TRAINS COLLIDE HEAD ON

ENGINEER AND FIREMAN BADLY INJURED.

Wet and Slippery Rails the Cause—One Train Could Not Stop and the Other Could Not Start.

A head on collision due to slippery rails occurred just before 7 o'clock this morning at the Ewa end of the railroad yards, resulting in severe injuries to Engineer Louis Meyers and Fireman Antone Barba.

Meyers and Barba were in charge of yard engine No. 6 and were on the main track making up a train to go out under the direction of Yard Conductor Wallace. They were just about to back off on to a side track to leave the main track for train No. 1, the Ewa mill passenger, which was about due. But the rails were wet and slippery, and some difficulty was experienced in making the driver wheels "hold" and getting in motion. Just at this juncture the Ewa passenger train in charge of Conductor Billman and Engineer Bert Hughes came in sight. Hughes made every effort to stop his train as soon as he saw the danger. But the wet rails affected his locomotive as it did the other and he was unable to overcome the momentum of his train.

The two locomotives struck head on. Meyers, engineer of the switch engine, had his left thigh broken. Barba, the fireman, suffered severe crushing of the right leg just above the ankle. Superintendent Smith, who saw the accident from near the station at once called up Drs. Cooper and Burgess by telephone, and proceeded to the assistance of the injured men. Stretchers were procured and they were brought at once to the station where the surgeons had arrived. They were at once taken by conveyance to the Queen's hospital for treatment.

The surgeon at the hospital decided that an operation must at once be performed on Barba, and early in the forenoon his leg was amputated between the knee and ankle. With regard to Meyers the surgeon hopes to save the leg.

The switch engine had her cap and all her "ginger bread" work knocked off, but neither her running gear nor her motive power was damaged appreciably. One of the passenger coaches had the platform and hood at one end knocked off and the car will have to be rebuilt. The engine of the passenger train received only slight injuries, and was at once put to work in the switch yard.

Some of the passengers were pretty well shaken up, but no one was otherwise injured.

The wreck was quickly cleared away, and the running of trains was interfered with only to the extent of delaying the train that was being made up about an hour.

THE MINSTREL SHOW.

Before a Crowded House at the Orpheum Saturday Night.

There was barely elbow room at the Orpheum Saturday night on the occasion of the minstrel show by local and theater talent. Fully a hundred people stood in the back part of the house and about the stage. Professor Berger officiated as piano accompanist.

Most of the features were good. Vierra and Jackson's Chinese wash house scene took well. Post was unquestionably the best player on the stage. All of his specialties were excellent.

The entertainment was a big financial success.

PROGRAM FOR TOMORROW

HOW DAY WILL BE OBSERVED HERE.

Citizens' Shooting Matches a Principal Event—Camp Fire in the Evening—Other Events.

Tomorrow, the sixth anniversary of the startling events of 1893, will be observed as a government and, as far as possible, a general holiday. As many of the Island steamers will sail, however, most of the larger business houses will do some work.

The big sporting event of the day will be the shooting matches of the Hawaiian Rifle Association. These will begin at the old Sharpshooters butts at 9 a. m., and will continue until about 4 p. m. List of events and prizes are published elsewhere.

At evening will occur the annual banquet of the First regiment, N. G. H., in the drill shed. For music there will be the Hawaiian band, two or three orchestras and a piano. Professor Berger will have charge of the musical program.

The scheme for a military muster during the day was abandoned for the reason that many of the men could not get away from business.

Following are the entries made up to noon today for the rifle matches to take place at Kakaako butts tomorrow:

No. 1.—C. L. Crabbe, C. N. Rose, D. Kellipio, Charles Wilcox, A. C. Wall and F. S. Dodge.

No. 2—W. E. Wall, C. L. Crabbe, D. Kellipio, A. C. Wall and F. S. Dodge.

No. 3—C. L. Crabbe, C. Everett, C. N. Rose and D. Kellipio.

No. 4—C. L. Crabbe, D. Kellipio, A. C. Wall and F. S. Dodge.

No. 5—C. L. Crabbe, D. Kellipio, A. C. Wall and F. S. Dodge.

Nos. 7, 8 and 9—Citizens—all comers and military—enter on the range during the shoot.

RACE TRACK AT HILO.

HILO, January 13.—The Hawaiian Racing Association has been organized. The committee on location has practically secured of C. C. Kennedy the lease for a term of years of a very suitable tract of land near the rifle range; this concession is granted by Kennedy free of rent. Both the location and conditions are very encouraging to the people interested in forming the association.

TO LIGHT THE FRONT.

Mr. Stratemeyer Evolves a Scheme for Bigger Lamps.

Port Surveyor George Stratemeyer is considering with the Interior Department a scheme to increase the light on the water front at no material extra cost to the government. The proposition is to replace incandescent lamps with arc lights at the rate of nearly eight for one.

There are along the water front 82 incandescents that can be cut down under the proposition of Mr. Stratemeyer. They are to be replaced by eleven arc lamps distributed as follows: Three on the Oceanic wharf, three on the Pacific Mail wharf, one at the pilot house, one near Alakea and Allen streets, one at Allen & Robinson's lumber yard, one at Nuuanu wharf and one on Emmes' point. This will effectually light not only the water front but the vicinity for a block inland.

Mr. Stratemeyer has presented his scheme to Minister King and the cost of the change is now being figured upon.

SUGAR GRINDING.

HILO, January 14.—The Portuguese sugar mill and Pepeekeo mills have commenced the season's grinding this week. The other mills are still getting ready for business.

The mill of the Portuguese Sugar Companyq has been practically rebuilt. With five rollers it has a capacity of 25 tons of cane in twelve hours. By a recent arrangement the company will cut, cart and flume all the cane ground.

TO BE BURIED HERE.

The body of the late Henry H. Wilcox will be brought from Kauai and interred in the Green plot in Kawaiahao cemetery. Undertaker H. H. Williams will superintend the removal. It is expected that the casket will reach the city next Sunday morning.

DEATH OF MRS. THURSTON

PASSED PEACEFULLY AWAY THIS MORNING.

Will be Carried to the Grave by Representatives of the Old Missionary Families—Funeral at 3 O'clock.

Mrs. Sarah A. Thurston, mother of Lorrin A. Thurston and Mrs. Helen Alexander, died at 1:45 o'clock this morning, at Mrs. Alexander's residence, from a stroke of paralysis suffered about a month ago.

The funeral will be held at 3 o'clock this afternoon from the residence of Mrs. Alexander. The pall bearers will be, Rev. S. E. Bishop, Rev. O. H. Gulick, A. F. Judd, W. D. Alexander, W. N. Armstrong, W. W. Hall, C. M. Cooke and W. O. Smith.

Sarah, relict of Asa G. Thurston, was the third child of the eminent missionary, the Rev. Lorrin Andrews, who arrived here in 1828. She was born October 10, 1822, at Lahainaluna High School, which had been opened by her father one year before. Her childhood was spent at that site of splendid outlook, in company with the Clark and other missionary families. Some fifteen years later Mr. Andrews removed to Honolulu, to become associate justice of the supreme court. The Andrews children received their education at Punahou, none of the older ones leaving the Islands. An early attachment in childhood resulted in the marriage of Sarah in 1855 to Asa Thurston, then an active and brilliant young public man, and speaker of the Hawaiian house of representatives. Mr. Thurston soon met with severe financial reverses. In his strenuous efforts to recover himself he contracted aneurism, of which he died in the early sixties, leaving his widow and three orphan children in poverty. Mrs. Thurston's life for many years was one of toil and privation. At one time she was in charge of Haleakala school for boys, whence many now active men carried a grateful remembrance of her motherly care. A great grief came over her twenty years ago in the sudden death of her bright and capable older son, Robert. It was not until some fifteen years ago that the pressure of poverty began to relax by the aid of her younger son, the now distinguished lawyer and statesman, Lorrin A. Thurston, who then commenced his public career.

Through all her many years of adversity, Mrs. Thurston's bright and and cheerful spirit, and unabated courage made her home and presence attractive. Her later years have been greatly cheered and brightened. She repeatedly accompanied her son to Washington on his important missions there, leaving the capital with him and his family last July. She passed away this early morning after only a few weeks of prostration by paralysis. She leaves a son and a daughter, Mrs. Helen Alexander, each with a son and a daughter of their own.

Thus a very bright and gracious soul has passed on to the beyond, leaving us richer for her long abode among us, though sorrowing greatly to part with one so beloved. She has gone with a very clear and holy hope for the life of eternity, having long and lovingly trusted in Him who is the life and the way.

WILL BE BALL.

Players Meet and Organize for the Coming Season.

There was a large turnout of baseball players at the drill shed Friday evening to talk over the coming season. The meeting was an enthusiastic one. The players were divided in such a way as to make three full teams of about equal strength. They will be known as the Wela Ka Hao, Punahou and Kamehameha.

It was reported at the meeting that the engineers at Port Honolulu would also put in a team this year.

QUARTERLY MEETING.

This is the evening of the quarterly meeting at the Y. M. C. A. A cordial invitation to be present is extended to the general public. The program will consist of several numbers by the amateur orchestra, a mandolin solo by Professor Eames and a tenor solo, "The Little Stowaway," by Professor F. W. Jacobs. As previously stated, Rev. W. A. Gardner will deliver the address, taking as his subject: "Christianity, a Business Enterprise."

During the evening quarterly reports by the secretary, treasurer and various committees will be read. Following this there will be a short reception to new members.

A LARGE BANKRUPT STOCK.

L. B. Kerr, Queen street, is now holding a sale of bankrupt stock of the great firm of Wimmo & Co., 16 Regent street, London, and is offering such bargains as will surprise every person who sees them. The stock was so large that it took considerable time to arrange it. A glance upstairs where the goods are packed to the ceiling will show how large a stock it was and comprises a very complete stock of dry goods.

Everybody is invited to inspect it.

ALWAYS THE BEST.

On every steamer Camarinos receives fresh goods from the Coast. His facilities at the Coast for securing the best on the market cannot be excelled. As for Hawaiian fruits and vegetables, he is fortunate in having a plantation of his own. When you cannot get what you wish in fruits and vegetables at Camarinos', King street, it is safe to conclude that it cannot be found in the city.

ELEPHANT STILL ON HAND

NO BIDDERS FOR THE STEAMER CITY OF COLUMBIA.

Sale Postponed for One Week—If There are No Offers She Will Go to San Francisco.

The steamer City of Columbia was not sold today. This, however, was no fault of Marshal Brown nor of Auctioneer Morgan.

A big chowd surrounded the station house at noon to witness the sale. All of the unfortunate sailors of the equally unfortunate greyhound were present.

"The upset price of the Columbia, her boilers, tackle, etc., is $23,465.63," said Auctioneer Morgan; "any advance?"

This was repeated dozens of times. The big crowd looked calmly on, but not a man spoke.

After a wait of ten minutes or more Marshal Brown came out and instructed the auctioneer to postpone the sale to next Monday at the same place and hour. This was done.

It is understood that if there is not a bid next time for the vessel she will be patched up as best she may be and sent to San Francisco for sale.

The Columbia lies in naval row next to the cattle pen. About forty of her crew are still in town. They are without funds and in debt. All of them hoped confidently that there would be a sale today in order that they might square themselves and leave for home. There were loud murmurings among them after the auctioneer retired, but all realized that the present state of things could not be remedied.

BURKE THE SUICIDE.

His Short Career in Hilo—He Had $1,300.

Regarding Charles A. Burke, who committed suicide from the Claudine a week ago, the Hawaii Herald says:

"Burke came here from San Francisco on the Amy Turner with the intention he told his newly acquired friends, of going to Honolulu, and thence to Yokohama. He had with him $1,300 in gold, which he deposited with H. Hackfeld & Co., Ltd. Shortly after his arrival he began dissipating and kept it up until two days before the Claudine sailed; then went aboard the Amy Turner and asked permission to sleep there as he did not wish to stay ashore. He remained two days during which time he seemed depressed in spirits, and ate nothing. On Friday he came ashore and called at the office of Hackfeld & Co. for his funds, and requested a check on Honolulu for $1,000, and the balance in coin as he had contracted debts to the amount of the balance. This was given him and after purchasing a bottle of whiskey at a saloon he went aboard the Claudine partly under the influence of liquor.

Burke was a man of about 23 years of age, medium height, well dressed, and had a black mustache and dark hair.

There was something mysterious about the young man and he told several stories as to his reasons for coming to the Islands. One was that his mother had sent him away on account of his dissipated habits; she was in hopes the sea voyage would help him in this respect. Another was to the effect that he was the principal witness in a political investigation and he did not want to get mixed up with the affair. He gave his last place of residence as San Francisco, but to people around town he said he was from Portland, Oregon.

THE MORGAN CITY COMING

WITH STORES AND PEOPLE FOR MANILA.

Has Complete Cable and Telegraph Equipment for the Philippines—The Scandia Will Carry More Troops.

SAN FRANCISCO, January 6.—The sailing of the steamship Morgan City will be somewhat later than was at first intended. Her charter to the Government has been rearranged and the vessel is now leased to the Government as a regular transport.

By the new arangement the Quartermaster's Department has taken the vessel into the Government service exclusively for as long as there shall be use for her. She has 3,000 tons of freight on board her now, but will not get away until the Scandia is ready to sail. The wives and families of officers and enlisted men who are to reside in the Philippines permantly have been granted transportation by the Government. As the Scandia has no accommodations for them, they will go female nursesthirty civilians to female nurses, thirty civilian s to whom the Government has granted transportation, and the troops which cannot be packed on the Scandia without crowding her. The Morgan City has seventy-three staterooms on the upper and saloon decks, which will accomodate 264 persons, and every available bit of space will be utilized.

The Morgan City will carry 325 miles of telegraph wire, with a corresponding quantity of material to erect that much line, sufficient equipment for forty separate telegraph offices, and four and one-half miles of submarine cable. The Chief Signal Officer at this post, Colonel Green, procured the entire outfit, in compliance with instructions from the War Department at Washington, purchasing everything needed in this city at an outlay of about $10,000. The outfit is complete in every detail, the proposed lines being so far remote from the base of supplies that the equipment had to be made complete in all that is needed in and out of a telegraph office. This seems to indicate that the Government intends to establish communication with the interior of the islands as its forces advance.

SCENIC BEAUTIES.

Mr. Dillingham's Description of Oahu's Landscape Attractions.

The Oahu Railway Company has issued a new folder containing a map of Oahu, showing the road extended to Kahuku. The following is Mr. Dillingham's description of the scenic beauties through which his road runs:

Leaving Honolulu and passing through rice fields, the traveler skirts the great inland waters of Pearl Harbor in sight of charming distant mountain views, often spanned by many rain bows. The mountains further on crowd the railroad close to the ocean. Here and there deep valleys, guarded by high mountain sides almost perpendicular, give sun and clouds an opportunity to display wonderful combinations of light and shadow on the varied greens and browns of the landscape.

Along the line are situated the most productive sugar plantations in the world, each representing an investment of millions of dollars, so vast are the agricultural operations, their pumping plants equalling those of the greatest cities, and mills producing hundreds of tons of sugar daily.

The north of the Island, refreshed by the northeast trade winds, enjoys a cool and invigorating climate.

FREE TRADE VS. PROTECTION.

A Lively Debate Before the Makawao Debating Club.

PAIA, January 14.—Resolved, that free trade is preferable to protection, was the question discussed last night, by the Makawao Debating club in the Foreign church parlors, Paia. The discussion was led by F. E. Atwater and W. S. Wilder on the affirmative, and J. J. Hair and F. A. Alexander on the negative.

The leaders were followed by four or five volunteers, and a very enjoyable and profitable evening was spent. Some thirty odd people were present, a large proportion of whom were ladies, and applause was frequent.

The debate for February is to be on the subject, "Resolved, that the personal tax of the Islands is too high, to be upheld on the affirmative by D. C. Lindsay and W. E. Shaw, and defended by C. H. Dickey, tax assessor, and J. L. Fleming, on the negative. A lively and amusing discussion is looked for.

Two new members were elected to the society last night, and two proposed, to be voted on at the next meeting.

MONDAY, JANUARY 16, 1899.

The questions between France and Great Britain keep shifting around. A while ago it was the Fashoda incident which caused very nearly a breach of the peace, and now the scene has been moved over to China and the same jealousy is being developed. It begins to look as if war would break out among these powers in the near future.

What the administration wants is very likely to go through Congress, but there is likely to be a kick about the navy appropriation, for the House is said to want to cut it down two-thirds, that is from $50,000,000 to $18,000,000. But with the glory the navy has won it looks very much as if such a move would prove unpopular.

The Hilo press is still amusing itself with nagging at every thing and every body outside of its narrow limits. Not satisfied with quarrelling with Honolulu it has fallen foul of Congress now, and is prepared to tell that august body how it should conduct matters. It is evident that the glories of Boston, as the hub of the universe, are in danger.

Upon the accident on the railroad this morning there is nothing to be said until the matter is investigated, which no doubt it will be. Accidents both by rail and sea are unavoidable sometimes. They are even in war, for the charge of Balaclava was an accident and no one to the present day and in fact to all time will be able to clear the matter up.

Captain Kempff, who does not desire to go to Guam as governor, is the strongest, or was the strongest, man in the American navy. Some wonderful tales are told of his powers. The writer saw him pull up with one arm a man weighing 150 pounds over the old British club veranda, and he did not seem to exert himself so very much. In his early days a lieutenant locked him into a room. Kempff burst the door open, and while the lieutenant was relating his trick he appeared in the ward room and taking the joker by the shoulders stood him on his head on the ward room table and kept him there until he apologized. The captain might make the people of Guam stand on their heads if ever he got there.

The health authorities in San Francisco and in many coast towns have given up sprinkling the streets with fresh water. Fresh water is regarded as dangerous to health, in that various refuse on the streets is largely soluble in fresh while it is insoluble in salt water. Salt water moreover is advantageous for the road, as with the evaporation of the liquid portion the salt is left, and this is found to harden and preserve the road. The subject has had the attention of The Star already, but a gentleman recently from San Francisco brought up the matter again, expressing surprise that the health authorities did not act in the matter. But then the health authorities won't even see to it that the dangerous filth of the lower parts of the town is removed.

All kinds of queer developments come out of the Dreyfus case. The latest move is that Dreyfus should not be brought to France, but should have his examination conducted by telegraph between Paris and Cayenne. If this scheme should be carried out it will prove the most costly examination on record, for the value of a message is about five dollars a word, and his evidence, together with cross examination may easily run from 15,000 to 20,000 words. The object of holding the examination in this way is to avoid the demonstration in France were Dreyfus present in that country. However after all the underhanded acts that have been perpetrated by the French military authorities who could be certain that an examination so conducted would be correct.

The death of Mrs. Thurston, mother of Hon. L. A. Thurston, removes a good woman from our midst. She was an eminently fair woman in her opinions and was a model wife, mother and widow. She fulfilled a noble life and scattered the sweetness of her disposition among many homes and many individuals. In her were displayed the virtues of the true Christian woman without the bigotry which so frequently mars the fair picture. When such a worthy matron passes away, she leaves a memory behind her which is of great and precious value to succeeding generations. It is the memory of a life of hard work and determination to assist the future progress of her children. This she did and did successfully. She died full of honors for an honorable life, though it was spent for many years in hard struggle on humble lines.

MANILA PROBLEM.

The United States consular agents in the east seems to have been getting into trouble. Consul Pratt of Singapore has been recalled and it is very probable that Consul Wildman of Hongkong will have to follow suit. The ground for the action on the part of the executive is that both consuls entered into the engagements with Aguinaldo which they had no right to do and which has seriously hampered the naval and military authorities of the United States.

Consul Wildman for a time kept himself very prominently before the people of the United States and the telegrams about his doings represented him as almost the equal of Dewey. Later on it was discovered that Wildman supplied the telegrams himself, and, as the Argonaut puts it, a month or so ago the Wildman boom suffered a collapse.

There seems no doubt that there are grave complications between the insurgents and the Americans which have to a certain extent been fostered by the unauthorized action of these consuls, and that the executive and its naval and military authorities have been placed in a somewhat awkward position with regard to the insurgents.

The position in the Philippines is an extremely delicate one. It is more difficut than in Cuba or Porto Rico. Those are close to the shores of the United States, and it takes very little time to be ready to act there, but the Philippines are so far away, the conditions of the islands are different and the population is different. It behooves the greatest care in dealing with questions there, and above all it requires no unauthorized meddling.

THAT NEW LEAF.

If you have "turned over that new leaf" and really intend to "try and do better," practice a little of the economy you preach. First, don't throw money away. It is doing that, if you pay more for your Books and Stationery at one place than you would for the same articles at another.

Why pay fifty cents for an article that you can buy for thirty-five cents? This is just the point you must consider if you really are successful in 1899 in saving your earnings. And this is just what the

WILL BUILD A NEW HOTEL

AT THE CORNER OF NUUANU AND HOTEL STREETS.

Larry Dee the Promoter—Thirty-three Living Rooms—Work to Begin February 15th.

On February 15th contractors will begin the erection of a big hotel building at the corner of Hotel and Nuuanu streets. The structure will take in all of the Empire saloon premises and will be three stories high. At the corner will be a tall tower, and there will be wide decorated verandas on each side.

Larry Dee will be the owner and will operate the new enterprise. He will have under him a manager for the hotel and another for the restaurant. The cost of the scheme will be something like $25,000 to start with. A. Richley is the architect of the building.

When completed the building will start from Nuuanu street and run down on Hotel to the wall of the Waverley block. Turning in it will then run straight back to the terminus in rear of Waterhouse's grocery store giving it a complete L. The Hotel front of the saloon will be about half glass. Adjoining the saloon, and taking in a half of the lower floor, will be the cafe. This will be a first class affair, run on the European plan. The kitchen will be below in the cellar. This will connect with the dining hall by dumb waiters or elevators.

There will be altogether thirty-three living rooms in the hotel, on the second and third floors. All of these will be quite large. The office will be near the landing on the second floor.

The place will be known as the Hoffman.

Taking off a half of the lower floor will cramp the saloon premises. Mr. Dee has a scheme to relieve this situation, however, by having the card rooms in neat overhead galleries. This idea is taken from the "Merchant of Venice." The plan will greatly improve the interior appearance of the saloon, and at the same time will make a great deal of room.

KOHALA LANDS.

Lots Soon to be Sold—A Remarkable Spring.

HILO, January 13.—About 150 lots have been laid out in Kahuku, Kohala, which will shortly be advertised. This is land which through neglect has become destitute of timber, but under the care of bona fide settlers it is hoped will show the same results in timber restoration as has been demonstrated at Waimea, on the Puukapu tract, which was laid out in 1893. The demand for land in Kohala is far in excess of the supply. A very remarkable spring called Walalealea, is on this land of Kahuku. The parties in charge of the survey deemed it advisable from a public standpoint to set apart a reservation around it, in order that the water supply from the same might be enjoyed by all the residents of the tract inasmuch as no other supply is available.

HAWAII ROADS.

Olaa Road Construction—New Road to Honokaa Homesteads.

Surveys on the new Olaa road are being rapidly carried forward. Three gangs of men are at work on road construction now, and the number will probably be considerably increased before long.

It is proposed to extend a road parallel to the present government road, which has now been opened up between the Kahuku homesteads and Maulua to and beyond the Laupahoehoe tracts, with the view of connecting with the new Hamakua lots at Niupea, and to the Paauilo and Honokaa homesteads. The clearing of this line of roadway has been completed to Laupahoehoe. The survey and clearing expense for this road comes out of the appropriation for that purpose granted the public lands department, but the actual building of the road will await the appropriation for that purpose of the Legislature.—Hilo Tribune.

Stomach Was Too Weak to Retain Food

A Complete Cure Effected by Hood's Sarsaparilla

Now Enjoying the Best of Health, With Digestion Perfect.

"My mother was subject to sick headaches and indigestion for over a year. She was unable to stand for any length of time, and was obliged to stay in a dark room as she could not bear the light. She had no appetite whatever and her stomach was so weak she could not retain what food she did eat. She also had severe pains in her head. She suffered so much that she became but the shadow of herself. One day I happened to read a testimonial about Hood's Sarsaparilla. It

Sounded So Truthful

I persuaded her to try this medicine. Before finishing the first bottle there was an improvement in her condition. She no longer threw up her food and her headache was not as severe. She took in all four bottles of Hood's Sarsaparilla and several boxes of Hood's Pills and regained her weight. She is now enjoying the best of health. Her digestion is good and she can eat almost anything she wishes. She is 42 years old and says she feels as well as when she was 16. Hood's Sarsaparilla made a complete cure in her case." The cleanest, brightest safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

Came Very Near Dying

Blood Bad; Abscesses Formed; Health Gone.

We are glad to publish the testimonial of Miss Annie Snook of Auckland, New Zealand, who suffered intensely for years, and who was quickly cured when she obtained the right remedy.

"I was a strong, healthy woman until about five years ago, and while living in England was recovering from an attack of measles. I took a chill, had a relapse and came very near dying. My blood was left in a very bad state, abscesses formed on my body, I was confined to my bed two-thirds of the time. At times I was unable to move. For two years I failed to obtain any relief. So finally I was advised to come to new Zealand. After coming here I remained about the same, trying many remedies without obtaining any benefit. About a year ago after reading one of your advertisements I determined to try

DR. AYER'S Sarsaparilla

Very soon after using it the abscesses began to heal and my general health very greatly improved. I followed up the treatment and am now as strong as ever. I cannot too highly recommend Ayer's Sarsaparilla as a blood purifier and tonic."

GUILTY OF MANSLAUGHTER

WONG CHEUNG CAUSED DUGUID'S DEATH.

Trial for the Murder of Luna William Duguid on Waiakea Plantation October 24—One Defendant Acquitted.

The trial before the Circuit Court of the two Chinese laborers, Wong Cheung and Wong Soy Fat, charged with the murder of William Duguid at Waiakea, on the 24th of October last, occupied Tuesday and Wednesday Deputy Attorney General Dole and Mr. Mead conducted the prosecution and C. Creighton and Carl Smith the defense.

The witnesses brought forward by the prosecution were Turntable and Chalmers, two luna's who discovered the deceased after the fatal blow was struck; Dr. Williams, who attended the deceased and brought him to the hospital; several Chinese who were either eye witnesses or had heard statements of the prisoners, and the Deputy Sheriff.

Dr. Williams showed the position and nature of the wound, and exhibited fragments of the bone taken from the skull by him when dressing the wound. He stated that the blow might have been struck from in front, or from behind if the assailant were on higher ground, or the head of the one assaulted thrown back. The Chinese who claimed to have been eye witnesses, said they saw Wong Soy Fat and the Luna fighting with hoes and that Wong Cheong came up from a little distance, ran around behind the Luna and strike the blow which knocked him down—the only blow, according to the medical testimony, which the deceased received. The examination with reference to the ground showed it to be rolling, and that the Luna was in a hollow, while the man who struck him was on higher ground. Evidence was also presented of a disagreement the same day, earlier, between the two men and the Luna, the later having used the former somewhat violently and having docked the wages of one for poor work.

In the course of the proceedings the Court, jury and witnesses went to the scene of the tragedy, which is at the upper part of Waiakea plantation, about five miles from the mill. The location and relative positions of the deceased and the prisoners were pointed out by the witnesses.

The defense produced no witnesses and rested their case upon the evidence produced by the prosecution.

The defense claimed that the witnesses were perjured through a desire to save their own necks and through intimidation of the police department. They assumed that there had been a general row between the Luna and the gang; that in this row the Luna had been struck by some person unknown, and that the witnesses who were in the gang had fabricated the story involving the two prisoners, to hang them and save themselves. The arguments were finished and the charge delivered to the jury about 9 o'clock on Wednesday evening. The jury, after about one hour's deliberation, brought in a verdict of manslaughter in the second degree against Wong Cheung, three dissenting, and acquitted Wong Soy Fat, none dissenting.

Bailey's Bike Bits

ITEMS OF INTEREST TO BICYCLE BUYERS AND READERS.

The signs are that prices on well known makes of wheels will be cut, and cut deep. One very large maker has made a cut of 33 1-3 per cent, and at the same time advertises the fact that '99 wheels will be the same as '98, with 30 inch wheels as an extra line at $5.00 more.

With cheap bikes and good, the trade may be said to have only just begun in the matter of quantity of sales. One hundred wheels at $40.00 can be sold where one would sell at $100, or even $75. Always we have the cheapest bike in town. A good second hand bike for $15.00. Good for a track or to learn on. Good value anyway, anywhere.

A special feature made of contracts to repair punctures and to clean your wheel for $1 per month.

HAWAII TELEPHONE.

Circuit of the Islands will Soon be Completed.

HILO, January 14.—The Hilo Tribune says that the circuit of the Island of Hawaii will soon be completed by the connection of the Kona end with the Honokaa end. Over $1,600 of the $2,500 required to make the government appropriation available has been subscribed already. One of the reasons urged in soliciting subscriptions is the material advantage of a circuit when the contemplated inter-island cable lands at Kawaihae.

CHICAGO'S OWLS.

Chicago has a novel trade in owls, which have proved unexpectedly successful in ridding warehouses of rats and mice. Now a large percentage of business men keep an owl down in the cellar during the daylight, and bring it up to the store when darkness falls. It is said that the expense and care of maintaining owls are more than repaid by their services in vanquishing rats and mice, and also cockroaches and all vermin generally.

Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully.
