### MEETING NOTICE.

There will be a special meeting of the shareholders of the Ewa Plantation Company held on Saturday, April 8, 1899, at 10 o'clock a. m., at the rooms of the Chamber of Commerce, on Merchant street, for the purpose of considering amendments to charter and to by-laws, and such other matters as may be necessary in connection therewith. E. D. TENNEY, Secretary Ewa Plantation Company.

### CAUTION.

All those claiming lots under deeds or receipts in the Oahu Cemetery are requested to present evidences of their title to David Dayton, secretary, at his office on Merchant street, on or before April 15th, 1899. All unsettled contracts or unclaimed lots will be sold as provided under charter of the association. DAVID DAYTON, Secretary. Per Order of Board of Trustees.

### DIVIDEND NOTICE.

A dividend is due and payable to the stockholders of the Inter-Island Steam Navigation Company, Limited, at their office, on Thursday, April 6th, 1899. The stock books of the company will be closed to transfers on April 6th and 7th. N. E. GEDGE, Secretary. Honolulu, April 4, 1899.

### DIVIDEND NOTICE.

A dividend for the six months ending March 31st was this day declared by the directors of the Pacific Hardware Company, Ltd., payable to stockholders of record at that date and due April 29, 1899. L. E. PINKHAM, Treasurer. Honolulu, April 4, 1899.

### FURNISHED COTTAGES.

Newly furnished cottages with board, at 1659 King street. References required.

### NOTICE.

Subscribers for shares in the Niuli Sugar Company, Ltd., are requested to call at the offices of Henry Waterhouse & Co., Queen street, on or before Thursday, April 6th, 1899, and pay for their subscriptions. All subscriptions not paid for at the expiration of this time will be delinquent. HENRY WATERHOUSE, Promoter.

### REMOVAL NOTICE.

E. A. Mott-Smith, attorney at law, has removed his office to Room 206, Judd building. E. A. MOTT-SMITH, Honolulu, April 3, 1899.

### POWER OF ATTORNEY.

To whom it may concern: I hereby give notice that I have appointed G. H. Dunn of Lahaina to act for me with full power of attorney during my absence from the Hawaiian Islands. CHARLES DAVISON, M. D.

### NOTICE.

All bills against the firm of P. J. Voeller & Co. must be presented to L. H. Dee, P. O. Box 632.

### REMARKABLE SPEED.

This ad was written while riding a new '99 model Sterling bicycle from the Custom House where an entry was made for a shipment of Sterling Bicycles which just arrived on the Alice-Cooke. The new '99 model travels so fast that there was a space of nearly 42 feet covered from the time the pencil left one word and commenced the next. Paint and plate will doctor a cheap bicycle into excellent imitation of the high grade article, but a month's usage of each will discover a difference, the parallel of a donkey to a race horse. Take a good look at the Sterling before you buy a wheel. The Pacific Cycle and Manufacturing Company will sell you one for \$60.00.

## THE HAWAIIAN TRUST AND INVESTMENT CO.

WILL BUY FOR YOU ANY

Stock or Bond In this Market or Abroad.

GEO. R. CARTER, Mgr. Office: No. 409 Fort Street.

## HOW CAN YOU REGISTER?

### QUALIFICATIONS OF VOTERS IN HAWAII.

What the Fortunate Ones Must Do to Cast a Ballot Next Fall—Books to be Opened Tomorrow.

Qualifications of persons entitled to vote is the leading street topic today. The registration books open tomorrow. Since the overthrow in 1893 a large number of Americans and Europeans have settled in the country. Under the law some of these may vote while others may not. The first set of persons who may register and vote are such as are male citizens of the Republic of Hawaii, and if naturalized prior to January 17, 1893, be a native of a country having or having had treaty relations with Hawaii. The last clause of the above shuts out Chinese who were naturalized here under the monarchy. The next class who may register are persons holding denization papers from the Minister of Interior. Persons eligible to become naturalized under the law may secure denization papers, which gives to them all the rights of citizenship, including the right to vote.

The third class entitled to vote are such as hold special rights papers. As "new-comers" frequently misunderstand just what this means, it may be stated that it is a reward or acknowledgment of the government for services of quite a few foreigners who assisted in the establishment and support of the provisional government in 1893 and 1894. Only such as were in active support of the government during the period between the 17th of January in the former year and July 4th of 1894, were entitled to and now hold these papers.

Naturalization laws, under which a few persons have qualified since the overthrow in 1893, are almost identical with those of the United States in the case of foreigners who have resided in the country five years.

The general qualifications for voting are that a man must be 20 years of age; that he have resided in the district one month preceding the time of registration and must have paid his taxes in full for the year preceding the one in which the election is taken place. The clause last named will throw more voters than anything else. This year persons who have paid their taxes prior to March 15th will be entitled to register. The number in this district who have failed under this clause will be very large. It was impossible to get from the tax office today the number, but it is understood to be fully as large as in former years.

Any person qualified to register may vote for representatives. To vote for senators a person must own \$1,500 in real estate, \$3,000 in personal property or have an income of \$600 a year. Persons arriving here since 1894 who have not taken out letters of denization are the most unfortunate ones at present. Though bona fide residents and practically citizens, they can not vote under any of the several methods proposed. Many of them feel sore but have the consolation that everything will be all right when "American laws apply, etc."

### STOCK EXCHANGE.

### THE ORPHEUM.

The Orpheum had a packed house last night. It was a regular Saturday night house that filled every seat. The program was a winner. Post's new sketch "Going to a Luau" has features that provoke laughter. Van Gofre and wife put on a strong piece in their heavy weight lifting, balancing and contortion acts.

### TO BE A LAWYER.

James S. Lynch, manager of Fairchild's establishment, is arranging to leave for Washington next fall to study law in the office of Chief Justice Fuller.

### MESSENGER SERVICE.

The Honolulu Messenger Service delivers messages and packages. Telephone 378.

Only one BEST bicycle. The '99 Cleveland. Come and see.

Received, ex Mohican, handsome line of carriages and phaetons. W. W. Wright.

## FINE REPAIR WORK.

When your Bicycle, Gun, Typewriter, or any article of fine mechanism, needs repairs, bring it to us and we will make it as good as new. We employ only the best skilled help, guarantee all work, and call for and deliver it to any part of the city.

PEARSON & HOBRON 212 Fort Street. Telephone 565.

## DESERT FROM THE PUEBLA

### TWENTY OF THE TRANSPORT'S CREW MISSING.

Her Sailing Delayed on That Account—The Cleveland With Her Proverbial Luck has No Such Difficulty.

The transports City of Puebla and Cleveland do not leave this port without pilikia among their crews. But strangely enough it is the Puebla that is having the most trouble. The Cleveland with her bull headed luck has had no practical difficulty at all. Some of her men left, but they did not desert, and she had no difficulty in filling their places. The city of Puebla is shy about twenty members of her crew, mostly from the engineers department, the "black squad." These have deserted the ship here for one reason or another. She was to have sailed at 9 o'clock but the loss of so many men prevented her sailing. She swung away from the wharf and made fast to the piles just Waikiki of the wharf, while a hunt for the missing men was inaugurated and a campaign for new men begun. The purpose of swinging away from the wharf was to prevent any more from deserting and also prevent too much communication between the vessel and the shore.

The Cleveland, on the other hand, though she has changed the direction of her list two or three times since she has been at the wharf, first to starboard and then to port and back again, has had no desertions. Some of the engineer's force tried to desert a day or two ago, but were recaptured, and after a short period of confinement agreed to turn to and go to work.

The Cleveland is to sail between 1 and 5 o'clock and it may be that when she actually comes to cast off her lines, she may find some of her crew missing. The Japanese cruiser Chitose sailed at 9 o'clock this morning. After getting out of the channel into the open sea, the cruiser started for a time apparently testing her compass, or as some thought, waiting for the city of Puebla, intending to offer her a race.

The Zealandia expects to sail on Saturday. She came up to the Pacific Mail wharf this morning and is now taking on coal.

### JANET WALDORF.

The Los Angeles papers are particularly loud in their praise of this new star and predict that she will eclipse all Shakespearean actresses both past and present. The management have very wisely chosen a good company of well known people, for they realize that a brilliant jewel in a poor setting is very poor policy.

### PUBLIC CONCERT.

The band will play at the Hawaiian hotel this evening, beginning at 7:30 o'clock. Following is the program arranged by Professor Berger:

- PART I. Overture—Ten Girls and No Husband. Supple. Introduction. Wagner Grand Selection—Lucy's Borgia. Donizetti (a) Maki Walpoe, Maui i Ka Oia. Miss J. Keiama. (b) Ku'u Wehi, Kokoi. Mrs. N. Aiepai. Cornet Solo—Archieburnian. Hartman Selection—A Runaway Girl. Caryl Monckton Fantasia—La Graziosa. Nehi March—The Serenaders. Herbert The Star Spangled Banner.

### NOMINATE A DEMOCRAT.

Republicans of Joliet, Illinois, Choose One for Mayor.

JOLIET, Ills., March 27.—Fred Bennett, former commander of the Third Illinois regiment and a life long Democrat, captured the Republican convention and was nominated for mayor on the first ballot. The convention was marked by the wildest excitement. One or two delegates tried to prevent the nomination on the ground that Bennett was a Democrat, but they were promptly howled down. The movement to nominate Bennett has been on several weeks and his petition was signed by thousands of prominent men of both parties.

### LOVE AT FIRST SIGHT.

SEATTLE, Wash., March 27.—Mrs. Irma Knight, a wealthy widow of Redwood City, Cal., and John C. Dupree, an attorney of this city, were married here last evening, twelve hours after they had seen each other for the first time. Dupree had been placed in charge of Mrs. Knight's interests in this city. Their business correspondence assumed a warmer nature, and it was then agreed that Mrs. Knight should come to this city and if their personal appearance suited each other, they would marry.

### 245 CASES MORE.

Another shipment of 245 cases of dry goods direct from the eastern factories. This large shipment following so soon makes an overstock and goods can be secured at almost your own figures. L. B. Kerr, Queen street.

### ALWAYS THE BEST.

On every steamer Camarinos receives fresh goods from the Coast. His facilities at the Coast for securing the best on the market cannot be excelled. As for Hawaiian fruits and vegetables, he is fortunate in having a plantation of his own. When you cannot get what you wish in fruits and vegetables at Camarinos', King street, it is safe to conclude that it cannot be found in the city.

## SIX CHARGES OF MURDER

### WARRANTS SERVED ON KAHUKU RIOTERS TODAY.

Seventeen Men Charged With Rioting—Marshal Brown Swears to the Warrants—Trial in May.

The twenty-three Japanese mixed up in the Kahuku riot have been charged and now have an open door to the courts of Hawaii. The warrants were made out this morning, signed by the proper authorities at noon and served on the men at 1:30. Marshal Brown swears to them. Six of the men are charged with murder and seventeen with rioting. Three men were killed. Some of the Japanese are charged with the killing of all three. On the first of the three warrants are five names, on the second five and on the third four, all those of the six Japanese referred to. Thus it will be possible to find some of the men guilty on three charges of murder. Marshal Brown believes he has the evidence to convict straight through. The men charged with rioting will of course set off lighter. Most of the energy of the police department will be expended in convicting the men charged with murder. The Kahuku rioters will reach a jury in May. There will be all of one hundred witnesses and the case will undoubtedly hold several days. It will be one of the biggest trials ever held in the local circuit court.

### BASKET BALL TOURNEY.

Four Teams to Begin Work at the Y. M. C. A. Tonight.

The basket ball tournament will begin in the gymnasium of the Y. M. C. A. at 7:30 this evening. All four of the league teams will be in. The teams are as follows: Rough Riders—J. C. Cohen, G. H. Gere, R. B. Harris, P. C. Martin, E. B. Clark, Harold Spencer, A. N. Hoffman and J. E. Davis.

Mele Uli—C. H. Cooke, John Waterhouse, George Waterhouse, Sam Johnson, H. E. Coleman, F. C. Atherton and H. Waterhouse. Honolulu—George Wright, Sam Paulo, A. Marcellino, D. Lyman, R. D. Ricknell, John Clark and Ah Lo. Diamond Head—Clark, William Wright, Robert King, Schmidt, Lucas and Hatfield.

The handball tournament will begin at the same place Monday and will continue each afternoon during the week. Thus far there are sixteen entries. Drawings will be made this afternoon.

### CAPTAIN TOM WALL.

Thomas E. Wall is again a captain of the First regiment, N. G. H. He was this morning appointed ordnance officer. The appointment will give universal satisfaction. O. J. Whitehead, formerly first sergeant of Company D, has been appointed regimental sergeant major, to succeed Wall, promoted. This is another excellent and satisfactory appointment.

### LIEUTENANT BIERER NOW.

The last mail from the coast brought good news to the officers of the U. S. S. Froquois. Under the navy personnel bill, Lieutenant Pond and Ensign Stone are advanced very nearly to the top of their respective grades, and expect promotion within a few months. Ensign B. B. Bierer received news of his nomination to the rank of lieutenant junior grade.

### QUAY FOR FROM THE GOAL.

HARRISBURG, Pa., March 27.—The fifty-ninth ballot for United States senator resulted: Quay 8, Jenks 8, Widener 1, Ditzel 1, Rice 1. No quorum.

### CHOATE'S SON.

LONDON, March 27.—Joseph H. Choate, Jr., has decided to study law in the Middle Temple and has applied for admission. His intention is to interest in just now, as a discussion is raging among the benches as to the advisability of admitting aliens to the English bar, the question having arisen on account of the application of a Chinaman.

### GERMANY'S INDEBTEDNESS.

Enormous Increase Within the Past Ten Years.

The indebtedness of the German empire is growing mightily. March 31, 1878, there was no imperial debt. Up to 1887 the indebtedness had not reached 500,000,000 marks (mark, 25.8 cents), but during the last ten years the debt has increased thus: March 31, 1888, 721,600,000; March 31, 1889, 883,755,000; March 31, 1890, 1,117,981,000; March 31, 1891, 1,371,797,000; March 31, 1892, 1,685,567,000; March 31, 1893, 2,174,000,000; March 31, 1894, 2,918,000,000; March 31, 1895, 2,981,000,000; March 31, 1896, 2,125,000,000; March 31, 1897, 2,141,242,000; March 31, 1898, 2,182,246,000; March 31, 1899, 2,208,533,000. To the last sum must be added \$4,792,490 marks in notes which had not yet been passed October 31st. Adding the new loan of 90,000,000 marks for 1899, the total indebtedness stands at 2,333,646,496 marks. All these funds, except 400,000,000 marks have been raised for the maintenance of the military and navy.

### SUFFERED FOR FOURTEEN YEARS.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to stand all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned. Josh. Edgar, Germantown, Cal. For sale by all dealers and druggists. Benson, Smith & Co. general agents, Hawaiian Islands.

If you want a new carriage or your old one repaired call on W. W. Wright.

## MINISTER KING OBJECTS

### DOES NOT WANT DITCH ACROSS HIS LAND.

Three Cases Finished Up in the Supreme Court—Ahmi Secures Deed From Ashford to Town Property.

In the matter of Thomas W. Hobron vs. Charles I. Helm, assumpsit, defendant has filed a demurrer setting up that he and the plaintiff were partners in the Klondike enterprise mentioned in the bill, and that therefore plaintiff's remedy, if any he has, is in equity and not in law. He further submits that the contract was to be carried in a district of Canada, in a foreign country, and that therefore the Hawaiian courts have no jurisdiction thereof.

In the matter of S. Ahmi vs. James Ashford and A. V. Marcial, Judge Perry has filed a decree ordering that plaintiff's bill be dismissed, taken as confessed against the respondent James Ashford, and that he shall deliver up to this court the deed from him to the said complainant. At the time of hearing Ashford made no appearance and was declared in default. In the matter of the application of Naudie R. Rice, David Rice and the Kaneohe Ranch Company, for the acquisition of a right of way for a water drain at Kailua, Oahu, James A. King has filed an answer to the complaint setting forth that plaintiff's land all butly extends to point within 1,500 feet of the sea, and that to cut across defendant's property farther inland would not only impair its value but would appear wholly unnecessary.

In the matter of Mele Uli and others vs. Hawaiian Commercial and Sugar Company, trespass, defendants have filed an answer denying all the allegations in plaintiff's bill contained. In the supreme court argument in the case of Mary C. Aldrich et al. vs. Priscilla E. Hassinger, et al., was finished yesterday afternoon and the matter submitted. The case of M. Forrester vs. J. M. Camara, administrator, was continued to next term. Republic of Hawaii vs. Muramoto, murder, was argued and submitted.

### OPENING CONCERT.

Entertainment at Home of Kihohana Art League Tonight.

This is the evening of the entertainment by the musical circle of the Kihohana Art League. The affair will take place in the new rooms of the League in the Model block and will begin at 8 o'clock sharp. Among the special numbers on the program will be: A trio by Mrs. and Mrs. H. M. Mott-Smith and Mrs. C. B. Cooper; chorus, Blow Balm Breath of Spring, by Chinese girls; violin solo, Miss Maud Kinney; vocal solos, J. P. Williams and Mrs. C. B. Cooper; violinello, H. M. Mott-Smith.

Admission will be by invitation. Each member will be privileged to bring a friend.

### STATION HOUSE CONTRACT.

E. B. Thomas an Easy Winner of the Big Contract.

The contract for building the addition to the station house was this afternoon let to E. B. Thomas for the sum of \$5,849. Bids were opened at noon at the Interior office. The tenders form a study. They were as follows: A. Richley, \$12,560; C. H. Patzig, \$9,890; Lucas Bros., \$9,876; William Dunbar, \$9,300; H. L. Kerr & Co., \$9,290; E. B. Thomas, \$5,849.

### THE WEATHER.

Bureau, Punahou, 1:30 p. m. Wind slight northeast, weather fair but hazy, occasional light showers from the valleys, will continue the same. Morning minimum thermometer 69, midday maximum do 79; barometer, 30.62, steady; rainfall, .08; humidity, 66 per cent; dew point, 64.

### CURTIS J. LYONS, Observer.

### RAPID TRANSIT MEETING.

There will be a meeting of stockholders of the Honolulu Rapid Transit Company at 3 o'clock this afternoon to hear the report of Mr. Ballentyne on machinery, etc.

### CHINESE FOR FIREMEN.

The transport City of Puebla got off for Manila about 12:30 this afternoon. Some of her crew returned for duty, and Chinese were secured for the remainder of the vacant places.

### WASHINGTON LIGHTS.

Washington lights will be placed in the reading room of the Y. M. C. A. This will be a great improvement, as heretofore only the small incandescents have been used. It is understood that the cost will be in the neighborhood of \$500.

### GROWING MORE POPULAR.

The Orpheum theater is continually growing more popular under the personal supervision of Mr. Desky. Every improvement and additional attraction possible to please the public will be introduced from time to time, and Honolulu can boast of a continuous play house second to none in the states. The comedy sketch "Going to the Luau," now on is one of Post's best, and keeps the audience in a roar of laughter from start to finish. The acts of Van Gofre and M'lie, Cotrelly grow better and more wonderful each night. Good houses all this week show the public appreciation.

### MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.

## PASSPORT DAMAGE SUIT

### HELM WANTS \$25,000 BECAUSE HE WAS STOPPED.

Sues Collector General McStocker, Who Refuses to Issue It, and Tom Hobron, Who Had It Stopped.

Charles I. Helm has entered suit against F. B. McStocker and Thomas W. Hobron to recover the sum of \$25,000, alleged to be due for damages sustained on account of the defendant's stopping his passport to sail by the Rio de Janeiro yesterday. The suit is interesting, as it involves a measure the passport law, as the plaintiff sets up the right to pass from one state of the union to another freely.

Yesterday Mr. Hobron sued Mr. Helm for \$2,000, alleged to be due from a Klondike agreement entered into last year. It was on account of this that Mr. Helm's passport was stopped. In the new case today Mr. Helm says: "For that whereas the said defendants on or about the 3rd day of April, 1899, at Honolulu aforesaid, unlawfully prevented the plaintiff from obtaining a passport to leave the Hawaiian Islands by the steamer Rio Janeiro, which sailed from the port of Honolulu on the 5th day of April, 1899, bound on a voyage from the said port of Honolulu to San Francisco in the state of California, one of the United States of America, whether the said plaintiff intended to go as a first class passenger to his destination or as a passenger in plaintiff's bill contained, and the said plaintiff by reason of the unlawful acts of the said defendants aforesaid was refused passage on board of said steamer as aforesaid and was prevented from leaving Honolulu as aforesaid and was detained in Honolulu by the said defendants, whereby the said plaintiff was prevented from returning to his said home in the state of Washington, in the United States of America, and from attending to his business, and was exposed and injured in his credit and business and circumstances and suffered great pain of body and mind."

Following this plaintiff states that he applied at the office of Hackfeld & Co. for a ticket but was refused same for the reason that he had not a passport. That he applied to the purser of the Rio but was refused passage on the same ground. He then states that he is held a prisoner in Honolulu and prevented from returning to his home, and is damaged in his reputation and feelings in the sum of \$25,000. Paul Neumann and George A. Davis are attorneys for Helm.

### HAS FRIENDS HERE.

Lieutenant Brazee of the Second Oregon regiment, who was badly wounded at Manila, is a brother in law of John Efinger of this city. He was a schoolmate of Arthur Mackintosh in the Bishop Scott Grammar school of Portland.

### A CONVINCING ARGUMENT.

There are in the world more than 500,000,000 people who live under some form of colonial government, and as a rule they are contented and comfortable. Yet the winners insist that an attempt on the part of the United States to establish colonial institutions in any of its territorial acquisitions would be a crime.

### WRITES OF COTTON.

Hawaiian Consul H. P. Wood, of San Diego, has written the Chamber of Commerce here respecting a species of cotton now grown in Peru which he thinks would do well in the Hawaiian Islands. He encloses newspaper clippings and other data, showing cost of cultivation, prices to be realized, etc., and recommends that the local chamber take up the matter. Secretary Spencer will bring the matter before the Chamber of Commerce at the next meeting.

### VISITING PEDAGOGUES.

Professor Wishard of Lahainaluna school, and Mr. Yates of the Kaunapali school, are spending the Easter vacation in Honolulu.

### ABOUT GRIP.

In public health reports issued by the marine hospital service the origin of the present epidemic of grip is traced to Asia. This grip this year, as in 1889 and 1890, started in the east. It was reported in Turkey about the middle of last November. Since that time it has spread westward, along the established lines of travel.

### FREE CONCERT.

A free concert nightly given by the Quaker Concert Company at corner of Alakea and Beretania streets. Change of program nightly.

### NOW READY.

April Delinquent now ready at Mrs. Hanna's, Fort street. Also on sale a full line of Easter millinery goods.

NEGROS ISLAND PACIFIED.

Colonel Smith and Natives are Framing a Constitution.

LOLO, March 26.—The transport Indiana has arrived with reinforcements for Negros Island, where the situation is still satisfactory. The rising of the hill tribes was of no political significance. The committee of natives, with Colonel Smith, the American governor, presiding, have proceeded with the work of drafting a constitution, taking the American constitution as the basis of the document. It has been formally proposed to raise the island's revenue entirely from exports instead of by the present method of levying upon land values, and "cedula persona," thus relieving the laboring class as far as possible. The natives desire the immediate introduction of the English system of education. The deputies for the island of Negros will meet on April 3rd to discuss the draft of the constitution.

MURDER WHILE DREAMING.

Dr. Corey Kills His Wife During a Nightmare.

TACOMA, Wash., March 26.—Dr. Charles R. Corey shot and killed his wife at 6 o'clock this morning as she lay in bed by his side. Corey was pursuing a phantom in his dreams and believed he was shooting an assassin who was pursuing him. This is the story he told, and it was accepted after a thorough investigation by the sheriff. Corey's wife has been ill for nearly six months. Last night he retired with a fever and a feeling of dizziness. During the night his wife complained of cold, and secured several more covers. That, Corey says, was the last thing he remembers before awakening with a start to find a smoking revolver in his hand and to find his wife dead at his side.

INDIAN MARRIAGES.

The Cherokee Indians are anxious to preserve the purity of their race, and to that end have formed an anti-white marrying club, the male members of which are pledged to marry none but native women, and if women are admitted they must marry full blooded Indians. The full blooded Indians are rapidly becoming extinct by marriage with Americans, and this club is a heroic attempt to arrest the decline. The number of original members, thirteen, is, however, rather ominous of failure, and it is doubtful whether it is worth while to attempt to keep up the original aboriginal stock.—Republican Standard.

ELEPHANT JELLY.

The finest, purest and most nutritious jelly known is that made from elephant's tusks.

THE BREW OF OLYMPUS

THE "HOFFMAN," corner of Hotel and Nuuanu streets, claims to be the "Banner" resort for gentlemen and holds the flag. L. H. Dee, the proprietor, has attained success in his line, by specially and personally supervising everything connected with his establishment. He now introduces to his patrons "Olympia Beer." This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garonne." Mr. Schmidt, the leading spirit of this corporation, is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar virtues of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Dee and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

DREAD OF DEATH AT SEA

BODIES COMMITTED TO THE DEEP AT NIGHT.

Melancholy Caused by Deaths on Board Ocean Steamers—Efforts of Captains to Keep Knowledge Away.

There is no place where death is more unwelcome than on board a passenger steamer, says the Daily Mail, and between the death and burial of a sea traveler the melancholy influence of the event extends to every one on board. The limitations of space are very likely responsible in part for this, for there is the feeling that until the body has been cast into the arms of the sea there is no getting away from it.

Sailors dread a death on board their vessel as much as anything, and when one occurs they are all anxiety to render the body the last service; and this fact is frequently responsible for the haste and scant consideration with which burials at sea are too often conducted. But the days of such ceremonies are fast dying and efforts are now being made which will permit of a body being carried for the remainder of the journey after death, and properly buried on land.

Even now it is generally only sailors and steerage passengers who are buried at sea, and frequently the body is cast to the waves without so much as the vessel slowing up, and within an hour or two of their death.

Often enough a death occurs in a vessel without the fact becoming known to more than one or two of the crew or steerage passengers. Every effort is made to keep the event secret, and in the stillness of night, when better class passengers are comfortably curled up in their bunks, a little band of men, moving like shadows across the deck, bear a body from below, and while the vessel is ploughing the sea, the mortal remains wrapped in canvas, or inclosed in a crudely made box are quietly slipped over the ship's side into the mysterious deep.

The presence of a dead body aboard has sometimes not even been suspected by the passengers until some one has noticed the sharks that are following; for it is no mere sailor's story that the sharks know when a ship contains a corpse. A vessel carrying a dead body and passing through waters frequented by sharks is almost sure to be followed by one or more of these fishes, if it does not outspeed them.

Rather than bury a corpse while the ship is following a vessel, the captain will sometimes have the body placed in an ice chamber, and full steam put on until the engines until the big hungry fishes have dropped astern completely.

In one case a body was actually cremated on board by the captain's orders because of the sharks. But the sharks are not often obstacles to the prompt burial, and generally speaking, when a death occurs at sea the body is slipped into the water at night with none to witness the proceeding but a couple of the crew and the captain, who reads an abridgement of the service from the prayer book.

The manner of burial, of course, depends greatly upon the captain's own feelings in respect to the dead, and it must be acknowledged that these feelings are in some cases all that they should be. Some captains have the greatest objection to "dumping" a body into the sea, and the most agreeable will do their utmost to conduct the ceremony with all possible reverence and respect.

For all that there is always the feeling of the ship's crew and the melancholy effect of the presence of a corpse to be reckoned with, and the argument that more consideration is due to the living than the dead often prompts a captain to dump a steerage passenger in the dead of night without mentioning the event to more than a couple of hands.

Thus it often happens that while a concert or a private theatrical performance is going on in the saloon, the captain is engaged making arrangements for the burial of some unfortunate creature.

JAPANESE PAPER.

Exports Increasing in Special Lines for Professional Men.

Japan has been exporting paper lately to a greater extent than formerly, and at higher prices.

One kind of Japanese paper is used in some of the productive processes for duplicating writings. Coated with wax, it is placed in a typewriter whose letters stamp out their forms in the wax, and make the sheet in effect a stencil plate. From the sheet thus prepared may be made with great exactness many copies of the original letter.

Another Japanese paper is used by dentists for moisture from teeth, instead of absorbent cotton. Some Japanese paper is used in repacking teas, and one paper is used for insulating purposes.

A Japanese paper known as white silk tissue is used in printing pictures, which are mounted upon cardboard. Such paper, in leaves, is used also to cover over pictures inserted in books. Japanese vellum paper is used for the printing of fine books and illustrations and for fine circulars and checks.

There are Japanese papers that are used for correspondence purposes, but chiefly by private persons, but some business houses use letter heads and envelopes of Japanese paper, while others use Japanese paper in envelopes only.

LARGE PENSIONS. Mrs. Sheridan and Mrs. Logan are among the largest women pensioners of this country. They receive respectively \$2,500 and \$2,000.

A LIFE'S RESULTS. A Maryland man estimates that of the 30,660 days of his life, 10,800 have been spent in sleep, 10,920 in work and 9,760 in eating and pleasure seeking.

CHAMBERLAIN'S COUGH REMEDY. This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good work in the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured often saving the life of the child. The extensive use of it for whooping cough has shown that it cures this disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

**JAPANESE EXPANSION.**

The Thursday Island pearl fishing, which has for some years been monopolized by the Japanese, will soon be closed to them. It has been a long struggle between the white men, who wished to carry on the trade, and the little brown men from the northern archipelago, who swarmed in and beat the white man hand over fist, till they obtained a practical monopoly not only of the pearl fishing, but of all the trade on the Island. Now, however, the brown man must go from the fishing, and he will likely be driven from other pursuits as well.

At another extremity of this ocean the Japanese is being excluded. British Columbia has shut him out from the mining industry. It is ever the same story. The white man finds himself pressed by the cheap rate at which the brown man can live, and very naturally shuts him out from competition. But it is ever a problem with the Japanese government as to what can be done for the surplus population. These Islands have taken a considerable number, but it is quite a question whether they will long continue to take them. Had we not been annexed the Japanese question which was looming up seriously enough in 1897 and 1898, might have ended in making a Thursday Island of the Hawaiian group. The danger was far greater and more real than many people thought then or will believe now. But for the power of the United States the civilization of the east would in time have replaced the civilization of the west which had been so laboriously built up during the sixty or seventy years.

The only outlet at present for the Japanese surplus and the Japanese energy is Korea, and this is a very good thing. Japanese industry and Japanese skill can awaken the "Land of the Morning Calm" into something like life. It is fortunate that this should be so. Chinese influence in the Peninsula has only tended to isolate it and keep its population in poverty. But it will prove a splendid opportunity for Japanese capital. The Japanese papers are exploiting the idea, according to translations published in the Japan Times. The Jiji estimates that there is room enough for five million settlers, and that they would be chiefly of the farming class. It is very much better that Japan should turn her attention to raising the Asiatic standard rather than to come into competition with the Anglo-Saxon races. We can thank heaven that there is no chance of Japanese political expansion in our direction, and cheerfully bid the Empire of the Chrysanthemum to turn its political and economic forces to its own continent.

**PUNCHBOWL CEMETERY.**

The objections to establishing a cemetery on the top of Punchbowl seem to roll in with ten fold force, now that the subject has been ventilated. From all sections of society, from many varieties of minds, and basing their arguments upon various reasons, there seems to be an almost unanimous opinion that it would be a mistake to locate a cemetery within the crater of Punchbowl.

The only argument brought forward has been upon the question of cheapness, and accessibility for the poor. It is by no means assured that a cemetery upon the top of Punchbowl would afford cheap funerals. They certainly can be no cheaper than they are at present. As to accessibility, the long ascent would prevent people from going afoot, and it is just those who have to go afoot that have to be considered.

A proper arrangement can be made for locating cemeteries within comparatively easy distance of the various districts of the city. As was pointed out in these columns a couple of days ago, a cemetery upon the top of Punchbowl is not going to be of much assistance to the dwellers in Palama. On the other hand a cemetery out Kahili way with railway access would. We have got to come to the idea that by the railway our dead can be carried most cheaply, or if not by the railway, at least by a line of rails running direct to the cemetery. We want a cemetery also towards Diamond Head. But chiefest of all we need a crematory. Once that is started the prejudice against it will soon wear away and the need for cemeteries will keep lessening till it reaches almost vanishing point. Let the present Cemetery Association take this up on a business basis, and it will be found to pay.

**EVENING OF LIFE.**

The return of the Hawaiian missionary Kekela to spend the late evening of his life upon his own Islands and among his own people is a really notable event. Few missionaries can point

as this venerable man can to a period of unbroken activity of forty-six years among a people who through kindred to him in race, were far behind him in civilization. He went boldly as a young man to take up the work which had been commenced by the father of the Rev. H. H. Parker, who, by the way, was born in the Marquesas.

His has been no life of ease, but it has been one of hard work and some privation. It is to be hoped that he will be spared for some years to enjoy his well earned rest and to become acquainted again with relatives and the few surviving friends of his youth.

Looking back to 1853 what changes have taken place in the Islands since then. Why, the buildings of those days in Honolulu hardly exist now, and their remembrance is just kept by a few lithographs which have been preserved and reproduced in Thrum's Almanac. He left a moderate sized village, he returns to a growing modern city. He left an Hawaiian, he returns to find himself an American.

But while the Islands have been growing and improving, while they have been seething in the whirl of politics and of hostile factions, he has calmly and honestly gone on with his work, earnestly believing that he was doing his Master's business upon earth and earnestly hoping to reach his heavenly home when his work was over.

There can be no grander figure among us today that this patient, self sacrificing, earnest veteran of the church who has devoted his life to good works. He is a glory to his own race, and must be a pride to all who have spent their lives on the Islands and know their people well.

**TAKE CARE.**

The passing of spurious coin brings people into an unenviable position in the United States. An unfortunate old woman is in Oakland jail for passing counterfeit nickels. She claims that they were passed to her and that she did not know that they were counterfeit, and, the police having investigated the matter, did not find any other coin in her lodgings. But the person who received the nickels informed the authorities and she was arrested, and must await her trial. Many people here do not appreciate that the passing or uttering of spurious coin is a distinct crime, and that a person is liable to punishment for so doing, here as well as on the mainland.

The Hawaiian law upon the point, Chapter 31, Section 290, Penal Laws of 1897, reads: "Whoever utters counterfeit coin knowing the same to be such, having received the same in good faith as true and genuine, upon legal and valid consideration, shall be punished by imprisonment at hard labor not more than five years, or by fine not exceeding one thousand dollars."

As there is a good deal of spurious coin about and as it is the nature of man to try and pass on to another the misfortune that has come upon himself, it is just as well that the penalties for passing spurious coin should be understood. No one wants to get in the predicament of the poor old woman in Oakland, so every one should carefully look at the coin he receives or passes. We are so unaccustomed to such things here that the warning does not come amiss.

The question of registration and the law as it stands is occupying a great deal of attention. Americans who have come here within the last few years do not like being disfranchised. Their position is that this is United States territory and that being so, they have a right to vote. Of course if Congress had given us what we certainly earnestly desired, viz: an organic law, there would be no difficulty at all. Each person would know his exact status. As the country is absolutely, at present, in the control of President McKinley, to remove or to keep any officer of government, it may be also in his control to promulgate a decree saying who shall and who shall not be voters, no matter what our constitutional law may be. If there is no interference from the President, the present election law will have to remain in force, and many who consider that they should have the franchise, will have to go without. A solution of the question might be reached by a direct appeal to the President in Washington.

## UNITED STATES TEA TRADE

TO IMPORT THE PRECIOUS LEAF FROM NATAL.

Method of Culture and Manufacture of Tea in the Colony—Need of Experienced Manager in Process.

Consul General J. G. Stowe of Cape Town has been studying the tea industry in Natal, and points out that Natal tea may soon come into the United States market. If tea goes from Natal, why not from the Hawaiian Islands, whence the consumer would save the duty.

Of the Clifton Tea Estate Mr. Stowe says:

"The picking season in Natal commences generally early in September and goes on until about the end of the following May. The months of June, July and August are taken up with digging and manuring the land and pruning the plants. The tea is picked by the coolies, mule carts in different gangs collecting the leaf. Men and women are employed in the picking process. The tea leaf is taken down to the factory where it is 'weighed in.' When that it is done, it is spread out thinly on frames covered with hessian, for the purpose of 'withering,' in a temperature of 85 to 90 degrees. In the course of twelve hours, the leaf has become perfectly soft and produces the same sensation to the touch as a silk handkerchief. The leaf is then passed through the shoots into the machine room, where it is 'rolled,' the object of this process being to break up the juice cells in the leaf and to give the leaf that peculiar twist characteristic of the tea seen in ordinary commerce. When the rolling is finished, the sappy, juicy mass is sent down into the cooling chamber, where it is spread out and submitted to the action of the air at a temperature of from 60 to 70 degrees. This is the 'drying' in the manufacture of tea. The eye of the experienced manager is required, to see that the fermentation is arrested at the exact time, or the tea would lose quality and would acquire an undesirable flavor. The rolled leaf is then passed to drying trays, in which it is spread out thinly and submitted to a temperature of about 250 degrees, the excessive heat staying fermentation and taking all moisture out of the leaf. The now manufactured article is sent on to the sorting department, where the different grades of Golden Peko, Flowery Peko, Peko Souchong, Souchong, and dust are separated by machinery, which consists of a huge revolving screen cylinder, the meshes gradually getting larger toward the outer end, so that the 'dust' falls from the separating machine first and the coarsest leaf, the 'Souchong,' last. It should be pointed out that the smallest leaves on the twig, when picked, make the finest tea.  
"The tea is then put into airtight bins, where it is allowed to remain for from two to three months to mature. After this, it goes to the packing department, where it is put into packets or boxes for the trade. This year's output of tea from the estates in Natal is estimated at from 300,000 to 400,000 pounds, for which there is a ready market, and it is estimated that the next crop will yield 1,250,000 pounds of tea.

### PALAWAI PLANTATION.

Palawai, on the Island of Lanai, is suggested as the next plantation site. This is said to be a strip on the opposite side of the Island from Maunaloa. W. H. Pain of the Hawaiian Tramways Company, is said to be working up the project.

### LENGTH OF LIFE.

Rule for Finding Out How Many Years are Left.

According to M. I. Holl Schooling, of Brussels, says Cosmos (February 18), there is an old rule of finding the length of a man's life if the present age lies between 12 and 86 years. This is the rule: Subtract the present age from 86, and divide the remainder by 2; the result will give the number of years you have yet to live. This old rule was discovered by the mathematician De Moivre, who emigrated to England from France in 1865 and became a member of the Royal Society. The curves given by M. Schooling are interesting to examine. A first diagram shows the chance that every man has of living one year longer than his present age. At birth, this chance is 5 to 1; at five years, 119 to 1; at ten, 512 to 1; at fifteen, 347; at twenty, 207; at twenty-five, 156; at thirty, 120; at thirty-five, 97; at forty, 78; etc. M. Schooling affirms that his calculations show that of 1,000 individuals of 60 years, 599 will live to be 70; 129 to 80 years, and 17 to be 90; while of 1,000 nonagenarians, 4 will reach their hundredth year. We may add that for men of 65, the average expectation of life is 16½ years.

## Facts About Health

It is Easy to Keep Well if We Know How

Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food, and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such

### A Record of Cures

as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail.

"I had pimples on my face and a large boil on one hand. I began taking Hood's Sarsaparilla and after using three bottles I was cured." J. W. JOHNSON, 3 South Broderick St., San Francisco, Cal.

The cleanest, brightest safest and really a life long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give us figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

**Do you want Consumption?**

We are sure you do not. Nobody wants it. But it comes to many thousands every year. It comes to those who have had coughs and colds until the throat is raw, and the lining membrane of the lungs is inflamed. Stop your cough when it first appears, and you remove the great danger of future trouble.

**AYER'S Cherry Pectoral**

stops coughs of all kinds. It does so because it is a soothing and healing remedy of great power. This makes it the greatest preventive to consumption. It is not a question of many bottles and large doses. A few drops will often make a complete cure. Don't neglect your cough; you cannot afford to run the risk. Ayer's Cherry Pectoral will soothe your raw throat and quiet your inflamed lungs.

Beware of cheap imitations. See that the name Ayer's Cherry Pectoral is blown in the glass of each bottle. Put up in large and small bottles.

**NEED HORSES AND MULES**

INCREASED ARMY MEANS MORE DRAUGHT ANIMALS.

Honolulu to be Used as an Acclimating Place for the Philippine Islands Live Stock.

If the Hull army bill had passed it would have been necessary for the government to buy at least 24,000 horses and 15,000 mules, says the Chicago Record, but under the present temporary reorganization very little additional live stock will be necessary for the army. According to the regulations each regiment of 1,000 men requires an average of 125 animals. Outside of the cavalry they usually figure one mule or horse for every ten men.

When the war broke out there were only about 6,000 horses and 2,200 mules in the army, but during the summer 20,000 mules and 24,000 horses were purchased. When the volunteers are mustered out the war department will have the "leftovers" mostly from Mexico, Atlanta and Savannah, and distribute them as they are needed. American horses do not thrive in our new possessions. It takes them a long time to become acclimated. The heat, the malaria and the insect pests are more than they can stand. In the case of Texas ponies or broncos, however, do very well in Cuba and Porto Rico, and 800 have been shipped over to Cuba since the close of the war. Three or four hundred have been shipped to Porto Rico. Any man who will go to Cuba and raise mules and ponies will make a fortune, because the draft animals have been almost exterminated during the war, and a great many are needed upon the plantations, as well as by the military forces. The best stock for that climate is the hardy little horse that is found in Texas and New Mexico.

The government has purchased 600 native horses in the Philippine Islands. They are tough, small animals, of the bronco size and style, and are called griffons. For heavy teaming the water buffalo is used—a domesticated animal that resembled an ox when the American bison. Three hundred mules were shipped to Honolulu two months ago to be seasoned for use in the Philippines, and will be sent forward in a short time. There are 6,000 more at San Francisco awaiting shipment. A cargo will be taken to Honolulu in a few days and will be allowed to remain there for two or three months to recover from the voyage and become accustomed to the climate.

There has been an enormous falling off both in the number and value of draft animals in this country since those faithful friends have had to compete with the bicycle and the electric motor. According to the statistics of the agricultural department on January 1, 1892, there were 16,238,000 horses in the United States, representing a value of \$1,092,000,000, which is an average of about \$69 each. On January 1, 1899, there were only 13,961,000 horses, valued at \$478,262,000, or an average of \$34 a head.

On January 1, 1893, the United States had 2,315,000 mules, valued at \$175,000,000. On the first of January, only 2,190,284 were valued at \$95,100,000, the decrease in the value per head in six years being from \$75 to \$44. Texas owns the largest number of mules, and New York the largest number of horses. Pennsylvania, because of the coal and mining industries, has more than ten times as many mules as New York. Illinois is second on the list of horses and Missouri second in the list of mules.

**FAREWELL, CAPTAIN!**

Lahaina Pays Honor to Her Popular Manager.

LAHAINA, April 2.—The employees of the Pioneer Mill Company and other citizens of Lahaina tendered to Captain and Mrs. L. Ahlborn a farewell reception on Saturday at the residence of District Magistrate D. Kahaulilio of Lahaina.

Mr. and Mrs. Ahlborn are on the eve of their departure for a trip abroad, lasting for some months, and this evening were gathered together their many friends and acquaintances to bid them farewell and godspeed.

At 6:30 five tables each fifty feet long were laden with an abundant and varied. During the evening two string bands discoursed music and songs for the entertainment of those present, of whom it was estimated there were about five hundred.

The banquet was followed by a grand ball, opened with a grand march and presentation to Mr. and Mrs. Ahlborn. A large dancing pavilion had been constructed and gaily decorated with flags of all nations, tropical foliage and hundreds of Chinese lanterns. The effect was very much appreciated by those who were on the "Claudine" of port. It was a pretty view from the water.

Rows of lighted torches lit up the house and increased the striking presentation of the whole splendid and artistic scene.

At a late hour coffee was served and all evening the "flowing bowl flowed free." Such a merry time on such a scale has long been unknown in old Lahaina town.

**CHARLES MAKEE.**

IMPORTANT BUSINESS VISIT TO NIULI.

Goes Up to Close Deals for More Land to be Added to the Estate—Nahiku and Other New Projects.

Senator Henry Waterhouse will leave by the Noeau at 4 o'clock this afternoon for Niuli plantation on important business connected with the purchase of lands. Dr. C. B. Wood will accompany him. The gentlemen will catch the Kinau at Mahukona and will arrive back in Honolulu Saturday night.

This is the last day for payments on the stock of Niuli plantation. At 5 o'clock the books will close. Tomorrow, those on the second list will be awarded such stock as happens to be left over, if any there be.

All of the Nahiku stock has been taken. The books were closed yesterday. The charter and application for incorporation have been prepared and officers will be elected at once. All contracts for land, etc., have been satisfactorily closed and the active business career of the plantation will begin at once.

Work is quietly going on in the matter of the new Mahukona plantation project. When all of the land required is available the plantation will be launched.

Some of the promoters of the Waialua project looked over the land yesterday. This scheme seems a little way off, as there is a disposition on the part of one of the owners to await the return of Colonel W. F. Allen before granting a lease or selling. This may mean a delay of several weeks or even months.

A meeting between Senator Waterhouse and the representatives of the eastern syndicate, which wants a big block of Niuhau, was had last night. None of the facts will be given out by either of the parties, but it is understood that the capitalists have made application for most of the stock in the estate. Senator Waterhouse is anxious to reserve a considerable block for local investors, and will do so if possible.

TONIGHT'S SOCIAL.

This is the evening of the book social in the parlors of Central Union church. As stated yesterday all persons attending will be expected to dress to represent the title of some book. It will remain for the audience to discover the name.

CHARITY ORGANIZATION.

It is this afternoon at the rooms of the Safe Deposit building that a meeting will be held for the purpose of talking over the project for associated work in charities. All the societies as well as a full representation of citizens will be expected to attend.

AN ANXIOUS FAMILY.

Inquiry From Tahiti Concerning S. Nichols, Known as "George."

The French schooner Tahitienne brings word that the family of S. Nichols, known as George, would like to hear of him and his whereabouts, if he is living. George Goitz, mate of the Tahitiene, who was charged by the family to make inquiries here, says that Nichols' father was a Portuguese and his mother a Tahitian woman. He was born in Fanning's Island, but the family afterwards removed to Tahiti, where they now reside, though the father is dead. Nichols left Tahiti as a sailor some time in the seventies and was last heard from in Honolulu.

REGISTRATION BOARD.

The board of registration has selected the offices in the old board of health building on Queen street, back of the court house for its city sessions and will begin work tomorrow. Sitings will, until further notice, be from 8 to 12 a. m., and 7 to 9 p. m. J. M. Camara, Jr., is chairman of the board; Fred B. Oat and R. H. Baker are the other members of it.

POLICE DRILL.

The foot police and lunas of Oahu prison had drill together in Iwilei early this morning. Captain Robert Parker was in command. He was assisted by Captains Holt Thorton and Kanae.

OSTRICH FEATHERS.

Ostrich feathers in their natural state are white or gray, but ere passing into the hands of the milliner for use as ornaments they are often dyed in various colors, and sometimes, if the curl is not as decided as it should be, the shade is improved by mechanical treatment. An ostrich will furnish, it is said, \$40 to \$50 worth of feathers every year of different qualities. The prices vary from \$7 to \$200 per pound.

**KODAKS.**

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

**FILMS.**

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

**Developing and Printing.**

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
