there was no registration of machines there at the time the report was made.

These figures for gasoline buggies were compiled on June 30, the end of the fiscal year, and since that time the number has increased considerably, so that the total investment in machines in the islands today is far more than \$2,000,000.

P. Danron Kellett, Jr., is and has been drawing three dollars a day from the coffers of the City and County of Honolulu as payment for his services as a clerk to Road Supervisor J. K. Paole of Koolapoko district.

Now, Kellett is alleged a bright and conspicuous figure in the Republican stronghold. He is surrounded on every hand by the untiring followers of the immortal Jefferson and Jackson. The Kellett presence in the midst of Democracy has proved a thorn in the side of more than one ardent party worker and hence comes the story that the Democrats of the windward district are out for the political scalp of Kellett and incidentally three long ago have shown him of his three-dollar-a-day job.

that is to provide for the election of a supervisor-at-large, who will be kind of a mayor of the island. The favor which this suggestion has very generally met makes it seem very probable that a plank making provision for such an amendment will be inserted in the platforms of one or of both of the parties.

The proposition was spoken of last week by both the prospective candidates for county attorney, Heers and Heen, and both spoke warmly in favor thereof. The plan is, so far as it has been outlined, to have one supervisor elected at large. He shall have an ample salary, say \$200 a month, and shall devote his entire attention to county business, maintaining his residence at the county seat. He will also be given the power of a vote which can not be acted on until the following meeting, and then it will take a two-thirds or a three-fourths vote of the members to override it. These provisions, it will be seen, are practically the same as those relating to the office of mayor of the City and County of Honolulu, the main difference being in the title.

Those who are in favor of the proposition point out that the lack of business methods which has characterized the present county administration has been largely caused by factional fights among the individual members. From time to time a bare majority of the board has formed a combination which has appropriated funds for the benefit of the districts represented by the members of such a coalition, and as a consequence an injustice has been done to the districts, the members representing which were in the minority. In short, the idea has been in the past that every member grabbed what he could for his own district, without paying the slightest consideration to the others. The best grabber was the best supervisor, and the devil took the hindmost.

It is further argued in favor of the proposition that the supervisor-at-large, depending on the vote of all the districts, would have to see to it that each of these got its fair share of the funds. He would thus act as a sort of balance-wheel, shoving his vote in the breach whenever a grab combination got to work, and coming to aid of the poor, unfortunate supervisors whose districts were not getting their share.

Of course, there is still another great argument—that a new job would be created which would make politics so much more interesting.

by one of the San Francisco steamers. He asked that he be taken on as fireman or coal-passer, and expressed his willingness to work his passage to Vancouver.

The deal was closed and the Honolulu man went below ready to turn to and go to work. It was then that trouble commenced in dead earnest.

The crew of the Zealandia is almost entirely composed of British seamen. In the main they belong to a generally recognized union. After they had made the discovery that there was one among them whom they had reason to believe was not numbered with their organization, they proceeded to take steps to drive him from the furnaces.

Then followed a fight that, while not lasting a great length of time, was none the less strenuous. The stranger won out hands down. He then signified his intention of licking each and every member of the Zealandia's fireroom crew. He declared that he was an American and could lick his weight and size in anything that the British ship carried in the way of crew.

The new fireman paid a midnight visit to Captain Phillips and again announced his willingness to administer a good, old-fashioned dressing-down to all comers; that he was willing to go to work, but did not intend to stand for any foolishness.

The skipper stated that he was willing to back up the newcomer, and he was told to go ahead and do what he could in the work of pacifying the insurrectionists of the fire-room.

The crowd that had been pestering the new fireman read the handwriting on the wall, so to speak, and finding one of their number placed in a decidedly comatose condition through coming into contact with the fists of the irate stranger, they opened negotiations towards a peace compact.

By the time that the Zealandia got away all was to the merry with in the bowels of the ship.

While at the port the Zealandia left a considerable quantity of freight, including 40 cases jam, 1350 bags sulphates, 250 cases of meats, 500 quarters of beef, 273 carcasses and 184 pairs of mutton, and a lot of sundries.

The members of the American university football team were royally entertained during the brief stay of the vessel at the port. The team is returning from a successful visit to Australia and New Zealand.

A number of well-known Honolulu people took their departure for the mainland by the vessel.

the scene of the wreck last evening bringing a quantity of chain and a couple of anchors. The amount so far taken from the wreck is believed will just about net the cost of salvage, should the material be put up at auction or disposed of under a forced sale.

The Helga is said to be going to pieces. The mainmast went by the board on Monday night and this was followed by the foremast which went over the side last night. The masts are secured by tackle and lines and will probably be brought to port by the subsequent trips of the Makee.

The mizzen mast is still standing. The vessel has turned almost completely on her side. She is abreast of the reef and the side of her hold has been crushed in through the action of the waves.

Captain Miller has yet to secure the set of spare sails and a large amount of seven inch cable that is said to have been stored in the lazarette of the Helga. This portion of the ship is now completely under water and it will require either the services of an expert diver or perhaps resorting to dynamite to bring the sails and cable within easy access of the salvage corps.

The cabin has broken up and a portion of its timbers have been washed to sea. The vessel is badly broken at amidship and a big portion of the cargo of Australian coal has already been scattered. The Miller Salvage Company have secured the Helga's windlass and gear.

The donkey engine and boiler have disappeared, they being dumped into the sea with the successful rolling of the wreck. The James Makee lay at the old Kinau wharf this morning and it was from her that the wreckage was being taken.

bers of the road board that at a meeting in the McCandless ballwick it was the sense of the Democrats gathered at Waikane, that Paele should dismiss Kellett from the service. The matter was brought about through the introduction of a special resolution. So far the Democratic Paele has not cut off the source of supply of the Republican Kellett from the municipal government feed trough. Paele has informed the road board that he has thus far never mentioned the matter to Kellett.

However it is stated as a fact that with but one or two exceptions every man at present on the pay roll of the county in the Koolaupoko road district has signed the Democratic membership roll.

Quinn stated that he has been unable to discover any proof to the effect that Paele or his luna, Moses Akawa, had advised employees on the roads to line up with the Democrats.

The tempest raised by the allegations that Democrats were doing "politics" with the road board is stated as having originated with certain members of the Democratic sub-committee who are alleged to have told a number of workmen that to hold their jobs they must enroll under the banner of the Democrats.

wielded the bottle, pleaded guilty and was given one year's imprisonment. Pacheco at that time pleaded not guilty and his case was cut by 1 until today, at which time he changed his plea to guilty and was sentenced to six months more than his accomplice, the Court holding that a knife was a worse weapon than a bottle, with which to make an attack.

Attorney Straus represented both men at arraignment and this morning he asked for the same sentence for Pacheco as had been given Cruz. He brought up the fact that the man who attacked and was the complaining witness had impersonated an officer in the melee. That he had been arrested on complaint of one of these accused men on that charge to which he had pleaded guilty before Judge Andrade.

Prosecuting Attorney Milverton joined with the defense in asking that the sentence of one year be imposed, but the court added another six months.

Yoshida Yamao pleaded not guilty to the charge of assault and his case was continued.

the Wilhelmina produced a considerable stir as the time set for departure drew near. The sailing of the Wilhelmina for San Francisco was attended by the usual crowd of sight-seers. The regulars were out in force. Some of the more persistent succeeded in gaining the decks of the vessel from four to a half dozen times during the half hour allowed for visitors. It was a constant stream that lined the large gangway.

The Territorial band served as an inducement for many to take in the departure of the steamer. There was little doing in the shopping district until after the vessel had disappeared around Diamond Head.

The steamer left with a large general cargo. Of the shipment of Hawaii products, sugar lead in quantity followed by generous shipments of pineapples, coffee, rice and sundries. The cabin passenger list when finally closed at the office of Castle & Cooke showed one hundred and four departures.

A mail destined for the mainland amounting to 112 sacks was dispatched by the Wilhelmina.

had only cut some "clippings" of plants that he wished to set out in his new home.

To decide the matter Judge Andrade, Prosecutor A. M. Brown and a Bulletin man visited the scene of the alleged malicious injury. As soon as the garden was entered it was apparent that some vandal had been at work. A creeping vine that had graced the front lanai was cut off near the ground and the dead branches still hung to the house. A banana tree was slashed off about 2 foot from the ground; several rose bushes were also cut off about a foot from the butt, and numerous other plants were destroyed. A mango tree had a limb cut off and there were many gashes in the other branches.

The work was said to have been done after dark, and the defendant claimed in court this morning that he meant to call next day for the "clippings."

He states that Cooke, who owns a great deal of the stock of the company, in some way induced Lansing to part with this stock at a fraction of its market value and he wants to re-over it.

He petitions that the sale be set aside and the stock returned to him. Monsarrat was adjudged a bankrupt July 27, 1904, and was discharged April 22, 1905.

He also alleges that if his trustee had not been careless and negligent that the money due him would have been collected and he would have been able to pay all debts long ago.

WEDNESDAY AUGUST 17, 1910

In scandal, as in robbery, the receiver is always as bad as the thief.—Lord Chesterfield.

William Kent is the man who said that "In Hawaii a man has either to be a missionary or a hoodlum." But, Kent, in Congress, will be one of the best friends an American Hawaii can have.

They have stirred up enough dissension and widespread opposition in the Republican party to warrant giving them honorary titles as Andrewsky-Cohenovitch apt pupils of the Russian agitators.

One indifferent success cannot wreck the right principle involved in the immigration movement. Nor can the preaching of the Andrewsky-Cohenovitch combination cause the Republican party to be scared out of an honorable and progressive stand on the immigration question.

Of course everyone would have been pleased to see Theodore Roosevelt temporary chairman of the New York State convention. And there are others, friends of Theodore, who will not feel that any harm has been done by reminding the ex-President that there are others in this free and enlightened country.

While pleased with the success of William Kent in his Congressional aspirations, many in Hawaii will learn with regret of the defeat of Congressman McLachlan for re-nomination. Mr. McLachlan has been one of the staunch supporters of important projects for the development of Hawaii's harbors.

Hawaii's status is such that it is all-important to return an overwhelming vote for a high protective tariff. The Delegate to Congress must be a high tariff man elected on a high tariff platform. The tariff is the cornerstone of our prosperity. In our relations with the States and other Territories there is no issue more important than this.

ANDREWS AND HARMONY.

Lorin Andrews called to account before the Republican Territorial Committee that employed him to work for the party. It is credited with making the statement that he did not engage to harmonize the Republican party, his duty was merely to organize.

That reply alone is sufficient to justify the immediate discharge of this man from the service of the committee.

Think of a man engaged to organize either a body of men or a business, telling his employers that he intended to organize but not to harmonize.

That man is either deficient or a natural born ass, who tries to maintain that any organization amounting to anything can be carried on without harmonizing.

The organizer who fails to harmonize is a complete failure.

But it seems from Andrews' reply that he has been deliberate in ignoring harmonious organization.

Who can profit by such inharmonious organization but Andrews?

CONSOLIDATING BUSINESS BODIES.

Unfortunately the meeting of the Chamber of Commerce at which the President urged the consolidation of business organizations, was marked by action in connection with the election of officers, that furnishes the principal argument of the independent men of the city against consolidation.

For the third successive year, the same executive officers are serving the Chamber of Commerce. If this policy is followed out under consolidation or non-consolidation, it will certainly result in dissatisfaction and the revival of the old feeling that brought about the organization of the Merchants' Association.

COHEN'S FALSE STATEMENT.

The Bulletin is informed that one Joel C. Cohen is going about this town making the statement that in the coming political campaign the Evening Bulletin is to swing into the Democratic party, and that support and its candidates.

Joel C. Cohen's statement is absolutely false.

If he repeats this assertion, he will utter that which he knows to be a falsehood, and he may be judged by the voters accordingly.

association, namely, that the Chamber of Commerce is ruled and controlled by a continuous ring of big personal interests and the "little fellow" has no more show than feathers in Kilauea.

The average men in Honolulu believe whether rightly or not, that there are more than one or two or ten men in the city capable of doing good work. Let the same individuals handle the business of any semi-public organization year after year and there grows up a sense of personal ownership and right to direct and command which the average citizen resents.

Any man who has had to do with the affairs of organizations of this character has learned that rotation in office keeps the temper of the members in much better condition. It usually makes a live organization out of a dead one.

It may be accepted as a certainty that with all the business organizations centralized under the Chamber of Commerce, hardly a year will pass before the grumbling will be heard of certain elements "bozzing it all." This criticism will not be outspoken. It will come out in back office talks in something like this form: "I don't want to criticize, but—" The next man will come out of a Chamber meeting and swear that the action of the meeting was wrong and give as his excuse for not saying so in open meeting that "I can't afford to back such and such an interest in the organization," or "We are ruled by a ring and what are you going to do?"

Any man who did not encounter this spirit and these expressions in the days when the Chamber of Commerce was the only business organization in Honolulu, must have lived in a sphere of activity far removed from Fort Street.

It is quite possible to have all the people in town members of an organization and for that organization to lack many of the essentials of a representative body, when it gets into action.

The Bulletin does not care whether Honolulu has one business organization or more. It wants to see the active men organized in a manner that will give the best results in the development of a broad, liberal, progressive community spirit.

Theoretically the scheme suggested in the annual report to the Chamber of Commerce is good.

When dealing with the matter practically, it is well to take into consideration the facts of the situation in Honolulu as developed by what men do, what they say, and how they act.

It is well to remember that some of our best citizens of large wealth and power when listening to the remarks an average citizen of less wealth but equal brain capacity, are inclined to sneer, "Oh, what does he amount to anyway," or if they don't say it, to act the part.

When Honolulu has reached the point where each member of a consolidated business organization is ready to admit that every other one is as deeply loyal to the welfare of the city and has the same right to a respectful hearing, without taking it out of him in the withdrawal of business orders, then the time will be ripe for the unity that combines the

CALIFORNIA RETURNS.

Returns from the primaries in California show that the people of that grand and powerful young State are aroused to the needs of the hour and respond heartily to the call that has gone forth throughout the country for a square deal in politics and honesty in government.

The victory of such men as Hiram Johnson and William Kent means that the new era in the moral tone of our country's political activities has arrived and that it is real and earnest.

Of course the fight of the next few months will be complicated by the interests of Graft, high and low, operating in the two parties to accomplish their nonpartisan and selfish ends. But the people have been learning a thing or two in the last few years, and they have shown their ability to combine on a non-partisan basis when it comes to fighting interests that are crooked. Having started well the people will probably continue the good work in California, and elect to office independent men for the State and for Congress.

WANTS SON TO GO RIGHT

WASHINGTON, D. C., July 9.—Robert St. George Dryenforth, eight years old, must be guarded from the wiles of women.

These and many other conditions are prescribed by the will of his father, Robert G. Dryenforth, a wealthy patent attorney, who died July 4 and whose will has been filed for probate.

The entire estate, with the exception of a few bequests left to the executors of the will and to relatives, will be converted into a trust fund to carry out the wishes of the testator in regard to his son's rearing.

In the event of the death of young Robert before he reaches the age of 23 years, or in the event of his associating with a relative, one Jennie Dryenforth, or her daughter, Rose Marie Knowlton, the vast estate is to go to William H. Harold and Robert Dryenforth, who are named executors.

The will, which was dated April 2, 1909, first provides for the creation of the trust fund for the benefit of the son, calling for the payment of \$50 a month for his maintenance until he is twelve years old; \$1000 a year after he reaches that age, and later he is to receive \$1500 a year. He does not enter into the full benefit of his estate until he reaches the age of 28.

"I particularly request my executors to thoughtfully and well guard my beloved son from women and sensuality, that is, quietly, gradually, through no erratic extreme, to let him be informed and know the artful and parasitical nature of most of the unfortunate sex, and to care that he does not marry beneath him," reads one paragraph of the will.

With the instrument was filed a page of instructions concerning the education of the boy. The father wishes him prepared to enter high school at the age of 14 and to enter Harvard at the age of 18, to take a special course which will fit him for the study of law at Oxford University. He also directs that each year the boy be taken to visit one country of Europe from the time he is 14 years old. After he finishes Oxford the father wishes him to enter the United States Military Academy, complete the course and serve the required time in the army, after which he directs that the boy take up the practice of law.

OUTBREAK; JOBS IN READINESS

SIMLA, British India, July 29.—The Chinese in Tibet, due to the continuing hostility of the Chinese, has assumed so threatening a form that the English government has ordered a sufficient number of Indian troops to be held in readiness on the Tibetan frontier, to proceed, if necessary, to the relief of Gyantse and Guatong, the British agencies in Tibet.

OLAA ADVANCES ON EXCHANGE

Olao advanced to 67 1/2 on the Stock Exchange this morning, a block of five shares being taken at that figure. The stock also moved rather freely at 6.02 1/2, six blocks totaling three hundred and seventy-five shares being taken at that figure.

Wainoa also strengthened materially, a block of five going at 129.50 and fifteen shares at 130, the last sale having been at 129.

Fifty shares of Oahu went at 31.12 1/2 and ten at 31.00.

Five shares of Honolulu Brewing and Malting Company was taken at 21.75 and fifteen at 21.87 1/2.

WELL KNOWN HAWAIIAN DIES

Mrs. Wahamaa Maloi, a well known Hawaiian, who has been failing in health for some time, died yesterday at Lunalilo Home. She was about 100 years of age, and was one of the most conspicuous figures in the Palace, during the dynasty of the late King Kalakaua.

According to aged Hawaiians, Mrs. Maloi was probably the last of all the Hawaiian women, who had special knowledge of the medicinal value of certain Hawaiian plants.

The funeral over the remains of the deceased will be held this afternoon.

75-YEAR-OLD OAK TREE TO BE COFFIN FOR AGED MAN

MUNCIE, Ind., July 27.—A giant oak tree that had been watched from a sapling seventy-five years ago to its present size will encase the body of Cary Fenwick, aged 77. His sons today cut down the great tree that grew in the dooryard of the family homestead, and they are fashioning it into a coffin. Upholsterers will smooth the roughness of the interior, but the outside and the lid will be of the unfinished wood. A special hearse will be required to convey the coffin and its contents to the cemetery, where the coffin will be buried in a grave of cement.

Fenwick, who was a prosperous farmer, had always loved the giant oak, and when relatives yesterday opened his will they found therein the strange request that he be buried in a coffin made from the tree.

Tibet. The Chinese government in its efforts to reestablish its authority in Tibet sent troops and officials into the country. These were opposed by the Dalai Lama and the theocracy governing the country, the conflict culminating in the flight of the Dalai Lama to English territory early this year. Advice from the British protectorates of Nepal and Bhutan, which adjoin Tibet, at that time, indicated that the Chinese occupancy of Tibet had excited unrest in the protectorates, which might call for interference to protect British interests.

DEMOCRATS WILL BRING CANDLER

(Continued from Page 1) have Candler work principally for Link McCandless, who is going to make the effort of his life this time. It being realized that now that the good old land plank which did so much service in the last campaign, has been shot to pieces, something novel is needed to raise its place. On the other hand the leaders figure that Candler will also be able to do some good work for the legislative and even the county tickets.

But— The "but" in local Democratic politics always indicates the financial question. In this case it is the money for Candler's traveling and other expenses. Link is quite willing to dig, as is becoming a man who made his start in the well-boring business, but he feels that the other members of the party should do a little digging, too.

So the call has gone out to good and loyal Democrats all over the Islands, asking what they think of the plan, and incidentally suggesting that they show their sympathy in the form of money contributions. Prospective candidates particularly are reminded of the benefit which they will derive if the services of Candler are secured.

If Candler comes to Hawaii to take the stump for McCandless and against Kuhio, he will have to go back on a statement and opinion voiced by himself while here last year with the Congressional delegation of visitors. At one of the many lunas given in honor of the national legislators, Candler asserted that Kuhio was entitled to the united support of the people of Hawaii at the next election. According to the statements of those present at the lunau, Candler practically urged the abolition of party lines when it came to the next election and the selection of a Delegate, the basis for the assertion being what he considered the great work that was being done for the Territory by Prince Kuhio as the Delegate to Congress.

L. L. McCandless this morning practically confirmed the report of the proposition to bring Candler to Hawaii. In reply to a question as to whether Candler would not be busy with his own fences in the State of Mississippi, McCandless stated that Candler could come after the primaries this month, for he would then be foot-loose and fancy-free to tell the people of Hawaii why they should vote the Democratic ticket.

McCandless stated further that the plan had been talked of for some time, but did not state definitely that Candler was coming, which would now appear to be a foregone conclusion.

ROAD BUILT IN ONE HOUR

Ten Thousand Iowa Farmers Rebuild 380 Miles of Roadway Across State in 60 Minutes.

Three hundred and eighty miles of road straight across the State of Iowa were rebuilt in one hour by ten thousand farmers, with an outlay of not one cent, according to a story in Good Roads Advocate for July.

The Advocate story follows: The greatest piece of road building the world ever witnessed was pulled off in Iowa last week when, in the short space of one single hour, a line of road 380 miles in length and stretching entirely across the State of Iowa, was put in the most perfect condition of any road west of the Mississippi river. Weeks and months were spent in preparing for the work, but not a pick nor shovel was used until the designated second was ticked off. Then, as if by magic, 10,000 workmen swarmed out onto the roadway and when they ceased work, 60 minutes later, Iowa had one of the finest long-distance roads in the West.

And not the least interesting thing in connection with the tremendous piece of work is the fact that not a man of the entire 10,000 engaged on the work received one cent of wages. Good will and patriotism alone are responsible for the splendid showing. In addition to benefiting by the road which was built so rapidly and so well, the State of Iowa has received an impetus toward good roads that will undoubtedly land it in the very front ranks of those States which can brag on their good roads.

Country Roads Fearful.

All those who have passed through Iowa during the wet season have marveled at the terrible conditions of the country highways. With practically no macadam in the State, the country roads are of the "gumbo" order in the winter, while in summer they are nothing but long lines of dust which seem, at times, to rise up and obscure everything within ordinary sight.

Last winter the Iowa roads became so fearfully bad that traffic was practically killed and farmers were compelled simply to remain in their homes. The condition reached a climax and a general demand for better roads was voiced all over the State. Country and farm newspapers took up the cry and advocated that something be done.

Finally the matter of roads became a political question, and both parties got behind the movement. Governor Carroll called a "good roads" meeting at Des Moines early last March, and out of this meeting was evolved the plan of a "river-to-river" road, stretching from Council Bluffs on the Missouri river to Davenport on the Mississippi, a distance of 380 miles straight across the State from east to west.

Advice of the Convention Followed. "Make the river-to-river road as near perfect as is possible to make just common dirt" was the sense of the road-to-road convention.

Instead of appointing new committees to handle the work, the regular Republican and Democratic committees in each county through which the road would pass were appealed to. The chairmen of the committees of each party were asked to get in the game and work for the road. Every one agreed to do so, and soon a rivalry was created between the Republicans and Democrats, each to see which party would have the most workmen "on the job" when the time for work arrived.

Last Saturday was selected as the day, and from 9 o'clock to 10 o'clock the hour of work.

Every farmer along the way was personally seen by the committees and practically every man agreed to give the one hour that was asked for. Farmers were asked to bring their plows, scrapers and road drags and an organization equal to those employed in professional railroad building was worked out.

In the weeks preceding the work all bridges and culverts along the road were repaired and put in first-class order, that no delay might come to the road-builders when once the latter started working.

The result of the organization was shown last Saturday. Shortly before 9 o'clock in the morning farmers began getting out in the road. Hundreds and thousands of plows, plows, shovels, scrapers, road drags, grading machines and other implements were brought along. Every farmer brought his team with him. Superintendents and overseers had been appointed in readiness when, promptly at 9 o'clock, the order was issued to "fall in."

And 10,000 determined men "fell in." For an hour they continued, working with might and main. At 10 o'clock the work was finished and the farmers went back to their fields, leaving Iowa in possession of the finest piece of long-distance roadway in the West.

HO! FOR THE BEACH

The Salvation Army is planning a free children's outing. They are going to take a big crowd of children to Waikiki beach for a good time next Saturday. From the native Hawaiian down to the latest comers, the children of the Russians in the camp at Iwilei, including Chinese, Japanese, Porto Ricans and the others without regard to race or creed, all who apply will be welcomed, and the more the merrier.

What the officer in charge of the local corps needs to make this free outing possible and acceptable to the little folks is money for transportation and materials for a good lunch for the little folks, besides some few skipping ropes, baseballs and bats, and prizes for running races, etc. Then some small flags to wave on the trolley ride to and from the beach will add zest and enthusiasm for the young American crowd of little folk. Enough grown folks will go along to make it safe and happy for the babies and kindergarten size children.

Toward the lunch there can be used bread, butter, jelly, bananas, oranges or apples, cakes, peanuts, soda water, ice and some little meat, too, or sandwiches and any other appropriate edibles.

A good lunch, a good ride, a good swim for the bigger boys and girls and a jolly all round good time, "A Christmas" in the summer time is what the little folks have learned to look forward to when the Salvation Army has a free children's outing, and the adjunct does not want to disappoint so many little ones who have looked forward to this event all the vacation, so far.

Send your contribution or check to Salvation Army, corner Nuuanu and King street, care Adjutant M. T. Bryant, officer in charge, or send a card to have some one call for contribution addressed to the Salvation Army, Box 518, city.

CALIFORNIANS PASS THROUGH

VARSITY MEN HAD A GOOD TIME IN AUSTRALIA

Played to Big Crowds in Sydney—Forty Thousand People Present at One Match—Schaefer Interviewed.

Happy, and full of good stories of their travels, the Californian varsity football party landed yesterday afternoon from the Zealandia. The young fellows had a glorious time in Australia and New Zealand, and the whole expense of the trip was borne by the Rugby Association of the Commonwealth.

Coach Schaefer of the American university team speaks in the highest terms of the reception accorded the twenty-three members of the party who have completed a very pleasant two months' visit to the Antipodes.

"They could not do enough to make things agreeable for us," said Schaefer yesterday as he is leaving the Canadian-Australian line Zealandia at Honolulu.

"While away we played fourteen games. Our party included twenty-three people, including the manager and coach. Out of the number of games that we played, we won three and tied on two of the contests.

"They are certainly mighty keen on sport down in the Australian cities. One game that we played while at Sydney was attended by at least forty thousand people.

"The same brand of enthusiasm and encouragement was met with when we left the Commonwealth for a tour of New Zealand. We played matches at Wellington, Dunedin, Christchurch and Auckland. At each of these games we averaged anywhere between four and five thousand paid admissions.

"Our party includes ten Stanford boys, eleven from the University of California, and two members of the team were drawn from the University of Nevada.

"We are bound for Vancouver and will then make but a brief stop before getting back to San Francisco. The trip has worked wonders with a majority of the boys who left the States only a few months ago."

The party continued on the Zealandia, which left at 3 o'clock this morning.

Lyman steals second; Makanui up; Desha home on wild pitch, Lyman to third; Makanui walked; Solomon to third on hit to left, Lyman and Makanui home; Ed. Desha out on fly to left.

Eighth inning—Wasedas: Nonomura flies to center; Omura out, third to first; Yamasaki out, third to first; Hilo: Easton flies to center; Akau flies to center; Rodriguez to first on hit over short; Todd to first on pitcher's error, Rodriguez to second; Geo. Desha out at first.

CORDELL-CORNYN GO ARRANGED

MEN MATCHED TO BOX FIFTEEN-ROUND CONTEST

Parse of Six Hundred Dollars Put Up for Bout—Fight to Be on August 27—E. J. Love Promoting Show.

Jack Cordell and Pat Cornyn were last night signed up to box a return match at catchweights, over a 15-round course, on the night of August 27. The men will divide a \$600 purse, and the go may be brought off at the Orpheum Theater. The match should be an interesting one, and it will doubtless draw a big crowd of fans to the theater.

The men will box straight rules, and a competent referee will be appointed. Mike Paton may act as third man in the ring, and if he does all will be satisfactory. Mike is leaving for the Coast on the Sierra, but intends to return to Honolulu within a short time.

The Cordell-Cornyn contest has long been in the air, and it is good to think that the men will meet once more. The first time the men met, at the Aloha Park, they fought fifteen rounds to a draw, and a fine exhibition of skill and endurance was given by both men. Referee Paton gave a good decision on that occasion, and he could hardly have done other than call the go a draw.

Cordell has been doing light work ever since his last match with Cornyn, and he is in good condition now. Joe McGurn, the game Irishman, has been working out with Cordell, and the result is that by next Saturday week Jack should be in tiptop condition and ready to put up a good fight against Cornyn. McGurn is a good man to handle a boxer, and he wades into Cordell in great style when the men put the gloves on.

Pat Cornyn has been also working out quietly since he met Cordell, and he is almost ready to step into the ring. Pat will not have the services of brother Dick to work out with this time, but there are plenty of other willing men who will go a few rounds with him every afternoon at Fort Shafter.

E. J. Love, who is managing the show, intends to stage a good preliminary bout, but he has not yet settled upon the men who will put up the contest. There are half a dozen good preliminary men in town, and there should be no trouble in securing a pair of them.

Boxing is looking up again, and what with Cordell, Cornyn, McGurn, Madison, Wahilani, Hoan, McCollough and several others looking for gone, there should be something doing besides the Cordell-Cornyn go. Dick

Cullen did not come in on the Zealandia, and the latest news of him is that he was knocked out in the fifth round of a fight with Johnny Meaghan. To last nine rounds with Meaghan in a distraction, as Johnny is about the best at his weight in the Land of the Kangaroo.

Madison, the young boxer who knocked out De Mello of Hilo, came in on the Claudine this morning. He reports that he almost had De Mello out in the fifth round, and that after that he had an easy time. Madison is willing to fight McGurn, if the latter will make weight, or anyone else about his poundage.

Tomorrow night at the Palama gymnasium, the third basketball game between the Y. M. C. A. and the Fort Shafter will take place, and an exciting struggle is being looked forward to by the supporters of both teams.

OAHU TO PLAY CAVALRY POLO THIS AFTERNOON

Moanalua Will Be Scene of Action—Great Interest Taken in the Match.

At 3 o'clock this afternoon the much-talked-of polo game between Oahu and the Fifth Cavalry will take place, and another exciting and good match is expected to eventuate. The Oahu team will be the same as played last Saturday, and Walter and Harold Dillingham, together with Dr. and Sam Baldwin, will uphold the honor of Honolulu.

The Cavalry will play Captains Forsyth and Stewart and Lieutenants Hanson and Sheridan. The umpire will be Harold Rice of Maui, and the timekeepers will be the same as last week.

The usual crowd of enthusiasts is expected to attend, and as the field is in good condition, there should be nothing but good sport and fun at the grounds.

On Saturday next the great game between Maui and Kauai will take place and a record crowd is expected to attend at Moanalua. The Maui men have no less than eighteen ponies, and they will make the Kauaians play a perfect game if the Garden Island men are to have a chance of defeating the Valley Isle team.

NEW EXTENSION

LIHUE, Kauai, Aug. 13.—The track for the new extension of the Kauai Railroad, running out to the lime quarries east of Koloa, was finished as far as the mill last week and cars are now being run upon it, the first of its labors being in fulfillment of the contract it had to deliver coal the first week in August to Koloa plantation.

The farthest extension, out to the lime quarry itself, will not be in operation until the next sugar season begins. But in the meantime a careful examination and analysis of the lime rock is in progress, in order that the best grade of the rock may be secured for mill purposes, as well as agricultural. The main quarry is in one of the gulches of Mahaulepu, and is about three miles from Koloa landing.—Garden Island.

HOLOKAHANA LANE SHOULD HAVE LIGHT.

There is no reason in the opinion of the supervisory committee on electric lights why the residents of Holokahana Lane should not be provided with a better and more satisfactory illumination. The matter was presented to the Board last evening and favorable action has been taken towards the installation of additional lights.

BOER UNHOLZ BEATEN BY JOHNNIE SUMMERS

Rudie Knocked Out in Ninth Round at Brisbane—\$1500 Purse Was Split.

At Brisbane, Queensland, on July 23, Boer Unholz was knocked out by Johnnie Summers, who in the ninth round landed one on the Boer's jaw and sent him to sleep for the allotted period. The first three rounds were even, and in the fourth Summers punished Unholz about the face. In the fifth the Boer put a heavy one to Summers' jaw, but the latter quickly revived and fought back gamely.

At the end of the sixth round the betting was 3 to 1 on Summers winning, and Unholz looked all to the bad. The Boer was fighting rough-house style, while Summers was using his hands to the best advantage. The Englishman showed clever footwork, and in every way had the Boer going.

The end came, as stated, in the ninth round, and the Australians rejoiced. The men were scheduled to go twenty rounds, and the purse was \$1500.

Last Sunday at Hilo the Lellehuas were defeated by the Kazans by a score of 8 to 3, after a good game that attracted a big crowd. The game was a preliminary to the third Waseda-Hilo match, which was won by the Nipponese by a score of 7 to 1.

JONES WILL RECEIVE SCORES.

Colonel Jones of the National Guard expects to have cable advices from Camp Perry next Wednesday, the second day of the shoot.

Nothing has been heard from the team representing Hawaii since its arrival at San Francisco.

Although no definite information has been received here it seems to be the general impression that the date of the team shooting has been set ahead one week, and if that is the case then results should be received here within the next two days.

FIRE BOX FOR SECOND AND SOUTH.

There is a fair prospect for the installation of a fire alarm box at the corner of Second and South streets in the near future. The matter has been brought before the Board of City and County Supervisors through a generously signed petition. The matter received attention at last night's meeting.

WOMEN LEADING STRIKE OF 80,000 GARMENT WORKERS IN NEW YORK CITY

NEW YORK, July 24.—An army of 80,000 toilers, with women as leaders, are fighting one of the most strenuous strikes in the history of New York. The Garment Workers' Union has struck for increased pay and to abolish what the leaders term the "rule of slavery." The women leaders have gone on record as saying they are paid as low as 12 cents for making a jacket, while a twenty-five dollar garment is made for less than \$2.50. So far the police have had little or no work beyond keeping the sidewalks clear. Speeches are hurled at the manufacturers morning, noon and night, while every hall on the east side is crowded throughout the day and the majority of the night with patient, sweltering audiences, who pay strict attention to the talks delivered by the women. Polly Cohn and Katie Cohn are two of the most active leaders in the strike. They came from Russia two years ago and have since earned their living by the needle.
